Routes of Transmission, Etc.

To prevent mistakes at the exchange offices, it is desirable that the particular routes by which letters are to be forwarded from the United States to Europe, should be distinctly written on the covers. Letters intended for transmission in the open mail to England, should bear the direction "open mail via England;" if for transmission in the French mail, they should be directed, "via France in French mail;" if for transmission by closed mail to Prussia, they should be directed "via Prussian closed mail;" if for transmission in the closed mail to Belgium, they should be directed "via Belgian closed mail," and if for transmission by the New York and Bremen line to Bremen, or by the New York and Hamburg line to Hamburg, they should be directed "via Bremen," or "via Hamburg."

It is important that letters addressed to Germany and other European countries, via France, where the single rate per quarter ounce is 21 cents, should be plainly marked to be sent via France; otherwise they may be missent in the open mail to Liverpool by United States packet, the 21 cent rate per half ounce being also chargeable on letters thus forwarded.

Postal Information.

TO THE BRITISH NORTH AMERICAN PROVINCES

Cape Breton, Prince Edward's Island and Nova Scotia. To Newfoundland prepayment required. To Canada and New Brunswick 10c. per ½ oz., any distance. — *10 cents when not over 3,000 miles from the line of crossing. *15 cents when distance exceeds 3000 miles. Prepayment optional

Steamers of the Cunard line sail from Boston twice each month, touching at Halifax, and when letters are sent by that conveyance for Nova Scotia, Newfoundland, Cape Breton and Prince Edward's Island, the U. S. postage is 5 cents the single rate, to be pre paid. The inland rate is collected on delivery. On newspapers by this route, the postage is two cents each.

RULES FOR RATING LETTERS, &C.

1. *In the United States and British Mails.*—Letters exchanged with the United Kingdom of Great Britain and Ireland, or addressed to British Colonies and foreign countries, for transmission in the open mail via England, are charged with United States and British postage, at a single rate for each half ounce or fraction thereof, the same as domestic letters.

In the case of letters to be forwarded in the British mail for transmission from England "via Marseilles," the French postage is rated at 6 cents the quarter ounce, except on letters for Java, China, Labuan, Borneo, Japan, the Moluccas and Philipine Islands, which are rated at 8 cents per half ounce, and except, also, on letters for Syria and Tunis, by French packet, when the single French rate is 12 cents per quarter ounce.

2. *In the United States and French Mails.*—Letters in the mail to France are to be charged with single rate of postage, if not exceeding the weight of one quarter ounce, double rate if exceeding a quarter, but not exceeding half an ounce; and so on, an additional rate being charged for each quarter ounce, or fractional part of a quarter ounce.

The rates by "French mail" are in full to destination, except the following places, viz: Aden, Batavia, Ceylon, China, cities of Turkey in Europe, except as herein mentioned, via Austria, countries to which correspondence can be sent via Suez, countries beyond seas via France, others than those enumerated East Indies, Gibraltar, Hong Kong, Java, Mauritius, Montenegro, Penang, Portugal, Isle of Re Union, Servia, (except Belgrade,) Shanghai, Singapore and Spain. The limit of payment to Spain, Portugal and Gibraltar, is Behobia; to Servia (except Belgrade), Montenegro, and cities of Turkey in Europe, except as herein mentioned, "via Austria," the frontier of Turkey and Austria; to Aden, East Indies, Ceylon, China, and other countries via Suez, the seaports of the Indies, or of the sea of China to which the English packets ply, and to places beyond seas, or other than those designated, the limit is the port of the country of destination.

3. *In the Mails to Prussia, or to Belgium.*—Letters in the United States and Prussian closed mails, and in the mails exchanged with Belgium are charged with single rate of postage if not exceeding half an ounce in weight; double rate if exceeding half an ounce, but not exceeding an ounce; quadruple rate if exceeding an ounce, but not exceeding two ounces; and so on, for greater weights, charging two rates for every ounce or fractional part of an ounce over the first ounce. As this scale of progression differs from that followed in respect to domestic letters, great care is required to prevent mistakes.

4. *In the Mails to Bremen, or to Hamburg, &c.* Letters addressed to the German States, &c., when sent via Bremen or Hamburg; and letters addressed to the British North American Provinces, are rated in the same manner as domestic letters, one rate being charged for each half ounce or fractional part of half an ounce.

General Directions.—Postmasters should be careful where the postage is prepaid, to collect the proper amount. They should be particular to notice the route indicated on the envelope of letters, and to collect postage accordingly. Letters mailed at some offices, marked "via England," or "via Prussian Closed Mail," for a German State, are frequently taken upon the prepayment of Bremen rates, and those marked "via Bremen," at Prussian closed rates, &c.

ROUTES OF TRANSMISSION, &C.

To prevent mistakes at the exchange offices, it is desirable that the particular routes by which letters are to be forwarded from the United States to Europe, should be distinctly written on the covers. Letters intended for transmission in the open mail to England, should bear the direction, "open mail via England," if for transmission in the French mail, they should be directed, "via France in the French Mail;" if for transmission by closed mail to Prussia, they should be directed, "via Prussian closed mail;" if for transmission in the closed mail to Belgium, they should be directed, "via Belgian closed mail;" and if for transmission by the New York and Bremen line to Bremen, or by the New York and Hamburg line to Hamburg, they should be directed, "via Bremen," or "via Hamburg."

It is important that letters addressed to Germany and other European countries, via France where the single rate per quarter ounce is 21 cents, should be plainly marked to be sent via France, otherwise they may be missent in the open mail to Liverpool by United States packet, the 21 cent rate per half ounce being also chargeable on letters thus forwarded.

New Regulations Concerning Stamp Duties

Commissioner Rollins, of the Internal Revenue Bureau, has just issued a pamphlet containing a schedule of stamp duties on and after March 1, 1867, and the laws and regulations concerning the purchase and use of Internal Revenue Stamps.

In all cases where an adhesive stamp is used for denoting the stamp duty upon an instrument, the person using or paying the same must write or imprint thereupon in ink the initials of his name, and the date (the year, month, and day) on which the same is attached or used. Each stamp should be separately cancelled. When stamps are printed upon checks, &c., so that in filling up the instrument the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and, except in the case of proprietary stamps from private dies, no method of cancellation which differs from the above described can be recognized as legal and sufficient.

A person who holds an unstamped conveyance, founded upon a "Confederate currency" consideration will be allowed to affix such stamps thereto as he may think sufficient, and no prosecution will be instituted by direction of the Internal Revenue Bureau for the recovery of a penalty for failure to stamp it according to the nominal amount of such consideration in United States currency at the date of its delivery, they will be allowed to do so, taking their own risk of the sufficiency of the stamp.

The validity of a deed is a question for the courts. It is one of importance to the parties, but not to the Bureau; any further than the insufficiency of the stamp may effect their revenue. The foregoing is applicable to other instruments as well as to deeds.

A penalty of fifty dollars is imposed upon every person who makes, signs or issues, or who causes to be made, signed or issued any paper of any kind or description whatever, or who accepts, negotiates or pays, or causes to be accepted, negotiated or paid, any bill of exchange, draft or order, or promissory note for the payment of money, without the same being duly stamped or having thereupon an adhesive stamp for denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the Revenue Act.

A penalty of two hundred dollars is imposed upon every person who pays, negotiates or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money, drawn or purporting to be drawn in a foreign country, but payable in the United States, until the proper stamp has been affixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty required by the revenue act, without effectually cancelling and obliterating the same in the manner required by law.

Attention is particularly called to the following extract from section 155 of the act of June 30, 1864, as amended by the act of July 13, 1866:

"If any person shall willfully remove or cause to be removed, alter or cause to be altered, the cancelling or defacing marks on any adhesive stamp, with intent to use the same, or to cause the use of the same, after it shall have been once used, or shall knowingly or willfully sell or buy such washed or restored stamps, or offer the same for sale, or give or expose the same to any person for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall be on the person accused) have in his possession any washed, restored or altered stamps, which have been removed from any vellum, parchment, paper, instrument, or writing, then, and in every such case, every person so offending, and every person knowingly and willfully aiding, abetting, or assisting in committing any such offense as aforesaid, shall on conviction thereof, * * * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court.

It is reported that persons in various parts of the country, and under various pretexts, are collecting cancelled stamps, and, as it is believed, for the purpose of removing the cancelling marks therefrom and preparing them for further use.

All revenue officers have been directed to give this matter their special attention, to acquaint the people with the true object for which such stamps are collected, and with the penalties incurred by all who in any way knowingly and willfully aid, abet and assist in the commission of the offence. It is believed that many stamps are gathered from persons who are ignorant of the use to which they are to be put, and innocent of all intent to defraud the revenue.

The fact that a person is collecting stamps which have once been used is sufficient to arouse strong suspicion, and calls for an immediate investigation; and the possession of washed, restored or altered stamps is *prima facie* evidence of guilt. No pains should be spared to insure the detection and punishment of the guilty parties.

It is not lawful to record any instrument, document or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law; and such instrument or copy, and the record thereof, are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.
