Report on Rescission of Authorized Use Equipment

Date: 20, December, 1950

Plant Name: Yamamuro Plant, Fujikoshi Kozai Kogyo Co., Ltd.

Location: No. 888, Nakagawara, Toyama City
(42 - 13)

User: Fujikoshi Kozai Kogyo Co., Ltd.

Total No. of Rescined Equipment:
203 See attached list.

Reason of Rescission:

It has been decided that all equipments of Yamamuro Plant are to be transfered to the main factory, Toyama Plant, for centralization of all equipments by rationalization of our enterprice.

Therefore, machines to be used in Yamamuro Plant decreased largely in accordance with new production plan, and we beg to rescind all authorized use machines which became unnecessary in Yamamuro Plant.

Name of Reporter: Koki Imura, President of
Fujikoshi Kozai Kogyo Co., Ltd.

Confirmed by Hisao Asano Tech. Commissioner, Commerce and Industry Section, Toyama Branch
22 Dec. 1950

Signed Koki, Imura

Nov., I5, I950

file

TO: The Supreme Commander For The Allied Powers
(Through Commanding Officer, Tokai-Hokuriku Civil Affairs Region)

FROM: Koki Imura, President of the Fujikoshi Kozai Kogyo Co., Ltd.

Address: No. 20, Ishikane, Toyama City

Entreaty for the Urgent Approval on the Application for Movement and Authorized Use of Designated Reparation Machinery and Equipment

We, prior to this, submitted the under-mentioned applications to the authorities concerned pertaining to the centralization of all equipments of Yamamuro Plant (Code No. 42 - I3) to the main factory, Toyama Plant (included Bearing Plant(Code No. 42 - 07) and Small Tool Plant (non-reparation)) from the view point of the rationalization of undertakings of our Fujikoshi Company.

(I) From Yamamuro Plant to Toyama Plant

Application for movement and authorized use of designated reparation machinery and equipment, dated Aug. 23rd I950.

Use for Bearing Plant	I3	items
Use for Small Tool Plant	58	,,
Total	7I	,,

Applicant: Koki Imura, President of Fujikoshi Kozai Kogyo Co., Ltd.

(2) From Yamamuro Plant to Nishida Seisakusho (in Toyama Plant, non-reparation)

Application for movement and authorized use of designated reparation machinery and equipment, dated Aug. 8th I950.

29 items

Applicant: Tomiichiro Nishida, Representative, Nishida Seisakusho Co., Ltd.

(3) From Yamamuro Plant to Fujikoshi Seisakusho (in Toyama Plant, non-reparation)

Application for movement and authorized use of designated reparation machinery and equipment, dated Aug. 8th I950.

I2 items

Applicant: Shinkichi Tomita, Representative, Fujikoshi Seisakusho

No. E.F. Jouard 7 Dec. '50

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

(4) From Yamamuro Plant to Naigai Seki Seisakusho (in Toyama Plant, non-reparation)

Application for movement and authorized use of designated reparation machinery and equipment, dated Aug. 8th I950.

5 items

Applicant: Heijiro Kawai, Representative, Naigai Seiki Seisakusho

We submitted the above-mentioned applications to G.H.Q. through the japanese Government and we hope to transact speedy for our application through the special preferential investigation on account of the under-mentioned reasons.

(a) The weather conditions of Hokuriku area in which our Fujikoshi Plant are locating, makes it rule to enter the rainy season on and after the November, and it becomes unfavourable state to convey the heavy weight as the road set in worse than ever, and we afraid to apt causes to rust and to injure the designated reparation machinery on the way of conveyance.

(b) Moreover, since the December onwards Hokuriku area enters in snow-fall season, so it is almost impossible to carry the heavy weight untill the next spring.

Our company decided that all equipment of the detached factories are to be concentrated to the main factory, Toyama Plant with the purpose of the rationalization of enterprise. Along this line, our Fujikoshi Company already dismissed of about I000 surplus workers in order to accomplish the projects.

As the rationalization of our enterprise come to beginning by degrees, we wish to convey the above applicated machineries in November without waiting next spring and operate the enterprise to meet with this plan.

On the ground of the above-mertioned, inviting your kind conderation, we petition you to extend your help in realization of permission in November for our application through the special preferential investigation.

External Grinder	1	
Engine Lathe	3	
Turret Lathe	1	
Tool Grinder	2	For Manufacturing of plier
Blower	2	For Exhausting of Buffing
Double Head Tool Grirder	3	For Grinding of Bite
Cover of Blower	2	For Exhausting of Gas
Transformer	2	For hardening & annealing furnace
Measuring Machine	25	For measuring of products

b) Date this company intends to move machinery.

Soon after permission

5. What was the company founded to produce.

a Company ---------- Small tool
b plant ----- ------ Small tool
c Total number of the machinery of the plant

Reparation machines 627
"EX" machines 73

I certify information hereon is true.
Above mentiones machine are not reparation machines.

Dec. Nov. 1949

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

List of Last Inventoried Machine

(IN 20th, Sept., 1949)

Fujikoshi Kozai Kogyo K.K.
Yamamuro Plant.
No. 888, Nakagawara, Toyama City
Code No. 42 - 13.

Code No.	Name of Machine	Remarks

28 October, 1949

TO : Chief of Economic Section,
Tokai-Hokuriku Civil Affairs Region.

FROM : Governor of Toyama Ken.

SUBJECT : Application for Approval of Temporary Use of Reparations-Designated Equipment.

Application as enclosed herewith has submitted to the Minister of International Trade & Industry from President of the Fujikoshi Steel Industry Co., Ltd. for the additional use of reparational-designated equipment and increase increase in production at its Yamamuro Factory being located 888 Nakagawara, Toyama-shi, in accordance with SCAPIN No. 1355.
We shall be appreciated so mush if you will kindly approve the temporary use of the above.
The following information are given for yuor reference.

1. In the application dated Oct. 15 1949 which was submitted to the Minister of International Trade & Industry from Yamamuro Factory of the Fujikoshi Steel Industry Co., Ltd. the additional use of reparational-designated equipment and increase in production were proposed.
The Minister of International Trade & Industry has acknowledged the importance which the production of bearings on the part of the Fujikoshi Steel Industry Co., Ltd. might contribute towards the rehabilitation of Japanese economy, and fulfiled without delay necessary procedures to SCAP for its approval.

2. The factory has already obtained approval for the conversion of its production activities into bicycle parts, electric machines and tools and auto-tricycle effective July 21, 1946, into pliers and cycle-dynamo effective Aug. 21, 1948 and into bearing-turners, plug-guages and plummer-blocks effective July 22, 1949.
In this connection, it is desired to obtain approval for the temporary use of 59 machines of the reparations-designated equipment on the condition that emphasis will be placed not on the increase of output, but on the rationalization of production as well as the betterment of standards of finished goods, as a temporary measure, pending official pproval form SCAP.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

3. Out of 59 machines of the reparations-designated equipment being proposed for additional use, 19 had once been under operation on a basis of past approval, but they have been suspended from operation since July 23, 1949 when the program of productions was revised.
Thus, the factory is to include them in the present application again.

Such being the case, we take the liberty of soliciting you to approve the temporary use of the equipment with your special kindness at an early date.

APPROVED

Application to Convert
Designated Reparations Plant.
(Supplement of Products and Machine)

To: Minister of International Trade and Industry.

From: Fujikoshi Kozai Kogyo Kabushiki Kaisha.,
No. 20, Ishikane, Toyama City.

Date: 15, Oct. 1949.

1. Name of Plant:

Fujikoshi Kozai Kogyo K.K., Yamamuro Plant.
42 - 13

2. Location of Plant:

No. 888, Nakagawara, Toyama City.

3. Name of Products Planned:

a) Rough turning of Bearing (including for radial and rolling stock)

b) Plug Gauge.

c) Plummer Block.

4. Experience of the Production Planned:

Item	Experience	Period of Experience
Rough turning of Bearing (including for radial & rolling stock).	Non	But our Toyama Plant have Experience of Production & working at present exception plummer block.
Plug Gauge	-do-	
Plummer Block	-do-	

5. 1939-1945 Production.

Year	Parts of Munition (Weapon)
1944	4,686 Pics.
1945	99,765 Pics.

6. Period of Desired Permission.

By the time of removal of designated reparations equipment.

7. Scale of Production Planned by Month for Period on this Applications.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

Item	Amount
Rough turning of Bearing	200.000 Pics
Plug Gauge	500 Sets
Plummer Block	5.000 Sets

8. Name of Location to which Products are to be Delivered:

Item	Destination	Purchaser
Rough turning of Bearing		Supply the Head Office's Plant.
Plug Gauge	Homeland and abroad.	Machinery Industry.
Plummer Block	-do-	Milling Industry and Light Industries.

9. Scale of Proposed change in Physical Facilities.

For the purpose of promoting additionally the productive capacity of this plant, we wish to pick up some more machines of high efficency among the equipments now being left idle in the plant, and put them in use as soon as possible.

The reasons are as follows:

1) There are no special equipment to be available at present except those which need, if they are to be put in use, the change of their location in the plant.

2) There are many apparatus or tools authorized to be used in this plant, and they are hinted that they are to be changed in their standard dimension in accordance with the present selling market followed by the establishment of the new commercial exchange rate between Yen and Dollar, and the late devaluation of Pound sterling as well.

3) There are some difficulties to be met to finished the productive plan in hand by the sole operation of the existing authorized machines for rationalization of productive processing and increased productive quantity as well.

4) And some difficulties are also found in enforcing the transportation or shift of the machines from the other plant or purchasing of new machines in view of the present tightened financial fund.

10. Intened expense for conversion or reconversion.

Nothing.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

11. Plan and Location to continue the production after Reparation removal.

As the change of operation plan is difficult to form at present from the economical point of view, we hereby beg to apply for the use of the existing designated reparation equipments by the time of its removal, and after removal of the said equipment we expect to operate production in succession by transference of equipments from our Toyama Plant.
