COMMERCIAL.

OFFICE OF THE BEE, }
FRIDAY EVENING, March 20, 1857. }

A fair amount of business has been done in our general market during the past week, and prices for most articles of trade have continued full. Cotton has been firm without much activity, and Tobacco has met with a good demand at full rates. Sugar has improved, while Molasses has declined. Flour has been steady, but Corn has fallen off in price, and Wheat has been dull. Provisions of all descriptions have been firm, and some articles have further advanced. In Freights, a moderate business has been done, and Exchanges have shown an upward tendency in the rates.

COTTON.—Arrived since the 13th instant, 23,874 bales. Cleared in the same time for Liverpool, 26,676; Cork, 2,379; Havre, 5,538; Bremen, 6,627; Hamburg, 1,836; Barcelona, 1,113; Vera Cruz, 963; New York, 1,962; Boston, 466; Philadelphia, 751; and Baltimore, 51 bales; together, 46,332 bales, making a reduction in stock of 12,958 bales, and leaving on hand, including all on shipboard and in the various presses and pickeries not cleared, a stock of 296,692 bales.

The market opened on Saturday with a moderate demand, and 7,500 bales changed hands at previous rates. On Monday and Tuesday factors were asking very full prices generally, and buyers came forward rather slowly, the sales of the two days amounting to some 14,000 bales, with a firm market without any quotable change. On Wednesday some 5,500 bales were sold, but yesterday the demand improved, and the sales reached 8,500 bales, prices showing an advance of ⅛c on the good ordinary and middling grades. To-day some 5,500 bales have changed hands; making a total for the week of 41,000 bales, the market closing at the range of our quotations:

[illegible] ordinary medicines have failed [illegible] of nervous affections.

M'me Allnard, the [illegible] pupil under the direction of [illegible]

The direct application of magnetism by Mr. Allnard, assisted by Mme. Allnard, has been followed by numerous cures. [illegible] thousand cases have been almost instantly cured by this operation. [illegible] M'me Allnard's services.

The New Orleans Press have often recorded the [illegible] "Louisiana Courier," the "Daily Creole," the "Delta," "True Delta," "National" and "Bee," published in 1855 and 1856, letters from well-known and highly respectable persons, whose testimony cannot be doubted, tendering their heartfelt thanks to M'me Allnard, and fully acknowledging her wonderful success.

The same papers also spoke very highly of the surprising magnetic experiments by M'me Allnard, under the direction of her husband. See the Courier of December 17th, 1855, the Bee of November 27th, 1854, and the Crescent of May 28th, 1856.

It is to be regretted that all the cures effected by M'me Allnard cannot here be stated, but the nature of certain diseases renders this course necessary. The fact, however, is now acknowledged that patients can be permanently cured by M'me Allnard.

A somnambulist offering such guarantees as these, and who has constantly been successful, is certainly entitled to the confidence of those whom ordinary remedies have failed to cure. These remedies are powerless in cases of nervous diseases, which are cured by magnetism; as are also in cases of epilepsy, hysteria, fever and ague, bilious and brain fevers, typhoid and malignant fevers, yellow fever, headaches, heartburns, cramp in the stomach, gastritis, gastralgia, palpitation of the heart, fainting, may complaints, apoplexy, jaundice, colics, diarrhœa, costiveness, hemorrhoids, hemorrhage, spitting of blood, giddiness, falling of the womb, suppression of the menses, humors in the breast, consumption, pulmonary catarrhs, cutaneous diseases, tetters, itch, wounds, ulcers, rheumatism, deafness, ophthalmy, inflammation of the eyelids, dislocations, sprains, tapeworm and other worms, &c.

The above diseases are daily cured with the greatest ease by M'me Allnard, and the public is informed that she is the only somnambulist who can see, notwithstanding the complete exclusion of light.

Persons desirous of witnessing this phenomenon are invited to attend the seances of M'me A., and agree on the time for magnetic experiments. No one will be deceived.

☞ Admittance, 50 cents.
☞ M'me Allnard may be consulted daily.

A CARD.

C. DUHAMMEL,

OPTICIAN and MANUFACTURER, No. 50 Chartres street, a resident of this city for upwards of sixteen years, well known in this and the neighboring states for the quality of his Spectacle Glasses, Optical Instruments and others, an extensive assortment of which he has constantly on hand, hopes he has deserved, by a long experience in the line, the confidence of his customers and of the public. The testimony of almost all the distinguished families and most widely-known savants in the country would be given in his favor, if called for, but he prefers stating merely the following facts:

Mr. C. DUHAMMEL offers to persons in want of Spectacles, Rock Crystal, Periscopic Glasses, (Wolaston pebbles) the best that can be manufactured, at $4 a pair, without the frame. The quality of these Glasses, called, by some, SCOTCH PEBBLES, BRAZILIAN PEBBLES, ARKANSAS PEBBLES, &c., does not vary according to the country whence they come, but according to the purity and clearness of the stone whence they are drawn—to the regularity of the curve and the finish imparted to them by a skillful artist. In this respect, Duhamel's glasses are inferior to no other glasses.

The prices are invariably as follows:
A pair of rock crystal glasses, with frame
Gold frame, $12 to 22.
Steel frame, $5 to 8.
Silver frame, $6 to 10.
The glasses only, $4.
Fine ordinary spectacle glasses, $1 a pair.
Fine Periscopic glasses, concave and convex, $1 50 a pair.

A pair of steel spectacles, with fine ordinary glasses, $1 00 to 3 50 a pair, according to the quality of the frame.

A pair of gold spectacles, with fine ordinary glasses, $7 to 18.

All fancy spectacle frames are offered on very moderate terms.

Mr. D. begs leave to remark that, in his opinion, and in the opinion of many competent and experienced persons in the line, rock crystal glasses are superior in one respect only to fine glasses properly manufactured. They are harder, and their surface remains smooth much longer, but are not better than others as far as the preservation of the sight is concerned.

Mr. D. is agent for Desbordes' Steam gauges. Owners of steam workshops and others are invited to try them, they are perfect in every respect, and are offered on reasonable terms.

Also on hand, the following, and many other instruments:

Theodolites; Surveyors' Compasses; Levels; Pocket Compasses; Graphometers; Transits and other Mathematical Instruments; Telescopes; Barometers; Thermometers; Liquor Gaugers; Saulphite Gauges; Hygrometers; Weights and Scales; Microscopes; Polyoramas; Dioramas; Stereoscopes; Views, &c, for Magic Lanterns; Pneumatic; Electric; and Electro-magnetic Instruments; Phantasmagorias, and a large assortment of double Opera Glasses. dec18

Hon. ROMAN PERALTY, L. L. D. P.,—Prof. of International and Constitutional Law.

A. C. JAMES,—Professor of Drawing and Painting.

ARCHIBALD HOLMES,—Fencing Master.

This Institution will be open during the whole year. Parents leaving the city during the summer can place their sons in the President's family, where their health and comforts will be carefully attended to, while their studies will not be interrupted.

The location is very salubrious, the apartments large and well ventilated—the main study being 70 by 36 feet.

The Gymnasium is on very large and well enclosed play grounds, which afford ample means for air and exercise.

The Professors are gentlemen of sound learning and experience, and will be aided by skillful and efficient tutors.

No pains are spared to impart a solid education.

A thorough knowledge of every lesson is required, and superficial study discouraged.

Surveying and Botany are taught in the field; Chemistry and Philosophy are illustrated by experiments.

Students are admitted at all stages of advancement. They may pursue either the scientific or the classical course, and degrees will be conferred upon those when they have completed the studies prescribed by the Board of Visitors.

Evening classes for young gentlemen engaged in business are opened from 8 to 9 o'clock, P. M.

A limited number of Boarders will be received into the President's family.

For other particulars, please address the President, at the College. ly9

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,
UNDER THE DIRECTION OF
MADAM CHARPAUX,
At the corner of Rampart and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves, beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Mad. Charpaux will spare no pains to make her seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short all the branches of a polite education, will be taught in the Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary instructions all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the professor. The study of the notes will precede the performance, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the pupils, and improve their singing, on the morning of the last Saturday in every month there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3—open at 4½ and close at 5 o'clock, P. M.

COMMERCIAL INSTITUTION
CONDUCTED BY
M. JEGOU, B. A. and M. A.
DAY AND BOARDING-SCHOOL,
For both Sexes,
Burgundy street, No. 262, between Dumaine and St. Philip.

BOYS' DEPARTMENT.

The plan of the above establishment comprises all the branches of a thorough and complete education. The classes are, however, conducted with a view particularly to commerce and the arts; and a gradual system of commercial studies is therefore pursued, to which pupils are admitted according to their acquirements.

M. Jegou attends personally to Mathematics, as applied to professions and trades, and classes are formed according to the proficiency of pupils. The English, French and Spanish languages are taught by well known and competent Professors, but special attention is bestowed on Mathematics and the English language, on account of their importance.

GIRLS' DEPARTMENT.

A knowledge of many things now-a-days almost indispensable to young ladies, a class of needlework will open, besides the regular hours and those for obligatory exercises, where they will be taught ornamental embroideries, etc. [illegible] That class does not interfere with the others.

The teachers are earnestly requested to use their utmost endeavors to impart to pupils those religious sentiments and polite manners, the characteristics of well-bred persons and the best guarantee for the future.

Corporal punishments are expressly prohibited in the establishment.

Reading, Penmanship, Catechism, History, Geography, English, French, Spanish, Mathematics, Commercial Studies, Music, Drawing and Needle-work.

A lady residing in the establishment takes charge of the girls' classes.

Mr. Jegou relies for success on the patronage of his friends and the friends of education.

EVENING CLASSES.

Reading, Penmanship, English, French, Spanish, Mathematics, Commercial Studies. oct11

Schardt's Institution.

No. 96 Customhouse street, between Royal and Bourbon streets.

A. SCHARDT, a graduate of Munich, in Bavaria, respectfully announces that he will re-open his former school, which has been transferred to Customhouse street, No. 96, on the first of June next, where he is ready to undertake the charge of pupils desirous of receiving a practical and complete education. The plan of studies comprises the Latin, English, French, Greek, Spanish and German languages, and all the branches of a thorough American education, viz: Mathematics, Rhetoric, History, Geography, Book-keeping, Penmanship, etc.

Mr SCHARDT himself takes charge of the drawing classes without any extra charge to the pupils. In the same way, singing lessons are given twice a week without extra charge.

G. BOYER'S INSTITUTION,

No. 148 Conti street, between Dauphin and Burgundy streets.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning which are necessary to a useful, polite and liberal education; from primary instruction to the more abstruse subjects, which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, and from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

BRANCHES OF INSTRUCTION.

The English, French, Spanish, Greek, and Latin languages; Mathematics, History, Geography, Elements of Natural Philosophy, and Philosophical Science.

TERMS.

Day Scholars, $ 6, 8, 10 per month;
Half-Boarders, 15 do do;
Boarders, 25 do do, payable quarterly,
Washing and mending, $4 do do, in advance.

Boarders are required to bring a sufficient wardrobe.

No deduction for absence. A month once commenced must be paid for in full. Books, paper, &c form separate charges.

Hours of Study—From 9 A. M. to 3 P. M., and from 4 to 5 P. M. ap27

DAY AND BOARDING SCHOOL,
UNDER THE DIRECTION OF
MADAME PARENT,
Corner of Rampart and Du Maine streets.

THIS institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid terrace commanding a most beautiful view of the city as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as Drawing, Painting, Dancing, and Embroidery, &c. The Musical department (including vocal and instrumental) is confided to the most competent and distinguished talents in the city.

It would be superfluous to say anything respecting the special attention that is paid to the English, it being Madame Parent's native language. The best guarantee that she can give to the public is that the French young ladies who have been educated by her speak it as fluently as their mother tongue.

For terms, apply at the Institution, where prospectus can be obtained.

YOUNG LADIES residing at a distance in the different faubourgs, will be conveyed to and from the Institution.

[illegible]

EDUCATION.

[illegible]

Music as well as general instruction, (which will not interfere with the latter,) will be carefully and constantly attended to. Mrs. Duron has engaged in France, for her establishment, the services of an Italian lady, who is an excellent professor and most talented singer. The course of solfeggio and singing cannot fail to be admirably conducted by Mrs. TACCANNI FARCA, whose splendid voice will always be assisted by her excellent method. Pupils in the city can be taught by Mrs. Tacca at the Institute.

NOTICE.

Mrs DURON having often been applied to for private lessons by young ladies who could not follow the regular classes, a French class, on the plan of Messrs. Bedey and Levi, in Paris, will be opened on the 1st of January next. These classes will be divided into a primary and superior course. The pupils of the establishment will, of course, be the first admitted to the same, and will doubtless contribute to the progress of the newcomers by exciting a general emulation.

Mothers may attend the course, should they choose to do so. dec4 lm

Young Ladies' Day and Boarding-School,
DIRECTED BY MRS. AND MISS DE ROALDES,
Royal Street, No. 300, between Ursulines and St. Philip.

THE above establishment, which will be opened on the 1st of November next, offers to families every desirable guarantee of instruction and education.

Reading, Penmanship, Grammar, ancient and modern History, Geography, Cosmography, Arithmetic, Literature, the rudiments of Natural Sciences, &c., &c., will be taught in the institution. Particular care is bestowed on the *English Language*.

As for the religious and moral instruction of the pupils, parents may rest assured that they will meet with constant attention.

Music and other accomplishments will not be neglected. Piano will be taught by Miss Roaldes. Needle work will be carefully attended to.

Dr. Roaldes resides in the establishment, and will attend to the pupils in case of sickness.

Consumption Cured.

Be not deceived by base imitations. Hegeman, Clark & Co's genuine Cod Liver Oil never disappoints, and ten years' experience has proved it superior to all others, and the only reliable cure for consumption.

As there is a great deal of spurious oil in the market adulterated with seal oil, whale oil, &c., &c., too much care cannot be taken to procure the genuine.

Our oil is made at our own factory in Newfoundland, and each bottle has our signature over the cork. Be careful to get Hegeman, Clark & Co's, as thousands who had used other oil of inferior quality, and were about giving up in despair, have been restored to health by using the genuine oil of our manufacture. LEGAL NOTICES.

STATE OF LOUISIANA—SECOND DISTRICT COURT OF NEW ORLEANS.—No. 11,290.—I hereby certify that on the 2d of March, 1857, Judgment was entered in this Court in the suit of Rose H. Belpoyer, wife of P. O. Deverin, vs. her husband, in the words and figures following, to wit:

In this case, on motion to the Court by the counsel, for a confirmation of the default taken against the defendant on the 20th February last past, the Court being satisfied by the evidence on file that the plaintiff is entitled, under the law, to recover judgment as prayed for in her petition—

It is ordered, adjudged and decreed that the plaintiff, Rose Hortense Belpoyer, wife of Paul Olivier Deverin, be separated in property from her said husband; that the administration of her separate property be restored to her; that she be recognized as the separate and exclusive owner of all the landed property and slaves described in her marriage contract of the 27th November, 1847, before Chiapella, Notary Public, as belonging to her at the date of the said contract; that she be also recognized as the separate and exclusive owner of the lease of the store, since the date of the marriage; that the household furniture and movable effects described in the contract, and which are shown to have been owned by her prior to her marriage, be restored to her in kind, or, in default of the same being delivered in kind, that she have judgment against her said husband, Paul O Devezin, for the sum of one thousand dollars, the present value thereof; that her right to hold her said landed and slaves in a future action for the dotal [illegible] the costs of this suit be paid by the defendant.

Judgment signed 6th March, 1857.

[signed] P. H. MORGAN, Judge.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court, at the city of New Orleans, on this 20th day of March, in the year of our Lord one thousand eight hundred and fifty-seven, and in the eighty-first year of the Independence of the United States.

THE BAGASSE FURNACE.

PATENTED Dec. 8th, 1855; same patent reissued August 8th, 1856; and new patent granted August 6th, 1856, to S. H. Gilman, of New Orleans. This furnace is now in use on EIGHTEEN plantations in Louisiana, and combines with unequalled success the six important and distinctive features of—

1. Working entirely by natural draught.
2. Containing no grate bars or other irons in its interior.
3. Never requiring the bagasse to be stirred or touched after it falls from the carrier into the hopper of the surface.
4. Drying the Bagasse thoroughly in the furnace, where it remains, more than one hour, exposed to great heat, before it reaches the point of combustion.
5. Forming no slag; and the ashes being carried by the draught into a second chamber, are withdrawn at any time without stopping the sugar-mill.
6. Burning all the bagasse on plantations of any size, and requiring no other attention than to take out the ashes and occasionally throw in wood—the average consumption of which has been ONLY ONE-HALF A CORD IN TWENTY-FOUR HOURS, when the furnaces, flues and chimney were proportioned.

The furnace erected under the new patent of August 6th, 1856, are fed without rollers by a simple arrangement of balanced doors in the bottom of the hoppers, which open by the weight of the bagasse and return to position whenever.

This is the only Bagasse Furnace which combines the above named features, either theoretically or practically.

An investigation of the patents, specifications and drawings (to be had of the subscribers) will prove this furnace to be constructed upon strictly scientific principles, entirely distinct from those of any other Bagasse furnace, and an examination of the furnace in operation will convince the most incredulous of the successful application of the principles laid down in the patents, as well as to perfect simplicity of construction and management, economy and durability. Some of these furnaces have taken off three crops without any repairs, there being nothing but fire-brick exposed to the fire.

The undersigned are now prepared to contract with parties for supplying and putting these furnaces in operation, and solicit of sugar planters an investigation of their testified achievements.

The Bagasse Kettle Train and Furnace.

THE subscriber is now prepared to close contracts, with full guarantees, to take of crops with GILMAN'S PATENT BAGASSE FURNACE AND KETTLE TRAIN, with a consumption of Wood not to exceed one-half a cord per hogshead for the entire boiling of the juice into Sugar, or one cord per hogshead for both grinding the Cane and Boiling the juice into Sugar.

The management of the Bagasse Kettle Train is precisely the same as that required for the old kettles, employing an equal number of hands to clean the juice. The furnace needs the attendance of but one hand, as the Bagasse is never touched after it enters the Furnace.
