Fever and Ague,

FROM which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasma of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only the virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys and the stomach sympathise with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the poisonous infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of FEVER AND AGUE. Such constitutional disorder will of course undermine the health, if it is not removed.

We have labored to find, and have found an antidote.

AYER'S AGUE CURE,

which neutralizes this malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health, although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb or Masked Ague, Periodical Headache or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Cholic, Paralysis and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "AGUE CURE" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclimation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic infection, than any other which has been discovered, and it has still another important advantage to the public, which is that it is cheap as well as good.

AYER'S CHERRY PECTORAL

has won for itself such a renown for the cure of every variety of Throat and Lung complaint that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

HUILE DE FOIE DE MORUE DE HOGG

[illegible] No. 2 Castiglione [illegible]

The only oil, of a straw color, which has obtained an honorable mention at the Universal Fair of [illegible]. In diseases of the chest, scrofula, [illegible], cutaneous humors, rheumatism, [illegible], ulcers and lymphatic affections, consumption, [illegible], general debility of the organs in either sex. It is also recommended to females in pregnancy and to wet nurses.

Important Observations:

1st. The oil of cod liver, when natural, is almost colorless.
2d. It tastes quite sweet and without acridity.
3d. Its smell is that of fresh fish.
4th. The oils sold in the trade, the color of which is brownish, the smell obnoxious and the taste acrid and bitterish, are so only because they have been badly prepared, from old and corrupted livers. This is the conclusion of a report to the Imperial Academy of Medicine of Paris, read on the 28th December by Mr. Deschamps, of Avalion. According to Mr. Soubeiran, Professor of the School of Pharmacy of Paris, "this oil is richer in medical properties than the colored oils." Treatise of Pharmacy, page 603.

Mr. LESUEUR, Chief of the Chemical Department in the Faculty of Medicine of Paris, has demonstrated by differential analysis, on the 1st June, 1851, that the straw-colored oil of Mr. HOGG contains almost twice as much of active properties as the dark-colored cod liver oils.

NOTICE.—To avoid all counterfeit, this oil is only sold in triangular bottles, as here illustrated, and never to any person, in barrels, by the quart or at retail. To apothecaries taking 25 half bottles, a discount of 25 per cent. is made on the price. Same conditions to druggists. Depots in New Orleans at ED. GUILLOT's, 148 Royal street, and L. CASTEL's, druggist, corner of St. Ann and Royal streets.

PILULES DEHAUT

The VEGETABLE SUBSTANCES contained in this Purgative have been selected and combined according to the new method of M. DEHAUT, in order to be Taken and Digested at the same time as the best food and the most fortifying beverage; this evidently allows every body to choose, to take a Purgative, the most convenient hour and meal so as not to leave off business and avoid the nauseating disgust of all other purgatives. These advantages, which 25 years practice have proved, have rendered DEHAUT'S PILLS very popular in France. They are invaluable against Costiveness and its concomitants. As a mere Purgative, they are superior to all others, inasmuch as they can be taken for several days without the disgust attendant on fulsome drinks and diet. But the greatest benefit is felt in the cure of a great many Chronic Diseases, such as Asthma, Catarrh, Ring-worm, Sick Headache, Scrofulous Humors, Gastritis, &c., &c., because the wholesome food which the sick man takes at the same time will enable the organs to bear his course of treatment without fatigue. ANTI-GOUTY ELIXIR

OF

HIPPOLYTE BRIEUGNE,

INVENTOR OF THE ANTI-RHEUMATISMA

Tropical Balm.

TILL now all medical science has had no power over the gout, this terrible disease which has ever made so many victims all over the earth, and still tears daily so many thousands from their occupations to give them up to the most painful sufferings. It is useless to recall to our minds the symptoms of this disease too well known to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. HIPPOLYTE BRIEUGNE, already known by the discovery of the anti-rheumatismal TROPICAL BALM, that has had down to this day so great a success. The ANTI GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power no less great, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is in no way disagreeable. It can be taken pure or mixed with two or three spoonfuls of tea or coffee. Its effects are felt after a few hours, whatever may be the intenseness of the fit. In twelve hours at most the sufferings disappear, and all its symptoms vanish away.

For sale at the general depot, in New Orleans, at J. WRIGHT & CO., 21 and 151 Chartres street.

Notice.

DR. L. DUPERRON, DENTIST,

60..........ROYAL STREET..........60

HAS the honor to inform his friends and the public that he has just received a composition for plugging teeth, which possesses peculiar advantages over any hitherto discovered. This composition, invented by Dr. WILOT, when introduced into the cavity of the tooth, with a light pressure, adheres tenaciously to the inside and immediately becomes as hard as the tooth itself, and, in a short time, assumes its color and polish. Persons whose teeth are black or discolored by other modes of filling, can, by the use of this composition, have their teeth restored to their natural color. nov24

A NUTRITIVE CREAM,

SUPERIOR to arrowroot and the fecular generally used.

The Orizine contains the alimentary principle par excellence. Physicians prescribe it for the most delicate constitutions, and especially for children, who digest it much more easily than arrowroot, and the other fecular, which, as they do not always agree with the mother's milk, bring about vomiting, colic, &c. The Orizine is easily prepared according to directions.
