PLATINA CEMENT

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he applies with the utmost success in plugging decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, which is entirely mineral, is incorruptible, it is used cold, almost in a liquid state, and speedily acquires the hardness and consistency of the enamel of the tooth when in its purity. It will last for many years, not only as a preservative of the tooth, but also to render extraction unnecessary.
