MEDICAL.

Hostetter's Stomach Bitters.

Let the Afflicted Speak for Themselves.

Fresh more than one thousand communications, received from all parts of the United States, we compile the following plain statement of the effects of HOSTETTER'S STOMACH BITTERS upon invalids who suffer from diseases of the digestive and secretive organs, and from general and local debility arising from every variety of causes. By thus putting into a small compass the substance of a mass of authentic testimony, which, if published in full, would fill a volume, we present at one glance all the prominent reasons given by recovered patients for their confidence in a preparation which has restored them from a state of bodily suffering and mental depression that rendered life a burden to a condition of perfect health. Let it be clearly understood, then, that this statement is not the advertisement of the proprietors of HOSTETTER'S STOMACH BITTERS, but of upwards of one thousand of its patrons, the pith of whose opinions and experience of its merits we simply reproduce in this form for the information of all who languish in sickness and despondency. The letters themselves, verifying every word in this article, are on file, and accessible to any one who desires to read them. It appears, from these documents, that confirmed Dyspepsia, of the most distressing kind, is uniformly cured by the Bitters in a period varying from one to six weeks, and that its return is effectually prevented, and the digestive powers preserved in the fullest vigor by a subsequent occasional use of this remarkable invigorant. The disease, as described in the letters from Dyspeptics, assumes every variety of phase. [illegible]

AYA PANA BITTERS.
Manufactured by J. Chauvet.

THESE BITTERS, which are confessedly superior to any hitherto prepared, constitute an admirable beverage when taken moderately, before or after meals. It purifies the alimentary canal, and facilitates digestion.

These BITTERS are composed exclusively of the extracts of aromatic plants, and possess the most incontestable medical qualities. Their tonic and stimulating properties render them particularly useful in cases of debility of the stomach, which, especially with women, and in warm climates, produces flatulence, uneasy sensations, and a general and frequent feeling of indisposition. They are likewise a Febrifuge, and are proved by experience to neutralize the effect of miasms on the system.

We might publish a host of certificates to substantiate our assertions, but the method is so commonly employed by charlatans that we deem it more advisable to refer to the numerous persons who daily make use of the AYA PANA BITTERS.
