OUTGOING MESSAGE CM/JDM JPM/nk

24 November 1950

CONFIDENTIAL

FROM: SCAP TOKYO JAPAN

TO: DEPT OF ARMY.....ROUTINE

For SACOA CAGO. Reurmsg W 97059. Release from purge designation of 3,250 persons referred to in your radio followed the SCAP's approval of recommendations contained in the Japanese Govt's ltr of 23 Oct 50 quoted below:

"After carefully reviewing the cases of purged junior officers of the former army and navy and weighing them in the light of the spirit and intent of SCAPIN 550, the Japanese Govt has arrived at the conclusion that those among them who belong to a certain category have been disqualified as a result of an erroneous interpretation of the aforesaid memorandum.

"Specifically reference is made to the officers of the army and navy who did not attend any military school or receive any military training before 8 December 1941; that is to say, those who received military training for the first time after that date and subsequently were commissioned as regular officers. Technically classified as career officers they were made subject to SCAPIN 550.

"If the Govt's reading of the memorandum is correct, the intention of the Supreme Commander for the Allied Powers in issuing it was to disqualify and exclude from public offices persons who in some way shared responsibility for the mistaken policies of the old regime, and, if this is so, young men of the category mentioned above do not fall within its purview. The Govt feels, on the basis of the foregoing considerations, that an injustice has been committed and therefore to correct it wishes to release the following from the purge:

ARMY: Approximately 1,517 officers of the 58th class of the Military Academy, commissioned August 1945, and 297 paymasters of the of the 6th and 7th classes of the Paymasters' Academy, commissioned May 1944 and August 1945 respectively, totalling approximately 1,814.

CONFIDENTIAL

PUBLIC COPY

FROM: SCAP TO THE DEPT OF ARMY CM/JDM JPN/nk 24 Nov 50

NAVY: 1,328 officers of the 74th class of the Naval Academy, commissioned, July 1945, and 99 paymasters of the 35th class of the Naval Paymasters' Academy, commissioned July 1945, totalling 1,427.

TOTAL for both army and navy approximately 3,241.

"The Japanese Government, hoping that your headquarters will agree with the step here proposed, hereby requests that it will be favorably received and approved."

Since the Govt's interpretation as cited above coincided with the intent of the SCAP the release was authorized as a matter of course without any change or modification of basic policy being involved.

Reserve officers referred to in your radio as depurged 13 October were actually released from purge designation on the recommendation of the Public Office Qualification Appeals Board that they had been erroneously designated. They were part of the 10,090 persons out of 32,089 whose cases were reviewed on the basis of individual injustice.

OUSARO was informed during TELECON DATT 3110, 24 February, that delegation would sail from Japan sometime during the last week of March. Notification was also given that firm departure date and ETA San Francisco would be transmitted as soon as possible. Because the time schedule is tighter than originally anticipated, it is necessary to give the sponsoring agency a maximum of independence in scheduling itinerary and arranging conferences.
