REOURMSG DA 86158 of 17 Mar.

1. During his recent visit to DA, Lt Col Smith (G-3 Sec your hq) informally indicated that practical difficulties have arisen in connection with preparing a complete list of post treaty facilities and areas to be included in proposed annex to administrative agreement.

2. DA now discussing rewording Para two, Page 62, JCS 2180/4. Questions arises as to desirability or necessity of itemizing in annex the facilities and areas to be retained.

3. DA considers it nec prior to conclusion of treaty to have firm understanding with Japan regarding future US requirements in Japan. Accordingly, believe best method might be, insofar as possible, to include soonest in procurement demands post treaty facilities and areas you may require which are not now under your control. This is based on conviction that it will be exceedingly difficult to procure additional facilities and areas after conclusion of treaty.

4. Request your recommendations for wording adminsitrative agreement, and annex thereto, to obviate any iractical difficulties you may have in complying with request in ref msg. If you believe complete itemized list impractical or unsuitable for inclusion in annex, appreciate your suggestions as to how to handle this problem to obviate future disagreements regarding facilities and areas.

This msg in 3 parts.

Part 1. Quoted in part is a press release furnished by State Department of statement by Yoshida about 17 May. "Before Lower House Foreign Affairs Committe Prime Minister stated National Police Reserve will 'never end' be turned into army and government will not change from original NPR policy, declaring NPR recruited to keep domestic peace and order, 'will never be sent to Korea'. Prime Minister asserted lack of army would not preclude Japans entry UN, believing UN would consider Japan's entry from 'broader view point' and possible waive usual requirements. On proposed US bases in Japan, Prime Minister stated Japan must establish collective defense against collective attack while preserving domestic peace by own strength."

Part 2. Question arises here whether these statements of Yoshidas due to:

a. Ignorance of plans for NPR;
b. Resistance to developing security forces;
c. Desire to deceive Soviets;
d. Internal political motives.

Part 3. Appreciate your comment on this subject.
