SECTION I

A. GENERAL TERMS

1. The rates, charges, rules and regulations herein, additions, revisions or supplements thereto, shall apply on all freight received at terminals on and after effective date hereof or effective dates of additions, revisions or supplements hereto provided, however, that when terminal charges have been prepared at point of origin at the rates in effect on date of shipping such rates shall prevail even though the shipment is received at destination after effective date of the new rates, revisions or supplements. Unless otherwise specified all transit freight received at terminals and undelivered prior to effective dates of revisions or supplements hereto, shall be charged the rates in effect on the date such freight was received until entire lot or shipment has been withdrawn.

2. Terms are cash. All charges under rates herein, or other charges not specifically fixed are due and payable as they accrue.

a. Cargo will be released to the consignee, or shipping agency, or shipowner, or individual responsible for such charges, only when charges accrued under this schedule and in accordance with other terms, have either been paid or adequate guarantee has been furnished for the payment thereof.

b. Accounts remaining unpaid for 30 days from receipt of invoice will bear interest at 6% per annum from date of receipt of invoice.

c. The terminal operator reserves the right to demand prepayment of all charges on perishable freight, freight of unknown or doubtful value and on household goods.

3. Use of piers, warehouses, facilities or services shall be deemed an acceptance of the rates, terms and conditions herein.

DECLASSIFIED E.O. 12065 SECTION 3-402, IDG NO. 775013

SECTION I

A. GENERAL TERMS, CONTINUED

4. Right is reserved by terminal operators to furnish all equipment, supplies and material and to perform all services in connection with the operation of their terminals under rates and conditions herein, or at rates agreed upon for such items which are not included herein.

5. Hazardous or offensive freight or freight which, by its nature, is liable to damage other freight, is subject to immediate removal, either from the pier or pier premises, or to other locations within said premises, with all expense and risk of loss or damage for the account of owner, shipper or consignee.

6. Freight remaining on pier or pier premises after expiration of free time, and freight shut out at clearance of vessel may be piled or repiled to make space, transferred to other locations or receptacles within the pier premises, or removed to public or private warehouses with all expense and risk of loss or damage for account of the owner, shipper, consignee or carrier, as responsibility may appear.

7. The acceptance, handling or storage of explosives or excessively inflammable material shall be subject to special arrangements with terminal operators and governed by applicable rules and regulations.

8. Glass, liquids and fragile articles will be accepted only at owner's risk for breakage, leakage or chafing.

9. Delays in loading, unloading, receiving, deliveries or handling freight arising from combinations, riots or strikes of any persons in the employ of the terminal companies or in the services of others, or arising from any other cause not reasonably within the control of the terminal companies will not entitle the owners, shippers, consignees or carriers of the freight to waiver of any terminal charges or expenses that may be incurred.

10. Rates named herein do not include any insurance except that of labor compensation to cover labor employed to perform services, and liability insurance.

11. The rates named herein, additions, revisions or supplements thereto, are based upon existing traffic and labor conditions. If and when these conditions change because of de-

mands of labor for increased wages, strikes, congestions, or other causes not reasonably within the control of the terminal companies, resulting in an increased cost of service, the rates are subject to change without notice. Changes in rates named herein for reasons other than stated will become effective thirty (30) days from date of publication.

12. If and when others than the terminal companies are permitted to perform services on the piers or premises of the terminal companies they shall be liable for the injury of persons in their employ and shall alsc be held responsible for loss, damage or theft by themselves or persons in their employ.

13. The terminals will take reasonable precautions and exercise reasonable care to prevent loss of or damage to freight and, having taken such measures, will not be responsible for any loss or damage caused by fire, frost, heat, dampness, leakage, the elements, evaporation, natural shrinkage, wastage or decay; animals, rats, mice or other rodents, moths, weevils or other insects; leakage or discharge from fire protection systems, collapse of buildings or structures, breakdown of plant or machinery or equipment; or by floats, logs or piling required in breasting vessels away from wharf; nor will it be answerable for any loss, damage or delay arising from insufficient notification or from war, insurrection, shortage of labor, combinations, riots or strikes of any persons in its employ or in the services of others or from any consequences arising therefrom.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Disposition of Garbage and Waste

1. The responsibility of the Japanese Government for the collection of garbage and waste from Occupation Force installations was set forth in Supreme Commander for the Allied Powers Memorandum AG 720 (27 Feb 47)GD SC APIN 1548, subject,"Disposition of Garbage and Waste," 27 February 1947.

2. The development of practices contrary to the objectives of the foregoing SCAPIN have become increasingly evident. These practices include:

a. The donation of money or presents to personnel of occupation force installations by authorized collectors of waste and garbage ostensibly in payment for the privilege of making such collections.

b. The collection of garbage and waste materials by unauthorized individuals or agencies.

3. It is desired that the Japanese Government derive maximum revenue from garbage and waste collection contracts. The ability of some contractors to make unauthorized contributions in money or material gifts indicates the ability of these contractors to pay more for the privilege of making these collections and at the same time operate at a profit. It is, therefore, desired that immediate steps be taken to prohibit all donations and/or payments by authorized collectors of waste and garbage to any agency, organization or individual, private or governmental, for the privilege of making such collections, except those sums paid the Japanese Government and specifically set forth as a charge for the collection franchise. It is further desired that all outstanding contracts for collection of garbage and waste be reviewed, and in those instances where it is apparent that the Japanese Government is not receiving fair return for a particular contract a prompt upward revision of charges be made.

4. It is further directed that the Japanese Government report any instances involving solicitation of money or gifts by personnel employed at occupation force installations in connection with the collection of garbage and waste and, in addition, promptly report evidence of unauthorized collections of garbage and waste by unauthorized individuals or organizations.

5. It is considered incumbent upon the Japanese Government that action be taken to prosecute those Japanese nationals who tender or receive bribes or gratuities in connection with the collection and disposal of trash and garbage from Occupation Force installations in compliance with SCAPIN 1548.

6. The reporting of tendering or receipt of money or gifts for unauthorized collection of garbage and waste as outlined in preceding paragraph will be submitted to the Commanding General, Eighth Army, for all areas outside Tokyo, and to the Commanding General, Headquarters and Service Group, General Headquarters, Far East Command for the Tokyo area. Information copies of such reports will be forwarded to the Supreme Commander for the Allied Powers at the time they are submitted to the commanders designated above.

MEMORANDUM FOR: JAPANESE GOVERNMENT

THROUGH: Central Liaison Office, Tokyo

SUBJECT: Procedure for the Export of Samples

1. The procedure herein outlined rescinds procedure contained in memorandum from General Headquarters, Supreme Commander for the Allied Powers, file AG 091.31 (8 Feb 47) ESS/FT, (SCAPIN 1513), dated 8 February 1947, subject as above.

2. Effective this date the following procedure will control the export of samples whether acquired by gift or by purchase.

a. International Mail - This procedure supplements regulations contained in the Universal Postal Union Convention which defines samples sent by mail and limits the weight to not more than 500 grams or 18 ounces. The following covers restrictions on certain items which may be mailed as samples with no sale value:

(1) Textile - strips not more than 4 inches wide.

(2) Manufactured articles to be rendered useless for any purpose except showing to prospective customers.

(3) Foodstuff

(a) In cans, pots or glass. Should be stamped "Samples, Not for Sale."

(b) In bulk, dried or otherwise prepared not canned or potted. Should be wrapped up in envelopes of paper or like substance of not more than 2 ounces and stamped "Sample, Not for Sale," and be shipped to bona fide dealers in the item being mailed.

(4) Pharmaceutical Products - Samples be put up in small containers marked "Sample, Not for Sale" and be mailed only to bona fide dealers in such products or medical and chemical institutions where such items may be used for experimental purposes or analysis.

DECLASSIFIED E.O. 12065 SECTION 3-402, NDG NO. 775013

Items not specified above should be assimilated to one or the other of the above and handled accordingly.

b. Samples shipped by <u>air express</u> or <u>surface vessel</u>, either as cargo or baggage or personal effects from Japan, will be defined as follows:

(1) <u>Textiles</u>

(a) Cloth - cotton, wool, silk, rayon or other textiles to be cut in strips 4 inches wide, the length to be the original width of the item.

(b) Manufactured items to be cut or otherwise rendered valueless except as a model to be used in taking orders for merchandise or for examination with a view to reproduction. The words, "Sample, Not for Sale," stamped in large letters on various parts of certain items in brilliant colored dye would serve the purpose.

(2) <u>Chemical, Oils and Paints</u> to be packed in containers not to exceed 4 fluid ounces. The container to be clearly stamped "Sample, Not for Sale" and shipped in lots not exceeding 24 such containers per consignee.

(3) <u>Earths, Earthenware and Glassware</u>

(a) In powder, crushed, granulated or otherwise prepared in the natural state, limestone, magnesite, plaster rock, pumice stones, mica, clay and other earths may be exported as samples in lots up to 100 pounds.

(b) Manufactured items such as statuettes, pots, crockery, china or porcelain tableware and vases, bottles, vials and other glassware, etc., made of earths may be shipped as samples only when the item consists of no more than one of each kind and each article is stamped "Sample, Not for Sale" in some substance not easily removed.

(4) <u>Metals and Manufactures thereof</u>

(a) Ores - a sample will not exceed 25 pounds.

(b) Manufactured items declared as samples must be cut or otherwise rendered valueless as an item to be used or sold.

DECLASSIFIED E.O. 12065 SECTION 3-402, NDG NO. 775013

BASIC: Memo to JG (SCAPIN 1813)

a. License for the export of samples (not accompanied by an individual leaving Japan) will be requested by supplier or exporter through submission to Boeki Cho of Form IE 301 (Inclosure 1). This application to export samples may be made with or without previous submission of a Form IE 100. Certification by Boeki Cho represents License to Export.

b. Samples in usual commercial quantities will be inspected prior to export by the Japanese Government or its official agency.

c. Form IE 301 will act in a dual capacity:

(1) As a license to export samples in usual commercial quantities.

(2) Where purchase of samples is involved as a receipt for dollars paid.

(a) When samples are purchased Boeki Cho will render an invoice in dollars or other acceptable currencies, to be paid to the Economic and Scientific Section, Foreign Trade Division for deposit in SCAP Commercial Account to the credit of the Japanese Government. On the strength of official receipt from General Headquarters, Supreme Commander for the Allied Powers, Boeki Cho will certify payment on Form 301.

(b) Where samples are not purchased, shipper's certification attests the fact that articles were legally acquired in accordance with existing regulations of General Headquarters, Supreme Commander for the Allied Powers.

d. Where requests for samples are received through the mail, Boeki Cho will instruct supplier to execute the Form 301 (where applicable) to clear export of samples through Japanese customs, attaching to the form a copy of the original letter in lieu of shippers' signed declaration.

e. Upon validation, one copy of Form IE 301 will be submitted to General Headquarters, Supreme Commander for the Allied Powers, Attention: Economic and Scientific Section, Foreign Trade Division for information purposes.

4. Three copies of Form IE 301 must accompany each shipment of samples; one for retention by Boeki Cho, one for clearance through Japanese customs, the third for Eighth Army recording purposes after completion of export. Boeki Cho may arrange for additional copies as required.

MEMORANDUM

SUBJECT: Information of General Application Pertaining to Memorandum to the Japanese Government, SCAPIN 1939 , File AG 441.1 (1 Nov 48)PH, GHQ, SCAP, dated 1 Nov 48 , Subject: Vaccination Against Smallpox

1. With reference to subject memorandum, the following is published for the information of all concerned.

2. The attached memorandum rescinds those previous directives regarding vaccination against smallpox which are no longer applicable.

3. Basic letter of General Application supersedes previous letters of General Application pertaining to SCAPIN's listed in paragraph 1, SCAPIN 1939 , and summarizes present policies on vaccinations against smallpox as provided for in SCAPIN's 48 and 610.

4. The provisions of SCAPIN's 48 and 610, listed in paragraph 2, SCAPIN 1939 , are presently in effect as law in Japan, having been incorporated in the Preventive Vaccination Law (Law No. 68, 1948) and in Regulations pertaining to this law. In brief, the following provisions are applicable.

a. Vaccination is required of all infants between the ages of two and twelve months and of all children within six months prior to entering primary school and again within six months prior to completion of primary school. (3 times)

b. When considered necessary to prevent additional cases, special vaccination may be performed of all contacts or of all inhabitants of an area in which a case of smallpox has occurred.

c. The multiple puncture method of vaccination on a single site may be used in place of the scarification method on two sites for primary and four sites for secondary vaccinations.

d. Prior to vaccination the skin may be disinfected with acetone, ether, or alcohol which must be allowed to dry thoroughly, or by cleansing with soap and water.

e. Only vaccine which has met the minimum requirements set by the Ministry of Welfare may be used.

(See reverse for SCAPIN 1939)

DECLASSIFIED E.O. 12065 SECTION 3-402, NDG NO. 775013

f. A record is to be maintained of all vaccinations performed and of the reactions obtained. A copy of this record is to be kept at the local health center.

5. Command instructions will follow through command channels pertaining to the execution of surveillance. The following procedure is suggested:

a. Maintain periodic surveillance to assure compliance with the provisions regarding routine and special vaccinations, particularly as to the completeness of coverage, and the effectiveness of vaccination methods.

b. Advise Public Health and Welfare Section, General Headquarters, Supreme Commander for the Allied Powers, of any corrective action that should be taken at the national level.

SUBJECT: Emergency Expenditures by Restricted Concerns as Result of Flood

1. Memorandum from the Minister of Finance, dated 26 September 1947, subject: Regulations Affecting Restricted Concerns in Connection with Rehabilitation of Flood Ravaged Areas, requests that restricted concerns be given authority to make emergency expenditures for repair of flood damage without prior approval as required by Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 300.8 (8 Dec 45) ESS/AC (SCAPIN 408), dated 8 December 1945, subject: Regulations Affecting Restricted Concerns.

2. Restricted concerns may make expenditures for the following items of repair or rehabilitation of flood damage, without prior approval of the Supreme Commander for the Allied Powers:

a. Construction of levees and embankments; construction of drainage channels; operation of water pumps; transfer of raw materials, machinery and finished goods to places of safety; clearing away rubble, refuse, silt, etc., left by flood waters; emergency measures for prevention of rust damage to machinery; prevention of collapse of buildings; and levelling land.

b. The above items of emergency work may be financed by either withdrawals from bank accounts or negotiation of bank loans.

3. The authority granted in paragraph 2, above, shall be subject to compliance with the following:

a. Expenditures shall be made only to the minimum extent necessary to prevent irreparable damage to plant facilities or to permit resumption of production.

b. Expenditures shall not be made under this authority for the purchase of new machinery.

c. Within thirty (30) days from the date of this memorandum all restricted concerns having made emergency expenditures, under the authority granted herein, shall submit applications covering such expenditures with full explanation and justification.

MEMORANDUM FOR: JAPANESE GOVERNMENT

THROUGH: Central Liaison Office, Tokyo

SUBJECT: Control of Surplus United States Government Vehicles Sold to the Japanese Government

1. Reference AG 400.703 (9 Dec 46)ESS/FT, (SCAPIN 1384), subject: "Surplus United States Government Property to be Sold to the Imperial Japanese Government."

2. Paragraph 5 of reference 1. above is amended as follows:

"Trucks and trailers will be operated by established agencies, governmental, prefectural and municipal, charged with the responsibility of promoting public health, safety and welfare, reconstruction and rehabilitation of devastated areas, and distribution of food, clothing, fuel and such other essential commodities as are required for the prevention of disease and unrest among the civilian population. Title to all vehicles will be retained by the Japanese Government, except that vehicles allocated to relief of passenger traffic congestion in urban areas may be sold to municipal governments or private concerns operating under franchises issued by the Ministry of Transportation, Japanese Government. These vehicles will not be used by the government for the purpose of competing with private enterprisers. In cases where suitable public agencies do not exist for the accomplishment of the objectives mentioned above, the government may lease equipment to private operators, such arrangements to be subject to prior approval of General Headquarters, Supreme Commander for the Allied Powers. Plans covering the distribution and use of these trucks and trailers will be submitted to General Headquarters, Supreme Commander for the Allied Powers (Attention: Civil Transportation Section) for approval prior to such distribution."

Except for the foregoing, all provisions of reference 1. remain in full force and effect.

3. Direct communication, within the scope of this memorandum, is authorized between Civil Transportation Section, General Headquarters, Supreme Commander for the Allied Powers, and interested agencies of the Japanese Government.

Disposition of Garbage + Waste

MEMORANDUM FOR: IMPERIAL JAPANESE GOVERNMENT

THROUGH: Central Liaison Office, Tokyo

SUBJECT: Disposition of Garbage and Waste

1. Effective thirty (30) days from the publication of this memorandum, the Imperial Japanese Government shall be responsible for the collection and disposition of garbage and waste materials from occupation force installations and housing in Japan. This collection and disposition of garbage and waste will not be considered a service to the Occupation Forces inasmuch as the garbage and waste received by the Japanese Government is equal to or of more value than the cost of collection and disposition. Therefore, no procurement demands will be issued for this service.

2. The Imperial Japanese Government will designate the agencies which shall be authorized to collect garbage and/or waste and shall be responsible for the operation of such collections within the limitations prescribed by the Commanding General, Eighth Army. No unauthorized collections will be permitted. Any complaints of unsatisfactory conditions relating to the subject of this memorandum will be received by Japanese prefectural liaison officers and promptly and satisfactorily corrected.

SUBJECT: Prevention and Control of Typhus Fever in Japan

1. SCAP memoranda to the Imperial Japanese Government AG 710 (21 Nov 45)PH, (SCAPIN 331) dated 21 November 1945, subject: Prevention and Control of Typhus Fever in Japan; and AG 710 (29 Nov 45)PH, (SCAPIN 368) dated 29 November 1945, subject: Prevention and Control of Typhus Fever in Japan, are hereby rescinded and the following memorandum substituted in place thereof.

2. Due to the continued threat of typhus fever--epidemic (louse-borne) and murine (flea-borne)--in Japan, it is desired that the responsible Japanese agency institute the following measures for the prevention and control of typhus fever in Japan:

a. Adequate control measures (including rodent control) against typhus fever in cities, towns, villages and areas where cases of typhus fever occur.

b. Routine disinfestation with insecticide powder, louse, of all civilians crossing the straits of Tsugaru from Hokkaido to Honshu, and from Honshu to Hokkaido.

c. Routine disinfestation and immunization of all foreign repatriates embarking from Japanese ports to their homeland.

d. Routine disinfestation and immunization of all repatriate Japanese nationals debarking at Japanese ports as covered by memorandum of 5 November 1946 for the Imperial Japanese Government, subject: "Repatriation" (Reference: AG 014.33 (5 Nov 46)GC (SCAPIN 927/10) dated 5 November 1946.)

e. Routine disinfestation of railway coaches, railway stations, public conveyances, theaters, etc., as contained in the memorandum of 13 December 1946, subject: "Rickettsicidal (Typhus Control) Spray Program" (Reference PHMJG--3 dated 13 December 1946).

f. Disinfestation by use of Insecticide, spray, DDT residual effect at 30 day intervals:

SUBJECT: Information of General Application Pertaining to Directive Number (SCAPIN 1523), file AG 721.6 (12 Feb 47)PH, GHQ, SCAP, 12 Feb 47, subject: Prevention and Control of Typhus Fever in Japan, to the Imperial Japanese Government.

1. With reference to the subject memorandum, the following is published for the information of all concerned.

2. Subject memorandum rescinds two SCAP memoranda to the Imperial Japanese Government as follows: AG 710 (21 Nov 45)IH, (SCAPIN 331), dated 21 November 1945, subject: Prevention and Control of Typhus Fever in Japan; and AG 710 (29 Nov 45)IH, (SCAPIN 368) dated 29 November 1945, subject: Prevention and Control of Typhus Fever in Japan. Subject memorandum further presents a new directive to replace the two rescinded memoranda.

3. The information contained in subject memorandum on typhus fever control deals with the latest control measures designed to inhibit the spread of murine typhus as well as epidemic typhus.

4. Command instructions will follow through Command channels pertaining to the execution of surveillance. The following procedure is suggested:

a. Maintain periodic surveillance to be certain that proper typhus control measures are being accomplished.

b. Advise General Headquarters, Supreme Commander for the Allied Powers, of any corrective action that should be taken at the national level.

Memorandum for the Imperial Japanese Government, file AG 370.05 (7 May 46)GC, (SCAPIN-927), dated 7 May 1946, subject: Repatriation.

GENERAL POLICIES GOVERNING REPATRIATION OF
JAPANESE NATIONALS IN FORMERLY JAPANESE OCCUPIED TERRITORY, AND
NON-JAPANESE* FROM JAPAN

The following policies will govern repatriation of Japanese nationals in formerly Japanese occupied territory, and non-Japanese* from Japan.

1. Maximum utilization will be made of Japanese naval and merchant shipping allocated for repatriation of Japanese nationals.

2. Japanese naval vessels and those Japanese merchant vessels, designed primarily for the transport of personnel and not required for inter-island or coastal passenger service, will be utilized for the repatriation of Japanese nationals.

3. Personnel to be repatriated will not be transported on cargo vessels to the extent that the essential cargo is displaced. Repatriates will be transported on cargo vessels destined only for authorized repatriation ports (see paragraph 2a, Annex II).

4. The Imperial Japanese Government will operate, man, victual and supply Japanese-manned shipping used for repatriation to the maximum practicable extent. In case of emergency, fuel, food, medical supplies and material repairs may be obtained from US Army or Navy sources, or at foreign ports from foreign government sources, by memorandum receipt signed by the master of the vessel concerned (see Annex IV).

5. First priority will be granted to the movement of Japanese military and naval personnel, and second priority to the movement of Japanese civilians. Exception may be made by the appropriate Allied area commanders as deemed necessary for areas under their control.

6. Only personnel being repatriated to and from Japan under the Japanese repatriation program or such others as may be authorized in special cases by the Supreme Commander for the Allied Powers will be transported on repatriation vessels.

* The term "non-Japanese" as used in this annex and throughout this memorandum includes only Koreans in Japan destined for Korea north of 38° north latitude, and other non-Japanese nationals (Chinese, Formosans, Ryukyuans and Koreans destined for Korea south of 38° north latitude) in Japan who have not forfeited their privilege of repatriation.

RECEPTION CENTERS IN JAPAN FOR
PROCESSING REPATRIATES

1. The Ministry of Public Welfare, having been designated by the Japanese Government to handle repatriation matters, will:

a. Establish a central agency to effect coordination with other Japanese governmental agencies regarding supply, customs, transportation, physical inspections, quarantine and demobilization, and to effect liaison with the headquarters of the Eighth United States Army.

b. Establish and operate reception centers at designated ports (see paragraph 2a) to:

(1) Receive, process, care for and evacuate all Japanese repatriates returning to Japan proper from overseas.

(2) Assemble, process, care for and load non-Japanese nationals, as outlined in Annex III.

c. Designate a resident director at each reception center responsible for its operation and for maintaining liaison with local Allied military authorities responsible for supervision of the reception center.

2. a. Reception Centers: Location, character and capacity.

Effective 31 January 1947, reception centers will be located as indicated below, and only these centers will be used for repatriation purposes:

Ports	Capacity per day Incoming (Per 1b)	Outgoing (Per 1b)

b. Facilities.

Adequate facilities will be established at each of the above designated ports to receive, process and evacuate repatriates in the numbers indicated above. They will include necessary storage space for food, clothing and medical supplies as well as space for administration, necessary medical examinations, quarantine stations and quarantine hospitals. The Ministry of Public Welfare will make arrangements with the Commanding General of the Eighth United States Army for assignment of necessary space for these facilities.

c. Medical procedures.

Adequate inspection and quarantine stations, established at the above designated ports, will be operated in accordance with the procedures prescribed in Annex V.

3. The establishment, organization and operation of each reception center will be under the supervision of the Allied military commander who exercises control over the area in which the reception center is located.

REPATRIATION TO AND FROM JAPAN

SECTION I - GENERAL PLAN

1. a. The following plan governing the repatriation to and from Japan, now in effect, will continue until otherwise directed by the Supreme Commander for the Allied Powers.

b. The entire plan revolves around the use of reception centers and the flow of persons to be repatriated through these centers in the numbers that can be accommodated by the available shipping and rail transportation.

c. Under this plan non-Japanese nationals who, having registered as being desirous of repatriation, fail to comply with the instructions of the Imperial Japanese Government for consummation of their repatriation, forfeit their privilege to repatriation and will not be considered in any future repatriation plans. A list of such persons by name will be maintained by the Japanese Government.

d. Exception to paragraph 1 c above may be made in the case of families which cannot comply with plans of the Imperial Japanese Government for their repatriation, due to circumstances over which they have no control. Insofar as practicable the immediate family group should be considered a unit, and should be repatriated as a unit, unless members thereof have forfeited their privilege of repatriation. The number of Koreans destined for Korea north of 38° north latitude who cannot comply with repatriation plans, due to circumstances beyond their control, will be reported to General Headquarters not later than 15 April 1947.

2. The Sasebo Reception Center will be used to process Korean repatriates leaving Japan. Reception centers to process other non-Japanese nationals will be designated.

3. The Japanese Ministry of Welfare will:

a. Arrange for the necessary transportation to move incoming repatriates, except for such personnel as may be designated by the local United States Army Commanders supervising processing, from the reception centers within twenty-four (24) hours after completion of processing.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Annex III to Memo to IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

b. Establish controls to fix in their present abodes non-Japanese nationals, desiring return to their homelands, until such time as they are directed to move under the provisions of this plan.

c. Prohibit the use of active reception centers as housing except as required in the actual processing and quarantine of repatriates.

4. The Imperial Japanese Government will be furnished schedules governing the movement of repatriation shipping as follows:

a. Japanese merchant and naval vessels and other Japanese-manned ships, by the Shipping Control Authority for the Japanese Merchant Marine.

b. Allied vessels by the Supreme Commander for the Allied Powers.

5. Guards aboard trains carrying Koreans destined for Korea north of 38° north latitude.

a. Allied military authorities have been directed to provide on request of authorized officials of the Imperial Japanese Government, a minimum of one Allied Force guard per train aboard all trains scheduled specifically to carry Koreans destined for Korea north of 38° north latitude, for the purpose of lending necessary support and prestige to Japanese police guards and coordinating their activities.

b. The Imperial Japanese Government will direct the local Japanese Government officials to:

(1) Request local Allied military authorities to place Allied guards aboard trains scheduled specifically to carry Koreans, destined for Korea north of 38° north latitude, to reception centers. Each request will contain information as follows:

(a) Number of Koreans destined for Korea north of 38° north latitude.

(b) Number of rail cars in the train scheduled specifically to carry Koreans destined for Korea north of 38° north latitude.

(c) Schedule, route and destination of trains.

(2) Submit requests to local military authorities in sufficient time to permit orders to be issued and guards to be placed aboard the trains.

(3) Provide suitable accommodations as quarters for Allied guards during entire trip. The accommodations will be clean.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Annex III to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

(4) Promptly forward complete and accurate information regarding changes in train movements to the appropriate local military authorities.

c. The Imperial Japanese Government will also direct the local Japanese government officials to:

(1) Organize outgoing non-Japanese repatriates into groups under selected group leaders prior to entraining.

(2) Insure against overcrowding.

(3) Insure orderly entraining and detraining of the groups.

(4) Place an appropriate number of armed Japanese policemen to maintain order aboard all trains scheduled specifically to carry Koreans, destined for Korea north of 38° north latitude, to reception centers. (See paragraph 6 b below).

6. Control.

a. The Imperial Japanese Government will direct its representatives at reception centers to:

(1) Organize outgoing non-Japanese repatriates into groups under selected group leaders prior to embarkation.

(2) Thoroughly instruct these groups in shipboard routine and sanitary measures to be observed.

(3) Insure orderly embarkation of groups.

b. The local Japanese officials will utilize every legal means available to control repatriates, while in Japan and aboard Japanese-manned vessels.

SECTION II - REPATRIATION TO KOREA

7. Mass repatriation of Koreans from Japan to Korea south of 38° north latitude was completed on 28 December 1946.

8. Koreans destined for Korea north of 38° north latitude will be processed and repatriated in accordance with the provisions of memorandum from the Supreme Commander for the Allied Powers, file AG 014.33 (26 Dec 46), (SCAPIN 1421), dated 26 December 1946, subject: Repatriation of Japanese Nationals from Soviet and Soviet-Controlled Territories, and of Koreans from Japan to Korea North of 38° North Latitude.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

BASIC: Annex III to Memo to IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

9. Repatriation of Korean prisoners.

a. The Imperial Japanese Government will not repatriate Korean civil prisoners from Japan until they have served their terms of imprisonment and are duly released from confinement. This shall not be construed as in any way infringing upon the prerogative of the Imperial Japanese Government to remit or mitigate sentences.

b. The above is subject to the provisions of memorandum from the Supreme Commander for the Allied Powers, file AG 015 (19 Feb 46) LS, (SCAPIN 757), dated 19 February 1946, subject: Review of Sentences Imposed upon Koreans and Certain Other Nationals.

10. Under this plan it is the responsibility of the Imperial Japanese Government to plan and implement the repatriation of Korean nationals from Japan to Korea. This responsibility will not be delegated wholly or in part to any of the various Korean associations or societies.

SECTION III - REPATRIATION TO AND FROM THE RYUKYU ISLANDS

11. Mass repatriation of Ryukyuans from Japan to the Ryukyu Islands south of 30° north latitude was completed on 28 December 1946.

12. Repatriation of Japanese from the Ryukyu Islands to Japan was completed on 31 December 1946.

SECTION IV - REPATRIATION FROM SOVIET AND SOVIET-CONTROLLED AREAS, BRITISH-CONTROLLED AREAS IN SOUTHEAST ASIA, CHINA AND THE NETHERLANDS EAST INDIES.

13. Japanese repatriates arriving in Japan from Soviet and Soviet-controlled areas will be processed in accordance with the provisions of the memorandum mentioned in paragraph 8 above.

14. Japanese repatriates arriving in Japan from British-controlled areas in Southeast Asia, China, and the Netherlands East Indies will be processed in accordance with the provisions of this memorandum.

SECTION V - REPATRIATION TO AND FROM OTHER INDICATED AREAS.

15. Mass repatriation to China (including Manchuria), and to and from Formosa and the Solomon, Marshall, Caroline, Bonin, Gilbert and Marianas Islands has been completed.

BASIC: Annex III to Memo to IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

SECTION VI

16. Repatriation of former residents of Korea south of 38° north latitude and of the localities named in Sections III and V above, remaining in Japan, will be considered only on the merits of each individual case and provided that proof is presented that individual did not forfeit his privilege of repatriation.

SUPPLY AND TRANSPORTATION

1. The following govern the provision of food, clothing, and other supplies for repatriates.

a. Adequate food, safe drinking water, clothing and medical supplies will be provided repatriates while enroute to and in the reception centers. Resupply will be arranged if trains are delayed while enroute to the reception centers.

b. All Japanese-manned vessels, including hospital ships, leaving designated ports in the home islands (paragraph 2a, Annex II) will be provided by the reception centers with sufficient stocks of palatable food, safe fresh water, medical supplies, clothing and other items required for the ships' crews and repatriates on the outgoing and return voyages plus enough stocks to take care of unforeseen delays.

c. The cost of supplies and facilities for repatriates will be borne by the Imperial Japanese Government.

d. Supplies of food and clothing for the reception centers will be levied proportionally on all prefectures of Japan.

2. Transportation.

a. Water transportation will be provided without cost to repatriates.

b. Rail transportation will be provided without cost to authorized repatriates moving to reception centers under Japanese planned evacuation.

c. Vessels and trains will be clean, and adequate sanitary facilities therein will be provided.

d. Adequate fire fighting equipment and life rafts will be provided Japanese-manned repatriation vessels.

3. Emergency supplies furnished repatriation ships in foreign ports.

a. Arrangements have been made with the authorities who control ports outside of Japan to accept receipts for necessary supplies issued to Japanese-manned ships servicing those ports.

b. Masters of Japanese-manned vessels engaged in repatriation will be instructed to furnish quantitative receipts for supplies obtained outside of Japan. Receipts will specify amount and kind of supplies and whether supplies will be used for Japanese troops or civilians.

c. The Imperial Japanese Government will:

(1) Provide fuel, fresh water, medical supplies and food for all Japanese-manned ships engaged in repatriation to the maximum extent practicable from Japanese sources. Accordingly Japanese-manned vessels will obtain supplies at overseas ports in minimum amounts necessary to complete their scheduled voyages.

(2) Take necessary measures to insure that the masters of repatriation ships do not request or accept supplies and/or repairs in Soviet or Soviet-controlled ports, except in dire emergency and unless the seaworthiness of the ships or the safety of the passengers and the crews is endangered by failure to accept such supplies and/or repairs.

MEDICAL AND SANITARY PROCEDURES

1. The Ministry of Public Welfare will carry out the following medical and sanitary procedures as minimum requirements incidental to repatriation of all nationals to and from Japan.

a. Procedures with respect to all repatriates will provide for:

(1) Physical inspection for detection of louse infestation, and of cases and suspects of quarantinable diseases (cholera, plague, smallpox, louse-borne typhus, and yellow fever) or of communicable disease which might prejudice the health of subsequent contacts.

(2) Hospitalization or other effective segregation of persons known or suspected to be infected with quarantinable or significant communicable diseases, until communicability has passed. Persons with the following diseases will not be placed aboard vessels or trains carrying repatriates: typhoid and paratyphoid fevers, plague, typhus, smallpox, cholera, relapsing fever, Japanese "B" encephalitis, pneumonia, influenza, diphtheria, scarlet fever, chicken pox, measles, pertussis, mumps, cerebrospinal meningitis, poliomyelitis, encephalitis "A", and epidemic hemorrhagic fever.

(3) Persons with the following diseases may be placed aboard repatriation ships, provided the Supreme Commander for the Allied Powers is notified and proper surveillance is maintained enroute: amebic dysentery, bacillary dysentery, enteritis or diarrhea, malaria, kala azar, tuberculosis, pleurisy, undulant fever and venereal disease.

BASIC: Annex V to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

(4) Appropriate measures for continued observation of persons known to have had contact with a quarantinable disease of a type liable to convey infection. Observation will continue during the incubation period of the disease concerned, calculated from the day of last contact. The following incubation periods will be observed: smallpox - 14 days, louse-borne typhus - 12 days, plague - 6 days, yellow fever - 6 days, and cholera - 6 days (see paragraph 3).

(a) In accordance with the risk involved, appropriate measures may vary from detention under observation to notification to the responsible control agency in the country of entry of the presence of passengers aboard ships that have been exposed to the diseases mentioned in paragraph 1a (4) above.

(5) Disinfestation by DDT of all repatriates arriving in Japan. Disinfestation will include the clothing and baggage of such persons and other articles susceptible to infestation.

(6) Immunization.

(a) The following vaccinations will be given:

1. Smallpox vaccination will be given to all outgoing repatriates, and all incoming repatriates not vaccinated within one year.

2. Typhus vaccine will be administered to all outgoing and incoming repatriates.

3. Cholera vaccine will be given during spring and summer to all incoming and outgoing repatriates.

4. Typhoid vaccine will be administered to all Korean repatriates destined for Korea north of 38° north latitude.

(b) Only the initial dose of a multi-dose vaccine need be administered at the reception centers if the flow of outgoing repatriates would be impeded otherwise, except that 2 inoculations against cholera will be administered to each Ryukyuan repatriate during the appropriate seasons.

(c) A certificate, in the English language, indicating which vaccinations have been administered, will be

furnished each outgoing repatriate prior to embarkation on repatriation ships.

(7) Maintenance of records required to comply with International Quarantine procedure.

b. Procedures with respect only to Japanese-manned vessels will provide for:

(1) Inspection for rodent infestation aboard such vessels arriving from areas in which plague is known to be occurring or is considered endemic.

(2) Fumigation by cyanide, sulfur dioxide, or other method submitted to and approved in advance by the Supreme Commander for the Allied Powers, of vessels in which a case of rodent plague has been detected, or in which there is an excessive number of rats as determined by the amount of feces present. Where fumigation can not be arranged trapping or poisoning programs shall be carried out under the supervision of the port authorities.

(3) Examination for infection with plague of all rats recovered after fumigation, or trapping. Monthly reports of such procedures will be submitted to the Commanding General, Eighth Army.

(4) Vessels infected with or suspected to be infected with plague shall not be permitted to come alongside a wharf until freed of infection. Rat infested vessels coming to dock shall be fended off at least six feet, all lines shall be fitted with rat guards and all gangways and other connections with shore removed during the hours of darkness or kept well-lighted and under guard.

(5) Disinfestation with DDT will be accomplished monthly on all vessels operating on shuttles where less than a month is required for a round trip. Vessels requiring more than a month for a round trip will be disinfested with DDT prior to departure from Japan on each voyage.

(6) Other sanitary measures approved by the Supreme Commander for the Allied Powers as appropriate for control of diseases aboard vessels, including adequate provision for safe drinking water and proper disposal of wastes, and thorough cleaning of vessels at port of debarkation. In all cases ships will be thoroughly cleaned prior to their departure from Japan and in the shortest practicable time.

(7) Providing ships' masters with the necessary means and equipment to maintain a high degree of sanitation while at sea. The Imperial Japanese Government will require ships' masters to enforce the desired high standard of cleanliness and sanitation.

c. Procedures with respect to reception centers will provide for:

(1) A continuing program of rat control and autopsies of captured rats in all reception centers with immediate notifications to appropriate Allied military and Japanese authorities whenever a plague rat is found. Monthly reports as provided in paragraph 1b (3).

(2) All immunizations, processing and disinfestation of ships, and personnel and their baggage being done at the reception center. A blanket certificate to the effect that all required procedures have been accomplished will be attached to the passenger manifest.

(3) Physical inspection being done during daylight hours, except in exceptional circumstances in which the flow of repatriates would be impeded otherwise.

(4) Additional measures of port sanitary control, including in particular investigation of enteric infections, being carried out by the Ministry of Public Welfare as desirable and feasible provided that the flow of repatriates is not impeded thereby.

d. Japanese crews of repatriation vessels will be vaccinated for the diseases enumerated in paragraph 1 a (4) above. Immunization will be considered valid not to exceed the following periods: smallpox - 1 year, louse-borne typhus - 6 months, cholera - 4 months, yellow fever - 5 years, plague - 3 months. Each member of the crew will be issued an immunization register, indicating type of vaccination and the date the vaccine was administered. The crew members will carry these registers at all time. Loss of immunization registers will necessitate revaccination.

e. Members of crews of incoming repatriation ships carrying smallpox cases will be vaccinated, or revaccinated, and the responsible control agency notified that the ship can be dispatched when five days have elapsed subsequent to the vaccination. This will not apply to ships carrying quarantinable disease other than smallpox.

f. The Imperial Japanese Government will direct the captains of Japanese-manned repatriation vessels to notify the responsible control agency in the country of entry of the presence on board ship of any of the diseases listed in paragraph 1 a (4) above or of exposed passengers traveling during incubation periods. Notification will also include cases of significant communicable disease, the institutionalization of which is not immediately practicable, i. e. tuberculosis, etc. When applicable, the ship's master will report the ship free from contagious disease.

2. Japanese medical personnel to be furnished for repatriation shipping.

a. The Imperial Japanese Government will assign medical personnel for permanent duty aboard all Japanese-manned repatriation shipping as follows:

(1) On ships making voyages of less than four days duration, two medical orderlies.

(2) On ships making voyages of four days or longer duration, a doctor and two medical orderlies.

b. The Imperial Japanese Government will obtain names and itineraries of shipping requiring Japanese medical personnel from the Shipping Control Authority for the Japanese Merchant Marine.

3. Quarantine procedures for cholera among repatriates.

a. The Imperial Japanese Government will take the following measures immediately to prevent the introduction of cholera into Japan by individuals being repatriated from ports infected with cholera. Ports so infected will be designated by the Supreme Commander for the Allied Powers as "cholera ports."

b. In the case of ships with repatriates from cholera ports which arrive without cases of cholera aboard:

(1) Where the voyage has taken more than six (6) days, all personnel, except crew members who have been inoculated within the previous one month period (see paragraph 1 d above), will be inoculated with 1 cubic centimeter of cholera vaccine and debarked, and processing procedures will be performed as usual.

BASIC: Annex V to Memo for IJG, file AG 370.05 (7 May 46)GC, (SCAPIN 927), dated 7 May 1946, subject: Repatriation.

(2) Where the voyage from the cholera port has taken less than six (6) days, all personnel will be held aboard the ship until six (6) days have elapsed, the personnel physically examined for cholera, and if no cases are found they will be disembarked as described in paragraph 3b (1) above. In the event cholera is found, the procedure will be as prescribed in paragraph 3c below.

c. Ships which arrive in Japan WITH CHOLERA ABOARD will use only the port of Sasebo until directed otherwise by the Supreme Commander for the Allied Powers.

(1) Ships will be anchored sufficiently far from shore to preclude the possibility of anyone swimming to shore or contamination from the vessel washing ashore.

(2) All personnel will be held on board for fourteen (14) days after the development of the last case.

(3) Cases of cholera will be removed from the ship to a hospital ship anchored off shore or the isolation hospital ashore, which will receive and treat cholera cases among repatriates. Great care will be exercised in sterilizing all discharges from the patients (using cresol solution in such strength as to obtain a 2 percent effective concentration of disinfectant), screening to protect from flies and isolation of attendants.

(4) All personnel (except cholera patients, and crew members who have been inoculated within the previous one month period) will be inoculated with 1 cubic centimeter of cholera vaccine.

(5) During the quarantine period the feces and urine of all personnel will be treated with a 2 percent cresol solution before being discharged into the sea.

(6) A stool examination will be performed on all personnel to detect carriers. All carriers discovered will be isolated in the same manner as cholera cases and kept until three negative stool specimens have been obtained at two day intervals.

(7) The baggage and clothing of all personnel will be sterilized.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(5) Vermin-free persons who had no contact with either typhus cases or vermin-infested persons may be released under 12 days' surveillance provided their anti-typhus vaccinations are up to date or provided vaccination is given upon arrival.

6. Quarantine for arriving vessels infected or suspected of being infected with plague.

a. Vessels:

(1) A plague infected vessel shall be detained in quarantine and immediate measures instituted for the destruction of rodents and vermin aboard.

(2) Disinfection of personal effects, baggage, bedding, quarters, kitchens, store rooms, etc., shall be accomplished as the quarantine officer may direct to insure that the vessel is freed of infection.

b. Persons:

(1) Persons infected, or suspected of being infected, with plague shall be isolated and kept under medical observation until known to be non-infectious.

(2) Contacts shall be held under observation or surveillance for a period of 6 days subsequent to last possible exposure.

7. The Imperial Japanese Government will furnish the vaccine necessary for medical processing at all repatriation ports in Japan. Where it is not possible for the Imperial Japanese Government to furnish vaccines in the required amounts, the Supreme Commander for the Allied Powers will be notified of deficiencies with reasons therefor.

allowed to be brought in plus the proceeds of any exchange made at the port of debarkation will not exceed the limitations of paragraph 2a (1) above.

(2) Effect no exchanges of any foreign currency brought into Japan including, but not by way of limitation, currency of the Bank of Chosen, the Bank of Taiwan, and the Central Bank of Manchuria. All such currency carried to Japan by repatriates will be taken up against individual receipt and held in safe custody pending further directions from the Supreme Commander for the Allied Powers. The above will not be construed to amend or nullify paragraph 3 of Memorandum from the Supreme Commander for the Allied Powers, file AG 123 (13 Dec 45) ESS/FI, dated 13 December 1945, subject: Relief Payments to Japanese Repatriates.

d. Permit the following financial instruments to be brought into Japan as indicated below:

(1) Postal savings pass books of the Japanese Post-al Savings System issued in Japanese yen.

(2) Post Office life insurance policies (includes post office annuity policies and certificates) and other insurance policies issued by Japanese companies.

(3) Bank pass books issued by financial institutions in Japan.

(4) Japanese Army and Navy field-postal savings pass books.

(5) Remittance receipts, payable in yen, issued to repatriates from China by the Yokohama Specie Bank in China against yen deposits, provided that the total yen amount of remittance receipts carried by any person, when added to the yen currency, exchange certificates and/or Japanese Government bonds does not exceed the amounts stipulated in paragraph 2a (1) above.

e. Permit them to carry with them their clothing and personal possessions of value only to the owner. This will be limited to the amount each person can carry at one time.

f. (1) Take up against individual receipt:

(b) Gold or silver coin.

(c) Gold, silver or platinum bullion or alloy thereof in bullion form.

(d) Checks, drafts, bills of exchange, securities, promissory notes, payment instructions, transfer orders, or other financial instruments, except as in paragraphs 2a through 2d above.

(e) Powers of attorney, proxies, or other authorizations or instructions to effect financial or property transactions within or outside Japan.

(f) Any other evidence of indebtedness or evidence of ownership of property not specifically enumerated above.

(g) Art objects and personal property of value to others beside the possessor, and personal possessions in excess of limits prescribed in paragraph 2e above.

(2) Hold these items taken up against individual receipt in safe custody pending further directions from the Supreme Commander for the Allied Powers.

g. (1) Permit the following to be brought into Japan by repatriating overseas forces.

(a) Administrative documents relating to military personnel to include service records, data on promotions, awards, decorations, pay, allowances and allotments, and other official documents necessary for completing final records and discharge papers of military and auxiliary personnel. Administrative regulations and procedures covering personnel matters are included in this authorization.

(b) Tables of organization and equipment, strength returns, changes in command and military directories.

(c) Health regulations, hospital records and sick reports.

(d) Courts martial proceedings, records of arrests and confinements, and files of pending cases.

(e) Inventories, budgets, receipts, disbursements and settlements of purely military accounts.

(f) Demobilization and repatriation regulations.

(g) Census of Japanese nationals in various areas.

(h) Official documents necessary for settlement of accounts of the deceased who were formerly in the military of auxiliary service.

(i) Lists of missing personnel and deserters.

(j) Official organization seals.

(2) Items listed in paragraphs 2g(1) (a) through 2g (1) (j) above will be subject to screening by appropriate authorities at ports of embarkation and debarkation. When cleared at the port of embarkation, the items will be placed aboard departing repatriation vessels in the custody of an individual designated by the Allied commander in that area. The appointed custodian of the documents will present his credentials and clearance certificate from the port of embarkation to the proper authority at the port of debarkation for final clearance to transfer these documents to the control of the Imperial Japanese Government. The provisions of paragraph 2g (1) above are not to be construed as a matter of policy and do not abrogate the prerogative of the local Allied commander to retain in his area such documents as he considers necessary.

3. In processing Korean, Chinese, or Formosan nationals, or Ryukyuans being repatriated from Japan to their respective homelands, the Imperial Japanese Government will:

a. Permit them to take with them yen currency in an amount not to exceed ¥1000 per person.

b. Permit Koreans, Chinese and Ryukyuans to take with them in addition to currency:

(1) Postal savings pass books and bank pass books issued by financial institutions in Japan and in the country to which they are being repatriated.
