PASSIVE DEFENSE MEASURES AGAINST AIR ATTACK

1. Rescissions: Operational Directive Number 1, this headquarters subject: Passive Air Defense Measures Against Air Attack, dated 14 November 1947 and changes thereto.

SECTION I - GENERAL

2. References:

a. Letter, Headquarters Eighth Army, file AG 370.2 (FB), subject: "Passive Defense Measures Against Air Attack", dated 21 June 1947.

b. Operations Memorandum Number 3, Headquarters I Corps, subject: Passive Defense Measures Against Air Attack, dated 17 May 1949.

c. Army Air Forces Field Manual 1-25, Air Defense, 15 June 1943, with special reference to paragraph 5, change 1, 17 February 1945.

d. Field Manual 5-15, Field Fortifications, 14 February 1944 and Field Manual 5-35, Reference Data, 24 March 1944.

e. Field Manual 5-20, Camouflage, Basic Principles, February 1944, and Field Manuals 5-20, A through H, concerning camouflage of specified installations.

3. Purpose: The purpose of this directive is to prescribe the responsibilities and govern the action of Kobe Base troops and civilian personnel, and the civilian population within its zone of responsibility in PASSIVE AIR DEFENSE. Expressions defined in paragraph 4 below, and capitalized throughout this document will be used by all echelons in preparing instructions pertaining to PASSIVE AIR DEFENSE.

4. Definitions

a. ACTIVE AIR DEFENSE - comprises all measures aimed to destroy or threaten destruction of hostile aircraft and their crews in the air. It is provided by fighter aviation, anti-aircraft artillery, air warning service, air obstacles, and controlled small arms fire.

b. AIR DEFENSE - includes all measures necessary to prevent, to interfere with, or to reduce the effectiveness of hostile air action after hostile aircraft have left their own airdromes or carriers. These measures include both ACTIVE and PASSIVE measures.

h. PASSIVE AIR DEFENSE - includes all measures other than ACTIVE AIR DEFENSE measures taken to minimize the effect of hostile air action, such as the use of cover, concealment, dispersion, aircraft observers, air raid wardens, blackouts, alerts, and shelters.

i. RECOGNITION - means that an aircraft is established as friendly or hostile by visual observation.

SECTION II - GENERAL INSTRUCTIONS

5. Preparation for and Conduct of Defense:

a. The CATEGORY OF AIR DEFENSE for troops of Kobe Base and the civilian population in the Kobe Base zone of responsibility is CATEGORY I until such time as changed to CATEGORY II or III by this headquarters.

b. CATEGORIES OF AIR DEFENSE are as follows:

(1) CATEGORY I - during this period all units and all AIR

RESTRICTED

DEFENSE ELEMENTS will continue to perform their occupation, training and other missions in accordance with existing directives.

(2) CATEGORY II - During this period all units and all AIR DEFENSE ELEMENTS will train for AIR DEFENSE. Preparations will be made and training will be so conducted that all units and all AIR DEFENSE ELEMENTS will be able to meet the requirements of CATEGORY III without delay. Responsible commanders will insure that PASSIVE AIR DEFENSE measures can be placed in effect upon the declaration of CATEGORY III.

(3) CATEGORY III - During this period all units and all AIR DEFENSE ELEMENTS will be fully deployed and ready to exert their full combat effectiveness in accordance with combat alert conditions prescribed by Commanding General, Far East Air Forces. PASSIVE AIR DEFENSE measures will be placed in effect as directed by Commanding Officer, Kobe Base.

c. Commanders listed in paragraph 6 below will prepare appropriate directives and standing operating procedures to implement the instructions contained in this directive and will submit their plans to this headquarters, attention: S3, not later than twenty (20) days after receipt of this directive. Plans will be classified in accordance with paragraph 8, AR 380-5, 1946.

(1) Direct communication between local ground, air and naval commanders is authorized for coordination of plans.

(2) Japanese government officials and Japanese civilian population will not be informed or advised of plans or organization for PASSIVE AIR DEFENSE until CATEGORY II has been declared.

d. Standing operating procedures will incorporate:

(1) Actions to be taken and training to be instituted under each of the three categories of AIR DEFENSE. (See Inclosure 1, "Training Program for PASSIVE AIR DEFENSE" CATEGORY II)

(2) Full consideration to existent signal plans for receipt of AIR RAID WARNING MESSAGES from Fifth Air Force and dissemination to subordinate units will be given. In the operation of audible warning devices FLASH RED will be indicated by three (3) signals, FLASH WHITE by one (1) signal and AIRBORNE ATTACK by seven (7) signals. No general alarm will be given for FLASH BLUE. AIR RAID WARNING MESSAGES will normally originate from the AIR DEFENSE COMMANDER for the Kobe Base area and will be transmitted during duty hours to S2-3 section, this headquarters, and during off duty hours to the Staff Duty Officer, this headquarters.

RESTRICTED

DECLASSIFIED E.O. 12065 SECTION 3 (E)(2) NNSS NO.

(3) No engineering or logistical effort other than planning will be expended during CATEGORY I. Such effort will be initiated promptly upon declaration of CATEGORY II. In order to insure proper coordination in the planning for proper dispersion and technical protection such as sand-bagging; etc., of vital installations, commanders listed in paragraphs 6b,c,d,e, and f will recommend to the Kobe Base Engineer, installations, such as critical utilities, dumps; etc., which they feel should be protected from air attack. Commanders concerned will submit these recommendations to the Base Engineer not later than twenty (20) days after receipt of this directive.

(4) Stress upon provisions for protection against heavy blast effects reference 2d above. Full consideration will be given to utilization of blast resistent exterior shapes and lead shielding for vital installations.

(5) Upon announcement of CATEGORY II, supply installations will be dispersed to an extent necessary to insure against a crippling result from any one strike. POL supplies will be broken into small concentrations separated by a minimum distance of five (5) miles.

(6) Provisions for organization and training of civilian fire, first aid and bomb disposal teams in coordination with the Provost Marshal and Hyogo Military Government Team.

(7) Direct control of the civilian population of Japan by air raid wardens and police to enforce blackouts and restrictions to circulation, including restriction to quarters during hours of darkness when CATEGORY III has been announced. Instructions for such control to be given through the Provost Marshal and Hyogo Military Government Team.

(8) Ground force units other than anti-aircraft artillery will not fire at aircraft unless the aircraft is RECOGNIZED or IDENTIFIED as hostile and is <u>directly attacking</u> the unit.

(9) The contemplated use of smoke by area commanders will be reported to this headquarters for clearance and coordination with local air and anti-aircraft commanders to insure non-interference with active defense measures. Unless a situation arises where the use of smoke is, in the judgement of the area commander, absolutely necessary for security, any such use will be reported to this headquarters by the most expeditions means.

(10) Organization and establishment of a PASSIVE AIR DEFENSE center under the organization of S3 or operations officer for the control and coordination of PASSIVE AIR DEFENSE activities under CATEGORY II and III. Such center will be in charge of a commissioned officer.

(11) Establishing specific areas for dispersion of POL supplies and other critical items.

(12) Plans for submission of daily PASSIVE AIR DEFENSE reports to this headquarters during CATEGORY II and III, to include negative reports, such reports to originate in each PASSIVE AIR DEFENSE center. Unusual incidents concerning PASSIVE AIR DEFENSE will be reported to this headquarters, attention: S2-3.

(13) Plans for the organization of the following:

(a) A minimum of two (2) rescue parties for Kobe Quartermaster Depot and one (1) per separate battalion, company or similar size unit. Such party to consist of one (1) officer, and one (1) noncommissioned officer and such additional men, vehicles, and equipment as are necessary to accomplish the rescue mission. Light rescue work consist of those measures necessary to enter a building or area damaged by air attack for the purpose of evacuating dead or injured personnel who are not pinned down by debris or otherwise trapped. Rescue work which requires the removal of debris, timber or other objects of a similar nature in order to evacuate dead or injured personnel is considered heavy rescue work. This type of work will be performed under the supervision of the Base Engineer.

(b) A minimum of four (4) fire watchers and one (1) fire fighting squad per company or organization of similar size. Each fire fighting squad will be equipped with necessary shovels, axes, sand and buckets to effectively prevent or reduce the spread of fire.

(c) A minimum of one (1) first aid team per company or organization of similar size which will be equipped with necessary bandages, splints, and medicine to facilitate the administration of first aid and evacuation of injured personnel to the nearest aid station.

(14) Provisions for:

(a) Security guards at the site of plane crashes.

(b) Installation of blackout equipment in all buildings in which personnel would be required to work during hours of darkness.

(c) Enforcement of blackout regulations on the local population through the Provost Marshal and Hyogo Military Government Team.

12 March 1949

Commanding Officer
Hyogo Military Government Team

Sir:

For the purpose of supplying necessary teaching materials and developing observation ability in the students, Kobe City established a Botanical Garden (Kyozai-en) 700 meters north of Shiogahara.

The park, however, cannot be put to practical use by the students of the primary and lower secondary schools at the present time because of its location. The road from Futatabi to the park via Shiogahara, which is considered the shortest way to the park from the central part of the city, has been declared "off limits" to the Japanese by the Occupation Forces.

In view of the above circumstances, I would like to request your special consideration and assistance to open to Japanese students and teachers the road leading to the Kyozai-en Botanical Garden. Perhaps certain days and hours can be assigned when students and teachers may use this road.

Any assistance you can render the undersigned will be greatly appreciated.

Sincerely yours,

PROPOSED POLICY FOR COMPLETION OF PROFESSIONAL TRAINING OF RYUKYUAN STUDENTS WHOSE EDUCATION IN JAPAN WAS INTERRUPTED BY THE WAR

1. Ryukyuan students who were attending institutions in prewar Japan proper and its possessions for professional training and who had not had more than three years to complete when their education was interrupted by the war will be afforded the opportunity to complete their education in Japan at Ryukyus Command Military Government expense under the following conditions:

a. Eligibility: The following classes of students are eligible to complete their education and will be required to sign the contract (copy attached as inclosure 1):

(1) Those students presently residing in any of the Ryukyus Islands.

(2) Those students presently in Japan:

(a) Who are attending recognized institutions of learning at other than Ryukyus Command Military Government expense who submit competent proof that they need financial aid to enable them to complete the final 3-year period of professional education.

(b) Who, though not now attending school, had started their education and now have three years or less of professional education to complete and are unable to continue their courses due to lack of necessary funds, provided they are otherwise eligible.

(3) Those post-graduate students who submit proof that they are unable to continue necessary post-graduate work in professions determined by the Ryukyus Command Military Government to be critical (see b, below.)

b. Critical Professions: Ryukyuan students who are considered by the Ryukyus Command Military Government to be qualified to pursue further training for the following professions which are deemed essential to the successful accomplishment of Military Government's mission in the Ryukyus, will upon application and qualification be permitted to complete necessary professional training not in excess of three years leading to the conferring of requisite degrees in the professional field in which trained:

c. Security Clearance: Students who attain eligibility and are selected for training will be selected, and if in actual residence in the Ryukyus will be assembled at Okinawa for processing purposes and determination of security clearances.

d. Approval of Educational Institution by Ryukyus Command Military Government: The Ryukyus Command Military Government shall exercise control over the educational institution to be attended by the student to the extent that prior approval of the institution by the Ryukyus Command Military Government in writing shall be prerequisite to selection. For the purpose of facilitating the selection and approval of such educational institutions, a list of approved educational institutions will be compiled by General Headquarters, Far East Command, and furnished to Ryukyus Command Military Government.

e. Interruption of Student's Education: In event of interruption of education by reason of family emergencies, or other partial completion of education at Ryukyus Command Military Government expense, the student who has received benefits under the policy herein set forth, by the terms of his agreement may be required to serve in a capacity comparable to his education and ability for a period which shall be based upon such ratio and proportion of a four-year period as he shall have attended school at the expense of the Ryukyus Command Military Government.

f. Records of Student: As consideration for payment of tuition by the Ryukyus Command Military Government, educational institutions will be required to submit attendance records, progress reports on and grades of students to enable responsible military commanders to determine whether continuation of individual students at the school is warranted or justifiable.

g. Funds: The following are the detailed procedures governing the transmission of necessary funds to implement this program. Funds for payments outlined below will be forwarded through appropriate channels and deposited with the Bank of Japan (or other financial institutions designated by Commander-in-Chief, Far East,) in blocked accounts established in the name of each individual student. The Bank of Japan (or other financial institutions designated by Commander-in-Chief, Far East,) will be authorized by Ryukyus Command Military Government to pay to the individual students funds to defray their quarters and subsistence expenses at a stipulated rate per week or month as deemed necessary.

(1) Quarters and Subsistence Payments: Such payments or

allowances shall be upon minimum standards, in no case in excess of the standard of living consistent with the average of students at the particular institution attended.

(2) Tuition Fees, Cost of Text Books (where provided) Laboratory Fees, etc.: Ryukyus Command Military Government will forward through appropriate channels for deposit in the Bank of Japan (or other financial institutions designated by the Commander-in-Chief, Far East,) in a blocked account funds necessary to cover such payments. The Japanese Ministry of Education will be utilized as an administrative agency to collect from the various educational institutions consolidated bills for such payments. These bills will be presented to General Headquarters, Far East Command, for approval. Upon approval, Ryukyus Command Military Government will authorize the Bank of Japan (or other financial institutions designated by Commander-in-Chief, Far East,) to pay from this blocked account the bills presented by said educational institutions.

(3) Contingent Fund: The Ryukyus Command Military Government will forward through appropriate channels funds to be deposited in the Bank of Japan (or other financial institutions designated by Commander-in-Chief, Far East,), in a blocked account to be known as a "Contingent Fund." Authorized uses of this fund are as follows:

(a) Major medical expenses may be paid out of said "Contingent Fund" upon approval by Ryukyus Command Military Government. Major medical and dental care (exclusive of maternity care) will be provided at the expense of the Ryukyus Command Military Government during the period of travel to and from the educational institution and during periods of actual attendance including recess and vacation periods. Incidental medical expenses of these students will be borne out of the funds paid to them for quarters and subsistence.

(b) Purchase of necessary textbooks.

(c) Emergency expenditures authorized by Ryukyus Command Military Government.

h. In the interests of economy of administration and time a controlling agency designated by Commander-in-Chief, Far East, will be

PROPOSED POLICY FOR COMPLETION OF PROFESSIONAL TRAINING OF RYUKYUAN STUDENTS WHOSE EDUCATION IN JAPAN WAS INTERRUPTED BY THE WAR

1. Ryukyuan studants who were attending institutions in prewar Japan proper and its possessions for professional training and who had not had more than three years to complete when their education was interrupted by the war will be afforded the opportunity to complete their education in Japan at Ryukyus Command Military Government expense under the following conditions:

a. Eligibility: The following classes of students are eligible to complete their education and will be required to sign the contract (copy attached as inclosure 1):

(1) Those students presently residing in any of the Ryukyus Islands.

(2) Those students presently in Japan:

(a) Who are attending recognized institutions of learning at other than Ryukyus Command Military Government expense who submit competent proof that they need financial aid to enable them to complete the final 3-year period of professional education.

(b) Who, though not now attending school, had started their education and now have three years or less of professional education to complete and are unable to continue their courses due to lack of necessary funds, provided they are otherwise eligible.

(3) Those post-graduate students who submit proof that they are unable to continue necessary post-graduate work in professions determined by the Ryukyus Command Military Government to be critical (see b, below.)

b. Critical Professions: Ryukyuan students who are considered by the Ryukyus Command Military Government to be qualified to pursue further training for the following professions which are deemed essential to the successful accomplishment of Military Government's mission in the Ryukyus, will upon application and qualification be permitted to complete necessary professional training not in excess of three years leading to the conferring of requisite degrees in the professional field in which trained:

c. Security Clearance: Students who attain eligibility and are selected for training will be selected, and if in actual residence in the Ryukyus will be assembled at Okinawa for processing purposes and determination of security clearances.

d. Approval of Educational Institution by Ryukyus Command Military Government: The Ryukyus Command Military Government shall exercise control over the educational institution to be attended by the student to the extent that prior approval of the institution by the Ryukyus Command Military Government in writing shall be prerequisite to selection. For the purpose of facilitating the selection and approval of such educational institutions, a list of approved educational institutions will be compiled by General Headquarters, Far East Command, and furnished to Ryukyus Command Military Government.

e. Interruption of Student's Education: In event of interruption of education by reason of family emergencies, or other partial completion of education at Ryukyus Command Military Government expense, the student who has received benefits under the policy herein set forth, by the terms of his agreement may be required to serve in a capacity comparable to his education and ability for a period which shall be based upon such ratio and proportion of a four-year period as he shall have attended school at the expense of the Ryukyus Command Military Government.

f. Records of Student: As consideration for payment of tuition by the Ryukyus Command Military Government, educational institutions will be required to submit attendance records, progress reports on and grades of students to enable responsible military commanders to determine whether continuation of individual students at the school is warranted or justifiable.

g. Funds: The following are the detailed procedures governing the transmission of necessary funds to implement this program. Dear Sir:

Please excuse me to write you direct stating the true circumstances of the P.T.A. of the above school as a representative of the commitee and parents of the same association. I earnestly ask your honor would take necessary measure to stop the unreasonable plan made by the president of the P.T.A. Mr. Takahashi.

The opinion of the mayor of this city is that the above plan was decided by the agreement of the guardians association, ex-mayor and representatives of the city assembly in the year before last; there is no way of cancelling unless the majority of present P.T.A. oppose against this plan. Takahashi threatened us often to resort to the violence calling the town people of Miyagawa-cho (they belong to the special class) for his help. Every parents of pupils of this school are opposing this plan because the new school building site is in Uchide-Hama-machi, the lowland innundated often by the attack of typhoon, and difficult to evacuate the farmers living there and moreover the burden of more than million yen expense is almost unbearable for the new P.T.A. several

Please keep this matter secret and send some one to this school to summon PTA members for expressing the free opinion or else Takahashi will act the hush up agitation and then persecute us and our children.

I urgently hope your honor would take the proper steps to root up the such a feudalic boss from our city.

It has been reported to this Committee that at Tokyo the children of local foreign residents may attend the American School for dependents, the fees being 95 ¢ per day, including lunch and transportation.

As the information seems reliable, we would ask whether it were not possible to give a similar privilege to the children of foreign residents of this city and vicinity. They are few, probably, but even these few should, if at all possible, have better chances of education. In spite of all their efforts, local bodies are evidently not yet in a position to offer satisfactory schooling.

Since the question vitally affects the welfare of future generations, we would thank you to give it your benevolent consideration.

Subject: "Information & Education"

With reference to our letter of the 12th July concerning participation of children of foreign residents in the American School for Dependents, we wish to express our gratitude for having approached the competent department on our behalf.

Some time afterwards our delegates had an interview with Capt. Fisher, of Kobe Base, which in principle was quite satisfactory.

As requested by Capt. Fisher, we have now obtained certain details covering the applicants' status. These we enclose, with the request to be good enough to pass them on in the usual manner. We understand that the particulars will have to be submitted to HQ 8th Army for decision, and shall be glad to hear results. The delay could unfortunately not be avoided because of difficulty of communication.

Names of applicants are:

DECLASSIFIED E.O. 12065 SECTION 3 NLJ/RMS NO.

Dear Sirs,

When you are very busy in attending with occupation affairs we are very sorry to trouble you and yet we are obliged to report the following matter asking your best consideration upon it.

At this time of reconstructing democratic Japan,there are still remained some customs,remnant of almighty gold politics, in our new educational system. Entrance examination being nominal,we may find some facts that entrance into school is admitted according to the amount bribe given. If it is overlooked new 6-3-3-4 new educational system will be meaningless,boys and girls of new yen class only given chance of receiving education at the sacrifice of the talented but poor.

We,under-signed,are very much regretful of this fact in the faith of righteousness and can not help disclosing the fact herewith before you.

We are the parents of boys who had received entrance examination of Nada Middle School in this year 1947,private establishment at Uozaki-cho,Muko-gun. The boys have failed the examination because we,parents could not accept inducement of bribery made by the school,although school record submitted by primary school seemed fairly good.

Of course,we don't know anything about the amount of money it seems the amount is,however, large enough we can not afford it with moderate income. As you know, the said school has not suffered from war damages and we can not find any reason to offer such a big amount of money.

DECLASSIFIED E.O. 12065 SECTION 3 NLJ/RAC NO.

Continued:-

We may find some of the matriculated boys of about 150 are inferior record holders of primary school and yet passed the examination by the bribery of some amount of money and on the other hand, talented enough to pass any diificult examination the boys have failed because their parents could not afford to offer money.. We,under-signed, disclose unfairness of school authority as above.

We beg you to investigate on the above and take necessary step for the sake of new educational system in future.

Yours faithfuly,

To C.I.C. Kobe Area;

This year my brother took the entrance examination of the Nada High School. About 500 applied when only 100 students are allowed to enter, so we were in a very hard situation. After three-day Oral Examinations, the result was published, and my brother failed. My brother was not among the best scholars in the primary school, and so we contented ourselves with this ill-luck. But, after this, we have heard many unpleasant rumours which made us doubt if those 100 students who were allowed to enter were really boys of ability selected from among 500. The rumour is that if we did some monetary contribution to the school, any boy will be permitted to enter irrespective of his ability in his study. Since this is the rumour we heard, we do not know for certain whether this is true or not. But, we do not think that such rumour comes out from the groundless fact.

If this should be true, we must admit that those 100 boys were all from the rich families. His brother, also has been attending the same chool, and our home is very close to the school, beside. But, we are not in the position to make the monetary contribution to the school. We heard that among those who failed there were many excellent boys. We feel very sorry for them.

If the fate of the children should be decided by the ability or powers of their parents, it would be too pity for them to endure. If the examination were of such nature, it would be much better not to take such one.

To the boys of innocent minds, what a miserable impression the word "Failed" would give !

DECLASSIFIED E.O. 12065 SECTION 3 402/NNSC NO.

They say that the gate was wide opened than before, but, in some part, this kind of examination system is still remaining. This system is worse and tricky than before.

We fear this kind of examination will be imposed upon the boys for the entrance into the high-school(private) in every year. We do hope the school does not make such a bad rumours as this in the future,and that we could open up the way for those boys so that they can advance with their own ability. And again we do hope that their fate should not be influenced or decided by the powers of the parents.

Reports from Ken Education Office on Investigation of the Alleged Corruption Case at Nada Middle-school.

June 18, 1947

In response to the Order from the Military Government here we, officials concerned of the Hyogo Ken Education Office, investigated into the foregoing subject-matter and got the following results:-

The signers (three women of Uozaki Town) of the letter to C.I.C. as hereto attached are the mothers or close relatives of the three students who failed in the last spring to enter into the said Middle School supposedly on account of their inferior scholarship, but their parents and others seem to have thought the matter in a different light, as the letter to C.I.C. indicates. We could not obtain any clear evidence of the said corruption case, but we have heard from some of the Uozaki townfolks including the signers of the letter mentioned above the sums of money used for the bribe to the school authorities are ranging from 3,000 to 10,000 yen in each case.

A certain school teacher in the Town is said to have stated that "You need possibly an extra sum of 10,000 yen to put your child into the Nada Middle School", while the principal of the middle school is quoted as, "Our school is very expensive for the students, so, unless the children of rich people may be not able to stand the expenses". The ordinary expenses of the Nada M.S. are 60 yen a month, and it is apparently not this sum that the principal referred to.

Letter from Students' Parents about
Bribery Affair of Nada Middle School
for Entrance to it.

****

To C.I.C.

from Tane Omine.
Nori Asuka. -----Uozaki Towns-people.
Masa Yoshida.

April (no date mentioned) 1947.

Gentlemen:-

For your informations we wish to state here the following fact concerning the alleged corruption case of the Nada Middle School of our town. The case being only one of the many which have been (some are still now) perpetrated in our country for the past generation, and our entrance examination of the middle schools in many cases were simply in name, as most of the students were permitted to their schools by bribing the principals or teachers a certain sum of money or some goods. The following may be said really one of the similar cases that are still in existence despite the time of democratization of our country, particularly that of our educational system or method.

The Nada Middle School in our Town of Uozaki is a private establishment, not being affected at all by the war-fires, did its school business in a normal condition all through the last year just as before the war. But the rumors of its corruption are now rampant, as were in the past years, that many students were rejected from their entrance to the school at the start of this school-year because their parents could not afford to pay the money implicitly demanded of them

or suggested to them by the school authorities for the price of permitting their children to the school. We do not know exactly in what amount was the money demanded, but it is said that the same was more than we the common people could afford.
