THE POLICY OF OUR HOUSE

It is the Policy of Our House to supply the consumer everything on which we can save him money, goods that can be delivered at your door anywhere in the United States for less than they can be procured from your local dealer; and although our line covers about everything the consumer uses, there is scarcely an article but what will admit of a saving of at least 15 per cent., and from that to 75 per cent., to say nothing of the fact that our goods are as a rule of a higher grade than those carried by the average retailer or catalogue house, and we earnestly believe a careful comparison will convince you that we can furnish you more and better goods for your dollar than you can obtain from any other establishment in the United States.

We are Able by Reason of our Enormous Output of Goods to make contracts with representative manufacturers and importers for such large quantities of merchandise that we can secure the lowest possible prices. To this we add the smallest percentage of profit possible, and through the medium of catalogues offer the goods to our customers, and on our economic one-small-profit plan, direct from manufacturer to consumer, a large percentage of the merchandise we handle is owned by the purchaser at less than local dealers can buy in quantities.

We Employ no Agents. By the aid of our numerous catalogues our customers can deal with us direct. Thus the farmer, miner, mechanic, business man, in fact, anyone, can send in his or her own order and save money.

Our Terms are Alike to All. A trial order will convince you of the saving worked by our economic one-small-profit plan. If you will carefully read this catalogue and study our prices, it will be a safeguard against your paying someone else too much money. The prices we quote in this catalogue are the lowest wholesale cash prices which you can take advantage of whether you buy in large or small quantities.

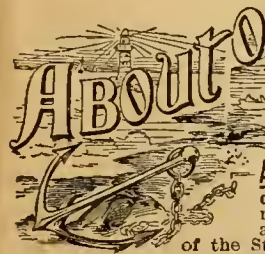
We Aim to Illustrate Honestly and Correctly Every Article. So far as possible, illustrations are engraved from photographs taken directly from the article. Our illustrations and descriptions are such as will enable you to order intelligently; in fact, so that you can tell what you are getting as well as if you were in our store selecting the goods yourself from stock.

Our Employees are Instructed to treat every customer at a distance exactly as they would like to be treated were they in the customer's place; in fact, if you favor us with your patronage we will feel under obligations to do everything in our power to merit your trade, and no matter how small your order may be it will receive the same prompt and careful attention as if it were ever so large.

We Aim to Treat Our Customers in a manner calculated to secure their permanent patronage. The unprecedented growth of our business proves that we have succeeded in supplying the wants of the people in a satisfactory manner and at lower prices than they could possibly secure elsewhere.

We Deem that the Best Advertisement any firm can have is a well satisfied customer. We aim to bring the manufacturer and consumer closer together. The closer the relation between the manufacturer and consumer, the more economy to all concerned, and in a great measure it does away with the long chain of profits in the handling of merchandise.

ABOUT OUR RELIABILITY



As this Catalogue may fall into the hands of some who are not acquainted with our reputation for fair and honorable dealing and do not know of our financial standing, would say we are authorized and incorporated under the laws of the State of Illinois, with a cash capital and surplus of over $450,000.00 paid in full.

We Refer by Special Permission to the Metropolitan National Bank, Chicago, German Exchange Bank, New York, to any Express Company in Chicago, any old reliable business house or financial institution in this city, or, if you have any friends residing in this city, write them and ask them concerning our house.

On Page 6 we Show a fac-simile copy of the letter given us by the Metropolitan National Bank. Such a letter would not be given to any concern unless their reputation was beyond any question of doubt. Should you write for information to any of the references given, be sure to enclose a two-cent stamp for reply.

We Give You this Privilege. If you have any doubt as to our reliability you can send your order and money to the Metropolitan National Bank, or any express company in Chicago, with instructions not to turn it over to us unless they know us to be thoroughly reliable and a concern that will do exactly as we agree.

About our Prices

It Will Ever be Our Aim to maintain the reputation we have earned as the Cheapest Supply House on Earth.

We Employ The most competent buyers that money can obtain, and their long experience with us places them in a position to understand our customers' wants.

You Can Get Your Goods For as little or less money than your local dealer pays for his, if you buy from us. As our immense trade requires us to purchase in such large quantities from American and European manufacturers and always for cash, we are assured of the lowest possible prices.

We Pay Cash for all Goods No matter how large the quantity and our established reputation gives our buyers the inside track with every manufacturer, thereby giving us the benefit of first choice on the market.

Then We Sell for Cash. Having no bad debts, no traveling men's expenses, no expenses for collections, we can sell at a far lower margin of profit than any other dealer, and when you buy from us you are not helping to pay for all such useless expenses.

Our Buyers are Always on the Alert for Special Sales. If there is a manufacturer or importer who is temporarily embarrassed and must have money, we are ready to buy, and our customers always get the benefit of our bargains.

Our Bargains are our Customers' Bargains. Many articles in this catalogue are quoted at less money than the actual cost to produce. No matter how cheap we buy we add the smallest percentage of profit consistent with honest goods and honest representations, and that is our net price to one and all, the price against which no other concern can compete. Prices that establish us as the Cheapest Supply House on Earth.

We Make no Reduction in our Prices. To those who are inclined to write us for a reduction from the prices quoted in this catalogue we would state that we cannot afford to make any concessions, whether you order in large or small quantities. When making up our catalogue we realize that in order to guard against competition we must quote the very lowest price on each and every article. That we have succeeded in defying all competitors is proven by the large increase of our business daily.

TERMS

Our Terms and Methods of Shipment.

We desire to make our terms and methods of shipment as liberal and easy as possible, consistent with absolute safety and to prevent loss, which would otherwise add to our selling price.

A Large Portion of our Merchandise can be shipped by express or freight, C.O.D., subject to examination, where a sufficient amount of cash accompanies the order to cover transportation charges both ways. In such cases the amount sent with order will be deducted from the full amount of order and the balance you can pay upon receipt of goods.

For a List of Goods which cannot be shipped C. O. D., see page 3, and read carefully our instructions on "How to Order" and "How to Have Goods Shipped." Also article headed "C. O. D. Shipments."

How to Order

Always Keep Supplied With Our Order Blanks If out of them at any time, drop us a postal card and we will be pleased to send you some. When ordering, carefully fill out our order blank as shown in the sample order blank on page 5.

If You Write an Order on letter paper instead of an order blank, carefully note the following instructions:

Always sign your full christian name.

Write your name in full, clearly and distinctly.

Give your postoffice, county and state, and your shipping point, if different from the postoffice.

Don't forget to sign your name, for if you do we will be obliged to hold your order until you complain.

Be Sure to Enclose your money with your order. State plainly in your order how much money you enclose, and in what form. Sending your money in one envelope and your order in another causes delay and confusion in our office, as they become separated in the mails.

For Instructions on how to send money, see article headed "How to Send Money."

Always give catalogue number and price of each article ordered and the description of same.

Always try to mention the number or name of catalogue or circular from which your order is taken.

We Must Have Your Correct Size or measurements for such goods as hats, caps, gloves, shoes, hosiery, underwear, clothing, ladies' ready-made dresses, cloaks, and the size and color of everything which has size or color.

By carefully observing this you avoid errors and loss of time by our having to write for this information.

When Out of the Exact Goods ordered by a customer, we usually substitute an article of equal or better value, instead of delaying the order to write for this privilege.

If You are Not Willing that we should do this, please state in your order "Do not substitute," and we will always be guided by this request in filling your order.

After Writing an Order check it over closely to see that you have written the right catalogue numbers, the right prices and have written the total amount of the order correctly.

Be Sure size, colors, weight or measurements are not omitted and are absolutely correct.

Be Sure you have followed our rules carefully about enclosing the proper amount of money with the order, including enough to pay postage and insurance fee, if sent by mail.

Be Sure your name and address are plainly written in full; that your shipping directions are plainly stated; that the exact amount and kind of money enclosed is plainly stated, and you will seldom, if ever, have any delay or inconvenience.

Do Not Forget to State How you wish your goods to be shipped. After reading our terms and methods of shipment on page 2, state in your order whether you wish your goods shipped by freight, express or mail. If to be sent by mail, do not fail to send cash in full with the order and a sufficient amount extra to pay postage and insurance fee, if the latter is desired. We will always refund when there is a balance in the customer's favor. For postage and insurance rates on goods to go by mail, see "Mail Shipments" and "Insured Mail Shipments" paragraphs.

If There is No Agent at Your Station we cannot ship goods C. O. D. In such cases it will be necessary to send cash in full with the order and in addition to send sufficient money so that we can prepay transportation charges for you at this end.

Be Sure to allow enough money for the transportation charges, as we always refund where there is a balance in the customer's favor. For transportation rates, weights, etc., see page 7.

Do Not Send Money to prepay transportation charges, if there is an agent at your station, as the rate is the same at either end of the line.

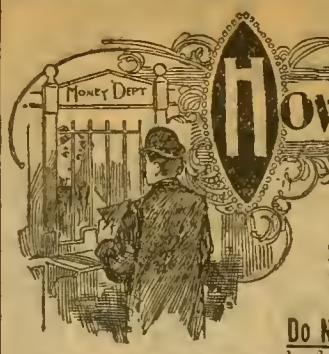
Do Not Ask Us to Ship Any Goods in Any Way that does not conform fully with our terms and methods of shipment—see the different articles on our methods of shipment on page 8.

Always Try to Write Remarks concerning your order on the same sheet with the order. This will prevent the possibility of such remarks being separated from the order.

If You Wish to Refer to Any Matter not concerning the order, be sure to write it on a separate sheet. Do not write about it on your order sheet, though you may enclose it in the same envelope with your order. Our orders and letters are handled in separate and distinct departments and, therefore, please do not fail to observe this rule.

Should You Have Occasion to write us concerning an order which you have previously sent us, do not fail to mention the date upon which your letter was mailed, also state the nature and value of your remittance, the name and address as given in your order. This information will enable us to promptly locate the matter you refer to.

Change of Address. We would kindly request our customers to immediately advise us concerning any change of address, as we keep our records according to states and towns, and should you order from one town and then write from another, we would be compelled to send for further information before we could adjust the matter in question.



How to Send Money

Remit by Postoffice Money Order, Express money order, bank draft, cash or stamps. We do not accept revenue stamps. Foreign stamps and due stamps, as they are of no value to us. Do not send them. Postage stamps will be accepted in any amount in accommodation to our customers.

Do Not Send Your Individual Check, as your order will be delayed until we make collection, and the expense of collection will be deducted.

We Recommend the Express Money-Order System, because it is inexpensive, of less trouble, and is safe. Besides this, if it should get lost or miscarry, your loss will be made good by the express company.

Do Not Under Any Circumstances send money or stamps in a letter except by registered mail. If sent by open mail the letter may never reach us, and in such a case a great amount of trouble and inconvenience is caused, as well as the loss you sustain. If you prefer to remit by registered mail we advise the use of two envelopes, one inside of the other, and the outer one carefully and securely sealed. Do not send gold or silver coin that is defaced, as light-weight coins are worth no more than bullion and bullion is less than the face value of the coin.

To Insure Safety always register a letter containing money. Be sure to state in your order plainly how much cash you inclose and in what form. You need not be afraid of sending too much, as we always refund when too much money is sent.

Remember, we cannot be held responsible for money sent by open mail, nor for money sent in a registered letter, although we consider this last-mentioned method safe if carefully sealed and two envelopes used, one within the other.

We Positively Require cash in advance with your order, and sufficient money to pay postage in addition to the amount of your order when goods are to be sent by mail. Goods sent by mail, which are of any value, should be insured. See next article below on "Insure Mail Shipments."

The Postage Rates on Mailable Goods, is one cent per ounce, or fraction of an ounce, or 16 cents per pound, and so far as possible we have given the weight of each article under each description. If you are not sure as to the weight of the articles, be sure to inclose enough money for postage, as we will always refund the amount overpaid.

A Package To Be Shipped by Mail must not exceed 4 pounds in weight, but any number of packages may be sent to the same address, weighing 4 pounds or less each. A package may go by registered mail at an additional cost of 8 cents per package.

Insuring a Mail Package is safer, however, and we would advise having all mail shipments insured. The insurance fee is usually less than the cost of registering, and in case of loss we will duplicate the shipment, providing the customer will send an affidavit that the goods were not received. (See our plan for insuring mail shipments, given below.)

We Are Constantly Sending Out large quantities of goods by mail to all parts of the United States, and, with very few exceptions, goods reach their destination. All goods sent by mail are at purchaser's risk unless insured. We can assume no responsibility after package is deposited in the postoffice, unless the goods are insured. We would advise insuring everything of value. In such cases we assume the responsibility and secure the customer against possible loss.

Explosives, Poisonous or Inflammable Articles are unmailable. Sharp-pointed instruments and glass, such as Needles, Knives, Pens, and Lantern Slides, etc., can go in mailable cases at an extra cost of five cents for each mail case. Liquids, not more than 4 ounces, may be inclosed in vials or bottles and packed in wooden boxes, as provided for by the United States postal laws. Allow five cents for each wooden box.

We Have Perfected a Plan of Postal Insurance, and will, until further notice, insure small packages, when so instructed, and money is allowed, as follows:

For a package, valued at $5.00 or under..... 5 cents each
For a package, valued at from $5.00 to $10.00.. 10 cents each
For each additional $5.00 in value..... 5 cents extra

If You Want Your Mail Package Insured be sure to write "Insure" in your order, and in addition to your remittance for the order be sure to add enough money to pay postage and insurance fee. To secure adjustment it is necessary to make prompt notification of the failure to receive package.

When It Is Necessary to write regarding any order previously sent to us, never fail to mention the invoice number and the town from which your order was mailed.

All Claims, for shortage, damage, etc., must be made within five days from receipt of invoice.

Remember, on open mail shipments we cannot assume any responsibility after the goods are deposited in the postoffice, therefore we would advise having orders of any value insured. (See rates of insurance under heading "Insure Mail Shipments.")

We Are Without Doubt the largest express shippers in the world. When cash in full accompanies the order we will ship goods to any part of the United States when so desired. Shipping goods by express is an absolutely safe method, yet if the goods are very heavy the transportation charges would be less when sent by freight. If left to our judgment we will send goods by the most advantageous way to our customers, as we always consider weight, bulk, value, classification, distance, and the cost of transportation. We pack each express shipment so as to make the lightest package possible, and this reduces the express charges to a minimum.

There is no Necessity of prepaying charges, unless you are sending goods to a friend or have no agent at your station. In such cases cash in full must accompany the order, together with a sufficient amount to cover the charges. If you have an agent at your station it will not be necessary to prepay charges, inasmuch as they are the same at either end of the line. We use boxes or cases for express shipments only when necessary to insure safe transportation, but make no charge for such.

Heavy Bulky Merchandise can be shipped most profitably by freight. Our customers would save money if they would anticipate their wants in advance, and solicit their neighbors to join them in sending one large freight order instead of several small orders, as the transportation charges would be very light when divided among several.

All Household Goods and heavy articles of no great value, such as hardware, groceries, woodenware, furniture, etc., should be shipped by freight. The railroad companies usually charge no more for 100 pounds than for 50 pounds.

Have You an Agent at Your Railroad Station? If not, you must add enough cash to your remittance to prepay the charges at this end of the line; otherwise it will not be necessary, as the rates are the same whether prepaid or collected at destination.

For the Approximate Freight Rates see page No. 7, or have your regular freight agent quote you freight rates from Chicago to your point.

In Case there Should be any Loss or Damage To goods in transit, we will, as an accommodation, make a claim on the transportation company in your favor if so desired, and will render all assistance in our power to aid you in making prompt collection; but our responsibility ceases when we receive the receipt from the railroad company showing the goods received by them in good order. Loss or damage to goods in transit seldom occurs and is very rare.

We Make no Charge for boxes or cases, but pack and deliver all goods on board of cars in Chicago, with the exception of vehicles, which we deliver free on board cars at factory.

About Freight and Express You must pay the freight or express, but it will amount to next to nothing compared with what you will save in price.

The Table of Freight and Express Rates Shown on following pages, shows just what the freight or express rate is per 100 lbs. to different points in the different states and territories. It isn't necessary to write us for freight rates. From the table you can tell almost exactly the cost of freight or express to any point. Almost all heavy articles, such as groceries, nails, etc., go at fourth-class freight rate. Light and bulky goods, such as vehicles, clothing, furniture, dry goods, etc., go at first and second-class freight rates.

Take the Nearest Town in Your State as given in our table and the freight or express rate to your town will be almost, if not exactly, the same rate, and in this way you can calculate very closely the freight or express charges you will have to pay. Freight is the cheapest way to ship, and by freight we recommend shipments of 50 pounds or more to a shipment.

C. O. D. Means Collect on Delivery, that is, the goods to be paid for when received at your station. Much of our merchandise can be shipped C. O. D. by express or freight when a sufficient amount of deposit is sent with the order to cover transportation charges both ways, as an evidence that the goods will be accepted if found as represented.

The Amount of this Deposit Will be deducted from our invoice, and the balance of the amount will be collected at your station. It frequently happens that goods ordered would not make a profitable C. O. D. shipment. We therefore reserve the right to decline to make a shipment of goods under these conditions, should we deem it advisable.

Our Terms are not intended as a reflection upon any single customer, but we are compelled to adhere to them strictly in order to treat one and all alike.

Orders For Less Than $2.00 cannot be shipped C. O. D., as it would not be profitable for the customers to have goods of less than that value shipped C. O. D., because of the return charges on the money which transportation companies charge on all C. O. D. shipments. We cannot ship goods C. O. D. to foreign countries.

Goods of Medium Weight and large value always make profitable express shipments.

When Shipping Goods by Freight C. O. D. we collect the balance through your bank or express agent, as you may request, provided a sufficient amount is sent with the order to cover freight charges both ways.

If You Have No Agent at Your Station We cannot ship C. O. D. In such cases cash in full must accompany your order and in addition a sufficient amount to cover transportation charges

You Run No Risk by sending too much money, as we always refund any balance in the customer's favor.

By Sending Cash in Full With Your Order you save the collection and return charges on draft, which you have to pay when goods are shipped C. O. D.

We Will Advise You when shipment is made, and where the freight receipt is sent. Call there, pay the amount of C. O. D. and collection charges, when you will receive the freight receipt, then present this freight receipt to the railroad agent, who will deliver the goods to you upon payment of the transportation charges.

The following goods we do not ship C. O. D. UNDER ANY CIRCUMSTANCES:

- Sugar.
- Crockery.
- Glassware.
- Cartridges and Empty Shells.
- Powder, etc.
- Seines and Fish Nets.
- Wallpaper.
- Barbed Wire and Nails.
- Rubber Goods.
- Medicines, unless ordered with other goods.
- Rubber Belting.
- Leather.
- Shoe Findings.
- Tents.
- Baby Carriages, to points over 700 miles from Chicago.
- Hair Goods.
- Millinery Goods.
- Veterinary and Surgical Instruments.
- Syrups.
- Feathers.
- Goods made to special order, such as Engraved Jewelry extra large-sized suits, etc
- Candy.
- Rope.
- Grain Bags.
- Window Glass.
- Goods sold by the yard

If You Live in Any of the following States a cash deposit, sufficient to cover the transportation charges both ways, must accompany order for a C. O. D. shipment.

- ARIZONA,
- FLORIDA,
- LOUISIANA,
- NEVADA,
- OKLAHOMA TERRITORY,
- TEXAS,
- CALIFORNIA,
- IDAHO,
- MONTANA,
- NORTH CAROLINA,
- OREGON,
- UTAH,
- WYOMING,
- COLORADO,
- INDIAN TERRITORY,
- NEW MEXICO,
- NORTH DAKOTA,
- SOUTH CAROLINA,
- WASHINGTON.

Be Sure to Send Enough Money. You lose nothing by sending too much, for the amount you send will be credited on your bill. If you should not send enough, we should be obliged, under our rules, to hold the shipment and write for additional cash deposit.

To Equalize or reduce the cost of transportation, we advise the sending of club orders. Anyone can get up a club. Simply have your neighbors or friends send their orders in with yours and advise us to ship all to one person by freight. If each customer writes their order under their own name, it will be a very easy matter for us to make a separate bill for each, and the freight charges will be next to nothing when shared by several persons.

If You Live at a Far Distant Point and wish to order some article or articles of merchandise which together would weigh about 20 lbs., the value of which may be $5.00 or less, and you find that the express charges will be from $1.25 to $2.75, and there is nothing further in our catalogue that you require at the time, show this catalogue to your friends. Let your friends add 20, 30 or 40 lbs., even 50 or 75 lbs. of groceries, or hardware, or other goods, then the goods can go by freight at about the same rate as the express charges.

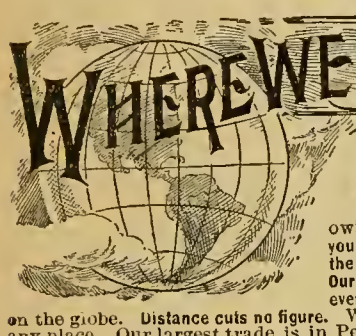
For Example: If you live far west of the Rocky Mountains and are about to order 20 lbs. of merchandise, you find the express would be $2.00. Get some friends to add 60 lbs. of groceries or other merchandise to your order, making 80 lbs. altogether. The entire shipment can go by freight for $2.00 and your portion of the transportation charges will be 50 cents. By this you can see that several articles of weight added together reduce the cost of freight to next to nothing on each article. See our freight rates on page 7.

ABOUT UNPROFITABLE SHIPMENTS.

We Frequently Receive Orders which we term "unprofitable" shipments. For example: A party living far distant may order a dollar's worth of sugar to go by express. The express charges would equal the cost of the sugar. We occasionally get an order for heavy hardware, the order amounting to perhaps less than $5.00. The goods weigh 100 pounds. We are asked to ship them by express. This is usually an "unprofitable" shipment. An order for a single pair of heavy cheap boots to go a great distance by express, or for very bulky woodenware or furniture or other merchandise, might be what we term an "unprofitable" shipment.

We Would Advise Our Customers to study the freight and express rates as given on the following pages, for we do not wish you to send us a dollar for anything unless we can save you money on the purchase.

Orders that Would Be Unprofitable to ship by mail or express may be very profitable when sent by freight, but as 100 pounds is usually carried by freight for the same charge as 10 pounds, by adding other merchandise to your order, either for yourself or by getting your neighbors to join you in making up a large order, you can make the shipment very profitable.



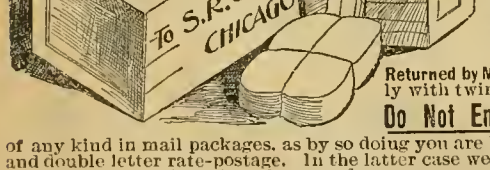
Our Catalogues and Other Printed Matter may fall into the hands of those living at remote distances who will not think of buying owing to the great distance. Don't think you live too far away. There is not a town in the United States where we have not sold goods. Our goods go into every city, town and hamlet in every state, as well as to almost every country on the globe. Distance cuts no figure. We can serve you at any time and in any place. Our largest trade is in Pennsylvania, next in New York, third Illinois, fourth Ohio, and so on according to the population of the different states.

Freight and Express Rates are usually low and we have special facilities for shipping, because we carefully consult the various classifications so as to pack your goods in such a manner as will entitle them to the lowest possible transportation charges.

Get Other Information concerning express and freight rates on the following pages, and you will see that the transportation amounts to next to nothing as compared with what you save in price.

You Pay Freight or Express no matter where you live or where you buy; you may as well pay it to the railroad company and be dealing direct with first hands, as to pay it in the way of an exorbitant price to local dealers.

HOW TO RETURN GOODS



The United States Postal Laws and Regulations require that all packages of merchandise sent in the mails must be wrapped or enveloped in such a manner that their contents may be readily examined by the postmaster without destroying the wrapper. Never Seal Packages Returned by Mailure-tnuma esaeerttthnn, bseeerttthnn ly with twine.

Do Not Enclose Written Matter of any kind in mail packages, as by so doing you are liable to a fine of $10.00 and double letter rate-postage. In the latter case we always deduct the extra postage from the value of your order.

Before Returning the Goods to us in any manner, we would ask that you communicate with us in regard to them, as we are frequently able to adjust matters in a very satisfactory manner to the customer and avoid the delay occasioned by return of goods.

When Returning a Package by Mail write your name and address plainly in the upper left hand corner, providing you do not have one of the labels which we furnish when we know goods are to be returned. Send us by separate mail, the particulars and instructions.

Invoice Number. Be sure to mention your invoice number when returning goods.

Never Return Goods by Express if the weight is more than 25 pounds, as it is cheaper to send heavy packages by freight. When you return goods by express or freight be sure to enclose in the package your letter of instructions and particulars. Don't forget we must always have your invoice number. Never write us about a shipment and omit the invoice number. Don't forget that a letter containing full instructions should be in all express and freight shipments returned. Don't forget we must have your full name and address, exactly as given in the original shipment, in order to properly adjust any matter pertaining to an order returned.

ABOUT MISTAKES.

We Make Mistakes: so do all business houses, but when we do make them we are always glad and anxious for an opportunity to rectify same. Notwithstanding the fact that we employ every known modern convenience in conducting our business, errors will occasionally creep in, and unless our customers report such errors we have no opportunity of righting the wrong.

Do Not Fail to Report any oversight, shortage, inattention or error on the part of our clerks. Do it pleasantly, if possible, if not pleasantly, report it anyway and you will always find us willing to adjust any error to your entire satisfaction.

TO AVOID UNPLEASANT DELAYS, USELESS CORRESPONDENCE ETC., PLEASE OBSERVE THE FOLLOWING FIXED RULES, REGULATIONS AND GENERAL INSTRUCTIONS:

Two to Five Days are required to fill orders. Consider the time for your order to reach us, allow us from 24 to 48 hours in which to fill the order, add to this the time required for a freight or express shipment to reach you, and (as freight and express matter is sometimes delayed a few days in transit) kindly allow from two to five days extra and you will seldom, if ever, be disappointed in getting your goods on time.

Do Not Get Impatient. If you will allow a little extra time you will seldom, if ever, need to write to us concerning a delayed shipment. If at any time you should feel that an order sent us has been delayed more than a reasonable length of time, and you wish to write to us, be sure to mention the date on which your order was mailed, the name and address exactly as given, together with the nature and value of your remittance, and invoice number, if you have it, that we may promptly locate the same, as our records are kept under states and towns, as well as names. It sometimes happens that our customers fail to sign their names on their orders and in such cases we can only hold the order until a complaint comes in.

Questions are Often Asked us which are fully explained in our catalogue. Kindly look through the first pages of this catalogue for the desired information and you will often save yourself the delay and trouble of writing.

Should You Order any of our special catalogues or samples and not receive them in four or five days, it is needless to inquire concerning them. In the rush of business we may for a few days run out of certain catalogues or samples, but when an order is received it is entered upon our mailing list, and the catalogues or samples will be forwarded as soon as possible.

Consider we have several thousand orders and several thousand letters to handle every day, and while we have from 700 to 1,000 people in our employ and are always glad to answer communications, unnecessary delays, time and labor may be avoided by carefully reading our catalogue and studying our terms and methods of doing business. See pages 2 and 3.

Our Aim is to Handle Your Order with the greatest possible dispatch and accuracy, to treat every customer alike and to enable us to accomplish the very best results we desire to obviate unnecessary correspondence and the consequent delay arising from same.

SHIP YOUR GOODS BY FREIGHT

It will always Pay You to make your order large enough and heavy enough so that we can ship by freight, it is far the cheaper way, if the goods weigh 50 pounds or more

To have Your Order Shipped by Freight, if necessary get your neighbor to join you in making up an order and let us ship together and you can divide the freight up between you.

For Example. Take any point in Maine, the express charges on 15 pounds would be $1.00, while by freight you can ship 100 pounds to any point in Maine, at from 39 cents to 94 cents, according to class of goods ordered, so instead of ordering 15 pounds by express if you would add 85 pounds to your order and of assorted merchandise the total freight would probably amount to about 70 cents, you would save 30 cents as against the express rate and have an addional 85 pounds delivered free.

Your Neighbor will be Glad to Join You in Making up a Freight Order

THIS IS A FAC-SIMILE (AN EXACT COPY) OF AN ORDER WRITTEN ON OUR REGULAR ORDER BLANK.

A CAREFUL STUDY OF EACH POINT WILL AID YOU IN MAKING UP YOUR OWN ORDER.

ABOUT FREIGHT AND EXPRESS.

YOU MUST PAY THE FREIGHT OR EXPRESS, but it will AMOUNT TO NEXT TO NOTHING compared with what you will save in price.

THE FOLLOWING TABLES show just what the freight or express rate is per 100 pounds to different points in the different states and territories.

TAKE THE NEAREST TOWN IN YOUR STATE as given in our table and the freight or express rate to your town will be almost, if not exactly, the same rate, and in this way you can calculate very closely the freight or express charges you will have to pay.

FREIGHT IS THE CHEAPEST WAY TO SHIP, and by freight we recommend shipments of 100 pounds or more to a shipment.

IT ISN'T NECESSARY to write us for freight rates. From the table you can tell almost exactly the cost of freight or express to any point. Almost all heavy articles, such as groceries, nails, etc., go at fourth class freight rate. Light and bulky goods, such as vehicles, clothing, furniture, dry goods, etc., go at first and second-class freight rate.

APPROXIMATE FREIGHT AND EXPRESS RATES TO CENTRAL POINTS IN EVERY STATE AND TERRITORY.

	1st class freight per 100 lbs.	2d class freight per 100 lbs.	3d class freight per 100 lbs.	4th class freight per 100 lbs.	Express per 100 lbs.

SOME POINTS ABOUT EXPRESS.

All bulky and heavy goods should be shipped by freight. Whenever a shipment weighs less than 30 or 40 pounds it should be shipped by express. In most cases freight shipments weighing less than 100 pounds, **no difference how small or how light,** are charged by the railroad companies at the full 100-pound rate. In some few instances we can secure a minimum charge of less than the 100-pound rate when shipment weighs less than that amount.

☞N. B.—Where shipments are to be sent to points at which there are no agents, freight or express **must be prepaid.** In such orders we request full cash with order, together with sufficient additional to prepay express or freight.

The foregoing table also gives the official rates of express for each 100 pounds. **In most cases** the express on 50 pounds is just half of the 100-pound rate, and weights between 50 and 100 pounds are in the same proportion. Where the shipment is less than 50 pounds the rate is slightly higher in proportion to the weight. We give below, as an example, the graduated scale for various weights, where the rate is $3.00 per 100 pounds.

1 pound	$0 25
2 pounds	30
3 pounds	45
4 pounds	55
5 pounds	65
7 pounds	70
10 pounds	75
15 pounds	85
20 pounds	1 00
25 pounds	1 10
30 pounds	1 25
35 pounds	1 35
40 pounds	1 45
50 pounds	1 50
60 pounds	1 80
70 pounds	2 10
80 pounds	2 40
90 pounds	2 70
100 pounds	3 00

Up to 50 pounds the scale is graduated, and where the weight is more than 50 pounds, pound rate is charged. This rule applies where the rates are $2.00 per 100 pounds or more.

We trust that we have fully explained these matters. We are always willing and ready to answer questions relating to freight and express, but by going into detail we hope we may not only save you the bother of writing us, but may also at the same time enable you to determine just what your goods will cost you delivered in your home. We want you to feel that we will do what we say we will. **When we advertise a thing, it's so.** By our full explanation regarding freight and express, you can figure out for yourself just what you can save by taking advantage of the marvelous offers made in the pages of this catalogue.

We realize that our prices are so small that many doubts might arise in the minds of some, as to whether or not the goods we advertise are first-class, new and up-to-date. To answer all questions with a word, to set all doubts forever at rest, and to satisfy new customers of our good faith, we have arranged with all express and freight companies that many lines of goods may be examined at the depot. We have gone to the extreme of liability in terms, and in a large number of lines allow you the privilege of examining your purchase at your own depot. At the head of each department in this catalogue you will find a clear and liberal statement of the terms on which we ship each particular line of goods.

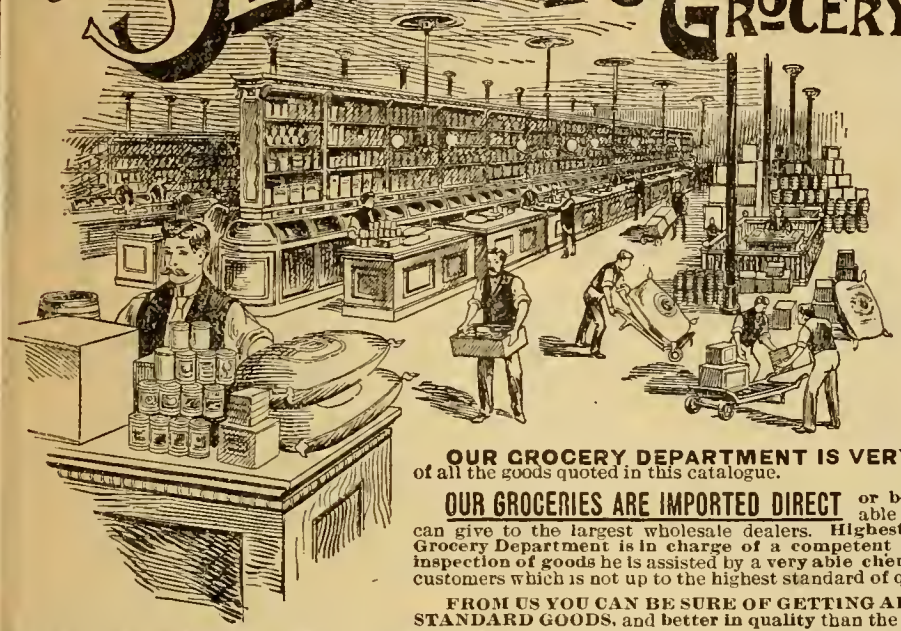
However, our trade is so established and our name so well known that nine-tenths of our orders contain full cash in advance. In sending full cash with order you not only obviate the inconvenience of **C. O. D.** shipments, but you have the advantage **on most goods,** saving express charges on return of money to us.

EXPRESS OR FREIGHT CHARGES add next to nothing to the cost of goods you order from us as compared with what you will save in price.

ONE ORDER will convince you that it pays to buy everything in merchandise from headquarters.

☞ Be sure to read about Our Prices and the Policy of our House on page 1 of this Catalogue. ☜

SEARS, ROEBUCK & CO. GROCERY DEPT



BUY YOUR GROCERIES AT WHOLESALE

IN NO OTHER LINE OF MERCHANDISE CAN YOU SAVE SO MUCH MONEY IN A YEAR.

GROCERIES ARE USED THREE TIMES EVERY DAY in every family. We can not save you very much on one meal, but on 1,095 meals, the number you and your family eat every year, we can surprise you on the amount of money we can save you. Your local dealer buys at wholesale and makes money on the groceries he sells you. You can buy at wholesale prices and save this profit; and isn't it your duty to buy as cheap as possible? to make your dollar go as far as possible?

OUR GROCERY DEPARTMENT IS VERY COMPLETE. We carry a very large and complete stock of all the goods quoted in this catalogue.

OUR GROCERIES ARE IMPORTED DIRECT or bought from the growers or manufacturers, hence we are able to offer you the same or lower prices than the largest jobbers can give to the largest wholesale dealers. Highest standard of quality is maintained in this department. Our Grocery Department is in charge of a competent manager, who has made this business a life study. In the inspection of goods he is assisted by a very able chemist, and nothing is allowed to remain in stock or go to our customers which is not up to the highest standard of quality.

FROM US YOU CAN BE SURE OF GETTING ALL STRICTLY FRESH, CAREFULLY INSPECTED, HIGH STANDARD GOODS, and better in quality than the goods carried by the average retail dealer.

FREIGHT RATES ARE LOW ON GROCERIES.

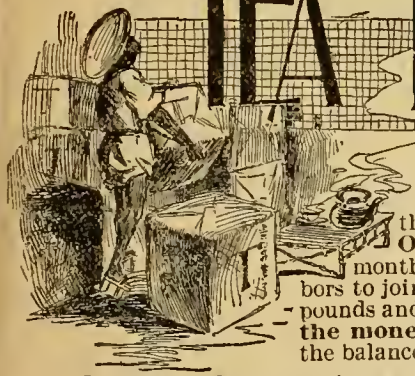
Most goods in this line take the lowest freight rate (4th class). (See 4th class freight rate per 100 pounds to different points on preceding page). All groceries should be shipped by freight and in not less than 100-pound lots to secure lowest transportation charges. Express shipments are seldom profitable on anything in this line. If your grocery order doesn't amount to 100 pounds, add the necessary 20, 30 or 40 pounds by making the weight up in sugar, soap, coffee, syrup, fish or other goods, it will pay you.

OUR CLUB ORDER PLAN works nicely in ordering groceries. Some of your neighbors would surely like to join with you in ordering, save the retailer's profit, make up the 100 pounds or more and secure the lowest transportation charges.

Odl customers find the grocery department a great advantage not only for the money they save on the groceries bought, but in ordering other merchandise they add just enough needed groceries, often only sugar, 20, 30, 40 and often 80 or 90 pounds and let the goods come in one 100 pound freight shipment. IT PAYS. Freight shipments of 100 pounds or over are the cheapest way to receive goods.

OUR TERMS. We will ship groceries by freight C. O. D., subject to examination, on receipt of a sufficient amount of cash to cover freight charges both ways. You can examine the goods at your railroad station and if found perfectly satisfactory and exactly as represented, pay the freight agent our price and charges, less the amount sent us with order. WE RECOMMEND CASH ORDERS, avoid the expense of collection through Bank, Express or Railroad Co., return of money to us, etc., besides cash orders are not so liable to delays.

TEA DEPARTMENT



ON TEA

You can save so much money by buying direct that you can't possibly afford to pay retail prices. **Order 10 or 20 pounds**—order enough to last six months. **It will pay you,** and it will pay your neighbors to join in with you. Try to make the entire order 100 pounds and let us ship by freight. **You need not send all the money at once**—send part and pay the freight agent the balance when received.

Our Own Importations.

We are direct importers of teas and can at all times meet every requirement as to quality, style of leaf or variety of growth. For convenience of those ordering by mail we simply grade by number, and guarantee exceptional quality and values at prices quoted.

SPECIAL NOTICE.

The revised prices herein take the place of all former quotations. The tariff on tea took effect June 13, 1898, and caused a considerable advance in cost of teas to all importers.

DIRECTIONS.

Place the dry tea in a tea pot, which has been previously warmed, and pour on water which has just come to boiling point. (Water which has been boiled before, or been kept boiling for some time, will spoil the tea.) By no means place the tea pot on the stove or close to fire. To do this, or to allow it to draw too long, extracts the Tannin from the leaf, destroys the flavor, and makes the tea harmful instead of healthful. After five minutes brewing, pour off for use.

Ceylon India Teas.

Comes in one and one-half pound packages, same as above. It is packed in the Ugalla Estate, hot from the firing kiln or sirrocco. The ends are soldered so that it is perfectly air tight, thereby retaining the fine flavor that this tea is noted for. We recommend this tea to all lovers of fine drinking teas; it being the highest grade raised on the estate of Ugalla, and ranking in leaf and flavor second to none.

BUY YOUR COFFEE DIRECT; you can just as well save the profit of the retailer; it will amount to a great deal in a year. **Order 50 pounds of coffee,** get your neighbor to join with you on a 100 pound order of groceries and other goods; you will be surprised how much you will save in cost. **The freight will amount to very little,** especially if several neighbors order together and divide it up; 100 pounds for 500 miles will be about 60 cents, and if the order contains goods for four families, it is 15 cents for each family. Consider this, then compare our prices with your local dealer's prices. So much can be saved by buying coffee and other groceries at wholesale that we know one order will insure our receiving all future orders.

MAKE UP A FREIGHT ORDER of groceries and add the other needed merchandise. Read our Club Order Inducements; it reduces freight, makes it cheaper for all and you make money for your efforts. Surely some of your neighbors will order with you; ask them. **We encourage freight shipment.** It's cheap. Include all the goods you need and don't forget the groceries.

A delicious cup of coffee makes a good breakfast.

Our coffees we import direct. Everybody praises their delicious aroma and flavor. It is very important to get fresh roasted coffee. Once the bean becomes stale and absorbs moisture, the flavor and good drinking qualities leave the bean and render it unfit for use. Often the merchant has coffee on hand for months; in such cases it loses both strength and flavor. If you want strictly fresh roasted coffee, place your orders with us. We guarantee every pound to be fresh and crisp. Coffee must be kept in an air-tight can or jar if you wish it to retain its strength and flavor.

SPICE DEPARTMENT

When we sell you pepper or cloves you can depend on it that the spice is all pepper or all cloves, and not rendered half worthless by an adulteration. You do not have to draw on your imagination when you use these goods. So constant has been the trade in these lines that we ascribe it to their general excellence.

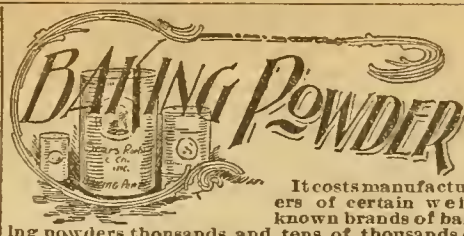
SEE SILVERWARE DEPARTMENT

For beautiful line of Table Casters, Condiment Sets, Silver-Plated Flat Ware, Etc., at lowest wholesale prices.



It costs manufacturers of certain well-known brands of baking powders thousands and tens of thousands of dollars a year for advertising. The tremendous cost of this advertising comes out of the pockets of people who buy.

The ingredients necessary to make a good baking powder are not so expensive. The cost comes in in creating a demand, and in selling the goods. Our special brands quoted below have stood the most rigid tests, and in buying them you pay for what the ingredients cost, without a high-sounding name and expensive advertising.

Home Baking Powder.

G 305 A pure Baking Powder, guaranteed to make as good a baking as the high-priced goods. Put up in 10, 5 and 1-lb. cans.

G 307 Our Silver Cream Baking Powder has no equal; it is absolutely Pure Cream Tartar Baking Powder. Superior to any so-called pure high-priced monopoly baking powder. More than twenty years ago cream tartar was worth 49 cents per pound, and bi-carbonate of soda 8 cents; now cream tartar and soda are about half former prices, and yet the monopoly goods remain the same. Will you be imposed upon longer? Any lady can put up a pure baking powder. It is no secret. Will you patronize monopolies that are robbing the public when you can get perfectly pure goods at a reasonable price? We guarantee to please or money refunded. Silver Cream Baking Powder,

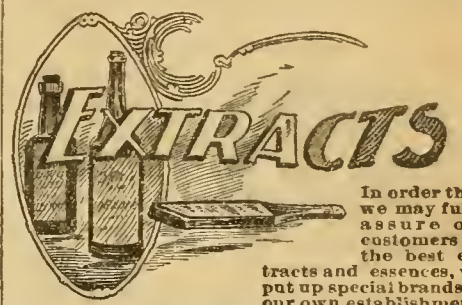
EXTRACTS



In order that we may fully assure our customers of the best extracts and essences, we put up special brands in our own establishment. One of the gentlemen connected with this department is a practical chemist of many years' experiments, and he has full instructions from the house to give such values as were never known of before. Retail dealers take advantage of comparative ignorance of customers on the relative value of extracts and secure very large profits on the inferior and usually adulterated line they carry. Try our brands and you will be more than pleased.

SHOULD NOT BE OMITTED in making up your order. **JUST LOOK AT OUR PRICES.** What have you been paying? What do we ask? What's the difference? Don't it pay to order here? **REMEMBER, TO MOST POINTS THE FREIGHT ON 100 POUNDS** is no more than on 50 pounds. So keep adding to your order until you have 100 pounds. If necessary ask your neighbor to help make up the 100 pounds, it will pay you so well.

We carry in our store only the latest season's products. In fact our stock is always changing and we are receiving constant fresh consignments from home and foreign markets. This enables us to offer at all times and seasons clean and fresh fruits, the very nicest that can be bought. We save you from 25 to 40 per cent and give you better goods.

Eighteen pounds of dried fruit are equal to three bushels of green, or one pound of dried fruit is equal to six pounds of green. This applies to all fruits and is the same whether fruits are evaporated or sun dried.

Prices subject to changes without notice. We always give our customers the lowest market price.

CANNED GOODS at wholesale prices, brings even luxuries in groceries within easy reach of all; it will pay you to buy these goods in dozen lots; two or three families should join in making up the order so as to get the dozen price and the lowest freight rate and that divided up.

If your Grocery order amounts to $5.00 or more, you need not send us all the money at once if you don't wish; send one-fourth the amount with your order, pay the balance to your freight agent when the goods are received.

Go over this Grocery List carefully, order just what you want, no more, no less, but don't forget the other departments, remembering a few things in other merchandise will add nothing to the freight. We claim for our goods that they are superior, pure and new. We take particular pains that our canned goods shall be of such desirability that we may gain a customer in each sale. We have made the prices just as low as such excellent goods can be put on the market at, and we agree to refund every cent where goods are returned immediately, if they are not found as represented. Canned goods come two dozen in a case, unless otherwise specified. We will assort cases at dozen rates when not more than six kinds are ordered, thus giving you an opportunity to obtain these goods at as near cost price as possible.

All 2½-lb. cans unless otherwise specified.

The Canned Vegetables on our shelves are always up to a general high standard of excellence. When you buy of us we sell you what you pay for, and that isn't an attractive can, only two-thirds full of inferior goods. Full measure and big value is the rule in this department. Buy and you will buy again. It pays to make up a hundred pound order by adding such canned goods as you need. Freight is very little when compared with what we save you.

FOR FISH WE ARE HEADQUARTERS; our prices should interest you; no dealer can buy cheaper; you can save 25% to 50% in price; 20 or 50 ponnds of fish may just make up the 100 pounds shipment, if so, be sure to add it, even if you get a neighbor to join with you, take part of the goods and pay part of the freight.

WE PREFER MAKING FREIGHT SHIPMENT—because it is cheaper for you. We urge club orders—because it's cheaper for you. We urge Grocery orders—because it helps to make up the 100 pounds weight, reduces the freight charge on each article to next to nothing and will surely result in your buying everything from us.

Send all the money in advance and get 2% cash discount, or send 25% in advance and pay the freight agent the balance when goods are received.

MEATS.

Prices of meats are fluctuating. We will charge you market rates on the day your order is received.

We handle only the best grades, and meats once cut cannot be returned. Sold only according to weight quoted. Our dealings are confined to two of the leading packers in Chicago, and we hence can guarantee that the meat when it leaves our store is pure and sweet.

We make it pay you to deal with us, for we save you the extra profit. Freight on this class of goods is very small and it will cost you very little for shipping a hundred pounds. You can almost always make up a freight order. Order such meat and flour and sugar as you will need, when you order your clothing or dry goods.

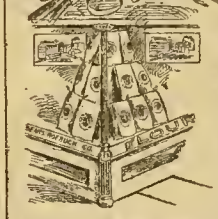
FLOUR DEPARTMENT



We want your orders for Flour. We want the orders because we are in a position to save you money on the best flour there is made. By saving money for you and pleasing you, we can count on you as a steady customer and friend. There isn't a cent in the flour business for us, and it may seem strange that we should urge you to buy goods from us on which we make no money. But the fact is we want to encourage you to make up freight orders. You can save more money when you ship by freight than by express.

Order your flour at the same time with your suit or some hardware, dry goods or other smaller articles, and all will come by freight at small expense.

Price subject to change without notice. We always give our customers the lowest market price.

The fluctuation in prices of flour and other groceries is well understood.

When there is a reduction we always give you the benefit. On the other hand, should the prices go up, we will be compelled to charge the goods to you at the exact advance on the day your order is received.

Farinaceous Goods.

Our stock is most complete. We keep the best because it sells best, and people keep on buying because they are pleased. Everything new and fresh. We receive new consignments almost daily. When you make your next order, include a supply of these goods to the amount of 100 pounds or so, and let the goods go by freight. Money saving is money getting, and we make both easy. More than that, we keep you supplied with nice goods, which ought to be a big object to you.

ORDER YOUR SUGAR FROM US. We guarantee for you the lowest Importation price on day your order is received. **WE ASK NO PROFIT ON SUGAR**—we are willing to supply all our customers with their sugar at actual cost to import. **We don't want one cent of profit on sugar. PRICES CHANGE SO OFTEN** we cannot quote prices in this book, but we will cheerfully quote prices on application.

IT ISN'T NECESSARY to get quotations—in making up your order just say how much is for sugar and what kind is wanted, and you will get the very lowest prices of the market on the day your order is received. Sugar, like grain, cotton, pork or beef, is changing more or less every day.

FREIGHT ON SUGAR is very low—4th class, the lowest freight rate. (See 4th class freight rate to the different States on page 7.

SYRUP AT FIRST COST means to own it at about one-half the price charged by retail dealers.

WE SELL SYRUP AND MOLASSES at lowest wholesale prices. No retail dealer can buy it any cheaper than you can buy from us. **A 5-GALLON KEG OF SYRUP** is a nice family order, costs but little when bought at our prices, weighs about 40 pounds, and takes lowest freight rate, 4th class, which amounts to next to nothing. **JUST THINK! You can buy 5 gallons of syrup, keg and all, for about $1.00.** It goes a long way towards making up a 100-pound order, and helps you to own your groceries and other goods as cheap as any dealer can buy.

Send the full amount with your order and deduct 2% cash discount, or send 25% and pay your freight agent the balance when goods are received.

A barrel of syrup or molasses contains 50 gallons; half-barrels, 25 gallons.

Always give name when ordering syrup or molasses. Two and one-half gallon kits now take lowest rate of freight, same as barrels.

No extra charge for barrels, kegs or kits.

We save you from 4 to 6 cents a pound on cheese. The freight is very small on a hundred pounds and when you buy of us you don't pay a profit on the freight. Furthermore, when you buy of us, you get fresh, new goods, and not such as you have been buying from the shelves of the retail dealer. We guarantee to ship goods that are all right. Each shipment is carefully examined before shipping.

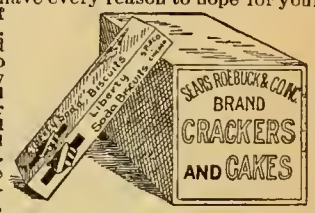
All grades of Crackers have advanced in price, owing to the end of the Cracker War.

TONS OF FLOUR are necessary to manufacture Crackers and Biscuits sufficient to meet the demands of our trade. Our friends have learned by personal experience the really fine and fresh goods we handle in this line. Not only are old customers sending in their constant renewals of previous orders, but new trade is attracted by the high-class articles, and the extremely low prices. **We shall continue to maintain this high standard of excellence.** We have every reason to hope for your trade and that of your neighbor. When you need any article, no difference how small, it is well to look into your pantry and find out if you need some groceries. Perhaps some flour, meat, extracts, pickles, baking powder and, of course, a small or large box of crackers are wanted. **You can easily make up a freight order, and you know the freight is little or nothing compared with what we save you.**



Butter, oyster and soda crackers come in about 25-lb. boxes and 50-lb. barrels. All others in about 35-lb. boxes and 70-lb. barrels. No charge for barrels or boxes.

CANDY DEPARTMENT

A SWEET TOOTH is sure to be found amongst everyone's "grinders." To satisfy your taste for sweets we carry an extensive line of strictly choice candies. These are made especially for us by one of the leading manufacturers. **NOTE ONE FACT.** We never ship candy that has been made over a week. Fresh consignments are received daily. The finer grades are made after the order is received. This insures nice, fresh, clean goods.

PRICES AND PROFITS are cut Indiscriminately. We sell at the narrowest margin over the actual cost to make.

You can include a nice 5-lb. box or a pail with your freight order and you'll scarcely know the difference in the amount of your bill.

Give us one trial and we will please you.

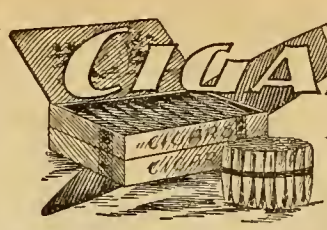
Dairy Supplies of every description in Hardware Department. See index and note complete line of churns, etc., page 835.



WE ANNOUNCE A TREMENDOUS PURCHASE from one of the largest importers and manufacturers of cigars in this country. This purchase gives the greatest opportunity in the world to supply our customers with choice brands which cannot be procured elsewhere.

THE WAR IN CUBA will prevent almost all small dealers from selling genuine Havana goods from the fact that none are procurable except from a few large dealers who have laid in a large supply.

Our stock is now so large that we can fill orders for some time to come with particularly fine goods. WE DO NOT ADVANCE THE PRICE. We do not advance prices unless there is a good reason, and this reason can only be on account of advanced cost.

We ask your careful consideration of the line quoted below.

The manager of this department is an expert cigar buyer and his good judgment can be thoroughly relied on for the superb quality of stock.

DO NOT BE DECEIVED by the low prices—prices that seem so much lower than goods of high quality could be made at, according to retail prices.

WE WANT YOUR CIGAR TRADE, and we want it all the time. We shall take so much pains to please you, that you cannot help but recommend us to your friends and our trade will thus be very greatly increased.

SPECIAL OFFER. ANY CIGARS BOUGHT of us, whether low or high in price, may be returned to us, if sent prepaid, where they are not found entirely satisfactory for the price, and we will cheerfully refund what you paid for them. All such claims must be made within two days of receipt of goods.

THE DIFFERENCE BETWEEN GOOD OIL AND BAD OIL cannot be measured by the difference in price. Poor oil is for most purposes worse than useless. We avoid all complaint by quoting and handling only the best of all grades. The freight on oils is at the lowest rate, and hence you can feel assured of a handsome saving in price after all charges are paid. No use paying 18 cents a gallon for what we furnish at 11 cents. No use paying 60 cents a gallon for what we furnish at 43 cents. And we charge no profit on the freight.

If you need a barrel of oil, have such Groceries, or Clothing, or Harness, or Furniture, or Dry Goods as you need, sent along at the same time and the freight will be very little.

Kerosene Oils.

We do not sell less than a barrel of Kerosene Oil. No charge for barrels. Barrels contain about 52 gallons. The only oil we can ship into Iowa is our 175 degree fire test, and all kerosene oil shipped into Iowa is entirely at the purchasers' risk. Prices are subject to market changes.

The Twentieth Century Pump Can Eureka.

Non-Overflowing Oil and Gasoline Pump Can.

Eureka Pump is made with a double tube. The inner tube transfers the oil to the lamp, and the outer tube carries the overflow back into the can. Adjustable Spout to fill the lamp from the top or side of the can. The Body and Bottom is made of the best galvanized iron, corrugated. Heavy tin top, with a hinge cover over the pump, which excludes dust, dirt and rain. In filling your lamp, place the end of the tube in the lamp, and when the oil reaches the mouth of the tube it will cause a double action, and the outer tube will carry the oil back into the can, preventing any overflow. By pumping slowly it will siphon the oil back into the can and empty the lamp. Every pump is warranted to give satisfaction and will last as long as the can, as it is the most durable pump ever made.

PAINT DEPARTMENT

To have your house or barn well painted requires first and foremost GOOD PAINT. To get good paint usually requires more good money than you care to spend, and many people pay less for a poor article and find that the job has to be done over in a year.

In order to get good paint at a low price means that some profit and expense must be cut off entirely. By our economic system, we ship to you from the door of the factory. No middleman's profit. No adulteration to increase retailer's profits. We give you a square deal and furnish the best paints you ever saw and for 50 per cent less money.

The freight rate on paints is very low. You can get your supply from us, get the best there is made, and the freight will be very little compared with what we save you. We want to get you started to buying your paints from us. We are quoting exceedingly low prices in order to keep your trade. We are selling nothing but the best. Every house, barn or buggy coated with our paint will be a lasting advertisement for us.

We issue fine color cards of our various paints; send at once; costs you nothing and it will help you in making your selection.

BE SURE TO STATE what kind of paint you want to buy when you send for the card.

Paste Paints for 1899.

Quality guaranteed equal to any in the world. A new departure in our paint and oil department for 1898. Paste paints are made in all colors, same as our Pink Label Brand Ready Mixed Paints, except the following four: Emerald Green, Vermilion, Dark Blue and Tuscan Red. Parties who wish to do their own mixing will find our paste paints to be the very best pigments ground in pure linseed oil, and are ready for immediate use with the addition of oils for thinning. Packed in 12½ and 25-lb. pails. Directions: With every 25-lb. pail of paste paint add 2½ gallons of boiled linseed oil for the first coat (prima coat). For every additional coat add only 2 gallons of boiled linseed oil.

G 2668 Price for all colors, 12½-lb. pails.... $0.95
G 2669 25-lb pails..... 1.75

Color card sent free on application.

We fully guarantee our prepared paint to give better satisfaction as to durability and appearance, than any paint mixed by hand. Write us for our late color card and hints on selecting colors, showing 16 combinations, selected with careful regard to harmony which can be relied upon as being in good taste.

Don't be afraid of these paints because the price is low. They are the best we could buy at any price and our label is on every package to prove our faith in the goods.

One gallon of this paint will cover (two coats) over 300 square feet of surface.

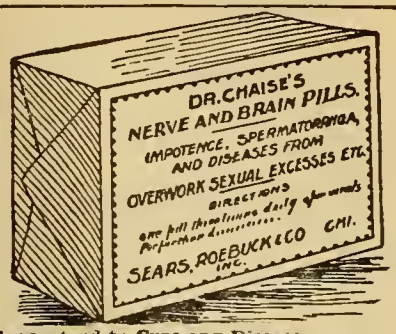
.....DRUG DEPARTMENT.....

THIS SPECIAL BRANCH of our business is in charge of competent chemists and registered pharmacists who have had large experience both in this country and Europe in handling and compounding drugs and chemicals. They have strict instructions to examine thoroughly every article received in this department, to note its quality and freshness, to apply tests to ascertain its strength and purity, and to reject everything which does not come up to full standard required by the drug inspectors of the United States Government. **WE ARE IN A POSITION** and will be pleased to answer any inquiries concerning drugs, patent medicines, etc., either as regards their appearance, medicinal properties, or special purposes they are used for. **IN ORDERING GOODS FROM THIS DEPARTMENT** we must request you to send cash to the full amount. We will not send C. O. D. All prices in this list are net—no discount. Four-ounce bottles of liquids and smaller sizes can be sent by mail if packed in a special box approved by the postal authorities. You must remember to allow us 10 or 18 cents, according to size, for these mailing boxes. **Poisonous, inflammable or explosive materials cannot be mailed.**

OUR 60c Nerve and Brain PILLS.

GUARANTEED THE HIGHEST GRADE ON THE MARKET.



Six Boxes Positively Guaranteed to Cure any Disease for which they are intended.

THIS WILL CURE YOU if you feel generally miserable or suffer with a thousand and one indescribable bad feelings, both mental and physical, among them low spirits, nervousness, weariness, lifelessness, weakness, dizziness, feeling of fullness, like bloating after eating, or sense of gononess, or emptiness of stomach in morning, flesh soft and lacking firmness, headache, blurring of eyesight, specks floating before the eyes, nervous irritability, poor memory, chilliness, alternating with hot flushes, lassitude, throbbing, gurgling or rumbling sensations in bowels, with heat and nipping pains occasionally, palpitation of heart, short breath on exertion, slow circulation of blood, cold feet, pain and oppression in chest and back, pain around the loins, aching and weariness of the lower limbs, drowsiness after meals, but nervous wakefulness at night, languor in the morning, and a constant feeling of dread, as if something awful was going to happen.

If you have any of these symptoms our NERVE AND BRAIN PILLS will cure you. No matter what the cause may be or how severe your trouble is, **DR. CHAISE'S NERVE AND BRAIN PILLS** will cure you. Those pills have a remarkable effect on both old and young. They can not be equalled by any other medicine as a cure for impotence, spermatorrhœa, night sweats, emissions, varicocele (or swollen veins), weakness of both brain and body, arising from excesses and abuses of any kind. It will tone up the whole nervous system, no matter how much worn out, overworked or depressed you may be; the weak and timid young man made strong and bold again; they will give youthful vigor and a new lease of life to the old.

BEWARE OF QUACK DOCTORS who advertise to scare men into paying money for remedies which have no merit. **Our Nerve and Brain Pills** are compounded from a prescription of one of the most noted German scientists, and are the same as has been used in German hospitals for years with marvelous success. **HOW TO CURE YOURSELF**, and full and explicit directions, are enclosed with every box. All orders and inquiries concerning these pills will be treated confidentially, and all shipments made in plain sealed package.

ONLY $3.00 FOR 6 BOXES. Enough to cure any case, no matter how severe, no matter how long standing, whether old or young, no matter from what cause. Send us $3.00 and we will send you 6 boxes by return mail, postpaid, in plain sealed package, with full instructions, full directions.

No. D1500 Price, per box, **60c**; 6 boxes (an amount to cure anyone).... **$3.00**

If you need these pills don't delay, this is the first time the American people have had an opportunity of getting the genuine Dr. Chaise's Pills, and the first time they have been sold any where at anything like our price.

READ CAREFULLY AND FIND OUT WHAT OUR B B B MEDICINE IS

THESE THREE LETTERS STAND FOR

DR. BARKER'S BLOOD BUILDER

Nature's most wonderful remedy for destroying poisons in the blood and building up a pure healthy blood, no matter how diseased the system is.

It is universally conceded that seventy-five per cent of the diseases with which the human family suffer to-day are produced by some poisonous germs in the blood or some derangement of that life giving and sustaining fluid. Physicians tell us that one in every twenty persons is infected with poisonous microbes. It is easy then to understand how blood diseases are so prevalent and needs but little argument to show why a simple vegetable remedy, which destroys and expels these poisonous germs, is the only true blood purifier. It will cure scrofula, cancer, rheumatism, especially that arising from mercurial poisoning; eczema and other skin diseases that arise from impurity of the blood, nasal catarrh, acne or pimples, chronic ulcers, carbuncles, boils. It is a true specific for syphilis in its primary, secondary or tertiary form, eradicating all unclean matter from the blood, removing all taint of this disease. A few bottles taken in the spring will prepare the system to stand the heat and corrupting influence of the hot summer days and ward off sickness. Taken in the fall it braces the system to stand the blasts of winter. As a general tonic and builder up of pure blood DR. BARKER'S BLOOD BUILDER is the most valuable of all medicines, cleansing the system, free-it from all poisonous germs. It is a powerful remedy, yet no one need be afraid to take it, as it is purely vegetable. It will cure you and make your skin smooth and give to it a healthy appearance.

Our 50c LIQUOR HABIT CURE.

Every man can be permanently cured of the habit or desire for intoxicating drink of any kind.

WE GUARANTEE A COMPLETE CURE. Our remedy is perfectly harmless, none of the bad effects produced by many so called liquor cures so widely advertised. That drunkenness is a disease that can be cured by medicine, just the same as other diseases can, is a fact becoming well known. Thousands of cases have been cured by this medicine; in fact, its wonderful curative properties are now well known throughout the entire world. We bring this cure within the reach of everyone. It is now not necessary to go to an institute for treatment; home treatment is just as successful. The impression has been cultivated by interested parties that cures could not be effected except by hypodermic injections, but nothing is more absurd. Any medicine taken into the stomach will be as effective as if used hypodermically. No medicine has had such a wonderful success in this age of progress as **OUR LIQUOR HABIT CURE.** It creates an appetite for food instead of liquor, it stimulates the whole system to healthy action, it quiets nervous excitement, vertigo, muscular trembling and all the dangerous effects of excessive use of liquor. It improves the appetite and digestion and regulates the bowels. It is, in fact, a perfect cure for the drink habit.

WE URGE EVERYONE who have accustomed themselves to the excessive use of liquor, and who wish to stop the practice, to send for even a small box as a trial. We know our remedy will cure you. We are sure that after using a few doses you will feel the craving for liquor disappearing and a warm healthy glow spreading from the stomach over the whole system; you will have a desire for food instead of rot gut. This will be the commencement of the cure, and if you will follow it up faithfully for a few weeks it will effect a permanent cure. When you have used a small box, we know you will send for 12 more boxes for $5.00, to thoroughly complete the cure.

OUR 70c. POSITIVE Rheumatic Cure.

WHAT IS RHEUMATISM? This Dreadful disease, this scourge of humanity, is a blood disease, always due to one cause, namely the presence in the system of urea, and uric acid, which poisonous elements could not be retained unless there was a defective kidney action underlaying the Rheumatic disease. Rheumatism may be divided into two classes, Acute and Chronic Rheumatism. Acute or commonly called inflamatory rheumatism announces itself through piercing pains in the joints and muscles in the back, the knees, the hips, etc., and generally spreads through the whole body. Chronic Rheumatism on the other hand is accompanied by no fever, the joints are very painful, swolen, sensitive and often stiff. If this disease is of long duration the joints will swell or expand, and dislocaton take place. The resulting deformity and crippling of the joints can be cured if correctly treated. We can say inflammatory Rheumatism is the most dangerous of the two, owing to its rapid spreading over the body, implicating certain internal organs and structures, especially the heart, often producing pleurisy, pneumonia, bronchitis, cerebral and spinal meningitis. If the disease has thus far advanced without receiving proper treatment relapses are frequent and death often results, which is generally due to complications. There is but one satisfactory way to treat rheumatism and that is in a constitutional manner, by giving internal medicines which act on the blood.

Our Positive Rheumatic Cure will positively cure Rheumatism in all forms and in all its different stages, by reason that it removes from the system the urea and uric acid upon which the disease feeds. This remedy has a specific action on the blood, it increases the number of the red blood corpuscles, which are morbidly deficient in cases of rheumatism,

Our Positive Rheumatic Cure is compounded from a prescription of a celebrated **French Scientist** who spent the greater part of his life in prescribing for rheumatism in all its forms, **Our Remedy Will Cure** when all others fail. If you have rheumatism in any form you should get this remedy at once. **If you have been suffering for years you will find quick relief and final cure in this remedy. If your case is chronic order six bottles for, in severe cases and cases of long standing there is a necessity to use this remedy for a longer period; several months may be needed to fully secure exemption from the disease. We recommend ordering six bottles, it will cause a complete reconstructon of the system.**

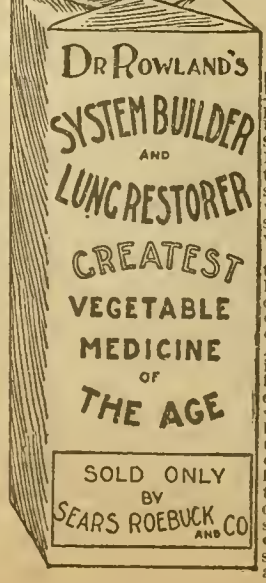
DR. ROWLAND'S System Builder and Lung Restorer.



GREATEST VEGETABLE MEDICINE OF THE AGE FOR THE THOUSAND AILMENTS COMMON TO THE MASSES.

FOR THE CURE OF COUGHS of all kinds, chronic and lingering, especially Bronchitis, Laryngitis, Consumption, Ulcerated Throat, ministers' or public speakers' Sore Throat, Hoarseness and Suppression or Loss of Voice. It does not nauseate or debilitate the stomach or system, but improves digestion, strengthens the stomach, builds up solid flesh when the system is reduced below a healthy standard, and invigorates and cleanses the whole system.

As a remedy for torpor of the liver, generally termed Liver Complaint or Biliousness, and for habitual constipation of the bowels it has no equal. For loss of appetite, indigestion and dyspepsia, and for general or nervous debility or prostration, in either sex, it has no equal. As an alterative, or blood purifier, this medicine is far superior to any preparation of sarsaparilla, iodide of potassium, or any other medicine now offered for general sale. It is, therefore, very valuable in all forms of scrofulous and other blood diseases, also for all skin diseases, eruptions, pimples, rashes and blotches, boils, ulcers, sores and swellings arising from impure blood, and cured by the use of a few bottles of this compound. Unlike other alteratives or blood-cleansing medicines, it does not debilitate, but strengthens the entire system. This is a very concentrated vegetable extract. The dose is small and pleasant to the taste. Full directions accompany each bottle.

BUILD UP YOUR ENTIRE SYSTEM by using a few bottles of this wonderful remedy. Is your health impaired, are you overworked, do you need a general toning up? If so, order 3 bottles and become a new person.

SURE CURE FOR THE Tobacco Habit.

WE CURE YOU

THIS IS NATURE'S OWN REMEDY, ENTIRELY HARMLESS. It cures because it builds up and fortifies, rejuvenates the weak and unstrung nerves caused by over indulgence in this poisonous weed. It stops the craving for tobacco by supplying instead a healthy nerve tonic and strengther; it does more, it eradicates the poisonous nicotine from the system which has accumulated from long continued use of tobacco. Nicotine is a virulent poison and the chief ingredient of tobacco. It is the cause of all the nervous troubles and general debility of smokers. Our sure cure will destroy the effects of this nicotine, chase it from the system and make weak men strong again, and impotent men gain weight and vigor, make the old feel young again. It satisfies the craving for tobacco, and its use brings great health, increasing the appetite for food, strengthens the stomach, enriches and purifies the blood, giving good general health. It is not a drug; it can be chewed the same as tobacco, or taken dissolved in coffee or hot water. It is not only a sure cure for the tobacco habit, but also one of the best tonics for sexual weakness ever made. Give it a trial and be convinced.

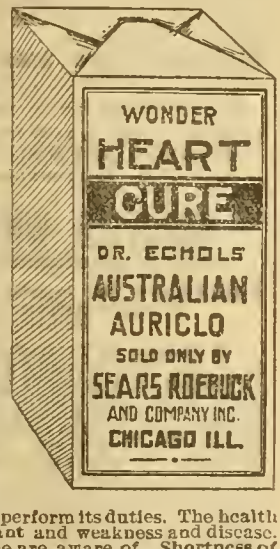
DROPPED DEAD!

ATTENTION! Every fourth person has a weak or diseased heart.

Dr. Echols' Australian Auriclo



A NEWLY DISCOVERED CURE FOR HEART TROUBLE.....

It is surprising that this most vital portion of the human body should receive so little attention from medical writers and investigators. The duty of the heart is to keep every part of the human frame constantly supplied with the vital fluid called blood, and the moment it ceases to beat, death ensues. It is the hardest worked organ in the body; it works incessantly from the beginning to the end of life. Day and night it labors without rest, performing such an enormous amount of work as to be almost beyond belief. With every pulsation it exerts a force equal to 50 pounds, which amounts to 3,600 pounds a minute, 216,000 pounds every hour, and the inconceivable number of 5,184,000 in a single day. All this vast amount of labor must be done, and done well, every day; if not, your health will surely suffer in consequence of the least failure of the heart to properly perform its duties. The health of the heart is therefore exceedingly important and weakness and disease of this organ are more common than people are aware of. Shortness of breath, palpitation, pain in the chest, fainting spells, etc., are attributed by them in their ignorance to other causes, and even physicians frequently make the same mistake. Every one who reads the daily papers must observe how frequent the words "dropped dead" and "sudden death" occur Scarcely a day passes without some prominent person being stricken down without warning while apparently in the best of health. We will enumerate a few of the more common symptoms of heart disease:

Shortness of breath.
Fluttering or palpitation.
Pain or tenderness in the left breast, side or under the left shoulde blade between the shoulders.
Irregular or intermittent pulse.
Oppressed feeling in the chest.
Choking sensation in the throat.
Weak or hungry spells.
Sleeping on the side, especially the left, is often disagreeable.
Smothering or sinking spells.
Fainting spells always indicate a weak heart.
Difficult or asthmatic breathing accompany bad cases and often causes the patient to sit up in bed.
Swelling of the feet or ankles. This is a sure sign of heart disease, but not always present.
Dropsy. A large portion of cases come from heart disease.
Neuralgia in the chest, on right or left side.
Sudden starting in sleep, morbid dreams.

Weak hearts are as common as weak stomachs, lungs or eyes. Every heart that flutters, palpitates, tires out easily, aches, etc., is weak or diseased and treatment should not be postponed a single day, and there has never been found a remedy so effectual in healing, strengthening and restoring the heart as the newly discovered cure—Dr. Echols' Australian Auriclo. It is daily curing thousands in every stage of heart disease. No one can make a mistake in purchasing a box of this valuable remedy. It is worth its weight in gold a thousand times over. Remember that such simple ailments as cold hands and feet, spots before the eyes, hungry spells, etc., indicate a weak heart or a diseased one. People in their ignorance generally lay the blame elsewhere, and continue to suffer, whilst the heart grows worse and worse. Take a remedy in time and save much suffering, and remember how frequent you read the words, "dropped dead" and "sudden death," the result of heart failure. The medicine is in the form of a tablet, can be sent by mail and carried in the pocket without inconvenience.

Dr. Allan's Asthma Cure.

AN IMPORTED REMEDY which is having an immense sale in countries where Asthma prevails. Sears, Roebuck & Co. having received reports through their foreign agents of the wonderful effects of this remedy in relieving and curing asthma, determined to secure it for the benefit of their customers who might be suffering from this terribly annoying complaint. Through influence and expenditure of money they were able to control the introduction of this valuable remedy to the citizens of the United States, and become sole agents for its sale in this country. **Dr. Allan's Asthma Cure** is for the instantaneous relief and permanent cure of all forms of **Asthma, Phthisis, Hay Fever, Bronchitis, Croup and Nasal Catarrh. It is a scientific combination of oxigenating chemicals with herbs, barks and gums,** as have proven themselves effective for the relief of Asthma and other affections of the respiratory organs, attended with short, difficult or spasmodic breathing. It is the result of many years' study and experiment by a German physician who has devoted especial attention to diseases of the lungs and air passages, that has never failed to give immediate relief or effect a cure when a fair trial was given and used according to directions. This remedy is used by inhalation and as its virtues reach the air passages direct the relief obtained is instantaneous. Plain directions and valuable information is enclosed in each box, and if the sufferer will follow these directions carefully and study what the circular in the box says and act accordingly, mild forms of asthma, hay fever, etc., are often cured in a week or two, but if the disease is old seated and has obtained a firm hold on the system, the treatment ought to be continued for several months, even although the patient may believe himself entirely cured.

This great cure for asthma has heretofore only been sold in $1.50 packages, but we have been enabled to have a quantity of trial packages put up for 50 cents each.

FAT FOLKS, Take **Dr. Rose's Obesity Powders** **And Watch the Result.**

Too much fat is a disease and a source of great annoyance to those afflicted. It impairs the strength and produces fatty degeneration of the heart, and sudden death results. All people who have obesity are troubled with sluggish circulation and labored action of the heart. The patient feels lazy and burdensome. There is a sluggish condition of the whole system; they are not exactly sickly, there is a feeling that all is not right. Nervousness, rheumatism, headache, dropsy and kidney diseases are frequent complications of obesity, and, more cause to be alarmed, the heart is always affected. Send at once for a box of Dr. Rose's Obesity Cure. It will reduce corpulency in a safe and agreeable manner, perfectly harmless. No bad results follow its use, as is the case with many of the much advertised cures. Explicit directions and valuable information for fat folks enclosed in each box.

NUTRITIVE TONIC.

Beef, Iron and Wine.

GUARANTEED HIGHEST GRADE EVER PRODUCED.

OUR PRICE 35c. Inferior grades sell at 50c to $1.00.

NO FAMILY SHOULD BE WITHOUT a bottle of **BEEF IRON AND WINE.** This is an old time TONIC, universally known for its great strength giving and flesh producing qualities.

THE GREAT TROUBLE with most of the **Beef Wine and Iron** found in the market at the present day is the poor quality of materials used in making it. It is often found in a state quite unfit for use on that account. We take great pains with this preparation, using only Suling's Extract of Beef freshly prepared, the finest imported Sherry Wine and Pure Iron in a form specially prepared for assimilating with and enriching the blood.

THE BEST TONIC KNOWN to be used when suffering from extreme exhaustion, produced by overwork or other causes, brain fatigue, debility of all kinds, blood disorders, salt rheum, eruptions, anemia, scrofula and cancer. It stimulates digestion, improves the condition of the blood. Enriches it and enables it to throw off accumulated humor, and it will give tone and vigor to the entire system. A depraved condition of the blood serves to augment disease. This condition should be a direct warning, and by taking it as such and using a corrective, much ill health can be avoided.

WE HAVE THOUSANDS OF TESTIMONIALS as to the wonderful good this medicine has done for those that are weak, nervous and debilitated. **OUR PRICES ARE VERY LOW.** Inferior goods are sold everywhere at nearly double our prices.

Our Celery Malt Compound

FOR 55 CENTS.

We sell the highest grade Celery Malt Compound for 55 cents in large bottles.

It retails everywhere, even in inferior qualities, at $1.00 and upwards.

We guarantee our Celery Malt Compound to be absolutely pure, unadulterated and superior to any other celery compound on the market regardless of name or price.

Our Celery Malt Compound is a true **nerve tonic, a genuine appetizer, a stimulant both for the young and old.** We do not pretend that it is an absolute specific for any chronic disease, but it has a much wider range of usefulness as it is especially beneficial in hundreds of the ills that flesh is heir to.

A glance at its composition, which we give below, will show any person of ordinary intelligence why it is such a useful preparation and should be kept in every household.

Our Celery Malt Compound contains in a concentrated form the active medicinal properties of the Italian celery seed, well known to physicians as one of the best and most active controlling and strengthening agents for the nerves, also the phosphates in the same state as found in the strong, healthy, vigorous, natural body, and in quantities approved of by the medical profession, the value of which has been so thoroughly demonstrated in all brain and nervous affections and in emaciated conditions. In addition it contains a large percentage of malt, which is very strengthening and fattening.

You will see it is an ideal combination which is not only a most useful tonic and stimulant but a delicious beverage as well.

As a brain and nerve tonic, appetizer and stimulant, it is certainly unequaled in the realm of medicine.

For insomnia, nervousness, mental or physical exhaustion, loss of appetite, impoverished blood and for that tired feeling that comes from close confinement or sedentary habits, it is really magical in its effects, infinitely better than all stimulants of an alcoholic nature.

If you are nervous, exhausted, can't sleep, or if the body is poor and your digestion imperfect and you are out of sorts generally and in a low physical condition, do not fail to try Celery Malt Compound. It will give you new life and vigor and build up your entire system.

Ask your neighbors about our Celery Malt Compound. Some of them doubtless have used it, and if they have they can tell you of its merits. No family can afford to be without it.

If you have bought celery compound of any other make from your local druggist, order a bottle of Celery Malt Compound at 55 cents. Try it. Compare it, and if you do not find our Celery Malt Compound better than any other like preparation on the market, return it at our expense and we will refund your money.

Our Celery Malt Compound is prepared under our special direction by a very able chemist. Every ingredient is carefully tested to know that it is of the very highest quality, and it is sent out under our guarantee that there is no other preparation of the kind that compares with it.

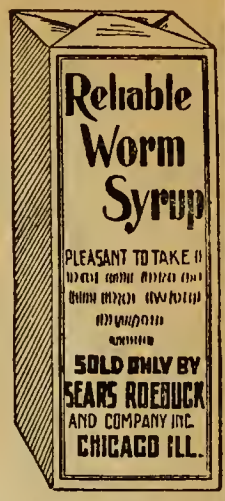
MOTHERS

Read What we Say About Our

RELIABLE WORM SYRUP AND WORM CAKES.



You can save your children from much suffering and in many cases save their lives. No other disease is so fatal to children as worms. Unfortunately they are seldom free from them, and as the symptoms resemble those of almost every other complaint, they often produce alarming effects without being suspected. Worms are not only a cause of disease in themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, obstructing the bowels and frequently the throat, causing convulsions and too often death. **OUR RELIABLE WORM SYRUP effectually destroys the worms and removes the nest in which their young are deposited.** It moves the bowels very gently, the worms being to a greater or less extent dissolved by the action of the medicine, can scarcely be recognized in the stools, but the improvement in the health of the child will be sufficient evidence of the beneficial effects of the medicine. **Every mother ought to have a bottle of the syrup or a box of the cakes always in the house.** The syrup and the cakes are the same medicines in different forms. The syrup is more pleasant to the taste and more suitable for very young children. The cakes can be given to older people, even adults can be benefitted by using them, as grown up folks, as well as children, often suffer from worms. **These reliable worm medicines** are not only worm destroyers, but act as a general tonic, destroying sourness of the stomach and producing a healthy appetite. **Mothers, keep your children healthy.**

PERUVIAN WINE OF COCA.

A Genuine Rich Wine Imported by Ourselves and well known throughout Europe for its Strengthening and Nourishing Qualities.

It sustains and refreshes both the body and the brain, and has deservedly gained its excellent reputation and great superiority over all other tonics. It is more effective and rapid in its action. It may be taken for any length of time with perfect safety without causing injury to the system, the stomach and gastric juices. On the contrary, **Peruvian Wine of Coca aids digestion, removes fatigue and improves the appetite, never causing constipation.** For many years past it has been thoroughly tested and has received the endorsements of hundreds of the most eminent physicians of the world, who assure us of their utmost satisfaction with the results obtained by using it in their practice. They urgently recommend its use in the treatment of **Anemia, Impurity and Impoverishment of the Blood, Consumption, Weakness of the Lungs, Asthma, Nervous Debility, Loss of Appetite, Malarial Complaints, Biliousness, Stomach Disorders, Dyspepsia, Languor and Fatigue, Obesity, Loss of Forces and Weakness caused by excesses, and similar Diseases of the Same nature.** It is specially adapted for persons in delicate health and for convalescents. It is very palatable and agreeable to take and can be born by the most enfeebled stomach where everything else would fail.

If you wish to accomplish double the amount of work or have to undergo an unusual amount of hardship always keep a bottle of our Peruvian Wine of Coca near you. Its sustaining powers are wonderful.

It is used in most of the Hospitals in Europe, and many of our American public institutions are adopting it. After many severe tests it has been effectually proven that in the same space of time more than double the amount of hardship and work could be undergone when Peruvian Wine of Coca was used and positively no fatigue experienced.

Expecting a large demand for this wine we have made arrangements for an extra large shipment, which enables us to let our customers in at the very lowest price.

...WONDERFUL...

LITTLE ◦ LIVER ◦ PILLS.

ENTIRELY VEGETABLE IN THEIR COMPOSITION.

These wonderful little pills operate without disturbance to the system, diet or occupation.

CONSTIPATION, that most hideous and deathly demon of sickness, is an easy enough thing to cure if you will only persist in taking proper treatment. It is one of the commonest troubles and often thought to be a very little thing. Yet, we say that nine-tenths of all human sickness is due to this one thing. When the bowels do not move regularly the natural drainage tract in the human system is damned up, decomposition ensues and poisonous gases and liquids are carried all through the system. The result is jaundice, torpid liver, biliousness, sallow skin, indigestion, foul breath, coated tongue, loss of appetite, pimples, belching foul gases, blotches, boils, dizziness, headache, cramps, colic, etc. You can easily avoid all these troubles and keep your system pure and healthy by taking from time to time one or two of our WONDERFUL LITTLE LIVER PILLS. Some of our customers call them "LITTLE GIANTS," they are so small in size and easy to swallow, yet so effective and mild in their operation. Whenever your stomach, liver and bowels get out of order take one or two of our LITTLE WONDERS and notice the quick effect and great relief you will experience. Keep a bottle always beside you. Use them occasionally and you will always feel well and look the picture of health.

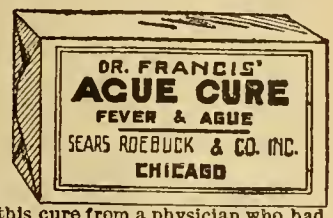
Ague Cure.



FOR CHILLS AND FEVER THIS IS A TRUE SPECIFIC.

We are selling thousands of boxes to those living in the Southern and Western states and not a case of failure to cure has as yet been reported to us; we were fortunate to obtain the recipe for this cure from a physician who had used it constantly in his practice for thirty years with great success. It is an infallable remedy for this disease and those living in low and swampy localities, ought to have it always at hand. It is much superior and less harmful to the system than quinine. It acts more promptly and the cure is more complete. With every package is enclosed a small vial of vegetable liver pills, with explicit directions how to keep the system in condition to guard against malaria.

Orange Wine Stomach Bitters.

Guaranteed Absolutely Pure and the Highest Grade on the Market.

Put up in extra large bottles holding 1 1-2 pints.

DO NOT COMPARE OUR ORANGE WINE STOMACH BITTERS with the bitters that are being sold by retail druggists generally at $1.00 to $1.50 a bottle, bitters that are made from the very cheapest ingredients. Our Orange Wine Stomach Bitters are made from wine distilled from the fruit of the Seville Orange tree in combination with herbs well known for their tonic and healing effect on the stomach. Order 1 dozen bottles. You can sell them at $1.00 each with profit enough so that several bottles will cost you nothing.

This is a pleasant bitters. As before explained, it is made from a wine distilled from the fruit of the Seville orange tree in combination with herbs well known for their tonic and healing effects on the stomach. As an appetizer there is no bitters made that will equal it, and it is a guaranteed cure for dyspepsia when its use is continued for some time. As a general bracer up of the whole system it has no equal, and the taste is so delicious that the most fastidious enjoy taking it. Owing to the intrinsic and widely established therapeutic value of its chief constituents, which are necessary to good digestion, this preparation stands unequaled. While furnishing admirable means for treating gastric ailments, indigestion, want of appetite, malarial diseases, low spirits, and nervousness, it removes that tired feeling and heals the derangements generally, will purify the blood, the bones, muscles, and the nerves receive new force, brain power is supplied and health and vigor restored. It exerts a most wonderful power in sustaining the system during arduous labors and journeys. It stimulates respiration and the brain by increasing the blood supply, increases the heart's action, and under its daily use an extra amount of labor can be borne without suffering. It is an agreeable and wholesome stimulant, and imparts a pleasant taste with an agreeable sense of warmth which permeates the entire system. Don't buy bitters from your local druggist unless you are acquainted with the reputation of the manufacturers and thus know that the ingredients contained are of the highest grade. Understand, every bottle of the Orange Wine Stomach Bitters is sold with our positive guarantee that they are made from the fruits of the Seville orange tree in combination with 17 different roots and herbs in such a manner that the greatest beneficial effects are obtained.

OUR OFFER. Send us 85c for a bottle of our Orange Wine Stomach Bitters, and if you are not greatly benefitted, if you do not find it superior to any bitters on the market, return it at our expense and we will cheerfully refund your money.

HAMMOND'S SARSAPARILLA.

Guaranteed the Best on the Market.

There is no other Sarsaparilla made that will compare with it.

Our price, per large bottle, 59c; per doz., $6.00. Never retails at less than $1.00.

Dr. Hammond's Sarsaparilla combines in an agreeable form the medicinal properties of the most approved alterative and blood purifying remedies of the vegetable kingdom. Dr. Hammond's Sarsaparilla will not cure everything, but the fact that on the purity and vitality of the blood depends the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, lead to the conclusion that a remedy which gives life and vigor to the blood and eradicates scrofula and other impurities, as this preparation undoubtedly does, must cure and prevent many diseases. Hence the field of its usefulness is an endless one, and we are warranted in recommending it for all derangements caused by an unnatural state of the blood.

FOR SCROFULA. Dr. Hammond's Sarsaparilla is the greatest known remedy for scrofula, and there is no other disease that is so general among our population. ALMOST EVERY INDIVIDUAL HAS THIS LATENT POISON COURSING THE VEINS. Its alarming fatality is not realized because consumption and other diseases are reported as the causes of deaths, many of which are the result of scrofula. This scrofulous taint weakens the energies of life, and constitutions contaminated by it are more susceptible to disease and have less physical force to withstand it. Persons afflicted with scrofulous sores endure intense suffering which, like the gratitude they feel to a remedy which cures them, cannot be fully appreciated by others. Scrofulous affection is hereditary, and may be transmitted, without appearing, through several generations, and then assume its worst forms. The indications of scrofula are many and varied. The following are among its prominent characterisiics: Pallid countenance, a bluish white transparent complexion, inflamed eyelids, eruptions on the scalp and various parts of the body, irregular appetite, sometimes keen, at others, dainty; bowels irregular, a general lassitude and debility which takes away all energy or desire for action, business or labor. Scrofula is most dangerous when it seats itself upon the lungs, producing tubercular consumption. It is not, however, confined to any part of the body, as it attacks the lungs, liver and kidneys, also the digestive and uterine apparatus, inducing and often resulting in a long train of diseases such as consumption, ulceration of the liver, stomach or kidneys, eruptions and eruptive diseases of the skin, ulcers, tumors, eryesipelas, salt rheum, blotches, postules, tetter, pain in the bones, side or head, ring worm, scald head, catarrh, dyspepsia, female weaknesses, leucorrhœa arrising from internal ulceration and uterine diseases aggravated by low condition of the system or impure state of blood, dropsy, emaciation, general debility, that tired feeling.

OUR SARSAPARILLA is a purely scientific preparation. It is carefully prepared from the most powerful, yet perfectly safe and harmless alteratives and blood purifying agents, selected from the vegetable kingdom. This preparation does not contain mercury or arsenic in any form or combination whatever. OUR SARSAPARILLA CURES where all others fail. It combines the merits of all other sarsaparilla compounds with defects of none. For blood making, blood cleansing, flesh and appetite producing OUR SARSAPARILLA is unequaled. No family can afford to be without it. For infants, children, grown people, it should be taken regularly. OUR PRICES ARE VERY LOW.

PERFECTY HARMLESS when used in accordance with our directions, it possesses the "wizard's touch" in producing, preserving and enhancing beauty of form and person in male and female by surely developing a transparency and pellucid clearness of complexion, shapely contour of form, brilliant eyes, soft and smooth skin, where by nature the reverse exists.

The great trouble hitherto has been how to make this beautifying principle safely available and at the same time avoid what is detrimental and injurious. Arsenical solutions have utterly failed, and until a recent discovery by a French physician and chemist, the internal administration of arsenic has been attended with more or less danger as well as disappointing results. In the direction for which they are intended their effect is simply magical, the most astounding transformation in personal appearance being brought about by their steady use. Even the coarsest and most repulsive skin and complexion, marred by freckles and other disfigurements, slowly change into an unrivaled purity of texture, free from any spot or blemish whatever, the pinched features become agreeable, the form angular gradually transforms itself into the perfection of womanly grace and beauty. Used by men, the favorable results are the same.

All Danger Is Averted in these Complexion Wafers, prepared by our experienced chemist, and the remedy taken in the manner directed on each box is absolutely innocuous while the peculiar virtues of the remedy remain unimpaired and intact. Taken as directed the wafers will be found a positive, safe and magical specific for all sorts of skin troubles, unsightliness and imperfections, being in reality the only beautifier of the complexion, skin and form known. Guaranteed a sure cure for freckles, moth, blackheads, pimples, vulgar redness; rough, yellow or muddy skin, and other facial disfigurements are permanently removed and a deliciously clear complexion and rounding up of angular forms assured.

Ladies, you can be beautiful. No matter who you are, what your disfigurements may be, you can make yourself as handsome as any lady in the land by the use of our French Arsenic Wafers. We recommend ordering one dozen large boxes and then carefully follow our directions.

FOR CONSUMPTION there is nothing known to equal our Cod Liver Oil Emulsion and in the first and second stages will effect a quick and permanent cure. FOR COUGHS AND CHRONIC COLDS there is nothing known to equal our Cod Liver Oil Emulsion, and no family can afford to be without it. Doctor bills can be avoided, often lung fever and other diseases averted by the time use of Cod Liver Oil Emulsion. We would advise mothers to always have a bottle on hand to give to their children or any member of the family when they have a cold or stubborn cough. AS A CURE FOR SCROFULA in its various forms Cod Liver Oil Emulsion is of the greatest benefit. FOR RHEUMATISM, Cod Liver Oil Emulsion is a valuable remedy and it has often cured the most stubborn cases, when all other remedies have failed. FOR SKIN DISEASES Cod Liver Oil Emulsion should always be used, there is perhaps no other remedy that exerts so powerful an influence over skin diseases. For GENERAL DEBILITY AND EMACIATION. Our Cod Liver Oil Emulsion taken regularly after meals will quickly recuperate and build you up to renewed strength, health and vigor. FOR PURE BLOOD nothing will do so much good as our Cod Liver Oil Emulsion, it will enrich and purify the blood, give it heat and life and tone and strengthen the entire nervous system. FOR DISEASES OF CHILDREN our Emulsion of Cod Liver Oil should always be used.

SPECIAL FAMILY DEPARTMENT.

FAMILY REMEDIES.

Simple, Useful, Necessary, and Known to Everyone.

We list here a few useful articles which will be recognized by everyone as valuable to have in every household. We guarantee the freshness, strength and purity of each, as they are carefully put up by our experienced chemists in our own laboratory. It is scarcely necessary for us to endeavor to impress on every head of a family the great importance in a time of sickness of having a few simple remedies not only near at hand, but also of full strength and purity. Useless medicines not only waste your money but also cause much bodily harm and lead to more serious sickness. We will stake our reputation on the strength and purity of our Family Remedies and Useful Articles. Let this be your motto always, buy from a responsible house whose reputation is established for honorable dealing. We wish our customers to know that we look on them as friends and endeavor to treat them as such. We sympathize with them in their troubles, and are only too happy when we are able to help them either in giving advice or saving them money. Study the following list well. Our prices are so low that the expense of having a few of them in the house is very small, and besides having the satisfaction of knowing of their good quality.

...BORAX...

THE HOUSEKEEPER'S FRIEND.

HAS MORE USE ABOUT THE HOME THAN EVEN THAT OF COMMON SALT.

For the laundry, the kitchen, the bath and for various medical uses it is indispensible.

Chemically pure and finely powdered. We put it up in one-pound boxes with complete directions for using in washing, starching, keeping away moths, killing cockroaches, dressing wounds and bruises, arresting fermentation, cleaning clothes, etc.

You can rely on getting from us the pure powdered borax, which will be much satisfaction to you, as it is a much adulterated article.

Saves Life

Sears, Roebuck & Co.'s Family Medicine Case.

:: CONVENIENT AND RELIABLE ::

No. D1827 Sears, Roebuck & Co.'s Family Medicine Case, Convenient and Reliable. A most useful and really indispensible household necessity. Wishing to save our customers every cent possible and give them the benefit of our best knowledge and experience we have had our physician and chemist prepare in convenient form a number of reliable remedies such as are daily used by the leading physicians in the country when called in to prescribe in cases of sickness. We do not wish altogether to supplant the doctor, as we consider him a necessary factor in society. But we recognize the fact that many useful lives are lost because help is not obtained in time, and therefore desire to place within the reach of all our customers at a nominal price the means to avert serious sickness, or at least hold such cases in check till a doctor can be obtained. We also know that a doctor's bill and a druggist's account is frequently a great drain on many a pocketbook, already sadly depleted by the ordinary calls of existence. We thus offer you the means to combat the simple ailments of life without such expense. The following are the remedies we have selected as being the most useful.

No. 1. **COLD IN THE HEAD**—Will cure quinsy, tonsilitis, cold in the head, influenza, and many of the milder troubles arising from cold.
No. 2. **COLIC**—Very useful for all childish pains, such as in cramps, colic, or for the restlessness of teething, diarrhœa, etc.
No. 3. **COUGH**—Valuable in coughs, bronchitis, hoarseness and any trouble in throat and chest arising from cold.
No. 4. **CONSTIPATION**—Will relieve obstinate cases of constipation, which is often the cause of headache, biliousness, offensive breath, etc.
No. 5. **DIARRHŒA**—Useful and a sure cure for any form of diarrhœa, cholera morbus, cholera infantum, sour stomach, etc.
No. 6. **HEADACHE**—Good for headache of any sort, fever, cold, nervousness, la-grippe, etc.
No. 7. **TONIC**—For any weakened condition of the system.
No. 8. **ALTERATIVE**—For impure blood, boils, scrofula, ulcers, eczema, etc.
No. 9. **DYSPEPSIA**—From any of the ordinary causes.
No. 10. **KIDNEY AND LIVER**—To remove or cure all diseases of the organs.
No. 11. **MALARIAL**—To be used when quinine fails, or when the patient cannot take it.
No. 12. **RHEUMATIC**—A true remedy.
No. 13. **NERVOUS TROUBLES**—Calms and sooths; will relieve nervousness in any form.
No. 14. **HEART REGULATOR**—A splendid tonic for the heart.
No. 15. **LIVER CORRECTOR**—For biliousness, jaundice, sallow complexion, sour stomach, &c.
No. 16. **KIDNEY DISORDERS**—Gently stimulates the kidneys and relieves urinary troubles in both old and young.
No. 17. **BRONCHIAL**—For difficult breathing, pain in the chest, cold in the bronchial tubes.
No. 18. **THROAT**—For hoarseness, tickling in throat; useful for speakers and singers.
No. 19. **NEURALGIA**—For the relief of neuralgia, sciatica, &c.
No. 20. **FEVER**—For all kinds of fever, especially that arising from cold.
No. 21. **CROUP**—For children; to be given when the first symptom appears.
No. 22. **MUMPS**—Give regularly and follow instructions in our Medical Guide.
No. 23. **PLEURISY**—For pain in the chest on breathing and coughing.
No. 24. **PIMPLES**—For skin blemishes.

OUR GREAT OFFER We will allow you to select any 12 of the above remedies, which selection we will put up in a handsome black cloth covered case for $1.50. We will send with each case a book giving full instructions how to use these remedies and containing other valuable information for the care of the sick.

FOR $2.50 we will send you the 24 remedies complete with our valuable book of instructions.

Remember that we are the only firm in the country putting up a reliable Medicine Case for family use.

SOMONE Sweet refreshing sleep

A Reliable Remedy for Sleeplessness.

We ask any of our customers who may be troubled with insomnia, who cannot sleep at nights, to give this valuable remedy a trial. No matter from what cause the sleeplessness arises, a sound sleep will be procured by its use, and you will awake in the morning refreshed, strengthened and cheerful; no bad effects from its use. We guarantee it to contain no opium, morphine or poisonous narcotics of any kind whatever. It is a vegetable preparation composed of herbs soothing and healing to the entire system. It can be used in safety by the weakest and most delicate and is a boon to those of nervous dispositions. A single dose will strengthen and invigorate them and cause them to forget their troubles. Ladies troubled with nervous spells should always have a bottle at hand. A dose or two in time will save them many hours of agony and serious discomfort and often prevent total collapse of the nervous system. It has a marvelous effect on those afflicted with nervous prostration, acting like magic in restoring the nerves to their normal condition and causing a strong healthy feeling to prevail throughout the whole body. It quiets the nervous excitement and muscular trembling caused by the excessive use of liquor, and acts as an antidote to the liquor habit. Full directions accompany each bottle how to use it both for sleeplessness and nervous troubles.

: CURE :

FOR THE

..OPIUM AND MORPHIA HABIT..

We here offer a perfectly safe and reliable cure to those addicted to the habit of using opium or morphia in any form or manner whatever. We guarantee this preparation to be absolutely harmless, to contain no poisonous narcotics. Can be taken freely without producing any of the deletarious effects on the system, such as are caused by the use of opium and morphia. Immediately on taking a dose of this remedy a calming and soothing effect is produced. It acts as a tonic to the nerves; its use will completely destroy that terrible craving for morphine in those who are victims to the deadly habit of taking these poisonous drugs and free them from their bondage, restoring their health and make them feel like living again. A dose can be taken whenever a craving for morphia or opium exists; it will act at first as a perfect substitute, rendering the patient independent of these poisonous drugs, and after continued use for a short period the nerves will become strong and the general health improved, so that the remedy can be taken at longer intervals and soon altogether discontinued, then the cure is complete.

SANITARY DISINFECTANT.

A GOOD RELIABLE DISINFECTANT . . . .IS WORTH.... Its Weight .. In Gold ..

We here offer to our customers the most powerful Disinfectant, Deodorizer and Antiseptic known to science. It is non-poisonous, and when diluted with water, as described on the label of each can, it is the cheapest disinfectant ever offered to the public. Can be used to disinfect drains, sinks, gullies, urinals, water closets, farm yards and buildings, chicken pens, rabbit-hutches, bird cages, cattle trucks, slaughter houses, stables, kennels, ash barrels, garbage cans. It kills all disease germs and should be used for general disinfecting purposes. It is also one of the best insecticides; will destroy fleas on dogs and other animals, lice on chickens, cures mange on animals, makes an excellent and cheap sheep dipping; will also protect animals from the torment of flies, mosquitoes, midges, gnats, etc. It will also destroy insects on plants and trees without any injury to the plants or trees themselves, and destroy weeds on garden paths.

It will purify the air wherever it is used, remove all foul smells, destroying all germs and pests of every kind.

In order to save all the money possible to our customers we prepare this Sanitary Disinfectant in a very concentrated form. One pint will make from one to five gallons according to the purpose required. It mixes readily with water, forming a white, milky fluid. Agreeable and pleasant to use by the most delicate.

"PROTECTION" ABDOMINAL SUPPORTER No. 2.

This Supporter is similar to our No. 1, but made of material that is closely woven. Its elasticity, which is much greater, combining also a great amount of tension, owing to the many more threads of rubber in its composition, making it more durable and affording greater support. It is far lighter, more porous, and more easily applied than any other. Every strand of rubber is covered—doing away with the objectionable feature of the rubber coming in contact with the skin, as in other supporters. Especially adapted to cases of Umbilical, Hernia, Pregnancy, Obesity and all cases where abdominal pressure is required. It is easily applied; lace and draw on over head or feet. A $5.00 Truss for $2.75.

THE ILLUSTRATION HERE SHOWN will give a fair idea of the appearance of **LEA'S SUPERIOR SPECIAL ELASTIC TRUSS**, a truss whose superior qualities are acknowledged by the leading physicians and surgeons both in this country and abroad. This Truss has the highest grade Belt, made of finest quality of heavy silk elastic, the choicest elastic made. The Belt possesses the additional feature that it can be taken off and lengthened or shortened as desired. It is fitted with improved Safety Clutch Fastenings, complete with the CELEBRATED WATER PAD, acknowledged the best Pad in the world. Some physicians of note claim for it that it will cure Hernia when worn constantly. This Truss is made for adults only, and can be had either single or double, as desired. The illustration shows the single Truss. When ordering the single Truss, customers must state whether it is wanted for right or left side.

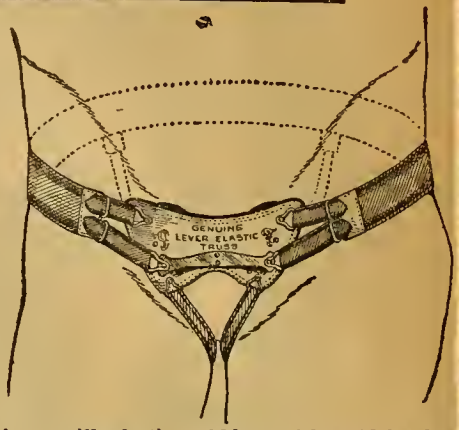
$3.75 Buys a $7.00 Truss.



THE GENUINE LEVER ELASTIC TRUSS, as shown in illustration, is manufactured especially for us, and the genuine superiority of the Truss is unquestioned. We have yet to learn of one which has not given the very highest satisfaction; in fact, customers who have used Our Lever Elastic Truss would not use another of any description, no difference how expensively made. One very valuable feature of this Truss is the fact that by means of the lever appliance extra pressure may be obtained in cases of severe Rupture. There is no more comfortable Truss made. The Belt is two inches wide, and is made of the very best of heavy silk elastic webbing, with solid leather facings and brass trimmings. This Special High-Grade Truss can be used either single or double, and will be sent with either one or two fine enamel finished Pads. Large size only.

The Ladies' Perfect Syringe.

No. D2384

Only perfect vaginal and rectal syringe in the world. Injections can be administered without leaking and soiling the clothing or necessitating the use of a vessel. Can be used equally for rectal injections and vaginal irrigation. It will thoroughly cleanse by completely distending the parts, and drawing all discharges out with the fluid into the bulb. Physicians and nurses will find this syringe a great convenience, as with its use medicated solutions can reach every minute part of the mucous membrane better than can be done by applications through a speculum, and with much less trouble. It can be easily used by the patients themselves and cannot possibly get out of order. It is entirely made of hard and soft rubber, without valves or small openings of any kind to become clogged or break. We guarantee it to be more effective, more satisfactory and last longer than any syringe on the market. Full instructions for use with each syringe. Weight, 18 ounces.

The Toilet Mask.

The Art of Beautifying the Complexion.

Every lady knows the value of a Mask made of transparent rubber, acid cured, for the removal of freckles, liver spots, and other facial blemishes. As a bleacher it cannot be excelled and will give any lady the fine, soft, velvety skin of a child. The great trouble has been that few have been able to afford these Masks, as they never have been sold for less than $5.00, and sometimes as high as $10.00. We have been fortunate enough to make terms with the manufacturers of these Masks which enables us to sell them for $2.75 each.

This Mask is composed entirely of the purest natural material brought from the forests of Para and Giuana, scientifically treated and incorporated with healing agents mould to the form of a Mask. It is safe, simple, cleanly and effective for beautifying purposes, and never injures the most delicate complexion.

JAPANESE LOOFAH.

FLESH BRUSH.

The loofah is a fibrous part of a gourd that grows in the south of Japan. Its health-giving properties, when used as a flesh brush or sponge, have been known to the Japanese for ages. In England, where they have been used for some years, they are rapidly taking the place of the ordinary sponge for bath purposes. Their use gives a healthy glow to the body, removes all accumulations from the pores of the skin, increases the circulation of the blood, and leaves a pleasant sensation. DIRECTIONS: The loofah may be used as a sponge, just as it is, or to make it a trifle more handy, soak in water until it expands full size; cut lengthwise and remove the inner substance so that the loofah opens out like a cloth.

HIGHLY RECOMMENDED TOILET PREPARATIONS

OUR SPECIAL LINE OF ARTICLES FOR THE TOILET cannot be equaled by any other house, either in this country or in Europe, on account of their good and harmless quality and the magical effects produced. They are prepared by a specialist who has made a life time study of the science of improving and beautifying the skin, hair and teeth. It is in the nature of the human family from the savage to the most civilized to use the best means obtainable by which they can render themselves more pleasing and attractive to others. It is a duty and a pleasure we owe to one another. It is almost criminal to go about with a repulsive complexion, etc., when the means to render yourself attractive are so easily obtainable.

A POSITIVE GERMICIDE.

Heller's Germ-Killer.

A POWERFUL DISINFECTANT.

Heller's Germ Killer. A new germicide and antiseptic of the widest range of usefulness, and the only disinfectant that works on scientific principles, endorsed by boards of health, physicians, veterinary surgeons and thousands of others. It is the most efficient disinfectant, deodorizer, antiseptic and positive germicide known. Invaluable at public stock sales.

Its uses and how to handle it. The Germ-Killer, being in a powder form, is very easy to use; a flour sifter, puff box or a baking powder can with plenty of small holes in the bottom are all very good with which to sprinkle the disinfectant.

Instructions for Swine Breeders to Prevent Disease. Twice a week powder all sleeping places, wallows and feeding pens freely with the Germ-Killer. In troughs, wash first and sprinkle disinfectant freely, then rinse with clear water. Lice on hogs are done away with by either spraying or wetting the hog with water and then powder him all over with the Germ-Killer. The Germ-Killer will kill all disease germs, and our Hog Food should be fed to hogs to purify the blood, expel worms and keep the bowels in good order. Hogs will mature quicker and will positively be free from disease by the use of these two articles.

For lice, mange or skin disease on horses, cattle, sheep and hogs. Spray the animal first with water, then apply and rub the Germ-Killer in well.

For chicken lice. Spray or sprinkle drop boards, roosts and nests with water, also floors in bad cases, and dust the Germ-Killer on thoroughly.

For mites and jiggers. It will be necessary to spray the entire inside of house with water, then apply the Germ-Killer as above.

Setting hens. Dust the Germ-Killer lightly in the nest. Bear in mind, our Germ-Killer being used in the nest does not affect the hatching. We have tested it thoroughly.

For bed bugs, roaches and ticks. Dust the Germ-Killer freely in the places where the vermin are. This will promptly and completely eradicate them.

For garbage boxes, cess pools, sinks, waste water basins. Sprinkle Germ-Killer freely in and around such places the first time, after which a little applied two or three times a week will be sufficient.

For patent closets. Use Germ-Killer freely in the pan and let on the water, repeating this two or three times. It will thoroughly disiufect clear through to the cesspool or sewer, destroying all germs of disease and odors. Also keep Germ-Killer in the closet in a low dish or tin plate. Change the Germ-Killer once a week.

In the sick room the Germ-Killer will be found of great service, deodorizing excrements, etc., destroying germs of disease. Moisten paper or plates and place the Germ-Killer on them in two or three places in a room.

For stable use. Heller's Germ-Killer acts instantly, destroying foul odors as soon as applied. It eradicates disease germs, insures pure air, keeps the stock bright and full of life. Also causes the ammonia to be absorbed by the manure and thereby protects the harness and prevents it from decaying.

ANIMALINE. HELLER'S STOCK FOOD...

Improved Vegetable Stock Tonic. A spot cash guarantee on every package. This food is composed of roots, herbs, seeds, barks and salt. On every package is a certificate of analysis showing what the food contains. It has no equal for growing and fattening horses, cattle, sheep and hogs.

THREE FEEDS FOR ONE CENT. Heller's food has been carefully built up to its present perfection by combining in the correct proportion and most digestable form all the elements necessary for producing bone and muscle in a rapid and symmetrical animal growth, namely, starch, sugar, fat and fatty oil gluten, albumen, gum, casein, phosphates and saline substances. The process of the manufacture is such that the indigestible particles or hulls, husks, fibers, shells, etc., are carefully removed and the pure goods are subjected to a number of grindings and other processes entirely our own, acquired in many years of experience. Heller's Food mixed with the ordinary feed of dairy cows greatly enriches the milk yielded, and also increases its quantity. Rich milk is more valuable than poor milk. We absolutely guarantee that if cows are fed Heller's Food according to directinos and with strict care in from two to four weeks they will yield an increase of from one to six quarts of milk, and the milk will be of a superior quality.

CHEMICAL DE HORNER.

Farmers and Stock Raisers! Pay attention and learn how you can save dollars and dollars every year by a simple investment of 85c. The question of dehorning has been decided in the affirmative by most of the stock raisers of the United States in the past eight years. Horns were necessary to cattle in the wild states as a means of defense, and the survival of the strongest; in the domestic state cattle have no more use for horns than a horse has. It costs the farmer at least one dollar to grow each horn, over one hundred million dollars for the horns grown in the United States. Other reasons may be mentioned in favor of dehorning. Without horns. Human and animal life is safer, only one-half shed room is required, less food is wasted, the most vicious become gentle, one-half the time at the water tank; five to seven more head can be shipped in a car; fifteen to twenty cents more paid by packers per hundred, because hides are not torn or flesh bruised. Besides the nutrition wasted necessary to grow five pounds of horns on each animal. We have a painless, simple, inexpensive remedy to prevent horns growing, which, if used for about two generations of cattle, a breed will be raised without horns. One bottle contains sufficient for one hundred horns, and it is so easily applied that a child may use it. It can be applied to calves, sheep, goats, etc., soon after birth, and no further care is necessary. We stand ready to guarantee that all trials made according to directions will be successful, and also that no harm will result to the calves from its use. It never spoils. So can be kept ready for use for years. If you have many cattle it will save you lots of money to use it. Increase the value of your stock. In neat glass stoppered bottles; with very simple and clear directions.

IMPROVED CONDITION POWDER.

A VALUABLE TONIC CONDITION POWDER, carefully prepared by our veterinary surgeon from health giving nutritious herbs, seeds, barks and roots. It therefore can be fed to the most delicate animal with perfect safety as a tonic. We can not too strongly caution keepers of stock to beware of a number of stock and condition powders that are much advertised to work wonders. They are for the most part composed of injurious minerals, such as arsenic, antimony, etc., which have a temporary bracing effect on the animal, but the after results are very injurious to its general health. This Tonic Condition Powder has valuable medicinal effects, and may be given with great advantage in all cases of loss of appetite, roughness of the hair or coat, stoppage of water and bowels, coughs, colds, inflammation of the lungs and bowels, recent founders, swelling of the glands of the throat, house distemper, hidebound, and will also backen the heaves, and in recent cases effect a cure. For cattle it ought to be fed once a day, for horses twice a day for two or three weeks at a time; the cost will only amount to one or two cents per day. It will cleanse and cool the blood, sweeten the stomach and bring the animal to a strong and healthy condition.

VETERINARY CARBOLIC SALVE.

This is used with great success by horsemen wherever known for galls, no matter what they are caused from; for burns, cuts, wounds, scratches, old sores, abscesses, ulcers, speed cracks, hoof diseases, tetter, ringworm, itch, chapped and cracked skin, boils, salt rheum, eczema and skin diseases generally. It destroys the life of all those little parasites which cause all skin troubles. It is the best, most reliable and most economical salve ever offered to the farmer. One ounce of it is stronger and more effectual than a pound of most of the ointments generally sold for the same purpose.

Veterinary Liniment.

VERY PENETRATING, COOLING AND HEALING

AN ARTICLE OF GREAT MERIT.

Cannot be excelled as an application for sprains, bruises, cuts, scratches, spavin, grease heels, corns, thrush and other diseases of the foot, etc.; also effective as an application in sore throat, distemper, pneumonia, bronchitis, lung fever, sweeney, etc. We are selling an immense number of bottles of this liniment every month, therefore we can afford to give our customers the benefit of a very low price.

No. D1910 Each bottle only.....25c

Veterinary Colic Cure.

This remedy is unexcelled for all stomach and bowel troubles accompanied with colic pains, wind colic, spasmodic colic, cramp colic, engorgement of stomach, bots, stoppage of water, indigestion, etc. It relieves the pain and relaxes the muscular coat of stomach, bowels and bladder, causing a normal action and free evacuation of the organs. Colic is the most distressing of all tronbles that animals are subject to; the attacks are sudden and it is well to have a reliable remedy near at hand to save the animal much suffering and perhaps serious injury. You will find full directions on the bottle how to give the medicine, also the best treatment to use in order to relieve the animal quickly from the severe pain and distress.

Veterinary Worm Powder.

The Standard English Remedy for Worms in Horses, Cattle, Sheep, Swine, Dogs, etc. Guaranteed a sure cure, as many farmers and breeders who have used it can testify to.

Nearly all lambs, calves, colts and pigs have worms. When they begin to lose in condition, become hidebound, bloodless, or show great thirst and changeable appetite, or diarrhœa, you can depend on it—they have worms. Treat them at once, delay is dangerous and might cause you to lose your stock. Worms cause indigestion, colic, constipation, loss of flesh and general debility. Give one powder a day with the food at the first symptoms. You will destroy the worms, and by giving a powder occasionally you will keep your animals free and healthy. For a physic give one pint of raw linseed oil.

VETERINARY BLACK LEG REMEDY

We guarantee this remedy to be a sure and positive cure for Black Leg in young calves or stock, and a positive preventative against the disease. Black Leg, Black Quarters, Bloody Urine, extensive Engorgement of a Shoulder, Quarter, Neck, Side or Breast. It is most frequent in young or rapidly growing and thriving stock, attacking first the best of the herd and rapidly running its way through. The first symptom is Dullness, quickly followed by Lameness, and a Swelling in some part of the Body or Limbs. Sore and painful and crackling like paper or dry leaves, with a yellow or bloody substance oozing through the skin. Get a package of this remedy at the first symptom and stop the disease.

Poultry Foods and Medicines.

We would recommend our customers to buy their Poultry remedies only from a firm in whom they have confidence and who guarantee every article they offer to be exactly as represented. We know our remedies will give satisfaction, they have been used by poultry raisers for years past with the best results. A well fed animal is one that pays. We recommend the following for keeping the fouls healthy, great egg producers, and fatteners for the market. We will enclose with each order for any of our Poultry Foods, a small book called "POINTERS OR POINTS ON POULTRY RAISING," or will send one by mail to anyone who will send a one cent stamp to pay the postage.

GUARANTEED EGG PRODUCER.

HELLER'S POULTRY FOOD

Is used by the leading poultry fanciers of the United States, Canada and Europe. The only poultry food manufactured that can be at all times relied upon.

IT NEVER FAILS WHEN PROPERLY USED.

Our Motto: "Not how cheap, but how good."

Why you should use Heller's Poultry Food, because it stands alone as an egg producer, grower and health producer of fowls. It will positively cure or prevent chicken cholera, roup, caps and all diseases of any kind in the flock. Young chickens grow quickly and free from disease. You will have no sickly broods of young chickens or droopy old ones. It is positively guaranteed to increase quantity of eggs at all seasons of the year. There is nothing better for turkeys, ducks or geese. Moulting fowls will be assisted through the moulting season and will lay much earlier than otherwise.

LEE'S LICE KILLER.

No disease known to the poultry fraternity can compare in its ravages to that wrought by the numerous family of insects known as "Chicken Lice." From the beginning to the end of the poultryman's career it is a continuous fight against vermin. We here present to our customers a lice killer which we guarantee to eradicate thoroughly not only the mites and chiggers; but the body lice on fowls, by application to the roosts and nest boxes, this being the simplest and best method of treating a large number of fowls. All that is necessary is to paint with our lice killer the roosts, roost supports, nest boxes and all cracks or crevices that form a lodging place for the vermin. It is so easily applied and does the work thoroughly, killing not only the lice but also the mites and eggs. For a scaly leg it is invaluable to the poultryman, as fowls that roost on poles that are occasionally painted with our lice killer will never have a sign of that unsightly disease.

GRANULATED BONE.

A wrong impression exists regarding bone. Fresh bone contains 5 per cent. moisture and 12 per cent. grease, so that when you buy fresh bone you pay for 65 pounds of useless material in every 100 pounds you buy. Our Granulated Bone is made from fresh, green bones, and the moisture and grease is taken out, leaving nothing but the phosphate of lime and nitrogen. These are the only two feeding properties of the bone, so that when you buy our bone you get all the feeding properties without buying or paying freight on moisture or grease, and you get an article that will keep in any kind of weather if kept dry. Bone is the best producer of egg shells known.

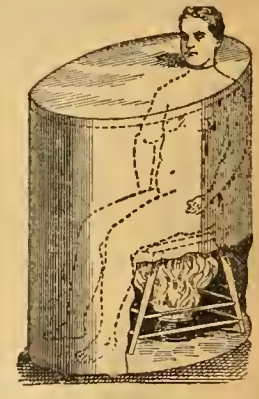
VAPOR BATH CABINET.



The Genuine North Star Vapor Bath Cabinet, which originally sold for $10.00, we now offer to our customers for only $2.75. Made of the strongest and finest woven goods, fastened on two frames of steel. Especially adapted for home use, and can also be used while traveling, as it folds up to 17x28 inches and will go in a trunk.

Of the therapeutic value of the vapor bath there can be no question. It is a mechanical diaphoretic and popularly speaking also a "blood purifier." It opens the pores of the skin, enabling it to exercise its excretory functions and relieving the system of whatever poisons that may develop in the blood. The diaphoretic action of the vapor bath makes it a valuable remedy in affections of the respiratory tract, as in acute bronchitis, influenza, etc., it also serves well as a valuable remedy in rheumatic troubles and constipation. With this cabinet you can have, in your own home, a Turkish, Russian, perfumed, sulphur or any kind of medicated vapor bath you wish.

We wish to warn our customers that there are a number of vapor baths advertised, made of rubber cloth, which become useless after using three or four times. Rubber cannot stand the heat. We warrant our cabinet to last for ten years. No rubber is used in their composition. 90,000 have been sold within the past few years and not a single complaint received, but instead many letters are coming to us every day, thanking us for the cabinet and saying it is the most highly prized article of the household.

We send with each cabinet, an alcohol heater, medicine vaporizing pan, formulas and directions how to prepare the different baths.

Each cabinet.....$2.75

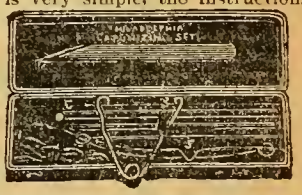
POULTRY INSTRUMENTS.

It is well understood that poultrymen can double their profits by caponizing their chicks. The operation is very simple, the instructions being so explicit that anyone after a careful reading will be able to perform the operation with proper instruments. The demand for capons far exceeds the supply, even at an advanced price. **The Philadelphia Caponizing Set contains the best instruments on the market,** and at the price at which they are offered no one who keeps chickens can afford to neglect the opportunity of increasing their profits.



No. D2138 Price, per set, in velvet lined case (see cut), with book, **"Complete Guide for Caponizing"....$2.50**

THE PHILADELPHIA POULTRY MARKER.

Do you keep a record of chickens? The different breeds, hatches, etc., should be kept. There is no better or quicker way than by this marker, as over two hundred different marks can be made by punching between toes; for instance between first and second toes of right foot can mean Wyandotte or Plymouth Rock; between second and third toes, White Leghorn or Langshan, so that hundreds of private marks can be made, not only to keep records, but by your private marks you can secure yourself from the chicken thief. They are well made with steel spring and cutter, nicely nickel plated.

No. D2144 Price.....20c

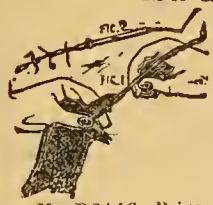
CAPE WORM EXTRACTORS.



The disease commonly known as gape is caused by a small worm in the windpipe of the fowls. When the chick seems to gasp frequently it is a sure sign of gapes, and it should receive attention at once. The only sure cure is to remove the worms by mechanical means. **You will save time and money by having on hand a Gape Worm Extractor.** The extractor quickly removes, without injury to the chick, the worms and the matter from the windpipe and effects an instant cure. The cut shows the manner of using the instrument. One chick saved pays price of instrument.

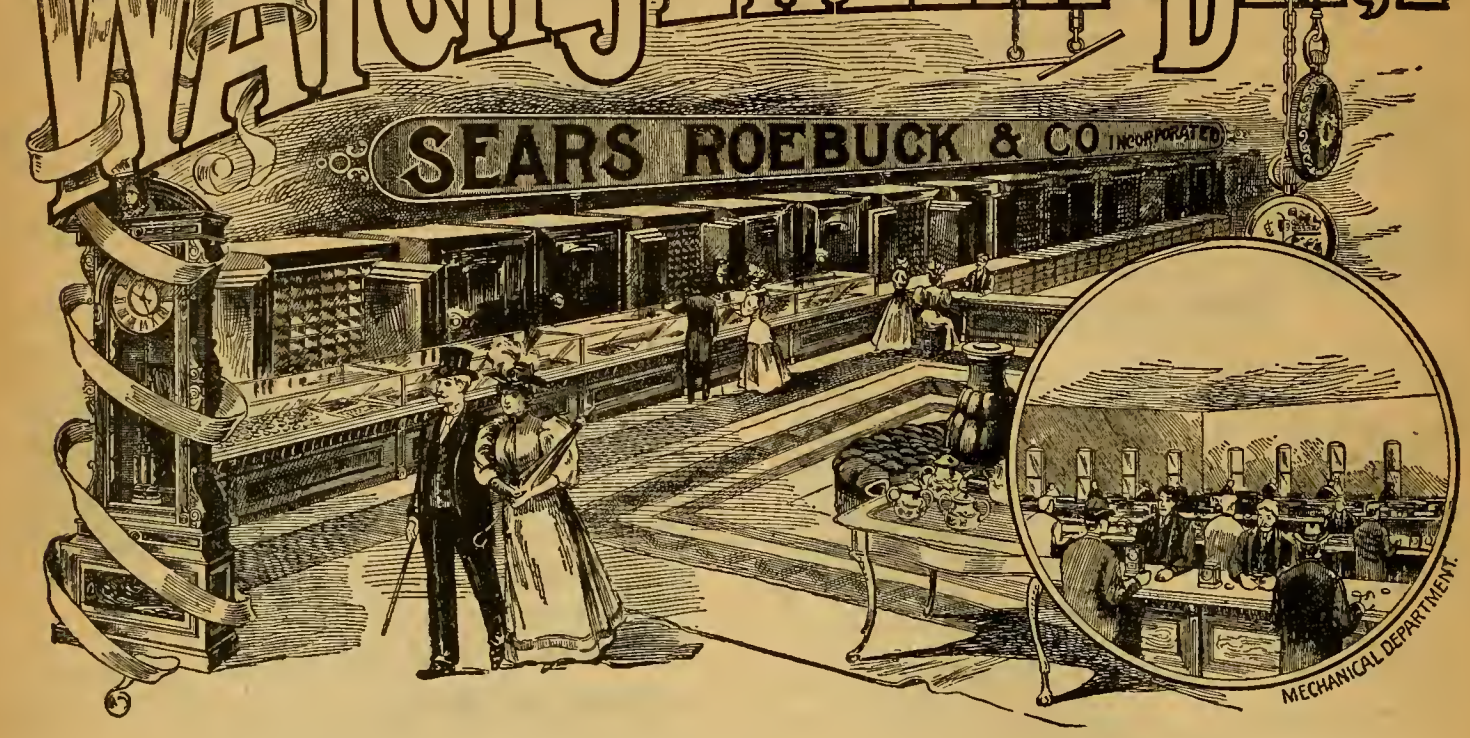
DON'T PAY THREE PRICES FOR TRUSSES. COMPARE OUR LINE OF HIGHEST GRADE TRUSSES WITH ANY OTHERS ADVERTISED OR SOLD ANYWHERE. SAVE 50 PER CENT. OR MORE AND GET THE BEST.

WATCH AND JEWELRY DEPT.



EVERYTHING NEW In our Watch, Diamond, Jewelry, Silverware and Clock Department. Every article is of the latest design, workmanship and finish, and at prices at which such values were never offered before. Confidence must be had when buying watches and diamonds—in fact, anything in the jewelry line; and to secure for you that confidence we wish to state, emphatically, too, that we guarantee every article to be as represented or money refunded.

OUR LOW PRICES Are due to our large purchases for cash. That saving in price for better goods and better designs we give you the benefit of.

OUR DIAMOND PRICES, When comparing qualities, will prove that we can save you one-half the prices you would pay elsewhere.

OUR WATCH DEPARTMENT Is undoubtedly the largest and most complete in the world, and, as we sell more watches than any other house, it gives us purchasing power over any other. You get the benefit.

SEARS, ROEBUCK & CO. Special watch movements are the perfection of mechanical skill, made especially for us after our own original design and in such large quantities that we get them at a price which enables us to sell them to you at what other dealers very often ask for cheap and unreliable watches.

WE WANT YOUR ORDERS For everything in the watch, clock, silverware, diamond and jewelry line.

OUR GUARANTY. With every gold filled, silver or solid gold watch we give a certificate of guaranty. With gold filled watches the certificate guarantees the case to wear and keep its color for fifteen or twenty years, and the movement to be an accurate timekeeper for five years. This guaranty is given in addition to the guaranty which is fitted in the back of the watch case. As to the value of our guaranty, we will refer you to the first page of this book under the head of **OUR RELIABILITY.**

OUR PRICES. In watches and jewelry we buy nearly everything direct from the manufacturers in large quantities for spot cash. As we sell for cash, having no bad debts, we are satisfied to sell at prices which the retailer pays and, on a large per cent of goods, for much less money.

YOU CAN MAKE MONEY Selling watches, jewelry, silverware, etc., for when you can buy them for the same, or less money, than the retail dealer who sells on from 30 to 100 per cent profit and has large expenses in the way of rent, clerk hire, fuel, light, etc., you can readily see that you could undersell him and still make a handsome profit for yourself.

OUR VERY LIBERAL TERMS. We desire to make our terms of shipment as liberal as possible, consistent with safety and good business principles. Watches, jewelry, diamonds, silverware, clocks and optical goods will be shipped C. O. D. by express when desired, when a deposit of sufficient amount to pay the express charges both ways is sent with the order, the balance to be paid when goods have been received. Goods cannot be sent by mail C. O. D. When to be sent by mail the full amount of cash must accompany the order, also enough to pay postage. Be sure to enclose enough to pay postage, and if any amount remains it will be returned to you. When goods are to be shipped C. O. D. we will require deposits as follows:

AMOUNT OF DEPOSIT REQUIRED. For watches and jewelry, 50 cents must accompany the order; for diamonds, optical goods, silverware, clocks and other heavy goods, we require $1.00 with the order. We never consign goods to be sold on commission, nor do we sell goods on time. Our terms are strictly cash in full with order or C. O. D.

MAIL SHIPMENTS. We recommend sending jewelry, watches, etc., by mail, as it is perfectly safe and far the cheapest. Postage is 1 cent per ounce. A watch packed for shipment weighs from 6 to 8 ounces; chains, rings and other small articles of jewelry about 2 ounces. Packages amounting to $1.00 or over should be registered, which costs 8 cents extra. We guarantee the safe delivery of all registered mail packages. Be sure to send enough for postage, and if any balance remains we will return it to you.

ENGRAVING. We charge for engraving in script on jewelry, watches, etc., 2½ cents per letter; in old English, small, 5 cents per letter; small script monograms on jewelry, etc., from 25c to 75c. Engraving on flat ware such as spoons, forks, etc., in quantities of 6 or more pieces, 1½ cents per letter. Jewelry and watches to be engraved cannot be sent C. O. D., the full amount of cash must accompany the order.

WATCH REPAIRING. We have a thoroughly equipped Mechanical Department, which is fitted with all of the latest tools and appliances for the repairing of all kinds of watches. We have a large force of thoroughly skilled watchmakers under the supervision of a very competent foreman, and any watch sent to us for repairs will receive very careful and prompt attention. We do not solicit for watch repair work, but are willing to accommodate our customers who wish to have work done in a thoroughly first-class manner. Our charges are about half what is usually charged by the retail dealers, but the work will be done in a very superior manner. We cannot give an accurate estimate of the cost of repairs without a thorough examination. Our charges are merely enough to cover cost of manufacture and labor. None but a thoroughly competent watchmaker should ever take a watch to pieces for the chances are that he will ruin it.

Description OF THE Movements We List.

To save space by avoiding repetitition we have adopted the following as the best method of describing movements, because we are able to give a more complete and intelligent description than if inserted in a condensed form on each page. On the following page will be found an explanation of the different terms used.

WE GUARANTEE FOR FIVE YEARS ALL THE MOVEMENTS SOLD BY US.

By this we mean that we will, for five years from date of purchase, correct free of charge any fault which may occur from defective material or workmanship. Any well made movement will run a life-time if properly cared for.

THE "TRENTON" Movement is a seven jeweled, nickel damaskeened and patent pinion.

THE SETH THOMAS Movements. Nickel damaskeened, 7-jeweled. They have safety pinion and compensation balance. They are made by the old reliable Seth Thomas Clock Co., whose reputation for fine clocks is a sufficient guarantee for the quality of the watch movements they make.

THE SEVEN JEWELED Waltham, Elgin and Hampden Movements have compensation balance, patent pinions, and are finished in gilt and nickel.

FIFTEEN JEWELED Elgin, Waltham and Hampden Movements have compensation balance, patent pinions and patent regulators. The Waltham and Elgin will be furnished in both gilt and nickel, but we list only the nickel grade.

THE G. M. WHEELER Elgin is now made with 17 jewels, safety pinion, train jewels in settings, compensation balance, adjusted; patent Breguet hair spring, patent micrometer regulator and is furnished in either gilt finish or nickel damaskeened, stamped, "17 jewels adj."

THE HAMPDEN 17 jeweled grade is solid nickel and has 17 fine ruby jewels, raised gold settings, patent center pinion, highly polished center and escape wheels, is beautifully damaskeened in gilt and nickel, Hamden back action main spring, finest grade hair spring, gilt bevel screws, fine gilt hands, adjusted to five positions and very accurately timed.

THE DESCRIPTION OF 0 SIZE MOVEMENTS is the same as six size. The Hamden, Trenton and Seth Thomas are not made in 0 size.

300 SIZE, 16 JEWELS. Solid nickel movement adjustment, highly damaskeened and finished through; 16 genuine ruby jewels in raised solid gold settings; highly polished beveled edge screws; fancy French hard enameled dials.

300 SIZE, 15 JEWELS. Solid nickel movement, 15 jewels in raised gold settings; sunk second, fancy glass dial, finely damaskeened elaborately finished through.

300 SIZE, 11 JEWELS in raised settings, genuine nickel movement, bright polished screws, sunk second, hard enameled dial, elegantly finished through.

MOLLY STARK, 300 SIZE, 7 JEWELS. Gilt finish with bright flat screws, sunk second, plain hard enameled dial.

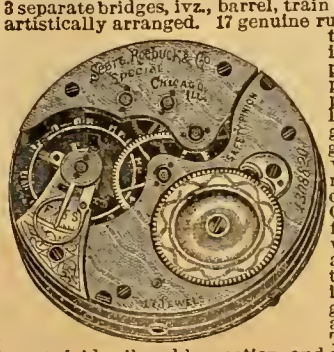
DESCRIPTION OF....

Sears, Roebuck & Co. Open Face, 18 Size.

Solid Nickel through and through. 17 jewel, adjusted. Full plate, fancy solid gold damaskeened finish, five pair gold settings, compensation full double cut expansion balance wheel, adjusted to isochronism and positions, patent micrometer regulator, genuine ruby jeweled pin, highly polished beveled edged screws, fully protecting dust band, safety pinion, double sunk, white enameled dial and sunk second band dial. The superior construction of this movement adapts it to be of the most exacting service.

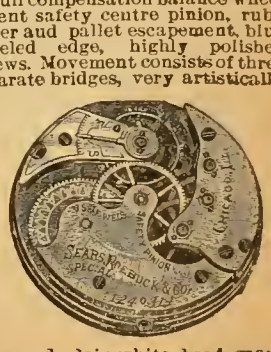
Sears, Roebuck & Co. Special, 16 Size.

Solid Nickel, Fancy Gold Damaskeened Finish, consisting of 3 separate bridges, ivz., barrel, train and balance bridges. Very artistically arranged. 17 genuine ruby jewels, in solid gold settings. Exposed to view winding apparatus, the steel parts of which are highly polished and chamfered; patent micrometer regulator, five pairs of extra solid gold settings and gold train, genuine ruby pallet jewels, visible to view and ruby roller jewel, patent safety center pinion and barrel. Compensation, double cut, full expansion balance wheel, adjusted in accordance to variations of the temperature, fully protecting dust band, double sunk, genuine French hard enamel and sunk second hand dial. This movement will pass the most rigid railroad inspection, and will in its construction nad finish excel the highest grade movements on the market.



Sears, Roebuck & Co. Special, 6 Size.

Nickel, Very Elaborately Designed, damaskeened finish, 15 jewel, full compensation balance wheel patent safety centre pinion, ruby roller and pallet escapement, blue beveled edge, highly polished screws. Movement consists of three separate bridges, very artistically arranged, plain white, hard enameled dial and fancy blue steel hands.



. . . . EXPLANATION OF THE . . . .

TERMS USED IN THE DESCRIPTION OF WATCH MOVEMENTS.

To assist our customers in making an intelligent selection of a movement best suited to their requirements, and that they may know exactly what they are buying, we give below an explanation of terms used on opposite page.

REMEMBER

That the "numbers" which are always engraved on watch movements have **nothing to do with our catalogue number**, or the manufacturers' number, which indicates the grade. Every movement is numbered consecutively, and you will find no two movements made by the same factory that have the same number.

JEWELS

Are not used to add to the intrinsic value of a movement, as is supposed by many, but for the purpose of **equalizing and reducing friction**, which will reduce the variation, and cause the pivots and bearings to wear much longer, and thus **retain the good qualities of the movement** for an indefinite length of time. **They are made of garnet or ruby.** The ruby, being harder and more expensive, is used only in the higher grade movements. A great deal depends on the quality and perfect finish of the jewels.

In movements of lower grade than fifteen jewels, the jewels are used in places where there is the most friction.

With the seven-jeweled grade, the pivots of the balance wheel each run in a jewel, and, in addition to this, is used what is called "cap" jewels, which serve as bearings for the ends of the balance pivots, which are made with conical instead of square shoulders, and the ends of the pivots rest on the cap jewels, instead of the shoulders resting on the hole jewels. By this method the friction can be equalized, and the watch keep the same rate, whether on its face, edge or back. Two jewels are used in the pallet, which operates on the 'scape wheel, and one, called the "roller" jewel, is set in the roller table, which is under the balance wheel on the balance staff.

In the fifteen jeweled grade, seven jewels are used in the escapement and eight plate jewels are used, four of which are set in the upper plate and the other four on the opposite pivots on the lower plate.

In the seventeen-jeweled grade, the jewels are distributed as in the fifteen, with the addition of one for each pivot of the center wheel.

In the twenty-one-jeweled grade, the jewels are distributed as in the seventeen-jeweled grade, with the addition of two cap jewels each for the pallet and 'scape wheel.

THE COMPENSATION BALANCE

Is made of a combination of hammer hardened brass and steel, in such proportions as to compensate for the variations in temperature. The brass is used on the outside and steel on the inside. The brass being softer than steel is more sensitive to ranges of temperature, and as the rim of the balance wheel is cut in two places, and the balance wheel has but two arms, it leaves each half of the rim attached at the end and leaves the other ends of the rim free to be influenced by the expansion or contraction of the brass on the outside of the rim. A small balance wheel used with the same hair spring would run much faster than a large balance wheel. At a high temperature the entire balance wheel would naturally expand in bulk and consequently run slower. But, with the compensation balance, while the entire bulk of the balance wheel expands, the expansion of the brass on the outside of the rim is greater than the steel on the inside, consequently it throws the loose end of the rim of the balance wheel in toward the center of the wheel, thus making the circumference enough smaller to compensate for the increased volume.

By the results of experience it is possible to make these wheels by machinery, so nearly correct, that the rate is sufficiently close for all ordinary purposes. For closer rate the balance wheel must be adjusted to temperature.

ADJUSTMENT.

There are three kinds of adjustments which affect the rate of a watch. These are used in the finer timepieces, such as those of railroad men, sailors and others, who require a timepiece which can be depended on for a very close rate. The adjustment of a movement requires the most skill at the hands of a workman of any of the departments of watchmaking. Adjustments are perfected only by experiment and a great deal of careful hand labor on each individual movement.

The first adjustment is that of heat and cold. Every compensation balance is provided with screws in the rim of the balance wheel, by the use of which the adjustment of heat and cold may be changed by the workman. **The movement is tested in an ice box or in an oven, and if it does not keep the same rate in both extremes of temperature**, as well as the average temperature, the screws in the balance wheel are shifted to or from the loose end of the balance rim, so as to bring about the desired results.

The second adjustment is position. The watch must keep the same rate when lying on its face, on its back, or on the edge with pendant up, pendant down, three and nine up. This adjustment is accomplished by having the jewels in which the balance pivots rests, of the proper thickness in proportion to the diameter of the pivot, and at the same time it must equal the surface on the end of the pivot, which rests on the "cap" jewel; also the balance wheel, as well as pallet and 'scape wheel must be perfectly poised. A wheel is perfectly poised when the pivots can be supported on two flat surfaces, perfectly smooth and polished, and the wheel placed in any position, when it will remain exactly as it is placed. If it is not perfectly poised, the heaviest part of the wheel will always turn to the point immediately under the lines of support.

The third adjustment is that of isochronism. This is the result of careful calculation and experiments in the way of selecting a hair spring of the exact proportions, as to length, strength, etc., which will cause the balance wheel to give the same length of arc of rotation, when the main spring is wound full up, as it does when nearly run down. The natural tendency is for the watch to run slower when nearly run down than it does when wound full up. This is why your watchmaker will sometimes tell you to always wind your watch at the same time every day. This adjustment overcomes this serious difficulty. While the variations from that cause are not sufficient to be of any consequence in a watch for ordinary use, it is very important with very fine timepieces.

THE PATENT REGULATOR

Is a device which is used on all gents watches of high grade, for the purpose of assisting in the finer manipulation of the regulator. It is so arranged that the regulator can be moved the shortest possible distance, without fear of moving it too far. They always have a fine graduated index attached, which makes it possible to see just how much the regulator has been moved.

THE HAIR SPRING

In general use on the ordinary grade watches is known as the flat hair spring. A great deal depends on the form and temper of any style hair spring, in order that it may retain its elasticity and give the best result. **The Breguet hair spring** is an improvement over the flat hair spring and is used on high grade watches. The inside coil of any hair spring is attached to what is called a "collet" on the balance staff, and the end of the outside coil of the hair spring is attached to a stud, which is held firmly by a screw in the balance wheel bridge. Two small pins, with the end of each fastened to a projection in the regulator, clasp the outer coil of the hair spring a short distance from where it is fastened in the stud. If the regulator is moved toward "S," these pins, called guard pins, are moved toward the stud, which lengthens the hair spring and allows the balance wheel to make a longer arc of rotations, which causes the watch to run slower, because it requires a longer time for the wheels to perform the longer arcs. When the regulator is moved towards "F," these pins are moved from the stud, which shortens the hair spring and makes shorter the arcs of the balance wheel, thus causing the movement to run fast. It sometimes happens that the next coil to the outside one, from a heavy jar, will catch between these guard pins, which will shorten the length of the hair spring just one round, causing a gaining rate of about one hour per day. When such does occur, the hair spring can be easily released by the aid of a pin, and it will resume its former rate. Under such conditions your local jeweler is very apt to tell you that the watch needs a new hair spring, which is not true.

THE BREGUET HAIR SPRING

Is a recent improvement which accomplishes two objects. It prevents the liability of the hair spring catching on the guard pins, and at the same time there is no lateral or side motion given to the balance wheel, as the expansion is equal all around, owing to the fact that the outside coil of the spring is bent up and turned around, so as to pass near the center and across to opposite side and is attached to the stud above the level of the body of the spring.

THE PATENT OR SAFETY PINION

Is now used in the most of the American watches, and was invented for the purpose of protecting the train from reaction caused by breakage of the main spring, which is liable to happen in any grade of watch at any time, without apparent cause; sometimes from over winding. It is the pinion of the center staff with which the barrel (the hollow wheel which contains the main spring) engages.

In case the main spring breaks, the recoil and backward action given to the main wheel disengages the pinion from the center staff and allows it to turn freely on the staff.

When solid pinions are used, balance staffs, jewels, teeth of wheels and other parts have been seriously damaged by the breaking of the main spring. The patent pinion prevents all such accidents.

FULL PLATE

Movements are those on which usually the balance wheel only is exposed to view.

THREE-QUARTER PLATE

Movements are those which have a portion of the upper plate cut away, so as to expose a portion of the train wheels, pallet, etc. Three-quarter plate is used mostly on 16, 6 and 0 size movements.

NON-MAGNETIC MOVEMENTS

Have the balance wheel, hair spring, roller table and pallet made of non-magnetic metal, which is a composition of iridium, paladium and other metals. (Both of the above named metals are four times as valuable as gold.) The balance wheel and escapement (except in the non-magnetic watches) is made largely of hardened steel. **If hardened steel comes in contact with a strong electric current, it is liable to become magnetized**, a portion of which will be retained, and will be very detrimental to the time-keeping qualities of the watch. The non-magnetic metal will not in any way be influenced or attracted by electricity or magnetism. It is a comparatively recent discovery and is especially valuable to those who work about electric cars, electric light plants, etc.

In non-magnetic movements we list only those made by the Waltham Watch Company; the Elgin Watch Company does not make them.

WE GUARANTEE FOR FIVE YEARS

All the movements sold by us, and will for five years from date of purchase, correct free of charge any fault which may occur from defective material and workmanship. **Any well made movement will run a lifetime if properly cared for.**

REMEMBER

That your watch should not run longer than one and one-half years without having the old oil cleaned off and fresh oil applied. This must be done at the expense of the purchaser.

The balance wheel of all modern watches makes 18,000 beats or revolutions per hour; 432,000 per day, or 157,788,000 per year. An engine or sewing machine will be oiled several times per day, but we have known people to carry a watch for ten years without having it cleaned or fresh oil applied.

Usually, a movement thus treated is of no value, being entirely worn out. Take good care of your watch if you wish it to perform its duty properly for it is a very delicate machine. Our charge for cleaning and oiling is 75 cents. The regular retail price is $1.50.

We can furnish any movement or case made. If you do not find in our catalogue what you want, write us.

HOW GOLD FILLED CASES ARE MADE.

AS GOLD FILLED CASES have become so popular in the past thirty years, and there is so little known by the general public of the relative proportions of the different materials that enter into their construction and the methods employed in making them, we feel that it will be interesting to our customers and their friends to know more about such an important industry. **With every line that we handle and list** in our catalogue, we make ourselves thoroughly familiar with the manner in which the goods are made, and the **quality and proportion of each kind of material** which enters into their construction. It is very necessary for us to do this in order to protect the interests of our customers, for their interests are our own. **We employ men in each department** who are thoroughly familiar with the construction of the goods they handle, know where to look for **weak and strong points**, and are **thoroughly competent to judge** and to protect the interests of both our customers and ourselves from being **imposed upon by fraudulent concerns** whose only object is to make up cheap, showy goods and market them to the unsuspecting public in competition with goods of real merit, which, if bought right, can be owned for the same or even less than the shoddy goods. We can say without fear of contradiction that the average merchant does not employ competent people and even himself is not a practical man. Let us repeat that **we leave nothing undone** to thoroughly understand and know the merits of everything we sell.

There are at the present time eleven watch case factories in the United States, with a **daily average of about 4,500 filled cases, or 1,498,500 per year.** Most of the watch case factories in operation at the present time are reputable makers who have been established a great many years, and have proved by the experience of over a quarter of a century that gold filled cases, when properly made, are not only theoretically but practically a success, and have given the owners entire satisfaction. We might say that it has been our good fortune and pleasure to have had the privilege of examining a great many gold filled watch cases which have been in constant use from 20 to 30 years, and, without exception, **we found all of those which were made by reputable concerns to be in good condition** and to all appearances equal to solid gold cases. (Of course, the joints were somewhat loose from wear, which is a natural consequence with any watch case.) Even though the first filled cases were satisfactory as to wear and appearance, improved machinery and **years of experience have made it possible to turn out cases at a very low price**, which for style and appearance are far superior to a solid gold case and for wear are all that could be wished for. **The following article**, together with accompanying illustrations will give the reader a good general idea of how gold filled cases are made.

THE FIRST OPERATION is to prepare a sheet of material which is composed of two plates of gold with a plate of hard composition metal between. **Instead of rolling all three plates** out to the required thickness before soldering them together (which would be a very difficult operation and attended with unsatisfactory results, such as uneven thickness of the plates, not being soldered well together, etc.) the material is made ready, as shown in Figure 1, by taking one piece of gold about 4 inches long by 2 inches wide, and another of the same width and length but thinner for the inside of the case, as there is no wear on the inside. Now, a piece of hard composition metal of the same width and length is placed between the two pieces of gold, and after placing a few bits of hard gold solder between the plates **the three are put into a furnace** kept at a very high heat by a charcoal fire and a hot air blast. The solder soon melts, and all three of the original pieces of metal are in **one solid piece as seen in Fig. 1.**

Fig. 1.

Fig. 2.

This piece is passed between adjustable hard steel rollers, which are brought closer together by a set screw after each time the plate has been passed through until it is reduced to a thin sheet a little less than 1-16 of an inch in thickness. Fig. 2 represents a plate after having been passed through several times. By this method all three of the original sheets are reduced proportionately equal so that neither the gold nor the composition metal will be thicker in one place than another.

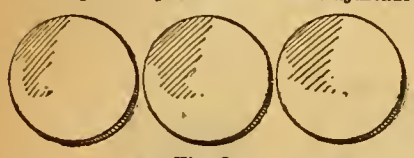


Fig. 3.

Fig. 4.

The next operation is to cut the plate into strips of such width as to accommodate the different parts of the case, which are free to be stamped out by large automatic rotary presses. The back, front and cap of the cases are stamped out in a circular plate **as shown in Fig. 3**, and the piece of the strip that is left is **represented by Fig. 4.** Cuts are about one-third size.

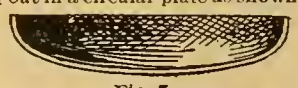

Fig. 5.

By a single operation these round plates are forced into a steel die in a large rotary press which turns up the edges all round so as to give it a bowl shaped appearance, **as shown in Fig. 5.** In another operation the edges are turned down **as shown in Fig. 6**, which is called the snap.

Fig. 6.

The next step is to place the piece thus shaped into a sectional hard steel **concave die.** On the inside is operated with **very heavy pressure** a small hard steel polished roller **(see Fig. 8)** which forces the metal into the die in all parts, which shapes the piece to conform to the style of case which is being made. If the case is to have corrugated edges, or Star vermicilli work, or heavy engraving, it is formed in this die. This operation also shapes the inside edges of the piece so as to form the snap **as seen in Fig. 7.**

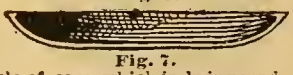

Fig. 7.

The piece thus shaped is put on the head of a lathe and the inside edge turned out a little with a sharp tool to make it snap and fit perfectly on the center of the case. After this is done a rotary cutter propelled at a high speed is run across one edge to cut the seat for the joint (hinge). Two pieces of gold joint wire about ¾ of an inch in length (joint wire is made in sticks about 4 inches in length with a small hole running the entire length, and is cut into pieces of the required length with a saw), is placed in the seat cut by the tool and bound in place with fine wire. **Some bits of fine hard gold solder** are then laid over the crevice and the pieces are held in a gas jet which is stimulated by an air blast. The solder is melted and secures the joints, after which the binding wire is taken off. **A piece of solid gold** is soldered on in the same way on the edge of the back of case to form the thumb piece.

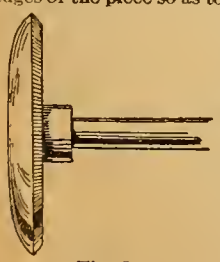

Fig. 8.

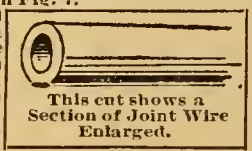

This cut shows a Section of Joint Wire Enlarged.

The center of the case is made by taking a strip of stock (prepared in the same way as described in the first part of this article) about ⅜ of an inch wide by **about 7 inches long** (see **Fig. 9**), which is bent in a circle and the ends soldered so as to form a band or ring a little over two inches in diameter. This piece is placed in a sectional die **(see Fig. 10)** which is held securely in a very heavy frame. **A small hard polished roller** is rolled on the inside of the ring with very heavy pressure until the metal comes in contact with every part of the die. The inside of the die is made in the exact shape of the outside of center of case so that when the metal has been well pressed in, it is shaped complete **as seen in Fig. 12.** The rough edges on the inside are now turned out (on the lathe) to the standard size to fit the movement.

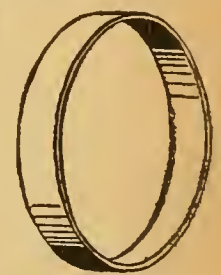

Fig. 9.

The seats for the joints are milled out and joints soldered on as described above, except that one piece of joint wire instead of two are put on. The pendant **(see Fig. 13)** is made by forcing a small piece of stock into a die. A small concave seat is cut in the center **(Fig. 12)** to receive it, and it is bound in place and soldered on with gold solder.

The pendant bow (usually called the ring) is made of solid gold. The **bezel** (crystal ring) is made in much the same way as the center. All the joints (hinges) are now filed and broached so as to fit perfectly, **the case springs** are secured in their places and the different parts of the case are fitted together.

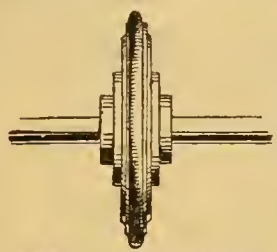

Fig. 11. Hard Steel Roller Used on Inside of Die.

The next operation is to engrave the case, which is done by hand with a small tool about five inches in length **(see Fig. 14)**, which is held as seen **in Fig. 15.** Engraving is very fine work and requires years of practice as well as natural ability to master the art. After the engraving is done the case is polished inside and out on cotton buff wheels from one to five inches in diameter, which run at the rate of about **3,000 revolutions per minute** and are saturated with alcohol and red rouge (very fine powdered oxide of iron). The case is now washed carefully, put in a **soft cotton** bag and is ready for the market.

GRADES OF GOLD. For the benefit of those of our customers who are not familiar with what is meant by **10, 14 or 18 karat gold**, we make the following explanation: **24 is taken as a basis.** For 14 karat gold, fourteen twenty-fourths of the composition is pure gold and ten twenty-fourths is alloy. **For 10 karat**, ten twenty-fourths is pure gold while fourteen twenty-fourths is alloy.

RAISED COLORED GOLD ORNAMENTATION is mentioned in different parts of our Watch and Jewelry department. Gold can be made in many different colors by using different kinds of metal for alloy. **Pure gold is bright yellow**; gold of a reddish color is made by using copper for alloy; **very light colored gold** is made by using silver for alloy; **green gold is made** with light alloys and colored by a chemical treatment. A white metal is also used in raised colored decorations which is **Platinum**, and when pure it will **not tarnish or corrode.**

98-CENT AMERICAN WATCH.

Far better than ever and yet only 98 cents.

A gentleman's stem wind watch for 98 cents.

This is a nickel plated metal watch, stem wind and stem set, regular 18 size, open face case. A patent lever movement, and runs 30 to 36 hours with one winding.

Guaranteed American made and a very good time keeper, movement is strong in construction, and will stand much rougher usage than a finer and higher priced watch.

Remember your boy with one of these 98-cent watches. Nothing will please him better, 98 cents is little money and far less money than the watch can be bought for elsewhere.

Consider the price, only 98 cents.

ONLY $1.59

3500 to be sold at $1.59 each. A $3.00 stem wind watch for only $1.59.

How We Can Do It. We bought a large number of these watches in Switzerland nearly one year ago, before the change in tariff, and we got the lot at the lowest price ever known. Add our one small profit, and the price is $1.59. A nickel stem wind watch. Case is gents' full 18 size, open face, heavy nickel plated, highly polished, stem wind and stem set.

Movement—A nickel cylinder escapement, and while we do not guarantee it, they keep very good time. It's a boy's pride, and as our price is only $1.59, get your boy a watch. He will remember it as long as he lives. $1.59 for this watch will astonish all other dealers and agreeably surprise our customers. $1.59 will be our special price until our stock is entirely exhausted.

OUR $2.15 Alaska Silver All-American Open-Face Watch

No. 11006

$2.15 For an American stem-wind and stem-set nickel movement and American case we believe is a lower price than was ever before quoted by any house in any quantity, and making this price of $2.15 on an all-American watch, one that can be guaranteed for time and for wear, we feel sure will insure us an immense trade. For this reason we have contracted with the manufacturer for a very large number of these watches, which alone makes it possible for us to make this $2.15 price.

Do not confound or compare this all-American stem-wind watch with any of the many cheap imported nickel watches—watches that are made in Switzerland—made to sell and not for service.

UNDERSTAND in this watch at $2.15 you have both in the case and in the movement a strictly up-to-date American Watch—one that is guaranteed for wear, guaranteed for timekeeping qualities, and such a watch as has never before been shown at anything like the price.

ALASKA SILVER CASE. This handsome case as illustrated is what is known as ALASKA SILVER. It is a composition of several metals, giving the watch the appearance of coin silver; and in fact, it is in appearance and in every way except intrinsic value the equal of coin silver. It will wear and retain its coin silver color for a lifetime. It is handsomely finished as shown in illustration, in a CORRUGATED PATTERN with fancy heavy beaded edge. It is open face, full 18-size, stem-wind and stem set, and is fitted with a heavy bevel-edge crystal.

At $2.15 we furnish this case complete with movement in what we call snap back and snap bezel. The front and back snap on.

MOVEMENT. We furnish in this watch at our special price of $2.15 a 7-jeweled solid nickel stem-wind and stem-set movement. These movements are made by the Trenton Watch Co., of Trenton, N. J., for export trade. Some are stamped Pan-American; some are stamped Riverside, and some are stamped Trenton. Every movement is guaranteed by the manufacturers for five years, and they issue a five-year guarantee with the watch.

OUR SPECIAL and heretofore unheard-of price of $2.15 commends this watch to all those who require a reliable time-piece and American case that will not tarnish, for very little money, and $2.15 is a price based on the actual cost to produce, with but our one small profit added.

No. 11009.

SAME WATCH AS ABOVE, with the case hinged in front and snap back, $2.40.

We recommend this hinged or jointed front case at $2.40.

The 25 cents additional which we charge you is the exact difference in the cost to us, and we believe the watch is well worth the difference. Our special price, $2.40.

Our Coin Silver Filled Dust-Proof Watch For $3.35.

THIS SCREW-BACK AND SCREW-BEZEL STEM WIND AND STEM Set, Open Face, Coin Silver Filled American Watch is offered by us as one of our leaders at $3.35, in competition with any watch you can buy elsewhere at nearly, if not fully, double the price, and we are able to offer this watch at $3.35 and a number of other special watch bargains quoted in this catalogue, only by reason of controlling the output of the watch case factory that furnishes us these cases.

No. 11012

A COIN SILVER FILLED, screw bezel, dust proof, stem wind American case, with stem wind movement, at $3.35, is a price heretofore unknown. This case is made of two very heavy plates of solid coin silver, over a stiff inner plate of hard composition metal; and being pure coin silver on the outside and inside over this hard metal you have practically a coin silver case, for it is guaranteed to wear and hold its perfect color for twenty-five years, and a binding 25-year guarantee accompanies each case. By the process of making, it is even more durable than solid coin silver would be, for it is stronger, stiffer, and to all practical purposes better. This case is absolutely dust proof. It is screw-back and screw-bezel.

From the illustration shown you can see the manner in which the front and back fasten to the case by screwing on, thus preventing any possibility of dust or dirt getting into the movement, making the most practical case on the market.

As shown in illustration, this case comes only in open face and in plain polished. It has SOLID SILVER CROWN and SOLID SILVER BOW. It is full 18 size and is fitted with a heavy bevel-edge French crystal.

At $3.35 we furnish this coin silver filled case complete with a New York Standard solid nickel, 7-jeweled movement, quick train, stem wind and stem set; or we will furnish the case complete with any of the following named movements at the following prices:

7 Jeweled, Elgin or Waltham	$ 4.10
Full 15 Jeweled, Elgin, Waltham or Hampden, nickel	8.35
Full 17 Jeweled, "G. M. Wheeler," Elgin, "P. S. Bartlett," Waltham or Hampden	10.60

THE WORLD'S RENOWNED DUEBER SILVERINE WATCHES AT PRICES NEVER HEARD OF BEFORE.

The purchasing powers of our organization were never more successful in obtaining low prices than they have been this season in contracting for large quantities of the celebrated Dueber Silverine Watch Cases. This watch case looks like solid silver and wears as well; in fact, for a low priced watch, it is the equal, if not the superior, of any similar made case in the world. Therefore, when ordering this watch, do not for a moment interpret that because the price is low, it means that you will get unreliable goods of any character or quality; but instead, we aim to give you a grade of watch that you will experience great difficulty in duplicating at an advance of 50 to 100 per cent over our price. Remember, we guarantee all watches for five years, which absolutely protects you against all possible loss. The high standing of our house and our reputation, which is second to none, is ample protection for your ordering liberally and without hesitation from time to time. Remember that we sell more watches in one day than the majority of dealers sell in a year, and you can best appreciate why we can afford to sell watches at the low price we do. A certificate of guarantee accompanies each case.

...BICYCLE AND HORSE TIMERS AND CHRONOGRAPHS...

THE ABILITY of accurately timing all running events, such as horse races, bicycle races, foot races; in fact any character of atheletic sports wherein the question of time is taken into consideration. A watch enabling you to ascertain the actual time will prove of great value and without doubt a great pleasure. It increases your interests in such events a hundred fold by having in your posession such a watch, provided it can be depended upon for accuracy and time keeping qualities. These merits are possessed by the watches listed on this page, which we thoroughly guarantee not only as horse timers, but as time keepers as well, thereby giving you double advantages over those possessed with an ordinary watch. It is valuable for the Doctor in his profession, as he will find that the sweep second hand attachment is a great advantage when taking a record of the pulse. In addition to the sweep second hand, they all have the regular small second hand. The sweep second hand can be allowed to run or stopped without disturbing the time keeping of the watch. Our low prices we now offer these watches at place them within the reach of everyone.

Send your order to us and we will guarantee you satisfaction and protect you by our guarantee that the watch will run satisfactory.

Don't overlook our liberal C. O. D. terms.

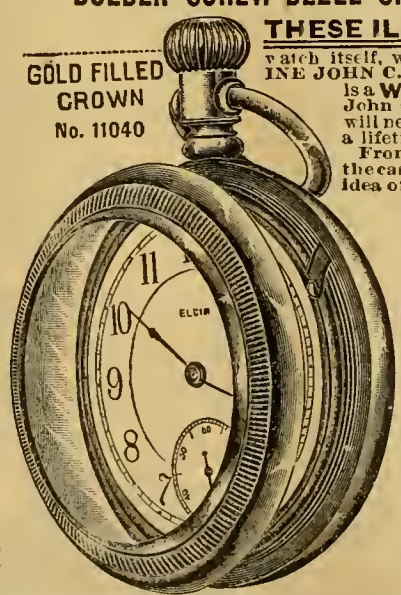
DUEBER SCREW-BEZEL SILVERINE ELGIN WATCH FOR $3.75.

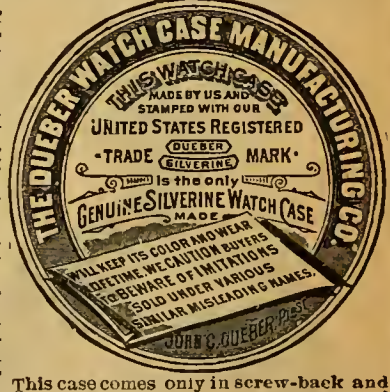


THESE ILLUSTRATIONS SHOW The beauties of the watch almost as fully as does the watch itself, which has an open face, screw-back and screw-bezel GENUINE JOHN C. DUEBER SILVERINE CASE. Accompanying each case is a **WRITTEN BINDING GUARANTEE** signed by the great John C. Dueber Watch Case Company to the effect that this case will never tarnish and will wear and retain a perfect coin-silver color a lifetime.

From the illustration of the case you can form some idea of the handsome appearance of this new screw back and screw-bezel case.

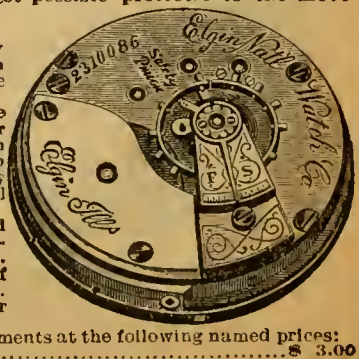
It is highly polished, absolutely dust proof, has a gold filled winding crown, and as the illustration shows, a very fine thread by which the front and back screw on, making it ABSOLUTELY DUST-PROOF.

Every one knows that the JOHN C. DUEBER SILVERINE CASE is, in every way except in intrinsic value, the equal of coin silver.



This case comes only in screw-back and screw-bezel, open face, and is the most practical dust-proof case made, the greatest possible protector to the movement.

THE GENUINE ELGIN MOVEMENT Made by the Elgin National Watch Company as illustrated here, needs very little comment from us.



AT $3.75 we furnish this case complete with a genuine 7-jeweled, quick train, stem wind, patent pendant set, Elgin or Waltham movement; the Elgin movement being made by the Elgin National Watch Co., and the Waltham movement by the American Watch Co., of Waltham, Mass. Both movements are guaranteed by special certificates of guarantee for five years. With care they will last a lifetime.

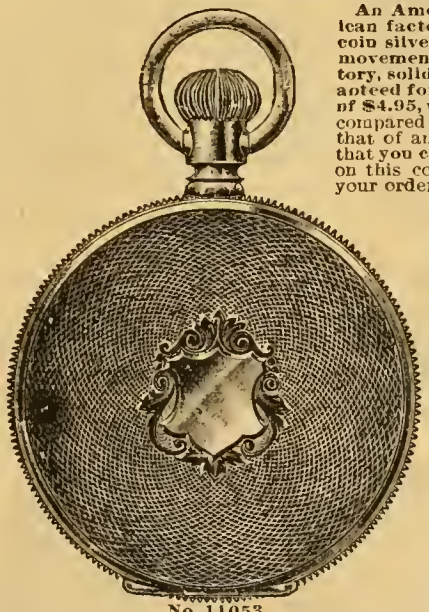
SOLID COIN-SILVER HUNTING CASE FOR $4.95

ALL-AMERICAN WATCH.



No. 11053

An American case, made in an American factory, hunting style, and solid coin silver, complete with an American movement made in an American factory, solid nickel, 7-jeweled and guaranteed for 5 years, at the special price of $4.95, we believe will, after you have compared the price we have charged with that of any other house, convince you that you can save from $3.00 to $5.00 on this coin-silver watch by giving us your order.

A CENTS' SOLID COIN SILVER HUNTING CASE, complete with an American movement, for $4.95, is such value as can be had from no other house; much lower than similar goods are sold by wholesale dealers in large quantities.

DESCRIPTION OF THIS SOLID SILVER WATCH.

CASE. This case is 2½ ounce, solid coin silver, hunting style, stem-wind and stem set, and at the special $4.95 price named, it comes in either engine-turned, as illustrated, or in plain polished, as desired. It is regular gents' 18-size, jointed front and jointed back, with jointed inside alabata cap. The case is made for us in Philadelphia, Pa., by one of the largest and most reliable watch case manufacturers in America, and every case is guaranteed strictly solid coin silver.

MOVEMENT. The movement we furnish in this case is made by the New York Standard Watch Co., of New York, one of the largest makers of time-pieces in this country, a concern whose name is a guarantee for the quality. The movements have been made for export trade, are stamped Pan-American and Riverside. We bought an immense number of these movements at an extremely low price, which enables us to offer the complete watch at the price we do. The movement is guaranteed by the manufacturer for five years, and we send with every watch a 5-year guaranty; but with care the watch will last a lifetime.

WE ONLY REQUIRE 50 CENTS with your order, and we will send the watch to you by express, C. O. D., subject to examination. You can examine it at your express office, and if you find it perfectly satisfactory and exactly as represented, you can pay the express agent the balance, $4.45, and express charges.

....COIN SILVER AMERICAN WATCHES....

A LARGE NUMBER OF PERSONS PREFER CARRYING A SILVER WATCH

For a heavy, strong, substantial watch case to thoroughly protect the watch movement there is nothing superior to a coin silver watch case properly constructed. These requirements the watches listed on this page thoroughly fulfill, and which we sell at a price other dealers are forced to pay for them.

The Cases are Fitted with an extra double thick crystal, beveled edge giving the watch that double strength which makes open-face watches so popular in the minds of the general public.

Instead of a solid gold, gold filled or plated. That class of customers we keep closely in mind when purchasing our stock of solid coin silver cases, searching the market carefully to secure the finest grade of silver, the highest character of workmanship in construction and finish; and take pleasure in recommending the celebrated Fahys' and Dueber Watch Cases.

No. 11073

..Gold Crown

No. 11073.

IN THESE TWO ILLUSTRATIONS we have endeavored to illustrate this watch so plainly, that you can order it almost as confidently as if you were in our store selecting the watch from stock.

We believe we offer the handsomest gold inlaid screw-back and screw-bezel dust proof watch that has been made; made especially for us by one of the best makers of silver watches in America. It is full 3 ounce, and as shown by the illustrations is screw-back and screw-bezel. The illustrations show the manner in which the bezel and back screw onto the case, making an absolutely dust-proof joint. The back screws on in the same manner.

The illustration showing the back of the case shows the solid gold stag inlaid. This stag is inlaid in the silver from 14-karat solid gold, beautifully finished and ornamented, and it is the handsomest thing of the kind on the market.

This gold inlaid case is furnished with the latest antique bow as illustrated, furnished with the 20-year guaranteed gold filled crown, open-face, screw-back and screw-bezel, solid gold inlaid, antique bow, the finest case of the kind made.

AT $6.90 We furnish this handsome dust-proof screw-bezel gold inlaid silver case complete with a 7-jeweled solid nickel, quick train, patent pinion and escapement, New York Standard Movement. The movement is made by the New York Standard Watch Company, and accompanying each movement is a binding five-years' guarantee during which time if any piece or part gives out by reason of defect in material and workmanship we will replace it free of charge.

$6.90 is a lower price than this watch has ever before been sold for in lots of 100 to dealers. We are able to make this price only by reason of controlling the output of the factory, thus reducing the cost to simply the actual cost of material and labor by reason of buying the movements in very large quantities, and then figuring our prices on the basis of the net cost to us, with but our one small percentage of profit added.

There is no such thing as competition; no one attempts to meet this price. You can get this $6.90 price only from us. When so desired we will fit this case with any of the following movements at the following named prices: 7-jeweled, Elgin and Waltham, $7.65; full 15-jeweled Elgin, Waltham or Hampden, nickel, $11.90; full 17-jeweled, "G. M. Wheeler" Elgin, "P. S. Bartlett" Waltham or Hampden, $14.15; full 17-jeweled, Sears, Roebuck & Co., specially adjusted, $14.65.

OUR $4.45 SOLID SILVER SCREW-BEZEL DUST PROOF AMERICAN WATCH.

BACK VIEW of our $4.45 SILVER WATCH, which comes in either engine-turned as illustrated, or plain polished, as desired. Back screws on same as front, making a perfect dust proof watch.

WE ARE DETERMINED TO SECURE THE WATCH TRADE OF THIS COUNTRY by offering such values as can be had from no other house; offering American cases and American movements; complete high-grade American watches on the basis of the actual cost of material and labor with but our one small percentage of profit added.

OUR SPECIAL PRICE OF $4.45

On a COIN SILVER, screw-back and screw-bezel, dust proof case, means a saving to you of at least $2.50 over any price quoted by any manufacturer or jobber in America; a price we are able to name only by reason of controlling the output of this case factory.

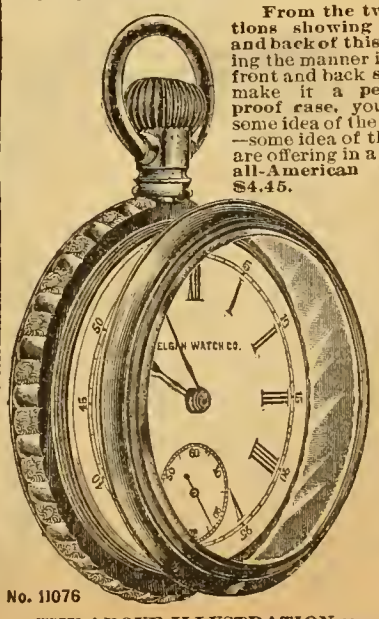
DESCRIPTION OF THE CASE

THIS CASE IS SOLID COIN SILVER GUARANTEED. It is full 18 size, screw-back and screw-bezel, making it absolutely dust proof. It is open face and fitted with a heavy bevel-edge French crystal. Comes in either plain or engine-turned as illustrated. Case weighs about 2¼ ounces, and makes a very neat, handsome and durable silver case.

AT $4.45 WE FURNISH THIS CASE COMPLETE with a 7-jeweled, solid nickel quick train, patent pinion, patent escapement, stem-wind and stem-set, Standard movement, a movement that is GUARANTEED FOR FIVE YEARS, and with care will last for twenty. These movements are stamped Pan-American and Riverside, but are made by the old reliable N. Y. Standard Watch Co., of N. Y. When so desired we will furnish these cases fitted with any of the following movements, at the following named prices:

7 jeweled, Elgin or Waltham.....$5.20
Full 15 jeweled, Elgin, Waltham or Hampden, nickel.....9.45
Full 17 jeweled, "G. M. Wheeler," "Elgin," "P. S. Bartlett," Waltham or Hampden.....11.70
Full 17 jeweled, Sears, Roebuck & Co., specially adjusted.....12.20

From the two illustrations showing the front and back of this case, showing the manner in which the front and back screw on to make it a perfect dust proof case, you can form some idea of the appearance—some idea of the value we are offering in a coin-silver all-American Watch at $4.45.



No. 11076

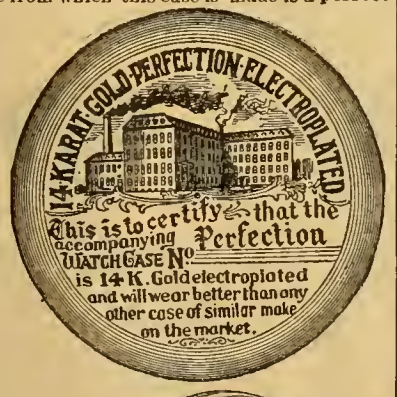
OUR $3.95 GOLD PLATED TRADING WATCH

YOU CAN BUY THEM AT $3.95
AND SELL THEM AT $10.00 TO $15.00.

No. 11074

THERE HAS BEEN SUCH A DEMAND from traders, auctioneers, canvassers and others for a watch having the appearance of the highest grade gold-filled case made and the movement having the appearance of one that costs $30.00 or $40.00, and yet can be produced for very little money, that we have been induced to get up this Special Trader, which possesses all the appearance of a watch which would sell at retail at $40.00 to $50.00, but which for quality we do not guarantee.

THIS CASE IS MADE OF BRASS from a die patterned after one of the handsomest and most expensive Solid Gold cases on the market. The die from which this case is made is a perfect fac simile of a solid gold case worth $60.00, the engraving is an exact counterpart very handsome vermicelli border, with stars and floral design, and very handsome raised vermicelli edge. The case looks exactly like the original Solid Gold Case; in appearance no one can tell the difference, and yet this case is simply electro gold plated. If not worn it will retain its color for an indefinite time, but worn it will soon tarnish and it is not guaranteed by us for anything other than appearance. Its appearance commends it as a trading watch, and we have an immense sale among traders everywhere.



THE MARVEL MOVEMENT is a traders' movement, and fitted in this case makes a watch that a trader will ask any price for. They write us about trading a watch even up for a horse, for a buggy, getting in exchange for the watch ten times the cost and more.

WHILE WE DO NOT PRETEND to approve of this method, yet our business is to supply the demand, being careful to explain just what the goods are. This Marvel movement is an American movement, stamped Marvel Watch Company, upper plate is full-jeweled with very large imitation ruby jewels, and large raised gold plated settings, fancy patent regulator, fancy damaskened and ornamented throughout, giving it the appearance of one of the most expensive watch movements made.

THE COMPLETE WATCH AT $3.90 is the most deceptive value imaginable. It looks worth ten times its cost. It is gotten up for this purpose, sold without a guarantee, but is the greatest watch of the kind ever offered by us or any other house.

FAHYS'... GOLD FILLED, 14 KARAT, OPEN FACE, SCREW BACK AND BEZEL AND DUST PROOF, 18 SIZE, CASES.....

No. 11087. Warranted to wear 25 years, 18 size, Open Face, Screw Back and Bezel.

The Fahys' Watch Case Company were the first manufacturers to make a screw back and bezel dust proof watch case. It met with such satisfactory results that in a very short period it was without question the most popular and satisfactory style of watch case in existence. **Their long experience in manufacturing** this style of case, produces absolutely a perfect watch case and at a price far below ever anticipated.

Remember, in reducing the price it does not reduce the quality of the case; in fact, improved mechanical appliances enables their making a higher grade quality of case than ever before.

The front and back of the case screws on to the center by a finely cut thread, thus making the case absolutely dust proof. **It does away with the possibility** of the joints getting stuck or working loose.

The cases are guaranteed to wear for 25 and 20 years, and the movements to run satisfactorily for five years. Be sure to state number of case, and grade of movement wanted when ordering.

No. 11135

These Two illustrations show our new Screw-Back and Screw-Bezel Dust-proof Solid Coin-Silver Stem-Wind and Stem-Set Watch,

Which we are able to offer at the SPECIAL PRICE OF **$5.95**

FROM THE FRONT ILLUSTRATION You can see the manner in which front and back screw on, making an absolutely dust-proof joint, and we believe it to be the best screw-back and screw-bezel coin-silver case on the market.

From the illustration showing the back of the case you can see the handsome way in which it is finished in full bassine, highly polished—we believe the best-finished silver case made.

THE BOW as shown in the illustration, is of the antique pattern, the latest, most stylish and strongest bow made.

The Winding Crown of This Case is 14-Karat Gold Filled,

Made of two plates of solid gold over an inner plate of composition metal and guaranteed to wear for 20 years.

We guarantee this case SOLID COIN SILVER, through and through, with a 20-year guaranteed gold-filled Crown, with solid antique bow. It is full 18-size, stem-wind and stem-set, coin silver. Weight, a little over 3 ounces, and is offered, fitted with a 7-jeweled solid nickel quick train, stem-wind and stem-set movement, New York Standard, at about the regular wholesale price for the case alone.

OUR SPECIAL PRICE OF $5.95

Includes the complete watch, and the New York Standard movement we furnish is guaranteed an accurate time-keeper for five years. With every movement we issue a binding **FIVE-YEARS' GUARANTEE,** during which time if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge.

When you can buy the best screw-back and screw-bezel coin-silver case, the case made in this country by one of the best silver watch case makers in America, with all the latest improvements, including the antique bow and the gold-filled crown, and all complete with a 7-jeweled New York Standard movement for $5.95, we feel sure you will agree you are buying from a house that can give you such value for your money as cannot be had elsewhere.

When so desired we will fit the above case with any of the following named movements at the following prices:

THIS IS OUR HIGH-GRADE TRADING WATCH.

WE CALL THIS OUR HIGH GRADE TRADING WATCH for the reason that the case is actually gold-filled. You can trade it or sell it as a genuine gold-filled case. While the case is an imitation of the highest grade 20-year guaranteed gold-filled case, being made with a very light plate, we can offer it at a very low price. THE MOVEMENT we can guarantee to give fair satisfaction as a timekeeper, and for appearance it is the equal of a high-grade $40.00 or $50.00 movement, which together makes this one of the most desirable trading watches ever produced.

THE MARVEL MOVEMENT As shown in the illustration, while a very ordinary movement, and only recommended by us as a fair timekeeper, is made for show and has all the appearance of a $50.00 movement. The upper plate is full jeweled. The jewels are very large imitation ruby, in raised gold settings. It is solid nickel with fancy damaskeened finish, and has fancy patent regulator.

OUR $5.75 PRICE Secures for you a watch that almost any jeweler would, without the very closest examination, call a $20.00 or $30.00 watch, a watch you can trade or sell at from two to five times our special $5.75 price.

SEND US 50 CENTS As a guarantee of good faith; we will send you this watch by express C. O. D., subject to examination. You can examine it at your express office and if found perfectly satisfactory and exactly as represented, pay the express agent the balance, $5.25 and express charges, and the watch is yours.

Fahys' 18-Size, Gold Filled Hunting Cases,

WARRANTED TO WEAR SATISFACTORILY FOR 25 AND 20 YEARS.....

The satisfaction gold filled watch cases have given the consumer, proves conclusively that it is no longer an experiment in the watch making industry. If it is properly made, and the Fahys' gold filled watch case unquestionably is, it will give far more satisfactory wearing results than those low quality or light weight solid gold cases. We, therefore, recommend to all of our customers, and all prospective purchasers in general, to beware of inferior quality and poorly made solid gold watch cases. We recommend in their stead at all times, gold filled watch cases of standard make and known reputation. In addition to the manufacturer's guarantee, we give our personal guarantee and also warrant all movements fitted in these watches to run satisfactorily for five years.

We give the best valne for the money of any firm in the United States. If goods are not as represented return and get your money back.

You may think these prices impossible for the goods described. Try us and be convinced. We know you will be satisfied.

ORDER BY NUMBER

$2.45 COMPLETE WITH TRENTON MOVEMENT, STAMPED PAN-AMERICAN.

$3.45 COMPLETE WITH THE FANCY MARVEL MOVEMENT, as shown in illustration.

A Perfect Imitation of a High-Grade Gold-Filled Screw-Back and Bezel Case.
A Perfect Imitation of a High-Grade Movement.
An Imitation of a $40.00 Watch Offered at $2.45 and $3.45.

THIS IS A TRADING WATCH and is bought largely by traders of all kinds; horse-dealers, jockeys, auctioneers, etc. A watch that has all the appearance of a strictly high-grade watch is offered at an extremely low price.

THIS IS AN ELECTRO GOLD-PLATED SCREW-BACK AND SCREW-BEZEL CASE and while it is not guaranteed to wear or to retain its color, yet it is in appearance the equal of any gold-filled case made.

No one can tell it from the Highest Grade of Gold-Filled for it is elaborately engraved, has fancy beaded edge, is screw-back and bezel, dust-proof, stem-wind and stem-set, full 18-size, and is without doubt the greatest trading watch in America.

AT $2.45 WE FURNISH THIS WATCH COMPLETE WITH A 7-JEWELED NICKEL TRENTON MOVEMENT.

AT $3.45 WE FURNISH THIS WATCH COMPLETE with the Marvel movement as illustrated hereon, and it is a wonder as a trading watch, a watch you can trade at any price you see fit at from $5.00 to $20.00. This gold-plated case imitation high-grade gold-filled with a Marvel movement is the best watch made.

WHILE IT IS A VERY WELL-MADE MOVEMENT made for us in New York, we can guarantee it to run with only fair satisfaction. It has been made with a view to making the greatest possible show for the least money. The upper plate is full-jeweled with very large raised imitation ruby jewels, set in imitation raised gold settings, made of nickel, fancy damaskened and ornamented, stamped adjusted, stamped Safety Pinion, complete with Patent Regulator.

IT IS A PERFECT FAC SIMILE of movements that sell as high as $20.00. THIS COMPLETE WATCH AT $3.45 is in fact a fac simile of genuine high-grade watches made to sell as high as $50.00 and $60.00.

WE HAVE CUSTOMERS WHO BUY THESE WATCHES BY THE HUNDRED trading them for real estate, horses, stocks of merchandise, selling them at auction, etc., etc. AS A GENUINE TRADER'S WATCH, one that is guaranteed as the greatest show for the least money, this watch has no equal.

THIS WATCH WOULD DECEIVE ANY WATCHMAKER not alone one who did not understand watches. We do not put it out with any guaranty, but there is nothing equal to this screw-back and bezel electro gold-plated imitation high-grade gold-filled, complete with this fancy Marvel Watch Company's movement at our special price of $3.45.

HOW WE CAN MAKE THE PRICE.

This high-grade, 20-year guaranteed, special, gold-filled case was made for us under contract by the manufacturer whose output we control. We secured the cases at the ACTUAL COST TO PRODUCE.

The full 17-jeweled, adjusted, special, high-grade, Sears, Roebuck & Co. movement, is made for us under contract by one of the best watch movement makers in America, and in such large quantities that we are able to own them at a very small per cent above actual cost of material and labor.

We give you the benefit of our advantage, and quote you a price based upon the actual cost to us, with but our one small percentage of profit added, thus making it possible for you to own the highest grade gold filled case made, with one of the very finest, 17-jeweled, adjusted movements made at a price lower by far than any dealer can buy.

We recommend this special leader above all watches in our catalogue, and if you feel you can afford to invest $13.85 in a watch, we assure you that you will get greater value than in any other watch we have to offer. Such value was never offered before.

DESCRIPTION OF CASE. THIS CASE IS THE HIGHEST GRADE, GOLD FILLED, made of two heavy plates of SOLID GOLD over an inner plate of hard composition metal, has solid gold bow and crown; it is very elaborately engraved, decorated and ornamented. It has a HEAVY BEADED edge. It is the very best SCREW BACK and SCREW BEZEL made, being ABSOLUTELY DUST PROOF. It is full 18 size, stem-wind and stem-set, Open-face, and fitted with a heavy bevel-edge crystal.

This is a picture of our..... **Special Guaranty** which goes with every watch.

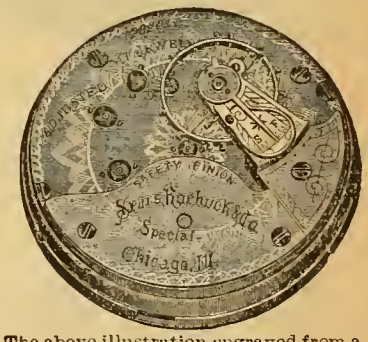
DESCRIPTION OF MOVEMENT.

The movement we furnish in this watch complete at $13.85, is our own **Special Sears, Roebuck & Co.,** 17-Jeweled, adjusted to heat, cold and position, and without doubt one of the finest movements on the market, regardless of price. In fact, it is made as perfect as the most skilled mechanic can produce, made from the very best of material by one of the best makers in America. It is finely adjusted to heat, cold, position and isochronism. It is full 17-Jeweled, all jewels in gold settings. It has a patent Breguet hair spring, patent escapement, patent pinion, patent adjustment, patent dust-proof protector and patent regulator. It is handsomely Damasceened and ornamented and is highly recommended to those who require a movement that can be relied upon in all changes of temperature, and all changes of position, to perform its work accurately to the second, and it is especially recommended for railroad men.

Accompanying this watch is a BINDING GUARANTY, guaranteeing the case for 20 years, and the movement for 5 years, but with care this watch will last a lifetime.

$13.85 IS A SPECIAL AND HERETOFORE UNHEARD OF PRICE for such a watch as we offer, and a price you will appreciate when you have examined the watch, when you find it equal to a watch that will retail at $20.00 to $40.00.

We are extremely anxious to receive your order for this watch, for we know that you will be so well pleased with it that you will show it to your friends and recommend our house and goods to your friends and neighbors, thereby causing us to receive more orders.



The above illustration, engraved from a photograph, shows you our S. R. & Co.'s Special, 17-jeweled, adjusted movement, which goes with our special $13.85 watch.

Solid 14-Karat Gold, 18-Size, Watches.

Gentlemen's Solid Gold Watches are more popular than ever, their popularity being due to the fact that our price, to-day, for a **solid, 14-karat gold watch** is as low as what dealers formerly sold low quality gold or gold filled watches at. In buying a solid gold watch of intrinsic value, which is always maintained in after years, you have a valuation on which money can be realized much easier than on any other article of merchandise; and when you consider our very low price on our **one-small-profitplan,** direct from manufacturer to consumer, we know you can always obtain very near the full value of your watch when disposing of it.

In artistic design, workmanship and finish our gold watches excel the market; our efforts in purchasing not being entirely for securing low prices, but to secure the finest quality of a gold case in addition. Our watches are **solid, 14-karat gold throughout, guaranteed United States mint assay.** We do not handle any lower quality of gold case than 14 karat.

GUARANTEED GOLD FILLED AMERICAN WATCH for $4.55

No. 11271

$4.55 for a Gent's 18-size Hunting Case, genuine gold-filled, made of two plates of solid gold over an inner plate of composition metal, and guaranteed by the manufacturer's certificate of guarantee, complete with an American movement, we believe is such an offer as was never before made by us or any other house.

$4.55 is a price based on the actual cost of the case and the movement, the cost of material and labor, with but one small percentage of profit added, and is even lower than the dealers can buy the same watch even in thousand lots.

THIS IS A TWO-YEAR GUARANTEED GOLD-FILLED CASE. It is made by the Philadelphia Watch Case Co., of Riverside, N. J., the inside of every case is stamped and accompanying each case is a written guarantee for two years, by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship, or from discoloring of the case we will replace it free of charge.

Many of these cases have been sold by dealers as 5, 10, 15 and 20-year guaranteed cases, sold complete with movements at from $10.00 to $20.00; but we sell you the watch for just what it is. IT IS GUARANTEED FOR 2 YEARS, but with care we believe many of these cases will last for 10 or 15 years. The case is full 18-size, hunting, stem-wind and stem-set. It is very elaborately engraved with a fancy design, as shown in illustration, also has very fine beaded edge, as shown in cut.

AT OUR SPECIAL PRICE OF $4.55 we furnish this two-year guaranteed gold-filled case, complete with a New York Standard Movement. This movement is made by the New York Standard Watch Company. It is solid nickel, 7-jeweled, quick train, patent pinion and escapement, and is guaranteed an accurate timekeeper for 5 years. With every movement we issue a binding written 5-years guarantee by the terms and conditions of which if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge.

THIS IS A GREAT TRADING WATCH. You have a positive guarantee that it will wear for two years. It has all the appearance of a 20-year case. No one can tell the difference. The movement is guaranteed for wear, and the gold plate being light and guaranteed for only two years, you are able to make a very low price that will make it possible for you to sell these watches at a handsome profit.

You can buy this watch from us at $4.55 and sell several every month at $10.00.

You certainly can add $10 to $20 to your monthly income by selling these watches at $10 each. When so desired we will fit in these cases any of the following named movements at the following prices:

7 Jeweled, Elgin or Waltham.....$5.30
Full 15 Jeweled, Elgin, Waltham or Hampden, nickel.....$9.55
Full 17 Jeweled, G. M. Wheeler, Elgin, P. S. Bartlett, Waltham or Hampden.....$11.80

OUR $2.70 AND $3.90 COLD PLATED AMERICAN WATCH.

IMITATION HIGH-GRADE GOLD-FILLED, THE GREATEST TRADING OR SCHEME WATCH MANUFACTURED.

This Watch has been advertised very extensively by scheme houses through newspapers at from $5.00 to $10.00. It is sold very largely through auction and scheme houses as high-grade gold-filled at various prices ranging from $5 to $20 It is a great favorite with horse-traders, jockeys, brokers and other traders.

No. 11278

WITH A MARVEL MOVEMENT it cannot be told from a high-grade gold-filled case, and a high-grade movement, a watch that would retail at from $40.00 to $75.00, and for this reason it is much sought for by all such dealers and traders as above mentioned.

SOME HORSE-DEALERS buy these watches by the hundred and trade them off at fabulous prices. We have heard of their being exchanged in quantities on a valuation of $25.00 each for real estate and in smaller trades, as they carry the appearance of a very high-grade gold-filled American watch.

UNDERSTAND, WE DO NOT GUARANTEE THEM.

The cases are simply electro gold-plated, not guaranteed to wear or hold their color, but it is in appearance the equal of any gold-filled watch made. The case is very elaborately engraved, has heavy beaded edge, is full 18-size, gent's hunting style No one can tell it from the best gold-filled case ever made

MOVEMENT.

At $2.70 we furnish this case complete with a N. Y. Standard, 7 jeweled, stem-wind nickel movement. The movement is guarant'd for 5 years and is a thoroughly reliable timekeeper. Understand we do not guarantee the case, but we do guarantee the movement.

At $3.90 we furnish this case complete with the Marvel movement, hereon illustrated, which makes the greatest trading watch ever offered. The Marvel movement is a cheap movement made to keep fair time and also for show, having a full-jeweled upper plate, jewels of large imitation ruby with heavy raised gold-plated settings the whole movement elaborately damascened and ornamented. Made for show, made to look like a $50.00 watch, made to supply that class of trade which buys same to make the greatest possible show with the least possible money, to those who want to buy a watch for $3.90 that they can sell or trade at anything from $10.00 to $50.00.

UNDERSTAND, we sell you the watch for just what it is. We do not guarantee it in any way, but assure you it is in appearance the equal of any watch made.

PHOTOGRAPHS ON WATCH CASES AND DIALS.

An ever-present reminder of your relatives or friends, in the form of **a photograph on the dial or back cap of your watch,** at a trifling expense. The work is done by the Photographic Enamel Process, and is as perfect in detail and finish as the best cabinet photographs, and with ordinary care will last forever. It is an excellent place to carry **a picture of the baby, your wife or husband, or your sweetheart.** No extra charge for group if the pictures are all on same photo. When group picture is wanted and pictures are on separate photographs, add $1.50 for each extra figure. Send us your watch by mail or express, carefully packed in a small strong box, well wrapped in some very soft material (cotton batting or similar substance is best) together with a photo to copy from (size makes no difference). As soon as the work is done we will return the watch and picture uninjured. It usually requires about a week after we get the watch and picture to complete the work.

We are doing a great deal of this work, which has in every case given most excellent satisfaction. We have received many letters of testimonials speaking in the highest terms, and that the work was far nicer than they could have expected, and that they could not find words to express their appreciation and thanks. The work can be done on any kind or size of watch. Gold or gold-filled are the best for cap work, but it makes no difference for dial work. Be sure to state whether you want the picture on the dial or on the cap.

"THE FOUR HUNDRED."

....SMALLEST AMERICAN WATCH MADE....

LATEST 1899 MODEL. HANDSOMEST LADIES' WATCH MADE

THE DUEBER "400" SIZE is one size smaller than the regular O size; two sizes smaller than the regular 6 size; **the exact size illustrated**; all the rage in large cities; very dainty, very handsome and just as durable, just as accurate as the largest sizes.

HIGHEST GRADE GOLD FILLED MODEL, made by the **Great Dueber Watch Case Co. at Canton, Ohio,** from extra heavy plates of 14 karat solid gold over an inner plate of hard composition metal, and is guaranteed to wear for 20 years. A written binding 20 years certificate of guarantee signed by Jno. C. Dueber himself accompanies each case, by the terms and conditions of which if the case wears through or changes color within 20 years it will be replaced with a new one FREE OF CHARGE. With care these cases will wear a lifetime. No better gold filled cases are made.

THESE "400" SIZE CASES are **stem wind and stem set** hunting cases, elaborately engraved, decorated and ornamented as shown in illustration, made with the latest style handsome antique bow.

$12.00 TO $18.00 is our special offer price according to grade of movement as listed at bottom of page.
Our $12.00 to $18.00 price will mean a saving to you in price of about one-half. We are able to make these never-heard-of-prices by reason of having contracted for a large number of these watches, buying them far below the regular market price, and our price to you is based on the actual cost to us with but our one small profit added.

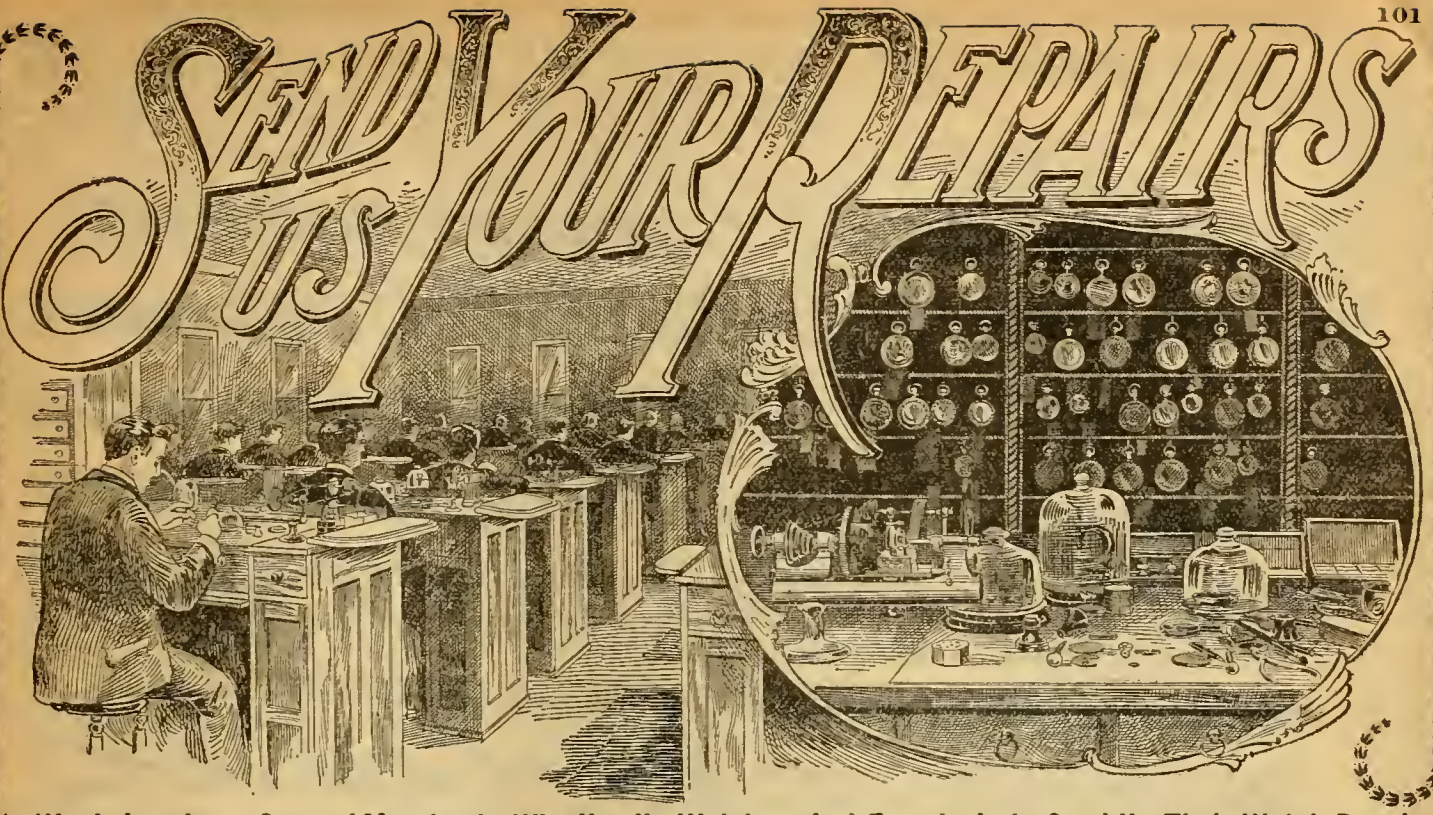
SEND US YOUR REPAIRS



We Want Jewelers, General Merchants Who Handle Watches, And Everybody to Send Us Their Watch Repairs.

It will pay the jeweler better to send his repairs to us and have the work properly done, with new material of the right kind, than to patch up the job with old material, soft solder or material which does not fit, as is the custom where there is not a large stock of well selected material and a good outfit of tools at hand. **We have a large force of skilled watchmakers** who are thoroughly experienced in all kinds of complicated watch repairs, with a very large stock of material, with parts of all the different makes and sizes of watches at their command, which enables them to restore a broken watch to condition equal to new. **Each workman has a complete and very expensive set of tools,** and in addition to these the workroom is fitted with many special machines **which are indispensable for many kinds of work.** After the necessary repairs have been made, each watch is carefully inspected and regulated by the foreman, who is an expert in his line. **Our prices being from one-half to one-fourth the regular prices,** there is a large profit left for the dealer or an equal saving to those who send their watches to us direct.

REMEMBER that a watch should not run longer than one and one-half years without having the oil cleaned off and fresh oil applied. The balance wheel of all modern watches makes 18,000 beats per hour, 432,000 per day or 157,788,000 per year. An engine or sewing machine will be oiled several times per day, but we have known people to carry a watch for ten years without having it cleaned or fresh oil applied. Usually, a movement thus treated is of no value, being entirely worn out. **Take good care of your watch** if you wish it to perform its duty properly, for it is a very delicate machine. Our charge for cleaning and oiling is 75 cents. The regular retail price is $1.50. We give below a list of charges for repairs which will be subject to change in some cases,

When watches are sent in with instructions to put them in good order we will do everything that is necessary to put them in good running condition, but when the instructions are to only repair a certain particular part of a watch, the repairs will be strictly confined only to the part or parts specified and we cannot hold ourselves responsible for anything further that may be necessary to insure correct running of the watch. In sending any part of a watch, if your intention is to fit same yourself, do not instruct us to fit same, but kindly use the word "select." This prevents a misunderstanding on our part of your wishes.

If an idea of the cost of repairs cannot be obtained from the above list, send the watch to us and on receipt of same we will examine it, quote cost of repairing and hold for instructions. **SHIPPING DIRECTIONS**—When shipping watches or jewelry for repairs or exchange, mark plainly as follows: **SEARS, ROEBUCK & CO., Watch Repair Dep't, Fulton, Desplaines and Wayman Sts., Chicago, Ill.,** and in upper left hand corner put your own name and address, prefixing the word "From." Also inclose a card **in the package with your name and address** and state that the watch is for repairs. At the same time write us a letter stating that you have sent a watch (by mail or express) for repairs, what repairs you want made or that you wish us to quote cost of repairing.

PACKING FOR SHIPMENT. Watches should be wrapped in some soft material (cotton batting is good) and packed in a strong box, about 2x3x3 inches. If more than one watch, the box should be larger.

TERMS. If desired we can send most jobs of repair work C. O. D., but we advise sending cash in full. If you do not know what the cost will be, send what you think will more than cover it and we will refund the balance. If to be returned by mail, send 7 cents for each watch for postage and 8 cents extra for registry.

WE BUY OLD GOLD AND SILVER and pay the highest market price, viz. 18-karat gold, 72c; 14-karat gold, 56c. and 10-karat gold, 40c per pennyweight. Silver fluctuates in value, but at the present time is worth 42c per ounce.

DO NOT NEGLECT to write your name and address on upper left hand corner and in any packages you send to us, as we receive hundreds of packages daily. Failure to follow our instructions might cause trouble in identifying your package.

GENTS' SOLID GOLD VEST CHAINS.

These chains are solid gold through and through, have soldered links, are full length, with bar and charm attachment. We have always made solid gold chains one of our particular leaders, as we believe that, like a diamond, a solid gold chain when sold at the remarkably low figures we name, to be one of the greatest advertisements that we could possibly have. We sell our gold chains at but a slight advance over the actual cost of the gold. When you buy a chain of this style from us, comparatively speaking you are wearing the intrinsic value that you paid for it as a watch chain, and can dispose of same for old metal at but a very slight loss.

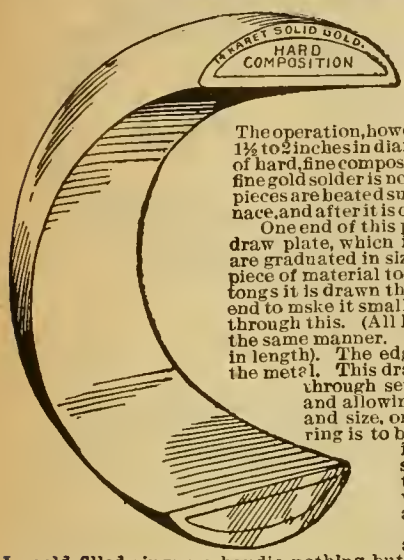
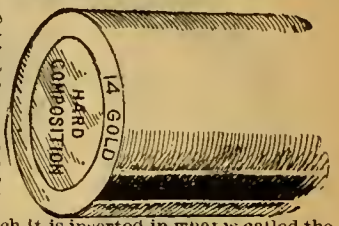
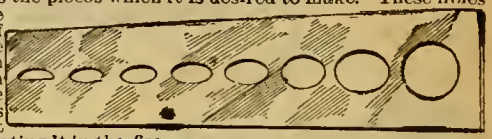
GOLD-FILLED RINGS AND How Gold-Filled Rings are made



We have given in the front part of this department an article explaining the manner in which gold-filled cases are made, and as we offer you here a page of gold-filled rings, we believe it would be interesting to you and much more satisfactory before making a purchase of a gold-filled ring to know just how they are made. It would seem to the average person and even a mechanic that it would be a difficult problem to completely envelop a piece of hard composition metal with solid gold, and at the same time turn out and place the goods on the market at such a low price. The operation, however, is very easy when it is understood. To start with, a piece of solid gold tube from 1¼ to 2 inches in diameter is taken and the hole on the inside made perfectly smooth, after which a piece of hard, fine composition metal is placed on the inside of the tube so as to fit the opening perfectly. Some fine gold solder is now placed in the crevice and the whole is inserted in the furnace. As soon as the two pieces are heated sufficiently the solder flows into the crevice, after which it is removed from the furnace, and after it is cold the two original pieces are one. You will see a section of such a piece in Fig. 1.



One end of this piece is then hammered and drawn out, so as to make it a little smaller, after which it is inserted in what is called the draw plate, which is a long steel plate with a number of holes in it of such shape as the pieces which it is desired to make. These holes are graduated in size, at one end being very large and at the other end small. The piece of material to be worked on is inserted in the large hole first, and with a pair of tongs it is drawn through; this reduces the piece, when it is again hammered at the end to make it small enough to be inserted in the next smaller hole and in turn drawn through this. (All kinds of wire for whatever purpose it may be intended is drawn in the same manner. Sometimes a wire will be drawn in this manner to a mile or more in length). The edges of the holes are all polished so as not to scrape, but to press the metal. This drawing hardens the metal to such an extent that after drawing it through several times it would break easily. It is then annealed by inserting it in the fire and allowing it to cool gradually. After the piece has been drawn out to the required shape and size, one end is bent around a steel mandrill until it has formed a circle of the size the ring is to be made. It is then cut off at the proper place and both ends are carefully surfced in order to bring them together and make a perfect joint, and on this joint is placed some fine gold solder and the ring inserted in a furnace sufficiently heated to cause the solder to flow into the joint. The ring is then polished carefully on a cotton buff wheel with tripoli and rouge, after which it is ready for the market. Solid gold rings are made in the same manner with the exception of the composition metal on inside.



The market is flooded with cheap brass rings which are electro-gold plated, and are called rolled plate or rolled gold plate, and which are utterly worthless. In gold-filled rings we handle nothing but the very best. The gold used is 14-karat, and will wear an indefinite length of time, and is guaranteed to give entire satisfaction.

BABIES' AND CHILDREN'S GOLD SET AND BAND RINGS.

These rings we have endeavored to make in simple but durable patterns. We have tried to avoid cutting corners and projecting ornamentation which have a tendency to catch and tear the laces and embroideries of an infant's clothing. These rings are of solid gold; it would be impossible for the baby to wear it out. The stones we set in our rings are perfect in every detail. Children's rings are made in sizes no larger than naught to three; misses rings in sizes from 5 to 8 only. For full instructions for measurement of ring size, see bottom of page. When cash in full is sent with order the rings can be sent by mail, postage 3 cents; by registered mail, 8 cents extra.

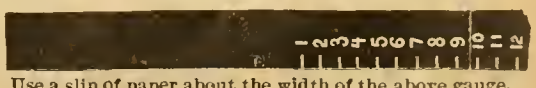
BE SURE TO FOLLOW THESE INSTRUCTIONS in ordering rings, whether Gold-filled or Solid Gold. We must know the size from this scale. Take a narrow slip of paper and measure around the finger, making sure that when both ends meet it will fit exactly as ring should. To get number of size, measure slip on gauge by placing one end of the slip even with the left end of the gauge here illustrated. The figure which the other end meets will indicate the size required. When ordering always write number of size, as slip is sometimes lost and order delayed until another is received.



Use a slip of paper about the width of the above gauge.

HOW TO TAKE MEASUREMENT FOR RINGS.

Take a strip of paper about one-fourth of an inch wide, making it just long enough to wrap around the finger for which the ring is wanted; send it to us and we will have your correct finger size.

LADIES' AND MISSES' FINE SOLID GOLD STONE RINGS

This year we take pleasure in informing our many friends and customers that we are manufacturing every gold set ring and plain gold ring that we offer for sale, so that we know exactly the quality and the grade of gold we are selling. We guarantee them in every particular, and should they not be as represented, we will cheerfully refund your money. We can furnish rings in any size desired from 5 to 13. The stones we are using are the most brilliant and perfect we can import. The opals are Australian, full of fire and most perfect ever cut. We take extreme care in setting the stones. We know there is nothing more aggravating than a set ring of which the stone is continually falling out. Our designer, we believe, has created patterns that are masterpieces in beauty of design.

CRYSTALINE DIAMOND RINGS, STUDS, EAR-RINGS AND BROOCHES IN SOLID-GOLD AND GOLD-FILLED MOUNTINGS.

This wonderful discovery of the chemist's art surprises the multitudes. It looks like a diamond, it wears like a diamond is almost impossible to destroy. It would defy the most skilled judges of that precious gem to distinguish the difference as at night. It shows more brilliancy than the genuine diamond, it being endowed with a most peculiar phosphorescent light that but few diamonds have. It would be impossible for us to accurately describe the beauty of these gems. It is only by seeing them one can get full benefit of their beauty.

We set these stones up in the mountings ourselves. The stone we put up in the solid gold setting are the same quality that we put in the gold filled. They are all alike. Our gold filled settings are exact counterparts of the solid gold. They are set firmly and securely so as to prevent loss. We know that you would be thoroughly satisfied in every particular if you ordered one of these Crystaline Diamonds from us. We would be pleased to forward the order C. O. D., subject to examination at your express office provided you remitted with your order the sum of 50 cents as a guarantee of good faith, which sum would be refunded should the goods not prove exactly as we have described them.

GENUINE DIAMONDS

IN SOLID GOLD RINGS, MOUNTINGS, SCARF PINS AND EAR-RINGS AT UNHEARD OF PRICES. These diamonds we import ourselves in immense quantities. We make the rings in which we set them. Our machinery for manufacturing the mounting is the most modern and our labor the most skilled. For these reasons we are able to quote this very high grade of diamond jewelry at the remarkably low figures listed below. These are genuine Rose-cut Diamonds and will undoubtedly more than meet your expectation; the only difference is that the rose is a flat bottom diamond instead of running to a point. The mountings are made of solid gold through and through, and we wish particularly to emphasize, that if these goods are not entirely satisfactory and if the values do not meet with your expectation, you are at liberty to return them to be exchanged for other goods or your money refunded. Diamond jewelry will only be shipped by express, registered mail or insured mail. Postage on each article 4c; registration or insurance extra.

FANCY COMBINATION DIAMOND RINGS.

GENUINE DIAMONDS, RUBIES, EMERALDS, SAPPHIRES AND OPALS, SET IN SOLID GOLD 14-KARAT MOUNTINGS.

The designs are masterpieces, each carrying out some artistic idea. The prices we are quoting this year have never been equalled before. We are in a position to make the prices lower than ever before, importing Diamonds, Rubies, and other precious stones ourselves direct from the market at Amsterdam. The stones are all very carefully selected. Where it does not state rose diamonds, the diamonds are all regular diamond cut, as a brilliant should be that is run down to a point. When rose diamond, it is so stated. Of course the regular cut diamond is the most brilliant and costly. These rings are especially adapted for engagement rings, presentation and graduating gifts. We can make to order any design of ring desired, either in cluster or single stones or any other combination of gems, at prices we guarantee the lowest at all times.

GENUINE DIAMONDS and SOLID 14-KARAT GOLD MOUNTINGS.

ON DIAMONDS WE HAVE ALMOST NO COMPETITION for we know of no concern that offers diamonds (quality considered) at anywhere near our price. OUR DIAMONDS ARE PURE WHITE, WITHOUT FLAWS, ARE WELL CUT AND VERY BRILLIANT. The value of a diamond depends largely on the cutting, for if they are not well cut their brilliancy and value is much depreciated. **WE IMPORT OUR DIAMONDS DIRECT FROM EUROPE IN LARGE QUANTITIES** and pay spot cash, thus securing them at the lowest possible prices. Our Buyer is an Expert in his line and buys Nothing but Perfect Goods. We buy our mountings in large quantities and do our own setting. EVERY STONE IS CAREFULLY WEIGHED ON FINE DIAMOND SCALES BEFORE IT IS SET, and you will be charged only for the actual weight of stone and value of mounting. In filling an order it will sometimes be necessary to send a stone which weighs a fraction more or less than the one ordered, but in such cases the price will be changed accordingly. **DIAMONDS NEVER WEAR OUT**, and if bought of us you can realize as much if not more than you pay for them. **WE SEND WITH EACH DIAMOND A GUARANTEE AND REFUND CERTIFICATE** in which we guarantee the stone to be a **GENUINE PERFECT DIAMOND** and we agree to take it back at any time within one year from date of purchase, and refund the purchase price, less 10 per cent. DON'T BUY DIAMONDS OF RETAIL DEALERS and pay from 25 to 50 per cent above our prices. We ask a careful comparison of our goods with those purchased of other concerns, which will do more toward establishing the values we give than any argument.

For the benefit of those who are not familiar with the sizes of diamonds, we illustrate above the approximate sizes of stones from ⅛ to 1½ carats. Stones of the same weight vary a trifle in width, depending on the thickness. The illustrations are as near correct as it is possible to make them.

Diamonds will be sent C. O. D. for examination at the express office, if desired, providing $1.00 accompanies the order as a guarantee that the customer means business. If goods are not found to be exactly as represented they can be returned to us and the deposit will be refunded. We recommend sending the full amount of cash with order.

FINE GOLD FILLED GENTS' CHARMS, SET WITH MOST POPULAR COLORED STONES.....

We have selected many new and novel designs this year in this very popular gents' chain ornament. The stones when so set are securely fastened, thereby preventing the loss of setting. The finish is nearly as good as solid gold, and we can conscientiously recommend a gift of this sort, when but a small amount of money is to be expended upon same for a gentleman. Orders always promptly and carefully filled. **The postage on any charm listed would be 3 cents; insurance or registry extra.**

Best Quality Studs and Collar Buttons.

SOLID GOLD, GOLD FILLED AND ROLLED PLATE.

These goods we have selected with much care and we believe we are offering today the handsomest line at prices lower than has ever been offered to the public. Our collar buttons are made expressly for us, using a patent lever that is practically indestructible. The studs have an extra heavy spiral and will not pull apart. Our stud sets of three are made with the tube back so as to make them likewise extremely durable. We know you would be thoroughly satisfied in every particular if you would favor us with your order for one of these articles. Although the price may seem wonderfully cheap we assure you the goods are exactly as we have described them in every particular, or your money will be refunded.

LADIES' ROLLED PLATED AND GOLD FILLED WAIST SETS.

THERE IS NOTHING MORE CONVENIENT IN A LADIES' EQUIPMENT OF JEWELRY THAN THE WAIST SET. It not only makes a very handsome dress ornamentation, but has a marked value for its utility. It will be noted that our prices are very low. We guarantee each and every piece illustrated here to give the wearer absolute satisfaction in every particular. Where the set is enameled only hard enamel is used. We guarantee it not to chip or wear off, as it is burned hard into the metal. A ladies' shirt waist would be improved one hundred per cent if ornamented with one of our beautiful waist sets.

FINE SOLID GOLD BOHEMIAN GARNET AND AMBER JEWELRY.

The jewelry listed under this heading if manufactured in this country could not be sold for twice the prices at which we offer them. These goods are made in the forest regions of Germany by poor peasant families who realize from 15 to 25 cents per day for their work. If you will stop and think that every one of the stones must be cut, ground and polished, besides the cost of material and the work of mounting you can get some idea of the amount of labor required to make these goods.

LADIES' ROLLED PLATE AND GOLD FILLED HAT PINS.

Owing to the increased demand for ladies' hat pins, we have selected with great care a handsome line of the latest Parisian patterns. The latest bonnets and hats are equipped with fancy hat pins, and although the demand was immense this spring we believe it will be far greater this fall. It will be noted that our designs run from the most simple patterns to the most gorgeous. The stones are set with great care and are of the finest cut. The enameling is hard enamel and will not wear or chip off. The pins are the regulation length; we take particular pains as to this point. Nothing can be more aggravating than a hat pin that is too short. We guarantee our hat pins to be the correct length and to be the best value ever offered for the money. We know that you would be thoroughly satisfied in every respect if you would favor us with an order for one of these beautiful pins.

Any hat pin pictured here can be sent by mail for 3 cents, registry or insurance extra.

LADIES' GIRDLES AND BELTS.

THE LADIES OF LARGE CITIES are all wearing the latest craze in belts. We believe that it is one of the most beautiful ornaments that has come into style of late years. Our jeweled belts are most exquisite in design and workmanship, the jewelling being set with the most popular colored stones, securely fastened, making a very durable belt. They can always be taken off and put on to any belting by a few moments' sewing. They are suitable for any costume a lady may desire to wear; in fact they have become necessary to a lady's costume. The girdle is likewise a jeweled kind of belt made of strong metal, heavily plated, the designs being the latest European ideas, and they likewise are set with jewels and are as popular as the jeweled belt. It will be noticed that our prices for this very high grade of merchandise are quoted at remarkably low figures. Bear in mind that our prices are always wholesale and any goods that we sell we warrant to give satisfaction.

STERLING SILVER NOVELTIES

The demand having increased to such a wonderful extent that it necessitated our putting in a much larger line of these goods, we have with care selected such novelties as are most appropriate for a gift or personal use. In making a gift, we believe that it is always better to give a useful article, so in selecting these novelties we have endeavored to buy only such articles as have utility. All these goods are made of the finest sterling silver, and the prices quoted, it will be noted, are extremely low. It will be seen that the articles, that is a great many of them, can be used as a gift for either a lady or gentleman, as a birthday or holiday present. Bear in mind that our novelties are all 925-1000 fine. The engraving is hand engraved, and the chasing, hand chased. They are sufficiently heavy to be well able to stand continual usage. If you buy once we know that you will continue to be frequent patronizers of our firm. If goods are not exactly as described we always cheerfully refund money.

FINEST QUALITY GOLD PENS AND HOLDERS.

Our Pens are all mounted with the best quality of gold filled stock, and warranted not to tarnish. The pearl used is all of the first quality, and is beautifully finished. Our Gold Pens are all of the finest quality, solid gold through and through, heavy and well tempered, with genuine iridium points (called diamond points), perfectly finished, and with ordinary care will last a lifetime. The market has been filled with cheap, trashy gold pens of low grade, which will soon turn brown, are not properly tempered and have not sufficient material to hold their elasticity; by reason of which they are of no value to write with, and certainly are not an ornament. The Holders are cheap plated goods, which will soon tarnish, and the pearl of the third or fourth grade, which has no lustre; and even though they are sold for as much as we ask for first-class goods, they are of little value.

We take particular pride in offering **a line of solid gold pens**, and gold filled mounted holders, which is not surpassed by any on the market. These goods are largely sold for presentations, and as there is nothing more embarrassing than to make your friend a present of a worthless article, we advise you to buy none but the best. These goods are made by one of the best and most reputable manufacturers of this line of goods, and are fully warranted to us. We guarantee them to our customers, and will gladly **make good any pen or holder** that is not fully equal to our description, or money will be refunded if you desire it.

FOUNTAIN PENS.

BEFORE listing a line of Fountain Pens we have taken every possible precaution, and spared no pains, to place at the disposal of our customers the best Pens made. There is probably nothing more annoying than a Fountain Pen of poor quality. We wish to direct your attention especially to the very simple manner of construction, and at the same time they have all the latest improvements. Every one of our Fountain Holders is fitted with a solid 16-karat Pen (except the Globe Co. 62451, which has a solid gold 14 karat Pen). They all have genuine Irridium points (called diamond points), which will last with proper care for a lifetime. They have the latest improved feeds both over and under, which insures a good flow of ink. The Holders are made of the very best quality of rubber, in a variety of styles, as shown in illustration, and are finished in the best possible manner. We have carefully investigated and thoroughly tested every line of Fountain Pens on the market, and we now feel that in offering you this line of Pens, we can give you more value for the money than would be possible for us to do with any other line. Every one is thoroughly warranted by both the manufacturers and ourselves, and we will make good at any time any Pen which is found to be in had order from defective material or workmanship. Of course, we cannot be responsible for accidents.

The market has been flooded with Pens of poor quality, and still sold at higher prices than we ask for the best goods. The Pens are of low grade, and will turn black or of a brownish color after being in use for a short time. They have poor points, which will soon wear out, and the material is so thin and poorly tempered that they have not the necessary elasticity. The holders are poorly constructed, the feeds fitted hurriedly and not of proper shape, which has been the means of many a person becoming disgusted with a Fountain Pen.

ALASKA SILVERWARE. A New Discovery.

THE CHEAPEST AND BEST FLAT WARE MADE. **The Alaska silverware is not plated, but is the same solid metal through and through,** and will hold the same color as long as there is any portion of the goods left. Do not be deceived by any dealer who undertakes to sell you any of the numerous imitations of this ware, that are sold on the market for more money than we ask for the genuine. **The genuine Alaska Silverware can be had only of us.**

Before taking hold of this new discovery we left nothing undone to thoroughly investigate the properties of this metal, and to test the same in **ever** conceivable manner, to satisfy ourselves that it was all that it was represented to be. After having made all sorts of experiments, **and it stood all tests, we made** a contract with the factory to handle the goods. It has now been about two years since we began to handle this line, and it has not only proved from experiment to be as represented, but with two years of actual service in the hands of many thousands of our customers, who send us the most flattering recommendations in praise of these goods, and with the rapidly increasing sales, we feel that we cannot recommend it too highly.

The metal is very dense and tough, is almost as white as genuine silver, takes a beautiful polish and requires no care as does silver plated ware. You can scrape kettles or pots, or subject it to any kind of service without fear of damage.

We have this year added a beautiful eograved pattero, which is equal in appearance and artistic finish to any of the best silver plated or solid silver goods on the market. The engravings are as fine as can be made, the handles of an oval shape, and will be furnished at only a slight avdance over the prices of the plain pattern. The immense quantities of these goods we handle, and the condition of our contract direct with the factory, puts us in a position to furnish this genuine Alaska Silverware at a slight advance over cost to manufacture.

Hereafter all these Goods, except the Knives, will be Stamped "Sears, Roebuck & Co.'s Alaska Silverware."

FINE SILVER PLATED WARE.

WE CONGRATULATE ourselves upon the immense increase of business we have had in our silver department, and we know that we have made this grand success solely by giving our many customers and friends the wonderful values we do.

The silverware that we list in our catalogue, both in hollow and flat ware, is the best that is obtainable from the manufactuers. Bear in mind when you buy from us you are buying at strictly wholesale prices, we save you at least 50 per cent in the price of any of the goods illustrated. The goods illustrated upon this page are fine silver plated upon white metal and are guaranteed to give you absolute satisfaction in every particular. We know that if you would favor us with your order for any of these goods that it would not be the only purchase that you would make, but that we would have your steady patronage in the future.

You run no risks for we will refund all your money if you are not satisfied with your purchase. All the goods listed below, with the exception of the knives and knife handle forks, are made of the fine composition metal mentioned above, beautifully engraved and embossed designs, plated with genuine coin silver. The knives and knife handle forks are made of solid cast steel and plated likewise with pure coin silver.

At last we are in a position to offer you the finest silverware in knives, forks and spoons that has ever been offered. We guarantee this ware to strip as much pure coin silver and more than any on the market. It is plated upon the finest nickel silver, **the finest coin silver being used in the plating. Our fancy pattern** is the very latest creation in an artistic design. We have contracted with one of the largest silverware manufacturers in the United States who makes these goods expressly for us. We hold them by contract to use the highest quality material obtainable and use the greatest amount of silver in the plating. **We allow no seconds to pass inspection;** they are thrown out before they get that far. We have in turn contracted to use a quantity that is so immense that we made our own price in the production of them. It is for this reason that we are able to sell the goods at the figures we quote.

We guarantee each and every piece to be exactly as we describe it in every detail, and if a piece (even one out of a hundred, should you purchase that many) does not come up to the standard in wearing qualities, we will cheerfully replace same with a new one or refund the money, which ever best suits our customer. The knives are made of the very finest razor tempered steel, plated with 925-1000 fine silver and guaranteed the finest knife ever put upon the market.

SOLID STERLING SILVER FLAT WARE.

We recognize no competition in the sale of our silverware. Bear in mind that this silverware is absolutely 925-1000 fine, no less. We guarantee it to be such against United States assay. Silver is steadily on the increase in value, and we believe that we will be unable in a short time to make the prices we are quoting below. Solid silverware has always been governed by gigantic corporations, trusts and combinations. We are pleased to inform you that we recognize none of them and will not be governed by any of their laws. We have fought them for years and we always find ways and means to defeat their deepest laid plans. We guarantee our silverware as being second to none in quality, and that there is nothing better on the market, and never before were the patterns sold that we are quoting at the wonderfully low figures we ask. Sterling silverware, remember, needs to be bought but once. It will last you your natural lifetime and also your childrens. Be sure and mention the number and pattern when ordering.

OUR CLOCK DEPARTMENT.

IN CLOCKS WE REPRESENT ALL OF THE OLDEST AND MOST RELIABLE MAKERS who have built up a reputation for their goods by making only such clocks as they could guarantee. We list clocks made by the following concerns, namely: **Waterbury Clock Company**, Waterbury, Conn.; **New Haven Clock Company**, New Haven, Conn.; **Ansonia Clock Company**, Ansonia, Conn., and the **Seth Thomas Clock Company**, Thomaston, Conn. Bear in mind that the Waterbury Clock Company has no connection whatever with the Waterbury Watch Company, it is a very much older concern. Every clock that we sell is guaranteed by the manufacturers and we warrant them to our customers. Any clock bought from us that is not in every way satisfactory can be returned and it will be exchanged or the money refunded.

We sell our clocks at extremely low prices. It must be understood that you are buying wholesale, thereby avoiding the retailer's profit. Do not think that the shipping charges will advance our prices to anywhere near the price you would have to pay your retail dealer, because he likewise must pay express charges and must add same to the cost of the clock when he sells it to you. We wish you to investigate the matter yourself and be convinced that we can save you from 30 to 50 per cent on clocks. It is not necessary for you to pay the shipping charges in advance. The best way is to pay them when you get the goods.

Clocks will be sent C. O. D. to any address when desired providing a deposit of $2.00 is sent with the order. The balance can be paid at the express office after examination, and if the goods are not satisfactory they can be refused and the money advanced will be refunded. You run no risk in sending cash in full, for if the goods are not satisfactory they can be returned at our expense and your money will be refunded.

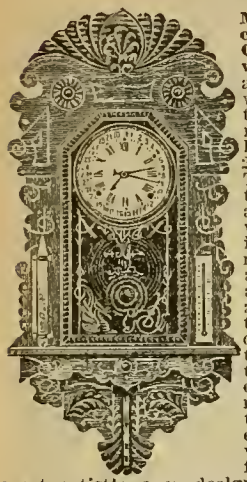
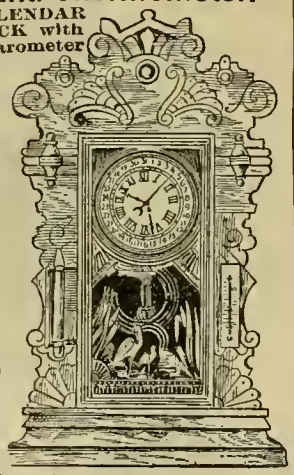
The Colfax Clock with Thermometer and Barometer Complete for $4.75.



No. 16550 COLFAX. Manufactured by the celebrated Waterbury Clock Company. Oak or walnut. This clock has an eight-day movement with calender, thermometer and barometer attachment, strikes the hour and half-hour. Height of clock 27 inches, dial 6 inches. The movement is one of the best, is warranted an accurate timekeeper and will likewise accurately indicate the day of the month. The thermometer and barometer are tested and found to be scientifically correct in every detail. The barometer indicates the condition of the atmosphere, and the thermometer the degrees of heat or cold. It will be noted that they are artistically arranged on either side of the case and we consider it one of the finest cabinet clocks and most artistic ever designed. We guarantee this clock to give absolute satisfaction in every respect and if properly cared for will last a lifetime. Weight of clock ready for shipment, 17 pounds. Price..$4.75

$3.65 Buys a Calender Clock with Barometer and Thermometer.



No. 16555 CALENDAR EIGHT DAY CLOCK with Thermometer and Barometer. A most wonderful and complete clock for a little money. This clock has been one of the greatest bargains that we have ever been able to offer to our customers, and the best evidence that they have appreciated the same has been demonstrated by the very large sales. It has been one of the best selling clocks we have ever offered. We buy them in immense quantities for spot cash, and the price at which we offer them will save you, we believe, fully 50 per cent over the prices asked by retail dealers. The clock will be furnished with solid black walnut or antique oak case, as desired, beautifully carved, ornamented and decorated. The picture really does not do it justice, for it is a work of art. The height is 24 inches with dial 6 inches. The movement is one of the best made, and is warranted to be an accurate timekeeper; has a complete calendar attachment which works automatically and always indicates correctly the day of the month. It has a perfect thermometer on one side and on the other a barometer. The barometer always indicates the condition of the atmosphere and always correctly foretells the probabilities of the weather; both are artistically set and add very much to the appearance and beauty of the clock. It is eight day and strikes the hours and halfs on a beautiful gong bell. We cannot furnish it with alarm; in fact, an alarm should not be used on a cabinet clock. This clock will last a lifetime if properly cared for and we will guarantee satisfaction in every respect. Weight of clock, boxed ready for shipment, is 17 lbs. Price..... $3.65

IN THIS DEPARTMENT We carry a most complete line of Optical Goods of all kinds. Although we are compelled to carry some low-priced goods in order to supply the demand for such, our specialty is the very best grade of goods. You will find every article to be exactly as described, and any goods which do not prove perfectly satisfactory may be returned for exchange, or if desired the money will be cheerfully refunded.

OPTICAL GOODS . . .

Especially spectacles and eye glasses are sold by retail dealers and opticians at enormous profits, while we are satisfied with our usual small per cent profit over the net cost to us. Opticians make a practice of imposing on their customers by charging from $3.00 to $12.00 for a pair of spectacles or eye glasses and giving as an excuse for the exorbitant price that the "lenses were ground to order." The grinding of lenses to order is necessary only in very rare cases. Not more than one case in one thousand requires lenses ground to order. Do not get the idea that you must have a personal interview with an optician or that optical instruments of any kind are necessary in order to fit you with glasses. Since the establishment of our optical department **we have fitted thousands of people to their entire satisfaction.**

Many think that the longer they put off the wearing of glasses the better, but this is not true, in fact irreparable injury is frequently the result of such neglect. The wearing of glasses is usually made necessary by a defect in the shape of the eye, causing a strain upon the muscles of the eye in their constant effort to adjust the defective vision. As this strain upon the muscles will not only continue, but constantly become worse until relieved by suitable glasses, the importance of early attention to this matter will be very apparent.

THE PROPER READING DISTANCE . . .

For ordinary print is from twelve to fourteen inches. If it is necessary to hold the reading nearer the eye than this glasses for near sight are required. If it is necessary to hold the reading more than twelve to fourteen inches away from the eye glasses are required for far sight.

Practically everybody should wear glasses after reaching the age of forty years, as the eyes at this time commence to be far sighted, and the longer the wearing of glasses is put off the harder it will be to remedy the trouble.

Near sightedness is also very common, especially among young people, and should never be neglected, as this trouble is so easily and perfectly relieved by proper eye glasses or spectacles.

CAUTION

There is a demand among peddlers and cheap retail merchants for a very cheap grade of spectacles, and to satisfy this demand and meet competition we list some of these cheap goods in our catalogue, but **we do not recommend them,** on the contrary we particularly caution our customers against **buying the very cheap grades of spectacles or eye glasses.** The lenses of these cheap goods are made of very poor material, **are improperly cut,** and almost **certain to do untold injury to the eyes.** An injury so your clothes can be mended or repaired, but **an injury to the eyes may never be cured.**

Careful attention to the following instructions will enable us to fit you perfectly.

INSTRUCTIONS FOR ORDERING

1st. State your age.

2nd. State whether glasses have ever been worn, and if so, how long.

3rd. State the distance from the center or pupil of one eye to the center or pupil of the other eye. This measurement may easily be taken with a rule or tape and is usually about 2⅜ inches. It is never less than 2⅛ nor more than 2⅝ inches.

4th. State whether the bridge of the nose is prominent or flat.

5th. Hold this page in a good light and **state the number of the finest print in our "Test Type"** that you can easily and distinctly read at a distance of from 12 to 14 inches from the eye.

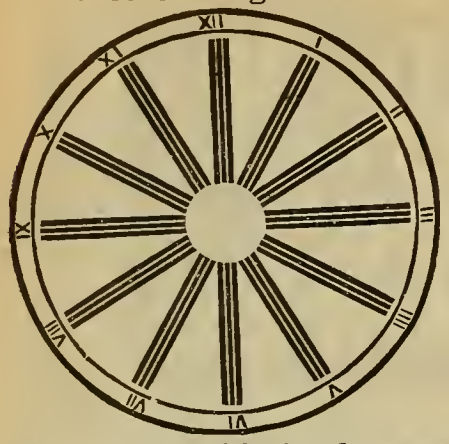
This test is important and should be very carefully made without attempting to strain the eyes.

6th. State the greatest possible distance at which paragraph No. 24 can be easily and distinctly read. This test is especially for near sightedness.

7th. State whether you are near sighted or far sighted.

8th. State whether glasses are desired for reading only or for distant objects only. If glasses are desired for both reading and distant objects, bi-focal lenses will be necessary. See paragraph on page 165 just preceding descriptions of eye glasses, for prices and descriptions of bi-focal lenses.

Test for Astigmatism.



If some of the arms of the above figure appear blacker or more distinct than others it is evidence that your eyes are affected with astigmatism. This trouble, however, is rare, and unless quite severe we will be able to send satisfactory glasses provided, the instructions as given above are carefully followed. In severe cases of astigmatism it will be necessary for you to send us an oculist's prescription for the glasses, in which case we will have special cylindrical lenses carefully ground to order for you.

IMPORTANT.—In all cases where spectacles or eye-glasses are to be sent by mail 5 cents extra must be included for postage.

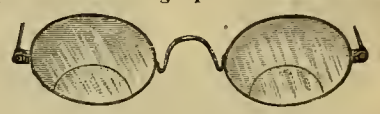
Bi-Focal Spectacles.

Spectacles Showing Split Bi-Focal Lenses.



Spectacles Showing Cemented Bi-Focal Lenses.

Postage, extra, 5c. each.

When glasses for near vision and for distant vision of different strength are needed it is necessary to use bi-focal lenses. These are lenses in which the lower part, used for near work or reading, is made to differ in power from the upper part which is used for distance. We can furnish these lenses in two styles known as the "split" bi-focals and the "cemented" bi-focals.

The Split Bi-focals consist of two half-oval lenses with their straight edges placed together.

The Cemented Bi-focals, which are the latest and best style of bi-focal lenses, consist of a distance glass, to the back of which is cemented, with an absolutely colorless cement, a small lens of proper strength for reading.

Any of the spectacles which we list (except No. 17500) can be furnished with bi-focal lenses of either the split or cemented style.

For prices add 25c per pair to regular price if split bi-focal lenses are desired, and add 50c per pair to regular price if cemented bi-focal lenses are desired. For example, spectacles No. 17508, the regular price of which is $1.25, would be $1.50 with split bi-focal lenses; or $1.75 with cemented bi-focal lenses.

FREE with all spectacles costing 50 cents or more we include a neat leather case without charge. If spectacles or eye glasses are to be sent by mail always include 5 cents extra for postage,

Oculists' Prescriptions.

We have unexcelled facilities for the prompt and accurate filling of oculists' prescriptions for spectacles or eye glasses with lenses specially ground to order, and we positively guarantee every pair of glasses sent out to be absolutely correct according to prescription.

Our charge for the filling of prescriptions is 75c in addition to our regular price for the glasses, and we will fill prescriptions with any style of spectacles or eye glasses listed in this catalogue at $1.00 or more. For example: Our price for spectacles No. 17535, if ordered from prescription, would be $2.50.

Eye Glasses.

Owing to the stylish appearance, eye glasses are preferred by many people, and we, therefore, list the following line of the most modern and popular styles.

Colored Lens Spectacles and Eye Glasses.

Colored Lens Spectacles and Eye Glasses are made without magnifying power and therefore do not assist the sight, being intended only to protect the eye from strong light.

They are a very great comfort to those whose eyes are weak, and do much to preserve the sight.

These Spectacles and Eye Glasses are made with two styles of lenses, the coquille and the flat. The coquille lenses have curved surfaces, one side being convex and the other side concave. The flat lenses are, as the name implies, perfectly flat or plain. We would especially caution our customers against the wearing of cheap colored spectacles, as the lenses are very poorly made and their use is liable to do the eyes great injury. In the cheap styles of these goods the lenses are simply moulded, but in the good grades the lenses are carefully made and perfect.

Scenery or Shooting Spectacles.

Nos. 17630 to 17634
Postage, extra, 5c each.

While these spectacles are commonly known as Shooting spectacles they are largely used by tourists in looking at scenery, especially where the light is bright and dazzling or when the ground is covered with snow, which reflects the light and tires the eyes.

The peculiar amber tint of the lenses, not only improves the view but enables one to see more plainly at a distance, and is very pleasant and soothing to the eye. **The lenses are known as diaphram lenses,** being sanded or ground in such a manner as to exclude the view except through the clear circle in the center of each lens.

Our line of Opera Glasses has been very carefully selected, with a view to giving the very greatest possible value for the money. Although opera glasses are usually sold at enormous profits, we are satisfied with our usual small per cent profit, and as we import these goods directly from the manufacturers in Paris we can guarantee our prices to be far below all competitors. In our descriptions we use the word "ligne" (which is the French system of measurement) in giving the diameter of the largest lens, for example: A 15-ligne opera glass is one in which the largest or front lens is 1⅝ inches in diameter. Eleven lignes being very nearly equal to one inch.

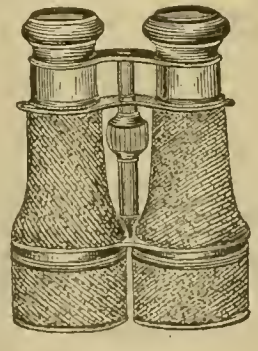
We carry in stock a large assortment of field and marine glasses at prices upon which we defy competition. Even our lowest priced field glasses are fitted with good achromatic lenses, and are excellent value for the money, and unlike other concerns we sell our higher grade and better finished glasses upon that same small margin of profit at which we sell everything. The very cheapest non-achromatic field glasses we do not carry in stock at all, as we cannot afford to send out to our customers the light trashy glasses handled by some houses.

Following the usual custom we indicate the size of field glasses by giving the diameter of the front or largest lens in lignes—that is, the French unit of measurement. There are about eleven lignes to an inch, so a lens measuring 26 lignes is a little over 2¼ inches.



Field glass extended for use.

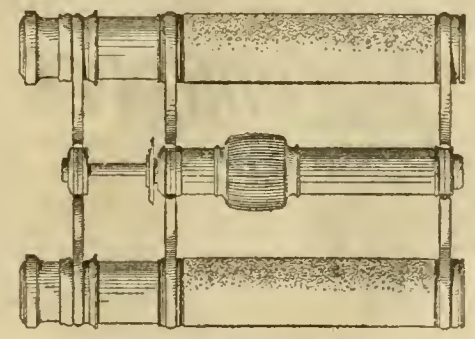
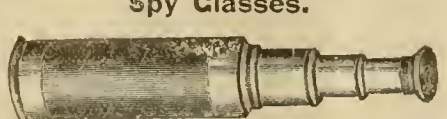
Our Special Binocular Telescope.



No. 17752 This is the glass par excellence for tourists, farmers, hunters, ranchmen or anyone requiring a very powerful glass, which at the same time is light, compact and easily used. Special attention is directed to the following points of superiority: First—Our Special Binocular is even more powerful than the most powerful field glass made. Second—It is the lightest and most compact instrument of the kind, measuring but ¾ of an inch thick by 5 inches long by 3⅜ inches wide, and may thus be conveniently carried in the coat pocket. Third—It is fitted with the patent rapid draw adjustment, by means of which it can be instantly focused for use. Each instrument supplied with fine leather carrying case. Price, only..$23.75

Spy Classes.



No. 17767

These spy glasses have two single lenses each, which are non-achromatic, but have considerable magnifying power. Although cheaply made, and not to be compared with the superior achromatic glasses described in this catalogue, they are excellent value for the money. Not made for practical use.

Achromatic Spy Classes or Telescopes.

The instruments we list here are all intended for practical purposes, are made with fine achromatic lenses, bodies well finished and accurately fitted and should not be compared with the cheap, light, trashy toys advertised by "Cheap John" houses and sold by toy dealers. If on receipt of any of these instruments they are not entirely satisfactory they can be returned to us and your money refunded. Spy-glasses are very convenient and are used largely by travelers, hunters, farmers, stock men and others.

These telescopes are all provided with a slide cover to protect the small lens or eye piece, and a brass cap for the front or object glass.

We indicate the sizes of these telescopes by giving the diameter of the front lens or object glass in "lignes" (the French unit of measurement). Eleven lignes are equal to about one inch.

The magnifying power is given in "diameters." If the power is 30 diameters, the apparent size of an object is increased 30 times when viewed through the glass, for example an object which appears to be one foot across when looked at with the naked eye will seem to be thirty feet across when seen through a spy glass having a power of 30 diameters.

No. 17768 Spy Glass, 10 lignes, morocco covered body, burnished brass draw-tubes, and lacquered brass trimmings. Four sections, length, closed about 4½ inches, extended about 13 inches. Fine achromatic lenses, magnifying power 10 diameters. Price.....$1.65

No. 17769 Spy Glass, 12 lignes, morocco covered body, burnished brass draw tubes and lacquered brass trimmings. Four sections, length, closed about 5 inches, extended about 14 inches. Fine achromatic lenses, magnifying power 12 diameters. Price.....$1.80
Postage, extra, 12 cents.

No. 17770 Spy Glass, 14 lignes, morocco covered body, burnished brass draw tubes and lacquered brass trimmings. Four sections, length, closed about 6¼ inches, extended about 16½ inches. Fine achromatic lenses, magnifying power, 16 diameters. Price.....$2.75
Postage, extra, 16 cents.

No. 17771 Spy glass, 16 lignes, morocco covered body, burnished draw tubes and lacquered brass trimmings. Four sections, length closed about 8 inches, extended about 22 inches. Fine achromatic lenses, magnifying power 20 diameters. Price.....$4.00
Postage, extra, 20 cents.

No. 17772 Spy Glass, 19 lignes, extension sun shade. Morocco covered body, burnished brass trimmings. Four sections, length closed about 10 inches, extended about 30 inches. Weight, about 2 lbs. Fine achromatic lenses, magnifying power, 25 diameters. Price.....$5.60

No. 17773 Spy Glass, 22 lignes, extension sun shade, morocco covered body, burnished brass draw tubes, lacquered brass trimmings. Five sections, length, closed, about 10¼ inches, extended about 37 inches. Weight, 2½ lbs. Fine achromatic lenses, magnifying power 30 diameters. Price.....$8.35

No. 17774 Spy Glass, 25 ligoes, extension sun shade, morocco covered body, burnished brass draw tubes, lacquered brass trimmings. Five sections, length closed about 13½ inches, extended about 44 inches, weight 4 lbs.
Fine achromatic lenses, magnifying power 40 diameters. Price.....$13.50

No. 17776 Spy Glass, 25 lignes, finely polished mahogany body, burnished brass draw tubes and lacquered brass trimmings. Same style and quality as No. 17782, on next page, but larger and having magnifying power of 45 diameters. Length, closed, 12½ inches; extended, about 41 inches; weight, 3¾ lbs.
Price.....$16.85

No. 17777 Spy Glass, same as No. 17776, but provided with an additional celestial eye piece for astronomical observations, thus affording two powers, one of 45 diameters for terrestrial observations and one of 100 diameters for celestial observations.
Price, complete.....$21.90

Note.—We strongly advise the use of a tripod with all of our telescopes in 22 or 25 ligne size. The length and weight of these instruments makes it tiresome to hold them, especially in long observations, and their high power makes it necessary that they be supported steadily in order to secure the best results. With the smaller sizes a clamp rest will be found very convenient and sufficient for all ordinary purposes. For prices and descriptions of tripods and clamp rests see Nos. 17792 to 17794.

No. 17780 Celestial Eye Piece, for use with telescope No. 17776, increasing magnifying power to 100 diameters. Price.....$5.20
Postage, extra, 12 cents.

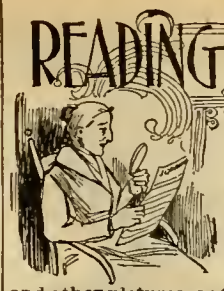
READING GLASSES



Are very desirable for reading fine print, and as they are strong magnifiers and give a large range of vision they are very restful to the eyes and especially desirable for old people.

They are also used for looking at photographs and other pictures, as they bring out the detail and add greatly to the beauty of the picture, the principle being the same as the graphoscope. Reading glasses are useful and convenient in all cases where a large magnifying glass is desired.

These glasses are also **powerful sun or burning glasses,** readily setting fire to light materials such as paper, shavings, dry leaves, etc.

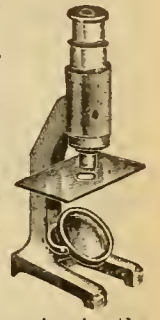
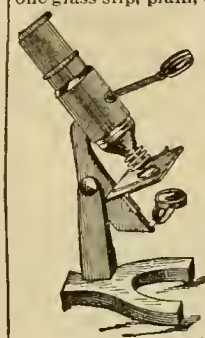
Microscopes for Students Home Education, Amusement and Professional Use.

No. 17860, Gem Microscope. This is a neatly finished instrument, designed for the use of those who wish to pursue their investigation beyond the powers yielded by a simple microscope. The low price at which it is sold, its simplicity and compact form has made it a very popular instrument. The lenses are accurately ground and are of such power as to render minute objects, animal, vegetable and mineral distinctly visible. **The Gem Microscope is substantially made with a vertical brass body 6 inches high.** It has one eye piece and one objective, **giving a power of 40 diameters or 1,600 areas;** has a mirror beneath the stage for the illumination of transparent objects, two glass slips, one prepared object and one pair of brass tweezers, all packed in a nice French polished case.
Price.....$2.20
Postage, extra, 25 cents.

Our High Grade Microscopes at $4.40 and up.

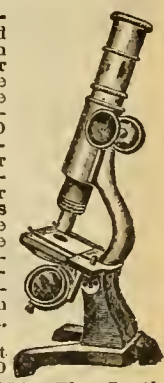


No. 17861 Household Microscope. Many years of experience in the sale of microscopes has demonstrated that the public appreciate a microscope of not too complicated construction of **moderate price, but still well made, easily managed, capable of affording instruction; and to supply this demand a Household Microscope** has been designed. It is a compound Microscope having all the essential parts of a first-class instrument. It is a model of the most approved and modern pattern with a range of magnifying powers affording an opportunity for **investigating the minutia of animal and vegetable life by which we are surrounded, and which are, to so many, an unknown world. The animalcules commonly present in stagnant water, the pollen of flowers, etc.,** can be well observed and studied with it. It is 7 inches high, as shown in the engraving. The base is of bronzed iron, has hinged joint, allowing the instrument to be used at any convenient angle. The body is brass, finely finished, stage large and steady, with brass springs for holding the object; has a mirror beneath the stage for the illumination of transparent objects; two crown glass objectives affording **magnifying powers of every range from 30 to 75 diameters** (500 to 7,500) areas); one glass slip, plain, one glass slip with concave cell for holding liquids or insects, one prepared object, all packed in a neat box, weight, 1½ lbs.
Price.....$4.40

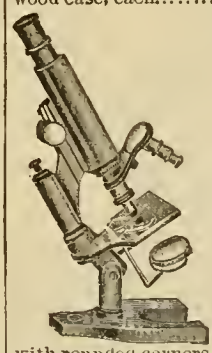


Household Microscope.

No. 17862 Household Microscope, same as 17861 but has three objectives which are separable, giving three powers from 30 to 125 diameters, or 500 to 10,000 areas, and has condensing lens for the illumination of opaque objects, weighing 1¼ lbs.
Each.....$5.85



No. 17863 Students' Microscope. American model, mounted on substantial, well japanned, iron base, and has inclination joint for adjusting to any angle; has a fine rack and pinion movement, one eye piece and one dividing objective **giving power from 80 to 350 diameters;** has revolving diaphragm with adjustable mirror under stage for illuminating transparent objects, with two rings for holding steady in position. It has a society screw which permits the use of other objectives that can be purchased when needed. The instrument is **very attractive in appearance,** substantial in construction, powerful but low priced, which brings it within the reach of all. Weight, 5 lbs.
Price, complete packed in neat wood case, each.....$14.70



No. 17864 The Continental Professional Microscope. This microscope is of new construction, the coarse adjustment being accomplished by diagonal rack and pinion, while the fine adjustment is by micrometer screw giving very delicate movement. The draw tube is adjustable for the tube length. **This instrument is particularly adapted to American requirements and is very complete,** of high grade workmanship, simple, and is offered at a price far below other instruments of equal grade. The base is made of japanned iron of the horseshoe form, with rounded corners and of ample size for stability. The pillar is of lacquered brass with joint for inclination of the body. The stage is of brass oxidized and with removable spring clips. **The mirror bar switches to an obliquity below the stage, and is provided with both plain and concave mirrors. This instrument is especially recommended for high school laboratories,** as it fully meets all the requirements for the scientific work prescribed, and on account of its moderate cost it is brought within the reach of all. The height is 12 inches, weight about 12 pounds, has strong and well finished case with handle, lock and key, furnished with one eye piece and ⅔ inch and ⅓ inch objectives with power of from 75 to 540 diameters, and can be fitted to 2950 diameters. Price, complete.....$34.50

Anyone can make the staff in a few minutes which is to be used by inserting one end in the ground. The ball socket joint allows the compass to be turned at any angle to level the same.

"Our Special" Land Level.

No. 17928 The best and most practical level ever sold at a moderate price. It is a complete surveying instrument, adapted to the purposes of county surveyors, architects, builders, farmers, landscape gardeners, fruit growers, planters, ranchmen, etc.

It is provided with a high grade telescope, having a magnifying power of 12 diameters, with which a pole or rod may be easily read at a distance of 500 feet. The level, which has a very sensitive bubble, is mounted over the telescope and provided with adjusting screws. The telescope and level are mounted upon a swivel bearing, permitting an elevation or inclination of 25 degrees from level line, and can be securely clamped in any position. The cross wires are fixed or stationary, and the construction is simple and substantial throughout. This level may be used for taking either vertical or horizontal angles.

It meets all of the requirements in irrigation work, ditching and drainage, setting fruit trees at right angles, leveling foundations, laying off streets or roads, and all farm surveying. Each instrument complete in portable box, with plumb bob, adjusting pins and substantial hard wood tripod. Price $24.50

Builders' or Farmers' Drainage Level.

Stereoscopes.

Stereoscopes and views never were more popular than at the present time. With the large assortment of views which we list, there is an endless amount of entertainment to be obtained from an outlit of this kind, at a very small expense. We do not list the cheapest line of stereoscopes made, for we cannot conscientiously recommend them to our customers.

No. 17960 Stereoscope, cherry frame, fine quality medium sized lenses, patent folding handle, nicely varnished hood. Price.....24c
Postage, extra, 30 cents.

No. 17962 Stereoscope, cherry frame, large lenses of first quality, patent folding handle, handsomely figured cherry hood, nicely varnished.

Stereoscopic Views.

In stereoscopic views we do not handle at all the cheap, trashy printed views, our views all being made upon regular photographic paper from negatives. When seen through the stereoscope the superiority of these views will be readily appreciated. We guarantee all of our views to be superior in quality, tone and beauty to any other views upon the market, even at two and three times the price. Our list is too large for us to attempt to fill orders for special pictures, and they must be taken as they come—our own assortment.

Postage on all Stereoscopic Views is 6 cents per dozen, extra.

Standard and Self-Registering Thermometers.

Self-Registering Thermometers are very desirable inasmuch as they not only show the exact temperature at the time the observation is made, but also indicate with absolute accuracy the highest or lowest point which has been reached since the last observation.

In the **maximum thermometer** the tube is made with a cut-off near the bulb, and the column of mercury rises as long as the temperature increases, but when the temperature begins to decrease, the mercury separates at the cut-off, leaving the column standing at the highest point reached. At the end of a hot summer day, for example, these thermometers show with absolute accuracy the highest point reached during the day.

The Minimum Thermometer is made with spirit (alcohol) and a small float is placed in the tube. This float follows the spirit down to the lowest point, but remains stationary when the spirit again commences to rise with the increase of temperature. The position of the float therefore indicates with absolute accuracy the lowest temperature which has been reached since the previous observation, and the spirit itself indicates the exact temperature at the time the observation is made.

Both the Minimum and Maximum Thermometers are hung in a horizontal position, as shown in the cuts, and, after an observation is made, are reset by simply turning them to an upright position for a few seconds. This operation in the Maximum thermometers allows the mercury to flow back to the point indicating the exact temperature at the time, and in the Minimum thermometers, allows the float to return to the top of the column of spirit.

When hung in an upright position these thermometers simply show the exact temperature, without registering the previous highest or lowest point reached.

No. 18129 Private Line Instrument, same as above, but wound to 20 ohms resistance. Ea...$3.95

No. 18133

No. 18132 Steel Lever Key, Standard Western Union, with legs to go through the table. These keys are of the latest and most improved type, the lever and trunions being made of solid steel, nickel plated, instead of brass, as in the old type of instrument. The same strength is secured with much lighter weight and the liability of lose trunions completely avoided. This is without doubt one of the handsomest and best working keys on the market. Its adoption by the Western Union Company is certainly a sufficient recommend for it.

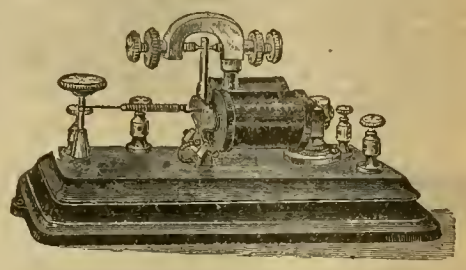
No. 18137 Giant Sounder, Tubular. Standard Western Union size, otherwise same description as above, very loud and clear sound, wound to 4 ohms resistance. Each.....$2.60
Postage, extra, 20 cents.

No. 18138 Giant Sounder, Tubular. Standard Western Union; size, same as above but wound to 20 ohms resistance, for main line use. Each.....$2.45
Postage, extra, 20 cents.



No. 18140 Pony Relay, made of bronze metal, hand finished, mounted on solid mahogany base with metallic sub-base; a thoroughly reliable and practical instrument. Price, with magnets wound to 20 ohms resistance.....$3.40
Postage, extra, 20 cents.

No. 18141 Pony Relay, same as above, but wound to 50 ohms resistance. Each.....$3.90
Postage, extra, 20 cents.

No. 18142 Relay, Standard Western Union, tubular mountings, mounted on solid mahogany base, wound to 150 ohms resistance, with rubber covered coils, adjustable magnets and finished in a most thorough manner. Price.....$4.85
Postage, extra, 20 cents.

No. 18143

No. 18143 Box Sounding Relay, Western Union Pattern, both box and base made of polished mahogany, all metal parts nickel plated, with complete adjustments for increasing or decreasing the sound at will, wound to 50 ohms resistance. Price, without key.....$5.90

For the benefit of those who do not know we wish to say that for local practice or for short lines up to ¼ or ½ mile in length, and where only two instruments are used on lines, a sounder of 4 ohms resistance will give very good results, especially if a metallic circuit be used, which is recommended for very short lines. For lines longer than ½ mile, or where more than two instruments are to be used, unless the line be very short, the magnets should be wound to 20 ohms resistance.

Estimate for a Half Mile Private Line.

No. 18145 Two Instruments, the same as No. 18127, wound with fine wire to 20 ohms resistance. Each.....$2.25.....$4.50

The above estimate is for a complete and practical working line.

We shall be glad to furnish information to any who are anticipating the building of a private line. It is a very popular practice where there are several students in telegraphy within a reasonable distance of each other, to build a line connecting each of their homes. In this way they have practical experience in telegraphy and the distance makes the study very pleasant as well as more valuable. **Complete instructions for building private lines, together with diagrams accompany each set of instruments free of charge.**

Gravity Battery.

The Gravity Battery is a closed circuit battery which is used for telegraphic work, or can be used for operating electric bells, but is not so desirable for bell work on account of evaporation and the necessity for renewing the battery more often.

ELECTRO-PLATING IS PROFITABLE.

IN THESE DAYS OF SHARP COMPETITION when so many men are looking about for an occupation or trade which is not overcrowded, there are few, if any, opportunities which offer an active man as much probability of making a comfortable and independent living, with certainty and the possibility of making a considerable amount of money as the business of Electro-plating.

THERE ARE MANY villages and towns, and even large cities, where this field of usefulness is still vacant, or if partly occupied has still room for one or several more. Ask your neighbors, ask your friends and acquaintances and you will find that there is scarcely a family who does not possess some spoons, forks or other tableware, articles of jewelry or trinkets of some sort, which would look much better; could in fact be made to look new again if they could conveniently have them replated.

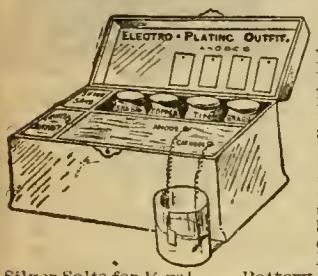
You are undoubtedly throwing away one of your very best chances of increasing your income considerably, by not doing Electro-Plating. Our Alvah Electro-Plating Outfit is what you need. It will beyond doubt pay for itself in a very short time, perhaps in a few days, as after the first outlay, the cost of keeping up the Electro-Plating bath, by the use of Electro-Plating Salts is very small. They will enable you to do good and profitable work, as the cost of the metal deposited on an article to be plated is exceedingly small, while the prices charged for such work prove very remunerative. In justice to yourself, do not neglect your opportunity any longer. Get an Alvah Electro-Plating Outfit and go to work at once.

The Alvah Electro-Plating Outfits.

These are the only genuine Electro-Plating Outfits on the market, comprising in a compact form all that is necessary for the execution of fine Electro-Plating, since a mere lot of materials simply bunched together cannot properly be called an outfit.

With one of these Outfits and the "Electro-Plating Salts," which they contain, anyone of average intelligence can successfully and without difficulty do good electro-plating work.

Full instructions with every outfit.



No. 18160 Alvah Amateur Plating Outfit. Although this outfit is designed principally for amateur purposes it is a thoroughly practical one for plating small articles with silver, tin, copper or brass. The outfit consists of the following articles,

Silver Salts for ½ gal.,	Battery,
Tin " " ½ "	Silver Sand,
Copper " " ½ "	Jewelers' Sawdust,
Brass " " ½ "	Wire.
Silver, Tin, Copper and Brass Anodes,	Handbook on Electro-Plating.

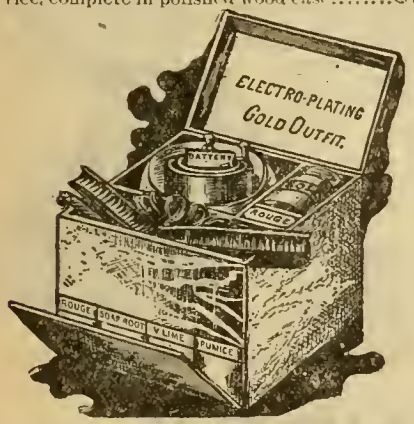
Price, complete in polished wood case.....$7.35



No. 18162

No. 18162 Alvah Gold-Plating Outfit. A complete outfit for practical gold plating. This outfit always proves itself a money maker. The following complete list of materials is included:

24 Kt. Gold Salts for ½ Gal., 24 Kt. Gold Anode, Tank for Gold Solution, Jeweler's Rouge, Handbook on Electro-Plating, Wire Scratch Brush, Vienna Lime, Battery, 2 Brushes, Jeweler's Whiting, Pumice, Wire, Soap Root, Glass Rod, Chamois.

Price, complete, in polished wood case.....$13.70

No. 18163 Alvah Gold and Silver-Plating Outfit, contains everything necessary for practical plating with both gold and silver. The following articles comprise the outfit:

24 Kt. Gold Salts for ½ Gal.	Tank for Silver Solution.
24 Kt. Gold Anode.	Wire Scratch Brush.
Tank for Gold Solution.	Vienna Lime.
Jewelers' Whiting.	Glass Rod.
Jewelers' Rouge.	Battery.
Handbook on Electro-Plating.	Wire.
Silver Salts for two Gal.	Soap Root.
Silver Anode.	2 Brushes.
Chamois.	Pumice.

Price, complete in polished wood case.....$19.60

Our $27.40 Plating Outfit.

No. 18164 Alvah Gold, Silver and Copper Plating Outfit. A very complete and thoroughly practical outfit for plating with gold, silver and copper. One of these outfits insures a steady income. The following materials included with each outfit.

24 Kt. Gold Salts for ½ Gal	Silver Salts for 3 Gal.
24 Kt. Gold Anode.	Silver Anode.
Tank for Gold Solution.	Tank for Silver Solution.
Copper Salts for 1 Gal.	Battery.
Copper Anode.	Wire Scratch Brush.
Tank for Copper Solution.	Glass Rod.
Vienna Lime.	Silver Sand.
Jeweler's Whiting.	Tripoli.
Wire.	Soap Root.
Pumice.	3 Brushes.
Jeweler's Rouge.	Chamois.

Open Circuit Batteries.

For electric bells, burglar alarms, telephone work, etc.

These batteries are intended for use where the circuit is closed only a small portion of the time. If placed on a continuous closed circuit they will soon be exausted, but for open circuit work such as bells, telephone work, etc., they will last from 12 to 18 months without renewal.

Dry Batteries.

Dry Batteries when first introduced were not very successful, but now they are largely displacing the wet batterics of La Clede and Le Clanche type for nearly all kinds of work. **The principle is the same as La Clanche.** They are clean in every respect and will last from four to eighteen months, depending largely on the amount they are used. They require no attention to keep them in order. When they have run out they are not to be recharged, but must be replaced by a new one. **These batteries are largely used for electro medical work also.**

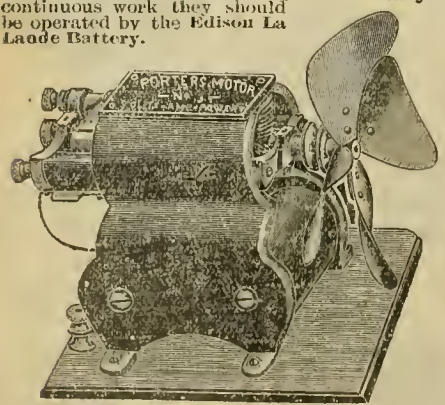
Electric Motors.

We list the Porter Electric Motors which are so well known that we believe a lengthy description is unnecessary. They are arranged to be run with batteries. Almost any cell or battery will suffice where the work to be done is not too heavy, but where the motor is to perform heavy and continuous work they should be operated by the Edison La Lande Battery.



No. 18226 Porter Motor, No. 1 size, small, but develops a considerable amount of power, can be operated with 1 cell of battery, and will furnish power for mechanical toys, revolving window show, etc.; weight, 1¾ lbs. Price, each, without battery..$2.90

No. 18227 Porter Motor, No. 2 size, same construction as above but larger, weighing about 3 lbs. and has a capacity of about $\frac{1}{20}$ horse-power. Price, each, without battery.....$4.75

No. 18228 Porter Motor No. 3, size, 5½ in. long by 4½ in. high by 4½ in. wide. This motor will run a small ventilating fan, a dentist's buffer, a grinding machine or other light work. The nominal speed is about 2,200 revolutions per minute, and when using 4 cells of battery it will generate about $\frac{1}{8}$ horse-power; weight, about 6 lbs. Price, each, without battery.....$9.00

No. 18229 Porter Motor No. 4 size, built same style as No. 3 but is much larger and stronger motor. It is wound for from 2 to 10 volts, and with 8 volts and 10 amperes will develop about ¼ horse-power. Weight 8½ lbs., clears an 8-in. fan. Price, complete, without battery.....$13.50

Telephones.

The demand for telephones has so largely increased of late that we have been induced to give the matter special attention with a view to selecting a 'phone which is strictly up-to-date, and at the same time one which can be furnished at a moderate cost. Until within the past year the telephone patents have been so closely guarded that a strictly first-class and up-to-date instrument could not be furnished for the use of private individuals or telephone exchanges except the Bell and a few others. Many of the most valuable patents have now expired and others have been introduced to take the places of those which have not as yet expired. We are now prepared to offer telephones which are not only suitable for private use, but are being furnished for the use of corporations for city exchanges. The telephone as now made is very much simplified, and while it is a delicate instrument we have taken particular care to select one which we can guarantee to give entire satisfaction. We caution buyers of telephones against purchasing instruments of concerns who have not an established reputation, as there are many 'phones on the market which cannot be depended upon and are practically worthless.

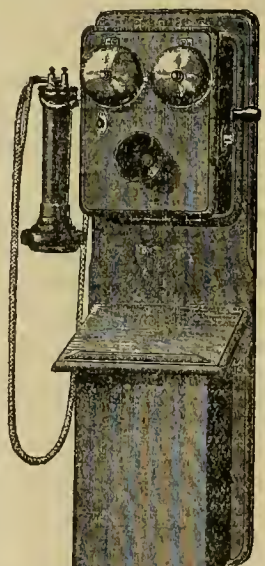
THE IMPROVED LONG DISTANCE BATTERY TELEPHONE OF THE REGULAR BELL TELEPHONE style, with solid oak walnut case, magneto call with 10,000 ohm generator, double bell, compound pole receiver, with end nickel plated to prevent rust; a very sensitive granulated chemically treated carbon transmitter, and box on case for two batteries. The chemical treatment of the granulated carbon prevents it from packing, which has been a very fatal objection with granulated carbon transmitters. Price complete, including 2 cells of dry battery, Each, $10.70; per pair.....$19.60



No. 18233 Improved long distance telephone, with transmitter and receiver, same as above but with a battery call instead of the magneto call, the connection is to be made with a push button, and is a thoroughly reliable instrument. Electro-Medical Batteries.

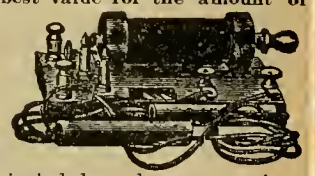
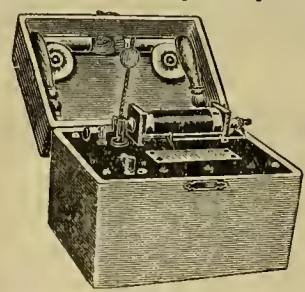
• For Home or Physicians' Use.

The Electro-Medical Battery as a curative agent is becoming more appreciated from day to day. In cases of nervous trouble and partial paralysis it has brought about phenomenal results. The best physicians prescribe its use even when all else fails, and even under such adverse circumstances it often cures. For rheumatism, neuralgia, paralysis and all nervous disorders, it seems to be nature's own cure. There need be no fear from the use of these machines, as there can be no bad results derived. An invalid may use them with perfect safety. There are a great variety of electrical machines and batteries on the market, from which we have selected of each kind those in which we can furnish our customers with the best value for the amount of money expended.

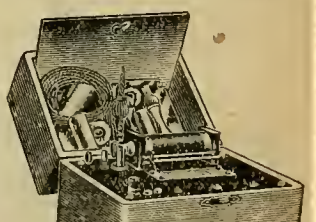


No. 18238 Induction Coil without battery. This instrument is very strong and is practically the same as the next following, except that it has not the battery included, and consequently a smaller case. It can be used with any acid battery, or with one or two cells of dry battery, which are listed further on in this department. This instrument is especially desirable for the use of travelers, inasmuch as it is very small and portable; size of base, 5¾x2¾, but still it has all the power of the larger instruments. Price of instrument complete, including pair of hand electrodes, cords and sponge holder of the best quality. Each.....$2.95

Price, with one dry battery.....$3.20



No. 18239 Electro-Medical Battery, put up in polished hard wood case, with fine hard rubber and nickel plated trimmings. Is fitted with a scale with sliding pointer showing amount of current and an adjustable rheotome by which the current interruptions may be varied from very slow up to two thousand per minute. Operated with a dry cell. Price complete with handles and cords, sponge electrodes and foot plate.....$4.25



No. 18240 Electro-Medical Battery, same style as No. 18239, but larger size and has two cells of dry battery. Complete with adjustable rheotome, current scale, handles and cords, sponge electrodes and foot plate. The most complete battery ever sold for so low a price. Price.....$4.75

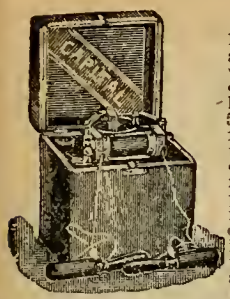
MATHEMATICAL AND DRAWING INSTRUMENTS AND MATERIALS.

CUSTOMERS desiring this line of goods may be assured that any selection they may make will be entirely satisfactory. We buy from leading manufacturers, both abroad and in this country, and handle only such instruments as are perfectly accurate, reliable and durable. We guarantee every item as represented, or it may be returned to us.

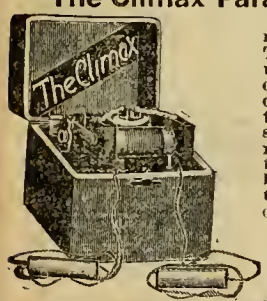


No. 18241 The "Capital" Battery, imitation mahogany case made of cherry and well finished with rounded corners, handle and catch, height, 7¼ in.; width, 6½x5¾. One of the principal features of this battery is that it uses a **Mesco** dry cell, which will last from **four to nine months,** depending largely on how much it is used. It develops a very strong current, is well made throughout, with parts nickel plated, and is one of the best batteries on the market for the price; weighs a little less than 5 lbs. New cells of battery can be furnished at 25c each.
Price, complete.....$4.50

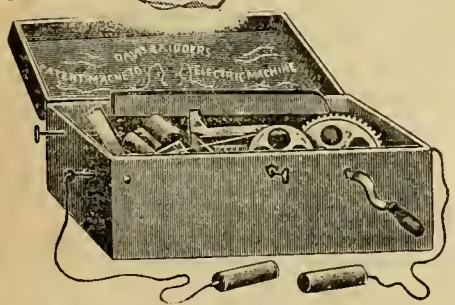
No. 18242 The Gem Electro Medical Battery. This battery, like the one preceding, uses a dry cell, but the entire apparatus is made in a much more compact form and has a very fine polished oak case, which is better proportioned than the one represented by the cut and has a nice carrying handle. The size is 4½x4¾x7¾ inches and weighs

5½ lbs. **The great advantage to be derived from these batteries** is a strong and even current, combined with the entire absence of acids of any kind, which are liable to be spilled and injure clothing, furniture, etc. This instrument is furnished complete with cords and handles, one foot plate and two sponge electrodes, with wood handles.
Price, complete.....$5.40
Extra battery, per cell..... .25

The Climax Faradic Battery.



No. 18243 The "Climax" Faradic Battery. This battery uses a regular zinc and carbon cell of liquid battery, which can be renewed from time to time at a very small expense. In other respects it is practically the same as the **Capital battery; full instructions** accompany each one.
Price, complete .$3.45



No. 18244 Magneto-Electric Battery. This battery is of the **celebrated Davis & Kidder type;** is operated without the use of chemicals or batteries of any kind. The electric current is produced by the revolving of fixed **electro magnets** by turning a handle from the **outside of the case.** This machine produces a very **powerful current and will last a life-time if properly cared for.** Size of case, 4x4½x8½; weight, about 5¾ lbs. Price, complete....$5.25
No. 18245 Magneto-Electric Battery, same as above, **but larger and stronger;** size of case, 4½x5x10 inches. Each.....$6.35

Drawing Paper in Sheets.

Whatman's Hand-made.

The Whatman paper differs in surface as follows, viz.:

C. P. signifies "cold pressed," and has a slightly grained surface; used for general drawings and finely finished water-color drawings.

H. P. signifies "hot pressed," and has a smooth surface; mostly used for very fine drawings and pen-and-ink sketches.

R. signifies "rough," and has a coarsely grained surface; used for very bold drawing and water-color work (Torchon paper).

We furnish all sizes of Waterman's papers, but we list only the following ones, because they are most profitable to buy, as they are made of heavier paper, and cost no more in proportion to size than the smaller sheets. We cut the sheets up if desired, thus furnishing small sheets of heavier paper.

...PHOTOGRAPHIC GOODS...

PHOTOGRAPHY Is one of the most fascinating and fast becoming one of the most popular of pleasures. It is something in which everybody can indulge, and is not a fleeting pleasure which lasts but a few minutes, but is instructive and entertaining as well. It enables one to collect mementos from time to time, at home, while traveling, etc., which will become treasures in after years. We list a large variety of cameras, as well as photographic sundries. Our line of hand cameras, folding hand cameras and view cameras are listed complete in this book, but those who are interested in studio outfits will be furnished with a special catalogue with quotations on same. We have carefully examined the cameras and accessories made by all the reputable manufacturers and have, after careful consideration, selected a line which is complete with the latest improvements and in which we can furnish our patrons a thoroughly first-class article; in fact, the best on the market for the least money.

WE WISH TO SAY BRIEFLY that the art of photography is much more simple than is generally believed. If it was generally known that it could be so easily mastered there would be thousands of people enjoying the art who now feel afraid to undertake it.

COMPLETE INSTRUCTIONS for the manipulation of the camera, taking pictures, developing, printing and finishing the same, accompanies each camera. The instructions are made so simple that even a child with very little experience can do very good work. We are at all times glad to answer any inquiries concerning photographic goods, and also to assist our patrons should they experience any difficulty in finishing the pictures.

THE SIMPLEST FORM OF CAMERA is the Hand Camera, and one which appeals strongest to those who have not had previous experience. Some are constructed for the use of films only, others for both films and dry plates and a few for dry plates only. The film cameras are most convenient for the traveler, for all that he has to do after having loaded his camera is to make exposures one after the other until the roll of film has been consumed, after which it is replaced by a new one. A roll of film weighs but a few ounces and takes up but very little space. The film cameras are also most desirable for those who wish to make the exposures only and have the pictures developed and finished by a professional photographer.

THE MAJORITY OF AMATEURS however, derive fully as much pleasure from the developing and finishing of their pictures as they do from making the exposures, and we believe that if it was more generally known that the art is so easily mastered there would be but a small amount of work taken to the photograph gallery to be finished.

To those who desire to do their own developing and printing, we especially recommend the cameras using GLASS PLATES.

TERMS OF SHIPMENT. Photographic goods when ordered to the amount of $2.00 or more will be sent C. O. D. if desired, providing $1.00 accompanies the order as a guarantee of good faith. Orders to the amount of $20.00 and over must be accompanied by $2.00.

PHOTOGRAPHIC GOODS CANNOT BE RETURNED for exchange after they have been used, for even though they may have been used but little, they become second-handed, and we have no means of selling second-handed goods.

The above rule, however, does not refer to any goods which might be defective. We guarantee all goods to give entire satisfaction.

WE ADVISE SENDING CASH IN FULL as you save the return charges on the money and trouble of examination at express office.

Our 35c Camera and Developing Outfit.

No. 18508 The Alvah Photographic Outfit. Try one of these outfits and see how easy it is to make photographs. The Alvah Camera takes pictures 2x2 inches and will make landscapes, portraits, groups, buildings, etc. It uses regular glass plates (not films) and comes complete with everything necessary for making and finishing the pictures, so that you are not compelled to buy an outfit afterward. Never before sold for less than $1.00. The camera and outfit are all securely packed in a box and consist of the following articles: 1 Alvah Camera, 1 box dry plates, 1 package hypo, 1 printing rack, 1 developing tray, 1 package developer, 1 package silver paper, 1 set directions, 1 toning tray, 1 package fixing powder, 1 package ruby paper.

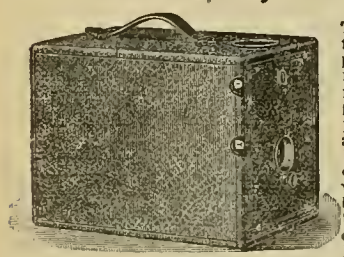
The $3.75 Cyclone Jr.



No. 18520 This camera is the most complete instrument on the market for the price, and it is particularly adapted for the beginner, all complications which are liable to confuse having been dispensed with. It is small, neat and compact; measures 4½x5½x6¾ inches, and weighs but fifteen ounces. It makes a picture 3½x3½ inches, and has a capacity for carrying three double plate-holders. Each camera is covered with black morocco grain leather, and fitted with a brilliant square finder for snap-shot work. It has a Bausch & Lomb achromatic combination lens of great depth of focus and fine definition, and improved time and instantaneous shutter, and is a thoroughly well-made and serviceable camera in every respect. Full instructions accompany every camera. Price, complete, with one double plate-holder.....$3.75

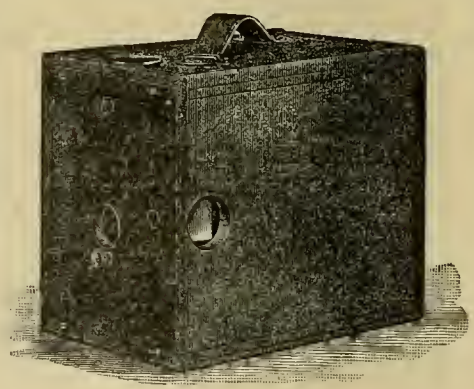
No. 18505 Complete developing and printing outfit for the Dexter Camera.....$1.50

The $5.75 Cyclone Camera.

WE PREDICT that this Camera will prove the Most Popular one which we offer to our customers this season.



No. 18506 It takes a picture full 4x5 inches, has a perfect shutter for time and snap-shot exposures, a separate button being provided for each purpose. It is fitted with two large square view-finders, and the excellent work of this camera is due to the superior lens used. The Cyclone lens is especially ground by the Bausch & Lomb Optical Co., and, like the lens of the Gem Camera, is of universal focus. Not until this season have we been able to offer to our customers so large a camera as a 4x5, fitted with a universal focus lens, and this is a very important feature, as no focusing attachment whatever is necessary. The camera is light and compact, the outside measurements being but 5¼x7x8 in., and the weight but 27 oz. The camera will accommodate three double plate-holders with a capacity of six dry plates. The camera is very handsome in appearance, as it is covered with fine black morocco grain leather. Each instrument is fitted with two tripod sockets, so that it may be used for either vertical or horizontal pictures. We confidently recommend this camera to anyone desiring a first-class instrument free from complications and capable of the very best of work.

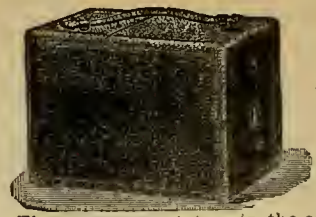
The $2.00 Roebuck Camera.

No. 18510



We have designed this instrument especially to meet the demand for a thoroughly practical camera capable of producing high-grade work at a very moderate price.

The same care is taken in the selection of lenses, materials, etc., as in the more expensive cameras. It has a high-grade achromatic lens, which covers the plate perfectly; a round view-finder, single diaphragm and the latest improved rotary shutter. The camera is covered with seal grain leather, has a leather handle, measures but 5⅛x3⅝x3¼ inches, and weighs but seven ounces. The Roebuck Camera uses the new patent single metal plate-holders, which are the lightest, most compact and most popular plate-holders made. The size of the picture made with this camera is 2½x2½ inches, and the camera holds six single plate-holders. We consider this one of the best bargains that we have the pleasure of offering to our customers in the photographic line this season.

The $3.75 Gem Camera.

No. 18530 This camera has been well named, inasmuch as it fills a much-felt want for a camera which will take a good-sized picture, but at the same time which will come within the reach of all. It is one of the most exceptional bargains that we have ever been able to offer and at the same time is thoroughly reliable in every respect. It uses glass plates only, and makes a picture 3¼x4¼ inches, which is sufficiently large to meet the requirements of the average amateur. The camera has space inside for three double plate-holders, measures but 4½x6x7 inches, and weighs but 16 ounces.

It is fitted with a first-class achromatic lens, of universal focus, thus doing away with the usual focusing adjustment each time a picture is taken. The shutter is of very simple and convenient construction adapted to both time and instantaneous exposures; the camera is covered with black leather and has two brilliant view-finders, one for horizontal and the other for upright pictures. Price, complete with one double plate-holder.....$3.75

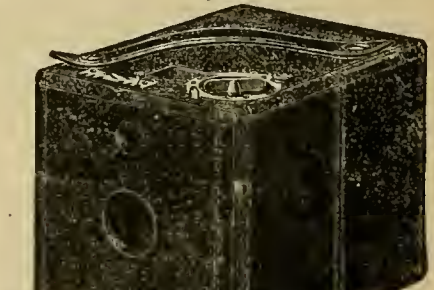
No. 18534 The Gem developing and printing outfit, consisting of everything necessary for developing and finishing up the pictures.....$1.50

The Hawkeye Jr. Camera.



No. 18560 If only a few pictures are to be made, glass plates can be used to the best advantage, but if going off on a trip where a large number of pictures are to be taken, the films are generally considered the most desirable. The Hawkeye Jr. takes a picture 3½x3½ inches. The outside dimensions of the camera are 4¼x4½x6 inches, and the weight but 20 oz. It is thoroughly well made throughout, fitted with an achromatic universal focus lens, capable of doing both indoor and outdoor work, and the shutter is so constructed that either slow or very quick instantaneous exposures or time exposures may be made. This camera is fitted with an automatic tally, which shows at a glance at any time the number of pictures which have been made. Like the Baby Hawkeye, this camera may be loaded in daylight.

The "Hawkeye Jr." Camera for 4x5 Pictures.

No. 18570 This camera is similar in design and construction to the **Hawkeye Jr.** described above, but will take a picture 4x5 inches. It has an achromatic lens, and is provided with a focusing lever and scale by which the camera can be quickly focused for near or distant objects. It is fitted with two view-finders for vertical and horizontal pictures, a ground glass screen for accurate focusing, and an automatic tally for showing the number of exposures made.

It uses either roll films or glass plates, and when films are used it may be loaded or unloaded in broad daylight. The size of the camera is 5¾x6¼x9 inches, and the weight 2 lbs. and 14 oz. It has a capacity for 18 exposures without reloading.

The Baby Hawkeye.

No. 18578 This camera is arranged for the use of films only, and embodies many new and useful improvements which place it far ahead of any similar camera now on the market. It takes a picture 2x2½ inches, and has a capacity for twelve exposures without reloading. The outside dimensions are but 2½x3¼x4 inches, and the weight but 7 ounces, making it a very convenient camera for carrying about. The Baby Hawkeye is so constructed that it may be unloaded or reloaded in broad daylight without any danger of the light injuring the sensitive films. The shutter is so constructed that either slow or very quick instantaneous exposures or time exposures may be made. It has a fine single achromatic lens of universal focus, and the finish throughout is equal to that of the larger Hawkeyes.

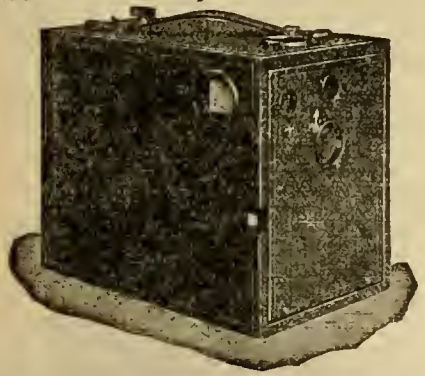
The Magazine Cyclone Camera.

The Magazine Cyclone Cameras meet the demand for Cameras occupying a very small amount of space, and at the same time capable of carrying the necessary number of dry plates for an outing.

These Cameras hold 12 dry-plates at one loading and do not require any extra plate-holders, as each Camera is complete in itself.



When the 12 exposures have been made it is merely necessary to open the back of the camera and draw out the magazine which carries the 12 plates with it, all of which can be lifted off at one motion. These cameras are the result of a great deal of expense, and endless experimenting, with a view to producing a camera at once adapted to the use of the youngest amateur, and at the same time of so high a grade that the experienced photographer will be entirely satisfied with its results. The magazine Cyclones are high grade in every respect, being constructed of the best material that can be obtained; the lens is a Universal, set-focus, achromatic combination of great depth of focus and fine definition. The shutter is always set. One pressure of the button exposes the picture and the shutter then flies back into position ready for another exposure. These cameras are free from all complications and multiplicity of parts so common to ordinary magazine cameras, and which are so liable to confuse and puzzle. This simplicity of construction renders it practically impossible to make the errors so common to beginners. You can be successful from the start, merely by following the plain, simple directions accompanying each camera. The prices include the camera complete with 12 plate-holders.

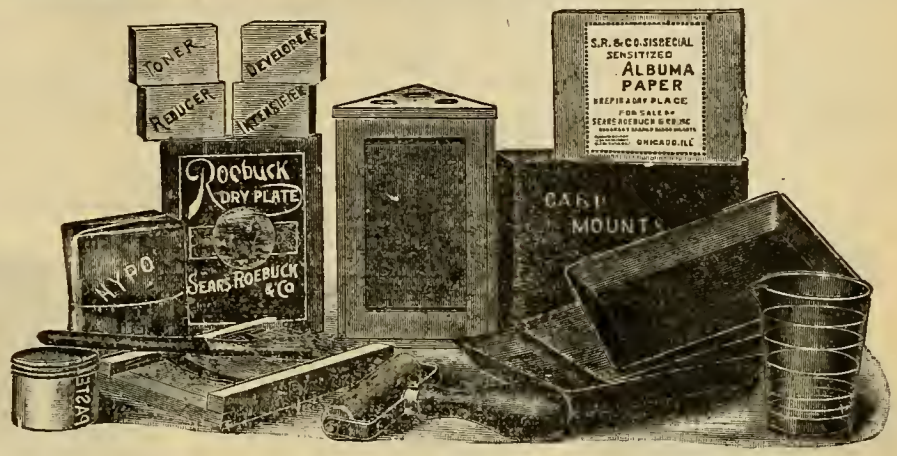
Our Camera and Outfit for $4.87 Complete.

PERFECTION PHOTOGRAPHIC OUTFIT AT HALF PRICE.

No. 18586 When you get the photographic fever and are ready to select an outfit, you will jump at the chance to pay

$4.87 FOR A REGULAR $10.00 COMPLETE PHOTOGRAPHIC OUTFIT.

2,000 of these outfits will be sold at just one-half price. Takes pictures 4 x 5 inches, either Landscape or portrait. The most perfect, complete and practical all around outfit ever offered at twice the price.



The Perfection Outfit is thoroughly practical, and not only does it include a first-class set focus snap shot or time exposure full leather covered camera, but it also includes all that is necessary to make and finish first-class photographs in the most popular (4x5) size.

What affords greater pleasure than to be in possession of a Photographic Outfit with which one can, as the opportunities present themselves, take the pictures of friends and relatives, brothers and sisters; the pets, such as dogs, cats and horses; the home, both inside and out; pretty landscapes and places of interest seen while traveling, and especially the pictures of the baby in all its cute and amusing positions. It will not be fully realized, until after years, what treasures have been secured in the way of photographs of friends and places of interest.

The cost is but a trifle to make and finish pictures in the 4x5 (cabinet) size. The cost of the negative when finished is but three and one-half cents, and from this negative there can be made as many as desired of the

Finished Pictures at about 1½ cents each.

For simplicity our outfit is the Acme of Perfection. Everything about the camera, the outfit and the operation of them is so simple that a child can do good work from the start. The Perfection camera is what is known as the set focus type, and as it is always in focus there is no adjustment necessary and it is always ready.

Another great advantage of the set focus lens is its great depth of focus, which gives full detail to objects at a distance as well as those which are nearby.

The Shutter is most simple, will not get out of order, and at the same time it can be instantly adjusted by moving a small lever to make the change from instantaneous to time exposures.

The Shutter is automatic, being operated by a spring in connection with a very ingenious device, and all that is necessary is to press the lever and it will do the rest.

The Brilliant View Finders form a part of the camera, and not only are they of invaluable assistance in locating and centering the objects or views to be photographed, but add much to its appearance.

The camera measures 5½x7x8 inches outside, takes a picture 4x5 inches, is covered with a fine quality of black grained leather, has a handle for carrying, two screw collars for attaching to a tripod, is furnished with one double plate holder and has room for two more inside the camera. Each plate holder will hold two plates.

The Size and Style of the Perjection Camera is the most popular on the market, a fact which can be better appreciated when we say that about eight out of ten of the Amateur cameras sold are about the same size and style.

Dry Plates only are used in the Perfection Camera, they being very much easier than films to develop and print from, and as Dry Plates only are used by professional photographers it is evident that they are the best.

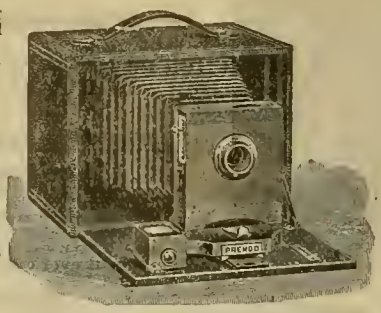
The Premo "D" Camera.

Although Sold at a very moderate price

THIS IS A THOROUGHLY WELL-MADE CAMERA IN EVERY RESPECT, AND WILL DO MOST EXCELLENT WORK.



It has a sliding front for adjusting sky and foreground, and is fitted with either a single achromatic lens or a rapid rectilinear lens, as may be desired. The Premo "D" is provided with the new safety shutter, a very neat and effective device for both time and instantaneous work. It has a reversible finder and a spring-actuated ground glass for accurate focusing. The cut shows the camera open ready for use, but when closed it measures only 4⅝x5⅝x6⅞ inches, and has space on the inside for three double plate-holders or a roll-holder. This camera will fully meet the demands of a very large class of amateurs.

The price includes camera, lens, shutter and one double plate-holder.

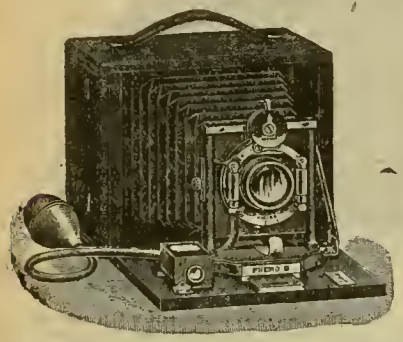
Premo "B" Camera.



The Premo "B" is undoubtedly one of the most popular hand cameras on the market. It is strictly high grade throughout, the greatest care being exercised in its construction, and for a high-grade camera at a moderate price it stands second to none. It is fitted with the Victor shutter, having iris diaphram and bulb or pneumatic release. It has the new center swing back, and is well adapted for use as a hand camera or with a tripod. The Premo "B" is fitted with either the single achromatic lens or the rapid rectilinear lens, as may be desired. It has reversible view-finders, spring actuated ground glass, and two tripod plates. There is space inside for carrying three double plate-holders. It weighs but a little over 2 lbs., and the 4x5 measures only 4⅝x6⅜x5⅝ inches. The Premo "Sr." Camera.

Open for Use.

Closed.

No. 18630 The Premo Sr. is the highest type of folding hand camera on the market. It is equipped with all the latest improvements, making it highly prized by the advanced worker and at the same time is equally well adapted to the requirements of the beginner. It is made throughout of the best selected Honduras mahogany and covered with fine black leather. The highly polished mahogany wood work, with lacquered metal trimmings, contrasted with the fine black leather covering and rich red bellows gives this camera a strikingly handsome appearance. It combines all the essentials necessary either for use as a hand camera or with a tripod. The Premo Sr. has double swing, double sliding front, and a fine rack and pinion movement for focusing. The camera is self contained, and when closed is in appearance merely a neat leather-covered box.

It is fitted with a reversible view-finder for both upright or horizontal pictures, two tripod plates and a spring actuated ground glass for accurate focusing. The bed is hinged and may be lowered when it is desired to use an extremely wide angle lens. The lens is a rapid rectilinear of great power, fitted with a Victor iris diaphragm shutter, which works between the lenses without noise or jar, and may be adjusted for both time and rapid instantaneous work.

The size of the 4x5 when closed is but 5¾x4⅝x7 inches, and the weight but 2¼ lbs. The price includes the camera, lens, shutter and one double plate-holder.

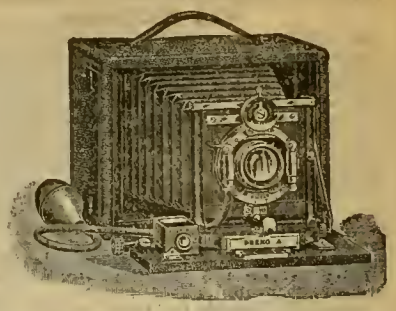
The Premo "A" Camera.



No. 18635 This is the original Premo Camera which met with such a flattering reception when first introduced in 1893. It now has many added new and valuable features, and is materially reduced in size and weight, the 4x5 measuring when closed but 5¾x6⅜x1⅝ inches, and weighing but a trifle over 2 lbs. It is fitted with a center swing-back and a fine rack and pinion movement for focusing. The lens is a high-grade rapid rectilinear, equally well adapted for indoor or outdoor work, and made especially for use with this camera. The lens may be removed from the shutter and a wide angle lens substituted when desired. The shutter is the new Victor iris diaphragm having both finger and pneumatic release. This camera is provided with two tripod plates, a reversible view-finder, and spring actuated ground glass screen for accurate focusing. The plate-holder is a Perfection Jr., with hard rubber slides, universally conceded to be the best plate-holder on the market. The price includes camera, lens, shutter, and one double plate-holder.

The Long Focus Premo.

No. 18645 The Long Focus Premo marks a new departure in hand cameras, and represents the very highest degree of perfection attained in the making of such instruments. It has all the features of advantage found in the Premo Sr. and in addition has nearly double the focal capacity, thus greatly increasing the scope of work which may be done. The extra length of draw is obtained by the addition of a folding back which may be lowered, forming a bed upon which the rear portion of the camera carrying the round glass screen may be drawn out. Our illustration shows the camera thus fully extended. By means of this increased focal capacity the camera may be used for copying and copies may be made the full size or larger than the original. This long focal length is an especial advantage in photographing distant objects. As the rapid rectilinear lens furnished with this camera is perfectly symmetrical the rear combination may be used alone, giving double the focal length of the entire lens and objects photographed in this way are twice the size obtained in the ordinary way. There are a great many views which can be brought out to much better effect with this camera than with any of the ordinary cameras. When not fully extended the Long Focus Premo is similar in appearance to the Premo Sr. and when closed is but a trifle larger. It will readily be seen that this camera covers a field never before reached by the hand camera, and its best advantages will be quickly recognized and appreciated by both our amateur and professional friends. The price includes the camera, lens, shutter and one Perfection Jr. plate-holder.

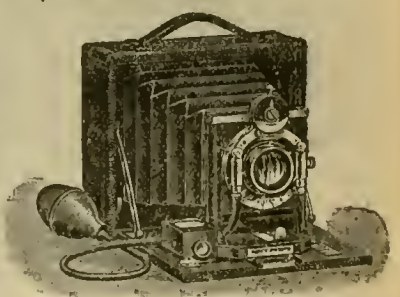
The Pony Premo Camera.

No. 18660 The Pony Premo is a new form of camera, and it is hard to convey an adequate idea of its real merits in a mere description. It is the most compact camera made, and, although measuring but 5x6x2 inches, outside dimensions, every part is so perfectly adjusted that the manipulation is a pleasure. The Pony Premo takes a picture full 4x5 inches. Owing to its extreme portability and lightness, this camera appeals particularly to wheelmen and tourists, but at the same time finds favor among the large class of amateurs who desire their outfit to occupy the smallest possible space. The Pony Premo is made throughout of polished mahogany, with lacquered brass trimmings, and is handsomely covered with fine black leather. The lens is an extra rapid rectilinear, fitted with the Victor shutter, with iris diaphragm and pneumatic release, thus adapting it to all classes of work. The Pony Premo has a ground-glass screen for accurate focusing, a reversible finder for both vertical and horizontal views, and adjustable front, and is adapted both for use in the hand or on a tripod. With each camera is furnished a sole-leather carrying-case, as shown in the illustration. Although this carrying-case holds camera, lens, shutter and three double plate holders, it measures but 11x6½x3 inches in size, outside dimensions. The camera, complete in the carrying-case, may be carried either by the shoulder-strap or attached to the frame of a bicycle, in the same manner as a tool-bag.

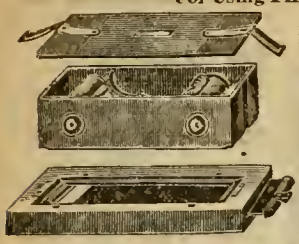


The price includes the camera, lens, shutter, one double-plate holder and the carrying-case with strap. Price, Pony Premo, complete $18.40

Extras, same as Premo Sr

Roll Film Holder.

For Using Film With Premo Camera.



Many photographers prefer to use films instead of glass plates, and in some respects the films possess advantages over glass. It is very light and compact, and a roll sufficient for several dozen exposures may be placed in the camera and one exposure after another made until the roll is used up. It thus commends itself particularly when one is going on a trip or expects to make a large number of exposures without access to a dark room to reload plate holders. Films may be used in any of the Premo cameras by means of the roll holder here illustrated. The prices do not include films, which must be purchased extra.

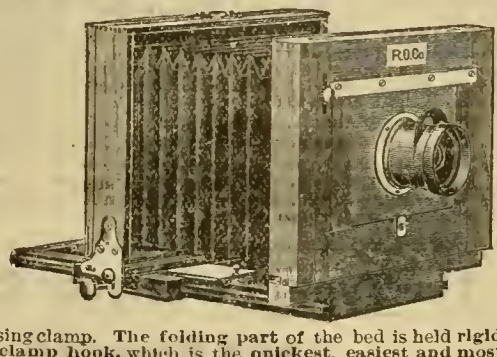
View Cameras.

View Cameras are intended to be used with a tripod and are used for taking landscapes, architectural subjects, buildings, groups and other outside views; also interior and portrait work, but cannot be used for tintypes. Tintype work requires a special camera and lenses. We have outfits suitable for both tintype and portrait work combined, the price of which will be furnished on application. All of our view cameras are made to fold, thus making them very compact and portable. Unless so stated in the description, the prices on view cameras do not include lenses or tripod. A lense must be selected, and if desired we will fit the same to the camera before shipping.

If at a loss to know what kind of an outfit should be purchased, we will give our patrons the benefit of our experience, if they will kindly advise us regarding the class of work that is to be done. If you expect to go into photography as a business, we should by all means advise you to purchase a regular view camera.

The New Model Camera.

No. 18700 The New Model Camera has now been on the market for fourteen years, and has become so popular and well known that we consider comments upon its merits almost unnecessary.



IT IS A THOROUGHLY WELL-MADE AND SUBSTANTIAL CAMERA in every respect, is light and compact, thus making a very desirable outfit for any one who wishes to invest but a small amount of money. It is made of selected cherry, well finished and has nickel trimmings. It is provided with a sliding front, folding bed, a single swing-back, and is easily reversed for upright pictures by the use of a new adjustable reversing clamp. The folding part of the bed is held rigid and firm by a new clamp hook, which is the quickest, easiest and most effective device that can be used for the purpose.

The price includes an excellent single lens, Standard folding tripod, carrying-case with handle and one Perfection plate-holder.

We also furnish the 8x10 size without lens and tripod, if desired, for $11.00.

The 5x8 size is the most popular one, both for professional and amateur purposes; but the 6½x8½ and the 8x10 are desirable sizes, from the fact that higher prices may be obtained for the pictures, by reason of the larger size.

The New Model Improved View Camera.

No. 18704 The New Model Improved is a strictly first-class camera with all necessary improvements, and is constructed after the same general style as the New Model, described in the preceding paragraph. Like the New Model, it has nickel trimmings, sliding front, folding bed, and is reversible by means of a new adjustable reversing clamp. Briefly summed up its advantages over the New Model camera are, that it is constructed throughout of the best Honduras mahogany, is fitted with a fine rack and pinion movement for focusing, and is provided with a much better tripod—namely, the Carlton sliding. It is a light, compact, and excellent instrument for a small amount of money.

The New Model Improved is made in both single and double swing.

The price includes a fine single-view lens, Carlton sliding tripod, carrying-case and one perfection plate-holder.

We can furnish the 8x10 size without lens or tripod for $14.10.

The New Model Stereoscopic Camera.

The revival of the stereoscope creates a demand for a first-class stereoscopic camera, and we believe that the New Model Stereoscopic Camera will find favor with all who are interested in this fascinating branch of photography. It is the lightest, most compact and simplest instrument of the kind yet placed on the market, combining all the desirable features needed in a stereo camera. Like the New Model Improved, it is constructed from the best selected Honduras mahogany, highly polished, with nickel trimmings, has a fine rack and pinion movement for focusing, a sliding front and is reversible. The partition and front board are removable, so that by the addition of a lens large enough to cover the full plate, 5x8 photographs may be made in the ordinary manner. The New Model Stereoscopic Camera is made only in size 5x8 and each camera is furnished with a neat canvas carrying-case with room for two extra plate-holders.

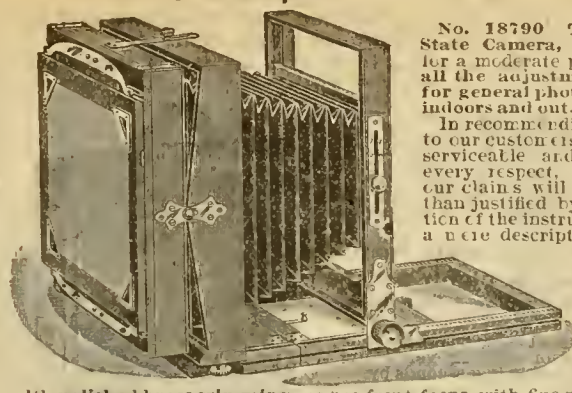
The Empire State Camera.



No. 18790 The Empire State Camera, although sold for a moderate price, possesses all the adjustments required for general photography both indoors and out.

In recommending this camera to our customers as thoroughly serviceable and practical in every respect, we know that our claims will be even more than justified by an examination of the instrument itself, as a mere description can in no way convey an idea of its real merits.

The Empire State is constructed throughout of selected mahogany with polished brass trimming. It has front focus, with fine rack and pinion movement, and by means of a set screw the front may be rigidly held at any given position.

The bed is hinged and may be folded completely under the camera, thus allowing the use of extremely wide angle lenses, if so desired. Ample rise and fall is given to the front, a very desirable feature for work in confined situations.

The front is very wide, thus permitting the use of a pair of stereo-lenses if so desired. The Empire State is made with either single or double swing, and it is the only moderate-priced camera upon the market in which both swings are from the center, a feature which every professional photographer will quickly recognize and appreciate. The back is reversible, and the device for making the reversal is so simple that the change from horizontal to vertical views, or vice versa, may be made within a few seconds and with only one movement. When in position the slide may be drawn from the plate-holder from the top, bottom or either side, as may be desired. Any work which may be done with the most high-priced cameras may be done just as easily and just as well with the Empire State Camera.

The price includes canvas carrying-case and one Perfection plate-holder, but no lens or tripod.

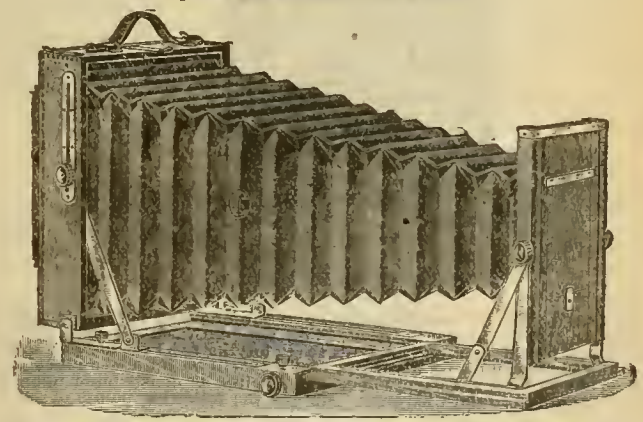
Our Highest-Grade Cameras.

The following cameras, namely, the Monitor, the Universal and the Carlton represent the highest degree of perfection in cameras. As many of our enthusiastic amateur and professional friends believe in having the very best of everything, we carry these cameras to meet this demand, but will say that it is greatly a matter of greater compactness, finer finish and appearance, and we do not ask our customers to purchase these cameras unless they desire the best, as a matter of personal satisfaction

These cameras although representing the best that the market affords, will not take any better pictures than the Empire State camera, and for ordinary purposes they will do no better work than the New Model.

The Monitor Camera.



No. 18800 The Monitor is a new form of the compact style of view camera and is similar in general appearance to the Carlton and Universal. Although sold at a more moderate price, the Monitor is made with the same care as the Carlton and Universal, and is in every respect equally well made.

It is constructed of the best mahogany, highly polished, and the brass work is polished and lacquered. The bellows is of the finest leather, and has an extra-long draw, thus allowing the use of lenses of extreme focal length. By a special arrangement the back may be moved forward so that extremely wide-angle lenses may be used. The Monitor has double swing back rising and falling front and is fitted with rack and pinion focus movement.

The back of the Monitor is square and may be quickly reversed for either vertical or horizontal pictures. Although of very simple manipulation the Monitor is exceedingly compact and light in weight. The Monitor uses the Perfection, Jr., plate-holder, which is the same plate-holder that is used with the Premo cameras, and is conceded to be the best holder on the market. Our cut shows the Monitor fully extended, when folded it is of the same appearance as the Universal.

This camera is supplied either with a long or a short canvas carrying-case. The long case holds the camera, six holders and combination tripod. The short case carries the camera and three holders. Prices include canvas carrying-case, one Perfection, Jr., plate-holder and combination tripod, but no lens.

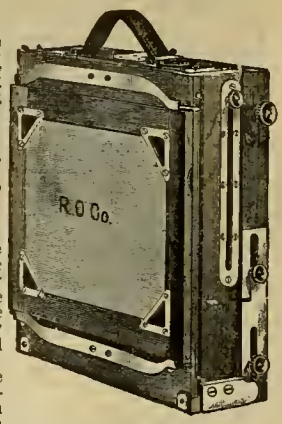
The Universal Camera. $23.80 to $72.25.

The Universal Camera is a modified English pattern and is the most compact Camera on the market.

The 6½x8½ size is but 2⅞ inches thick when folded, and weighs but 5¼ pounds.



It has an extra-long leather bellows, thus allowing the use of lenses of extreme length of focus, while wide-angle lenses may also be used. Owing to the extra length of bellows the camera may be used for copying and enlarging, if desired. In fact, it is as near a universal camera as can well be made.

The Universal is made from selected mahogany, highly polished, with lacquered brass trimmings.

The back is reversible, so that views may be made either horizontally or vertically, the change being effected in five seconds by simply reversing the back. While very compact the Universal is simple of manipulation, there being no loose screws or parts. It is set up by tightening four milled heads and is folded again by loosening the same number.

The Universal is made with both single and double swing; has swinging back and rising and falling front; has fine rack and pinion focus movement, and is provided with a leather handle, so that it may be carried without the case, if desired.

Our cut shows the Universal folded; when open it is of the same appearance as the Monitor No. 18800.

The price includes canvas carrying-case, one perfection plate-holder and combination tripod, but no lens.

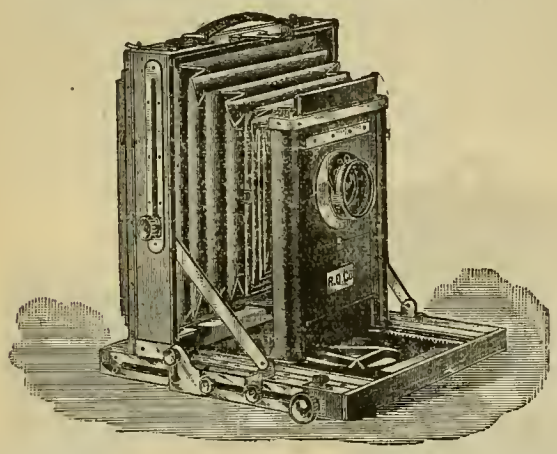
The Celebrated Carlton Cameras.

WONDERFUL BARGAINS AT $29.45 TO $51.10.



No. 18810 The Carlton Camera is without question the finest camera yet placed on the American market. **For the enthusiastic amateur and professional photographer who believes in having the very best of everything, the Carlton with its manifold features will be found to meet their views as the camera par excellence.** The Carlton is constructed upon the same general plan as the Universal, but, has the following points of superiority:

Forward movement of camera back. When extremely wide-angle lenses are employed with a compact camera, it sometimes happens that a portion of the bed of the camera is included in the picture. To prevent this the back of the Carlton can be moved forward, allowing the focus to be obtained with the lens entirely out of range with the bed.

No loose top for tripod. The bed of the Carlton carries its own tripod top, adapted to the Rochester Optical Co.'s combination tripod. The top, made of metal, is neatly fitted into the bed and **revolves easily** and with great smoothness, permitting the operator to adjust the camera in any direction. **The Carlton camera is made in double swing only.**

Our cut shows the Carlton open, with the back moved forward to accommodate a wide-angle lens. When closed it is of the same appearance as the Universal, and when fully extended it is of the same appearance as the Monitor.

PLATE HOLDERS.

In ordering plate holders always give the name and size of the camera for which the holders are wanted. We cannot fill an order without this information.

The Perfection Plate Holder.

No. 18850 The Perfection Plate Holder is the simplest and best plate holder ever placed on the market. To load this holder the end of the plate is held against the spring-bar at the end, and then by pressing this bar with the thumb the plate falls into place. As the plate is held in place by the ends only the full width is exposed and but ⅛ inch is cut from each end. The Perfection Plate Holder is made for use with the New Model, the New Model Improved, the New Model Stereoscopic, the Empire State, the Ideal, the Universal and the Carlton cameras.

No. 18850

No. 18853 "Sliding" Tripod. The legs are made in three pieces, which render the tripod firm when set up, and it has a special advantage over the folding tripod, as it is easier to level the camera in rough places by adjusting the length of the tripod legs. It can be set up or taken down very quickly. The tripod is of wood and has cloth-covered top, brass clamps, and is in every way a thoroughly well-made tripod.

No. 18855 "Combination" Tripod, with combined sliding and folding legs. This is one of the most convenient forms of tripod on the market. It is quickly set up for use and readily adjusted to any height. It has two joints, the lower section of which slides into the second, while the upper section folds back upon it. They are made of the best seasoned ash with fine brass trimmings, are perfectly rigid and durable; length when extended 59 inches, when closed 23¼ inches. The head is detachable from the legs.

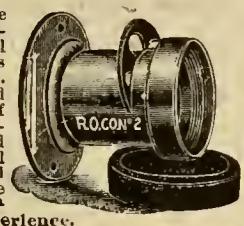
No. 18858 The "Premo" Tripod is designed especially for use with Premos or other hand cameras. It is the lightest and most compact form ever made, yet it is rigid and perfectly durable in all its parts. It is made with three joints. The lower section slides into the second, these two into the third, while the upper section folds back upon the third. By this means extreme compactness and portability are secured. It measures when closed but 16 inches and weighs but 14 ounces, including the aluminum top. Length when extended is 55 inches. It is quickly set up for use and readily adjusted. It is made from seasoned spruce and has handsome brass trimmings.

For 4x5 and 5x7 cameras, each.....$4.25

LENSES.

Our aim is to list a line of lenses which will meet with the requirements of the amateur as well as the professional. The selection of the lense is very important, inasmuch as the quality of the work depends largely on the quality of the lense used. A single-view lens will do work which will satisfy the average amateur when the conditions are favorable, but for fine work a rapid rectilinear lens should be used.

The Single View Lens.



No. 18870. The single view lens, although designed for landscape work, will make very good groups and even good portraits. It must be remembered that our descriptions of these lenses is from a professional standpoint, and that a single view lens will give results which will more than please those who have not had a considerable amount of experience.

No. 18873 The "Excelsior" Rapid Rectilinear Lens, will meet the wants of the amateur who desires a better lens than the single view lens, and yet at a moderate cost. They are perfectly rectilinear, have great depth of focus and flatness of field, giving brilliant definition. They will be found excellent for landscapes, architectural subjects as well as groups and portraits. They will be fitted with Waterhouse stops or with iris diaphrams. We confidently believe this lens to be the best value of any lens on the market, and equal to many lenses sold at a much higher price.

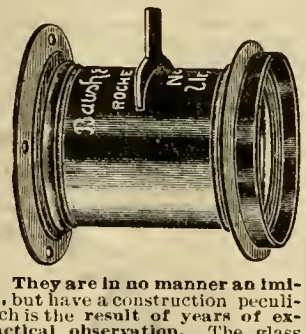
Rapid Universal Lens.



No. 18875 Bausch & Lomb Rapid Universal Lenses are among the best known on the American market, and have gained a popularity which we believe is beyond any of their class. They are of the rectilinear compound type, especially adapted to studio work as well as all kinds of outdoor photography. They are in no manner an imitation of any form, but have a construction peculiarly their own, which is the result of years of experiment and practical observation. The glass used in the lens is of unusual hardness and brilliancy with the practical advantage that the lenses are not liable to become scratched or undergo chemical changes. The mountings are of neat design, well finished and carefully centered. Every lens is supplied with morocco cap and eight stops, and fitted with iris diaphragms.

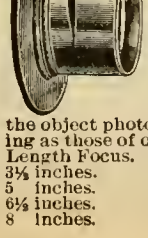
The Excelsior Wide Angle Lens.



No. 18877 The "Excelsior" Wide Angle Lens will be found as valuable for the character of work for which it is designed as the well known and popular rapid rectilinear series. They are adapted for interiors of buildings, landscapes and all work in confined situations where lenses of longer focus cannot well be used. All Wide Angle Excelsior Lenses have rotating diaphragms. They embrace an angle of 90 to 100 degrees, and admit of being much nearer to the object photographed, but are not so quick working as those of ordinary angles.

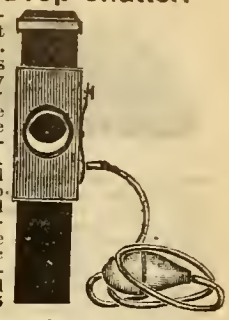
The Universal Drop Shutter.



No. 18880 The "Universal" is a very simple yet effective form of shutter. The slide when released falls of its own weight, and by the use of a rubber band any degree of rapidity may be obtained. The body of the shutter is made of mahogany and is very heavy. A thin strip of rubber is placed on the top of the shutter to lessen the concussion caused by the falling slide. Maximum opening 3 inches. Price with spring release.....85c

Price with buttons, pneumatic release bulb and tube.....$1.15

Universal Shutter for Stereoscopic Lenses.

No. 18883 This shutter is similar in construction to the universal drop shutter, except for two lenses, and as the slides move horizontally they are moved by a rubber band. Price, each.....$1.35

The Low "Kazoo" Shutter No. 1.

No. 18885. The Low "Kazoo" Shutter No. 1 is made of metal handsomely finished and nickel plated. It is provided with a spring back that will fit any size of lens tube, and is intended to be used on the front end of the lens. It can be instantly changed from time to instantaneous exposures by simply moving the small lever to one side. It gives the correct exposures and requires no setting after either time or instantaneous movement, as it sets itself after every exposure without opening the wings. It is one of the most desirable shutters on the market.

The Low "Kazoo" Shutter No. 2.

No. 18888 The Low "Kazoo" Shutter No. 2 is designed to be placed on the inside of the camera and attached to the front board. It can be operated entirely from the outside of the camera and at any distance away. It can be changed from time to instantaneous exposures by simply pushing in or pulling out a small brass pin which is passed through the front board and into the shutter. It will balance open for any length of time for focusing. It gives the correct exposures, lighting the drapery or foreground most.

Printing Frames.

No. 18900 Our printing frames will be found to be lighter than the ordinary frames, a feature which will be very much appreciated. They are very carefully made and well finished, and equally as serviceable as the heavier frames. When printing with film negatives a plain glass should be used on top of the film. The heavier frames can be furnished when desired at a slight advance.

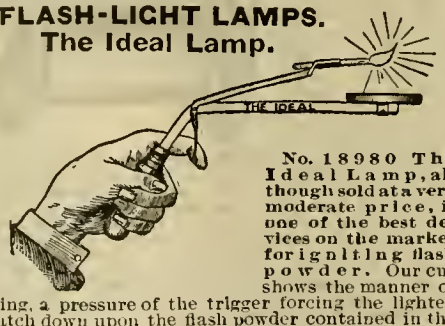
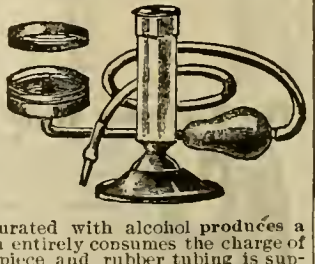
FLASH-LIGHT LAMPS. The Ideal Lamp.



No. 18980 The Ideal Lamp, although sold at a very moderate price, is one of the best devices on the market for igniting flash powder. Our cut shows the manner of using, a pressure of the trigger forcing the lighted match down upon the flash powder contained in the pan. **It is simple, safe and sure in its results.** Well made, of steel, nickle-plated, with rosewood handle. Price..... 70c

No. 18988 The "Perfection" Magazine Flash Lamp is one of the best yet produced for pure magnesium. The magazine, when loaded to its full capacity, **contains powder sufficient for 20 flashes.** An instantaneous flash or a continuous flame of light may be produced, thus making the length of exposure to suit the will of the operator. A piece of circular wick saturated with alcohol produces a large flame, which entirely consumes the charge of powder. A mouthpiece and rubber tubing is supplied with each lamp, but a bulb can be attached if preferred. **The Perfection lamp is easy of manipulation,** extremely simple, and the result produced will commend it to all. Price..... $1.75



NOTE—Pure magnesium only must be used with this lamp. The "flash-light powders," such as are used with the Ideal or James lamps, are very liable to produce an explosion with a magazine lamp.

For prices of flash-light powders and pure magnesium, see chemical list further on.

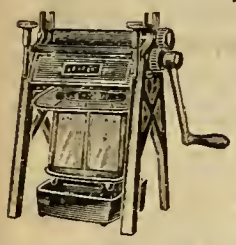
Burnishers.

The Sunshine Burnisher.

No. 19035 At last we are able to offer to our customers a thoroughly practical burnisher at a price within reach of the average amateur. Although sold for less than $5.00, the sunshine burnisher is thoroughly well made in every respect and is simple, clean, economical and safe. It requires neither oil, gas, nor gasoline, but is heated by an iron which is put into the fire and then into the lower roller. It will burnish from 20 to 30 photographs with one heating of the iron, and will burnish any size of picture up to 6½x8½. Your outfit is incomplete without a Sunshine Burnisher.

Price, only $4.75

The Model Duplex Burnisher.



No. 19038 This is a new machine built to meet the demand for a good double-roll burnisher in small sizes at lower prices than heretofore offered. It is well made in every detail. The top roll is hinged, and the pressure can be quickly and perfectly adjusted; does its work in a first-class manner. It will be furnished with either oil or gas heater at the same price. Be sure to state which is wanted when you order.

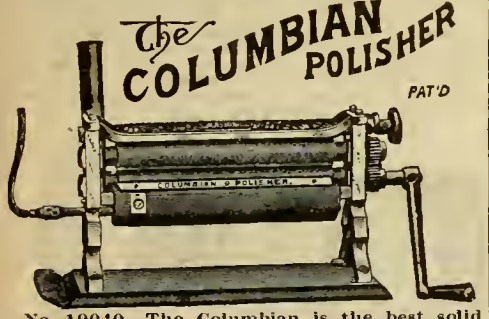
The cut shows burnisher with oil heater.



No. 19040 The Columbian is the best solid double roll two-cog burnisher ever produced. The rolls do not sweat and the heat is so confined that it does not inconvenience the operator. The fire-box for heating the lower roll is a new device with closed bottom and chimney attachment at the opposite end from the crank for conducting the surplus heat. These are the most important improvements for solid two-roll machines ever introduced and does away almost entirely with sweating. It will be furnished with either gasoline or gas heater, which will heat in about half the time required by the oil heater; is more powerful, cleaner, smokeless and in every way more satisfactory than oil. It has automatic spring above the bearings which makes the pressure always uniform and quickly adjusted with one hand wheel. This machine fills all requirements for the professional as well as the amateur.

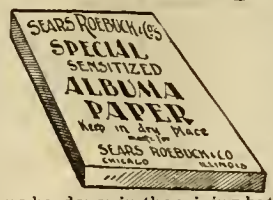
SENSITIZED PAPERS.

"Our Special" Aristotype Albuma Printing Paper.



No. 19125 This paper is the simplest working paper on the market and has many points of superiority over other papers. The film is insoluble, will not soften in warm water, tones in either combined or separate bath, and in any good alkaline bath requires no hardener in the mixing bath or at any other time during manipulation. It prints quickly and tones to any tint with clear whites. The superiority of this paper and the low price commends it to all.

Self-Toning Paper.

No. 19130 This new process paper greatly simplifies photography, and very little experience is required in order to produce beautiful pictures. All the toning is accomplished by the action of the light while printing, and after printing it is merely necessary to place the prints in a solution of hypo for a few minutes.

This paper yields a clear, brilliant, permanent picture. Although the price of the Self Toning paper is a little higher than "Our Special" Aristotype, it should be remembered that there are no expensive toning baths to be used.

Velox Paper.

No. 19135 The results obtained with this paper are remarkable for their beauty and combine the effects of platinum and carbon. It prints 500 times as rapidly as aristotype papers, and either daylight or artificial light may be used.

It takes but a few seconds for printing, a few seconds for developing, and then after fixing and washing the pictures are ready. The prints will remain flat without mounting and the paper does not spoil by age.

Prints made with Velox paper have the very beautiful and popular "matt surface" or "dull" finish, and do not require burnishing.

Printing with this paper may be done in the evening by lamplight, just as well as by sunlight.

Ferro-Prussiate or Blue Paper.

No. 19140 Blue Paper is very easy to manipulate, as it requires no toning. Prints can be made from it very rapidly and no chemicals are necessary. It is merely printed for about 10 minutes in the sunlight and then washed thoroughly in clean water. It will retain its sensitiveness longer than any other paper, and full instructions for working accompanies each package. It is a good paper for beginners for printing landscapes, etc. The prints are of a brilliant blue and white color. Put up in light proof packages of 24 sheets.

There are a number of different brands of Blue Paper on the market, some of which are very poor, and the brand which we are now handling was selected only after a very thorough investigation of every make. We guarantee our paper to be the best Blue Paper made.

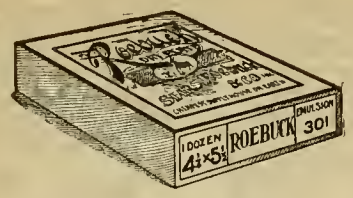
Dry Plates.



...THE ROEBUCK DRY PLATE...

This is the best dry plate ever placed upon the market, and as we have exclusive control of these plates we are able to offer them to our customers at prices much lower than are universally charged by others for far inferior plates. They are suitable for landscape work, portraits, interiors, flash-lights, snap shots, or instantaneous views, in fact for any purpose requiring a uniformly rapid and reliable plate. In brilliancy, detail, uniformity and rapidity the ROEBUCK PLATE is unsurpassed.

Photographic Chemicals.

Chemicals are bought and sold by avoirdupois weight, but mixed by apothecary's weight. In the avoirdupois weight there are 16 oz. to the pound and 437½ grs. to the ounce, while in apothecary's weight there are 12 oz. to the pound and 480 gr. to the ounce. Please remember that if you get but 437½ gr. of any chemical for an ounce it is not short weight, as all chemicals are bought and sold that way.

Developing and Printing Outfits.

For the benefit of those who are not familiar with photography we will say that a complete outfit for developing and finishing the pictures should consist of the following articles, in addition to the camera:

2 trays, 1 for developing and 1 for fixing negatives.
1 tray for toning prints.
1 ruby lamp.
1 graduate.
1 printing frame.
1 jar of paste.
1 paste brush.
1 bottle developer and 1 bottle of toning solution or chemicals for making same.
1 pound of hypo.

A sufficient supply of card mounts, dry plates, sensitized paper and book of instructions.

As all of these articles are listed in our catalogue in various sizes, grades and qualities, a suitable outfit may readily be selected. We can also furnish complete outfits of Our Own Selection, consisting of above articles (except the dry plates, card mounts, paste and paste brush) at following prices:

No. 19400	Outfits for pictures, 3¼ x 4¼ or smaller.....	$1.50
No. 19405	Outfits for pictures, 4x5.....	1.75
No. 19410	Outfits for pictures, 5 x 8 or 5x7.	3.50

Card Mounts.

Card Mounts are the cards on which the print is pasted after having been toned and finished. A photo is very much improved in appearance by a neat and pretty card mount. Card mounts are put up by the manufacturers in packages of 25 each, and we cannot sell less than that number. On Nos. 19425 to 19439 we give the outside measurement only. It will be necessary to order the cards a little larger than the prints you wish to mount. Photographers should use their own judgment as to the amount of margin, but it will be found that a liberal margin always looks best. Professionals are now leaving much larger margins than formerly.

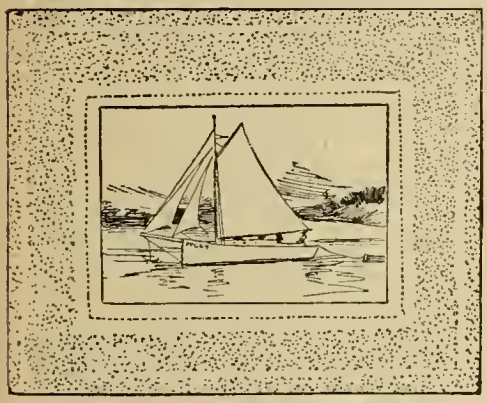
EMBOSSED BORDER CARD MOUNTS.



Embossed Border Cards are the latest and most stylish mount on the market. We furnish them in both gray and white. They have raised center with an embossed or matted border, are heavy and of fine quality and improved very largely the appearance of the pictures. This style card-mount is now being almost exclusively used by the leading professional photographers. We recommend the gray as being most desirable, as it is not easily soiled, and the tint seems to harmonize with the picture much better than the white. Try the gray and we believe you will be well pleased.

Albums.

No. 19500 These albums are designed especially for amateur photographers who desire a neat and convenient, but at the same time cheap, receptacle for their pictures. These albums do away with the necessity for mounting, as the leaves are so made that the unmounted pictures may be put in without pasting. Nothing is more acceptable as a gift than a collection of your choicest prints in one of these tasty albums. Made in either cloth or leather binding and in two sizes for 12 or 24 pictures.

MAGIC LANTERNS.

The Magic Lantern is an optical instrument by which transparent views made on small plates of glass are illuminated by means of condensed light, and are projected on the surface of the wall or screen, and thus made visible as enlarged images, and may be viewed by large crowds of spectators. The origin of the Magic Lantern, like that of many other useful inventions is unknown. It has been claimed that the priests of ancient Egypt used such instruments to further mystify their religion. The first authentic account of them dates back about 300 years, and even though they must at that time have been a very rude and primitive affair, the revelations appeared so marvelous to the uneducated people of that period that the instrument was named "Magic Lantern." For centuries afterwards it was regarded as a toy for the amusement of children, but eventually its value as an educational adjunct and a source of intelligent entertainment was recognized, which has resulted in the perfecting of the apparatus, until now the Magic Lantern has been elevated to the position of a scientific and popular instrument of vast and varied utility.

TERMS OF SHIPMENT Magic Lanterns, Slides, etc., will be sent C. O. D., when desired. Orders amounting to $15.00 or less will be sent on receipt of $1.00 with order as guarantee of good faith. With orders amounting to over $15.00 will require $2.00 with the order. **Magic Lanterns cannot be returned for exchange** after they have been used, for even though they have been used but little they are second-hand, and we have no means of disposing of second-hand goods. This rule, however, does not refer to any goods which might be defective. We guarantee all of our goods to give entire satisfaction. **We recommend that you send cash in full with your order** and save the return charges on the money.

JUVENILE MAGIC LANTERNS AND OUTFITS.

We believe that money cannot be spent to better advantage for the amusement of children than for a Magic Lantern and outfit. They derive a great deal of pleasure from giving Magic Lantern exhibitions, posting circulars, and all the detail connected with an amateur entertainment.

"Brilliant" Magic Lantern Slides.

No. 19660 The cheapest outfit of slides for amateurs' lanterns on the market. These are transparencies printed on mica, giving a class of pictures never before offered in anything but high-priced slides; they are two inches wide, substantially bound with paper and so perfectly transparent that low-priced lanterns will show them up with a great brilliancy. They can be used in any lanterns that will take slides two inches in diameter or larger, but when used with larger lanterns they must be used with a carrier, which can easily be made of pasteboard or light wood, so as to center them before the lenses. Each series consists of 12 slides, with three pictures on each slide, making 36 views in all.

Series A—Noted places around the World, 36 views, per set.....50c
Series M—American and Foreign Scenery, 36 views, per set.....50c
Series H—Bible Views, spirited drawings from the old and new testaments, 36 views, per set.....50c

PROFESSIONAL MAGIC LANTERNS

Magic Lanterns are now being used for the purpose of illustrating lectures, showing up foreign and domestic scenery, by Sunday schools, for illustrating Bible scenes, by secret societies for illustrating the different signs of the order together with the history of the same, by colleges for illustrating scenic views, microscopic pictures, by both the amateur and professional theatrical companies and in fact its use is almost unlimited. There is in every locality an opening for some one to do a good business in giving exhibitions in the way of public entertainments to Sunday schools, churches, families, etc. They are usually given on the shares for the use of the hall, church or Sunday-school room. There is practically no expense connected with the business, and it is very remunerative.

....AS A MEANS OF....

RAISING FUNDS

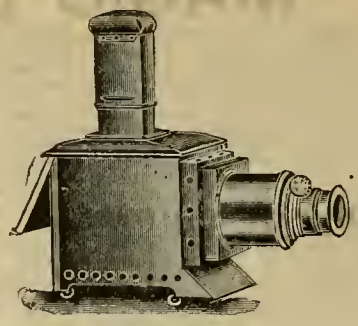
For Churches, Sunday Schools, &c.,

we know of no better method than by giving magic lantern exhibitions, and the nature of the views used can be strictly in accordance with the ideas of the congregation.

We are at all times ready to give suggestions or information to those about to engage in the business, and all questions will be cheerfully answered by a thoroughly competent person.

All professional lanterns are quoted without slides. Slides must be purchased extra, and will be found listed after the magic lanterns.

The Imperial Scopticon.



No. 19684

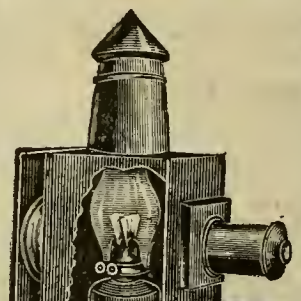
.....IS MADE OF.....

RUSSIAN SHEET IRON. HAS EXTENSION FRONTS WITH BRASS HOODS WHICH SHUT OFF ALL REFLECTED AND DIFFUSED LIGHT.....

No. 19684 Spring clip for holding carrier with slide, patent Tri-unial lamp, the light of which is intensely white, the flame is regulated by an opening in the rear of the lantern through a tinted glass, which avoids confusing the sight, giving a picture about 10 feet in diameter. Has fine achromatic objective lenses, with rack and pinion for adjustment of focus; a pair of 4-inch plano-convex condensing lenses mounted in brass, adjusted to heat and cold (contraction and expansion). Packed in a neat Russian sheet iron case, which can be used as a stand for the lantern. Price, complete without views.....$20.00

NOTE.—The above lantern can be furnished in matched pairs for dissolving views if desired.
PRICES QUOTED ON APPLICATION.

The Duplex Magic Lantern for $9.50.



No. 19674 The Duplex Lantern, while low in price, combines good quality and simplicity in construction. It is made of metal, with japanned body, 6x8 inches square and is mounted on a neat walnut base 7x14 inches. It is provided with an improved duplex lamp, using kerosene oil, and one first quality 3½-inch plano-convex condensing lens. One first quality double object glass which will admit any of the standard size professional slides listed further on and will enlarge the slides to 5 feet in diameter. Price, complete without slides.....$9.50

No. 19676 A pair of No. 19674 lanterns arranged together on one large base for dissolving views. Price, complete.....$19.50

A dissolving view apparatus consists of two magic lanterns similar in construction, magnifying power, etc., and so placed that the views projected from both will cover exactly the same disc on the screen. By simple device which is furnished with the lantern and called a dissolver the views proceeding from one lantern is gradually blended or dissolved into that proceeding from the other lantern; one view fades away and the other replaces it, the screen never being vacant and no handling of the views being perceived by the audience.

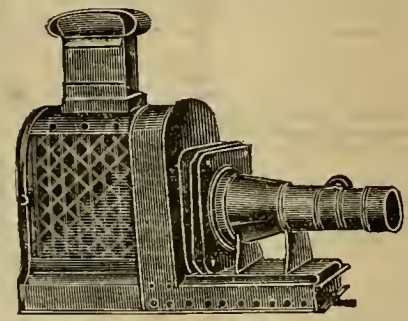
The Ajax Magic Lantern for $14.70.

No. 19678 Ajax Magic Lantern, is made of sheet iron; has a pair of 4-inch plano-convex condensing lenses mounted in a cell; has achromatic object lenses, with rack and pinions for adjustment of focus, first quality three-wick lamp, sheet iron carrying-case; is good quality throughout and will give excellent satisfaction. Complete without views, $14.70

The Peerless Sciopticon with Peerless Tri-Unial Lamp

$27.50 Buys a Regular $50.00 Machine.

You will find our Instruments superior to anything found elsewhere at anything like the price.



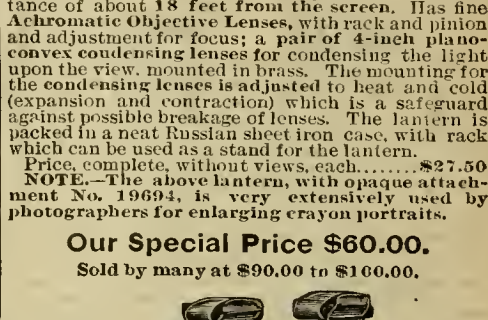
No. 19690 A most excellent lamp for public entertainment, army posts, societies, Sunday schools, etc. The Peerless is made of Russian sheet iron, has double body—the outer one being perforated to avoid heating. Extension front, with nickel plated hood which shuts off all diffused light, spring clip for holding carrier for slide; has patent tri-unial lamp—the light of which is intensely white. The flame is regulated by an opening in the rear of the lantern—through a tinted glass—which avoids confusing the eyesight, and gives a uniform 10-foot sharp cut picture at a distance of about 18 feet from the screen. Has fine Achromatic Objective Lenses, with rack and pinion and adjustment for focus; a pair of 4-inch plano-convex condensing lenses for condensing the light upon the view, mounted in brass. The mounting for the condensing lenses is adjusted to heat and cold (expansion and contraction) which is a safeguard against possible breakage of lenses. The lantern is packed in a neat Russian sheet iron case, with rack which can be used as a stand for the lantern.

Price, complete, without views, each.....$27.50

NOTE.—The above lantern, with opaque attachment No. 19694, is very extensively used by photographers for enlarging crayon portraits.

Our Special Price $60.00.

Sold by many at $90.00 to $100.00.



No. 19692 A Pair of Peerless Sciopticons, with tri-unial lamps mounted on wooden platform, with dissolving apparatus for dissolving views.

Price, complete.....$60.00

For explanation of dissolving view apparatus, see note following No. 19702.

Opaque Attachment.

No. 19694 A newly constructed apparatus which makes a very excellent accessory to lantern No. 19690, for parlor entertainments and class instructions; also for artists' use for enlarging photographs to life size, for crayon and portrait drawing; also for architects, draughtsmen and civil engineers. For obtaining working drawings of increased size, engravings, illustrations, watch movements, coins, medals, flowers, etc., can be shown, affording an inexhaustible source of enjoyment. This is done by reflected light from the object, but does not, however, equal in brilliancy that of the transparent glass magic lantern views. Price, each.....$4.75

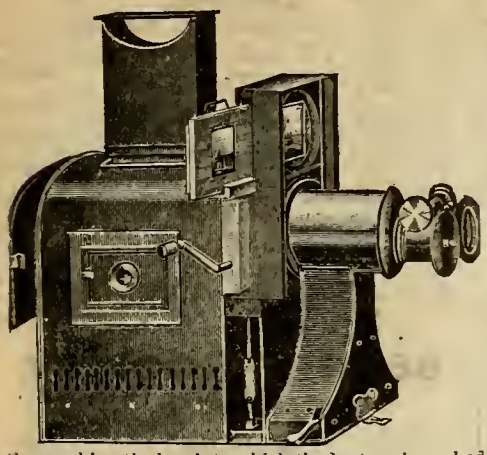
MOST COMPLETE LINE OF MONEY MAKING ENTERTAINMENT OUTFITS EVER OFFERED....

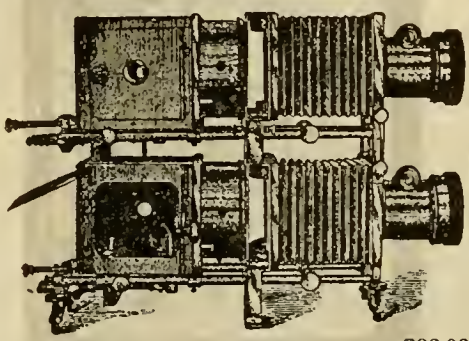
Our $43.65 Highest Grade Magic Lantern.



No. 19698 The Metamorphoser, a new patented lantern by which are produced dissolving effects from the one single lantern. This effect is accomplished by means of a double carrier which works vertically—changing one view for the other—without any interval between, and is operated by means of a lever. This enables one view after another to be shown, thus dispensing with the unsightly disc of light seen on the screen while changing the slides in an ordinary lantern.

The body of the lantern is made entirely of Russian iron and riveted throughout with copper rivets, and the front tube and sliding O. G. tube for the lenses of solid brass beautifully finished and lacquered. The lantern is fitted with a 4-inch compound condensing lens mounted in a brass cell (two piano-convex lenses) and a one-fourth plate portrait lens front with specially large sized lenses in the back combination (thus giving greater light) and has double pinion to the rack attachment. It has also a high-grade 4-wick lamp with wicks 2 inches wide (placed to form two wedges like the letter "W" inverted (M) thus preventing the flicker of the wicks seen on the screen when they are parallel to one another) and the tail-jointed Russian iron chimney with a large oil can and filler; the oil can when not in use fits into the chimney, and the chimney then slides into the lantern body underneath the lamp, thus making the box into which the lantern is packed as small as possible. (Size, 6x11½x15 inches.) Price for this most excellent lantern complete, without views. **No. 19698** Each.....**$43.65**

$98.00 BUYS A REGULAR $150.00 STEREOPTICON.



No. 19702 Our Special Stereopticon with lime light apparatus for using hydro-oxygen gases. (Can also be used with lamps.) In response to the general demand for a cheap instrument for use with hydro-oxygen gasses we have been induced to make special arrangements whereby we could furnish our patrons with an apparatus not only for less money than they have heretofore been sold, but one which we could guarantee in every respect.

In Our Special Stereopticon we have included all of the good features of the high-grade instruments and are in a position to offer an outfit which we guarantee to give entire satisfaction. One of the special features of this lantern is the leather bellows with the sliding telescope frame arrangement, which enables the lantern to be packed in a very small space. It has 4¼-inch condensing lenses of the best grade. The objective or front lenses are made by Darlot, of Paris. The jets are of brass with stop cocks and mechanical lime movement for revolving the limes.

Price complete, including medium pressure dissolving key for using gases from bags.....**$98.00**

NOTE.—In the above lantern the dissolving effect is accomplished with the dissolving key which gradually extinguishes the light from one lantern while the light in the other lantern at the same time develops until one has been so far extinguished that only a blue flame remains, which gives no light and the other is turned on in full.

Gas-Making Outfit.

No. 19710 For a complete gas-making apparatus including bags for holding the gases, the generating outfit, etc., ready for use, add to the price of special stereopticon No. 19702, **$65.00**. The production of gas for these outfits is very simple and costs but a few cents for the light for an evening's entertainment. The light from a gas outfit is intensely white and approaches nearest in intensity to an electric arc light.

Lime light is used almost exclusively in the fancy stage effects in the theatres.

Condensing Lenses for Magic Lanterns.

Condensing lenses are those which are used between the light and the view for condensing the light for the purpose of increasing the intensity.

Book of the Lantern.

No. 19745 This book is a very valuable assistant to anyone expecting to engage in the business or giving magic lantern entertainments. It gives full and precise directions for making and coloring lantern slides and manipulating the magic lantern, the size, appearance and value of the different lenses, both condensing and objective in a business like way without being superficial. The book is written in such a way as to interest those who have a slight knowledge of the subject and without being too technical it gives a practical explanation of the minute details of construction and operation.

Gem Slides.

The regular size of slides for use in the Standard Magic Lantern is 3¼x4 inches, one view on each slide; but we have recently made arrangements whereby we are able to offer a very desirable collection of slides, known as the Gem Slides, which have three views on each slide, and we can sell the slides at 25 cents each. This reduces the price of each view to 8⅓ cents, while the regular slides cost 37 cents for each view. The Gem Slides are 2½ inches wide by 8 inches long, and each slide has three views each, 2 inches in diameter. The quality of the views is beyond question and they will make a picture on a screen two-thirds as large as the regular 3¼x4-inch slides, and they are suitable for use in any lantern having a slide stage not less than the width of the slide which is 2¼ inches.

The list of Gem Slides comprises illustrations from Natural Scenery, History, Comic, Statuary, Temperance, the Biblo, Anatomy, Astronomy, etc., topics of educational and special interest. They appeal particularly to lantern exhibitors who do not aspire to exhibiting on a large scale, to schools, Sunday schools, amateurs and the home circle. We cannot guarantee the price to remain at 25 cents; it is liable to advance at any time.

We quote herewith a list with abridged descriptions of the Gem Slides.

Chromatropes or Artificial Fireworks.

These slides are singularly curious, the effect being very similar to that of the kaleidoscope. The pictures are produced by brilliant designs painted upon two circular glasses, and the glasses made to rotate in different directions. An endless variety of changes in the patterns are caused by turning the wheel—sometimes slowly, then quickly—backward and forward. Size, 4 inches wide.

It has been demonstrated to us that the public entertainment business is a very profitable field and an opportunity for making big money with a very small amount invested, but it seems that there has been but a very limited amount of energy expended in this direction owing to the lack of knowledge as to what is required to complete a suitable outfit for public entertainment, and more important still, how to start the work successfully. With these conditions prominently in sight, we have made a special effort and are glad to be able to inform our patrons that we have made everything connected with the work so simple that anyone can understand it.

Not only have we in this department made up Complete Entertainment Outfits, including advertising matter, admission tickets and everything necessary to carry on a successful and big money making enterprise, but we furnish with each outfit a book of instructions which tells in the plainest and most simple way how to handle the outfits, how to advertise, how to secure the use of halls, churches, opera houses and everything that is necessary for the exhibitor to know or that would contribute to his success.

THIS SPECIAL DEPARTMENT is in charge of an expert, who is constantly in communication with exhibitors all over the country, and while everything has been made very plain and treated in full in the instruction book, he will take pleasure in advising anyone who has purchased his outfit of us, or in answering any questions from those who are anticipating the purchase of an outfit. If there is anything you would like to know, do not fail to write us, as we may be the means of starting you in a successful, strictly honorable and big money making business.

THE QUALITY OF THE GOODS listed in this department is the very best made. This is absolutely necessary for we wish to leave nothing undone that would contribute to the success of our patrons, for certainly our success depends on theirs.

WE FULLY GUARANTEE the quality of everything we sell in this line and if on receipt of the goods they are not found to be exactly as represented, they can be returned to us and all money paid will be cheerfully refunded. OUR PRICES ARE THE LOWEST at which first-class goods in this line have ever been sold. In fact, some of our outfits are sold at about one-half of the prices at which similar goods are sold by some of the oldest houses in this line of business. Dealers in this class of goods have been educated to very large profits and on that basis they are content with a small number of sales, but with small sales they must buy in small quantities for which reason they pay for some of their goods nearly twice what we do. WE CONTRACT FOR LARGE QUANTITIES of these goods and are thus enabled to purchase at the lowest prices and as we are satisfied with the smallest possible margin for profit, it can be plainly seen why we can undersell other dealers. A comparison of our goods and prices with those of other houses will demonstrate to those who are familar with the goods what a great amount of money we can save for them, but we want it borne in mind at all times that we are in competition only with first-class goods. Goods of inferior quality in this line are dear at any price; in fact, they are practically worthless, as they will disappoint the patrons of the entertainment and discourage the exhibitor.

OUR VERY LIBERAL TERMS. We are always glad to ship any goods in this line C. O. D., subject to a thorough examination before paying for same, provided the required deposit is sent with order as a guarantee of good faith, $1.00 required on orders up to $15.00. $2.00 on larger orders. If, after a thorough examination, the goods are not found to be exactly as represented they can be returned to us and the money deposited will be promptly refunded.

ADVANTAGES OF SENDING CASH WITH ORDER. When cash in full accompanies the order the customer saves not only the express company's charges for collection and return of money, but also the trouble of unpacking and examining the outfit or goods at the express office or railroad station is avoided. The outfit can be thoroughly examined at home and if everything is not found to be exactly as represented and a big money making opportunity they can be returned and all money paid to us will be cheerfully refunded.

AS TO OUR RELIABILITY, HOW TO SEND MONEY, ETC., SEE THE FRONT PAGES OF THIS BOOK.

GRAPHOPHONE TALKING MACHINES.

Buy goods of this class only of a concern that has an established reputation and then you can depend on getting goods of the best quality. Goods in this line that are of poor quality are worthless and dear at any price. Toys are advertised by many concerns in this line and are described as first-class goods. The only way that you can depend on getting value for your money is to buy of a reliable concern that is financially responsible and has an established reputation.

THE GRAPHOPHONE OR TALKING MACHINE

as a money maker or as a home entertainer has no equal. It is one of the most wonderful of all inventions, and yet its construction is so extremely simple that it causes the observer to wonder that its basic principle did not lead to its discovery long ago. Until recently the Graphophone has been sold at such extremely high prices that it did not come within reach of the average individual and could be seen on exhibition in the large cities only, or with the large traveling shows.

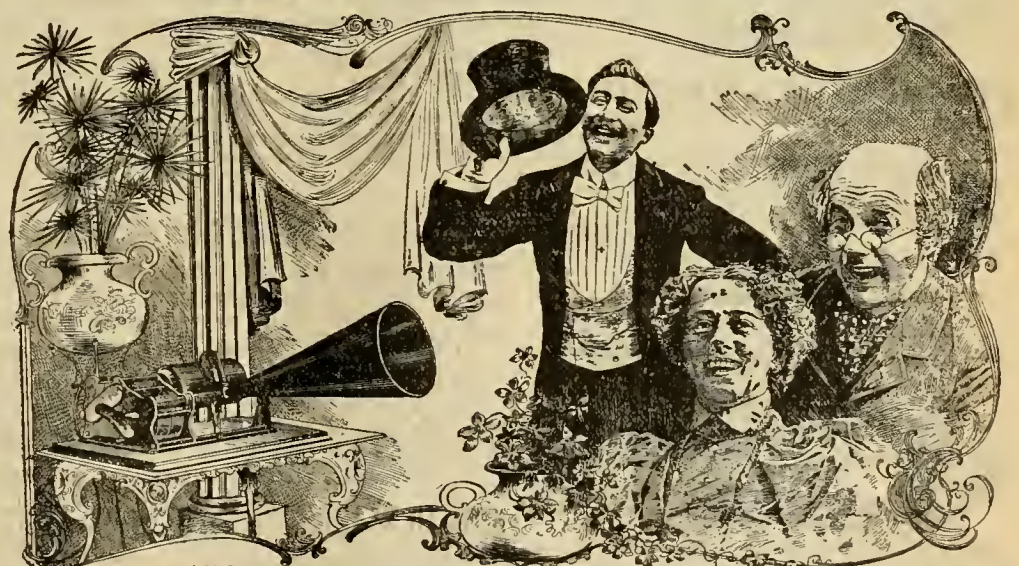
NOW ALL IS CHANGED. Recent improvements, simplicity of construction, replacing the expensive electric motors with the simple but practical spring motor, automatic machinery for their manufacture, making them in very large quantities, etc., has enabled us to make arrangements with the manufacturers whereby we can now offer this most wonderful little machine, complete with all the necessary accessories, which not only brings them within easy reach of those of small means, who wish to give public entertainments, but can be owned by almost any family as a source of home amusement.

..FOR HOME AMUSEMENT..

there is nothing which can equal a Graphophone outfit. It is a delight in the household; affording pleasures of such variety that one never grows weary of them. Its matchless qualities as an entertainer are daily becoming better understood and appreciated. No evening at home need ever be dull if the home is provided with a Graphophone and the entertaining of friends is made easy with its assistance.

THEY REPRODUCE WITH STARTLING ACCURACY the productions of the most noted bands, orchestras, vocalists, public speakers and the songs, music or conversation of self or friends. The performances of the Graphophone are not confined to the reproduction of regular factory-made records, but will reproduce any words spoken to it, or song sung to it and such records may be preserved and reproduced at any time. It will reproduce the voice so distinctly that it can be recognized by those who are familiar with it. By the use of ear tubes the sounds will be audible only to those who have the tubes placed at their ears, but by using the concert horns they can be distinctly heard to the remote corners of large halls.

THE GRAPHOPHONE AS A HOME ENTERTAINER.



Copyrighted.

A WONDERFUL INVENVTION AND THE MOST ENTERTAINING INSTRUMENT EVER INTRODUCED.

IT TALKS--IT LAUGHS--IT PLAYS--IT SINGS.

AS A MONEY MAKER the Graphophone Talking Machine offers exceptional advantages, as a big business can be done on a very small investment. Arrangements can be made with public halls, churches, school houses, etc., for the use of the same for public entertainments by giving a share of the receipts. A small admission can be charged, and as there is absolutely no expense (except for traveling) all is clear profit. By having 50 or more records exhibitions can often be profitably given in the same place two or more nights in succession. The records are practically indestructible, and with fair usage will last an indefinite length of time. In the descriptions of the different instruments we will try to make everything as plain as possible, but if there is anything that you do not thoroughly understand, do not hesitate to write us, and we gladly undertake to give you the information you desire.

As a Money Maker or Home Entertainer it has no equal. IT PLAYS MUSIC, IT SINGS, IT TALKS, IT LAUGHS. Its music, both instrumental and vocal, is reproduced with all the beautiful expression and melody, as only the best and most noted bands, orchestras and singers can render them. Its imitation of the human voice is so perfect as to deceive almost anyone. With the addition of a recorder YOU CAN PLAY, SING OR TALK to the Graphophone and it will record and reproduce the same as many times as desired. In your own home you can hear with the most life-like expression such noted speakers as McKinley, Bryan, Gladstone, Depew, and others; such noted bands as Sousa's, Gilmore's, and others; such noted singers as Silas Leechman, Dan W. Quinn, Geo. J. Gaskin and others; in fact everything of interest as heard in large cities in Europe and America can be reproduced on the Graphophone.

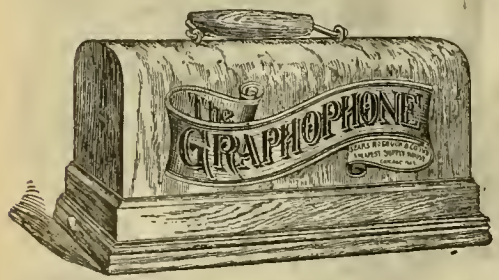
Includes everything needed for public entertainments, everything ready to go to work at once.

$23.75



No. 21001 Gem Graphophone with oak carrying case.

THE $23.75 OUTFIT boxed ready for shipment weighs about 65 pounds. Either the machines or outfits will be sent C. O. D., if desired, on receipt of small cash deposit with order.

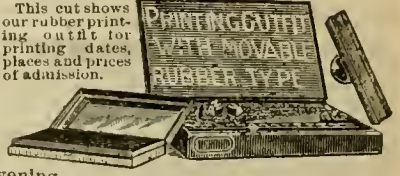
THE CONCERT HORN is used in giving public entertainments in halls, opera houses, churches and for home amusement.

THE HEARING TUBES are used in giving private exhibitions in hotels, about the depots and other similar public places. By the use of the hearing tubes only those who pay can hear.

THE RUBBER PRINTING OUTFIT is a very great convenience, as it includes a complete set of movable rubber type with which the exhibitor can fill in the name of the hall, opera house or church where the exhibition is to be given, the date, hour the performance will begin, the prices of admission, etc.

Size of type case 4x7¼ inches, length of type holder 6 inches.

This cut shows our rubber printing outfit for printing dates, places and prices of admission.



HOW TO START. After the outfit is received engage a hall, put up the advertising posters in public places; during the day exhibit the Talking Machine with private exhibition hearing tubes, in hotels and other public places, and the hall can be filled the first evening.

FOR $1.00 CASH or, with order we will ship either of the above Graphophones C. O. D., when desired; or the complete $23.75 outfit for $2.00 cash with order. The balance and express charges can be paid at the express office after the goods have been thoroughly examined. DON'T PUT THIS OFF ONE DAY, BUT ORDER AT ONCE. It is an easy matter to make from $5.00 to $25.00 every evening with this outfit. We have received several hundreds of testimonial letters from exhibitors who have purchased outfits of us and who tell us how successful they have been in their exhibition work, copies of some testimonials appear on page 211, others will be mailed on application.

ADVERTISING POSTERS AND ADMISSION TICKETS. We can furnish combination advertising posters, illustrated with appropriate and very attractive engravings, also admission tickets, instead of the Graphophone posters alone, to exhibitors who have also purchased of us a Klondike or Cuban Lecture or a Moving-Picture Outfit; we have them representing a combination of either two or all three. Sample posters and tickets will be furnished on application.

THE SELECTION OF RECORDS should be left, so far as possible, to us, for with our experience and knowledge we can, as a rule, make better selection than the purchaser.

If you will leave the selection of the records to us we believe you would be more than pleased with our choice.

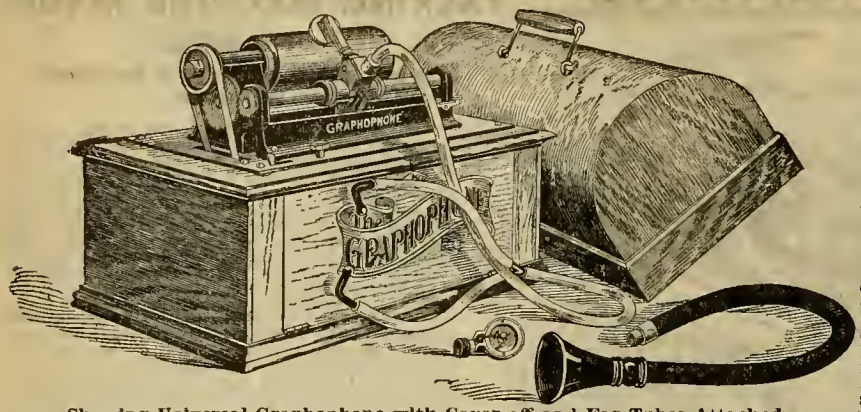
The Universal Graphophone

FOR CORRESPONDENCE WORK, HOME ENTERTAINMENTS AND PUBLIC EXHIBITIONS.

Price $50.00



Showing Universal Graphophone with Cover off and Ear Tubes Attached.

The UNIVERSAL GRAPHOPHONE is so named because it is adapted to any use. It is designed to serve the business man as an assistant in correspondence work, but at the same time it can be used for home entertainment or public exhibition work.

It can be furnished with either a long running spring clock work motor or with an electric motor. **The spring clock work motor** is made in the best possible manner, is fitted with a double main spring and will run for one hour with one winding. This feature makes this graphophone very desirable for use where an incandescent electric light circuit is inaccessible, and is usually much more desirable than a storage battery system. A machine equipped with a spring motor is not dependent upon electric wires or batteries of any kind.

The Spring Motor wound in the morning will run a Graphophone long enough to do all of the days work of an ordinary office. If more service is required of it, it is only the matter of a minutes time to wind it again. The machine is compact enough to be easily carried from place to place and will occupy but little room on a desk or typewriter table.

Where connections can conveniently be made with incandescent electric light lines, an electric light motor is very convenient, as it has only to be attached to the electric light wire and thereafter needs very little attention. As some prefer the electric motors, and as incandescent electric light wires are not everywhere available for such use, electric storage batteries of power sufficient to run the motors for a long time without recharging can be provided. Where storage batteries are used, it is well to have two, so that one will always be ready for use. Storage batteries require recharging after having been in use about seventy-five hours, and they must be sent to an electric light plant to be recharged. The usual cost for recharging storage batteries is $1.00.

The Universal Graphophone is equipped with all of the very latest improvements, and is, without any question, not only the best machine for correspondence work, but is first class for either home entertainment or exhibition work.

A feature of the new model Universal Graphophone is that it has a fixed mandrill of such size as to permit the use of the machine when so desired for amusement purposes, as the music records and other cylinders manufactured for entertainment purposes can be easily operated on it.

Another new device is a small arm or button at the end of the mandrill, which securely locks the cylinder in place, prevents it from slipping and does away with this annoyance, sometimes experienced by users of the talking machine.

For correspondence work it uses the new 6-inch cylinder, of special design for commercial use. It has an outer circumference of seven inches, affording a dictating surface of forty-two inches; capable of recording 1,200 or more words at each use, according to the rate of dictation. These cylinders are listed at 40 cents each, and as the cylinder can be pared and used 100 times or more, it can be readily calculated that the actual daily expense of the Graphophone is trifling. The cylinders are longer and larger than those heretofore supplied for the dictation Graphophones, and afford additional surface for dictation. One cylinder will hold from four to eight letters of average length.

The Motor on either the electric or spring motor Graphophones is controlled by turning a switch, and the machine is so arranged that when the motor starts, the cylinder does not revolve until the starting button is pressed. The mechanism that controls the revolution of the cylinder is governed by two buttons, one marked "On" and the other marked "Off." If the user wants to pause to think of a word or two to compose a sentence, he can stop the cylinder instantly at any point without stopping the motor, and can start it when he is ready again.

It requires but a few minutes for the dictator to become thoroughly familiar with, and to learn the operation of the machine to accommodate it to his pauses, and the use of the Graphophone soon becomes a great delight.

Dictating to the Graphophone.

The merchant who uses a Graphophone will find that he can give much more attention to the supervision of his store, because he will finish his mornings mail much more quickly and with much less wear and tear on the nerves. The Stenographic Reporter finds in the Graphophone an invaluable assistant. The corps of reporters in the United States Senate and in the House of Representatives, use sixteen Graphophones to aid them in getting out their reports of debates. With the help of the Graphophones, into which they dictate from their own notes, they are enabled to complete the report of each days debate almost as soon as the debate is ended. Formerly this work was done by stenographers copying on the typewriter from the notes, which consumed much valuable time.

A large per cent. of the best and largest concerns doing business in Chicago, and other large cities, use the Graphophone in their correspondence work. **We use in our own establishment, for our dictation work, thirty-six of the dictation Graphophones.**

The price of the Commercial Graphophone for dictation work is equal to about a month's salary for a stenographer. With the use of the Graphophone, the only help necessary is some one who can operate the typewriter. The occasional supply of new cylinders will be about equal to the cost of books for dictation. **The Graphophone is tireless and is always ready.** You can dictate to it at any time of the day or night and in absolute privacy if you desire. Many merchants through pressure of business during the day, find it a great convenience to do their correspondence work at night, and the use of the Graphophone affords them such an opportunity, as the correspondence may be dictated and transcribed the next day or at any time thereafter. The Graphophone never misunderstands you. It records your work with photographic accuracy. You can dictate as fast as you desire, and so long as you articulate your words distinctly, it will be easy to understand. It never disconcerts you by some interruption in the middle of a sentence. Its use not only dispenses with expert stenographic help, but also dispenses with the time consumed in taking dictation. A few minutes attention is enough to enable one to operate perfectly the Commercial Graphophone, which is extremely simple in mechanism.

In dictating to the machine the user holds the mouth piece of the speaking tube to his mouth, keeping it just far enough away from the lips to permit distinct speaking. **The transcriber** in writing from the cylinders, allows the tips of the tubes to remain hanging in the ears; the machine is started and when a sentence or the part of a sentence has been reproduced, the Graphophone is stopped, and whatever has been spoken is written with the typewriter. This finished, the machine is again started, and so on through the entire cylinder.

The Universal Shaving Device can be furnished for this machine, and by its use, cylinders that have been dictated upon can be shaved off and made ready for other dictation. In this way the cylinders can be pared and used 100 times or more. The Shaving Device is furnished with a sapphire cutter, which gives the cylinder a very smooth and fine surface.

Taking the Letters from the Graphophone and Transcribing Them on a Typewriter.

Musical or Talking Records for any of the Graphophones or Phonographs can be used on this machine.

Full and complete instructions accompany each machine.

The Universal Graphophone, at the prices listed, include the following: One Recording Diaphragm, one Reproducing Diaphragm, one Detachable Crank, one Flexible Speaking Tube for dictation work, and one set of Ear Tubes for Transcriber.

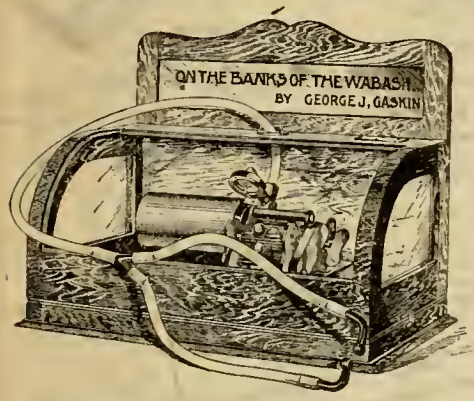
Spring Motor Coin-in-the-Slot GRAPHOPHONE TALKING-MACHINE

For $20.00 Former prices, $50.00 to $75.00.

THE AUTOMATIC MONEY-MAKER.

Furnished for either Pennies or 5 Cent Pieces.



No. 21017 Price, with Hearing Tubes for one person, complete.....$20.00

THE CASE... Is made of oak, beautifully finished and polished, and has glass paneled front so the operation of the machine can be plainly seen, but cannot be heard, except by those who pay, when the ear tubes are used. The style and material of the case is liable to be changed at any time, but whatever is done in this way will be in the line of improvement. A horn can also be used when desired. It is provided with lock and key, so that only those in charge can open the case or cash box, and a sign frame for holding cards announcing the selection the machine will play.

THE COIN-IN-THE-SLOT MACHINE is the most simple that has ever been used, and with reasonable care cannot get out of order. Extreme height of case, 11 inches; width, 15 inches; glass panel, 12 inches. Automatic in its action. All you have to do is to drop the coin, wind the crank, put the tubes to your ears and it does the rest.

Both the material and dimensions of case are liable to be changed in the near future.

A GREAT MONEY MAKER FOR STORES, SALOONS, RAILROAD DEPOTS, OFFICES AND ANY OTHER PUBLIC PLACES.

It takes in the money all day and evening, and requires no attention from the owner except to collect the cash every few days.

NO BETTER PAYING INVESTMENT can be made than to invest in a few of these machines and put them into stores and other public places on the shares, giving the proprietor of the premises 25 per cent of the receipts, which is customary, for his share. The owner of the instruments can go on with his regular duties during the day and he can successfully conduct two different enterprises in this way.

THIS IS NO EXPERIMENT but is being done every day by enterprising men all over the country, many of whom are devoting their entire time to it.

THE GRAPHOPHONE is usually purchased by the owner of the store after he sees what a money maker it is and how it has increased his sales by reason of attracting the crowds to his place of business.

MANY OPEN TALKING-MACHINE PARLORS by renting a small vacant store and placing several coin-in-the-slot graphophones in the room, and remain there for several months if the town is small or permanently if the town is large.

THE MONEY THERE IS IN IT is demonstrated by the fact that several Talking-Machine Parlors have been running in this city for the past three years, in stores on the best business streets, where they pay a rental of from $125.00 to $500.00 per month for the store only, and still they make big profits. One of the smallest parlors we know of the proprietor tells us has made clear for him $3,000.00 per year.

OUR LIBERAL TERMS The Coin-in-the-Slot Graphophones will be shipped C. O. D., subject to a thorough examination, on receipt of a deposit of $2.00, to most states this side of the Rocky Mountains, but beyond a deposit of $5.00 will be required.

THE COIN-IN-THE-SLOT GRAPHOPHONE in a store will bring far greater returns than the same amount invested in anything else, besides it will bring crowds of customers, which will rapidly increase the sales.

READ WHAT A DRUGGIST IN A SMALL TOWN IN MINNESOTA WRITES:

"Gentlemen:—I consider one of your Graphophones, the style I have, a great investment for a drug store. In two months one machine took in $75.00, and still does a good business, and in addition has been a great drawing card."

Many more write the same kind of encouraging letters. A good way to do a profitable business selling these machines, is to purchase two, three or more of them, go to any town and get permission from some of the best merchants to exhibit them in their stores, and explain to them your intentions. After your machines have been placed, hang out a sign similar to the following:

THE GRAPHOPHONE TALKING-MACHINE!

THE GREATEST AND MOST WONDERFUL OF INVENTIONS, ON EXHIBITION AT THIS STORE.

STEP IN AND HEAR IT.

After the machines have been on exhibition at the stores, say a day and an evening, each one will probably have earned from $2.00 to $10.00. Then show the proprietor the amount and say that you will leave the machine if he desires to purchase it, and in this way you will have two sources for profit. Meanwhile, you can have a machine on exhibition at your hotel, and if the landlord cannot be induced to purchase it, it will have paid your expenses.

Don't let this Opportunity Pass, but Get a Sample Machine and Start Immediately.

OPPORTUNITIES WAIT FOR NO MAN.

NOW IS THE CHANCE.

Invest in one machine for a start if the capital will admit of no greater purchase, and then add others from the income.

Grand Graphophone TALKING MACHINE ENTERTAINMENT

THE GRAPHOPHONE TALKING MACHINE Is Truly One of the Most Wonderful Inventions and Never Fails to Charm ALL Who Hear it.

IT TALKS LAUGHS PLAYS SINGS

A STRICTLY HIGH CLASS ENTERTAINMENT

will be given at which will be rendered a high-class musical programme, consisting of THE LATEST MUSICAL SELECTIONS, as played by the best bands and orchestras of this country, VOCAL SELECTIONS, as sung by the most noted comic and sentimental singers, SPEECHES of our most noted men, DANCES WITH CALLS, Etc.

The reproduction of the voice in either song or speech is so natural and the enunciation so distinct that anyone would believe it a human being, except that they knew the difference. The reproduction of instrumental music is phenomenal, comprising all the different parts of the largest brass bands and orchestras, from the violin, clarionet and cornet to the large bass horns, drums and cymbals.

Special arrangements have been made for magnifying the sound so that all may hear the entire concert while comfortably seated in any part of the hall.

Don't fail to take advantage of this opportunity and be sure to bring the children, for it will please them more than anything that could be done for them.

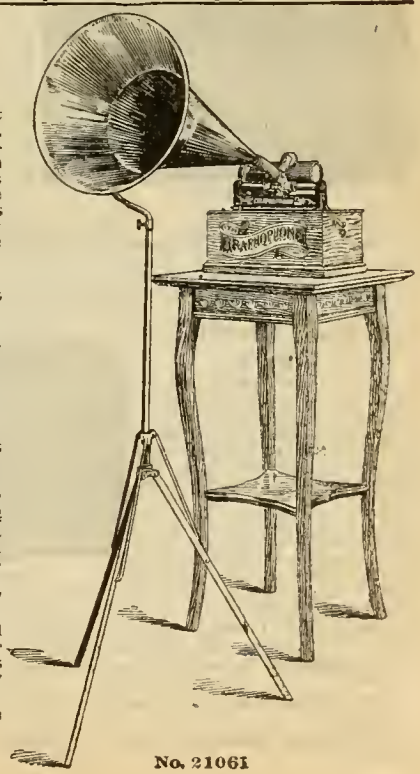
Concert Horns.



No. 21061

No. 21061 Large Concert Horn and Folding Support, for use in the largest halls, theaters and churches. The horn is 26 inches long and 12 inches across at the large end; is made of Japanned tin, with gilt stripes and quite ornamental, as well as being almost indispensable for very large halls.

The Horn Stand is nickel plated; is adjustable to different heights and folds up into small compass, like a music stand.

Price, for horn and stand, complete.....$2.25
Net weight, about 6 pounds.

No. 21062 Folding Stand, nickel plated, without horn.
Price.....$1.50

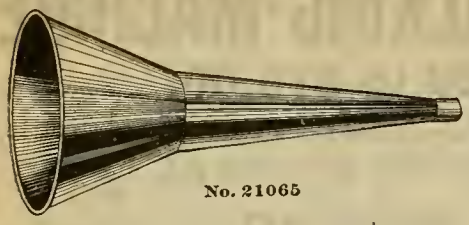
No. 21062½ Large Concert Horn, 26-inches, Japanned tin; gilt ornament, without stand.
Price.....$0.75

No. 21063 Brass Horn, 24 inches long, 12 inches across at the large end, made of polished brass, with nickel plated folding stand.
Price, complete.....$5.00
Net weight, about 6 pounds.

We strongly recommend the Large Concert Horns for concert work in theaters, halls and churches, as it very largely increases the volume of sound.

Prices on larger horns quoted on application.

Small Concert Horns.

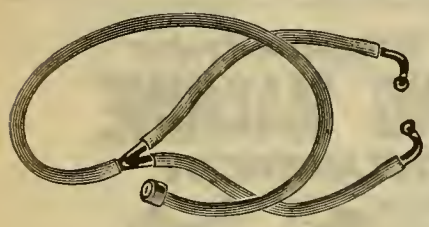


No. 21065

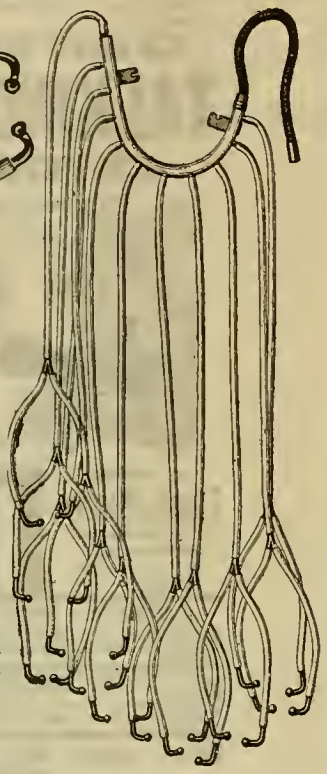
No. 21065 Concert Horn, Japanned tin, 14 inches long, 6 inches across at large end.
Price..... $0.40

No. 21066 Brass Horn, length 18 inches, highly polished, similar in shape to No. 21065, except that it has a rounded, seamless bell, giving it the appearance of a brass band instrument.
Price.....$2.00

Hearing Tubes.



No. 21060



Hearing tubes are especially desirable for giving entertainments in public at hotels, railroad depots, picnics and other places where it is desired that only those who pay may hear. They are made of soft rubber tubing, with hard rubber connections and ear tips, and springs in the fork to hold the ear tubes in position.

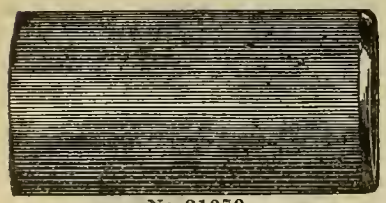
Every exhibitor should be equipped with a good set of ear tubes.

With an eleven-way hearing tube, and charging only 1 cent for each person, the operator can run twenty records per hour, which would bring in over $2.00 per hour, or $20.00 per day of ten hours. The usual charge is 5 cents for each person.

For home amusement they are a very great advantage, as they magnify the sound many times louder than is possible with the horns, and every note or word is plainly audible.

No. 21055 Hearing Tubes, for eleven persons, with nickel plated reservoir, flexible connection and metal straps for attaching to the graphophone. Can be used on either the Gem, Concert Grand or Universal Graphophones.
Price, complete.....$7.50
Net weight, about 3½ lbs.

No. 21056	**Hearing Tubes,** for eight persons.	Price.	$4.00
No. 21057	**Hearing Tubes,** for five persons.	Price.	2.50
No. 21058	**Hearing Tubes,** for three persons.	Price.	1.50
No. 21059	**Hearing Tubes,** for two persons.	Price.	1.00
No. 21060	**Hearing Tubes,** for one person.	Price.	.50



No. 21070

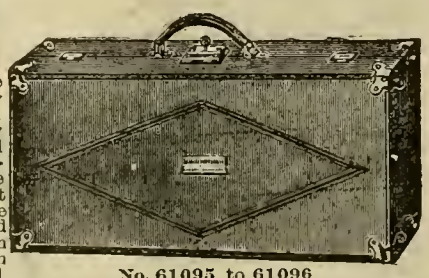
Blank Cylinders

Used for making Graphophone Records. They come pared, with a perfectly smooth surface, and are ready for recording either instrumental or vocal music or speech. If it is desired to change the record, the cylinder can be pared and a new record put on. Public exhibitors will find it much to their advantage to equip themselves with a few blank cylinders and make a record before the audience, then reproduce it for them. Each cylinder will hold about 1,000 words and can be shaved about 100 times.

No. 21070 Blank Cylinder, same as above, but pared ready for recording. Each.....25c

No. 21071 Blank Cylinder, 6 inches long, for use on correspondence Graphophone. Price.....40c

Record Carrying Cases.



No. 61095 to 61096

A Record Carrying Case is a very necessary accessory especially to public exhibitors. It dispenses with the necessity for having each record wrapped separately; prevents the liability to breakage, and enables the operator to instantly select any record desired. They are padded on the inside; fitted with tubes for holding each record separately; covered on the outside with dark colored heavy duck canvas, and are provided with handle catches, lock, key and all except the 12 record cases have heavy, nickel plated corners.

No. 21095 Carrying Case, for 12 records and space for small horn or tubes. Net weight, about 5 pounds. Price.....$3.00

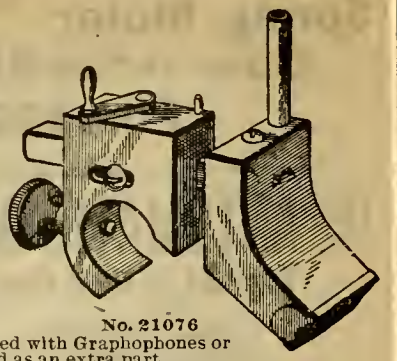
No. 21095½ Carrying Case, for 24 records. Net weight, about 7 pounds. Price.....$4.00

No. 21096 Carrying Case, for 36 records. Net weight, about 9½ pounds. Price.....$5.00

No. 21097 Carrying Case, for 72 records. Net weight, about 15 pounds. Price.....$7.50.

Shaving Knife.

For use on "Concert Grand" or "Universal" Correspondence Graphophones. Cannot be used on the Gem machine.



No. 21076

This is a new shaving device for use with the Graphophone. It can be placed in position for use in a few seconds and is instantly detachable. Whenever it is desired to change the record on any cylinder it can be shaved off with this knife, and is then ready for the recording of any record which may be desired. It has a chip box in which all the shavings are deposited until the knife is detached, which avoids their being scattered about, and is a very desirable feature.

The shaving knife is not included with Graphophones or outfits, but is made to fit and is sold as an extra part.

No. 21076 Shaving Knife, for "Concert Grand" Graphophone. Price.....$5.00

No. 21077 Shaving Knife, for "Universal" Graphophone. Price. 5.00

Musical and Talking Records.

...FOR USE ON THE...

GRAPHOPHONE OR PHONOGRAPH.

Our list of ready prepared Records is enormous, and includes the latest instrumental and vocal music, songs, dances, speeches, etc., from the most celebrated artists. Some of the most popular pieces appear under two or more numbers as played by different noted bands and orchestras.

If you are at a loss to know what you should order, if you will leave it to us, we will use our best judgment in the matter. It is best, however, for you to state the classification of the records desired. It will sometimes happen that we are unable to furnish on short notice a certain record ordered. When this occurs, we will, unless otherwise advised, send something as near like it as possible, our stock being very complete. Substitution, however, will be of very rare occurrence. Our records we claim to be fully equal to those sold by other concerns at $1.00 each.

Records will be sent C. O. D. when desired, but not subject to trial. Every one is guaranteed to be exactly as represented and to be perfect.

We will ship records C. O. D. when desired, provided they are ordered in quantities of not less than one-half dozen.

We will require a deposit of at least $1.00 with the order as a guarantee the goods are ordered in good faith.

THE SELECTION OF RECORDS FOR PUBLIC EXHIBITION WORK should, so far as possible, be left with us, as our experience places us in a position to know which are the most suitable, loudest and best selections for such purposes.

We believe that in most cases we can make a much better selection than the customer.

Our Price for any Record in the Following Lists:

Each.....$0.50

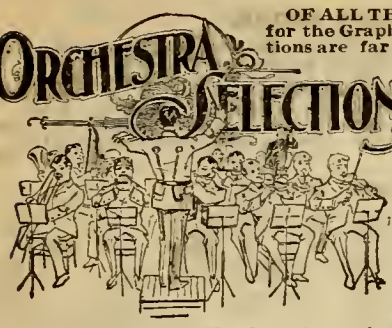
ORCHESTRA SELECTIONS



OF ALL THE MUSICAL RECORDS made for the Graphophone, the Orchestra Selections are far in advance. They seem especially adapted to Graphophone reproduction, and we believe that almost without exception they are most appreciated by everyone. **The beautiful tones of the Violins and Clarionets** blended with the **Piano, Cornets, Piccolos, Trombone, Bass Viol** and other instruments, produce melodies which no other class of band can equal.

FOR PRIVATE DANCING PARTIES, they are just what is wanted. Our list embraces a very complete assortment of **Waltzes, Schottisches, Two-Steps, Polkas, Lancers, Marches, etc.,** embracing the most popular as well as the latest selections as played by the very best orchestras and represent the highest achievement in the art.

WE PRIDE OURSELVES on having selected the most superb orchestra records ever made. The character and value of them appeal to the most critical and is plainly demonstrated by the records themselves.

The annonncements are as loud, clear and distinct as it is possible to make them, which adds much to their value.

Don't fail to include a liberal assortment of these superb orchestra records with your orders.

SPECIAL LECTURE OUTFITS.

Do You Want to Make Big Money with Little Effort?

If so Appeal to Popular Sentiment EQUIP YOURSELF WITH ONE OF OUR SPECIAL LECTURE ENTERTAINMENT OUTFITS Start into business immediately and you should

MAKE $5,000 TO $10,000 WITHIN A YEAR.

The Subjects Selected are THE ALL ABSORBING TOPICS OF THE DAY and the entertainments have only to be advertised to bring CROWDED HOUSES at good prices for admission.

No Previous Experience Necessary

NO ABILITY AS A PUBLIC SPEAKER REQUIRED. Some of most successful lecturers had never spoken in public before taking hold of our Lecture Outfit, and now they are making from $12.00 to $75.00 and more per day.

ANYONE WHO CAN READ can deliver the lecture, operate the magic lantern, show the magnificent photographic views which accompany the outfit, and do a successful business from the start.

EVERYBODY IS WILD WITH EXCITEMENT, and anxious for more reliable and complete information than they have been able to secure through the columns of the newspapers. THE ILLUSTRATED LECTURE OUTFITS gives all the information, illustrates it with MAGNIFICENT PHOTOGRAPHIC VIEWS magnified to ten feet square or larger, and will draw crowded houses every night.

Large Fortunes Have Been Made in the Lecture Business

ON FAR LESS INTERTAINING SUBJECTS. For example: MR. STODDARD, who lectured on travels in foreign countries, illustrating the same by magic lantern views, gave a series of lectures in Central Music Hall in this city, extending over three weeks, having an average attendance of 1,500 people per evening, representing the very best classes in Chicago, at an average admission of $1.00 each. From this it can be seen his receipts for one evening would amount to $1,500, or $27,000 for the three weeks entertainment; in keeping with this we also refer to a recent contract which DR. NANSEN, THE ARCTIC EXPLORER, is reported to have made. It has been published in the newspapers all over the country that he had closed a contract with a company to deliver 50 lectures for $65,000.00, the same to be illustrated with the magic lantern views. By this it will be seen that he has to receive more than $1,300.00 per night for his share. Since Mr. Stoddard has retired from business Mr. Holmes has, become very popular and is lecturing to the very best and most intelligent audiences, making hundreds of dollars per night.

Everybody could not expect to do so well as Mr. Stoddard, Dr. Nansen and Mr. Holmes, but we refer to their success to show the possibilities in the lecture line of business.

There are many of our customers who are making from $12.00 to $75.00 per night with the Klondike Illustrated Lecture Outfit, and we have been advised by Mr. Vincent, who is a beginner in the work, that he is making an average of $38.00 per night for five nights in the week. This would give him a net income of $760.00 per month.

ARE THE MASSES OF THE PEOPLE AS MUCH INTERESTED in Dr. Nansen's Greenland and North Pole lecture as in the Cuban Question or the Klondike? In Mr. Stoddard's African or South American subjects, or in Holmes' French scenery?

☞ We Believe there is no other Subject that will during the present year divert the attention of the American people from Cuba and Alaska.

DON'T LET THIS MONEY MAKING OPPORTUNITY PASS

AND WHEN IT IS TOO LATE SAY, "I AM SORRY I DID NOT TAKE HOLD OF IT."

THE BUSINESS MANAGEMENT.

The success of any business enterprise depends largely on the manager's knowledge of what methods he should pursue. In this matter we leave no doubt in the minds of those who wish to start in this work, as we have had large experience in this line of business, consulted and watched the success of the best exhibitors. We have carefully considered the plans of those who have been successful and believe we are in a position to supply the beginner in this line with valuable knowledge. In short, we furnish the business proposition, we furnish all material, we furnish all the knowledge of the subject in hand, we furnish the methods for conducting the business, we furnish the business experience; in fact, we furnish all that is necessary and all the exhibitor has to do is to follow our instructions. We furnish the key to a start in a profitable business, an opening to a successful and honorable career.

OUR LECTURE OUTFITS Have been prepared at great expense. The securing of the pictures direct from nature and authentic information having been attended with much danger, but now we are prepared to furnish a big money making entertainment outfit complete in all its details, at a price which brings it within easy reach of all.

GENERAL DESCRIPTION OF SPECIAL ILLUSTRATED LECTURE OUTFITS No. 21475 AND 21476.

THE MAGIC LANTERN Is a special high power instrument, and is made after a special design. Has the very best projection and condensing lenses. Is large and well made. Is interchangeable, being adapted to the use of any kind of illumination, but is furnished with the most powerful kerosene lamp (three wick.) The lantern is fully equal to lanterns sold by other houses for more money than we ask for the Complete Lecture Outfit, including views and all. It will take any regular sized views.

THE LANTERN CARRYING CASE Is made of polished wood and fitted with brass trimmings.

THE POLISHED WOOD VIEW CASE Is well made, is fitted with brass trimmings and has dividers for separating the views, and will hold 60 views.

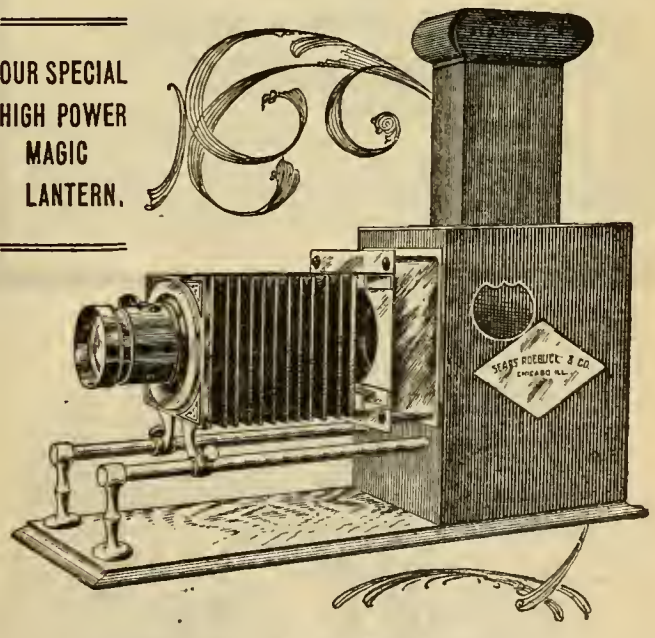
THE SCREEN Is made of fine white material, is ten feet square, having one hundred square feet of surface, is provided with ropes and loops for hanging it, and is used for a perfectly white surface on which to project the pictures from the magic lantern, and make them so large as to be distinctly seen by everybody in the hall or opera house.

THE LARGE ADVERTISING POSTERS Are 14x21 inches, are printed on tinted paper and illustrated with attractive engravings, with blank spaces left for filling in the place where lecture is to be given, date, prices for admission, etc., and are to be posted up in store windows, on fences, buildings and other conspicuous places. They are very attractive, well worded and will draw crowded houses.

THE ADMISSION TICKETS Are printed in good taste on tough cardboard and the quantity is made large enough to accommodate any size crowd and enough to allow for those which may get soiled or torn.

THE PRINTING OUTFIT Is provided with a case of movable large rubber type, a holder, tweezers and ink pad, and is used for filling in the dates, places where lecture is to be given, prices for admission, etc.

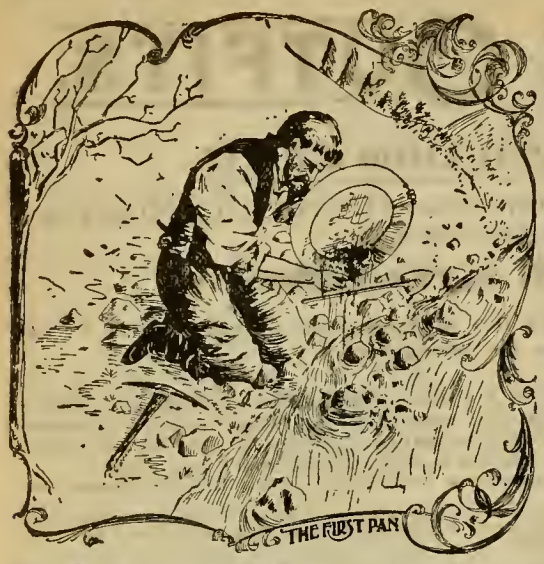
OUR SPECIAL HIGH POWER MAGIC LANTERN.



FURNISHED WITH OUTFITS No. 21475 and 21476.

Everything that is needed is furnished with the outfit and is ready for business as soon as received.

For further detailed description and prices see following pages.



ILLUSTRATED LECTURE OUTFIT NO. 21475.

$190.00 PER WEEK

MADE WITH THE ILLUSTRATED LECTURE OUTFIT ON ALASKA AND THE KLONDIKE GOLD FIELDS.

SOME MAY HAVE MADE MORE.

Without previous experience anyone can, with our Klondike Illustrated Lecture Outfit, coin money by giving public entertainments, as the people will come for miles to see and learn about the frozen but gold-laden Northern country.

World-wide and untiring attention has already been commanded by the country of wonderful natural resources, but the interest already manifested will be intensified a hundred-fold during the coming year.

SECURE AN OUTFIT IMMEDIATELY.

AND REAP A GOLDEN HARVEST.

ALASKA AND THE KLONDIKE

is the most interesting and most promising country on the face of the globe, and an illustrated lecture on this subject has only to be advertised to draw crowded houses at good prices for admission.

Anyone who can read can deliver the lecture, operate the magic lantern, show the magnificent photographic views which accompany this outfit, and do a successful business from the start.

Everybody is wild with excitement and anxious to learn more about the Gold-Laden Northland. The lecturer will have easy sailing and can make big money almost without effort.

The Klondike Illustrated Lecture outfit gives all the information, illustrates it with Magnificent Photographic Views, magnified to ten feet square or larger, will draw crowded houses every night.

Klondike as a subject has no equal. Never before during our business career have we been in a position to offer such an inducement for money making as is here presented.

THE KLONDIKE ILLUSTRATED LECTURE OUTFIT CONSISTS OF

50 Magnificent Photographic Views,
1 Polished Wood Case for the Views,
1 Special High-Power Magic Lantern (described on a previous page),
1 Polished Wood Carrying Case for Lantern,
1 Large White Screen (100 square feet),
1 Lecture on Alaska and the Klondike Gold Fields, Bound in Book Form,
1000 Large Illustrated Advertising Posters,
1000 Exhibition Admission Tickets,
1 Printing Outfit for Filling in Dates, etc., all for

$48.75.

PRICE REDUCED FROM $58.75.

SLUICE MINING

Is much the quickest way of separating the gold from the dirt, and when means are at hand to prepare for handling the water, this method is used to very great advantage. **The lecturer explains the different methods of mining and separating the gold from the dirt** and makes plain to each one in the audience those things which before have been, to them, shrouded in mystery, and feel that they are much wiser as a result of their evening's entertainment. While the miners are digging and washing gold in Alaska, the exhibitor can be gathering in a liberal share of the precious metal at the entrance to the churches, opera houses, public halls and school houses, with no risk and no danger.

CHILLCOOT PASS

Represents one of the worst places on the overland route from Dyea. This picture was taken in the summer time, when there was no snow on the Pass, and will give an idea of hardships connected with the **transportation of 1,000 pounds of supplies,** which is the amount required for each man for one year. The pen drawing shown here will give but a faint idea of the detail and the life-like appearance of the photographic picture, as it appears magnified to almost life size on the ten-foot screen.

The enjoyment and appreciation of the audience as these pictures are thrown on the screen, while at the same time each one is being described by the lecturer, can be but feebly imagined.

THE 50 PHOTOGRAPHIC VIEWS **have been taken direct from nature,** and when they are projected on the immense screen, **which is over ten feet square,** they will show to the audience the actual appearance of the country, so natural and so life-like that they will almost feel as though they had been there. The views represent the principal cities and towns of interest, such as Seattle, Juneau, Sitka, Ft. Cudahy, St. Michaels and Dawson City; the stopping places and camps along the route to the gold fields; views of the gold mines, placer and sluice mining, and other very interesting scenes. The views together with the lecture which accompanies the outfit, will create almost unbounded enthusiasm and appreciation.

CUBA

The Destruction of the Maine and the CUBAN WAR.

A Popular Subject and a Big Money-making Opportunity

Cuban Lecture Outfit, No. 21476.

Our Cuban Lecture Outfit consists of 50 Magnificent Photographic Views, 1 Polished Wood Case for the Views, 1 Special High Power Magic Lantern, 1 Polished Wood Carrying Case for Lantern, 1 Large White Screen (100 square feet), 1 Lecture on Cuba, bound in book form, 1000 Large Illustrated Advertising Posters, 1000 Exhibition Admission Tickets, 1 Printing Outfit for Filling in Dates, Etc.

ALL FOR $48.75. PRICE REDUCED FROM $58.75.

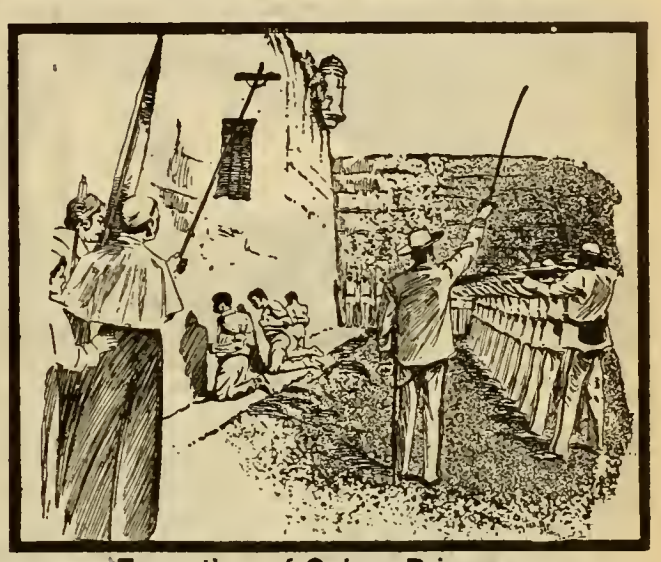
FROM $5.00 TO $75.00 PER NIGHT
Clear of expenses is being made by those who have purchased these outfits of us.

THE 50 PHOTOGRAPHIC VIEWS

Show the Map of the Island of Cuba, with its Different Provinces, Towns, Agricultural Districts, Etc.; Consul-General Fitzhugh Lee, Rear-Admiral Dewey, Rear-Admiral Sampson, General Weyler, General Gomez, General Maceo, the Battleship Maine before and after its destruction, the Principal Forts, the Execution of Cuban Soldiers, the Destitute and Starving Cuban Reconcentrados, and everything else of interest that space will permit.

The Views and Lecture will be revised from time to time as the war progresses.

The Lecture gives full, complete, accurate and the most interesting information regarding Cuba, her rich resources, the impositions imposed on her by the Spanish government, her three years' struggle for liberty, the cruelty, privations and hardships suffered by the starving Reconcentrados and the Cuban soldiers, the **Destruction of the Maine** and the punishment administered by the United States government in return for same.

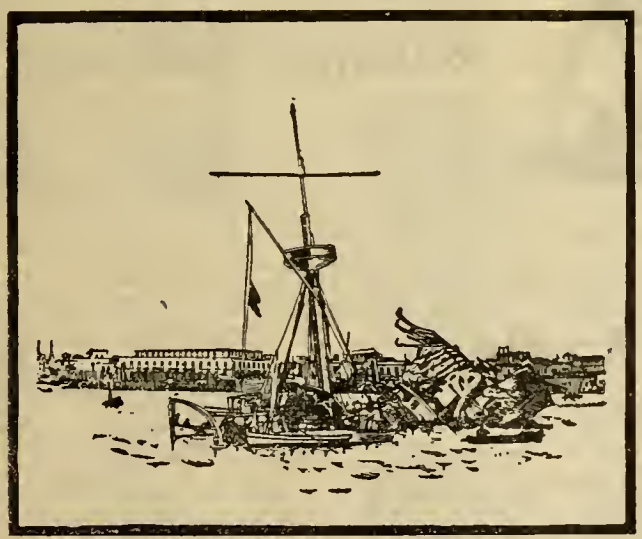


Execution of Cuban Prisoners.

The barbarity and cruelty of the Spanish people and government is well demonstrated by the lecture and accompanying views, and in a way which would be impossible by any other method. It must be remembered that the risk and consequently the expense has been very great in securing the photographic views for this lecture and it is **the chance of a lifetime** to get such an outfit complete for so little money; equipped with our lecture and set of views, magic lantern, etc., anyone should be able to make $150.00 to $1000.00 per month.

No. 24176 COMPLETE EXHIBITION OUTFIT FOR $48.75.

Includes everything necessary to begin work. The whole outfit for less than the price asked by many concerns for a good magic lantern alone.



Battleship Maine After Its Destruction.

This picture is one of the best and most accurate which has been taken of the wreck, and shows the present condition of what was once one of the most beautiful of Uncle Sam's battleships. **The lecture gives the details** as to dates, the immense number of sailors killed, the force of the explosion, etc. With the beautiful photographic picture and the lecture the audience will be able to get almost as much information and satisfaction as would be afforded by a trip to the spot where the explosion occurred.

A Cuban Battlefield.

The above picture presents an awful sight, but it will enable the lecturer to show to his audience the awful condition which prevails throughout the entire island of Cuba, and is a scene which is **a disgrace to any civilized nation.** The soldiers and animals are left lying on the fields to decompose and be eaten by the buzzards. With such an entertainment as furnished by our lecture, the magnificent photographic views and a pathetic subject the lecturer will arouse the most enthusiastic patriotism and feel that he is serving a just cause as well as enriching himself.

OUR VERY LIBERAL OFFER.

SEND US $5.00 as a guarantee of good faith and we will send you the complete outfit by express C. O. D. subject to examination, you can examine it at your nearest express office and if found exactly as represented, perfectly satisfactory, and you are sure you can make big money with it, pay the express agent the balance, **$43.75** and express charges, otherwise refuse it and we will return to you the money deposited with us.

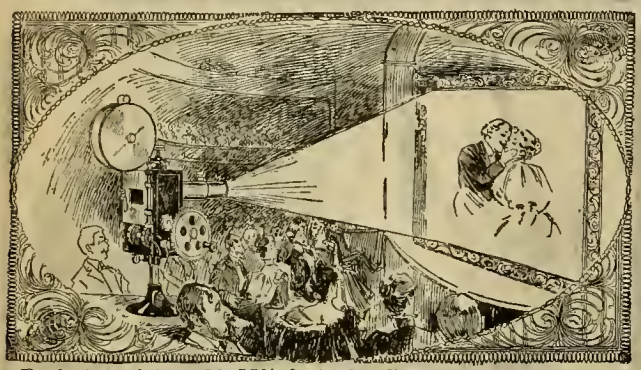
$20.00 TO $25.00
AND MORE CAN BE MADE EVERY EVENING WITH
THE OPTIGRAPH MOVING-PICTURE MACHINE, ONLY $25.00.

Used as an attachment for Magic Lanterns, Stereopticons, Sciopticons, etc., or furnished complete. Uses the regular standard films. A BOON to LECTURERS and the GREATEST MONEY-MAKING ATTRACTION ever exhibited.

Lecturers, Magic Lantern Exhibitors and theatre managers can increase their receipts many times by the addition of this attachment to their outfits.



Projects a picture 10x13½ feet at a distance of about 50 feet from the screen. Picture can be made larger by increasing the distance.

The Optigraph

can be attached to any lantern, sciopticon or stereopticon, and when once set in place either the lantern or the Optigraph Moving-Picture Machine can be used at will, the change from the one to the other requiring but a moment's time. Moving-picture exhibitions have been during the past year one of the most popular attractions in the large cities, but the cost of outfits has been so great that as yet few people outside of the larger cities have seen them.

SO LIFE-LIKE, SO TRUE TO NATURE and so perfect in every detail, with such life-like motions are the pictures as projected by these machines, that the audience can scarcely realize that what is before them is but a picture.

AS AN OPPORTUNITY TO MAKE BIG MONEY ON SMALL CAPITAL we know of nothing so promising at the present time as an outfit including a machine and films for moving pictures. These wonderful moving picture machines have been on exhibition in Chicago, New York and other large cities during the past year, and they never fail to draw crowded houses of the most intelligent classes. The views of life and motion as projected from one of these machines are simply wonderful and never fail to please. Those who are in a position to take advantage of an opportunity of this kind should not wait a moment, but should order an outfit at once, so as to appear before the public at the earliest possible date.

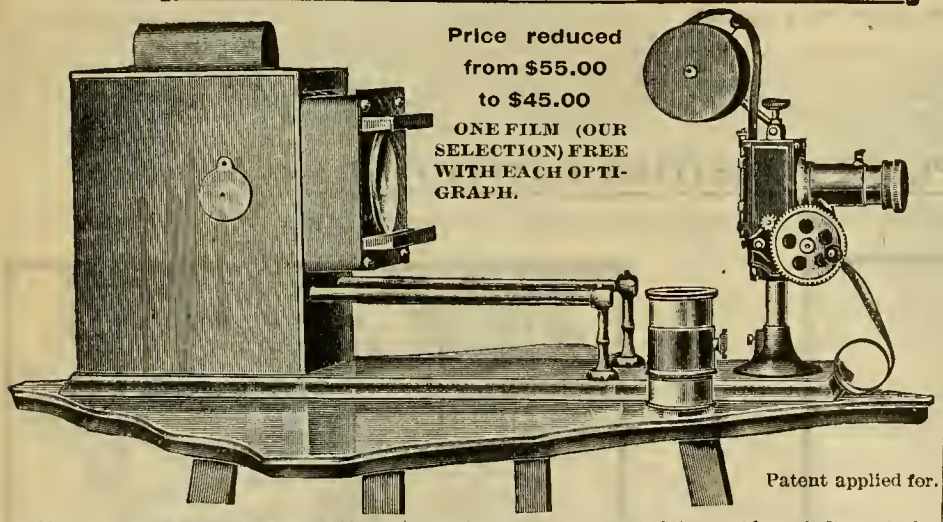
Patent Applied For.

The Application of the Optigraph Moving-Picture Machine

Price reduced from $55.00 to $45.00

ONE FILM (OUR SELECTION) FREE WITH EACH OPTIGRAPH.



Patent applied for.

This wonderful little instrument is the latest invention in the way of moving-picture machines, and projects apparently living pictures and actual scenes upon a canvas or screen.

Fits any Magic Lantern or Stereopticon and so simple that a child can operate it.

It represents the very highest branch in the art of photography; that of bringing before the eye an exact life-size reproduction of life motion, with all its accompanying effects of light shade and expression.

TO ILLUSTRATE MORE FULLY we will describe a scene as it is now exhibited in the theatre or opera house. The drop curtain has fallen for the intermission, when suddenly the house is darkened and before the eyes of the audience a huge window appears to open. Through it they see a bit of meadow landscape with a forest in the background, from which to a point close by the window stretches a section of railway line on an embankment. A number of workmen are engaged in repairing the roadbed. There appears in the distance, just emerging from the woods, a cloud of white smoke, which within a few seconds shapes itself into the outline of an approaching train, and in another moment what appears to be a real passenger train is rushing by at a tremendous rate. Every detail of motion is clearly defined, and even the rapid rise and fall of the piston rods can be plainly seen. In a twinkling the whole scene disappears, the theatre is again lighted up and before the audience hangs only the drop curtain.

IN COMPARISON THE OPTIGRAPH MOVING-PICTURE MACHINE IS AS FAR SUPERIOR to the ordinary magic lantern or stereopticon as the graphophone is to the crude toy doll which but imperfectly utters the one word "Mamma". It is a boon to the manager of a theatre, a powerful auxiliary to his stage effects, a most entrancing divertisement from the usually tedious intermission, and a most excellent means of giving entertainment for profit without any other assistance. To magic lantern exhibitors and lecturers it affords a means of renewing interest in their work, drawing crowded houses; in fact, increasing several times the usual receipts. It also makes a very valuable addition to a Graphophone Outfit.

THE PRESENT VERY LOW PRICE of the Optigraph Moving-Picture Machine cannot fail to bring it within the reach of even private individuals for home entertainment. As an exhibition feature it is immensely popular, and in a few evenings returns to its owner not only the entire first cost, but a handsome profit on both the investment and his time.

No. 21205 Optigraph Moving Picture Attachment, one extra reel for rapid rewinding of the film, fitted with lamp house on beautifully polished oak base, fitted with either hand feed electric arc lamp or with calcium light burner (either one nickel plated), condensing lens and slide holder.

The above arrangement is intended for those who have no Magic Lantern. For regular Lantern Projecting Lens and Holder to fit above Lantern, see List of Outfits.

PRICE, $45.00

Former Price, $55.00.

Description and Working Principle of the Moving-Picture Machine.

The principle of the OPTIGRAPH MOVING-PICTURE MACHINE is the same as the Magic Lantern, only that the pictures appear on a transparent film and pass before the lens **in rapid succession.** The film is a long, transparent celluloid tape, the standard length of which is 50 feet, with a series of photographs taken at the rate of **20 a second;** and to produce animated movements, the films must be moved past the projecting lens at the same rate of speed with a fractional stop and division made between each picture. On each 50-foot film there is a series of about **750 photographs,** each one slightly different from the other. From the beginning to the end of the film, all the movements will be recorded that have been exhibited before the camera when the picture was taken. **For each subject a separate film is necessary.**

For simplicity, easy action, noiselessness, quality of material and workmanship, the OPTIGRAPH MOVING-PICTURE MACHINE has no equal. The different wheels and parts are made in the best possible manner, with gears all machine-cut, shafting made of the best stubs' steel drill rod, bright parts nickel plated, and, take it all in all, it is a revelation in this line.

The prices of moving-picture machines have formerly been so high that it was only the exhibitors in the large cities who could equip themselves with moving-picture outfits. **The very low price** at which we are now offering the **OPTIGRAPH MOVING-PICTURE MACHINE** enables any operator to avail himself of the opportunity to add to his outfit this **wonderful money-making exhibition feature.**

The quality of the work done by this machine we consider without any exception the very best of any machine on the market. The action is positive, the pictures free from the unpleasant flickering which is very noticeable in other machines; **the pictures sharply defined and perfectly steady.**

No. 21207 Oak Base, 8x26 inches, for attaching Optigraph to any magic lantern, finished and polished. Price.....**$1.00**

Finds the Klondike Exhibition Business O. K.

Frazier, Wis., May 9, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I am now giving public entertainments with your Klondike exhibition outfit and find it all O. K. Yours very truly,

E. W. LATHROP.

Highly Pleased with the Outfit.

Wiley, Ala., May 9, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—I am highly pleased with the Klondike exhibition outfit purchased of you some time ago, and find it to be satisfactory in every particular.

Yours truly, J. E. WHITSHAW.

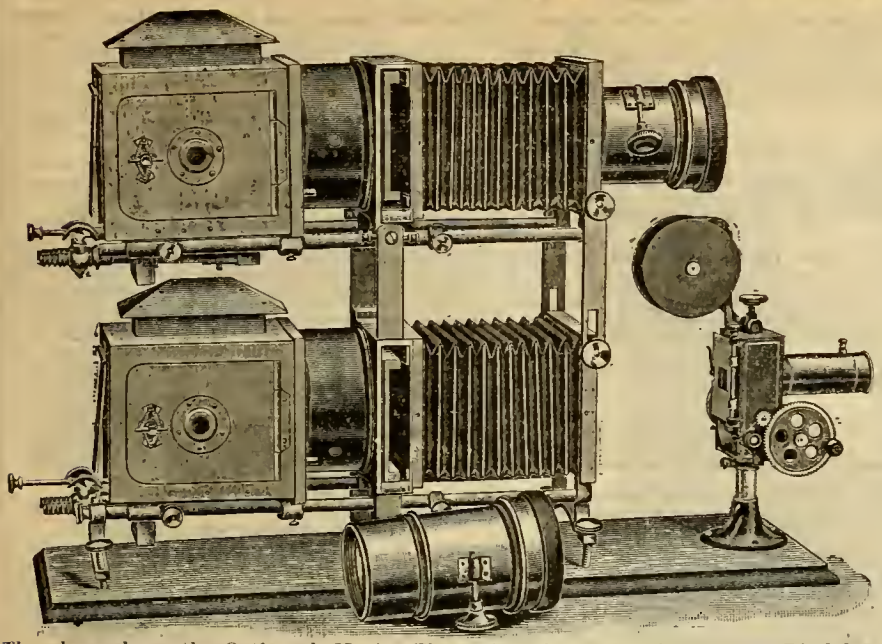
Has Crowded Houses at Every Entertainment.

Oakley, Miss., Feb. 28, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I have been showing the Klondike outfit in schoolhouses near me with very good success. I have in every instance had a crowded house.

Yours truly, T. J. ALLEN.



The above shows the Optigraph Moving-Picture Machine attached to a Double Disolving Stereopticon or Magic Lantern.

NEW SPECIAL $5.00 FILMS FOR MOVING-PICTURE MACHINES.

We have made special arrangements for a very large quantity of moving-picture films, by which we are enabled to offer the following ten subjects at the heretofore unheard of low price of **$5.00** each.

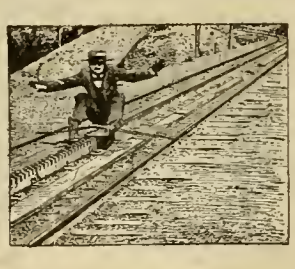
These films are of first quality in every respect, and are made in lengths of about 25 feet each, the subject being so arranged that the ends may be joined together, which enables the operator to repeat the fims, and the audience will not know that a similar act was repeated by the same film, or the film may be run in the usual way but once through.

These films are made from the Eastman Co.'s stock, which is the best there is to be had, and they are finished in the most thorough manner, so that the picture comes out on the screen clear and sharp. A full description of the views will accompany each film, and as these descriptions are interspersed with witty jokes and funny sayings, it will prove of very great assistance to the exhibitor in entertaining his audience.

We advise every exhibitor to take advantage of this rare opportunity and secure this set of special films. Some of them run a little over and others a little under 25 feet in length, depending on the nature of the subject, but we would say for these special films that the most entertaining part of the pictures would be of no greater length in the longer films.

These are not only made special for the Optograph Moving-Picture Machine, but are made to fit any standard moving-picture machine on the market.

No. 21250 Serpentine Dance. This is a a very beautiful scene, showing this well known dance to its best advantage, and it is one of the best subjects for moving-picture machines.



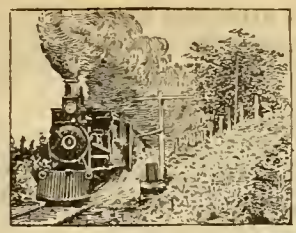
No. 21251 Shooting the Cog Railway. Showing President Sellers on the toboggan going down Pike's Peak on the Cog Railway at a very high rate of speed. It if full of action and very exciting.

No. 21252 Cheyenne Indians Riding Through Cheyenne Canyon, near Manitou, Colo., at full speed. Full of animation and a scene which is much appreciated.

No. 21253 State and Madison Streets, Chicago. Two of the most crowded streets in this immense city of nearly two million inhabitants, showing Chicago's famous character, "Old Sport," crossing the street. Full of action and very interesting.

A scene that is good for an encore every time.

No. 21255 KISSING SCENE. This is a burlesque on John Rice and May Irwin's famous kissing scene. This we consider one of the greatest side-splitting scenes ever thrown on a canvas.



No. 21256 Passenger Train going at a high rate of speed, taking up and throwing off mail bags, and showing good smoke effect.

No. 21257 Bicycle Parade on Washington Ave., Chicago. Showing both lady and gentlemen riders in regular riding costume, full of animation and very interesting.

No. 21258 Watermelon Scene. Showing colored boys scuffling over a watermelon, which they have taken from an old colored man. A very exciting and interesting scene.

No. 21254 RACING SCENE, Lexington, Ky. Showing the finish of a good running race with clouds of dust rolling up behind. Very lively and exciting.

No. 21259 Street Scene, Lexington, Ky. This is a very fine scene and full of animation; the street is crowded with vehicles and pedestrians.

Regular 50-Foot Films. Special Price, $8.00 Each.

These Films are of the regular length (50 feet) as used on all standard moving-picture machines. They are made on regular **Eastman stock of the best quality,** and are finished in the best possible manner. We have carefully selected from a very large list the following list of subjects, all of which will be found to be first-class in every respect. **Other concerns charge $10.00 to $15.00 for films of this grade.** These films must not be compared with the copied films that are made on inferior stock and sold by some concerns.

No. 21280 Unveiling of the Logan Monument at Chicago. Showing the flag as dropped at the unveiling. This is the only picture of this subject taken for moving-picture machines.

No. 21281 Logan's Old Regiment marching past before the unveiling of the Logan monument. Full of action and very interesting.

No. 21282 First Regiment Illinois National Guards as they marched in the Logan Day parade before the unveiling of the monument. This represents Illinois' finest regiment. It is a beautiful subject and full of life.

No. 21283 Knights Templars Marching in the Logan Day Parade. This is the only Knights Templar picture on the market, and is a very desirable subject.

No. 21284 State and Madison Streets, Chicago. This picture shows two of the busiest streets of Chicago. It is a very fine subject, full of life and motion.

No. 21285 A Tallyho Party. Showing a tallyho coach loaded with children. They arrive and alight at the panorama of Libby Prison, Chicago. Full of animation and a good subject.

No. 21286 Watermelon Scene. A lot of children scuffling over a watermelon which has fallen from an old colored man's shoulder. A very exciting scene.

No. 21287 Kiss Scene. A burlesque on the osculatory performance of John Rice and May Irwin. An encounter by two corpulent colored people. One of the funniest views on the market.

No. 21288 Bicycle Parade. Showing a cycle parade on Washington avenue, Chicago. A number of the best riders in Chicago in line; showing both ladies and gentlemen. A very fine subject and a good picture.

No. 21289 Flower Carnival at Colorado Springs. A fine picture, showing the parade and the grand stand.

No. 21290 The Overland Flyer. Showing the arrival of the Overland Flyer, owned by the Santa Fe R. R. Co., at La Junta, the alighting of the passengers, and the general bustle raised about the railway station. Full of animation and a very fine scene.

No 21291 Freight Train in the Royal Gorge, Colo. Showing a freight train on the Denver and Rio Grande railway passing through the Royal Gorge and over the swinging bridge. A very fine picture, surrounded by royal scenery.

No. 21292 Bathing Scene. Showing swimming pool at Glenwood Springs, Colo., with fountain playing, and bathers sporting in the water.

No. 21293 Horse Scene. Showing the famous stallion Hanover at McGrathina farm, Ky. Senator Blackburn and others standing about discussing the horses. A very fine picture.

No. 21294 Stacking Hemp. An agricultural scene taken in Kentucky, showing colored men at work in the fields stacking hemp.

No. 21295 Panoramic Scene. Taken from a Chicago and Eastern Illinois train as it passes through a village. This view differs from those above, inasmuch as it is taken with a machine on the train, and showing the objects as they appear when one is traveling on a train.

No. 21296 Panoramic Scene, as taken from train while going over the famous high bridge in Kentucky. A very good scene.

Standard Length Films (50 Feet) for Moving-Picture Machines.

Copyrighted. Price, $10.00 each.

These films are all sharp, clear, brilliant and accurate, full of life and action, and have been sold by others at $12.00 to $15.00 each. They are all very fine subjects, clear, steady and well finished.

No. 21350 Annabelle Serpentine Dance. One of the most popular dance subjects ever made.

No. 21351 The Blacksmith Shop. Realistic and interesting.

No. 21352 Black Diamond Express. This scene represents the fast Lehigh Valley Flyer running at full speed, the section gang in the foreground, engaged in repairing track, wave their hands to the engineer, who is leaning out of the cab. The porter is shaking the tablecloth from the platform of the dining car. The Black Diamond is classed as one of the handsomest and fastest trains in America, and was running at the rate of nearly 70 miles an hour when this picture was taken.

No. 21353 Burning Stable. Showing a barn actually in flames, from which four horses are being rescued by the firemen and stable hands. The scene is exciting and full of action. Great volumes of smoke pouring from the doors make a very realistic effect.

No. 21354 The Boxing Cats. Especially interesting to children.

No. 21355 Carpenter Shop. A good scene, showing the industrious workmen as they are sawing boards and putting their work together.

No. 21356 Farmers' Troubles. A poor, dilapidated farm wagon, loaded with cabbages, is being driven along the market place, when a negro with a wheelbarrow runs into the wagon, takes off one of the rear wheels and scatters the contents of the wagon in all directions. A pugilistic encounter takes place, in which the bystanders interfere.

No. 21357 Going to the Fire. This scene shows almost the entire fire department, led by the chief, responding to an alarm, the horses going at full gallop. It is a very lively scene.

No. 21358 The Ghost Dance. Showing Sioux Indians in war paint and costume. A very interesting subject.

No. 21359 Kiss Scene. Showing John Rice and May Irwin in their famous and animated osculatory performance. Very fine and never fails to bring great applause.

No. 21360 Morning Bath. This scene represents a dark African mother in the act of giving her struggling piccaninny a bath in a tub of suds. This is a clear and distinct picture, in which the contrast of the darky's complexion and the white suds is strongly marked.

150-Foot Films, $30.00 Each.

The following films are about 150 feet long, and are especially desirable subjects:

No. 21380 Corbet and Courtney Fight. A very successful picture of Pompadour Jim in a pugilistic encounter, full of ginger and a very lively picture.

No. 21381 McKinley and Cleveland Going to the Capitol. Showing the president and president-elect, with their escort, on their way to the inaugural ceremonies.

Special $3.00 Films.

We have a few very good subjects, taken partly for advertising purposes, such as the employees (nearly 800) leaving our store at noontime for lunch. They are worth $5.00 each, but they will be sold at $3.00 each. The advertisers will pay the balance of the cost. Some are very funny.

New Subjects.

The manufacturers of films are making new subjects from time to time, and when desired we shall be pleased to furnish lists of the same. We can furnish almost any film made by any manufacturer.

Information

Relating to Moving-Picture Machines, Films, Light, Outfits, etc., will be cheerfully furnished on application. We are in business to keep you well informed and supplied with the best goods, therefore do not hesitate to make your wants known to us. The advertising posters are illustrated with a very attractive view, and are well written up. We can also furnish **combination posters and tickets for The Moving Pictures, Klondike Lecture and Graphophone Entertainment, or with either two or all three of them combined. See miniature copies on other pages of this catalogue.**

Complete Moving-Picture Outfits at Great Reduction in Prices.

For the benefit of those who do not know what they should have or what constitutes an outfit for exhibiting moving pictures, we have made up the following list for their guidance. We have put in these outfits nothing more than is necessary, unless it is desired to cut down the list of films. In this matter, of course, the exhibitor can use his own judgment. If he has a full and complete outfit of lantern slides, as small a number as five moving-picture subjects would add a great deal to his exhibition. Articles can be deducted from or added to the following lists, changing the prices accordingly.

No. 21435 Outfit to be used as an attachment to magic lanterns or stereopticons.

1 Optigraph moving-picture machine	$25.00
10 special 25-foot films for moving-pictures, subjects as described in regular list, at $5.00 each	50.00
Total	$75.00

No. 21436 Outfit same as above, but with five extra 50-foot films.

1 Optigraph moving-picture machine	$25.00
10 special 25-foot films, as above	50.00
5 regular full length, 50-foot films, at $8.00	40.00
Total	$115.00

No. 21438 Outfit for Electric Light. This outfit is arranged for those who have no magic lantern to which they can attach the moving-picture machine.

1 Optigraph moving-picture machine	$25.00
1 lamphouse, with condensing lens, slide holder, polished oak base and electric burner	20.00
10 special 25-foot films for moving pictures at $5.00 each	50.00
Total	$95.00
1 rheostat No. 21427 for resistance, if desired, each	$5.00

Advertising Posters and Tickets Free. See bottom of list.

No. 21439 Outfit for Electric Light. This outfit is arranged for those who have no magic lantern to which to attach the moving-picture machine. To this outfit is added a regular stereopticon projection lens and carrier which will enable the operator to fill in with regular lantern slide pictures, if he so desires, and which will very greatly reduce the number of film pictures needed for an evening's entertainment.

1 Optigraph moving-picture machine	$25.00
1 lamphouse with condensing lens, polished oak base, nickel plated, electric burner	20.00
10 special 25-foot films for moving-pictures, at $5.00	50.00
1 lens, best quarter size, for showing lantern slides	6.50
1 lens carrier for supporting lens	3.00
Total	$104.50
Rheostat No. 21427, for resistance, if desired, extra	$5.00

No. 21442 Outfit for Calcium Light. This outfit is designed for those who wish to exhibit in small towns where they cannot have the use of an electric light current. It includes the Arnold's Patent Calcium Light and Gas Making Apparatus, which is the best light outfit on the market.

1 Optigraph moving-picture machine	$25.00
1 Lamphouse with condensing lens, slide holder and calcium light jet on polished oak base	20.00
10 Special 25-foot films for moving pictures, at $5.00 each	50.00
1 Arnold's patent gas making and calcium light apparatus	50.00
Total	$145.00

No. 21443 Outfit for Calcium Light. This is the same as the preceding with the exception of the addition of lens and carrier for the projection of regular lantern slides.

1 Optigraph moving-picture machine	$25.00
1 Lamphouse with condensing lens, slide holder and calcium light jet, nickel plated, on polished oak base	20.00
10 Special 25-foot films for moving pictures, at $5.00 each	50.00
1 Lens, best quarter size, for showing lantern slides	6.50
1 lens carrier for supporting lens	3.00
1 Arnold's patent portable gas making and calcium light outfit	50.00
Total	$154.50

1,000 Large Advertising Posters, either single or combination, and 1,000 Admission Tickets will be furnished free with any of the outfits above.

What Experts Think of the Optigraph Moving-Picture Machine.

These are but a few of the Letters Received Every Day.

Considers It Superior to anything on the Market.

CHICAGO, ILL., Feb. 7, 1898.

Gentlemen: I have carefully examined and tested your Optigraph Moving-Picture Attachment, and I consider it far superior to anything on the market, and I believe that, with the great reduction in the price, the sales should be enormous. There are several features of excellence over other machines which I have admired very much, viz.: The steady pictures, the compactness, beauty of design, and, above all, the quality of material and workmanship. I want another machine at the earliest possible moment. Trusting that you will give our order your immediate attention, we are, respectfully yours,

I. R. B. ARNOLD.

NOTE.—I. R. B. Arnold has personally given over 5,000 stereopticon lectures.

Professor Henry Leo Praises the Optigraph Attachment.

CHICAGO, ILL., Jan. 25, 1898.

GENTLEMEN: As to the merits of the animated picture attachment for stereopticon, which I bought of you recently, I desire to say that it does all the work which you claim for it. It works well with my single lantern, which I use with lime light.

Respectfully yours,

PROF. HENRY LEO.

The Most Compact and Simple He Has Ever Seen.

LA GRANGE, ILL., Feb. 1, 1898.

GENTLEMEN: I have tried your attachment for producing moving pictures with my single lantern and find that it does as good work as any complete machine of this character that I have seen. It is by far the most compact and simple of all the devices for producing this effect. Wishing you success, I remain, Yours respectfully,

ED. STOEHLI.

An Opinion From One Who Has Had a Wide Experience in This Class of Goods.

CHICAGO, ILL., Feb. 7, 1898.

GENTLEMEN: At a trial test of your attachment for producing animated pictures, which I attended recently, I saw the instrument in operation under ordinary conditions, and desire to testify to my great satisfaction with its compactness, the smoothness of its working and the ease with which it can be attached to any single magic lantern or double stereopticon that has a sufficiently strong light. It seems to me to be constructed in such a way that wear on the films is impossible. Your simple device for rewinding film, after it has been run off, strikes me as being ingenious in its simplicity, and most commendable for the rapidity with which the rewinding is done. I consider the principle of the shutter as meritorious as it is novel in its application to this class of instruments.

Very respectfully yours,

GEORGE KLEINE.

Opinion of an Expert Mechanic.

CHICAGO, ILL., Feb. 5, 1898.

GENTLEMEN: I am thoroughly familiar with all the details connected with the manufacture of the Optigraph moving-picture machines as well as the class of material used, and the care with which it has been planned and constructed. Your machine throws a very steady picture, is free from the unpleasant flickering as well as being almost noiseless, all of which are very unpleasant features with other machines which cost three or four times as much money. Take it all in all it is a "Little Gem."

Yours truly, ALBERT TUERK.

NOTE.—We feel very proud of this testimonial, as Mr. Tuerk is a member of the firm of Albert Tuerk & Co., manufacturers of clock movements and other fine machinery, and is considered one of the best machinists in Chicago.

Machine Has a Great Appetite for Nickels.

Reedley, Calif.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—Inclosed please find remittance for one dozen additional records for my Nickel-in-the-Slot machine. I have no list at hand to select from so will ask you to use your own good judgment for the purpose. I will say that this machine eats more nickels than anything I ever saw. Wishing you success, I am Yours, F. M. WASGATT.

A Fine Instrument; Simple and Easy to Learn.

St. Armand, Que., Can., May 18, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I received the graphophone outfit in splendid condition and it is simplicity itself, and easy to learn. It is very fine and distinct and all who have heard it say it is the best they ever listened to. I can certainly say that Sears, Roebuck & Co. are gentlemen. Yours truly, S. WICKIFFEL.

His Graphophone Has Earned a Lot of Money.

North Craftsbury, Orleans Co., Vt., Box 36, June 11, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—The talking machine which I bought from you last June is a very good machine. I would not sell it for double the price that I paid you if I could not get another. It has earned me a lot of money since I received it. I wish you best of success.

J. W. GILBERT.

The Klondike Outfit Has Been a Success.

Union Center, Ill., May 14, 1898.

Sears, Roebuck & Co.

Dear Sirs:—Advising you with reference to the Klondike outfit I purchased, will say that it has been a success and done well for the investment.

Yours truly, CHAS. EDWARDS.

Outfit Better Than He Expected.

Macon, Mo., June 7, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—We received our lantern and Cuban war views, and everything was all right. The lantern and views are better than expected, and my prospects for a large business are good. I anticipate adding the optigraph machine. Yours truly,

L. H. HARROD.

Has Made Big Money at Each Exhibition.

41 York St., Springfield, O., July 9, 1898.

Sears, Roebuck & Co., Chicago, Ill.

We are well pleased with our Cuban magic lantern purchased of you. It gives perfect satisfaction and we are making money right along. We have given five shows and realized money in each instance. We expect to add your optograph machine to our present entertainment.

Yours with respect, JACOB E. WOLF.

Plays to Good Crowds Every Night.

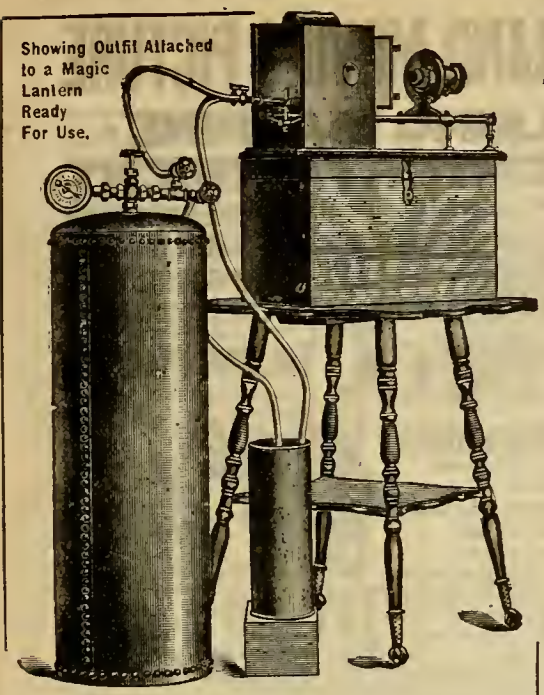
Samara, Ind., March 14, 1898.

Sears, Roebuck & Co., Chicago, Ill.

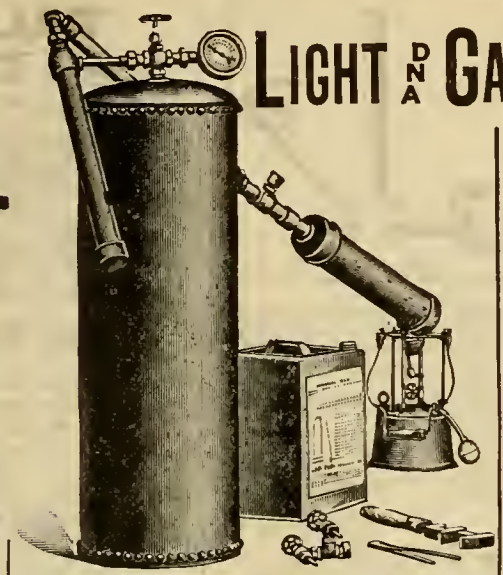
Dear Sirs:—We have struck a streak of luck with our Klondike and graphophone outfit, and playing to good crowds every night. Yours truly,

PETER NORTON.

ARNOLD'S PATENT PORTABLE CALCIUM LIGHT AND GAS-MAKING OUTFIT



Showing Outfit Attached to a Magic Lantern Ready For Use.



Showing Outfit as connected for making gas. The retort is resting on a Gasoline Heater, but the Heater is not included at the price quoted.

Great Reduction in Prices.

THE BEST, THE LOWEST PRICED, THE MOST DURABLE, ECONOMICAL AND CONVENIENT CALCIUM LIGHT AND GAS-MAKING OUTFIT ON THE MARKET. . . . . .

No. 21400
Arnold's Patent Portable Calcium Light and Gas-Making Outfit, complete, including steel tank, saturator, retort, wrench, etc.
PRICE..... .....$50.00
(Price reduced from $65.00.)

The retort can be heated in any stove, over any gasoline heater or in an open fire.

THE advantage of using Calcium Light should be well considered. **It is clean, easy to handle, economical and reliable.** For those who expect to show in small towns and in the country, where electric lights are not used, the calcium light apparatus is indispensable. The calcium light is produced by a combination of oxygen and hydrogen gas; **is very white, next in intensity to electric light produces about 700 candle power,** and is the only other light that can be used to illuminate the views for moving-picture machines. It is so far ahead of oil light for stereopticon work that those who use them could not be induced to return to the use of oil. For example, a picture from an oil light lantern can be thrown on the screen and allowed to remain while a picture from another view from calcium light is thrown on top, and the slightest trace of the oil light picture can scarcely be seen. Pictures can be shown twice the size and be much more distinct. **We have carefully considered all of the light-making apparatus** on the market and have selected one which we believe it would be difficult to improve upon. It is extremely simple, having the smallest number of parts possible, but at the same time is thoroughly efficient. The outfit consists of a strong steel tank for storing the gas, a pressure gauge, which shows at all times the pressure of gas contained in the cylinder, a retort (G) in which the chemicals are placed for generating the gas, a filter (D) through which the gas passes for purification and before going into the tank, and a saturator for converting a portion of the oxygen gas into hydrogen gas. The chemicals required for producing the oxygen gas are black oxide of manganese and chlorate of potash. These chemicals are heated in the retort, in a stove, open fire or any way convenient which converts them into gas, which passes into the steel tank as fast as generated. This gas is pure oxygen, and as it will not burn alone there is absolutely no danger from using it. When in use the gas is fed to the burner by two rubber tubes, one coming direct from the steel tank supplying the oxygen gas while the other comes through a small saturator which is supplied with a small amount of gasoline, thus converting it into hydrogen gas. The cost of gas for an evening's entertainment is but about 35 cents. The apparatus, with the exception of the tank is packed in strong boxes, and both tank and generating apparatus **can be carried by the exhibitor on the railroad as personal baggage.** Complete instructions accompany each outfit, which will enbale any one to easily understand and operate it.

No. 21412 **Gasoline Heater,** similar to the one represented with outfit $5.50

Showing Outfit Complete, packed ready for shipment. It weighs but about 150 lbs., includiog boxing, and can be checked on the railroads as personal baggage without cost.

COMBINATION ADVERTISING POSTERS AND TICKETS

Furnished when desired. We have them arranged for **Klondike and Moving Pictures. Graphophone and Moving Pictures. Graphophone and Klondike Lecture or Graphophone, Klonkike and Moving Pictures. Cuban and Graphophone. Klondike and Graphophone.**

We had so many calls for such combinations that we were compelled, at considerable expense, to have these different combinations made. They are beautifully illustrated with appropriate engravings, and have proven a great drawing card.

MANY EXHIBITORS who could afford to order but one outfit to start with, have, after a few days, ordered another, and in every case they have so far as we know, been more than satisfied with the results.

THE COMBINATION POSTERS will be furnished instead of the single posters when double or triple outfits are ordered. Samples and a complete list of the posters we have made up will be cheerfully furnished free on application. Please state when sending for samples, which are wanted.

WHAT THE PEOPLE SAY OF OUR ENTERTAINMENT OUTFITS.

$95.80 at Three Entertainments.

Bud, Ind., March 21, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—We have sent you money for the combination posters and ordered them forwarded to Trafalgar. We think that they will draw better than where we posted the graphophone and Klondike poster together. At Samara we had 142 adults at 20 cents, and fifty-eight children at 10 cents, making $34.20. At Spearville we had 208 tickets out at 15 cents straight, making $31.20. At Jamestown we had 304 at 10 cents straight, amounting to $30.40. We have put our posters up in the windows of the business houses and other conspicuous places, and use from fifteen to forty in a place, depending on the size. We saw your ad. of the optigraph moving picture attachment. Could it be attached to our lantern? If so, send a catalogue, as we would like to add that to our entertainments. We hope to hear from you at Morgantown, Ind., Saturday, March 26.

P. S.—We aim to bill at least one week in advance, and haven't used any newspaper advertising as yet. Do you think it would pay? HAMPTON & NORTON.

Everything Just as We Said.

Newkirk, O. T., April 7, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I received the Klondike outfit yesterday and glad to tell you that it is all right. Everything is just as you said it would be, and I shall deliver the first lecture on Saturday night, and from all appearances, and from the quality of the outfit you sent us, we have every reason to expect that we shall be successful. Thanking you for your kindness, I remain yours very truly,

FRED S. FARMER.

Confident There Is Good Money in It.

Fountain, Kan., April 7, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—The Klondike outfit which you sent us a little while ago arrived safely, but I neglected writing you concerning it. The weather has been unfavorable so far, and we have not been out any great deal with it, but may say that it is just as you represent it and a very fine outfit, and we are confident there is good money in it. Youry truly,

J. M. HENDERSON.

Outfit Better Than Expected.

Fountain, Kan., Feb. 14, 1898.

Sears, Roebuck & Co., Chicago, Ill.

I received the Klondike outfit at Carbondale, Kan., all in good order, and was greatly pleased and much surprised, as it was better than I expected. please send us price of additional posters should we wish to replenish our stock. J. M. HENDRICKS.

The Returns More Than Satisfactory.

Portland, N. D., April 2, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs.—I received the Klondike outfit which you shipped me some time ago in good order, and you must excuse me for not writing to you before to acknowledge receipt of same. It came here all right and everything in first-class order. I am not traveling with it myself, but the two men for whom I got it are doing so, and are now out with it in the west and northwest and are doing far better with it than they ever expected. From the account they write me it is more than satisfactory. I thank you for having filled my order so satisfactorily and remain

Yours truly, A. A. COLEMAN.

Entertainments Well Attended and Everybody Satisfied.

Ravenna, Neb., Feb. 23, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—We received the Klondike outfit which you sent us safely, and will say that so far we have not been a great distance from home with the lantern. However, the few entertainments we have given about here were well attended and everybody well satisfied. We think of adding a graphophone to the outfit and will write you further about it.

Yours truly, WM. QUINN, Jr.

Well Pleased with His Purchase and Prospects.

Chana, Ogle Co., Ill., April 25, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Sirs:—I received the Klondike outfit in good condition, and to say that I am highly pleased with it expresses it hardly. I find the lantern to be all you claim for it, and the views entirely satisfactory. In fact, I am well pleased with my purchase and prospects, and thank you for your promptness in filling the order. Yours truly,

CYRUS L. HIRSHBERGER.

Is Convinced of Great Success.

Walworth, Neb., April 21, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—Answering your letter will say that owing to inclement weather I have been prevented from giving as many Klondike exhibitions as I desired, but in every instance my patrons seem to be well pleased, and I feel convinced of great success in future. On my last exhibition I heard a person remark he had seen six different magic lanterns and this was ahead of all the rest. I am always glad to speak a good word for you, as I have always received the best of treatment. Respectfully,

R. H. SARGENT.

Made $30.00 in One Day.

Morgantown, N. C., July 14, 1898.

Sears, Roebuck & Co., Chicago, Ill.

I must say to you that on July 4th I made $10.00 in one hour on my graphophone, and for the day I made about $30.00. A. W. CLARKE.

Says Graphophone is a Mortgage Lifter.

Great Valley, N. Y., April 25, 1898.

Sears, Roebuck & Co., Chicago, Ill.

The Gem graphophone outfit that you sent me is a gem indeed. I have traveled in show business for thirty-five years, and since I started alone with my graphophone I have made more money and more friends (in the same length of time) than I ever did before. It is a mortgage lifter, sure. I am making just about $25 to $30 a week clear in rural districts at the School houses, and about $15 to $25 in villages. It is a god send to me.

Your humble servant. PROF. H. P. BERRY.

Successful from the Start.

Sharon Center, Medina Co., O., March 18, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—Writing you concerning the Klondike outfit I purchased, will say that I gave an entertainment last evening and met with success. The lantern worked good and the views gave good satisfaction. Respectfully, I. U. SAN-TEE.

Klondike Entertainment Takes Well.

Reams, Va., March 27, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I received the Klondike lantern and views, which are very good, and they take well. The landscapes are first-class, and the indications are that I will do an immense business.

Very truly, J. E. SMITH.

Moving Picture Machine Satisfactory in Every Respect.

Oak Lake, Manitoba, Canada, Feb. 19, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—This is to certify that we have purchased one of your projecting machines, which has given us entire satisfaction in every respect.

Yours truly, GOULD & SHERSON

Made $11.00 at a Picnic.

Roseburg, Douglas Co., Ore., July 6, 1898.

Sears, Roebuck & Co., Chicago, Ill.

We have received the graphophone and are well pleased with the same. Will say that we made $11.00 with the graphophone alone at a little country picnic, and expect to do proportionately as well elsewhere. Yours truly, H. P. CONYERS.

Made $8.85 in One Hour and Fifty-Five minutes.

Pollock, La., July 11, 1898.

Sears, Roebuck & Co., Chicago, Ill.

The graphophone I purchased of you some time ago has given entire satisfaction. I can make from $4.00 to $5.00 a day with it. In fact, have made as much as $8.85 in one hour and fifty-five minutes.

Yours truly, B. F. PARKER.

The Outfit Is Thoroughly Satisfactory.

Rock Springs, Sweetwater Co. Wo. April 29, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I have been west for the last month giving exhibitions with my Klondike outfit, and my efforts along that line certainly warrant me in stating that the outfit is thoroughly satisfactory, the lantern being a fine and good machine. I propose to add the moving picture machine to my exhibition at no distant date. Yours truly,

COLVIN L. COUSINS.

Makes $6.00 in Two Hours.

Union City, Wash., July 6, 1898.

Sears, Roebuck & Co., Chicago, Ill.

The graphophone is a success. I took in $6.00 in two hours. I remain,

Sincerely, J. E. YOUNGBLOD.

Makes $10.00 to $30.00 per Night.

468 Julette St., Dallas, Texas, May 24, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I have just returned home from an exhibition tour with my graphophone outfit, and as evidence of my success will state that I am making from $10.00 to $30.00 per night. I will order your Cuban outfit next week. Everything is going nicely and I am making money. Yours truly,

J. W. Blair.

Graphophone Is a Hummer and a Ready Money maker.

On the Road in Georgia, May 10, 1898.

Sears, Roebuck & Co., Chicago, Ill.

The Gem graphophone outfit is a hummer and a ready money maker. The loudest and clearest I have ever heard. I am an old hand at the business and can heartily say it's a perfect success; and besides, my dealings with you people have been eminently satisfactory. Myself and my Gem are inseparable and I can say with "Sancho Panza," blessed be the man who first invented—the graphophone. FRANK JAMES.

Almost Paid for Outfit on Two Entertainments.

Irwin, Penn.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—Your graphophone outfit which cost $23.75 has arrived, and gives better satisfaction at entertainments than the large phonograph. It knocks them all out. I have made $22.00 clear out of two entertainments, when I got sick with a cold so have not been able to go out since, but will soon be able to try my luck again. Your records are all very loud and clear, and I think the best made.

Yours truly, CHAS. O. CARLSON.

Graphophone Is a Little Klondike.

Ernest, N. D., May 1, 1898.

Sears Roebuck & Co., Chicago, Ill.

Gentlemen:—The talking machine I ordered from you is giving good satisfaction and is a little Klondike. Yours truly, JOHN ALLISON.

Good Success in Entertainment Work and Expects to Continue.

514 E. 2nd St., Xenia, O., April 10, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—Yours to hand. In reply will say that since using my graphophone, I am highly pleased with it. It is as loud as machines here that cost $100.00. I have given several entertainments with good success, and expect to continue in this work. Assuring you of further orders, I remain,

Yours truly, CHAS. L. EDWARDS.

An Old Mac Makes $7.45 the First Evening.

Lawtey, Fla., July 10, 1898.

Sears, Roebuck & Co., Chicago, Ill.

I received the graphophone outfit and find it to be just what the people want. I gave an exhibition last night; had lots of fun, and cleared $7.45, which is not bad for an old man. J. F. COX.

Jamaica, Ia., Feb. 11, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I have just got back from a trip to the southern part of Guthrie county, Iowa, and can say that I have had the best of success considering the kind of weather that we have been having, and wherever we have shown every one says that is the loudest machine that they have ever heard. We have the very best of recommendations from all the people that we showed before. Thanking you for your fair way of doing business, I am

Yours respectfully, F J. SHERRY.

Has Made Considerable Money Besides Amusement.

Hardinsvill, Aark., April 25, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—The graphophone I purchased from you has given perfect satisfaction. **I have made considerable money with it, besides the home amusement.** Every person that hears the graphophone wants to hear it again. I expect to purchase a Kloudike outfit in the near future, and use it in connection with my graphophone entertainment.

Yorrs truly, S. DEMPSEY.

Graphophone Affords Remunerative Employment.

Hankinson, N. D., May 1, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—I ordered one of your $23.75 graphophone outfits, with which I have **made considerable money**, enough in fact, to convince me that it **affords remunerative employment**, and I propose to travel and give such entertainments in future.

Yours truly, L. A. TYSON.

Filled His Purse at Every Exhibition.

Cadillac, Mich., May 1, 1898.

Sears, Roebrck & Co., Chicago, Ill.

Dear Sirs:—I purchased a little Gem graphophone of you, and will say that for the money it can't be beat. **I made money fast with it while I was traveling, filling my purse at every exhibition, and** I propose to continue this class of work.

Yours truly, C. E. REDNER.

Giving Entertainments with Good Success.

Whitewater, Kan., Feb. 20, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—In regard to the graphophone purchased of you, I would say that it is fully up to standard; A1 good machine in every respect. I have heard quite a number of "talking machines," but the one I bought of you is the loudest and clearest one I ever heard, and everyone who has heard it says the same. I have given several entertainments with very good success. The half-dozen records ordered of you are on hand and they are all good. Thanking you for your kind attention, assuring you of all1 orders I may have in the future, and wishing you success, I am, Yours truly,

N. K. BROCKWAY.

Graphophone Pays Well.

Thomastown, Miss., April 30, 1899.

Sears, Roebuck & Co., Chicago, Ill.

Dear Sirs:—I have received the graphopeone outfit of you and am well pleased with it. The exhibitions that I have given have been entirely satisfactory, and **I have been well paid** for my trouble. Assuring you of my future orders, I remain

Yours truly, JAS. S. WHALIN.

Has Found it a Paying Investment.

Tonnar, Wis., March 21, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Gentlemen:—The graphophone and outfit ordered of you a short time ago came promptly to hand and was found to be exactly as represented. The graphophone does fine work and wins praise wherever exhibited. **I have found it a paying investment.**

Yorrs respectfully, H. M. FREER.

Making Money with the Graphophone.

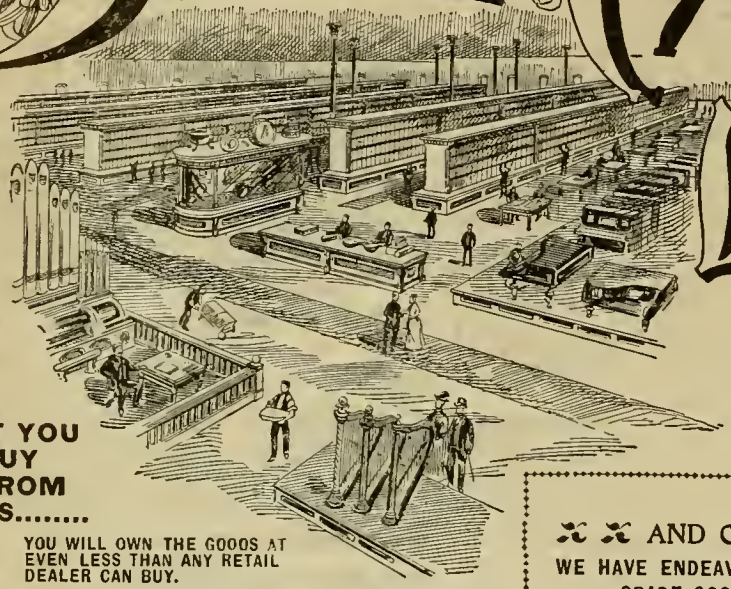
Siffner, Fla., March 14, 1898.

Sears, Roebuck & Co., Chicago, Ill.

Sirs:—The graphophone ordered from you came all O. K., but through neglect have not written you before. I am very well pleased with it, in fact, it is better than I expected for the money. I have given several entertainments, and in addition to their paying for the machine I have made considerable more. It is certainly a success.

Very truly yours, R. A. BRADLEY.

SEARS, ROEBUCK & CO. INCORPORATED MUSICAL GOODS DEPARTMENT



IF YOU BUY FROM US.....

YOU WILL OWN THE GOODS AT EVEN LESS THAN ANY RETAIL DEALER CAN BUY.

IN THIS OUR .....DEPARTMENT OF

ORGANS, PIANOS,

AND OTHER MUSICAL INSTRUMENTS,

WE HAVE ENDEAVORED TO SHOW A VERY COMPLETE LINE OF ONLY STRICTLY HIGH GRADE GOODS AND AT PRICES BASED ON THE ACTUAL COST TO PRODUCE WITH ONLY OUR ONE SMALL PERCENTAGE OF PROFIT ADDED.

Our Organs and Pianos are made by one of the largest and most reliable makers in America, a concern whose reputation for the manufacture of only strictly high grade instruments is a guarantee for quality, every piece and part that enters into their construction is carefully selected, all wood material are seasoned and everything the highest grade.

TWENTY-FIVE YEARS' BINDING GUARANTEE

Accompanies every instrument during which time, if any piece or part gives out by reason of defect in material or labor, we will replace it free of charge. With care our instruments will last a life-time.

OUR ORGANS.—FROM OUR HAPPY HOME ORGANS $27.00, TO OUR COLUMBIAN AT $56.00, all strictly high grade and equal to the best made, regardless of price.

OUR PIANOS.—FROM OUR AMERICAN HOME, AT $125.00, TO OUR ARTIST'S CABINET GRAND AT $235.00, are strictly high grade, the equal of any instrument made, regardless of price.

WE CAN SAVE YOU SO MUCH MONEY ON ORGANS AND PIANOS that you cannot afford to pay retail dealers' or agents' prices, you cannot afford to buy on time or on the installment plan.

IT WILL PAY YOU TO BORROW MONEY and pay us $125.00 to $235.00 for a piano rather than pay some local dealer $300.00 to $600.00 and get time payment.

WE WILL SHOW YOU OUR INSTRUMENTS in our store, take you through the factory and show you how they are made, if you can come to Chicago before buying, or if you have friends here we will gladly show them and they can write you about them.

Our Guitars and Mandolins. We Guarantee the highest grade made and our prices astonishingly low, every guitar and mandolin is American made, warranted never to crack or split, perfect scale, sweetest toned and best finished instrument made. The Manufacturer, every dealer concedes, is the best maker of Guitars and Mandolins in America.

Our Violins, Band Instruments and other Musical Instruments and Musical Merchandise we have made under contract with leading American manufacturers and we import from the most noted European makers, and we base our selling price on the basis of actual cost, freight, duly and our one small profit added, and our prices will, in many cases, be found less than one-half the price charged by retail dealers.

Our Special Terms of Shipment.

ORGANS OR PIANOS will be sent to any address by freight, C. O. D. subject to examination on receipt of $1.00 as a guarantee of good faith. You can examine the instrument at your nearest freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our prices and freight charges.

AFTER 30 DAYS' TRIAL

You can return the instrument and we will refund your money if you are not satisfied.

GIVE US A TRIAL ORDER

and whether you order an Organ, Piano or small Musical Instrument or Musical Merchandise, we will convince you that from us you will always receive only the highest grade merchandise, and at about one-half the price charged by other dealers.

Most of our Customers SEND CASH IN FULL WITH ORDER. They save all annoyances and delays of C. O. D. shipments, and under our binding guarantee have practically the same privileges of examination and return if not as represented.

About the Freight. Organs and Pianos are accepted by railroad companies at first-class freight rate and under each description we give the weight of each instrument. Refer to freight rates in front of book for first-class rate per 100 pounds to nearest point in your state and you can calculate almost exactly what the freight will amount to.

SMALL MUSICAL INSTRUMENTS, such as Violins, Guitars, Brass and other Instruments will be sent to any address on receipt of ONE DOLLAR as a guarantee of good faith, you can examine the goods at the nearest express office and, if found perfectly satisfactory; pay the express agent the balance and express charges.

THIS IS THE HIGHEST GRADE PIANO WE HANDLE. the Finest Instrument the Manufacturer Turns Out.

WE HAVE SEEN AN INFERIOR PIANO LISTED IN CATALOGUES AS HIGH AS $700.00.

WE GUARANTEE it to compare favorably with anything you can buy elsewhere at more than double the price.

We believe this our ARTISTS' CABINET GRAND PIANO to be without an equal in quality of tone and construction.

The Pianissimo Pedal, which controls a curtain of the finest wool and felt that slides automatically between the hammers and wires when the pedal is pressed, is one that is a practical benefit not only to musicians but to persons who are learning to play the piano, producing as it does not only a charming effect but reducing the sound to such an extent that the instrument cannot be heard outside the room in which it is being played. This piano can be practiced upon in the most crude manner without any possibility of damaging the hammers or wires and with no annoying results to others. The addition of this pedal was the one thing necessary to make this a perfect piano in every respect.

WE OFFER IT ON THE SAME LIBERAL TERMS. We solicit an opportunity to have it compared with anything that can be bought within 50 per cent above the price. Have it tested by yourself or local artists, allow it to remain in your possession for 30 days, and if it does not come up to our representations in every way, if not found superior to anything that can be had at anything like the price, we will expect you to return it at our expense and we will refund your money.

SCALE. 7⅓ octaves, full size, overstrung. 3 strings to each note except wound bass strings, nickel plated action rail and brackets, full length metal frame handsomely embellished, the most perfect upright piano action possible to manufacture.

THE CASE. The case is beautifully finished, double veneered inside and out with the finest veneering; very finest quality ivory keys and ebony sharps; handsomely carved, decorated and ornamented trusses; all mouldings and trusses in solid woods. The music desk is elaborately carved with finest raised hand carvings in the most artistic designs. The background of the carving is in dull finish while the other space is very highly polished, producing a grand effect to be found only in instruments which you would pay the city retail dealer $500.00 to $700.00 for. The fall board is of the Boston rolling fall pattern.

OUR ARTISTS' CABINET GRAND PIANO is fitted with New Pianissimo Pedal and Celebrated Scale, the finest furnished with any instrument.

A REGULAR $75.00 ORGAN FOR $31.75

OUR ACME QUEEN IS GUARANTEED FOR 25 YEARS. LONGEST, STRONGEST AND MOST BINDING GUARANTEE EVER GIVEN WITH AN ORGAN OR PIANO.

DIMENSIONS. Height, 77 inches. Length, 42 inches. Width, 23 inches. Weight, boxed for shipment, about 325 pounds.

DESCRIPTION. 5 Octaves, 11 Stops, 2 Octave Couplers, 1 Tone Swell, 1 Grand Organ Swell, 4 Sets Orchestral Toned Resonatory Pipe Quality Reeds, 1 Set Exquisitely Pure and Sweet Melodia of 37 Reeds, 1 Set Charmingly Brilliant Celeste of 37 Reeds, 1 Set Rich, Mellow, Smooth Diapason of 24 Reeds, 1 Set Pleasing, Soft, Melodious Principal of 24 Reeds.

NAMES OF 11 STOPS. **Diapason, Principal, Dulciana, Melodia, Celeste, Cremona, Bass Coupler, Treble Coupler, Diapason Forte, Principal Forte and Vox Humana.**

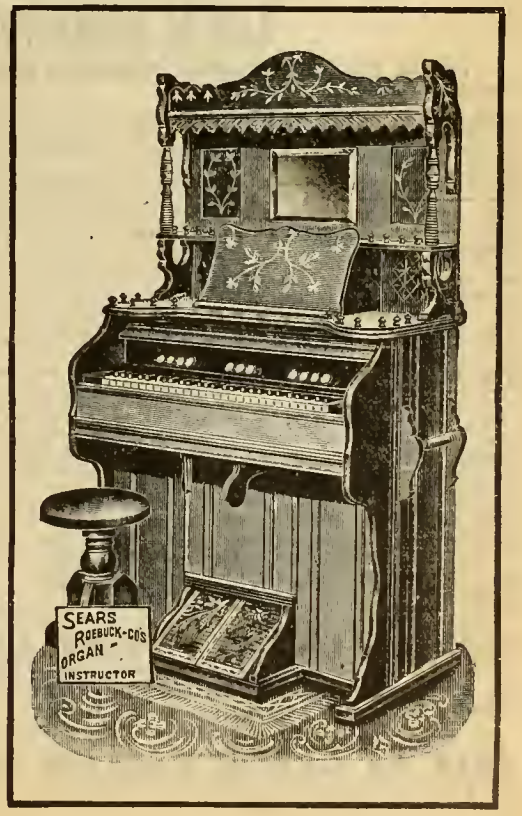
THE ACTION IN THIS ORGAN. Consists of the **celebrated Newell Reeds** which are only used in the highest grade instruments. This organ is fitted with **Hammond's couplers and vox humana**, also the best **Dolge felts**, leather, etc.

THE CASE. **This is one of the handsomest cases ever used on an organ at anything like the price.** It comes only in solid oak, beautifully carved, ornamented and decorated as shown in the illustration. **It is especially constructed to develop the acoustic properties of the organ**, forming a qualifying chamber which gives a pipe-like quality to the tone hitherto unattained in the finest reed organs. The wood used in the case is thoroughly seasoned and will stand any climatic changes. It is highly finished, has a 10x14-inch french bevel plate mirror, nickel plated pedal frames and every modern improvement.

THE BELLOWS **Used in this action are made of the best rubber cloth** and of 3-ply bellows stock, and the finest sheepskin leather in the valves.

THE TONE. **That most important quality in an organ is faultless.** The depth and breadth, without sacrificing sweetness of tone by the sounding chamber, together with the finely tempered metal used in the reeds, **secure a purity of tone which can only be equaled by the soft pipe of the church organ.** These pipe-like qualities cannot be procured from any other manufacturer at any price as our action and reeds are covered by a manufacturer's patent.

Do not overlook our liberal terms of shipment as fully explained.



GUARANTEED FOR 25 YEARS.

DESCRIPTION OF THE BEAUTIFUL CASE. This handsome case, which we furnish in either solid oak, finished antique, or in solid black walnut as desired, is handsomely carved, decorated and finished, highly polished and ornamented as shown in the illustration, is made of thoroughly seasoned, kiln dried lumber, oil finished and hand rubbed. The design is entirely original and is extremely rich and elaborate. The top is ornamented with a superb French bevel plate mirror 10x14 inches in size. It is fitted with a nice pocket for music. It has lamp stands, music receptacle, sliding fall cover with lock, rollers for moving, and in fact every modern improvement.

THE ACTION This is the most compact and powerful double reed action ever invented. The action is practically dust proof and so simple and yet so strongly constructed that it cannot get out of order. The tone is powerful, rich, full and sweet, and by the use of the stops an endless variety of grand and beautiful effects is perfectly at the organist's command. The working of the action is perfect. It is strong, difficult to displace, the metal parts are of the finest and most evenly tempered coppered and silvered steel wire and impervious to damp and rust. It is positively mouse and insect proof and specially prepared and adapted to withstand all climatic changes, this being absolutely necessary, owing to our enormous trade in all climates. **It is fitted with our patent dust proof action,** 5 octave, 4 sets of pipe-toned reeds, 122 in all; double octave couplers, 11 necessary stops, 2 knee swells and vox humana, **all the latest improvements, everything up to date** and a perfect parlor organ.

THE BELLOWS used with this action are the finest and most powerful possible to construct. The lumber used is highly seasoned, the silk rubber cloth is extra heavy and the bellows will not leak. The automatic air valve relieves all surplus pressure so that the bellows cannot be overstrained. They are self regulating. The pedal straps are ingeniously fixed by a patent contrivance that will not wear out and positively prevents breakage.

THE INSIDE FINISH of this organ is as neat and perfect as the outside. Every part is well looked after and none but the very best mechanics are employed by the manufacturer in building. The action is the same as in our most costly cases, is made up of the very best wires, leathers, felts, etc.

FITTINGS Among the fittings of this organ you will find in addition to the heavy bevel plate mirror, bevel faced celluloid stop knobs, nickel plated pedal frames with best Brussels carpet, extension lamp shelf and handles.

Our Great Offer.

No. 22198 In this outfit we include an old standby, a genuine Stainer model Violin. This model is one which is admired by everyone, producing the sweetest, most powerful and pleasing tone, a light red and old amber color, handsomely shaded and highly polished. The finish is equal to that of many violins which you will find in retail stores at double our price for the complete outfit. It has full ebony trimmings, including a solid ebony fingerboard and tail-piece. At our special price of $6.95 we include a bow, considered a rare bargain at $1.50. It is made of the finest Brazil wood, has a solid ebony frog, genuine pearl slide and fitted with solid German silver button. The violin case is a very handsome wood case, genuine American make and handsomely black varnished. It is half lined with flannel and has strong lock and key as well as hooks and handle. We also include free a large piece of superfine bow rosin and a complete set of strings which are equal to the best carried by most retail dealers. Do not overlook the valuable instruction book which we also give free. Remember our liberal terms—satisfaction guaranteed when cash in full accompanies the order, or if you send $1.00 with your order we will send the outfit C. O. D. subject to examination. Our special price for the outfit complete $6.95

Great Bargain Violin Outfit For $8.65.

No. 22200 The Violin which we include in this outfit is a genuine Stradivarius model, a model which is much sought after by artists as one that is remarkably superior in every respect, and which possesses a tone in resonance, power and purity equal to that of any instrument for which you will frequently be asked $25.00 by retail dealers. Reddish brown in color, beautifully shaded and handsomely polished, has ebony fingerboard and solid ebony tailpiece. With this outfit we give a fine Brazil wood bow which will be recognized at once by professionals as strictly high grade. It has solid ebony frog, pearl slide and is full German silver trimmed. The violin case is the best American made wood case, black varnished, full lined with flannel and complete with nickel plated lock, handle and hook hasps. We include a full set of strings of superfine quality. The violin bow rosin is an extra large cake put up in a neat box to be used without taking from the box and hence keeping the fingers from being soiled. We include also a complete instruction book, the most complete published, one which will be of as much value to you as an expensive teacher. It includes also a number of pieces of music. Our special price, complete. $8.65

Our Highest Grade Violin Outfit for $12.95.

No. 22202 At $12.95 we offer an outfit in which we include a genuine Maggini model violin. Every one will at once recognize that in this outfit they will secure a violin of superior model and one which being made by the best manufacturer, after such a superior model can not be otherwise than remarkable for tone, finish and workmanship. It is an instrument that professionals will pronounce perfect and is beyond the criticism of the best artists. It is medium red in color, has a double row of inlaying around edges and is very highly polished. It has solid ebony trimmings in the way of ebony finger board and ebony tail piece. The neck is nicely finished and in every way throughout, the instrument is one of which the purchaser will be proud. In fact, it is seldom that such an instrument will be found in retail stores, and if carried in stock by small dealers the price will invariably be from $15.00 to $25.00. The outfit is complete with all the accessories which we give regularly, but with this particular outfit we include articles of unusual value. The violin bow which we include is a genuine Tourte model. It is made of genuine Brazil wood, has solid ebony frog, pearl inlaid eye, pearl slide and is German silver lined and German silver button. The violin case is our highest grade Exposition shaped wood case, genuine American made and of unusual value. It is black varnished, full flannel lined and complete with lock, handle and spring clasps. With the outfit we also include our finest violin bow rosin. The same valuable instruction book which is included in all our violin outfits goes with this one. It is the best instruction book published and with its aid there is no need of the expense of a teacher.

The Illustrations on This Page

will give but a fair idea of the beauty of Acme Professional Mandolins, made for us exclusively. We have spared no expense or time in having made a line of mandolins that cannot in any way be surpassed in quality of tone, correctness of scale and perfection in workmanship and material.

WE GUARANTEE EACH AND EVERY INSTRUMENT to be accurately fretted and to possess a tone which cannot be had in any mandolin at twice the price we ask for them.

THESE INSTRUMENTS ARE MANUFACTURED for us under special contract, by one of the largest and best-known manufacturers of stringed instruments in the United States. The wood used in these mandolins is thoroughly seasoned, being made of three year old stock, each and every rib being carefully gauged and fitted, so that when finished we have a perfect instrument in every detail.

WE USE A PATENT HEAD on these instruments which is not found on any other instrument, they being the only patent heads having no lost motion, thus insuring the performer an evenness of tone at all times. We guarantee these instruments against warping or cracking. Should you purchase one of these instruments and it should crack or warp from natural causes, we will cheerfully replace same free of charge. The best of mandolins are liable to crack, especially rosewood, this being a wood which is very susceptible to climatic changes. These mandolins, as well as any other instrument, should be kept in a room of even temperature.

A full set of our Acme Professional Strings; Sears, Roebuck & Co.'s Professional Instructor, and one Professional Mandolin Pick—FREE with every instrument.

APOLLO HARPS.

ONE of the most attractive and sweetest toned of all stringed instruments is the Apollo Harp. This wonderful instrument is exceedingly simple an easy to play. In fact, no musical education is necessary in order to produce the most pleasing music. No teacher is required; you can play ordinar airs the first day. **The action of the Apollo Harp is very simple.** Each of these instruments is fitted with a symphonic bridge, which, besides the met frame, consists of felt with openings at the proper intervals, through which, by sliding the pick over the felt, the right strings are struck to produce a perfec chord. Each string is vibrated by means of a small pick which strikes the string through the opening in the symphonic bridge. You can readily perceive tha **no knowledge of music is required to play the instrument.** The entire scheme of playing is practically laid out by the arrangement above mentione **The playing of chords is simplicity itself,** while the execution of more complicated music is rendered easy by means of the simple and comprehensive instruc tions which we send with each instrument. **There is absolutely nothing in the range of musical ability that cannot be produced on it.**

Our $2.95 Apollo Harp.

No. 22500 At $2.95 we offer this beautiful instrument which is fitted with fixed symphonic bridge and produces 4 chords in all, namely: 3 major chords in C and one minor chord. It is complete with a full set of strings, tuning pin, instruction book with music and pick for playing. As an additional guide for playing, in front of the symphonic bridge and underneath the strings is a regular scale showing the letter and figure of each string corresponding with the music in the instruction book.
Our special price. $2.95

Fixed with a symphonic bridge, and we furnish it complete with music rack, pick for playing and valuable instruction book, which includes many pieces of music, and when received it is ready to play. We pack it very carefully for shipment and send it to any address, C. O. D., subject to examination, when $1.00 accompanies the order. Wherever we have introduced one of these beautiful instruments we have had other orders, and are only too anxious to have one sent to your neighborhood, knowing that our musical goods trade will be very greatly increased. Our special price.....$3.95
Weight, packed for shipmont, 6 lbs.

Our $6.55 Apollo Harp.

No. 22508

AT $6.55 WE OFFER AN INSTRUMENT WHICH HAS WONDERFUL RANGE IN PLAYING QUALITIES.....

While the symphonic side has but three bars, in this instrument, instead of being fixed to the case it is adjustable—that is, it can be so adjusted over the strings that 27 cords may be played. There are 9 separate adjustments which can be made, giving the instrument possibilities which are beyond conception when the extremely low price is considered. It has chromatic scale with 33 strings, and produces the tonic, dominant seventh and sub-dominant in 9 different keys, namely: C, C sharp, D, Eb, E, F, F sharp, G and Ab. One particularly valuable feature of this instrument is the novel manner of extending the strings from the pin-block down and around the end of the harp and back to the other side of the same block. This pressing of the sound board renders a clearer, sweeter and very much better tone or singing quality than any other box or any other form of harp. We send complete instruction book free.
No. 22508 Our special price, each.....$6.55
Weight, packed for shipment, 8 lbs.

The Greatest Bargain Apollo Harp for $8.15.

No. 22510 The musical possibilities are simp wonderful, and the fact that by means of the 4-b adjustable symphonic slide, 48 chords can be rend ered is only one of a hundred different special fea ures. Gives it the sweetest, clearest and most ex quisite tone found in any instrument manufac ured. This harp has 33 strings chromatically stru and produces 48 chords, namely: tonic, dominan seventh, sub-dominant and minor in every on of the 12 keys. At our special price we also includ pick for playing, a full and complete set of string tuning hammer, music rack and instruction boo with many pieces of music.
Our special price, each.....$8.1

AN $6.00 ROLLER ORGAN FOR $4.25

OUR $4.25 ROLLER ORGAN is a Special Grade Instrument made under contract for us, and you will find a much better organ than many of the cheaper grades on the market.

OUR GEM ROLLER ORGAN is so simple that a little child can play it. One of the most perfect musical instruments ever produced. The music is obtained from the roller which has teeth or pins like those on the roller of a music box. These pins operate on the valve keys, and the roller is turned by gearing, which also works the bellows. The mechanism is after the same plan as the parlor organ. You can get rollers of any kind of music you want, SACRED, SPANISH, or GERMAN music, popular airs, waltzes, or any kind of dance music. These rollers cost only the same or less than ordinary sheet music. The reeds are of full organ size, and the volume of tone is equal to that of a fine parlor organ. The case is an elegant one of imitation black walnut, and is 16 inches long, 14 inches wide, and 9 inches high. Weight, boxed, 15 lbs.

ACCORDEONS.

The name "Imperial," together with the "double anchor" trade-mark on an accordeon, is a guarantee of its being of the very highest grade. While the price of these goods may be a trifle higher than others, the satisfaction derived from them on account of the perfect workmanship and wearing qualities, will amply repay for the difference in price, and they will be found much the cheapest in the end. We guarantee every one to arrive in perfect playing condition. You cannot make a mistake in buying a Kalbe's Imperial, for you get the very best article of the kind that is made. Attention is especially called to the patent simplex keys which are made of heavy metal, in one piece, and are extremely durable. All of the styles of Imperial Accordeons that we carry are supplied with patent metal bellows corners and patent folding clasps. Every part of these instruments is of the very best material and workmanship.

HARMONICAS

OUR STOCK OF HARMONICAS HAS BEEN REPLENISHED AND VERY LARGELY INCREASED BY REASON OF THE NEW TARIFF . . . . . ,

OUR BUYER IN EUROPE HAS VISITED THE LEADING MANUFACTURERS, and from them has secured their best lines of instruments, and by importing them immediately before the tari went into effect we have **SAVED FOR OURSELVES AND FOR OUR CUSTOMERS THE EXTRA IMPORT DUTY.** You will observe, therefore, that not a single price has been increased over the prices named in our previous catalogue. We believe we can say without fear of contradiction that ours is the only concern in this country that has not raised its prices on musical goods of foreign manufacture. It is ourcustom to guard our customers' interests so far as it is possible to do so, and by our foresight in laying in a large stock of musical instruments before the tariff bill went into effect we are able to **SAVE OUR CUSTOMERS FROM 20 TO 40 PER CENT IMPORT DUTY** which has been added by the new tariff law.

No. 23204 **Same**, with bell. Each.....$3.50

The metronome is used by students of music, especially of the piano, to indicate the tempo or time. The upright rod moves backward and forward like an inverted pendulum, the movement being actuated by a spring which is wound up with a key. The time is indicated both to eye and ear, the movement being in sight and ticking similar to a clock. The time is regulated fast or slow by the sliding weight on the "pendulum," while the latter has a graduated scale. This is an invaluable instrument for pupils of the piano and organ especially.

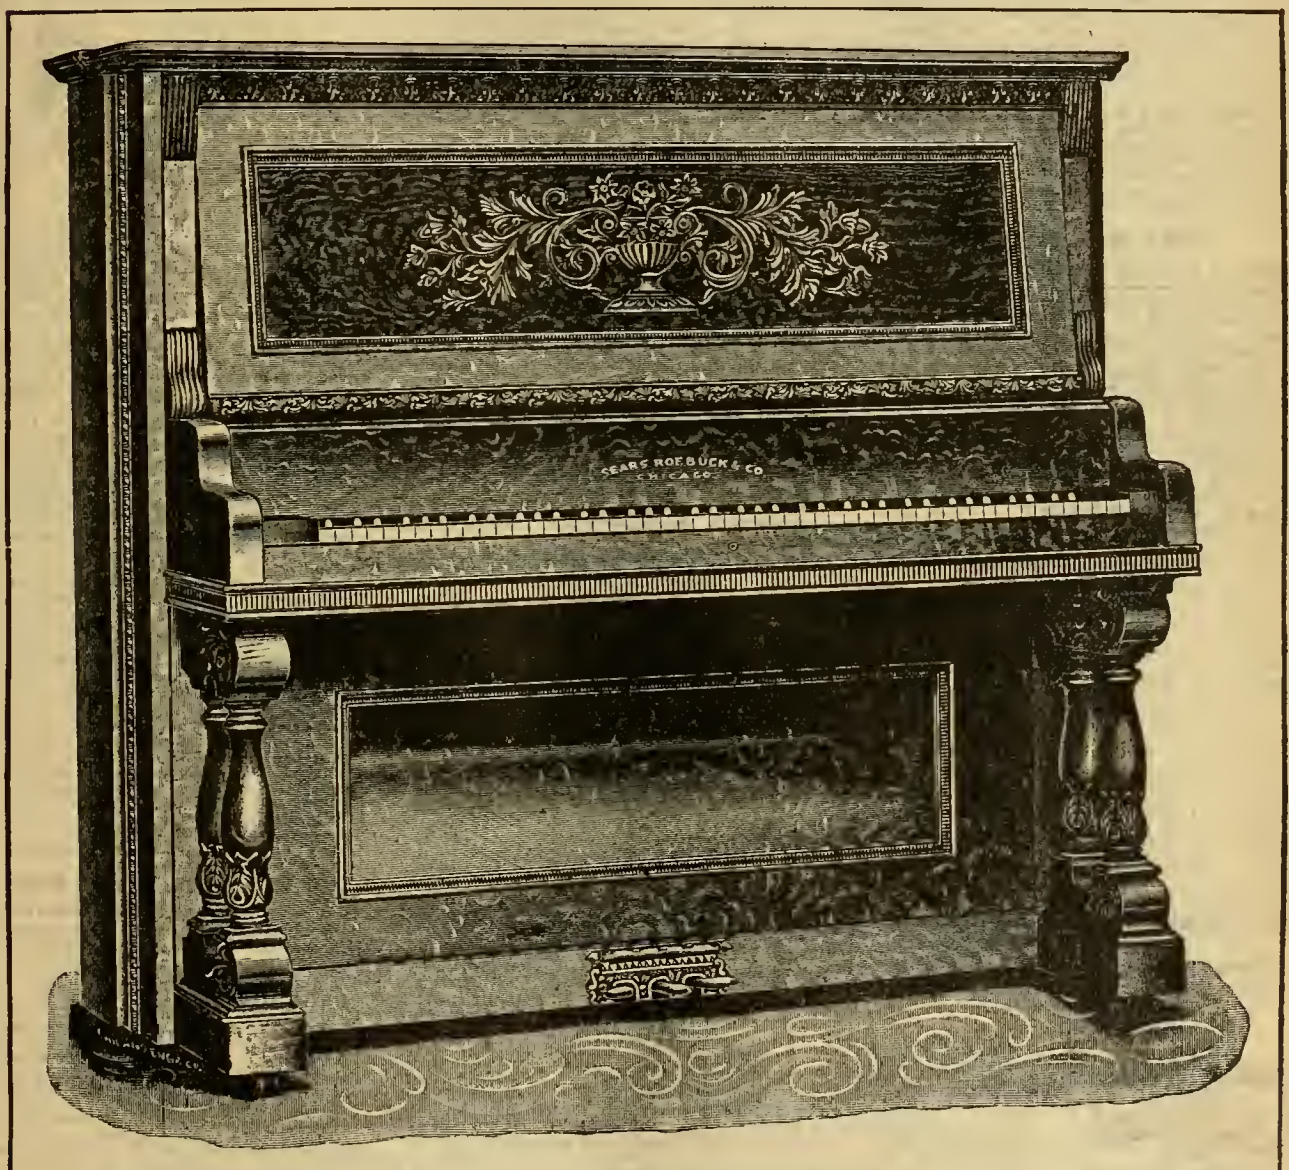
OUR

$175.00 Acme Cabinet Grand Upright Piano.

100 of these new high grade, 25 year guaranteed UPRIGHT GRAND PIANOS

WILL BE SOLD AT $175.00 EACH.

This new CABINET GRAND PIANO embodies everything which a strictly high grade instrument should posess, and has been carefully selected for us by most competent critics and endorsed by professionals of high merit.



This Case is the very latest and most approved style, double veneered inside and outside and cross-banded and comes in either Ebony, Rosewood, English Quarter Sawed Oak, Burled Walnut, Mahogany or Circassian Walnut, as desired. Very elaborately hand-polished throughout. The carvings, heavy trusses, pillars and decorations make it one of the handsomest instruments ever produced.

Is fitted with the latest patent pedal guard and pedals, continuous nickel hinges, latest Boston Fall and fall swinging music front. The scale is perfect and even. Every tone and note, from extreme bass to treble end, are full, resonant, sweet and powerful, and susceptable of that marvelous expansion so much appreciated by the artist musician. The sustained effect in accompaniment is especially adapted for voice.

The sounding board is constructed oval, and so laid as to never crack, and will insure full tones throughout the life of the piano. The Piano can not become weak, thin and tinny, so common to square pianos and flat sounding board uprights.

The action is double repeating, the touch extremely quick, responsive and perfect. Every part is made of the finest material, in felt, wood and tempered springs. The action is as carefully regulated throughout as a watch.

The strings are three unison in the treble with wound strings in the bass, and the very finest quality. The tuning pins are all tested, approved and tempered.

The Keys are Ivory of fine selection, and full seven and one-third octave, so necessary in cabinet grand pianos.

EXTRA LARGE. Weighs about 900 pounds.

Our Binding Guarantee for 25 years makes you SAFE FOR ALL TIMES. **If You Do Not Find** the Piano all and even more than we claim for it, you can return it at our expense, and we will refund your money.

$175.00 IS THE LOWEST PRICE at which such an instrument was ever offered. Small Retail Dealers would ask at least $400.00. **OUR SPECIAL $175.00 PRICE** is based on the actual cost to build with but our one small profit added.

We include FREE a handsome piano scarf, stool to match the piano and a complete instruction book.

The Celebrated La Bonte Band Instruments.

WE ARE THE SOLE AGENTS FOR THE UNITED STATES.

We Direct the Attention of Every Band Leader, Every Orchestra Leader, in Fact, Every Player of a Band Instrument to the Wonderful Line which we Illustrate and Describe on the Following Pages.

OUR REPUTATION for the enormous sale of band instruments has led to one of the greatest manufacturers in Europe offering us the sole agency for his celebrated instruments. H. La Bonte & Co., of Paris, are recognized everywhere for the superb quality of their instruments. We are now the sole agents for the United States for these high-class goods, and we offer them to our customers with an absolute guarantee that they are perfect in every detail of workmanship and finish and possess a tone which is remarkable for purity and power. Every instrument is stamped "H. La Bonte & Co., Paris, Sears, Roebuck & Co., Chicago, Sole Agents for the United States."

DO NOT BE DECEIVED by retail dealers who claim to be offering La Bonte instruments. No dealer in this country can handle them. They can only be obtained through us as sole agents. Do not be deceived by retail dealers who offer inferior instruments, saying that they are just as good as the La Bonte.

THERE ARE MORE EXPENSIVE INSTRUMENTS on the market, but the most of them are mainly expensive by reason of fancy engraving, rich plating or some external expense which adds little or nothing to the tone. In workmanship these instruments are superior in every respect. They are the improved short model, the shortest possible consistent with the best musical production. The pattern is graceful and handsome. In tone they are wonderfully perfect and the tone is acknowledged by all to be superior in every respect. The finish of these instruments is such as you will find in only the highest class carried by retail dealers.

OUR LIBERAL TERMS. That every purchaser may be satisfied as to the strictly high quality of the La Bonte instruments, or any other band instrument which we handle, we send them C. O. D., subject to examination, upon receipt of $1.00. We will ship the instrument to your express office, and you have the privilege of full examination and trial at the express office, paying the balance with express charges to the agent as soon as you have found it entirely satisfactory and just as represented.

FREE WITH EACH INSTRUMENT. We send with each instrument a German silver mouthpiece, water key and music rack as well as a complete instruction book, by the use of which anyone can learn to play the band instrument without the aid of a teacher. Remember, these instruments are fitted with genuine German silver piston valves and are the best French light action. Bear this in mind when comparing our instruments with others of cheaper make, inferior goods, which are even sold at much higher prices. BEAR IN MIND that most cheap instruments are fitted with the cheapest kind of pump action, an action which no reputable musician will have in his instrument.

THE CELEBRATED MARCEAU INSTRUMENTS.

TO MEET A CERTAIN DEMAND for the highest class band instruments it is possible to produce, to such customers as wish to pay a higher price for the very finest, we have secured the sole agency of the Celebrated MARCEAU Instruments. These band instruments are made by Marceau & Co., of Paris, manufacturers with a reputation second to none for the high class of their goods. These instruments are similar in model to the La Bonte instruments, and we quote with the illustration of each La Bonte the corresponding instrument of the Marceau make.

WE NOT ONLY COVER EACH INSTRUMENT WITH A BINDING GUARANTEE that it shall be perfect in every respect, in tone, quality, model, finish and workmanship, and if any is found not fully up to representation it may be returned to us at our own expense and money refunded, but we furthermore ship on the most liberal C. O. D. terms, by the conditions of which you can send $1.00 with order and the instrument selected will be shipped to your express office C. O. D., subject to examination and approval. Pay the balance with express charges to express agent when you have seen and examined the instrument and found it exactly as represented. With this instrument we furnish free German silver mouthpiece of the best quality, handsome music rack and instruction book.

MOST IMPORTANT... Every Marceau instrument is fitted with the very finest German silver mouthpiece, water key, the celebrated French light action system and the most valuable piston valves fitted in any instrument.

CLARIONETS.

IMPORTANT Proper care must be taken of clarionets, flutes, piccolos and similar wooden instruments. They are liable to crack or check at any time through carelessness on the part of the owner or user. They are susceptible to changes of atmosphere, and especially so when damp from usage or otherwise. Always after using they should be wiped dry, inside and outside, and rubbed with sweet oil. No music dealer will be responsible for checking or cracking.

WE EXAMINE EACH INSTRUMENT with scrupulous care, and we **WARRANT EVERY ONE** to leave our house in perfect condition.

WE ARE OUTFITTERS FOR DRUM CORPS.

We will quote special prices on application for complete Fife and Drum Corps outfits. The line of Snare or Tenor Drums, as well as of Bass Drums, is made by a well-known manufacturer, who makes a specialty of this particular kind of instrument. The shell, hoops, heads and trimmings are all of special quality, warranted extra select, and put together by skilled workmen, whose experience is the result of years of experience. We consequently offer prospective purchasers a line of drums that must not be compared with the cheap, dingy instruments found in ordinary music stores, or by competetive houses. In fact, few retailers outside of large cities carry a stock of drums. The retailers must send away to some wholesale house. The advantage is very apparent, for you get such goods direct from the factory.

Anticipating the almost certain rise in price of all musical instruments, we have contracted for a very large supply. To prevent carrying over any stock, we cut right into the bottom price at once and name prices on the best drums made that cannot be duplicated by any concern.

We scarcely think it possible to duplicate these prices again. But, while our contracts hold good with the manufacturer, we shall stand by the prices we make below. We ship any drum C. O. D., subject to examination, on receipt of $5.00 as a guarantee of good faith.

As stated above, we shall be glad to name a special price on quantities to clubs. In writing, always state the exact style and number of instruments you want. If you do not find described herein just what you need, write us. Additional supplies for drum corps, in the shape of fifes, piccolas, drum majors' batons, etc., will be found in this catalogue further on.

☞ Many imitations of these special pattern drums are now on the market. Bear in mind that price alone does not make a bargain. Quality must have just as great consideration.

Through our factory-to-consumer plan we combine quality and price in a degree of economic perfection never seen before. We claim the best goods at the least money, and only ask a fair chance to back up every assertion.

SNARE DRUMS.

We are headquarters for Snare Drums. We are especially well prepared to furnish complete outfits for Fife and Drum corps. We invite correspondence where it is desired to purchase the drums and fifes for an entire corps. The quotations in this catalogue are based on our economic factory-to-consumer methods, and we invite comparison of our prices with those of anyone, anywhere, quoting the same high grade of goods. We ship goods C. O. D., subject to examination. We guarantee all instruments to be as represented. Shipping weight of snare drums is about 16 pounds.

STRINGS.

We import direct from European manufacturers and handle none but the best strings made. Not an inferior string sold by us at any price. We guarantee every one to be perfectly made of the best quality and material. We do not GUARANTEE them against breaking, but they will stand anything that can be expected of the best strings made. We solicit your orders on this particular line, knowing that we can please you to an eminent degree and save you from 50 to 60 per cent. on every purchase.

We wish to caution our trade in buying strings, against being misled by fancy names and high prices quoted by other dealers. We buy all our gut strings (steel and wound strings are made in this country) direct from the best European manufacturers, select only first quality, and are selling them at "rock-bottom" prices. A trial order will convince you that this statement is correct. Violin and banjo strings, weight, 2 oz. per set; guitar and violoncello strings, 4 oz. per set.

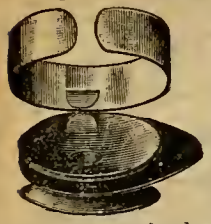
Professional Mandolin Pick.



The patent mandolin pick fastened to the finger by steel clasps, the pick proper being held between rubber discs it is possible for it to be held more firmly and at the same time not require the tightness of clasp, which is necessary with the old pick when playing soft music. By placing the thumb and index finger lightly on the disc the player will be able to play the sweetest and softest music possible, and if necessary he can tremolo a chord with the utmost ease. When playing louder all that is necessary is simply to increase the pressure of the disc. **We furnish a set complete, packed in box, containing two picks and one holder.** Our special price.....$0.22

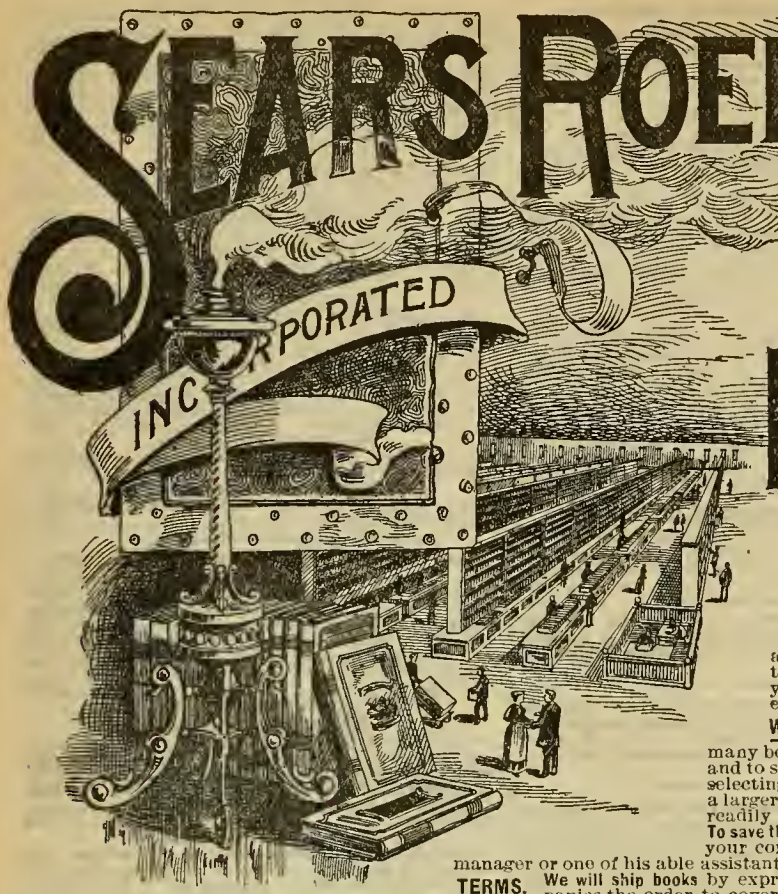
SEARS, ROEBUCK & CO.

BOOK & STATIONERY DEPARTMENT



WE PRESENT TO YOUR NOTICE ONE OF THE MOST COMPLETE BOOK DEPARTMENTS IN THE COUNTRY, and if interested in anything in this line we believe it will pay you to carefully read the following pages, note the illustrations and descriptions and particularly the prices.

THIS DEPARTMENT, from a comparatively small beginning, has grown to one of the **first branches of our business.** We are able to make our contracts on the basis of very large quantities direct with the publishers and printers, and at such favorable prices that we can offer you **everything in books,** including all standard works and publications, at even less money than the average dealer is in the habit of paying.

WE HAVE ENDEAVORED TO MAKE EVERYTHING PLAIN by showing small illustrations of many books, stationery, etc., as drawn by our artists direct from the photographs, and to so describe that you can order as intelligently as if you were in our store selecting the goods from stock. **There is perhaps no class of merchandise** which bears a larger profit to the retailer than books and stationery. What his profit is you can readily ascertain by comparing our prices with the prices charged by retailers. **To save this profit** it is only necessary to send your orders to us, and your order and your correspondence will have the prompt and careful attention of either the manager or one of his able assistants.

TERMS. **We will ship books** by express or freight C. O. D., **subject to examination,** when a sufficient amount accompanies the order to cover transportation charges both ways. You can examine the goods at your freight or express office, and if found satisfactory pay the agent our price and transportation charges, less the amount sent with order. **The best way is to send cash in full,** for you save express charges on return of money to us.

ABOUT MAIL SHIPMENTS. When books are to be sent by mail be sure to enclose enough extra to pay postage. If you send too much we will immediately return the balance, but if you do not send enough we will be compelled to hold your order and write for the balance. **Do not overlook the necessary postage in ordering books by mail.**

OUR CLUB ORDER SYSTEM commends itself to book buyers, for you will observe in looking over this catalogue that we have been able to figure our prices so low on many of the books that we can quote them to you at but little more than the cost of postage. For example, **our Arundel Series,** beautiful cloth bound books at 21 cents each, or 19 cents in lots of ten; postage, 11 cents per volume. It is therefore much cheaper to have books shipped by express or freight, **freight being preferable.** The transportation cost per volume is then reduced to next to nothing. **To take advantage of the lowest transportation rate,** it is desirable to make up a freight order. This you can do by getting your friends and neighbors to join with you and make up a club order.

WE ALWAYS ADVISE OUR CUSTOMERS to make their book orders large enough that we may ship by freight, but if one or more books are wanted by mail, **the postage must be included.**

Noyes' Dictionary and Book Holders.

A perfect Book-Holder. An ornament in the home, office or library. **It locks when opened and it closes and clasps the books firmly when unlocked, cannot be bent or broken.** The edges of the covers are protected by felt lined guards and the rests are so made that the books cannot get out of shape. **These holders are adjustable** to any height or angle, and are pivoted to turn to any position. The base is bronzed, the stand nickel plated, and the case of **polished walnut, oak or cherry.** The book rack holds eight or ten volumes and is very convenient.

No. 28000 Single Adjustable Book Holder, with book rack, bronze. Retail price, $4.00; our price.....$2.15

No. 28004 Adjustable Book Holder, with book rack, bronze. **To hold two volumes.** Retail price, $5.50, our price.....$3.20

Globes.

Every office, home and school-room should be supplied with a globe. We are aware that heretofore many School Boards, while recognizing the necessity of a globe, have been prevented from procuring one by its high cost. **We have listed a series of globes which are the best made and at prices quoted are within the reach of all.** The spheres are made with great care and warranted not to check or crack, every improvement in engraving, printing coloring and mounting the maps have received critical attention. **The latest political boundaries** at home and abroad are clearly indicated and the **latest geographical changes** are correctly shown. **A thousand and one things can be taught by means of a globe which cannot be shown without it, and the time saved in school would be worth many times its cost.**

A copy of the **Globe Manual** accompanies each globe. **The Manual gives explanations of the terms used in geography and astronomy,** and the phenomena of mathematical geography, including **temperature and ocean currents,** and forty-six problems on the use of globes, with rules and illustrative examples; also several valuable tables.

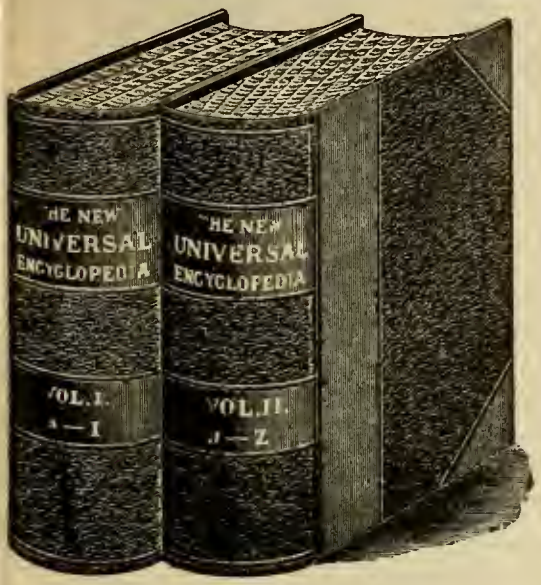
The New Universal Encyclopædia.

A Superb Reference Library Covering the Entire Range of Human Knowledge, Inventions and Discoveries up to the Present Day.....



No. 28139 This magnificent work is brought down to the date of its issue, January 1st, 1898, and is the authority of the world's most competent scholars, educators, scientists and specialists. It is the most complete, accurate and thoroughly up-to-date general reference book published. The following subjects are treated with 1897 and 1898 accuracy and freshness: Art, Science, Biography; Geography, History, Geology, Astronomy, Navigation, Physiology, Explorations, Botany, Agriculture, Commerce, Finance, Zoology, Ethnology, Chemistry, Electricity, Law, Medicine, Theology, Statistics, Artic Explorations, Color Photography, Electrical Science, Roentgen X Ray, Skiography, Political Economy, Natural History, Metallurgy. On these and a thousand other important topics of the day, the older books say nothing or are years behind the times.

Probably the most unique and valuable feature of this new encyclopædia is its treatment of the three hundred principal lines of commerce, from the raw material as it goes into the factory, workshop or mill until it comes out a finished article. Silk culture, woolen manufacture, beet sugar process, soap manufacture, dressed beef industry, iron and steel processes, electricity in all its new branches, book binding, paper making. In fact it would be almost impossible to name a single article whose process of manufacture is not fully set forth.

The information regarding recent inventions and discoveries is particularly full and complete. Special attention has been given to articles on newer foreign countries, those recently opened up to civilization.

In every case where it was possible the reading matter has been supplemented with illustrations, especially designed for this work. The various articles have been carefully outlined and subdivided, so that anyone, by glancing down the sub-headings, may easily find the particular part or parts desired. **This work is magnificently illustrated** throughout with over 2,500 engravings, many of which are full page. **Complete in two volumes,** containing over **3,000 pages.** Printed on **superior quality book paper from new large type,** artistically bound in silk-finish cloth, library style. Volumes are 10½x7¼x3¼ inches. Subscription price, $20.00. **Our price** per set of 2 volumes...**$4.25**

Gas, Gasoline and Oil Vapor Engines.

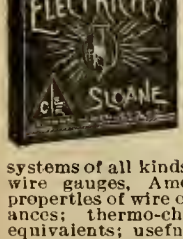
Arithmetic of Electricity.



No. 28141 Arithmetic of Electricity, by Prof. T. O'Conor Sloane, A practical treatise on electrical calculations of all kinds reduced to a series of rules, all of the simplest forms, and involving only ordinary arithmetic; each rule illustrated by one or more practical problems, **with detailed solution** of each one. Followed by an extensive series of tables, including the following subjects: All kinds of units of measurements of electrical and mechanical work, energy and heat; relations of different systems of all kinds of units; relation of different wire gauges, American and foreign; electrical properties of wire of different sizes; specific resistances; thermo-chemical and electro-chemical equivalents; useful factors, etc., etc. **This book may be classed among the most useful works published on the science of electricity,** covering as it does the mathematics of electricity in a manner that will attract the attention of those who are not familiar with algebraical formulæ. **138 pages, illustrated. Cloth.** Size, 5¼x7⅛ inches. Retail price, $1.00; our price.....**67c**
Postage, extra, 8 cents.

How to Become a Successful Electrician.

No. 28142 How to Become a Successful Electrician. By Prof. T. O'Conor Sloane. It is the ambition of thousands of young and old to become **electrical engineers.** Not everyone is prepared to spend several thousand dollars upon a college course, even if the three or four years requisite are at their disposal. **It is possible to become an electrical engineer without this sacrifice,** and this work is designed to tell **"How to Become a Successful Electrician,"** without the outlay usually spent in acquiring the profession. **189 pages, illustrated, cloth. Size,** 5¼x7⅛ **inches.**
Retail price, $1.00; our price.....**67c**
Postage, extra, 8 cents.

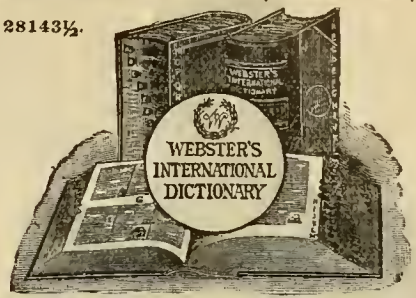
Electricity Simplified.

No. 28143 Electricity Simplified. By Prof. T. O'Conor Sloane. This work is the simplest ever published on the subject of **electricity,** and does something not hitherto accomplished. Electricity is in many respects unexplained by the scientist; **to the ordinary man it is all a mystery.** The object of **"Electricity Simplified"** is to make the subject as plain as possible, and to show what the modern conception of electricity is; to show how two plates of different metals immersed in acid **can send a message around the globe;** to explain how a bundle of copper wire rotated by a steam engine can be the agent in lighting our streets; to tell what the volt, ohm and ampere are, and what high and low tension mean; and to answer the questions that perpetually arise in the mind in this age of electricity. The theories of contract action of lines of force, magnetic permeability, correlation and conservation of energies, and the most modern aspects of the science are given, so that the work is a true presentation of the most advanced views of science upon the great development of the day. **By illustrations of original design and scope, and by mechanical analogies, the subject is made exceedingly simple. 158 pages. Illustrated. Cloth.** Size, 5¼x7½ inches. Retail price, $1.00; our price.....**67c**
Postage, extra, 8 cents.

WEBSTER'S INTERNATIONAL DICTIONARY

A Grand Investment for the Family, School or Library.

No. 28143½.



The International is a complete and thorough revision of the well-known Unabridged. Though it has been before the public but a short time, it has been **warmly commended** by members of the United States Supreme Court, by every State Superintendent of Schools in office since its publication, by eminent Authors, College Presidents and Educators almost without number.

The Best for Practical Purposes Because It is Easy to Find Words Wanted. Words are given their correct alphabetical places in the vocabulary, each one beginning a paragraph, so as to be readily caught by the eye.

Because it is easy to Ascertain the Pronunciation. The pronunciation is indicated by the ordinary diacritically marked letters used in the school books, whose sounds are taught in the public schools.

Because it is Easy to Trace the Growth of a Word. The etymologies are complete and scientific, and the different meanings a word has acquired are given in the order of their growth from the root idea.

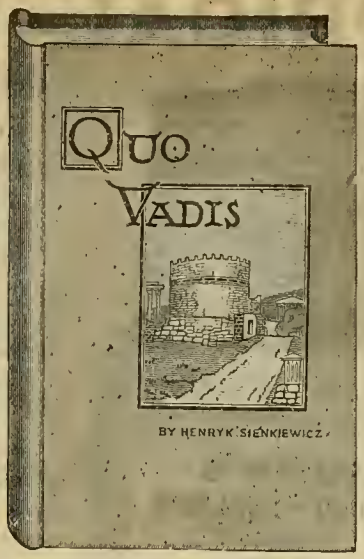
QUO VADIS, THE MOST POPULAR MODERN WORK FOR 80 CENTS.



No. 28232 A tale of the time of Nero by Henryk Sienkeiwicz. Translated by Dr. S. A. Binion and S. Malevsky. New library edition. In this, the grandest historical romance of the century, is depicted an intensely graphic characterization of the customs and daily life in Rome in the time of Nero. The story of Rome's opulent and unsavory patricians and politicians; her mercenary Augustales and Legions; her iguorant and besotted populace and alien rabble, is told by this marvelous word-painter in a mauner never before equaled in literature. We follow the great apostles, Peter and Paul, in their ministrations among the early Christians, we note their purity and sanctity of life, and readily understand the surprisingly rapid growth of the new and conquering religion of love. We witness the Christians in their trials and pitiless sufferings in the Coliseum, see the gladiatorial combats and observe the universal hollowness and selfishness pervading society and the iniquities and rottenness of the empire, foreshadowing its sure and certain downfall. We see Peter and Paul die the death of the just—with God's glory shining in their faces—and we view also with satisfaction the tragic and deserved death of the "Beast"—the matricide, fratricide, incendiary, Nero, etc. Attractively bound in cloth, ornamental, illustrated, contains 500 pages. Size, 5½x7½ inches. No library is complete without a copy of this great historical work.

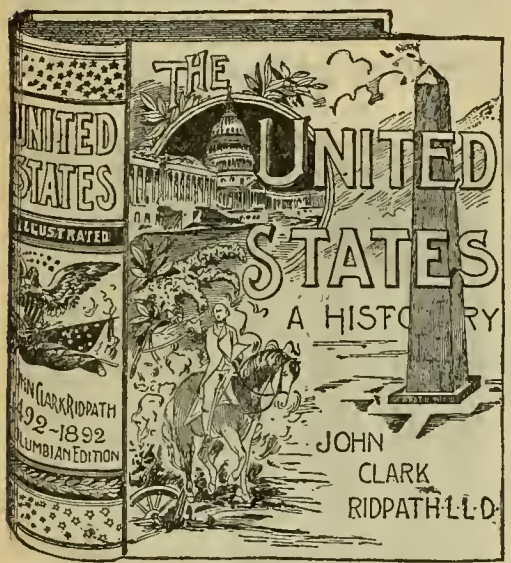
RIDPATH'S HISTORY OF THE UNITED STATES.



No. 28233 New Library Edition. Profusely Illustrated with sketches, portraits and diagrams. A handsome octavo volume, with over 800 pages. Weight, 6 pounds; 10¼ inches long, 7½ inches wide and 2½ inches in thickness. The most complete and the most popular history of the United States of America from the aboriginal times to the present day, embracing: An account of the Aborigines; Norsemen in the New World; the discoveries of the Spaniards, English and French; the planting of settlements; the growth of the colonies; the struggle for liberty in the Revolution; the establishment of the Union, down to the inauguration of President Harrison; the development of the Nation; the Civil War. Magnificently illustrated with flags of all nations in colors, and numerous beautiful engravings describing the growth and development of the nation. Never before has there been published a book so rich in historical incident, so instructive in its method of presentation and so brilliant and fascinating in its narrative, and never has there been a time when it was so necessary that an American citizen should look back and trace the progress of his country from its early, humble beginnings to its present proud position among the foremost nations of the globe. But the book must be seen and read to be properly appreciated. All who improve the opportunity to secure a copy will be convinced that the many encomiums so freely bestowed upon it are fully merited. Attractively bound in cloth, with black, gold and silver sides and back, printed from clear, new type on paper made especially for it. Complete in one large volume, containing over 800 pages; more than 300 illustrations.

Cosy Corner Series of Charming Juvenile Stories.

Order by number and always give name of book wanted.

No. 28321 Including the works of Annie Fellows-Johnston, Edith Robinson, Miss Mulock, Juliana Horatio Ewing, Dr. John Brown, and other writers of "Child Classics."

This series contains only the very highest and purest literature, stories that shall not only appeal to the children themselves, but be appreciated by all those who feel with them in their joys and sorrows—stories that shall be most particularly adapted for reading aloud in the family circle. The numerous illustrations in each book are by well-known artists, and each volume has a separate attractive cover design. Size of volumes, 5x7 inches. Retail price, 75c; our price, per vol.. 35c
Postage, per volume, extra, 8 cents.

A Loyal Little Maid. By Edith Robinson. A delightful and interesting story of Revolutionary days, in which the child heroine, Betsey Schuyler, renders important services to George Washington and Alexander Hamilton, and in the end becomes the wife of the latter.

The Little Colonel. By Annie Fellows-Johnston.

Big Brother. By Annie Fellows-Johnston.

A Great Emergency. By Mrs. Ewing.

The Trinity Flower. By Juliana Horatio Ewing. In this little volume are collected three of Mrs. Ewing's best short stories for the young people.

Story of a Short Life. By Juliana Horatio Ewing. This beautiful story will never grow old.

Jackanapes. By Juliana Horatio Ewing.

A Little Lame Prince. By Miss Mulock. A delightful story of a little boy who has many adventures by means of the magic gifts of his fairy godmother.

Adventures of a Brownie. By Miss Mulock.

The King of the Golden River. A Legend of Stiria. By John Ruskin. With 25 illustrations by Richard Doyle. Written fifty years or more ago, and not originally intended for publication, this little fairy-tale soon became known and made a place for itself.

The Adventures of the Fellow. By Will Allen Dromgoole, author of "The Farrier's Dog and His Fellow," with original cover design and illustrations in black and white by Amy M. Sacker.

Those who read and enjoyed the pathos and charm of the "Farrier's Dog and His Fellow," will welcome the further account of the "Adventures of Baydaw and the Fellow," at the home of the kindly smith among the green hills of Tennessee.

The Sleeping Beauty. A Modern Version. By Martha B. Duno. With original cover design by Amy M. Sacker, and pen and ink illustrations by Etheldred B. Barry.

This charming story of a little fishermaid of Maine, intellectually "asleep" until she meets the "Fairy Prince," reminds us of "Ouida" at her best in "Dog of Flanders" or "Two Little Wooden Shoes," and is an addition to the literature of Maine, made famous by the author of "Captain January" and "The Birds' Christmas Carol."

A Little Puritan Rebel. By Edith Robinson, author of "A Loyal Little Maid." With original cover design and pen and ink drawings by Amy M. Sacker.

Like Miss Robinson's successful story of "A Loyal Little Maid," this is another historical tale of a real girl, during the time when the gallant Sir Harry Vane was Governor of Massachusetts.

The Young Archer. By Charles E. Brimblecom. With an original cover design and 50 pen and ink illustrations.

A strong and wholesome story of a boy who accompanied Columbus on his voyage to the New World.

The Gate of the Giant Scissors. A new volume by Annie Fellows-Johnston, author of the "Little Colonel," etc. With an original cover design and pen and ink illustrations.

The Boys of 1812 and other Naval Heroes. By James Russell Soley, author of "The Blockade and the Cruisers," etc. With upward of forty full-page and smaller illustrations, all from original drawings. Neatly bound in cloth, with emblematic cover design.
Retail price, $1.75; our price.....$1.45
This attractive volume, a reigning favorite with the boys, is a worthy companion to the famous "Boys of '61." It is an exciting narrative of our great naval war with Great Britain, including authentic accounts of the different battles and some romantic adventures of the participators therein. It gives the glorious traditions of the United States navy, from its smallest beginning during the revolutionary war, and extending down to that with Mexico.
The Sailor Boys of '61. By Prof. J. Russell Soley, author of "The Boys of 1812," etc. Elaborately and beautifully illustrated from original drawings. Extra cloth, with emblematic cover design.
Retail price, $2.50; our price.....$1.50
A companion volume to "The Boys of '61" and "The Boys of 1812," the leading favorites with the boys. This volume, like its predecessors, is handsomely gotten up and illustrated, and successfully vies with them in interest, giving an accurate and vivid account of the naval engagements of the great Civil War, and the deeds of its gallant naval heroes.

The Land of Tawny Beasts.

No. 28343 By Pierre Mael. **A most original and valuable work** translated by Elizabeth L. Carey. Describes the adventures of a party of explorers and hunters in the Himalayas. They are attacked by Hindoo fanatics, and they have all sorts of strange adventures in consequence. They meet also with many wonderful hunting adventures.

All the facts pertaining to natural history or geography in the book are accurate, and it is an exceedingly attractive work for young people. While a story of adventure, rather than a novel, there is a pretty love story running through the narrative, adding to its interest.

The ups and downs of her country children in "The Gingham Bag" will be found enlivening and helpful.

Swiss Family Robinson.

A New Translation of this Favorite Classic.

ARTISTICALLY ILLUSTRATED.

It has over one hundred vignetted half-tone illustrations by some of the most celebrated artists.

For one hundred years this thrilling tale has held a leading place in the literary world.

As an instructor and teacher of natural history it is a marvel.

The Habits of Animals, the Haunts Of Birds, the Dens of Reptiles,

are all visited, explained—not in a dry, prosy manner, but so woven into a charming narrative that old and young wonder at its attractiveness and admire its excellence.
The illustrations in this edition are from

Original Drawings Made Expressly for It.

The old editions, when illustrated at all, contain only a few crude, old-fashioned wood-cuts. Hence, for the first time has the artist added the touch of his pencil and the improvements of the age in embellishing this book.

A Loyal Little Red Coat. A story of child-life in New York a hundred years ago. With more than sixty vignette illustrations after original designs by H. A. Ogden, the well-known delineator of American life in colonial times. The story is a bright and interesting one, and at the same time is full of historical interest in connection with the period immediately following the Revolution, which has previously been little dwelt upon, especially in stories for young people. Beautifully bound in cloth, with frame enclosing white panel, on which appear figures of the "Little Red Coat," and a soldier in full uniform.
Retail price, $1.50; our price.....$1.00

A Little Queen of Hearts. A delightful account of the visit of a little American girl to England, where she meets the Queen, and has numerous other interesting adventures. With nearly sixty half-tone engravings, after original designs by H. A. Ogden. Bound in green cloth; stamped in gold.
Retail price, $1.50; our price.....$1.00

Courage. A touching and wholesome story of child life. The heroine is a little girl and the scenes of her adventures are in New York harbor and the Shrewsbury river. With twenty original illustrations by Frederick E. Gordon. Beautifully executed. Tastefully bound in brown cloth.
Retail price, $1.25; our price.....88c
"The author knows how to unite the pathetic and pleasing in a story, so that each will enhance the charms of the other."

Little Homespun. The story describes a visit of the heroine and some friends to Arlington and incidentally describes visits to several of the historical spots around Washington. With twenty illustrations, sixteen of them full-page, by Miss Mabel Humphrey. Bound in full brown cloth, with tasteful design in silver, gold and colored inks on back and front sides. Retail price, $1.25; our price.....88c

Since the Vassar Girl Series was projected several years ago, the annual contributions to the series have been constantly growing in favor, until now they are universally accepted as the best books for girls in the country, and their sale has reached a very large total. Each volume describes a trip, taken by the Vassar maidens to some part of the world, with a lively and animated description of their haps and mishaps. To this is added a glimpse of the history of the country visited, and the whole is illustrated most charmingly by the well-known New York artist "Champ."

STANDARD WORKS IN SETS.

BY THE MOST ADVANTAGEOUS ARRANGEMENTS with several of the leading and most prominent publishers in this country, we are securing the works of prominent authors in complete sets, at prices which retail dealers have hitherto been charging for single volumes. These sets are put up handsomely, and the books will grace the library of any home, whether rich or poor.

THE BOOKS ARE SUBSTANTIALLY BOUND, are printed on excellent paper from clear, large type, and when the exceedingly low price is considered you can fully appreciate the wonderful bargain you will secure upon receipt of such books as you may order. It is always desirable to have the various works of each particular author bound in uniform binding. It adds very greatly to the appearance of the library.

THESE SETS ORDINARILY SHOULD NOT BE ORDERED SENT BY NAIL, as they usually weigh over the four-pound limit, which would make it necessary to take the books out of the box and wrap each one separately. Bear in mind that we do not break these sets and cannot sell any particular volume in these editions. Each set must be taken complete.

Marie Corelli's Works.

This edition of Marie Corelli's works is a special one, the type being extra large and the printing is unusually good. The set is bound very attractively in excellent cloth and the quality of paper is far better than ordinary. This set is complete, each book being unabridged. Very many of the novels found in retail stores and sold at comparatively low prices are abridged works and are not complete. Considering the exceedingly low price at which we sell this set, and in view of the fact that each volume is unabridged and complete in itself, this is one of the most remarkable bargains in the book line ever offered. **The set includes the following five volumes:** "A Romance of Two Worlds," "Ardath," "Vendetta," "Thelma," and "Wormwood." Size of each volume, 5½x7½ inches. This set is made to retail at $3.50.
