We show in the illustration **our wonderful bargain set of James Fenimore Cooper's Works,** including his popular "Sea Tales." This is a new edition, printed on extra quality paper from new type-set plates, and hence clear and easily read. Cooper's Leather Stocking Tales.

In securing these sets direct from the manufacturer in large quantities, it is easily possible for us to secure twice or three times the remarkable low price which we name below, for these books have the appearance of works which would sell at as much per volume as we ask per set; but on our one small profit plan, no difference how low a price we obtain on goods of any description, to that cost price is added but a narrow margin of profit and the customer invariably secures the benefit. Buying these works in enormous quantities for cash, we are able to make this price against which no one can compete. **The books are printed from large, clear type** plates and handsomely bound in English silk cloth. The printing is done on first-class paper and the books are marvels of excellence, the price being considered. Our new library edition of Thackeray's works complete in ten volumes at $5.95 is beyond competition in price. At less than 60 cents per volume we are offering books which only recently cost the publisher from 75 to 90 cents to produce, books that would retail at $1.50 per volume. By contracting for these sets in large quantities for cash, we are able to have them produced at a minimum expense, and instead of doubling our money as is the case with the retail dealer, we add our regular small margin of profit to the lowest possible cost, and hence are in a position to furnish these valuable sets to our customers at about the same price the retailer would be compelled to pay for them. These books must not be confused with the cheaper volumes sold at retail at from 90 cents to $1.00 per volume. They are handsomely bound in an extra quality of cloth, stamped in gold and have gilt tops. Instead of the ordinary cheap paper found in the cheaper books sold by dealers, these books are printed on fine calendered paper from new clear type. Etiquette.

No. 28501 By Agnes H. Morton, B. O. Some manuals of etiquette treat almost exclusively of "state occasions," while others are made up of sundry rules, often illiterate in style and of doubtful authority.

BOOKS ON OIL AND WATER COLOR PAINTING.

Manual for China Painters.

No. 28651 A Manual for China Painters. A practical and comprehensive treatise on the art of painting china and glass with mineral colors, by Mrs. N. Di R. Monachesi. Only words of the highest praise can be given this latest book on china painting, for its honesty, directness, simplicity and arrangement. From the very beginning the author calls for honesty and sincerity, strips the mask of secrecy from pretenders who claim deep mysteries for their art, and lays the whole process before the novice. All that can be told is given to the worker in its pages; what remains depends upon the taste, diligence and experience of the amateur. The arrangement of the matter is admirable in its simplicity, the two main divisions being devoted to materials and Instruction. In each division every topic that is likely to come up in the practice of mineral painting is touched upon, and its difficulties explained. It will be accepted as an authority and its qualities win for its author a wide audience. Contains 138 colored maps, showing mineral colors, handsomely bound in cloth; size, 5½x7½; retail price, $1.50. Our price...(Postage, extra, 10c.)...**98c**

"The thrilling historic stories of John Esten Cook must be classed among the best and most popular of all American writers. The great contest between the States was the theme to chose for his Historic Romances. Following until the close of the war the fortunes of Stuart, Ashby, Jackson and Lee, he returned to 'Eagle's Nest,' his old home, where, in the quiet of peace, he wrote volume after volume, intense in dramatic interest."

Letters to An Unknown.

No. 28734½ **By Prosper Merimee. Translated, with a preface by Henri Pene DuBois.** The translator writes: "If I knew the name of the Unknown, I would not tell it; but I do not know. I am not deprived of the charm of mystery which these letters make one appreciate intensely. They are like life, for the best gift of life is the idea which it gives of something not in life....Prosper Merimee was a familiar of the Court of Napoleon III. He wrote for the Empress tales which he signed with her name as her jester....Six months after his death, the rioters among the Communists set fire to his apartments.... This is why there are no letters of the Unknown." **This is the most complete translation of these charming letters which have evoked the admiration of so many readers, both in the original and in previous renderings into English.** The preface acquaints one intimately with the writer and his period. Ian Maclaren's first long novel. The scene is "Drumtochty" and many of the characters in "Beside the Bonnie Brier Bush" and "In the Days of Auld Lang Syne" reappear in its pages. It tells the story of Carmichael, a Covenanting minister, and Kate Carnegie, a girl of Jacobite descent, and the stress between their mutual love on the one side, and their political and religious differences on the other. It furnishes material for a story full of delightful situations in which the author's power to move the reader's sympathies and to appeal to his sense of humor is as great as ever.

Minion, 8vo. Size, 7¾x5¼ inches.

In addition to a carefully compiled Concordance of Passages in the Authorized Version, most useful for Sabbath School teachers, over 10,000 references are given to the Revised Version. Thus for the first time Bible students may at a glance see all the principal changes of the Revised Version placed side by side with the passages according to the Authorized Version. Every change of proper names made by the revisers is given. Most of the important changes suggested by the American revisers are also given, and thus an important additional explanation of the original text is furnished to all Bible readers.

The lot of Manasseh. JOSHUA, 17, 18. *The tabernacle set up.*

CHAPTER 17.

1 *The lot of Manasseh.* 7 *His coast.* 12 *The Canaanites not driven out.* 14 *The children of Joseph obtain another lot.*

THERE was also a lot for the tribe of Manasseh; for he *was* the firstborn of Joseph; *to wit*, for Machir the firstborn of Manasseh, the father of Gilead: because he was a man of war, therefore he had Gilead and Bashan.

2 There was also *a lot* for the rest of the children of Manasseh by their families; for the children of Abiezer, and for the children of Helek, and for the children of Asriel, and for the children of Shechem, and for the children of Hepher, and for the children of Shemida: these *were* the male children of Manasseh the son of Joseph by their families.

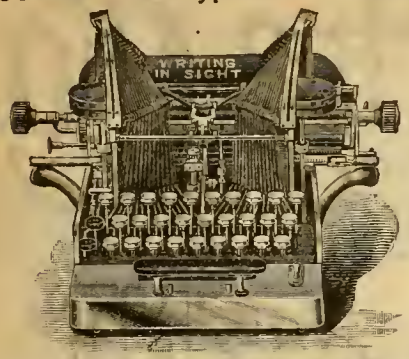
$100 Standard Typewriter for $60.



No. 33500 The demand for a high-grade machine at a moderate price has existed for years, but the manufacturer, merchant or professional man has been unable to pay the exhorbitant price of $100, and is unwilling to adopt a cheap typewriter of inferior construction. Always interested in the welfare of our customers, we have arranged for a large number of the well-known **Woodstock typewriters at a price which enables us to offer them at $60.00.** The above illustration will give you a general idea as to the **style of this modern machine. The Woodstock is supplanting the older style of typewriters on account of its being a visible writer, that is, the writing is in sight.**

It has steel type, a universal key-board such as all standard machines have and such as any one can operate without relearning or delay to their work. **For mimeograph work** and manifolding this machine has no equal. The imprint is obtained by the downward stroke of the bar, and is intensified by the tendency of the bars to drop toward the platen.

One of the special features of this machine is the form of type bar used. It was the first to use the u-shaped bar with the type in center, and this form of type bar solves the question of permanent alignment in type bar machines. The Woodstock is particularly adapted to filling out blanks and forms where writing on ruled lines is desirable as well as tabulated work. It has about 500 parts and accomplishes all that can be done on any standard machine. We can unhesitatingly offer it as the **greatest bargain in typewriters that has ever been offered** to the public. Packed complete in a highly finished metal case. weight, 22 pounds.

Retail price $100.00, our price.....**$60.00**

WE HAVE NO COMPETITORS IN THIS LINE, SO FAR AS PRICE IS CONCERNED. NO ONE MEETS OUR PRICES.

WE MAKE THE PRICES BELOW ALL OTHERS By contracting each season with different manufacturers for a season's supply, always a very large amount, and ALWAYS FOR CASH. SMALL EXPENSE OF HANDLING is another advantage in our favor. We believe we have the most economically managed Sporting Goods Department in America. It is but one of many departments in our house; therefore we are not compelled to look to this department alone to defray all our expenses, and to satisfy our entire earnings. On the contrary, we can add the smallest kind of a profit to the actual NET COST on season's cash contract purchase basis, allowing nothing for bad debts, for we have none, and that is our prices to you.

COMPARE THESE PRICES. TAKE GUNS—We sell the Parker Gun as low as $36.45; Hammerless Parker $41.70; Colt Hammerless, $57.30, and everything in the line in proportion. Does another firm meet these prices?

$27.50 Buys a $50.00 Hammerless Shotgun.

We offer you at $27.50 a hammerless shot gun which cannot be duplicated in any market for less than $50.00. This gun is made expressly for us by the **Crescent Fire Arms Co.** under patents controlled by Charles Lancaster. **We guarantee this gun equal to any gun on the market, regardless of price. There is no better shooting gun made at any price.** Our sale of these guns has been enormous, **AND FROM EVERYWHERE WE ARE RECEIVING THE MOST FLATTERING TESTIMONIALS.** We are able to offer the **special price of $27.50** by reason of having contracted with the manufacturers for the entire product, and on the basis of the **actual cost to produce the gun** with only the manufacturer's profit added, and the result is we can offer you a **strictly high-grade hammerless gun** for less money than your retail dealer can buy in quantities. These guns are made by a concern whose reputation for the manufacture of high-grade guns ought to be a **sufficient guarantee for their quality.** Every gun is **WARRANTED IN EVERY RESPECT,** and if not found perfectly satisfactory it may be returned to us, and your money will be cheerfully refunded. **Our terms are very liberal.** Send us $3.00 as a guarantee of good faith, and we will send you the gun by express C. O. D., subject to examination. You can examine the gun at the express office, and if found perfectly satisfactory pay the express agent the balance, $24.50, and express charges, and the gun is yours.

THE TRIUMPH **This is the coming gun. The Best Gun on the Market for the Money.**

No. 34040 Order by number.

This is a picture of our **special $27.50 gun,** engraved from a photograph, and will give you some idea of its general appearance. **There is no better gun made.** This gun is known as the genuine **Triumph hammerless double barrel shotgun,** manufactured by the Crescent Fire Arms Co., under patents owned by Charles Lancaster. Everything up to date, the latest and best, **FULL CHOKE BORED,** no stronger shooter made, treble bolt, strongest made, long strong extension rib, matted rib, 12-gauge only, 12-gauge with 30 or 32-inch barrels as desired, weight 7 to 8 lbs. **Be sure to state weight and length of barrel wanted.** Barrels very finest quality twist, largest and strongest top snap break, very fine checkered and **imported Italian walnut stock,** patent fore end, line engravings, diamond matted rib, full choke bored, fancy rubber butt plate. **This gun is simple in construction and superior in workmanship.** It has rebounding locks and the barrels can be taken off and put on again without cocking the gun. These two features will commend the gun. The tipping of the barrels and cocking of the gun is done as easily as on a hammer gun, which is a great point in favor of the Triumph. Most hammerless guns are hard to open and put together. The automatic safety bolt is so constructed behind the lever that **the gun is always safe when the word "safe" is exposed,** and by pushing the safety bolt forward it is ready to shoot. The lugs are steel and swing on a circle, which makes the gun open and close easily. The extension rib is L shaped, which grips the frame firmly and makes a strong lock. The frame is forged, which is far superior to case or malleable iron frames. **The Triumph is a strictly high-grade American gun,** manufactured in this country under valuable patents owned by Charles Lancaster, who stands at the head of English gun makers. **It is bored and guaranteed to shoot hard and close.** Every gun is tested as to its shooting qualities before leaving the factory, and the target of each gun is on the tag attached to the gun when you get it.

While we have figured the price of every gun as low as possible, figured on the basis of a very small percentage of profit added to the actual cost in large quantities under season contract with the manufacturers, we believe there is no gun offered of so great a value for $27.50 as our Triumph, and we are extremely anxious to receive your order, because we know it will lead to many more orders from your neighborhood.

THIS ILLUSTRATION is engraved from a photograph of "THE NEW ITHACA EJECTOR HAMMERLESS GUN" and will give you an idea of the appearance of this gun. The Ithaca Gun is so well known that it is unnecessary for us to make a full description of every detail. "The New Ejector" in addition to having all of the advantages of the Ithaca Hammerless Gun, has the "New Automatic Ejector," made expressly for this gun, **and is more simple than any other ejector on the market.** That it works direct on the Extractor and is all contained in the lug, makes it less complicated, and therefore less likely to get out of order. It is all made of tool steel and is not only more durable, but is stronger and more positive than the other ejectors, which are made more complicated.

No. 34127

The barrels are screwed in the breech; they remain perfectly round and straight, and are not pinched together, as is the case in the old way of manufacture. The lumps and the steel breach are in one solid piece, thus avoiding lumps becoming loose.

The barrels being independent of each other, the expansion is even, and the penetration and shooting qualities in general is thereby increased. Barrels are choked after the most approved system and are flat at the breech.

This gun has the Scott patent lever top snap, genuine laminated barrels, matted extension ribs, improved patent snap fore end, rebounding bar locks, low circular hammers below line of sight, full checkered pistol grip stock, rubber butt plate, left barrel full choke bored, right barrel modified. The peculiar construction of this gun positively prevents it from getting loose and shaky and makes it especially adapted to nitro or smokeless powders. There is not a better shooting gun made. We furnish them in either 12, 16 or 20-gauge as follows:

No. 34127 12-gauge, 30 or 32-inch barrels, weight, 7¼ to 8¾ lbs., price.....$23.25
No. 34128 16-gauge, 28 or 30-inch barrels, weight, 6¼ to 7 lbs., price.....$23.25
No. 34129 20-gauge, 28 or 30-inch barrels, weight, 6 to 6½ lbs., price.....$23.25

Note—There are cheap imitations of this gun on the market with breech ends of barrels painted instead of being made separate and barrels screwed into the blued breech. Look out for them! Ours are the genuine. We can furnish the imitation guns when desired at $17.95 but do not guarantee them, and advise our customers to buy the genuine at our low price, $23.25, which is guaranteed.

Description.—Best gun made for ducks, chickens or partridges. No stronger shooting gun made; has wonderful penetration and makes a perfect pattern. Operated by sliding fore arm below the barrel. When the hammer is down the backward and forward motion of this slide unlocks and opens the breech lock, ejects the cartridge or fired shell and replaces it with a fresh cartridge. The construction of the arm is such that the hammer cannot fall or the firing pin strike the cartridge until the breech lock is in place and locked fast; while the hammer stands at the full cock notch the gun is locked against opening. In this position the firing pin must be pushed forward to open the gun. When the hammer stands at half-cock, the gun is locked both against opening and pulling the trigger.

To load the magazine turn the gun with the guard upward, lay the cartridge on the underside of the carrier and push it into the magazine.

Finest quality, patent rolled steel barrels, fine selected walnut stock, pistol grip, length of stock, 13 inches; drop of stock, 2¾ inches; weight, 7¾ lbs., shoots six times; 12-gauge only, 30 or 32-inch barrel.

MARLIN REPEATING RIFLES.

All arms of this make have solid top frames and eject to the side. The solid top keeps out rain, snow, twigs, pine needles, alkali dust, sand, etc. and protects the head of the shooter from any accident. The side ejection is much more convenient than the old-fashioned systems that throw the shell into your face, fill your nostrils and eyes with smoke and gas and generally interfere with a quick second or third shot. All barrels are exactly the same as Ballard Target Barrels made by the Marlin Co. and so long recognized as the standard of accuracy throughout the world.

Our terms always the same: Send us $3.00 as a guarantee of good faith and we will send any gun by express C. O. D., subject to examination; you can examine it at the express office, and if found perfectly satisfactory, pay the express agent the balance and express charges.

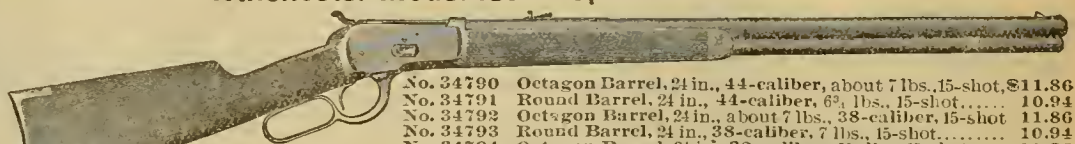
Winchester Model 1892 Repeater.



The system is the same as the Model of 1886 now so well known. Manipulated by a finger lever, the firing pin is first withdrawn, the gun unlocked and opened, the shell or cartridge ejected, and a new cartridge presented and forced into the chamber, the firing pin held back until the gun is again locked. The locking bolts are always in sight, and when the gun is closed, support the breech bolt symmetrically against the force of the explosion. The same cartridges are used as in the Model of 1873—44, 38 and 32 Winchester center-fire, their widely extended sale having proved their value for general use, and in addition the W. C. F. cartridge. The gun is light, strong, handsome, and simple in construction.

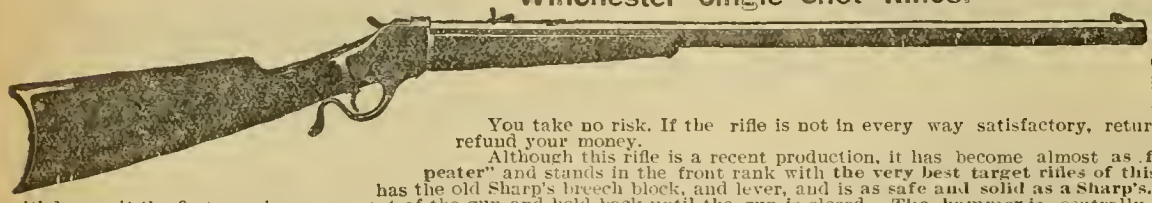
OUR TERMS ARE VERY LIBERAL. Send us only $3.00 and we will send any gun by express C. O. D., subject to examination. You can examine it at your express office and then pay express agent balance and express charges.

Winchester Single Shot Rifles.



On rifles, our terms are exactly the same as on all other guns; C. O. D. to any one on receipt of $3.00 as a guarantee of good faith, the balance and express charges to be paid after you receive the rifle.

You take no risk. If the rifle is not in every way satisfactory, return it at our expense and we will refund your money.

Although this rifle is a recent production, it has become almost as famous as the "Winchester Repeater" and stands in the front rank with the very best target rifles of this and other countries. This gun has the old Sharp's breech block, and lever, and is as safe and solid as a Sharp's. The firing pin is automatically withdrawn at the first opening movement of the gun and held back until the gun is closed. The hammer is centrally hung, but drops down with the breech block when the gun is opened, and is cocked by the closing movement. It can also be cocked by hand. This arrangement allows the barrel to be wiped and examined from the breech. In our line everything has been done to make the gun pleasing to the eye. All of these guns have case hardened lock plates and dark walnut stock. Other styles and caliber made to order.

Every rifle warranted perfect and accurate. These rifles are not made with double trigger. The set locks are adjustable by a little screw in rear of trigger, and can be set to pull as desired or not used at all. Pushing the trigger forward places it in the "hair pull" notch, same as working a double trigger. All rifles have sporting rear sights.

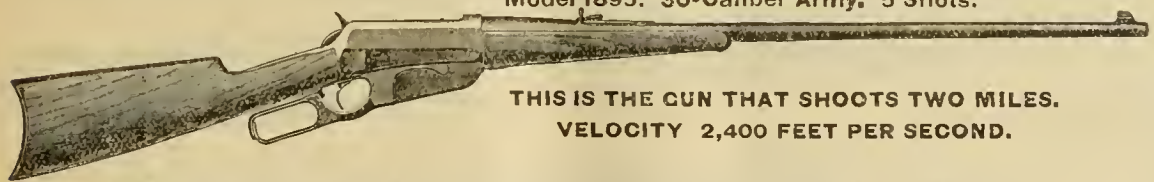
The Winchester Box Magazine Sporting Rifle.

Model 1895. 30-Caliber Army. 5 Shots.



THIS IS THE GUN THAT SHOOTS TWO MILES.

VELOCITY 2,400 FEET PER SECOND.

No. 34880 **The Winchester Box Magazine Sporting Rifle** is the first Box Magazine **Lever Action** gun put on the market, and is one of the strongest shooting guns ever invented. The velocity of a bullet fired from this rifle is 2,400 feet per second. The penetration of this gun is demonstrated by a trial at the factory, at which place the rifle shot **through fifty-eight pine** boards, ⅞-inch each. **It is light in weight, handsome, safe, swift and sure.** The moving parts are few and strong. **It carries five shots in the magazine.** The disposition of the magazine and parts is such that the **gun can be readily used as a single loader,** keeping the loads in the magazine in reserve. This gun is adapted to **smokeless cartridges only,** and will shoot either the **steel-jacketed** or **soft-point bullets.** The **soft-point** gives the best satisfaction for **large game shooting.** The barrel of the 30-caliber army is of nickel steel, and comes only in 28-inch, and only round barrels can be furnished.

Every Shell Warranted.

Loaded shells can go by freight, or express, alone or with other goods.

The shells used are the celebrated Waterproof Rival and Club, U. M. C. and Winchester make. (Waterproof paper shells.) Put up in boxes of 25 shells, 20 boxes or 500 shells to the case. These shells are loaded with two thick black edge wads and one cardboard wad over the powder, and one thin cardboard wad over the shot.

No Better Made.

The uniformity of the material used and the regularity of the machine work insure level seating of wads and even pressure of powder, the compression being such as to secure the highest explosive force, thereby giving absolute perfection of loading, and becoming at once the most salable form of fixed ammunition. We can usually furnish these goods, loaded with Dupont, Laflin & Rand, or Hazard dead shot powders.

Prices subject to change without notice. Weight per case, 12-gauge, 65 lbs.; 10-gauge, 77 lbs.; 500 shells in a case.

Don't fail to mention catalogue number, and be sure to give proper load number when ordering.

Baseball Goods

THE LARGEST AND BEST Manufacturers in the world contribute to this department. We show the most select line of Baseball supplies ever put on the market. Our past and steadily increasing trade warrants our making an unusually large contract, and by so doing we have secured prices far lower than any retail dealer dreams of getting. We hence offer the best goods at prices against which none can compete.

WE HAVE ONE FAVOR To ask in connection with this department. Do not compare our goods with the cheap, trashy Baseball supplies usually carried in stores. The greater part of such goods sold at retail are not worth carrying away. As stated above, our goods are made by the best factories, are good goods and stay good.

OUR LIBERAL TERMS. On all orders amounting to more than $4.00 we ship C. O. D. by express, subject to examination, when one-fourth cash accompanies order, balance, with express charges, to be paid to express agent when goods are examined and found exactly as represented and perfectly satisfactory. You can easily dispose of a dozen balls at a profit and then undersell all local dealers. Make some pin money for yourself and let us supply you with goods that are the very best that can be had in the country. We are anxious to push our Baseball supplies this season, and can supply Baseball Clubs at prices never equaled.

Our line of flannels for baseball uniforms consists of the best qualities in their respective grades, and the most desirable colors for baseball uniforms. Each grade is kept up to the highest point of excellence and quality, improved whereever possible every season. Owing to the heavy weight flannels used in our No. 38075-38076 uniforms, we have found it desirable, after many years of experience, to use a little lighter weight material for shirts; this makes them more comfortable, much cooler, and wear just as well as the heavier weight. If, however you prefer the heavier goods for the shirts, they will be supplied at the same price, but only when specially ordered.

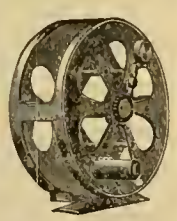
Fishing Reels.

Our Fishing Reels are carefully selected from our past experience in the fishing tackle business, and we have adopted reels that are popular all over the country.



No. 38720 The Expert Reel. This reel has an entirely new device for casting or "playing" a fish, whereby the angler may vary the reel from a free-running to a delicate drag, heavy drag, or bring it to a complete stop, simply by the pressure of the thumb upon the guard. By this device the line may be stopped instantly at any desired point when casting. This guard is made of extra-hard spring metal, so that no matter how often used or struck by accident, it will resume its original position. These reels, having a large diameter of spool, will reel in a line faster than the best quadruple multiplying reel. All finely polished, heavy nickel plated and well made. Forty yards, 2¾ inches diameter, with click, each.....$1.37

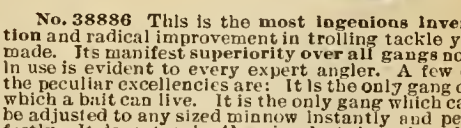
The St. Lawrence Gang.

Patented in England and the United States.



No. 38886 This is the most ingenious invention and radical improvement in trolling tackle yet made. Its manifest superiority over all gangs now in use is evident to every expert angler. A few of the peculiar excellencies are: It is the only gang on which a bait can live. It is the only gang which can be adjusted to any sized minnow instantly and perfectly. It is not only the simplest, but also the strongest gang made. It does not scare away the big and wary fish by a long array of treble hooks. The treble swivel insures perfect revolution of bait and reduces to the lowest possible point the liability of kinking the line.

All have patent hooks with baiting needle, adjustable lip hook and treble swivel, best silk metal-wound gimp on hook to attach line to.

TROUT FLIES AND TACKLE.

OUR STOCK of trout flies is made up of the best-known and most popular varieties and patterns and adapted to all water and seasons. We selected the most popular and best killing varieties made, and carry them in stock in three grades, viz.: A, B and C; grade C being the best fly made; the B grade, the standard fly (sold by many dealers as the best), and the grade A being the same fly with less hackle and wing, and cheaper quality of tying. All of our flies are tied on Harrison spring steel needle pointed sproat hook and guaranteed as such. We list and describe the following most popular styles.

Sizes of Hooks, 6, 8 and 10. These are the sizes used by expert fly fishermen. All flies tied on best single gut.

Always mention name and grade wanted when ordering flies. We guarantee our flies to be a better quality, grade for grade, than any other dealer can furnish at these prices. A comparison is all we ask.

Always mention size of hook, name and grade wanted. Prices are per dozen, sizes 6, 8 and 10 hooks. We do not break dozens of A grade flies. Not less than one dozen of this grade will be sold. We will sell ½ dozen of either B or C Grade, but not less.

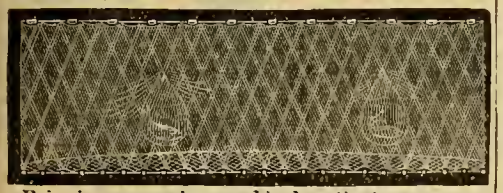
Improved Perfection Trammel Net.

OUR PRICES ARE BELOW ANY COMPETITION
Quality Considered.

We handle only the E. C. COOK, net and seines, recognized the world over as **THE BEST.** We could furnish **poorer goods at less money,** but the **Cook Net and Seines** are so far superior to all others, and our prices to you being but our small percentage above actual cost to make, is **so very low,** that we feel sure you will want **the best.**

DO NOT BUY A CHEAP net or seine. You will find it dear at any price. The **E. C. Cook** goods will always satisfy you.

It has three nets hung upon a single tos and a single cotton line. Of the three nets two have large meshes of cotton seine twine. The inside net is made of best linen gilling twine, which is hung slack, forming a bag in which fish coming from either side are caught, unable to escape. **These nets are not "drag seines,"** but are to be **"set" in the water,** the same as a gill net.



Price is per running yard in length, hung measure, the three nets combined, complete with leads and floats. Square mesh. **Weight, per yard, about one-half pound.**

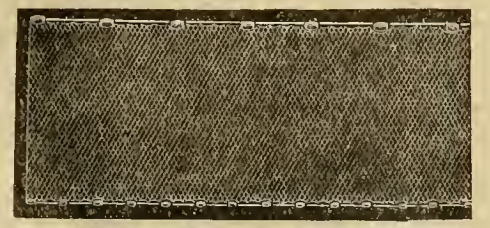
N. B.—Trammel Nets are made to order only, and if order is filled correctly we cannot take the goods back, as we seldom have any two orders just alike in every particular. Consequently if the net was returned it would be a dead loss to us.

Gill or Set Net.

A gill net is a single net, hung with floats and leads complete, without hauling lines. Made of best imported linen twine. **These nets cannot be used for "drag" seines,** the twine being too fine. They are set in the water and allowed to remain from 5 to 24 hours. Commencing at one end, "lift" gently when taking up net. **The fish are caught by the gills,** hence the name "gill" or "set" net.



Rigged complete ready for use. Made of linen twine. Price per running yard in length, hung measure. **Weight, per yard, about ¼ pound.**

Tents.

How to Pitch a Tent.

Having unrolled the tent in the exact position you want it to be when up, place the ridge pole, rounded side up, inside the tent, and on a line with the large eyelet holes, which are in the center of the roof; then insert the uprights in the holes bored in the ridge pole, and let the pikes in the upright pole come through the top of the tent. If a fly is used let the pikes also go through that, in precisely the same way as the tent; then take hold of the uprights and raise tent and fly together; secure the corner guys first and then the others between them. Do not drive the stakes straight, but angling; they hold very much better in this way. The tent being now up and guys all adjusted so that they bear equal strain, then proceed to dig a V-shaped trench all around the tent, about three inches deep; this will insure you a dry floor at all times. Do not take the tent down when wet or even damp. Heat and dampness is the cause of mildew, which destroys more tents than all other causes combined.

SPECIAL NOTICE—If you are interested in other styles of tents not listed in this catalogue, we invite your correspondence. Quotations given on applications, and at bottom prices. We can meet your expectation.

Never C. O. D.

We furnish this our Cincinnatus grade in either Gents' or Ladies'. The lowest price ever named on a new wheel. THIS BICYCLE IS NOT GUARANTEED; NOT RECOMMENDED. It is a wheel that is being advertised by many under different names and glowing descriptions at $18.00 to $30.00. It is sold largely by cheap department stores, small advertising firms, given as a premium by many and handled by scheme houses generally. THE FACT IS, THIS BICYCLE IS WORTHLESS AND DEAR AT ANY PRICE and is only offered by us to warn our customers against buying unknown wheels from unknown houses. We show you for how little money a bicycle can be sold when quality and durability is sacrificed for price and appearance, notwithstanding, we tell you just what this bicycle is. DESCRIPTION OF OUR $13.95 CINCINNATUS BICYCLE.

FRAME. Gent's is 24-inch pattern, horizontal top bar, brazed tubing 1⅛-inch diameter. Ladies' standard double drop pattern, 22-inch, large diameter.

WHEELS. Wheels are 28-inch, front and rear.

CRANKS. The cranks are steel stamped, tempered in oil, 6½-inch throw, fitted with standard grade of pedals. They are represented by many as drop or hand-forged, but such is not the fact.

CHAIN. The chain is made by an Indianapolis manufacturer from stamped steel plate of fair quality, but not guaranteed.

RIMS. Wood rims of standard quality.

SPROCKETS. The sprockets are made from stamped steel plate, machine turned and milled. They are neatly finished, and while they will give fair satisfaction we cannot guarantee them. They are often advertised as forged steel, but we sell them for what they are.

SPOKES. Standard quality, nickel plated.

HANDLE BARS. Wood adjustable or metal, raised or drop pattern, made from brazed tubing, with proper curve and spread, fitted with cork grips, nickel tips and ferrules.

SADDLE. We fit these wheels with a common road saddle, the same grade as is used generally on medium priced wheels.

FINISH. The wheels are given a high finish, in fact, in this regard the manufacturer has endeavored to give the bicycle every appearance of a high-grade wheel, and it is for this reason many people can advertise them at more than they are worth, and in many cases deceive the purchaser. They come enameled in black, blue or maroon plain or striped, all bright parts nickel plated and polished.

ACCESSORIES. We furnish with every bicycle, leather tool bag, containing pump, wrench, patent oiler and necessary tools.

WEIGHT. These wheels vary, weighing from 25 to 27 pounds, complete with all on.

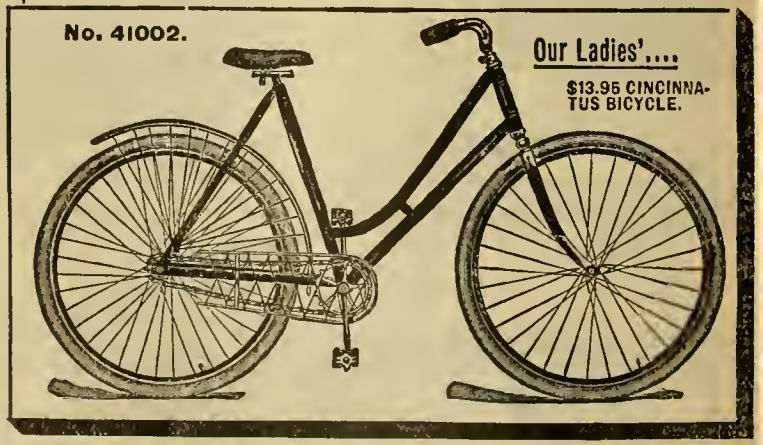
BEARINGS. The bearings are made from steel stampings, hardened and polished. They are advertised and sold by many as hand-forged tool steel, but we sell them for what they are, AND DO NOT GUARANTEE OR RECOMMEND THEM.



OUR SPECIAL PRICE FOR THE CINCINNATUS WHEEL IS $13.95, Cash in full with order. We will not ship this wheel C. O. D. subject to examination; there is no discount under any circumstances, and we do not guarantee or even recommend it. We sell it for what it is, a low-grade wheel manufactured for show and to supply a class of dealers who do not care as to quality, and who are advertising it widely under various names and name-plates at $18.00 to $30.00, and in some cases higher.

It is enameled in four coats, baked on by the manufacturer's patent process, and comes in coach green, royal blue, maroon, vermilion and black. Tricycles and Velocipedes.

Notwithstanding the immense popularity of the bicycle, the tricycle and velocipede still remain in favor. Many parents prefer them for their children by reason of their safety, convenience and the ease with which they can be run by the little girl or boy. The tricycle, which we illustrate, is made for girls or boys from two to fifteen years. **They are constructed with especial care** and will stand the abuse they very frequently receive. They are very easy running and handsomely finished. The improved spring seat takes all vibration, and being upholstered in plush and finished with back, makes riding easy and comfortable. Frame is enameled black. Quoted with iron tire wheels or C plate rubber tire wheels. The illustration shows the tricycle with fenders. We quote without fenders. The following are our special prices with iron tire wheels:

Plain Black and Gray Worsteds and French Backs

OUR LINE OF IMPORTED ENGLISH CLAY WORSTEDS, gray clay worsteds and imported French backs is thoroughly complete and our stock much larger than ever before. For this season you can buy from us such worsteds as you cannot get elsewhere under double the price.

WHY OUR WORSTEDS ARE QUOTED SO LOW.

OUR BLACK CLAYS, GRAY CLAYS AND FRENCH BACKS were brought into this country before the advance of tariff. They were woven when this class of goods cost much less to make. We bought the clay worsteds at nearly 40 per cent. less than the present market value.

In our tailoring establishment we have a special tailoring department for worsteds. While we believe we turn out a higher class of work than others, no tailoring establishment has been able to reduce the cost to manufacture as low as we. All this we give you the benefit of, quoting you a price based on the actual cost, to manufacture with but our one small percentage of profit added.

A BLACK CLAY WORSTED CUT TO MEASURE AND MADE TO ORDER FOR $8.50, is a price unknown to any other house. It means a saving to you of $10.00 to $15.00 on a suit.

If you order a suit made from our Bunker English clay at $8.50, and you do not find it is not in fit, shape, style, and in every way equal to any suit your tailor would make for you at three times the price, you are at liberty to return it to us, and we will cheerfully refund your money. **Our black Clays we make up at from $8.50 to $12.50. Imported Gray Clays at $13.75. French Backs at $13.95.**

We believe we can safely say there is not another house in America that can make these goods for so little as we offer them to you.

WE WILL FURNISH YOU a Mixed Suit at less than the actual cost of the material, to say nothing of the labor, for less money than you can buyt he cloth alone in any store in America. **On our entire line of Mixed Suits we lose money,** and our loss is our customers' gain.

WE WILL SAVE YOU more than one-half on a Mixed Suit, for it is the only line in our catalogue on which we actually lose money. **Handling, as we do, nearly 2,000 suits every day,** there is an unavoidable accumulation of extra coats and vests and extra pants, or what makers term "misfit" suits. **We do not allow these Mixed Suits to accumulate,** but name a price so low—a price, in fact, without regard to cost—and in this way we keep our stock clean at all times.

..Do Not Ask for Cloth Samples of Mixed Suits..

They come in a great variety of patterns and qualities, and while we cannot furnish samples, we will guarantee to please you, if you will order from descriptions below and carefully state the pattern wanted.

HOW MUCH MONEY WE CAN SAVE YOU. **While our prices for regular suits are from 35 to 50 per cent. below all others, we cut our prices on mixed suits in two, and the suit we sell regularly for $12.00 when broken we sell for about half the price.**

Special Value in Fur Coats.

OUR LINE OF FUR COATS is made up for us by the BEST WESTERN MANUFACTURERS, from carefully SELECTED SKINS.

IT IS A WELL-KNOWN FACT that there can be a difference of from $3.00 to $10.00 in the make only of a fur coat. Eastern made coats are poorly cut, poorly sewed; they are made of small pieces of fur, and oftentimes mismatched. While these coats are sold by a great many dealers, on account of their being able to purchase them at much less money than can buy the Western coat, they are really very poor value, and anyone wishing to buy a fur coat should get the very best make they can possibly obtain.

WE SOLICIT Your Orders for fur Coats, and guarantee to give you the very best goods. We can assure you that if our prices are not lower than those quoted by other houses, you will find the difference exists in the make

OUR TERMS ARE LIBERAL.

Any coat will be sent to any address, by express, C. O. D., subject to examination, on receipt of $1.00. Balance and express charges payable at express office.

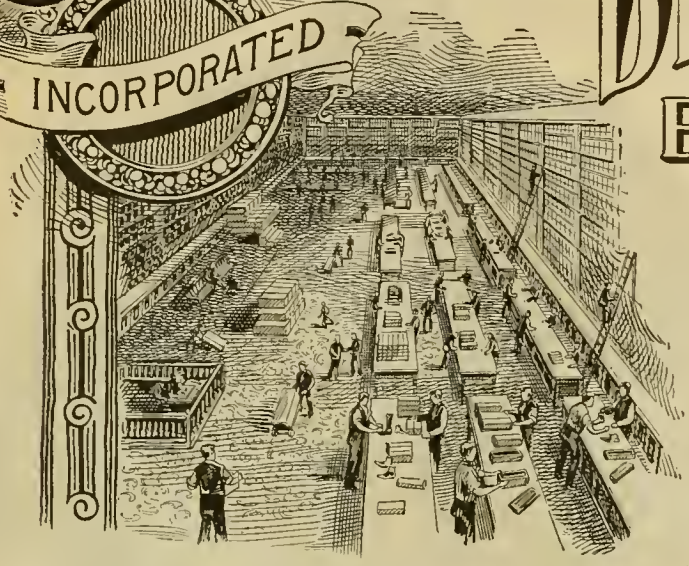
INCORPORATED

DEPARTMENT OF BOOTS — SHOES — AND RUBBERS



HOW TO BUY SHOES AND HOW TO CARE FOR THEM.

HOW TO BUY SHOES. Shoes to wear well should be adapted in make, material and weight to the kind of use to which they are to be subjected. Shoes to wear well should fit the foot. Following we mention a few things, which, if observed, will add to your general health and comfort:

DON'T wear a thin shoe for street or rough wear.
DON'T BUY shoes too narrow for your foot.
DON'T fit your shoes short.
DON'T expect a $2.00 machine-sewed shoe to give you as much comfort and service as a $3.00 Hand Welt Shoe.

HOW TO CARE FOR THEM. If your shoes are wet they should never be dried quickly, but allowed to dry slowly and then a little oil or vaseline should be carefully rubbed into the leather. This will keep them soft and prevent their cracking. Mud or dirt should always be carefully removed before the shoes are put away. If your feet perspire, the same pair of shoes should never be worn two days in succession. You should have two pairs, wearing one pair one day and the other the next, thus allowing the shoes to dry out during the alternate days. Your shoes will last much longer by doing this, and your feet will not get sore. Perspiration or sweaty feet will always cause shoes to crack sooner or later, particularly if the shoes are light weight. We would recommend tan shoes for such feet, particularly during the summer, as the tan stock is porous and consequently much cooler. The blacking for men's shoes is not injurious for calfskin, but is for kid or kangaroo.

A WORD TO THE LADIES. Ladies often complain that the soles of their shoes do not wear well. This is undoubtedly because they wear a light hand-turned shoe, when they really should have a Goodyear Welt or a McKay sewed shoe. The hand-turned shoe has a very thin sole and is designed principally for indoor and dress wear. The McKay sewed shoe has a heavier sole, and consequently will wear longer. Use as little blacking as possible, as it will do your shoes more harm than good. Tan shoes, however, should be cleaned and polished often, as the preparations used for this purpose nearly always act as a preservative to tan and Russian leathers.

RUBBERS AND OVERSHOES. We sell more rubber Boots and Shoes than any similar concern in existence, which enables us to quote them at the regular wholesale price. No dealer can buy them one cent cheaper than we sell them to you in lots to suit your convenience. We quote below some of the best known brands of rubbers in first quality and second quality.

DON'T BE FOOLED. Many dealers buy only seconds, and sell them to you at first price. That's why our business is so large. WE WANT YOU TO KNOW when you get the right goods.

BE PREPARED FOR A RAINY DAY. Buy your rubbers and overshoes when you order shoes or other merchandise, and you not only get them at the lowest wholesale price, but you are sure to get fresh, clean goods. Rubber loses its wearing qualities when old.

OUR OUTPUT is so large that we are constantly receiving new goods direct from the factories.

These are firsts, and if genuine every pair should be stamped as follows:

Boston Rubber Shoe Co., Woonsocket Rubber Co., Wales-Goodyear Rubber Co., Candee Rubber Co., American Rubber Co., and New Brunswick Rubber Co.

Below are second quality, and cost the dealer 10 per cent. less to buy:

Bay State Rubber Co., Rhode Island Rubber Co., Connecticut Rubber Co., Federal Rubber Co., and Essex Rubber Co.

ABOUT GUARANTEED GOODS. We wish to call special attention to those goods marked WARRANTED. If at any time a pair of warranted Boots or Shoes give out without just cause we will repair them, replace them with others or refund the amount paid for them, according to the circumstances of the case.

OUR TERMS ARE VERY LIBERAL. We will ship Boots or Shoes C. O. D., subject to examination, on receipt of 50 cents per each pair, as a guarantee of good faith, balance and express to be paid at express office, provided they are exactly as represented and better value than you can possibly obtain elsewhere. Otherwise they can be returned at our expense, and the amount paid will be promptly refunded, or you can have it applied on other goods.

Nearly all our customers send cash in full, and why not? If you are not perfectly satisfied we immediately refund your money.

The widths run AA, extremely narrow; A, extra narrow; B, very narrow; C, narrow; D, medium; E, wide; EE, very wide.

IT IS CHEAPER to send ladies' shoes, slippers, etc., by mail than by express. The postage rate is one cent for each ounce. When you wish goods sent by mail always send cash in full, and include enough extra to pay postage, and we will ship by mail, postpaid. Be sure to enclose enough extra to pay postage; if you send too much, we will promptly return what is over.

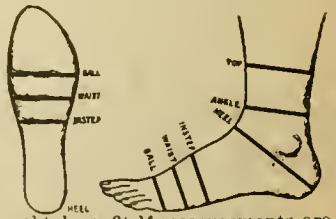
Postage necessary is given under each description, that you may know the amount necessary to send.

HOW TO ORDER. Be sure to state size and width you want when you know it; otherwise send us the length and shape of your foot drawn with a pencil while standing on a piece of white paper.

WE CAN FIT ANY FOOT.

We Carry the Most Complete Line of Boots and Shoes ..... Ever Carried by any Similar Concern .....

SHOES MADE TO MEASURE.



Should you not be able to secure a fit from the ordinary sizes, we can make to special measure any of our shoes quoted above $2.00 per pair. In this case, however, we are compelled to charge $1.00 extra, which goes to pay for extra lasts and new patterns, which must be cut special for each pair. We insist upon cash in advance on special shoes. We guarantee every pair to be exactly as measurements sent us, hence you obtain a fit if measurements are correct. ☞ IN NO CASE will we exchange shoes made to order.

About 3 weeks required on special pairs.

LADIES' SPRING HEEL SHOES.

..BLACK OR CHOCOLATE..

$2.50

LADIES who wish a Spring-Heel Shoe will here find one which is far above those usually advertised at double the price. Many manufacturers make their spring-heel shoes over the regular heeled lasts, simply leaving the heels off, which produces a shoe that does not tread square and cannot possibly fit the foot. We have taken pains to have a special last made which allows the shoe to set square upon the floor, makes it look better and much more comfortable to wear.

MADE FROM CHOICE CHROME TANNED VICI KID, BLACK OR CHOCOLATE.

Flexible imitation hand-turn sole, medium coin toe last with kid tip and new style heel foxing.
The shoe is stitched throughout with silk thread, fitted with celluloid eyelets (never wear brassy), and to those who wish a spring-heel shoe we would say order at once; you'll not regret it.

A SPECIAL DRIVE, BETTER THAN EVER.

No. 46064

THE UPPER STOCK from which these shoes are made is cut from a very fine brand of Vici kid, which was never before put into a shoe to sell under $3.50. **The soles are from the best selection of oak tan sole leather,** which is flexible and the very best produced. They are sewed on by the **Goodyear Welt** process; some call them **hand sewed,** and as a matter of fact, they are put on in the same manner as the old-fashioned hand-made shoes. **The inner soles** are smooth, **no thread or nails to hurt the feet. Out soles** slightly extended, which protects the uppers and they can be half-soled by hand just the same as the hand-made shoe.

THE STYLE IS THE VERY LATEST

The toe being round, about the width of a quarter dollar, fancy perforated kid tip, new foxed heel, giving the foot a very graceful appearance, and at the same time **very easy and comfortable.**

THE PRICE, $2.55, brings them within the reach of all, and we might mention the fact that **no concern in existence has ever put out a shoe equal to these for less than $3.50 a pair.**

Ladies' Bicycle Boot. Chocolate Color.

No. 46688 We herewith represent our latest creation in a ladies' 10-inch bicycle boot. The high cuts, as used last season were found by most riders to be too warm, and for this reason we have designed the above boot, which, being made only 10 inches high, presents a very neat appearance and at the same time is perfectly cool and comfortable. This boot is made from Hauselts' chrome tanned vici kid, chocolate color, which is very soft and glove-like. The very latest style coin last with kid tip. The soles are McKay sewed flexible and corrugated. We have the boot made with mackintosh cloth top of very handsome plaid pattern. This cloth is extremely durable and more desirable than the ordinary cloth top, from the fact that it can be washed with a sponge and water as often as necessary and always retains its original bright color. We have left the question of profit entirely out of this shoe in order to supply our patrons a first-class boot for little money. Can also be used for a street boot.

$3.45 Our Box Calf Leader $3.45

A $5.00 BENCH MADE SHOE.

No. 46771 **The stock in this shoe is known as White Bros.' Box Calf**, has a pebbled surface, is as near water-proof as leather can be made, and can be polished in a moment by applying patent leather polish and rubbing briskly with a woolen cloth.

THE STYLE OF LAST is the very latest, being a medium knob opera with fancy tip, and the shoe being cut with the new circular vamp, and new style back stay is one of the nobbiest we have ever seen.

THE SHOEMAKING is the very best that can be had, and by observing the cut you will notice that we stitch vamp and quarters with three rows of silk thread. The soles are cut from best California oak sole leather, made extra heavy and with full Scotch or extension edges which protect the uppers and do away with the necessity of wearing rubbers.

THE SHOE IS STRICTLY HAND SEWED fitted with best agatine hooks and eyelets (never turn brassy) and the inside back stay and top facing are of fine bleached calfskin.

GOOD SHOES are the kind we have built our reputation on, and this is one of the best we make. You positively cannot get a better bench made shoe at any price, and so far as style goes there never was a better looking, better fitting or better feeling shoe made.

THE PRICE $3.45 is so very low that every one who appreciates the best should have a pair.

...WE ARE OFFERING THIS LINE AT $1.75 FOR MEN'S, $1.60 FOR BOYS' AND $1.35 FOR YOUTHS'...

Postage, extra, 18c to 45c according to size.

HOW WE MAKE THE PRICE SO LOW. We placed our order with the manufacturer last March, when leather was lower than it has been for years. In order to keep the factory running the goods were made up for us on the basis of actual cost of material and labor, and we offer them direct to our customers with only our one small percentage of profit added, so you can own them for less money than your local dealer can buy even in case lots.

WHERE THEY ARE MADE. These shoes are made for us under contract in Boston, Mass., by one of the largest and most reliable manufacturers in America, a concern that has established a reputation for the manufacture of only the highest grade of Men's, Boys' and Youths' shoes. They are such shoes as you will find in the best retail stores in large cities, and there at 50 per cent in advance of our prices.

WHY WE MAKE THE PRICE SO LOW. While we can sell these shoes at a liberal advance in price and still give our customers every satisfaction, we believe by giving you the benefit of our extraordinary low-priced purchase you will be so well pleased with the shoes you will buy, that you will not only favor us with your future orders, but recommend our house to your friends. We know that every one of these shoes we send out will be a big advertisement for us.

....THE STOCK USED....

The stock is the very best selection of Milwaukee satin calf, which contains just enough oil to make it very soft and glove-like, looks just like a fine calf skin and you can rest assured will outwear any stock ever put in shoes at these low figures.

THE SOLES are from plump union sole-leather, which is very tough and wears like iron.

THE INNER SOLES are cut from all solid sole leather, smooth and serviceable. The counters are also of solid one-piece sole-leather and could not be made better.

THE STYLE is the latest coin or round toe, with fancy tip, fair stitched on outer edge of sole, giving the shoes the shoes the appearance of a much higher priced line.

THE TOPS are cut from a Dongola and are very serviceable.

These shoes are put together to stay and we guarantee them to be equal in style, fit and wearing qualities to shoes often sold at double our price.

SATIN CALF SHOES.

$1.25

WE HAVE HAD SPLENDID SUCCESS with this line of shoes, from the fact that we have been willing to content ourselves with a very small percentage of profit in order to give our patrons an excellent shoe at this very small price. These shoes are made from a fair quality of satin calf stock over the plain toe last with glove grain top. The sole-leather which goes into them is of a fair quality, and the inner soles and counters are positively all solid sole-leather. We have found it extremely difficult to get a shoe which would be serviceable at this price, but as stated above we are contented with a very small margin. Having placed an extremely large order with one of the leading Eastern manufacturers, we are able to give such a shoe as we have never before seen offered under $1.75.

MEN'S FURNISHING GOODS DEPARTMENT

WE TAKE PRIDE IN CALLING YOUR ATTENTION to what we believe to be the most complete and up-to-date **Furnishing Goods Department** ever placed at the disposal of the buying public in catalogue form.

AMONG THE DESIRABLE GOODS IN FURNISHINGS FOR 1898 and 1899 we do not think there is an item omitted. Our professional buyers have been in the market constantly since the first appearance of the styles for this season, and neither time nor expense has been spared in our efforts to give our customers an opportunity of securing the very latest and most desirable merchandise and at the very minimum price, as well as on liberal terms of shipment.

AGAIN WE INVITE YOU TO A CLOSE COMPARISON OF OUR PRICES WITH THOSE OF ANY OTHER CONCERN. We would ask you to carefully study our catalogue, our descriptions, illustrations and prices, to compare them with others, and then send your order where, in your judgment, you can get the most desirable goods and the greatest value for your money. **We are perfectly willing that our goods, our descriptions, illustrations and prices should stand on their merits,** and on their merits alone we anticipate the largest trade in this line we have ever enjoyed.

OUR PREPARATIONS FOR THE COMING SEASON HAVE BEEN FAR MORE EXTENSIVE than ever before. Every item we have listed has been contracted for direct with the manufacturer on the basis of large quantities for Spot Cash, and to this we have added only our one small conservative percentage of profit, which alone enables you to buy the goods for even less than dealers can buy in quantities, and on this basis we earnestly speak for your trade.

OUR GUARANTEE. We guarantee every article quoted to be exactly as represented, and if not found so you are at liberty to return it and we will cheerfully refund your money.

OUR TERMS. Our Terms are very Liberal. Any goods will be sent to any address by freight or express C. O. D., subject to examination, on receipt of a sufficient deposit to cover transportation charges both ways. As a rule, $1.00 deposit with order is sufficient with express shipments. Where goods are sent C. O. D. you examine them at your nearest railroad station, and if found perfectly satisfactory and exactly as represented, pay the express agent our price and charges, less the amount sent with order.

WE ARE EXTREMELY ANXIOUS TO RECEIVE YOUR ORDER FROM THIS DEPARTMENT, not so much for the little profit there is in the goods to us, for they are sold on a very small margin, but for the good it will do us as an advertisement. We know we carry a much better line of merchandise than is carried by the average dealer, and yet we are able to sell it to you at far less than inferior goods can be had at home, and if we get one order from you we know you will be so well pleased that you will not only favor us with your future orders, but will use your kind influence among your friends in our behalf.

THIS DEPARTMENT IS IN CHARGE OF A MAN WHO HAS MADE FURNISHING GOODS HIS LIFE'S BUSINESS. He is assisted by a large number of able clerks, and nothing is allowed to come in or go out of this department unless it passes a very critical inspection. No goods are bought except those that are manufactured by concerns of established and well-known reputation.

WE THANK YOU IN ADVANCE IN ANTICIPATION OF YOUR ORDER, at the same time assuring you of such values and service as cannot be had elsewhere.

SOFT SHIRT MADE.

Postage, 12c.

Just what you want, and we have it and at the right price. Every man who has worn soft shirts of any kind knows the annoyance and discomfort, not to mention the appearance, of the collar rolled up and out of shape around the neck. The special feature of this shirt is that **the collar is always in the right place.** As shown in the cut they are perfectly shaped and button down in the front on each side and a single button in the back. This arrangement allows perfect freedom of action without altering its appearance. This strong point of merit makes it an ideal shirt for general use. As an all-around outing shirt it has no equal.

NUTRIA FUR HATS.

The finest Hats in the World are made in America, and the Finest American Hats are Made From Clear Nutria Fur.

Nutria Fur comes from a small South American animal greatly resembling the beaver, but much more plentiful. The skins of these animals are imported into this country in immense quantities by manufacturers of fine hats The fur is thoroughly cleaned, combed and pounced, being finally transformed into felt, out of which the finest hats are made. Nutria Fur is particularly desirable for this purpose, as it is very fine, soft and silky, and when prepared into felt contains no lumps, impurities or other objectionable matter. A clear nutria fur hat is as soft and smooth as a piece of silk, will retain its shape and color and will outwear any other kind of hat made. Our connections with one of the largest fur-hat manufacturers in this country make it possible for us to sell these nutria fur hats direct to the consumer at about one-third ordinary retail prices. In ordering, always mention catalogue number, size and color desired.

COWBOY SOMBREROS.

We guard jealously the reputatioo which the sterling merits of our Cowboy Hats have gained for us. Plainsmen who have put our hats to the test and found them worthy are constantly showing their approval by commending them to their friends. We appreciate their good word, honestly spoken, and in acknowledgement we place under this heading the standard styles at from 20 to 30 per cent less than they can be bought for elsewhere. There is only one factory in this country making the genuine standard shapes, and we handle their goods exclusively.

We make to order special sombreros, any and all styles or sizes, at from 75c to $1.50 extra. Three weeks is the usual time we require for making special hats to order, and we would suggest that you write to us first before sending cash, describing fully the kind of hat wanted, being sure to state size, color, width of brim, height of crown, etc., so that we can quote a price and state the length of time required for making.
