Fever and Ague,

FROM which mankind suffer over a large part of the globe, is the consequence of a diseased action in the system, induced by the poisonous miasma of vegetable decay. This exhalation is evolved by the action of solar heat on wet soil, and rises with the watery vapor from it. While the sun is below the horizon this vapor lingers near the earth's surface, and the virus is taken with it through the lungs into the blood. There it acts as an irritating poison on the internal viscera and excreting organs of the body. The liver becomes torpid and fails to secrete not only this virus, but also the bile from the blood. Both the virus and the bile accumulate in the circulation, and produce violent constitutional disorder. The spleen, the kidneys and the stomach sympathize with the liver, and become disordered also. Finally, the instinct of our organism, as if in an attempt to expel the noxious infusion, concentrates the whole blood of the body in the internal excretories to force them to cast it out. The blood leaves the surface, and rushes to the central organs with congestive violence. This is the CHILL. But in this effort it fails. Then the FEVER follows, in which the blood leaves the central organs and rushes to the surface, as if in another effort to expel the irritating poison through that other great excretory—the skin. In this also it fails, and the system abandons the attempt exhausted, and waits for the recovery of strength to repeat the hopeless effort another day. These are the fits or paroxysms of FEVER AND AGUE. Such constitutional disorder will of course undermine the health, if it is not removed.

We have labored to find, and have found a antidote

AYER'S AGUE CURE,

which neutralizes the malarious poison in the blood, and stimulates the liver to expel it from the body. As it should, so it does cure this afflicting disorder with perfect certainty. And it does more, or rather does what is of more service to those subject to this infection. If taken in season it expels it from the system as it is absorbed, and thus keeps those who use it free from its attacks; keeps the system in health, although exposed to the disease. Consequently it not only cures, but protects from the great variety of affections which are induced by this malignant influence, such as Remittent Fever, Chill Fever, Dumb or Masked Ague, Periodical Headache or Bilious Headache, Bilious Fevers, Neuralgia, Rheumatism, Gout, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitations, Painful Affections of the Spleen, Hysterics, Cholic, Paralysis and Painful Affections of the Stomach and Bowels, all of which, when arising from this cause, will be found to assume more or less the intermittent type. This "AGUE CURE" removes the cause of these derangements, and cures the disease.

This it accomplishes by stimulating the excretories to expel the virus from the system; and these organs by degrees become habited to do this their office of their own accord. Hence arises what we term acclimatation. Time may accomplish the same end, but often life is not long enough, or is sacrificed in the attempt, while this "AGUE CURE" does it at once, and with safety. We have great reason to believe this is a surer as well as safer remedy for the whole class of diseases which are caused by the miasmatic infection, than any other which has been discovered; and it has still another important advantage to the public, which is that it is cheap as well as good.

MISCELLANEOUS.

Important to Planters.

We have been informed that the greatest possible care should be taken in ordering their supplies of our

Dr. McLane's Celebrated Vermifuge,

has been so steadily winning its way as a vermifuge; the circumstances, in that several of the genuine Dr. McLANE'S VERMIFUGE, they very frequently get one or other of the many worthless preparations called Vermifuge now before the public. We therefore beg leave to urge upon the planter the importance and propriety of invariably writing the name in full, and to advise their factors or agents that they will not receive any other than the genuine Dr. McLane's Celebrated Vermifuge, prepared by Fleming Bros., Pittsburg, Pa.

We would also advise the same precaution in ordering Dr. McLANE'S CELEBRATED LIVER PILLS. The great popularity of these Pills, as a specific or cure for Liver Complaint, and all the bilious derangements so prevalent in the South, has induced the venders of many worthless nostrums to claim for their preparations similar medicinal virtues. Be not deceived.

Dr. McLane's Celebrated Liver Pills

Are the original and only reliable remedy for Liver Complaints that has yet been discovered; and we urge the planter and merchant, as he values his own and the health of those depending on him, to be careful in ordering. Take neither Vermifuge nor Liver Pills unless you are sure you are getting the genuine Dr. McLANE'S, prepared by

FLEMING BROS, Pittsburg, Pa.

DISEASES are very often followed by the loss of that finest of all ornaments—the hair—and no better preparation can be used to regain it than P. GAUDIN'S INVIGORATING AND NUTRITIVE POMATUM—Price 50 and 25 cents a bottle.

KEROSENE.

NOTICE TO FAMILIES.

THE city papers having recently reported the case of a Coal Oil Lamp explosion in the Fourth District, we think it proper to beg our customers not to confound the present Coal or Carbon Oils in the market (the greatest part of which is adulterated) with KEROSENE, a species of Coal Oil we have alone the right to sell in Louisiana.

Kerosene, which is now manufactured under American and English patents, is ENTIRELY PURE AND FREE FROM ANY ADMIXTURE OF ALCOHOL, OR OF ANY VOLATILE OIL WHATEVER. It is a new and inoffensive product, ranking between the fixed and the volatile oils, as do all other PURE coal oils.

Manufactured by a particular process, thoroughly secured by letters patent, Kerosene is now acknowledged in the United States to be a perfect article and the only substitute for any burning oil whatever, as much for its illuminating power and economy as for its improved color and deodorization.

For want of Kerosene we have sometimes sold, and we will again sell, under similar circumstances, other coal oils, but in so doing we will always, as by the past, fully test these other brands, so as to detect any adulteration in them, or to see if they do not contain an excess of benzole, which sometimes passed in the oil while being distilled, and thereby renders it volatile. — E. NAUTRE & CO., Agents of the Kerosene Oil Company, 25 Conde st.

MME. PARENT'S INSTITUTION, Corner Royal and Hospital streets.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES.

THIS establishment has been removed to corner Royal and Hospital streets. The building is vast, well ventilated and well distributed for class rooms, dormitories, &c. Madame Parent avails herself of this occasion to thank the numerous families who have so largely patronized her institution, and would assure them that their daughters will receive the same attention as heretofore. The long known reputation of her institution is the best guarantee to that effect. The course of study embraces the same system, in both English and French, as that employed in the first class institutions in the North and in Europe. Music, instrumental and vocal, including solfege, is taught by the most eminent Professors; also Drawing and Painting; Dancing by Professor Vegas.

MADAME PARENT will remove her institution across the Lake during the summer months, but will keep the school open in the city throughout the year. Finally, there will be nothing wanting to complete a literary as well as refined education; also to excite in the hearts of young persons that pure morality which is the fundamental basis of the institution, combining that easy elegance of manners so necessary for young persons. For further information address Madame Parent, Mandeville, until 15th OCTOBER; afterwards in the city at the institution, where prospectuses can be obtained. — oct4

DAY AND BOARDING SCHOOL FOR YOUNG LADIES, UNDER THE DIRECTION OF MADAM CHARPAUX. At the corner of Bayou and Claiborne streets.

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves, beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madame Charpaux will spare no pains to make her seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madame Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city and the better to consult the health of her pupils she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short all the branches of a polite education, will be taught in the Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechisms all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the professor. The study of the notes will precede the performances. When Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the pupils, and improve their singing, on the morning of the last Saturday in every month there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4½ and close at 5 o'clock, P. M.

Performed by McLean's Volcanic Oil Liniment. Read for yourselves.

Thomas Ford, a blacksmith, living near Carondelet, on Tenth street, had a horrible running sore on his foot. He tried various Liniments, Salves, &c., but could do it no good. He despaired of ever being able to work at his trade again, because he could not bear any weight on his foot; and by one small bottle of McLean's Volcanic Oil Liniment, he is now perfectly cured.

Rheumatism, paralysis, neuralgia, bruises, sprains stiffness in the joints or muscles, swellings, sore throat, earache or toothache, wounds, fresh cuts, sores, burns, old sores, &c., yield to the "magic" influence of this wonderful Liniment.

For Horses and Cattle it is an infallible remedy for halts, galls, scratches, cracked heels, lameness, spavin sweeny, splint, fistula, bruises, swellings, wounds, rattlesnake bites, and various other diseases which animals are liable to from injuries or accidents.

Every Country Merchant should obtain a supply of McLean's Volcanic Oil Liniment. It sells rapidly, because it always cures.

A liberal discount will be made to merchants who buy to sell again.

ANTI-GOUTY ELIXIR OF HIPPOLYTE BRIEUGNE, INVENTOR OF THE ANTI-RHEUMATISMAL Tropical Balm.

TILL now all medical science has had no power over the gout, the terrible disease which has ever made so many victims all over the earth, and still scars daily so many thousands from their occupations to give them up to the most painful sufferings. It is useless to recall to our minds the symptoms of this disease too well known to its numerous sufferers. It suffices to say, to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. HIPPOLYTE BRIEUGNE, already known by the discovery of the anti-rheumatismal TROPICAL BALM, that has had down to this day so great a success. The ANTI-GOUTY ELIXIR, particularly designed for curing the fits of the gout, possesses a power so much greater, warranted by a long and personal experience of the inventor, and by repeated essays upon its numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is no way disagreeable. It can be taken pure or mixed with two or three spoonfuls of tea or coffee. Its effects are felt after a few hours, whatever may be the intenseness of the fit. In twelve hours at most the sufferings disappear, and all its symptoms vanish away.
