Sales at Auction.

An Unreserved Sale of Unclaimed Goods.

BY ISAAC L. McCOY & MOSES & GARDIEL.

THE undersigned, a committee appointed by the New Orleans and Nashville Rail Road Company, will cause to be sold at public auction, by the above named auctioneers on Tuesday and Wednesday, the 17th and 18th days of January, in the town which said company has laid off on said road opposite the above sub-division, agreeable to a plan drawn under the direction of H J Rousey, Esq. chief engineer of the company. The sale will commence on Tuesday, the 17th day of January, at the Arcade Exchange, in Magazine, between Gravier and Natchez streets, precisely at half past 10 o'clock, A M, and be continued on the following day, Wednesday, the 18th inst, at the same hour, at the New Exchange, corner of Chartres and St Louis streets; and should the whole not be disposed of during these two days, the sale will be continued from day to day, at such place alternatively, until the whole is sold.

This town is situated 90 miles from New Orleans on the route of the New Orleans and Nashville Rail Road, which runs immediately through it, and that company persuaded of its importance and value, have selected it as one of their principal depots, and as the most suitable point on the whole route for the erection of their machine and engine factories, and it is believed that no situation throughout the southern section of the United States combines equal advantages. As a pledge of the company's views on this subject, they have resolved to expend nearly the whole of the proceeds of the sale in making improvements therein, which will be more fully understood by reference to the terms and conditions of the sale, as stated below.

Among the many advantages which the sale of this town offers to purchasers, may be enumerated the following: Its healthy situation being on the west bank of the river, Tangipaho at an elevation of 85 feet above the level of the lake, surrounded by forest of pine and oak, all combining to render it the most healthy point in the country. It also affords the most eligible situations for country seats, possessing a soil peculiarly adapted to gardens and the cultivation of all kinds of fruit, and vegetables, particularly peach, pear, fig, grape, strawberries, raspberries, &c. &c. for the establishment of dairies, the raising of stock, and the grazing of cattle, it also possesses many advantages, being well watered, and the adjacent country, affording a luxuriant supply of pasture during the spring & summer months. To gentlemen of fortune as well as those fond of hunting, it will at all seasons afford an agreeable retreat—the surrounding country abounding in game of all kinds, and the neighbouring streams affording a great variety of the choicest fish, such as the trout, the perch, &c &c.

The river Tangapaho is well known for the purity of its waters, heading as it does from springs about distance above the State line, the bottom lands extend from a quarter to half a mile in width, and rises from al, swamp and marsh. A superior quality of brick can be made at any point between the lake and the State line, while the timber may be converted into lumber to a great advantage. Springs of the finest water are often met with, and water equally pure may be had at any point at a depth of 20 feet. The natural roads for many miles above and below the town are very good, which, with the bracing atmosphere and luxuriant forests, will afford the most agreeable drives. The nearest town is St Stephen, 8 miles below the best, Springfield is 20 miles to the south, Covington and Madisonville 25 miles to the east, and Bonneguille, Mississippi, 30 miles to the north, and carriage roads to communicate with all these places.

To mechanics of all occupations, those of small as well as large means, and particularly those unacquainted, it certainly holds out inducements far greater than any other town in the southern country. The unusual application of steam in the construction of railroads will ensure the company to contract an intercourse between this city and the Pearl River, at a very reduced cost.

On reference to the plan it will be perceived that the company has consulted the pleasure, convenience & comfort of its inhabitants by the manner in which they have laid off the town on all its details. The arrangement for the company's depot. The many eligible positions of the public squares, and fine avenues, the reservations for the hotel, college, academy, market, churches, and last, though not least, that for a cattle fair, all are to be those, that the wants of all those likely to come into or reside in the town have been fully provided for. But these advantages, great as they are must yield in importance to those which will strike every one on a perusal of the conditions of the sale, the most important of which provide for the establishment of a water power, which cannot fail to render Tunica Sam a populous inland manufacturing town, bearing the same relation to New Orleans, that Manchester, Birmingham, or Sheffield do to Liverpool and London, or New-ark bears to New York, or Lowell to Boston. It was this power which led to the idea of a town at the point selected. It was based upon other instructions to select a spot for a depot, where health could be enjoyed, good and pure water obtained, and beyond the mere depot region, a further requisite was that of water power for the machinic and engine factories of the company.

On a careful examination of the river Tangapaho, it was discovered that by a dam of 8 feet above low water, a mean depth of fortnight in length, a fall of 29 feet would be had. The river at the lowest stage, affords water sufficient at such elevation, to fill an aqueduct equal to 2 40 inches at the use of the river, the management of land interested have concurred in writing. The dimensions of the canal will be such as to afford all the power required for manufactories, and will be furnished by the company on very reasonable terms. The canal will border the town in all its length, as shown by the plan, and may be employed at any point by returning the water to the river, and will prove very valuable in the facility with which rafts of timber may be brought down from miles above. It is proposed to commence these works as soon as any part of the proceeds of the sale can be realized, in order that they may be available by the time the road is completed to that point.

On a review of all the advantages which this town possesses, its proximity to the great commercial emporium of the South West, its facility of communicating with the same and with the Western states, its unpalleled health, its large reservation for public uses, its immense water power, together with the great efforts of the company to render it so large a proportion of the amount of sales to its improvements, all unite to render this one of the most important and interesting sales to purchasers ever offered in this city.

TERMS AND CONDITIONS OF THE SALE.

On fifth of the purchase money payable in 6 months and the residue in 1, 2, 3and 4 years without interest, all for notes secured by mortgage, but absolutely endorsers will be required only on the three first payments, giving to purchasers the privilege of discounting their paper at the rate of 8 per cent per annum—the endorsements will be gratuitously paid at maturity, to bear an interest of 10 per cent per annum from the time they become due until they are finally paid.

The acts of sale to be passed before H B Conas, Esq. Not Pub at the expense of the purchasers, within 60 days, otherwise, and the sale will again here sold and the original purchasers held liable for any loss arising therefrom. Possession will be given at the expense of the company, if required, during 30 days, after which period it must be at the expense of the purchaser.

The funds arising from the sale, the Company obligate themselves to apply as follows, to wit:

1st. 50 per cent of the nett proceeds of the sales, or so much thereof as may be required, for establishing a water power within the limits of said Town, sufficient at the least for driving the machinery which the company may think proper to establish for the manufacture or repairing of locomotive engines, and railroad cars, and for driving a saw mill and grist mill, and for such further power as the company may deem advisable.

2d. 10 per cent of the nett proceeds of sales, or so much thereof as may be required, towards building a hotel, according to a plan to be exhibited at the time and place of sale, and on a square of ground set apart and given by the company for that purpose.

3d. 10 per cent of the nett proceeds of sales, or so much thereof as may be required, towards building a college sufficient to accommodate at least one hundred pupils, to be erected on a tract of land situated in the vicinity of the town, as designated on the plan, containing 40 superficial acres, set apart, and given by the company for the purpose.

4th. 10 per cent of the nett proceeds of sale, or so much thereof as may be required, towards building a bridge over the river Tangapao at a suitable point near the town.

5th. 10 per cent, of the nett proceeds of sales, and of the building and keeping up of a cotton factory, working at least 10,000 spindles, and to pay over the same to any corporate company, individual or individuals who will give good and satisfactory security for building and putting into operation said factory within five years from and after the period the company furnishes the necessary water power for that purpose, and to continue said factory in active operations for the period of 5 years from the time it commences business. The company engaging to give the right to use for said factory water power sufficient to drive the number of spindles above mentioned, and a sufficient space of ground on which to erect said building, and for conducting the water to and from the same.—The whole under the security aforesaid. The company further engage that every owner of any of the lots offered for sale by them, shall be entitled to take from the canal or any pipes which may be laid by the company, water sufficient for the reasonable wants of a family, provided the same be done at the expense of such owner, and in such manner as not to injure the canal or other works of the company.

A plan of the above town will be exhibited at the Arcade Exchange in the course of a few days.
