OPIATA BALSAMICA,

DEL DR. GUERRERO.

THIS OPIATA, a recent discovery, is a certain safe and convenient remedy for that species of disease called Gomorrhœa or Gleet. Its reputation has been generally established in South America, and has commanded the written testimonials of the Medical Faculty of that section of the Globe, relative to the speedy and infallible results which have attended its application to all cases of Gomorrhœa.

The OPIATA BALSAMICA is put up in small leaden pots, accompanied with directions, and may be conveniently carried in the pocket, both by persons travelling, and by those who may wish to avoid exposure, either to a physician or to their friends.

It is in the form of an agreeable paste, and is taken in such a manner as to render it "tasteless," by being wrapped up in a wafer prepared for that purpose, a sufficient number of which will be delivered with the medicine. But the greatest advantage which it possesses, is, that it invariably produces a radical cure of the disease in a few days, without affecting the most delicate constitution, owing to its containing the slightest particle of mercury in its composition.

Before the Agent would offer it to the public in this country, he has had its efficacy tested by several of the most respectable physicians in the city of New York. Their success has fully justified the declaration, that it is the best medicine they ever used, and they have in consequence, generously consented to be referred to as to the truth of this statement.

Price—each pot, one dollar and a half. It is sold by the subscribers, chemical druggists, sole agents for the remedy in Louisiana.

COAL TAR.—This useful article becoming every day more and more appreciated, many planters having proved its great virtues in keeping out water from wood roofs, and preserving fence timber &c. Planters, shipmasters, steamboat masters and builders, are generally informed that the New Orleans Gas works can supply every demand for the article, and at a much cheaper rate than it has usually been sold here—the expenses of importation being saved.

N.B.—Coal Tar mixed with sharp sand and a little time makes a most excellent CEMENT for tile roofs, securing them from leakage.

IMPORTANT NOTICE TO ALL AMATEURS OF GOOD EATING.

IN this country, where the arts are daily making such rapid progress, the CULINARY art has hitherto been neglected—pastry, especially, has never been undertaken on an extended scale. It is true great many articles of that kind are daily imported from Europe; but the high prices asked for those delicacies, prevent great many persons from enjoying them; and what a difference in the cause will they have if prepared on the spot, and offered fresh to the consumers.

Forcibly struck with this idea, wishing to obviate to the little variety to be found in our market, especially in the forthcoming season, we have called from France one of our friends, a disciple of the celebrated COLIN, of Nantz, and with his assistants we intend to possess, on a great plan, the Culinary Art, and hope to present to families, travellers, and the public in general, all kinds of Pastry. Every Sunday there will be found at their store a great variety of turkies, large and fat pullets, venison, and all kinds of poultry, with or without truffles, &c.; the variety of good things will be such that Amateurs will be puzzled to make a choice. In the days of the week, we will thankfully receive all orders for any article in our line, and beg persons who will favor us with their patronage, to give a day's notice of their commands, so as to enable us to afford them complete satisfaction. We will also undertake all public and private dinners, &c.; go out in private families, to order and prepare entertainments
