(3) List of designated reparation machinery and equipment to be moved and used.
Annexed List.

(4) Necessity for movement and use of machinery.

Most Machinery we possessed were damaged by air raid and they are not yet supplemented. We are much in need of machinery for scientific researches, for education of students as well as for (making, preparing) test pieces.

That is to say; we have nearly 600 students in the Faculty of Engineering, for whom we have scarcely few machines and apparatus for research work and practice. We have no machines and apparatus worthy of mentioning for use in laboratories, work shops, and test plants.

Those are absolutely indispensable for advancing the university research work both in elevating the scientific level in our country and in promoting the export trade.

We would like to move 725 machines (Machine Tools 469. Industrial Machines 18. Electric Machines 121. Others 117) which are idle at present in Imamura Plant, Aichi Kigyo Co., Ltd.
(Detailed information is given in the attached list)

4) Method of administration at the place which the movement has been made:

Our Eitoku Plant is the reparation designated plant. Therefore they are obeyed to administration of same method with reparation machines belonging to the Eitoku Plant.

5) Necessity for movement at the designated reparation machinery and equipment:

(a) Imamura Plant keeps its reparations machinery and equipment which are idle in a part of the buildings owned by Aichi Boseki K.K.(Aichi Cotton Spinning Co., Ltd.) at present.

(b) Authorized use machines of this plant are all used for cotton spinning works of Aichi Boseki K.K.

(c) Aichi Bose9i K.K. intends to increase its spinning capacity to the utmost extent of its owned buildings and to promote Japanese export in accordance with the advice of the authorities concerned.

DECLASSIFIED E.O. 12065 SECTION 3 (E), NARS

(d) On the other side, our company has sufficient space to accept the idle machinery and equipment mentioned in paragraph (a) and to keep them in good condition at Eitoku plant and Atsuta plant.

(e) So we would like to move all the idle machinery and equipment of this plant to 2 plants mentioned above, and return the buildings to Aichi Boseki K.K. so as to let the company to achieve its intention.

(f) According to this movement, we can diminish on of idle reparation plants, and so can save the expense of custody.

APPLICATION FOR MOVEMENT AND AUTHORIZED USE OF
DESIGNATED REPARATIONS MACHINERY AND EQUIPMENT

30 September 1950

TO : Ministry of International Trade and Industry
FROM : Chukyo Tankosho
Address: No. 1 Hatsutsubo, Nakakiri-cho, Kita-ku, Nagoya City, Aichi Prefecture.

1) Name (Code No.) and Location of the plant which intends to use designated reparations machinery and equipment:
Chukyo Tankosho (non-reparations plant)
No. 1 Hatsutsubo, Nakakiri-cho, Kita-ku, Nagoya City, Aichi Prefecture.

2) Name (Code No. & Category) and Location of the plant where designated reparations machinery and equipment to be used actually exist:

Name of Plant	Location	Code No.	Category
Aichi Kigyo Kabushiki Kaisha, Atsuta Plant (Former: Aichi Kokuki Kabushiki Kaisha, Atsuta Hatsudoki Seisakusho)	Aichi Prefecture	01-01	AIRCRAFT
Aichi Kigyo Kabushiki Kaisha, Imamura Plant. (Former: Aichi Kokuki Kabushiki Kaisha, Imamura Plant)	Aichi Prefecture	01-04	AIRCRAFT
Aichi Kigyo Kabushiki Kaisha, Eitoku Plant (Former: Aichi Kokuki Kabushiki Kaisha, Eitoku Plant)	Aichi Prefecture.	01-62	AIRCRAFT
Fuso Kinzoku Kogyo Kabushiki Kaisha, Tsu Plant (Former: Sumitomo Kinzoku Kabushiki Kaisha, Tsu Plant)	Mie Prefecture	23-07	AIRCRAFT

3) We wish to move and use following designated reparations machinery and equipment:

Name of Plant	Classification	Operation or Idle	No. of Items
Aichi Kigyo Kabushiki Kaisha, Atsuta Plant	Machine Tools	idle	11
Aichi Kigyo Kabushiki Kaisha, Atsuta Plant	Industrial equipment	-do-	1

- Particulars of each machine are described on annexed papers.

DECLASSIFIED E.O. 12065 [illegible]

4) Necessity for movement and use of machinery and equipment:

a) Outline of company

"Chukyo Tankosho" was corporated in 1945 with a capital of ¥1,250,000 in company with the increase of equipment and facilities for forging and machining the automobiles parts and other parts for machines by steam hammer which was started since 1939 under small scale of private management.

For the present time we are engaged in forging ad machining theparts for automobiles, railroad truck, and spinning machine with the ~~twenty~~ ten years experiences and skillness specially in forging.

In 1949, we were designated as a staple factory by the Ministry of Commerce and Industry.

At present, we are capitalized at ¥1,250,000 and have fifty employees, and are member of Nagoya Export Association for Industrial Machinery which was organized in February this year.

We are receiving the inquiry for small tools from Canada, Mexico, Argentine through Shinyo Trading Co. Ltd. and Zenyo Shoko Co. Ltd. which is connected with Nagoya Export Association.

So far, we have received the orders amounting to ¥100,000,000with the great please for the samples we have sent to them.

In order to fulfill these orders we are put in position to increase not only employees but many machineries which is most deficient in our factory specializing in forging than in machining in the past.

The detailes of the orders we have in hand are as attached list (1).

b) Reason for application

i) Increament in machining equipment

We have been manufacturing a forge goods mainly by asking the machinery work of them to other factories.

But, the inquiry we received from traders abroad through Japanese suppliers about small tools, recently need 70% of machinery work in manufacturing. It will be very difficult for us to meet customer's demands in price as well as in quality by the manufacturing process we have now.

So, it is our plan to do a whole manufacturing by ourselves installing the more machinery equipments. Examples of present inquiries we have received are as per attached pictures.

ii) We want renew superanuated machines.

We have few machines as a reserve as you will see in the attached sheet (2) II, almost all of our machines are worn out and have low mechanical efficiency. And to make matters worse, they have troubles in making the parts of spinning & weaving machines and automobiles which must be very precisely.

iii) Machine mentioned above can't be gotten cheap on the market.

As almost all of the machine tools on the market are repaired ones which suffered war damages we can not expect the precision of them. Market prices for the new machines being very high, it is very difficult for us to get the large fund ready for buying at a time.

For these reasons we beg movement and authorized use of designated reparation machinery and equipment.

You will see in the attached sheets the present machinery and equipment, items of products, present state of demand, and the results after using machines applied for.

Signed. Fujio Ozawa

Name. ~~Fujio Ozawa~~

Director of Chukyo Tankosho

We shall be much obliged if you will give this matter your favourable consideration and grant us the permission for movement and authorized use of the designated reparation machinery and equipment at your earliest convinience.
