DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

S.W. File

February 17, 1950.

TO: Kanagawa Local Labour Relations Committee.

From: Tokyo Shibaura Electric Co., Ltd. (Appellee)

Representative: Taizo Ishizaka, Director and President.

Subject: Written Report

In reference to the case of appeal against unfair labour acts with the undermentioned two persons as parties thereto which was filed with your honourable Committee, the Appellee submitted to your honourable Committee a written report under date of February 6, 1950 and now by this report the Appellee wants to supplement it as follows:

Appellor: Hiroshi Inoue and 36 others

Appellee: Tokyo Shibaura Electric Co., Ltd. represented by Taizo Ishizaka, Director and President.

1. As referred to in the Written Report dated February 6, an amicable settlement has been reached as a result of that the above appellors retired of their own perfect free will or quite voluntarily and accordingly, they would be disqualified for any legal relief provided for in the Trade Union Law.

Now, the matter which the Appellee wants to again state with emphasis in this report is the next fact. That is, originally speaking, on the authority of their decision that the dismissals in question would be unfair labour acts, the Appellors submitted with your honourable Committee an appeal against the

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 Ok3

Company, looking forward to any possible relief, but afterwards they had retired VOLUNTARILY according to the provision of Art. 1 of the Agreement, which means that both parties reached a perfect accord on the utter cessation of the controversies between the Appellors and the Company on the cancellation of contracts of employment. In other words, as a result of the said accord, the substance of DISMISSAL on which the Appellors submitted to your hounarable Committee an appeal for unfair labour acts restoration, has ceased to exist utterly.

In short, first the fact of DISMISSAL put rise to controversy and then an appeal was submitted, but finally an amicable settlement was reached thereon. In this connection, your honourable Committee is respectfully requested to fully examine into such developments as mentioned.

2. Some reference was made to the object of the Agreement and the meaning of each article thereof in the Written Report dated January 31 and it is no denying that the object of the Agreement lies in the entire solution of all the disputes in question as definitely stated in its preamble and each article is a detailed regulation to embody this basic object.

Therefore, as already mentioned, the existence of the reconciliation with the Appellors is an indisputable matter now that the mutual performance in Art. 1 has been finished.

For President Taizo Ishizaka, Representative

of Tokyo Shibaura Electric Co., Appellee,

T. Takahashi (sealed)
Executive Director

Tokyo Shibaura Electric Co.

e. Air Express via Commercial Air Lines Protected by Military Guards. The provisions of d above will govern generally.

f. Rail Freight Service Protected by Military Guards. See paragraph 8, AR 55-155, 27 November 1942.

g. Ordinary Motor Truck Freight Protected by Military Guards. The principles of paragraph 8, AR 55-155, will govern. Only one guard will be used for short runs unless more are necessary.

h. Water Freight Service Protected by Military Guards. The principles of paragraph 8, AR 55-155, will govern. When vessels are used which have arrangements for carrying passengers, transportation requests will be issued. When vessels are used which do not have arrangements for carrying public passengers, carriage free or at a reasonable charge, appropriate arrangements for meals will be negotiated.

i. Straight or Mixed Troop Trains. Classified materiel accompanying troops will be adequately guarded by organization personnel.

j. Guards. Guards sufficiently armed will be provided in accordance with paragraph 8, AR 55-155. Neither carrier's nor military guards will be used for the sole purpose of preventing disclosure of information of RESTRICTED materiel. Guard service may be used on any shipment when necessary to prevent physical sabotage. When possible, where concealment of the arm is not necessary, submachine guns, automatic rifles, or rifles should be provided in preference to pistols.

k. Shipment of CONFIDENTIAL and RESTRICTED Materiel without Guard. Shipments of CONFIDENTIAL and RESTRICTED materiel may, at the discretion of the agency involved, be shipped by one of the following methods, without guard:

(1) Protected express.

(2) Sealed freight or express cars.

(3) Sealed truck under own motive power.

(4) Flatcar, provided trucks or crates containing the equipment are suitably locked and/or sealed and locked and/or sealed to the car. In addition, the equipment will be protected from external view and injury from normal hazards in shipping.

37. Transmission of Classified Files:

a. Shipments of classified files to records depots and records depositories will be made as follows:

(1) When the quantity of TOP SECRET, SECRET, or CONFIDENTIAL documents remaining after downgrading is small, the documents will be transmitted under separate cover as provided elsewhere in this Regulation for the transmission of individual documents. A charge-out will be placed in the folder which contained the document, and the document will be properly identified as to the file and folder from which extracted prior to transmission.

(2) When the quantity of TOP SECRET, SECRET, or CONFIDENTIAL documents which cannot be downgraded makes the above procedure impracticable, the files in which the documents are maintained will be packed in the standard records boxes prescribed in TM 12-259, securely fastened by flat steel straps. The outside of the box will contain no indication of the classified character of the files. The boxes will be shipped under security regulations applicable to bulk shipments of classified materiel except that TOP SECRET and cryptographic documents and messages in all cases will be accompanied by an officer courier in addition to armed guards.

d. Transmission:

(1) Within a Headquarters. Subject to the provisions of a and b above, the commander of each headqurters will provide for the security of TOP SECRET matter transmitted between offices within a headquarters.

(2) Outside a Headquarters:

(a) TOP SECRET matter will be transmitted outside a headquarters by a courier of the Security Courier Service; by specifically designated and cleared commissioned or warrant officers (Normally, a pilot will not be designated as a courier since the operation of the aircraft and action in the event of an emergency make such assignment impracticable.); by specifically designated civilian couriers, i. e., State Department or other high Government officials, etc.; or by accompanied State Department diplomatic pouch.

(b) Accompanied State Department diplomatic pouch will be used exclusively for transmission of TOP SECRET matter through or within a neutral country.

(c) In all cases where TOP SECRET matter is to be transmitted via State Department channels, the originating office will place in the lower left-hand portion of the front of the outer cover the following routing certificate, approximately two inches by four inches, which will be typewritten and pasted on or applied by rubber stamp or other legible means, and marked for transmission "By Courier (hand treatment and registration to destination):"

ROUTING CERTIFICATE

It is certified that contents require transmission indicated below: (Mark one.)

_____ BY COURIER (Hand treatment and registration to destination).

_____ AIR POUCH (May be unaccompanied. Speed primary.)

_____ SURFACE POUCH (May be unaccompanied.)

Office or phone _____. Name and grade _____.

30. Handling and Transmission of SECRET Matter:

a. Within a Headquarters. The commander of each headqurters will provide for the security of interoffice transmission and handling of SECRET matter. Transmission between major headquarters offices will be covered by a receipt system.
