Dr. Ed. Martin's Vermifuge Syrup, *Without any disagreeable Taste or Smell.*

THE MELIA AZEDARACH, (Fallia Sigismund, [illegible]) Class X. Decandria—Monogynia—Jussieu, Class XIII, order 11, Meliaceæ—Tournefort, Class XXI, Arbores [illegible] one of the most beautiful ornamental trees [illegible]

Having sought with the greatest care in the bark of the root of this tree, the active principle which produces such excellent results in verminous affections of children, we have succeeded in extracting it in its purest state and by combining it with other tonic plants which are nearly all indigenous to Louisiana, have arrived at composing the above VERMIFUGE SYRUP, the efficacy of which is now beyond the shadow of a doubt.

This Syrup, of an agreeable flavor, can be administered without the slightest apprehension to the most delicate children. Its use continued during three days, the dose being given at shorter intervals as the child may be older and stronger, will infallibly expel all those intestinal worms which are the cause of so many diseases, dangerous and often fatal to children.

Some mothers, rendered timorous by the frightful results of the various vermifuges hitherto employed, have given it to their children, but in doses extremely small; this has, in such cases, rendered the effect incomplete, and might have injured the standing of this remedy, had not several of our most experienced practitioners, by judiciously prescribing it and regulating the doses adapted to the different ages tested and established its excellent virtues.

To avoid debilitating the little patients by too severe a diet, we have modified the dose originally prescribed, in the following manner:

Children 2 to 5 years old, three tea spoonfuls a day, at an interval of from 1 to 2 hours. Above five years old, three table spoonfuls at the same intervals. No nourishment to be given between the first and third dose, nor within six hours after the third.

The Syrup must be administered during three consecutive days. Composed entirely of vegetable extracts, this Vermifuge does not produce any of the pernicious effects which have often followed the use of those hitherto in use.

ROB LAFFECTEUR.

THE ROB OF DR. BOYVEAU LAFFECTEUR the only one authorized, is far superior to the syrups of Cuisinier, or Sarsaparilla, or other similar remedies. It radically cures without mercury, all affections of the Skin, Dartres, Scrofula, and consequences of Itch, Ulcers, accidents from Accouchements the critical period of life, and hereditary acrimony of Humors. As a depurative, it is powerfully efficacious in catarrhs of the bladder, in contractions and other weaknesses of the Organs arising from abuses of injections or sounding. As an Anti syphilitic, the Rob cures in a very short time, recent or inveterate diseases resulting from the use of Balsam of Copaiva or Cubebs, or from injections, which only repel the Virus without neutralizing it. The Rob Boyveau is above all recommended in syphilitic diseases, old and of long standing, and which have resisted the powers of mercury, or the Iodure of Potassium. Depots of the Robb in Orleans, Duliho and Mr. Ducongé; Paris, Dr. Giraudeau de St. Gervais, 12 rue Richer. nov15 1aw

REMOVAL OF RED RIVER RAFT.

Proposals will be received at the War Department until the first day of April next, for removing the obstructions in Red River, known as the Red River Raft, and keeping the navigation of said river open and free from obstructions by raft or drift of any kind or snags for five years from the first of January, 1853. [illegible]

The contractor will be required to give his bond for $20,000, with two good sureties, each for the sum of $10,000, conditioned for the faithful performance of the contract. Each bidder will transmit at the same time with his proposals, the names of the persons whom he offers as sureties, and a declaration, signed by them that they will sign his bond as sureties as abovementioned; and also the certificate of the judge of the United States for the State in which he resides, that said securities are respectable citizens, and that he considers them worth $10,000 over and above all their debts and liabilities. No bid will be considered unless these conditions shall be complied with.

Terms of Payment.

Of the sum of $100,000 appropriated for the above object, $50,000 shall be paid as the work of removing the raft advances, as follows, to-wit: Whenever the contractor shall report that a portion of the raft has been removed, the same shall be examined by an officer appointed by the War Department, and if it shall appear that such is the fact, the Department will pay such a proportion of the said sum of $50,000 as the portion removed shall bear to the entire raft, provided no partial payment shall be made for less than one-tenth part of the whole work. The remaining $50,000 will be paid in equal annual instalments corresponding in number with the number of years during which the contractor shall bind himself to keep the navigation open, of which fact the Department is to be the sole judge.

Each bid must be for the whole work, that is, for the removal of the raft and for keeping the river open for a specified period. No separate proposals for portions of it will be considered.

The proposals will be addressed to the undersigned, marked on the envelope, "Proposals for removing Red River Raft."
