Investigation on State-owned Land under the management of the State Property Section, Property Management Bureau, Ministry of Finance, for which a Sale Contract was Concluded on 3 May 1946.

Investigation so far made on the Subject above captioned is as follows:

1. The forestal estates bearing on the present Subject were formerly the property of the Imperial Household. It is part of the estates transferred by the Imperial family to corporations or individuals from about 1918 - till about 1945 in the form of sale contract the terms of sale transactions were yearly instalments extending over 15 years. In cases where the payments of the prices were not made in full, the ownership was not transferred to the purchasers.

2. On 3 May 1947, howerer, pursuant to Article 88 of the new Constitution, all properties of the Imperial family became the possession of the State and they were placed under the management of the Ministry of Finance. As for the estates forming the subject matters of the present case, the payments of the prices, in all cases, had not been made in full, and, as their ownership was in the hands of the Imperial family, they were transferred to the Ministry of Finance together with other Imperial properties. Payments in arrears for the estates in question amount in money to about 200,000 in all, calculated up to date.

3. When payments have been made in full in the future, the ownership of the estates in question will be transferred to the purchasers.

4. Most of the estates in question is farmland and at present they are under cultivation by farmers.

5. Sale contracts for the estates in question are signed by the Director of the Imperial Forestry Bureau, now defunct, and certificates of transfer are handed to purchasers. Receipt is issued for each

payment of instalment. The prices were accordingly paid in to the Imperial Forestry Bureau up to 3 May 1947 and have been paid in to the National Treasury (general account) since then.

6. The estates in question, as detailed in the accompanying table, are distributed over ten prefectures, and their purchasers represent a considerable number. Minute investigation on each of these purchasers will require a number of days.

Estates for which ownership was not transferred up to 2 May 1947
