463.3(9 Sept. 49)ESS/FEC AC (Amendment to No. 258, 261 and 263)

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(27 May 49)ESS/FEC AC, dated 27 May 1949, subject: Allocation of Coal for July, August and September 1949.

2. Preliminary allocation of imported coking coal for October, November and December 1949 (deferred from July, August and September quarter).

a. The category "Iron and Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased 28,894 tons of imported coking coal from a total of 169,860 tons to a new total of 198,754 tons. This coal is on the following ships:

Date of Arrival	Ship	No. of Tons
28 July	Nachman Syrlsin	10,025
2 August	Harpalycus	8,994
2 August	James McHenry	9,875
	Total	28,894

3. Preliminary allocation of imported coking coal for January, February and March 1950 (deferred from October, November and December quarter).

a. The category "Iron and Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased 37,757 tons of imported coking coal from a total of 0 to a new total of 37,757 tons. This coal is on the following ships.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Removal of all Allocation Controls on Coke

1. Reference is the following memorandum to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

2. Improvement in coke production and ready supplies on hand at distribution points make it unnecessary to continue present method of allocating coke. In order that efforts may be concentrated on the materials which still remain in short supply it is essential that materials be removed from allocation controls whenever the supply is adequate.

3. All coke will immediately be removed from existing allocation controls and from transportation certificate control. The Director General of Economic Stabilization Board will make recommendations to the Minister of International Trade and Industry regarding special and high grade coke such as should be sold only to designated consumers of designated industries.

4. Target date for removal of coke from allocation control should be 31 August 1949.

INFORMAL MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Abolition of Solid Fuels Distribution Kodan and Removal of Price Control on Coal.

1. References are:

a. Memorandum from Major General W. F. Marquat to the Minister of International Trade and Industry, 11 July 1949, subject: Decontrol of Coal of 5,000 c/k and Less.

b. Economic Stabilization Board document No. 285, Memorandum from Director General to Major General W. F. Marquat, 28 July 1949, subject: Overall Policy on Coal.

c. Economic Stabilization Board document No. 289, Memorandum from Director General to Major General W. F. Marquat, 4 August 1949, subject: Supplementary Statement to the Overall Policy on Coal.

2. The recommendations of the Japanese Government are accepted as noted and amended in the succeeding paragraphs.

3. Improvement in coal production and increasing stock piles in the hands of the Solid Fuels Distribution Kodan make it necessary that measures be taken at the earliest possible date to accomplish the following objectives:

a. Discontinue the purchase of all coal by the Kodan as quickly as feasible and in any event no later than 15 September 1949, by which date the Kodan should be officially abolished, except for liquidation.

b. Proceed immediately with an orderly liquidation of Kodan coal stocks, complete liquidation of all stocks to be accomplished no later than 1 April 1950.

c. Complete arrangements for transfer of all coal distribution functions from the Kodan to private distributors no later than 15 September 1949, including provision for coal producers to sell directly to consumers as well as through wholesalers and dealers other than the Kodan.

d. Remove price controls on all coals, indigenous and imported. Price decontrol is to become effective simultaneously with abolition of the Kodan, in no case later than 15 September 1949.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

COPY

4. It will be the responsibility of the Japanese Government, through its constituted agencies, to insure that, as a consequence of coal price decontrol, variations in selling prices are not permitted which will adversely affect the selling prices of essential commodities and services in the stabilization band.

a. Authority shall be maintained by the Economic Stabilization Board to reinstate price controls at any time, such authorization to be confirmed at the earliest possible date, by legislation enactment, if necessary.

b. In no case will official producer and/or consumer maximum prices of a controlled commodity be permitted to increase on the basis of higher coal costs resulting from removal of official maximum prices for coal, except for adjustments resulting from subsidy removal, adjustment or transfer.

5. The Japanese Government is advised to take such measures as are necessary to prevent any federation(s), association(s), group(s), or other combination(s) from achieving any degree of control over entry into business, prices, allocations, distribution, purchases or sales of coal or of materials necessary to its production or further utilization.

6. The above provisions shall apply to coke.

7. It is requested that the Director General, Economic Stabilization Board, prepare a plan for implementing above measures, to be submitted not later than 27 August 1949.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Removal of all Allocation Controls on Coal

1. Reference is the following memorandum to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

2. Improvement in coal production and ready supplies on hand at distribution points make it unnecessary to continue present method of allocating coal. In order that efforts may be concentrated on the materials which still remain in short supply it is essential that materials be removed from allocation controls whenever the supply is adequate.

3. All coal will be removed from allocation controls and from transportation certificate control. The Director General of Economic Stabilization Board will submit the coal allocation plan for third quarter, JFY, to the FEC Allocation Committee, by 10 August 1949 and will, at the same time, submit a plan of allocations operations after full decontrol and transitional procedures to be followed until full decontrol of allocations is effected. The Director General of Economic Stabilization Board will also make recommendations to the Minister of International Trade and Industry regarding such special and high grade coals such as should be sold only to designated consumers of designated industries, such as Occupation Forces, manufacturers of coking coal, steel and iron, fertilizer, chemicals manufacturing and for such activities as electric thermal generation, transportation, etc.

4. A target date for removal of coal from allocation control should be 15 August 1949.

SUBJECT: Amendment #233, Corrections

1. References are the following memorandum to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

2. Supplementary information regarding subject allocation:

a. The allocation to "Medicines" under the major category "CHEMICAL INDUSTRIES" should be shown as 2,400 tons. This increases the total quarterly allocation to "Medicines" to 24,400 tons.

b. The new total for the category "Rayon and Staple Fiber Spinning" under the major category "TEXTILE INDUSTRY" should be shown as 1,350 tons, representing 500 tons new allocation plus 850 tons previously allocated.

CONSOLIDATED WEEKLY OPERATIONS REPORT

REPORT NUMBER 11, VOLUME 2

COAL (Production)

1. Revised figures for the last ten days in February 1949 indicate that production reached 103.5% of planned production. All producing areas except Hokkaido and Yamaguchi exceeded their goals during this period.

2. According to final figures for the month of February 1949, 3,025,200 MT were produced against a quota of 3,078,400 MT, or 98.3% of planned production. All producing areas except Hokkaido, Yamaguchi and Tohoku exceeded their goals during the month.

3. The cumulative production shortage for the first 11 months in attaining the 36,000,000 MT goal for JFY 1948, is indicated below: (1,000 MT)

Date	Planned Production	Actual Production	Shortage
1 April thru 31 Dec 48	26,285.8	25,233.9	- 1,051.9
January 1949	3,139.9	2,939.6	- 200.3
February 1949	3,078.4	3,025.2	- 53.2
Total	32,504.1	31,198.7	- 1,305.4

4. SCAPIN #1984, directing the immediate rationalization of the coal industry, was issued to the Japanese Government on 10 March 1949.

RAW MATERIALS

1. Ferrous Metals. Cold Mill Consultant. Mr. W. G. McClain, U. S. expert cold mill consultant, arrived recently in this theater and is presently visiting the Yawata Plant of the Japan Iron and Steel Company for the purpose of instructing Japanese technicians in cold mill operations.

2. Non-Metallic Materials.

a. Coke. Coke allocations, totaling 1,024,300 tons, have been firmed for the 1st Quarter JFY 1949. Estimated supply from producers will be approximately 1,004,000 tons; the balance of approximately 20,000 tons will be delivered from Coal Distribution Kodan stocks. Total allocations show a decrease compared to the previous quarter's allocation of 1,064,300 tons; however, producers are expected to consume approximately 465,100 tons, an increase of 24,000 tons.

KANTO M.G. REGION
IN 1949
OUT
NO. W 676

(Raw Materials - cont'd)

b. Crude Rubber. During the first ten-day period in March, allocations of crude rubber were as follows: 1,224 tons for domestic purposes, 71 tons for export purposes, and 12 tons for procurement demand production. The balance of allocations to be made against the 4th Quarter JFY 1948 allocation plan, totals 3,705 tons. The supply situation as of 10 March was favorable, with a stock of 2,012 tons of rubber imported but unallocated, and 8,625 tons of purchases outstanding.

c. Petroleum Products. The following petroleum products were imported during the month of February:

Gasoline	12,580 kiloliters	Fuel Oil	88,303 kl.
Kerosene	2,103 "	Lube Oil	8,044 "
Diesel Oil	28,532 "	Grease	163 tons

These products are distributed by the Petroleum Distribution Kodan under the supervision of SCAP. The majority of imported petroleum products are consumed by the fishing industry, land and marine transportation, and industrial uses. In addition to the above products, 2,435 kiloliters of bunker oil were consumed on SCAJAP vessels carrying petroleum products from the Persian Gulf.

d. Allocations of petroleum products. Allocations of petroleum products to "Mining" and "Industry" for the months of March and April are as follows: (In kiloliters)

	March		April	
	Domestic	Export	Domestic	Export
Gasoline	1,922	449	1,922	427
Kerosene	867	155	867	162
Gas Oil	1,189	109	1,189	130
Diesel Oil	3,119	477	3,119	639
Fuel Oil	24,205	191	24,205	200
Lube Oil	6,116	454	6,116	670
Grease	621	66	621	63
Wax	196	30.6	196	37
Asphalt	1,702	77	1,702	113
Total	39,937	2,008.6	39,937	2,441

e. Allocation of Lumber. Due to seasonal demands for construction materials in the housing industry, approximately two-thirds of the annual requirements are consumed during the first half of the year. In order to meet lumber requirements for this industry, approximately 95,000,000 cubic feet, or two-thirds of the 1949 JFY allocation has been allocated for housing during the first half of 1949 JFY. It is expected that this distribution will eliminate the difficulties experienced in the first half of the 1948 JFY.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(Raw Materials - cont'd)

3. Requirements. The 1st Quarter JFY 1949 allocations for critical raw materials, with the exception of oils and fats, rubber products, industrial salt, and asbestos, have been finalized, and publication is expected within a few days.

PRODUCTION OF COMMODITIES.

1. Chemicals.

a. Chemical Fertilizers.

(1) Calcium Cyanamide. Four shiploads of American anthracite coal are scheduled to arrive during the week beginning 21 March. The receipt of this high-quality coal will assure continued production of high-grade calcium cyanamide for the next 60 days, at which time additional ship arrivals of anthracite are anticipated.

(2) Calcium Superphosphate. Production of calcium superphosphate during the first 10 days of March totaled 33,000 MT. If the current rate of production continues during the remainder of the month, the initial production plan will be exceeded by several thousand metric tons. Favorable deliveries of pyrites are responsible for the excellent production rate.

(3) Ammonium Sulfate. The favorable power situation during the first 10 days of March made it possible for the ammonium sulfate industry to operate at a slightly higher rate than was programmed for.

b. DDT. Domestic production of DDT concentrate for January totaled 57 MT, or 16% above the previous peak of 49 MT in December. Month-end stocks of indigenously produced DDT also increased from 68 MT to 92 MT. The current rate of production equals about 55% of estimated requirements of DDT for public health and agricultural uses.

c. Film. February production of raw film reached a new postwar peak of 149,347 square meters. Of this amount, 4,602 square meters of cine film were produced for export, and 90,449 square meters of cine film for domestic use. In addition, 37,583 square meters of film for X-ray use were produced. The remaining production was roll and special types of film.

d. Cement. Preliminary reports indicate that production of cement for the month of February totaled 195,618 MT, or 8,551 MT more than the January figure. This represents the second largest monthly output since the beginning of the Occupation, exceeded only by the 207,718 MT output attained during December 1948.

2. Machinery and Equipment. Automotive Equipment. Noteworthy progress has been made in the production of three-wheeled motor vehicles, illustrated by the fact that 2,134 vehicles were produced during the month of February 1949, as compared with only 952 vehicles produced in February 1948.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

FACILITIES - VARIOUS

1. Construction.

a. Japanese Road Program. Scheduled requirements of asphalt for the Japanese Road Program totals 33,000 tons for 1949, of which 11,000 tons have been delivered to date, 7,000 tons are for immediate shipment to Japan, and the balance of 15,000 tons is to arrive later in the year.

b. Construction permits. A tightening of construction permits is taking place under the Nine-Point Program for the industrial recovery of Japan. Therefore, construction of amusement places is not permitted because they are considered as non-essential. This should result in a great saving of critical materials. As an illustrated case, the refusal to permit the construction of the Metro Cabaret in Osaka this week will result in the saving of 85 tons of steel rods, 1,550 koku of lumber, 1,500 square feet of glass, 60 tons of cement and 20,000 bricks.

2. Shipbuilding. Permission was granted to convert two steel fish carriers into oil tankers, one to be 50 gross tons and the other to be 80. These are needed to service the fishing fleet. Nine wooden vessels, presently being used as barges, are to be converted into seven cargo ships and two oil carriers, ranging from 140 to 250 gross tons each. Also, two 870-gross ton steel cargo vessels are to be converted from semi-diesel type into steam reciprocating engine-operated ships... Permission was granted to construct one wooden cargo vessel of 240 gross tons. This vessel is urgently needed to transport coal between Nagasaki and ports on the Inland Sea.

3. Public Utilities.

a. Electric Power. Natural streamflow throughout Japan, except for Hokkaido, during the period 10 March to 16 March, inclusive, continued relatively high, being 122% of the past ten-year average for the same period, and 116% of the streamflow of the preceding weekly period. Thermal generation was 86% of the past nine-year average, and 79% of the preceding weekly period.

On 12 March 1949, when the Iwamoto Plant of Hassoden was completed and put into operation, an increase in hydro-electric generating capacity for Honshu became available in the amount of 27,300 KW maximum and 8,900 firm (to be increased to 11,500 firm by the end of the year).

b. Gas. During February the production of gas for utility distribution totaled 75,442,419 m^3, or 65.2% of capacity of utility plants... The production of coke incident to gas totaled 108,009 MT, which is 68.3% of total capacity.

Subject: Coal Production for 1st Ten-day period, March

According to the preliminary telegraphic reports received by the coal Board from various local coal bureaus, coal production for 1st ten-day period of March registered 1,123,800 tons as against the goal of 1,152,000 tons, or 97.6%.

The production by districts is as follows: (unit: ton)

District	Goal	Actual	% of Goal
HOKKAIDO	339,300	299,600	88.3
TOHOKU	79,600	77,100	96.9
TOBU	29,800	31,700	106.4
SEIBU	3,800	3,200	84.2
YAMAGUCHI	89,300	87,200	97.6
KYUSHU	610,200	625,000	102.4
Total:	1,152,000	1,123,800	97.6

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(6 Dec 48)ESS/FEC AC, dated 6 December 1948, subject: Allocation of Coal and Lignite for January, February, and March 1949.

2. Amended action to the Coal and Lignite Allocation for January, February, and March 1949.

a. The category "Iron and Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 19,654 tons of imported coking coal from a total of 329,534 tons to a new total of 349,188 tons. The amount of this increase is on the following ships:

Irvin S. Cobb	9,744 tons
Psara	9,910 tons

b. The category "INDUSTRIAL RESERVE" is decreased by 50,000 tons of standard coal from a total of 98,427 tons to a new total of 48,427 tons.

c. The category "Direct Heating & Services & Projects" under the major category "OCCUPATION FORCES" is increased by 50,000 tons of standard coal from a total of 230,673 tons to a new total of 280,673 tons.

d. ESB Memorandum No. 227, 1 February 1949, Revised Allocation Of Substandard Coal For The Fourth Quarter, 1948: Approved. By this action the substandard coal allocations for January, February, and March, 1949, are amended in accordance with the following tabulation:

f. The category "Bunker, Foreign Ships" under the major category "EXPORT" is increased by 10,000 tons of standard coal from a total of 9,000 tons to a new total of 19,000 tons.

g. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 15,000 tons of standard coal from a total of 450,000 tons (432,000 tons of coking coal, 3,000 tons of anthracite & senseki, and 15,000 tons of other standard coal) to a new total of 465,000 tons (447,000 tons of coking coal, 3,000 tons of anthracite & senseki, and 15,000 tons of standard coal).

h. The category "Solvay Soda" under the major category "CHEMICAL INDUSTRY" is increased by 4,000 tons of standard coal from a total of 72,000 tons to a new total of 76,000 tons.

i. The category "Soda Derivatives" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of standard coal from a total of 20,000 tons to a new total of 21,000 tons.

j. The category "potassium & Magnesium" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of standard coal from a total of 7,000 tons to a new total of 9,000 tons.

k. The category "Inorganic" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of standard coal from a total of 15,000 tons to a new total of 16,000 tons.

l. The category "Synthetic Organic" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of standard coal from a total of 16,000 tons to a new total of 18,000 tons.

m. The category "Synthetic Resins" under the major category "CHEMICAL INDUSTRY" is increased by 500 tons of standard coal from a total of 2,000 tons to a new total of 2,500 tons.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

n. The category "Celluloid & Cellulose" under the major category "CHEMICAL INDUSTRY" is increased by 500 tons of standard coal from a total of 3,000 tons to a new total of 3,500 tons.

o. The category "Medicines" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of standard coal from a total of 23,000 tons to a new total of 24,000 tons.

p. The category "Glassware" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 25,000 tons to a new total of 26,000 tons.

q. The category "Porcelain & Pottery Ware" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 24,000 tons to a new total of 25,000 tons.

r. The category "Porcelain Enamel Ware" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 2,600 tons to a new total of 3,600 tons.

s. The category "Abrasives" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 4,000 tons to a new total of 5,000 tons.

t. The category "Building Brick & Roofing Tile" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 8,000 tons to a new total of 9,000 tons.

u. The category "Earthenware Pipe" under the major category "CERAMICS" is increased by 2,000 tons of standard coal from a total of 7,000 tons to a new total of 9,000 tons.

v. The category "Export Ceramics" under the major category "CERAMICS" is increased by 1,000 tons of standard coal from a total of 52,000 tons to a new total of 53,000 tons.

w. The category "Alcoholic Beverage" under the major category "FOOD PROCESSING" is increased by 4,000 tons of standard coal from a total of 30,000 tons to a new total of 34,000 tons.

x. The category "Rubber Mfg Goods" under the major category RUBBER & MISC CONSUMER GOODS" is increased by 10,000 tons of standard coal from a total of 38,000 tons to a new total of 48,000 tons.

y. The category "SHIPYARDS" is increased by 9.000 tons of standard coal from a total of 44,000 tons to a new total of 53,000 tons.

z. The category "ELECTRICAL GLASS" is increased by

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

2,000 tons of standard coal from a total of 10,000 tons to a new total of 12,000 tons.

aa. The category "lime & Dolomite" under the major category "MISCELLANEOUS CATEGORIES" is increased by 3,000 tons of standard coal from a total of 105,000 tons to a new total of 108,000 tons.

bb. The category "Electrolytic Soda" under the major category "CHEMICAL INDUSTRY" is increased by 3,000 tons of substandard coal from a total of nil to a new total of 3,000 tons.

cc. The category "Soda Derivatives" under the major category "CHEMICAL INDUSTRY" is increased by 3,000 tons of substandard coal from a total of nil to a new total of 3,000 tons.

dd. The category "Synthetic Organic" under the major category "CHEMICAL INDUSTRY" is increased by 3,000 tons of substandard coal from a total of nil to a new total of 3,000 tons.

ee. The category "Synthetic Resins" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of substandard coal from a total of nil to a new total of 1,000 tons.

ff. The category "Celluloid & Cellulose" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of substandard coal from a total of nil to a new total of 2,000 tons.

gg. The category "Industrial Alcohol" under the major category "CHEMICAL INDUSTRY" is increased by 1,000 tons of substandard coal from a total of nil to a new total of 1,000 tons.

hh. The category "Cement" under the major category "CERAMICS" is increased by 20,000 tons of substandard coal from a total of 20,000 tons to a new total of 40,000 tons.

ii. The category "Alcoholic Beverage" under the major category "FOOD PROCESSING" is increased by 10,000 tons of substandard coal from a total of 31,000 tons to a new total of 41,000 tons.

463.3(3 Jan 49)ESS/FEC AC No. 207

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(6 Dec 48)ESS/FEC AC, dated 6 December 1948, subject: Allocation of Coal and Lignite for January, February, and March 1949.

2. Amended Action to the Coal and Lignite Allocation for January, February, and March 1949.

a. The category "Export, Emergency Sale China" under the major category "EXPORT" is allocated 25,000 tons of standard coal of approximately 5,000 calorific content. This emergency requirement is to be provided immediately. In making up the amount for this allocation the major categories "OCCUPATION FORCES," "EXPORT," and "INDUSTRIAL RESERVE" are to be held inviolate. For all other categories there will be instituted a pro rata delivery restriction of approximately three-tenths of one percent (0.3%) of the total quarterly allocation.

APO 500
24 November 1948

463.3(24 Nov 48)ESS/FEC AC No. 199

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT : Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463,3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(16 Sep 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Ammended Action to the Coal and Lignite Allocation for October, November, and December.

a. The correct new total standard coal allocation for the category "Rubber Mfg Goods" under the major category "RUBBER & MISC CONSUMER GOODS" is 38,875 tons instead of the total incorrectly shown in paragraphs 2g and 2m of Amendment No. 194. This correction reflects the actural amounts allocated by the original schedule of 16 September 1948 showing 22,000 tons, and the increases of 4,000 tons, 460 tons, and 12,415 tons, respectively, by Amendments Nos. 182, 192, and 194. ESB was informally notified of this correction.

b. The category "Iron & Steel" under the major category RAW MATERIALS INDUSTRIES" is increased by 17,249 tons, of imported coking coal from a total of 214,290 tons to a new total of 231,539 tons. The amount of this increase is on the following ships:

Lake Babine	(Toronto Jobbing Co.)	8,673 tons
Argovic	(Pacific Coast Coal Co.)	8,576 tons

c. The category "Gas under the major category "PUBLIC UTILITIES" is increased by 200 tons of imported gas coal from a total of 9,000 tons to a new total of 9,200 tons, as shown by the following tabulation of ships: (Skahalin.)

Enkei Maru	(9,000 tons shown on Amendment No. 178)	5,200 tons
Yoko Maru	- - -	4,000 tons

OVER

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

d. The category "Cement" under the major category "CERAMICS" is descreased by 3,000 tons of substandard coal from a total of 30,000 tons, to a new total of 27,000 tons.

c. A new category "Potassic Fertilizer" is added to the allocation schedule under the major category "CHEMICAL INDUSTRY".

f. The category "Potassic Fertilizer" is allocated 3,000 tons of substandard coal.

3. By action of the Far East Command Allocation Committee on 23 November 1948, the Trade Service Division, ESS, operating the Overseas Store is to use the "SCAP Accredited Activities" account for the purpose of filling the coal requirements of traders at that store.

463.3(20 Nov 48)ESS/FEC AC No. 198

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(16 Sep 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Amended Action to the Coal and Lignite Allocation for October, November, and December.

a. The category "Gov't Railway" under the major category "TRANSPORTATION" is decreased by 50,000 tons of standard coal from a total of 1,969,550 tons to a new total of 1,919,550 tons.

b. The category "Cotton" under the major category "TEXTILE INDUSTRY" is increased by 880 tons of standard coal from a total of 23,426 tons to a new total of 24,306 tons. (Cotton Spinning & Weaving.)

c. The category "Dyeing, etc." under the major category "TEXTILE INDUSTRY" is increased by 43,884 tons of standard coal from a total of 68,466 tons to a new total of 112,350 tons. (Dyeing & Finishing.)

d. The category "Silk Spinning" under the major category "TEXTILE INDUSTRY" is increased by 1,640 tons of standard coal from a total of 1,140 tons to a new total of 2,780 tons.

e. The category "Rayon Spinning" under the major category "TEXTILE INDUSTRY" is increased by 730 tons of standard coal from a total of 800 tons to a new total of 1,530 tons. (Rayon Staple Fiber Spinning.)

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

f. The category "Wool" under the major category "TEXTILE INDUSTRY" is increased by 442 tons of standard coal from a total of 22,826 tons to a new total of 23,268 tons. (Wool Spinning & Weaving.)

g. The category "Rayon & Staple" under the major category "TEXTILE INDUSTRY" is increased by 1,204 tons of standard coal from a total of 48,616 tons to a new total of 49,820 tons. (Rayon & Staple Fiber.)

h. The category "Twisting, etc." under the major category "TEXTILE INDUSTRY" is increased by 1,220 tons of standard coal from a total of 649 tons to a new total of 1,869 tons. (Rayon & Silk Twisting & Weaving.)

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(16 Sep 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Amended Action to the Coal and Lignite Allocation for October, November, and December.

a. The category "Export, Emergency Sale China," is hereby added to the allocation schedule under the major category "EXPORT."

b. The category "Export, Emergency Sale China" under the major category "EXPORT" is allocated 15,000 tons of standard coal. This emergency requirement is to be provided immediately. In making up the amount for this allocation, the major categories "OCCUPATION FORCES" and "EXPORT" will be held inviolate. For all other categories there will be instituted a pro rata delivery restriction of approximately two-tenths of one percent (0.2%) of the total quarterly allocation.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers.

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(16 Sep 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Amended Action to the Coal and Lignite Allocation for October, November, and December.

a. The category "Bunker Cargo Vessel" under the major category "TRANSPORTATION" is decreased by 35,000 tons of standard coal from a total of 381,000 tons to a new total of 346,000 tons.

b. The category "Gas" under the major category "PUBLIC UTILITIES" is decreased by 21,500 tons of standard coal from a total of 500,500 tons to a new total of 479,000 tons.

c. The category "Rayon Pulp" under the major category "PAPER & PULP" is increased by 3,000 tons of standard coal from a total of 3,095 tons to a new total of 6,095 tons.

d. The category "INDUSTRIAL MACHINERY & EQUIPMENT" is increased by 3,000 tons of standard coal from a total of 57,110 tons to a new total of 60,110 tons. 1,000 tons of this increase is for "Textile Machinery," and 2,000 tons for the category "Lt Consumer Machinery & Instruments."

e. The category "Alcoholic Beverage" under the major category "FOOD PROCESSING" is increased by 2,000 tons of standard coal from a total of 30,000 tons to a new total of 32,000 tons.

f. The category "Forestry" under the major category "FOOD PROCESSING" is increased by 1,000 tons of standard coal from a total of 5,000 tons to a new total of 6,000 tons.

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

g. The category "Rubber Mfg Goods" under the major category "RUBBER & MISC CONSUMER GOODS" is increased by 12,075 tons from a total of 33,000 tons to a new total of 45,075 tons.

h. The category "Soda Derivatives" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of standard coal from a total of 16,100 tons to a new total of 18,100 tons.

i. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 32,000 tons of standard coal from a total of 375,000 tons to a new total of 407,000 tons.

j. The category "Dyes & Intermediates" under the major category "CHEMICAL INDUSTRY" is increased by 2,000 tons of standard coal from a total of 42,150 tons to a new total of 44,150 tons.

k. The category "Explosives" under the amjor category "CHEMICAL INDUSTRY" is increased by 1,000 tons of standard coal from a total of 8,000 tons to a new total of 9,000 tons.

l. The category "Alcohol" under the major category "CHEMICAL INDUSTRY" is increased by 4,000 tons of standard coal from a total of 38,000 tons to a new total of 42,000 tons.

m. The category "Rubber Mfg Goods" under the major category "RUBBER & MISC CONSUMER GOODS" is increased by 340 tons of low grade standard coal from a total of 45,075 tons to a new total of 45,415 tons. The amount of this increase is for conveyor belts for coal mines.

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(16 Sep 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Amended Action to the Coal and Lignite Allocation for October, November, and December 1948.

a. The category "Bunker for Fishing" under the major category "FOOD PROCESSING" is decreased by 2,000 tons of standard coal from a total of 27,000 tons to a new total of 25,000 tons.

b. The category "Others" under the major category "FOOD PROCESSING" is decreased by 11,560 tons of standard coal from a total of 44,000 tons to a new total of 32,440 tons.

c. The category "Fats & Oils Extraction & Expression" under the major category "FOOD PROCESSING" is increased by 12,000 tons of standard coal from a total of 8,000 tons to a new total of 20,000 tons.

d. The category "Milk & Milk Products" under the major category "FOOD PROCESSING" is increased by 1,560 tons of standard coal from a total of 10,500 tons to a new total of 12,060 tons.

3. The following increases are a supplementary allocation of class D standard coal amounting to 62,000 tons produced during the summer and stockpiled at Kinki, Sumida, Shokoku, Nagoya, and other districts as indicated by the Coal Kodan's report on class D coal dated 27 September 1948. In order that the transportation burden be minimized it is important that coal for delivery against this supplementary allocation should come from the stockpiles of class D coal located nearest to the industries receiving it, as follows:

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

a. The category "Medicine" under the major category "CHEMICAL INDUSTRY" is increased by 6,000 tons of class D standard coal from a total of 22,000 tons of standard coal to a new total of 28,000 tons.

b. The category "Cotton" under the major category "TEXTILE INDUSTRY" is increased by 10,000 tons of class D standard coal from a total of 13,426 tons of standard coal to a new total of 23,426 tons.

c. The category "Silk Reeling" under the major category "TEXTILE INDUSTRY" is increased by 20,000 tons of class D standard coal from total of 27,150 tons of standard coal to a new total of 47,150 tons.

d. The category "Bean Products" under the major category "FOOD PROCESSING" is increased by 14,500 tons of class D standard coal from a total of 37,500 tons of standard coal to a new total of 52,000 tons.

e. The category "Milk & Milk Products" under the major category "FOOD PROCESSING" is increased by 8,940 tons of class D standard coal from a total of 12,060 tons of standard coal to a new total of 21,000 tons.

f. The category "Forestry" under the major category "FOOD PROCESSING" is increased by 1,800 tons of class D standard coal from a total of 3,200 tons of standard coal to a new total of 5,000 tons.

g. The category "Tobacco" under the major category "FOOD PROCESSING" is increased by 760 tons of standard coal of class D from a total of 5,000 tons of standard coal to a new total of 5,760 tons.

PLAN OF ALLOCATION OF COKE FOR October - December

(Unit per Ton) 1948

Item I	Item II	For Allied Forces	For Export	For Domestic	Total
Self consumption for own manufacture	Iron & Steel			313,110	313,110
	Chemical			32,160	32,160
	Gas			59,400	59,400
	Coke			1,020	1,020
	Total			405,690	405,690
Chemical fertilizer	Carbide			15,000	15,000
	Ammonium sulphate			75,000	75,000
	Calcium cyanamide			36,627	36,627
	Calcium superphosphate			450	450
	Total			127,077	127,077
Chemical industry	Soda		2,100	10,900	13,000
	Synthetic organic chemistry	1,890		6,910	8,800
	Liquid co2	1,108		213	1,321
	Sulphuric acid			237	237
	Phosphorous			356	356
	Magnesium carbonate			70	70
	Barium salt			118	118
	Others			354	354
	Total	2,998	2,100	19,158	24,256
Ship building		450	3,000	5,810	9,260
Port & Harbor				120	120
Electric Power				1,160	1,160
Ceramics	Cement			380	380
	Porcelain	450	600	545	1,595
	Enamel Ware	25	300	50	375
	Abrasives		1,400	750	2,150
	Inorganic Fibre	1,190		1,190	2,380
	Fire Proof Bricks			2,500	2,500

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 16 September 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

c. File 463.3(16 Sep 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for October, November, and December 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 27,036 tons of imported coking coal from a total of 211,319 tons to a new total of 238,355 tons. This coal is on the following ships:

Dansborg	Pacific Coast Coal Co.	8,251 tons
Andreas	" " " "	9,312 tons
Edw Rutledge	GARIOA	9,473 tons

3. Amended Action to the Coal and Lignite Allocation for October, November, and December 1948. (Unit - 1000 MT)

a. The distribution breakdown of standard coal under the major category "CERAMICS" is amended as follows:

Category	Original Alloc 16 September	Change + or -	Revised Allocation
Porcelain & Pottery Ware	20.0	+ 4.0	24.0
Refractories	44.0	- 2.0	42.0

over

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Changes in distribution breakdown of standard coal under the major category "CERAMICS." (Continued.)

Category	Original Alloc 16 September.	Change + or -	Revised Allocation
Carbon & Carbon Products	9.0	- 1.0	8.0
Earthenware Pipe	8.0	- 2.0	6.0
Cement	156.5	- 0.5	156.0
Export Ceramics	48.5	+ 1.5	50.0

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT : Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3 (11 Jan 47) ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3 (10 May 48) ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, September 1948.

2. Amended action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIAL INDUSTRIES" is increased by 9,000 tons of imported coking coal from the Pacific Coast Coal Company from a total of 166,051 tons to a new total of 175,051 tons. (Ship: Lake Mitigon).

b. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 6,200 tons of semi coke from Sakhalin from a total of 29,087 tons to a new total of 35,287 tons. This semi coke is on the following ships:

Munakata	1,000 tons
Teikai	1,500 tons
Soshu	1,300 tons
Togamisan	1,000 tons
No. 7 Banei	1,400 tons

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August and September 1948.

a. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 24,539 tons of imported coking coal from a total of 117,568 tons to a new total of 142,107 tons. This increase is based upon the following data of ships:

Ship	Port	ETA	Tonnage	
Lake Athabaska	Kawasaki	28 August	8981 tons	(Pac Coast Coal Co.)
Beloit Victory	Kobe	23 August	9000 tons	(U.S.A., GARIOA)
Carl E. Laad	Kobe	27 August	9000 tons	(U.S.A., GARIOA)

Corrections:

(1) The ship "Despina" listed in Amendment No. 158 showing a tonnage of 9,000 tons is corrected to 9,576 tons. (5413 tons for the Pac. Coast Coal Company and 4165 tons for the Yaras Company.)

(2) The ship "Vedby" listed in Amendment No. 165 showing a tonnage of 9,000 tons is corrected to 6,709 tons.

(3) The ship "Dansborg" listed in Amendment No. 166 showing a tonnage of 9,000 tons is corrected to 8,271 tons.

- over -

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

b. The category "Ammonium Sulfate" under the major category "CHEMICAL INDUSTRY" is increased by 9,600 tons of imported semi coke from a total of 19,487 tons to a new total of 29,087 tons. This semi coke is on the following ships:

Miyo	ETA	27 August 1948	at. Fushiki	1,800 tons
Soshu	"	31 "	"	1,400 tons
No, 3 Shinsei	"	3 September	"	1,500 tons
Togamisan	"	5 "	"	1,900 tons
Seiwa	"	8 "	"	1,500 tons
Senzan	"	11 "	"	1,500 tons
Total				9,600 tons

463.3(13 Aug 48)ESS/FEC AC No. 165

MEMORANDUM FOR: Director General, Economic Stabilization Board

SUBJECT: Notice of Amended Action

1. References are the following memoranda to the Director General, Economic Stabilization Board, from General Headquarters, Supreme Commander for the Allied Powers:

a. File 463.3(11 Jan 47)ESS/IN, dated 11 January 1947, subject: Allocation of Coal for January 1947 and Thereafter.

b. File 463.3(10 May 48)ESS/FEC AC, dated 10 May 1948, subject: Allocation of Coal and Lignite for July, August, and September 1948.

2. Amended Action to the Coal and Lignite Allocation for July, August, and September 1948.

a. The category "Gas" under the major category "PUBLIC UTILITIES" is increased by 9,000 tons of imported gas coal from Sakhalin from a total of 72,500 tons to a new total of 81,500 tons. This coal is on the Yamamura Maru expected to arrive at Kawasaki on or about 18 August 1948.

b. The category "Gas" under the major category "PUBLIC UTILITIES" is decreased by 282 tons of imported French Indo China anthracite from a total of 3,600 tons to a new total of 3,318 tons by reason of a correction of the tonnage of coal on the Jialeong, allocated to the categories "Gas" and "Carbon & Carbon Products" by Amendments Numbers149 and 162. The corrected tonnage on this ship is 3,718 tons instead of 4,000 tons as originally promulgated.

c. The category "Iron & Steel" under the major category "RAW MATERIALS INDUSTRIES" is increased by 14,017 tons of imported coking coal from a total of 103,551 tons to a new total of 117,568 tons. This increase is based upon the following data of ships:

Ships from Pac. Coast Coal Company	Port	ETA	Tonnage
Vedby	Kawasaki	12 August	9,000 tons of coking coal
Andreas	Kobe	18 August	9,447 tons " " "
