1 August 1947

FAR EASTERN COMMISSION

HISTORY OF FAR EASTERN COMMISSION DOCUMENTS

Note by the Secretary General

1. The enclosure, a history of Far Eastern Commission documents covering the period of the Commission's activity from its inception through 1 August 1947, has been prepared by the Secretariat and is circulated herewith for the information of the Far Eastern Commission.

2. In order to facilitate the keeping of a continuous record of action taken on Commission documents as each new edition is issued, certain changes have been made in the original method of arranging and presenting the histories. These changes have necessitated a revision of the two previous editions of the history of documents. The enclosure thus fully replaces the two previous editions (circulated as FEC-225 and FEC-225/1) and in addition brings the history of documents up to date as of 1 August 1947.

3. The enclosure consists of eight separately stapled sections, one for each of the seven Committees of the Commission and an eighth comprising documents considered only in Steering Committee or full Commission. These eight sections are prefaced by an explanatory note on the method of compiling the histories, (page i), a table of contents (page ii), and a list of abbreviations used throughout (page iii).

4. Monthly additions to the history will be issued by the Secretariat. The first of these will be circulated early in September and will cover action taken on all subjects during the month of August.

two previous editions (circulated as FEC-225 and FEC-225/1) and in addition brings the history of documents up to date as of 1 August 1947.

3. The enclosure consists of eight separately stapled sections, one for each of the seven Committees of the Commission and an eighth comprising documents considered only in Steering Committee or full Commission. These eight sections are prefaced by an explanatory note on the method of compiling the histories, (page i), a table of contents (page ii), and a list of abbreviations used throughout (page iii).

4. Monthly additions to the history will be issued by the Secretariat. The first of these will be circulated early in September and will cover action taken on all subjects during the month of August.

5. For the reasons given in the explanatory note (page i) only the cover page of this document **will carry the document** number. Future additions to the history of documents will likewise carry the document number only on the cover page.

NELSON T. JOHNSON
Secretary General

History of Documents

EXPLANATORY NOTE

1. The History of Documents is divided into eight separately stapled sections, one for each of the seven special-subject Committees of the Commission and an eighth comprising documents which were never referred to any of the Committees but which were considered in Steering Committee and/or full Commission. Each of these sections carries its own Subject Index where subjects are arranged in chronological order of their introduction into the Committee. Each subject is designated by a capital letter. If, as in the case of Committee No. 1, the number of subjects exceeds the number of letters in the alphabet, a system of double lettering is used. Thus the 27th subject is labelled AA, the 28th BB, etc.

2. The system of pagination used in the history is as follows. Each page contains at the bottom a triple numbering device: the first is a Roman numeral designating the Committee concerned; the second is a letter designating the subject being treated; the third is the number of the page within the particular subject. Thus I-B-3 would designate the following: Committee No. 1; subject B (Restitution of Looted Property -- as can be seen from the Subject Index for Committee No. 1); page 3 (of the history of documents pertaining to the subject of Restitution.) Similarly, IV-F-1 would designate the following: Committee 4; subject F (Educational System for Japan); page 1 (of the history of documents pertaining to that subject).

3. The Secretariat will undertake to keep the history of documents up to date by issuing monthly addenda to all subjects on which any action has been taken during the month. The first of these will be issued early in September to cover the month of August. An example of the procedure to be followed in issuing addenda is as follows. A record of all action taken during August on the subject of Restitution of Looted Property will be entered following the last item on page I-B-4 and a fresh page I-B-4, containing all previous items on this page, together with the additions for August, will be issued. Members

particular subject. Thus I-B-3 would designate the following: Committee No. 1; subject B (Restitution of Looted Property -- as can be seen from the Subject Index for Committee No. 1); page 3 (of the history of documents pertaining to the subject of Restitution.) Similarly, IV-F-1 would designate the following: Committee 4; subject F (Educational System for Japan); page 1 (of the history of documents pertaining to that subject).

3. The Secretariat will undertake to keep the history of documents up to date by issuing monthly addenda to all subjects on which any action has been taken during the month. The first of these will be issued early in September to cover the month of August. An example of the procedure to be followed in issuing addenda is as follows. A record of all action taken during August on the subject of Restitution of Looted Property will be entered following the last item on page I-B-4 and a fresh page I-B-4, containing all previous items on this page, together with the additions for August, will be issued. Members will then be asked to substitute this page for I-B-4 in the present edition of the history. If additional space is required to accommodate August action on this subject, a new page, I-B-5, will be issued. The same procedure will be followed for all subjects.

4. It is suggested that Members keep the eight sections of the enclosure in a loose-leaf notebook so that the monthly addenda may be conveniently inserted. A running history of documents can thus be maintained in such a way as to facilitate ready reference to any Committee or Commission subject.

5. To avoid any confusion that might result from substituting or adding the pages subsequently issued as addenda in this series (FEC-225), the document number will be used only on the cover pages of all documents in the series. Members will note that each page of the history is marked in the upper right hand corner with the title History of Documents.
