MEDICAL.

DR. WEBLEY GRINDLE'S
CELEBRATED
MAGIC COMPOUND,
A PERFECT CURE FOR
Pulmonary Consumption.

Also, an effectual cure for Bronchitis, Coughs, Colds, Asthma, Spitting Blood, Difficult Breathing, Chronic Rheumatism, General Debility, and all diseases depending upon an impure state of the blood.

PRINCIPAL DEPOT, NO. 54 WHITE STREET, N. Y.

Patients, the gorgeous sunshine of hope may now be realized; for this remedy not only relieves, but most actually cures that horrible disease. But one trial will convey proof to the last. Its not fail into an early stage, when a sure remedy is at hand.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your Specific restore a portion of lung that disease has entirely destroyed, leaving a void? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in time, but little or no portion of the lung is lost. It is necessary only to arrest the disease, and when this is done, the cancerous substance deposited in the tissue of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The enfeebled tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result, a cavity is formed which enlarges and does the work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most correctly it does.* As soon as the disease is arrested, the tubercle matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, tries to do a full running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and satisfactorily compensates for that which has been lost.

The medicine is in a powdered state, but readily prepared for use by adding to a thick form, according to the directions which accompany it. Impatches are promptly made by mail and express.

PRICE—Single box, $5; three boxes, ordered at one time, $8; half dozen, $14; one dozen, or any number of boxes, $2 a box. The postage in the United States, not over 300 miles, is 25 cents a box. In a letter the amount should be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

DENTIFRICE WATER OF DOCTOR HENOQUE,
M. D. OF THE FACULTY OF PARIS,
SURGEON-DENTIST, Chevalier of the Legion of Honor.
(*Gold Medal.*)
HIS HENOQUE has proved, during a long practice, that the loss of teeth and diseases of the gums often proceed from the use of dentifrices Waters or Powders containing noxious substances. A too credulous public accepts but too easily these dangerous mixtures which are found in commerce.
Struck with these evils, Dr. Henoque, combining a thorough knowledge of chemistry with a serious study of the hygiene of the mouth, succeeded in a new of general utility, a Dentifrice Water, the very high properties of which have been consecrated by experience and recognized by several learned bodies.
Dr. Henoque's Dentifrice Water fastens loose teeth, prevents caries, or stops its progress.
It will calm and often cure the most acute pains of the teeth.
It may be used with success in the inflammation, softening, and chronic inflammation of the gums.
The habitual use of Dr. Henoque's Dentifrice Water will keep the mouth in a healthy condition, and impart to it an agreeable perfume.
Dr. Henoque's Dentifrice Water helps to preserve artificial teeth, and maintains them sweet and wholesome.
This preparation, approved by the old Royal Society of Medicine, by a decree of Aulne XIII, and supplied to the Imperial Navy of France since 1780, in 1850 it was approved in Belgium by the Inventory of the War Department, for the use of the Belgian army hospitals, and lately it has been authorized for the whole empire of Russia.
The general office for the sale of the genuine Dr. Boyveau-Laffecteur is in Dr. GIRAUDEAU DE SAINT GERVAIS, No. 12 Bac, Paris.
DEPOTS IN NEW ORLEANS:
At ED. GUILLOT'S, No. 148 Royal st.
At F. DUCOUDRE, Druggist, Chartres street.
N. B.—The bottle containing 120 gr. each, sells for 1 fr. 50 c. Purchasers at the Depots can also apply to H. GAILLARDET, Commission Merchant, No 31 Trevise Street, Paris.

ROB LAFFECTEUR.
The only one authorized in France and Bavaria
THE vegetal Rob of Dr. BOYVEAU-LAFFECTEUR, the only one approved and recommended officially by the signature of Dr. GIRAUDEAU DE SAINT-GERVAIS, cures radically all cutaneous diseases, ringworms, pimples, eruptions, tumors, ulcers, sores, whitlows, and accidents consequent on parturition, of chronic origin, and of a certain duration, which has been unavailable to the usual means. This Syrup is agreeable to the taste, and be kept for any length of time, and be used in all seasons—it is specially prescribed for scrofulous, lymphatic, and scrofulous or irritable, or irritated, and which could be cured by neither copaiba, sarsaparilla, nor iodure of potassium.
The Rob Laffecteur, approved by the old Royal Society of Medicine, by a decree of Aulne XIII, and supplied to the Imperial Navy of France since 1780, in 1850 it was approved in Belgium by the Inventory of the War Department, for the use of the Belgian army hospitals, and lately it has been authorized for the whole empire of Russia.

PILULES DE HAUT
The Vegetable Substances contained in this Purgative have been selected and combined according to the new method of M. DEHAUT, in order to be Taken and Digested at the same time as the food, and to be more fortifying beverages; this evidently allows every body to choose, to take a Purgative at the most convenient hour and meals so as to leave of business and to avoid the unpleasantness of the Bagnet of all other purgatives. These advantages, which 32 years practice have proved, have rendered PILULES DE HAUT very popular in Europe. They are invaluable against Costiveness and its concomitants. As a mere Purgative, they are superior to all others; much so as they can be taken by several days without the disgust attendant on taking drinks and diet. But the greatest benefit is to be derived from them in Chronic Diseases, such as Asthmas, Catarrh, Ringworm, Sick Headache, Scrofulous Humors, Gastritis, Rheumatism, Gout, Dropsy, etc. They are wholesome food which take the most time to digest, and thus afford the organs to bear the course of treatment without fatigue. N. B.—CONSULT THE NOTICE WHICH IS GIVEN GRATIS. Boxes of 24 in France and 5 francs, at M. Dehaut, Druggist, Rue Richelieu, 87, Paris. Depots at Depots in New York, at MM. POIGNERA, Brothers, Apothecaries, No. 30 North-William street; and at M. LEROY, Apothecary, No. 771 Broadway, corner of Ninth street.
