AUCTION SALES.

[illegible]

[illegible] alse [illegible], New Orleans.

☞ This sale will be made without any reserve.

1st. All the Lands situated in the Parish of Lafourche Interior, those fronting on the Bayou Lafourche, as well as those which form a part of the property known as La Vacherie Dugue Livaudais.

These lands have always been considered as among the most fertile in Louisiana. The advantages offered by their proximity to the Barataria and Lafourche Canals are unrivalled. They are for the most part covered with forests which have been untouched by the axe, and consequently very superior to those which long cultivation has exhausted. They will be sold in lots of all sizes so that every purchaser may find one to suit his views and means.

Five Lots of Ground situated in the Parish of Lafourche Interior, designated under Nos 5, 7, 8, 11 and 12, on a private plan drawn by B Buisson, bearing date 20th September, 1840, annexed to an act of sale in favor of Antoine Lesley, dated December 2d, 1844, passed before the Judge of said parish; said lots measuring each 5 arpents 4 fathoms front to a projected road sixty feet wide, which is designed to lead to Lafourche, 163 fathoms and 4-5 in the rear (except lot No 12, which is 361 fathoms wide in the rear) on a mean depth of 36 to 40 arpents; these five lots are a part of a subdivision in twelve lots of a larger piece of ground designated under No 36 on a plan drawn by Bourgerol, United States Deputy Surveyor, bearing date 25th August, 1833, and deposited in the office of Theodore Seghers, Notary Public, in the city of New Orleans.

Two Lots of Ground situated in the said Parish of Lafourche Interior, designated under the Nos 45 and 46 on said plan drawn by Bourgerol; lot No 45 containing 891 superficial arpents and measuring about 12 arpents wide on a mean depth of about 40 arpents; said lot is crossed through its middle length by a bayou and the Portuguese Ridge; lot No 46 containing 1300 square superficial arpents, and measuring about 70 arpents wide on a mean depth of 19 arpents, and also crossed through its middle region by a bayou and the Portuguese Ridge.

The undivided two-thirds of a piece of Land situated in the same parish between Bayou de la Vacherie, the Lafourche Lands and a straight line which starting from the Bayou de la Vacherie on the other side of the willows which are planted at the end of the shell levee which runs along said bayou, will be drawn so as to pass between the Petit Bois and the Chactos.

The undivided half of fifty-nine Lots of Ground situated in said Parish of Lafourche Interior, in the locality known as La Vacherie Dugue Livaudais, numbered from 13 to 72, on a private plan drawn by B Buisson, Engineer, bearing date May 8th, 1841, and deposited in the office of Th Seghers, Notary Public; said fifty-nine lots of ground (together with No 67, which is not comprised in this sale) form the piece of land designated under No 35 on said plan of La Vacherie Dugue Livaudais, drawn by Bourgerol; said lot No 35 measuring 3,000 square superficial arpents and 80 arpents in length between opening lines, on a mean width of 45 arpents, and crossed by Matherne Bayou and Ridge, L'Arche Bayou and Ridge, Point à Colin, Crocodile Bayou, and by Point and Ridge des Mares.

☞ The owners of the other half of said fifty-nine Lots of Ground have allowed their interest in them to be sold, so that the whole will be disposed of.

LOUISIANA LAW SCHOOL.

THE Lectures of this Institution, which has already been in successful operation for two years, and which is the only one in the United States where the Civic Law is carefully studied, will begin on the first of December next and close on the 31st of May following.

The studies of the Law School embrace a General and a Special course.

The former is merely preparatory, and may be advantageously followed by those who, without intending to follow the law as a profession, wish to acquire a general knowledge of the nature of our institutions and the principles which govern the administration of justice.

The latter is intended to prepare the student for the practical exercise of the profession of the Law in Louisiana, and experience has shown that those whose previous attainments enable them to follow this course, can, with proper assiduity, readily qualify themselves in the space of six months to pass the examinations which entitle them to a license.

Persons desirous to acquire any further information in relation to this institution will please apply to the undersigned, who is prepared to furnish a synopsis of the course of studies.

MANDEVILLE COLLEGE.

THE Course of Studies pursued in this Establishment is now complete. The number of Professors has increased with the number of Students. Its American and Creole patrons may flatter themselves with having created an Institution which rivals the best Colleges of the North. The facility of acquiring not only a theoretical, but also a practical knowledge of English and French is peculiar to this College: these languages being spoken both in the class rooms and during recreation. The course of studies embraces the different branches of the MATHEMATICS, the ENGLISH, FRENCH, SPANISH, LATIN and GREEK languages, LOGIC, RHETORIC, HISTORY, GEOGRAPHY, PENMANSHIP, STENOGRAPHY, DRAWING, MUSIC and FENCING.

The clothing, washing, food and play ground, are with the Directors, objects of particular care and attention.

The breezes of the Lake, its salutary baths, the walks in the surrounding woods, fishing and gymnastic exercises, preserve the students in a state of almost uninterrupted health.

DRUGS, MEDICINES, &c.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM, VIZ:

The ancients believed that animal life exists in the blood. It is at least certain that upon the PURITY of that fluid *health depends*. If the ship and the hands are in an unnatural state, as in Scrofula, Leprosy, Schirrus swellings and all Ulcerous diseases, it is evident that the vessels which ramify over the surface of the body must be charged with diseased blood, and also, the whole volume of blood, venous and arterial, is impure. Before a cure can be effected there must be a purification of the vital stream.—This is sure. Sands' Sarsaparilla acts directly on the blood in the very process of its formation, and will soon restore the circulation to a healthy state by eradicating the elements of disease at the fountain head. Such is the *modus operandi* of the preparation, and experience, by the mouths of thousands of witnesses, adds its guarantee to the theoretical conclusions of reason and common sense.

The following certificate exemplifies in a most remarkable manner the great medicinal value of the Sarsaparilla in a severe case of Scrofulous affection.

BROOKHAVEN, Oct. 17, 1841.

Messrs. A. B. & D. Sands—I have been afflicted with Scrofula for nine years past. It appeared in various forms from its commencement but did not break out in sores until about four years ago, a large swelling appeared on my arm. I had it lanced. It then commenced eating, and continued to eat until the fleshy part of my arm, from my elbow to near my shoulder, was nearly all ulcers; it then broke out on the side of my neck and extended to my face. I had a number of ulcers on my ancle and bottoms of my feet. My sufferings seemed almost intolerable.—The most of the time I have been under the care of Physicians, have taken Iodine, Swaim's Panacea, and other preparations—and I had nearly despaired of getting relief when I was induced by Mr. Rexford to try your Sarsaparilla. My sores assumed a more healthy appearance, and I flattered myself with the idea that I should be well again. I have now taken eighteen Bottles of your medicine, my sores are all healed, and my general health is better than it has been before for nine years, and I ascribe my cure to the efficiency of your Sarsaparilla; had I known its virtues years ago, I should have been saved much severe suffering and a disfigured face, and my husband would have been saved great expense.

(Signed) CYNTHIA TUPPER.

I cheerfully testify to the truth of the above statement of my wife. MASON TUPPER.

WINSTED, Ct., Aug. 3, 1845.

A. B. & D. Sands. Gentlemen—About six weeks since I commenced taking your Sarsaparilla, and was then suffering from Scrofula in its most violent form. I had nine running ulcers, and had lost the use of one arm, and the disease caused such intense pain in the head that three physicians told me I could not live—that there was no help for me.

I informed them there was one medicine would help me, and that was Sands' Sarsaparilla. My physician, seeing my confidence was so great in it, got you a certificate and I commenced taking the Sarsaparilla. Its use produced immediate relief; my head is now well, and my arm, which had been useless, I can now use with, and my health is rapidly improving. Many people hearing of my case have come miles to see me and I have taken the Sarsaparilla after witnessing its wonderful operation on me. One lady told me last week it was doing wonders, and there are three or four in this place that are taking it, and our merchants find a very ready sale for Sands' Sarsaparilla. Yours, most respectfully,
CORDELIA CADY.

For further particulars and conclusive evidence of its superior value and efficiency, see pamphlets, which may be obtained of agents gratis.

Prepared and sold wholesale and retail, by A. B. & D. SANDS, Wholesale Druggists, 79 Fulton street, New York.—Sold also by SICKLES & Co, 94 Magazine and 40 Canal street; A OLIVER & Co, and I. ☞ The public are respectfully requested to remember that it is Sands' Sarsaparilla that has been and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other. n10—1m
