COMMERCIAL.

DOMESTIC MARKETS.

REMARKS.

Business remains dull, and inactive as ever, the Legislature have adjourned without doing anything in relation to the Banks, and they are pursuing their former course of extremely limited discounts, it is though however that some arrangements may soon be made by which they will be enabled to extend more facilities to commerce than heretofore.

Yesterday there was a meeting of the directors of the various Banks, and a Committee appointed to draw a plan to be adopted by all, and should the conflicting opinions be reconciled much good may result at present the want of facilities operates very much against business.

Receipts of Western Produce have been small this week which caused a small advance in the price of some articles, there is however accounts of the rivers shoaling fast from snow, a large supply may therefore be soon expected. On Sunday we had advices from Havre to the 16th January and on Monday to same date from Liverpool, it appears that the Cotton sales at Havre had nearly recovered the decline noticed in the previous accounts, 5th and 9th but prices receeded, and but little business doing in Liverpool. The stock is represented to be 27,518 bales being 5,171 less than on the 1st of January. The Liverpool market appears to have been dull, and a further decline in prices of from ½ to ¼ per lb. the decline in the prices in December 3/6 to 1d, the stock of American cotton about the same as at this period in preceding year. By yesterdays mail we have accounts for the packet of the 24th January, and to 1st January being below at N York, and the accounts not as anxiously looked for.

Exchange remains the same as last week—on London 7½ a 8 per ct; on New York 2 a 3½ per ct prem. The weather remains pleasant, and favorable to our transactions.

LIVERPOOL—To 5th Saturday there was some disposition evinced on the part of buyers to operate, and sales to a small amount were effected, but in the early part of the week there was little or no demand, and prices have to a downward tendency on the sale of between 5 and 6,000 bales was made of choice Louisiana and Mobs, crops by one of our most respectable and independent Factors, to an individual, not for a speculation, at prices which not having transpired we are unable to give them.

After this transaction became known, some stir took place in the market, but principally by those who had Freight contracts—the market on the whole is in a somewhat uncertain tendency, the scarcity of Vessels, and the frequent high rate of freights contributes much to a depression in prices.

The individuals who made the large purchase, noticed above is not connected with any Bank, but are extensively engaged in the cotton trade.

CORN—We advance quotations to 60a62½c per bushel, the quantity in market is becoming very much reduced.

BAGGING—The article is plenty and sale dull.

FISH—No 1 Mackerel is becoming scarce and with holes of any kind in demand, the article is in good demand at quotations.

PROVISIONS—Beef continues scarce and in demand. The stock of mess pork in New York is very much reduced, and prices fully sustained. Hams plenty and dull sale at quotations.

FREIGHTS—The number of Vessels in Port are decreasing, and ships are taken up soon after arrival, freights to all ports are brisk at our quotations, only know of one ship disengaged, of the ship Washington to Port au Prince 53 are loading for Liverpool, 6 Havre, 1 Nantz, 3 New York, 1 Boston, 1 Philadelphia, 1 Charleston, all those bound Coastwise are packed.

Cotton, tobacco, and other bulky articles, but current prices become very much reduced, in former rates has been only a looker on. We hear of a sale of the Banks upper-ship, the new transactions are confined to private transactions.

The sales of the week amount to from 12 to 14,000 bales.

It is impossible to ascertain parcels, from our quotations which we do not alter from week to week, as prices are now about the same. There is not the great demand for the market.

Exports for 25 days of January have against 316,295 bales in the corresponding season making increases of 24,206 bales, which stands thus.

Exports this week amount to 36187 bales which is 7,[illegible]58 over the quantity of any week last season.

TOBACCO—There is very little doing in this article, from the speculation, the high rates of Freight, and precious shipments, we refer to quotations, for current prices, but a fair quality will bring a 4 to 5 cents according to quality above those rates, inferior not bringing the low rate quotation. The stock of Virginia leaves amounts 6616 to the same period last season, which stands thus.

SUGAR—No change in price since last week, there is a fair demand, but good is becoming scarce, inferior selling at 5½ a 6½c. Holders are firm as our quotations, for which Havana Sugar although there is a good stock on hand and to about 800 Boxes.

RICE—The stock on hand is said to be about 400 and the demand has been very limited for some time past, we reduce our quotations to 10½ a 12½ cents.

FLOUR—The small stock, and very moderate receipts has caused a slight advance on the prices of last week, we now quote $7,50 a 7,50 per bbl in general, but inferior prices.

CHARLESTON, March 10.

The week just terminated has been a very languid one in business generally, but more particularly in the staple of the country. The bad weather, together with recent unsatisfactory accounts from Europe, have held their influence in checking operations in these articles, but the chief cause of the present languor in our market, we must again reiterate, is owing to the want of shipping.

Cotton—The transactions in Upland since our last, have been limited, and confined principally to the low qualities. The crop is received in the middle of the week, were of a negative nature, and did not affect prices, as sales were made on Wednesday and Thursday at the rates quoted in our last review. Yesterday, however, still further advance came to hand, shewing a positive decline on the other side of the water, which consequently had a corresponding effect here, and several small lots were sold at a decline; but the market closed much at the special rate of the previous days quotations, and we must refer to actual sales, which are as follows viz. 8, 8½, 8¾, 9, 9¼, 9½, 9¾, 10, 10¼, 10½, 10¾, 11, 11¼ and 11½ cents. The transactions to Sea Island consist of about 110 bales at prices not made public.

Molasses—In New Orleans we have no thing to note. Sales of Havana have been made a 33 cents per gallon.

Sugar—Of Louisiana about 120 hogsheads brought 7 and 7¼ cents, and 50 hogsheads Muscovados from 8½ to 10.

NASHVILLE, March 12.

The River rises fast, with sufficient water in its channel, to convey the largest boats. Nearly all the cotton of the Tuckahoe Market, Shall sell at 7 and 7½ cents at 71a8.

Flour is scarce in the wharf and in the warehouses continue scarce. The demand for sugar and coffee continues good, and heavy sales of the latter have been made in Liverpool. We continue to quote Sugar at 8a9 Coffee at 11. A lot of old St. Jago coffee is held at 12½.

Not fresh dry goods yet received. There is considerable inquiry for them, and we are looking for Nashville further ones supplies which we trust will be in the new week in the course of the week.

There are at present no fresh flour in market Price $8. We know of no flour at 4½. A lot of two of Island of Shoal received this morning from St Louis.

Lead Sugar, a price, at 11c.

The Exchanges are getting worse at every point of the compass, and we know not where the depreciation will stop. Some Western funds are to stop—In our own market specie commands 12 per cent prem U S Bank notes 12½, Kentucky 14, Virginia 10 a 11, Ohio and Indiana at Illinois 8a9, North and South Carolina and Georgia 5 a 7 per cent prem and every other description of funds recommodate on the sea board 12 to 13½ N Orleans and Bank notes 9a10.

SAVANNAH, March 10.

The transactions in Upland during the week have been to a large extent, but the market has exhibited great unsteadiness, closing heavily at a decline of ¼a¼. Yesterday liv speculation in the 12th and Havre to 16th January were received. The sales of the week amount to 3036 bales, of the following prices, viz 8, 8¼, 8½, 9, 9¼, 9½, 9¾, 10, 10¼, 10½. The demand for Sea Island is very limited for the week the sales have only been 28 at 37, 9 at 28, 46 at 29, 27 at 30, and upwards of 40 bales stained at 20a24.

Sugar—The stock of Sugar is moderate. Sales of 25 hogsheads Porto Rico at 9½, New Orleans at 8½a9.

Coffee—Upwards of 200 bags Cuba, brought 11½a12 cents.

Molasses—Sales of 109 bbls 8 barrels and 31 bbls Cuba at 34 a 38, 50 barrels New Orleans at 40 cents.

MOBILE, March 15.

Cotton—The sales since our report of Saturday have amounted to 2000 bales. The news from Europe have been rather unfavorable, and it has had no material effect on our market—the prices of last week have been kept up. Early change has taken place, it has been at most an improvement in price. We quote at 6a12c as in quality.
