2. The System of Distribution from Manufacturer to the Mine

Distribution of incentive goods to coal miners is the responsibility of the Ministry of Commerce and Industry. The Ministry, respectively the Coal Board, prepares the regional allocations for distribution from the ESB totals on the basis of number of mine workers and notifies the Regional Bureaus of the Ministry of Commerce and Industry. The Regional Bureaus make the allocation to the individual mines (also on the basis of number of miners) and notify the prefectural governments which make the allocations known to the mines and issue the purchasing certificates.

Concurrently with the distribution allocation the central office of the Ministry of Commerce and Industry makes the production allocation to the manufacturers and issues the shipment orders. Tokyo C+I Mink. issue contracts + ship. plans.

In the past the actual purchase of the goods by the mines was handled for them by the regional Coal Associations. Since these organizations are being dissolved in March this year, the mines are forming Purchasing Associations in the different prefectures to do the purchasing for them. This is essential in the case of small mines. As these newly formed organizations will not be permitted to function as wholesalers, that is to buy directly from manufacturers, they are set up as retailers associations. Purchasing Assns

It should be noted that in the system of allocation of incentive goods to the miner and in the process of purchasing the goods through the purchasing associations no coupons for individual miners are involved. Each mine will receive a purchasing certificate which it turns over to the purchasing association which finally submits it to the wholesaler. Purchasing certificate

Previous schemes, whereby individual miners coupons were issued by the Prefectural Governments upon presentation of workers lists, proved cumbersome and resulted in unnecessary delays.

Distribution

3. The System of Distribution Inside of the Mine

Distribution of incentive goods inside of the mines is carried out through a commissary or mine store and is controlled by a distribution committee consisting of 13 workers and 2 representatives of management. The operations of these committees should be checked periodically by representatives of the regional bureaus of the Ministry of Commerce and Industry.

The goods to be distributed are divided into 2 classes (a) goods which are daily necessities, such as articles of clothing, towels and soap and, (b) goods of the luxury type, such as cigarettes, sake and sugar.

For the first class of goods there is no need to afford a choice because the demand far exceeds the limited supply. Therefore their distribution is based on the number of full work days and no point system is employed. However, for the second group a point system is used in order to permit a choice.

It is intended that only such workers will receive points as put in a full normal work day. A full normal work day is usually considered to be an 8 hour day. On the basis of reports from the Kyushu coal team it has been proposed to

(5)

direct the incentive system to the achievement of a full working day rather than overtime and to the achievement of as many working days per month as possible. The idea of basing distribution of incentive goods on overquota production by mines has been abandoned because of the uncertainties surrounding the establishment of production quotas. However as a concession to the wishes of ESB 1/3 of U.S. cigarettes and sugar has been earmarked as special reward for overproduction.

In the distribution of these goods distinction is made between the different types of mine workers, higher rewards being given to underground workers than to surface workers. The following classes or workers are distinguished:

Class A. Regular pit workers, such as diggers, backfillers and timbermen

Class B. Other underground workers, such as transport-workers, dressers and electricians

Class C. (a) Heavy surface workers, such as transport-workers and carpenters
(b) Other surface workers, such as electricians

miners

classification

Details of classification are left to the mines which will submit them to the regional bureau of the Ministry of Commerce and Industry for approval.

No distribution of incentive goods to office workers is provided for in this plan.

Daily necessities (first group of goods) are distributed to groups A, B, and C on the basis of need and on the basis of the life of each of the different goods. The number of full working days necessary to obtain one unit is as follows:

	A	B	C
Working Clothes	66	95	156
Cotton Gloves	57 diggers 33	96	156
Jikatabi or Rubber Boots or Shoes for Hokkaido only	33 diggers 26	57	156
Socks	because of limited supply, distribution is left to mines. One pair given to those workers who receive rubber boots and shoes.		
Towels	88 diggers 66	144	312
Underwear	88	144	312
Soap	7 diggers 5.5	12	26
Puttees (Gaiters)	because of limited supply, distribution is left to mines.		

Luxury type goods (second group) are distributed by means of a point system. Different point values are given to the three classes of workers for each working day as follows:

	A	B	C
From 10 to 20 work days for underground workers From 10 to 23 work days for surface workers	4	3	2
Above 20 work days for underground workers Above 23 work days for surface workers	7	5	3

points (for luxury goods only).

The possible total number of points which can be earned by all workers can be estimated roughly on the basis of number of workers in the different classes and the average number of work days, which are as follows:

Class	No. of Workers	Average No. of Work Days
A	202,500 (diggers 104,000)	22
B	67,500	24
C	180,000	26

By using the points indicated above, a total number of points of 210,000,000 for the 6 months period or 35,000,000 for one month is calculated.

The next step is to allocate points to quantities of luxury goods contained in the incentive list. This is done in the following table. In assigning the points to the different items the relative importance, the black market price and the available quantity has been considered. In order to prevent undue concentration of demand on any one item, it is felt that ceilings have to set on quantities one worker can get. The ceilings are included in the table.

Item	Points	Ceilings	Ceilings for minors and female workers
Sake	25 per sho	1.2 sho per month	
Cigarettes (Jap)	2 per 10 pieces	2 pckg. (10) per month	
Cigarettes (US)	12 per 20 pieces	2 pckg. (20) per month	
Pipe Tobacco	10 per 2 oz. pckg.	no ceiling	
Sugar	6 per 100 gram	100 grams per month	500 gram
Edible Oil	6 per 50 gram	50 grams per month	50 gram
Caramels	5 per 100 gram	200 grams per month	500 gram
Saccharine	2 per 1 gram	no distribution to male workers	

The total number of points represented by the list of luxury goods is obtained by multiplying the point values above with the quantities of goods. A total of 210,000,000 is obtained for the 6 months period. This corresponds to the estimate of possible total number of points which can be earned by the workers.

Special Distribution of the Clothing Released
by the U.S. Army for Coal Miners.

E.S.B.

1. Eligible recipients of the said clothing who come under the purview of any one of the following cases shall be given priority.

a. Workers who, possessing as they do the distribution tickets of working clothes and underwears (including loin-cloths) for miners for the 1947 fiscal year, have not yet received the actual goods.

b. Workers who have not yet received, since January of 1948, trousers and shirts for miners released by the U.S. Army. Further, surplus, if any, of the actual goods left after the distribution mentioned in (a) has been made shall be distributed as allocation for the 1948 fiscal year.

2. The clothing to be released is considered to be of variety in kind and quality.

And in order to make the distribution just and fair, selection shall be made after individual taste on the basis of the following priority.

As for the distribution to the eligibles, coming under the same priority, it shall be left to the decision of the goods distribution committee of each mine.

1st priority: undergroundworker, whose number of working days are over 60 (during the Jan. 1, 1948 - Mar. 31 of the same year period, and so forth)

2nd priority: underground worker, whose number of working days is more than 45

3rd priority: surface worker, whose number of working days is more than 60

4th priority: others who do not come under the purview of any of the above cases

3. Trousers, jackets, coats, shirts, and working suits shall be distributed as substitutes of working clothing, while drawers and under-shirts, as substitutes of underwears (including loin-cloth). The substitution rate of one piece of each item is as follows:

Item	Rate
Trousers one piece) Jackets one piece) Coats one piece) Shirts one piece)	One half of the working clothing
Working suits one piece	One suit
Drawers one piece) Undershirts one piece)	One piece of underwears (including loin-cloth)

Revised Distributive System on
Non-food Items for Coal-miners

26 April 1948
Linked Goods Office
E.S.B.

In compliance with the para. 5 of the "Distribution Procedure on Non-food items for Coal-miners" approved by the Cabinet on 27, March 1948, the detailed distribution procedure shall be revised as follows:

1. T he Central commodity supply Ministries, after being notified of the quarterly allocation of items for coal-miners to be set up by ESB, shall lay down the allocation as classified by prefecture in conjunction with the Coal Board. The Coal Board shall notify the Regional Coal Bureau of the above allocation. The supply Ministries, on the other hand, shallissue without delay shipping orders to the regional or local commidity supply government offices, Kodans and other distribution agencies concerned.

2. Upon receiving the allocation as classified by prefecture, the Coal Bureau shall decide the allocations as classified by the prefectural purchasing associations as well as by coal-mine, then notify prefectural purchasing associations and coal mines respectively of the above mentioned allocations.

3. After receiving the above notification, a prefectural purchasing association representing the coal mines asks the Regional Commerce and Industry Bureau through Coal Bureau to issue the purchasing certificates.

4. Then the regional or local commodity supply government offices shall issue the purchasing certificates as classified by coal mine which are handed over en bloc by the Coal Bureau to a prefectural purchasing association. The regional or local commodity supply government offices shall simultaneoulsy issue shipping orders to the Kodans or other local distribution agencies located within the jurisdiction of the above offices.

5. The prefectural purchasing association shall purchase the goods from distribution agencies in exhange for the purchasing certificates and distribute them to a purchasing agency in each mine.

6. The purchasing agency shall distribute the goods to a coal miner in exchange for an individual coupon. An individual coupon shall be issued to a coal miner by the responsible office-worker concerned of a mine (for example the chief of welfare section).

7. As for the daily necessities type items, artificial sweetening stuff and caramels, central commoditysupply Ministries shall issue sale and shipping orders to wholesalers or manufacturers by designating quality, a kind and quantity of the item and consignees.

8. With a view to streamlining the goods-receiving system in a coal mine and

Encl # 2

27

enabling this procedure to function smoothly, it is recommended to establish a consumer's cooperative society in a mine and a joint association of the societies on the regional basis.

Specific financial measure shall be taken to carry out the consumer's cooperative society satisfactorily.

In a district where a consumer's cooperative society has not been set up, a purchasing agency or its prefectural association shall be utilized temporarily in place of a consumer's cooperative society or its prefectural association. Negociation has been made through the goods offices of the government to make a loan to a purchasing agency or its prefectural association from the Bank of Japan.

9. The regional or local commodity supply government offices or the Coal Bureau shall examine such distributive matters in a mine under their jurisdiction as the receipt, rationing and stocks conditions of the items for coal miners, and the issuance of an individual purchasing coupon etc.

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS

AG 421(7 Jun 48)ESS/PD

APO 500
7 June 1948

SUBJECT: Distribution of Salvaged United States Army Shoes as Incentive Goods to Coal Miners

TO : Commanding General, Eighth Army, APO 343

1. Reference is Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 421(7 Jun 48)ESS/PD, SCAPIN 5674-A, dated 7 June 1948, subject: Distribution of Salvaged United States Army Shoes as Incentive Goods to Coal Miners.

2. The Japanese Government has been authorized to distribute 100,000 pairs of salvaged United States Army shoes as incentive goods to coal miners. The shoes are part of two lots of used United States Army shoes released to Boeki Cho from Kobe Base Quartermaster on 15 October 1947 and on 28 January 1948.

3. 45,000 pairs from the earlier release are marked with the three letters SAL, the approved marking at that time, and 55,000 pairs from the second release with an "S" in circle, the marking decided upon finally, in order to distinguish them from shoes worn by Occupation Forces.

4. The price of the shoes to the consumer is ¥ 360 for service shoes and ¥ 390 for combat shoes. Distribution expenses will be borne by Boeki Cho and the Purchasing Associations which act as receiving agencies for the mines.

5. Boeki Cho will handle shipment of the shoes to the regional receiving agencies, a list of which is inclosed (inclosure 1). The number of pairs to be received by each of these agencies is based on the prefectural allocation schedule drawn up by the Coal Board (inclosure 2). Allocation schedules to individual mines, as made by the Regional Offices of the Ministry of Commerce and Industry, are available at these offices.

6. Since these leather shoes are unsuitable for underground workers, they are to be distributed to Class C workers, i.e. surface workers other than office workers. Only those of the 180,000 workers are eligible who have worked more than 75 days in the three months period January, February and March.

7. Reports to General Headquarters, Supreme Commander for the Allied Powers on receipt of the shoes by the regional receiving agencies

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Distribution of Salvaged United States Army Shoes as Incentive Goods to Coal Miners

1. The Japanese Government is authorized to distribute 100,000 pairs of salvaged United States Army shoes, in custody of Boeki Cho and located in Kobe warehouses, as incentive goods to coal miners to encourage coal production.

2. All shoes will be branded with approved markings to indicate that they are authorized for legal release and to distinguish them from shoes worn by Occupation Forces.

3. Distribution of the shoes will be made according to plans submitted by the Economic Stabilization Board at a price of ¥ 360 to the consumer for service shoes and ¥ 390 for combat shoes as established by the Price Board. No import duty or commodity tax will be levied on these shoes.

4. The Japanese Government will take all necessary action to insure that these shoes will be distributed only through official channels and do not appear in public unauthorized sales.

5. Reports on receipt of the shoes by regional receiving agencies and by the mines are to be submitted to General Headquarters, Supreme Commander for the Allied Powers, as soon as feasible.

6. Direct communication between the responsible agencies of the Japanese Government and the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers regarding the distribution of the above shoes is authorized.

US Army Hold release

GENERAL HEADQUARTERS
SUPREME COMMANDER FOR THE ALLIED POWERS

APO 500
22 May 1948

AG 421(22 May 48)ESS/PD

SUBJECT: Distribution of Surplus United States Army Clothing as Incentive Goods to Coal Miners

TO: Commanding General, Eighth Army, APO 343

1. Reference is Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 421(22 May 48)ESS/PC, SCAPIN 5637-A, dated 22 May 1948, subject: Distribution of Surplus United States Army Clothing as Incentive Goods to Coal Miners.

2. The Japanese Government has been authorized to distribute the following clothing items from surplus United States Army stocks now in its custody as incentive goods for coal miners:

13,819 work suits
50,000 prs of trousers
40,000 cotton jackets
60,000 wool coats
70,000 shirts
180,000 prs of drawers
130,000 undershirts

3. All items of clothing are to be distinctively marked according to instructions as shown in inclosure 1 to indicate that they are authorized for legal release and to distinguish them from clothing used by Occupation Forces.

4. Prices for the clothing items have been set by the Price Board in line with the official prices for similar Japanese articles of clothing. A list of the prices is inclosed. (Inclosure 2.) No import duty or commodity tax will be levied on these articles.

5. Distribution of these goods is to be made through registered wholesalers (inclosure 3) and is the responsibility of the Textile Bureau of the Ministry of Commerce and Industry. Receiving agencies for the mines are the purchasing associations formed by the mines in the different prefectures or the coal associations where purchasing organizations have not been set up. (Inclosure 4.) Allocation to the prefectures in which mines are located is made by the Coal Board of the same Ministry on the basis of the number of coal miners. (Inclosure 5.) Allocation to individual mines is made by the Regional Bureau of the Ministry of Commerce and Industry.

BASIC: Ltr, GHQ, SCAP to CG, 8th Army, AG 421(22 May 48)ESS/PD dated 22 May 1948, subj: Distribution of Surplus United States Army Clothing as Incentive Goods to Coal Miners

6. Shipment is to be made as soon as the necessary arrangements have been completed.

7. Distribution to individual miners is on the basis of performance during the three months' period, January, February and March 1948. First consideration is to be given to those workers who put in more than 60 work days during this period. Priority of choice is given to the various classes of workers in the following sequence: (1) Diggers (2) other heavy underground workers (3) light underground workers (4) surface workers. Office workers are not eligible.

8. The Textile Bureau and the Coal Board have been requested to supply statistical records of the flow of goods from warehouse to the mines to General Headquarters, Supreme Commander for the Allied Powers to insure proper supervision and control and to prevent diversion of the goods into illegal channels.

9. Surveillance on the regional, prefectural and mine levels is desired.

MEMO FOR RECORD:

720

SUBJECT: Release of surplus U.S. Army goods as incentive to coal miners.

1. Phoned Mr. Knaf, SCAP/ESS/PD on the individual coal miners' ration.

2. Verbal agreement between MAF and SCAP was reached whereby each eligible coal miner would receive either one work suit or one pair of trousers, shirt and one coat. A priority list will be made based on the number of days worked during the 3-month period, January, February, and March. Those with the least priority will be given an opportunity to purchase only underclothing. Underclothing will not be available to those receiving work suits or the equivalent.

MEMORANDUM FOR: JAPANESE GOVERNMENT

SUBJECT: Distribution of Surplus United States Army Clothing as Incentive Goods to Coal Miners

1. The Japanese Government is authorized to distribute the following items of surplus United States Army clothing, now in custody of the Japanese Government, as incentive goods to coal miners to encourage coal production:

13,819 work suits
50,000 prs of trousers
40,000 cotton jackets
60,000 wool coats
70,000 shirts
180,000 prs of drawers
130,000 undershirts

2. Each piece of clothing will be clearly and distinctively marked to indicate that these articles are authorized for legal release and to distinguish them from clothing used by Occupation Forces.

3. These articles will be distributed according to the plans submitted by the Economic Stabilization Board at prices established by the Price Board, and no import duty or commodity tax will be levied on them.

4. The Japanese Government will take all necessary action to insure that this clothing will be distributed only through official channels and does not appear in public unauthorized sales.

5. Records of receipt and distribution of the goods by regional or prefectural distributing agencies and by the mines are to be submitted as soon as feasible.

6. Direct communication between the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers and the responsible agencies of the Japanese Government, regarding the distribution of the above clothing is authorized.

1. Reference memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 400.38(5 Ma 48) ESS/PC, (SCAPIN 5355-A), subject: Release of Imported Toilet Articles, Chocolate and Tobacco Items.

2. The Japanese Government has been authorized to distribute the toilet articles, chocolate and tobacco items contained in the shipment of subsistence stocks aboard the S.S. Ripon Victory and now located in warehouses in Kagoshima, Moji and Saseho. The toilet articles, etc. are to be distributed to hospitals, sanitariums, infant homes and orphan asylums according to a plan submitted by the Welfare Ministry, (copy inclosed) while the cigarettes and pipe tobacco are to be distributed by the Monopoly Bureau to coal miners as incentive goods. Chewing tobacco is to be utilized in the manufacture of insecticides for farmers. The quantities of tobacco are as follows:

Cigarettes	412,400 pcs (20,620 pkgs of 20)
Pipe tobacco	966 pkgs
Chewing tobacco	236 "

3. The prices to be charged to consumers for the tobacco products are ¥ 15 per package of cigarettes and ¥ 15 per package of tobbacco. The prices for the toilet articles, etc. are as follows:

Tooth brush	¥ 15.65
Tooth powder	.50
Safety razor	45.00
Razor blades (5 pcs)	19.500
Shaving cream	32.50
Matches (box)	2.94
Soap	20.00
Chewing gum (pc)	.73
Chocolates (pc)	.73

4. Surveillance by Military Government of this program is desired.

1. Reference is Memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 439(30 Jan 48)ESS/PC, (SCAPIN 1854), subject: Distribution of American Tobacco as Incentive Goods.

2. The Monopoly Bureau of the Finance Ministry has been authorized to take possession of United States excess tobacco for incentive purposes now in Yokohama and Kobe warehouses.

3. The Monopoly Bureau is:

a. To distribute the cigarettes through its agencies according to plans devised by the Japanese Economic Stabilization Board and approved by Price Control and Rationing Division, Economic and Scientific Section of General Headquarters, Supreme Commander for the Allied Powers. Four million packages will be distributed to farmers who have completed rice delivery at a specified date while seven million packages will be distributed to coal miners over a 6 month period to encourage increased coal production. The price has been set at ¥ 15 per package of 20.

b. To offer 250,000 packages (2 oz.) of pipe tobacco at ¥ 15 per package as incentive goods to coal miners to determine whether there is enough appeal to warrant incentive distribution of all available pipe tobacco.

c. To utilize not to exceed 1,000 pounds of pipe tobacco and cigars to conduct operating tests as to the feasibility of using these products in the manufacture of cigarettes for distribution as incentive goods.

d. To release all chewing tobacco for use as raw material in the manufacture of insecticides for farmers.

4. The products to be distributed as incentive goods are to be marked by stamps to indicate that they are authorized for legal release and to distinguish them from American products used by Occupation Forces.

SUBJECT: Distribution of United States Army Surplus Clothing as Incentive Goods for Fish Collection Program

TO: Ministry of Commerce and Industry, No. 4, 3-chome, Kasumigaseki, Chiyoda-ku, Tokyo

1. The Japanese Government is authorized to distribute the items listed below which are now in its custody:

1,031 canvas buckets
3,026 lbs. of rope
4,006 wool caps
270 winter helmets
192 glove inserts

2. Each article of clothing will be clearly and distinctively marked according to instructions by Price and Distribution Division, Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers to indicate that these articles have been officially released, and to distinguish them from articles of clothing used by the Occupation Forces. Any marks which identify the rope and canvas buckets as Army stock will be removed before distribution.

3. These items will be distributed according to the plans submitted by the Ministry of Agriculture and Forestry and the Economic Stabilization Board.

4. Sales of these items will be at the official prices determined by the Price Board. No import duty or commodity tax will be levied on these items.

5. All necessary precautions will be taken to assure that these articles are distributed through official channels and do not appear in illegal or unauthorized transactions.

6. All handlers of these items will be required to keep accurate records of all items received and distributed.

7. A report on the distribution of these items will be submitted as soon as feasible.

SUBJECT: Distribution of American Clothing as Incentive Goods for Fishermen

TO: Economic Stabilization Board, Kasumigaseki, Chiyoda-ku, Tokyo

1. The Economic Stabilization Board is authorized to release the following articles of American clothing, now in the custody of Boeki Kodan, as incentive goods to fishermen in order to encourage the collection of fish through official channels.

40,000	coats
75,000	shirts
100,000	jackets
220,000	trousers

2. Each article of clothing will be clearly and distinctively marked according to instructions by the Economic and Scientific Section, General Headquarters, Supreme Commander for the Allied Powers to indicate that these articles have been officially released, and to distinguish them from articles of clothing used by the Occupation Forces.

3. These articles will be distributed according to the plans submitted monthly by the Ministry of Agriculture and Forestry at prices established by the Price Board, and no import duty or commodity tax will be levied on them.

4. The Economic Stabilization Board will take all necessary action to assure that these articles of clothing are distributed through official channels and do not appear in illegal or unofficial sales.

5. The Economic Stabilization Board will require all handlers of these goods to keep accurate records of the goods received and distributed by them.

6. The Economic Stabilization Board will submit monthly reports on shipments, arrivals and distribution to fishermen of these goods. These reports will be submitted on the 10th of each month for the proceeding month.

ECONOMIC AND SCIENTIFIC SECTION
Price and Distribution Division

HFA/JRB/LEP/vw
30 July 1948

MEMO FOR RECORD:

1. The accompanying memorandum authorizes the Economic Stabilization Board to release additional clothing under the fish incentive goods program.

2. This clothing is part of the Army surplus stocks that have been shipped to Japan under the SIM program for distribution as incentive goods. Details of the SIM program are included in the memorandum for record accompanying SCAPIN 5652 A, 26 May 1948.

3. This release adds additional items to the program set up by SCAPIN 5652 A. Distribution of the clothing released by this SCAPIN will be completed shortly and additional items are needed to continue the program.

4. These items will be marked with the standard markings which have previously been approved.

5. The interests of Korea have been considered.

6. Eighth Army has been requested to make surveillance at all levels of distribution.

MEMO FOR: Economic Stabilization Board, Kasumigaseki, Chiyoda-ku, Tokyo

From: Distribution Branch (K. Uneki)

SUBJECT: Distribution of United States Army Surplus Clothing as Incentive Goods for Fishermen

1. Reference memorandum for the Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, 420 (30 July 1948)ESS/PD, PDD 7, 30 July 1948, subject: Distribution of American Clothing as Incentive Goods for Fishermen.

2. It is requested that the coats and jackets listed on the attached table be shipped immediately to Class "B" ports in the following prefectures which have made deliveries of fish to official shipping agencies designated by the Ministry of Agriculture and Forestry during November 1948.

3. This represents the first allocation made to fishermen of Class "B" ports and the ninth shipment of U.S. Army surplus clothing released by SCAPIN 5652A and PDD 7.

SUBJECT: Distribution of United States Army Surplus Material as Incentive Goods for Fish Collection Program

TO: Economic Stabilization Board, Kasumigaseki, Chiyoda-ku, Tokyo

1. The Economic Stabilization Board is authorized to release the items listed below which are now in the custody of Boeki Kodan:

5,282 lbs. of miscellaneous rope
29,325 lbs. of miscellaneous twine
1,514 pieces of chalk line (21-L-152)
96 bales of glazed twine (21-T-105)
629 pieces of miscellaneous tent lines

2. Each box or container will be marked with a black "S" in a circle to identify it as an item that has been officially released.

3. These items will be distributed to fishermen in Shimonoseki and Nagasaki according to the plans submitted by the Ministry of Agriculture and Forestry and the Economic Stabilization Board.

4. Sales of these items will be at the official prices determined by the Price Board, and no import duty or commodity tax will be levied.

5. All necessary precautions will be taken to assure that these articles are distributed through official channels and do not appear in illegal or unauthorized transactions, and all handlers will be required to keep accurate records of all items received and distributed.

6. A report on the distribution of these items will be submitted as soon as feasible.

ECONOMIC AND SCIENTIFIC SECTION
Price and Distribution Division

HFA/JRB/LEP/vw
30 July 1948

MEMO FOR RECORD:

1. The accompanying memorandum to the Economic Stabilization Board authorizes the release of the following items:

5,282 lbs. of miscellaneous rope
29,325 lbs. of miscellaneous twine
1,514 pieces of chalk line (21-L-152)
96 bales of glazed twine (21-T-105)
629 pieces of miscellaneous tent lines

2. These items were received under the SIM program.

3. Since rope and twine are widely used in the fishing industry and since there is a severe shortage it was decided that the best use of this material would be found in distribution to fishermen.

4. The quantity of goods is so small and the types so varied that it is impossible to set up a distribution plan that would fit into the present fish incentive goods program.

5. These items will be distributed to the two large fish ports of Shimonoseki and Nagasaki. The goods will be divided 60% for the former and 40% for the latter. This is on the basis of the amount of fish collected in the period 1 December 1947 to 31 May 1948.

6. Distribution in the ports will be handled by the Materials Adjustment Office of the Ministry of Agriculture and Forestry. In making allocations to fishermen, both need for the material and previous deliveries of fish to official channels will be considered.

7. The goods will be sold at the official prices set by the Price Board.

8. Each box or container will be marked with a black "S" in a circle in order to identify it as material officially released.

9. The interests of Korea have been considered.

10. No surveillance by Eighth Army is necessary.

11. Concurrences: None necessary.

SUBJECT: Distribution of Imported Natural Worm Gut Lines to Fishermen

TO: Economic Stabilization Board, Kasumigaseki, Chiyoda-ku, Tokyo

1. The Economic Stabilization Board is authorized to distribute 1,508 lbs. (876,000 lines) of natural worm gut lines now in the custody of the Foodstuff Trade Corporation.

2. Each box or container will be marked with a black "S" in a circle to identify it as an item that has been officially released.

3. These items will be distributed to fishermen according to plans submitted by the Ministry of Agriculture and Forestry and the Economic Stabilization Board.

4. Sales of these items will be at the official prices determined by the Price Board, and no import duty or commodity tax will be levied on them.

5. All necessary precaution will be taken to assure that these articles are distributed through official channels and do not appear in illegal or unauthorized transactions, and all handlers will be required to keep accurate records of all items received and distributed.

SUBJECT: Distribution of United States Imported Combat Boots and Service Shoes

TO: Economic Stabilization Board, Kasumigaseki, Chiyoda-ku, Tokyo

1. Reference is Board of Trade memorandum number BOTI 8647-II-150, dated 20 July 1948, subject: Distribution Plan of United States Imported Shoes.

2. No objection is offered to the plan for distributing 12,956 pairs of new and used boots and shoes to laborers in ice plants, which supply ice for the storage of fish and vegetables and workers engaged in the transportation of fish and vegetables provided that:

a. Each boot and shoe has the approved mark, "S" in a circle, branded near the top to identify it as an item officially released.

b. Distribution is limited to laborers in ice plants, which supply ice for the storage of fish and vegetables and workers engaged in the transportation of fish and vegetables.

c. T he shoes and boots are sold at the official prices established by the Price Board.

d. No import duty or commodity tax is levied upon these boots and shoes.

e. This special distribution does not affect normal ration allowanced for leather shoes, rubber boots or jikatabi.

3. The Japanese Government will take all necessary action to assure that these shoes are distributed through official channels and do not appear in illegal or unofficial channels.

4. Accurate records of all boots and shoes received and distributed under this plan will be kept and the Economic Stabilization Board will

ECONOMIC AND SCIENTIFIC SECTION
Price and Distribution Division

HFA/JRB/LEP/vw
29 July 1948

MEMO FOR RECORD:

1. The accompanying memorandum releases 12,956 pairs of boots and shoes for distribution to laborers in ice plants, which supply ice for fish and vegetable storage, and workers engaged in the transportation of fish and vegetables.

2. These boots and shoes are part of the 189,901 pairs of boots and shoes released early in 1947. SCAPIN 3449 A, 20 March 1947 released 172,561 pairs but only 170,657 pairs were distributed. SCAPIN 5641 A, 24 May 1948 released 5,000 pairs. This quantity brings the total distributed up to 188,613 pairs. The remaining pairs will be distributed in the near future.

3. These boots and shoes will be marked with an "S" in a circle. This marking is branded on the shoe or boot near the top.

4. These items will be sold at the official prices set by the Price Board. These prices are in line with the official prices of similar boots and shoes of Japanese manufacture. No import duty or commodity tax will be levied on these items.

5. Distribution will be limited to laborers in ice plants, which supply ice for fish and vegetable storage and workers engaged in the transportation of fish and vegetables. Both of these groups are important to the success of the fish and vegetable enforcement program.

6. Allocations to laborers in ice plants, which supply ice for fish and vegetable stroage, were made on the basis of the number of workers engaged in actual production. Number of workers and distribution plan is as follows:

Prefecture	Rubber Shoes and Boots	Leather Shoes and Boots	Total No. of Workers
Hokkaido	51	168	219
Aomori	45	165	210
Iwate	44	150	194
Miyagi	82	310	392
Akita	6	18	24
Yamagata	6	14	20
Fukushima	26	92	118
Ibaraki	35	125	160
Tochigi	8	35	43
Gumma	19	76	95
Saitama	-	-	-
Chiba	44	160	204
