SUBJECT: Cancellation of Permit of Kyoto Plant, Nihon Kokusai Kabushiki Kaisha.

TO: Commanding Officer, 94th Military Government Group, APO 660.

1. Reference is made to letter from 31st Military Government Company, dated 25 March 1946, subject: "Report on Nihon Kokusai Kabushiki Kaisha, Kyoto Plant, Kyoto City", copy of which is appended as inclosure 1.

2. You will note from the information contained in inclosure 1 that the company has done nothing regarding reconversion, although it has been in possession of a reconversion permit for approximately three months.

3. It is directed that the reconversion permit issued to this company be revoked immediately, and the company required to surrender this permit which will be forwarded to this headquarters for cancellation.

4. It is felt that a company on the restricted list, which has done nothing thus far to reconvert should not be permitted to begin reconversion activities at this date.

f. The Japanese Liaison Office states that if and when reconversion of the said plant is completed and production begun, it makes the following statement and recommendations:

" The chief of the Adjustment Department of the Commercial and Industrial Ministry and the chief of the First Section of the General Department of the Central Liaison Office are in negotiations with Colonel Ballard, Eighth Army, on the following subjects:

(a) That Occupational Forces do not remove such machines as are required to manufacture the items listed above.

(b) That if these negotiations fail, this plant be allowed to continue to manufacture the items called for in the permit which Hq I Corps issued if and when reconversion starts, until such time as the machines are removed from the plant by the Occupational Forces."

2. The machines in the subject plant are being kept in good order and condition. The plant management has a crew of workmen continuously cleaning and oiling these machines to meet the requirements set up in the directives bearing upon this subject.

From: Chief of Kyoto Factory, Nikkoku Kogyo K.K.

Subject: Petition For Release of Designated Goods As Reparation Objects For Civilian Use

As the Kyoto Factory of Nikkoku Kogyo K.K., former Nippon International Aircraft Company at Okubo, Kyoto, had been producing airplanes and munitions in the war time, the machinery and equipment in the Factory were designated as the objects of reparation for the Allied Nations. Among the goods designated and in custody of the Factory some transformers and motors are involved.

In compliance with not only the recent lack of fuel but also the bad food conditions in our country we have to resort to electricity very much for cooking and grinding corns. Under existing conditions the transformers are very often broken on account of overcharge and so they must be replaced or installed more for us to use electric furnaces and grinding machines in the residece area of the Factory at Okubo.

In such circumstances we should like to ask you to take it into consideration and permit for us to remove and use the items listed below in the residence of the Factory.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

No. NKKSK-104

March 30, 1946

To: Major Sheffield, Commanding Officer
31st Military Government

From: Chief of Kyoto Factory, Nikkoku Kogyo K.K.
Okubo, Kusegun, Kyoto-fu

Subject: Petition For Release of Designated Goods As Reparation Objects For Civilian Use

As the Kyoto Factory of Nikkoku Kogyo K.K., former Nippon International Aircraft Company at Okubo, Kyoto, had been producing airplanes and munitions in the war time, the machinery and equipment in the Factory were designated as the objects of reparation for the Allied Nations. Among the goods designated and in custody of the Factory some transformers and motors are involved.

In compliance with not only the recent lack of fuel but also the bad food conditions in our country we have to resort (rely) to electricity very much for cooking and grinding corns. Under existing conditions the transformers are very often broken on account of overcharge and so they must be replaced or installed more for us to use electric furnaces and grinding machines in the residece area of the Factory at Okubo.

In such circumstances we should like to ask you to take it into consideration and permit for us to remove and use the items listed below in the residence of the Factory.
