Unit personnel officers will prepare, as of the 10th day of each month, Prospect Interview Form [Inclosure 2] on each enlisted man assigned or attached to the unit, who has a departure date in the 7th month subsequent to that in which the form is being prepared, and will forward it to the company or similar unit commander concerned.

"b. The unit personnel officer will furnish the unit recruiting officer a roster of the men on whom Prospect Interview Forms have been prepared and forwarded each month.

"c. The company or similar unit commander will, upon receipt of a Prospect Interview Form, conduct a personal interview with the enlisted man concerned, record the interview on the form and forward it to the recruiting officer of the parent unit, not later than 10 days subsequent to receipt of the form.

"d. Upon receipt of the Prospect Interview Form from the company commanders, the recruiting officer of the parent unit will schedule and conduct a personal interview with each enlisted man concerned for the purpose of initiating administrative action where a favorable reaction has been secured, or in the case of a negative reaction, making further effort toward retaining the soldier in the service. The Council agreed that an approach to this subject from the positive side would appeal to enlisted men who are constantly being reminded of VD rates, courts-martials and various other derogatory situations.

"* * * Such a program would be based on the concept that greater emphasis be placed on desired achievements such as participation in athletics, enrollment and completion of USAFI courses, church attendance, and other achievements contributing to the moral, physical and spiritual welfare of the unit.

"* * * The achievements to be considered and the weight to be given in each case would be decided by the local council implementing the program." (AGR 330.11)

Section XV - Table Linen for Troop Messes.

1. Letter, General Headquarters, Far East Command, AG 636 (24 Jun 49)

GD, 29 July 1949, subject: "Improvement of Mess Hall Facilities," is quoted in part for information and guidance:

* * * * *

"2. There are within each of the major commands certain organizations which have, through the use of nonappropriated funds and troop labor, rearranged their mess halls to provide six or four man tables, individual chairs and table cloths * * *.

"3. Inasmuch as the necessary tables, chairs and linen are neither available nor authorized for issue, the above improvement of mess hall facilities must be accomplished entirely through the use of nonappropriated funds.

3. Paragraph 2 above may be cited in lieu of obtaining a "Certificate of Nonavailability" as required in paragraph 5k, AR 210-50. (AGP 414.3)

Section XVI - Foreign Service and Rotation of Military Personnel.

1. References.

a. SR 600-175-1.

b. Circular 22, General Headquarters, Far East Command, 1 July 1948, subject: "Rotation of Military Personnel."

c. Section I, Circular 82, this headquarters, 8 November 1948, subject: "Rotation of Officer Personnel."

2. Computation of Overseas Tour. To standardize the methods used within this command in computing the expiration date of an oversea tour, the following will govern:

a. Upon arrival in Japan of an individual from a command where the normal oversea tour is other than thirty (30) months, the expiration date of the oversea tour will be computed and records amended to show the new expiration date. For example:

(1) Captain Doe departed Zone of Interior for duty in Korea (normal tour 24 months) on 16 January 1948. He arrived in Japan (normal tour 30 months) on 29 December 1948. Upon arrival in Japan, he had completed 11 months and 13 days, which, when converted, gave him credit for 13 months, 22-1/2 days (14 months) toward completion of a 30 month tour.

Therefore, he has 16 months to serve in Japan from 29 December 1948 to 28 April 1950, the date on which his tour expires. It will be noted that the adjustment was made on date of arrival in Japan. Also that the period 22-1/2 days was credited as a month. In this connection, attention is directed to paragraph 5b, reference 1b. Had the period been 14 days or less it would have been disregarded.

(2) Captain Roe departed Zone of Interior for duty in Korea on 13 February 1948. He arrived in Japan for duty on 14 April 1949. Upon arrival in Japan, he had completed 14 months and 1 day, which, when converted, gave him credit for 17 months and 15 days (18 months) toward completion of a 30 month tour. He has to serve 12 months from 14 April 1949 to 13 April 1950, the date on which his tour expires. However, Capt Roe returned to the Zone of Interior on leave and departed the Far East Command on 23 May 1949. He arrived in the Zone of Interior on 5 June. He departed the Zone of Interior enroute to this command from leave on 8 August. Therefore, he was in the Zone of Interior for a period of 63 days, from 5 June to 7 August inclusive, during which period he was not credited with foreign service. In this connection, attention is directed to paragraph 3b (1), reference 1b. His former date of expiration of overseas tour is now changed to 16 June 1950. It will be noted that Capt Roe was charged with being on leave on the date of arrival in the Zone of Interior. This is due to the fact that he was not entitled to overseas pay beginning on date of debarkation in the Zone of Interior. It will also be noted that he was not charged with being on leave on date of embarkation inasmuch as he was entitled to receive overseas pay on that date. Upon return to Japan from leave, Captain Roe applied for transportation of his dependents to this theater. When he signed the request for the transportation of his dependents from the Zone of Interior to this theater, he agreed in writing to serve overseas for one year after their arrival. His dependents arrived in Japan on 28 December 1949. Therefore, the expiration date of his overseas tour is now changed to 27 December 1950. In this connection, attention is directed to paragraph 11, SR 55-765-5, 28 April 1949.

b. For all female personnel who departed Zone of Interior after 31 December 1947, new termination date of foreign service tour will be recomputed as of 30 June 1949 to give individual credit for proportionate length of time spent in 24 month tour as compared to 30 month tour. For example, Lt Fern departed Zone of Interior on 1 March 1948 would be credited with having completed 16 months or 2/3 of her normal tour as of 30 June 1949. Two-thirds of 30 months equals 20 months which leaves her 10 months yet to serve subsequent to 30 June 1949. New termination date of foreign service tour is 30 April 1950.

3. Officers Returning to Zone of Interior for Reassignment (Reports Control Symbol: CSGPA-31).

a. When reporting officers for return to Zone of Interior, the month listed on the report is the month during which the overseas tour expires, and is not the month of theoretical departure from the overseas command. This does not apply to Air Force personnel.

b. When the date of departure as shown on the CSGPA-31 report and the month forecasted for return to the Zone of Interior does not indicate a thirty (30) months tour, an explanation will be furnished on the line immediately below the name of the individual concerned. For example: CWO Brown departed Zone of Interior for duty in Japan on 10 February 1948. His tour would normally expire on 9 August 1950, and he would be included on that report of officers returning to Zone of Interior for reassignment during August 1950. However, Brown was granted an extension of overseas tour to 9 February 1951. Therefore, when reported, the explanation beneath his name should show: "OS tour extended to 9 Feb 51."

c. Other explanations may be necessary, for example:

(1) Dependents arrived in oversea command 10 February 1950.

(2) Tour curtailed to 9 June 1950.

(3) Officer served in Korea from 16 January 1948 to 28 December 1948, date preceding date of arrival in Japan.

d. When requesting a curtailment of overseas tour which will necessitate an addition to a CSGPA-31 report, the following additional information will be included in such request:

(1) Control branch.

(2) Race.

(3) Primary MOS.

(4) Days leave desired.

(5) Date of arrival in Japan from other overseas command.

4. Medical, Dental, and Veterinary Corps officers with less than 6 months service remaining upon completion of normal foreign service tour, with exception of those officers who elect to remain in the theater until such time that upon return to Zone of Interior and processing for separation they will have completed their remaining service will be included in CSGPA-31 report and returned to Zone of Interior for reassignment. (AGRD 210.481)

Section XVII - Partial Payments to Enlisted Personnel.

b. Section XI, Weekly Directive 64, this headquarters, 26 November 1949, subject: "Expeditious Processing of Investigations by Boards of Officers."

2. Letter, General Headquarters, Far East Command, AG 600.9 (5 Oct 49) CE, 17 November 1949, subject as above, is quoted in part for information and compliance:

* * * * *

"2. An appreciable number of reports of supplemental technical investigations of fire are so old when received by General Headquarters, Far East Command, as to nullify their usefulness. Many of these reports have been delayed due to the failure on the part of the initiating installations to comply with the provisions of the applicable regulations and circulars when writing the order and conducting the investigation. This has resulted in delays when the processing authority returns the report to the installation for correction, deletions or additions. Attached hereto [Inclosure 3] is a check sheet compiled to aid in convening a board of officers, conducting the investigation of fire, and in preparing findings, recommendations and report of proceedings. In addition to the use of the check sheet the following suggestions are offered for the installation commander to insure a full, fair, technically qualified and impartial report:

"a. Appoint a permanent board of officers, where practicable to conduct investigations of those fires that occur within the bounds of the appointing authority, and require investigation under the provisions of paragraph 5, General Headquarters, Far East Command, Circular 54. In addition to being ready to function at any time this board will become technically skillful in conducting fire investigations and will be more familiar with proceedings of investigations and submission of reports.

"b. Although the technical investigation of fire is administrative in nature, follow the spirit of the rules laid down in the Manual for Courts-Martial to insure thoroughness and fairness.

"c. Assure that all officers serving on a board for technical investigation of fire, either permanent, or appointed to serve for a separate fire, be familiar with the requirements of General Headquarters, Far East Command, Circular 54, Army Regulations 420-5 * * * [and reference 1b]."

3. Commanders will ensure that:

a. Reports are prepared in quadruplicate.

b. One copy is retained.

c. The original and two copies are forwarded directly to this headquarters.

d. Provisions of references are complied with. (AGL 600.913)

Section XXII - <u>Preparation of DA AGO Form 5-2, Fire Report.</u>

1. Reference.

Circular 54, General Headquarters, Far East Command, 24 December

1948, subject: "Fire Prevention, Fire Protection, Fire Fighting and Reports of Fire Damage."

2. Letter, General Headquarters, Far East Command, AG 600.9 (5 Oct 49) CE, 17 November 1949, subject as above, is quoted in part for information and compliance:

* * * * *

"2. Failure to submit DA AGO Form 5-2, Fire Report, within 48 hours following the incident of fire has resulted in this report being received at General Headquarters, Far East Command, too late to fulfill its maximum value. In addition, improper preparation of this report has resulted in inadequate information for proper evaluation.

"3. Attention is invited to paragraph 4 of General Headquarters, Far East Command Circular 54 which provides that the DA AGO Form 5-2, Fire Report, will be submitted direct to the commanding general of the appropriate major command and not through normal channels.

"4. The most common errors and omissions noted in fire reports, submitted in the past, have been tabulated and used to prepare a check sheet to aid in the preparation of this report. [See Inclosure 4].

"5. It is believed that the prompt preparation of this report, the use of the check sheet and submission of the report direct to the commanding general of the appropriate major command will do much to eliminate or reduce delays in its receipt."

3. DA AGO Form 5-2, required by reference 1a will be forwarded to this headquarters within 48 hours after a fire. (AGL 600.913)

Section XI - Expeditious Processing of Investigations by Boards of Officers.

1. References.

a. AR 210-65.

b. AR 420-5.

c. Section I, Circular 177, Department of the Army, 11 June 1948, subject: "Investigations," as amended.

d. Paragraph 6, Circular 22, General Headquarters, Far East Command, 1 July 1948, subject: "Rotation of Military Personnel," as amended.

2. The object of this directive is to expedite action on incidents requiring boards of officers to investigate overdrawing of rations, the loss, damage or destruction of Government property, the loss of non-appropriated funds and property and similar deficiencies.

3. Numerous board proceedings are reaching this headquarters having been delayed beyond all reasonable limits. In many cases accumulated delays have caused the lapse of so much time as to block all possibility of proper adjudication. Among the principal causes for delay have been:

a. Failures on the part of commanders to recognize promptly conditions requiring the action of the board of officers.

b. Failures on the part of commanders to convene boards of officers promptly and to refer cases promptly thereto.

c. Dilatory procedures on the part of boards of officers.

d. Improper and incomplete action on the part of boards of officers requiring successive reconvening.

e. Unnecessarily long administrative delays on the part of intermediate headquarters.

f. Departure from the theater of essential witnesses and even of persons directly involved.

4. Effective immediately, the following policy will govern throughout the Eighth Army:

a. Normally boards of officers, appointed for the purposes referred to in paragraph 1, will complete and submit reports of their proceedings to the appointing authority not later than fifteen (15) days subsequent to the date on which cases are referred to them. In the event a report of the proceedings of a board of officers is returned for corrective action, the board will reconvene, take appropriate action and resubmit its report within five (5) days. In either instance, when the necessity for delay arises, presidents of boards will submit, in writing, a request for an extension of time stating the reasons therefor. Commanders concerned will require boards of officers to which cases are referred to convene promptly and pursue their investigations to completion without regard to intervening week-ends and holidays.

b. Commanders appointing boards will take vigorous and continuing action to complete the reference, processing, and action upon the proceedings of boards set up under their jurisdiction within a period of thirty (30) days from the discovery of a condition requiring board action. Board reports should not be held in any headquarters more than seven days without completion of action, insofar as that headquarters is concerned. Delays beyond the periods specified herein will be explained in transmittal indorsements.

5. a. Attention is directed to reference 1c, which provides that military personnel will not be reassigned or separated while under investigation involving matters which may result in general court-martial action, (reference 1d), dismissal from the service under other than honorable conditions, resignation for the good of the service, or when the matter under investigation may lead to civil suit by the government.

b. Should it appear that the proceedings of a board of officers may result in the establishment of pecuniary responsibility (reference 1b) or other than minor punitive action against military personnel, the commander appointing the board of officers will give consideration to the retention of such personnel beyond their normal date of rotation to the Zone of Interior, under the provisions of reference 1c.

c. Commanders concerned will if necessary use this directive and reference 1c as authority to retain beyond their normal date of rotation to the Zone of the Interior individuals connected with an incident or condition under investigation, until such time as their presence is no longer required. PROMPT NOTIFICATION WILL BE SUBMITTED TO THIS HEADQUARTERS (1) WHEN RETENTION OF PERSONNEL BECOMES NECESSARY AND (2) WHEN RETENTION OF SUCH PERSONNEL IS NO LONGER REQUIRED. (AGK 334)

"The following message from DA(CSTIE) Washington, DC, is quoted for information and immediate compliance of local Troop Information and Education Officers: 'In no case will term 'illiterate' be used to describe servicemen participating in Basic Education Program. This is occasioned by a recent visit of the Chief of Staff in which the term 'illiterate' was used by the local Information and Education Officer.'". (AGV 352)

Section XVII - Film and Equipment Exchange Utilization Information.

1. Commanders will ensure that "FILM TACTICS" is brought to the attention of and made available to instructors using training films. This film is intended for the instruction and guidance of training officers, instructors, and film users.

2.

Release No.	Title	Running Time
TF 11-1572	FILM TACTICS	23 min

3. Synopsis - The first portion of this film portrays the improper use of the motion picture as a training aid in military instruction. As a

result of this improper use of film, the trainees make a poor showing in the field exercises which follow. Proper use of motion pictures as an aid to the instructor is then depicted, and the following points stressed:

a. Preparation of the instructor prior to the film showing.

b. Proper ventilation of classroom.

c. Preparation of the students by introducing the film and explaining the main points covered in the film.

d. Showing of the film.

e. Discussion of the film and answering questions which may arise.

f. Examination to ascertain that the students have absorbed the lesson.

4. To attain the training objective the instructor selects training aids which will exemplify, clarify and facilitate the particular phase of training concerned. Training films are foremost among training aids for promoting easy learning and retention of the subject matter required for study. However, the mere utilization of films as the sole means of instruction in any lesson is not sufficient, films will assist in making the student proficient in a subject. Further, a film as a training aid is no better than the effort expended by the instructor in its presentation to the class. TF 11-1572, "FILM TACTICS," illustrates the proper teaching technique required to obtain better results and to enhance the value of training films.

1. Letter, General Headquarters, Far East Command AG 311.16 (1 Nov 49) AG, 16 November 1949, subject as above, is quoted in part for information and compliance:

* * * * *

"2. Pending revision of paragraph 6, Circular 12, General Headquarters, Far East Command, 20 March 1948, the instructions contained in this letter will govern the acquisition and mailing of gift articles to the United States and its possessions under the provisions of Public Law 790, as amended.

"3. In Japan and the Ryukyu Islands members of the Armed Forces of the United States may send bona fide gifts, except tobacco products or other items forbidden to be sent through United States mails, to donees in the United States, its possessions and territories, free from duty, internal revenue taxes, customs charges, and exactions, to the extent of $50 in value in any one shipment, provided such gifts were acquired by the senders by gift or purchased under the following conditions:

"a. If the articles upon which customs exemption is claimed were gifts to the sender, the articles must have been bona fide gifts and not acquired through barter, black market consideration or other transaction.

"b. * * * * *

Hereafter, Certificate 'B' on WD AGO Form 159, instead of Certificate 'A', will be the appropriate certificate for execution by certifying officers.

"7. Members of the Armed Forces claiming the $50 exemption on gift parcels under the provisions of Public Law 790, as amended, will execute the 'Declaration' of donor on WD AGO Form 159, covering the quantity, description of contents, actual cost, and type of currency used, and will present the executed WD AGO Form 159, parcels and contents to designated certifying officers. "8. In the implementation of these instructions commanders of units and organizations of battalion level or higher will designate by special orders a suitable number of commissioned officers to act as certifying officers. The number of officers so designated will be determined by the needs of the areas to be served, considering geographical factors, the availability of APO facilities, and location of troops."

"2. Pending completion of planning for the proposed 'Armed Forces Day' observance on 20 May 1950, the Secretary of Defense has suggested that no large-scale maneuvers, exercises, or speaking engagements by general officers and key officials be planned during the period 14-21 May." (AGV 006)

Section XIII - Missing and Delayed Efficiency Reports.

Letter, Department of the Army, AGAO-S 201.61 (18 Oct 49)-M AGPI-E, dated 2 November 1949, subject as above, is quoted for information and compliance:

"1. Reference is made to the following publications:

a. AR 600-185.

b. SR 600-185-5.

c. [Section I,] Circular 293, Department of the Army, 1948, [subject: "Efficiency Reports,"].

"2. Auditing of Efficiency Reports received by The Adjutant General discloses that there are at present several thousand missing Efficiency Reports since the present form (WD AGO Form 67-1) was instituted on 1 July 1947. The securing of these missing and delayed reports is placing the unnecessary administrative burden on this office of searching for identity of proper rating officers and writing letters in order to obtain these missing reports. Academic reports required by Section IV, AR 600-185, are especially delayed in reaching this headquarters. Many current reports are being delayed because they are incorrectly addressed to The Adjutant General, Attention: AGSO-R. Reports should be so addressed only in the case of

those required in connection with competitive tours (paragraph 6h, AR 605-8). All others should be submitted to The Adjutant General, Attention: AGPI-OF.

"3. The submission of Efficiency Reports promptly and accurately is of extreme importance to the Department of the Army, and to each individual officer because the reports are used in the proper application of career guidance, and in determining selection of officers for promotion or elimination. An officer's career may be seriously jeopardized merely by the failure of efficiency reports to reach this office in sufficient time to be considered by an appropriate board.

"4. The directives cited in paragraph 1, above, are explicit as to when efficiency reports are required. Positive and effective control measures will be established within your command to assure that all efficiency reports are prepared accurately, and forwarded to The Adjutant General within the time limit specified. Delayed reports which are known to be awaiting action at the respective headquarters will be completed and forwarded to The Adjutant General, Attention: AGPI-OF, with maximum dispatch." (AGR 201.61)

Section XIV - Destruction of Tabulations of Annual and General Ratings, Regular Army Officers.

Letter, Department of the Army, AGAO-S 201.61 (27 Oct 49) - M AGPI-OF, 28 October 1949, subject as above, is quoted for information and compliance:

"1. In the past, Annual and General Efficiency Ratings have been the only numerical ratings indicating efficiency for most regular army officers. For some years, The Adjutant General published the Annual and General Efficiency Ratings for regular army officers. The last annual issue was OTN 403, 30 June 1946. These ratings have been carefully studied by a board of officers and have been found to be outdated and inadequate for further use in their present form. Based on the recommendations of the board of officers, these ratings have been declared obsolete and will not be used for any purpose in the future.

"2. It is directed that your headquarters destroy by burning all copies of the document OTN 403, 30 June 1946, and any previous reports or tabulations of Annual and General Efficiency Ratings on regular army officers. In addition, it is desired that you determine whether any other agencies under your command have any copies or tabulations of Annual and General Efficiency Ratings and, if so determined, take the action as directed for your own headquarters. The provisions of AR 380-5 governing the destruction of classified material will be complied with." (AGR 201.61)
