b. Operational Directive 3, Hqs. Eighth Army, dtd. 17 January 1949, Subj: Food Distribution."

c. Section I, Memorandum 13, Hqs. Tokai-Hokuriku Military Government Region, dtd. 29 January 1949, Subj: "Food Distribution."

2. In accordance with provisions of directives cited in paragraph 1 above, 4 Gifu Foodstuffs Office letters, dtd. 14 and 30 March 1949, requesting permission for disposal of imported foods and indorsements, this headquarters, dated 19 April 1949, authorizing disposal are hereby forwarded as inclosures 1 thru 4 respectively.

3. Spot inspection by personnel of this headquarters of food storage points referred to in basic letters of inclosures 1 thru 4 revealed that said foods in quantities listed were either spoiled or in danger of imminent spoilage.

4. The total quantity of spoiled class D food listed in inclosure 1, 3195 lbs. of dried prunes, will be reprocessed into hardtack for distribution as a special ration to heavy laborers in Japanese industry. All spoiled goods listed in inclosures 2 thru 4, 1202.9375 lbs. of classes C, D, E & F food, are no longer fit for human or animal consumption and will be discarded.

SUBJECT: Staple Food Rationing System

TO: Commanding Officer
Tokai-Hokuriku Military Government Region
APO 710

1. Reference: Ltr., Headquarters Tokai-Hokuriku Military Government Region, subj: as above, dtd. 15 March 1949.

2. In compliance with ltr. referred to in paragraph 1 above the following telephonic report is confirmed.

a. 17 March 1949, the governor of Gifu Ken was advised of the immediate necessity for initiating positive measures to insure rigid tightening of Food Rationing Control within the Central Government allotments and elimination of excessive rationing.

b. 18 March 1949, prompt action resulted culminating in the following report:

(1) Conference was held by the governor and officials of the Food Distribution Kodan during which it was made clear that great urgency was attached to control of distribution in conformity with allocations. Investigation of records of the past four month period revealed however a net favorable balance of 346 koku surplus in allocation above distribution requirement.

(2) Instructions were issued in writing to all City, Town and Village Mayors directing an immediate check on Ration Pass books, ages of recipients, and status of self-suppliers. It was further directed that local police institute necessary action to enforce elimination of "ghost" population by a concerted drive.

(3) The above issued instruction required Mayors to report in writing within three weeks enumerating action taken and results noted with monthly reports thereafter required.

3. Provisions for continued surveillance include the requirement of a compilation of results of Mayors' reports, balance carried by the

1. Reference is made to Operational Directive number 28, this headquarters, dated 13 March 1947, subject: "Rice Collections, " and slants thereto.

2. The Ministry of Agriculture and Forestry has issued instructions stating that out of the total rice quota for each prefecture, a specified amount can be polished by the farmer before it is turned in and another specified amount can be polished according to plans set up by the prefectural governor. The farmer will be permitted to retain the bran by-product from the rice he polishes. The by-product from the rice polished according to the governor's plan will be distributed as feed according to his instructions. The remainder of the rice quota will be stored and polished by the Food Kodan and the bran by-product will be distributed according to plans by the Feed Kodan. The amounts authorized to be polished in Your area under these two plans follow:

(Unit: Koku in BRE)

Prefecture	Farmer	Governor

8 August 1949

SUBJECT: Special Report on Prohibited Fishing Area

TO: The Chief
Tokai-Hokuriku Civil Affairs Region
APO 710

1. Since the year 1881 there has been in effect an agreement between Aichi prefecture and Gifu prefecture prohibiting fishing in the Ayu Spawning Reserve of Kiso River, in the vicinity of Kawashima-mura, Hashima-gun. This agreement was authorized by the Japanese Government.

2. A representative group of citizen including the Chief of Kawashima Fishery Association visited this headquarters to register a complaint in that the people in Aichi prefecture are violating the above-mentioned agreement. Aichi fishermen are reported to have been fishing the spawning areas the past three years, removing eggs from female fish for artificial hatching purposes and then disposing of the fish by selling them on the market.

3. Gifu citizens are perturbed because of the violation of agreement. They have requested that the Aichi fishermen cooperate and consult with the Gifu people but their request has been ignored.

4. Fishermen of Gifu prefecture wish to continue to abide by their agreement but ask that Aichi fishermen be directed to cooperate and arbitrate the problem for the benefit of fishermen in both prefectures.

5. Recommend that Aichi fishermen who are reported to be fishing the prohibited areas be directed to consult and cooperate with fishermen in Gifu prefecture in order to settle the matter amicably for all concerned.

10 MAY 1947

File #33

SUBJECT: Historical Record of Acreage and Production of Staple Food Crops for Gifu Prefecture.

TO: Commanding Officer, Gifu Military Government Team, APO 25.

1. Inclosed herewith for information, are data showing the acreage and production of the six staple food crops within your prefecture by years, from 1920 through 1946. The staple food crops covered by these data are rice, wheat, naked barley, barley, sweet potatoes and white potatoes. The information was obtained from the Statistical Yearbook of the Japanese Ministry of Agriculture and Forestry.

2. It will be noted that in practically all cases the acreages reported during the last three or four years are decidedly below the previous five or ten year average. This drop in reported acreages for all major crops is not substantiated by field observations and the indications are that acreages actually planted have not decreased, but rather that acreages are being under reported.
