Name of the meeting: Round-table conference on the Peace

Date and time: Apr. 13th, 1952. 18:45-21:30.

Place: 1st Conference Room

Sponsor: ADACHI, Umeichi (3rd Club)

Attendants: ADACHI, Umeichi, INNAMI(Secretary, Japanese Section of the Peace Protection Committee), HONDA (Secretary, Tokyo Branch of the same Section), UMEZU, (Tokyo Metropolitan Assemblyman), representatives of the Peace Protection Conference of Christians, the Preliminary Committee for the Establishment of the Mothers' Gathering, Wadatsumi-kai (Ocean club), the members of labor unions of the SPA, the courts, the Youth and Women's Section of the General Council of the Labor Unions of Japan, the Printing and Publishing Workers' Union, and those who are concerned among the Peace Committee members of Bunkyo-ku, Chuo-ku, Chiyoda-ku, Ohta-ku, Santama district, Tokyo University, and the Educational College.

Number of attendants: 55 persons.

Summary

1. ADACHI (3rd Club) made a speech as follows:

(1) While the Government has been exposing its re-armament plan distinctly by the presentation of the Subversive Activities Prevention Bill, it succeeded in undermining the current strike attempts by the General Council of the Labor Unions of Japan by conciliating MUTO who betrayed the confidence thereof.

(2) In view of the fact that MUTO is from the rank of miners at the Joban Coal Mine, and is a big shot within the circle of the minors' unions, it can well be expected that the Government is going to have him succeed in grasping the leadership at the National Assembly of the Miners' Unions scheduled to be held on 28th, and then present the Subversive Activities Prevention Bill to the Diet.

(3) The Government seems to try to amend the Constitution at the extra-ordinary session of the Diet in August, and proceed directly on the wards the rearmament. And it is preparing for it in the form of poll for the rearmament by calling out to the news papers at the present.

(4) As the opposition forces against MUTO of the General Council of the Labor Unions of Japan has been raged by his betrayal, and are now being consolidated stronger and stronger for the struggle, we should do our part by promoting the campaign against the conscription which is under our command, and strengthen such anti-re-armament forces.

2. Then, the reports of the present situations of the activities for peace at each district, shop, school etc. were made by some active members of each branch committee of the Peace Protection Committee. However, no conclusion was reached after interpellations and discussions on said reports, and they agreed to hold the next meeting at the Peace Hall located at Hatsune-cho, Bunkyo-ku, on 21th this month.

Attendants: 160 persons

Gist:

This meeting was a general meeting of the China-Japan Friendship Association. A report was made on the development of the movement for friendship between China and Japan, and the meeting conferred on the polices of the campaign for this year as follows:

1. Report on the development of the movement for friendship between China and Japan.

The campaign for friendship between China and Japan met with various difficulties through changes of international situations. Nevertheless it has made efforts under cooperation from all quarters by making enlightenment propaganda, with a view to developing friendship between China and Japan and to accelerating peace with new China; to that end it exchanged data relative to culture and science with China; and it strived to promote the trade between China and Japan.

As a matter of fact, the movements encounter much difficulties and there are comrades who were arrested on a charge of violation of Cabinet Order No.325 by their distributing newspapers and magazines published in Communist China. For these comrades, we immediately raised funds for relief as well as are struggling through lawyors' group at present.

(1) The course of activity of this year.

1) Acceleration of trade between Japan and Communist China.

2) Cultural Intercourse between Japan and Communist China.

3) To blow up demagogy against Communist China.

4) Cooperation with Chinese traders in Japan.

5) Promotion of peace with Communist China.

(2) Items consulted.

a) On national campaign to accelerate trade between Japan and Communist China.

b) On problems of Japanese staying in China.

c) On problems of seizure of fishing vessels.

d) On the Immigration Control Ordinance.

The ordinance not only orders the compulsory sending back of the Chinese and Koreans in Japan, and does not recognize their fundamental human rights, but also is going to deprive them of their vested rights for management of enterprise. We absolutely object such an evil law.

e) Election of executive members.

The nominating committee announced the appointment of the following executive members:

Chairman: KAZAMI Akira (to be approached)

Vice-chairman: as before

Directors: as before.

On the Use of Conference Room of the 1st

H.R. Members' Club

Name of Conference: Round-table conference between the Diet Members and the representatives of the General Council of Trade Unions of Japan.

Date and Time: Apr. 9, 1952. 10:30 - 17:20

Conference Room used: 1st Conference Room

Sponsor: SUZUKI, Mosaburo (SD 23)

Attendants:

SUZUKI Mosaburo (SD 23); SASAKI Kozo; INOMATA Kozo; WADA Hiroo; NOMIZ Masaru; executive members of the General Council of Trade Unions of Japan, representatives of labor unions under the wing of GCTUJ. professors of Waseda, Keio, Hosei Universities, and lawyers, with following Communist H.R. members attending as observers; KATO Mitsuru; NASHIKI Sakujiro; and TANAKA Gyohei.

Number of Attendants: 71 persons

Summary:

The meeting was for discussing the counter measures for the Subversive Activities Prevention Bill, at which the report on the result of negotiations between the executive members of the GCTUJ and the Government representative, and the consultation on the counter measures for the said bill were made as follows:

1. Report of the GCTUJ executive members' negotiation with the Cabinet Chief Secretary

As the Subversive Activities Prevention Bill is designed for suppression of the people or labor unions, they strongly demanded the Cabinet Chief Secretary of withdrawal or revision thereof. But his answer to this demand was so ambiguous that they were not satisfied with it.

2. Matters agreed

(1) In order to fight to the last for withdrawal or revision of the Subversive Activities Prevention Bill, each labor union under the wing of the GCTUJ shall enter into walk-out as from April 12. Especially, ganeral aggressive strike shall be carried out on 12th and 18th.

(2) As this bill suppresses the democratic organizations, the public opinion has to be roused from political and economic standpoint, too.

(3) The projected strike shall be carried out despite any possible obstruction.

(4) The Free Legal Circle shall work for the solution of dispute after the strike.

(5) The preparation of the strike fund is to be discussed at the following meeting.

(6) Negotiations on the withdrawal or revision of this bill shall be continued with the Prime Minister or the Cabinet Chief Secretary by the 12th on which the strike is to be begun.

After deciding above matters, the meeting entered into recess.

The meeting was reopened at 14:30

3. Following explantions were made on the opinions of labor organizational lawyers' group and the scholars:

(1) The coming struggle is a legal one which protects the fundamental rights of labor. The Government worked out the bill in order to design the beforehand control or the strengthening of penalty for the subversive activities by the organizations, and it is an evil law worse than the former Peace Preservation Law.

(2) Countermeasures for the suppression over the coming struggle.

The purpose of the projected strike is no violation of any law, and in case therefore, follows any unfair acts such as discharge etc., we shall contact with the supporting organs centering around the legal consultant or lawyers of the GCTUJ or if dismissals were made verbally, we shall make the other party to certificate it in writing.

3. Explanation on the revision progress concerning the definition of the acts of dispute.

(1) On revival of the rights of the public service workers and public corporation workers.

(2) Concerning the restriction on disputes connected with public utilities works.

(3) On the restriction of disputes such as prohibiting the general strike.

The Report of the use of the conference room of the 2nd Diet Members' Club

Name of the meeting: Round-table conference for opposition to enlistment

Date: Mar. 27 from 18:00 till 21:30

Place of meeting: The 5th conference room

Sponsor: ADACHI Umeichi, the third Club

Attendants: ADACHI Umeichi, UMEZU, member of Tokyo Metropolitan Assembly, HONDA, Tokyo Peace Protection Committee, and Representatives of Japan Peace Protection Committee, of Peace Protection Committee in Bunkyo-ku, Chuo-ku, Chiyoda-ku, Kamada-ku, Ota-ku, Mitama, Tokyo University, Waseda Univ. Educational College, Tokyo Gas Company, Printing Companies and Zen-ai Association, and Wadatsumi Association etc.

Number of Attendants: 35.

Gist of proceedings:

This meeting was a round-table conference for opposing to enlistment, the proceeding of which was as follows:

1. ADACHI Umeichi made roughly the following explanation.

(1) The conclusion of the Administrative Agreement based on the U.S.-Japan Security Treaty, without getting the approval of the Diet, means an utter disregard of the Diet. The plots

of some influential conspirators was clearly disclosed by it. It is the proof of their attempt to restore dictatorship in Japan running counter against the progress of the times.

(2) The conclusion of the Administrative Agreement signifies that Japan has handed to the United States the deed which is to certify that even command of the Japan defensive army becoming vested with U.S., that is, the Japan's soverignty resides with U.S. and not with the Japanese people.

(3) I hear that immediately after the conclusion of the administrative Agreement, the U.S. Government directed the Japan Government to increase the number of the personnels of the Police Reserve Force from 110,000 to 180,000. The revenues necessary therefor are intended to be collected from taxes, taking advantage of the weak points of the self-assessment tax system. We must not overlook the fact that the rearmament of Japan is now being steadily prepared.

4. The Peace Protection Committee has been conducting the compaigns against the treaties and the rearmament, but in the current situation, we, members of the said committee, must strongly be opposed to the rearmament, that is, the enlistment of armies expected to be executed is the near future, which are nothing but U.S. mercenaries.

2. Then, active members of each Peace Committee reported on the conditions of the present peace campaigns under way in work-shops and schools in various areas. Placing these reports on agenda, questions and discussions were entered into. After that, the following points were agreed upon concerning the manner of thinking of the member engaged in actual campaign against conscription and the points of contention to persuade others to push forward movement against conscription hereafter:

(1) We also recognize the necessity of the self-defense force as an independent nation, but we oppose conscription under the present situation in Japan where such force will become virtually mercenary soldiers of U.S. under the control of U.S. power.

(2) Along with the campaign against conscription, the positive opposition against the enlistment for the Police Reserve, disclosing the substance of the Reserve force should be developed.

(3) In Waseda University, it was true that students engaged in the activities against conscription failed in examination. It is expected, however, that such a matter is not confined to Waseda University and oppression in various forms may happen in the course of this movement. It is essential to stand against such oppression by strengthening peace influence.

(4) To seriously take up the relationships between appointment by the Government of heads of the city and ward, and the conscription system.

(5) To strongly call upon rural communities, works, schools and women for the movement against conscription.

3. HONDA, of the Secretariat, Tokyo City Peace Committee, transmitted the following resolutions of the Standing Committee for the Japan Peace Committee.

(1) That peace campaigners in Tokyo are to collect 200,000 signatures against conscription by May Day, the 1st of May.

(2) That Centers for the movement against conscription be promptly established at each workshop in the areas of the city.

Gist of Proceedings:

This was a meeting for informal talks and consultation between local representatives of the General Council of Trade Unions and Diet members of the Leftist Social Democratic Party, at which the following matters were talked about.

1. MUTO, Chairman, General Council of Trade Unions of Japan, spoke roughly as follows:

In today's Vice-Ministers' Meeting projected Bills for Organizations Control and Special Peace Preservation were decided to be the Subversive Activities Prevention Bill as a public peace legislation: In the Cabinet conference of tomorrow (March 28) the above Bill is slated to be officially decided upon and to be presented to the Diet within a couple of days. Inasmuch as such Bill runs counter to the fundamental rights of the laborers and democracy, the labor unions shall unite all their efforts for opposition thereto and resort even to force for the prevention of such legislation.

2. TAKANO, Chief, Secretariat, General Council of Trade Unions of Japan, said roughly as follows:

1) The local industrial unions which have already decided to launch strikes in opposition to the public peace legislation and the change for the worse of the 3 labor laws are the Coal Mine Workers' Unions, the Electric Power Industry Workers' Unions, the Synthetic Chemical Industry Workers' Unions, the All Japan Chemical Industry Workers' Unions, the All-Japan

Electric Wire Industry Workers' Unions, the Seamen's Unions, the Iron and Steel Industry Workers' Unions, the All-Japan Automobile Workers' Unions, etc. These are ready for starting strikes at any moment's notice.

2) All the other labor unions are also about to make a decision on resorting to the use of force upon consultation with various organs. If the Government tries to legislate any oppressive laws and regulations by relying upon its absolute majority strength in the Diet, the laborers will unite all the powers of their unions in protest against the Government's action.

3) The General Council of Trade Unions of Japan is to reach a final concrete plan for the spring labor offensive at the executive members' meeting in the Headquarters thereof to be held tomorrow (March 28).

4) A labor lawyers' group is to be organized in order to safeguard the laborer's fundamental rights.

3. AKAMATSU (SD-Lobby 23) said roughly as follows:

1) The Leftist Social Democratic Party will hold the Diet Members' General Meeting on April 2 and 3 (at Hakone and Atami respectively) for discussion of the Party's measures in preparation for a general election.

3) Such election measures will be tantamount to the opposition to the public peace legislation and the change for the worse of the 3 Labor Laws and will also include therein measures for domestic and international affairs likely to arise after the effectivation of the Peace Treaty.

3) A number of earnest desires are expressed to the Diet members of the Party for their attendance to the grand meetings of labor unions, but with the Diet now in session they cannot comply with such requests. Accordingly the labor unions and the Diet members of the Party are desired each to undertake the prevention of the Government's reactionary measures from the standpoint of each.

of the 1st H. R. Members' Club

Name of conference: Round-table Talks on human rights

Date: March 18, 1952 (Tuesday) from 13:00 to 16:00

Conference Room Used: The 1st Conference Room

Sponsor: KATO Mitsuru, Communist Diet Member

Attendants: Japanese People's Relief Association, Odawara Paper Mfg. Workers Union, All Japan Construction Workers Union, Tokyo-to Employees' Union, Printing and Publishing Workers Union, Democratic Women's Council, Korean Women's League in Japan, Unified Front of Korean Nation, Korean Liberation and Relief Association, KAZAHAYA and INOKUCHI, Communist Diet Members and OYAMA Ikuo, member of the House of Councillors.

Number of the attendants: 176 in total.

Gist of the proceedings:

1. The Fifth Memorial Meeting of victims of Liberation Campaign.

Memorial addresses were given by the workers unions and Korean organizations in Japan attending this meeting to the victims of liberation campaigns.

2. The lecture was made by OYAMA Ikuo, gist of which is as below:

1) It was immediately after the end of the 1st World War when the Japanese liberation campaign took place for the first time.

2) The purpose of the campaign was liberation of workers and farmers and opposition to imperialism and monopolistic capitalism.

3) The forerunner was late YAMAMOTO Senji. He fought vigorously against the oppression placed on the proletariat movement at that time. On account of the oppression, the active persons of the movement disappeared one by one, but he did not give up his opposition and fought thoroughly under the slogans of "For the workers! and for the love of the country!".

4) YAMAMOTO was killed by one of the rightists on the 5th of March, 1929. Many such fighters for the proletariates have been killed, and YAMAMOTO is a representative one of them. YAMAMOTO Senji is a symbol of those sacrifices of the proletarian and farmers' movements.

5) Even if YAMAMOTO Senji was killed, the patriots would not be extinct, and their spirits are active more and more.

6) Japan is now passing through a period just as the same with that of when Senji Yamamoto were killed. The public peace maintenance law is under contemplation for enactment; which will suppress the farmers and patriots aiming at the international imperialism and monopolistic capitalism.

7) The patriots of Japan will, under the leadership of the World Peace Confederation, gather up for the cause of peace of mankind, and fight through until they secure the last victory.

3. KAZAHAYA (C) made a speech as below:

We have revealed the actual situation of the violation of election laws at the by-election in the sixth constituency of Tokyo, and have attacked the policemen's suppression over the people.

It is regrettable that the suppression over the people is being conducted all over the country. However, the laborers who love the peace would never surrender to any whatever suppression, but fight it out to the last victory.

4. The meeting dispersed with above speech by KAZAHAYA (C).
