MEMORANDUM FOR: The Board of Trade (Boeki Cho), Ministry of Commerce and Industry, Tokyo

SUBJECT: Shipping Marks

1. Reference is made to the following shipments made per S/S Skidmore Victory which sailed from Kobe, 18 January 1947, destination - New York:

a.	SCAP Case No. EX 281-2	White Bamboo Poles with Tips	Supplier - D. Nagata
b.	SCAP Case No. EX 282-3	White Bamboo Poles	"

2. Information has been received from the U. S. Commercial Company, Washington, that the majority of the bales of furniture poles and fishing poles with tips were not marked with a bale number, although the shipping documents indicated that each bale was properly marked. This has necessitated sales being consummated per lot sales instead of by individual sizes, resulting in the realization of a lower price.

3. The Board of Trade is advised that specific shipping marks as specified in the validated Form IE 200 must appear on all cases and/or bales as well ason the shipping documents on all shipments for export as contained in Memorandum for the Imperial Japanese Government from General Headquarters, Supreme Commander for the Allied Powers, AG 091.31 (14 Mar 46) ESS/IE (SCAPIN 814), dated 14 March 1946, subject: Export Procedure, paragraph 4.

SUBJECT: Revision in the 1947 1st Quarter Weaving Schedule

1. Pursuant to paragraph 6 of Memorandum from General Headquarters, Supreme Commander for the Allied Powers, AG 334 (3 Apr 46) ESS/IE, (SCAPIN 854), dated 3 April 1946, subject: Board of Trade (Boeki Cho), the Board of Trade is directed to arrange for the revision of the January-March 1947 weaving schedule for export to the extent indicated in paragraph 2.

2. Reference is made to Memorandum from General Headquarters, Supreme Commander for the Allied Powers, 423 (19 Mar 47) ESS/FT, BT-47-180, dated 19 March 1947, and Table 2 attached thereto. Changes in quantities of woven fabric from those originally indicated in the above table are shown below:

a. Striped Drill (No. 2071)

Original quantity planned - 6,284,700 linear yards,
Revised quantity - 6,144,630 linear yards.

This reduction is made necessary because the Textile Bureau had estimated original production on the basis of grey yarns, whereas bleached and dyed yarns are to be used whereby a percentage of the yarn is dissipated in the bleaching process.

b. Towels (No. 2081) 15" x 32"

Original quantity planned - 100,587 dozen,
Revised quantity - 93,946 dozen.

c. Towels (No. 2082) 22" x 44"

Original quantity planned - 109,747 dozen,
Revised quantity - 102,361 dozen.

The above revisions on towels are made necessary by delays in the yarn allocation program and the non-completion of prior scheduled production according to the Textile Bureau.

AUTHORITY FOR DECLASSIFICATION: 5(E) AND 5(D) OR (E) NNOO # 779012

e. Blankets (No. 2084)
