No. 3 性病

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

1	3 Mar 50	Dr. Edelman, KCAR, PH	Lt. Col. Shellenburger SCAP, CA Sec.	In connection with an inspection trip of Health Centers in Shizuoka Prefecture, the following complaint has come to our attention through the Shizuoka PHD and the Numazu Health Center of Shizuoka Prefecture: 1. That a BCG immunization program, involving 27,114 persons of Sunto County, said prefecture, was undertaken from October to December 1949 by NIH. 2. That this program is planned by NIH to proceed from town to town in Shizuoka prefecture. 3. That the Shizuoka PHD and the local Health Centers are desirous of participating and cooperating in this and similar programs. 4. That no notice nor opportunity was given by NIH for such participation. 5. And that Public Health programs would be more effective if carried out jointly. 6. This appears to be an abuse of the theory of local autonomy in our current public health programs which may be paralleled in othe sections.

FOR THE GOVERNOR

I. KAMEYAMA
Chief,
Liaison Office,
Shizuoka Prefecture.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

MONTHLY REPORT of IMMUNIZATION

Name of Prefecture: Shizuoka Month Ending: Jan 31. 1950

		Age Group			Total
		0 - 6	7 - 14	Over 15	
Typhoid Paratyphoid	Booster				
	Series				
Smallpox		2144	2450	25718	34712
Typhus					
Diphtheria					
Whooping Cough					
BCG		89	2151	838	4178

Note: To be submitted to KCAR by 25th of each Month. KCAR PH No. 1a

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

2. Preventive inoculation during November:

Kind of inoculation	No. of the perfectly inoculated persons
Small-pox (phase 1	216
(" 2 & 3	21,426
Typhoid fever (immunized for the first time)	18,322
Paratyphus (additionally immunized)	104,615
Temporary vaccinations	320,250

3. Prevention of T.B.:

Nov. 24: On having received BCG Vaccine, the distribution was made toward the health offices in the eastern part of the prefecture. Inoculation was begun based on the Preventive Inoculation Law.

Nov. 29: Sunto-district was authorized to be a study area for Preventive Sanitation Office as to tuberculin reaction and BCG inoculation of school-children.

4. Prevention of acute infectious diseases:

No case of Epidemic Encephalitis, B Type, was seen after October 11, 1949 owing to various preventive measures taken.

Total number of suspect cases 181

Details: Genuine cases 49
Suspect cases 130
Other disease 2

Nov. 30: For the sake of future thorough inoculation, individual cards to prove the preventive inoculation for this year were made, and each health center was notified to make investigation for the arrangements of the cards.

Vaccine for prevention of eruptive typhus was distributed to health centers. Prevention and watch are under way.

G. Hygienic Engineering.

1. House-cleaning and extermination of insects, etc.

a. Every town and village are carrying out an intensive campaign to instruct citizens to conduct a general house cleaning, under the guidance of circumstantial

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775 013

sanitation workers sent to the spots from health centers. The campaign was started last month, and will be continued for this month.

b. The model areas designated as of circumstantial sanitation began to make a drive for extermination of lice from the heads of school girls, and is bringing a very good result up to present.
