The appeal is summarized as follows:

The applicant who had been a registered seller according to the Regulation for Distribution of Designated Imported Daily Necessities (hereinafter referred to as the Old Regulation) made an application to the Minister of International Trade and Industry for re-registration as provided in the Regulation for Distribution of Designated Daily Necessities promulgated on February 24, 1951 (hereinafter referred to as the Regulation). The application was rejected on July 10, 1951, but the applicant is not satisfied with the government action because the company meets the qualifications provided in each item of Article 5 paragraph 1 of the Regulation.

On the other hand the Ministry of International Trade and Industry rejected the application for the following reasons:

The applicant declared, on the application, the kind of goods to be handled to be precious metals, time-piece, woollen fabric, nylon, etc. but these articles are being handled by so many other SPSs as to necessitate no more registered seller.

The investigations and deliberation by the Board revealed that:

Article 5 of the Regulation is to be interpreted as anticipating to register all applicants who submit their applications and were recognized to meet the qualifications provided in the Article. Therefore the reason for rejection on the part of the Ministry of International Trade and Industry is not reasonable. On the other hand the Tokyo Branch of Edward Slutsky Inc. is recognized to meet the qualifications provided in each item of Article 5 paragraph 1 of the Regulation.

Thus the appeal is recognized to be reasonable and therefore, decision is made as aforementioned.
