Headquarters Eighth Army
APO 343

1. Reference is made to Operational Directive No 5/3, dated 22 August 1946 as amended.

2. It has come to the attention of this headquarters that due to a possible misinterpretation of reference above and/or oversight by the former personnel of this headquarters there is some machinery which falls in the borderline of reference directive that has not been properly inventoried.

41-4 ac 1A

3. Following is a list of the machinery with pertinent data concerning each:

a. Two (2) nail making machines located in Shinko Kogyo KK, Hoki Plant, 130 Kaida, Agei-cho, Tohaku-gun, Tottori-ken (Plant Code No 41-4) which were borrowed from the Tottori Prefectural Government in June 1946.

b. One (1) welding machine, located in same plant as in par 3a above (Plant Code No 41-4) which was borrowed from the Kobe Steel Works in 1946 which concern is not on the reparations list.

c. Four (4) water pumps, one (1) air compressor, one (1) rice cleaning machine, one (1) flour milling machine, one (1) induction motor and one (1) boiler located in same plant as in par 3a and b above (Plant Code No 41-4) which are being used for the employees cooking and welfare and were never used for actual war production.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

d. One (1) milling machine and one (1) drilling machine located in the Meiji Machine Mfg Works, 1022 Meiji-machi, Kurayoshi-cho, Tohaku-gun, Tottori-ken, (Plant Code No 41-2) which were made by that factory and installed in June 1946.

e. Two (2) handfed automatic woodworking planers, one (1) circular saw, one (1) saw-tooth setting machine, three (3) 1 HP motors, two (2) 3 HP motors, one (1) 5 HP motor, two (2) 10 HP motors and four (4) hand-saws, woodworking located in the same plant as in par 3d above (Plant Code No 41-2) which were purchased from the Kuroda Manufacturing Co in April and May 1946 and which concern is not on the reparations list.

f. Three (3) milling machiners located at the Kawasaki Machine Mfg Co, Tottori Factory, #1 Furuichi, Tottori City, Tottori-ken (Plant Code No 41-3) which were borrowed from the Kawasaki Rolling Stock Co, Kobe between July and August 1945 and which concern is not on the reparations list.

g. One (1) centrifugal dehydrator, one (1) switchboard, six (6) transformers, two (2) steam boiler, two (2) gear couplers, three (3) electric motors, four (4) steam engines, two (2) steam pumps and two (2) turbine pumps located in same plant as in par 3f above (Plant Code No 41-3) which were transferred from the Gunze Spinning Co in June 1944 but were never used for munitions production as it is not suitable.

h. One (1) woodworking drill (special constructed groover) located at the San'In Industry Co Ltd, Tottori Factory, #1258 Koyama-son, Ketaka-gun, Tottori-ken (Plant Code No 41-1) which was purchased from the Wakita Manufacturing Works, Wakayama City on 1 November 1947 and which concern is not on the reparations list.

4. Request clarification of status and action to be taken regarding the machinery described in par 3 above.

SUBJECT: Application Requesting Permission to Manufacture Iron Frames

TO: Commanding Officer

APO 317

1. Attached as inclosure 1 is an application from the Hoki Plant, of Shinko Kogyo, 130 Kaida-cho, Tohaku-gun, requesting permission to produce iron frames. The above plant submitted application as inclosure 1 20 August 1948 through Japanese channels but no reply has been received. It is thought that this situation should be brought to the attention of higher headquarters.

2. This company which is listed for reparations in SCAPIN 1258 has been manufacturing farming tools and equipment in accordance with their operating permit as shown in the inclosure. However, due to the current tight money situation and a general lack of marketing methods they are experiencing increasing difficulty in selling their product. Therefore, it has been necessary for them to find a more saleable product if they are to continue in business. While this factory is not large by general standards, it is one of the largest in this prefecture and its loss would be keenly felt.

3. It should be noted that the nature of the new product is similar to the products currently being manufactured. Hence no change in the factory set up or its equipment will be necessary. Further a loose interpretation of their present operating permit would cover this new operation. The chief difference being, of course, that this equipment will enable this factory to find an immediate market for their product.

4. Recommend that subject application be approved and the operation permit of this factory be expanded to include the manufacturing of iron frames.

2. In compliance with the provisions of SCAPIN 1355 the HOKI KOJO of Shinko Kogyo K.K., (41-04, Munitions) has submitted a petition to the Japanese Government, requesting authority to enlarge on the number of articles manufactured in the companies plant. No reply to this petition has been received.

3. In view of the local importance of the Hoki Kojo to the economy of Tottori Prefecture, it is recommended that the plant be given authority to engage in the manufacture of iron frames as requested in inclosure 1 to the basic letter.

APPLICATION TO CONVERT OR RECONVERT
A DESIGNATED REPARATIONS
PLANT

To: Mr. Cyozaburo Mizutani
Minister of Commerce and Industry

From: Shinko Kogyo Kabushiki Kaisha
Hoki Plant
Representative: Tokutaro Matsuoka,
Manager
130 Kaida, Agei-cho, Tohaku-gun, Tottori Prefecture.

Date: 20 August 1948

(1) Name of Plant: Shinko Kogyo Kabushiki Kaisha
Hoki Plant

(2) Location of Plant: 130 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

(3) Name of Products Planned:
Construction Materials

Note: We are intending to manufacture "Iron Frame" which is under contemplation of Japanese Government(Board of Coal) to use as construction materials of coal-mine gallery instead of wooden frame. This is a new plan examined by the Japanese Government and Technical Association of Coal-mine.

(4) Experience of the Production Planned:

Until now, we have not manufactured these articles especially, but we are manufacturing similar goods in our present civil production, wheels and farming machines.
Therefore, we believe it is possible to engage this working.

(5) 1939-----1945 Production:

1939----1943 None
This company was established in 1944, therefore no record available.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(6) Period of desired permission:

Intending to engage from Oct. 1948, and this work will be continued until the reparation installation to be removed.

(7) Scale of Production planned by months for period on this application:

	Iron Frame	
Oct. 1948	500	pcs.
Nov. "	1,000	"
Dec. "	1,500	"
Jan. 1949	2,000	"
Feb. "	2,000	"
Mar. "	2,500	"
Apr. and after (every month)	2,500	"

(8) Name or Location to which products are to be delivered:

Chiefly, Kyūshū and Hokkaido coal-mine districts.

(9) Scale of proposed changes in physical facilities:

This working is possible by the use of machines which were authorized by Headquarters for our civil production use, and there is no need of changing equipments or to extend the manufacturing capacity for this plan.

(10) Intended expense for conversion or reconversion:

It is sufficient with the present manufacturing equipments and employees, and we do not need more expenses than present for this working.

(11) Plan and Location to continue the production after reparation removal:

We estimate it is impossible to continue the working practically, if the reparations machinery were removed.

Shinko Kogyo Kabushiki Kaisha

This will serve to inform you that the application of the Hoki Plant of Shinko Kogyo, 130 Kaida-cho, Tohaku-gun, requesting that their operating permit be altered to include the casting and machining of parts for spinning and weaving machines, has been received and considered. However since decision on the matter rests with General Headquarters it has been necessary to forward the application as shown by the letter attached as inclosure 1 to that headquarters.

ATTN: Military Government Section

1. Attached as inclosure 1 is an application from the Hoki Plant, of Shinko Kogyo, 130 Kaida-cho, Tohaku-gun requesting permission to cast and machine parts for spinning and weaving machines. While this headquarters is aware that application of this nature are normally submitted through Japanese channels, it is thought that this situation should be brought to the attention of higher headquarters.

2. This company which is listed for reparations in SCAPIN 1258 has been manufacturing farming tools and equipment in accordance with their operating permit as shown in the inclosure. However, due to the current tight money situation and a general lack of marketing methods they are experiencing increasing difficulty in selling their product. Therefore, it has been necessary for them to find a more saleable product if they are to continue in business. While this factory is not large by general standards, it is one of the largest in this prefecture and its loss would be keenly felt.

3. It should be noted that the nature of the new product is similar to the products currently being manufactured in that both are simple, cast and machined parts

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

for machinery made basically of wood. Hence no change in the factory set up or its equipment will be necessary. Further a loose interpretation of their present operating permit would cover this new operation. The chief difference being, of course, that there is currently a demand and a back log of orders for spinning and weaving equipment which will enable this factory to find an immediate market for their product.

4. Recommend that subject application be approved and the operation permit of this factory be expanded to include the manufacturing of spinning and weaving equipment.

Date: 17 December 1948

(1) Name of Plant: Shinko Kogyo Kabushiki Kaisha
Hoki Plant

(2) Location of Plant: 130 Kaida, Agei-cho, Tohaku-gun,
Tottori Prefecture.

(3) Name of Products Planned:

Parts of Spinning and Weaving Machines 15,000 pcs.
(Per month)

(Spinning Machine---------Middle Link,
Single Scutcher Pedal etc.)
(Weaving Machine----------Weight Fork Lever,
Brake Lever Bracket etc.)

(4) Experience of the Production Planned:

We have not manufactured the above articles in the past, but we believe it is possible to manufacture with our present technic which we had experienced in manufacturing Parts of Agricultural Machines and Wheels since the conversion permitted, dated 8 May 1946. That is, these parts of agricultural machines and wheels were chiefly casting made, and also we are planning to manufacture the above articles by casting, because we have suitable equipment for this production.

(5) 1939---------1945 Production:

(6) Period of desired Permission:

We are planning to engage from January 1949, and this working will be continued until the reparations installation to be removed.

(7) Scale of production planned by months for period on this application:

January 1949----------7,000 pcs.
After every month----------15,000 "

(8) Name or Location to which products are to be delivered:

Shinko Kogyo Kabushiki Kaisha

Ōgaki Plant
(Address: No. 1,700 Motoima-machi, Ōgaki City, Gifu Prefecture.)

(9) Scale of proposed changes in physical facilities:

This working is possible by use of machines which were authorized by the General Headquarters for our civil production. There is no need of changing equipments or to extend the manufacturing capacity for this plan. Please look at enclosed list of machines necessary for manufacturing parts of spinning and weaving machines.

(10) Intended expense for conversion or reconversion:

It is sufficient with the present manufacturing equipments and employees, and we do not need more expenses than present for this working.

(11) Plan and Location to continue the production after reparation removal:

We estimate it is impossible to continue the working if the reparations machinery were removed.

Above being the case, we should feel it very greatful if you would kindly permit of our application.

TOTTORI PREFECTURAL OFFICE

31 August 1948

SUBJECT: Application for Permission to manufacture an Additional New Product.

TO: Minister of Commerce & Industry.

An application is forwarded to you from Tokutaro Matsuoka, Agent responsible for management, Hoki Plant, Shinko Kogyo K. K., No. 130 Kaida, Agei Town, Tohaku-gun, on subject matter as attached to the effect that though the plant, given a reconversion permit on 8 May 1946, has been engaging in the production of agricultural implements and parts of miscellaneous vehicles, the demand for agricultural implements has been fulfilled to such a degree that the plant is necessarily compelled to convert from above products to any other needed more urgently.

Fortunately, the plant is faced with a good opportunity to reconvert and to contribute much to increase the production of coal which is fatal to rehabilitation of industry of our country when "Iron-frame" is taken up by Board of Coal and Coal-Mine Technique Association as construction materials of main mines as substitutes for woodenframe hitherto used in coal-mine and production of a great quantity of it is become necessary.

Above, being fallen under the Order of Commerce & Industry, Education, Agriculture & Forestry, Transportation and Welfare Ministries No. 1, Dated 31 Jan. 1947, is forwarded to you together with my opinion as stated below and other forms necessary.

Thanking you in anticipation of your good offices to get the permission for them.

Governor,
Tottori Prefecture.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(1) Whether or not any other facilities exist that are available as substitute for the designated reparation facility within the jurisdiction of this Office?

Though some facilities other than designated separation facilities exist, they cannot meet any demand due to their poor capacities.

(2) Whether or not facilities other than designated reparation facilities within the jurisdiction of this Office can be extended, reconstructed or repaired for better one in comparatively short period?

Extension or reconstruction of others is impossible due to poor production efficiency now held by them.

(3) Whether or not employement of new worker is required?

Not required.

(4) Other opinions concerning this application.

a) The most essential part in production of iron-frame is to press a iron-board (120 cm in length, 4.5 m/m in thickness) into "U" beam and to weld two "U" beams into a square hollow iron beam.

b) This plant had originally been constructed for pressing.

c) This plant is the only one plant which has a water-press in neibouring prefectures. Besides, owing to the current economic difficulties and others, it is impossible to get new one.

d) The above-mentioned manufacturing process is almost equivalent to the one now followed to manufacture agricultural implement and miscellaneous vehicles for use in coal mines. Thus, from the standpoint of experience in production, it is proper for them to engage in the manufacturing of iron frame.

Such being the case, I hereby beg andrequest you, taking above circumstances into the consideration, will kindly favour us with your good offices to get the permission.
