NEW ORLEANS BEE

J. MAGNE & WEISSE, PROPRIETORS.
NO. 81 CHARTRES STREET.

Official Journal of the State,
AND COUNCIL OF MUNICIPALITY No. 3

NEW-ORLEANS,
WEDNESDAY MORNING, MAY 28, 1845.

LOCOFOCOISM ILLUSTRATED.

Our readers are probably aware that in the Council of the First Municipality parties are equally divided—6 whigs and 6 locofocos—while Recorder GEROIS, (L. L) President ex officio of the Council, holds the balance of power. On all party questions which the locofocos feel desirous of carrying, they possess a small but certain majority.

A rich and racy illustration of the manner in which locofocoism contrives to reward its partisans, in the teeth of propriety, consistency and good faith, occurred quite recently in the above Council. We give it to our readers not because we are personally interested in the matter, but simply to exhibit one of the protean phases in which that motley nondescript y'clept locofocoism delights to exhibit itself.

Some two weeks since the Council of the First Municipality advertised for proposals to do the printing of the corporation for the current year. Two offers were put in at the sitting of Monday the 12th—one from the *Bee*, proposing to accept the contract for the sum of $1,500; the other from the *Courier*, demanding the same salary as that allowed last year, viz: $1,800.—The Council having advertised for proposals, and the *Bee* having made the lowest bid, Alderman BENIT submitted a resolution providing that the Editors of this paper be selected to execute the printing of the municipality. This resolution was put to the vote and *lost*—6 to 6. Every locofoco voting against his own proposition to give the printing to the paper which would do it for the smallest remuneration.

Thereupon the Council adjourned, but the farce was not yet completed. A *denouement* was needed, and was furnished at the subsequent meeting last Monday evening. The Council was full, every member being present. Alderman BENIT offered a resolution proposing to elect the *Bee* printer to the corporation with a salary of $1,500—which sum would include the payment for the publication of the legal advertisements of the Municipality which by law are required to appear in the paper that has made the contract with the State. This offer was made by Mr. BENIT for the purpose of leaving locofocoism without a pretext for the perpetration of injustice. But he reckoned without his host. He did not take into consideration the fact that locofocoism needs neither excuse nor apology for its acts. It is self-poised, self-sustained, incapable of mischief or *error*. The resolution was, of course, defeated by the usual vote—6 to 6, and the contest was soon after terminated by the election of the *Courier*, to do the printing of the Council at a salary of $1,800 per annum.

From all this it is evident that the intention ab *initio* was to make our neighbor printer to the corporation and that the advertising for proposals to take the contract was a miserable farce, without meaning or object. As our offer was $300 lower than that of the *Courier* and was nevertheless rejected, it is palpable enough that had we expressed a willingness to accept the contract for nothing, and give the members an oyster and Champagne supper in the bargain, we would have fared precisely in the same manner.

We do not care the scraping of a copper cent for the contract. Every body knows that even at the highest bid, little or nothing can be gained by it. But we mention the fact, firstly to expose the gross breach of faith which has characterized the conduct of the Council, in first soliciting proposals, and then refusing the contract to the lowest bidder, and bestowing it on the highest; and secondly, with a view to demonstrate to the good people of the First Municipality the mode in which the economical, thrifty and prudent majority willingly expend $300 more than is necessary, of the slender resources of the corporation, for the solitary purpose of rewarding a partisan journal. If the taxable inhabitants of the First Municipality are satisfied, *tout mieux*. We shall not complain.

[COMMUNICATED.]

To the Editor of the New Orleans Bee:

GENTLEMEN.—The Whigs of Louisiana are now preparing themselves for the approaching election to be held under the new Constitution.—A Whig Convention at Baton Rouge, to nominate candidates for Governor, and Lieutenant Governor, has been proposed; and the suggestion has received the entire approbation of the whole party.

Permit me, then, Messrs. Editors, to recommend to the consideration of the Convention, when assembled, to unite their suffrages upon two distinguished individuals whose talents and patriotism are fully known. I mean Judge EUSTIS of East Baton Rouge for the Governor; and JUDGE KING of Opelousas for Lieutenant Governor.

With such names, I venture to say, in advance, that Louisiana would be redeemed, disenthralled and reconquered, and that *locofocoism* would be forever banished from our Gallant State.

A TRUE REPUBLICAN.

WIT IN MISFORTUNE.—An anonymous votary of Thomis, whose rhyming propensity even poverty cannot check, sends us the following effusion:

"A lawyer whom politics has broke down,
Deserves a situation in this town.
To write, to speak, to clerk it or to teach,
Would suit exactly to repair the breach,
Which loose ingratitude has made in pocket.
Write through the P. O. to David Crockett."

THE QUESTION of calling a Convention of the people of New York to amend the State Constitution, seems to excite an interest in that quarter almost as profound as that felt a year or two since by the people of Louisiana in the same subject. The *Courier and Enquirer* is an able opponent of the measure, viewing it as design to overthrow every vestige of Conservatism in the organic law of New York. The *Tribune* per contra, advocates the call of a Convention with the ingenuity which distinguish that journal. Thus it is seen that the ship of state is divided on the subject, though it is probable a majority are in favor of a Convention. The locofocos, whose progressive creed accommodates itself with marvellous elasticity to every change and consideration will doubtless go for it as usual. We therefore hazard little in predicting that a majority of the voters of New York will sustain the call, and the Constitution of that State will be completely remodelled.

THE EXAMINERS appointed to decide upon the rival claims of the scales of the Post Office Department have given judgement in favor of the scales offered by Messrs Holland & Davis, of Boston. This scale is not of new invention, but was used by the ancient Romans. It is the common steel yard, fixed upon a platform. The advantage of it is that it combines sensitiveness with celerity of operation. The larger offices are to be supplied with these scales at $1 50 each; the smaller offices are to be supplied in some cheaper mode.

☞ It appears that *Peytona* and *Fashion* will encounter each other once more. The contest is fixed for the 30th, over the Camden Course, and as the track will be less dusty and crowded than that of Long Island, both horses will probably make better time, and the finest sport may be anticipated. Our private opinion is that it will be a terribly close race. *Eashion* is said to be in the primest possible order, and her rider burning with ambition to retrieve his laurels.

A COW WITH THREE CALVES.—We saw yesterday says the Augusta (Ga.) *Sentinel*, on the farm of N. B. Moore, near this city, the novel spectacle of a cow with three calves. The calves are about three days old, and though small, evinced remarkable sprightliness. We have often heard of cows dropping two calves, but this is the first instance of three that we have ever heard.

AN APPAIR OF HONOR took place in Illinois, opposite St. Louis, on the 20th inst. The parties met and fought with pistols, the challenging party wounding his antagonist very slightly in the lower part of the abdomen. The challenged party fired in the air, and there the affair ended. The names of the combatants have not transpired.

INDIANA CONGRESSIONAL CANVASS.—The canvass in Indiana has commenced. In the First District, Robert Dale Owen (Loco) and Geo. B. Thompson are the candidates. In the Second District, Roger Martin, (Whig) and Thomas J. Henley (Loco) are candidates. In the Fourth District, Caleb B. Smith is the Whig candidate without opposition. In the fifth district, W. Wick is the Locofo candidate without opposition. In the Ninth District, Samuel C. Sample (Whig) and Charles Cathcart (Loco) are candidates. In the Tenth District,—Dr. Lewis G. Thompson (Whig) and Andrew Kennedy are candidates.

The Baton Rouge *Gazette* of last Saturday says:—On the 5th instant, a hard working and industrious farmer of this parish named Wm. Long was found lying on the road near the Comite, insensible, he, however recovered in a short time. We understand that he has made affidavit that on said day he had started from home with $300 to pay a note at the bank; and that he had been struck down and left senseless by one of his neighbors, Thos. Morrison, whose company he had joined on the road, and that the latter had rifled him of every cent in his possession.

Gen'l. Dawson.—We are pleased to learn from the Bayou Sara *Ledger*, that Gen'l. Dawson's health is so far re-established as to render his final recovery no longer doubtful.

☞ The Baltimore *American* of the 20th says:—One of our oldest citizens, RICHARD CATON, Esq., departed this life yesterday morning, after a very brief illness, in the 83 year of his age. Mr. Caton was the son-in law of the late Charles Carroll of Carrollton.

☞ We have been requested to give notice that Gen'l SAM. HOUSTON, Esq., President of Texas, will address a public meeting at 8 o'clock this evening, at Banks' Arcade, on several important subjects, and by special request on that of annexation.

☞ The Point Coupée *Tribune*, states that the recent rains have compelled the planters to neglect their crops and that consequently the grass has grown up around them in rank luxuriance, cumbering greatly both the corn and cotton.

SLAVERY IN NEW JERSEY.—A rule has been granted at this term, requiring John A. Post, of Passaic county, to show cause on Tuesday next, why an attachment should not issued against him for disobeying a writ of habeas corpus issued on his behalf, which was directed to him to bring William, a colored man in his custody, before the Supreme Court, on the first day of the present term, to abide the decision of the Court, granted at this term, directed to Edward Van Buren, of Bergen county, requiring him to bring up the body of Mary Cooper, a colored woman. The Rule was made absolute on Tuesday next, at 10 A. M. The object in these two cases is to establish the position that under the new constitution there can be no slavery in New Jersey.—*Trenton State Gazette, May 16.*

☞ We copy the following from the St. Louis New Era of the 21st.

JOHN C. LESTER was arrested in Lafayette Co., Mo., on the 10th of May, on the charge of killing his mother, his brother in law, King S. Scott, about two years ago; whilst in custody he broke and tried to escape, but in so doing he was shot twice, and cut with a Bowie knife by the Sheriff and his aids and posse. His wounds are severe, but not supposed to be fatal. The bones of Scott, without a head, were found on Lester's farm.

ACCIDENT.—Yesterday about 2 o'clock, as Thomas Ruth and John Lermand were engaged in putting a gutter in the house on 13th, between Magazine and Gary sts., their scaffolding gave way, and Ruth fell to the ground and was seriously injured, his skull being fractured so as to leave little hope of his recovery. Lermand caught hold of the house frame in his descent, saved himself from the ground, and was not injured. Ruth was carried home and thus remained suspended until a ladder was brought to his aid! Ruth is an apprentice to Mr. Butterworth, Tanner, and only some 18 years of age.—*Richmond Compiler.*

CHARLESTON, MAY 22d.

ATTEMPT TO EVADE THE REVENUE LAW AT KEY WEST.

From a gentleman, just arrived from the above place, we learn that the *American* schooner *Gleaner*, Captain Rogers, had arrived there with a cargo of 300 barrels Flour, undoubtedly intended for Havana, a Spanish schooner, who for several days had been in the neighbourhood of the place also disappeared. The Revenue Cutter *Legare*, Capt. Day, followed, and on the 16th inst., fell in with them, the *Gleaner* having already transferred 100 barrels Flour on board the Spanish schooner. Both vessels were brought into Key West by the *Legare*—the *Gleaner* fined by the Collector of Key West with $50, and the Spanish schooner with $500, besides the usual port and other charges.—*Mercury.*

COMMERCIAL.

NEW-ORLEANS, TUESDAY NIGHT, MAY 27, 1845.

HEAVY VERDICT.—Mrs Eliza Letitia Yeates, of Lancaster, Pa., has recovered from the administrators of John Yeates, Esq., her deceased husband, a verdict of $20,000 damages and 6 cents costs, for the non performance of a marriage contract, entered into between wife and husband, by which the latter contracted to settle upon the former the sum of $20,000 in case she survived him, which has been now given.

Considerable quantity of Western produce, it will be seen, were destroyed in the warehouses, and but few Eastern goods; as the sequestrum was to be in use in a few days, large quantities of goods had been brought to this side and were saved Some of the loss had their spacious warehouses on the Pittsburgh side filled with goods—had the fire occurred two or three weeks ago the loss would have been half a million of dollars.

The warehouses destroyed were merely temporary structures, and would not have been used after the season, as all the lines have fine bricks on this side of the river.

The "Safes" again proved worthless, most of those in the fire appeared like furnaces when opened the next morning. Some of them too much removed from the burning buildings alone remained uninjured.

Large quantities of merchandise arrived by canal last evening, the fire was raging hourly; hold come a few hours before not a dollar's worth would have been saved.

The following Transportation lines were not touched by the fire, viz:—D. Leech & Co. Western Transportation line; Clark & Thaw's Pennsylvania and Ohio Line; Tate & O'Connor's Pittsburgh Line. Mr C A McAnulty lost nothing but his office furniture.

FATAL EFFECTS OF PASSION.—Information was received by the reporter, this afternoon, that a young female, named Rooney, the daughter of Mr. Rooney, grocer, of No. — Leonard street, died this morning, at 8 o'clock, in the City Hospital, from the effects of laudanum, self administered. The reporter was informed that yesterday the deceased, who was about twenty four years of age, and was just on the point of being married, had a quarrel with her intended husband, in the usual pouting of ill-humor—and immediately after the deceased went into Doctor Sickles' and enquired how much laudanum was a dose for a child, and bore away with her a phial of the same, which it would take to kill a person. She actually bought two shillings worth and took it home, but her mother took it from her. She afterwards, at another drug store, bought sixpence worth, which it is supposed she took. It was soon ascertained by the family that she was laboring under the effects of laudanum, and medical assistance was called in, and she was decided to send her to the Hospital. She was accordingly taken there, but died at 8 o'clock in the morning, as before stated. It is supposed that she took the laudanum, intending to frighten her betrothed husband but the dose proving too powerful, she died.—The Coroner will hold an inquest to morrow. *N. Y. Herald.*

CORRECTED.

NEW-ORLEANS, TUESDAY NIGHT, MAY 27, 1845.

With the exception of Cotton and Tobacco, in which the transactions have been to a fair extent, the market has during the past few days exhibited great apathy and dullness. This was in a certain degree only apparent in Western Produce, every description of which continues in very limited request at depressed prices.

The *Britannia* Steamer, with dates from Liverpool to the 4th instant, is now due, and we may look for her accounts to morrow.

The weather since our last has been pleasant, and we have had refreshing showers of rain every day.

COTTON—Arrived since the 23d instant of Louisiana and Mississippi 1,623 bales; Tennessee and North Alabama 623; Texas 867—together, 7,856 bales. Cleared in the same time for Liverpool 4,040 bales; Glasgow 1,242; Havre 900; Havana 427—together, 6,609 bales; making a total on hand and on board of 741 bales and 1,247 bales less than of all on shipboard not cleared this day, a stock of 100,994 bales.

We left the Cotton market on Friday evening last with a fair business doing at steady prices. Since then a good demand has prevailed, the sales on Saturday having reached 3,000 bales, yesterday 3,000, and to-day 1,800, of which the greater portion was taken for England and the Continent of Europe. Prices have exhibited great firmness, especially for cotton of good staple, which is very scarce and for which we have been obliged to advance from ⅛ to ¼ cent ₩ lb. Low cotton has not been in demand to any extent, embracing about 1,500 bales, whose only change is prices The demand is confined chiefly to bright leafy parcels, which meet with ready sale, whilst other qualities are somewhat neglected. Most of this business has been done for the North of Europe, and we quote Inferior 1⅛@1¼; Common 5¼@6¼; Fair 6¼@7¼; Fine 6¾@8; Choice and Selections 8¼@9¼; Sugar leaf 9¼@10 cents ₩ lb.
