DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

BASIC: Ltr, Hq Camp Kokura, APO 3, 602 RPE, subj: Release of Oshima Fuel Storage, Hiroshima Ex-Army Ordnance Supply Depot (Agensho-cho), 18 May 1951

CCAR 602 1st Ind D/HCK/js

Hq Chugoku Civil Affairs Region, APO 182, 30 May 1951

TO: Commanding Officer, Camp Kokura, APO 3

1. In general, no objection is interposed to the release of real property and buildings of former military installations listed for reparations, provided that all reparations equipment within the area is removed and stored in the area remaining under custody.

2. Permission for expenditure of Japanese Government funds necessary for movement and/or consolidation of reparations equipment must be obtained by the competent Japanese agency from CPC, SCAP. However, no limitation exists with respect to private funds.

3. Paragraph 1 above applies only to partial releases. If entire area is to be released and reparations equipment concentrated in some other area under custody for reparations, permission from CPC, SCAP is required.

4. In the event that movement of reparations equipment would result in its destruction, or disassembly is of such a nature as to require detailed blue prints for reassembly, permission is also required from CPC, SCAP.

5. Due to the overall reduction in personnel of Civil Affairs and other SCAP sections, the policy outlined herein is subject to immediate change.

6. It is suggested that your headquarters obtain through your channels, future operating procedure as Civil Affairs field teams are no longer available to assist in reparations matters.

SUBJECT: Notification of Visitor - Mr Boyd N Larson, DAC, GS-14

TO : SUPREME COMMANDER FOR THE ALLIED POWERS
Attention: Chief Civil Affairs Section (Economics)
APO 500

1. References:

a. Letter of notification of visitor, from ESS, SCAP, 27 April 1951, concerning Mr Boyd N Larson.

b. Telephone conversation, Mr R S Link, Economics Division, Civil Affairs Section and Mr H C Keisel, this headquarters, concerning above subject, 5 May 1951.

2. The visitors notification, reference 1 a, indicated official business for the purpose of inspecting agricultural cooperative credit federations, agriculture experiment stations and new land reclamation projects. A request was also contained in the notification for billets, rations and local transportation when available.

3. A sedan was dispatched to the Hiroshima Railway Station and necessary arrangements for billeting were made in Kure.

4. It was disclosed upon Mr and Mrs Larson's arrival that there were no requirements for transportation, which was promptly dismissed by Mr Larson, or for rations and billets.

5. The inclosed schedule followed by Mr Larson which was submitted by the Hiroshima Prefectural Government is forwarded pursuant to reference 1 b.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO.

BASIC: Ltr, Hq 6160th Air Base Wing, APO 929, AIO 611, subj: "Repair of Prefecture Road," 13 April 1951

CCAR 611 1st Ind D/HCK/js

Hq Chugoku Civil Affairs Region, APO 182, 28 April 1951

TO: Commanding Officer, Headquarters 6160th Air Base Wing, APO 929

1. Pursuant to request contained in basic communication this headquarters contacted the Shimane Prefectural Civil Engineering Section and discussed repairs to road connecting Uni-town and the Shicherui tunnel.

2. It was disclosed that the Prefectural Government has included this road in their JFY 1951 road repair program. The amount of 450,000 yen has been allocated for this purpose of which two-thirds will be appropriated from prefectural funds and one-third by the Central Government.

3. The Prefectural Government has approved this allocation of funds and forwarded entire plan for Central Government approval which officials state should be forthcoming in the near future. Upon this approval, funds can be made available on or about 1 June 1951.

4. The 450,000 yen budget appropriation is only adequate for overall "C" type road surfacing without "E" and "D" type ditches and catch basins.

5. In order to accomplish the complete repair in accordance with specifications attached as inclosures 1 through 6 to basic communication it will require a total of 1,300,000 yen which includes payment for materials and 1,500 man days of labor.

6. Under present SCAP policy, road repairs required by Occupation Forces which are not within the Japanese Government road program must be accomplished at the expense of the Occupation Forces.

7. The existing deficit of 850,000 yen required to accomplish repairs in accordance with your specifications can be defrayed by using Occupation Force labor and equipment plus use of a procurement demand or direct contract.

8. In the event further action is to be taken by your headquarters it is suggested that through your channels required SCAP approval be obtained for this project.

9. This headquarters has taken all action within current directives concerning this matter. If further assistance or explanation is required it will be supplied upon request.

SUBJECT: Repair of Prefecture Road

TO: Commanding Officer
Chugoku Civil Affairs Region
APO 182

1. Inclosed are a set of plans for the suggested repair of the prefecture road between Uni-town and Shicherui tunnel. Since the recent activation of an installation in this area the subject road has had a considerable increase of traffic thereby causing it to become almost impassable.

2. Request the prefectural government complete the suggested repairs as soon as possible as the subject road is a prime factor in the operation of Takao Yama Off-Base Installation. Further request this headquarters be notified of the action taken and of repair schedules.

MEMORANDUM FOR: Chugoku Liaison and Coordination Office

SUBJECT: Recurring Economic Reports

1. Reference is Memorandum for Chugoku Liaison and Coordination Office from this headquarters, subject: "Recurring Reports," 12 December 1949, as amended.

2. The requirements for reports on economic activities established by reference memorandum and all other recurring reports currently being submitted based on previous verbal requests are hereby discontinued.

3. Further requirements for monthly recurring reports from Prefectural Governments are cited in attached report forms, Inclosures 1 through 6.

4. This headquarters may from time to time request special reports on specific situations, however, Japanese Government agencies are encouraged to contact this headquarters on any matter which they deem appropriate.

5. It is requested that all concerned be notified of this change of requirements and informed that recurring economic reports other than those specified on inclosed forms are no longer desired.

SUBJECT: Partial Release of Real Estate - JPNR 3140

TO : General Officer Commanding
British Commonwealth Occupation Force
Kure, Honshu, Japan

1. The city of Kure is currently widening streets as a part of the city planning program.

2. To accomplish the widening of Imanishi-dori from 3-chome to 12-chome, it will require a change in boundary of the Chugoku Civil Affairs Region Detachment Area which is held under Procurement Demand JPNR-3140.

3. The city of Kure has agreed to defray all cost incidental to: (1) relocating fence lines, (2) movement and relocation of installed facilities and (3) accomplish necessary landscaping. Their statement concerning this matter is attached as Incl 3.

4. This headquarters has reviewed the requirements of Kure City for part of the land held on Procurement Demand JPNR-3140 and will release land area consisting of 1,766.52 sq ft indicated by cross-hatched lines on Incl 2.

5. It is requested that inclosed JLC Form 85 be processed to effect release of land area cited in paragraph 3 above.

SUBJECT: Film Report

TO : SUPREME COMMANDER FOR THE ALLIED POWERS
Attention: Chief, Civil Affairs Section (Economics)
APO 500

1. The United States Bureau of Mine films, "Safe Timbering Practices" and "Safety Course for Coal Miners" were shown to coal mine safety representatives on the dates indicated. All film showings were in Yamaguchi Prefecture.

a. Ube area, 6 February - Two showings were seen by 500 representatives of Ube Industrial Company coal mines.

b. Funaki area, 7 February - two showings were seen by 100 representatives of mines in this district.

c. Habu area, 8 February - Two hundred safety representatives saw the film.

d. Omine area, 9 February - Two showings were seen by 250 safety representatives of anthracite mines.

e. Ube Coal Office, 10 February - A special showing was held for 30 government officials concerned with the mine safety program.

2. The films undoubtedly made an important contribution to the Coal Mine Safety Program in this region. Safety representatives viewing the films were especially impressed with "Safety Course for Coal Miners". They felt that some portions of "Safety Timbering Practices" could not be applied directly in Japan due to the large timbers used and the size of the seams mined.

SUBJECT: Procurement of Housing Facilities

TO : General Officer Commanding
British Commonwealth Occupation Forces
Kure, Honshu, Japan

1. It is requested that action be initiated by your headquarters to procure housing facilities for personnel of this headquarters on duty with National Police Reserve Camp Fukuyama, Fukuyama City, Hiroshima Prefecture.

2. A survey has been made by this headquarters of the property available for the use by US advisory personnel and the property owned by Mr Wasuke Anbe was found to be the only one suitable with respect to facilities and location, although the owner desires to retain a portion of the building as stated in Annex a, Inclosure 1 and indicated on plot plan (Annex b, Inclosure 1).

3. The property, located at 36 and 37-5, Matsuyama-cho, Fukuyama City, Hiroshima Prefecture, was formerly on Procurement Demand JPNR 580 and was used by the British Commonwealth Occupation Forces as dependent housing, but was released on 4 November 1949.

4. At present, two officers and two enlisted men on duty with NPR Camp Fukuyama are quartered at the Camp.

5. Under the present SCAP policy, US advisory personnel are not authorized to billet at NPR camps.

6. There are no US military installations in the area to billet those advisory personnel.

7. It is requested that the Procurement Requirement (JLC Form 76) be processed as expeditiously as possible in order that this headquarters can comply with present policy cited in paragraph 5 above.

Chugoku Civil Affairs Region
Kure, Honshu, Japan

21 February 1951

Mr Shinsuke Kishi
Chairman, Board of Directors
Toyo Pulp Company, Ltd.

Dear Mr Kishi,

I am in receipt of your announcement of a celebration to commemorate the establishment of a new pulp manufacturing plant in Kure City.

I regret that I am unable to attend but would like to take this opportunity to express my best wishes for a successful future operation.

As you are well aware, Kure City during the post-war period, has been confronted with many challenging problems resulting from the necessity of complete conversion of a former naval base to a peaceful democratic community.

This conversion has been slow but impressive with respect to its persistency. Most indicative of local progress is the establishment of new industrial facilities, such as that being undertaken by the Toyo Pulp Company.

Yours very truly,

William M Keane
Colonel
Chief, Chugoku Civil Affairs Region

Prepared by Mr Keirl per Chief's request.
Forwarded to Mr Kishi with Japanese translation 23 Feb '51.

COPY

HIROSHIMA PRECISION MACHINE WORKS,

WEST JAPAN HEAVY-INDUSTRIES, LTD.

12 January 1951

To : Commanding Officer,
Chugoku Civil Affairs Region.

Subject : Report on the search for the lost designated reparations motor.

Dear Sir :

We hereby report the progress in the search for the stolen motor from the 6th to the 11th of January.

Jan. 6 From 10:00 a.m. the search for the stolen motor was made of the dormitory, shrine and the nearby woods.
In the afternoon second hand goods shops of Gion-machi was inquired.

7 Investigated according to information but no trace has been found.

8 Investigated the home of Hisato Yokoyama, 3-chome, Misasa-honmachi, Hiroshima (dealer of second hand machines and motors and a former employee at our plant) but the lost motor was not found. The majority of motor dealers in the city was also checked but no clue could be obtained.
Several delinquent characters in the dormitory and the employees' houses were further questioned but nothing definite could be obtained.

9 Requested the Asa District Police Station to keep a close check on all the second hand goods dealers and the conduct of Koreans in Furuichi-machi and Gion-machi.

10 A Korean, by the name of Daisuke Kitajima of Gion-machi, returned to his former domicile near our plant in November 1950 after serving prison terms. At present, he is without a definite occupation and his conduct is suspicious to us; so we have informed the Asa District Police Station to keep a close watch on him.

Incl 1
