File S-2-Y

Progress summary (Nov'49 - I3 June'50) of the true state of affairs in reference : Application for a Loan by the Tamaeura Coop to the M. A. F. Central Bank Yamaguchi Agency.

I. In the month of November '49 the M. A. F. Central Bank Yamaguchi Agency, said they will consider a Loan for equipment fund of ¥I,500,000, Business Working Capital of ¥I,500,000, the totol amount of ¥3,000,000. They suggestted that we submit an application for Loan with a Specification and a plan for the equipment. Thus the Coop requested a Construction Company, to draw the plan. The Coop submitted an application with the above-mentioned papers.

2. The above-mentioned papers were submitted in December but we were requested to take them back home as a Loan could not be made for Equipment funds.
On the date of 6 January '50 we submitted the Trail Balance and other completed documents.

3. On the I8 January to perfect the papers Mr, Takasu (auditor of the Coop) came and we made up a explaination form in reference the Business working Capital Loan which we submitted.
But this time the M. A. F. Central Bank Yamaguchi Agency, stated that a big Loan problem of Hagi Fisheries Association required settlement first. If the problem of the Coop taking on some of the liabilities of the Fishery Association, to the M.A. F. Central Bank Yamaguchi Agency, is not definetely settled, a loan could not be made inspite of the above-mentioned papers & explainations.

4. So at the end of Janurary, Hagi Fishery Association President, Hagi Assets Transaction Committee Chief, President of the Coop concerned made out a Confirmation form for the responsible sum and submitted it. We were told that this settled the problem and that the Coop Chief will not be required to come personally but to send a messenger instead. On top of this we recieved a lecture on provident.

5. At the end of February, we sent a messenger with the following documents; Deed of contract for Loan, Extract of Coop Register Book and Certificate of a Seal Impresseion, but was refused a Loan on the grounds that there are rumours of unhoneest staffs and also misunderstandings amoung the Directors.
Next day the Coop President and Mr. Takasu, went to the M. A. F. Central Yamaguchi Agency to explain the real state or affairs of the rumour and were told that until they have seen the Account Books they are unable to give a Loan.

6. About the first of April, the adjustment to the Account Book were finished and the M. A. F. Central Yamaguchi Agency upon inspection were satisfied. They then said that before they can give up the Loan they required the approval of the Main Office.of M. A. F. Central Bank. That they expect an answer by the end of April. Thus we waited till the end of April. On top of this we were requested for immovable property as Security.

7. The approval which was expected in the end of April arrived by telegram near the end of May. On receiving this message from the M. A. F. Central Yamaguchi Agency, we newly adjusted the documents and submitted them but were told that they can not give us the Loans without the guarantee of the Yamaguchi Prefecture Fisheries Cooperatives Association. ?

8. On the I3th of June Mr. Takasu went with the Guarantee Document of the Yamaguchi Prefecture Fisheries Federation and was told by Mr. Tsuchiya (Chief of Bank) that there was rumours that: the

Application for a Loan by the Tameura Coop (cont)

The reason for the unsettlement of the Hagi Fisheries Association Assets Transaction Plan is because the Coop, did not attend the final decisive meeting and disapproved of the plan without giving their reasons.

Until the forecast of the Assets Transaction is made we can not give a Loan.

So Mr. Takasu asked the following question, after explaining the situation,

"Do you know the contents of the Assets Transaction Plan?"

Answer: " No, it's none of my Business, so I don't know"

Then Mr. Takasu explained the reasons and also told him that at the moment for the Coop to take on part of the assets liabilities of the plan, it means that it will weaken the Coops Assets content of the present and lessen the strength of security for the Loan. So please give us the Loan today.

The answer was that they were sorry for Mr. Takasu, who had come there as a representative but until the forecast of Hagi Fisheries Association Assets Transaction is made they could not give a loan.

Mr. Takasu asked " What are the confirmation Documents for"

The reply was that it only confirmed the Tamaeura Coop's responsibility and until the others responsibilities is made definite we can not give a Loan.

Mr. Takasu, suggested that just as long as the totol amount that the Tamaeura Coop is definite, isn't it alright?

To this they replied, " No, we will not give a loan until a forecast is settled on the general transaction.

Dick:

Mr Yamane, Tomaeura Fish. Co-op. Yamaguchi. reports that:

Ogori Branch, Agri + Forestry Bank refuses to loan ¥700,000.

He claims Yamaguchi Pref. Federation, Fish Co-op has underwritten.

My Kind suggest that you include in your schedule. Blytd #2 July, a conference with Ogori people and find out their side of the story. Then, see Mr Yamane, if you deem necessary.

There seems to be something fishy behind his story — from his attitude etc.

Attached is his report for your information.

NATIONAL RURAL POLICE

CP&S No. 485 7 September 1949

Our ref : CP&S No. 759 "Institution of Fisheries Co-operative Associations" dated 21 June 1949.

TO : Commanding Officer
Yamaguchi Civil Affairs Team

SUBJECT : Institution under Progress of Fisheries Co-operative Associations.

1. Preparation for dissolution of former fishermen's associations:

The fishermen's organizations are ordained by law to have been dissolved by October 14. They held general assembly meetings for dissolution one after another since March this year.
A hundred and eleven associations have been almost dissolved but there are four which still remain undissolved as of the end of August.
One of them is a coastal fishery guild and four are river fishery ones. As river fishery is of a very wide range, their meetings are not enough attended to make a quorum and hold a general assembly.

2. Preparation for institution of co-operative associations:-

Institution of co-operative associations was and is being more or less disturbed at some places by activity of the Japan Communist Party, but have been under smooth progress in general.
At or before the time of elections of the staff Communists made such propagandas as: " The leaders of fisheries association live on the taxes offered by the people by means of their hard labor and in this point are not in the least different from State ministers. Now we laborers must get back the association in our hands."
"We know the facts that some officers and members of former fishermen's associations misappropriated some goods. We accuse them when the election is over. The danger of a second Taira Case lies with what steps the police will take then." They are trying to succeed to be elected officers of new co-operative associations, but their attempts were little realized.
Their activities do not deserve particular attention at present, while co-operative associations are being smoothly instituted.

For the police troop commander,

M. Komaki
