MANUFACTURING AND INDUSTRY FILE 45-1 Sec. II

3. List of designated reparation machinery and equipment to be moved and used.

   Punching and Shearing Machine..... 2 units
   Shearing Machine..... 1 units
   (As to detail see attached table)

4. Necessity for movement and use of machinery and equipment.

   a. Mainly work of Applicant.

   Up to present day, we have especially manufactured minning machinery, parts of railway vehicle and some kinds of secondary metal--forming.
   However, recently we have accepted continuously large orders from several companies which are standing on important points of Japanese Industry.
   To take consideration of such favourable circumstances we are entertaining a new plan as regards to extent the production and to augment the equipment.
   Thus, we are now making a contribution to the reconstruction of Japanese Industry.
   We have two plants at Kudamatsushi, one branchshop in Osakashi, 40 workmen, 30 units of several machinetools (Leathes, Presses Etc.), 53 HP of total electric-motor-power, and 500,000 yens as the capital.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Kinds of business

Manufactures	Monthly ability of production	Monthly amaunt of orders	Mainly orderers
Repair of machinery.	¥	¥	
Minning and oredressing Machine.	350,000	350,000	Hitachi Seisaku sho.
Parts of Railway-Vehicle			Nihon Kogyo Co.,Ltd.

As for supplying of washers and cutted iron plates, we are giving much annoyance to orderers, on account of insufficiency of manufacturing--ability.
Then we feel a strong nescesity about the augment of equipment and progress of production.

b. Advantageous use of the reparation designated machineries.

Punching machines (2 units) to be use for prepare of washers, shearing machine for cutted--iron--plates.
As mention above, we have only poor equipment and some of our machine tools are weared, and more our shearing machine can not cut the plate of big size.
As such in most difficult condition, we desire to get the grant for the application for movement and use of the designated reparation machinery.

c. For all our efforts to buy above described machine tools at neighbour markets, we could get nothing till nowadays.

APPLICATION FOR AUTHORIZED REMOVAL AND
USE OF DESIGNATED REPARATIONS MACHINERY AND EQUIPMENT

June 21, 1950

TO : Ministry of International Trade and Industry.

FROM : Kanezaki Iron Works
Address: No. 1865, Senzaki Town, Otsu County,
Yamaguchi Prefecture.

1) Name (Code No.) and location of the plant which intends to use designated reparations machinery and equipment.

Kanezaki Iron Works (not designated)
No. 1865, Senzaki Town, Otsu County, Yamaguchi Pref.

2) Name (Code No. Category) and location of the plant where designated reparations machinery and equipment to be used actually exist.

No. 217, Shimo-unorei, Yamaguchi City, Yamaguchi Pref.

3) List of designated reparations machinery and equipment to be moved and used.

Lathe ---------- 2
Welding Machine ------- 1
(See the attached list)

4) Reason for authorized removal and use of reparations machinery and equipment.

Situated on the Japan Sea coast of Yamaguchi Prefecture, the town of Senzaki is the most important fishing harbour, second to Shimonoseki City, so that many fishing boats go in and out of the harbour. In consequence the repairs of their machinery have increased by leaps and bounds, but a limited number of repairing factories in the town is causing no small inconvenience to the fishermen as well as to the local marine production. Our factory was reopened with such facilities as existed in 1934. But both the recent increase of fishing motorboats and the successful development of deep sea fishery make us, poorly equipped with our old facilities, entirely unable to meet their demand for urgent repairs. Therefore we intend in good earnest to extend and strengthen our facilities

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

so that the efficiency of our factory be improved for the purpose of enhancing the welfare of fishermen.

The existing facilities of our factory and our plan of future output are as follows;

A. Machinery in use at our factory and the output at present:

1. Lathes: 1 lathe 14', 1 lathe 10' and 1 lathe 8'.

   1 drilling machine and 1 shaper.

   5 employees.

2. Yearly output:

   Repairs of internal combustion engines (motor power) of 80 fishing boats.

   Manufacture of 3 motors 12 h.p. each.

B. Our plan of yearly output in future.

Repairs of internal combustion engines of 120 fishing boats.

Manufacture of 5 motors 12 h.p. each.

Why these lathes are in crying need:

The 8' lathe now in use has been worn out so badly since the war that it must be replaced by another by all means. One 6' lathe is also badly needed to turn out smaller parts of machinery.

With the development of inshore fishery into ocean fishery, the number of motored fishing boats has shown a stricking increase accompanied by the corresponding increase of repairs. In consequence, not only our existing facilities can by no means meet such demand, but also there exist no factories in posession of facilities necessary for repair works. In addition, it is very difficult to obtain machines in this district, though we earnestly want to contribute to the promotion of marine production

4) Necessity for movement and use of machinery and equipment.

We have been endeavoring day after day to increase output of pulp both for rayon and paper. But today due to lack of adequate packing press for packing products and some of machine-tools, we are at a great loss in increasing output of pulp and are urgently necessitated to supply them.

The packing press which we are now using is 250 ton press. But It is quite out of efficiency because of lack of pressure. Moreover, as another pulp machine was set of late, our output increased from 2000 ton to 3000 ton a month, getting inconvenience more in packing products. In case when we purchase these machines newly, it will take four months and cost some 3,000,000 yen, and we have little convenience in time and money to do so.

To say on machine-tools, as our mill was rehabilitated after the end of the war, and accordingly machine-tools were poorly equipped, we have always been driven by repairing production machinery and equipment. So we want them to be equipped at once.

In order to equip them, it is very fortunate for us to

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

hear that packing press is under custody of Ebetsu Plant of Ohji Kokuki K.K., while machine-tools are under custody of Tachiarai Kogyo K.K. nearby, both not being used since the end of the war at all.

Hereupon, according to these reasons, we earnestly desire to move them to our plant upon your kind permission and aid rehabilitation of peace industry in this country.

Yours sincerely,

Subject: Application for Release of Reparation Equipments from Authorized Use

Sir;

I beg to submit an application on the subject matter as follow:

(1) Code No. 45-1-192
Name of Machine Compressor

45-1
II

Two Compressors permitted to be used for civil products truck-bodies, etc., however, one of them got needless as result that we recently improved the process of work.

(2) Code No. 45-1-261
Name of Machine Transformer (5K.V.A.)

The above Transformer resulted in uselessness owing to circumstanced that we changed power wiring to save electric power.

I Shall be very much obliged if you kindly give me your permission for this application

Yours respectfully
