Table showing Conditions in the Jurisdiction
of Suginami Police Station
June 10, 1949

1. Police Affairs Section (June 1, 1949)

a) Area of the district : 1048 sq. kilometres.

dwelling area : 78%
farm, forests,
& others : 22%

House-holders: 35,661

Population : 130,646
male : 66,320
Female: 66,320

130 per sq. kilometre.

Foreigners: Europeans: 104 Chinese: 95 Formosans: 462

Total : 1,552

Koreans: 891

No. of houses: Ordinary house: 15,327
Newly built house: 1,726
Total: 18,255 Barracks: 868
Trench house: 20
Apartment house: 147
Others : 167

Topography & others:

The jurisdiction is adjacent to the respective jurisdictions of Nakano Police Station in the east, of Ogikubo Police Station in the west, and of Takaido Police Station in the south. From the north to the south there is a gentle slope ofground making a form of stairways. In the northern part from Aome-kaido (K. Avenue) dwelling houses and shops are found quite close one another while in the southern district are Narimune and Nishi-tamachi where farming is main occupation of the inhabitants.
This jurisdiction has developed as a dwelling place of the so-called intelligent class belonging to the middle class of society. Most part of the jurisdiction was saved from the war damage, and since the termination of war the population has increased very rapidly making the police operation fairly difficult thereby.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

b) The fixed number of staffs and others:

Reference is made to the attached cards of observations.

c) Health condition & attendance rate of the staffs:

The health condition of the staffs, as considered from the view point of the attendance rate, is fairly good, an average absentees per day from illness shows 10.5. In addition to this there are about 6 absentees per day on account of household affairs, therefore the total number of absentees averages per day 16.5, that is 5.6%.

An average number of 3.9 men per day, in addition to the above, take statutory resting day. Off-duty men will be about 69. Taking into consideration these number of men off-duty, average number of 167 men will be on duty every day, that is, for some 782 citizens one policeman is on duty.
During night some 57 policemen are on duty.

d) Reward & Punishment:

No. of personnel who have received prizes this year:

Inspector-general's Prize: 83

Head of Section's Prize: 27

Chief of Police Station's Prize: 957

No. of reprimands and admonitions:

Reprimand: 2

Admonition by Chief of Police Station: 7

General discipline is well maint^ained

e) Tendency of thought:

Tendency of thought is generally steady and healthy No radical inclination toward the left or toward the right is observable. Since there was indication suspicious of the Communist's tactics to influence policemen to lure to the left wing camp, every precaution is being taken give best guidance to policemen relative to such inflitration.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

2. Matters pertaining to foreigners:

a) Occurence of Crimes and Arrest:

By Occupation Forces personnel:	7 cases	4 cases settled.
By Chinese :	2 cases	2 cases arrested
By Koreans :	33 cases	33 cases arrested
By Japanese:	16 cases	16 cases arrested

b) Investigation, Intermediation and others: (June 1, 1949)

Investigation by summons	Warrent of detention executed	Arrest, Summons, seisures
301 cases	11 cases	76 cases

c) General outlook:

Offences committed by Occupation Forces personnel were found mostly in the shop centres of Kosaji and Asagaya. However, due to the intensification of patrol by M.P. offences by Occupation Forces personnel have decreased to a noticeable extent this year as compared with last year. Crimes committed by Chinese were mostly economic offences while crimes committed by Koreans were economic offences and larceny. Offences by Japanese were illegal possession of Occupation Forces goods.

Every effort is being made to effect investigation, intermediation and execution of warrent securely and promptly. Sometimes, however, so many cases of investigations, so many as ten cases all at once, come to hand, moreover, addresses on warrents or summons are found imaginary and unfounded, and as a result, much time is wasted but often found unable to execute such warrents or summons. All staff members of the station well understand the importance of maintaining speedy and sure communications with the Occupation Authorities concerned in case of occurence of accidents or ofference, which need such communications, but it is found very difficult sometimes to effect communications in such a manner as desired owing to unsatisfactory condition of communicating system.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

3. Matters pertaining to Guard:

Object matters to guard: Banks : 7 Electric Distributing Stations: 2

Dangerous goods(gasoline) storing places: 2
(in bulk)

Excepting the above, there are no special object matters needing special guarding.

Shools: New System High Schools: 8 Middle schools: 19

Primary schools: 12 Other types: 10 Total: 49

Schools are regarded important places as suitable place to take in refugees in case of big scale emergency.

Staff members living in the jurisdiction of this police station:

Staff members of Suginami P.S. :- Superintendent: 1

Police sergeants: 5

Policemen: 170

Total: 176

Staff member of other police stations:-

Superintendent: 1

Police inspector: 17

Assistant P.I.: 46

Policemen: 208

Total: 308

Communist Activities:

Through fractional groups organised horizontaly as well as vertically constant efforts are being made to expand the Communist influences. The Suginami local committee of the party was formally a fraction group subject to Communist West Local Committee, but as a result of its active fight which they developed on account of the so-called "tax-fight" it succeeded to expand its range of influence, and became an independent local committee as from March this year. Under this local committee seven local fractional groups, such Asagaya (East, West, South, and North)

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

Narimune, Wada, and Koenji fractions, East Suginami branch of To-ko-den (Tokyo Communication Electric), Horinouchi branch of To-ko-auto. Section, Den-san Asagaya detached brach, Suginami branch of Tokyo-to metropolitan employees Union, Suginami branch of Zen-tei, Suginami branch of Zen-zai (Finance Ministry), Zenkoku Kisho Kumiai (All Japan Observatory Union), Tokyo chi-kyo kenkyubu branch, Suginami branch of All Japan metalurgical workmen's union, Suginami teachers union are found. The total number of the member of the party may count around 400 on estimation. They are conducting active agitations whenever occasions arise in conjunction with their headquarters, but so far they have not staged their activities of their own accord as a local committee.

Korean Affairs:

Koreans have been obtaining means of livelihood by such illegal means such as making Sake in secrecy, but, owing to police searches frequently conducted in their congested places as well as declining price of Sake, they are losing jobs and the number of the out-of-jobs has increased quite lately. In these circumstances, their movement must be watched with attention in relation to the government policy on unemployment question. There are several groups of Koreans, such as Cho-ren, Min-sei, Sen-sei, Zai-nichi Kyoryumin-kai, etc. grouped on different lineage and thinking. However, no radical conflict is observable in this jurisdiction, and the present relations among them are rather normal.

Chinese and Formosan:

Generally speaking their livelihood is stabilized. Relations among themselves, and with other groups of other nationals seem normal, and no trouble have been reported.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

4. Detective Affairs

a) Committed crimes and arrests thereof:

	No. of committed cases	No. of arrested cases		Arrested %
Murder	2	2		100
Arson	3	3		100
Burglary	4	7		175
Pick-pocket	59	1	(less)	2
Fraud	49	56	(more)	114
Blackmail	49	2	(more)	4
Usurpation	11	9	(more)	80
Assault	15	14	(more)	93
Larceny	1594	903	(more)	46
Other crimes	114	121	(more)	100
Miscellaneous breach of laws	732	32		100
Total	2992	1850	(Average) (less)	62

The number of crimes committed on June 1, 1949, totalled 2960 as compared with 6058 cases during last year, showing about 17% increase on last year, but as regards the number of arrested cases shows a tendency of increase in percentage of arrests made, that is, on June 1 this year 62% was arrested while 40% was registed during last year. This was due to the one month drive of arrests of burglary and larceny cases from March 25 to April 24 this year, when 441 persons were arrested and 999 cases were dealt with. In addition to the above such a result was due to also the strenuous efforts on the part of police station personnel, and therefore an increasing tendency is shown in arresting law-breakers. However, occurence of crimes per day shows about a little more than 12 cases.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

b) Condition of emergency watch enforced

The number of emergency watches in enforcement:

In Suginami 7 times; in Ogikubo 1 time; in Nakano 9 times; in Nogata 5 times; and in Takaido 5 times.

Emergency watch is put in operation when there is a possible chance to arrest suspects in case of burglary or other crimes of emergency nature. The above figures show the condition emergency watch put in enforcement this year, and the reason why a high rate of operation by this police station is found in the fact that the present jurisdiction covers an area not suffering war damage therefore comparatively tempting place for criminals to extend their activities.

5. Prevention of crimes section

a) Persons under detectives' watch:

Present : 16 persons; in prison: 3 persons; unlocated: 3 persons; Total: 22 persons.

b) Persons under judicial watch:

present: (under probation) 76 persons, on parol: 31 persons; out on bail: 109 persons; unlocated: 3 persons - Total: 226 persons.

c) Pawn shops and secondhand dealers

Pawn shops number 31; second hand dealers 454 total -485.

d) Insane persons but not confined count 36 persons in this jurisdiction.

e) Other matters

There are 16 branches of Suginami Chian Kyokai (order and peace association) which are established according to the number of the branch stations and police boxes, and these civil associations are co-operating with the police station in an active way in preventing crimes.

On the part of the police station, constant efforts are

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

b) Condition of emergency watch enforced

The number of emergency watches in enforcement:

In Suginami 7 times; in Ogikubo 1 time; in Nakano 9 times; in Nogata 5 times; and in Takaido 5 times.

Emergency watch is put in operation when there is a possible chance to arrest suspects in case of burglary or other crimes of emergency nature. The above figures show the condition emergency watch put in enforcement this year, and the reason why a high rate of operation by this police station is found in the fact that the present jurisdiction covers an area not suffering war damage therefore comparatively tempting place for criminals to extend their activities.

5. Prevention of crimes section

a) Persons under detectives' watch:

Present : 16 persons; in prison: 3 persons; unlocated: 3 persons; Total: 22 persons.

b) Persons under judicial watch:

present: (under probation) 76 persons, on parol: 31 persons; out on bail: 109 persons; unlocated: 3 persons - Total: 226 persons.

c) Pawn shops and secondhand dealers

Pawn shops number 31; second hand dealers 454 total -485.

d) Insane persons but not confined count 36 persons in this jurisdiction.

e) Other matters

There are 16 branches of Suginami Chian Kyokai (order and peace association) which are established according to the number of the branch stations and police boxes, and these civil associations are co-operating with the police station in an active way in preventing crimes.

On the part of the police station, constant efforts are

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

being made to keep in communications with these voluntary associations to foster up their activities, and for such purposes 'prevention of crime news' are issued from time to time which aim at preventing crimes by making known the actual means of prevention of crimes based on the occurence of actual happening of crimes. By such a means watchful attitude is encouraged generally and chances of committing crimes will be limited. Since last year several precautionary operations of preventing means of crimes were staged with the co-operation of these civil associations. Locking of doors, emergency bells equipment. more illumination of streets by electricity, etc. were on the program, and a good result was registed.

As regards the guidance and watch on pawn shop owners and secondhand dealers, this police station gives special importance on their conduct from the view point of preventing crimes, therefore, since last years on several occasions they have been invited to attend lecture meeting on the related laws and regulations concerning their trades.

As a result of the above watchful attitude on their conduct the number of so-called un-licensed secondhand dealers who have been engaged in unscrupulous dealings gradually decreased partly due to the conditions of recent economic situations.

6. Juvenile affairs

a) Juveniles needing special protection number 17.

b) The number of cases dealt with:

Those who have disappeared from their homes : 139, and 101 were located thereof.

Those who lost their way home totaled :32.

Of the juvenile crimes 388 cases were legally dealt with, and the number of juveniles involved totaled 539 (male: 495 and femal: 44).

Those who have had admonitions only totaled 127 (male: 403 and female: 27)

The most noticeable importance regarding juvenile crimes lies in the fact that beginners imitate their predecessors' ways of crimes, and in addition to that taking advantage of psychological effect, increasing their skilfulness and the number of crimes by them also showing increasing tendency.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

The cause of juvenile crimes is mostly due to the momentary thrills of crimes they fell at crimes and by such a temptation they often enter for comitring crimes. It is noticeable that from well-to-do families often come such juvenile offenders and among such juvenile offenders there are found many young people with psychological defects. To remedy these juveniles crimes watchful guidance is always sought for them through the co-operation of their schools, PTA, besides the constance watch and guidance by the police station's staff concerned and juvenile protection officials. During the present year special street guidances were given 11 times, those who received such guidances on street counted 567.

7. Peace and order securing section:

a) The following establishments are objects of control by this section: hotels: 26; bording houses: 20 ; special restaurants: 53; ordinary restaurants: 213; cinema houses: 4; and game houses or shops: 27.

b) General condition

a. Four cases have already been detected during the present year involving serious crimes in accordance with the Narcotic Drugs Law . The above result of arrests is the top rank in the jurisdiction of M.P.B. This police station is determined to control with efficiency and thoroughness these crimes as well as gambling practices in the jurisdiction as heretofore.

b. As to arrests on account of gambling practices 16 cases have alreay been arrested during the present year with the number of people involved 117. This result shows within the tenth order in the jurisdiction of MPB.

c. Ten cases involving 13 persons were arrested on account of infringiment of the regulations controling possession of firearms and offensive weapons. Among the above persons and cases, two cases (two persons) were involved in the possission of pistols, others were arrested because of their criminal use of Japanesw swords, daggers, etc.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

d. As regardsthe control of so-called street girls, close watch is being maintained with constant communications with V.D.C.O. 80 persons were arrested during this year, but the area in which these stree girls throng consists of such densely populated areas as Asagaya, Koenji contains many Chinese and Koreans among whom there are not a few collaborators with these street girls, therefore it is sometimes found difficult to enforce control on them as desired.

e.. As for special drink-&-eat shops and other allied trades the number of infringement of regulations has been very few because most of the traders closed their shops due to the enforcement of special order to prohibit their usual ways of offering drinks and foods

8. Economic affairs

a) Principal objects of control:

aa.There are three market places containing 210 shops with 210 persons engaged in the trade.

bb. there are principal distribution stations of staple foodstuffs in the jurisdiction.

b) Arrests: 605 cases of arrest were made in this year and 313 of them concerned with thestaple foodstuffs dealings which shows a high percentage.

c) General outlook

Market places and shops around Asagaya and Koenji wash their centres are found in the jurisdiction. Control on brokers who are active in these places and watch on their outward infringement of controling regulations are given special attention by policemen and detectives. Especially about a half of a third country nationals live in the neighborhood of these two stations engaging in processing, buy and sell business and brokering of control commodities, and it is sometimes found difficult to effect strict control on such foreign traders.

In the jurisdiction there run two arteral road, Aome kaido, and Itsukaichi kaido, both being used as a transport road

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

for removing control commodities to a great extent. From time to time road investigations without previous notice are carried out around the above mentioned two centres, but these places are just intermediate stations on a trunk road and therefore thorough control cannot be expected in such places.

These brokers who are commonly known as "katsugiya" because they carry their goods on their backs, mostly come from Saitame, Tochigi and Yamanashi prefectures. Around the two stations mentioned above occasional investigations are held on these brokers activities, but for the same reasons as the above a very effective investigation cannot be expected.

There is a group of Koreans in Narimune district of the jurisdiction, some 30 families in a group, and these Koreans have been engaged in secret brewing trade of Sake for an immense profit illegally earned. Since December last year an investigation of extensive scale has been carried out twice, making seizures on rice and unfinished Sake to a great extent, and arrests were made also on brokers concerned thus stopping their supply route No effort is spared to eradicate their illegal activities giving cause to economic evils.

9. Transportation

a) Accidents and casualties:-

Deaths : 2 cases; serious injuries : 5 cases;

slight injuries: 5 cases; damage on properties: 4 cases

Total : 16 cases

b) Transport facilities:

a. Metropolitan bus: there are four systems
b. Kanto bus: Two systems operate
c Keio-Teito bus: Only one system operates
d. Seibu Railway bus: Do.
e. Shosen (Chuo-line) stations: there are two stations
f. Tramway steps: there are eight steps in the area.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

d) No. of motor cars in the jurisdiction totals 325.

e) General outlook:

Transport accidents reported this year totaled as compared 42 cases in the five months last year, showing 74% decrease on the last record.
The above decrease of accidents was mainly due to the causes of the following:

a. Effective means of preventive works were taken at places where accidents will likely happen according to the past investigations.

1. Two watching policemen were placed in front of the Raw Silk Testing Station with duties to control transportation at usual times.

2. Road fences have been erected in the neighbour^hood of Nabashi tram stop to regulate and control pedestrians walk.

3. Road fences were also erected in the neighborhood of Asagaya tram stop for the similar purpose.

4. Similar measures were taken in front of the Police station.

b. Popular education regarding transportation:

1. As monthly training days 1st, 11th and 21st each month are selected for special training purpose.

2. As a special measure to effect transport control infringement card is handed to an infringer for the purpose of assembling them every two other days in the lecture room of the station, and giving them educations concerning transportation from the superintendent, assistant superintendent, and principal officer in charge of transportation. The number of those who have attended these gatherings since Feb. 25 to the present time counted 2835.

c. Intensification of transportation control:

1. Among those who have received "infringement card", as above, there were some cases of serious nature, in respect of these cases deemed malicious appropriate reports were made by forwarding the related documents to the prosecuting authorities.

2. One week from May 12 to 18 is chosen as "a safety transport week" giving general control and guidance in the jurisdiction of M.P.B. Suginami Police Station was cited as a superior station since the superintendent and all the staff members of the station joined hands in effecting good result.

3. As a result of the above intensified guidance 171 cases were forwarded to the above authorities and 78 cases were dealt with administratively from January 1 to June 1 this year.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

Report on Communication Equipment

of Suginami Police Station

1. Wireless equipment

Number of equipment: Receiving set: 1 Permit: No. 1113 (by Ministry of Communication) July 2, 1948 to July 1, 1952

Communicating origin of wireless:

f 3515 KC Wave length about 88 m. Call sign : JPB 21

Receiving and sending capacity:

The equipment is being used for receiving purpose only and its capacity is good. When the ordinary telephoning comunication is impossible and/or there is a fear that it will take too long time to effect communication by the usual way, it is permitted to use wireless equipment. On other occasions the use of wireless equipment is not permitted as a rule.

Condition of wireless equipment:

By the tenth each month a checking is made on the receiving effectand its result is reported to the wireless room of the headquarters. In addition to the foregoing examinations inspections will be made twice or three times a month on ampere metre, sensibility of receiving set, etc. and when finding minor defects the wireless operators of the station will attend immediately to repair them, but when defects need more carefull attention the personnel of wireless room of the headquarters will be asked to attend the matter.

2. Communication through wire system:

a) Instructive communication equipment:

Number of M.P.B instruction communication equipment : 1 set

Receiving and sending capacity: The capacity of the equipment itself is good. Receiving and sending of messages are made from M.P.B headquarters to each police station, and moreover, in case of emergency, when it is found imperative to communicate from this police station to other stations we can despatch direct such message to all the police stations concerned by using and through M.P.B. centre system.

Condition of equipment:

When the dry battery (1.5 V) (two are in use) get exhausted they will be exchanged - about once a month on an average -, and out-door wires will be maintained by the engineering section of M.P.B. The troubles will be settled usually within five hours from the time of reporting. Troubles will occur once or twice a month on an average.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

b) Telephone sytem in the Police Station:

Number of telephones: Switch-board: 1 Capacity for 50 lines.

Receiving and Seding capacity:

Between the Police Station and its branches and also police boxes Common lines are mostly used for use by two or three places, therefore the condition and effect are not good. Where a single line is used we detect many defects due to the worn out condition of the equipment, with its sensibility being low.

Maintenance condition:

One hour usual test will be made every morning from 6.30 a.m. and its result will be reported to M.P.B. Engineering Section. Troubles will be put in order in about eight hours from the time of report. Troubles occur usually five or six times a month. The maintenance of service in the police station will be attended to by our own staff.

3. Techinicians on duty:

a) Full time techniciens:

Name	Technical experience
Isao Iwase	Techinician policemen. 5 years and a half experience. Sends 90 letters in a minute, and receives 100 letters in a minute. Finished a communication short course training.
Kazuaki Fukai	Police technician. 2 years experience. Sends 80 letters and receives 100 letters in a minute. Finished a short course training on communication system.
Kiyoshi Suzuki	Policeman-technician. 2 years experirence. Sends 85 letters and receives 100 letters in a minute. Graduated from the former Army Aero-Communication Training School.

b) Techni-policemen (as reserves)

Takeji Tanaka	3 years experience in police communication, and graduated from the former Navy Communication School. Sends 75 letters and receives 100 leters in a minute.
Masuhiko Nomura	6 months experience as above. Trained in the former Army Communication Unit. Sends 60 and receives 50 letters in a minute.
Mikio Ito	2 months experience as above. Sends 60 and receives 50 letters in a minute.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

Report on Motor cars as provided

B) by the Police Station

1. Number : Passenger car (Ford 1936) 1 Medium size truck (Dodge Bros.) 1 (released by O.F.) 1942

2. Condition of Use: The above vehicles are being used for the purpose of crimes searching, detecting, policing and precautionary measures.
The passenger car is used on an average 38 times a month while the medium truck is used about 18 times.
It is to be noted, however, that gasoline allocation in a month per a car is 200 litres, but in view of the vast area of the jurisdiction this allocation is not enough. It is necessary to have at least 300 litres a month in order to maintain the standard of policing efficiency to a full extent.

3. Conditions of motor car and truck
Passenger-car:
a)/January last year an overhauling of engine was made therefore the engine condition is good, but the hood is in bad condition. Replacement of a new hood is necessary, and a request to that effect is being made to the headquarters.

b) Medium size truck:

In May this year an overhauling of engine was made and the condition of engine is good.

c) Water washing and wiping are applied every morning to the above vehicles and checking on engines and oiling are also made from time to time with due care, but the lack of necessary tools is felt in maintaining such efficiency as is desired.

A responsible person is allocated to each of the above vehicles to maintain the above services.

4. Mileage:

a) Medium size truck: 10715 miles

b) Passenger car: unknown because the mileage meter is out of gear.

c) Drivers of vehicles:

Shiro Furuta	12 years experience;	responsible for the passenger car
Kensaburo Tachikawa	5 years experience;	do. for the truck
Kazuo Shibata	4 years experience;	assistant
Shoji Sakamoto	2 years experience;	do.
Konojo Takahashi	2 years experience;	do.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

Condition of Detention Place

Report on Prisoners and Condition of Management

1. Accomodation for detention:

	Number	Space	Fixed number of inmates	Remarks
Ordinary cell	8	13.28 tsubo	36	
Women's cell	1	1.36 "	4	
Juvenile cell	1	1.36 "	4	
Protective cell	2	2.05 "	5	
Total	11	18.05 "	49	

2. Other accommodations:

Kind	Space	Remarks	Kind	Space
Lavatories	1.6 tsubo	-	Medical room	3.63 Tsubo
Bath room	1.63 "	-	Exercise ground	
Receiving room	1.3 "	-		

3. As mentioned above the present number of detained persons exceeds the fixed number prescribed above. The reasons are : there are too many persons to be detained, and it is often difficult to detain these people in a same room because of their related crimes, or because of sex relation, or because of their age.

4. Condition of management:

a) Health examination

A medical doctor attached to three police stations, Suginami, Ogikubo, and Takaido, attends the medical affairs as follows:

a. A new comer is examined every morning from 9.00 a.m. to 12.00 p.m.

b. All prisoners are examined twice a week, Monday and Wednesday.

c. Those who are in ill-condition are treated and given medical help if necessity demands.

d. Emergency cases will be treated by the police doctor or any practitioner nearby.

e. All detailes as such will be kept on record.

b) Exercise:

Every day between 1.00 p.m. to 3.00 p.m. exercise is allowed for Minutes. In bad weather exercise may not be allowed.

c) Bath:

Once a week on Monday a bath is allowed, five persons taking bath at the same time.

Declassified E.O. 12065 Section 3/402/ NNDG NO. 775009

d) Supplying foods:

a. Staple food : 390 grams a day per one person, generally rice and flour on 50-50 part. Supply of staple food is made by a local contractor. The price for one meal cost 15 yen.

b. The side dish is about/same quantity as ordinary family's ration.

c. Once a week an examination is made on the supplying foods.

d. All the details as above will be recorded on a book.

e/ Sanitary condition of cooking place and employees is inspected from time to time by the police officer.

e) Sanitation

a. For a new comer D.D.T. powder will be applied each time.

b. Every room and cell is spread by D.D.T. powder every week - once a week. DD.T. oil by the Ward Office staff is applied over all places in the ~~station~~ place twice a month.

c. The above matters will be recorded on Disinfection Table.

d. In addition to the above measure the lavatory is disinfected by an acid preparation once a week; a general cleaning is held on the first and third Sundays when blankets are taken out for exposing to the sun. Cutting hairs is allowed and enforced once in two weeks.
