SUBJECT: Application for the permission of removing and using of machinery owned by Kawasaki Industries Co., Ltd.

After War termination, we are granted as a converted plant by Sixth Army and Hq. of 1st Corps. Ever since then we have been busy working at our plant to supply the agricultural implements, luggages and kitchen utensils, but since last summer, we have the honour to receive a large esteemed order from U. S. Army, these principal articles are the Wall-lockers, Foot-lockers, File-cabinets, Receptacle waste paper and etc.

At this time, we are planning to make an enamelled iron ware for the foreign trade, and also, in future, beside this we intend to make coffee supplies, kitchen utensils and other home supplies,

Fujie plant, however, is too poorly equipped to make such a above articles and so we have been often used our subconstractors to make these parts.

We, therefore, apply for your kind permission to be authorized to remove machinery nesessary for manufacturing above stated articles.

The list of machinery to be authorized to remove annexed hereto with their specification.

Yours truly

(Urinal stool)

Sir,

The undersigned hereby requests your certificate for permission of the removal of the above goods (12 urinal stools) from the Kawasaki Machine Industry Plant, Akashi City to the dormitory now being built by the Ando-gumi Architects and Building Contractors for the occupancy by the Foreign Trade Mission with a view to furnishing the dormitory located at Ogimachi, Kita-ku, Osaka City with the above goods.

In connection with the above, I would state that the construction was started by the order of the Governor of Osaka Prefecture, but the goods to be furnished to the dormitory are within the compound of the Kawasaki Machine Industry Plant which was half destroyed by air-raid and is now under the custody of the Occupation Forces.

Yours truly,

SUBJECT: Application for Permission to Move and Operate Reparations Machines.

TO : Kawasaki Industries Co., Ltd., Fujie Plant

THRU : Hyogo Liaison Office

1. Subject application for permission to move reparations machinery from Kawasaki Industries K.K., Akashi and Futami Plants to Fujie Plant for installation and operation is not favorably considered.

2. Since the removal of reparations machinery and equipment in the selected industries is anticipated in the near future, it is the opinion of this headquarters that it will not be economically advisable to move, install, and put in operation, subject machinery for the purpose of expanding production. In the event that the installation of such machines is necessary, it is advised that Fujie Plant obtain them from non-reparation establishments.

SUBJECT: Application for the permission of removing and using of machineries owned by Kawasaki Industries Co., Ltd.

Sir,

Many thanks for all your famous shown to us for the manufacturing of the wall-lockers and foot-lockers ordered by the U. S. Army. And we appreciate very much the esteemed order of file cabinets by the U. S. Army through the Naigai Trading Co., Ltd.

We shall make every effort in our power to make delivery of the good with in stipulated time.

These file cabinet as well as enamelled iron wares now under scheduling to make in Fujie plant are said to be among the important exports of our country, and we are much pleased if we can render any serirce to the economic reconstruction of Japan by the production of these goods.

The Fujie plant, however, is too poorly equipped to make such elarborate articles as file cabinets or enamelled iron ware of fine qualities to our satisfaction.

We, therefore, apply for the permission to be authorized to remove machineries necessary for manufacturing above stated articles.

The list of machineries to be authorized to remove annexed hereto with their specifications

Your truly

Date 6th Jan, 1947.

Subject: Report of robbery and ask for approval to remove and use the motors from Kawasaki Industries Co., Ltd. Akashi Engine Plant to Kawasaki Industries Co., Ltd. Fujie Factory.

We regret to say you that a thief stole into our Fujie Factory, on the stormy night of the 10th, December, 1946. perhaps he took advantage of our watch men ungarded moment and took away the motors which are attached the following machineries.

Description	Capacity	Maker	Inventory Sheet No.	Stolen Motors
Power Press	40 tons	Osaka Press K.K.	13-16-635	3 HP 1
"	"	"	13-16-821	3 HP 1
Sawing Machine	16 "	Washino K.K.	13-16-84	2 HP 1
Blower				2 HP 1

We apologize you for our fault to protect these motors from a thief.

On account of this robbery and not spare motors. the above mentioned machineries were suspended operations. But, we are now producing the "Foot-Lockers" by the order of the U. S. Army and cannot stop these machineries to make them in the appointed time.

Herewith, we beg you to grant us a approval of removing and using of the other motors which are now in the custody of Kawasaki Industries Co., Ltd. Akashi Engine Plant. These motors are not inscribed in the inventory sheet as they are less than 5 HP and quitely seperated from the machineries and for which the details of the motors, we want as follows.
