PLATINA CEMENT.

DR. ACHILLE LION, Dentist, of the Faculty of Paris, has about many remedies, but discovered the Platina cement composition, which he applies with the utmost success in plugging decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, is neither mercurial, nor arsenical, is insoluble, it is tend cold, almost in a liquid state, and consequently requires the hardness and consistency of the enamel of the tooth; when in its liquid state it will last many years, not only as a preservative of the tooth, but also to render it ornamental.
