COTTON.

58 bales Louisiana. 17cts.

Sales of Stocks, at N York, on the 14th ult
55 U S Bank. 111 3-4
100 New Orleans Canal Banking co. 104

New-York, Nov. 14.

Cotton.—Import from the 7th to the 14th inst. 5038 bales since our report of the 7th inst. no material change has taken place in relation to this article, further than that the stock on hand has been considerably increased by arrivals from the Southern ports. The demand continues on a moderate scale and mostly for home use—holders are quite willing to realize, and prices may be considered rather lower than they were the day week. The sales consist of 1100 Uplands and new crop, at 14 a 17 1-2 cts—200 Floridas and New Orleans at 17 1-2 a 18 cts—small lot of the very superior quality reached 19 1-2 cents; and 150 Alabama at 16 a 18 cts. Total, 1500 bales.

Coffee.—There has been some demand for St Domingo of 2, 4th, and 2736 bags have gone forward. The stock of all kinds is moderate, and no change in price—8 is since our last as follows, 500 bags Java, at to 3-8 a 13 1-2, 7 to 500 do. St Domingo 11, 500 do. Brazil, 11 3-8 a 12 1-2, 50 bbls. 2 hhds. Cuba 12 3-8 a 14.

Sugars.—There has been an evident pause in the market this week. Holders have been disappointed to store it, unable to sell from the wharf at last week's rates. The sales have been as follows. Stock—Brown 7, 8, 9, Whites 1500, Porto Rico and N. Orleans 3,000. Arrivals—Porto Rico at 9 1-2; 50 to 60 hhds. St. Croix 8 9-2 a 9 3-4; 300 do. Cuba 8 7-8 a 9 1-2 a 9 3-4; 150 do. White 12 1-2 a 13.

Exchange Foreign.—Bills on London dropped a little last week, and sold at 109 1-2 a 109 3-4—to-day is packet day, when the rate will be established. From all appearances, the range will be higher, it is high.

Stocks.—We noticed a falling off in stocks last week, this decline has continued until some of the stocks have reached a lower point than we have known them at. We allude particularly to Mohawk. The fall, however, has been on the Fancies, these are owned in the street to an enormous amount, and generally held by dabblers in stock, who buy and sell from day to day.

Freights.—The rates have not altered, still there is more offering to France and England. The packets now get out without difficulty. To the South the regular vessels get full. No demand for vessels to go South to load; a large number have gone, and we notice many clearances for Europe from Southern ports.

Stocks.—Saturday, Nov. 14;—We have to notice this week a sad falling off in the price of those stocks, in which the principal speculations are carried on, of from one to seven per cent. United States Bank stock, which commenced the week at 110 1-2 has risen to 111 1-2 and maintained that price for the last three days.

BALTIMORE, Nov. 14.

Coffee.—The new crop Rio is in fair demand at 13 cents for good quality, and at that rate upwards of 1000 bags have been taken. Sales of ordinary new at 12 1-2 cash, and of old at 12 cents. Sales of St. Domingo 11 1-4 a 11 1-2 cents.

Cotton.—We hear of no sales of moment.

Stocks.—At auction, 63 hhds. and 22 bbls Porto Rico were sold at $8 60 a $9 25; and 65 bbls prime Porto Rico at $9 25. By private contract we note sales of about Havana box at $9 75; of white Havana at $12 50, and of white Brazil at $10 50.

Whiskey.—The market still continues to decline. In the early part of the week sales of hhds were made a 29 1-2 cents, but the market subsequently receded, and to-day we quote hhds at 26 1-2 cents; sales of bbls at 28 cents, but we quote that price to-day. The wagon price is 27 cents, exclusive of the barrel. The inspections at the week comprise 7 hhds and 779 bbls.

CHARLESTON, Nov. 21.

Cotton.—There has been a brisk demand for Uplands, throughout the whole week, and although we do not alter our last quotations, still better terms were obtained in many instances by holders, towards the latter part of the week, than could be obtained at the beginning. The demand principally has been for the French market. The low state of our rivers continues to prevent the stock from accumulating, and tends to sustain our present prices. The transactions of the week have amounted to upwards of 7000 bales, the particulars of the rates are as follow:—231 bales (of the old crop) 13 a 15 1-2 14—66 at 15—39 at 15 1-4—116 at 15 3-8—340 at 15 1-2—75 at 15 5-8—1776 at 15 3-4—355 at 15 7-8—1741 at 16—474 at 16 1-8 1826 at 16 1-4. In Long Cotton nothing has been done as yet. A few bales of Sea Islands have made their appearance, but without being noticed by purchasers.

Rice.—This article also has met with great attention during the week. Every barrel received having been disposed of, in addition to which, some in the rough was sold by sample. The week closed with an advance of from 1-8 to 1-4. The sales in all have amounted to rising of 1600 bbls. principally from $3 1-8 to $3 3-8. Of sales in the rough of 150 bbls at $3 7-16. Upwards of 3000 bushels in the rough sold at 80 cents.

Steam.—There have been no receipts during the week, but several sales were made from stores, among the sales were lots at $3 3-8 a $3 3-4—113 packages of New Orleans Leaf Sugar, hogsheads, bbls. and boxes, No 3 old, hds. and tierces, mixed sugar, Nos. 1, 2 and 3, sold from 12 1-2 to 14 cents.

PHILADELPHIA, Nov. 14.

Cotton.—Since our last considerable supplies have arrived, and part of the receipts have been disposed of to spinners, who come into the market from necessity, their former stocks being exhausted. They buy very sparingly, in hopes of a decline on present rates. Sales of 190 bales new crop Uplands, at 17 1-4 to 18c. per lb. 4 mos; 58 bales New-Orleans, at 18 a 19c.; 18 bales old Uplands, 16c. 4 mos. The sales show a decline of 1c per lb within the last two weeks. Total imports, 16-42 bales.

Sugars.—There have been considerable arrivals of sugars this week. A cargo of 641 boxes Trinidad, good quality, sold on the wharf for refining, at 91c per lb on time; 166 hhds N Orleans, fair quality, in lots, 9 1-4 a 9 1-2c, 4 and 6 mos; 40 hhds Porto Rico, 9 1-4c, 4 and 6 mos; 135 boxes White Havana, hardly fair, at 12 1-2, on time; 50 hds brown do. 9 7-8cts; the balance is held higher; 40 bbls White Brazil, at 9 3-4c, on time.—Imports—Trinidad de Cuba, 641 boxes; Matanzas 219; Havana 902; St Jago de Cuba 131; Xibara de Cuba 64. Total, 1457 boxes.

NORFOLK, Nov. 14.

Cotton 11 a 12; Corn 90 a 92; Wheat 14 15; Tobacco, passed, common, 6 1-2 a 8; do middling 8 1-2 a 10; good to fine 14 a 16; refused least 7 a 8; Bacon 10 a 11; Hams 11 a 12; Lard 10 a 10 1-2; Beeswax 20 a 22; Cotton Bagging 24 a 26; Bale Rope 8 1-2 a 10; Salt 2-25 a 2 30; Coffee 13 a 14; Sugar, brown, 8 1-2 a 9; Molasses 24 a 25; Whiskey 36 a 37; Butter 12 a 23; Rice 4 a 4 1-4.

Our Cotton Market remains firm at the present quotations.

THE BEE.

Official Paper and City Paper,
PUBLISHED BY J. BAYON.

NEW-ORLEANS:
TUESDAY MORNING, DECEMBER 1, 1835.

The St Charles street theatre was opened last evening, to a very numerous audience, despite the report that had been so industriously and villainously circulated of its being unfinished. There were but indeed many ladies present; but when the theatre shall have been completed as designed, we think and trust that it will be fashionably attended. We were very much pleased with the *tout ensemble* of the decorations in every respect, altho they are unfinished, and with the orchestral performances; but we cannot boast of any thing else. The house is at present cold and cheerless; and the members of the theatrical corps are not properly disciplined or not accustomed to so large a theatre.—It would therefore be neither just nor judicious to criticise minutely any thing or performer

Come then expressive silence! muse their praise.

From the St Charles we rambled to the Camp street theatre; and were delighted with the performance of Cuddyo the flute, and Gambatti on the trumpet—as well as with the dancing of Mr and Mrs Bennie. Gambatti excels our anticipations, and must prove attractive to the theatre.

Success to both theatres: we love competition—for it is the spirit of excellence and the *primum mobile* of prosperity and greatness.

The Morning Post is the title of a daily paper issued in this city, the publication of which commenced yesterday. It is edited by Mr Lawrence, member of the legal profession; whose talents are highly commended. Its politics are of the democratic school; and he will support the candidates of the general convention. We wish him success; and believe he will deserve and command it.

It is consolatory to find the journals of New Orleans now respectfully printed, and in general ably edited—which could not certainly be said of them last year; when major Noah in the New York Star was obliged sarcastically to remark—"The New Orleans papers are well patronized, tolerably conducted, and wretchedly printed." But all stains upon the fame, health, journals etc of the city will shortly be effaced; and pass away as the baseless fabric of a vision that leaves not a wreck behind.

Murder.—An inquest was yesterday held by Mr Cruzat the parish coroner, on the body of a negro man, found lying in the woods near the burial ground No 1, between Canal and Conti streets. From the statement of a doctor called on, it appears that the deceased had received a ball behind the right ear; that he had been opened with the cut of an axe from the breast to the abdomen; his intestines scattered about, and his heart taken away.

Near the corse was found a quantity of beef, and as the negro had been a runaway slave and recently made overtures to return to his master, it is believed that he must have been killed in a quarrel with some associates of his beef-stealing gang, harbored in the woods, lest he might betray the secrets of their slaughterhouse.

The municipal authorities should be on the alert, as there may with reason be supposed that reprobate runaways are harbored in the woods; and addict themselves to every kind of plunder.

The faith of the state being pledged to banks is certainly a subject deserving mature consideration: for the credit of the state is not to be trifled with more than that of companies or individuals. But there are many instances in which individuals by lending their credit, as in partnerships *in commendam*, or as silent partners, can materially advantage their own interests without risk or trouble: precisely so is it with the credit of a state.

The faith of the state is now pledged only to three of our banks—the Union Bank, Bank of Louisiana, and the Consolidated Association of Planters' Bank—and not very largely. This faith is pledged by the issuing of state bonds; seldom discounted, but rather bearing an interest. Now for this pledge the state receives annually a handsome revenue. Take the Union Bank as an example. The state subscribes for half or six millions of its capital, and is to have one-sixth of the profit accruing from the banking operations. During the four years elapsed since the charter of the banks, the profits have amounted to $1,200,000—he proportion of which belonging to the state is 200,000; and this without any risk of impairing the credit of the state. And so in other instances.

We cannot therefore subscribe to the opinions of some of our contemporaries as to the faith of the state being pledged for the stock of any bank, when it is of a bank—not merely a bonus once granted, without further claims: for if the pledge were more extensively made, it would not only meliorate the monetary condition of our citizens, and increase the facilities of acquiring loans; but the revenues arising to the state might be so great as almost to supersede the necessity of taxation, and be commensurate with the necessary expenditures of the state:—no vain boast, nor false conclusion.

As to the pledge of the state being given to the Citizens' Bank, there seems no reasonable doubt, nor indeed should there be any opposition; for the state is required only to endorse the bonds of the stockholders. Consider this in the terms of the loan negociated on this basis. The stock is taken at par in Europe: so that the benefit of exchange will be in favor of Louisiana. But the shares of many of our other banks belong actually to foreigners, who derive therefore their full quota of nine or ten per cent dividends declared—deducting so much from the money market of the state. But not so with this bank, whose stock being negociated at 4 per cent. will be enabled to have the difference between that percentage and the rate of dividends declared accumulated in the coffers of our own citizens. Is this difference trifling? Ask then those directors or stockholders, who would willingly disagree about such a difference.

Consider also the state of the sugar planters, for whose more immediate benefits the Citizens' Bank is required. Last year their products were about 90,000 hogsheads; but this year they will not realize 30,000. Now when we consider that there are a least 40 millions of capital invested in the sugar plantations of Louisiana, shall any turn round on the sugar planters, and tell them that monetary facilities on such a capital, and when their crops have so failed, shall be denied them; although cotton planters and merchants are conceded all the privileges of banking that they have demanded?

It is to be hoped that good policy, as well as a spirit of justice will operate in favor of pledging the faith of the state to the Citizens' Bank, so that it can immediately commence operations, and act as an excellent succedaneum to the branch of the U S Bank—and be enabled to afford relief, not only to the sugar planters but to the money market in general.

Two days later from Europe.

By the packet ship Sessom, capt Chadwick, arrived at New York from London, London dates to the evening of the 10th, and Portsmouth dates of the 12th ult, have been received. Below will be found all they contain of interest:

Letters from Genoa to the 1st inst state, that in consequence of misunderstanding between the Portuguese government and the king of Sardinia, that government had given orders to fit out immediately the ships of war.

It is asserted in the London Globe, that France now has need of her army to maintain her laws, and therefore cannot disband her troops.

The Prince of Saxe Cobourg is spoken of as the husband of the princess Victoria, the heiress to the crown of England—French paper.

The occurrences at Toplitz were expected to finish on the 31st or 4th October.

It is stated that 40,000 peasants have perished with cholera in the deserts of Mecca, who had been worn down with fatigue, and destitute of water; and that the dust of the desert surrounding Mecca, is, in fact, the dust of men!

A treaty for the navigation of the Douro has been concluded by Portugal with Spain, so that on the payment of a moderate transit duty, Spanish grain, etc will come to Oporto for shipment to the eastern Spanish provinces, and sometimes even to Seville and Cadiz.

Spain—By a decree of the 29th, the queen convokes for November 16th the cors of Cortes in order to the drawing up of an electoral law, in virtue of which the new Cortes will be convoked.

The Sentinelle de Bayonne of the 3d inst. states that Don Carlos is in the province of Santander; that the reserve column, under gen Espelletta, passed through Pancorbo on the 26th, and that of gen Cordova has taken the other three ion.

Much activity was displayed at Carunna, Cadiz, Xeres, and elsewhere in endeavoring to recruit the army of the queen. A Barcelona from gen Mina to a private friend in Paris, dated Jan. 4th inst, mentions that he would leave Barcelona on 7th inst.

London, Oct 10—The Paris papers of Thursday are received. It would appear that disaffection generally pervades the French army. We find by the papers before us, that on the 29th ult and 1st inst, 22 sub officers and two soldiers of the 11th regiment of the line, were brought prisoners into Toulouse, escorted by gendarmerie. They were said to be implicated in the conspiracy lately discovered in that city. The 6th, 17th and 27th regiments of the line are also said to be infected with republicanism. The government was proceeding to hewise vigorously dismissing the commissaries of the National Guard, and persecuting the press.

Peru.—A letter in the New Bedford Gazette, dated Payta (Peru) July 18, says—"A reaction has taken place and gen Gamarra, (an ex-president) aided by gen Santa Cruz, the supreme chief of Bolivia, are now in the neighborhood of Lima with a force of more than five thousand men; and Salavery's troops are joining them

NAVAL.—The U S ship Falmouth, and schr Grampus, were placed in the dry dock, at the Navy Yard, Boston, yesterday morning.

The Schooner Gulnare, which came out of the Dock a few days since, has her bowsprit and all the lower masts in. We understand her provisions and water were taken in before she came out of the dock.

CAPE HATTERAS LIGHT.—Mariners are hereby notified that from the decayed state of the lantern on Cape Hatteras light house, the light cannot be well kept up to full size ought therefore to be placed on it. The work is now and has been repairing for some time; and during the month of December, and probably part of January, while repairing the upper decks and fitting up new lanterns, there will be no light shown.

THOS H BLOUNT, Supt.

October 30, 1835.

It is noted in a late article in Champ's journal, as a curious geographical fact, that the head waters of the Allegany, the Susquehanah and the Genesee rivers, take their rise within an area of about 5 miles in extent, country, Pennsylvania, and flowing in opposite directions, reach respectively the Gulf of Mexico, the Atlantic and the Lakes.

A discovery was accidently made by a chemist in this city a few days ago, which is worth recording:—He had been stung by a wasp in the hand, and while suffering extreme pain, had occasion, in the course of his business, to put his hand into a jar of potass, when the pain instantly left him. Surprised at this effect, he experimented to try an experiment to prove the efficacy of potass, and, accordingly, on the following day, he was stung by a bee, which he irritated till it stung him. He applied a drop of the liquor potassae to the wound, and the pain he had previously felt was instantly removed.—*Durham Advertiser.*

Messrs Allen, Walker and Thorn have been appointed, by the committees of safety and vigilance for the municipalities of Nacogdoches and San Augustin, Texas, commissioners to proceed to the United States for the purpose of negociating loans to carry on the war in Texas. They intend pledging the lands belonging to private individuals for the loans they may make; and they are also authorized to pledge the faith of Texas, that those who lend shall be repaid. A C Allen and judge D S Walker left our town on the day before yesterday, on their way to New Orleans, and F Thorn, esq, is expected here shortly. They are all gentlemen of known standing, and we bid them 'God speed' in their mission.—*Red River Herald.*

NATURAL CRITICISM.—I always listen with pleasure to the remarks made by country people on the habits of animals. A countryman was shown Gainsborough's celebrated picture of the pigs. 'To be sure,' said he, 'they be deadly like pigs; but there is one fault—nobody never saw three pigs feeding together, but what pushed 'em had a foot in the trough.'—*Jesse's Gleanings.*

Brown University contains at present, 193 students, including 7 in the partial course. Seniors 38, juniors 51, sophimores 50, freshmen 56.

The Charleston city council have promptly appropriated the 5000 dollars requested of them by the mostings of the citizens on the railroad to Cincinnati and the committee of correspondence have already entered on their duties, by securing the services of colonel Gadsden and Brisbane, and major Holmes, who were to set out on their exploration November 7th. It is calculated that the annual amount of shipwrecks around the Gulf of Florida, besides the detention of the voyage from New Orleans to Europe, as comp red to Charleston, is half a million of dollars, which would more than pay the interest of the railroad.
