DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

REMARKS

Difference between the Item authorized and the Item which were transferred, as to Fuchu Ordnance Center.

The Item numbered 04-01-1847, which has been described in the formal permit regarding transfer, has not been transfered owing to the following reasons, and instead of that the item numbered 04-01-1874 was transfered.
That is to say, we were not received the formal permit yet on Oct. 18 when Phelan came to transfer the machines, and the permit brought by Phelan at that time was written the Item numbered 04-01-1874 in place of the Item numbered 04-01-1847.
Moreover, as this item (04-01-1874) had been lost the important parts, we conbined this and the item mumbered 04-01-1842 so as to have this item display the function required as the entire machine.
By the said reasons, we submitted the letter applying for issue of the cancellation letter of the item (04-01-1847) and for the permit regarding authorized use of the 04-01-1874.

3. Reasons of Application

Although above mentioned mathines are custodying in our plant, there is so many inconvinence from the maintenance of ours and offend the views asthey are SALL. We believe that SALL mathines will be out of reparations target, not withtending we don't know the directive that is applicable to them. Consequently, up to the present we have no way of releasing of these mathines, however, we cannot but hope ardently it.

By chance one of inspectors of the Eighth ARMY come to our plant in early part of May and rather we given his suggestions regarding the matter. Hence, we wish ask you to furnish us your approval to the effect that the mathines proposed for release.

Upon your authorization some of mathines will be dismantled and those good mathine parts would be utilized accordingly. On the other hand some of them would be disposed in order to clearing up those obsolute mathines from our plant.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

On this ocasion, in Par. 2-B we have listed the mathines of government property. For these items too, oblige us with the same authorizsation as ours.
