SUBJECT: Maintenance Expenses of Reparations Machinery.

1) Explanations of the Basic Expenses for Maintenance of Reparations Machinery.

(Extracted from the letter of Com.& Ind. Ministry, dtd. 26 June 48, 23 Dai (Gyo) No. 818.)

A. The basic expenses system will be applied from 1 Apr. 1948.

B. The maintenance expense will be devided into 2 parts:

1. Working Expense. (Keijyo-hi)
2. Temporary Expense. (Rinji-hi)

C. Fixed sum of working expense has been paid to us by Finance Ministry through the Prefectural Govt. monthly, the amount of the Working Expense is calculated on the total number of marks (Shisu) appointed by Com. & Ind. Ministry.

D. Working Expense contains below mentioned expenses:

a. Salary
b. Material Expense
c. Travel Expense
d. Electric Power & Light Expense
e. Fixture Expense
f. Office Expense

E. Amount of Working Expense paid monthly to this plant:

a. Salary	Custodian	1		¥ 6,820.-
	Assistant Custodian	3	@¥4,950.-	14,850.-
	Clerk	4	3,300.-	13,200.-

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115015

Reparation Business

Regarding the subject matter, we consulted with the authorities of the Maintenance Section and the Business Section of the Reparation Enforcements Division of the Ministry of Commerce and Industry and the First Financial Affairs Section of the Administration Bureau of the Ministry of Finance. As a result, following facts have been clarified.

I. Curtailment of expenditures of reparation plants.

1. Personnel cut.

We asked the opinion of the Government with regard to the slash in reparation plants personnel as we had been instructed on the matter by the local Military Government Team on the basis of the directive of the Eighth Army. The Government authorities replied that they had formulated the new criteria for the defrayment of the expenditure for the fiscal 1949 and had been asking SCAP to authorize the new standard. This authorization is expected to be soon forthcoming. According to this criteria, the following wholesale cut of personnel will take place in this prefecture.

	Koyo:	Kawanishi:	Nihon Hassoden:
Custodian	0 (1)	1 (1)	0 (1)
Official	1 (3)	1 (3)	1 (5)
Clerk	2 (4)	2 (4)	1 (7)
Maintenance worker	3 (7)	6 (10)	0 (36)
Watchman	4 (10)	5 (6)	2 (10)

(Figures in parenthesises show the strength on the old criteria)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

2. Salaries.

Custodian	¥10,230
Official	¥ 7,425
Clerk	¥ 4,950
Maintenance worker	¥ 5,445
Watchman	¥ 5,445

Hitherto, actual salaries have been paid by multiplying the total amount by the non-operation rate (machines not in operation ÷ all the machines). Hereafter, the total amount will be paid. Accordingly, the amounts of salaries to be paid at each plant will come to the following. (1.X2.)

Koyo	¥55,440	(¥56,015)
Kawanishi	¥87,450	(¥92,950)
Nihon Hassoden	¥23,265	(¥73,143)

(Figures in parenthesises show the old criteria)

3. Expenses other than personnel expense will be as follows:

	Koyo:	Kawanishi:	Nihon Hassoden:
Material expense	¥5,351 (¥8,816)	¥10,231 (¥21,465)	0 (¥3,798)
Travelling expense	¥ 400 (¥2,000)	¥ 400 (¥2,000)	¥2,000 (¥2,600)
Electricity expense			
For lighting	¥240	¥180	0
For servicing	¥126 (¥2,070)	¥5,685 (¥ 840)	0 (¥1,178)
Office supplies and postage, telephone and telegraph	¥4,000 (¥4,900)	¥4,000 (¥4,900)	¥4,000 (¥5,700)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

Perishable tools and equipment	¥1,000 (¥ 742)	¥2,000 (¥ 800)	0 (¥422)

(Figures in parenthesises show the old criteria)

4. Accordingly, the collective amount (1. + 2. + 3.) comes to the following.

Koyo	¥ 66,557	(¥74,543)
Kawanishi	¥109,946	(¥122,955)
Nihon Hassoden	¥ 29,265	(¥86,841)
Grand total	¥205,768	

The Government said that the new criteria for the payment of custody expenses will be notified to this prefecture as soon as the SCAP's authorization is obtained.

II. Retirement allowances for the personnel cut.

Despite the slash in the personnel, the amount of expenditure for this year will be as much as that for last year. Accordingly, regarding the retirement allowances, appropriate measures should be taken on the part of each plant.

III. Retirement allowances after these plants will be released from custody and control.

In the opinion of the authorities of the Administration Bureau of the Ministry of Finance, at present it is the policy of the bureau not to pay any retirement allowance. The same policy will apply for a 100 per cent "non-operation rate" plant. So we asked them to give reconsideration for the payment of the retirement allowance to a 100 per cent "non-operation rate" plant.

1. Reference is made to ltr, Hqs I Corps, subj., "Excess Personnel Employed in Reparation Facilities", dated 30 March 1949, and ltr, this Hqs, same subject, dated 21 April 1949.

2. As the result of a detailed investigation, this headquarters has recommended to the Commerce and Industry Section, Kagawa Prefecture, that it enforce a 50% personnel cut, effective 1 June 1949. This personnel cut will reduce government expenditures for the upkeep of the plants by 35%.

There are at present 121 reparation employees in four plants who receive 267,921.00 yen per month from government funds. After the cut, there will remain 60 employees receiving 173,289.00 yen per month.

3. This action was taken in compliance with I Corps letter referred to in paragraph 1.

1. Inquiries have been received from the field regarding reparations facilities manning tables which are prescribed by Japanese regulations. The purpose of these tables is to limit the maximum number of employees in each plant in an equable manner.

2. Regardless of the above Japanese instructions, military government teams will direct an adjustment in custodial and maintenance personnel in reparations plants, if considered excessive, insufficient or inefficient, in accordance with the provisions of paragraph 2b and 3b, Operational Directive 21, dated 30 March 1948.

PLAN

Plan: Basis of Computing scale of wage paid to reparation ~~c~~ custodian & maintance etc. DATE: 11 Mar 49

Action: Mr. Matsushita, Reparation Section of Com & Ind Bureau, Marugame & Mr. Kokmori of Pref. Gov't Reparation Sect. came to explain the basis of computing and they say they have set rule to work on from Central Ministry which is as follow.

ACTION

DATE:

Index figures are put on every Reparation Machine, irrespective of whether in use or in dead storage and taking total figure of the dead storage & divided by total figures of both dead storage & those used, gives % of the dead storage against total index figure. The Central Ministry decide ~~so~~ how many persons should be placed in each plant according to the ratio of dead storage in plants such as Noda, Kurahi, Koyo and as for chemical plant like Toa

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 15013

They have a certain set formula or rule to work on which is fixed by the Central Ministry worked somewhat as below:

$$\text{Dead Storage} * = 100 - \frac{\text{average prod plan per mo for past 6 mo of Caus. Soda}}{\text{Actual prod. per mo of C. Soda}} \times 100 - 10$$

The above will give answer to dead storage and as for figuring how many men should be put on, it is figured on basis of weight ton of equipment and to draw example, in the case of Toa, up to 500 tons, 10 persons are permitted + for 500 ton thru 1000 ton, 18 persons and for those exceeding 1000 ton, to add 1.8 person for every 100 ton exceeding 1000 tons. When it exceeds 3000 ton, 55 persons and similar rules.

The base pay fixed for Custodian + other Reparation equipment caretakers are set, also by Central ministry ~~too~~ lower compared with ordinary corporations pay and furthermore net pay is decided by multiplying percentage of dead storage to the base pay which further aggravate the men's pay and they will not work unless they receive pay equal to those who work for the company that the company ~~is~~ has to pay the differential in addition to the Reparation pay.

At any rate, it is considered that the problem is of the nature which has to be primarily settle in Tokyo

APR 23 1949

25 apr. 49

21 April 1949

SUBJECT: Excess Personnel Employed in Reparations Facilities

TO: Commanding Officer
Shikoku Military Government Region
APO 1050

1. Reference is made to letter, Hqs. I Corps, subject, Excess Personnel Employed in Reparations Facilities, dated 30 March 1949, and Hqs. Shikoku Mil Govt Region Daily Bulletin No. 40, dated 2 April 1949.

2. This headquarters is carrying out an investigation of the amount of personnel employed in the reparation plants in Kagawa.

3. The Government is paying 259,007 yen per month in wages to 113 reparation employees in the four plants in this prefecture. Breakdown by plant is as follows:

Company	No. of Employees	Wages pd by Govt	Machines in dead storage
Toa Gosei K.K.	54	¥ 116,099	157
Noda Sangyo	21	33,103	86
Koyo Seiko	28	69,655	126
Kurashiki Aircraft	10	40,150	85
TOTAL	113	¥ 259,007	334

This headquarters feels that there is excess personnel in the plants, and that there is an unnecessary expenditure of Government funds. It appears that the plants are utilizing reparation personnel for the operation of the plant. This action, in the opinion of this headquarters, resembles indirect Government subsidizing of private industry.

All custodians have been notified of the impending out in personnel and have been requested by this headquarters to submit more detailed data. Positive action will be taken upon receipt of this information from the plants, and a subsequent report will be forwarded to your headquarters.

FOR THE COMMANDING OFFICER.

SUBJECT: Excess Personnel Employed in Reparations Facilities

TO : See Distribution

1. The Chief of Reparations Section, Commerce and Industry Ministry, Tokyo, issued a letter (No. 818), 26 June 1948, to the governors of various prefectures. This letter established regulations which were to govern the number of employees required for the maintenance of various reparations facilities.

2. The number of personnel prescribed in the regulation is to be construed as a maximum and should be reduced if feasible. With a view to implementing the economic stabilization of Japan, military government teams should direct a reduction in custodial and maintenance personnel in reparations plants, if considered excessive, in accordance with provisions of paragraphs 2b and 3b Operational Directive 21, dated 30 March 1948.

TO : HEADQUARTERS, 8th ARMY

FROM : Central Liaison Office, Tokyo

SUBJECT: Measures Concerning the abolition of the Guard by Police Offices for the Reparations installations due to the reform of the Police system.

C.L.O. R.G.S.No. 5 26 Dec 1947

Central Liaison Office submits to your Headquarters the result of a study on the measures concerning the abolition of the guard by Police Officers for Reparations Installations due to the reform of the Police System as enclosed herewith.

Needless to say, the responsibility of the Japanese Goverment for custody of the Reparations Installations is defined in SCAPIN 1219. The measures shown our study attached herewith were adopted to dis-charge our responsibility after the reform of the Police System.

The Japanese Government is very much obliged, if your could give us your approval to the opinion expressed in the said study and inform this measures to Local Military Government Team in order to ensure the smooth execution of our responsibility both in Central government circle and local area.

The guards will require that <u>all</u> persons, including Military Government or other Occupation Force personnel, present a pass at the entrance to the reparation plant or dispersed reparation machine location before entering the plant or buildings in which the machinery is located. The only persons exempted from this rule are the Japanese laborers or employees who actually work at the reparation plant or buildings in which reparation machinery is located.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

c. The passes referred to in the above paragraph will be made out in English on one side and Japanese on the other side and will be signed by the Senior Military Government Officer or the Resources, Commerce, and Industry Officer of the prefectural Military Government Team concerned. The passes should have the following information on them: Name of visitor, rank or civilian position held, and date of inspection or visit.

d. In addition a register will be kept by the Japanese at each reparation plant or dispersed reparation machine location of all visitors or inspectors. The entry for each visitor or inspector will include the factual data shown on his pass and any remarks deemed revelent or pertinent.

e. The Japanese officials at the plant or dispersed machinery location should notify the prefectural Military Government Headquarters immediately if anyone enters the plant or dispersed machinery location without presenting a pass or forces his way past the guards.

4. It is desired that prefectural Military Government Teams inform the Japanese officials, plant managers, and plant custodians concerned of the procedure outlined in paragraph 3 above, in order that they may properly carry out their part of the plan for safeguarding reparations machinery.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 115013

Measures concerning the Abolition of the Guard by Police Officer for Reparations Installations Due to the Reform of the Police System

---

As a result of the reform of the Police System, it has been decided that the special guard activities higherto conducted by the police for reparations installations shall be abolished and the stationing of police officers to guard the factories designated for reparations will not be continued any longer. The police assistants concerned will be discharged, and consequently there is the necessity of amplifying the guard capacity on the part of custodians of respective factories. To meet the said situation, it is intended that measures thoroughly competent in every respect will be adopted along the following lines:

1. The present guard system will be actually abolished on February 1, 1948, and, in order to meet such abolition, all arrangements must be completed by January 31, idem.

2. With regard to the guard system following the stop of special guard activities of the police, the custodians of respective factories must study carefully and fix definitely beforehand adequate methods on conferring with various organs concerned and in accordance with actual circumstances.

3. Sufficient consideration must be given to the methods of liaison with the police, tec., in case of the happening of any offence in connection with the custody.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

4. As to the necessary strength of newly required personnel due to the abolition of the stationing of police officers and assistants, specially careful consideration must be given, and an estimate must be made, including guards and the like now employed, and in accordance with plans adequately fixed for guard arrangements.

5. For the employment of newly required personnel, as in accordance with the above plans, various phases of the situation must be taken into consideration, and fit applicants, if any, from among the present police assistants to be discharged due to the enforcement of these measures should be adopeted as far as possible.

6. For the preparation and enforcement of these measures, intimate conference and liaison between the custodians of respective factories and the police with jurisdiction over them beforehand, so that the matter may be smoothly carried through.

7. For the various items of expenditure required by the enforcement of the measures, necessary steps will be taken on the part of various Ministries concerned.
