HEADQUARTERS I CORPS
APO 301 (Kyoto, Honshu)
CIVIL AFFAIRS SECTION

MEMORANDUM: 5 July 1949

TO : Liaison Officer
Kyoto Liaison & Coordination Office
(Headquarters I Corps)

1. The handling of repatriates is a Japanese Problem. To date the problem has not been well solved in regard to the maintaining of peace and order. In order to avoid a civil disturbance and a riot similar to the one which occurred in Kyoto on the Fourth of July 1949, the following steps should be taken:

a. Pertaining to the handling of repatriates

(1) The general policy of handling repatriates should be one of kindness and firmness. If the repatriates violate the law, they should be arrested.

(2) The handling of repatriates can be devided into four stages:

(a) First stage is their embarkation from the Russian port for Japan. During this stage every effort should be made by trained speakers on board ship to explain to the repatriates what the situation is in Japan, what they should expect, and how they should act.

(b) Second stage is a Maizuru. In addition to the present processing, repatriates should again have the situation in Japan explained to them, and it should be emphasized that they should see what the situation is before they make up their minds about what they should expect. Railroad tickets should be given toeach man and not to any group leader, Men should be loaded on cars according to destination. Railroad cars should be grouped according to the general direction in which they are going and in the order in which they will be detached from the train.

(c) Third stage is enroute from Maizuru to their homes. Ordinarily once repatriates have been loaded on a car they should not get off that car until they reach their hometowns. It is necessary for personal comfort, exercise etc. that repatriates get off the car, the stop for this purpose should be at such place that no disorder can possibly develop. Food, water and so forth for the entire trip should be provided at Maizuru. Then it is necessary to shift cars to make up new trains, this should not to accomplished at railroad stations but out in the marshalling yards at least four or five miles from the station.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

(d) Fourth stage is their arrival home. A welcoming committee composed of representative substantial citizens to include Red Cross, non-political welfare workers and families and friends should be on hand to greet them.

(e) Education. All communities should be advised of the necessity of assembling repatriates shortly after their arrival home to explain what the new Japan means to them and to Japan.

b. Pertaining to control of Persons other than repatriates

(1) Police should understand clearly that they are responsible for the maintenance of Law and order and that they have a special law for keeping peace when trains stop at or pass through railroad stations (Railway Business Law #65, A.D. 1900). No demonstration or gathering of a large group of people should be permitted. Only Red Cross, non-political welfare workers and official Japanese welcoming committees should be permitted to contact repatriates prior to their arrival at their homes. It is desirable to have a band at the station to welcome men returning home. In the case of trains passing through or being broken up and cars reassembled in new trains, sufficient police should be on hand to prevent any contact made with the repatriates.

(2) The police should announce in the press and otherwise that no demonstrations of any kind will be permitted in front of railroad stations and that all reception activities will be officially represented. The police should be stationed at the doorways of all cars, at marshalling yards to see that repatriates do not dismount and see that only those repatriated who are destined for that place get off. The police should be told to use the necessary force to see that this is carried out.

(3) It is only possible to control the repatriate problem if every one has a clear understanding of what the policy is and he carried it out firmly. The communists and other extremist elements should not be accorded any special privileges in the way of conducting private demonstrations and should be arrested for distrubing the peace if they do not keep within the bounds of law and order.

(4) Civil Affairs does not advocate violation of law by the police but when police see someone doing something wrong they are right in arresting him and letting the courts determines whether or not he is guilty.

京都連絡調整事務局連絡管宛

1. 復員者の取扱は日本の一つの問題である平和と秩序の維持に関連してこの問題は今日迄良好に解決されてゐない。1949年7月4日京都で起った如き混乱と騒擾を避けるための次の措置を取るべきである。

a. 復員者の取扱に関しては

(1) 復員者取扱の一般原則は親切と断固たるべきこと若し復員者が法を犯すならば逮捕すること

(2) 復員者取扱は四つの段階に分つことが出来る

(a) 第一段階はロシアの港からの乗船であるこの間では訓練せられた情報者(話して聞かせる者)が船上で日本の状態は如何うか如何なことを予期すべきか如何に行動すべきか等を説明するやうあらゆる努力をなすこと

(b) 第二段階は舞鶴に於てである現在やってゐることの外に復員者に更に日本の状態を説明し彼等を待受けてゐる事柄について自分の決心を作り上げるに先立ってまづ実際の状態をよく見るべきであるといふことを強調して聞かせること

(c) 第三段階は舞鶴から家庭への帰路である普通の場合一度乗車した復員者は故郷の町へ到着する迄列車を下りてはならない若し各人の休養運動等のために列車を下りる必要のある場合はそのための停車地は何等混乱の起り得ない場所でなければならぬ　全旅行に要する食糧水等は舞鶴で給与すること

車輌を入替へて新しい列車を編成する必要のある場合はこれは驛に於てせず驛から少くとも四〜五哩離れた操車場に於て為すべきこと

(d) 第四段階は家庭への到着である市町村民代表者赤十字党派関係にあらざる厚生事業員家族及び友人より成る歓迎委員は直ちに復員者を迎へて挨拶するやう用意してゐること

(e) 教育 復員者が家庭に到着後早期に彼等を集合させて新しい日本が彼等及日本にとって如何なる意味を持つものであるかを説明して聞かせることが緊要なることを歓迎委員へ教示すること

b. 復員者以外のものの統制に関して

(1) 警察官は法律と秩序の維持について責任を持ってゐる。そして列車が驛に停車或通過する場合の平和維持のために特別な法律があること(鉄道事業法 #65 A.D. 1900)を明確に認識してゐなければならぬ 示威運動或は大規模な[illegible]

(2) 警察は新聞其他で停車場すでは如何なる種類の示威運動(デモ)も許されないこと歓迎はすべて政府が代表して行うということを広告せねばならぬ 操車場では警官を全車輌の出入口に配置し復員者が車を下りないやうに其処が到着地である復員者のみが下車するやうに監視しなければならぬ この任務遂行のためには必要な強制力を用いてもよいことを警官に傳達しておくべきである。

(3) 復員問題の統制は各人が政策を充分に理解しそれを確乎として遂行することに依ってのみ可能となる。共産主義者及他の不満分子は私的な示威運動を行ふための何等の特殊権利を許されてはならない。そして彼等が平和を乱して法律命令の範囲を越える場合は逮捕すべきである

(4) 民事部は警察官が法を犯すことを非難はしないが然し何者かが何者かの不正を行ふのを見た場合はその者が罪に当るか否かの決定は法廷に委ねることとし警官は彼を逮捕するのが当然である。

Subject: petition about promoting repatriation of Japanese abroad.

Dear Sir,

We express our deepest gratitude for great kindness and assistance of The Allied Powers about repatriation of Japanese abroad.

Now the fourth winter has come since the end of war. We think over 500,000 Japanese in USSR who have not come home. (Kochi prefectural people are about 5,000). Every member of their families and we feel deep sympathy for them, so we can't overlook the real state of affairs.

Would you kindly take trouble much more about promoting repatriation of Japanese in USSR.

Now Kochi Prefectural Assembly (which represent 800,000 prefectural people) express our solicitation for your kindness.

yours very respectfully,

Tokuro. Yokoyama.

This report depends upon reports from the Hata Branch of the Kochi Prefectural Office and Local Government Offices which collected ~~collected~~ reports about the repatriates from the masters of respective towns and villages. In this report a person, who was called to the colour a little before the close of the war in Manchuria where he lived, is included. Such a man is treated by "Sewa" (managing) Section as a demobilizer. We are afraid that some persons might be duplicated in report from this and "Sewa" Section. We sincerely ask you to understand this point.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

The short history of Yamato Rehabilitation Mutual Aid Assocation. (20, Sept. 1947)

We are very happy to write out our association's history and give the public the collect knowledge of it.

As all of you know, we all Japanese had nothing to do except the thing that were laid out for us to do after the surrender of Japan. But this phase of our livelihood was darkness itself and soon we were throwen into the extreme distitution.

At this time, under the kind instruction of the Okayama branch office of the Assistance and Guidance Association, we had organized a voluntary body to support ourselves and find out our eternal ideal for future, the place of the office first located at 2055, Akasaki, Akano Town, Kojima-Gun, Okayama, on 15. Sept. 1945.

The leading staffs at the time were:-

Enyu Kimikuni
Tasuku Hayashida
Koichi Ohta
Gyoki Ishii
Michiyuki Kiyooka
Nobuyuki Nakagawa
Homare Nishimoto
Tokichi Matsumoto Beside these, 50 membership of repatriators.

But this establishment went only on for a while, because we got instruction to disband by the Military Government for the reason that any body organized by repatriators only was against the policy, so once action taken to disband, the membership had no place to go and could not see what to do. So some leaders visited Welfare section of Okayama Pref. to get any advice, but were told there were no plan at all for the sufferers in the governmental offices and rather advised to find some means to get on our livelihood by ourselves. So we reorganized new body including repatriators, war-sufferers and demobilizers, who were suffereing acutly after the surrender of Japan and some supporters refusing to get any help from the government offices, and aiming for welfare shake to get on our livelihood by ourselves and the association was first sanctioned as regal by the Welfare Section of Okayama Pref. on 9, Nov. 1945.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

Days and months went on, so the body gradually and rapidly solid firmness, these mainly owing to the personal endevours of the president Minakami's appropriate instruction and general affairs chief Minakami's prminet scheme.

Meanwhile we legally established at seashore salt fields and acquired fishing equipmento and got released army boats for the transportation bussiness, and for inland districts we set up vocational equipments of charcoal, farming and various producing work shops according to their respective circumstances.

Responsing to the steady progress of the association now we set up our head office at 209, 2 chome, Iwai showa machi, Okayama, and chaned Akai Office as business center. We had renewed our staff members (appendix 1) and within half a year we organized so many branch office which you will see in the appendix 2 list and the number of the membership tolaliyes over 500,000 and now all these branch offices are all cooperating exerting fully their activity, Appendix 3 will show you our activity of welfare phase.

Coming to the conclusion we must not foreget to express our hearty thanks to both M.G.T. of Okayama and Kochi and all the prefecturel Offices where our branch offices situated for their kind help to make our association good. Now Japan is allowed to open her foreign trade again and naturally our association will partake to manufacture some exporting goods. In the end we will expect that all the membership will do his atmost for the sake of our society.

The Demobilization Business to be Carried out from Today in Consequence of the Innovation of Local Administrative System.

May 1, 1947
Zentsuji Branch Office,
C.D.L.B

With the effectuation of the New Japanese Constitution on May 3, the prefectures in Shikoku Island have started to deal with business as Local Public Corporations based on the Local Autonomy Act, which has resulted in the change of conducting demobilization business at large in this area.

Thus; the demobilization business refers to the Demobilization Bureau System (In the Shikoku area the Zentsuji Branch Office of Demobilization Liaison Bureau, as indicated in the following list) and the Home Office System. Bearing to complete the demobilization business through these two systems in each prefecture in close

which has resulted in the change of conducting demobilization business at large in this area.

Thus; the demobilization business refers to the Demobilization Bureau System (In the Shikoku area the Zentsuji Branch Office of Demobilization Liaison Bureau, as indicated in the following list); and the Home Office System. Bearing to complete the demobilization business through these two systems in each prefecture in close co-operation with each other, former 'Chihosewaba', the Local Assistance Bureau, has completely been amalgamated into the Public Welfare Board of the Prefectural Office to become one section of it; —— the business of the former Local Assistance Bureau has substantially been melted into the prefectural administrative business.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

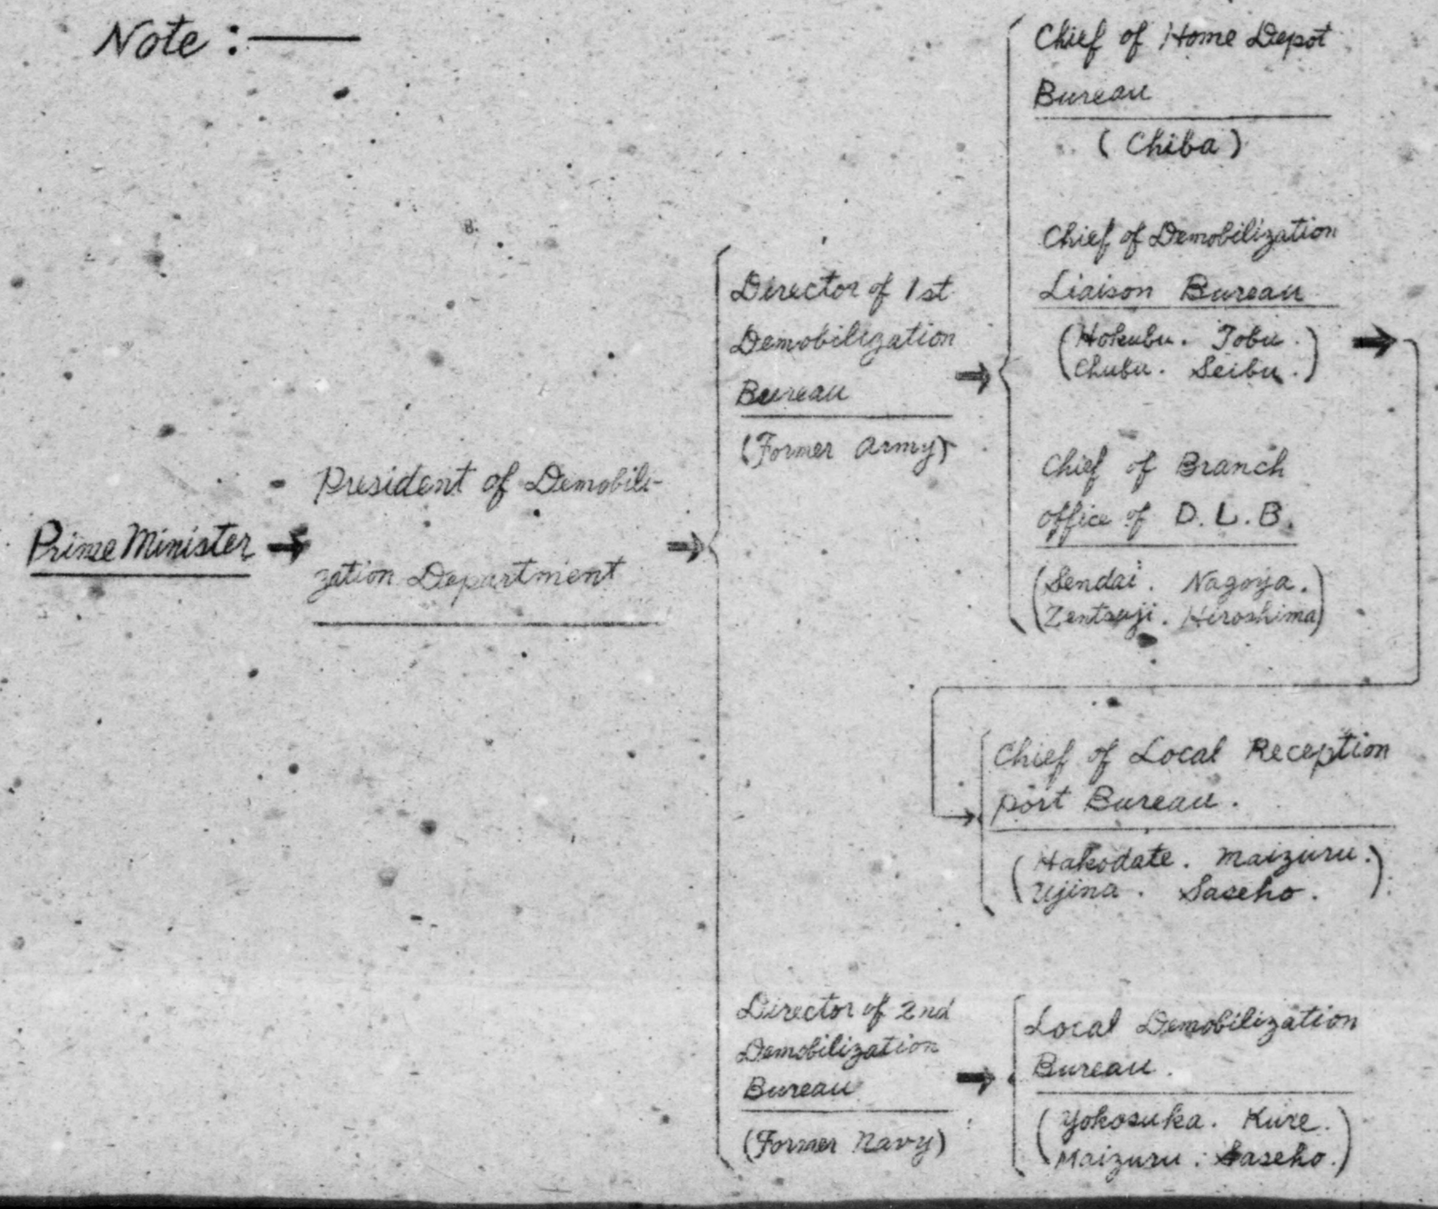
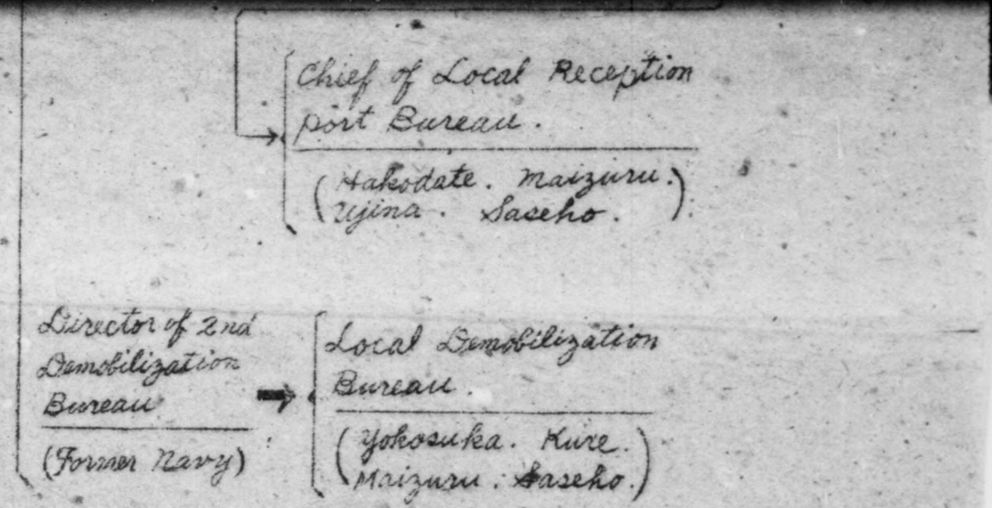
Note :—





- Detailed explanations are as follows: ——

(1) The Local Autonomy Act, Art 1, Paragraph 2 reads as follows:—

(a) 'To, Dō, Prefecture and Special City Authorities should deal with the business concerning ex-servicemen's (inclusive of civilians attached to the army and navy) conditions of life and salaries other allowances.'

In accordance with this regulation, the Prefectural Office Authorities ought to carry out the demobilization business concerned.

(b) Art 1, Pragraph 3 reads: ——

'The business refering to Paragraph 3 should be taken charge of by the Public Bureau in To, the Public Welfare Board in Dō, Fu, Prefecture, and the Bureau or Board selected by the mayor in City.'

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

Thus, a Bureau or Board which takes charge of the business has been selected.

(c) Art 1, Paragraph 4 reads :—

'The expenses needed for dealing with the business refering to Paragraph 1 should be State liability.' It has been pointed out clearly that the necessary estimates should be a charge on the national Treasury.

Note :— This estimates include the so-called runing expenses such as personal affairs expenses of the Assistance Section itself and office expenses etc., and the miscellaneous expenses for the Forces overseas such as the allowances for the dead and unrepatriates of the former Army.

(d) Paragraph 2 also reads :—

'In order to deal with the business refering to Paragraph 1, exceptional case can be settled by the Goverment Directive.'

This is for expediting business.

It implies that in accordance with an additional regulation

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

for the Forces overseas such as the allowances for the dead and unrepatriates of the former Army.

(d) Paragraph 2 also reads: —

"In order to deal with the business refering to Paragraph 1, exceptional Case can be settled by the Goverment Directive."

This is for expediting business.

It implies that in accordance with an additional regulation for the enforcement of the Local Autonomy Act such business as delivering the salaries or allowance to the Navy ex-servicemen's families etc. can be dealt with by the former Demobilization Department System for the purpose of expediting business.

(2) The Contents of the business to be dealt with by the Assistance Section which has been attached to the Public Welfare Board of the Prefectural Government Office are as follows: — (Note: No substantial change as compared with at the time of Local Assistance Bureau.)

(a) Readjustment and investigation business about those servicemen whose conditions are Quite unknown.

(b) Payment of miscelaneous allowances for the dead and

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

unrepatriates.

(c) Investigations or answers for the demobilization business as requested by the Occupation Forces and Home Organizations.

(d) The other necessary business.

These business are those of the Public Corporation (Prefectural government Office); the so-called "Corporation Commitment", in accordance with the New Local Autonomy Act.

Therefore, they should be left to the Governor's discretion without any restriction or control of the Central Organization. The Chief and the other personnels of the former Local Assistance Bureau have spontaneously become the officials of the Prefectural Government Office, the Governor himself having been definitely authorized to take charge of their appointment, dismissal and treatment of their social positions etc.

(Note: Some explanations concerning the ex-servicemen who are in charge of the demobilization business will be given at the end of this chapter.)

tance Bureau have spontaneously become the officials of the Prefectural Government Office, the Governor himself having been definitely authorized to take charge of their appointment, dismissal and treatment of their social positions etc.

(Note: Some explanations concerning the ex-servicemen who are in charge of the demobilization business will be given at the end of this chapter.)

On the other hand, along the line of demobilization of the Local Administration, the position of the Prefectural Committee has been much more strengthened, all the business inclusive of estimates or settling accounts being entirely supervised by the Committee.

The case is quite same with the whole demobilization business of all Japan having close connection with the National Diet to deal with it.

In short, the demobilization business in a Prefecture has become one of the most important prefectural administrative business, its proper and quick settlement being entirely depended upon by the extraordinal efforts and understandings

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 77 5013

of the Governor and the other prefectural personnels concerned. But, as for the operation of the business, as above mentioned, the Prefectural Committee plays the big part. Therefore, it is believed that the business can be accomplished by the sincerity and good understanding of all the people in the prefecture.

Note :— Among the personnels of the demobilization offices and the assistance section which has newly been attached to the prefectural government office, there exist some officials who fall within the purview of the Purge Directive because of the necessity to deal with the demobilization business properly, but the retention of their positions has been allowed in accordance with the so-called "Purge Directive" Chapter 8. The petition for the retention has been offered to the SCAP and acknowledged.

Directive because of the necessity to deal with the Demobilization business properly, but the retention of their positions has been allowed in accordance with the so-called "Purge Directive" Chapter 8. The petition for the retention has been offered to the SCAP and acknowledged.

(3) - The Connection with the Business in Charge of Prefecture and the Demobilization Bureau System..

It can definitely be said that it will only be completed by the close mutual cooperation and good unity of those two Organizations.

Indeed, it is necessary to have a close connection between the Central and the Local Organization, and a strong unity and practice through whole Japan in order to accomplish the business.

In this Connection, the Central authorities (Demobilization Department and Home Office) have reached an agreement completely. Minister Shidehara, President of the Demobilization Department, has requested the Governors of whole

Japan to have good understandings along the line, the basis on which the business to be practiced having been decided in accordance with the Demobilization Business Regulation hitherto used. (Demobilization and Home Depot Regulation, Unrepatriate's Investigation Regulation etc.)

As for the present situation of Demobilization business in the Shikoku area, the Assistance Section which has been recently attached to the Public Welfare Board of the Prefectural Government Office is dealing with its business in close connection with the Home Depot Bureau and Local Reception Port Bureaus as well as the Zentsuji Branch Office of Demobilization Liaison Bureau. On the other hand, the Branch Office is doing the liaison and readjustment duties regarding the Demobilization business of the four Prefectures in Shikoku, respecting their management of business best in accordance with the actual situations of the Prefectures.

in close connection with the Home Depot Bureau and Local Reception Port Bureaus as well as the Zentsuji Branch Office of Demobilization Liaison Bureau. On the other hand, the Branch Office is doing the liaison and readjustment duties regarding the Demobilization business of the four Prefectures in Shikoku, respecting their management of business best in accordance with the actual situations of the Prefectures.

We repeatedly have explaned here about the present situation of the demobilization business, while, at present, we have still so many unrepatriates of 53856 investigated at the end of march, 1947, the details of which being as the annexed paper.

Most of them are the so called unrepatriates whose conditions are quite unknown (mainly in U.S.S.R. area) or existence is not clear. Considering from those whose various business has not been finished yet in accordance with the Demobilization Regulation, it will add more number.

Reflecting the dead ex-servicemen, its bereaved families, unrepatriates who are still overseas to experience very hard-

ships, and those remaining families who have been anxious for their repatriation, we officials of the Demobilization Bureau and the Assistance Section can't help feeling acutely how little power and ability we have to accomplish the important business; —— indeed, we are doing our best, goading backs, to fulfill our duty.

Without regard to the change of the system, the Prefectural Government Office and the Demobilization Office will do their best in future, having close connection and good unite with each other, — this will be only and the best moral service to the society for us who are settling the affairs of the former Army.

We have earnest desire to accomplish the business which has come into the last stage as quickly as posible, always puohing and accelerating the officials in charge, expecting the sincere concerns and assistance of the people at large in the Prefecture, as the Demobilization Business has become

service to the society for us who are settling the affairs of the former Army.

We have earnest desire to accomplish the business which has come into the last stage as quickly as posible, always puohing and accelerating the officials in charge, expecting the sincere concerns and assistance of the people at large in the Prefecture, as the Demobilization Business has become prefectural administrative business in accordance with the recent change of the System.

There were twenty-three welfare men present at this meeting, the principle speakier was Mr. Hisashi Murata, chief of the Relief Section of the Repatriates Welfare Board at Uzina. He stated that there are about 12000 more repatriates to be returned to this Prefecture by this board, covering only the South Pacific. He explained that the reason why these people have not yet returned is that they are helping to reconstruct the countries in which they are being held, and even if they were free to return it is the rainy season and travel is at a minumum. The members of the meeting were told to remind the people to check the addresses they give, because if they are correct it will hasten the return of these repatriates. He explained that repartiates will furnished with supplies when they land; one suit complete with rubber shoes. He explained that if the repartiate loses his certification card, he can now have a new one issued, at his town office.
