DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

PLAN FOR OPERATION OF THE
TOKUSHIMA PREFECTURE
DISASTER RELIEF CORPS

(For the year 1949)

What D
1950,

The Tokushima Prefecture Disaster Relief Corps will carry out its disaster preventive of relief measures based on this plan in the event of any disaster threatens to happen or it actually occurs.

The present plan will be renewed every year.

General Affairs & Welfare Division

(Matters concerning consolidation, connection and control between divisions one another.)

1. Organization:

To ensure the speediness and definiteness of emergency relief, the members of the General Affairs and Welfare Division will be assigned to the following posts:-

(1) Head of Teams	Chief of Welfare Section
(2) Liaison, Information Counter-measures Sub-team	Secretary 3, Assistant clerk 1
(3) Relief Supplies Procurement and Delivery Sub-team	Secretary 5, Assistant clerk 1
(4) Field Rescue Sub-team	Secretary 4

2. Tasks assigned:

(1) The head of the teams will preside over his teams, be responsible to liaison and control between each division and instruct or supervise members of his teams.

(2) The Liaison, Information and Counter-measures Sub-team will be responsible to the connection between each team and will collect informations from the Fire-fighting and the Public Safety Divisions, and set up concrete counter measures including every fields of relief activities, under the command of the head of the team.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

(3) The Relief Supplies Procurement and Delivery Sub-team will be responsible to obtaining necessary commodities, based on the scheme settled as per the preceding paragraph, and at the same time to delivery of the commodities thus acquired to the stricken districts.

(4) The Field Rescue Sub-team will rush to the scene to give first aid to the victims in concert with the relief branch corps or units, and in the meantime report on emergency necessities or needy matters, and receive relief supplies (mainly dispatched from Welfare Section) keeping contact with the division head quarters and the scene.

3. Function:

The liaison between each division of Disaster Relief Corps and setting up of counter measures based on informations collected from other divisions.

Field Rescue Team:

(Matters concerning emergency relief in general)

(1) The emergency relief program will be carried out with the relief branch corps in the disaster-stricken area as its nucleus, being assisted by the nearest police station and relief branch corps or units of the adjoining city, town or village. This division will also send its members tc take charge of relief work and establishing a connection with the Disaster Relief Corps headquarters.

a. Setting up of shelters:

As a principle, a school building, a Shinto Shrine, a Buddhist temple, a public hall or a theatre will accomodate those victims who have no relation or acquaintance available for a temporary shelter. In case more accomodation is necessary, any inn or private dwelling will take them separately. At the same time, temporary buildings will be constructed speedily to meet the demand in the minimum.

The Construction Material Team, Construction Division will be informed of the necessary materials needed for the construction.

b. Supplying meals:

In accordance with the provisions of the Disaster Relief Law, a relief branch corps or members of the emergency meal supplying teams of relief units will be instructed to supply emergency meals within a period of six days according to the degree of the disaster. As for the foodstuffs needed for the action, it will be informed to the Food Team of Economic Division.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

c. Supply of bedding and clothing, free of charge or for temporary use:

In co-operation with fire-brigades, youth associations, womens' associations, etc., supply of bedding and clothing, free of charge or for temporary use will be asked, appealing non-affected people and adjacent towns and villages to meet immediate need of the victims. At the same time the stock will be released for distribution to the sufferers with or without charge, keeping in touch with the Daily Necessities Team of Economic Division.

d. Measures for nurselings and infants:

Milk or sugar will be supplied to nurselings wanting the mother milk, keeping contact with the Food Team, Economic Division for fresh, condensed or powdered milk and with Daily Necessities Team for sugar.

e. Supply of school accessories:

Text books, note-books, pencils and other school things will be supplied, free of charge or for a consideration, to the suffered children, in concert with Education Affairs Section, Education Division.

f. Burial:

In case the number of deaths are numerous, members of a relief branch corps or a unit will dispose of their bodies under the instruction of the police.

Public Safety Division

(Matters concerning the guard informations in the area under the jurisdiction of National Rural Police Force of the prefecture.)

(Matters concerning the police affairs in the area under the jurisdiction of National Rural Police Force of the prefecture.)

(Matters concerning the liaison with the police of cities, towns and villages.)

1. The business of Public Safety Division in the event of emergency of disaster will be handled by Guard Section, N.R.P.F. Tokushima Prefectural Headquarters.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

2. In the event of disaster emergency, the police reserve of the prefecture will be called out, level by level, necessary number according to the degree of phases of the disaster.

3. In the event of disaster emergency, communications will be maintained to the fullest extent, supplementing the exclusive police telephone system by making good use of telephone lines of the post office the government railway, and the power transmission company, or emergency messengers.

4. The transport of policemen for concentration, posting, shifting or sending them for assistance or other purposes police vehicles and vessels will be used, with supplementary use of private motor vehicles and vessels previously arranged for hiring for an emergency.

5. A concrete plan to be followed will be set up beforehand to dispatch the policemen to put them to action in case of emergency with the consideration for their shelters, food and other requirements.

6. The business concerning informations about vigilance, police affairs and connection with the concerned city, town and village offices is specified as follows:

(1) Matters concerning informations about vigilance.

a. Informations about vigilance will be collected promptly and accurately so that the real situation of a disaster be grasped to set up necessary counter-measures.

b. Collection of informations will be made strictly limited to the purpose of keeping guard, not to be averted from the main purpose, except in the case of setting up disaster counter-measures.

(2) Matters concerning police affairs.

Since the main points of the police affairs in time of a disaster emergency include, as a rule, rescue of human lives, leading of sufferers to the safety zone, prevention of crimes and maintaining of public orders, co-operation will be rendered to field units in executing their jobs of taking in victims and other relief work, keeping a close contact with them.

(3) Coodination with the city, town and village police -

a. Every measures will be taken to meet any possible emergency throughout the prefecture in a close concert with the police force of the local autonomy even if no proclamation of a national emergency is proclaimed in accordance with the provisions of the Police Law.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

b. Relative to the above-mentioned co-ordination, the Tokushima Prefectural Federation of Public Safety Commissions decided the agreements as given below.

7. The function of each team of the Public Safety Division is as follows:

Information & Liaison Team.

Matters mentioned in 2 above.
Matters mentioned in 6, (1) a. b above.

Guard Team.

Matters mentioned in 6, (3) a; 6, (2).

Crime Prevention Team.

Crime Search Team.

Matters mentioned in 6, (2) above.

Communications Team,

Tokushima branch of Communications Section, Guard Division, Hiroshima Police Regional Headquarters.

Matters mentioned in 3 above.

Transport Team,

Matters mentioned in 4 above.

8. The traffic control for the general public to ensure relief activities in the concerned area in case of fire and other calamity, will be carried out based on the following program:

(1) For the purpose of ensuring rescue work to the fullest extent so that to prevent risks and looting in the affected area in the case of fire flood or other calamity, a police cordon with a radius of about 220 m. will be drawn, banning traffic beyond the cordon with the exception of the persons given below:

a. The firemen and persons engaged in the rescue work against fire, flood or other disaster.

b. The persons who are dwellers or owners of houses within the cordon and or their relatives or acquaintances wishing to engage in the rescue work.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

c. The persons in the employment of the office, school or business concern located within the cordon.

d. A person on official duty.

e. A person carrying a certificate identifying him or her as permitted to enter into the cordon by a competent person.

(2) Traffic will be controlled also out side the cordon to ensure the activities of firemen, flood fighting units or rescuing forces against disaster.

(3) The abovementioned control will be enforced by the police according to the provisions of the Road Traffic Control Law and the Minor Crime Law.

Fire-fighting Division (Fire Team)

(Matters concerning liaison with fire-brigades of cities, towns and villages in case of an emergency)

1. Organization:

Fire Team is composed of the following personnel:

Head of the team - Chief of the Local Administration Section.

Members - Secretary 4; non-regular official 2; employee 2.

2. Measures to be taken in advance:

(1) Warnings against a disaster.

a. The Chief of Fire-fighting Division (that means, heretoafter, Head of Fire Team handling business by the instruction of Chief of Fire-fighting Division) will issue disaster-warnings through disaster relief branch corps, based on the reports from the meteorological station.

b. The disaster-warnings mentioned in the preceding paragraph includes the following items:

Fire alarm,

To be issued in the event of the minimum humidity below 50% with a wind of a velocity 7 m. or with a wind expected to increase above 7 m.

Special fire-alarm,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

To be issued in the event of the minimum humidity below 40% with a wind of a velocity 10 m. or with a wind expected to increase above 10 m.

Special weather report,

To be issued in the event of increasing rain and wind that threaten to cause disasters.

c. Disaster-warnings will be transmitted through the exclusive police telephone system or by the common telephone service, and by radio if necessary for the general public.

d.

1. The fire-signal includes the following methods:

1) Fire-signals

2) Signals for fire warning

i	Signal for a fire in the neighborhood
ii	Starting signal
iii	Response signal
iv	Reporting signal
v	Signal for a fire extinguished

Fire-signals:

Classification	Signals by fire-bell	Signals by siren with an anti-trailing note device
Signal for a fire in the neighborhood; within a radius of 800 m from signal depot	o-o-o-o-o.... continuous beating	o - o - o.... 3-minute interval, 2-minute interval; Continuous short whistles

(9) Other preventive measures against the disaster.

Under an acute situation of a disaster, fire-bells will be rung and sirens will be whistled to inform the people of the pressing emergency.

4. Emergency measures.

(1) The chief of disaster relief branch corps of the striken area will make every effort without delay to execute the following matters, keeping a close contact with the police and fire-companies in his area:

a. Rescue of victims' lives.

b. Prevention of destruction of various natural recources against disaster.

c. Prevention and control of the calamity.

d. Guidance and taking care of refugees.

e. First aid to the sufferers (on the spot.)

f. Control of circulation of sensational rumors and issuing of notices to quiet down the uneasiness of the people in general or other necessary guidance.

(2) Sending guard forces (comprising firemen) for assistance:

The Chief of Fire-fighting Division will instantly send guard forces to the stricken area by the request of the head of the relief branch corps in that area in cooperation with the competent organ, if he deems it necessary under the situation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

5. Making a demand to the Occupation Forces or the police forces outside the prefecture for an action of rescue:

In the case where the Chief of Fire-fighting Division deems it necessary to ask help from the Occupation forces or the police forces outside the prefecture to check a disaster in larger scale, he will make a demand to the Commander of Disaster Relief Corps to that effect.

Information Team, Fire-fighting Division.

(1) Organization:

Information Team consists of the following staff:

Head of the team	Chief of Local Administration Section
Members of the team	Secretary 5, non-regular official 1, employee 3.

(2) Function:

The head of the team will submit the disaster informations given from the relief sub-corps chief and other reports on sending of rescue teams and other activities, to the following points to keep in touch with them:

a. Superintendent, National Fire Forces.

b. Commander, Tokushima Prefectural Disaster Party.

c. Each division chief of the Prefectural Government.

d. Commanding Officer, U. S. Civil Affairs Team.

e. C. I. C.

f. Neighboring prefectures.

(3) Sending of Information Collecting Teams:

The Chief of Fire-fighting Division (or Head of Information Team) will dispatch, by the instruction of the commander of Disaster Relief Corps, Information Collecting Teams, composed of members of Information Team, to the disaster stricken area to secure informations for the disaster plan.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

Sanitary Division - Medical Treatment Team.

(Matters concerning medical treatments and epidemic prevention)

1. Tokushima Prefectural branch of the Japan Red Cross will assume the task of medical treatment in a disaster emergency in cooperation with the prefectural Sanitary Division.

2. Organization:

The organization of the Medical Treatment Team is as follows:

(1) Head of the team — Vice-Director, Tokushima Prefectural Branch of the Japan Red Cross.

(2) The team will be sub-divided as follows -

Liaison & Information Sub-team
Medical Treatment Sub-team
Accounting Sub-team

3. Function:

(1) Liaison & Information Sub-team:

Attached to the Rescue Headquarters, this sub-team will set up necessary rescue measures according to the situation and degree of the calamity, collecting informations from local rescue teams, keeping contact with chief of Sanitary Division.

(2) Medical Treatment Sub-team:

This sub-team will assume the task of first aid to the sick and wounded in the stricken area.

(3) Accounting Sub-team:

Attached to the Rescue Headquarters, this sub-team will be responsible to receiving in and paying out of cash, medical supplies and delivery thereof.

4. Setting up of Rescue Headquarters:

In the event of a disaster emergency, Rescue Headquarters will be set up within the Tokushima Prefectural Branch of the Japan Red Cross, to get in touch with the Prefectural Disaster Relief Party and other concerned organizations for the speedy activities of its function.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

(1) In case there is fear of disaster, team members will, according to their respective function, guard, patrolling at various installations under their control irrespective of warning or no warning and strive for prevention of accident.

(2) Each business office (camp) workers will keep clear share of guard section, patrolling route and method in case of disaster.

(3) Team chief will permanently prepare reasonable amount of standing materials at warehouses, business offices and camps under his control in order to make smooth an urgent rehabilitation work.

As to item and quantity of standing materials, they will be decided according to situation of time.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

III. Emergency measures after outbreak of disaster

1. Report of situation and emergency measures

(1) In case of outbreak of disaster, a patrolling guard must make possible effort for emergency and at the same time, send urgent report of the following items to information sub-team.

a. Time and place of disaster

b. Summary of damage and development

c. Summary of persons and materials needed for rehabilitation

d. Requirement or no requirement of sectional help

(2) Rehabilitation measure sub-team will work out urgent rehabilitation measures in consultation with other sub-teams and in gripping actual state of circumstance.

(3) Power supplying installation rehabilitation sub-team will immediately set up rehabilitation works plan, inform other sub-teams of required materials, quickly detail required force and launch rehabilitation works.

(4) Electric wiring rehabilitation sub-team will, according to its function, launch rehabilitation work same as above.

(5) Materials sub-team will consult with main office and materials possessing bodies concerned and decide method and route for procuring materials which would be required for rehabilitation.

(6) In case help is considered necessary from other organizations and local people according to degree of disaster, the electric power team will report to prefectural disaster relief corps and will set up a plan for required force and materials.

(7) As to state of rehabilitation, the information and rehabilitation measure sub-team will report to prefectural disaster relief corps, main office and others concerned.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

2. Liaison with transportation, communication and other organs

In anticipation of blocade of transportation and communication facilities according to condition of disaster the team will set up concrete plan of cooperation with transportation and communication agencies as to transportation of materials, information and liaison in close contact with prefectural disaster relief corps.

It is same with measures for medical treatment, lodging and food.

ARABLE LAND DIVISION

Arable land team

(Matters pertaining to urgent repairing of lockgate, flood-gate and arable land)

I. Organization

Arable land team will be formed of the following sub-teams:

Team chief --- Chief of arable land section

Liaison sub-team --- Sub-team chief and some members

Urgent materials sub-team --- "

No.1 Section aid sub-team --- "

No.2 Section aid sub-team --- "

II. Plan of activities

1. In case public installations such as arable land, bank and embankment, irrigation pond, farm road or water way is or is afraided to be damaged by wind and rain and quake or so reported, the team chief will call sub-team chiefs and members without delay and take quick and proper measures to meet the case.

In the above case, the team chief will report the situation to prefectural disaster relief corps and arable land division chief. In case team chief is absent, liaison sub-team chief will take charge of the case.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

2. Liaison sub-team chief will, under direction of team chief, mobilize sub-team members and take charge of liaison business with prefectural disaster relief committee office, all local administrative offices, all cities, towns and villages, ministry in charge and other organs concerned.

The above liaison will be conducted by telegraph, telephone, documents and official travelling.

3. Urgent materials sub-team chief will, under direction of team chief, mobilize sub-team members and will take charge of collection, distribution and transportation of materials in close contact with other sub-teams.

4. No.1 section aid sub-team will, under direction of team chief, mobilize sub-team members and proceed to the spot to help local administrative office or city, town or village in close contact with other sub-teams and engage in urgent measures and investigation.

No.1 section covers the following districts:

districts under jurisdiction of Kaifu, Naka, Katsumyo local Administrative Offices

5. No.2 section aid sub-team will, under direction of team chief, mobilize sub-team members and proceed to the spot to help local administrative office or city, town or village in close contact with other sub-teams and engage in urgent measures and investigation.

No.2 section covers the following districts:

Districts under jurisdiction of Itano, Awa, Oe, Mama and Miyoshi local administrative offices.

6. Each sub-team will make mutual assistance in accordance with place and degree of disaster.

Emergency call and temporary formation of prefectural officials

I. In case the commander of prefectural disaster relief corps considers that scale of disaster is too big and is more than the relief corps can manage, he will apply to the governor for prefectural officials' help.

II. In the above case, the governor will take the following steps.

1. Emergency call will be made for prefectural officials in order to secure required force.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

2. Prefectural officials will be despatched to help-wanting divisions and sections in accordance with degree of disaster.

3. Teams will be formed, if need be and will be despatched to disaster relief branch corps and disaster relief unit of disaster-stricken area.

OVERLAND TRANSIT DIVISION

Overland transit team

(Matters pertaining to overland transit of materials for disaster sufferers)

1. Formation

The overland transit team will be located at Tokushima Road Transit Control Office of Ministry of Transportation and be formed with the following institutions, organizations and personnel.

Tokushima Road Transit Control Office of Ministry of Transportation

Tokushima Charcoal Office of Ministry of Agriculture and Forestry

Tokushima-Ken Truck Asscciation

Tokushima-Ken Omnibus Association

Tokushima-Ken Private Motor Car Association

Tokushima-Ken Horse and Ox Cart Association

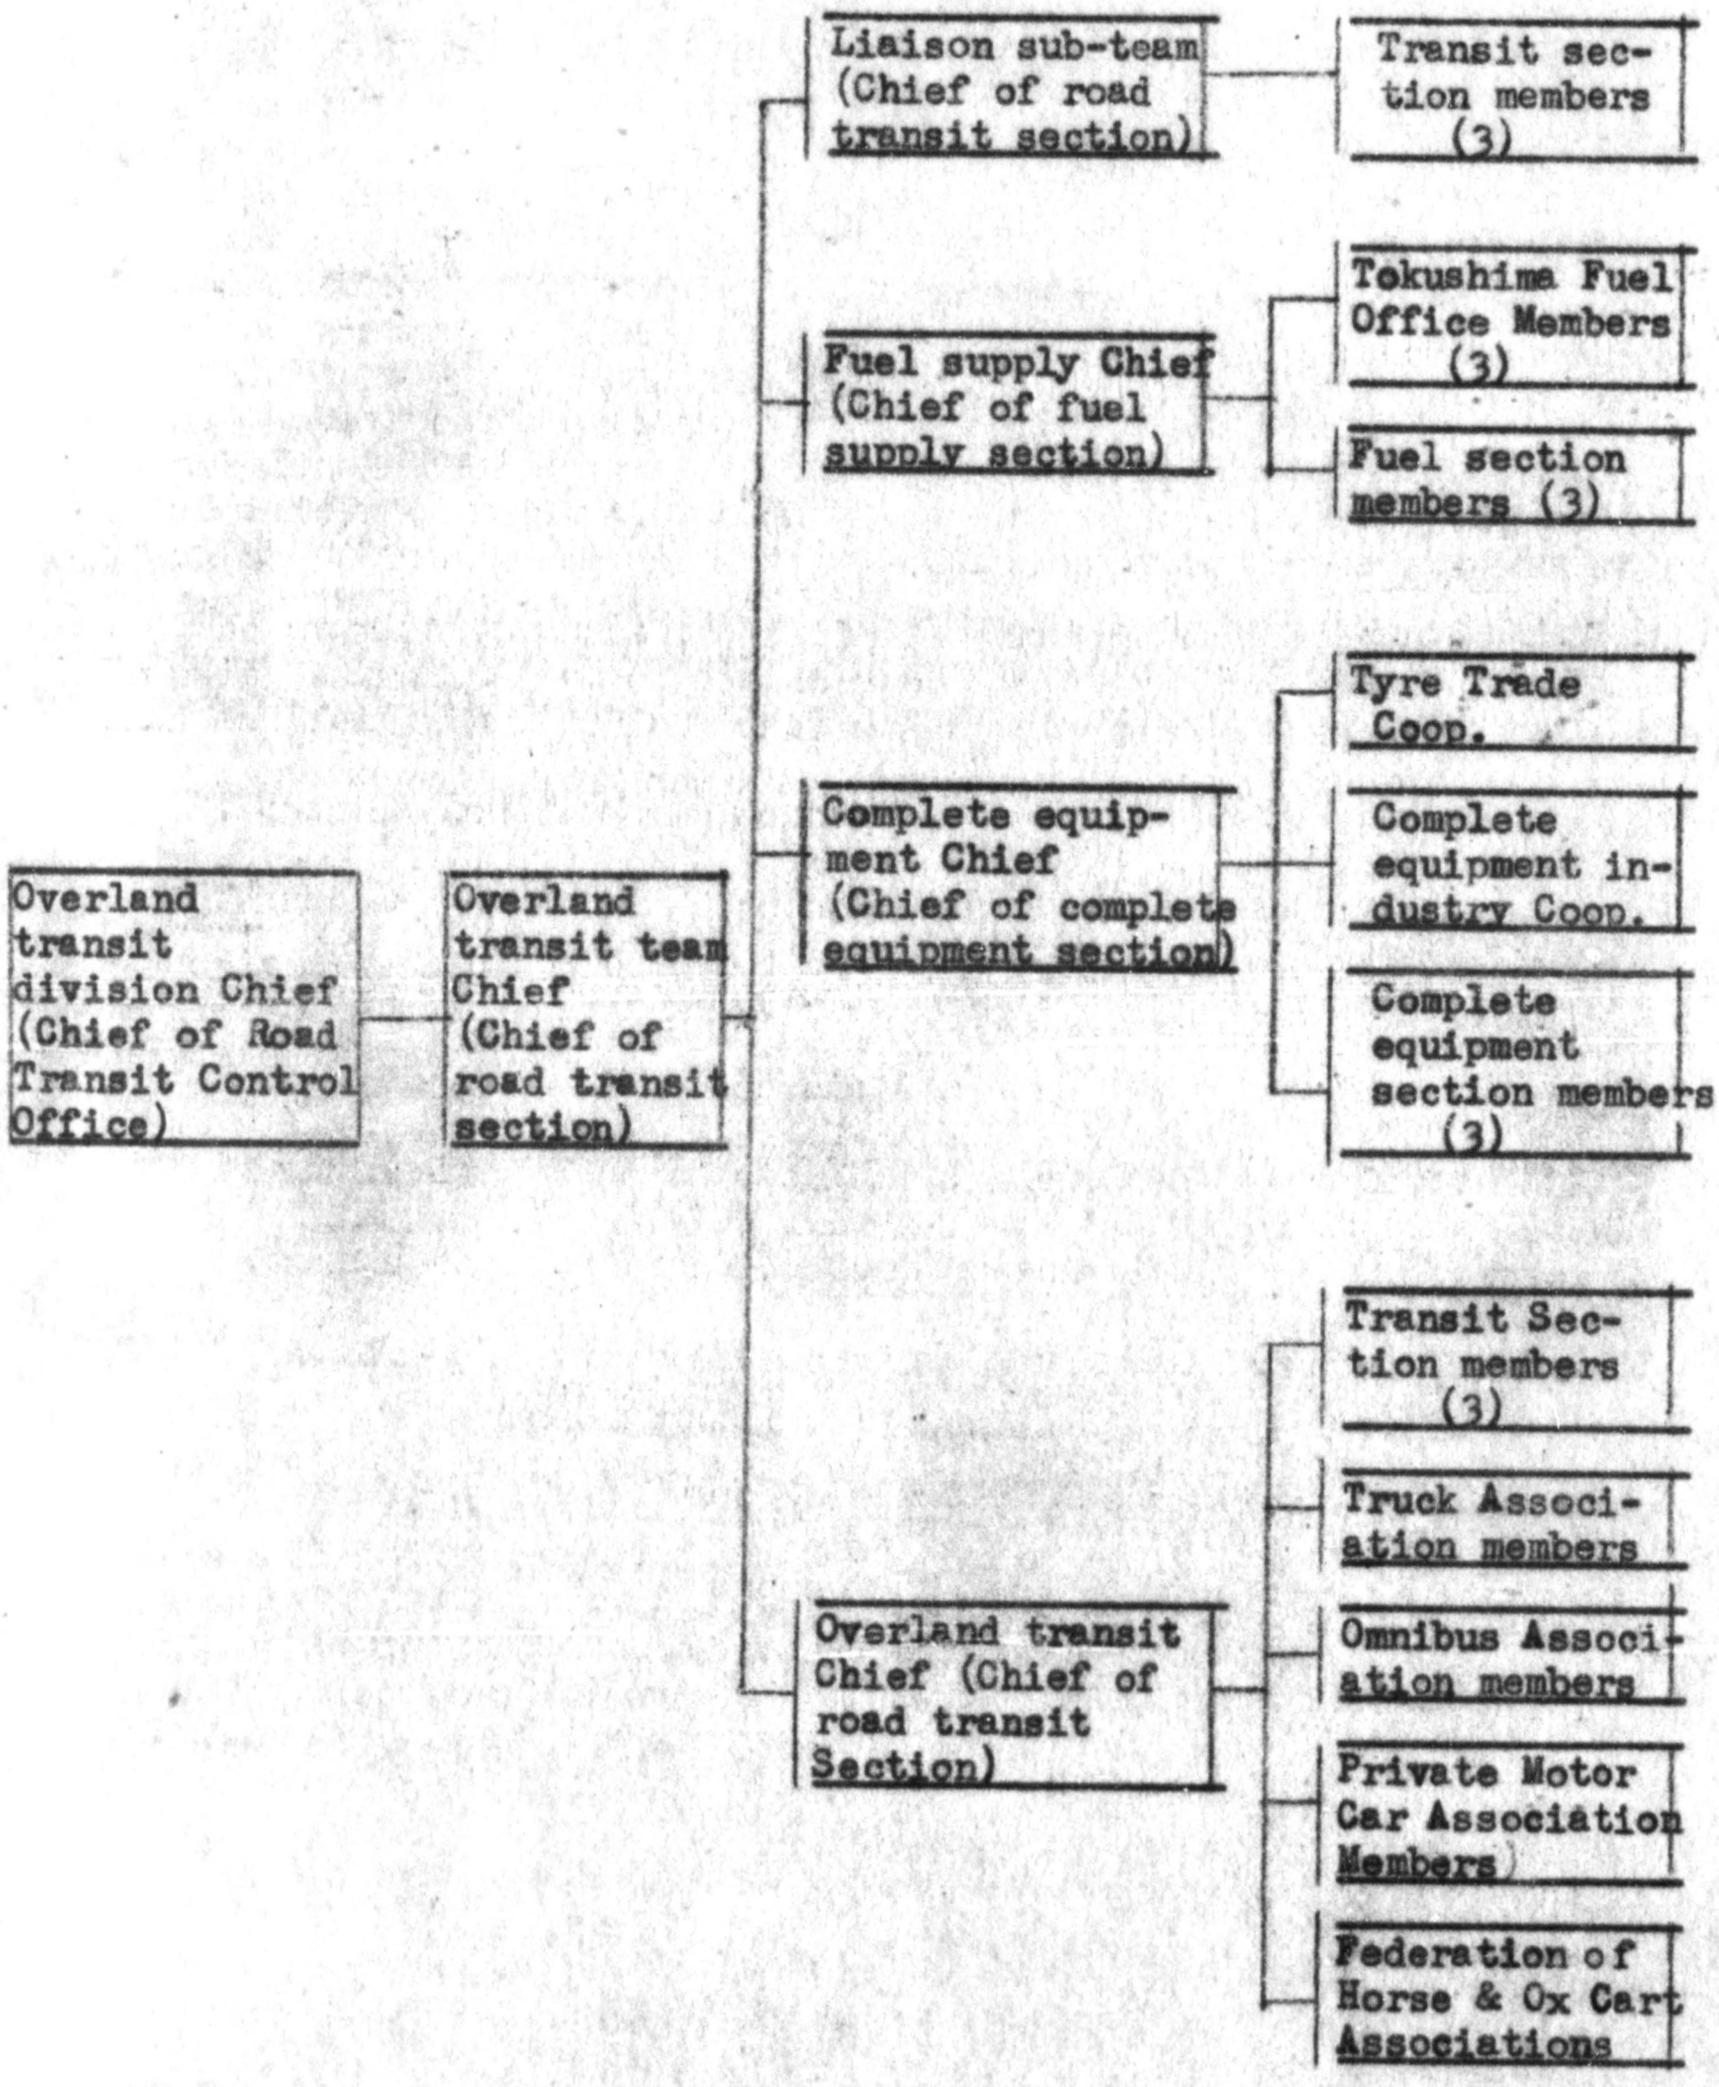
Tokushima-Ken Automobile Complete Equipment Industry Co-operative Association

Tokushima-Ken Tyre Trade Cooperative Association

Tokushima Railroad Management Office of Shikoku R. R. Division

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

2. Organization



DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

3. Breakdown of functions

(1) Overland transit Chief

The overland transit chief will, in accordance with instructions of the overland transit division chief, give order to quickly mobilize required vehicles to district in need of them.

(2) Complete equipment Chief

The complete equipment chief will, in accordance with instructions of the overland transit division chief, give order to quickly repair and equip incomplete vehicles in urgent district.

(3) Fuel supply Chief

The fuel supply chief will, in accordance with instructions of the overland transit division chief, give order to supply fuel in order to enable mobilized vehicles to work for required period.

(4) Liaison sub-team

The liaison sub-team will take charge of liaisoning between Tokushima-Ken Disaster Relief Crops and overland transit team.

4. Formation of vehicles to be mobilized

(1) Formation of mobilization vehicles will generally be classified as follows:

a. For liaison use --- Motor-car, small-sized car

b. For transit of people --- Motor-car, Omnibus, truck

c. For transit of things --- Truck, horse & ox cart

d. Reserved car --- All vehicles

(2) Order of mobilization of vehicles

a. Motor car, truck and Omnibus for trade use.

b. Motor car & truck for owner's use

c. Government-operated automobiles, and horse & ox carts

Note. Mail van will be excluded.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

(3) Order of mobilization classified by area

a. In case vehicles of disaster-affected area are workable due to degree of the disaster, mobilization will begin with vehicles of disaster-affected area and will gradually extend to those of adjoining areas.

b. In case vehicles of disaster-affected area are not workable as in the case of big disaster, vehicles of the adjoining areas will be mobilized and then those of further areas.

c. In case disaster covers the whole prefecture, vehicles will be mobilized from all directions.

(4) Indication of mobilized vehicles

Vehicles which are mobilized under an urgent transit order will bear the under-mentioned sign-board labelled on front window and on visible part of their body in accordance with classification of their formation.

Sign-board forms

30 cm.

15 cm.

For transit of things Disaster Emergency Car Section No.

For transit of people Disaster Emergency Car Section No.

For liaison Disaster Emergency Car Disaster Relief Corps No.

As to those of Overland Transit Division, indication as such.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

5. Delivery of instructions

(1) Responsible person for delivery of instructions

In order to deliver transit order and fuel supply order to the end agencies, each company or association will have a responsible person for delivery of order at its head office, branch office, business office etc. and will have them take charge of receiving and forwarding of orders.

(2) Method of delivery

Delivery will be conducted by means of letter form (written order), telephone and messenger and in general, the following order will be adopted:

a. Public telephone --- In case communication apparatus is not damaged and ~~itx~~ it is considered best to use public telephone.

b. Railroad telephone --- In case public telephone can not be used or it is considered best to use railroad telephone.

c. Motor car --- In case telephone facilities is not available or it is considered best to use motor car due to short distance.

d. Messenger --- In case methods of a, b and c are not available and the responsible person for delivery can not go himself.

(3) Provision of Order delivery record book

The company or association which is to receive an order for mobilization of automobiles will prepare order delivery record books and place them at its head office, branch offices, business offices etc, in order to take note of orders from Overland Transit Chief and at the same time, of full particulars of activities.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

Disasters Urgent Transit Order Record Book		
Time of receipt of order		Responsible person for delivering order

	Time of vehicle started	
	Vehicle No. Name of driver	Name of assistant driver

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

6. Enforcement of order

(1) In case a transit order is received, arrangement will be made to have vehicles arrive at the specified area or point at the specified time and stand-by.

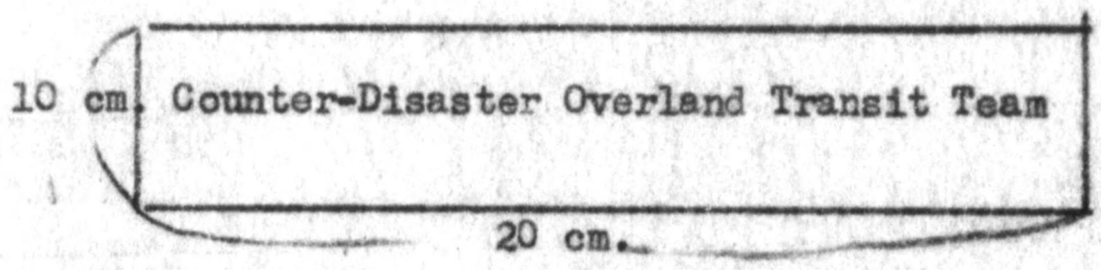
(2) Those vehicles which have received a complete equipment order will be sent to the specified repair factory without delay and the factory will give the first priority to such vehicles for completion of equipment within the specified time.

(3) The specified ticket will be issued for allocation of reserved fuel for emergency use under a fuel supply order and the ticket will bear the remark in red ink of "Disasters urgent relief use" on the margin, And the ticket owner will be given the first priority for materialization of the ticket.

7. Others

(1) The overland transit division chief will call up a disaster relief council and its office at time of disaster, but will close them if he judges them unnecessary.

(2) The Overland transit division members and responsible persons for delivery of orders will bear the following arm-band for discrimination from general people.



(3) Responsible persons of organizations and associations which consist of the overland transit division will decide division members and report to the division chief:

In case there is any change among members, the report will likewise be made.

(4) The sign-board of Overland transit team head office will be set up at the team office.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

MARINE TRANSIT DIVISION

Marine transit team

(Matters pertaining to transit of relief materials for sufferers)

I. Organization

Marine transit team of marine transit division will be organized with personnel of Tokushima branch office of Shikoku Marine Transportation Bureau and will have formation as follows:

Chief of marine transit division
Chief of marine transit team

and the following sub-teams will be established as subordinate structure.

1. General affairs sub-team
2. Liaison and information sub-team
3. Transit sub-team

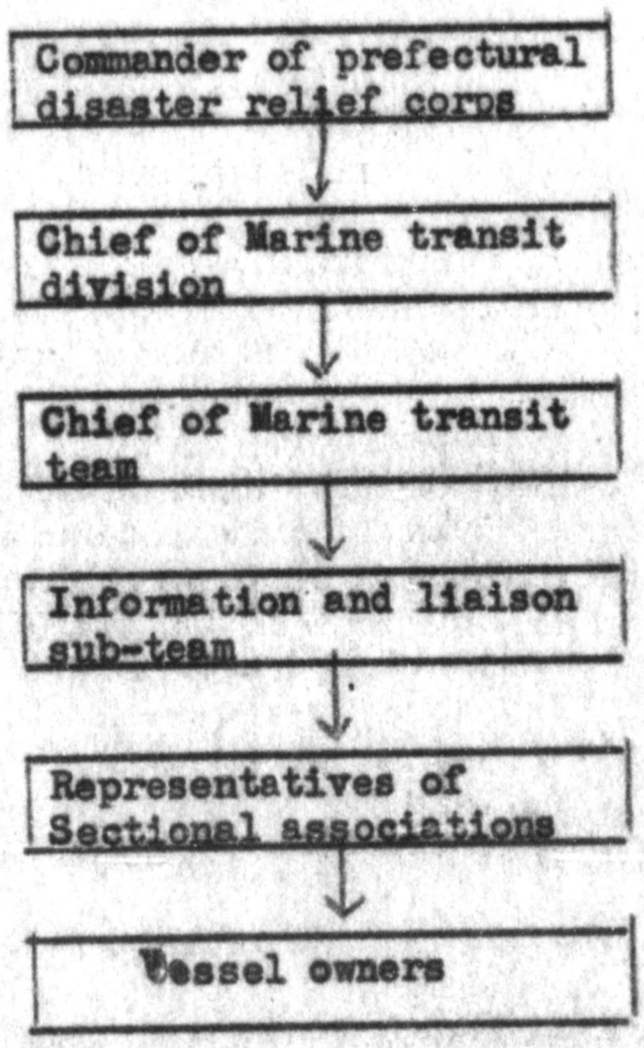
Breakdown of functions

Breakdown of team functions will be as follows:

1. General affairs sub-team
   (1) General affairs pertaining to relief
2. Liaison and information sub-team
   (1) Matters pertaining to information and liaison
   (2) Matters pertaining to call of vessels
3. Transit sub-team
   (1) Matters pertaining to transit of relief supplies for sufferers
   (2) Matters pertaining to transit of urgent rehabilitation materials
   (3) Matters pertaining to supply of fuel

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

III. Call of vessels for transit use at time of disaster will be conducted under the following system:



Number of vessels and transit capacity tonnage for each port

Port	Number of vessels	Gross tonnage	Capacity tonnage (deadweight)
Tokushima	104	2515	5929

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

FINANCE DIVISION

Budget team

(Matters pertaining to budgetary measures for disaster)

I. As to budgetary measures for relief as provided for in disaster relief law and for other emergency measures taken against ~~the~~ disaster, the sub-team will have consultation with other divisions and will meet the case in full.

II. Exemption or reduction of tax will be exercised to sufferers, if need be.

COORDINATING DIVISION

Coordinating team

(Matters pertaining to liaison and control of coordinating activities of organizations)

I. Function

Along with activities of government and public offices and Japan red cross society at time of disaster, in order to obtain cooperation as an urgent measure, the team will have close contact with various medical, material-possessing and other civil organizations for smooth execution of relief.

II. Establishment of coordinating committee

A disaster relief coordinating committee will be set up with representatives of civil coordinating organizations and will deliberate on basic plan for disaster relief and will decide general principles.

Immediate after outbreak of disaster, the team will call the committee, which will work out countermeasures for relief.

III. Plan for medical treatment and child delivery

1. Coordinating bodies

(1) Doctors' association

(2) Nurses, mid-wives, health nurses association branch

(3) Dental surgents' association

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

(4) Druggists' association

(5) Hospitals, clinics, lying-in hospitals and medical schools in cities and Gun.

(6) Medicines and chemicals distribution agencies and medical supplies association

2. Formation of Medical Coordinating Organization

The above medical organizations will be organized according to the following breakdown and make them cooperate with medical team of sanitary division of disaster relief corps.

(1) City, town and village disaster relief unit coordinating team

Tokushima City	12 teams	(with city doctors' association as its nucleus)
Naruto City	4 teams	(")
Town or village	1 team each	

(2) Coordinating organizations for disaster relief branch corps will be organized by unit of doctors' association of each Gun.

(3) Coordinating organizations for medical team, Sanitary division, prefectural disaster relief corps, coordinating units for city, town or village disaster relief unit, coordinating organizations for disaster relief branch corps will be organized.

Personnel and kind of the above coordinating organizations will be investigated all the time.

3. Drilling

Coordinating units will be sought to participate in relief drills of Japan red cross society head office and branch offices and will be made known area of action, scope of activities and methods of urgent relief.

4. Liaison

Liaison will be taken charge of by chief of disaster relief branch corps in case disaster is limited to a certain town or village and by chief of coordinating division of disaster relief corps in case disaster ranges over several towns and villages.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

III. Labor service plan.

1. Coordinating organizations:

(1) Servicing associations.

(2) Women's associations.

(3) Young men's associations.

(4) Juvenile red-cross associations.

(5) Other laborer's associations .

2. Training:

Participatinnis solicited in the training of the Red-cross Relief Team and the following trainings are usually conducted.

(1) Alarm forwarding.

(2) Transportation of patients.

(3) Guidance of refuge taking.

(4) Information forwarding.

(5) Transportation of resources.

(6) Supplying food and water.

(7) Distribution of food stuffs.

(8) Distribution of clothings and others.

3. Composition:

One or two teams are formed in every city, town and village, and the personnel of the team are alway kept re-enforced and the recognition of their duties is increased.

4. Connection:

When a disaster occurs only in one city, town or village, the commander of the local detachment corps will make a connection with others and other wise the commander of the coordinating division will do.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

IV. Plan of offering facilities and materials.

1. Coordinating organizations:

(1) Schools and temples.

(2) Wood distributing corporations.

(3) Staple foodstuff distributing corporations.

(4) Meat distributing corporations.

(5) Milk and production there of distributing corporations.

(6) Fruits and vegetables distributing corporations.

(7) Clothings distributing corporations.

(8) Daily necessities selling stations.

(9) Fire-wood and charcoal distributing corporations.

2. Arrangement:

Representatives of all organizations are called up and the following matters are discussed to meet any emergency.

(1) Name of articles to be offered or to be able to offer.

(2) Quantity.

(3) shape and No. of articles.

(4) Location of articles.

(5) Name and address of owners or custodians.

(6) Value and others of articles.

3. Connection:

As soon as a disaster take place, the chief of the coordinating division inquire about existence and quantity of articles to be offered and ask to supply those, if necessary.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

V. Plan of offering transportation facilities.

1. Coordinating organizations:

Motor-car companies.

2. Arrangements:

Representatives of all motor-car companies are called up and requested to inform and register the kind a and number of sets of motor-car, and the number of driver.

3. Arrangements:

Arrangements will be made by the chied of the co-ordinating division, in case a disaster occurs.

VI. Survey of the actual number of persons and ever ready materials.

Some persons are alway assigned to the arrangements making work as mumbers of the liaison servicing team of the red-cross servicing corps in order to keep situations informed and to grip the actual number of the following facilities all the time.

Survey of facilities in each Gun and city which can be controlled by the stipulations of the Disaster Relief Law, Article 26: Item I.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

AN FOR OPERATION OF THE
OKUSHIMA PREFECTURE
ISASTER RELIEF PARTY

S Tamaoka

(For the year 1948)

The Tokushima Prefecture Disaster Relief Party will carry out its disaster preventive or relief measures based on this plan in the event of any disaster threatens to happen or it actually occurs.

The present plan will be renewed every year.

General Affairs & Welfare Division

(Matters concerning consolidation, connection and control between each division)

1. Organization:

To ensure speediness and fairness of emergency relief, the members of the General Affairs and Welfare Division will be assigned to the following posts:-

(1) Head of Teams	Chief of Welfare Section
(2) Liaison, information counter-measures sub-team	Secretary 2, Assistant clerk 1
(3) Relief supplies procurement and delivery sub-team	Secretary 4, Assistant Clerk 2
(4) Field rescue sub-team	Secretary 2, Assistant clerk 1

2. Tasks assigned:

(1) The head of the teams will preside over his teams, be responsible to liaison and control between each division and instruct or supervise members of his teams.

(2) The Liaison, information and counter-measures sub-team will be responsible to the connection between each team and will collect informations from the Fire-fighting and the Public Safety Divisions, and set up concrete counter measures including every fields of relief activities, under the command of the head of the team.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175013

(3) The Relief supplies procurement and delivery sub-team will be responsible to obtain necessary commodities, based on the scheme settled as per the preceding paragraph, and at the same time deliver the commodities thus acquired to the stricken districts.

(4) The Field Rescue Sub-team will rush to the scene to give first aid to the victims in concert with the relief branch corps or units, and in the meantime report on emergency necessities or needy matters, and receive relief supplies (mainly dispatched from Welfare Section) keeping contact with the division quarters from the scene.

3. Function:

The liaison between each section of Disaster Relief Party and setting up counter measures based on informations collected from other divisions.

Field Rescue Team:

(Matters concerning emergency relief in general)

(1) The Emergency relief program will be carried out with the relief branch corps or units in the disaster-stricken area as the leading part of the action, being assisted by the nearest police station and relief branch corps or units of the adjoining city, town or village. This division will also send its members to take charge of relief work and to get contact with the Disaster Relief Corps headquarters.

a. Setting up of shelters:

As a principle, a school building, a Shinto Shrine a Buddhist temple, a public hall or a theatre will accomodate those victims who have no relation or acquaintance available for a temporary shelter. In case more accomodation is necessary, any inn or private dwelling will take them separately. At the same time, temporary buildings will be constructed speedily to meet the demand in the minimum.

The Construction Material Team, Construction Division will be informed of the necessary materials needed for the construction.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175015

b. Supplying meals:

In accordance with the provisions of the Disaster Relief Law, a relief branch corps or members of the emergency meal supplying teams of relief units will be instructed to supply emergency meals within a period of six days according to the degree of the disaster. As for the foodstuffs needed for the action, it will be informed to the Food Team of Economic Division.

c. Supply of bedding and clothing, free of charge or for temporary use:

In co-operation with fire-companies, youth associations, Womens' associations, etc., supply of bedding and clothing, free of charge or for temporary use will be asked, appealing non-affected people and adjacent towns and villages to meet immediate need of the victims. At the same time the stock will be released for distribution to the sufferers with or without charge, keeping contact with the Daily Necessities Team of Economic Division.

d. Measures for nurselings and infants:

Milk or sugar will be supplied to nurselings wanting the mother milk, making connection with the Food Team, Economic Division for fresh, condensed or powdered milk and with Daily Necessities Team for sugar.

e. Supply of school accessories:

Text books, note-books, pencils and other school things will be supplied, free of charge or for a consideration, to the suffered children, in concert with Education Affairs Section, Education Division.

f. Burial:

In case the number of deaths are numerous, members of a relief branch corps or a unit will dispose of their bodies by the instruction of the police.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

Public Safety Division

(Matters concerning the guard informations in the area under the jurisdiction of National Rural Police Force of the prefecture.)

(Matters concerning the police affairs in the area under the jurisdiction of National Rural Police Force of the prefecture.)

(Matters concerning the liaison with the police of cities, towns and villages.)

1. The business of Public Safety Division in the event of emergency of disaster will be handled by Guard Section, N.R.P.F. Tokushima Prefectural Headquarters.
