KEROSENE.

NOTICE TO FAMILIES

THE city papers having recently reported the case of a coal oil lamp explosion in the Fourth District, we think it proper to beg our customers not to confound the present Coal or Carbon Oils in the market (the greatest part of which is adulterated) with KEROSENE, a species of Coal Oil we have had the right to sell in Louisiana.

Kerosene, which is now manufactured under American and English patents, is BEYOND PREVENTION FROM ANY ADMIXTURE OF ALCOHOL, OR OF ANY VOLATILE OR VOLATILE. It is a new and improved product, ranking between the fixed and the volatile oils, as do all other rectified oils.

Manufactured by a particular process, thoroughly secured by letters patent, Kerosene is now acknowledged in the United States to be a perfect article and the only substitute for the burning oil whatever, as much for its illuminating power and economy as for its improved color and deodorization.

For what of Kerosene we have sometimes sold, and we will again sell, under similar circumstances, other coal oils, but in so doing we will always, as by the past, fully inform other brands, so as to detect any adulteration in them, or to see if they do not contain an excess of benzole, which sometimes renders the oil white being distilled, and thereby renders it volatile.

MISCELLANEOUS.

BRYSON'S AGUE CURE,

Prepared from a variety of Ague, Fever and Ague, Periodical Headache, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Ague Powders, indeed, for the whole class of Malarious Fevers, including the miasmatic emanations, engendered by the miasmata of miasmatic countries.

No one remedy is regular called for by the consumption of the American people than a safe and certain cure for Fever and Ague. Such cures are now unknown to science, with a perfect certainty that it will eradicate the disease, and with apparent hundred on proof, that no harm can arise from its use in any country, must be a great consideration in the consumption which it offers. Prevention is better than cure, and this remedy, by the rich which is more rare in virulent effects of Ague than any other, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity required for a dollar bottle is within the reach of every purse; and in bilious districts, where Fever and Ague prevails, the cheapest, and most, and most friendly both for cure and prevention. It is put up in this price will place it within the reach of all — the poor as well as the rich. A few spoonfuls of this remedy cover any other ever discovered, for the speedy and certain cure of intermittents is, that it contains no quinine or other injurious ingredient, to weaken the constitution. Those cured by it are left as healthy, and as free from the effects of the disease as those who never had it.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from the same source, among which are Headache, Rheumatism, Gout, Headache, Diarrhoea, Dysentery, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in the cause, yet on the Mississippi or in the Western Country, are cured by Bryson's Ague Powders, and Dr. Bryson's Ague Powders, and consequently resulting in the unknown disease, if taken occasionally or daily while exposed to the influence, will be arrested feeling the symptoms, and consequently resulting in well and healthy, and consequently cures them all alike. It is an invaluable preventative and by being invading or
