The Elections.

As the contest which then was, we ten we do not know the precise returns in the several wards throughout the city, but we believe that we may safely congratulate the lovers of law and order on the triumphant re-election of our excellent Mayor, A. D. Crossman Esq., and the Whig party on the General success of our ticket. The contest was animated and both parties put their best, for the Whigs toiled with an ardor and energy worthy of themselves and their glorious cause. They conquered, as they can always do in our city, when they will put their shoulders to the wheel and bring on their entire strength. The campaign has commenced auspiciously for the Whig cause. Be it our task to uphold and sustain it triumphally, until November next.

Insurrection in Yucatan.—We learn from Capt. Spooner of the schooner *Montana* arrived last evening from Laguna, which port she left on the 26th ult., that the Indians had unsuccessfully attacked the inhabitants from west to the sea shore. The U. S. steamer *Iris* was to leave Laguna on the 26th for Sisal, to take on board the inhabitants, and take them to Laguna. It was also stated that there was 40,000 to 60,000 Indians in the neighborhood of Merida, the capital of the province.

Terrible Shipwreck.—Over One Hundred Lives Lost.—The New York *Herald* of the 26th ult. contains the following painful narrative, transmitted by Telegraph from Boston:

Boston, March 25, 1848.—The back Aurora, reported by the Highland Mary at New York, 23 inst. on board part of the passengers of the Brazil ship Omega, from Liverpool, previously reported in the *Herald*, arrived at Halifax, on Saturday last, with twenty-three of those unfortunate people, having landed thirty-three in Canso, and the remainder, about seventy, having gone to Lunenburg. Many of the survivors are suffering from sickness. During the last seventeen days they were on board the Aurora, the allowance of food was limited to 24 ounces of bread, and a wine glass of water each day to every one on board. The British brig Barbara, Captain Skinner, from New York for Cork, with a cargo of corn, took on board about 250 persons on the 11th February, and shortly afterwards bore away for Newfoundland. On the 22d March, the steamer Hibernia, Captain Shannon, from New York, via Halifax, bore in sight a signal of distress was made; the steamer bore down to the Barbara, when the Captain of the latter vessel acquainted the steamer that they were out of water, and it was manifest indeed, there were some dozen and fifty persons on board who were in want of water—to which the Captain replied "there is water there, take it, the hold go there and get it"—and then passed on without stopping any inquiries, or making any effort to render them any assistance, though the wind was blowing off the land so strongly at the time that it was impossible to make it. In attempting to reach St. Johns, N. F. the vessel, the hull and drifted into a cove at the entrance of Percy Harbor, N. F. and went ashore, and, as we out of the heavy surf, struck a cliff and stove a hole in her bow. Thirty-five individuals managed to reach the shore, and in about five minutes after, the Barbara left over and went down, *carrying with her about one hundred and sixty souls*, among whom was Capt. Skinner, of the Barbara.

Pirate Captured, March 26.

Major Daniels, who was convicted sometime since of obtaining goods under false pretences, has been pardoned by Governor Shunk.

A man named John Hoffman, was arrested yesterday on suspicion of having been concerned in the robbery of the Chester county Bank. He had passed several notes of the old issue, all of which, except the stolen notes, have been called in and destroyed.

☞ Thanks to the officers of the steamer *Cincinnati* for late Cincinnati, Louisville, and other river papers. They contain nothing, however, later than we had previously received. The *Cincinnati*, we are requested to say, will leave on Wednesday, the 5th inst., at 4 o'clock P. M. for Louisville.

ALEXANDER WATTS, CASH has been appointed the international exchange agent of Indiana, with a salary of $100 a year.

City Intelligence.

Recorder Sentenced.—Peter Mouratos was yesterday arrested by colonel Breen, at the request of Mr. S. Conry, who charged him with throwing stones in his premises, and breaking the doors. The prisoner was yesterday brought up before Recorder Souzeneau, who discharged him.—There are now a great number of persons arrested for fighting and disturbing the peace, but the Hours release every one of them.

A Singular Charge.—We noticed yesterday morning, in the police book of the Second Municipality, the following singular item: William Brown arrested in the request of Simon O. Dassell, for having sold his wife, and also of having stolen a saddle. Brown had not yet been examined.

Dreadfully Sudden.—Yesterday morning, at half-past five o'clock, a young man by the name of James Irwin Jr., grand-son of Hon. Henry Clay, committed suicide in his room No. 274 in the St. Charles Hotel, by shooting himself with a pistol through the head. He died instantly. No cause can be assigned for the rash deed. Coroner Spedden was immediately called for, and held an inquest over the body. A verdict was rendered in accordance with the above facts.

As we go to press, a German named John Hatz, aged about seventy years, was yesterday found dead in his room on Old Levee street, No. 10, between Customhouse and Canal streets. He commenced suddenly to vomit from his bed, and died. The coroner held an inquest on the body, and a verdict rendered accordingly.

Drowned.—An inquest was held yesterday on the body of a young man name unknown, found drowned in the Mississippi river, at the No. 20, Second Municipality. Verdict—Found drowned.

Extra Lecture.—Tonight, Mr. Gibson conclude with a wish expressed by many citizens, to have an exposition of such scenes on Egypt as monuments are supposed to refer to the Hebrew captivity, and the days from Abraham to Moses—such as the *Bas-reliefs the Thirty Seven Tribes*, the *Passover of Nations*, &c. These scenes will also explain the *low caste* of captives among the Egyptians, in drawing, painting, sculpture and sculpture—I will be for these scenes worthy of the closest attention.

Gen. Taylor and Sentinel of Dr. Coffee.—The New York *Sun* has a telegraphic despatch to Boston, which says:

Dr. Coffee was found guilty of murder with Carter, Taylor was postponed until very soon after and Dr. Coffee and Sentinel. The verdict was given about 8 o'clock and at 12 he was a corpse.

The report of an attack on the Dr. was received in the Boston and New York papers. A letter from Albany announces the conversion of the prisoner, to Christianity.—There are some circumstances brought to light, which we publish, perhaps hereafter. The circumstances are of a nature so unusual that I do not write of them.

Horse Thieves.—Thursday night, near Redmond Bridge, Mr. John Power, who keeps a Stage Tavern Station, had his horse stolen from his stable, and he was enabled to track the horse by the footprints, which were plain, to Kate Ely Arrestine A. Wells. The horse was found in possession of Henry Gray, who claimed to have purchased the horse from Wells, at Quarter Branch Ascension, for $60. Wells is in jail. Suffice it for the present, that the horse is safe, and the thief is in the hands of the law.

Blackwood's Edinburgh Review.—The January number of the Edinburgh Review, has an article upon Lamartine's History of the Girondists, a very critical and interesting article, and a very good work of interest. We extract the last from the Edinburgh.

Cancer.—Some time since, we published the Dr. Charter, now the Kings of the French, which Charter, we stated, had put up a cancer. The warranty of our health, encouraged some hundreds to try the experiment, and we have received many letters from persons who have tried the Cancer Ointment, and have found it a most valuable remedy. We have received a letter from Mr. Jas. Monroe, Jr. Jackson Mississippi, in which he says, "I have tried the Cancer Ointment, and it has cured me of a cancer on my face, which I had for two years, and which had resisted all other remedies." We have received many letters of the same kind, and we have no doubt but the Cancer Ointment will cure all cancers, if it is used in time. We have received a letter from Mr. Jas.
