## INSTRUCTIONS

### E.S.B. Instructions No. 21

May 21, 1949

To Ministries concerned.

In accordance with the provisions of Article 15 of the E.S.B. Ordinance, the full text of E.S.B. Instructions No. 1, 1948, shall be amended as follows:

President of Economic
Stabilization Board
YOSHIDA Shigeru

Instructions for the Measures concerning the adjustment and others of the Telecommunications Facilities

Article 1. The object of the present Instructions shall be to adjust and coordinate the projects pertaining to various telecommunication facilities, and to control the telecommunication construction works as well as the transfer of the telecommunication equipment, in order to appropriate the production materials (to be referred to as materials hereafter) designated in annexed sheet of Cabinet Order No. 10 of 1946, for the most urgent use of telecommunication facilities and, at the same time, to secure the effective operation of such facilities.

Article 2. In the present Instructions, the telecommunication facilities shall mean the telecommunication facilities and their collateral facilities (to be referred to as facilities hereafter) to which the Telephone and Telegraph Act, Radio Act or other laws or ordinances are applicable, and the construction works of the telecommunication facilities shall mean the construction works of every kind (to be referred to as construction works hereafter) pertaining to the construction, installation, and maintenance of the telecommunication facilities, and the telecommunication equipment (to be referred to as equipment hereafter) shall mean those enumerated in Annexed Sheet No. 1 (except those designed for export).

In the present Instructions, the Jurisdictional Ministries shall mean the Jurisdictional Ministries enumerated in Annexed Sheet No. 2, and the Competent Ministries shall mean the Competent Ministries for the Communications enumerated in Annexed Sheet No. 2 of the Designated Production Materials Allocation Regulation, and the Production Jurisdictional Ministry shall mean the Competent Ministry for the telecommunication equipment enumerated in the same sheet.

Article 3. In case where the Jurisdictional Ministry executes its own construction works or the telecommunication facilities operating agencies under the jurisdiction of the abovementioned Ministry execute the construction works, the Jurisdictional Ministry shall present the construction project sheets for each quarter to the Minister of Telecommunications for his approval.

The Minister of Telecommunications shall, in giving the approval mentioned in Paragraph 1, adjust and coordinate the construction projects in conformity with the policy to be decided by the President of the Economic Stabilization Board, and submit the coordination plan to the decision of the Telecommunication Coordinating Committee.

The Minister of Telecommunications shall, in adjusting and coordinating the construction projects as mentioned in the preceding paragraph, especially take it into consideration to promote the execution of joint use of wire using facilities, in any case where such execution is practicable, in accordance with the "Instruction for the Joint Use of Wire Using Facilities (E.S.B. Instructions No. 15, 1949)

Article 4. The Minister of Telecommunications shall, in case where he has given approval to the execution of the construction works, inform the Economic Stabilization Board, the Competent Ministry and the Jurisdictional Ministry of the contents of such approval and, at the same time inform the Production Jurisdictional Ministry of the required amount of the equipment needed, classified by its kind.

The Jurisdictional Ministry shall give to the telecommunications facilities operating agencies under his jurisdiction the permission for the execution of the construc-

tion works, based on the approval mentioned in the preceding Article.

The Production Jurisdictional Ministry shall, as regards the equipment enumerated in Annexed Sheet No. 3, prepare a production plan, classified by the kind of equipment and the maker, based on the information of Paragraph 1, and inform thereof to the Minister of Telecommunications.

Article 5. The Economic Stabilization Board shall, based on the information of Paragraph 1 of the preceding Article, allocate the materials to the Competent Ministry and the Production Jurisdictional Ministry in accordance with the Regulations for the Designated Production Materials Allocation Procedure.

The Minister of Telecommunications shall (based on the information received from the Production Jurisdictional Ministry in accordance with Paragraph 3 of the preceding Article, in case of the equipment enumerated in Annexed Sheet No. 3) allocate the equipment required for the construction works approved in accordance with Paragraph 2 of Article 3 to the Jurisdictional Ministry.

Article 6. The Competent Ministry shall, in case where the allocation of materials thereto is made by the Economic Stabilization Board, allocate the materials to each demandant, based on the information of Paragraph 1 of Article 4, in accordance with the Regulations for the Designated Production Materials Allocation Procedure.

The Jurisdictional Ministry shall, in case where the allocation of equipment thereto is made by the Minister of Telecommunications, allocate the equipment to each demandant for the construction works authorized in accordance with Paragraph 2 of Article 4.

The Production Jurisdictional Ministry shall, on application made by makers who have been given orders for the equipment based on the allocation mentioned in the preceding paragraph, allocate the materials for the production of the equipment to each demandant, based on the production plan of Paragraph 3 of Article 4 and in accordance with the Regulation for the Designated Production Materials Allocation Procedure.

Article 7. The Jurisdictional Ministry and the Production Jurisdictional Ministry shall, based on the request from the Minister of Telecommunications, submit him the data necessary for the adjustment and coordination of the construction projects, such as inventories of stocks of equipment and materials, records on the conditions of production as well as shipment of the equipment, documents or maps enumerated in the following items:

1. Line map;
2. Circuit map;
3. Statement of Telecommunication facilities classified by station;
4. Office building map and diagram of apparatus site;
5. Maps showing the disposition of radio stations and the radio communication system.

Article 8. The Jurisdictional Ministries and the Production Jurisdictional Ministry shall establish and put into force the following regulations in accordance with uhe Temporary Materials Demand and Supply Adjustment Law:

1. No construction works other than those authorized by the Jurisdictional Ministry in accordance with Paragraph 2 of Article 4 shall be performed;
2. No transfer of equipment for the purpose of using it for the construction works shall be made except in case where the allocation certificate or other Official documents issued by the Jurisdictional Ministries are presented.
3. Agencies of telecommunication facilities shall submit to the Jurisdictional Ministries the construction project sheets of Article 3 and the data of Article 7.

Supplementary Provisions:

The Jurisdictional Ministries and the Production Jurisdictional Ministry shall, in accordance with the present Instructions, make the necessary amendments to the ordinances or other regulations established in conformity with the Temporary Materials Demand and Supply Adjustment Law.

The present Instructions shall come into force as from the day of enforcement of the Ministry of Telecommunications Establishment Law.
