Mrs. Shanette G. Blake
Secretary, Security Advisory Board
State Department
Washington, D. C.

Dear Mrs. Blake:

The enclosed list of U. S. Commercial Company Documents, which was recently sent to my office by the Reconstruction Finance Corporation, has been carefully reviewed and scrutinized with a view of determining possible changes in classification. After careful study, I recommend the classifications of the documents as indicated.

With reference to documents entitled "Manufacture and Sales, Communications Equipment by American Companies in Latin American Republics" and "Project No. 4, Haiti, Suggested Program of Work", these are at present not familiar to officers of this Department and since copies were not available for review, recommendations as to possible classification changes are withheld. I might suggest that according to the titles they could probably be classified "Unrestricted."

As to the document "U.S.C.C. Communications Division, General Technical Report of Mexican Mission," the contemplated merger of the two telephone companies appears to be approaching a climax and until these negotiations are consummated, no doubt the publication should be "Restricted."

I understand that Mr. Samuel Hill of the Army Industrial College is interested in the declassification of these papers.

Very truly yours,

Gerald Ryan

Washington 25, D.C.

Subject: Request for Declassification of "History of the War Refugee Board" Three Volumes, dated January 22, 1944 to September 15, 1945.

Consideration has been given to the request for the declassification of the secret category of the document in question. A review of this document discloses the current necessity for the protection of materials contained therein, which, if released, might prematurely disclose information unrelated to the Nuremberg trials.

In view of the foregoing and because of serious objection from a Departmental security standpoint, the declassification of the document is not approved. However, requests for the release of specific information or excerpts from the document for use in connection with the Nuremberg trials will receive further consideration when presented, and may be approved if such approval is deemed consistent with the provisions of the security regulations of the Department or not otherwise objectionable.

TO : Mrs. Shanette G. Blake, Secretary
State-War-Navy Coordinating Committee

DATE: Nov. 3, 1947

FROM : John D. Larson
Treasury Department Security Officer

SUBJECT: Declassification of Final Report of War Refugee Board

Attached is a copy of a request from Mr. M. J. Marks, General Counsel's Office, Treasury Department, for the declassification of the final report of the War Refugee Board. It will be noted that Mr. John W. Pehle, former Executive Director of the War Refugee Board, has been requested by Mr. Josiah DuBois, Deputy Chief Counsel assigned to the War Crimes Tribunal at Nuernberg, Germany to submit an affidavit for introduction as evidence in the I.G. Farben trial, much of the information for which will be derived from the final report of the Board hitherto classified as "Secret".

The Treasury Department has no objection to the declassification of this report for the purpose of this affidavit. It is therefore requested that you secure permission from the Secretary of State and the Secretary of War for the declassification of the report so that we can comply with the wishes of the Deputy Chief Counsel in Nuernberg.

It is further requested that this declassification be secured immediately in order that the affidavit may be transmitted to Nuernberg by Wednesday, November 5th.

M. J. Marks

Declassification of final report of War Refugee Board.

Mr. John W. Pehle, former Executive Director of the War Refugee Board, has been requested by Mr. DuBois, Deputy Chief Counsel assigned to the War Crimes Tribunal at Nuernberg, to submit an affidavit for introduction as evidence in the I.G. Farben trial that there was knowledge outside Germany as far back as 1942 of Hitler's extermination policy. The affidavit is also to include a statement of the steps taken to bring this knowledge to the German people.

Since much of the information for this affidavit will be derived from the final report of the War Refugee Board classified as "Secret", it would be desirable to have this report declassified for the purpose of this affidavit. For your information the War Refugee Board, consisting of the Secretary of State, the Secretary of the Treasury and the Secretary of War, was disolved in September 1945.

Since it is hoped to have the affidavit ready for transmission to Nuernberg by Wednesday, November 5, it would be appreciated if you could have the War Refugee Board report declassified by that time.

V..VENEREAL DISEASE.—**1.** It has come to the attention of the Department of the Army that various commanders have interpreted differently the phrase "repeated incurrence of venereal disease" as used in the Secretary of War's letter, WDAO-C 726.1 (24 Jan 47), 31 January 1947, Discipline and Venereal Disease.

2. For the clarification of all concerned, "repeated incurrence of venereal disease" is defined as the contraction of two or more cases of venereal disease by an individual, excluding double infection from a single contact.

3. The above definition does not alter or impair the right of the commanding officer to use his discretion in each case as to whether any action should be taken, as provided in paragraph 2*h* of the Secretary of War's letter referred to in paragraph 1.

Re: Permanente Metals Corp. v.
Birnie Electric Company

Gentlemen:

In accordance with telephone conversation with Colonel Hearndon this afternoon, I am writing to request the declassification of a letter dated 14 April 1944 from General Marshall for the Joint Chiefs of Staff to Rear Admiral E. S. Land, Chairman, United States Maritime Commission, bearing No. CS-7521, and relating to the construction of 130 APA's by the Maritime Commission for the Navy, and the diversion of six of said APA's for construction as naval hospital ships.

The purpose of this request is so that the letter can be used as an exhibit in connection with a lawsuit in which the United States Maritime Commission is interested whereby one of the Commission's contractors is seeking to recover a substantial sum of money from a subcontractor for the benefit of the Commission. Certain depositions in this connection are now being taken in Washington, D.C. by attorneys from the West Coast, and it is expected that the depositions will be concluded within the next few days. It is hoped that the letter can be declassified for use during the taking of the depositions.

Very truly yours,

III..MAIL ROUTING CERTIFICATE.—1. In all cases where War Department documents are to be transmitted via State Department channels, the office originating the transmittal, or its authorized representative, will cause to be placed in the lower left portion of the front of the outer cover a certificate applied by label, rubber stamp, or other legible means, of convenient size and displaying substantially the following data and form:

ROUTING CERTIFICATE

It is certified that contents require transmission indicated below. (Mark one.)

_____ BY COURIER (Hand treatment and registration to destination.)

_____ AIR POUCH (May be unaccompanied. Speed primary.)

_____ SURFACE POUCH (May be unaccompanied.)

Office or Phone _____ Name and Grade _____

2. In the "By Courier" category, security is primary, speed secondary, providing an appropriate channel for all material classified "Confidential" or higher. Shipments in the other two channels may or may not be accompanied by courier, and are appropriate for "Restricted" or unclassified material.

3. This certificate has evolved primarily for application to mail having classified contents, but may be applied to all War Department mail being or to be carried by State Department facilities. Before dispatch of the envelope or cover on which above certificate has been displayed, the necessary method of transmission shall be indicated by a mark placed in the appropriate space, and the certification completed by a signature and brief identification. It is intended that this certificate be executed and applied either by the office causing the transmittal, or by an authorized representative office, such as a message center or mail room or other office familiar with the classification and requirements of the certificated material.

(2) Requests for final action on orders for permanent change in station; reassignment to an Army installation; and separation from military service, will be made by the deputy administrator to the appropriate army headquarters. Army headquarters will forward requests for permanent change in station to the Director, Personnel and Administration, War Department General Staff, Washington 25, D. C., and requests for reassignment to an Army installation and for separation from military service to The Surgeon General, Washington 25, D. C. In the case of commissioned officers occupying centralized positions, prior approval will be obtained from the central office.

2. Section IV, WD Circular 191, 1947, pertaining to the foregoing subject, is rescinded.

[AG 210.31 (18 Aug 47)]

V..REGULAR ARMY OFFICERS.—**1. General.**—In any war or national emergency the officers and men of the civilian components (ORC, ROTC, and NG) will comprise the bulk of any U. S. fighting force. To insure that Regular Army officers are familiar with the problems, state of training, and psychological outlook of these components the following policy is announced.

2. Assignment policy.—So far as practicable, all Regular Army officers will be required to serve one tour of duty with one of the civilian components, i. e., the Organized Reserve Corps, Reserve Officers' Training Corps, and the National Guard; except that this policy does not constitute a requirement on officers of the Judge Advocate General's Department, Finance Department, or the Corps of Chaplains. Repeat assignments will not be ordered with the same civilian component and so far as availability of personnel qualified for this type of duty will permit, second assignments with civilian components will be avoided.

[AG 210.31 (28 Aug 47)]

VI..WD AGO FORMS 638 AND 639.—1. Paragraph 20, AR 600–45, 22 September 1943, as changed, provides that WD AGO Form 638 (Recommendation for Award—Meritorious Service) or WD AGO Form 639 (Recommendation for Award—Heroism) may be used in initiating recommendations for awards of decorations. These forms have been developed as an aid to recommending officers to assure that no essential detail, as outlined in AR 600–45, is overlooked; to minimize the lack of recognition of outstanding achievement due to the inability of persons making recommendations to adequately present the facts in support of the recommendation; and to avoid the necessity of returning recommendations to initiating individuals for additional information.

2. WD AGO Form 638 is for use in making recommendations for meritorious service and WD AGO Form 639 for making recommendations for heroism. Instructions for their use are printed on each form.

3. These forms are now available upon requisition through normal publications supply channels.

Mrs. Shanette G. Blake

Dear Mrs. Blake:

The regular quarterly report of the Clearing Office for Foreing Transactions, Department of Commerce, includes a chapter and appendix on civilian supply, including relief and rehabilitation, which are at present classified as "Restricted". (See attachments A and B).

This classification results from the inclusion of data which are reported to the Clearing Office by the War Department on BT Form 60 and BT Form 61 in accordance with Budget-Treasury Regulation 6. These data are essentially the same as that which the Secretary of War agreed to release for use in the foreign trade statistics of the United States (See attachments C and D). This information has also been released to the public to a great extent in the various hearings on War Department appropriation bills for civilian relief and also in the March 31, 1947 report of the National Advisory Bouncil.

In view of the general dissemination of the equivalent information, it is requested that the security classification with this chapter and appendix in the forthcoming June 30, 1947, and subsequent reports be removed. It is also requested that the classification of the current data provided by the War Department to the Clearing Office under Budget-Treasury Regulation 6 be removed.

We will appreciate an early response to this request as we are presently working on our June 30 report.

Very truly yours,

/s/ J. C. Green

DECLASSIFIED E.O. 11652, Sec 3(E) and 5(D) or (E) NND# 740132

May 16, 1947

Dear Mr. Green:

This is in further reference to my recent telephone conversation with Mr. Foster Mohrhardt, Chief of your Bibliographic and Reference Division, concerning the possible declassification of the economic, industrial and engineering publications referred to below under separate headings.

Manchuris (including Jehol) Principal Electric Power Facilities as of July 1945 - Provisional Edition March 1946.

I am submitting a copy of this restricted publication. Please note that many of the classified sources listed in the Bibliography on Page 42 can not be identified in the text as they had been used primarily for testing the basic information for the report. One or more copies of this publication have already been delivered to the following government agencies: Departments of Commerce, State, War, Navy, Treasury and Interior, the Central Intelligence Group, Library of Congress, Federal Power Commission, and Export-Import Bank. The remaining supply, 858 copies, is in the custody of the Army Map Service, Subject to Mr. Locke's or my request as to distribution. If this publication is declassified, the supply over and above further government requirements could be made available under whatever plan you believe is best for serving the broadest use.

Documents Referred to in Attached Copy of my Memorandum of April 15.

I am submitting a copy of Parts I, II, III and IV of my memorandum of April 15 to Mr. Locke concerning the documents obtained by his mission to Japan and China in October-November 1945 which have been translated, published and disseminated. I understand the remaining supply of these documents in the Documents Branch is limited. If this series is declassified and a complete set can not be obtained from the Branch, I might be able to spare one from our files.

Suggestions Concerning Declassification

The publications referred to under the two preceding headings were prepared under the arrangements of Mr. Edwin A. Locke, Jr. during the period of his service from May 1945 to December 31, 1946, first as personal Representative of the President and then as Special Assistant to the President.
