OUR $20.95 AND $21.00 HIGH SHELF FOUR HOLE ACME STEEL RANGE.

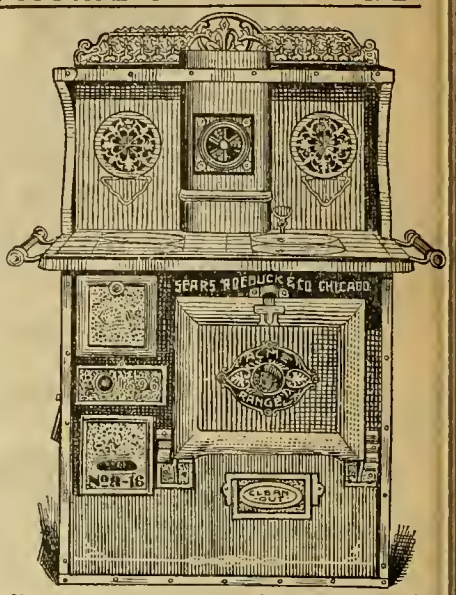
OUR SPECIAL OFFER PRICE OF $20.95.... Is based on the actual cost of material and labor, with but our one small percentage of profit added.

You can get this Stove from us either by sending full amount of cash with your order, or on receipt of $1.00, balance to be paid after received. If you do not

FIND IT EQUAL TO ANY RANGE

You can buy in your local market at $30.00 and upward, you can return to us, and we will refund your money.

WE GUARANTEE this Range to be made of highest grade of sheet steel, and 1 to 2 gauges heavier than any other steel range on the market, regardless of price. We guarantee it to combine the good qualities of every strictly high grade range, made with the defects of none.



This Range has all the very latest improvements, as explained under the heading of **Acme Ranges,** and we believe, without exception, is the **best finished and handsomest steel range** on the market, regardless of price.

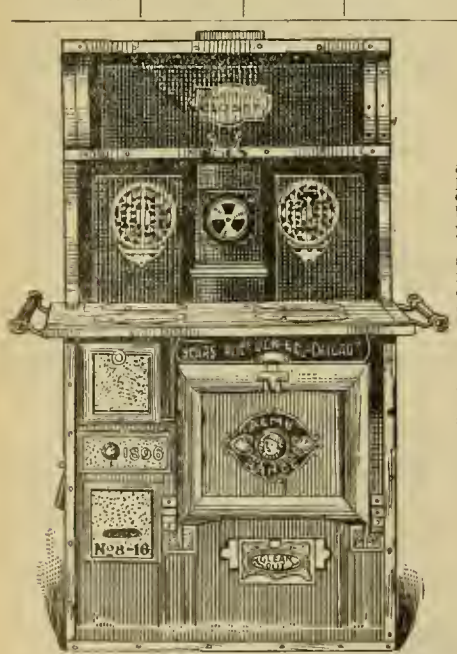
THIS $20.95 HIGH SHELF ACME STEEL RANGE is highly finished, with full nickel plated ornaments. Nickel bands on front corners, nickel bands on front edge of top of stove, **nickel bands on all front edges of high shelf, nickel oven door frame, nickel panel on oven door, nickel clean out door,** nickel fire door, **nickel bands on grate frame,** nickel front on ash pan, **two nickel tea shelves** and nickel **check-draft frame.**

THIS STOVE IS HIGHLY ENAMELED with the very best quality locomotive black, striped in fine lines of bronze, has highest grade **Duplex grate,** for either coal or wood, or both. **We guarantee it to bake quicker, consume less fuel,** give better service, and that you will find it the **handsomest range** on the market, regardless of price. **At our special price of $20.95 and $21.00,** we furnish in two sizes named below.

Size of cover and top same No. 74504 and 74505 at bottom of page.

PRICE LIST OF THE ACME FOUR-HOLE STEEL RANGE. WITHOUT RESERVOIR. WITH HIGH SHELF.

CATALOGUE NUMBER.	SIZE.	SIZE OF LIDS.	Height to Main Top in Inches.	Length of Fire Box for Wood in Inches.	Size of Pipe to Fit Collar in Inches.	WEIGHT. LBS.	PRICE With High Shelf.
74502	7-16	No. 7	29¾	20	7	320	$20.95
74503	8-16	No. 8	29¾	20	7	320	21.00



OUR $22.00 HIGH CLOSET ACME FOUR-HOLE STEEL RANGE.

OUR $22.00 RANGE IS EXACTLY THE SAME RANGE AS THOSE QUOTED AT $19.00 and $20.95, with the exception of the high shelf and closet combined. The closet is made in the latest patent roll top pattern, the same as roll top desks. As you will observe from the illustration, even the **roll top closet is highly ornamented with highly polished nickel plated bands, nickel plated shield, nickel plated handle,** and serves as a warming oven. Will be found very convenient and well worth the additional $1.05 in price, over the **high shelf** $20.95 range.

OUR BINDING GUARANTEE MAKES YOU PERFECTLY SAFE in ordering one of these steel ranges. You have a binding guarantee against breakage in transit, against defect in material or workmanship so long as you own the range, and a further **guarantee** that the range is made of heavier steel than any other **steel range** on the market, that in the **high class nickel trimmings throughout,** as fully explained under description of our $20.95 range, it is superior to any other range on the market, regardless of price.

WE BELIEVE OUR CUSTOMERS ARE ENTITLED TO THE VERY BEST at the least possible price, and in contracting for these ranges we went to the manufacturer whose reputation for the manufacture of the highest grade ranges on the market was a **guarantee for quality.** We had them made in such large quantities that we were able to reduce the price to a price even lower than inferior ranges can be sold in large quantities to dealers, and this is the price we charge you.

SEND US $22.00 OR $22.15, OR, IF YOU PREFER, SEND US $1.00, balance to be paid after range is received. We will send you the range, and if you do not find it exactly as represented, perfectly satisfactory, and a saving in price of $10.00 to $20.00, you are at liberty to return it to us, and we will cheerfully refund your money. **THIS HIGH SHELF, ROLL TOP CLOSET, SPECIAL ORNAMENTED RANGE is furnished at $22.00 and $22.15,** in the sizes and dimensions listed below.

....REMEMBER OUR LIBERAL C. O. D. OFFER....

SEND ONE DOLLAR and any **Steel Range or any Stove** will be sent to you by freight, C. O. D., subject to examination. Examine it at your freight depot and if found perfectly satisfactory, and exactly as represented, pay the freight agent our price and freight charges.

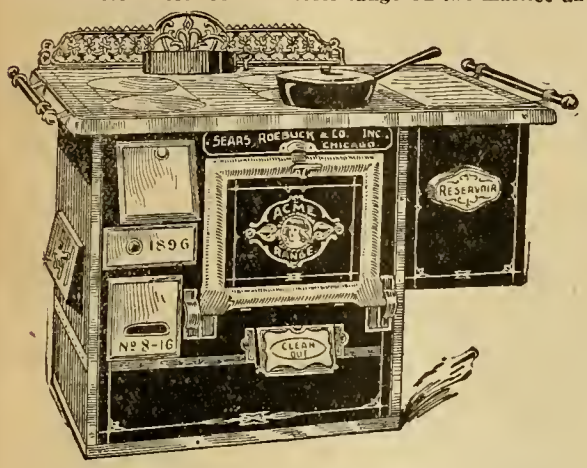
74505	No. 8	8-16	16x19x13	27x32	29¾	26½	31¼x14	20	7	332	22.15

OUR $24.05 RESERVOIR ACME STEEL RANGE.

AT $24.05 AND $24.10, according to size as quoted below, we furnish the same high grade, highly finished, nickel trimmed, 4-hole Acme steel range as previously listed at $19.00 and $19.05, with the addition of a large porcelain lined cast iron reservoir, as illustrated.

This Acme Steel Range is the exact range previously quoted in Nos. 74500 and 74501 at $19.00 and $19.05, with the addition of the large porcelain lined reservoir. This range contains all the improvements known in steel range making, all the good qualities of every high grade range made, is made from heavy sheet steel from 1 to 2 gauges heavier than any other steel range, is nickel plated throughout, the same as ranges previously described, and is offered at $24.05. It is the best 4-hole reservoir steel range on the market and offered in competition with ranges of like weight that have been retailed from wagons at $50.00 to $75.00, and equal to anything you can buy in your local market at $40.00 to $50.00.



Understand our steel ranges are guaranteed for wood, for soft coal, hard coal or for both wood and coal. Guaranteed the most economical in the consumption of fuel, most durable, most convenient and handsomest line on the market. **Send us $24.05, or if you prefer send us $1.00,** and this range will be sent to you by freight, and if you do not find it all and even more than we claim for it, and greater value than you could possibly get elsewhere, you are at liberty to return it at our expense and we will cheerfully refund your money. **Our binding guaraotee as to quality, our binding guarantee against breakage, our binding guarantee as to price** assures you such value in steel ranges as you cannot possibly get elsewhere. This range will be furnished in either of the sizes listed below for $24.05 and $24.10.

This range will be furnished with a bracket under reservoir, same as shown in cut of No. 74521. We added this feature after the cuts were made, but make no extra charge.

OUR $26.00 HIGH SHELF RESERVOIR ACME STEEL RANGE.

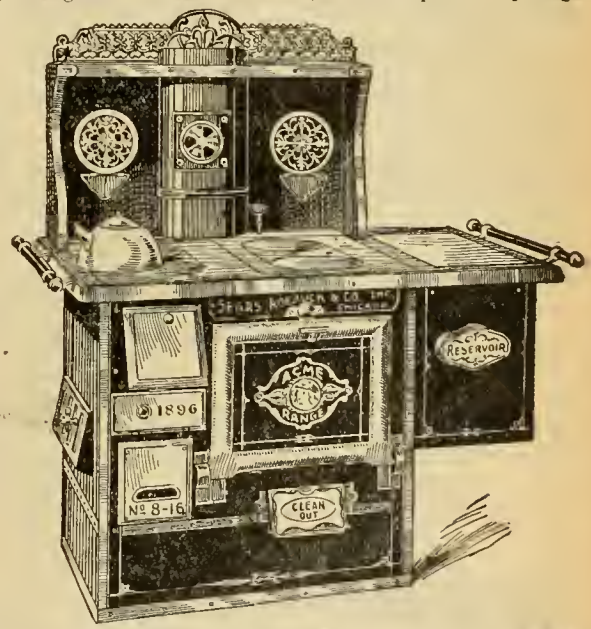
$26.00 IS OUR SPECIAL PRICE FOR THIS, the highest grade steel range made, 4-hole size, complete, with large porcelain lined reservoir, and high shelf, as illustrated.

When we guarantee that the Range is made of heavier steel than any other range on the market, that it is asbestos lined throughout; that it is highly nickel plated and finished throughout, the same as our **$20.95** range No. 74502; that it contains every good point of every high grade range made, with the defects of none; that it is superior in every way to ranges that have been peddled through the country from wagons at from $50.00 to $75.00; that it is equal to any range you can buy in your local market at from $40.00 to $50.00; that it is covered by binding guarantee as to quality, durability and price, that we **offer to send it to you to examine on receipt of $1.00,** we feel confident you will agree that we offer such values in strictly high grade ranges as were never before offered by any other house.

We have reduced the cost of manufacture by placing the largest order ever placed for steel ranges, with the best maker in this country. We give you the benefit of the reduction in cost, and ask you only one small percentage of profit above actual cost to make, and the result is you can own the highest grade, guaranteed steel range on the market at a price much lower than your local dealer can buy even in car load lots.

At $26.00 and $26.05, we furnish this range in the two sizes as listed below.

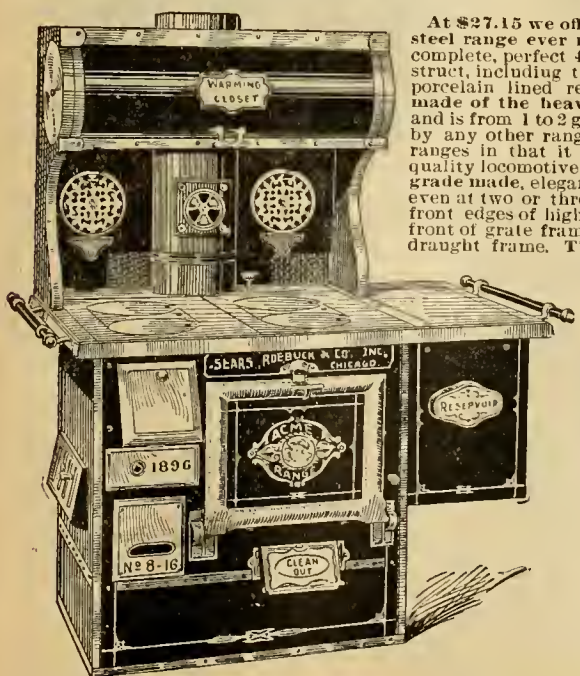
Without extra charge we furnish this range with bracket under reservoir, same as shown in cut of No. 74524.



LIST OF THE ACME 4-HOLE STEEL RANGE WITH RESERVOIR AND HIGH SHELF.

Catalogue Number	Size	Size of Lids	Size of Oven Inches	Size of Main Top Inches	Height of Main Top Inches	Length of Fire Box for Wood Inches	Size of Pipe to Fit Collar Inches	Weight	Price with High Shelf
74508	7-16	No. 7	16x19x13	43½x27	29¾	20	7	390	$26.00
74509	8-16	No. 8	16x19x13	43½x27	29¾	20	7	390	26.05

$27.15 FOR OUR HIGHEST GRADE 4-HOLE ACME STEEL RANGE.



At $27.15 we offer you the highest grade 4-hole steel range ever made by any maker. The most complete, perfect 4-hole steel range possible to construct, including the high roll top closet and large porcelain lined reservoir. **This $27.15 range is made of the heaviest plate steel used in ranges,** and is from 1 to 2 gauges heavier than the steel used by any other range maker, and differs from other ranges in that it is enameled with the very best quality locomotive black, striped in fine lines of bronze. **Nickel plating used on this $27.15 range is the highest grade made,** elegantly polished, and giving the range such a handsome appearance as you will seldom see in ranges even at two or three times the price. It has highly nickel-plated and polished bands on front of edges of top, on front edges of high closet, has nickel-plated oven door frame, oven door, clean-out door, fire door; nickel-plated front of grate frame and ash pan. Has two handsome ornamented nickel-plated tea shelves, and nickel-plated draught frame. **The high closet is made in the latest roll top style,** as illustrated. This stove has latest patent automatic balance oven door, the latest patent pull-out ash pan, the latest patent duplex grate which can be removed for repair without disturbing the linings. The stove is heavily lined throughout with asbestos, thus retaining the heat in the oven and making it the most economical range in the consumption of fuel, the quickest baker, we believe the most handsome, and by reason of being heavier steel, the most durable and longest wearing range on the market.

$27.15 is a price arrived at on the basis of the actual cost of material and labor, **with but** our one small percentage of profit added, and $27.15 is less than any dealer has been able to buy this stove in quantities for cash. We give you the benefit of our purchase, and offer you such a range as was never before shown at anywhere like the price.

We are anxious to receive your order for one of these ranges, for we know you will be so well pleased that you will favor us with your orders for other merchandise, your neighbors will see the range—will admire it, and we will be favored with more orders from your neighborhood. Send us $27.15, or if you prefer, send $1.00, balance to be paid after range is received, and with the range you get written binding guarantee, and if you do not find it all and even more than we claim for it, return at our expense and we will gladly refund your money.

At $27.15 and $27.20 we furnish this our highest grade 4-hole high closet reservoir steel range in the two sizes listed below.

WITHOUT EXTRA CHARGE THIS RANGE WILL BE FURNISHED WITH BRACKETS UNDER RESERVOIR SAME AS SHOWN IN No. 74527.

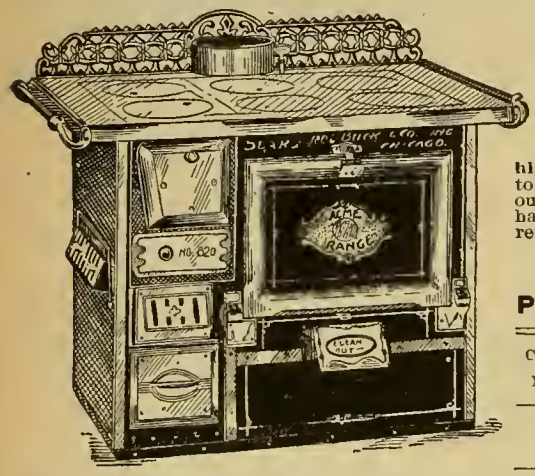
OUR $20.44 6-HOLE ACME STEEL RANGE.

AT $20.44, $22.95 AND $23.00, According to size, as listed below, we furnish our Acme, the highest grade 6-hole steel range on the market in competition with any range you can buy elsewhere at 50 per cent more money. We furnish you the Acme steel range guaranteeing it to be made of heavier sheet steel than any other stove; guaranteeing it to be asbestos lined, thus insuring you economy of fuel; guaranteeing the nickel plating to be of the highest grade; guaranteeing the stove to possess all the good qualities of every strictly high grade steel range, with the defects of none, and offering, if you so desire, to ship to you by freight C. O. D., subject to examination on receipt of $1.00, and if not found perfectly satisfactory and exactly as represented, allow you to return it at our expense and your money will be refunded.



OUR ACME 6-HOLE RANGE Is built exactly the same as the 4-hole range previously described, and the introductory description, as regards the heavy plates, the linings, the nickel trimming, grate, etc., etc., applies the same to this 6-hole range as to the 4-hole range.

THIS RANGE IS HIGHLY NICKEL PLATED THROUGHOUT Nickel bands on front corners, on front edges of top of stove, on oven door frame, nickel panel on oven door; nickel clean out door, fire door, nickel front on grate frame, nickel front on ash pan, nickel check draught frame, nickel end rods, and brackets all highly finished, polished and nickeled, and we believe the handsomest range on the market.

OUR ACME STEEL RANGES Have been manufactured with a view to furnish our customers the handsomest, most economical, most durable, and in every way the highest grade range possible to produce, and with a view of giving them the benefit of the reduced cost to manufacture where large quantities are turned out on a spot cash basis, and on this basis we quote our price of $20.44 to $23.00 on the sizes listed. If you don't find, when you get the range, that you have saved from $10.00 to $15.00 in price, you are at liberty to return range to us, and we will cheerfully refund the money.

WE FURNISH THIS 6-HOLE ACME RANGE AT $20.44, $22.95 AND $23.00, In the sizes and dimensions listed below.

Price List of the Acme Six-Hole Steel Range Without Reservoir.

Catalogue Number.	Size.	Size of Lids.	Size of Oven, Inches.	Size of Main Top, Inches.	Height to Main Top, Inches.	Length of Fire Box for Wood, Inches	Size of Pipe to Fit Collar, Inches.	Weight, Pounds.	Price.

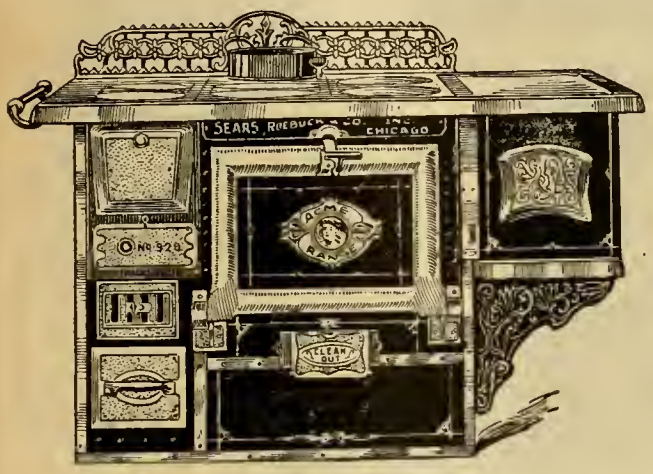
Our $25.48 6 Hole Reservoir Acme Steel Range.

At $25.48 to $28.60 we offer this large 6 hole Acme steel range complete with porcelain lined reservoir, with all the nickel trimming, all the improvements, and the paten features, the finish, with all the guarantee that has been named on the Acme Ranges previously described.

This range differs from those previously described only that this range has reservoir as illustrated.



WE GUARANTEE THE SIZES WE NAME. Do not take it for granted that stoves marked the same size as ours are actually the same size. In measuring ovens, we measure the actual size of the oven bottom. When you order a range from us, you get the exact same range that you see illustrated, the exact same size that we specify, and if you find that any steel range you order from us differs in the slightest degree from the illustration, from the description or from the guarantee, you are at liberty to return it and we will cheerfully refund your money.

THIS RANGE IS NICKEL TRIMMED THROUGHOUT, same as those previously described, contains every good quality of every high grade range with the defects of none, and is offered at the lowest price ever before heard of for high grade range—is the best range possible to build. Our special price $25.48 to $28.60 for the size listed below.

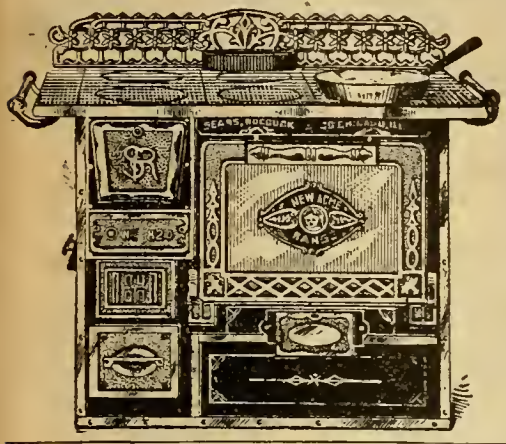
OUR $22.96 6-HOLE ACME STEEL RANGE.

THESE SIX HOLE RANGES which we quote at $22.97 to $29.70, according to size, are the very latest production in high grade steel ranges. They are built of exactly the same material, same finish, and have same guarantee as the Acme ranges previously quoted and described, but are built upon a somewhat different pattern as to size, shape, dress, etc., etc.



Our Acme steel range line embraces all the very best features of all strictly high grade ranges, of the very latest patterns, the highest grades of material, trimmings and finish, and gives you an opportunity of selecting not only the best and most handsome steel range made, but in up-to-date size and shape, according to descriptions given and illustrations shown.

Do not forget that the Acme steel range is made from steel plate, which is from 1 to 2 gauges heavier than in any other steel range made, that the nickel plating is the very highest grade, that it contains many special features not found in other ranges, that by reason of its heavy asbestos lining, it is more economical in the consumption of fuel, quick baker, and better stove than you can buy elsewhere.

Highly nickel plated throughout, enameled by the very best process, handsomely decorated and finished with bronze, it is the very latest pattern in the new model steel range, in any of the following sizes, at the following named and heretofore unheard of prices.

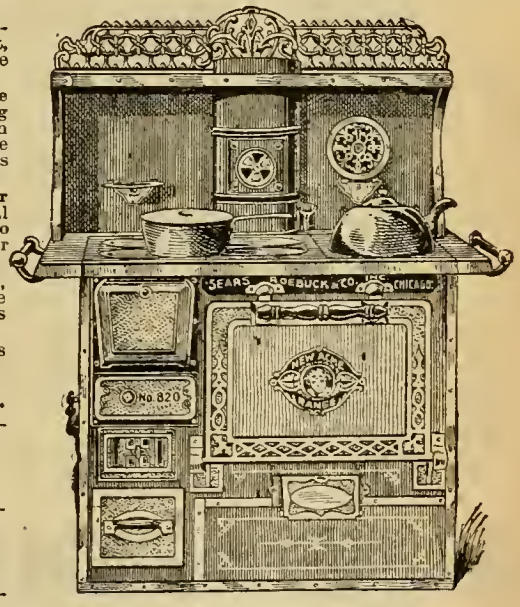
PRICES DO NOT INCLUDE THE SPIDER SHOWN IN CUT.

OUR $25.76 HIGH SHELF 6-HOLE NEW ACME STEEL RANGE AT $25.76 TO 33.65.

ACCORDING TO SIZE.

WE OFFER THIS NEW MODEL STEEL RANGE with high shelf, as illustrated, highly ornamented and nickel plated trimmings throughout, including all bands, mountings, etc., etc., the exact same range as our No. 74530 at $22.96, with the addition of the high shelf.



The new Acme steel ranges have been manufactured for us under contract by one of the largest, most reliable, and best steel range manufacturers in America. With a view of giving our customers the very best range it is possible to build, a range which in the consumption of fuel, in baking, in durability, wear, finish, handsome appearance, and in fact every way will excell any range you can get elsewhere, and yet save our customers in price the immense line of profits that heretofore has been charged up to this class of goods.

Different from peddlers who will ask you $50.00 to $70.00, different from the retail dealer who is compelled to ask you $40.00 to $60.00, we, figuring on the basis of the actual cost of material and labor, are able to offer you a strictly high grade 6-hole, high shelf range, complete at **$25.76 to $33.65,** according to size, and guaranteeing that it is a better range than was ever offered by any other house at anything like the price.

We protect you by written binding guarantee, and to show the confidence we have in these goods, on receipt of **$1.00,** we will send any range to any address within a thousand miles of Chicago, to be examined thoroughly at the freight depot, the balance and freight charges to be paid, if found exactly as represented and perfectly satisfactory.

We furnish these new style, latest pattern, 6-hole high shelf new model steel ranges in the various sizes and prices as listed below.

OUR $26.88 HIGH CLOSET STEEL RANGE.

AT $26.88 TO $34.75, ACCORDING TO SIZE, we offer this new pattern, latest style, large 6-hole high closet steel range as the best range ever put on the market by any maker at anything like the price.

This range is exactly the same as previously illustrated under No. 74530 at $22.96 and No. 74535 at $25.76, with the exception that it has the high closet as illustrated, and at the slight difference in cost we would advise you to order the range with the high closet, for it will be found very useful at all times as a warming oven, etc., etc.

When we offer to send one of these ranges to any address within a thousand miles of Chicago on receipt of $1.00 as a guarantee of faith, balance and freight charges to be paid after range has been received, and we issue with every range a written binding guarantee, we guarantee it to reach you in perfect order, guarantee our price to be lower by far than you can possibly buy the same grade of range elsewhere, we feel confident that our customers will agree that we are entitled to their order. **If you send us your order** for this range and do not find it all or even more than we claim for it, and such value as you have never before heard of, return at our expense and we will cheerfully refund money.

Don't forget that these ranges are made of one to two gauges heavier steel, better interlined, more highly finished, nickeled, enameled, ornamented and decorated, and more durable than any other line of ranges on the market regardless of price.

We furnish this steel range in the various sizes at the different prices as listed below.

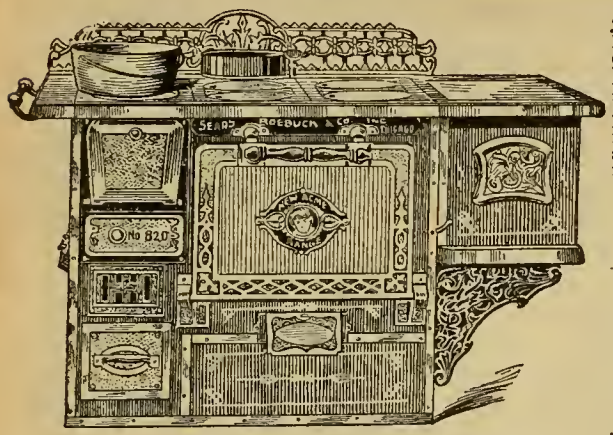
OUR $29.68 NEW ACME RESERVOIR STEEL RANGE.



AT $29.68 TO $36.45, according to size, we offer this reservoir steel range as the greatest value ever before offered by us or any other house. **This is the exact same range** as those previously illustrated and quoted, with the exception of the reservoir and the absence of shelf and closet. **This is a large, 6-hole range,** large oven, as below specified; comes complete with a large porcelain lined reservoir. **This line of ranges excels all other ranges** made in the heavier steel plate, better nickel plating, better interlining, economical in the consumption of fuel and in its baking qualities. Burns hard coal, soft coal or wood. **One of these ranges will last a natural lifetime. There is nothing about it to give out;** nothing about it to break. The most economical range that any family can buy. **We furnish this reservoir steel range** in all the following sizes at the following prices:

$16.95 BUYS A REGULAR $30.00 1899 MODEL STEEL RANGE.

At $16.95, $18.95, and $19.95 we offer this new 1899 model, Acme Admiral steel range as a wonder in value.

Send us $1.00, if you live within a thousand miles of Chicago, and we will send you this range by freight C. O. D., subject to examination, and if you do not pronounce it the most wonderful value you have ever seen, you are at liberty to return at our expense and we will cheerfully refund your money.

From the large illustration of this, our $16.95 Acme Admiral, you can form some idea of the most extraordinary value we are giving. This steel plate range is offered to our patrons in competition with the cheaply constructed ranges, that are sold by unscrupulous dealers at even more than our price for high grade goods.

In order to reduce the selling price of this range to the low price of $16.95, we have not lightened the castings, the top, the lid, the firebox or the linings. In fact all castings are just as heavy as in our best steel ranges. The asbestos linings are just as thick, but the outer steel body is 2 gauges lighter steel than is used in all other steel ranges sold by us.

To those to whom price is more consideration than quality, we offer this range at $16.95, and have no hesitation in stating that for all practical purposes it will give every satisfaction. It will bake and work as satisfactorily as the highest priced range sold by us or anyone else. It will wear as long as ranges commonly sold, but will not last as long as our better grade ranges, and is not as nicely finished and trimmed. It is made in one size only. Bolted oven bottom, ventilated oven, asbestos lined fines, heavy Duplex grate, asbestos lined bottom, nickel oven door frame, nickel fire door, nickel ash pan front.

You will find this range in quality of construction and finish equal to ranges that retail at $30.00 to $35.00, and if you do not find it so, you are at liberty to return it at our expense and we will cheerfully refund your money.

This range comes in sizes below mentioned and at $16.95, $18.95 and $19.95.

OUR ACME GEM POLISHED STEEL RANGES

AT $21.00 TO $40.60.

Our Acme Gem polished steel ranges are made of polished steel. Require no blacking, and is claimed to be the best material to endure heat and less susceptible to rust than any other material used in the construction of stoves.

The fire box is constructed so that any kind of fuel can be burned successfully. Simply inverting the **Duplex grate** and taking out the **end linings** changes it from a **coal burning to wood burning range.** This does away with all annoyance of changing grates. Besides the **direct damper** and draught in end and front of range there is a check **in the feed damper** and another in the pipe, thus insuring good results with the **slowest,** as well as the **strongest draught chimneys,** and, with proper handling, fire can be held over night. **The walls are lined with the best quality asbestos** and inside of this is a lining of smooth sheet steel.

The oven door is well counterbalanced. The ovens are thoroughly ventilated.

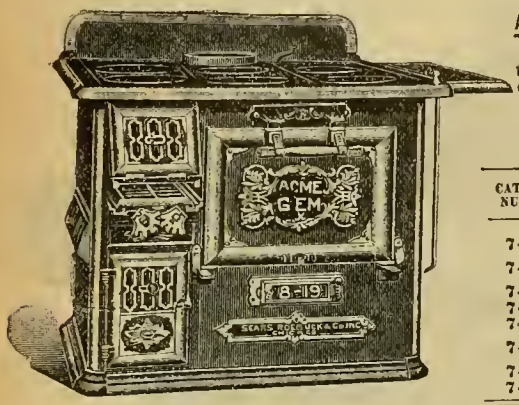
This Acme Gem has all the latest improvements and is strictly up to date in every particular.

Send us $1.00 if you live within a thousand miles of Chicago and do not wish to send cash in full with your order, and we will send you any range you may select by **freight, C. O. D., subject to examination,** and guarantee it to reach you in perfect condition. You can examine it at your freight depot, **and if found perfectly satisfactory,** exactly as represented and such values as you could not possibly get elsewhere, pay freight agent **our special price and freight charges,** less the dollar sent with order.

Remember every stove we sell is covered by written binding guarantee, by the terms of which, if any piece or part gives out by reason of defect in workmanship or material, we replace free of charge.

We guarantee our price below any kind of competition, and if you do not find it so on receipt of stove, you can return to us at our expense and we will cheerfully refund your money.

OUR $21.00 ACME GEM POLISHED STEEL RANGE.



AT $21.00 TO $28.50, ACCORDING TO SIZE, we offer this **Acme Gem 6 hole polished steel range** as the equal of any range made, regardless of price.

These ranges are made of heavy steel, asbestos lined, as previously explained, they are highly ornamented and finished, having nickel plated bands, nickel plated door frames, nickel plated panels on oven door, with nickel grate and door ends, large nickel bar handle on oven door.

These steel polished ranges are made for us under contract by one of the best makers in this country, and we believe are without exception **the best ranges on the market, regardless of price.**

We furnish these ranges at any of the prices mentioned in sizes listed.

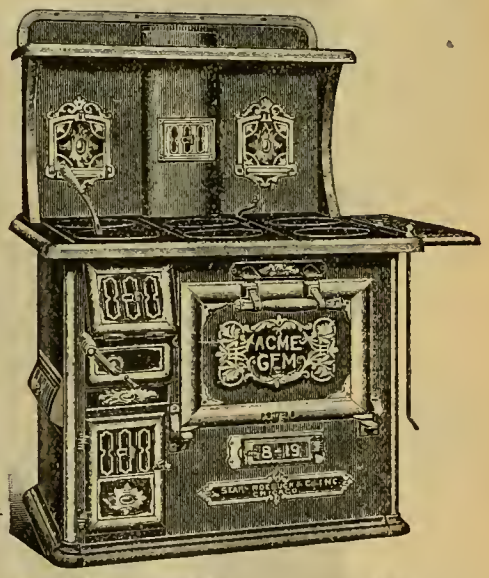
OUR $24.00 HIGH SHELF 6 HOLE ACME GEM POLISHED STEEL PLATE RANGE.



THIS IS THE EXACT SAME RANGE as one previously quoted at **$21.00** under No. 74568, with the exception of the high shelf.

Is a large 6 hole polished steel plate range with large shelf as illustrated, highly nickel plated trimmings throughout, and such a range as you could not buy elsewhere at within 50 per cent of our price.

Our special offer price of $24.00 to $31.50, according to size, is based on the actual cost of material and labor with but our one small percentage of profit. If you order one of these ranges from us and do not find you have saved at least ten to fifteen dollars in price, you can return at our expense and we will cheerfully refund your money.

We furnish these ranges in any of the sizes named below at the prices quoted.

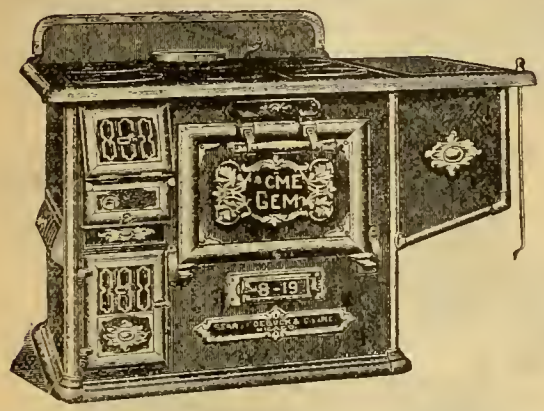
OUR $26.70 ACME GEM POLISHED STEEL PLATE RESERVOIR RANGE.

$26.70 to $34.90 is our Special Range of Cut Prices on these Reservoir Polished Steel Plate Ranges.



WE GUARANTEE IT THE BEST RESERVOIR STEEL RANGE ON THE MARKET, REGARDLESS OF PRICE.

You will find it will outwear two of the cheaper grade of ranges so commonly retailed, peddled and advertised. **You will find it heavier plate,** better trimmings, more elaborately polished, ornamented and finished, more economical in the consumption of fuel, better baker, and in every way a better range than you will be able to buy elsewhere even at 50 per cent more money.

This range is fitted with large porcelain lined reservoir, as illustrated, combines every good quality of every strictly high grade range made, with the defects of none.

It is sold under the longest, strongest and most binding guarantee. We ship to anyone to examine, upon receipt of **$1.00 deposit.** It is offered in the various sizes and prices as listed below.

OUR $32.40 ACME GEM POLISHED STEEL PLATE RANGE.

THIS IS OUR VERY HIGHEST COMPLETELY EQUIPPED POLISHED STEEL RANGE, including the large porcelain lined reservoir and the large roll top polished steel high closet, as illustrated.

This is the exact same range as No. 74598 quoted at $29.70 and upward, with the addition of the roll top polished steel reservoir as heretofore listed.

This is the Highest Grade Steel Range we make. every equipment and every improvement known to high grade steel range making will be found combined in this our highest grade range. While all other ranges we advertise are sold under binding guarantee as strictly high grade goods, the equal of anything you will buy elsewhere at within 50 per cent of the price we recommend this, our very best, above all others.

If you want the very best Steel Range that can be built, one made of the heaviest highly polished steel plate, one that requires no blacking and is not affected by heat, will not tarnish, corrode or rust, a range which is so lined throughout with asbestos as to make it the most economical in the consumption of fuel—**if you want a range which, for general appearance, highly nickeled trimmings, mountings, ornamentations, etc.,** is such a range as you have never seen in your section at any price, we would recommend this, **our highest grade Acme Gem, complete with reservoir and roll top closet,** in preference to all others.

We furnish this range in any of the sizes named below at prices quoted.

All ranges in this list have six lids.

CAST IRON COOK STOVES, RANGES, HEATERS, ETC.

OUR LINE OF CAST IRON STOVES IS ENTIRELY NEW FOR THE SEASON OF 1899.

For 1899 our last year's models have been improved in many respects, and entirely new models have been added, until we believe we show, without any exception, the handsomest line of high grade 1899 cook stoves, ranges and heaters that will be shown by any dealer in America. We show a line of 348 stoves ranges and heaters.

When you consider the different styles and sizes our line of stoves embraces, over 348 in number, were you to visit our place and we were to show you **but** one stove of a kind in the different styles and sizes as quoted in this catalogue, you would look at 348 stoves to see our entire line. **In this we give you an advantage against which no house** has ever attempted to compete. **Your local dealer at the very best can show you but a very small fraction** of the variety from which you can select in this book. We not only give you the advantage and price on the very latest 1899 styles, but give you a selection embracing 348 distinct stoves.

Our illustrations have been engraved by our artists from photographs taken direct from the stoves, with a view of assisting you in placing your order, and that **you may know exactly what you will get. But if you are at all undecided** as to the size of the stove wanted, from our description, you can, by measuring any part of your old stove and comparing with the dimensions given in our descriptions, tell just how the stove you will get from us will compare in size with the one you now have.

ABOUT THE PRICE. **The price at which these stoves are quoted is based on the actual cost of material and labor, with but our one small percentage of profit** added, and we have carefully compared our prices on the entire line with the prices quoted by many of the representative stove manufacturers at wholesale in large quantities, and there is not a single instance where, to our knowledge, any manufacturer on a wholesale basis has met our prices. **In fact, if you buy a stove from us you will own for even less money than your local dealer can buy in quantities.**

Our stoves are made for us under contract by two of the largest, most reliable stove foundries in America—concerns whose reputation for the manufacture of the very highest grade of goods is guarantee for the quality.

OUR GUARANTY. **With every stove we issue a binding guaranty by the terms and conditions of which, if any part or parts give out by reason of defect in workmanship or material, we replace free of charge. We guarantee every stove to reach its destination in perfect order and if** there be any broken parts, they will be replaced free of charge.

OUR $4.90 Acme Wonder Cook Stove Without Reservoir.

FOR BURNING WOOD ONLY

This wood burning cook stove without reservoir, offered at $4.90 to $7.50, according to size, as listed, is the equal of stoves that retail generally at $8.00 to $15.00.

Burns wood only. This is a thoroughly serviceable stove that will work as satisfactorily as those which cost more money. In construction it is strictly first class, has outside oven shelf, heavy covers, kicker for opening oven doors and nickel plated knobs. Each stove is furnished with a lifter and rake for cleaning ashes from under the oven.

Our Acme Wonder has every modern improvement known to stove making; it possseses all the good points of all first-class stoves, with the defects of none.

This stove is widely advertised at $4.90 to $7.50 and we furnish, just as we have advertised, the greatest value in cook stoves ever offered by us or any other house at anything like the price.

At our special price, $4.90 to $7.50, we furnish this stove in any of the sizes as listed below.

OUR $9.35 ACME WONDER COOK STOVE With Reservoir.

FOR BURNING WOOD ONLY

For a low priced wood burning reservoir stove our Acme Wonder is without an equal. The Acme Wonder for 1899 has been greatly improved. The patterns have been refinished; it will be better made than ever before and we guarantee it equal to stoves that will sell everywhere at 33⅓ to 50 per cent more money. **For a wood stove that can be thoroughly guaranteed, and that is covered by binding guaranty,** a stove well made and finished, and complete with a large enameled reservoir, we believe you will agree that $9.35 brings the price down to the actual cost of material and labor, with but our one small percentage of profit added.

We are able to make this extraordinary offer price of $9.35 only by reason of having contracted for these stoves in immense quantities. **We have advertised them very extensively** in many publications and our sales have been so enormous that the cost of production has been materially reduced, and all this reduction in cost of labor, in cost of material, we give our customers the benefit of in our heretofore unheard-of $9.75 to $10.50 price. **On receipt of our price or if you prefer, on receipt of $1.00,** balance to be paid after received, we will send this stove to any address to be examined and paid for if found satisfactory. We furnish this our Acme Wonder cooking stove at $9.35 to $10.50 in any of the sizes as listed below.

OUR $7.84 Acme Leader Cook Stove Without Reservoir.

FOR BURNING WOOD ONLY

At $7.84 to $9.90 we offer the Acme Leader as the best wood burner on the market at anything like the price.

The Acme Leader is a handsome reliable stove of artistic design and ornamentation. Workmanship is first class; it has handsomely ornamented base, as illustrated, large outside oven shelf, back top shelf, cut long centers, cut main top, tin lined oven door, oven door kicker, nickel plated towel rod, nickel plated tea shelf, nickle plated panel with tile center on oven door, nickel plated knobs on door.

Our Acme Leader at $7.84 and upward for burning wood is made for us in Ohio by one of the best stove foundries in this country—a concern that manufactures exclusively for the highest class trade, and stoves that in a retail way sell at double our price. **This stove has been greatly improved over last year,** the patterns have been carefully gone over and we can therefore offer it as the very latest thing for 1899, which we guarantee as to quality, and guarantee that our price will mean a saving to you of nearly one-half.

On receipt of our price, or if you prefer, on receipt of $1.00, balance to be paid after received, we will send this stove to any address to be examined and paid for if found satisfactory.

We furnish this stove in any of the various sizes as listed below.

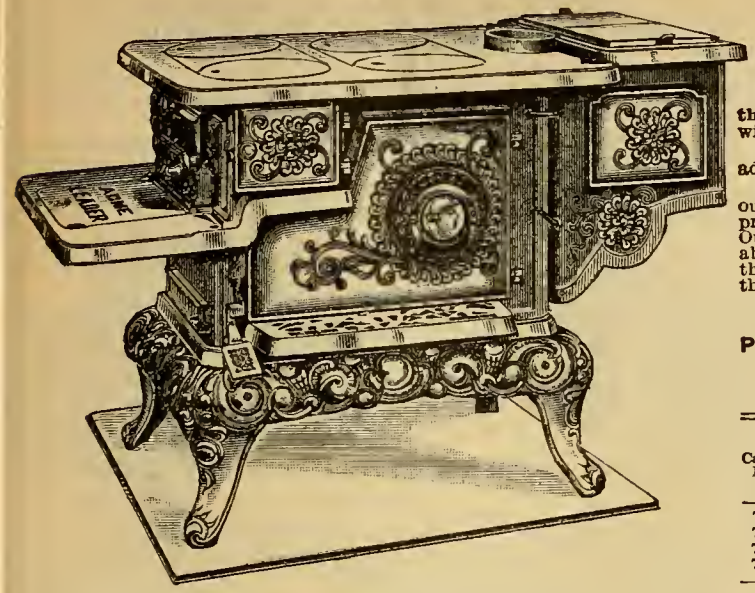
OUR ACME LEADER COOK STOVE WITH RESERVOIR.



For Burning Wood Only.

AT $11.93 TO $13.20, ACCORDING TO SIZE, We offer this new 1899 reservoir wood burning stove in competition with stoves that will retail at $18.00 to $20.00 and upwards.

This is the exact same stove as our No. 75020 at $7.84 and upwards, with addition of large porcelain lined reservoir, as illustrated.

$11.93 is a price based on the actual cost of material and labor, with but our one small percentage of profit added, and even then we are able to make this price only by reason of contract with the manufacturer for immense numbers. Our sales on the Acme Leader have been so large that manufacturers have been able to duplicate their moulds and enlarge their foundry, and thereby reduce the cost of labor, and our customers are given the benefit of this reduction in the greatly improved stove for 1899 at $11.93 to $13.20.

We furnish this stove in the various sizes as listed below at prices named.

Our Acme Forest Cook Stove Without Reservoir.

For Burning Wood Only. Takes Wood 27 Inches Long.

This extra large square wood burning stove, greatly improved for 1899, is offered at $14.85 and $14.95 as the greatest value ever shown in an extra large square wood burner.

This stove is made from special patterns, extra long fire box, and a very large oven, giving you an extra heavy, handsome and durable stove.

Our Acme Forest is such a stove as is seldom found in retail stores. It has a very large oven, very high oven, very large fire box, cut main top, cut long centers; lined short centers, heavy covers, tin lined oven doors, side top shelf, outside oven door shelf, large nickel plated panel with tile center on oven door, nickel plated towel rod, nickel knobs and hinge pins. Oven rack is 13½ inches wide and is 9¼ inches above the bottom of the oven.

If you live in a timber country and burn wood, and want a large, substantial, yet economical stove, a stove that will last for 20 years, one that is covered by binding guarantee, we would recommend our Acme Forest Cook as the greatest value ever offered.

We furnish the Acme Forest at $14.85 and $14.95 as listed.

CONSIDER..... our very largest reservoir wood burning stove for.....$19.90 Look at the size of our $19.90 Wood Stove, such a big stove was never before offered for so little money.

Our Acme Forest Cook Stove with Reservoir.

For Burning Wood Only.

We furnish in this a stove weighing nearly 500 lbs., one of the largest reservoir wood burning stoves on the market, a stove which takes in a stick of wood 27 inches long; a stove with an oven 22x14 inches in size, not including the swell in oven door, and all at about 4 cents per lb.

4 cents per lb. means we get pay for the net cost of the raw material and the labor, and have for ourselves but one small percentage of profit, for a big, economical wood burning cook stove, one that is equal to any cast iron stove on the market, we recommend the Acme Forest Cook Reservoir, and guarantee a saving to you in price of ten to fifteen dollars.

This, our Acme Forest wood burning reservoir stove, is the exact style stove as the one illustrated and listed under No. 75040 at $14.85, with the addition of the reservoir. It is a strictly high grade stove, made by one of the best makers in this country, and equal to any similar stove on the market, regardless of price.

It will be sent to any address on receipt of price, or if preferred, on receipt of $1.00, balance and freight charges payable after received.

OUR $5.95 ACME QUEEN COOK STOVE--Without Reservoir

FOR BURNING HARD COAL, SOFT COAL, COKE, WOOD OR ANY. THING USED FOR FUEL.

THOUSANDS OF DEALERS AND OTHERS UNACQUAINTED WITH OUR REPUTATION FOR FAIR AND HONORABLE DEALING have questioned our ability to furnish this stove at $5.95. **THEY HAVE SEEN THIS STOVE WIDELY ADVERTISED BY US AT $5.95 AND UPWARD,** according to size, and as the price we ask will not cover even cost of material and labor to the small stove foundry, they question our ability to furnish the goods.

HOW WE CAN DO IT. WE ARE ABLE TO REDUCE THE COST OF PURCHASING THESE STOVES BY REASON OF HAVING THEM MADE IN IMMENSE QUANTITIES, and everything done for cash. **OUR ACME QUEEN STOVE IS TURNED OUT IN LOTS OF ONE THOUSAND AND UPWARD.** Every piece that goes to make up this stove is handled by piece work, and every piece goes through the hands of an inspector to know that it is perfect, and the quantity made enables us to reduce the cost of labor per piece and the cost of setting up the stove after the different parts are made, which, added to the cost of the raw material, still admits of a narrow margin of profit when offered at our heretofore unheard of price of **$5.95 and upward. Our Acme Queen is a coal burning stove,** but is suitable for **hard coal, soft coal or wood. We furnish with every stove an extra grate for wood,** and you can use it for wood or for coal.

OUR $5.95 ACME QUEEN STOVE IS MADE FOR US by one of the best makers in Ohio, **COVERED BY BINDING GUARANTEE,** made from very best grade of pig iron. **IT IS ENTIRELY NEW DESIGN,** remodeled for 1899, handsome in design, appearance and general construction. **IT HAS VERY LARGE FLUES, CUT TOPS, HEAVY CUT CENTERS SUPPORTED BY POST,** heavy covers, heavy linings with very heavy sectional fire-back, large balled ash pan, slide hearth plate, outside oven shelf, pouch feed, oven door kicker, nickel plated panel on oven door, nickel plated name plate on fire door, nickel plated door knobs and tin lined oven doors.

WHEN ASHES ARE REMOVED FROM UNDER THE OVEN they are scraped into the hearth, avoiding all possibility of spilling the ashes on the floor when cleaning stove.

EACH STOVE IS FURNISHED WITH A LIFTER, SHAKER AND SCRAPER for removing the ashes from under the oven.

THE ACME QUEEN WILL BURN AND BAKE AS SATISFACTORILY as the highest priced stove sold by us or any other house, and is equal in every way to any stove of equal weight and in workmanship is superior to many.

AT $5.95 TO $8.80 WE FURNISH the Acme Queen in the various sizes as listed below.

OUR $10.15 ACME QUEEN COOK STOVE, WITH RESERVOIR.

Burns Hard Coal, Soft Coal, Coke, Wood or Anything Used for Fuel.

THE ACME QUEEN wood and coal burning reservoir cook stove is sold at $10.15 to $11.55, according to size.

YOU MAY HAVE SEEN IT ADVERTISED in one of the many newspapers, journals or magazines by us at $10.15 to $11.55.

THOUSANDS OF DEALERS have wondered how it was possible for us to sell such a stove for so little money; but we do sell it at $10.15 to $11.55; sell it with our binding guarantee as to quality, durability, etc.; sell it as the greatest value ever offered in a high grade cast iron cook stove, by us or any other house.

WE ARE ABLE to make the price of $10.15 to $11.55 for the reason as fully explained under previous illustration of No. 75050, because we make these stoves in larger quantities than any one pattern of cook stove has ever been made by any foundry.

THIS IS THE EXACT same stove as Acme Queen previously illustrated under **No. 75050, $5.95 to $8.80,** with the addition of the large **porcelain lined reservoir** as shown in illustration.

OVER 3000 of these reservoir Acme Queen stoves will be sold by us in 1899. The most widely advertised, the best known, most popular, lowest priced guaranteed reservoir coal and wood cook stove on the market. Our $11.50 stove is the popular size, our No. 75057, size 8-18, having oven 18x17x11 inches, 24x44-inch top, 18-inch fire box, stove weighing 300 pounds. Offered at less than 4 cents a pound.

ONE ACME QUEEN SELLS ANOTHER. If you order this stove from us, either sending the full amount with your order, or $1.00, balance to be paid after received, we know you will be so well pleased with the stove that you will show it to your friends, tell them where you got it, and what you paid or it, and the result will be within a short time there will be a dozen more Acme Queens sold in your immediate neighborhood, for one Acme Queen sells another. Everyone who sees it is pleased with it, everyone marvels at the beauty of design, perfectness of construction, of durability, and above all the heretofore unheard of figure of $10.15 to $11.55 price.

WE FURNISH THESE STOVES in any of the sizes listed at prices quoted below.

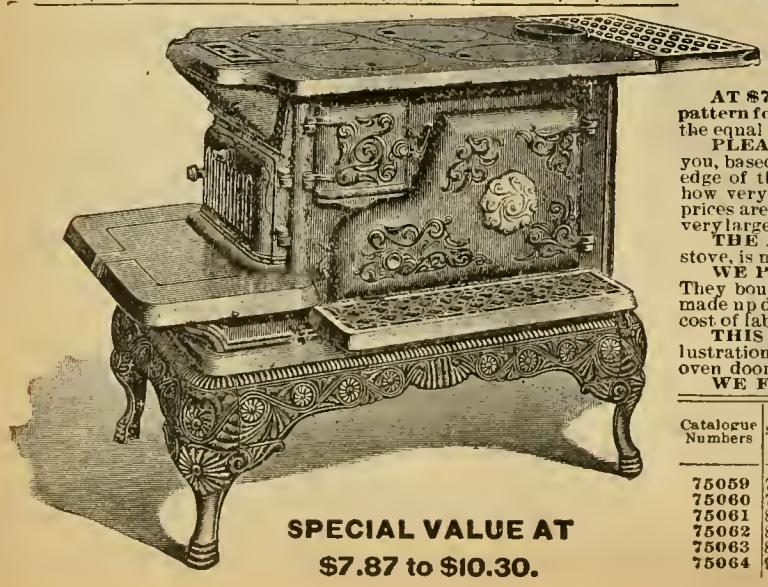
$10.15 TO $11.55



SPECIAL VALUE AT

$7.87 to $10.30.

Our $7.87 Acme Bird Cook Stove.

AT $7.87 TO $10.30, ACCORDING TO SIZES LISTED BELOW, we offer this **new pattern for 1899,** a stove for **burning soft coal, hard coal or wood,** guaranteeing it to be the equal of any stove you can buy in your local market at 50 per cent. more money.

PLEASE NOTE: OUR $7.87 STOVE WEIGHS 225 POUNDS, and our price to you, based on pound calculation, is but a **trifle over 3 cents a pound,** and your knowledge of the **cost of raw material,** with no allowance for labor, will give you some idea how very close we have figured this price—will convince you beyond doubt that our prices are indeed based on the actual cost of material and labor when manufactured in very large quantities, and with but one profit, and that the smallest kind of a profit, added.

THE ACME BIRD, both in the plain stove as here illustrated and in the reservoir stove, is made for us under contract by one of the largest stove foundries in America.

WE PLACED THE LARGEST CONTRACT FOR STOVES THEY EVER TOOK. They bought the raw material at a time when pig iron was low; the stoves have been made up during the dull season, and all this advantage in price of material and the low cost of labor is given our customers in **our special $7.87 price.**

THIS STOVE IS NICELY FINISHED, generously proportioned, as shown in illustration, mounted on a large ornamental base. Has large oven door shelf, ornamented oven door panel, pouch feed, large back shelf, extra large flues, heavy lining and grate.

WE FURNISH THIS STOVE in any of the sizes listed at the special prices named.

$13.00 and $14.40

OUR $13.00 ACME BIRD RESERVOIR STOVE.

AT $13.00 TO $14.40, ACCORDING TO SIZE, we offer you this new 1899 pattern **Acme Bird Stove** with reservoir, mounted on a large handsome cast iron base, as illustrated, and guarantee it such a stove as you cannot buy elsewhere at within 50 per cent of the price.

THIS IS THE EXACT SAME STOVE as our No. 75059, quoted at $7.87, with the addition of the large porcelain lined reservoir, as illustrated.

EVERY STOVE IS COVERED BY WRITTEN BINDING GUARANTEE, and we guarantee the stove to reach you in perfect condition, and any piece or part that is broken will be replaced free of charge.

THE REPUTATION OF THE MANUFACTURER for the manufacture of only strictly high grade goods is a guarantee for quality. You will find this stove will compare favorably with stoves that retail throughout the country at double the price.

SO CONFIDENT ARE WE THAT THESE STOVES WILL PLEASE; that one stove will cause the sale of many more in your neighborhood; that if you will buy one of these Acme Bird Stoves from us you will be sure to patronize us with orders for other goods, we offer to ship the stove to any address, within a thousand miles of Chicago, C. O. D., on **receipt of $1.00,** balance payable after stove is received.

WE FURNISH THIS STOVE AT $13.00 TO $14.40 in the different sizes as listed below:

OUR ACME UNION COOK STOVE.

WITHOUT RESERVOIR. BURNS HARD COAL, SOFT COAL, COKE, WOOD OR ANYTHING USED FOR FUEL.

$10.28 to $15.15

OUR 1899 ACME UNION. Greatly improved, the Acme Union is offered as one of the highest grade guaranteed hard coal, soft coal or wood, good stoves at a price even lower than dealers can buy the same goods in car load lots.

THE ACME UNION is offered at $10.28 to $15.15, according to size, in competition with stoves that retail at nearly double the money.

THE PATTERNS FOR 1899 have been remodeled and improved, the stove has been made better in every respect, and while we sold several thousand last year with universal satisfaction, and heard nothing but words of praise for it, we purpose to furnish our customers a still better stove without any advance in price.

STOVE MANUFACTURERS GENERALLY have advanced their prices, but our prices remain fully as low and in some cases lower than last season, and yet the goods have been generally improved.

OUR ACME UNION is a very large, heavy cook stove, well made and very artistically ornamented. **It is especially recommended to those who wish to burn coal only,** or coal and wood at different times during the year. Simply changing the grates and taking out the end linings converts it from a coal to a wood burning stove, and we furnish with every stove an extra grate for this purpose.

THE ACME UNION is made from very heavy castings, and we believe is one of the most durable stoves on the market, regardless of price. Has very large flues, cut top with heavy cut centers supported by post, short centers lined, heavy covers, heavy linings, with very heavy sectional fire back. Large balled ash pan, slide hearth plate, nickel plated outside oven shelf, oven door kicker, ornamented base, nickel plated panels, with tile ornamentations on oven doors, nickel plated door knobs, nickel plated towel rod, nickel plated tea shelf, tin lined oven doors, pouch feed. The opening for removing ashes from under the oven is in the hearth, consequently no ashes are spilled on the floor when cleaning the stove.

EACH STOVE IS FURNISHED WITH A LID LIFTER and shaker and scraper for removing ashes under the oven.

THE DIMENSIONS THAT WE GIVE ARE OUR OWN and different from many manufacturers who include the flange of oven doors, etc., which often adds from two to four inches to dimensions. We give you net dimensions of the stove, and all space gained by swell in doors, etc., is free.

WE FURNISH THE ACME UNION AT $10.28 TO $15.15 in the various sizes as listed.

$16.88 to $19.25

OUR $16.88 ACME UNION COOK STOVE WITH RESERVOIR.

BURNS HARD COAL, SOFT COAL, COKE, WOOD OR ANYTHING USED FOR FUEL.

AT $16.88 TO $19.25 we offer our Acme Union Reservoir as one of the best cook stoves on the market, regardless of price, and equal to stoves that retail at $25.00 to $35.00.

YOU WILL SAVE $10.00 TO $15.00 by ordering this stove from us. Freight will amount to next to nothing, as compared to what you will save in price. This Acme Reservoir stove weighs from 368 to 430 pounds. It goes as third-class freight, and by refering to freight classification in this catalogue, you can tell within a few cents what the freight charges will be to your place or nearest station.

THIS IS THE EXACT SAME STOVE as our Acme Union No. 75070 quoted at $10.28, with the addition of the large **porcelain lined reservoir** as illustrated.

THE ACME UNION LINE is built on the most scisntific principles by skilled mechanics, and of the very best material. Castings are extra heavy and made from pig iron and not from scraps. **THIS STOVE IS FURNISHED COMPLETE** with extra grate, fancy nickel plat tea pot shelf, towel rod, lid lifter, shaker and scraper. **WE FURNISH THIS STOVE** in any of the sizes listed above at prices named.

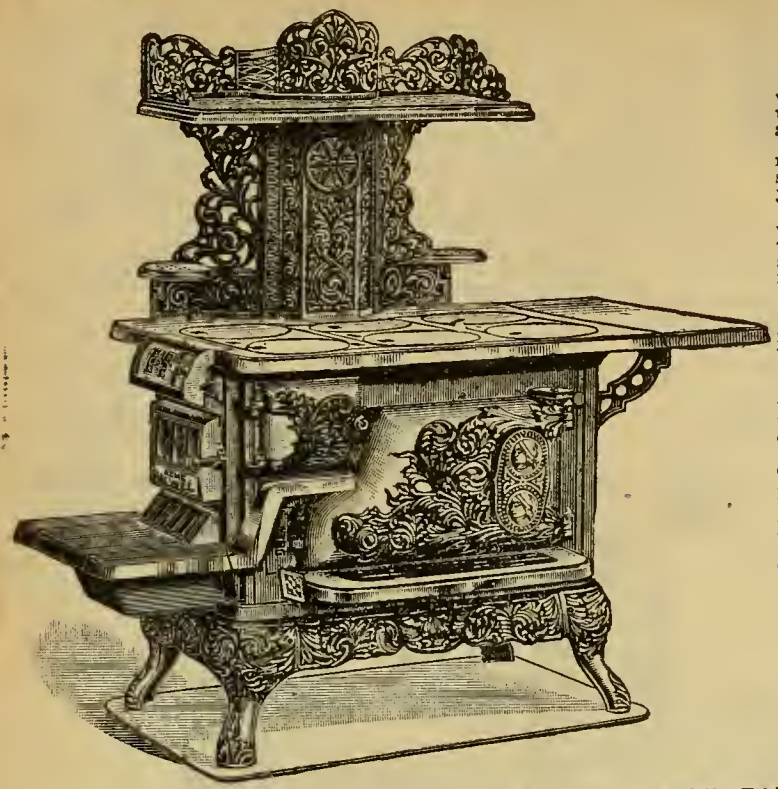
OUR $13.20 ACME JEWEL RANGE. WITHOUT RESERVOIR.



BURNS HARD COAL, SOFT COAL, COKE, WOOD, OR ANYTHING USED FOR FUEL.

AT $13.20 TO $17.76, according to size and trimming, as listed below, we again offer the **Acme Jewel for 1899** greatly improved. It is positively the most wonderful value in a new model, high grade range ever offered by any stovemaker.

WE HAVE EXPENDED A LARGE SUM OF MONEY to renew the model and improve the 1898 patterns, and while we offer a heavier, handsomer and better range in our Acme Jewel than we were able to offer last year, the price remains the same.

WITH THE SEVERAL SPECIAL ADDITIONS AND IMPROVEMENTS we feel perfectly safe in saying, without the slightest fear of contradiction, that no manufacturer will attempt to produce the same kind of range and sell direct to dealers in carload lots at anything like the price we are able to name to our customers.

HOW WE CAN MAKE THIS PRICE.

OUR PRICE OF $13.20 and upward, direct from foundry to farmer, is made possible only by reason of our having this one line of ranges made in this foundry and in immense quantities.

OUR 1899 PATTERNS were remodeled in the summer of 1898. The foundry has been running busily night and day on these goods for us from the day the patterns were completed. In confining their entire foundry to the one line of ranges, the cost of manufacture is reduced to the very lowest minimum. Buying the pig iron and other materials in large quantities, the cost is always reduced to the lowest point, and on the basis of the actual cost of material and labor, with all the advantages we have in the buying and the manufacturing of the goods, we add but the smallest percentage of profit, thus enabling us to present for your consideration the **Acme Jewel Range at $13.20,** guaranteeing it such value as you cannot possibly get elsewhere.

THE ACME JEWEL RANGE is designed for the burning of hard coal, soft coal or wood, and with every Acme Jewel we **furnish an extra grate** so it can be changed from coal burner to wood burner at will.

THE ACME JEWEL contains all the desirable features found in any modern range. It has a large fire box with heavy linings, extra heavy sectional fire back, outside oven shelf, oven door kicker, end top shelf, extra heavy covers, double centers, nickel plated panels with beautiful tile ornaments to oven doors, large handsome new pattern ornamental base, heavy tin-lined oven doors. It has handsome nickel plated tea shelves, as illustrated; nickel plated knobs and trimmings, large end shelf, latest patent front feed, strictly high grade, up-to-date guaranteed range at an extremely low price.

OUR BINDING GUARANTEE secures you as to quality and price, and our liberal $1.00-with-order terms is something heretofore unheard of.

We furnish this range in any of the sizes listed below at prices named.

OUR $16.85 ....ACME JEWEL RANGE....

WITH RESERVOIR.

BURNS HARD COAL, SOFT COAL, COKE, WOOD, OR ANYTHING USED FOR FUEL.....

AT $16.85 to $21.45, according to sizes and trimming, we furnish this, our new 1899 model Acme Jewel reservoir range, the exact same range as our No. 75090 quoted at $13.20 and upward, with the addition of the reservoir.

OVER TWO THOUSAND OF THESE RANGES were sold by us during 1898, and this phenomenal sale on the one line is due to the hundreds of duplicate orders we receive.

FREQUENTLY WE HAVE TRACED THE SALE of a dozen Acme Jewel ranges in one town within sixty days after the first range went into that neighborhood. In fact the duplicate orders we have received from some small towns on the Acme Jewel during the past season has led us to believe that every family in the town was determined to have an Acme Jewel Range.

SEND US YOUR ORDER FOR THIS RANGE, either with the full amount of cash with your order, **or if you prefer, $1.00,** balance to be paid after received, and if you do not find it such a stove as you have never seen in your section at anything like the price, the equal to any range you can buy in your local hardware store at 50 per cent more money, just exactly as represented, perfectly satisfactory, a range combining all the good qualities of any strictly high grade range, with the defects of none, you can return it at our expense and we will cheerfully refund your money.

We will furnish this range in any of the sizes listed at the prices named.

OUR ACME ROYAL RANGES $12.95 TO $28.40

Under the various illustrations in the various sizes, and the various equipments, we illustrate, describe and quote the FINEST LINE OF COOK STOVES AND RANGES under our Royal line, that has ever been placed on the market by any maker, and at prices that simply defy any attempt at competition.

The Acme Royal line is entirely new for this season, strictly up-to-date in every particular. **The entire line of 1899 model Royals** has been made for us **from our own new exclusive patterns,** with a view to combine the **good qualities** of every strictly high-grade stove on the market, with the defects of none.

The large square ovens, the elaborate rococo ornamentations, the handsome designs of base, the elaborate trimmings and linings, the beautiful finish, the general graceful outlines, the large proportions, the guaranteed durability and all will commend the **Acme Royal line over all others.**

We have revolutionized prices in offering our **Acme Royal line at $12.95 and up,** and while we guarantee the stoves the equal of any new line that will be shown by any maker, regardless of price, you will find **our price from 25 to 33⅓ per cent less** than any dealer can buy similar goods at wholesale in carload lots, and at about one half the price charged by retail dealers.

The various Acme Royal illustrations shown are engraved from photographs taken from the stove direct, and while they will give you the correct idea of the beautiful outline, ornamentations and general design, it is yet impossible to do justice to these artistic stoves and ranges in the plain black and and white pictures. **They must be seen to be fully appreciated.** They are generously **trimmed with nickel, highly ornamented and finished,** producing, we believe, the most beautiful effect of any ever seen on the market.

Acme Royal ranges will be found the most economical cast iron stove made in the consumption of fuel, especially in baking, as the flues are constructed in such a manner as to convey all heat over all parts of the oven bottom, and the oven is thoroughly ventilated.

HOW WE MAKE THE PRICE SO LOW.

When you buy an Acme Royal Stove from us, you are getting it direct from the foundry, on the basis of the actual cost of material and labor only, manufactured in lots of several thousand at a time. **You pay no wholesalers' profit, no brokers' profit, no retailers' profit.** In fact, nothing in the way of traveling salesmen, office expense, storage, handling, allowance for bad debts, etc., etc., is charged up against these stoves.

Consider the weight of the stove, the high grade of the workmanship, elaborate and really expensive design, calculate how much you are paying per pound for this stove, and you will see for every dollar that you send to us, you are getting an equivalent in manufactured material.

Our prices to you on the Acme Royal stoves is much lower than dealers can buy in quantities. Do not blame your retail dealer if he asks you $18.00 to $45.00 for the same stove we sell at from **$12.95 to $28.** He is selling you the stove as cheap as he can; he must add a liberal profit, he must pay two or three profits when he buys the stove. All the chain of common trading expense has been charged up to the stove, **and you must pay the penalty when you buy it.** We save you all this, and furnish you a stove **with our own written binding guarantee,** guarantee the stove to reach you in perfect condition, guaranteeing you such value as was never before offered by us or any other house, such a stove as you have seldom, if ever, seen in your section, stoves that cannot be found in department stores; such a line of stoves as is advertised by no other mail order house, **the equal of the very finest goods on the market,** carried and sold in small towns exclusively by the **hardware** stores at fancy prices.

Do not let the question of freight deter you in ordering. Weights are given under each description. Stoves are taken by railroad companies **at third class freight rate.** You can find what the actual third-class freight rate will be to several towns in your state by referring to freight classification in front of book; calculate almost to a penny what the freight will be on stove to your town. You will find it will **amount to next to nothing as compared with what you will save in price,** besides your local merchant must naturally pay the exact same freight as you pay. The railroad company makes no discrimination between the consumer and the dealer.

We guarantee our sizes, and we would ask that you do not take for granted stoves marked same size as ours are actually the same. In measuring ovens, we measure the actual size of the oven bottom. The swell of the oven door adds 2 to 4 inches to actual width of oven, and is commonly so measured. Again, some stoves are marked 8-20 that are no larger than our 8-18. Our measurements are accurate, and by comparing with measuremeuts of your old stove you can easily judge as to comparative size.

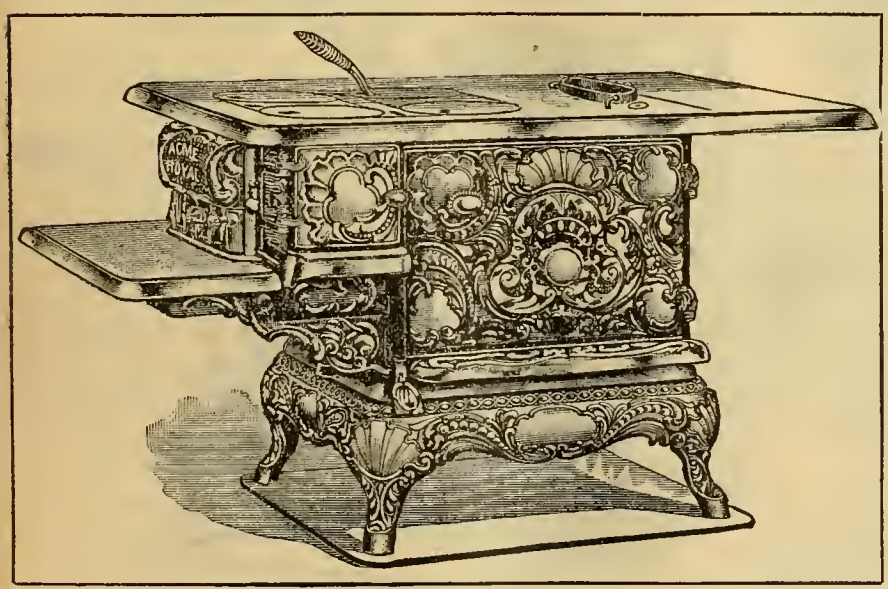
Prices do not include stove pipes and utensils. A complete line of stove furnishings and household goods may be selected from our catalogue, and if needed should certainly be included in your order for stove. Our kitchen assortments have been very popular, and we show a greater variety than can be found elsewhere.

Our Acme Royal line is our leading line of cast iron ranges, and they are offered as the very best it is possible to produce, and **we recommend the Royal stoves above all others,** and if you want as good a stove as can be made from cast iron, we advise you by all means to order an **Acme Royal.**

ALL ESTABLISHED PRICES HAVE BEEN UTTERLY DEMOLISHED.

It has been the custom of all makers of high grades of stoves and ranges to maintain fancy prices on their best line, and by means of combinations, trusts, pools, etc., they have, as a rule, been able to sell their leading line at exorbitant prices. Prices, not based in any way on cost of production. But the **introduction of the Acme Royal for 1899,** with all the **latest improvements,** all the good points of all high grade stoves, **on the basis of actual cost of material and labor,** will create the **greatest sensation** among manufacturers of high grade stoves. **We are sure they will advertise our Royal line far and wide.** The advance orders that are coming in indicate a very large business throughout the season, and while we have made every preparation to supply the trade, and we now have a large stock on hand, and the foundry has a large capacity, we are, of course, limited to stock on hand, and the capacity of the foundry; and to insure your order for **Acme Royal** being filled promptly, we would advise you to place your order as early as possible, for there is a possibility of our being compelled to delay orders by reason of being **unable to take** care of the expected boom on this **our Acme Royal line.**

OUR $12.95 ACME ROYAL COOK STOVE.



AT $12.95 TO $17.90 we offer our new **1899 Model,** large, square **oven, Rococo Acme Royal Cook Stove as the handsomest, best made, highest grade stove on the market,** at a price based on much closer calculation than a similar stove has ever been offered before or sold at.

This Acme Royal, as previously explained, possesses the high qualities of every strictly high grade stove on the market, **all the latest 1899 improvements,** everything the very best.

This $12.95 Acme Royal Cook Stove is for burning wood only.

THE TRIMMINGS on the Acme Royal are equal to anything made. It is handsomely ornamented, has fine, large nickel plated outside oven shelf, large nickel panel over door, large nickel name plate on front door, the most expensive nickel Alaska, always cold door knobs throughout. Fancy nickel plated hinge pins, vertical damper, large ash receptacle. Full ornamental base, extra heavy sectional fire back, full cut tops and centers, **the very best of trimmings throughout.**

We furnish this model Acme Royal in the different sizes listed at the prices quoted.

Nos. 75098 and 75099 will not be ready to ship before November 1, 1898.

Our $15.20 Acme Royal Range.

At $15.20 to $29,65, According to Size,

We offer this new **Acme Royal Range, the finest thing on the market,** regardless of price. **Ranges are becoming more popular everywhere.** They are more compact and in many ways more convenient, occupying less space.

Our Acme Royal Range Is Made on the Same Lines

As the cook stoves previously described, with the latest and handsomest Rococo pattern, as illustrated, with **large square oven,** as shown in cut, with all the latest and best **improvements** known to stove making, including the very large square oven door, and the large square oven. Has a handsomely ornamented tea shelf with fancy nickel plated teapot holders, beautifully ornamented. Very highly nickel plated oven shelf, door panels, door plates, hinge pin mountings, etc.

We Offer This as the Most Economical Cast Iron Range

Made for the consumption of fuel, best baker, the most durable and highest grade range on the market, regardless of price.

The Illustration Does Not Do the Range Justice.

It is furnished with a heavy wide nickel band around the top and around hearth. As fine a finished range as you will find and equal to any range made.

We furnish this range in any of the sizes listed at the prices quoted.

Nos. 75112 and 75113 will not be ready to ship until Nov. 1st, 1898. Our measurements DO NOT include swell of oven door.

ABOUT THE FREIGHT. Freight amounts to nothing as compared with what you will save in price. You will observe the stove weighs 260 to 360 pounds, according to size, and, for example, stove freight rate to New Hampshire points, 800 miles, is 55 cents per hundred, or $1.43 to $1.98 for this big stove, other distances about in proportion. Don't let the question of freight deter you in sending your order.

This is Our Wood Burning Acme Royal Range.

It is expressly for wood, having a very large fire box and taking a long stick of wood. For those who use wood only for fuel it will give much better satisfaction than a combination range for coal and wood.

OUR $17.70

HIGH SHELF ACME ROYAL RANCE.

At $17.70 to $23.50-According to Size

we offer this, our High Shelf Acme Royal Range, in competition with the very best ranges on the market, even at double the price.

This is the exact same Range as No. 71512 previously quoted at $15.20 and upward, with the addition of the high shelf.

IT HAS THE SAME BEAUTIFUL ORNAMENTATIONS, the same heavyhighly polished nickel bands around the top shelf, the main top, and the hearth plate. **The same nickel plated mountings, trimmings, decorations, etc.** The same fancy Rococo pattern of design, large square oven door, largesquare oven, manufacturers' several patent features which insures it to be the **most economical range in the consumption of fuel, the most perfect baker made.** This range is for wood only, and to those who burn wood we would recommend this exclusive wood burner in preference to a combination wood and coal stove.

WE FURNISH THIS RANGE AT THE SPECIAL PRICE NAMED, and in the various sizes quoted.

Oven Measurements DO NOT include swell of oven door.

Nos. 75118 and 75119 will not be ready to ship until November 1st, 1898.

...At $19.45 to $24.90...

OUR **$19.45** Acme Royal High Closet Range

We offer this as the Highest Grade Wood Burning Range we make.....

THE FINEST RANGE ON THE MARKET

This is the very highest grade cast iron range we have. Further on we list the same style as a coal burner, also complete with reservoir.

THIS RANGE CONTAINS EVERY IMPROVEMENT KNOWN TO HIGH CLASS STOVE MAKING, guaranteed the very latest for 1899. The handsome Royal pattern is the finest production shown this season. The castings in these ranges are extra heavy, making them very durable. There is practically no wear out to them.

THE MANUFACTURERS' SEVERAL PATENT FEATURES insure for them economy, durability and general satisfaction not to be found in cheaper goods.

THIS RANGE IS FURNISHED WITH THE HIGH WARMING CLOSET as show nin illustration; it is beautifully ornamented throughout; it has wide, heavy, highly polished nickel bands on top shelf, around the top and on hearth plate. **Beautifully nickel plated oven shelf,** nickel plated and highly ornamented shields, frames, trimmings, etc., etc.

IS FURNISHED IN ALL THE DIFFERENT SIZES listed, at the prices quoted.

Our measurements DO NOT include swell of oven doors.

Nos. 75124 and 75125 will not be ready to ship before November 1st, 1898.

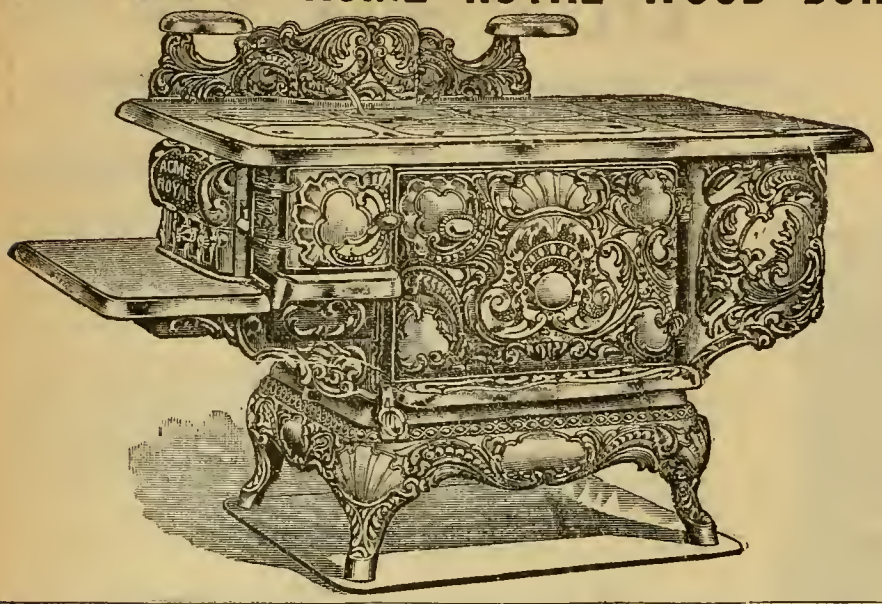
OUR $18.50 ACME ROYAL WOOD BURNING RESERVOIR RANGE.



AT $18.15 TO $23.60

WE OFFER THIS, OUR

ACME ROYAL WOOD BURNING RANGE

complete with reservoir, and you will find it equal to ranges that retail generally at $30.00 and upward.

This is the exact same range as those previously illustrated, with the addition of the large porcelain lined reservoir, as illustrated.

IT COMBINES ALL THE LATE FEATURES OF OUR

ROYAL LINE

as previously described, highly nickel plated, ornamented frame. Has a large, highly polished nickel band around top and hearth plate. It is equal to any range on the market regardless of price, and is offered at a price far lower than inferior ranges are sold by others. It is such a range as you will find only in the very best retail stores, such ranges as are advertised by no other catalogue house; sold in no department stores.

We furnish this range in the various sizes at the prices listed below.

Our measurements DO NOT include swell of oven door.

No. 75130 and 75131 will not be ready to ship until November 1, 1898.

OUR $13.10 ACME ROYAL COOK STOVE.

THIS ACME ROYAL COOK STOVE IS DESIGNED AS A COMBINATION STOVE FOR HARD COAL, SOFT COAL, COKE, WOOD or anything that can be burned in a stove.

WITH EVERY STOVE WE FURNISH AN EXTRA GRATE so it can be readily changed from coal to a wood stove.

THIS IS THE EXACT SAME STOVE AS THE ACME ROYAL previously illustrated and described, with this exception, that it is made for burning all kinds of fuel. It has the same handsome Rococo pattern, same large square oven door, same large oven, highly nickel plated trimmings throughout, beautifully ornamented and decorated, has large end shelf, large nickel plated oven shelf. Large nickel plated panel oven door. Handsome nickel name plate. Most expensive nickel "Alaska always-cold door knobs" throughout. For an all coal stove, for a combination stove for all kinds of fuel, this is the best cook stove on the market regardless of price.

BY CAREFUL COMPARISON OF OUR PRICES WITH THOSE at which the same class of goods are being offered by the best makers in the country, we are confident we are furnishing you a stove at several dollars less than dealers can buy like goods at wholesale in carload lots.

We can furnish these stoves in the various sizes at prices as listed below.

- - - OUR $21.20 ACME ROYAL HIGH SHELF RESERVOIR COAL AND WOOD RANGE

This is the exact same range

as one just quoted under No. 75180 at $18.70, with the addition of the high shelf. This high shelf is ornamented with heavy nickel plated band, two highly polished nickel plated tea shelves, as illustrated.

This range burns coal or wood,

and an extra grate is furnished whereby it can be instantly changed from coal to wood, or wood to coal.

ONE ACME ROYAL SELLS ANOTHER. We know if you order one of these ranges from us you will be so well pleased with it you will show it to your neighbors; tell them where you got it, what you paid for it, and in this way we will be sure to receive more orders from your neighborhood.

Nothing advertises our house more than our Royal Acme line of Stoves and Ranges.

Nothing has ever gone out of our house from which we have received so many letters of praise.

Customers are writing us from every state in the Union that such stoves were never before seen in their sections, and when compared with the prices charged by retail dealers, they simply wonder how it is possible to build such a stove for so little money.

YOU WILL BETTER APPRECIATE THE EXTRAORDINARY Values we are giving, when you see and examine the stove.

REMEMBER OUR LIBERAL $1.00 C. O. D. TERMS.

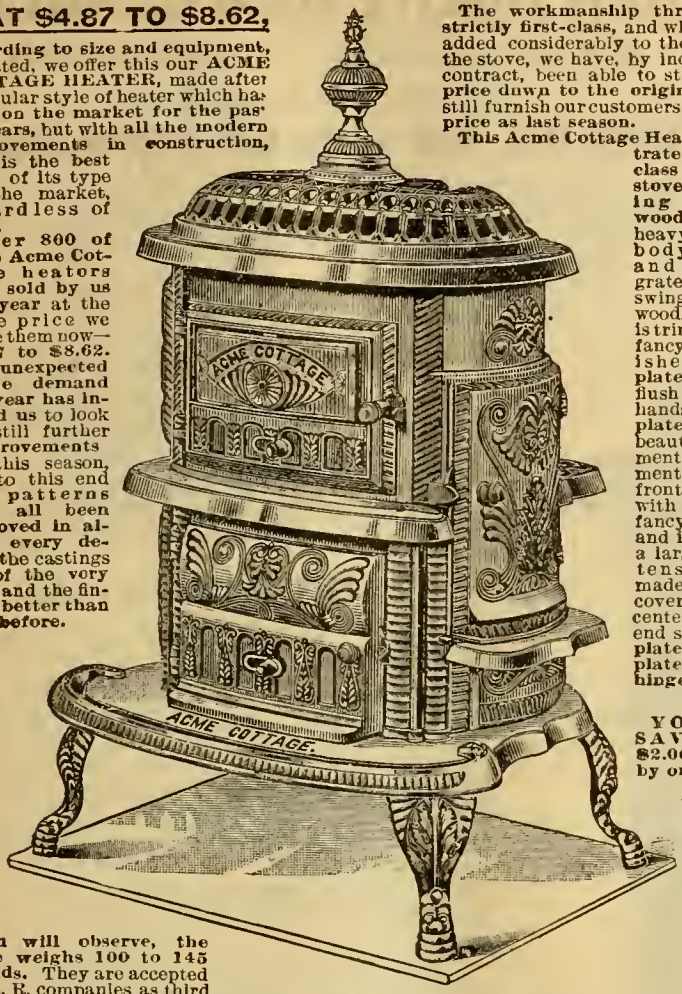
OUR $4.87 ACME COTTAGE HEATER.

AT $4.87 TO $8.62, according to size and equipment, as listed, we offer this our **ACME COTTAGE HEATER**, made after a popular style of heater which has been on the market for the past 25 years, but with all the modern improvements in construction, and is the best stove of its type on the market, regardless of price.

Over 800 of these Acme Cottage heaters were sold by us last year at the same price we quote them now—$4.87 to $8.62. The unexpected large demand last year has induced us to look for still further improvements for this season, and to this end the patterns have all been improved in almost every detail—the castings are of the very best, and the finish is better than ever before.



The workmanship throughout is strictly first-class, and while we have added considerably to the quality of the stove, we have, by increasing our contract, been able to still keep the price down to the original cost and still furnish our customers at the same price as last season.

This Acme Cottage Heater, as illustrated, is a first-class cottage stove for burning coal or wood. It has a heavy cast iron body, shaking and dumping grate for coal and swing fenders for wood. This stove is trimmed with a fancy highly polished nickel plated foot rail flush with hearth, handsome nickel plated panel, and beautifully ornamented tile ornaments on upper front door. Made with large open fancy swing top, and is fitted with a large back extension shelf; made with two covers and short center and top; end shelf; nickel plated urn, nickel plated knobs and hinges.

YOU WILL SAVE FROM $2.00 TO $5.00 by ordering this stove from us. You will be getting the stove for as little or even less money than any dealer can buy in car load lots.

You will observe, the stove weighs 100 to 145 pounds. They are accepted by R. R. companies as third class freight, and by referring to freight rate in front of book to nearest town in your state, you will see the freight will amount to next to nothing, as compared with what you will save in price.

AT $4.87 TO $8.62 we furnish these our Acme Cottage Heaters in the various sizes as listed below.

Price List Acme Cottage Heating Stove.

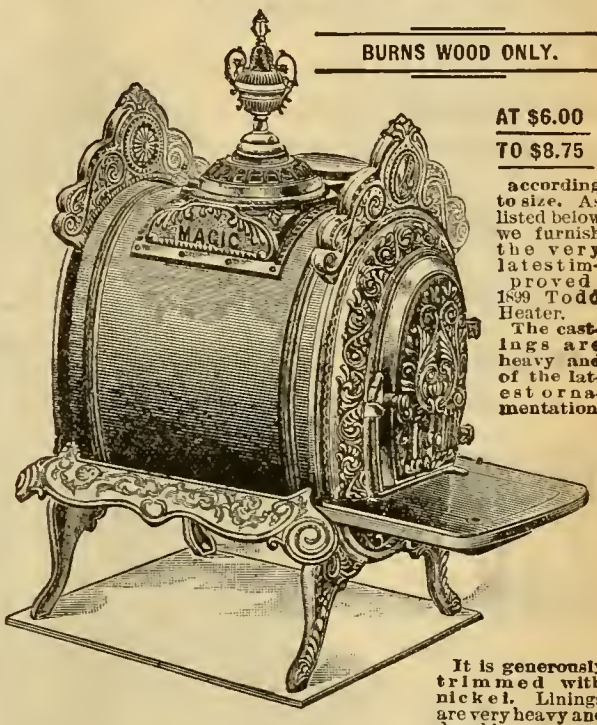
OUR ACME MAGIC TODD HEATING STOVE FOR $6.00.

BURNS WOOD ONLY.

AT $6.00 TO $8.75 according to size. As listed below we furnish the very latest improved 1899 Todd Heater. **The castings are heavy and of the latest ornamentation.**



It is generously trimmed with nickel. Linings are very heavy and durable.

It is one of the best stoves of this pattern we have ever seen regardless of price.

Our factory has doubled its last year's capacity—has been working every day in the year to its full capacity making stoves for us—and we have a large stock on hand—more stoves than any wholesale dealer in the city. We can ship promptly and can give you values such as you can get nowhere else. Our liberal terms of shipment apply to this stove.

$11.15

OUR GREAT 1899 LEADER.

AT $5.24 TO $11.15 ACCORDING TO SIZE AND SPECIFICATIONS.

WE OFFER THIS, OUR

Acme Oak, with all the 1899 Improvements,

As our greatest leader for 1899—a wonder of value, the greatest achievement in stove making of the season.

From this large illustration, printed from an engraving of a photograph taken direct from the stove, you can form some idea of the extraordinary value we are offering in a high grade heater for this season, but the stove must be seen to be appreciated.

You can scarcely imagine how it is possible to build a stove for the little money we are offering this to our customers.

A WONDER OF THE STOVE INDUSTRY.

There is not a manufacturer of heating stoves in America that will not see our catalogue and be attracted by this most extraordinary offer, and the most astonishing thing will be how it is possible for anyone to make the stove for the money.

Retail dealers everywhere would be glad to buy these stoves even in quantities at our special $5.24 price, but our special bargains are reserved for our customers. Anything extraordinary we secure, our customers get the benefit.

HOW WE CAN MAKE THE PRICE.

Early in the spring of 1898 the new patterns for this 1899 stove were gotten out by one of the largest stove manufacturers in the country. The patterns were submitted to us with all their improvements, as the finest thing of the kind on the market, and we were asked to figure on the entire product of the factory—the entire capacity of their heating stove department—and by buying all material at that time when when raw material was low, and working during spring and summer season when labor was cheap, running factory to full capacity, we learned that it would be possible to reduce the actual cost of producing this stove to what to us and other stove makers was a heretofore unheard of price, and believing our million customers everywhere would appreciate this bargain, and would take the entire lot of stoves off from our hands during 1899, we closed this contract.

It was the largest contract ever placed in this country for one kind of a heating stove, and hence the lowest selling price ever known in this country for high grade heating stoves.

Our price is your price.

$5.24 to $11.15 price we quote you is the actual cost to us on our season's contract basis, with but one small percentage of profit added.

Such value as was never known ane never before offered by us or any other house.

Our $5.24 Acme Oak Heating Stove is the latest, handsomest oak pattern. It is mounted with 18 gauge smooth steel, heavy cast iron fire pot, has shaking and dumping center grate for coal, has double circular wood grate which is so constructed that the fire can be kept under complete control. Large ash pan, large feed doors, ash pit doors swings on a double hinge. Has highly polished heavily nickel plated foot rails, large nickel plated name plate, nickel plated top ring, handsome nickel plated fancy urn. Nickel plated hinge pins and knobs, large swing top cooking lid under swing top. Check drafts at collar and in feed door.

The Acme Oak is one of the handsomest heating stoves on the market. It is nice enough for any home, and would ornament any parlor.

BURNS ANYTHING.

The Acme Oak is suitable for wood, hard coal, soft coal, coke or anything that can be burned in a stove.

Send the full amount of money with your order, or if you prefer send but $1.00, balance to be paid after received, and if you do not find you have got one of the handsomest heating stoves you ever saw, such a bargain as you never saw or heard of, such a stove as was never seen in your section at anything like the price, you are at liberty to return to us and we will cheerfully refund your money.

This stove will be furnished at $5.24 to $11.15, in the different sizes as listed below.

THE ACME TORRID "BASE BURNER" PARLOR HEATER

At $8.25, $9.37 and $10.50

THE ACME TORRID IS A "SELF FEED" BASE HEATER WITH MAGAZINE AND FULL RETURN FLUE.

It is an entirely new pattern and very attractive. It is highly and tastefully ornamented. Has draw grate, large ash pan, cast elbow, mica in front and side doors, mica in draft doors, lined swing top, and cover on top or return flue. Has nickel plated base, nickel plated foot rails, nickel plated front and side panels, nickel plated swing top with fancy urn.

BURNS HARD COAL ONLY.

Don't think, because we make a heretofore unheard of price of $8.25 to $10.50, one-half the price charged by retail dealers, that the quality is inferior.

THE Acme Garnet "Base Burner" Parlor Heater

It is constructed to produce a powerful heat with great economy of fuel. Correct proportions, artistic ornamentation. The No. 19 size has air circulating flue, and heat may be carried to room above by attaching a pipe to collar on air flue and running it to a register in the ceiling. This pipe is for hot air only. Smoke passes through another pipe into chimney in the usual way. No. 15 and 17 are not made with air circulating flues. Has nickel plated high ornamental base, nickel plated side rails, nickel plated swing top, nickel plated reflector plates, nickel plated name plates, nickel plated knobs and hinge pins, fancy urn. Has coal reservoir and draw center grates.

For hard coal only; is one of the BEST HEATERS in the market at a moderate price.

THE ACME GARNET. Nos. 75368 to 75370

$11.90 buys a regular $20.00 Stove

HEATING AND COOK STOVE. No. 75363

☞ Our Combination Heating and Cook Stove. This stove retails generally at $20.00.

But this season we will be able to furnish any number at $11.90 each. Our advice is to supply yourself with all needed stoves at once; they are not likely to ever be so low again. **The India Parlor Cook** is a direct draft stove for burning hard coal or soft coal. It has two 7-inch cooking holes over oven, two tea shelves, mica in all doors, magazine feed, shake and dump grate, nickel plated foot rail, four nickel plated panels on drum, fancy urn, stove is 14 inches inside diameter at fire door. The oven is 8x13 inches. Height of stove from floor to base of urn, 44 inches, 6-inch stove pipe fits collar. Floor space 20x22 inches. Weight 200 lbs. Price each.....$11.90

Our Acme... Sterling Prize for $12.50

We have this season added to our line of stoves this handsome Base Burner Parlor Heating Stove for hard coal only. The sizes 11, 12, 13 and 14 have hot-air circulation, are double heaters, and by running a stove pipe from collar of air circulating flue to a register in ceiling they will heat the room above. Our thimble 76036 to 76041 with ceiling plate No. 76042 and register plate 76045 are used as a register for this purpose. If not used to heat an upper room they are desirable, for the hot air circulation causes the stove to heat a room quickly and in every part. The accompanying illustration, engraved from a photograph, gives a correct representation of the shape but the stove must be seen to be fully appreciated. It has swing mica doors on three sides, nickel base, foot rails, name plate, hinge pins, Duplex grate, etc. Full nickel top with handsome urn. In the Acme Prize Heater will be found all the latest improvements for 1899; no feature that adds to convenience or utility has been omitted.

We furnish these Heaters in the Sizes as listed below.

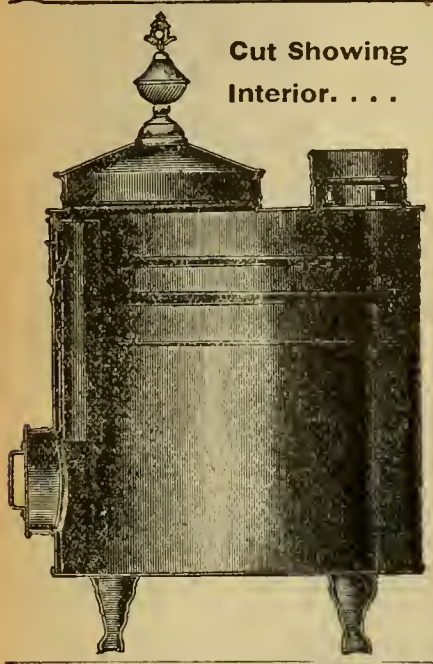
Sheet Iron Air-Tight Heating Stoves

MOST COMPLETE LINE EVER SHOWN.

Our line of sheet iron air-tight heaters includes the very best selection from the best makers in the country, and does not include many of the inferior makes on the market.

We sold over three thousand air tight sheet iron heaters last season, and all the time we were far behind on our orders, and, as the indications point to a much larger trade this season, we have made very extensive preparations to not only be able to fill our orders promptly, but with such a line of air-tight heaters as will not be offered by any other house, and at prices so low that our customers can order from us, pay the freight, which will add next to nothing to the cost, and own the best air-tight heater that can be made at about half the price charged by retail dealers.

If you order an air-tight heater from us and you do not find it all we claim for it and even more, perfectly satisfactory, and far cheaper than you could buy elsewhere, you can return stove at our expense and we will cheerfully refund your money.



Cut Showing Interior. . . .

OUR BINDING GUARANTEE.

With every air-tight heater, we issue a written binding guarantee that the stove is constructed on the most scientific principles, from the very best material, by most skilled labor, very latest in design, and equal to any similar make of stove on the market, regardless of price.

The cut on the right shows our Acme Air-Tight Heater with foot rails. It is constructed same as Nos. 75393 to 75395, with addition of nickel foot rails.

The Hot Blast Draft heats the air before it reaches the fuel, thus producing perfect combustion. The lining extends from the bottom to the lower bead. The cover to ash opening is locked securely to prevent blowing off. It is honestly constructed of good material, with heavy lining and can not fail to give satisfaction.

The body is made of 26 gauge smooth steel. The lining is 20 gauge. Has fine nickel urn and nickel name plate.

It will burn chunks, knobs, chips, straw, cobs, corn, hay or trash, or anything used for fuel except coal. The pipe should be provided with a damper. Put two or three inches of ashes in bottom of stove before building fire and always leave about this quantity when cleaning the stove. Will keep fire over night. In setting up this stove put the crimped end of stove pipe down.

It is constructed as explained under previous illustration. The body is made of 20 gauge

SMOOTH STEEL

of a uniform color. The feed opening is 12½ inches in diameter. The ash opening is 7 inches in diameter. All sizes take 6-inch stove pipe. It has a check draft in the stove pipe collar. Neat ornament on cover of fuel opening. Nickel plated slide damper.

The cut on the left shows the interior construction of our Acme Air-Tight Heaters, Nos. 75390 to 75401.

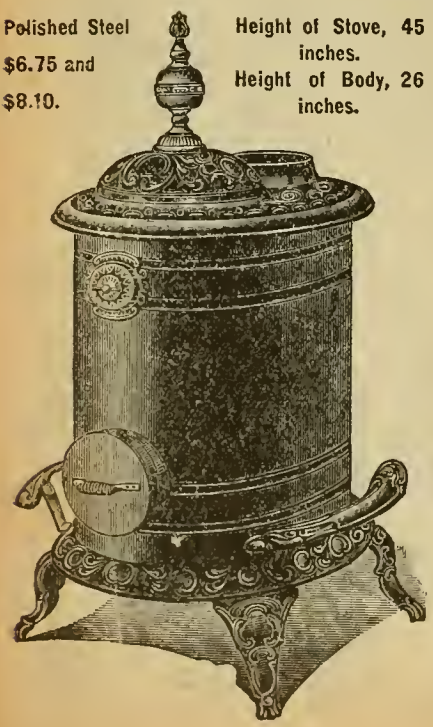
OUR $6.75 AND $8.10 ACME AIR-TIGHT HEATING STOVE.

Polished Steel $6.75 and $8.10.

Height of Stove, 45 inches. Height of Body, 26 inches.



The cut on the left illustrates our Acme Air-Tight Heating Stove with hot blast draft and hot air circulating system. The interior construction is explained under the preceding cut. This stove burns everything (excepting coal) that is used for fuel. The feed opening is 12½ inches in diameter. The ash opening is 7 inches in diameter. Damper has screw adjustment. Cover for ash opening is locked on so it can't blow off if stove "puffs." Takes a 6-inch stove pipe. Has nickled foot rails, nickeled band around the top—Alaska knob on ash hole cover. The Hot Air Circulating System takes the cold air from the floor, passes it up between the main and outer jacket and out at the top hot. By this system it will warm the furthest corner of the room as well as the space near the stove.

The cut on the right shows the interior construction of our Acme Air-Tight Heating Stove, with hot blast draft and hot air circulating system. For burning any kind of fuel except coal. Cold air enters the flues near the floor, is heated and rises, passing out at the top, thus creating a constant circulation of hot air. Has ornamented cast iron top and corrugated cast iron bottom, polished steel body and heavy sheet steel inner walls made of 20 gauge steel.

Size of Pipe to Fit Collar Is 6 Inches On All Heaters.

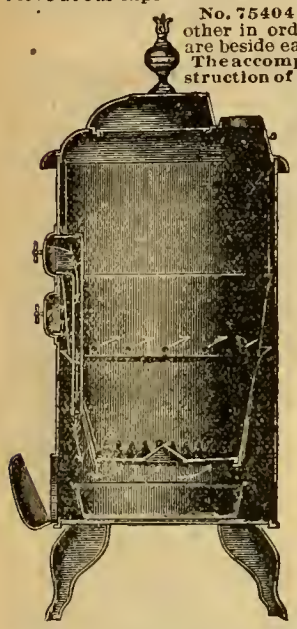
. . . OUR ACME AIR-TIGHT SHEET STEEL HEATERS FOR BURNING HARD OR SOFT COAL . . .

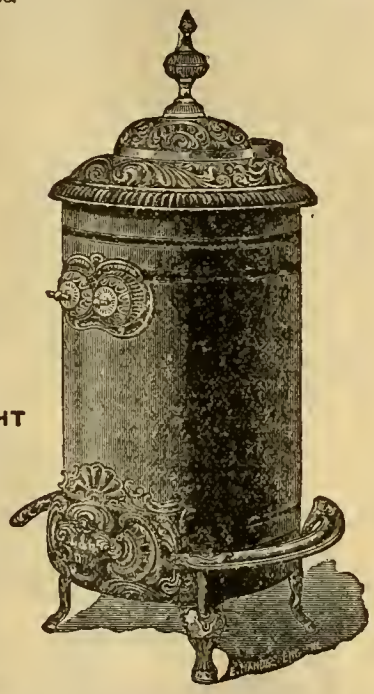
During this Fall and Winter we will sell these air-tight coal burning heaters at $6.75 to $13.50, which will mean a saving to you of $8.00 to $10.00, as against the price which these same stoves have been sold by dealers everywhere. **Following we show a skeleton illustration** showing the inner construction of this air-tight coal heater, with full description of the workings of the same. **Our special $6.75 price is made possible** by reason of our having taken a greater part of the output of the factory that makes these stoves—**our contract calls for so large a number** the manufacturer has been able to reduce the **cost of material, the cost of labor;** and the price we quote you is based on the actual cost of the material and the labor with but **our one small percentage of profit added,** and, as a result you can own the highest grade air-tight coal burning heater for less money than dealers can buy in quantities. **These heaters are covered by binding guarantee.** They are made from the very best of polished sheet steel in the best equipped steel stove factory in America. Makers whose reputation alone is guarantee of quality. **Our liberal offer to send on receipt of price,** or if you prefer to send $1.00, we will send to you by freight C. O. D. subject to your examination—you can examine it at your freight depot—and if found perfectly satisfactory, exactly as represented, and such value as you could not get elsewhere, pay the freight agent our price and freight charges, less the amount sent with order, otherwise you can return stove at our expense and we will cheerfully refund money.



Skeleton cut illustrating inner construction of Air-Tight Coal stove.

No. 75404 The air inlets have been shown above each other in order to explain construction while they really are beside each other.

The accompanying illustration shows the interior construction of our Acme Air-Tight Sheet Steel Heaters for burning hard or soft coal. This is one of the latest and most modern stoves on the market. The body is made of smooth steel, has cast ornamented top, cast firepot, cast lining extending up as far as draft inlet with 20 gauge steel lining above that. Furnished with the popular **"dome center" shaking grate and ash pans.** These stoves are claimed without any contradiction to consume 85 per cent of the smoke. All sizes use 6-inch stove pipe.



OUR $6.75 ACME AIR-TIGHT SHEET STEEL HEATER FOR HARD OR SOFT COAL.

From this illustration you can form an idea of the appearance of this handsome new model air tight cold blast heater, the interior construction of which is shown in the preceding illustration.

It is handsomely ornamented with nickel-plated foot-rails, nickel-plated hot blast dampers, screw adjustment, **highly ornamented with nickel-plated ornaments,** patent double cover on top.

Manufacturers claim that 1¾ tons ordinary grades soft coal will last as long and give as much heat as one ton of the very best hard coal, and that it will hold fire of soft coal over night. From this it will be seen that it is one of the most **economical coal burners you can buy.**

Our special price of $6.75 and $8.25, according to size as listed below, is so very much lower in price than these goods have ever been sold, that we believe our customers will appreciate the values we are giving. If you favor us with your order for one of these stoves, we know you will be so well pleased that you will send us your orders for other goods.

Skeleton Cut Illustrating Inner Construction Hot Blast for Coal, With Hot Air Circulation.

The air inlets have been shown above each other in order to explain construction while they really are beside each other.

This illustration shows the interior construction of our Acme Air Tight Hot Blast Sheet Steel Heater for burning hard or soft coal. Has hot blast draft and hot air circulating system as described under Skeleton cut of our hot blast stove for wood.

Has ornamented cast top, cast corrugated bottom, double jacket. It has a nickeled rim around the top of the stove and two air inlets. Is furnished with the **Dome center shaking grate.** Heavy cast fire pot, cast lining above fire pot to air inlet and 20 gauge steel lining above that. Has polished steel body. Patent double cover on top.

OUR $9.60 ACME AIR-TIGHT SHEET IRON COAL BURNING HEATING STOVES.

At $9.60—$11.25, and $13.50, according to sizes, we furnish this the very latest, most improved and best coal burning air-tight heater as a practical substitute for regular $35.00 or $40.00 hard coal burning parlor heaters. **This is without exception the highest grade, most economical, best finished and most serviceable** hot blast draft air-tight sheet iron coal burner made. **Made to burn hard coal, soft coal or coke,** and, as will be seen from skeleton description just preceding, it possesses all the very latest improvements—everything that can make it the very best stove of the kind on the market. **This hot air heater consumes 85 per cent of the smoke.** Most economical stove made; is a very powerful and quick acting heater.

Either send us full amount, or, if you prefer, **send $1.00,** balance to be paid after received, and we will send stove C. O. D. subject to your examination. You can examine it at your freight depot, and if found perfectly satisfactory, exactly as represented, and such value as you could not get elsewhere, pay the freight agent our price and freight charges, less the amount sent with order; otherwise you can return the stove at our expense and we will cheerfully refund money.

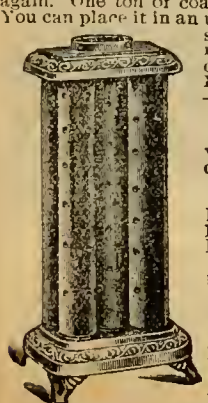
THE NEW ERA RADIATOR

IT IS ADAPTED FOR ANY FUEL EXCEPT SOFT COAL.

It stops the heat on its way to the chimney and makes it do double duty. You can place a **New Era Radiator** on the stove-pipe in the same room with the stove. It will actually save from one-quarter to one-half the fuel. There is no guess work in this statement. Actual tests have proved it time and time again. One ton of coal or one cord of wood will produce nearly as much heat with the **New Era Radiator** as two tons of coal or two cords of wood without it. You can place it in an upstairs room on a pipe running through from below, and it will heat that room without the expenditure of a single extra cent for fuel. It simply uses the heat that is escaping. It is a stove that throws off heat without requiring any fuel or attention at all. **No dust in the room and no ashes to carry out.** No gas escapes from them, and they cause no obstruction at all to the draught. They can be as easily cleaned and repaired as a stove pipe. **The New Era Radiator really costs nothing.** It pays for itself in saved fuel in a very short time. **Remember, they should not be used with soft coal.**



No. 95414

SQUARE STYLE.

This style is only adapted for floors above the stove. They are very handsome in design, and are bought by many who would not otherwise run a stove pipe through their house.

Cannot be used with soft coal.

No. 95412 For 6-in. stove pipe. Body made of Woods' Refined Iron. Cast iron top and base; nickel plated feet. Size of base 17½x13¾ inches; height, with legs, 37 inches; weight, crated, 60 lbs.
Price each.....$3.75

No. 95413 Same as above, except the body is made of Woods' patent planished iron. Price each.....$4.80

CYLINDRICAL STYLE.

To meet the demand for a cheaper Radiator, this style is added. It is smaller but very efficient either on the back of a stove or to heat small upper rooms.

Cannot be used with soft coal.

No. 95416 For 6-inch stove pipe. Made of Woods' Refined Iron. Diameter, 10 inches; height, 28 inches; weight, crated, 24 lbs.
Price each.....$1.80

No. 95416

The Original Round Style.

Price each.....$3.50

No. 95421 Same as above, except it is made of Woods' patent planished iron.
Price each.....$4.50

OIL HEATING STOVES.

Oil Heating Stoves are a great convenience for heating rooms where there is no chimney. They are perfectly safe, no more danger than with an ordinary lamp. If the wick needs trimming, don't cut it, simply rub the crust off with a cloth or brush. Use only the best grade of kerosene or coal oil. Don't spill any oil on the tank when filling, it might cause an oder. Our wick-raising device is so constructed that it grips the wick on both sides and raises it evenly, and it is impossible for it to bind. Anyone can put in a new wick in a minute. This is a very important feature in an oil stove.

GUARANTEE All our Oil Heaters are carefully inspected before shipment and are warranted to do all we claim. Directions for the care and operation accompany each stove. If after these directions have been followed any stove is found faulty or defective the same can be returned to us and money will be refunded without an argument.

Our Bath Room Oil Heater.

No. 75440 Our Bath Room Oil Heater is suitable for bath rooms and small bed rooms. Height, 27 inches. Diameter of drum, 6 inches. Circumference of wick, 5 inches. Oil Stoves must be kept well cleaned.

WHY WE EXPECT YOUR STOVE ORDER.

WE GUARANTEE TO SAVE YOU MONEY and furnish you a stove in quality the equal of any stove made, and for your selection show you the most complete line ever offered by any house.

OUR LOW PRICES based on the actual cost of material and labor, with but our one small profit added, works such a saving to our customers, that many of them buy nearly everything from us and influence their friends to do likewise.

OUR ONE DOLLAR C. O. D. TERMS on stoves, OUR BINDING GUARANTEE and OUR INCOMPARABLE LOW PRICES make it PAY YOU TO CONSIDER WELL OUR GREAT ARRAY OF

STOVE BARGAINS.

Blue Flame Oil Stoves.

It is a fact that Blue Flame Oil Stoves are yet in the experimental stage. Most of these put on the market thus far had some weak points that rendered them worthless. Such stoves are sold cheap, but are dear at any price. We know we have the best Blue Flame Stove in the market. We know there are cheaper stoves in the market, but we absolutely refuse to have anything to do with them. If you will have a cheap stove we must lose your trade for a time perhaps, but we prefer to do this rather than to supply you with goods that would deservedly lose us your trade and friendship forever. We will not knowingly furnish goods that will not give satisfaction; no matter if they do pay a large profit. Our reason is selfish, we admit. We have proven that as a matter of business, it don't pay us to do so. We believe that our gasoline stoves are just as safe and will give better satisfaction than any Blue Flame Stove yet produced, but if you do buy a Blue Flame Stove, by all means buy the best—The Acme.

Acme Blue Flame Oil Stoves.

The best proportioned stove on the market. Beautifully finished and elegantly designed. In the burner on the Acme Blue Flame Stove we obtain the very best possible results. The combustion is perfect. The flame we obtain with our burner is not only very powerful but is perfectly blue and entirely free from smoke. There are no soldered joints in the Acme burner to become loosened in a short time, causing leaks, and a great annoyance to the user. All parts exposed to heat or oil are made of sheet brass. All grates in top of stoves are removable, giving free access to burners when it becomes necessary to clean them. All step attachments are fitted with two powerful burners; this is a great advantage over competitors' stoves that are fitted with only one burner in step attachment. With our construction of stove with two burners in step, we have a stove of the same cooking capacity in a two-burner step that our competitors have in three-burner step. This is a great advantage in many ways. They are not only unable to compete with us in price, but their stove of the same cooking capacity requires twelve inches more floor space, which is worth a great deal in many small kitchens. One double burner also distributes the heat more evenly in all points of a large oven, giving far better results in baking than is possible on any other make of stove with only one burner under oven. The Acme is the highest of all high grades.

The acompanying cut represents our two-burner Blue Flame Acme Oil Cook Stove, fitted with the same burners we use in our highest-priced stoves. The construction and finish of our goods is not equaled. The combustion of our burner is perfect. They are simple in construction, and are not liable to get out of order. We have same style of stove with three burners. For prices see below.

	Burners on Top.	Size of Top.	Height of Stove.	Crated Weight.	Price.
No. 75482	2	25x18	15 in.	40 lbs.	$6.00

Acme Blue Flame Oil High Cook Stoves with Step.

The accompanying cut illustrates our two-burner step Acme Blue Flame Oil High Cook Stove. We also give below dimensions and price of three-burner and step. These two stoves are the most desirable sizes manufactured and are sure to prove the leaders for 1898. They have all the desirable features of the largest and highest priced stoves. All Acme Oil Cooks are furnished with two burners on step, this makes the two burner and step of four hole cooking capacity and three-burner and step of five-hole cooking capacity. Another strong point in favor of the Acme line.

We are aware that there are cheaper oil cooking stoves in the market. We do not know of any other line we would care to offer to our customers. The Acme gives satisfaction if kept clean. It is the strongest, safest, best finished, most durable and most satisfactory stove in the market.

GASOLINE STOVES.

The Acme Gasoline Stoves are the highest grade stoves on the market. If you purchase from us or from anyone else a Sears, Roebuck & Co.'s Acme Stove you will have a stove that will give you satisfaction in every way. It is safe, durable, simple and efficient. Remember our guarantee, if not found exactly as represented, if they will not do everything we claim for them, return them to us and money paid will be refunded. To sell stoves under this guarantee we must furnish the very best stove we can procure. THERE IS POSITIVELY NO DANGER IN USING THE ACME GASOLINE STOVE. IT CANNOT EXPLODE. Don't purchase a cheap, poorly made gasoline stove unless you have your property well insured and care little for the safety of your family. The attempt to save a dollar or two on the first cost of a stove has caused many a fire and cost many lives.

If everybody used the Sears, Roebuck & Co.'s Acme Gasoline Stoves or if all other stoves were as honestly made there would be no such thing as a gasoline stove explosion. Don't use cheap gasoline. Cheap gasoline clogs the burners and is more dangerous than gun-powder or dynamite. Our stove uses less gasoline than any other and it costs less to run it with 74 degrees deodorized gasoline than others with the cheap, dangerous, unsatisfactory stuff sold cheap.

We can furnish repairs for the Acme Gasoline Stoves but never have any calls for repairs. This indicates that the stoves are durable.

Acme Process Gasoline Stoves.

LEADING POINTS.

All stoves are strongly and substantially built, beautifully finished and elegantly designed. Competitors attest to the superiority of our stoves as regards finish and design.

Hot air and vaporizing tubes are connected with removable cast-iron elbows, easily taken apart, so that the vaporizers can be taken out and cleaned. Vaporizers are made of perforated brass and of the latest scientific construction. Burner Drums are of the best sheet brass, and have cast-iron tops and bottoms. Cone seats are made of cast-iron. Cone seats have large iron flanges so as to protect the drums from heat, grease and dirt, which have always caused burner drums to either burn or rust off at the top. This improvement makes all hot air conductors indestructible. A great improvement and one worthy of your consideration. Burners are fastened together with two bolts, easily taken apart. Tanks for 1898 will be simple, perfect and a proven success. Needle points on valves are made of German silver wire, they will never rust or corrode, and will always insure a steady drip. Tanks are so constructed that they cannot be removed for filling until all valves have been closed. Acme process stoves will run perfectly in cold weather.

All in all, the Acme Process is the king of evaporating stoves. See the cut of our Acme Process Cabinet. These stoves are a grand success. The most beautiful stoves ever manufactured.

The Acme Step Process Cabinet Range.

No. 75570 The Acme Step Process Cabinet Range (No. 30). This range is not only of great cooking capacity but is the most artistic patterned and finest finished range on the market this season. Eleven Reasons Why the Acme Single-Generator is the Best.

Because: 1st—It is simply made as an individual burner. 2nd—It is the most durable generator ever made. 3rd—It generates for each burner through separate channels. 4th—It is the only generator on which the failure of any one burner does not interfere in the least with the perfect running of balance of stove. 5th—It is the quickest starting burner on the market, requiring about one minute in getting to the generating point. 6th—It will generate perfectly as low a grade of gasoline as any individual burner. 7th—It uses less gasoline than any other generator made, as each burner is provided with a separate generating channel, and the shutting off of any burner lessens proportionately the generating capacity of the generator, and the proportionate wasting of gasoline. 8th—When generator burner is running alone, it has no more generating capacity than any individual burner, producing at all times a perfect, even blue flame, a result that cannot be attained by any other single generator. 9th—It is cast solid and then drilled, avoiding the danger of the presence of sand, which is a frequent cause of trouble in a cored generator. 10th—It is provided with a handy and simple sub-burner device. 11th—The sub-burner, at a cost of running not to exceed one cent per day, keeps the stove constantly ready for immediate use. It is not necessary to run the sub-burner when the generator burner is running. If you want the best buy the Acme.

Our $21.00 Acme Step Cabinet Range.

No 75590 The Acme Single Generator Step Cabinet Range (No 38) has drop-doors. The most compact and complete gasoline range ever shown. Has two burners on top. Two burners on step. Department of Combination Outfits and House Furnishings.

For the benefit of our many customers who would like to take advantage of special reduction in prices, we are able to make, by offering a **complete combination, or outfit, in stoves or household furnishings,** we have made up several assortments on which we take pleasure in making a **special lump price, very much in reduction of the regular price**—a price for the lot so low that it would be greatly to the advantage of buyers to purchase a **complete outfit,** for figuring the different pieces singly they will really be getting quite a portion of the outfit **absolutely free of charge.**

HOW WE CAN AFFORD TO MAKE SUCH LIBERAL REDUCTIONS---SUCH EXTRAORDINARY LOW PRICE OFFERS.

A few seasons ago we assorted in several of our departments an accumulation of different articles that we had discontinued cataloguing—we offered them to our customers in combination lots at extremely low prices.

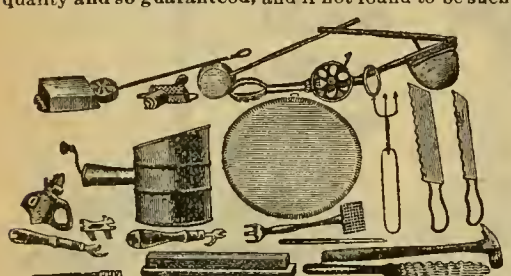
We found our customers very glad to avail themselves of our extraordinary bargains, and all the lots we made up were soon gone.

Following up this plan, we have at different times made up combinations of entirely new goods, and we found the sale of these **combinations so very large** that we could buy each article contained in the combination **in enormous quantities,** and by reason of the enormous quantity of each article bought at one time for spot cash, we were able to **reduce the cost of the entire lot,** for the stock, as the assortments are made up, packed and boxed during the dull season of the year, and at odd times when our employees have nothing else to do, and in this way the assortments are completed, **packed and boxed really without expense,** and as it requires no more handling, no more clerical work to ship a complete outfit than it does a single item, **we have made a feature of combination outfits;** have reduced our margin of profit to the **very narrowest calculation** above the actual cost, and we therefore give to those who take advantage of **our special combination sets of stove furnishings and housekeepers' outfits,** such values as were never before offered by us or any other house.

It will pay you handsomely to include with your order for stoves, your hardware, or any merchandis you may be ordering, one of our stove combination outfits. **You will receive such value** as you have never seen, in fact when you get the goods you will marvel how it is possible to furnish so much for so little money.

ABOUT THE QUALITY.

Different from many department and novelty stores who sell assortments of inferior goods, our assortments are all made up from **regular stock merchandise of the highest grade,** every article that goes into every combination we offer is strictly a high standard quality and so guaranteed, and if not found to be such in every instance, you are at liberty to return goods to us and we will cheerfully refund your money.



No. 75994
ORDER BY NUMBER

$1.35 BUYS REGULAR $3.00 KITCHEN OUTFIT.

At $1.35 we furnish you a very large combination, a very complete assortment, as listed below, all articles for every-day use in every home in every kitchen, the equal of which you could not buy in any market at less than **$3.00;** and at regular retail price bought singly, would cost you in many places **as much as $4.00.**

You may think it impossible to furnish such a large and varied assortment of such universal household utensils for so little money, but if you send us **$1.35** and allow us to ship you this outfit, and you do **not find it exactly as represented, strictly standard goods,** equal to anything you can buy elsewhere at double the price, you can return it to us and we will cheerfully refund your money.

It will pay you to send $1.35 for this outfit, even if you cannot use more than two-thirds of the articles listed. You will be owning the two-thirds at an extremely low price, **will mean a saving to you** if you give the one-third you cannot use to your neighbors. The reduction we have made in price practically secures for you a good portion of the **complete outfit for nothing,** by taking advantage of our special **$1.35** price.

We are able to make this extraordinary offer on combination outfits by reason of buying up **immense quantities** of the different articles during the dull seasons, when the manufacturers have little to do and are willing to make **very close prices,** at the same time when it is quiet with us we can assemble the outfits, pack them, get them ready for shipment. As it costs no more to handle the **complete outfit** once ready for shipment than one single item in the lot, we can afford to figure our profit **even lower** than on a geueral line. All this you get the benefit of in our **$1.35** price.

From the above illustration you can form some idea of the great assortment of useful articles of merchandise which is offered in this outfit at the **extremely low price of $1.35,** and below we enumerate the different articles we furnish you:

OUR KITCHEN OUTFIT CONSISTS OF THE FOLLOWING ARTICLES:

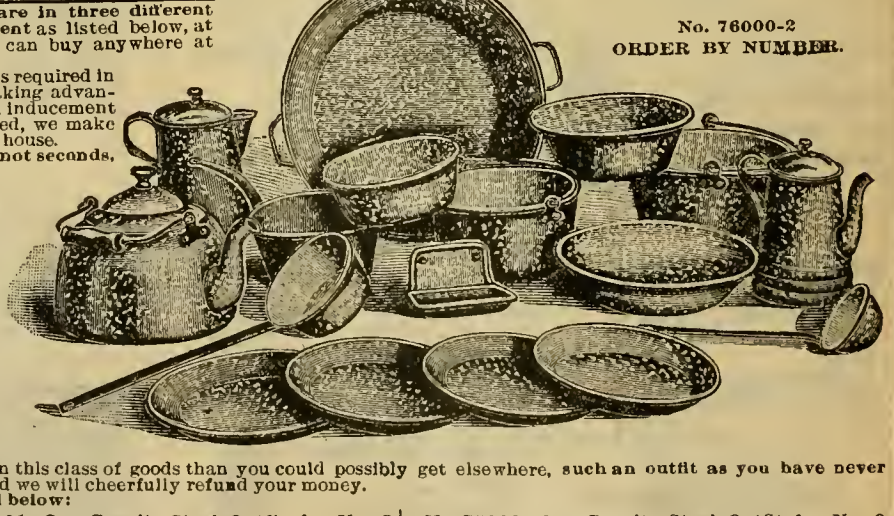
1 Christy Pattern Knife Set, consisting of 1 bread knife and 1 cake knife, with the well known corrugated edge, and 1 paring knife. These knives will cut hot bread orcake without crumbling or crushing. **1 Dover Egg Beater.**—One of the best beaters made. **1 Soap Saver.**—This devise uses up all the small pieces of soap and will pay for itself every week. **1 Henis Fruit and Vegetable Press and Strainer.**—Can be used for a variety of purposes; for mashing potatoes it has no equal. **1 Indestructible Fire Kindler.**—For starting wood fires, thawing water pipes, burning brush and marshes, burning insects from trees, and many other purposes that will suggest themselves to the user. **1 Heavy Asbestos Stove Mat.**—9 inches in diameter, with metal rim; is scorch proof and fire proof, and when set on stove under cooking vessel will prevent milk, rice or cereals from burning; can also be used as a toaster on gasoline or gas stoves. **1 Kitchen Sandstone mounted, in varnished wood box.**—Size, 8x1¼ inches; will quickly put a keen edge on knives of any kind. **1 Tinned Wire Kitchen Fork with three prongs.**—Length, 12¼ inches. **1 Rotary Flour Sifter, which also serves as a Scoop.**—Full size, well made. **1 Bronzed Metal Glass Cutter** with extra tempered revolving steel wheel. **1 Improved Edgar Nutmeg Grater.**—It will not clog, tear the fingers, nor drop the nutmeg; it grates the nutmeg very fine; distributes it evenly and leaves no small pieces; it is simple and durable. **1 Acme Nickel Plated Broom Holder.**—Holds the broom up from the floor and preserves its shape; has hooks to hang dust pan and brush on; a simple but most useful arrangement. **1 Lamp Chimney Stove.**—Fits any ordinary crimped lamp chimney, can be used to heat curling irons, boil water, warm baby's food, and for a variety of other purposes. **1 Star Can Opener.**—Has steel blade, nickel plated guide and furrule, and antique oak handle; considered one of the best in use. **1 Sensible Pot, Chain and Scraper.**—Has tinned handle, steel scraper and double ring chain. **1 Tinned Malleable Tack Hammer.**—Upholsterers pattern with hickory handle. **1 Little Giant Tack Puller.**—Ebonized handle, steel jaw; pulls the tacks without bending them.

OUR $2.65, $2.95 AND $3.35 GRANITE STEEL ENAMELED WARE OUTFITS.

We have made up a combination of steel granite ware in three different sizes which we are able to offer in the complete assortment as listed below, at **$2.65, $2.95 and $3.35,** in competition with anything you can buy anywhere at double the price.

Every aricle listed, every article incinded in this outfit is required in every home for every day use, every day in the year, and by taking advantage of our **special offer, our special reduction in price,** as an inducement for you to buy the complete outfit as assorted, packed and boxed, we make you **such a price** as was never before quoted by us or any other house.

This granite ware is the highest grade, strictly firsts, not seconds, it is the very **latest, most improved and only perfect granite steel ware on the market,** made by the **best maker in America,** and while we offer only the very best and at **prices heretofore unheard of,** and even lower than you could buy same combination from your local dealer in plain tin ware, we are able to do this only by reason of having contracted for an **immense quantity of the goods** during the summer when the manufacturer's plant was almost idle, and we were able to get **much lower prices** than we could possibly get to-day. Price named us is the price we name you, with **but one small percentage of profit added,** nothing has been allowed for the expense of handling, packing, etc., such as we are compelled to figure in selling single items, Packing these goods upe in the dull season, we figure there is **no cost to us,** when if our men were not packing these goods they would really be doing nothing. **All of this you get the benefit of.**



No. 76000-2
ORDER BY NUMBER.

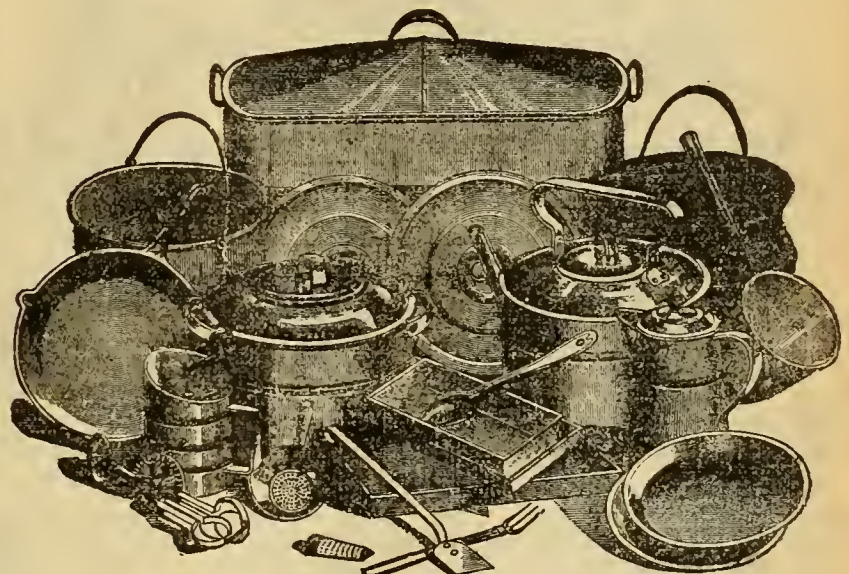
Complete Kitchen Furniture Assortment.

OUR FACILITIES for furnishing all sorts of kitchen utensils are unequaled, and in the outfits named below we offer you an assortment which contains not a single article but what is a very necessary part of household furniture. **WE HANDLE NO SECONDS.** All our utensils are first quality and guaranteed perfect. When you order your stove from this list be sure to include the assortment that goes with the size wanted.

WE HAVE QUOTED OUR STOVES WITHOUT FURNITURE, for the reason that many people wanting a stove are already supplied with the necessary utensils.

ORDER FROM US AND GET MORE FOR YOUR MONEY THAN FROM ANY OTHER HOUSE.

In ordering Stove Furniture be sure and buy same size as your stove.



OUR SPECIAL $1.20 HOUSEKEEPERS' OUTFIT OF TINWARE.

No. 76007 **ORDER BY NUMBER**

AT $1.20 we offer you an outfit of tinware, the equal of any lot of tinware you could buy at retail at $2.50 to $3.00.

EVERY PIECE we show in this lot is strictly high grade, standard goods—goods we have bought up in the dull season in immense quantities for cash. We have assorted them up during the dull period in lots of this assortment, but they are **all carefully packed and boxed** ready for shipment, and we have figured our margin of profit **even lower than on regular goods,** allowed nothing for packing or handling and as a result we are able to offer you this entire combination for $1.20.

From the accompanying illustration, engraved direct from photograph, you can get some idea of how much we are giving you **for only $1.20.** There is not a piece in the whole outfit but what is in every day use.

If there happens to be one or more articles in this outfit you have no use for, **do not hesitate** to take advantage of the offer—you are getting a good portion of the outfit **for nothing,** and when you get **the $1.20 price,** you can afford to pay $1.20 for this outfit if you give away one-third of the articles. The remainder will be very cheap at **$1.20**

Read over the different items we give you, as listed below, calculate as near as you can what your local hardware merchant would charge you for the same articles singly, always remembering they are always strictly high grade standard goods, and you can then form some idea of the money we are saving you on our special offer **$1.20 for the outfit.**

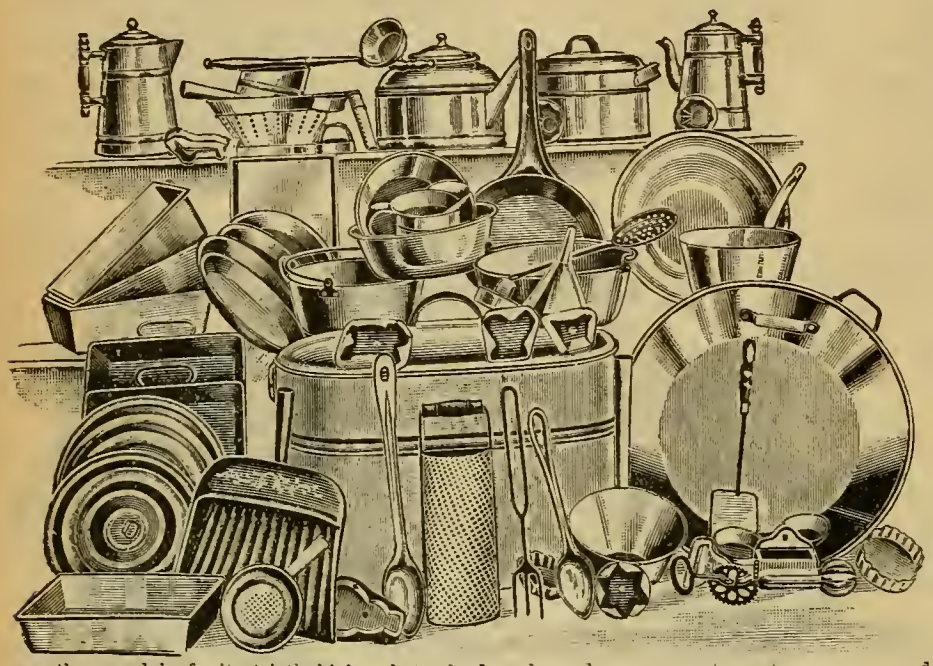
OUR $1.20 SET OF TINWARE.

CONSISTS OF THE FOLLOWING ARTICLES:

1 Heavily retinned Dish Pan, 10 quart size.
3 Retinned Pudding Pans, one each 1, 2 and 3 qt. size.
1 Retinned Milk Pan, 4 quart size.
1 Spout Strainer to attach to spout of Tea pot.
1 Wire Handle Bowl Strainer, diameter 5 inches, to strain soups, etc.
1 Retinned Wire Soap Bracket, to hang on the wall.
1 Doughnut Cutter, diameter 3 inches.
1 Biscuit Cutter, diameter 3 inches.
1 Wire Pot Chain.
1 Nutmeg Grater.
1 Soap Saver. Uses up all the small pieces of soap.
1 Pieced Tin Cup, 1 pint size.
1 Wood Handle Slotted Mixing spoon.
1 Tinned Steel Kitchen Fork, 3 prongs, 12½ inches long.
1 Apple Corer, size 3¼x6 inches.
1 Wire Potato Masher, heavy retinned wire and hardwood handle.
1 Dover Egg Beater, regular family size.
1 Rubber Scraper, used for cleaning windows and also for cleaning sinks.
1 Dredge Box, Japanned, size 3x3½ inches.
2 Tin Graters with enameled wood handles, 1 each size 5½x13 and 3x6¼ inches.
1 Retinned Wire Broiler, size 9x6 inches.
1 Heavy Asbestos Stove Mat, 9 inches in diameter with metal rim.

Our Price for the Entire Outfit as Listed Above, $1.20.

Our $3.65, $3.95 and $4.25 Stove and Kitchen Tinware Outfit.



WE HAVE MADE UP THREE LARGE COMBINATIONS OF TINWARE

Everything needed in the kitchen or in the home, from which you can make your own selection, at the special price of **$3.65, $3.95** and **$4.95** respectively, and get from us **more tinware than you would be able to buy in any retail store at more than double the price.**

OUR SPECIAL OFFER PRICE

for the complete outfit as illustrated, described and enumerated is a **great reduction in price. We have been able to make this reduction** by reason of having contracted with the manufacturer for a very large quantity of the goods, in fact we placed with him the largest tinware order he ever took. **The goods were made up for us during the the dull season,** we have had them all packed up in cases at odd times during the summer months, when our employees had spare time. We have not considered this expense of packing and boxing, but have figured our price on the complete outfits to you, on the basis of **the actual cost to manufacture with but one small percentage of profit** added; and whether you buy the set at **$3.65, $3.95** or **$4.25,** you would be getting more tinware for your money than any retail dealer in America can buy at wholesale, even if he buys in car load lots.

THE GOODS WE OFFER IN THIS OUTFIT ARE ALL STRICTLY HIGH

standard grades and quality, guaranteed. Should not be compared with the cheaper grades on the market. If you order one of these outfits and you do not find it all of more than we claim for it, strictly high and standard grade goods, you can return at our expense and we will cheerfully refund your money.

IF YOU NEED TINWARE

By all means order one of these combination outfits. You will be saving nearly one-half in price; you will practically be getting great many pieces for nothing—there may be some pieces in the lot that you really do not need—you may have plenty at home—don't allow this to deter you from ordering the outfit, for the reduction in price will practically give you a good portion of the outfit free, and you can afford to give many pieces away and still be saving from 25 to 50 per cent on your purchase, when considering such parts of the of the outfit as you can use.

AS WILL BE SEEN BY THE ABOVE ILLUSTRATION

which has been engraved on wood by our artist direct from photograph, taken from tinware outfit, we have endeavored to give you some idea of the vast amount of goods which are possible for us to give for only **$3.95** to **$4.75,** when able to figure with you on the basis of the cost to produce, and from this you can judge as to the profit and expense you are paying when you buy these goods at retail, and the wonderful inducement offered you to send your orders direct to headquarters and buy your goods at the lowest wholesale prices.

Remember our special offer price while these outfits last is $3.65, $3.95 and $4.25—regular $10.00 values, and consists of the goods fully listed below

Bonnell's Nubian Iron Enamel.

No. 76073. Bonnell's Nubian Iron Enamel is a jet-black varnish, made from a gum of peculiarly good qualities for the purpose, and put up in neat round cans, and containing a suitable brush attached to the cork. **It is designed for use on any iron surface which you would like to make black and glossy.** When the enamel on **Iron Mantels, Fenders, Fire Fronts, Registers, Locks,** etc., has worn off and the bare iron begins to show and to rust, **a coat of this enamel** will make it **"look like new."** Steam and gas pipes, radiators, fire iron stands, coal buckets, stove pipes, sinks, ranges and any other iron ware which is liable to decay by rusting, may be beautified and made to last very much longer by a coating of Bonnell's Nubian Iron Enamel.
Per can, with brush..... 15
Price, per dozen.....$1.87

Stove Polishing Mitten.

No. 76074 Stove polishing mitten. Was originally intended for blacking and polishing a stove, but is now also used for **polishing household furniture, cleaning bicycles, polishing tan shoes, etc.** It cannot scratch the most delicate material or varnish, while the finest possible polish can be produced, and the hands are kept clean. In manufacturing it we use the very best materials that the market will afford. The above illustration will give a fair idea of its appearance. It will easily fit the hand, has a waterproof back, with wool dauber, and the whole front is made of the most durable and soft sheepskin, tanned with the wool on. Weight, each, 2 ounces.
per doz.....$1.00 Price, each.....10c;

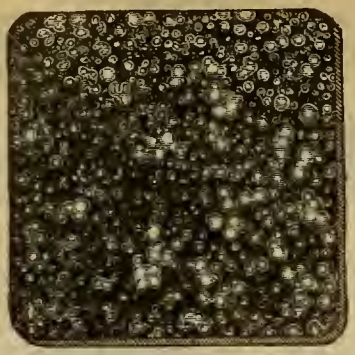
Stove Boards.



No. 76116 Mosaic Stove Boards. Made of sheet steel enameled under a temperature of 240 degrees of heat. Will not rust or fade. Not affected by heat from any stove. Can be scrubbed like oilcloth and will retain their colors. Made to represent mosaic tiling, which is a new feature in a stove board. The metal is 20 per cent. heavier than any other board made; our price is 20 per cent. below competitors' price for inferior goods. They are lined with wood.

No.	Size	Price	No.	Size	Price

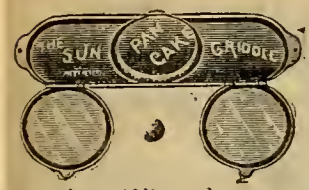
The Sun Pancake Griddle for 35 Cents.

It's astonishing how little money will buy these goods when you don't pay a retail profit.



No. 76157 The Unbreakable Sun Pancake Griddle is made of wrought steel; is strong and durable, heats quickly and retains the heat, and is lighter than any other griddle made.

The illustration above shows the Sun Pancake Griddle with its 3 hinged pans. The batter is first poured into the little round hinged pans. When done on the first side the round pans are turned over with a fork into the long pan, and while the cakes are finishing, the round pans are refilled, and so on, thus baking at the actual rate of six cakes a minute. The cakes are served perfectly round, with smooth edges, are light and spongy and will tempt the most fastidious appetite. It is an absolute necessity in every household. Weight, 1¼ lbs.

Price, per doz.....**$3.75** Each.....**35c**

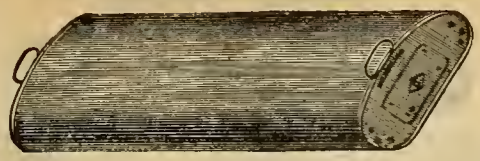
Paper the Kitchen and Every Other Room in the House.

Lehman's Heater.



Lehman's Heater is a metallic case 7¼ inches wide, 3½ inches deep and from 14 to 20 inches long—used to keep the feet warm when riding. The heating material is a specially prepared coal, stamped "Lehman," which comes in boxes, containing one dozen or 100 pieces—size of each piece, 7¼ inches long, 2¼ inches wide, and 1¼ inches thick. Think of this: One-third of one of these pieces is sufficient for giving a steady, continuous heat for twelve hours in ordinarily cold weather. If only wanted for a short time, it can be extinguished with water and used again. How readily a liveryman rents his vehicles when it is known that the Lehman Heaters are inside, already giving out heat, or ready to be started at a moment's notice. **The Lehman Heater** is free from smoke or odor of any kind. There is no danger from fire. Over 75,000 of these Heaters are in daily use and give perfect satisfaction. **Of particular interest to those who ride in carriages or sleighs. Of most particular interest to liverymen, and owners of carriages, etc.**

No. 76171 Lehman's Heater. Width 7¼ inches, depth, 3½ inches; length, 14 inches. Price each, without coal. Price.....**$2.65**

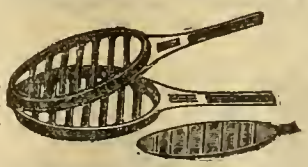
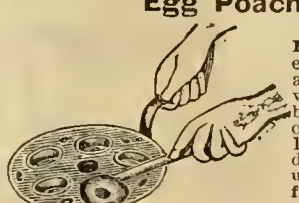
Broilers.



No. 76188 The illustration shows the two sections of the Broiler and the cover. The corrugated cross pieces being V-shaped into which the gravy drips during the broiling. It is thus self-basting, and instead of the gravy falling into the fire, creating a suffocating smoke and disagreeable odor, it runs into the corrugations, is broiled into the meat, making an otherwise dry, tough steak tender and juicy. **The cover fits over the top,** confining the appetizing flavor to the meat and prevents the escape of smoke into the room. **For toasting, the Morgan Broiler is perfection.** It makes no difference what kind of stove you use, gasoline, wood, coal, gas or oil, the Morgan Broiler is adapted to them all. Will not crack, warp or break; is easily cleaned, fits any stove; does not affect the draught nor deaden the fire. Price, each.....**40c**

Egg Poacher.



No. 76190 Egg Poacher. Is designed to be placed within a spider or cooking vessel containing boiling water about one-half inch deep. Its merit is very evident. Each egg is of uniform size, perfectly cooked. "A round of white dotted with a firm golden center." Eggs are quickly and easily removed, etc. Adapted equally well for baking biscuit, gems, patty cakes, etc. Made of IX charcoal tin, without solder. Every joint and seam smooth and perfect. Price, each.....**25c**

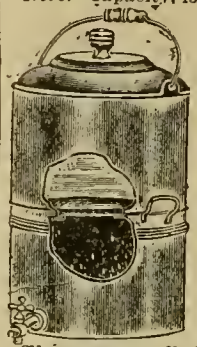
No. 9. Capacity, 13 quarts, each 2.10

Lava Enameled Filters.



No. 76250 The main points of excellence of the Lava Enameled Filter are, the body is light and strong; all parts are easily gotten at to facilitate cleaning. They are made of such material as to be in no way injurious to health. The stone is of such a nature that it will not absorb any of the germs or filth that it extracts. The body of the filter, while very light, cannot be broken. The top vessel has a bail and the bottom one, side handles. They are Lava enameled, blue outside.

They are as easily kept clean as a china dish, and unlike the common crock filters cannot be broken. Filteration in this filter is obtained by percolation through a porous natural stone by force of gravity No filth or putrid matter can possibly get below the surface. The first few buckets of water filtered has a slight taste of the rock, but it is in no way injurious to health. Two or three times a week scrub off the top of the stone with a small broom or brush, and the filter is then ready for use again. Each vessel holds 3 gallons. Capacity, 8 gallons per day.
Price.....$4.00

CRANITE STEEL WARE.

Our Granite Steel Ware is formed from sheet steel, and after being put together is enameled inside and outside a gray color, handsomely mottled. For cleanliness, purity, durability and beauty this ware is unexcelled by any other gray enameled steel goods on the market. It is entirely free from lead, arsenic and antimony, metals so often used in enamels of this appearance. We buy enameled ware from the makers and are satisfied with our usual small profit. No seconds or imperfect goods sold.

About Sizes.

We do not guarantee that our enameled ware will hold as many quarts as stated. It is sold under what is known as manufacturers' measure. Some articles hold more quarts than stated, others less. The measurements in inches are correct. Our goods are same size as corresponding sizes of any and all manufacturers.

No. 76601 Milk Pail, with Strainer, extra-heavy tin, stamped seamless, holds 12 quarts.
Price, each.....90c

The Dairyman's Favorite.

No. 76603 The accompanying cut represents an article having all the essential points of a perfect strainer pail. Besides the wire-guaze strainer there is a brass spring clamping around the mouth to hold a cloth, thus making a double strainer without extra labor or loss of time. Another important feature is, there is no part but what can be thoroughly washed, and no rough and unsoldered seams in which dirt can accumulate and sour. Price, 12-quarts, each....43c
14-quarts, each.....49c

Sap Pails, IC.

Cream City Flour Bin and Sifter, IX.

No. 76776 Japanned and nicely ornamented. The Sifter proper is protected from pressure by the flour in the bin by our new shield which enables the reels to work easily and smoothly, and obviates all grinding through of foreign substances. The flour is protected from coming in contact with the iron crank by an angular tin sleeve, and a tin skirt below the sifter prevents the flour from scattering all over the bottom of the bin, but instead directs it into the proper receptacle. The sifter rests on a strong ring, which extends all around the inside of the bin, holding it securely in place, and still allowing it to be easily removed for cleaning.

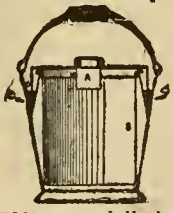
Challenge Odorless Commode and Slop Bucket Combined.



No. 76847 Beats everything of the kind on the market. It is impossible for the foul air to escape, even when the lid is removed, as there is inside the lid a receptacle that holds a deodorizer, and which neutralizes all gases inside the commode. The disinfectant (2 tablespoonfuls of chloride of lime) needs only to be renewed once in two weeks at a small cost.

It is indispensable in the sick room, especially in cases of contagious diseases and fevers. Does not have to be emptied until filled, no matter how long it stands. Cut shows construction.

Made of heavy galvanized iron, and has no paint to hold stench or disease germs. Has removable seat, etc. It needs only to be seen to convince you of its wonderful merit. Try one.

No. 77032 ½ bushel graduated to ½ 1 and 1½ pecks, each.....35c

PURE ALUMINUM WARE.

Beautiful as Silver, Pure as Gold.

Aluminum, being now nearly as cheap as copper, no one who has consideration for purity, cleanliness, durability, and the other peculiar quality of aluminum ware, should use anything else. There are several reasons why this metal is so well fitted for kitchen utensils, among which are its lightness, its absolute purity (it is entirely free from all poisonous elements, no verdigris, or salts of tin), its remarkable heat conducting and retaining properties. The fact that it will not rust, and that it will not corrode under the conditions usually met with in cooking, that there is no enamel to flake off, and that vinegar and fruit acids have no effect upon it, and last but not least, its beauty and its durability (being pure solid metal all the way through, it is practically everlasting), render it most desirable.

As we have made special arrangements with one of the largest aluminum ware producers to use their entire output, we are enabled to give you prices never before heard of for pure aluminum ware. Compare our prices with other concerns and be convinced.

5 O'CLOCK TEA KETTLES.

Our 5 O'Clock Tea Kettles are all finished in the best possible manner and beautifully polished. They are all Double Tin Lined, have Hand Brazed Spouts, Non-Heating Handles and a Quick Heating Asbestos Packed Alcohol Lamp which gives an intense heat, combined with perfect combustion and will not blacken or smut the kettle. All have cap or extinguisher which reduces the flame to the size necessary to keep the water hot.

No. 77135 A 5-O'Clock Tea Kettle. All brass with fancy brass stand and our "Quick Heating" Asbestos Packed Lamp. All highly polished. Capacity of kettle, 2 pints, height complete 11 inches. Price, complete as shown in cut..... $1.59

No. 77136 A 5-O'Clock Table Tea Kettle. Highly polished brass kettle and lamp. Kettle is suspended from fancy black wrought iron crane. Is double tin lined and has our "quick heating" asbestos packed alcohol lamp. Capacity of kettle 2 pints, height, 18 inches. Price, complete as shown in cut..... $2.50

5 O'clock Table Tea Kettle.

No. 77137 5 O'Clock Table Tea Kettle. Highly polished brass standard tilting Tea Kettle. "Quick heating" asbestos packed alcohol lamp. Double tin lined throughout. The tilting device enables you to pour without removing the tea kettle from stand. Capacity of kettle, 2 pints. Height, 10 inches. Price complete, as shown in cut.....$3.50

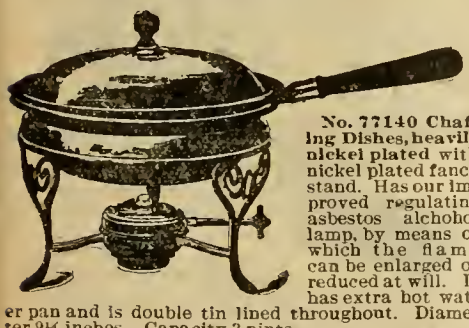
Chafing Dishes.

To the largely increased class who appreciate the luxury of fine culinary effects, combined with convenience and economy, our chafing dishes will prove indispensable.

No. 77138 Chafing Dish, heavily nickel plated, with fancy black wrought iron stand and extra pan for hot water. Double tin lined throughout. Ventilated asbestos alcohol lamp. Diameter, 8½ inches; capacity, 2 pints.
Price, complete, as shown in cut.....$2.60

No. 77139 Chafing Dish, heavily nickel plated, with fancy nickel plated stand. Has extra hot water pan and is double tin lined throughout. Ventilated asbestos alcohol lamp. Diameter, 8¼ inches. Capacity 2 pints.
Price, complete, as shown in cut.....$3.50

Fancy Nickel Plated Chafing Dish For $4.95.



No. 77140 Chafing Dishes, heavily nickel plated with nickel plated fancy stand. Has our improved regulating asbestos alchohol lamp, by means of which the flame can be enlarged or reduced at will. It has extra hot water pan and is double tin lined throughout. Diameter 9¼ inches. Capacity 3 pints.
Price, complete, as shown in cut.....$4.95

Oil Cans.

No. 77200

The Body of this Can is Glass.

Protected by a jacket of tin. It is WELL MADE, and WILL NOT LEAK where top is attached. Weight, about 4¼ lbs.
Price, each..... 18c

Standard Safety Can.

With spring valve spout for oil and gasoline. It is absolutely air tight, and the most convenient can made. All the objectionable features are overcome. Perfectly safe in filling oil and gasoline stoves and lamps. Put the can in position and push the button with the thumb. The can is made of heavy tin or galvanized iron. Every can warranted not to leak.
No. 77202 1 gallon, tin.....18c
No. 77203 1 gallon, galvanized.....22c

The Star Oil Can.

The Sterling Swinging Can.

No. 77212 Galvanized Iron, Corrugated, with spring valve spout. It is absolutely the most convenient can made, all the objectionable features in pump and faucet cans are overcome. The framework is cut from heavy steel and is separable from the can when taken to the store. Warranted to be satisfactory. To fill the lamp, swing the can in position and push the button. Only one size, 5 gallons. Price, each.....67c

The Victor Pump Can.

No. 77215

GALVANIZED IRON, CORRUGATED, WITH TIN TOP

Supplied with Steady Steam Pumps

which are removable from the can, will give satisfaction in every way. Only one size made, 5 gals.
Price, each.....67c

The Twentieth Century Pump Can Eureka.

Non-Overflowing Oil and Gasoline Pump Can.

Eureka Pump is made with a double tube. The inner tube transfers the oil to the lamp, and the outer tube carries the overflow back into the can. Adjustable Spout to fill the lamp from the top or side of the can. The Body and bottom is made of the best galvanized iron, corrugated. Heavy tin top, with a hinge cover over the pump, which excludes dust, dirt and rain. In filling your lamp, place the end of the tube in the lamp, and when the oil reaches the mouth of the tube it will cause a double action, and the outer tube will carry the oil back into the can, preventing any overflow. By pumping slowly it will siphon the oil back into the can and empty the lamp. Every pump is warranted to give satisfaction and will last as long as the can, as it is the most durable pump ever made.

No. 0 is small, 2 inches across bottom and holds about ½ pint. No. 5 is 4¾ inches across bottom and holds about 1 pint. The others are graduated between. The weights vary from 4 to 7 ounces.

Automatic Oilers.

No. 77230 Automatic Zinc Oilers. This oiler cannot be tipped over like the ordinary zinc oiler. When accidentally overthrown it will immediately resume an upright position because of the rounding shape of sides and very heavy bottom; consequently no oil can be accidentally spilled from this oiler.

No.	1	2	3
Holds, ounces	3	4	6
Price, each	14c	16c	18c
Price, per doz.	$1.58	$1.82	$2.[illegible]

TUBULAR LANTERNS.

We illustrate all the latest designs and our Lanterns have the latest improvements. We show a larger variety to select from. They are safe and reliable. While our prices are lower than formerly we still maintain our superior quality.

In selecting a lantern you should aim to secure the safest and best. Remember there are some makes of cheap lanterns that cause much annoyance as well as damage. The difference in price between our lanterns, the very best, and inferior makes is but a few cents.

"Dietz" Square Lift, or Star Tubular Lantern.

For Kerosene.

Our 40c Lantern has no equal for the money. Over 8,000 sold last year.

No. 77500 This is the old reliable square Lift Lantern.

We have sold it for years, and it gives universal satisfaction.

One of our most popular lanterns.

The globe is raised by the thumb piece on top.

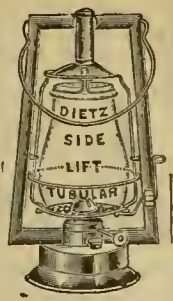
No. 1 burner, ⅝-inch wick. No. 0 globe.

Weight, about 2 lbs.

Price, each.....[illegible]

Per doz.....[illegible]

"Dietz" Side Lift or Victor Tubular Lantern.



For Kerosene, our 40c Lantern Has No Equal for the money. Over 8,000 sold last year.

No. 77503 This is the most popular Lantern on the market today.

The crank at the side raises and lowers the globe and locks the burner in place when down. A late improvement on this lantern consists of a bend on the Guard Wire over which the Crank moves, thus perfectly locking the globe frame and burner down.

No. 1 burner, ⅝-inch wick. No. O globe. Weight, about 2 lbs.

Price, each.....$0.39
Per doz..... 4.25

"Dietz" Crystal Tubular Lantern.

For Kerosene.

54c Buys a $1.00 Lantern.

No. 77505 This is a strongly guarded tubular lantern with a glass fount instead of tin. This enables the user to see how much oil is in the fount, and the fount will never leak. Fitted with our improved side lift. While the fount on this lamp is strongly guarded and is not liable to breakage, still in case of accidentally breaking it can easily be removed and a new one put in. No. 1 burner, ⅝-inch wick, No. O globe. Weight, about 2¼ lbs. Price, each.....$0.54
Per doz..... 6.00

"Deitz" U. S. Brass and Nickel-Plated Tubular Lantern.

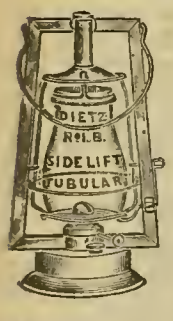
At 65c and 75c we offer the handsomest Lantern of the kind ever made. You would pay your local merchant $1.00 to $1.50 for the same lantern.

WE MAKE ONE PRICE TO YOU, the actual cost to make, with but one small profit added. For Kerosene.

No. 77510 This is the smallest tubular lantern we make. **Made of brass, very handsome.** For use around the house and for ladies' use it cannot be excelled. No. O burner, ⅝-inch wick, U. S. globe, weight, 1¼ lbs. Price, each.....65c

No. 77511 Same as above, **nickel-plated.** Price, each..... 75c

"Dietz" No. 1B Side Lift Tubular Lantern.



A SPECIAL BARGAIN at 55c and such a lantern as your local merchant would charge you at least $1.00 for.

FOR KEROSENE.

No. 77513 This Lantern has the No. 2 Burner, 1-inch Wick, and should fill a want where a large amount of light is needed in a hand lantern. **The oil pot** holds 1¼ pints of oil, and the lantern will burn 19 hours without refilling.

No. 2 Burner.	1-inch Wick.	No. O Globe.

Weight, about 2 lbs.
Price, each.....$0.55
Price, per doz..... 6.16

Ham's "Cold Blast" Tubular Lantern.

83c For a Regular $1.50 Lantern.

No. 77514 Cold Blast No. 2, round tube, bottom lift, tin tubular Lantern; No. 2 burner, 1-inch wick, No. O globe. Globe removable without taking off the guard. This lantern being made on the same principle as a street lamp, with wind-break, makes it a superior lantern in its burning qualities —very desirable for use in places where there are strong drafts of wind. It is especially adapted for use in mills and other places where there is considerable dust, as the burner will not clog up. The tubes are made from one piece, without elbow or joints. Gives a fine light. We have noticed when one of these lanterns goes to a town we get more orders from the same locality. Per doz., $9.07; each....38c

"Dietz" Safety Tubular Mill Lantern

$1.00 For a Regular $1.75 Lantern.

For Kerosene.

No. 77516 The Burner is locked in place by two positive locks on globe frame, which work automatically. In addition to this a padlock may be used to secure the globe frame and the guard frame permanently, if desired.

The Guard has our patent wind-break, which prevents access to the flame over the top of the globe. It is extra strong, well made, and is locked in position by an automatic spring.

The Base of the lantern is given extra strength, and is locked permanently to the frame by the use of our patent side braces, holding them firmly together, independent of solder, a feature not found in any other make of lanterns. The combustion of the lantern being perfect, it burns with a clear white flame, gives a brilliant light, and the oil never heats.

The Oil Fount is large, holding 1¼ pints of oil, and the lantern will burn 19 hours without refilling.

The Lantern is substantially made in every way, with a solid drawn, retinned oil fount.

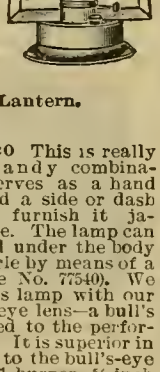
This Lantern has been endorsed by insurance men wherever shown as the safest kerosene-burning lantern made.

No. 2 burner. 1-inch wick. No. O globe.
Per doz., $11.75; each $1.00

"Dietz" Square Lift Brass Tubular Fire-Department Lantern.

For Kerosene.

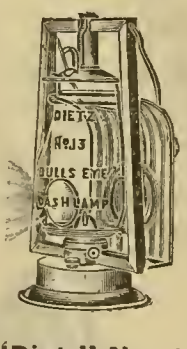
$3.00 to $5.00 is the price at which this lantern is sold in cities. UNQUESTIONABLY THE BEST LANTERN manufactured, and offered by us for $2.35. WE WILL SAVE YOU one-half in price.



No. 77518 This is a good, strong lantern, made of **heavy polished brass** and fitted with our patent Wind-Break Guard. Our Fire-Department Lanterns have all our latest improvements. Are made extra heavy, with large double oil pots. Adopted by the American Fire Engine Companies in the principal fire departments and insurance patrols in the United States. No. 1 burner. ⅝-in. wick. No. O globe. Weight, 2¼ lbs.
Price, each.....$2.28

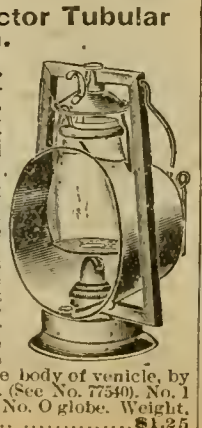
"Dietz" Buckeye or No. 13 Tubular Side and Dash Lamp.

Our Special 60c Buckeye Lantern.



No. 77520 This is really a very handy combination; it serves as a hand lantern and a side or dash lamp. We furnish it japanned blue. The lamp can be fastened under the body of the vehicle by means of a holder. (See No. 77540). We furnish this lamp with our new bull's-eye lens—a bull's eye attached to the perforated plate. It is superior in every way to the bull's-eye globe No. 1 burner, ⅝-inch wick, No. O globe; weight, about 2½ lbs. Price, per doz., $6.50; each.....59c

"Dietz" No. O Reflector Tubular Lantern.

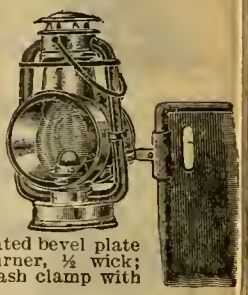


No. 77523 For Kerosene. The globe can be raised for lighting. The hood is 6 inches deep, fitted with a 5-inch silvered-glass reflector and a spring fastening for dash. Can be used also as a hand lantern or wall lamp. It is a desirable lantern for night driving, and will throw a strong light over 100 feet. It is a genuine comfort to have one of these lanterns along when driving at night. The strongest wind and the roughest road lose their terrors. They do not affect this lantern. We have never heard of one of them blowing or jarring out, although we have been selling them for years. The lamp can be fastened under the body of venicle, by means of our "Warner" holders. (See No. 77540). No. 1 long cone burner. ⅝-inch wick. No. O globe. Weight, about 2¾ lbs. Price, each.....$1.25

Ham's "Cold Blast" Dash Lamp.

No. 77525 Cold Blast Dash Lamp. No. 2 burner, 1-inch wick, No. O globe. This lamp is intended for use when a very powerful light is required. It will not blow out in the strongest wind, and does no "flicker" as much as a lantern without wind-break. We furnish this lantern japanned blue—and with bull's-eye lens, which is attached to the perforated plate.
Price, each, $ .98; Per doz., 11.12

Gem Driving Lamp.

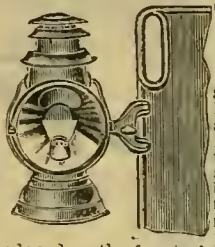


Improved.

The Gem Driving Lamp is a perfect lantern in its burning qualities. The light produced is stronger and brighter than the light produced by any lantern using a ⅝-inch burner. Elegantly finished. Has copper reflector, silver-plated bevel plate glass in door. No. 00 burner, ½ wick; gem globe. We furnish dash clamp with each lantern.

No. 77528 Black enameled, each.....$2.400
No. 77530 Nickel-plated..... 3.00

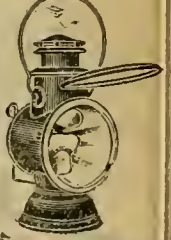
"Dietz" Tubular Driving Lamp.



(Patented.)

No. 77535 It is a practicable and perfect driving lamp. **It will not blow out;** it gives a clear, white light; it looks like a locomotive headlight; it throws all the light straight ahead from 200 to 300 feet; it burns kerosene. **Handsomely finished; japanned.** By means of a spring on the back the lamp can be instantly placed on the front of dash; by means of the holder it can be attached to either side of the dash. It can also be placed on the bracket of a carriage. 11 inches high; 6 inches in diameter. Weight, 2½ lbs.
Price, each, japanned.....$2.40

"Dietz" Tubular Hunting Lamp.



No. 77536 Looks like a locomotive headlight. It will not blow nor jar out. The hood over the front works perfectly and without noise; when the hood is down no light escapes. It will throw a powerful light 200 feet. It burns kerosene oil and will burn ten hours without refilling. It is compact and handsome. Has a bail and can be used as a hand and wall lantern in camp. Gives a brilliant light, and is absolutely safe. 11 inches high; 6 inches in diameter. Weight, 2½ lbs. Price, each.....$3.40

Lantern Holders.

No. 77540 Warner Tubular Lantern Holder. For holding a tubular lantern under the body of a wagon for night driving.
Price, each.....20c

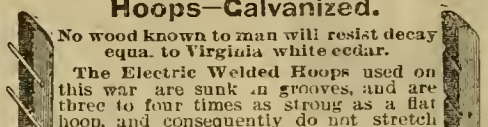
Per doz., $1.62; each.....15c

WOODENWARE DEPARTMENT.

OUR CEDAR WOODENWARE

Is made for us under contract in Michigan by the best maker in America, and is the highest grade goods on the market.

Cedarware with Electric Welded Hoops—Galvanized.



No wood known to man will resist decay equal to Virginia white cedar.

The Electric Welded Hoops used on this ware are sunk in grooves, and are three to four times as strong as a flat hoop, and consequently do not stretch when the wood expands, as is the case with a flat hoop, and therefore do not fall off when the tub or pail dries out.

These hoops are "too strong to break and can't fall off."

Cedar Tubs.

With Electric Welded Hoops.

Made from the best Virginia white cedar. These tubs have met with wonderful success among our many customers. They are light, still very strong and durable, and are painted with the best oils and paint. They are guaranteed never to "fall down." Those familiar with the lasting qualities of cedar shingles and posts will appreciate the value of this material when used in tubs and pails. We have four sizes.

No. 78250

Size, No.	Diam. at Top.	Diam. at Bottom.	Depth.	Holds gallons.	Price Each.	Price per doz.
0	23⅞	21⅝	12¾	21	83c	$9.00
1	22⅝	19	11⅝	16	65c	7.00
2	20¾	17⅝	10⅜	32	58c	6.10
3	18½	16⅜	9⅝	9½	50c	5.15

Sizes given above are inside measurements.

Cedar Water Pails.

With Galvanized Electric Welded Hoops.

These pails have proven to be the greatest selling article we have ever put on the market. They are impervious to water; very light and strong, and in every way superior to any pail ever made. Made of the best Virginia cedar.

No. 78254 Two-Hoop Cedar Pail. Painted with the purest and best lead and oil on the outside. Diameter inside of top, 11¼ inches; diameter inside of bottom, 8¾ inches; depth inside, 8 inches; holds 2¾ gallons. Price, per doz., $1.60; each, 14c

No. 78256 Three-Hoop Cedar Pails. Painted with the purest and best lead and oil on the outside. Diameter inside of top, 11⅝ inches; diameter inside bottom, 9½ inches; depth, 9⅜ inches; holds 3⅜ gallons. Price, per doz., $1.85; each.....17c

No. 78259 Three-Hoop Cedar Pail. Made of the best selected Virginia white cedar, and finished in natural wood. Nickel plated electric welded hoop, smoothly finished; a very handsome pail. Diameter inside top, 11¼ inches; diameter inside bottom, 8¾ inches; depth inside, 8 inches; holds 2¾ gallons. Price, per doz., $1.95; each.....18c

Cedar Water Can or Sugar Bucket.

No. 78263 This is one of the most useful articles we sell. It has a handsome knob cover to lift off. Especially adapted for drinking-water, as it keeps all dust and trash out. It is a well-known fact the oil of cedar is death to nearly all forms of insect life. This property of the wood makes this bucket especially valuable to preserve anything from the attacks of ants and other insects. Finished in natural wood, with 3 flat brass hoops. We have them in three sizes.

Size.	Diameter, top.	Diameter, bottom.	Depth.	Holds, gallons.	Price, each.

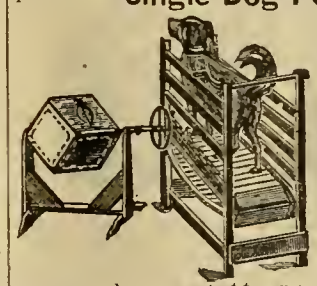
Dairy Supplies.

The goods which are most commonly used by dairymen are illustrated and described in the following pages. We will be pleased to give information and quote prices on anything not found here, and are in a position to give our patrons very low prices.

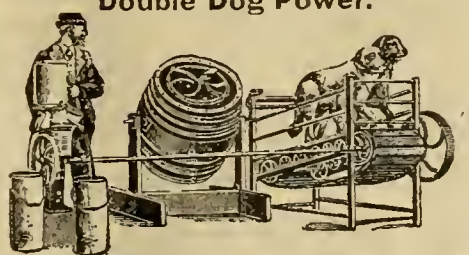
Single Dog Power.



No. 78855 This power can be operated by a dog, goat or sheep; yields 25 per cent. more power from a given weight of animal than any other, and with adjustable bridge, to regulate the required power and motion, a 30-pound animal will do the churning; if you keep a dog, make him "work his passage." The power can be connected to any churn sold by us.

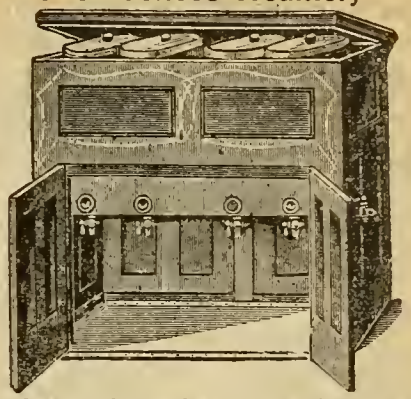
Price.....$14.70

Double Dog Power.



No. 78856 Double Dog Power. The illustration above shows how the double dog power can be used in operating a cream separator. When the separator is not in use and you desire to churn, connect it to tumbling rod sent with machine. A corn sheller, fan mill or sawing machine can be connected by belt from balance wheel. Separators require a high gear, and for this purpose we recommend our steel pulley, 3¼x36 inches. This we can furnish at $6 extra. If iron coupling rod and coupling, as shown in illustration, are desired to connect and run cream separator, we can furnish them at $3 extra. Price for Double Dog Power, without extra attachments mentioned above, $22.55

The Peerless Creamery



No. 78859 The Peerless Creamery is more especially intended for water alone. The cans are oblong, 14 inches long, 5 inches wide and 14 inches deep, thus giving larger cooling surface. We have a large ice space in rear of and also between the cans. In the No. 4 we have the space between the two middle cans, 7 inches; also, in all the other sizes we have a large space between the second and third, fourth and fifth and sixth and seventh. In these, as in the round can creamers, we use a straight faucet underneath, which is easily cleaned.

The glass to observe the cream is in the nut, and not in the can, so is easily repaired if accidently broken. In the No. 3 and larger sized creameries the faucet for drawing water from the tank is placed outside of creamery, as shown in illustration. Where ice is not used, we would suggest emptying tank of water about a half hour after milk has been placed in cans, and refilling tank with cold water. This will save a few hours' time in the gathering of the cream. Furnished complete, with cream pail, strainer and dairy thermometer.

PRICE LIST. Capacity of cans, 18 quarts.

Sturges' Steel Churn.

The latest and best thing out. It is exceptionally well made, being heavily coated inside with chemically pure tin, while the stand, which is also steel, is tastefully ecorated in colors.

An important feature, and one that can not but be appreciated by those desirous of keeping their churn sweet and clean, is the diameter of this churn's mouth, which is full size. The inside of the churn is perfectly smooth, making it as easy to clean as a crock. The cover has a half-inch cork lining around the edge, which prevents any possibility of a leak. A glass vent and peep-hole adorns the cover for the purpose of determining when butter comes and also to let off the gases.

No. 78864 Nine-gallon Sturges' Steel Churn, for one to four gallons of cream. Price.....$4.90

No. 78865 Fifteen-gallon Sturges' Steel Churn, for four to seven gallons of cream. Price.....$7.85

The Star Barrel Churn.

This style of churn is old, tried and reliable, easy to operate and keep clean; it is absolutely impossible for this churn to leak, as the wear can be taken up as simply as one can turn a thumb nut. The fasteners are attached to the outside of the churn, and it will be seen from the cut that the bail and cover fastening is a compound leverage which increases the pressure ten times more than any other make of churn.

No. 78870 Five-gallon Barrel Churn, for 1 or 2 gallons of cream. Each ..$2.80

No. 78871 Nine-gallon Barrel Churn, for 1 to 4 gallons of cream. Each.....$2.98

No. 78872 Fifteen-gallon Barrel Churn, for 2 to 7 gallons of cream. Each.....$3.20

No. 78873 Twenty-gallon Barrel Churn, for 3 to 9 gallons of cream. Each.....$3.65

No. 78874 Twenty-five-gallon Barrel Churn, for 4 to 12 gallons of cream. Each.....$4.25

No. 78875 Thirty-five-gallon Barrel Churn, for 5 to 16 gallons of cream. Each.....$5.50

Curtis' Improved Square Box Churn

No. 78880 Its compactness, durability and efficiency make it very desirable for a dairy of one cow or fifty. It is a great favorite and has been improved in many respects, until it is believed to be absolutely the most perfect box churn to be found anywhere. The cover is of heavy tin and securely fastened. The corners are protected with iron caps and are so constructed that when the buttermilk is drawn out and cleansed it will drain perfectly dry.

Holds, gallons,	7	10	12	20
Churns, gallons,	1 to 3	2 to 4	2 to 6	3 to 9
Price,	$3.43	3.92	4.26	4.70

Churns, gallons,	4 to 12	6 to 20	8 to 30	10 to 40
Price,	$5.88	12.55	18.05	20.40

The three largest sizes are adapted to large dairies. They have a crank on one side, a long gudgeon for pulleys on the other; strong bands and rods running around the churn make them very substantial. Tight and loose pulleys are worth $6.00 extra.

Rectangular Churns.

No. 78885 The Rectangular Churn works the easiest and quickest of any churn on the market. At the Dairy Fair, held in Chicago, it received the highest award, a cash premium and diploma, in competition with the world. Wisconsin butter won five medals at the Centennial Exhibition at Philadelphia, and four of these were awarded to butter made in the Rectangular Churn.

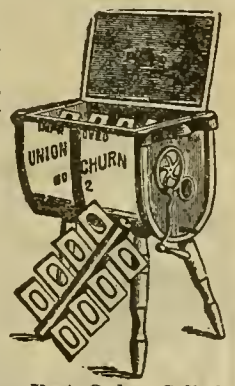
Union Churn.



You can make, gather, work and salt your butter without removing from the Union Churn, or without touching the butter with your hands. It churns with ease by the extra power and motion gained by gear wheels.

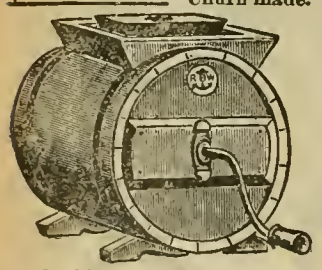
No. 78890 Union Churn, holding 5 gallons. Each.....$3.42

No. 78891 Union Churn, holding 7 gallons. Each.....$3.67

No. 78892 Union Churn, holding 10 gallons. Each.....$4.65

Improved Cedar Cylinder Churn.

$1.50 to $2.50 for the Best Cedar Cylinder Churn made.



No. 78896 White Cedar Cylinder Churn. We use a double dasher, and the crank is locked to the churn with a clamp and thumb screw, which prevents leakage. Lock cannot break. The top is large, and dasher easily removed. The hoops are galvanized iron, and will not rust. The best churn in use.

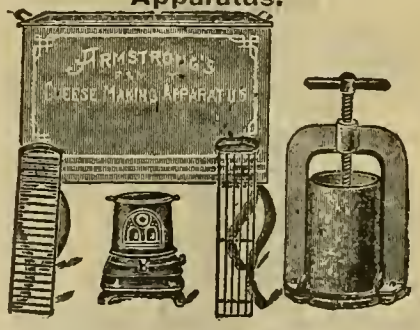
No. 78936 For four or five cows. Each.... 3.15

Family Cheese-Making Apparatus.



No 78937 This is a very simple apparatus adapted to the wants of all farmers or dairymen who keep from 2 to 10 cows, or more. It will make from 2 to 10 lbs. of cheese each operation, according to the quantity of milk; so simple that any boy or girl of average intelligence can learn the process in a very few operations. It makes a perfect cheese each time, whether 2 lbs or 10 lbs.

You will admit that 2 cows give at least 6 quarts at a milking, making 6 gallons a day. A gallon of milk will make a pound of cheese; 6 gallons make 6 lbs.; for 30 days is 180 lbs. of cheese, which at 10 cents per lb. is $18 for one month. This is a low wholesale price. The milk is heated by a coal-oil lamp, which is easily kept under control. The heating vat is so constructed that the lamp gives all the heat that is necessary. The management of the heat is the secret of success in making good cheese. The entire apparatus is so light in weight that a lady can move it from one place to another with ease. It does not take up quite as much room as an ordinary kitchen table. A lady can make cheese in the kitchen or pantry, and carry on her household work at the same time. With each machine we send simple and full instructions how to make cheese successfully. Each apparatus is complete with heating vat, press, curd knives, lamp and thermometer, made of good material, strong, and well finished. The apparatus is guaranteed to do the work exactly as represented. We also include sufficient rennet tablets, bandages and cheese color to make a nice little batch of cheese.

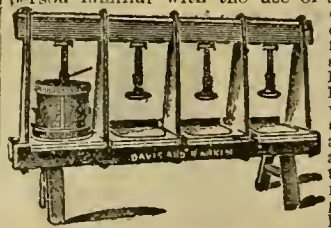
Standing Press for Cheese.

The illustration shows the method of making a good standing press for cheese factory or private dairy. The construction is so simple that any person familiar with the use of saw and hammer can make it. It consists of a frame, which is supported on legs, and the loose boards on which the hoops stand, and which are grooved to allow the whey to run off. For making a 4-hoop press, as shown, it takes 5 sets of rods and saddles, 4 heavy press screws, and 4 hoops and followers. The rods pass up one side and over the iron saddles, shown on the top of the press, and down on the other. Holes are bored through the top timber to allow the screws to protect up through when raised to allow the removal of the hoops. The divisions between the hoops are made of 2-inch plank, and support the upper timber when the screws are raised. The presses can be made any length desired. Explanation: A set of screws consists of 1 screw and 1 washer; a set of rods, saddles and washers means 1 bent rod, with nuts and washers for fastening same.



No. 78993 Rods, saddles and washers. Per set.....$1.47

No. 78994 Screws, 1¼x20 inches long. Per set.....$2.70

Prices quoted on all sizes of hoops and followers.

Curtis' Babcock Farm Tester.

Every dairyman or farmer who keeps a half dozen cows ought to provide himself with one of these milk testers, if he cares the snap of his finger to know whether he has a cow in the herd that is worth keeping. (More than one cow "eats her head off" every year she is kept.) This tester is designed expressly for farm use, and so low a price put on it that every man who owns two cows can have a 4-bottle machine.

No. 78997 4-bottle tester complete. Price, $4.90
No. 78998 6-bottle tester complete. Price, 5.88
No. 78999 8-bottle tester complete. Price, 6.86

With each machine there is a pipette acid measure, a bottle of acid, and directions for operating.

Babcock Milk Test.

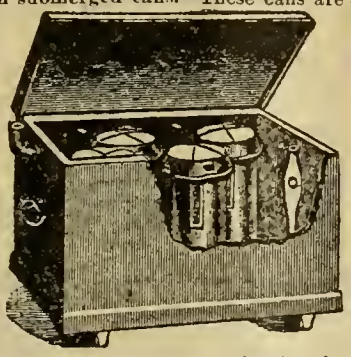
With Roe's improved swinging heads.

No. 79005 Price, 4-bottle Tester, complete.....$7.84
No. 79006 Price, 8-bottle Tester, complete.....$9.80
No. 79007 Price, 12-bottle Tester, complete.....$13.75
No. 79008 Price, 24-bottle Tester.....$20.60

With each machine is included testing bottles, pipette acid measure and acid for 50 to 200 tests, according to size, and full directions for operating.

Cooley Creamer.

This is an illustration of the Cooley system of setting milk in submerged cans. These cans are 20 inch. deep and 8½ inches in diameter; the covers are fastened down and the air under the rims of the covers prevents the passage of any water into the cans. The cans are set in the water coolers, which are lined with metal and fitted with inlet and overflow for using flowing spring water. A thermometer is inserted in the front of each cooler, in order that the temperature can be ascertained without raising the cover. This apparatus is very simple, dispensing with costly milk rooms, as but little room is required.



If the temperature of the water in the cooler is kept at 45 to 50 degrees in spring and summer, and at 40 degrees or below in winter, the cream will rise in 12 hours, in which case only cans enough to hold a single milking are required. By this system of setting milk we have sweet cream from sweet milk, raised in the shortest possible space of time. Prices include cans with bottom faucet and glass panel in the side of can, showing depth of cream.

No. 79014 No. 0, for 1 can, milk of 1 cow, 28 qts. Price.....$15.10
No. 79015 No. 00, for 2 can, milk of 2 to 4 cows, 36 qts. Price..... 21.00

No. 79021 No. 6, for 12 cans, size, 28x84 in., milk of 30 to 36 cows, 204 qts. Price..... 58.80

In connection with the Cooley Creamer, if Boyd's Automatic Fermenting Can and Automatic Ripening Cream Vat are used, nothing can be more simple for making prime butter every day in the year, it is making butter by rule. No process in the world like it

Cream Setter with Self-Locking Covers.

No. 79026 This cream setter has tinned iron bottom, glass panel in graduate case. The glass panel in can is graduated so that if parties are buying cream two degrees will make one pound of butter. Thousands of them are in successful and satisfactory operation. They are easily cleaned and raise as much cream and as quickly as any other cream setting can in the market. The can has a bail on it so that a man can carry two of them at a time. Size, 8¼x20 inches, called 20 qts. size; weight, 4¾ lbs.

Price, each.....$0.53
Per doz..... 5.75

No. 79027 Cream Setters, same as above, without gauge. Price, each.....$0.50
Per doz..... 5.40

For Dairy Thermometers, see page 199.

Deep Cover Cream Setting Cans.

No. 79028 Cream Setting Can with extra deep cover over outside with glass guage. Size 8½x20 inches called 20 qts. size. Made in different grades of tin at prices named below:

Grade	IX	IXX
Each	35c	35c
Per doz.	$3.85	$4.20

No. 79029 Same as above without glass guage:

Grade	IX	IXX
Each	30c	33c
Per doz.	$3.25	$3.90

Plain Cooley Can.

No. 79031 The submerged system of setting milk for gathered cream is recognized everywhere as a superior way of raising cream. The milk is away from the flies and dust, and any foul odors that may be floating in the air from the barnyard or pig sty. The milk is set in cold water immediately after milking. The cream is all thrown up in twelve hours. The can holds 18 quarts.

Price, each.....$1.25

Cooley Can with Bottom Faucet.

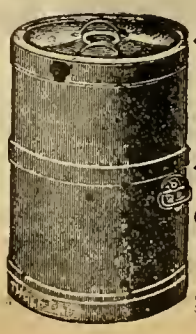
No. 79032 For private dairies this can has no equal. The milk is drawn off through the bottom faucet, leaving the cream in the can to be poured into the cream pail. (We do not furnish bail on can as shown in cut.) The value of sweet skim milk over sour milk for feeding purposes will more than pay for the cans every three months. All of the Cooley cans are made from the best tin obtainable. They hold 18 quarts.

Price, each.....$1.75

Glass Milk Jars.

This Milk Jar is giving the best of satisfaction, as it combines economy of time, labor and expense of materials; it discards the use of glass or metal tops, wire balls or other fastenings which render the ordinary milk jar so difficult to keep clean and in good order, and reduces the cost of manufacture and breakage to the smallest degree possible, and requires no washer; the old style attached cover interferes to a considerable extent with washing the jars; this jar having no cover, either attached or detached, is cleansed thoroughly and with dispatch, having only a slight shoulder within the neck of the jar which serves to hold the cap or cover in position when adjusted, and is all glass without separate parts; the cap or cover is made of heavy wood fibre prepared so as to resist the moisture from within and without, and when pressed into the neck of the jar to the shoulder with the thumb or finger, it forms a tightly fitting cover; the operation of capping is quickly and easily accomplished, and when completed is perfectly tight and can be handled in any position and transported without danger of leakage; the disc can be removed when the milk is required for use by inserting the blade of a penknife or any other sharp instrument and lifting the cap out; the cap can again be used and will seal the jar reasonably tight, but their nominal cost allows the dealer to discard them after using them once; large dealers or milk depots can stamp the cap with date, etc., giving the producer a number that will enable them to keep a thorough record of milk, and trace the same to the producer when the milk proves unsatisfactory.

No. 79038 Price, quarts, per doz.....93c.
Per gross..... 10.43
No. 79039 Pints, per doz., 78c.; per gross, $8.18
No. 79040 Fibre Stoppers for both sizes common-sense milk jars. Price, per 100, 7c; per 1,000.....62c



OUR PRICES ON MILK CANS mean a good deal to those who use them, the highest grade goods at lowest prices ever known.

Each,	$6.00	7.00	8.00

Milk Cans.

The Improved Breast.

New Seamless Neck.

The illustrations above show the improved breast used on all our milk cans, the most important feature is to make a breast that is proof against being "jammed in." Our heavy half oval hoop accomplishes this; the hoop is forced on the breast in the block, securely fastened and afterwards retinned, which makes it absolutely safe against being knocked off. We have also adopted a new seamless neck on all our cans; this, you will observe, is drawn in one piece. The advantages of the new seamless neck, as compared with the old style bowl and neck in two pieces, are many. There are no seams to come unsoldered, no edges or joints to rust, no bowl to work loose. Strengthens the weakest part of your can. Is perfectly smooth inside and out

MILK CAN PRICES that mean money saved for the buyer.

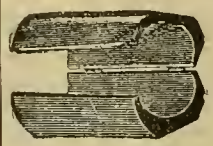
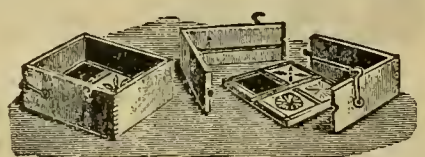
California Butter Molds.



No. 79103 This cut represents a very popular mold, and is used very extensively in all parts of the country. Made in 2-lb. size only. Price, each.....25c

Butter Mold.



These celebrated molds are made of selected white wood, and only brass hooks and screws are used throughout, so that there is no possibility of rust and consequent discoloration of the wood. The bottom is prevented from warping by strong wooden cleats, while the sides are grooved sufficiently deep to allow for swelling when in use, and are "lock-cornered" together, thus securing the utmost possible rigidity. One great advantage of these molds over most other patterns on the market is that the prints are released by a single motion and in perfect shape, instead of being pushed forcibly through a form by a plunger, which injures the grain.

No. 79107 Price, half-pound size, print 5 inches long, 2¼ inches wide, 1¼ inches deep.....74c

No. 79108 One-pound size, print 5 inches long, 4½ inches wide, 1¼ inches deep.....88c

Reid's Butter Mold.

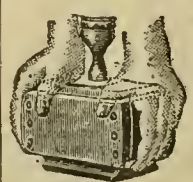

Fig. 1.

Fig. 1 represents the butter as being in the mold, and the hands of the operator in the act of pressing.

Fig. 2 shows the butter molded on the print, ready to be taken and turned on to a tray or elsewhere, when it will show the printed face. With this mold very firm butter may be printed. As shown in Fig. 1, the operator can not only put his entire weight on the print, but at the same time he may clasp the base with the fingers, thus add the power of the grip; and, further, by giving the print block a rocking motion by pressing alternately with each hand. The mold with the butter in it may be quickly turned the other side up by lifting it with a finger of each hand in the small depression in ends of box, when the base may be removed and the butter pushed out, as shown in Fig. 2.

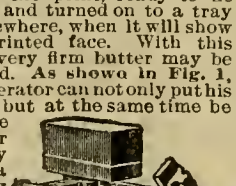

Fig. 2.

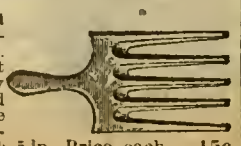
Mrs. Bragg's Butter Fork.

No. 79117 A useful and convenient article to remove butter from the churn. In general use throughout the country in creamery and dairy, and considered almost indispensable. Made of hard maple and well finished. Length, 12 in.; width, 5 in. Price, each.....15c



Butter Tray.

The Butter Tray here illustrated is believed to fill the vacant place in nearly every creamery and dairy. It is designed to hold the butter when taken from the churn to be reworked and packed for market. The oval cover, which increases the capacity of the tray one-third, is made to fit tight, to exclude bad air and dust. It is strong and durable.

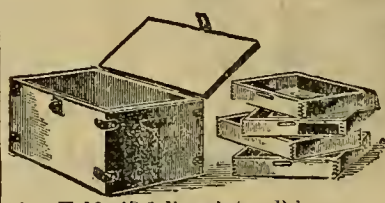
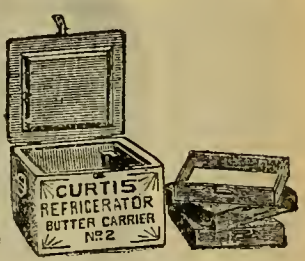
Lee's Shipping Box for Print Butter.



No. 79130 We offer the above as a low priced shipping box for large shippers; it is made strong and durable. Holds 48 1-lb. prints. Price.....$1.17

Curtis' Shipping Box for Print Butter.



This shipping box is made with 2 dead-air spaces around the box, doing away with the can of ice and water in center of the box that causes such a muss when tipped partly over by careless shippers, often injuring the sale of butter. The butter being thoroughly protected, no ice is needed, and the shipping box need not be so large and cumbersome. In these days of questionable butter, parties who buy are glad to get it direct from the farmer or creameryman, put up in nice prints. A little attention in this matter secures a good customer the year around. The boxes are made in the most substantial manner, the trays being dovetailed together, and all inside work being of white wood, which is free from taint or smell. Chest handles are put on the ends for convenience in handling. A shipping box will many times pay for itself in three or four shippings.

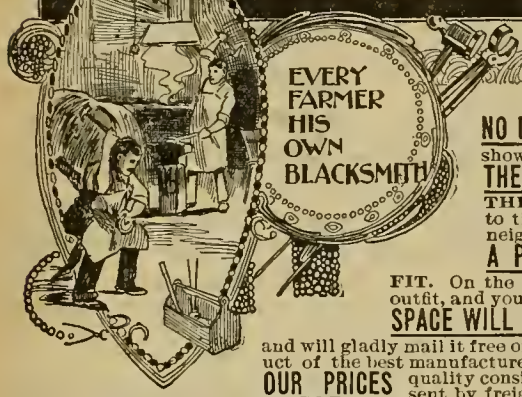
BLACKSMITH TOOLS



DO YOUR OWN WORK

...ON THE FARM...

SHARPEN THE PLOWS, SHOE THE HORSES, SET THE LOOSE TIRES, MEND THE MACHINERY.

WITH AN OUTFIT selected from this list, every farmer, ranchman and mechanic can be his own blacksmith.

NO DELAY FOR REPAIRS In a busy season while the team and a man have gone to the blacksmith shop. Again, if you have an outfit you will improve rainy days to fix up things that are showing wear, and avoid costly vexations and dangerous breakage in a busy time.

THE COST OF A COMPLETE OUTFIT is but little. You will save it all in one year's blacksmith bill, to say nothing of the saving in time. **DON'T SAY YOU CAN'T DO THE WORK.** Thousands of farmers have bought outfits from us, few articles at first, then added from time to time, and now have a complete outfit, **DO ALL THEIR OWN WORK,** and many take in work from neighbors, who are willing to pay well for the work and thus save the time of going to the town blacksmith.

A PORTABLE FORGE anvil, drill, vise, stock and dies, taper taps, tongs and shoeing outfit, and you are prepared for any kind of blacksmith work. **$25.00 WILL BUY SUCH AN OUTFIT.** On the start you may not want a complete outfit, but later you will surely add until you will have a complete outfit, and you will call it the best investment you ever made.

SPACE WILL NOT PERMIT our showing everything in the line. We show here the tools most commonly used. **WE ISSUE A SPECIAL CATALOGUE** of blacksmith tools, showing everything in the line, and will gladly mail it free on application. **EVERY TOOL WE SELL IS GUARANTEED STANDARD QUALITY,** and the product of the best manufacturers. We do not handle cheap, trashy or second grade goods.

OUR PRICES quality considered, you will find by comparison are far below any competition. **OUR TERMS:** Any goods will be sent by freight, C. O. D., subject to examination, on receipt of **ONE-FOURTH** the amount of order, balance to be paid at freight depot. **FREIGHT IS VERY LOW** on this class of goods, and will add but very little to cost.

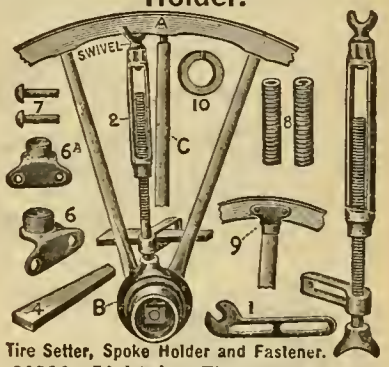
Size	12	14	16
Each	$0.28	$0.40	$0.56
Per doz	3.29	4.64	6.47

Lightning Tire Setter and Spoke Holder.



Tire Setter, Spoke Holder and Fastener.

No. 80190 Lightning Tire Setter and Repair Outfit. Especially adapted for the Farmer, Liveryman, Blacksmith and Wagonmaker, and in fact everyone who is the owner of a buggy. It is not necessary to remove the wheel to repair it, as this outfit contains all the tools necessary to do the job and will do it better than any blacksmith who cuts and welds the tire. Your tires can be tightened any number of times without fear of dishing the wheels. Wagonmakers and blacksmiths cannot afford to be without this outfit; it is the greatest tool on earth for springing in and tightening rattling spokes.

DIRECTIONS—Do not take the wheel off.

1st.—Upon removing the jack from the box, oil the screw and swivel.

2d.—Slip the slotted casting, No. 5, onto the screw, then adjust the jack to the height of the wheel with the swivel end of the jack next to the felloe, resting the bottom end on the hub close to the spoke you wish to tighten.

3d.—Place the wood key, No. 4, in the slot casting, No. 5, back of the spokes to prevent the jack from slipping from the hub.

4th.—Then with the wrench, screw up the jack and raise the felloe "A" enough to insert a leather washer which you will cut from the coil to fit tightly around the tenon of the spoke, and proceed in this manner from spoke to spoke until the tire is perfectly tight.

If the wheel is badly dished outward, place the jack on the hub as far from the spoke as possible.

If the wheel is dished inward, place the jack on the inside of the hub and proceed as before.

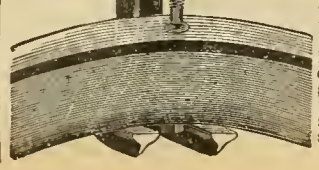
If the wheel is old, a coat of boiled linseed oil put on hot will prevent further shrinkage of the felloe and add to its durability.

When the tenon of the wheel is broken, bend the spoke toward the inside of the wheel, then with a hammer drive on the spoke holder, which cuts its own way. Trim the corner of the felloe to fit the angle of the spoke holder (do not trim wider than necessary), then raise the felloe with the jack and spring the spoke back in place. Bore two holes in the felloe and rivet tightly.

If the felloe is split, clamp it tightly while riveting, always leaving the spoke as long as possible.

Should the spoke be too short, fill the spoke holder partly full of sole leather.

A set consists of the complete Setter, as shown in cut, with 1 dozen assorted holders and 2 coils of leather washers. Price.....$1.65
Price of extra spoke holders, per doz..... 1.00

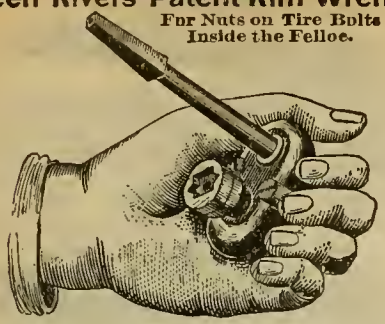


Tire Bolt Clamp.

No. 80108 Used to hold tire bolts while unscrewing the nuts, thus preserving the bolt. It is well adapted to putting anti-rattlers or rubbers into shackle or draw bars on buggies. Is made extra heavy, has a steel screw with a hardened point. Price, each, 50c

Green Rivers Patent Rim Wrench.

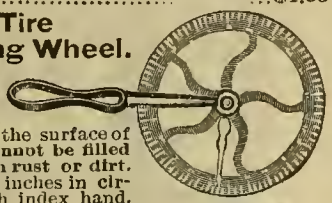
For Nuts on Tire Bolts Inside the Felloe.



No. 80200 This is a labor-saving tool for taking off and putting on nuts in an awkward place inside carriage felloes. It will be found to make rapid work of what is usually a tedious job with an S-wrench. No working man with any regard for his time will fail to use this tool, which will soon earn its moderate cost in any shop, small or large. It is made light, handy and strong, and is adapted to use on nuts, 1-8, 3-16, 1-4 inch. For 1-4 inch size the socket which holds the wrench is used.

Price.....$1.35

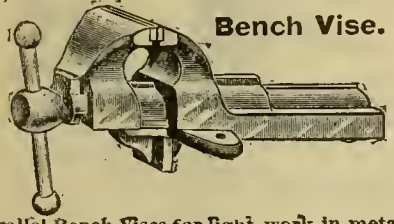
Graduated Tire Measuring Wheel.



No 80210 A drop forging is made, so that the figures and lines are raised above the surface of the wheel and cannot be filled or defaced with rust or dirt. It is exactly 24 inches in circumference, with index hand.

Price, each.....$1.18

Bench Vise.



Parallel Bench Vises for light work in metal or wood, "The Farmer's Vise."

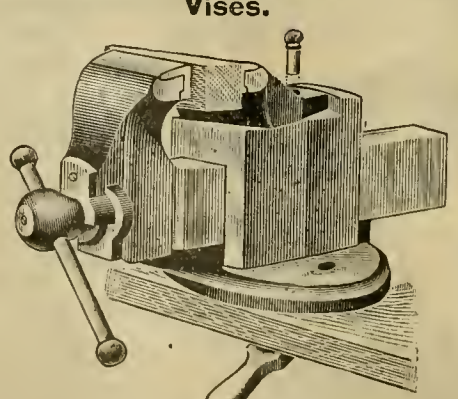
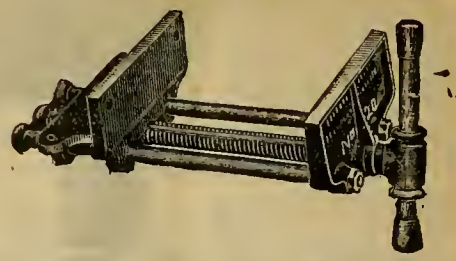
Parker's Patent Swivel Victor Vises.



This Vise has swivel back jaw and swivel bottom.

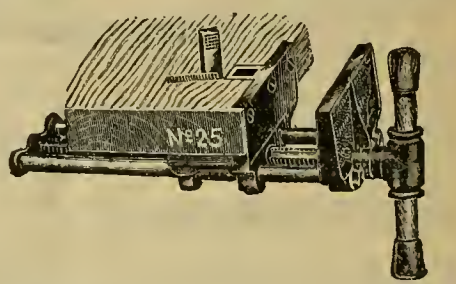
	Length of jaws.	Weight.	Price, each.
No. 80253	3¼ inches	30 lbs.	$5.25
No. 80254	3⅝ inches	42 lbs.	6.45

Rapid Acting Vises for Wood Workers.



No. 80264 Our New Improved Wood Workers' Vise is especially adapted for pattern makers, cabinet makers, carpenters and wood workers preferring a vise having flush jaws. The principal feature of the vise is the adjustable screw. By turning the screw half way around the jaws can be opened or closed as far as wanted and one turn of the handle gives a grip on the wood. It takes 24 turns to open a common vise having a ½-inch screw 12 inches, besides 5 minutes time. With this vise you do away with that unnecessary time and labor. Being flush with the bench it is out of the way when using same for other purposes. It has two guiding rods besides the screw, thus giving a square pressure to the wood; giving a better grip and not disfiguring the article you are at work upon. The front jaw has four holes in same for wood screws, to which may be attached maple pieces of wood cut in any shape desired for holding tapering or irregular shaped wood. They are made of steel and iron, nicely finished and as a vise for rapid work are the best vise ever put on the market. They have thousands of testimonials as to their superiority, one Manual Training School having in use over 600 of them. Length of jaw, 10 inches; depth, 4 inches; opening of jaws, 12 inches; weight, 38 lbs.

Price, each.....$5.50



No. 80265 This Vise is same size and style as the vise above, with the addition of a bench stop. This stop is set loose and can be removed when using the bench for other purposes. Every vise is guaranteed to last a lifetime without repair. Weight, 40 lbs.

Price, each.....$6.00

Blacksmiths' Stocks and Dies.

No. 80290 Stock and Dies; cuts 5-16 to 1-16, right hand, 18, 24 and 32 threads to the inch, 4 taps and 3 sets of dies, complete; weight, 1 lb.....$1.47

No. 80291 Stock and Dies; cuts 5-16 to 1-16 inch, right hand, 16, 20, 24 and 32 threads to the inch, 4 taps and 1 set of 4 dies; weight, 1 lb.....$1.60

No. 80292 Stock and Dies; cuts ⅛ to 3-16 inch, right hand, 14 to 20 threads to the inch, and ⅛ to 5-16 left hand, 14 threads to the inch, 6 taps and 3 sets of dies; weight, 2¼ lbs.....$1.95

No. 80293 Stock and Dies; cuts ⅛ inch to ⅜ inch, right hand, 16, 20 and 26 threads to the inch, 6 taps and 1 set of 3 dies; weight, 2¼ lbs.....$1.87

Dalton Axle Cutter.

No. 80317 The Dalton Combination Axle Cutter is a tool designed for cutting back the nut shoulder on carriage and wagon axles that have become worn, to allow the nut to be brought sufficiently close to the wheel to prevent the wobbling of the latter. This machine consists of a screw plate, with right and left hand dies cutting as follows: 1⅛ and less, 9 threads; 1 inch and less, 10 threads; ¾ inch and less, 12 threads. One pair each right and left hand cutters, same as represented in smaller cut, for cutting back the nut shoulder of axle; also one pair of cutters and two collars for cutting down axle from the top, and one hack saw for cutting off end of axle when necessary. Price, complete.....$12.50

Blacksmiths' Dies.

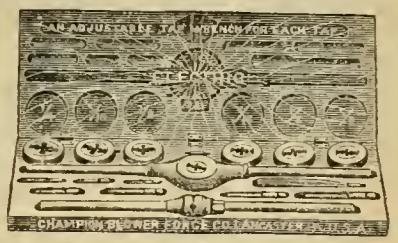
Electric Screw Plates.



Our aim in Screw Plates, as in all other lines, is to be at the front . . . . .

The Electric Screw Plates are made of the best material money will buy, are of

PERFECT WORKMANSHIP.

Which in the past has plainly demonstrated they are the most complete and easy cutting plates on the market.

The adjustment on the Dies is entirely universal impossible to make one cutter cut more than another, thus always cutting a clean and perfect thread. The Dies are firmly held in place by the top of the Die and Collet, also two top screws making it entirely impossible for cuttings to get under same and strip the threads, which is a serious disadvantage common to other makes. It finishes the threads with one cut. All tops are machine relieved and each set supplied with our patent top wrench. For cutting close up to a shoulder use face side of die downward. These plates are sold subject to a guarantee to be perfect in every respect and the easiest cutting tool made or money refunded. Full directions sent with each plate how to operate and take care of same.

No. 80376 The Champion Electric Screw Plate, No. 5. Length of stock, 23 inches, cuts ¼x20, 5-16x18, ⅜x16, 7-16x14, ½x12, ⅝x11, ¾x10.

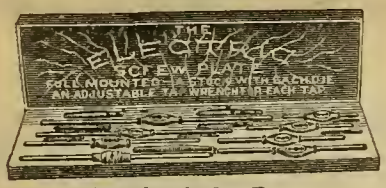
Price, complete, in hardwood case.....$9.00

Extra Dies.

No. 80637 Extra Dies for above stocks, any size. Price, per pair 60c

Electric Full Mounted Screw Plates.



Complete in One Box.

Our Full Mouoted Screw Plate is constructed precisely in adjustment of its Dies as our Electric Plate No. 80376, the only difference being in the full mounted is that every die is supplied with a stock complete in itself, thus you are able to use different dies at the same time without changing dies. Each stock is supplied with hollow steel handle, making them light and strong. As the Guide in this set is independent of stock it can be replaced in case of accident at a small cost. Nearly all other makes have one solid cast piece and when worn out you must buy a new stock which would cost almost as much as a new set.

We furnish this set with our patent adjustable Tap Wrench without extra charge. Every set guaranteed to be made of the very best material and of perfect workmanship or money refunded. After having used one of these screw plates you will not have one of the old style plates in your shop.

No. 80389 Electric Screw Plate, No. 102, cutting ¼-20, ⅜-16, ½-12, ⅝-11, ¾-10 threads.

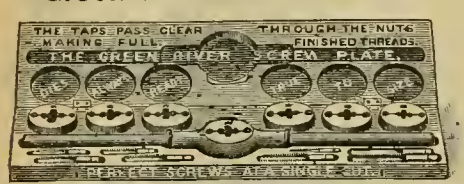
Price, each.....**$11.50**

No. 80399 Electric Screw Plate, No. 107, cutting ¾-20, 5-16-18, ⅜-16, 7-16-14, ½-12, ⅝-11, ¾-10, ⅞-9 1-8 thread. Price, each.....**$18.70**

Green River Screw Plates.



The Green River Screw Plate being one of the oldest and best known makes on the market it is hardly necessary for us to state the quality both as to material and workmanship is up to **the highest standard, and its simplicity and durability with its modern price makes it one of the best Screw Plates on the market.** It does the work at a single cut, and is warranted not to strip the threads. The dies are adjustable for wear, and to make bolts or nuts fit tightly or loosely as desired. **For close cutting up** to a shoulder use the face side of die after starting the thread with the other side.

No. 80400 No. 1½, cuts from ¼ to ¾ inch; stock 22 inches long, 7 sizes; ¼, 5-16, ⅜, 7-16, ½, ⅝, ¾ inch taps; dies and guides complete in case.
Per set.....**$9.10**

No. 80403 The Green River Screw Plate, set No. 3, cuts from ½ to 1 inch; stock 29 inches in length, 5 sizes; ½, ⅝, ¾, ⅞,1 inch taps, dies and guides complete in case. Weight, 18 lbs. Per set.....**$11.75**

Other numbers of Green River Screw Plates quoted on request.

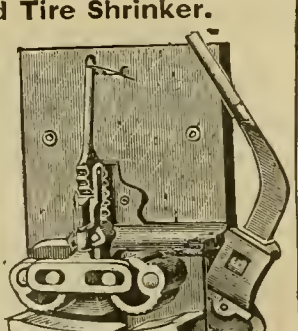
Stoddard Tire Shrinker.

The Genuine Stoddard Tire Shrinker. This is one of the best known shrinkers on the market, and only the best materials are used in its construction. The clamp head, as shown in cut, prevents light tire from kinking—a very serious drawback to most shrinkers.

Made in two sizes, only.

No. 80415 No. 1 shrinks up to 2-inch tire.
Price, each. **$8.25**

No. 80416 No. 2 shrinks up to 4-inch tire.
Price, each, **$12.75**

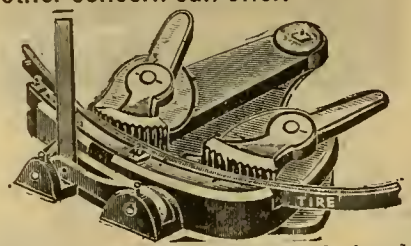


Little Giant Tire-Upsetter.

No. 80418 No. 1 Little Giant will upset any size or diameter of tire, from the light buggy to the heavy tire, ½-inch thick to 2 inches wide. Weight, 100 lbs.
Price **$7.85**

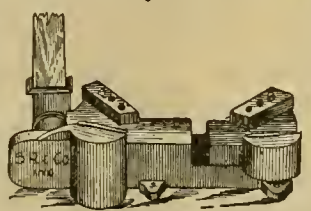
Little Giant Tire-Upsetter, No. 2.

Our Blacksmith's Tools represent more value for the money than any other concern can offer.



No. 80419 No. 2 is heavier than No. 1, and lies on the floor. Both jaws move. Will upset any tire, from a light buggy tire to a truck 4 inches wide, or bars of square or round iron up to 1¼ inches in diameter. Weight, 160 lbs. Price, each.....**$10.70**

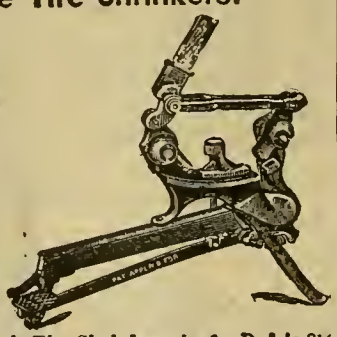
Champion Tire Shrinkers.



No. 80420 The Champion Tire Shrinker, a very simple and inexpensive machine, which saves all cutting and welding of tires. Works equally as well on the lightest steel tire, and on wagon tires 4x1 inch. Place the tire between the jaws, then draw the cams against the tire, then with but little pressure on the handle **you can shrink the tire to suit.** Weight, 140 lbs.; floor space required for 1¼ 18x10 inches; will shrink tire 1x4, and axles 1¼x1¼. Price, each.. ... ..**$7.40**

Mole Tire Shrinkers.

The operation of bringing down the lever grasps the tire and does the work; raising the lever opens it. By this means it is not necessary to remove the tire until it is upset as much as required. Can be successfully operated by one man. Sizes 2 and 3 furnished with anti-kink, size 1 without.



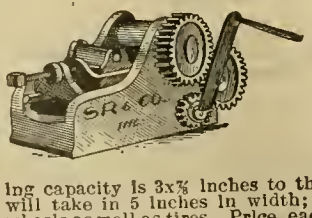
No. 80422 Mole Tire Shrinker, size 1. Bed is 2¼ inches; weight, 150 lbs. Is adapted to general custom work. Price, each.....**$4.65**

No. 80423 Mole Tire Shrinker, size 2. Bed is 3 inches; weight, 225 lbs. Will do all but the heaviest work. Price, each.....**$5.60**

No. 80424 Mole Tire Shrinker, size 3. Bed is 4 inches; weight, 300 lbs. Will shrink all sizes, including heavy wagon and truck tires.
Price, each.....**$7.68**

Tire Benders.

Our Tire Benders are the best it is possible to produce. Only the finest materials are used in their construction, and being made by a manufacturer of the hightest reputation they may be depended on as strictly first-class in every particular.



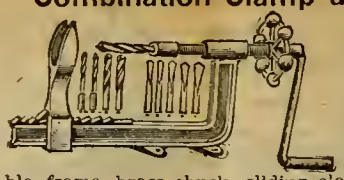
No. 80426 The Champion Tire Bender. The frame is one solid piece; is double back geared, and worked with two cranks. The height of the tire is regulated by a screw. Its bending capacity is 3x⅞ inches to the lightest tire; it will take in 5 inches in width; it will bend fifth wheels as well as tires. Price, each.....**$6.35**

The Eureka Tire Bender.

The Eureka Tire Bender is stroog and powerful; the two end rolls are provided with wrought-iron collars in order to keep the tire from twisting; the height of the tire is regulated by a screw. The **No. 1** size will bend 4x1 tire; the **No. 2,** 6x1½ inches to the lightest tire.

No. 80428 No. 1, each.....**$ 9.75**
No. 80429 No. 2, each..... ..... **15.00**

Combination Clamp and Drill.



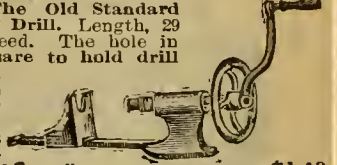
Combination clamp and drill; the lowest priced good article of its kind on the market; has wrought iron screw feed, malleable frame, brass chuck, sliding clamp; weighs 6½ pounds; length, 17 inches; height, 7 inches.

No. 80435 Price, with diamond-pointed drills, one drill of each size, 5/32, 7-16, ¼, 5-16, ½, each, **$1.85**

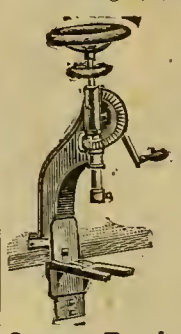
No. 80436 With Syracuse Twist Drills, furnished with one drill of the following sizes: ½, ⅜, 5-16, ¼, 3-16. Price, each.....**$2.45**
Extra drills for **No. 80435,** per set..... **.38**
Extra drills for **No. 80436,** per set **1.10**

Blacksmiths' Drills.

No. 80438 The Old Standard Blacksmiths' Drill. Length, 29 inches; screw feed. The hole in mandrel is square to hold drill points, which the blacksmith must make for himself. We cannot furnish drills to fit this machine. Weight, 29 lbs. Price, each.....**$1.40**



Bench Drill.



Upright Bench Drill. This drill is 26½ inches high, weighs 31 lbs., drills ⅛ to ¾-inch hole. Squares with bed plate; run of screw, 3½ inches; drill stock, 13-16-inch in diameter, **crank has extension for large drilling;** is fitted with chuck for square or round shank drills; has no self-feed attachment. Weight, 35 lbs.

No. 80440 New Model Drill, for square shank drills only.
Price, each.....**$4.25**

No. 80441 New Model Drill, for ½-inch round shank drills only. Price, each.....**$4.25**

Price does not include drill bits. See Index for drill bits.

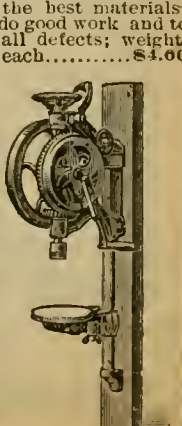
Sears, Roebuck & Co.'s New Departure Upright Post Drills.

This line of Drills is just what the name indicates, New Departure. They are plain and simple, yet handsomely designed and beautifully finished. They have long heavy bearings which are **well babbitted and cannot spring or get out of line,** as is the case with some of the cheap drills now on the market. The automatic feeding device is new and simple, yet efficient and positive. It is located back of the spindle, and is worked by a cam on inside of main gear wheel. This cam is constructed so as to give nearly a continuous feed. By this arrangement the drill does not jam into the work, as is frequently the case in the use of hand drills. This point alone makes a great saving in drill bits. Also the nice alignment of the lower column with the spindle, and the fact that the drill table is exactly at right angles with the spindle makes the drill turn free and easy, and the result is a **saving of drill bits** as well. These drills **have two speeds,** one for light work and the other for heavy. The change is made instantly by simply changing the handle from one shaft to the other. These tools being arranged as well for power as for hand especially recommends them for the **repair shop** and for the every day blacksmith. **They are made for service,** and the simplicity and small number of parts recommend them.

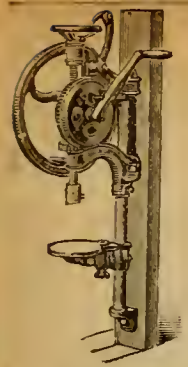
Post Drills.

No, 80442 No. 1½ Hand, Post Drill, single-geared hand-feed, drills up to and including ¾-inch hole, and to center of 12-inch circle. Drill spindle is 1-inch steel bored for drills, with ½-inch round shank. Feed has run of 3 inches. Upright column and feed screw are of best steel; a good substantial drill; well made of the best materials; warranted to do good work and to be free from all defects; weight, 55 lbs. Price, each.....**$4.00**

No. 1 Hand Post Drill.



No. 80443 No. 1 Hand Post Drill, double-geared, self-feed. Has extension crank and adjustable feed. Drills up to and including ¾-inch hole and to center of 12-inch circle. Drill spindle is made of 1-inch steel and is bored for ½-inch round shank drills. Feed has run of 3 inches; upright column and feed screw made of the best grade English steel. **We guarantee this Drill to be the equal to any $7.50 drill on the market,** to be free from all defects and to do good work or money refunded; weight, 80 lbs.
Price, each.....**$5.90**



No. 2 Hand Post Drill.

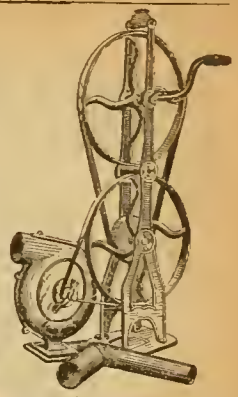
No. 80468 Sears, Roebuck & Co.'s Lever Blacksmith Blower, fan is 16 in. in diameter and fly wheel 28 in. in diameter. Has the capacity of a 50-inch bellows. With patent tuyere iron and piping complete.

Price.....$7.85

Neither skill, money or labor has been spared in designing and constructing this strictly first-class blower. The automatic lever motion is absolutely perfect in its construction; cannot get out of order; durable and light running; giving a continuous blast, regular and powerful.

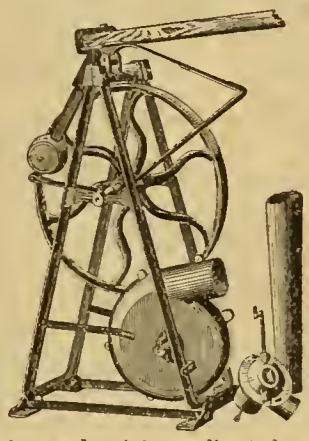
Centennial Crank Blower.



No. 80470 This Blower is either right or left handed, that is, can be placed to right or left of fire. It is one of the oldest makes on the market. Thousands of them in use and all giving universal satisfaction. Has a 14-inch fan. Comes complete with ball tuyere iron and piping.

Price, each.....$9.80

New Champion Blacksmiths' Blower.



No. 80472 Our New Champion 1898 Angle Steel Blower. Frame is constructed on new principles, getting away from the old construction of spreading the four ends at the lower end of base of frame, where stiffness and firmness is most essential. It has its bent and stiff parts of the angle stem for its base, and the four ends are clamped together at the top end of frame, connecting all the ends at the smallest possible centre with the lever knuckle joints on top of the four ends, giving a direct downward motion and placing the strain of the Lever motion square on the four uprights, thus forming a binding truss, giving strength and rigidness not to be found on any other Blower made. Has a 16-inch fan and fly-wheel 28-inches in diameter, and the capacity of a 50-in. standard bellows. Comes complete with patent tuyere iron and piping. Price, each.....$10.50

Anvils.

No. 80478 Cast Iron Anvils, with steel face. The face of this anvil is one solid piece of English tool steel, thoroughly welded to the body of the anvil by a patent process. The horn is covered with, and its extremity made entirely of cast steel. The face and horn are then accurately ground and tempered. We do not guarantee this anvil, but it will give satisfaction for light work.

Weight, 70 to 84 lbs., price, per lb..... 9¾c
Weight, 60 to 69 lbs.. price, per lb.....10¼c

Peter Wright Anvils.

Wrought Iron with Steel Face.

No. 80480 This well-known anvil has stood the test for years, and is today the most popular anvil in the world. It is cheap enough for anybody and good enough for any one. Don't buy an anvil too light for your work. A light anvil when struck a hard blow with a heavy hammer is sure to jump. We carry a large stock, but occasionally are not able to send exact weight ordered, but can always come within 5 lbs. of the weight ordered. This anvil is sold by the pound, and price per pound varies with the size.

85 lbs. to 500 lbs., per lb.....10¼c
61 lbs. to 84 lbs., per lb.....11¼c
50 lbs. to 60 lbs., per lb.....11¾c

Peter Wright's Farriers' Anvil.

No. 80481 Made of the best wrought iron, with steel face, from ½-inch to ⅝-inch thick. When turning or fitting shoes, the entire length of horn is obtained by its being full width of the body at end of steel face. It has a suitable side horn for drawing toe clips, etc., and a thin steel heel for working small size shoes. Weights, 100 lbs. to 500 lbs.

Price, per lb.....12c

BARGAINS IN PORTABLE FORGES

OUR LEADER for $7.95

WE BELIEVE WE ARE HEADQUARTERS for everything desirable in portable forges. We have made our contracts with several of the very largest and most reliable manufacturers in the country, concerns who are strictly headquarters for the manufacture of the highest grade portable forges on the market. There are many cheap, inferior forges offered, and even some of our competitors may attempt to meet or cut our prices, but when a forge is offered at within 10 or 20 per cent. of the price we are able to name, you can depend upon it you are not getting the same grade of work.

WE GUARANTEE OUR FORGES to be exactly as represented, and if not found so, you can return them to us and we will cheerfully refund your money. All our forges are made of the very best material, are thoroughly well put together, and guaranteed to give the best of service. The prices we quote are for the forges carefully packed and delivered on board the cars in Chicago. You pay the freight, but you will find the freight will amount to next to nothing as compared with what you will save in price. There is perhaps no more necessary or economic machine on a farm than one of our strictly high-grade portable forges. In one year it will save its cost ten times over in time, to say nothing of the saving in blacksmiths' bills. We believe that we offer the most popular line of forges from the fact that our forge trade has grown until we believe we are without an exception the largest dealers in the land direct with the consumer. We would ask you to compare our prices closely with those of other houses, compare the illustrations and descriptions, and then if you are not thoroughly satisfied that we are offering you a better forge for less money than you could possibly buy elsewhere, send to us for a forge and compare it with the forge you can buy elsewhere, and if you do not say ours is better and cheaper, the best forge ever seen for the money, return it at our expense and we will cheerfully refund your money.

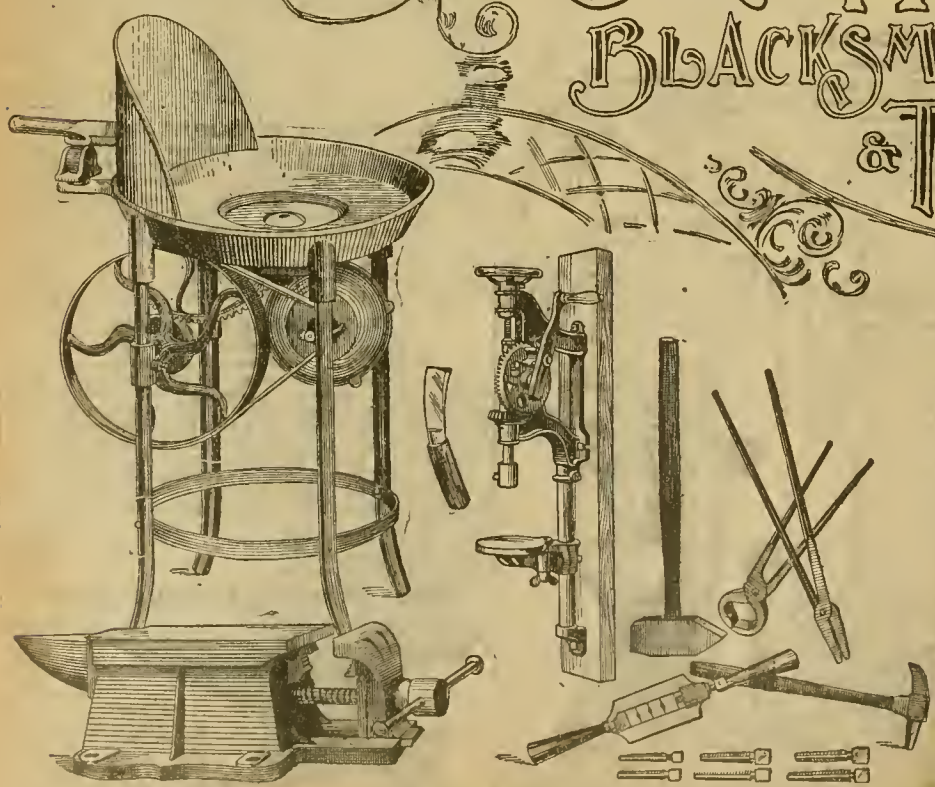
No. 80524 OUR SPECIAL LEADER AT $7.95.

AT $7.95 WE OFFER YOU a strictly high-grade, fully guaranteed forge, which you could not duplicate elsewhere, in a wholesale way, at less than $10.00, and a forge that would retail at $12.00 or more. This forge is especially designed for bridge, boiler and tank builders, miners, prospectors, elevated railroad builders, farmers, etc. We are able to get the price so low, $7.95, that every farmer in selecting a forge should order this in preference to a cheaper one. The motion is a very simple device. It has a self-acting ratchet, no springs or anything to get out of order. It is made from the very best material. The lever is connected with a segment of gears which speeds the driving wheel up to a very high speed. It requires a very slight movement of the lever to get the strongest blast. This forge is supplied with a 9-inch fan, hearth is 22-inches in diameter. Having but three legs, it stands very firmly on an uneven foundation, and is purposely made for the work we claim. Height of forge, 30 inches; hearth, 22 inches in diameter; fan, 9 inches; weight, 80 pounds. This is the largest forge we ever saw offered at anything like the price, and we would ask you to compare the size of hearth and fan with other forges at about the same price, and draw your own conclusions.

WE WANT TO SELL 5,000 OF THESE SPECIAL $7.95 FORGES during the coming year, and with the expectation that we will sell this number, we are able to make our price $7.95. By making our contract on this basis, we were able to get the price down to about the actual cost of material and labor. To this we have added only our one small percentage of profit, and as a result, in buying a single forge from us at $7.95, you are practically buying on the basis of a contract for 5,000 forges. These forges are accepted by the railroad companies at second class freight rate, and its weight is 80 pounds. By referring to the freight rates in the front of the book, you can calculate very closely what the freight will be, which you will find will amount to next to nothing, as compared with what you will save in price. Please note that on all this class of goods we will ship C. O. D., subject to examination, by freight, where a sufficient amount accompanies order to cover freight charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our special price, $7.95, and freight charges, less the amount sent with order. There are forges on the market, some offered by catalogue houses, which you may have seen illustrated and quoted. Compare this forge with anything you can find in any catalogue at $10.00, and if you do not from the illustration and description consider ours equal or better, we will not expect you to give us your order.

EVERY ONE IN WANT OF A FORGE SHOULD PLACE THEIR ORDER WITH US, or, if in want of anything in the line of blacksmiths' tools, we should have their order. We feel we are entitled to it by reason of the prices and terms of shipment we offer. First, we have arranged with the different manufacturers to supply only the highest grade of goods that can be obtained. We have fixed the prices at the manufacturers' lowest prices. By a careful comparison of our prices with those of other reliable houses, we have found without a single exception, when quality is considered, we are much lower in price. Different from other houses, we offer to send these goods by freight, C. O. D., subject to examination, on receipt of a deposit only to cover freight charges. We fully guarantee everything in this line that we offer you. If not found as represented, your money is always ready, and on the basis of excellency in material and make, liberalness in terms of shipment, prices lower than any of our competitors, we shall hope to receive your order. Do not overlook this forge at $7.95 on our regular C. O. D. terms, or when cash in full accompanies your order. There is nothing like it on the market, and you will find no such bargain in any other book.

OUR $14.50 BLACKSMITH & TINKER'S OUTFIT



No. 80526

THIS KIT OF TOOLS IS FAR SUPERIOR TO THOSE USUALLY SOLD, ALL TOOLS being strictly First Quality Standard Tools, such as are used by mechanics. WORTH FIVE TIMES THE PRICE every year for keeping all your tools in perfect order

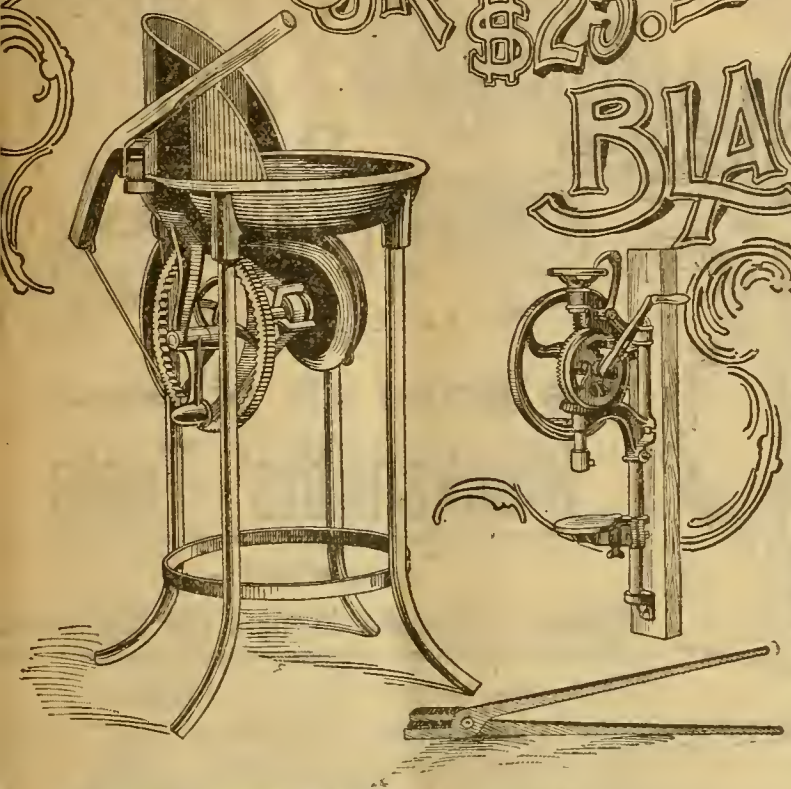
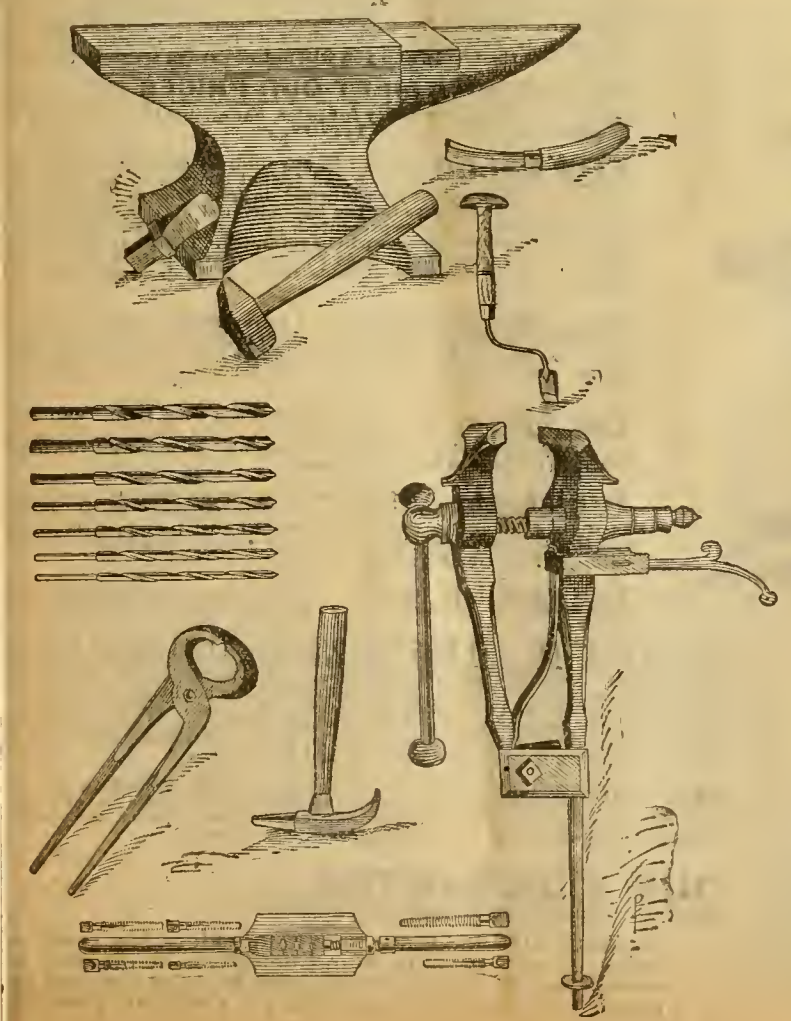
OUR PRICE OF $14.50 IS ASTONISHINGLY LOW.

OUR $25.00 BLACKSMITH'S OUTFIT





THE FARMER'S KIT

...OF...

BLACKSMITHS' TOOLS.

..FOR THE..

FARMERS, STOCKMEN,

PLANTERS AND MECHANICS.

No. 80527 ORDER BY NUMBER.

FOR $25.00 Shipped to any address on receipt of $5.00, balance and freight charges to be paid after examination of goods at your railroad station. If cash in full is sent with order, $25.00 pays for the kit, delivered F. O. B., Chicago, and if not found exactly as represented, IT CAN BE RETURNED and money and freight charges will be refunded. There have been many cheap kits of blacksmith tools sold, but never before has anyone offered a kit of standard reliable tools. Read the description of each article.

THE FORGE. We furnish a Lever Forge having hearth 18 inches in diameter. It is furnished with 6-inch fan. The gear is the simplest, strongest and best ever put on a forge. Only a slight movement of the lever produces the strongest blast.

THE DRILL. We furnish a Self-Feed Post Drill. Will drill to center of a 12 inch circle. Spindle is bored to take in drills having ½-inch round shank. In material and finish this drill is equal to any that's made.

THE ANVIL. We furnish an anvil with steel face, accurately ground and tempered. Weight, 60 lbs. The face of this anvil is one solid of English tool steel, thoroughly welded to body of anvil by a patent process. The horn is covered with, and its extremity made entirely of cast steel.

THE VISE. We furnish a wrought iron solid box and screw blacksmith vice, with steel jaws, weighing 35 lbs.

THE SET OF STOCKS AND DIES. Cuts ⅝ to 3-16-inch right hand, 14, 18 and 22 threads to the inch, with 6 taps and one set of three dies. The hot cutter and cold cutter are 1¾-inch cut. The Hardie fits anvil. The tongs are 20 inches long. The pinchers 14 inches long. The Farrier's knife is the celebrated Wostenholm make. The hand hammer weigh 2 pounds without the handle. The Farrier's hammer weighs 10 ounces without the handle. The buttress is 2-inch cut. The drills—We furnish 8 drill to fit drill, one each size, ⅛, 5/32, ¼, 11/32, ⅜, ½ and ⅝.

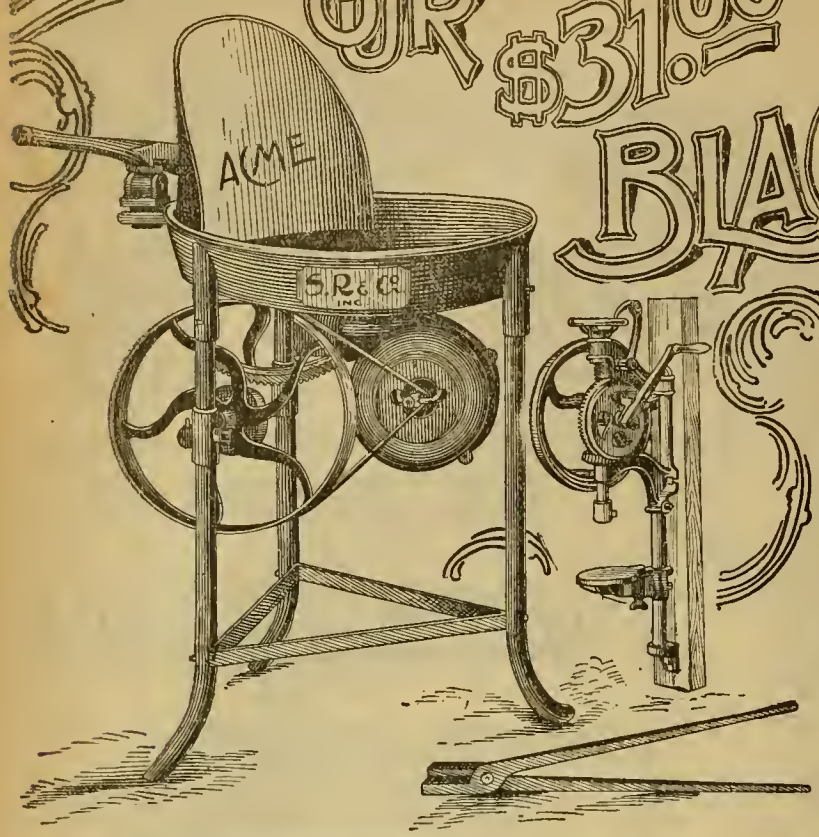
ALL TOOLS furnished with this outfit are strictly first-class, and are suitable for any small blacksmith or farmers use. You can compare this set with anything else in the market, for there's nothing offered like it.

* * *

* * OUR GUARANTEE * *

COVERS EVERY ARTICLE IN THIS SET AND IF FOUND DEFECTIVE, IN MATERIAL OR WORKMANSHIP, IT MAY BE RETURNED TO US AT OUR OWN EXPENSE, AND WE WILL GLADY REPLACE IT FREE OF CHARGE.

OUR $31.00 BLACKSMITHS' OUTFIT



The Acme Kit of Blacksmiths' Tools

- FOR THE -

Farmers, Stockmen, Planters and Mechanics.

No. 80529. Order by Number.

BEWARE OF COUNTERFEITERS who offer worthless imitations of these sets, sets that are dear at any price. It has come to our notice that some concerns have attempted to deceive the public by endeavoring to copy our sets at slightly reduced prices. They do not hesitate to sacrifice quality for price. IF THEY WILL COUNTERFEIT OUR OFFER they will counterfeit the goods, and you will not be safe in trusting them.

NO ONE WILL MEET OUR PRICES on same quality of goods. We will not sacrifice quality for price, but on our high standard of quality WE DEFY COMPETITION.

FOR $31.00 Shipped to any address on receipt of $5.00, balance and freight charges to be paid after examination of goods at your railroad station. If cash in full is sent with order, $31.00 pays for the kit, delivered F. O. B., Chicago, and if not found exactly as represented, IT CAN BE RETURNED and money and freight charges will be refunded. There have been many cheap kits of blacksmith tools sold, but never before has anyone offered a kit of standard, reliable tools. Read description of each article.

THE FORGE. We furnish a Lever Forge having hearth 22 inches in diameter. It is furnished with 8-inch fan. The gear is the simplest, strongest and best ever put on a forge. Only a slight movement of the lever produces the strongest blast.

THE DRILL. We furnish a Self-Feed Post Drill. Will drill to center of a 12-inch circle. Spindle is bored to take in drills having ½-inch round shank. In material and finish this drill is equal to any that's made.

THE ANVIL. We furnish an American wrought anvil, accurately ground and tempered. Weight, 85 lbs. The face of this anvil is one solid piece of English tool steel, thoroughly welded to body of anvil by a patented process. The horn is covered with, and its extremity made entirely of, cast steel.

THE VISE. We furnish a wrought iron solid box and screw blacksmith vise, with steel jaws, weighing 35 lbs.

THE SET OF STOCKS AND DIES Cuts ⅝ to 3-16-inch right hand, 14, 18 and 22 threads to the inch, with 6 taps and one set of three dies. The hot cutter and cold cutter are 1¾-inch cut. The Hardie fits anvil. The tongs are 20 inches long. The pinchers 14 inches long. The Farrier's knife is the celebrated Wostenholm make. The hand hammer weighs 2 pounds without the handle. The Farrier's hammer weighs 10 ounces without the handle. The buttress is 2-inch cut. The drills—We furnish 8 drills to fit drill, one each size, ⅛, 3-16, ¼, 5-16, ⅜, ½, ⅝ and ¾-inch.

ALL TOOLS furnished with this outfit are strictly first-class, and are suitable for any small blacksmith or carriage maker's shop. You can compare this set with anything else in the market, for there's nothing offered like it. We have a cheaper kit, see other page.

OUR GUARANTEE....

Horseshoers' Foot-Vise.

GUARANTEED THE BEST VICE ON THE MARKET.

No. 80551 This is the most perfect tool of its kind yet produced. By a simple adjustment the grip of the jaws is adjusted to thick or thin shoes or iron, and by adjusting the stop it can be made to lock itself or not, at pleasure, which is a feature that no other horseshoers' vise possesses. The locking of the vise does away with an extra vise for filing shoes, and a slight touch of the toe under the foot-lever releases it. They are strongly made with steel jaws, one jaw being removable. Height, 3 feet and 3 inches; weight, 150 lbs.; face 2 inches wide by 6 inches long. Complete with sharpening dies. Price, each... .....$11.25

Blacksmiths' Aprons.

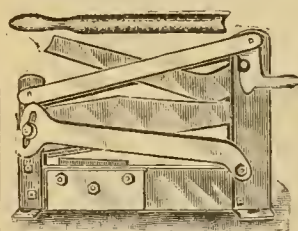
This apron fills a long-felt want among horseshoers, it being made to withstand the severe usage to which they are subjected.

Mechanics' Aprons.

No. 80554 Made of a good quality of bed ticking, 30 inches wide, by 36 inches in length, with pockets and shoulder and waist straps. Stamped Sears, Roebuck & Co., Chicago, plainly on the front of each apron. The price without our name would be 45 cents each. Each..... .....19c

Acme Patent Wrought Iron Shears.

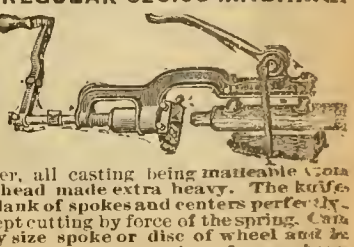
$28.80 for a REGULAR $50.00 MACHINE.



No. 80555 Made of solid wrought iron, no cast or malleable iron used in its construction. The blades or cutters are made of the best tool steel. It will cut round, square or flat iron and wire steel. Cuts up to ¾-inch by 3-inch iron and up to 1¼-inch round or square. Guaranteed to be the easiest and best cutter on the market. It will pay for itself in a blacksmith's shop in three months. Price, each.....$28.80

Peace's Improved Spoke Tenoning Machine.

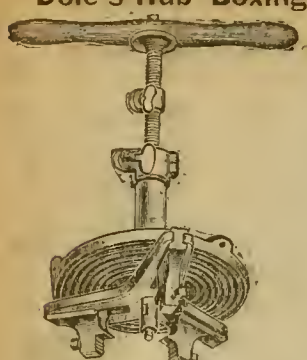
$10.00 for a REGULAR $20.00 MACHINE.



No. 80558 The Peace Machine has been used for the last ten years with general satisfaction. It is made in the most workmanlike manner, all casting being malleable iron and the auger head made extra heavy. The knife starts on the blank of spokes and centers perfectly. The auger is kept cutting by force of the spring. Can be used on any size spoke or disc of wheel and is readily applied, without removing from where spokes are driven. Cuts any size from ¾ to 1¾. Weight, 8 pounds.

Price, each without felloes attachment.....$10.00
Price, each with felloes attachment..... 12.00

Dole's Hub Boxing Machine.



No. 80560 The old standard Dole's Hub Boxing Machine with Edwards' Improved open Feed Nut and gauge plate. This machine being the pioneer Hub Boxing Machine, it has gained such a high standard and reputation that its merits are known throughout the world, and its name is sufficient guarantee of excellency. The No. 1 machine is suitable for Buggy and Carriage work and will grasp hubs from 2 to 6 inches in diameter. No. 2 is suitable for Buggy, Carriage and Wagon work, and will grasp hubs from 2 to 12 inches in diameter. The No. 3 is suitable for the heaviest class of wagon work, and will take hubs from 2½ to 15 inches in diameter.

No. 80560 No. 1. Price, each $16.00
No. 80561 No. 2. Price, each 18.40
No. 80562 No. 3. Price, each 21.60

We furnish with the No. 1 and 2, an extra mandrel made lighter at the end, with ao extra set of small bits, which makes them suitable for light class of work, for $2.40 extra.

Blacksmiths' Bellows.

No. 80575 Blacksmiths' Bellows, standard patterns. We use cowhide leather, prepared especially for our use, and we guarantee it to wear equal to any made. We use whitewood, basswood and pine in the wood work, which is kiln-dried, making it perfectly dry, that it may not be affected by the climate. We aim to use nothing but the best and most suitable material in their construction. The weight of our bellows is about as follows. They may vary a little, but not much:

Width, inches.	24	26	28	30	32
Weight, lbs.	25	30	40	50	60
Price, each	$3.10	$3.30	$3.60	$3.90	$4.20

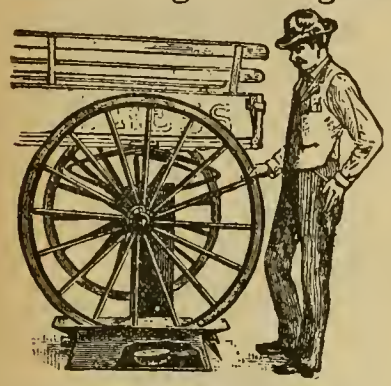
Self-Heating Oil Troughs.



Directions:

Place the oil trough as shown in the illustration after having poured into the chamber two quarts of linseed oil. **Saturate the mineral wool torch with** coal oil or gasoline, and apply match, and place the same under trough, and heat the oil to boiling point. **Revolve the wheel slowly in the trough,** as shown in cut, until the wood is thoroughly saturated with the oil, taking care that the boiling oil covers the felloe. Made in two sizes.

No. 80766 For 3½ tire or narrower; weight, 10 lbs. Each **$1.65**

No. 80767 For tire up to 4 inches; weight, 14 lbs. Each **$1.80**

Cherry Heat Welding Compound.

The Best Flux known for Welding

IRON to IRON, STEEL to STEEL,

And MALLEABLE Iron to Steel.

No. 80770 Cherry Heat Welding Compound makes welding easy. Every weld with compound will be stronger than it would be possible to make at any heat with borax. A much less compound than of borax is necessary to do a given amount of work. In some kinds of work the saving of this item amounts to more than the cost of the compound. **All tools made of steel and iron will be better if welded with the Compound than if borax were used,** for the reason that with the former they can be made at one-half the heat on the steel required if the latter is used, the heat on the iron being the same in both cases. **It is a perfect protection to steel from any degree of heat obtainable in a smith's forge,** and consequently by its aid many forgings of steel can be made at one heat that, without it, would require three or more heats. **It will perfectly restore "burnt" steel. Broken cast-jogs can be reunited** at a low heat with the Compound, and cast-iron firmly united to either wrought-iron or steel. **A thorough test,** which is the only recommendation the Compound needs, will demonstrate the justness of the above claims.

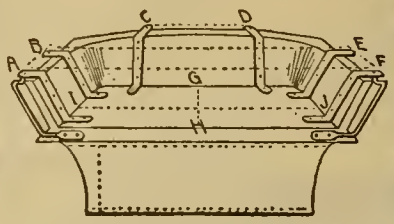
No. 80771 Best Quality Strictly Pure Borax. Sold in any quantity. Price, per lb..... **9c**

When you buy a buggy you don't intend to pay from $10.00 to $40.00 more than it is worth, but many people do. Avoid mistakes and put money in your pocket by a careful examination of our vehicles and prices. Refer to [illegible]

CARRIAGE HARDWARE AND SUPPLIES.

IN CALLING YOUR ATTENTION to this complete department, we are confident that we can supply the great need of thousands of our customers who find it constantly necessary to replace various parts of their vehicles, but who have been paying exorbitant retail prices. We offer a line that has no equal in general excellence of material and finish. At the same time our contracts with manufacturers are so advantageous that we are in a position to make unusually low prices.

BUGGY TOPS.



IN ORDERING BUGGY TOPS give measurements from center to center of holes in irons, as shown in cut; width from A to F, from B to E, from A to B, from C to D. State whether you want 3 or 4 bows, and give choice of color of lining.

IN ORDERING CUSHIONS give measurements from I to J on bottom of seat; from G to H, width of seat at bottom, and state if square or round corners are wanted.

IN ORDERING CUSHIONS WITH FALL give measurements of cushion as above, and also width of fall at the bottom and distance from bottom of seat to floor of buggy. Our buggy tops are shipped in light but strong crates, and are not liable to injury in transportation.

OUR TERMS OF SHIPMENT ARE LIBERAL.

Any of these goods will be sent by freight C. O. D., subject to examination, on receipt of $5.00, balance and freight charges to be paid after goods are received.

You will save money by buying your own needed repairs direct from us at manufacturers' lowest prices. **Freight** amounts to nothing compared with what you save in price. Nearly all these goods are taken at second-class rate or lower.

$6.80 Buys A High-Grade Buggy Top.

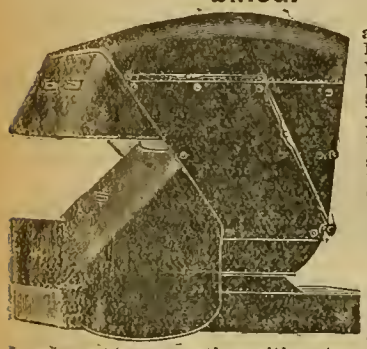
Storm Hood and Dust Hood Combined.



Acme Storm and Dust Hood. Here is what every buggy owner should have. It is a great protection when out in a storm. When top is closed down the hood lays flat across top, shutting out all dirt and dust, and also makes a neat finish and appearance to same. This cut shows hood used in connection with a storm apron. The prices below do not include apron, but hood only. Can be attached and detached from any carriage in a few moments without any trouble and without marring the bows or head lining, as it fastens on the front bow with a simple device. It is made to fit any top. All the measurement we want is the distance between front bows just below top props.

No. 81450 A Grade, made of 28-oz. Jagger Cloth, green or blue inside; price, each.....$3.15
No. 81451 B Grade, made of 28-oz., green or blue back; rubber. Price, each..... 3.75

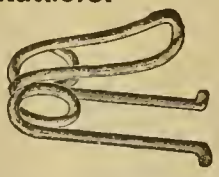
Wire Anti-Rattlers.

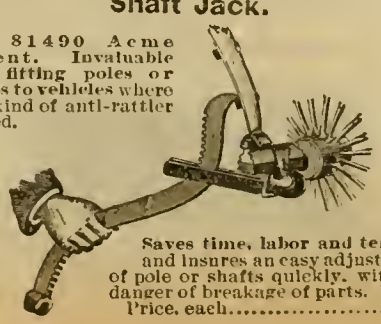


No. 81485 Wire Anti-Rattler; made of steel wire; prevents rattling of the shafts. Price, per doz. pairs, 35c; per pair.....4c

Rice's Anti-Rattler.

No. 81488 Most reliable Shaft Anti-Rattler on the market. Is applied by removing the shaft only. Slip the end that has the slot or opening on top of the tie bar under the axle; place the shaft iron in the curve of the Anti-Rattler at the upper end, press it back and push in draw bolt to fasten shaft. It will do its work as long as a vehicle lasts. This invention effectually and forever prevents the rattling of shafts or pole at the couplings.
No. 1 fits ⅝ to 1 inch axle; per doz., 85c; per pair..8c
No. 2 fits 1⅛ to 1⅜ in. axle; per doz, $1.10; per pair.10c
No. 3 fits 1½ to 2 in. axle; per doz, $1.25; per pair,12c

Shaft Jack.



No. 81490 Acme Patent. Invaluable for fitting poles or shafts to vehicles where any kind of anti-rattler is used.

Saves time, labor and temper and insures an easy adjustment of pole or shafts quickly, without danger of breakage of parts.
Price, each.....58c

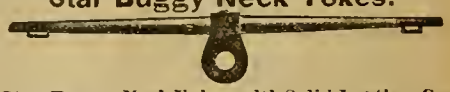
Trimmed Neck Yokes.

No. 81500 Model Buggy Neck Yokes, with steel band around yoke. Made of the best select hickory with extra-heavy leather center. Size, 1⅛ inches diameter; 42 inches long.
Price, per doz., $4.15; each.....40c

Acme Buggy Neck Yokes.

Acme Buggy Neck Yokes, with steel band covered with leather. Very neat in construction, well finished and suited to any style of pole. Size, 1¼ inches diameter, 42 inches long.
No. 81502 Price, per doz., $5.00; each.....50c

Star Buggy Neck Yokes.



Star Buggy Neck Yokes with Solid Leather Center. This yoke is well finished, has solid malleable tips. Is made of the best grade forest hickory. Guaranteed second to none on the market, price considered. Size, 1¼ inches diameter; length, 44 inches.

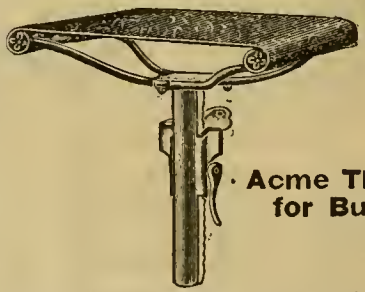
No. 81507 Has solid steel band which passes around neck yoke with hinge center. Can be put on yoke with a common screw driver.
Price, per doz., $3.00; each..... 30c



Acme Third Seat for Buggies.

No. 81510 This Seat is light and durable and is easily raised or lowered to any desired height, or detached from the buggy seat by raising the lever that turns the key in the lock that is attached to the front of the seat. The lock is fastened to the seat in such a manner that there is no wear on the fall of the cushion when turned under or dropped in its natural position. The seat carries the weight in such a position that it is equally distributed on the front and back springs. The cushion of the seat is strong, being made of carpet, fastened to the wooden rods, held in place by a light iron frame attached to the upright bar.
Price, per doz., $10.00; each.....90c

Third Seat for Buggy.

No. 81511 Our imperial Seat. Something new. A necessity. Every carriage owner should have one. Is attached to seat of a buggy beneath the cushion, adjustable to any height, and can be removed in an instant. Three persons made as comfortable as two in a single buggy. The screw is used only to adjust its height.
Each..... $1.10

Spiral Spring Buggy Wrench.

The cut herewith fully explains this handy little contrivance, which is far ahead of all others for removing the nut from a greasy spindle. It not only removes it from thread on spindle, but holds it firmly into the hub of the wheel, together with the greasy washers, thus preventing them from dropping into the dirt, as well as saving the hands from a dose of tar. The hooks on either end of wrench are placed on, over the tire at opposite points on the wheel, with a tension which holds wrench on nut. Will fit any sized wheel and two sized nuts.
No. 81514 Price, per doz., $4.00; each.....35c

The Celebrated Tubular Steel Doubletrees and Singletrees and Neck Yokes.

These goods are past the experimental stage, having stood for the past five years the most severe and practical tests, and are at present used by hundreds of our customers with the best results. A trial will convince any practical person of their superiority over all similar articles made from wood. They weigh no more than wood of a good quality and will outwear a dozen of the latter. In short they are practically indestructible and will last a lifetime.

Tubular Steel Plow Singletrees.

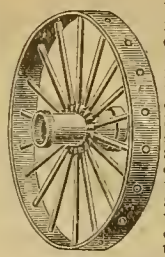
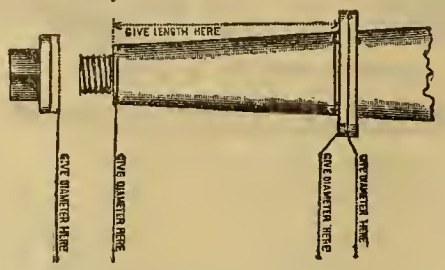
Metal Wagon Wheels.

How to Take Measurements.



The demand for Wide Tired Low Metal Truck Wheels has led us to study the demands of our customers, and caused us to catalogue standard wheels which are made by the best manufacturers, and which can be furnished at the lowest possible cost. The low wheel with wide tire has come to stay. Economy and strength are served when you have a set for use in the hundred and one emergencies arising where they may be used to great advantage. If you now have a new wagon, the gear will outlast two sets of common wood wheels. Buy a set these up-to-date wide tired metal wheels, and of avoid further expense that is bound to come in the constant use of wood wheels. At the same time, a day's use of these low metal wheels will convince you that you will save the cost of



them in a year. You can do alone with them what would require an extra hand with the old style wheels. You can load your wagon twice as easily, and you can haul twice as much more with the same team.

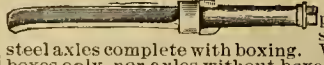
We warrant all these wheels against defective workmanship or material, and if found defective under our guarantee, we will repair or replace them free of charge if delivered to our factory.

We urge you to give these wheels a trial. The increased demand proves their absolute success, and makes other orders certain where they are once introduced. In making out your order, be sure to state size of skein wheel is intended for. These wheels have 4-inch tire. The hub is malleable iron, with a removable box, so that when worn, it can be replaced with a new one. The spokes are steel, oval shape; tires, ⅝-inch thick and 4 inches wide. We can furnish wheels with either straight or staggered spokes; straight always sent unless otherwise ordered.

We make these wheels in 24 in., 28 in., 30 in., 34 in., or 38 in. in diameter. The prices given below are for one wheel, not a set.

No. 81892	Price, 24-in. wheel, each.....	$2.75
No. 81893	Price, 28-in. wheel, each.....	2.85
No. 81894	Price, 30-in. wheel, each.....	3.00
No. 81895	Price, 34-in. wheel, each.....	3.45
No. 81896	Price, 38-in. wheel, each.....	3.85

Steel Axles.



We sell half patent solid collar swelled shoulder steel axles complete with boxing. We cannot furnish boxes only, nor axles without boxes. A set of short bed axles (commonly called axle stubs) consists of 4 axles with short bed, which are intended to be welded to old axles. A set of long bed axles consists of 4 axles with bed long enough to make axle complete by welding in the center. We sell one-half set at one-half the price of a full set, and one-quarter set at one-quarter the price of full set. We cannot weld axles or set boxes.

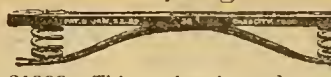
No. 81996 6,000 lbs. cap., wgt. 75 lbs. Per pr. 5.30

Our Common-Sense Bolster Spring.



No. 81999 This spring is made to meet the demand for an easy article at a small price. A set will transform your common wagon into an easy riding vehicle. This one in particular is as perfectly graduated as any spring on the market. Adapted alike for light and heavy use.

The prices below are for two springs, for rear and front bolsters. Always give exact width between bolster stakes. Prices per set of 2-spring.

No. 82000 To carry 1,000 lbs..... $2.95
No. 82001 To carry 1,500 lbs..... 3.25
No. 82002 To carry 2,000 lbs..... 3.75

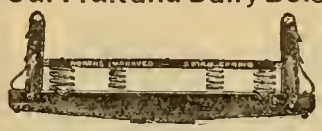
No. 82009 To carry 10,000 lbs..... 9.00

Our Fruit and Dairy Bolster Springs.



Our Fruit and Dairy Bolster Springs

are especially adapted for fruit or dairy hauling, but are used extensively on all kinds of wagons. These Bolster Springs are equally easy whether you have a light or heavy load. For 1,000 to 1,500 lbs. capacity there are two coil springs to each Bolster. For 2,000 to 3,000 lbs. capacity there is one extra relief coil spring to each Bolster. For 4,000 to 5,000 lbs. capacity there are two extra relief coil springs to each Bolster, and for 5,000 to 6,000 lbs. capacity there are three extra relief coil springs to each Bolster. The illustration above shows the springs for 4,000 to 5,000 lbs. capacity.

We put them up to fit 36, 38, 42 or 44-inch Bolster, and they have extension end shoes to fit odd-sized Bolsters. Any one can instantly adjust them to fit any ordinary wagon.

We warrant every set to give entire satisfaction. In ordering, always give exact size between Bolster Stakes.

Our special prices for set of two Springs:

No. 82014 To carry 1,000 pounds..... $2.80
No. 82015 To carry 1,500 pounds..... $3.15
No. 82016 To carry 2,000 pounds..... 3.50
No. 82017 To cerry 2,500 pounds..... 3.85
No. 82018 To carry 3,000 pounds..... 4.20
No. 82019 To carry 4,000 pounds..... 4.90
No. 82020 To carry 5,000 pounds..... 5.60
No. 82021 To carry 6,000 pounds..... 6.30

Low Down Easy Bolster Springs.

The accompanying cut shows our Easy Bolster Spring, positively the best wagon spring made. The illustration shows just how the spring sets on the Bolster. It raises the wagon bed less than any first-class spring in the market. The medium weight leaf springs convert the farm wagon into a spring vehicle that rides as easy as a buggy, empty or with a light load. When you have a heavy load the relief coil springs render the wagon just as easy riding, and take from the leaf springs a part of the weight.

We make these Bolster Springs for 36-inch, 38-inch, 42-inch, and 44-inch bolsters. In ordering, give careful measurements of exact width between bolster stakes. Prices per set of 2 springs:

No. 82022 To carry 1,200 lbs..... $4.90
No. 82023 To carry 2,000 lbs..... 5.60
No. 82024 To carry 3,000 lbs..... 7.00
No. 82025 To carry 4,000 lbs..... 8.40

Acme Bolster Spring.

The Acme Bolster Spring is so constructed that they will not strike the bolster. They are made on the same principle as an Elliptic Carriage Spring. Every set warranted to carry the number of pounds represented or money refunded. A set consists of two complete springs ready for use. We carry in stock and can ship at once 38-inch size, which is the regular standard size. Any other size furnished on short notice at a slight advance in price. 38-inch always sent unless otherwise ordered. In ordering give distance between Bolsted stakes.

Sarven Patent Wheels.—Not Tired.

Sarven Patent Wheels are too well known to need description. The sizes shown below are standard and we can ship promptly. The prices named are for the wheels in the white (not painted) without tires or boxes. We cannot furnish boxes. For tires and axles, see page 859. (Cut shows construction of hub.)

Give height of Wheels wanted. If no height is mentioned we use our judgment in filling orders. These prices are for a set of 4 wheels, any height listed below. Half sets furnished at one-half the price of a set. **The Hub length** is length of box which goes in the hub, rim band and hub or sand band not being measured. **Write us for prices** on heavier Sarven wheels, being careful to give size of spoke, length of hub, tread, depth of rim and height of wheels wanted. Thimble skeins cannot be used in Sarven Wheels. Steel axles must be used.

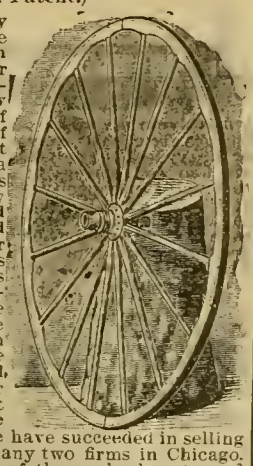
Tired and Banded Wheels.

(Sarven Patent.)



The wheels on a buggy are usually worn out while the other parts, **with slight repairs,** last for several years' more service. **If you have a buggy in this condition,** a set of our tired wheels, a set of short stub axles and a coat of paint will give you a buggy that will last as long as a new one. Early last spring we **contracted for 5,000 sets of tired wheels,** and as it was our first active year in this line we supposed this amount would fill all demands, but the 1st of June we were obliged to double the order. By placing such large orders we were **able to buy a first-grade wheel,** at a less price than other firms could buy the lowest grade, and by **selling same at our one small profit** we have succeeded in selling more tired wheels than any two firms in Chicago. We have never had a set of these wheels returned on account of their not being up to the standard grade we represent. **They are made by a reliable factory, of honest stock, and every wheel is carefully inspected** when received, and if found not up to grade are refused. They are tired with round edge steel tires, and are securely bolted on. **The hubs** have solid iron bands projecting over each end of same, as shown in cut. **The length of hub** given below is where the box goes and not from outside to outside of hub bands.

We do not set boxes or weld axles, and as there are so many different styles and sizes of axles in the market we can not furnish boxes only. **Prices are for wheels in the white,** without boxes or paint. See index for paints, varnishes, oils, etc., in our Grocery Department.

No.	Thickness of Tire.	Size of Spoke.	Length of Hub.	Width of Rim.	Depth of Rim.
82804	¾	1⅛	6½	⅞	1⅛
82805	¼	1⅛	6½	1	1¼
82806	¼	1¼	7	1⅛	1⅜
82807	½	1⅜	7½	1¼	1½

No.	Height of Front Wheel.	Height of Rear Wheel.	Standard Grade. Price.	Extra Grade. Price.
82804	3 ft. 8 in.	4 ft.	$ 6.50	$ 7.75
82805	3 ft. 8 in.	4 ft.	6.75	8.00
82806	3 ft. 8 in.	4 ft.	7.95	9.50
82807	3 ft. 8 in.	4 ft.	9.50	11.25

Weights, per set, 90, 100, 125 and 160 pounds.

Special Attention.

The above sizes of wheels are those most used, and we aim to carry them in stock at all times ready to fill orders as soon as received. Can also usually furnish wheels in heights of 3 feet 4 inches, 3 feet 8 inches and 4 feet at same prices without delay, if all other sizes are regular. If no height is mentioned, we send 3 feet 8 inches and 4 feet wheels. In ordering wheels for repair work give length of box in your old wheel, which will be the length of hub required. All wheels warranted against defects in material or workmanship. Two wheels sold at half the price of a set, one wheel at one-quarter the price of a set. In ordering parts of sets be sure to give height.

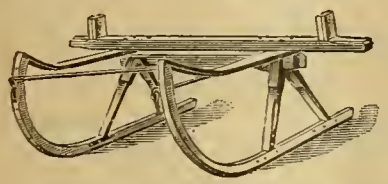
1¼x1¾ tread. Per set..... 6.85

The Ciant Patent Bob Runner.



The above cut represents a new style of fancy bob used as a hub runner, which we are now placing upon the market with great success. Constant complaint is made by those using the regular hub runner that they are not strong or durable, and cause much trouble in their constant calls for repairs. Our new patent hub runner combines all the requisites of a perfect runner. It is light in weight, strong and durable, and can be easily adjusted to any delivery wagon. The cut represents the front bob of the set, the hind having a straight rave. No pole or shafts are used on these sleighs, the regular shafts or pole can be used as the draft is direct from the wagon gear. **Made of best grade selected stock, ironed and furnished complete.** They are manufactured by one of the largest and most reliable makers of wagons and sleighs in the United States. Do not compare them with the cheap bobs on the market, made to sell without regard to quality.

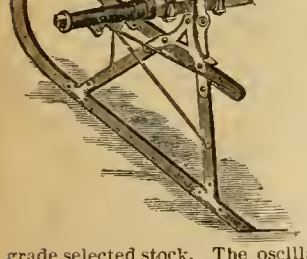
1½-inch runner...	**13.00**

Pioneer Runner Attachments.



The Pioneer Runner is by far the best runner on the market, price and quality considered. They are made adjustable and can be changed instantly for narrow or wide track. Have steel boxes which cover the axle completely, thus protecting the arm of axle from snow and ice. Has four steel braces which, added to our patent clip, makes it one of the most rigid runners made. Runners and raves are made of the best grade selected stock. The oscillating device which clamps on to the axle is also adjustable and will fit square part of axle without wedging, **which is a great drawback** to most runners on the market. We use T plates instead of mortices, which strengthens the runner. Finished in first-lass style, striped and painted ready for use.

	Size of axle to be used on	Weight, per set.	Price, per set.
No. 83304	⅞ or 1 in.	35 lbs.	**$6.00**

Acme Sleigh Runners.

Acme Sleigh Runners for buggies, carts, etc.

For several years there has been a demand for a runner attachment that would be so nicely finished that it would not be out of place **on a fine carriage.** To meet this demand we have succeeded in securing the **Acme Runner,** here illustrated. This is finely finished and the most desirable runner attachment yet out. **It is easily attached,** will fit on to almost any vehicle that runs on wheels, and it tracks with sleighs. When the runner is attached to a carriage the **end of the axle is protected by a box** made of two steel sheets pressed into the proper shape and **securely bolted together,** it being designed to **protect the axle further** by inserting cloth or leather between the sheets to prevent rubbing. **Holes are punched in the steel axle bearing,** so that the bolts fastening the bearings to the brace can be moved, and in this way the place of attaching the runner to the axle can be varied by six inches. **The rear runner is two inches higher** than forward, so that the body of the vehicle will be level.

(Patented, April 21, 1896.)

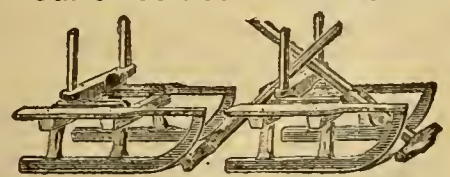
Special Bargains in Bob Sleds.

Our Bob Sleds are made by a concern who have a reputation in this line second to none. The manufacturers of these goods are recognized by all dealers as the makers of **the best bobs in the country,** and only the best are good enough for us to offer to our trade. We contracted for this line of goods for the reason that we learned by investigation that **nothing but the best of material entered into the construction of this work,** that this line of bobs was the best on the market regardless of price.

These Sleighs are all covered by the most binding two years' guarantee, during which time, if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge. **With care they will last a natural lifetime.**

Our $9.95 Four-Knee Bobs.



The above picture is an exact representation of our 13¼x23¼ four knee Bob Sled, engraved from a photograph.

Our Bobs are made of the very best selected material throughout; best workmanship, painted in four coats vermilion paint, striped, ornamented and varnished.

Weight 350 lbs.; length of runners, 3 ft. 10 in.

No. 83320 Size 13¼x23¼ in.; capacity 4,000 lbs, **$9.95**

Our $12.00 Six-Knee Bob Sleds.

Same style and size as our No. 83320 Four-Knee Bobs, except the runners are a trifle heavier and has one extra beam and set of knees, which makes it much stronger. It is sold under the same binding guarantee as our Four-Knee Bobs and is the best bob for the money offered by anyone this season. Weight, 400 lbs.

No. 83326 Price, per set..... **$12.00**

Four Knee Bob Sleds in the White.

Owing to an increasing demand for a cheap Bob we have this season made arrangements with the manufacturers to supply us with our No. 83320 in the white, that is without **irons or paint,** and are able to make a price on same that will warrant anyone who owns a set of blacksmith's tools to buy a set and finish them at home at your convenience. They are finished, mortised and fitted complete but without irons or paint. For sizes see our **No. 83320.**

Price per set..... **$5.90**

Our $13.50 Mandt Patent Steel Bob Sled.

The Mandt Steel Knee Oscillating Bob is by all odds the lightest, strongest and most durable sled made. The knees are made of one solid piece of steel; all braces, plates, etc., are hand-forged; beams, bolsters, reach and tongue are made of white oak; runner, of hickory elm. The size of runner is 2x4in.x5ft.; bolsters, 3½x4½; beams, 3½x4½; reach, 2x4. For use in the timber or on rough roads this sled has no equal, and at the price we ask for it you save a $5.00 bill on every set you buy. Price a sled of this description of your home merchant and see if we are not right. They are nicely painted, striped and varnished and are a first-class sled in every respect.

No. 83330 Weight, 350 lbs. Price..... **$13.50**

Track 4 feet 8 inches.

No. 83400 Price.....$36.00

See Vehicle department for a full line of Buggies, Surreys, Traps, Wagons, Carts, etc.

PUMP DEPARTMENT.

PROBABLY THERE IS NO OTHER LINE of goods that we sell on which we can save our customers more money than we can on pumps. We fit all our pumps, so anyone can set them in the well without any trouble. The only special tool required is a pipe tong. We sell a pipe tong for 59 cents, and everyone who has a pump should have one. We have tried to make explanations of pumps so plain that anyone will be able to select the pump best adapted to his needs.

IF IN DOUBT write us, giving us this information: How deep is well? Is force pump or lift pump wanted? How much water is wanted per day? When water is to be drawn from a distance or forced to a distance, send a rough drawing showing position of pump, position of well, and giving all angles and measurements. We will select the outfit which our pump man, with an experience of twenty years, thinks will give you the best satisfaction, and name you our price for the outfit.

Pitcher Spout Pump.

This cut represents our Close Top Pitcher Spout Pump. These pumps are made in the very best manner and have the revolving bearer which by loosening the set screw allows handle to be placed on either side or back, in any position desired. The cylinders of these pumps are bored true and polished. They have Trip Valves, by which the water may be let out of the pump in the winter by raising the handle until it trips the lower valve. They are fitted with connection for either lead or iron pipe. Pipe is not included in price. See index for pipe. We also make this pump with **Brass Lined Cylinder.** It is a well known fact that leather plungers operating in brass cylinders are almost indestructible. We can fully recommend them where the best is wanted.

Sizes and Prices.	Iron.	Brass-lined.
No. 84200 No. 1, 2¼-inch caliber, for 1-inch pipe	$0.85	$1.39
No. 84201 No. 2, 3-inch caliber, for 1¼-inch pipe	98	1.55
No. 84202 No. 3, 3½-inch caliber, for 1¼-inch pipe	1.10	1.80
No. 84203 No. 4, 4-inch caliber, for 1½-inch pipe	1.23	1.92

Iron and Brass-Lined Force Pump.

With Air Chamber, Revolving Bearer and Brass Piston Rod.

This is a Staple Pump for House Use. It is usually placed on a kitchen sink or elevated platform, and used to force water up into a tank or reservoir to supply bath-rooms and wash-basins. The air chamber is fitted with an outlet into which a draw cock may be screwed if desired. Hose may also be attached to the cock for sprinkling or fire purposes, in which case it is best to put a stop-cock on the upward discharge. These pumps have brass valve seats, and are fitted for iron or lead pipe.

Sizes and Prices without Cocks.	Iron	Brass lined.
No. 84220 No. 1, 2¼-in. cylinder for 1-in. pipe	$4.53	$5.63
No. 84221 No. 2, 2½-in. cylinder for 1-in. pipe	4.90	6.12
No. 84222 No. 4, 3-in. cylinder for 1¼-inch pipe	5.88	7.35
Prices with Cock, as in cut.		
No. 84224 No. 1. To fit ¾-inch hose coupling	$5.50	6.60
No. 84225 No. 2. To fit ¾-inch hose coupling	6.10	7.32
No. 84226 No. 4. To fit 1-inch hose coupling	7.10	8.57

We can fully recommend our Brass-Lined Pumps to be equal to an all-brass one and much cheaper. The cylinder is lined with a seamless drawn brass tube. The plunger, piston rod, stuffing-nut, and all working parts are brass, and as leather plungers operating in brass cylinders are known to be almost indestructible, parties wishing a first-class pump will give them the unhesitating preference.

Anti-Freezing Wrought Iron Lift Pump.

Suitable for wells not more than 30 feet deep. It measures 4 feet from flange at platform to bottom of cylinder. The flange is adjustable, which makes it especially suitable for drive wells. Shape of spout prevents flooding at the top. Has 3x10 iron cylinder of good quality, fitted for 1¼-inch iron pipe. If well is more than 20 feet deep, we recommend placing a foot valve on end of pipe at bottom of well.

No. 84230 Price for pump, as shown in cut.....$2.47

NOTICE.—This price does not include the pipe to reach from the bottom of the cylinder to the bottom of well. For pipe, see No. 84503.

Anti-Freezing Closed Top Lift Pump.

Adapted for wells not more than 30 feet deep. Has revolving top, so handle may be placed on either side or at back of spout in any position desired. It measures four feet from platform to bottom of cylinder. The pipe connecting cylinder and pump screws into the pump at the spout, thus leaving an air space around the pipe above the platform, which is a preventative against freezing. The cylinder is of the best quality and is fitted for 1¼-inch pipe, unless otherwise ordered. If well is more than 20 feet deep, we recommend placing a foot valve on end of pipe at bottom of the well. Pipe to reach from bottom of cylinder to bottom of well is not furnished at prices named below.

Sizes and Prices.	
No. 84236	No. 2, 2¼-inch cylinder..$2.45
No. 84237	No. 3, 2¾-inch cylinder.. 2.55
No. 84238	No. 4, 3 -inch cylinder.. 2.60
No. 84239	No. 5, 3¼-inch cylinder.. 3.35
No. 84240	No. 6, 3½-inch cylinder.. 3.65

Heavy New Pattern Close Top Lift Pump.

Adapted for wells not more than 80 feet deep. The bolts on cap and pitman are large, and will many times outwear the small ones in ordinary use. The pipe is screwed into pump just below the spout, which prevents freezing in winter. Has revolving top, so handle may be placed in any desired position. Has swinging fulcrum. The cylinder is of the best quality, and fitted for 1¼ inch pipe. It measures 4 ft. from flange at platform to bottom of cylinder. For wells not more than 25 or 30 ft. deep, order the pump as shown in cut, and enough pipe to reach from bottom of cylinder (4 ft. from platform) to the bottom of well. Pipe is not included with pump. For price of pipe, see No. 84503.

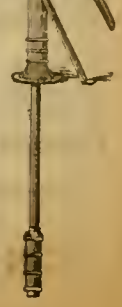
Sizes and Prices as shown in Cut.	
No. 84246	No. 2, 2¼ in. cyl'd'r. $3.28
No. 84247	No. 3, 2¾-in cyl'd'r. 3.39
No. 84248	No. 4, 3 -in. cyl'd'r. 3.57
No. 84249	No. 5, 3¼-in. cyl'd'r. 3.78
No. 84250	No. 6, 3½-in. cyl'd'r. 3.96

When this pump is ordered for well more than 25 or 30 feet deep, the cylinder should be placed within 10 feet of the bottom of well. When so ordered, it takes more pump rod and pump-rod couplings, and requires extra labor, for which we make an extra charge of 5 cents per foot for each foot the cylinder is put down. This charge is to be added to cost of pump and pipe complete.

NOTICE.—The cost of pipe is not included in above extra charge. We give below a sample order for pump and pipe complete to reach 74 feet from platform with cylinder put down 65 feet.

No. 84248 1 pump, No 4	$ 3.57
No. 8450370 feet black iron pipe 1¼ inch, at 5½c	3.85
To putting cylinder down 65 feet, at 5c	3.25
	$10.67

Heavy Lift Pump with Wind-mill Head.



Adapted for wells not more than 80 feet deep. May also be used for hand use. Pipe screws into standard at the spout. Has revolving top and swinging fulcrum. All parts are strong and durable. We can fully recommend it as a first-class pump. Measures 4 feet from platform to bottom of cylinder. For wells not more than 25 or 30 feet deep, order pump as shown in cut and enough 1¼-inch iron pipe to reach from bottom of cylinder (4 feet below platform), to bottom of well. Price of pipe is not included in price of pump. Average weight 80 lbs. For price of pipe, see No. 84503.

Sizes and Prices as shown in cut.	
No. 84256	No. 2, 2½-in. cylinder.$3.10
No. 84257	No. 3, 2¾-in. cylinder. 3.20
No. 84258	No. 4, 3 -in. cylinder, 3.25
No. 84259	No. 5, 3¼-in. cylinder. 3.35
No. 84260	No. 6, 3½-in. cylinder. 3.50

When this pump is ordered for wells more than 25 or 30 feet deep, cylinder should be placed within 10 feet of the bottom of the well, for which we make an extra charge in addition to cost of pump and pipe, same as explained under pump No. 84250.

Extra-Heavy Lift-Pump.

For Stockyard and Heavy Work.

This cut represents our Heavy Set-Length Lift Pump, adapted for stockyards and wells, where large quantities of water are required. It measures 4 feet from flange at platform to bottom of cylinder. The Set-Lengths are screwed in the pumps at the spout to prevent freezing in winter. The stocks are made very heavy and strong, and the cylinders are large and capable of throwing large quantities of water. We fully recommend it where a large amount of water is desired. Average weight 88 lbs.

No. 84263 2¾-inch cylinder, fitted for 1¼-inch pipe.....$4.10
No. 84264 3-inch cylinder, fitted for 1¼-inch pipe.....$4.12
No. 84265 3¼-inch cylinder, fitted for 1¼-inch pipe.....$4.25

Sizes and Prices.

No. 84266 3½-inch cylinder, fitted for 1¼-inch pipe.....$4.45
No. 84267 4-inch cylinder, fitted for 1¼-inch pipe.....$4.91

Price of pipe is not included in above prices. For pipe, see No. 84503.

Extra-Heavy Wind-Mill Lift Pump.

Extra-Heavy Lift Pump for Stockyard and heavy work. This pump is exactly like No. 84266 and 84267 except it has wind-mill head and is made in three sizes. When well is more than 20 feet deep, we recommend putting a foot valve at end of pipe in bottom of well.

No. 84270 3½-inch cylinder, fitted for 1¼-inch pipe.....$5.35
No. 84271 4-inch cylinder, fitted for 1¼-inch pipe.....$5.65
No. 84273 4-inch cylinder, fitted for 2-inch pipe.....$6.00

Price of pipe is not included in above prices. For pipe, see No. 84503.

Heavy Force Pump.

Adapted for wells not more than sixty feet deep. The pipe which connects cylinder to pump is screwed into pump at the spout, **thus preventing freezing in winter.** It has an outlet in rear of spout where a one-inch pipe may be attached, if desired, as shown in cut No. 84291. **Hose may be attached to the spout by means of the clevis which we furnish, as shown in cut. We can also furnish with cock at spout if so ordered, at extra price named below. It measures 4 feet from flange at platform to bottom of cylinder. They are made in two sizes of standards, medium and large. The large pump will give best results in deep wells; fitted for 1¼-inch pipe, unless otherwise ordered. When used for force pump, set the thumb screw down tightly; when used as a lift pump, loosen the screw.**

No.	Size.	Size of Cylinder	Price of Medium Pump.	Price of Large Pump.
84278	2	2½x10	$4.32	$4.55
84279	3	2¾x10	4.40	4.00
84280	4	3 x10	4.50	4.67
84281	5	3¼x10	4.68	4.87
84282	6	3½x10	4.86	5.05

EXTRAS—The above prices are for pump as shown in cut. Price of pipe to reach from bottom of cylinder to bottom of well is not included. **For pipe, see No. 84503.** If this pump is ordered for well more than 25 or 30 feet deep, the cylinder should be placed within 10 feet of the bottom of the well. **When so ordered we make an extra charge of 5 cents per foot for each foot the cylinder is put down.** For full information read descript'n of pump No. 84250.

These pumps can also be fitted with cock at spout (see illustration of pump No. 84291), for which we make an extra charge of 50 cents.

These pumps can also be fitted with back attachment, (see illustration of pump No. 84291), for which we make extra charge of 90 cents.

Wind-mill Force Pump.

This pump is exactly like No. 84278, except that it has a wind-mill head. We can fully recommend both of them as powerful force pumps. Size 8 is fitted for 1¼-inch pipe; other sizes fitted for 1¼-inch pipe.

	Size.	Cylinder.	Price Medium.	Price of Large.

No. 84295	6	3½x10	5.22	5.60
No. 84296	8	4 x10	5.76	6.00

Extras same as pump No. 84250.

Above prices are for pump without cock at spout and without back attachment. For prices of these extras, see pump No. 84282.

Hand Force Pump.

This is a Popular and Powerful Force Pump.

OUR PRICES OF $4.65 TO $4.90 for this strictly high grade and popular force pump ought to induce you to send us your order.

OUR PRICE IS BASED on the actual cost of material and labor, and is the lowest price ever made on such a force pump, and when cylinder is put down is adapted for wells not more than 80 feet deep.

WE FURNISH HOSE ATTACHMENTS FREE.

Back attachment, as shown in illustration of pump No. 84291, and cock at spout can be furnished at extra charge named below.

It is a most excellent force pump and cannot fail to give satisfaction. Average weight 100 lbs.

Prices:

No. 84300 2¾-inch cylinder..$4.65
No. 84301 3 -inch cylinder.. 4.70
No. 84302 3¼-inch cylinder.. 4.85
No. 84303 3½-inch cylinder.. 4.90

Extras same as pump No. 84250.

Extra-Heavy Force Pump Standard Only with Wind-Mill Head.

For very deep wells we offer this standard only with wind-mill head and cock spout. Back attachment, as shown in illustration of pump No. 84290, can be furnished at extra charge of **50c,** if ordered. **To make complete outfit,** besides the standard, select the cylinder desired. (See No. 84410 to No. (84425.) Order the required pipe. (See No. 84503.) Say **how many feet** you want cylinder put down, and to cost of standard, cylinder and pipe add **5c per foot** for each foot the cylinder is put down, which covers cost of pipe rod, rod couplings, labor, etc. As a guide to making order see No. 84250, adding cost of cylinder selected. **We have this standard in two sizes and can have fitted for pipe as large as 3 inches, if so ordered, and top outlet any size requested. When no size is mentioned,** we fit it for 1¼ pipe and tap back outlet for 1-inch pipe. We furnish regular for 6-inch stroke, but can furnish 10-inch stroke, if ordered, at extra charge named below. When ordering 10-inch stroke, state if for tube-well purposes or if forked rod is desired.

Sizes and Prices.	List.

No. 84311 No. 2. With brace, 6-inch stroke..	6.60
Extra, for 10-inch stroke.....	.50
Extra, for back attachment.....	.90

Underground Valve Force Pump.

This Pump is especially adapted for 2-inch tubular wells, also 1¼-inch pipe for open or drilled wells. By operating the wheel in the top of the goose-neck, the **water may be discharged either through the spout** or through the underground pipe at the bridge piece below. **It differs from other three-way valve pumps** in that the operating screw, which is of brass, is below, near the valve, and not at the goose-neck, consequently there is no liability to chill and freeze. **The pipe on the right forms the air chamber.** When this pump is used for tubular wells, it is made with a cap at the stuffing box, which, when unscrewed, leaves an opening large enough to pull the plunger up through without disconnecting the pipe, or disturbing the pump in any way. **All parts of the pump are strong and well made. We can most unhesitatingly recommend this pump as the best of its kind in the market.** This pump is always sent for 2-inch pipe, but may be bushed for smaller sizes. One and one-fourth inch discharge pipe. Goose-neck to fit 1-inch hose coupling.

Prices.

No. 84315 6-inch stroke.....$7.50
No. 84316 10-inch stroke..... 8.00

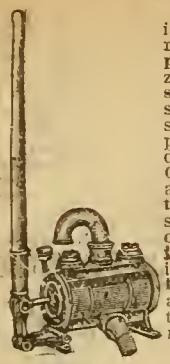
Suction pipe and rod coupling connect at B; discharge pipe connects at A.

NOTICE. The above prices are for the pump stock only, cylinder and pipe are extra. See No. 84410 for cylinder, and No. 84503 for pipe.

EXTRAS:

TO MAKE COMPLETE OUTFIT. Select cylinder desired, and quantity of pipe wanted for suction, also number of feet of pipe wanted for discharge. **State number of feet cylinder shall be put down,** and in addition to cost of standard, cylinder and pipe, add 5 cents per foot for each foot the cylinder is put down.

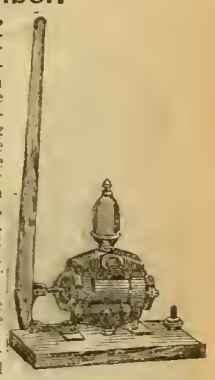
Acme Tank Pump.



Our Acme Lowdown Tank Pump is by far the most powerful pump made. **It is made on new principles.** The cylinder being in a horizontal position we gain great **strength and simplicity.** It is strictly a double-acting pump, sucking water at each stroke of the pump. The cylinder is 5 inches in diameter, with a 5-inch stroke. Openings are 2 inches for suction and discharge. **Spout is attached to top of pump,** is reversible and is so arranged that the largest pail can be placed under it, thus avoiding lead hose when a pail of water is wanted. **It has a capacity of 2 barrels per minute** and will throw a stream of water 60 feet. Guaranteed to be the best pump made or money refunded.

No. 84325 Price, each $6.90

Double-Acting Tank Pump with Air Chamber.



It is **compact and strong,** and although simple in construction, **is unequalled by any other pump in the market,** and can be easily taken apart or repaired. **All the valves can be examined or removed** by simply unscrewing nuts on top and bottom. The discharge or suction can be changed from right to left by reversing caps. **Handles can be changed to either end,** making it either right or left. This Tank Pump is so well known it needs no special description. The large number sold in past years is sufficient evidence of its value. These pumps are **specially valuable on board ship for washing deck, wetting sails or extinguishing fires,** also around wharves, factories, mills, warehouses, livery stables, lumber yards, irrigating from ditches or shallow wells, spraying fruit trees, shrubs, drives, etc., and any other purpose where a force pump is needed, and when **used with our double brake** is a powerful fire pump, quickly placed in position in any location.

No. 84330 With single brake, mounted on plank.....$8.80
No. 84331 With double brake, mounted on plank.....$11.25

Tank Pump Hose.

No. 84335 **2-in. Wire Lined Smooth Bore Suction Hose.** Sold in 15 feet, 20 feet or 25 feet pieces only. Per foot.....35c

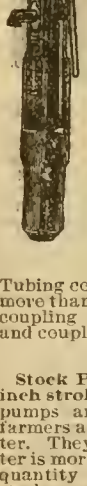
Hose Clamps.

No. 84336 **2-in. Hose Clamps** for above hose. Price, per pair.....10c

Globe Strainers.

No. 84340 **Cast Globe Strainers** for above hose, 5 in. in diameter with 2-in. neck. Price, each.....45c

Wood Pumps.



Our Wood Pumps are made from selected stock, thoroughly painted, striped and varnished. They are carefully wrapped in strong paper for shipment. They are furnished with iron handle brackets and iron spouts. The plunger, which is the vital part of a suction pump, is of the latest improved pattern. Adapted for wells not more than 30 feet deep.

To Select a Pump.

For wells 20 feet or less deep use 6-foot pump.

For wells 20 to 25 feet deep use 7-foot pump.

For wells 25 to 30 feet deep use 8-foot pump.

The bottom of a 6-foot pump comes 2 feet below platform. Bottom of 7-foot pump comes 3 feet below platform. Bottom of 8-foot pump comes 4 feet below platform.

Besides the pump, order enough tubing of size to match pump to reach from bottom of pump to bottom of well. Tubing comes in lengths of 12 feet and less. When more than 12 feet of tubing will be required, order a coupling to connect the tubing. Prices of tubing and couplings will be found with each pump.

Stock Pump.

Stock Pump is 7 inches square, 4-inch bore, 10-inch stroke. Capacity, 80 gals. per minute. These pumps are particularly adapted to the wants of farmers and stockmen using large quantities of water. They should not be used in wells where the water is more than 15 or 20 ft. from the platform, as the quantity of water which the pump lifts at each stroke would cause it to work hard in deep wells.

No.	Length.	Price, plain pump.	Price, porcelain-lined cylinder.

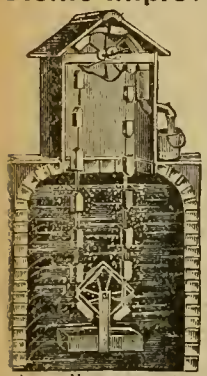
No. 84382 Per foot.....6c
No. 84384 Couplings for above. Each.....18c

Acme Improved Purifying Pump.



Our Acme Purifying Pump is the simplest structure for raising water and at the same time purifying it, in the world. It is adjustable to any well or cistern, and is very durable, being an endless chain composed of links all made from the best of galvanized wire, manufactured and tempered expressly for these pumps. The cups are made of the best grade of galvanized iron.

The bottom wheel is of such construction that it becomes an agitator, thus assisting in purifying the water and cannot get out of the chain and get lost in the well or cistern, thus obviating a serious objection to all other styles of elevators. It always furnishes the water from the bottom of the well, as no water enters the cups until they begin to raise at the bottom of the well, when the air immediately escapes and they are filled with the best and coldest water, and has none of the objections common to other pumps. There are no suckers or valves, no wooden tubing to rot out or rusty iron to come in contact with the water, but everything is kept pure and wholesome.

No. 84390 Complete for 10-ft. well.....$4.95
No. 84391 Complete for 15-ft. well..... 5.70
No. 84392 Complete for 20-ft. well..... 6.70

Rubber Bucket Chain Pumps.

No. 84396 Rubber Bucket Chain Pump, complete for well 10 feet deep.. $3.23

No. 84399 Rubber Bucket Chain Pump, complete for well 18 feet deep ..$4.20
No. 84400 Rubber Bucket Chain Pump, complete for well 20 feet deep ..$4.45
We do not advise the use of chain pumps for wells deeper than 20 feet.
No. 84402 Rubber Buckets for Chain Pump. Per doz., 60c; each.....6c

Spraying Pump.

The working parts and all parts coming in contact with the liquids are constructed entirely of brass. The construction of the pump requires the pressure on the handle to be all done on the down stroke, the pressure on the cylinder acting as a cushion, and partly forcing the handle up again, thus making it very easy of operation, requiring no foot-rest or other device to steady it. The hose can be detached at the top of pump and a nozzle attached in its place, either for spraying, sprinkling, or throwing a solid stream. No wrench or other tool is required to make this change. This feature is peculiar to this pump only.

It is also arranged so that a small stream is discharged with great force from the bottom of the pump into the bucket or barrel, serving to thoroughly agitate the mixture at all times when the pump is in use. The agitator does not lessen the force of the spray at the nozzle. It will be readily seen that the arrangement for attaching the hose at the top of the pump has this advantage over attaching it at the bottom; it does not bring the outside surface of the hose into contact with the acids contained in the solutions, thus adding to the life of the hose. It will throw a solid stream twenty-five feet, and for washing buggies, windows, etc., it is very useful. It can also be used for whitewashing trees, barns, outhouses, etc., and for extinguishing fires. No. 84408 Price, each $1.85

Acme Fire Extinguisher.

A device that every factory, store and residence should be equipped with. Absolute protection against loss by fire can now be assured to property owners at a small cost. The Acme Chemical Fire Extinguisher is the simplest and most powerful machine made. It is made of heavy copper securely riveted and soldered and highly polished. Holds 3 gallons and throws a stream 40 feet when in action. The solution used contains no acids to destroy fabrics, etc., although it is the most powerful fire extinguisher solution known. Solution for re-charging can be obtained from any druggist for 15 cents. Full directions sent with each machine. Weight when ready for use 12lbs.

No. 84409, price each..... .....$5.00

Pump Cylinders.

By means of the cylinder water is raised, and unless the cylinder is well made no good results can be obtained. A good cylinder must be bored true and plunger must fit accurately. Valves must be simple and durable. The cost of repairing a cylinder is usually more than its first cost, so it pays to get the best. Our cylinders are the best that skilled workmen can produce, and our price as low as equally well-made goods can be sold for. Cylinders 10 inches long have 6-inch stroke and can be used in wells up to 35 feet deep. Cylinders 12 inches long have 6-inch stroke and can be used in wells up to 75 feet deep. Cylinders 16 inches long have 10-inch stroke and can be used in wells up to 200 feet deep. Cylinders 2 inches in diameter are fitted for 1-inch pipe. Cylinders 3½ inches in diameter are fitted for 1½-inch pipe. Cylinders 4 inches in diameter are fitted for 2-inch pipe. All others fitted for 1¼-inch pipe.

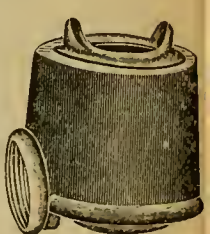
Water Conductor.



No. 84491 This cast-iron Conductor hangs over and directly under the spout of the pump. The pipe is screwed in at lower outlet outside to conduct water to a tank or trough that may be some distance from the pump. It is strongly made with a swivel, so that the conductor pipe may be shifted to either side, as desired. It is tapped for 1¼ or 1½-inch iron pipe—can be detached and put aside when not in use. Price, 1¼ or 1½-inch pipe, each.....40c

Foot Valves.

We recommend that Foot Valve and Strainer should be placed on lower end of pipe in wells more than 15 or 18 feet deep. It makes pump work much easier and the strainer prevents anything from entering the pipe which might clog the valves in cylinder. Made in two sizes.

No. 84492 For 1¼-inch pipe; price, each.....38c
No. 84493 For 1½-inch pipe; price, each 48c

Be sure to allow for costs of cutting threads when pipe is ordered cut to exact lengths.

Iron Pipe Fittings.

We illustrate the fittings that are commonly used, but can furnish any fitting that is made. If you want any fitting not quoted here, you can safely order it from us, allowing sufficient money to pay for it and we will fill your order promptly; or, if you prefer, write us and we will promptly and cheerfully quote price.

ABOUT SIZES.

Remember that the size of iron pipe is inside measure and that fittings are for pipe of corresponding size. We show below the comparative sizes of iron pipe.

Pipe size	⅛ in.	¼ in.	⅜ in.	½ in.	¾ in.
Outside Measure	40/100 in.	54/100 in.	67/100 in.	84/100 in.	1 5/100 in.

Pipe size	1 in.	1¼ in.	1½ in.	2 in.
Outside Measure	1 31/100 in.	1 66/100 in.	1 9/10 in.	2 37/100 in.

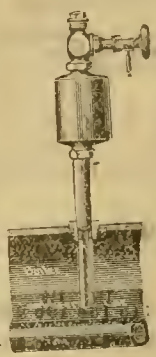
Size of pipe, in.	⅜	⅜	½	½	½	¾	¾
Price, each.	42c	48c	52c	58c	66c	80c	$1

Acme Low Water Indicators.



No. 84577 Every Boiler should be supplied with our Acme Low Water Indicators. Especially thresher engines and boilers, where often times you are away from water, etc., and run by inexperienced help. It is very simple, easily attached to boiler and nothing to get out of order. It has a fusible plug, so when the water gets below low water line steam enters the Indicator, melts the fusible plug and escapes giving alarm. Price, each..... $3.85

The Acme Steam Trap.

No. 84578 The Acme Trap is, without doubt, the simplest and most compact trap made. It works automatically discharging the water of condensation without loss of steam, and the air may be held in the pipe, thus doing away with a valve. Works satisfactorily at all pressures up to 120 pounds per square inch.

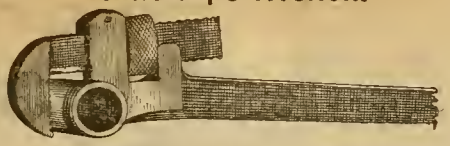
Price, each.	14c	39c	73c	$1.13	1.46

Trimo Pipe Wrench.



No. 84668 This wrench is drop forged from bar steel, is interchangeable in all its parts, does not lock upon the pipe, but releases its hold readily; grips the pipe firmly without lost motion; does not crush the pipe or slip. The movable jaw and the nut are made with a round top and bottom thread, guaranteed not to strip or burr. An inserted jaw is placed in the handle, which can be renewed for little expense when dull or worn.

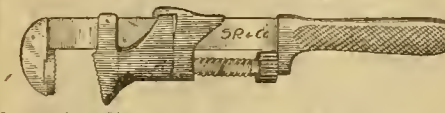
Length, open, inches	10	14	18	24
Takes pipe from	⅛ to ½	¼ to 1¼	¼ to 2	¼ to 2¼
Price, each	96c	$1.38	$1.70	$2.60

Stillson Pipe Wrench.

No. 84669 The Stillson Pipe Wrench is to well known to require a lengthy description of same. They are made of the best imported steel, finely finished and fully warranted.

Length, open, in.	6	8	10	14	18	24
Takes pipe from	⅛ to ½	⅛ to ¾	⅛ to 1	¼ to 1½	¼ to 2	¼ to 2½
Price, each	$1.00	1.10	1.20	1.50	2.10	3.05

The Wright '96 Wrench.



Some points of improvement over other leading pipe wrenches. Will not crush the pipe; is narrower back of the jaw—can get into closer quarters; can be easier operated with one hand; it will always release its grip when its work is done; more surface of thread on screw and nut, which makes it more durable; its checked handle; it being made of iron, will not split or break; it is better balanced, which makes it easier for the operator; in putting on pipe for extension, the handle does not become marred as the wood handle; it has less parts, which makes it less trouble to keep in repair; the jaws can be replaced for less money; the spring is so covered there is no danger of its breaking.

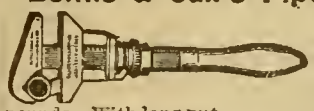
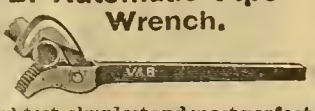
Bemis & Call's Pipe Wrench.



No. 84675. Bemis & Call's combination nut and pipe Wrench, bright finish, weight, 2¼ to 3¼ pounds. With long nut.

10-inch takes pipe ⅛ to 1 inch. Each	$1.25
12-inch takes pipe ⅛ to 1¼ inch. Each	1.40
15-inch takes pipe ⅛ to 2 inch. Each	1.94

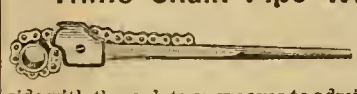
The V. & B. Automatic Pipe Wrench.



No. 84676 The V. & B. Automatic Pipe Wrench, as illustrated above, shows the jaw open. This is the strongest, lightest, simplest and most perfect working Pipe Wrench we have ever seen. Carefully made from selected tool steel of superior quality. Material and workmanship is fully guaranteed. The harder you pull on this wrench the tighter the grip. But the grip relaxes instantly when pressure is removed. The grip being distributed over a large surface, it is not so liable to crusht he pipe by a severe strain.

Length, inches	14.	24.
Takes pipe	¼ to 1½	½ to 2½
Price, each	$1.00	$2.00

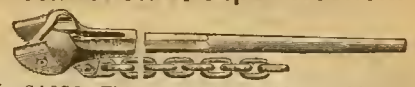
Trimo Chain Pipe Wrench.



No. 84677 This wrench has a solid head, provided on its upper side with three slots or grooves to admit and hold the projecting pins on the chain, giving six bearing surfaces. To the head is attached a forged steel jaw, having a rocking movement, enabling it to grip firmly without slipping, and to release its hold readily from the pipe. The chain by this means can be easily placed, and quickly removed, at the will of the operator. Points of Superiority. Impossible to lock upon the pipe. The strain evenly distributed, each part bearing its proportion. An almost complete circular grip. Works equally well whether pulling up or down. Does not crush the pipe nor slip. Will handle close fittings and work in closer quarters than any other chain wrench made.

No.	1	2	3
Length, inches	20	27	37
Size of pipe	1 to 2½	1 to 3½	1¼ to 6
Price, each	$2.00	3.20	4.40

Trimo Giant Pipe Wrench.



No. 84678 This wrench has solid forged head with detachable interchangeable gripping jaws made from a fine quality of tool steel. The chain used is the best quality of Cable Chain. The head is made so the chain is held securely, without danger of falling out, and still can be readily released at the will of the operator. This wrench is made and adapted for all kinds of work as well as hard and rough usage. No slipping; no locking; no lost motion. We will make the handles of Nos. 5, 6 and 7 lengths to order with or without ring at an extra cost.

No.	2	3	4

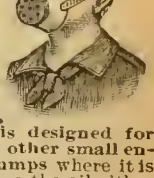
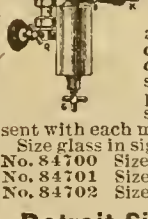
Hurd's Respirator.



No. 48692 The Hurd's Respirator is the most complete article ever offered for protecting the throat and lungs from dust and poisonous gases and all other impurities in places where persons are exposed and many times life endangered. Over 8,000 in use.

Price, each.....$1.75

The Detroit Lubricators.



This lubricator is designed for use on traction and other small engines and steam pumps where it is desirable to discharge the oil either into the steam pipe below the throttle, or into the steam chest direct. On account of its construction, the oil cannot be syphoned out, and a steady and regular feed is assured at all times. It is well made, all connections, etc. being one solid piece of brass, finely finished. Is so constructed that the oil cannot be syphoned out and a regular and steady stream is obtained. Full directions sent with each machine how to attach and operate.

Size glass in sight full ¾x2½ inch.

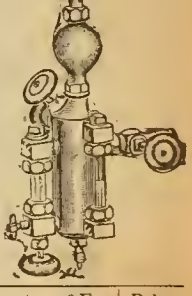
No. 84702	Size ½ pint, brass finish, each..... 2.95

Detroit Sight Feed Lubricators.



This is the Best Sight Feed Lubricator for the money on the market. It is very simple in construction. Is easily attached and will feed either light or heavy oil. Is made of Brass throughout, all connections, etc., being one solid piece, no points to become loose and leak. Over 250,000 of Detroit Lubricators have been sold in the last few years, which speaks for their superiority over other makes. Full directions sent with machine how to attach and operate.

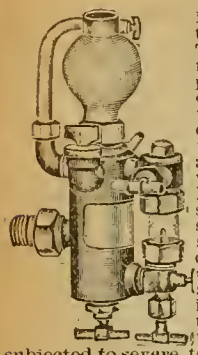
Zero Cold Weather Lubricators.

Single Connection.



Our Zero Single Connection Lubricator possesses every feature necessary or desirable for Traction Engine Service or for Engines working in exposed places subject to sudden changes of temperature. It will feed the regular number of drops of oil in coldest as well as warm weather. Will maintain a steady and unvarying feed under grades and changes in load and work. They cannot be siphoned out under any circumstances. The oil is kept warm by steam, no attention being required. They are very strong and compact. The filler arm and opening is very large, making it easy to fill. No handles to be lost and only the best material used. Each lubricator is subjected to severe tests before leaving the factory. **The single connection Zero lubricator may be attached to the steam pipe on either side of the throttle or to steam chest direct.** This lubricator can be used on traction, stationary, hoisting, portable engines and steam pumps.

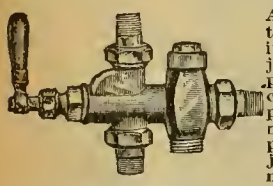
No. 84709 ½-pint, each..... 2.80
No. 84710 ½-pint, each..... 3.10

The 'Detroit' Kerosene Oil Injector

Will remove the scale from your boiler and keep it clean for a few cents per day for a boiler of average size. Kerosene Oil has long been known as an excellent resolvent of scale, but as heretofore used, in considerable quantities at irregular intervals, only limited results have been obtained. **The full benefit** is secured when it is introduced **drop by drop** continuously by our injector. **The kerosene thus fed mingles with the water,** dissolves the scale and prevents the particles of sediment from adhering to the interior surface of the boiler. **The injector will be sent out in two parts, as shown in cut. Full directions** sent with each machine, how to operate and attach.

No. 84711 Size, 1 pint. Price, each.....$ 7.90
No. 84712 Size, 1 quart. Price, each..... 10.50
No. 84713 Size, 2 quarts. Price, each..... 13.25
No. 84714 Size, 4 quarts. Price, each..... 15.70

Metropolitan Automatic Injector.



The Metropolitan Automatic Injector is the result of combining in an automatic injector the **correct principle, good mechanical design and perfect construction** necessary to make a **perfect Automatic Injector,** and in eliminating the weak features common in injectors of this type. **To select the proper-size injector** and obtain the **most economical results** the proper-size injector must be used. When the exact quantity of water consumed per hour is known it can be **easily determined** from the tables below which size injector should be selected. **An injector** should always be selected having a maximum capacity in excess of the water consumed. If the exact amount of water consumed per hour is not known, and cannot be easily determined, the proper size can be approximately determined from the nominal horse-power of the boiler. The usual custom has been to allow 7½ gallons of water per horse-power per hour, which is a safe rule for the ordinary type of boiler.

What it Will Do.

On a 2-ft. lift.....	Start with 25 lbs. steam pressure Work up to 150 lbs. steam pressure
On an 8-ft. lift....	Start with 30 lbs. steam pressure Work up to 130 lbs. steam pressure
On a 14-ft. lift....	Start with 42 lbs. steam pressure Work up to 110 lbs. steam pressure
On a 20-ft. lift....	Start with 55 lbs. steam pressure Work up to 85 lbs. steam pressure
When not lifting..	Start with 20 lbs. steam pressure Work up to 160 lbs. steam pressure

Very hot water can always be handled with the Metropolitan Automatic Injector by having a branch in the suction pipe close to the injector leading to a cold water supply, and by means of valves just enough cold water may be introduced to cool the water as it enters the injector so it can be handled.

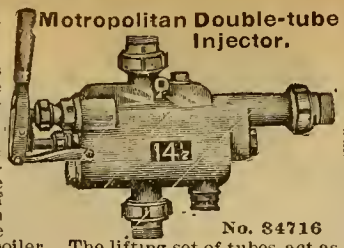
Motropolitan Double-tube Injector.



No. 84716

The Metropolitan Double-Tube Injector is provided with two sets of tubes. One set is proportioned for lifting, which constantly lifts the water and delivers it to the forcing set of tubes, which in turn forces the water into the boiler. The lifting set of tubes act as a governor to the forcing set of tubes, supplying under a great range of steam pressure the proper amount of water to condense the steam in the forcing apparatus. **With cold feed water will work with all steam pressures from 14 lbs. to 250 lbs.** when lift is short, from 25 lbs. to 200 lbs. on 10-foot lift, and from 42 lbs. to 125 lbs. on 20-foot lift. With hot feed water on a short lift will take feed water on at 120 degrees Fah. with steam pressure up to 190 lbs., and with feed water at 140 degrees Fah. with steam pressure up to 120 lbs. The highest permissible temperature at which this injector will work is 150 degrees Fah. under favorable conditions. **It is used for large stationary plants, marine and locomotive use. If the feed water contains lime or other mineral matter this injector is especially advocated.** This Injector is operated entirely by one lever and does not require any adjustment whatever, when working at the highest to the lowest steam pressure, on a long or short lift, with hot or cold feed water; under all conditions the operation is the same.

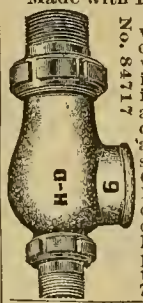
The H-D Ejector or Jet Pump

Made with Independent Couplings and Tubes.



No. 84717

They are used for lifting and conveying water and other liquids from one level to another in mines, pits, wells, tanneries, paper mills, chemical works—in fact, every place where it is desired to transport liquids of any kind. These Ejectors are especially adapted for use as bilge pumps, and are adopted by the largest steamship lines, United States Revenue-Cutter service and others. **The H-D Ejector** will lift 24 feet. When it is desired to raise the liquid to a greater distance, place the Ejector near the liquid and elevate it. With a steam pressure of 65 lbs. it will elevate to 50 to 60 feet, and with 100 lbs. steam up to 70 to 80 feet. No. 84717

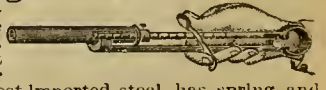
Gauge Glass Cutter.

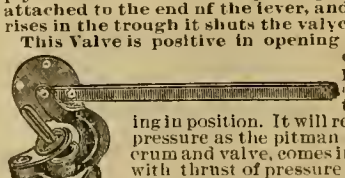


No. 84745 Patent Water Gauge Glass Cutter. Made of the best material. Cutter is made of the finest imported steel, has spring and hand clamp not used on the common make. Nothing better made. Price, each.....$1.35

Float Valves.

This Valve and Float is used to regulate the supply of water in a watering trough. The Float is attached to the end of the lever, and as the water rises in the trough it shuts the valve.

This Valve is positive in opening or closing under high or low pressure. No chance of friction or of sticking in position. It will resist almost any pressure as the pitman connecting fulcrum and valve, comes in a straight line with thrust of pressure when valve is closed. **It has brass valve seat.** By changing position of lever it will either open or close when used either on bottom or side of tank, or when two levers are used it can be used to open or close. Base is large, so that no locknut is needed inside of the tank.



No. 84750

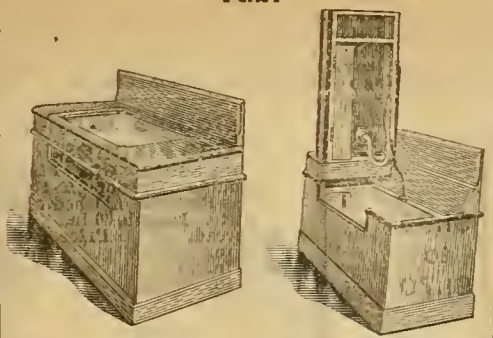
Price, each.....$1.35

Acme Combination Sink or Bath Tub.



No. 84895 Something entirely new in the way of a sink with a bath tub attached for village or country use. A practical invention has been in use for the past three years with best results. It is intended to be placed in the kitchen in place of the kitchen sink, with cistern pump placed on right or left end of same, with pipe running through the floor to cistern or well. The frame and box is made of ¾-inch natural finish oak, sides are matched wain-scoting with 5-inch base board and round mouldings at top. Length over all, 5 ft. 1 in.; height, 32½ in.; width, 26½ in. Back side board made of ¾-inch oak, 9¼ in. wide by 5 ft. 2 in. long. Tub is heavy zinc lined, regular bath tub shape, square at one end and leaning at the other; length, about 5 ft.

The sink is blue enameled steel, 18x36 inches, with patent strainer and brass couplings. When closed the tub has the appearance of a high-grade kitchen sink, and being made of solid oak, finely finished and polished, makes a piece of furniture nice enough for any residence. It can be opened and closed instantly. Bath tub can be filled without opening sink, and with pump attached makes a sink and tub far a head of any ever put on the market. Always ready, no carrying water or emptying tub after use. Has large waste pipe in bottom which carries water, etc. from sink or tub to soil pipe or catch basin on the outside. We show two cuts, open and closed, which gives a very good idea as to appearance and working of same.

Every family should have one, at the price we ask they are in reach of all. Price does not include pump.

Be sure and state whether right or left hand tub is wanted—That is if tub is to go in right or left hand corner of room.

Price, each.....$15.00

Highly Nickel Plated.

No. 84896 Among the many advantages over old style over-head shower may be mentioned the following: A lady can use it without wetting her head. Each limb can be showered separately by placing the arm or leg through the yoke. In using is, as is shown in the illustration, a person has the free use of both arms as it rests upon the natural form of the shoulders. There is no splashing of walls or floor, as the sprays or jets of water are directed inwardly and flow over all parts of the body, whereas with the old style showers the water flows on the head of the person using it and spatters all over the room and fills the eyes, ears and nostrils with water. You can place the yoke in position about the neck and allow the bath tub to fill, thus getting the benefit of a shower in filling the tub for for a bath. It can be attached to any faucet.

Price, each.....$1.50

The Celebrated Mosely Self-Heating Folding Bath Tub.

$25.00 As Complete as any City Bath $25.00

No. 84898

The Greatest Invention Ever Applied to Home Comfort. A modern "up-to-date" bath with plenty of hot water, without which none are complete. EVERY VILLAGE AND FARMER may have a complete bath service, as well as city folks. Equal advantages for city or country use, with or without water works. It supersedes the heavy, unsightly and expensive open tub. Price within the reach of every thrifty home. No bath room necessary; an ornament anywhere. Shipped fully set up and ready for use. Comprises a full sized modern tub, water tank, heater and waste water outlet. Cases are of finely finished hardwood, corresponding to the latest designs in furniture. Each tub is fitted with a flexible outlet, with brass couplings, one of which fastens permanently to the tub, the other may be connected to ordinary gas or lead pipe, or tubing, leading to any waste water outlet in the building, or to make an independent exit, or contents of the tub may be emptied by connecting tube into any convenient receptacle. Made in two lengths, 5 feet, and 5 feet 6 inches, respectively, by 22 inches wide and 17 inches deep. Occupies floor space, closed, about 26x28 inches. Weight, crated for shipment, about 275 pounds. Requires no fastening to the wall. Is an independent piece of furniture, complete in itself. Easily opened and closed. Tubes are lined with best quality No. 9 zinc; white porcelain enamel, and cold rolled 14-oz. copper, planished and tinned. Furnished with or without heater. Heaters are fitted with the latest improved gas, gasoline or wickless kerosene burners. Gasoline burners shipped, unless otherwise ordered. Extreme outside measurements. Five-foot tubs, height when closed, 5 feet 11 inches; length over all when opened for use, 5 feet 11 inches. Five and one-half (5½) foot tubs; height when closed, 6 feet 5 inches, length over all when opened for use, 6 feet 4 inches.

No. 84898 Wood, maple; finish, natural or cherry; view when closed, panel front; style of heater, enameled galvanized iron, plain.

Zinc lining	$25.00
White enamel lining	30.00
Copper lining	33.50

Without heater $10.00 less.

The Mosely Improved Water Heater No. 5.

Water Heater.

No. 84899 With Improved 1897 Gas, Gasoline or Kerosene Burner. Especially adapted for use with stationary baths, giving the advantage of quick and independent heating, also for kitchens, laundries, barber shops, etc., with medium fuel cost. Perfect combustion. No smoke. All parts clean at all times; may be used with water service or without. Water tank is constructed with lid, so as to fill with bucket. Also has opening for attaching No. 500 supply faucet as shown on pipe connection with cut-off valve. Not used under water or steam pressure.

Style.	Material.	Price.
A	Enameled galvanized iron	$15.00
B	Polished copper, enameled top and brackets	18.60
C	Polished copper, copper top and brackets	20.40
D	Nickel-plated copper, nickel-top, brackets and fittings	22.40

Mounted on finished hardwood-back board.
No. 500 Faucet, as shown, extra (see note).

Note.—No. 500 Nickel-plated Supply Faucet, as shown with heater, affords the most convenient and economical method of connection with water service to supply cold water to heater and tub. Extra, including couplings, $4.80; can be attached to any style tub or heater.

GAS FIXTURES AND SUPPLIES. . .

Space will not permit our showing our complete line of these goods, but would state, however, that we can furnish anything you may waot io the way of gas and electric fixtures, and know we can save you 50 per cent on same. The goods are manufactured by a reliable firm, made of the best material by skilled workmen and every article carefully inspected before leaving the factory. Compare our prices with those of other firms and see if what we say in regard to saving you 50 per cent is not correct.

Leather Belting.

WE SELL ONLY THE BEST GRADES in medium and FULL WEIGHT stock, made from carefully selected hides of oak tannage, and designate the same as Standard A and Standard B grades.
WE DO NOT SELL THE CHEAP GRADE OF LEATHER BELT, as it will not give satisfaction. If a cheaper belt is wanted we advise the use of a rubber belt.

QUALITY CONSIDERED you will find we will save you fully 33⅓ per cent on anything in belting.

...DON'T BUY SECOND-GRADE GOODS...

when you can buy the best at our prices.

Rubber Belting.

Our Rubber Belting is composed of the best quality of Cotton Duck and India Rubber, made in the best manner possible. These belts will stretch less than any other belts made. On this account the friction always remains firm. Not only is stretch an exceedingly troublesome defect, but it also loosens the friction and destroys the strength of the belt. **These belts are especially adapted to moist places and agricultural purposes. They are not suitable for threshers or saw-mill belts.** We have this belt in two grades, which we designate as Standard and Extra. We do not guarantee the Standard belt, but it is all right for nearly any place where a light, narrow belt is used. For large widths, quick running machinery or extra-heavy work, our Extra belt should be used. **We make endless belts only in Extra quality.** For making endless, we charge as much as three feet of belt would cost. **Be careful in making orders for belt, for it is sent as ordered; it will not be taken back or exchanged.**

Stitched Canvas Belting.

We have the strongest Stitched Canvas Belting that is manufactured. The rows of stitches are sewed so close together that the piles cannot separate. **It is painted with a composition of a red color, which gives it a good friction, and makes it thoroughly waterproof.** Oil (no matter in what quantity) will not injure the belting in the least. We feel confident that the belt will give satisfaction on any and all kinds of work, as it is thoroughly waterproof, not affected by heat or cold, steam or dampness, or any of the injurious gases, and will always be found soft and pliable. **Stitched cotton belting is cheaper, more durable and much stronger than leather belting,** as has been shown by various tests. This belting is folded in such a manner that it is impossible for the edges to fray out. All belting is thoroughly stretched before leaving the factory. Use an awl in making holes for lacing Canvas Belting. Never use a belt punch as it cuts the threads.

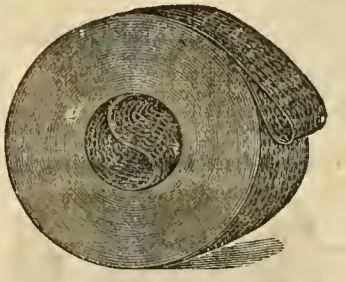
Endless Rubber Thresher Belt.



No. 85114 **Strongest and most durable Rubber Thresher Belt manufactured.** It is a well established fact that **cotton belting is far superior to rubber belting** in a great many respects but rubber belting excels because it does not stretch. In this belt we have combined the good qualities of the cotton belting with the superior qualities of the rubber, and produced the only belt **that will meet all the requirements of a good thresher belt.** This belt is adhered together with rubber friction, and is also sewed closely by the celebrated "Cross-Stitch," which, of itself, is a guarantee of the superiority of this belt.

This is the only rubber belt that we will guarantee for thresher purposes, and in fact is the only rubber belt yet made that will stand the abuse that thresher belts get.

We carry in stock and can ship promptly the following lengths of this endless Thresher belt, all 4-ply. Actual length is 3 feet less than stated, which allows for lap.

Length ft.	6-in. 4-ply.	7-in. 4-ply.	8-in. 4-ply.

150	41.00	48.60	52.40
160	43.50	51.75	56.30

Endless Stitched Canvas Belt.

No. 85118 Endless Stitched Canvas Thresher Belt is far superior to all other canvas thresher belting on account of the process of its manufacture. The splice is made in such a manner that the belt is no thicker at this point, and is just as strong and flexible as any other part of the belt. The "Grain King" is painted with a composition of a reddish color and is thoroughly waterproof, and is not affected by any change of temperature, neither by oil. **It is a cheap, strong belting.** It is sewed with rows of stitches throughout its entire length, which makes it practically **impossible for the piles to separate.** We carry the following lengths of this 4-ply belt in stock and can ship promptly. The actual length of these Belts is three feet less than stated, as it requires the price of 3 feet for labor in making belt endless. Other lengths made to order which require from 2 to 3 weeks to make special.

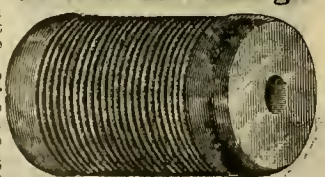
The Acme Belt Hook.

The Acme Belt Hook is the simplest and most durable made. They will **stand more strain than any lacing;** can be used on any diameter pulley; **will not cut out of the belt** or become loose. As good for rubber and canvas as for leather belting. Made from the very best annealed Coppered Steel Wire, so that the points will not break in clinching. **To apply these Fasteners,** place the ends of belt together upon a soft wooden block, outside up. Drive Fasteners straight through both ends alike; place them about ½ inch apart; turn belt over and lay upon a flat surface of rough iron; turn points slightly and clinch down. **Put up in boxes of 200 Hooks,** assorted No. 0 to No. 3, or all one size, as desired.

No. 0—⅝ in. wide. | No. 2—⅞ in. wide.
No. 1—¾ in. wide. | No. 3—1 in. wide.

Per box, any size.....20c
No. 85136 Price, per doz. boxes.....$2.25

Composition Wire Belt Lacing.



This lace will not cut the belt or tear out at the lace holes.

There is no friction or wear on the lace while in contact with the pulley, as the strands lie flush with the face of the belt. The joint is no thicker than any other part of the belt, and is noiseless.

It will not break, work loose or draw out of the belt.

It does not stretch and allow the belt to open at the joint.

Where the Wire Lace is used the joint will be the last place in the belt to give out. For all work where the belts are speeded or run with idlers or at a severe strain, a single trial will establish its claim to first place as a perfect means of sewing the ends of machine belting.

50 feet on each spool, and each spool in a box.
No. 0—For all belts 2 inches wide and under.
No. 1—For all single belts 6 inches wide and under.
No. 2—For all belts 6 to 20 inches wide.
No. 3—For all belts 20 to 40 inches wide.

Rubber Carden Hose.

Our Hose is made entirely by machinery from start to finish, so there is no possibility of poor goods caused by careless operatives. All our hose is made with seamless tube. When not in use hose should be kept in a cool place. **We sell Garden Hose in lengths of 25 and 50 feet only. Couplings are not furnished.** If you want couplings, order them separately, giving catalogue number and price, and we will put them on for you.

Competition Hose.

No. 85150 Competition Hose is what is commonly sold. It is not guaranteed and we do not recommend it. We have this season secured the best hose of this grade that we have ever seen. We sell it in 50-ft. lengths only, without couplings, ¾-inch, 3-ply. Price, per length of 50 ft.....$2.35

Our Leader Hose.

No. 85151 Our Leader Hose is good enough for ordinary use. In fact, there are very few places where this would not give as good satisfaction as higher priced hose. Without couplings.

Cotton Garden Hose.

The Increased demand for light, durable, strong and absolutely reliable hose, suitable for gardens, lawns and other places for sprinkling has induced us to place on the market our New Process Rubber Lined Cotton Hose. The fabric is made from especially selected long fiber cotton and is perfect in construction. The rubber lining is of the very best quality, and by our process of manufacture we are enabled to produce a hose which cannot fail to give the very best results. **Put up in lengths of 50 feet. We do not sell less than full lengths of 50 feet.**

No. 85153 ¾-in standard quality, per foot 7½c
No. 85154 ¾-in extra standard quality, per foot.....9½c

Steam Hose.

No. 85155 Strictly Standard Made Steam Hose. This brand of hose needs no special introduction having been on the market for years and has given universal satisfaction. For ordinary steam pressure it may be depended on to answer every requirement.

No. 85178 The Little Wonder Lawn Sprinkler is one of the best sellers we have. It is strong, durable, and does the work.
Price, each.....16

85178

Acme Giant Sprinkler.

No. 85179 This is the Best Sprinkler for the price ever sold. It is made exactly the same as the $1.25 sprinkler put on the market last season. Is very simple and effective, is made entirely of cast iron and finished in bright vermilion. No revolving parts to get out of order, has a free channel for the water and will not clog up. Will distribute water in a perfect circle, covering a radius of 36 feet.
Per doz., $3.75; price, each.....35c

Hose Reels.

No. 85185 Hose Reel, strong and well made of hardwood, iron wheels. No hose included. Price, each...63c

We have had 1500 Reels made for this season. Made in Grand Rapids, Mich. from special air-seasoned hardwood; and we believe they are the Best Reels on the market.

...INDEX...

ON PINK PAGES in middle of book lists everything we handle and

EVERYTHING YOU WANT TO BUY.

LOOK TO THE INDEX, and if you don't find it listed there, look carefully through the book, for most everything conceivable is priced in this catalogue.

Empire Piston Packing.

Genuine Empire Piston Packing is by far the best of its kind in the market. It has a rubber core covered with a superior quality of flax, well lubricated. It has a long fibre, even braid and is not loaded with tallow, as is the case with most packing being sold by other houses. Used for steam principally, but may be used anywhere a good reliable packing is wanted. Comes in coils of 100 feet, both square and round in shape. Be sure to order by number and state size wanted.

No. 85188 Round.

Size, ¼-inch.	Price, per foot	1¾c
Size, ⅜-inch.	Price, per foot	3½c

Size, ⅞-inch.	Price, per foot	18½c
Size, 1-inch.	Price, per foot	25c

Paramont Packing.

Genuine Red Core Paramont Packing. This is a round packing well made and thoroughly lubricated with plumbago compound and has a red rubber core. It will stand a high temperature and is also a good water packing. It is also used with metallic packing, requiring a round of soft round packing to fill in next to the gland. It is very light in weight, making the cost very low. We have sold the Paramont over six years, and experience has proved it superior to all cut spiral packing.

No. 85192 Strictly Engine Packing.

Cloth Insertion Sheet Packing.

No. 85194 Cloth Insertion Sheet Packing. Cloth on one or both sides, made of the best stock and guaranteed to be the best sheet packing for the price ever sold. Comes in sheets one yard wide. Can furnish any quantity, but must be a cut the whole width of sheet (or 1 yard wide.)

Thickness	1/32-in.	1/16-in.	1/8-in.
Weight per square yard	3 lbs.	6 lbs.	12 lbs.
Price, per lb	25c	25c	25c

Self-Vulcanizing N. F. Plumbago Stock Sheet Packing.

No. 85195 Our N. F. Plumbago Sheet Packing is the best and smoothest unvulcanized packing made and will stand the highest pressure. Sold in any quantity, but must be the whole width of sheet, which is one yard wide.

Directions: Soak end of sheet thoroughly in hot water before cutting, thus expanding the stock, and the gasket may be set up tight at once; it will not run and needs no following.

Thickness	1/32-in.	1/16-in.	1/8-in.
Weight per square yard	3 lbs.	6 lbs.	12 lbs.
Price, per lb	50c	50c	50c

Cardinal Brand Sheet Packing.

Our Cardinal Packing is far superior to all Red Sheet Packings for Gas, Air and Ammonia Compressors, and is not easily dissolved by contact with oil. Will make a tighter cold joint than other packings; has a smooth surface, is firm and substantial, and does not show a porous condition under microscopic examination. It is also good for steam and differs from other packings in the fact that it does not cling to the flanges and can be easily removed at any time.

No. 85196 Comes in Sheets one yard wide, and sold in any quantity, but not less than whole width of sheet.

For example, we can furnish a piece 2 inches wide, but it must be one yard long.

Thickness, inches	1/32	1/16	⅛
Weight, per square yard, lbs.	3	6	12
Price, per lb	70c	70c	70c

Round and Square Duck Packings.

Round and Square Duck Packing. We are selling an excellent grade of Tuck's Packing, using the best quality of Duck and Friction, with particular attention to having it cut perfectly true. This packing makes an excellent hot-water packing, which is often difficult to secure on account of the hot water causing the packing to expand until it is too tight, so that the pump cannot work, causing delay.

No. 85197 This packing comes in coils of 12 ft. each.

Diameter, inches.	¼	⅜	½	⅝	¾	⅞	1
Weight 12 ft., lbs.	½	1	1½	2½	3¾	5	6¾
Price, per lb	40c	40c	40c	40c	40c	40c	40c

Rubber-Back Packings.

No. 85198 This is the best cold-water pump packing made, only the finest grade of duck and rubber used. Comes in coils of 12 ft. and in square shape only. Weight in lbs.

Diameter, inch	¼	⅜	½	⅝	¾	⅞	1
Weight of 12 ft. or lbs.	½	1	1½	2½	3¾	5	6¾

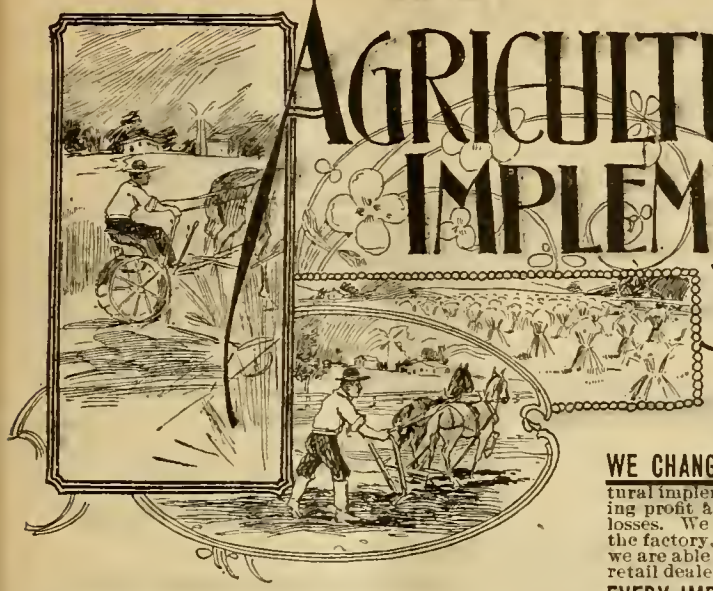
SEARS, ROEBUCK & CO.'S

AGRICULTURAL IMPLEMENT DEPT.



THE GROWTH of our Agricultural Implement department the past few years has been phenomenal. It has grown until it now ranks among our largest departments. Our sales of agricultural implements of every kind are very great in number and extend into every state and territory in the Union. There is nothing in the line of strictly high-grade agricultural implements that we can not furnish and at a saving of from 25 to 50 per cent. in price.

BIG PROFITS to manufacturer, wholesaler and retailer have heretofore compelled the farmer to pay two prices for everything in the implement line, and our farmer customers know too well that the excessive prices asked for agricultural implements are responsible for many a mortgage which industrious farmers are laboring under.

THE OLD SYSTEM of handling agricultural implements is very expensive, and works great injury to the farmer. The actual cost of producing an implement seems to have had on bearing whatever on the price that would be finally asked by the retailer. The manufacturers have made enormous profits, often sold to dealers whose credit in many cases was none too good, and in addition to adding their exorbitant profits they have added a larger percentage to cover the risk of loss. The dealer has, as a rule, sold these goods on time, adding a large percentage for risk of loss, also a large profit, and the result has been that even though a farmer paid cash he has paid his proportion of two, three or four exorbitant profits and the percentage of loss calculated by three or four dealers.

WE CHANGE ALL THIS. By contracting with the manufacturers direct for large quantities and on a spot cash basis, we reduce the cost of the agricultural implements we offer to actual cost of material and labor, with only a small manufacturing profit allowed. To this we are not compelled to add anything for loss, for we make no losses. We add simply our one small percentage of profit, ship the goods to you direct from the factory, and as a result our customers can own anything in the agricultural line which we are able to offer at much less than the same goods are sold by the manufacturer to the retail dealer in quantities.

EVERY IMPLEMENT WE OFFER IS GUARANTEED. We guarantee every agricultural implement to be exactly as represented, and if not found perfectly satisfactory we will refund your money.

EVERY IMPLEMENT WE OFFER is made by a manufacturer of established reputation for only the highest grade goods, and on this class of goods we invite a close comparison of our prices with those of any other house in the land. We would call your special attention to our line of plows. We show a complete line of high-grade plows, suitable for all sections of the country, and all classes of soil. No matter where you live we can supply you with a plow that we will guarantee to scour, guarantee to give the best satisfaction, and at a price about one-half that charged by retail dealers.

WIND MILLS. We have made arrangements with two of the best manufacturers in America, and are this season able to offer a line of wind-mills which we believe are equal to anything on the market at any price, and by a comparison of our prices you can see for yourself the saving to be gained by placing your order in our hands. Our line of grinding mills cannot be excelled. We offer the best line of harrows that have ever been shown, and our prices cannot be met even by any wholesale house.

TERMS: Our terms are very liberal. We will send agricultural implements to any address anywhere in the United States by freight, C. O. D., subject to examination on receipt of a sufficient deposit to cover transportation charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our price and freight charges less the amount sent with the order.

ABOUT THE FREIGHT. You pay the freight, but you will find the freight will amount to next to nothing as compared with what you will save in price. As a rule we give the weight of the different implements under the different descriptions, and by referring to the freight classification in front of book you can calculate very closely what the freight will amount to on any implement. Add the approximated freight to our net cash price, and you will see we are saving you at least 25 to 33⅓ per cent.

DO NOT HESITATE to send your implement orders to us. Don't allow the local dealer to deceive you. He may endeavor to make you believe he offers a better grade of goods, but we will guarantee, we will stake our reputation, such is not the fact. On the contrary, our goods are the best that are made, there is nothing better on the market, and the chances are two to one that notwithstanding the great difference in price in our favor the implements you buy from us will be better than the ones you would buy at home. No matter what you may be in the market for, a wind mill, horse-power saw, feed mill, harrow, seeder, plow, cultivator, hay rake, hay press or other agricultural implement, send us your order and see how much money we can save you. We are more than anxious to receive your orders for agricultural implements, not so much for the little profit there is in them to us, for these goods are sold on the smallest kind of a margin, but for the good it will do us as an advertisement.

THERE ARE MILLIONS OF DOLLARS invested in implements every year, and the amount of money farmers needlessly throw away in the way of exorbitant profits, as before explained, is enough to go far towards paying off the mortgages resting on thousands of farms. If we could only get one implement sale in each township we know that the purchaser would be so well pleased with the goods received, and the big saving in price would be so apparent, that it would soon become generally known throughout his neighborhood. The result would be that our implement trade would be trebled in volume, and a large part of this money now needlessly thrown away could be saved by the farmers, and thus divert the trade into legitimate channels, which would compel manufacturer and dealer to sell on legitimate margins.

DO NOT OVERLOOK OUR BINDING GUARANTEE. Do not overlook the fact that we guarantee all implements are the highest grade made, and do not wish them compared with inferior goods, which are offered by many.

PLOWS

WE ARE HEADQUARTERS FOR EVERYTHING IN THE LINE OF PLOWS. We have spared no pains in selecting a line of goods that we can guarantee in every respect, plows that are suitable to all sections of the country and for all purposes. Our line of Riding and Walking Plows is for quality, draught and all requirements second to none. Our plows are made for us under contract by several of the largest and most reliable makers in the country, concerns who have devoted their life's work to the manufacture of this class of goods and are turning out the highest grade of work that can be produced. Our line of Riding and Walking Plows for the western prairies is, we believe, without exception the BEST ON THE MARKET. There is nothing superior to our Prairie Breaking Plows, if indeed there is anything on the market that will equal them. Our Texas and Southern Style Plows are designed and made especially for that territory, and guaranteed to scour in any soil. Every plow we sell is fully guaranteed for two years.

WE ISSUE A BINDING GUARANTEE WITH EVERY PLOW by the terms and conditions of which if it fails to scour and is not found exactly as represented, or if any piece or part gives out by reason of defect in material or workmanship within two years, we will replace it free of charge. Do not pay your local dealer long retail prices for a plow when we can save you 33⅓ to 50 per cent. We can sell you a plow for as little or less money than your local dealer can buy in quantities. PRICES ON ALL OUR PLOWS ARE NET CASH WITH ORDER, NO DISCOUNT.

TURF AND STUBBLE PLOWS.

We believe we offer the best steel-beam walking plow on the market. It is a plow that we guarantee to scour in any soil. It is especially adapted to the prairies of Kansas and Nebraska, Minnesota and the Dakotas, but is used in every state. We illustrate this plow with rolling coulter, but the prices quoted are without coulter.

Our Acme Plows are guaranteed to be the lightest, strongest, easiest running and best general purpose plows on earth. The moldboard is made out of the very best soft center steel cast, extra hardened. The landside has a slip heel which will always keep the plow at original pitch. The points and landsides are either extra hardened steel or chilled and are interchangeable. This makes a plow suited for all soils and all kinds of plowing. The clevis is a large strong-malleable iron clevis, which can be set so that the plow can be used either with two or three horses. In ordering Plows always state whether they should be wood or steel beam, combination or steel. The steel plows have either wood or steel beams, steel moldboards, steel pointsand landsides. The combination plows have either wood or steel beams, steel moldboard, chilled pointsand landsides. The points and landsides on either plow are interchangeable.

Combination Chilled Plows.

Can furnish wood or steel beam at same price. Prices for Plows given below, are with steel moulboards, chilled points and land sides.

No. 86402 No. 32-13 in. cut turf or stubble, Price..... **$8.65**

No. 86403 No. 42-14 in. cut turf or stubble, Price..... **8.85**

No. 86404 No. 52-16 in. cut turf or stubble, Price..... **9.40**

All Steel Plows.

These Plows have either Wood or Steel Beams, Steel Mould-boards, Steel points, and land sides. We guarantee them to be the equal of any Plow made, or money refunded. Will scour in any soil.

No. 86410 No. 320-13 in. cut turf or stubble Price..... **$10.45**

No. 86411 No. 420-14 in. cut turf or stubble Price..... **11.15**

No. 86412 No. 520-16 in. cut turf or stubble Price..... **12.20**

Be sure to state whether steel or wood beam, right or left hand plow is wanted.

Wood Beam Two-Horse Power.

If you are looking for a good substantial two-Horse Plow for little money, one that will scour in any soil, we have it here. We defy any one to produce its equal, quality and price considered. It is strong and light, well balanced and nicely finished. We sell this plow in two styles as follows:

No. 86414 No. 210 W. B. with cast mold board, cast point, cast land side and wood beam, 12 inches in cut. Price..... Each **$6.75**

No. 86415 No. 210 A with steel mold board, cast point landside add wood beam, 12 in. cut. Price, each..... **$7.75**

Steel Beam Two-Horse Plow.

This is one of the best low priced Plows we carry. For quality of material, shape and finish it has no equal. The same care is used in selection of material and workmanship as in our high priced plows. Every piece being carefully inspected and not found up to standard grade is rejected. We use an extra heavy improved beam, made of Bessner steel with high curve, so as not to choke in weedy land; as all parts are carefully fitted there is no chance for the plow to become loose in the points causing breaking, etc.

Warranted to Scour in any Soil. Furnished with steel mold boards, cast point and landside.

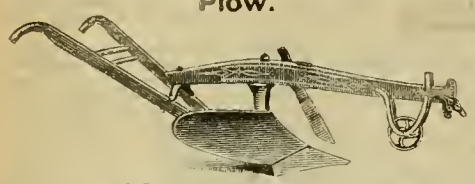
Either Right or Left Hand. Right hand always sent unless otherwise ordered.

No. 86416 12-inch cut. Price each.....**$8.40**

EXTRAS.

No. 86418 Guage Wheels, complete for above plow. Price each.....75c
No. 86419 Jointer with Clasp. Price each....80c
No. 86420 13-inch Star Rolling Coulters..$2.00
No. 86420 Knife, Coulter with Clasp.....95c

Wood Beam Two or Three Horse-Plow.



As a General Purpose Plow we have here a plow with 13-in. cut for sod or stubble, but a little more for sod than stubble that we cannot claim too much for. Often times you wish to do a little sod plowing, not wishing to buy a breaking plow, you have in this a plow that is a success at both or in rotating your crops.

It has a long tapering steel moldboard, cast points and landside. Handles and beam are made of the best grade white oak, well braced. They are finely finished and polished. A first-class plow in every respect. Warranted to scour and to give perfect satisfaction.

No. 86422 13-in Cut without wheel and coulter.....**$ 9.35**
No. 86423 13-in Cut with wheel and coulter.....**10.85**

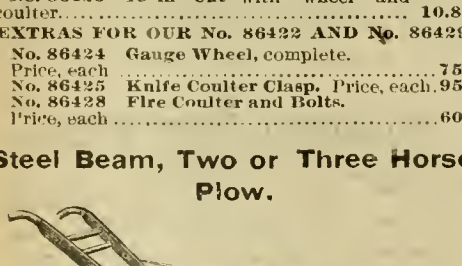
No. 86428 Flre Coulter and Bolts. Price, each.....60c

Steel Beam, Two or Three Horse Plow.



This Plow is made on the same lines as our No. 86422, only with steel beam in place of wood beam. It has the same high quality Shares and Landside, and points, improved ribbed steel beam, with high arch. White oak handles well braced, furnished with steel moldboard, cast point and landside.

No. 86429 13-in. cut, without wheel or coulter. Price.....**$9.35**

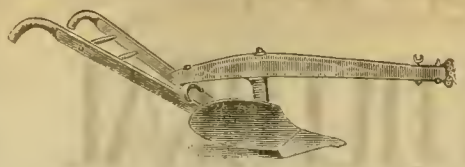
No. 86430 13-in. cut, with wheel or coulter, same as shown in cut.....**$10.85**

Light and Sandy Soil Plow.

This is a Wood Beam Plow, used mostly in light and Sandy soil. The shape of the Moldboard and Bottom, also extra Hardened Share, are such that it will work successfully in sandy soil. Steel moldboard, cast point and land side. **Either right or left hand.**

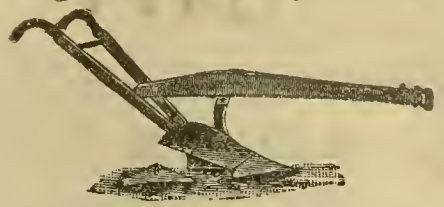
No. 86431 13-in cut. Price, each.....**$7.80**

One Horse Gardner's Plow.



No. 86433 One Horse 8-inch Cut Wood Plow, used mostly by gardeners and for plowing up to corn, potatoes, etc. It has all the improvements of our High Grade Plows. A very popular plow among gardeners and small truck farmers. **Light and strong and well finished.** Best white oak beam and handles. Has steel mold board, cast point and land side. Price, each.....**$6.30**

Light All-Steel Pony Plows.



Our light steel plows are guaranteed to do good service in the work they are intended for. They are very durable and are guaranteed against breakage when caused by manifest defect in workmanship or material. They have steel standard cap, sloping landslide and adjustable slip heel. Extra point furnished with each plow.

No. 86433 One-Horse Steel Plow, is 7-inch cut, weighs 38 lbs. **Will do superior work in cotton and all corn lands.** It is also successfully used for gardening purposes.

Price, each.....**$2.40**
No. 86434 Same Plow with steel beam.. 3.00

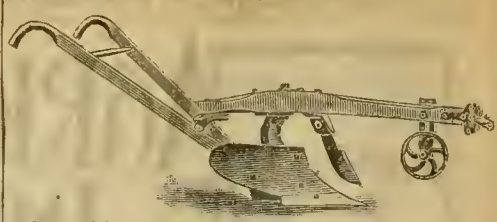
Acme Vineyard Plow.



Our Old Reliable One-Horse Chilled Plow is the best plow made for nurseries, orchards, vineyards, and all one-horse work. The beam is adjustable so the horse can walk in the furrow or on the land. The handles can be shifted to right or left which enables the plowman to walk away from the row of trees or shrubs. The shape of moldboard makes the plow light draft and also cleans out the furrow in loose soil. Will turn a furrow 8 inches to 12 inches wide and 3 inches to 8 inches deep.

As a vineyard plow it is the finest made.

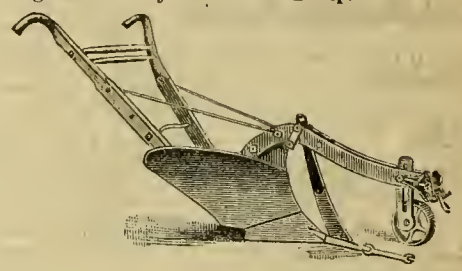
No. 86449 Coulters.....**.85**

Steel Beam Brush Plows.

We have here a

...DOUBLE STEEL BEAM PLOW...

That is a WORLD-BEATER when you have Rough and Rooty Land to break up.



It is very strong, the beam being **double,** that is, made of two steel beams placed side by side. This makes a beam much more rigid than a solid piece of steel, also lighter. **It has an extra high curve,** which allows brush, etc. to pass through—cannot foul or choke up. It also **makes an excellent plow for road work,** in fact, is a first-class, all-around plow, where strength and durability is required. **The braces and handles are extra heavy.** In short, we have here a plow that will outlast any wood beam plow made. It does not weigh as much as some of the clumsy plows sold by other firms, and is warranted to give perfect satisfaction, or money refunded. **We show the plow rigged with wheel and foot coulter** but furnish it with or without, as desired. Has steel mold boards, cast points, and cuts 13 inches.

No. 86456 13 inch cut, without wheel or coulter. Price.....**$ 9.00**
No. 86457 13 inch cut, with wheel and coulter, as shown in cut. Price.....**$11.25**

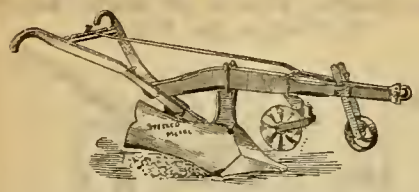
No. 86503 16-inch plow complete with rolling coulter, gauge wheel and extra share. Weight, 155 lbs.....**13.00**

The Yankee Swivel Plow.



This plow is designed especially as a side hill plow, but will work equally well on level land, turning the furrow all one way and leaving no dead furrow. It is fitted with either standard or rolling coulter and with chilled iron moldboard. A foot lever secures the plow in position. When the plow is to be reversed the driver merely touches the lever with his foot and the turning of the team reverses the plow from right to left as desired.

The clevis is governed by the rod projecting backward to the handles, so that the driver has perfect control of the width of cut.

This is the latest improvement, and best reversible plow there is made. Made for one, two or three horses. Two shares go with each plow.

No. 1 Light two-horse plow, with rolling coulter and lead wheel.

No. 86510 Weight, 105 lbs. $10.95

No. 2 Medium two-horse plow, rolling coulter and lead wheel.

No. 86511 Weight, 138 lbs. $12.00

Our Steel Beam Rod Breakers at from $6.50 to $7.70

No. 86520 12-inch with Fin cutter and extra share, weight, 75 lbs. Price $6.50

No. 86521 14-inch with Fin cutter and extra share, weight, 80 lbs. Price $7.10

No. 86522 16-inch with Fin cutter and extra share, weight, 85 lbs. Price $7.70

We guarantee this the best rod breaker on the market. It is made of the very best material throughout, put together in a very strong and substantial manner and guaranteed in every respect. It comes with the very best steel landside, best steel Fin cutter and extra share.

The Best Sulky On the Market.

Your Choice of 14 or 16-inch. Our net cash-with-order price is $29.00, and the price quoted is for Sulky delivered on board the cars.

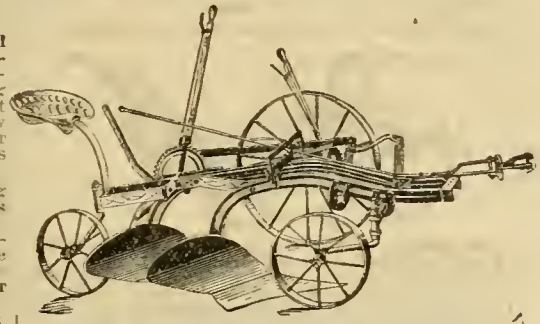
The above illustration represents our new tongueless three-wheel Sulky, with cast wheel in the furrow both at rear and in front of plow, and which is warranted to turn a square corner better than any other sulky made. It is light draught, simple in construction, very easily handled, and made of the very best material, and at the price we quote is the cheapest Sulky on the market. Is made with best Bessemer steel wheels, with movable boxes and has steel rolling coulter. In turning at end or moving about, the doubletrees rise off the ground and the break keeps the plow from running into the horses' heels.

No. 86535 Sulky Plow, 14-inch $29.00
No. 86536 Sulky Plow, 16-inch 29.00

Our Gang Plow for $42.00.

$42.00 is our Net Cash-with-Order Price for this Plow. There is No Discount.

At $42.00 We Furnish this Plow Complete With Land Lever, Wide Shares, Steel Seat, Double Board, Two Large Rolling Coulters, Weed Hook and Four-Horse Evener. It turns a square corner to perfection.



The above illustration represents our new Tongueless Gang Plow, which works perfectly with four horses abreast or strung out, the off horse in all cases walking in the furrow. It has the best steel wheels, spring lift, large rolling coulters, leveling lever, adjusting land lever and perfect lifting lever, which gives it an advantage over all other wheel plows. It is also made without riding attachment when desired. Plows are made with double boards and steel seats. We can furnish it with arch or moldboard breaker bottom when desired. All our tongueless gang plows and sulkies are provided with a device for holding the plow from running on the horses' heels when the plows are out of the ground. This is a valuable improvement over all others. Weight of plows, about 500 lbs.

No. 86538 Our price for gang, with 2 12-inch plows $42.00

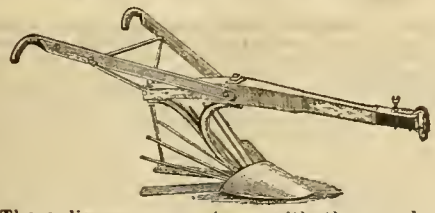
No. 86539 Price for plow, with 2 14-inch plows $45.00

Wing Shovel Plow.

This is an admirable plow for hilling potatoes, etc. It is a single shovel plow with adjustable steel wings, which can be let out to any desired angle by means of punched spread rods. It is sometimes convenient to work these plows with but one wing which can readily be done or the two wings can be worked simultaneously at different angles. Weight 65 lbs.

No. 86565 Price, each $2.80

Acme Potato Digger.

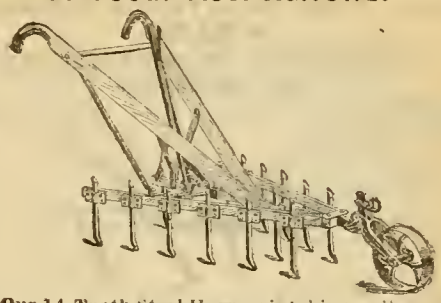


These diggers are put up with three rods on each side, with extra plates attached for two rods, which are sometimes used where the soil is heavy. The rods must be raised at the heel as shown in cut. With our cast standard we bolt the shovel and beam rod securely in position, from which it cannot yield. As shown in cut, the projecting part of standard under the beam is firmly held in position, and the point of shovel is always straight with the beam.

The depth of the digger is regulated by the rod from heel of shoe through end of beam. Where the potato vines are heavy, use a sulky rake lengthwise of drills, which will tear and pull out the vines, then follow with the digger in the same direction.

No. 86567 Weight, 97 lbs. $6.40

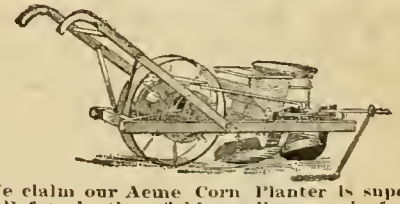
14-Tooth Steel Harrows.



Our 14-Tooth Steel Harrow is taking well among the farmers and gardeners. Can be used for working very closely to small plants of tobacco, cotton, potatoes, etc. It thoroughly pulverizes, but throws no dirt on plants. It is also used as a straight diamond tooth harrow, also as a smoother, with sharp points down, in order to cut and level the surface. The tooth with shear end down being less liable to injure young plants. When smoothing over corn, potatoes, etc., for very close work, remove every other tooth.

No. 86570 Price, without lever or wheel $2.55
No. 86571 Price, with lever 3.00
No. 86572 Price, with lever and wheel, as shown in cut $3.35

Corn Planter and Fertilizer Distributor.



We claim our Acme Corn Planter is superior to all for planting field, ensilage and fodder corn, broom corn, beans, peas, beets, buckwheat, and other seeds of like size. It is the most simple as well as durable planter made. Anyone can at once understand and manage it. None of the working parts except the drive wheel, are in motion only at the instant the seed and fertilizer is dropped in the hill, then it remains still until the next hill is reached. It is especially adapted to hilly and rocky land, where wheel planter can not be used. One horse is sufficient for draft and from 7 to 10 acres can be planted in a day. The seed dropper is made with two compartments, so that two kinds of seed can be planted at the same time if so desired. It can be set to drop any desired quantity of seed or fertilizer at a time, at equal or various distances apart, in hills or drills of uniform depth. The seed-dropping device is positive, never misses or skips a hill. It will plant corn and beans in the same row, alternately, with or without fertilizer with the beans. As a pea planter it has no equal. Every planter is warranted to be well made, of good material, and guaranteed to do its work perfectly with the different kinds of seeds, as we claim, or money refunded. Weight, 181 lbs.

No. 86575 Price, each $19.50

Steel Beam Single Shovel Plow.

There is no other plow on the market that will compare with it.

This Single Shovel Plow is made of the very best material. Well made and nicely finished. Beams made of 1¼x¾ steel.

No. 86578 Blades 10 inches wide by 12 inches long. Price, each $1.85

No. 86579 Blades 12 inches wide by 12 inches long. Price, each $2.00

Steel Beam Double Shovel Plow for $2.40.

No. 86585 This shovel plow is made of very best material throughout. Shovels are 6 inches wide and 11 inches long, of hardened steel. Width of coulter, 20 inches. Our special price $2.40

Extra Shares, 48c each.

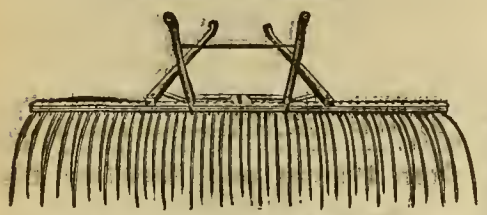
Five-Tooth Steel Frame Cultivator at $2.32.

At $2.32 to $3.32 we offer the Buffalo 5-tooth Cultivator. The best made.

No. 86586 10-inch shovels. This is the strongest, cheapest and best 5-tooth cultivator made. Adjustable teeth to suit all kinds of soil. Our special price....$2.32

No. 86587 Same as above, with lever.....$2.88
No. 86588 Same, with wheel and lever..... 3.32

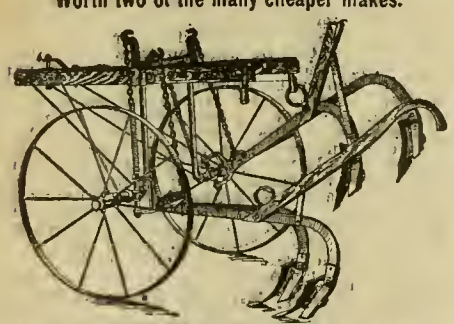
Acme Weeder.



No. 86592 With our Acme Surface Cultivator or Weeder, corn, peas, beans, potatoes and all planted or sown crops can be cultivated with **about one-half the labor and expense** required by any other mode of cultivating. **It kills the weeds** while they are small, therefore there are never any large ones. It breaks the crust and forms a mulch which holds the moisture. It promotes a rapid growth while the plants and roots are young and carries them through drouths without injury. It is one of the best-made weeders on the market; nothing cheap or flimsy about it. Sent with a guarantee to be a first-class practical machine or money refunded.
Price, each.....$10.00

Our Boys' Cultivator at from $12.00 to $14.00.

Worth two of the many cheaper makes.



WE OFFER FROM . . .

$12.00 TO $14.00

A Strictly High Grade

CULTIVATOR,

Which can be Guaranteed in every respect, and that cannot be equalled by any other in the Market at less than $20.00.

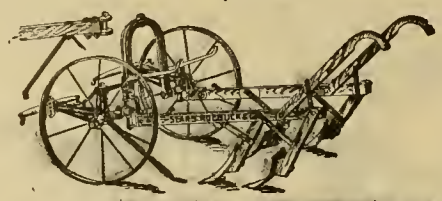
The illustration above presents what we have named our "Boys' Cultivator," because it works so easily and is so easily adjusted that the boys all like it. We claim it has the best and most perfect spring in the world, one that needs no fixing and does all that you want a spring to do. In the work there is no lift. The shovels run naturally by the hitch when started. The swinging chain is so arranged that there is no tendency to draw the shovels together or to swing apart, the chain always being straight over the load. We use the finest steel wheels with chilled boxing, and the casting is A No. 1. We believe in making the best, regardless of cost. Do not buy a steel wheel cultivator without movable boxes. Weight of cultivator, 210 lbs.

No. 86593 Price for Boys' Cultivator with steel beam.....$12.00
No. 86594 Price for Boys' Cultivator with "eagle claw"..... 13.00
No. 86595 Price for Boys' Cultivator with spring tooth..... 11.00
No. 86596 Price for Boys' Cultivator with parallel beam..... 14.00

Our Tongueless Cultivator at $12.00.

We guarantee this to be the best tongueless cultivator on the market, regardless of price.

Your choice of wood beam or steel beam, as desired. The price is the same.



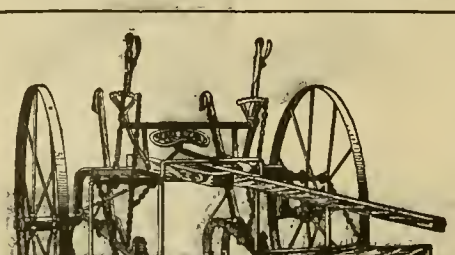
No. 86600 $12.00 is our net cash-with-order price, from which there is no discount. All orders for this cultivator must be accompanied by cash in full. We offer for $12.00 a cultivator which you could not duplicate for less than $20.00. The price quoted is for this cultivator delivered on board the cars at the factory, from which point you must pay the freight.

The above illustration, engraved from a photograph, will give you some idea of the appearance of this perfect, high-grade cultivator. **It has a perfect lateral or vertical adjustment;** has hang-up hooks, which can be turned out of the way when at work; runners which can be put in a carrying position quickly without the use of a wrench; has the same device for **taking up slack or wear** as our regular tongue cultivators; has an arch that does not fall down when turning at the end of the row; has shovels on a gang, shaped so as to turn the earth the same way, **and throw it over like a plow,** and yet, when both are set to turn the same way, they perfectly follow the line of draught, **and do not swing off to one side,** and when pushed out to dodge the corn will instantly swing back; has a tongue attachment, by which it can be changed into a perfect tongue cultivator, and **when used as a tongue cultivator there is no vibration or swinging** of the tongue to fret or wear the horses—has the **very best malleable break pin**—the highest grade moveable boxes over wheels. Weight, 171 lbs. Our special price.....$12.00

Our Celebrated Riding Vibrating Hitch Cultivator for $22.00.

COMBINED RIDING AND EAGLE CLAW HITCH CULTIVATOR, $23.75.

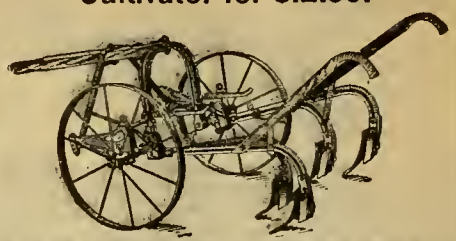
The above are our prices when shipped by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover freight charges both ways.



These cultivators have been thoroughly tested the past eight years by practical farmers, and pronounced an entire success. With this cultivator the team is hitched close to the work and practically direct to the shovel beams. **Each horse is made to pull his own gang** or shovels, and it entirely does away with the vibrating or swinging of the tongue. Has patent double hitch which perfectly controls the tendency of the tongue to rise up when the operator rides, and takes the weight off the horse's neck when he walks. **Has springs** which can be adjusted to carry the shovels to any desired lift or to be non-acting when at work. **By the use of these springs** the combined riding cultivator can be changed into a perfect walking spring cultivator. Has a perfect foot lift, which enables the driver to raise the shovels with his foot in turning. **When the cultivator is used as a rider,** the shanks or beams can be carried on a stationary chain in the usual way or allowed to work free, and the depth of the shovels can be changed while the team is in motion. **We furnish twisted or straight shovels,** as ordered, but where no special orders are given we send them with two twisted and two straight shovels and shields. Bull tongues and moldboard shovels furnished extra when desired.

No. 86605 Can also be changed to an eagle claw or spring tooth cultivator. Price.....$22.00
No. 86606 When furnished with a combined eagle claw.....$23.25

Our Acme Wood or Steel Beam Cultivator for $12.95.

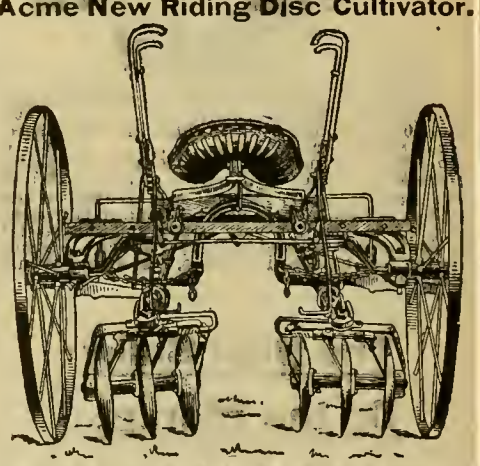


No. 86608 We build this cultivator with either wood or steel beam, as desired. The price is the same.

The above illustration represents our new Acme Cultivator, which is a great improvement over all others of its class, being a **perfect tongue cultivator,** and can be changed to the best tongueless cultivator on the market in a few minutes. **The wheels,** being hinged to the frame or arch, **are always in line** with the draught of the team and turn easily and naturally; it makes no difference in what position the team may be. Other cultivators having the vibrating movement and the wheels attached rigidly to the frame or arch are always parallel to the frame, and when the team is turning and one horse stands ahead of the other the wheels must scrape or slide sidewise, thus making it hard on the team and liable to break the wheels or axle. **This hinging of the wheels to the axle** is a feature that belongs to the Acme exclusively. Has malleable break pin and low hitch. **The wheels have movable boxes,** making them wear-resisting.

We can furnish the Acme cultivator with "Eagle Claw" beam or "Spring Tooth" beam at **50c extra, when so desired.** The prices quoted are for the cultivator delivered on board the cars at factory, from which point you must pay the freight. This is one of the most popular cultivators on the market, and there are more of them in use in Iowa, Kansas, Nebraska, Missouri and Illinois than any other three cultivators made.

Acme New Riding Disc Cultivator.



This Cultivator possesses all the advantages of other cultivators, besides our 1898 improvements. The most serious obstacle in the way of operating a disc cultivator is the difficulty in guiding the discs so as to dodge irregular rows of corn. **The pressure of the dirt** is lateral against the discs, hence they cannot be removed from side to side with the feet as is done with the shovel cultivator. The dodging of discs has been done heretofore by means of pressing of the gangs of the cultivator deeper into the ground than the other. But this action lifted the opposite gang out of the ground, so while the guiding of one is being done the other was doing no work. **In the Acme Disc Cultivator the gangs are guided by deflecting the wheels from the direct line of drift, thus conveying to the frame a lateral movement.**

This gives a quick movement, and the depth of cut of the gangs is not changed on either side. **The wheels are deflected by means of a jointed axle** which is connected to the main frame of Cultivator, and the axle controlled by means of foot levers on which the driver's feet continually rest, and the movement is so easy that a boy 12 years old can handle the machine as easily as a man.

Each gang is provided with a pressure spring by means of which the discs can be set to cut any desired depth, and as these springs are controlled by means of levers attached to the main frame of the Cultivator, the discs can be set to **cut a uniform depth** on both sides, and by the same means the **weight of the whole Cultivator and driver combined can be thrown upon the discs,** thus making it possible for the Acme to cultivate successfully **where any other cultivator would fail.**

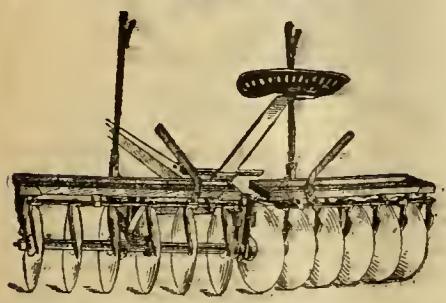
The gangs of the Acme Disc Cultivator are so arranged that the dirt can be thrown either inward, toward or outward from the center between the gangs. **The simplicity of construction is such that this change can be made in less than five minutes.**

Scrapers are made so that by the pressure of the foot the disc can be cleaned from the center of the extreme circumference, **an entirely new device.**

No. 86610 14-in Discs, 3 on each side.....$19.00
No. 86611 16-in. Discs, 3 on each side.... 21.00

Our New Style Steel-Frame Disc Harrow, at $20.00 and Upwards.

WE BELIEVE THIS TO BE THE BEST DISC HARROW IN THE WORLD. IN CONSTRUCTION AND MATERIAL IT IS FAR AHEAD OF ANY OTHER MAKE. WE USE STEEL AS FAR AS POSSIBLE, AND AS FOR SIMPLICITY AND DURABILITY IT CANNOT BE SURPASSED.



We can furnish this harrow with either one or two levers, as desired. With the two-lever harrow you can adjust the gangs so that each gang is given a different angle from the other. It also permits the gangs to be adjusted so as to prevent sliding down a hillside when working hilly land. We have an adjustable device at the back end of tongue by which the inner ends of gangs can be raised or lowered.

The gangs are also subdivided, the discs being set up in sections of three or four each. This construction allows the Acme Disc Harrow to turn corners and handle much easier than disc harrows with solid gangs. The difference is about the same as exists between a "bob" sled and a common long sled.

The Spring Connecting Bars at back end of pole which take the end pressure of the gangs are made of spring steel, and thus give the gangs a constant vibratory motion, causing the discs to pulverize and loosen up the dirt more thoroughly.

We recommend for general use the 16-inch disc as being the best size for the farmer to purchase. Whiffletrees are furnished free with all machines.

We guarantee the Acme Disc Harrow to be made of the best material, and constructed in a thorough and workmanlike manner; to be first-class in every respect, and to do equally as good work as any other disc harrow manufactured. Average weight, 400 lbs.

No. 86616 Price of harrow, with 12 16-inch discs, cut 6½ feet.....$20.00
No. 86617 Price of harrow, with 14 16-inch discs, cut 7½ feet.....$22.00
No. 86618 Price of harrow, with 16 16-inch discs, cut 8½ feet.....$25.00

No. 86620 Price of harrow, with 14 20-inch discs, cut 7½ feet.....$25.00
No. 86621 Price of harrow, with 16 20-inch discs, cut 8½ feet.....$28.00

Our $1.29 Little Giant Disc Sharpener.

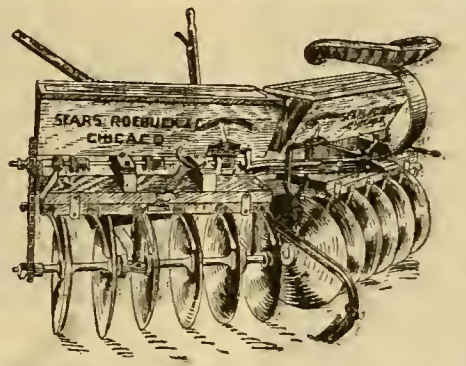
This is the most practicable, portable disc sharpener manufactured. Any disc harrow or cultivator can be thoroughly sharpened without taking apart in less than an hour, and practically at no expense, as it can be done at odd times or at the noon hour. It is very simple and only requires that the harrow be turned upon its back disc upwards and the crank attached to end of shaft, as shown in illustration. The crank is made to fit any shaft, any size, round or square.

The sharpener is all iron and will last a life-time. The plate or chisel is made of Mushat steel, hardened, which will bring the disc to a sharp keen edge without destroying the temper and without the use of water. The iron stand which holds the sharpening disc is made adjustable so that it will slide up and down in the bar in order to get the desired distance from the ground. The sharpening chisel is also adjustable and can be extended as it wears away, and thus one chisel will last many years. One set screw operates both adjustments. Rolling coulters can also be sharpened nicely by taking them out of the bracket and passing them through the posts the proper height from the ground. Attach the coulter to post and attach the crank same as to harrow.

No. 86630 Weight, 7½ lbs. Price.....$1.29

Our Improved Disc Harrow with Seeder Attachment.

THE PRICES QUOTED ARE FOR THE HARROWS DELIVERED ON BOARD THE CARS AT THE FACTORY, From which point you must Pay the Freight..... YOU WILL FIND THE FREIGHT WILL AMOUNT TO NEXT TO NOTHING As compared with what YOU WILL SAVE IN PRICE.



No. 86635 Price of harrow, with 12 16-inch discs, complete, with 4-horse evener.....$34.00
No. 86636 Price of harrow, with 14 16-inch discs, complete, with 4-horse evener.....$40.00
No. 86637 Price of harrow, with 16 16-inch discs, complete, with 4-horse evener.....$46.00
No. 86638 Price of harrow, with 12 20-inch discs, complete, with 4-horse evener.....$36.00
No. 86639 Price of harrow, with 14 20-inch discs, complete, with 4-horse evener.....$41.00
No. 86640 Price of harrow, with 16 20-inch discs, complete, with 4-horse evener.....$48.00

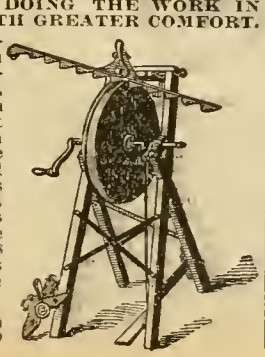
The above are our prices when shipped by freight, C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways; balance and freight charges to be paid after harrow is received.

This improved disc with seeder attachment has the same features as our drills, except that the seed is scattered broadcast in front of the blades where it is covered. We claim for it the following advantages over all other machines of the same character: It has a perfect force feed, which is the very essential feature; it is driven from both sections, and the drive chain is always in line; it is provided with a spring chain tightener, which enables you to take the chain off or put it on without removing the wheels and preventing it coming off; either side can be thrown out of gear; the driver sits where he can see at all times whether the seeds are discharged properly; it has a perfect index, showing the quantity sown to the acre; it is nicely and substantially put up in every way. We have a center shovel which covers the grain sown in the middle, which no other has, and they not only leave a ditch, which we do not, but they leave grain in the center which is not covered. It can be used without a shovel, if desired. It has shields which prevent the dirt from interfering with the driving chain sprockets. The machine is made from the very best material, and is guaranteed to give the most perfect satisfaction when properly operated.

Please note that the seeder can be taken off and the disc used as a separate machine, giving you two perfect machines in one.

Our $3.40 Boss Sickle Grinder.

IF YOU PAY US $3.40 FOR THIS GRINDER YOU WILL SAVE MORE THAN THE COST OF IT IN TIME THE FIRST SEASON, TO SAY NOTHING OF THE AMOUNT OF SATISFACTION IN DOING THE WORK IN THE FIELD WITH GREATER COMFORT.

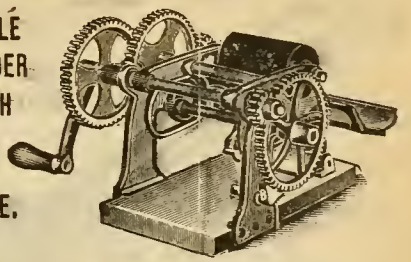


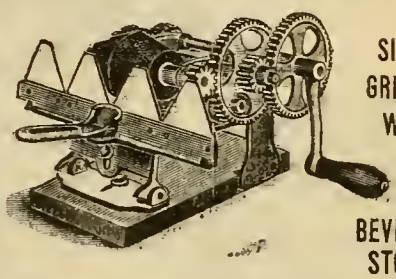
This implement comprises a first-class grind stone with a sickle-grinder attachment, and as either is worth double its cost, the cost of it is a trifle more than the ordinary grind stone and it will answer for all purposes. The stone is accurately centered, hung true, and does perfect work. The height of the stone is 18 inches; it is 2¾ inches thick, and the complete outfit weighs 123 lbs.

No. 86644 Price, each.....$3.40

Lightning Automatic Sickle and Tool Grinder.

SICKLE GRINDER WITH FLAT STONE.





SICKLE GRINDER WITH BEVELED STONE.

The Lightning Automatic Combination Sickle and Tool Grinder is the handiest and most practical machine ever put on the market. Every farmer knows that the task of sharpening mower knives is difficult and unsatisfactory in the old and ordinary ways. With the Lightning Grinder you simply place the sickle bar in position, turn the clamp and the machine does the rest. A boy 10 years old can do the work and do it well. The knives are in such a position when grinding that you can see what you are doing, and see when knives are ground to an edge, which is not possible with any other grinder. It grinds both sides of a section simultaneously. The stone oscillates with each turn of the crank; that is, it works up and down, so that the heel of section is ground as perfectly as the point. It is easily adjusted and will work readily on old or new, short or long sections, and will grind out all nicks. We show two cuts of this machine, one with sickle grinding stone attached and the other with tool grinding stone. It is not necessary, however, to buy two machines, as the stones are interchangeable. By simply changing gear, which can be done in an instant, no tools being required, you have a combination grinder that will grind sickles, axes, corn knives, scythes, ledger plates, discs, harrow and cultivator teeth, etc., which a common grindstone will not do. No mechanic or farmer should be without the machine, as it will pay for itself in one month. Weight, 18 lbs.

No. 86651 Grinder, with one stone.....$4.00
No. 86652 Grinder, with two stones.....5.00

Improved Barrel Headers or Fruit Presses.

No. 86653 We have here the most simple Labor-Saving Machine ever invented for heading up barrels of all kinds—Apples, Potatoes, Fish, etc. The advantage this Press has over all other Lever Presses is: Its side clamps are of one piece, there being no joints to bind; it stands upright and can be operated from either side of the barrel: the sides are adjustable to different lengths of barrels; its movement is quick and powerful.

Price.....90c

Screw Press or Header.

No. 86654 Our Patent Screw Press has the followers attached to screw, which device is patented. The followers attached thus can revolve, and is taken up with the screw after the barrel is headed; the screw is of 1-inch iron. The side clamps are steel and are fastened to the head with two bolts. It has given the best of satisfaction. Thousands of them have been sold in the past five years.

Price, each.....$1.00

"Planet Jr." Garden Tool for 1898.

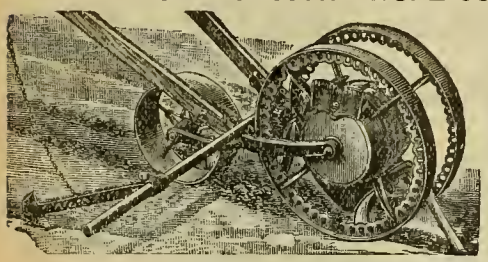
We issue a Special Catalogue of "Planet Jr." Garden Tools, which is mailed free on application.

The "Planet Jr." No. 5 Hill-Dropping Seeder.

No. 86653 **This beautiful new tool will be a delightful surprise to every gardener who tries it.** We all know that a garden seed sower that does not drop in hills is fast becoming a thing of the past, for there are but few now who do not wish to plant beans and corn, spinach and salsify, carrots and turnips, parsnips and beets, in hills. **All crops that are to be grown from seed and then thinned to a regular stand, should be planted in hills and at just the distance apart the plants are desired;** for in drilling, unless the seed is sown unnecessarily thick, there will not always be a plant at the proper spot, and the crop is therefore irregular. This means that nowadays a seed sower should drop in hills and at almost every distance apart. **The new No. 5 "Planet Jr." drops at 5, 6, 8, 10, 12, 16, 24 and 48 inches apart, and also beautifully in a continuous row.** It drops without injury, can be changed from hill to drill or from one distance to another very quickly and without any changing of bolts, and without any loose wheels or parts so easily lost or mislaid; **and a neat; clear index,** with brass screw regulator and quick cut-off, is arranged most conveniently just at the top of the handle.

The newcomer is a great favorite, too, because it is unusually large, holding four quarts, yet very light running withal; and it is also **a model of simplicity, strength and durability. Its large capacity** will suit all **large growers,** and yet it **works so perfectly** that it will sow a **single paper of seed** or drop it in hills accurately, to the very last grain. **In a word, no seeder has ever been made that compares with this newly perfected No. 5 "Planet Jr."—the 1898 surprise.** Price.....**$12.00**

The "Planet Jr." No. 2 Seed Drill.



No. 86660 **This tool is used the world over,** and with the exception of the **"Planet Jr." Hill-Dropping Drill,** is the most perfect drill known. It holds two and one-half quarts.

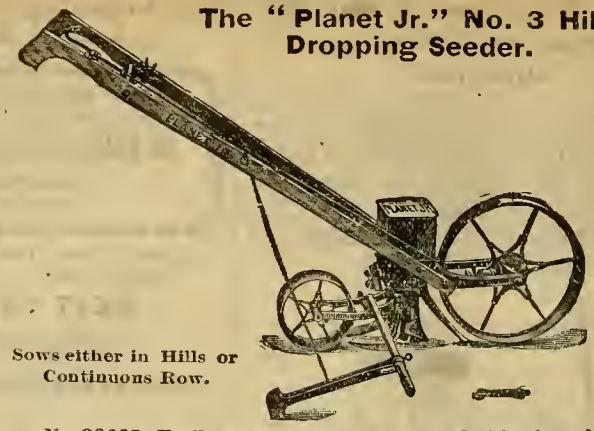
The sowing cylinder is a drum of spring brass, set between the driving wheels. Around this drum is a brass band drawn tight to the drum by a cam which joins the ends. In both drum and band are corresponding diamond-shaped discharge openings; by loosening the cam and sliding the outer band **the discharge may be regulated to suit any kind or thickness of seed.** The index contains the names of the principal seeds, and when the name wanted appears through the index slot, it is set right for that seed. **The drill sows in an even, regular stream, whether there is much or little in the hopper.** The opening plow, being directly between the wheels, follows all irregularities of the ground, is adjustable, and once set, opens the furrow at a uniform depth, and the seeds are deposited in a **very narrow line.** The machine is **extremely simple;** having no agitators, belts or gearing; the seed cannot be injured, even if sprouted. **It received the highest award at the World's Fair at Chicago.** Price.....**$6.00**

The "Planet Jr." No. 4 Combined Hill-Dropping Seeder and Single Wheel Hoe, Cultivator, Rake and Plow.

No. 86662 **This is exactly the same fine strain of blood that has proven such a marvelous success in the No. 5 "Planet Jr." Hill-Dropper.** As a drill, the points of difference are: First, that it is smaller in capacity, though still of good size, holding two quarts, and that it does not drop at so many different distances apart; however, **it drops at all the most important distances,** at 6, 9, 12, 18 and 36 inches. The index is just as fine and accurate and plain, though being a combined tool it is not placed at the top of the handle. **It is like No. 5 in dropping in just the same way, just as accurately, and in handling the smallest paper of seed perfectly and to the last grain;** has no loose parts, and is simple, durable and very light running. The drill is quickly detached and the tool frame substituted. It then becomes the most **admirable single-wheel hoe of the "Planet Jr." family.** Has a fine garden plow, two elegantly shaped, new-style hoes, three delightful cultivating rakes, made new form and specially to fit 6, 9, 12, and using two at once, 14 and 16-inch rows; and a practical leaf guard. Price, complete.....**$10.00**

No. 86663 As a drill only..... **7.00**

The "Planet Jr." No. 3 Hill-Dropping Seeder.

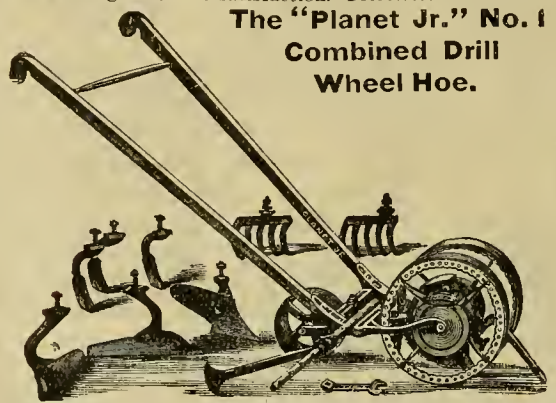


Sows either in Hills or Continuous Row.

No. 86665 **Until recently there was no such thing as a hill-dropping seeder,** modern drills sowing continuously only. The drill will sow in a continuous row, in the ordinary way, with the greatest regularity; **but its distinctive feature is that it will drop neatly in hills,** either 4, 6, 8, 12 or 24 inches apart. It opens the furrow, drops in hills, or drills, covers, rolls down and **marks the next row,** all at one operation. **The hopper holds three quarts.** The wheel is 15 inches high, with a broad face. It is changed in a moment from hill dropping to drill work. **It has a rubber force feed, sows equally well whether the hopper is full or contains only a paper of seed,** and will not injure delicate seeds, such as radish, cabbage, etc., which are so often peeled or crushed by drills having agitators or metal feed wheels. **It is nicely adapted to all conditions of land,** working especially well in fresh ground or when working on a ridge. The plow is adjustable and opens a very narrow furrow, **which is a great advantage for after-cultivation.**

1896 was the first year that this machine was sold widely by the manufacturers of the celebrated line of "Planet Jr." goods, but the machine was bought very largely by careful gardeners and nurserymen during the season and gave entire satisfaction. Price.....**$9.00**

The "Planet Jr." No. 1 Combined Drill Wheel Hoe.

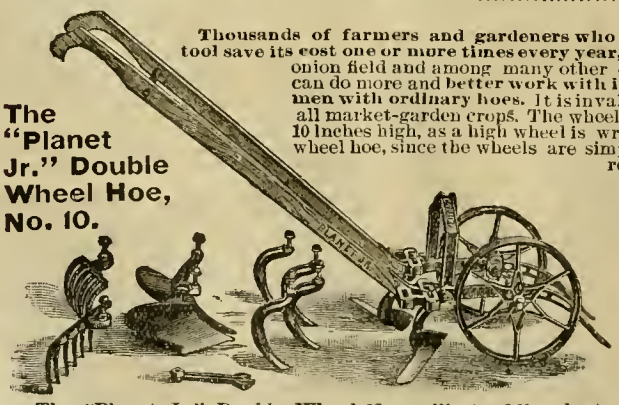


This is the most popular combined tool known, and its friends have been gained by substantial merit alone. It won the highest and only award at the Chicago Exposition. As a seed sower it is identical with the No. 2 "Planet Jr." Drill, except in size, and has all its merits, **its strength, durability, ease of operation, and perfection of work.**

This combined tool has a complete set of cultivating tools, and all its operations are rapid, easy, perfect and delightful. When used as a drill the seed is sown with great regularity and at uniform depth, regulated at pleasure. The hopper holds one quart. The door, when opened, forms a convenient spout for filling with seed. From a drill it is changed to its other uses by **unscrewing but two bolts,** when any of the attachments shown in the cut can be instantly attached. In fact, every purchaser of this machine will find it **an excellent seed sower; a first-class double wheel hoe, for use when plants are small;** a first-class single wheel hoe; **an excellent furrower;** an admirable wheel cultivator; a capital garden rake; **a rapid and efficient wheel garden plow,** and that it is **without an equal in variety of tools, easy adjustment, lightness, strength and beauty.**

No. 86667 Price.....**$8.46**

The "Planet Jr." Double Wheel Hoe, No. 10.



Thousands of farmers and gardeners who own this tool save its cost one or more times every year, for in an onion field and among many other crops one can do more and **better work with it than six men with ordinary hoes.** It is invaluable for all market-garden crops. The wheels are only 10 inches high, as a high wheel is wrong for a wheel hoe, since the wheels are simply depth regulators, not load carriers.

The "Planet Jr." Double Wheel Hoe will straddle plants eighteen inches high, and finish rows from six to eighteen inches apart at one passage. One hoe sets slightly ahead of the other, to prevent dragging out young plants. The new frame permits the changing of attachments without removing the nuts. All the tools shown in the cut go with the machine for the price, and all the blades are steel, hardened in oil and polished. **The wheels are adjustable** to make the work shallow or deep, as required, and to **adapt the machine to all width rows.** The tool is charming in every style and kind of work, the admiration of all who see it in operation, and is the acknowledged standard the world over.

No. 86669 Price.....**$5.50**

No. 86670 **To accommodate those who have little work but hoeing,** we offer the above machine, with hoes only, under the name of **"Planet Jr." Plain Double Wheel Hoe,** at.....**$3.50**

The other parts can be added at any time, and will be found to fit.

The "Planet Jr." No. 15 Single Wheel Hoe, Cultivator, Rake and Plow. Price, Complete, $6.00.

Also furnished with fewer attachments at $5.00 and $4.00

This New Wheel Hoe has the advantage of a High Wheel, Broad Face, of a convenien arrangement of the frame, and a very full set of tools, most of them being of new, special design, such as have been found to perform wheel hoe work in the ver best manner.

The tools are: A well-shaped garden plow, for plowing, marking out, covering late cultivation; a pair of neat shield hoes, just right for hoeing in rows 9 to 12 inches, also a pair for wider work and with the assistance of a cultivator tooth or rake rows up to 16 inches; a set of three rakes, cutting 3½, 7 and 10 inches wide, respectively, just right for 6, 9 and 12-inch rows and two together, for rows up to 16 inches. With two arranged side by side, the rakes are just the thing for preparing the ground for the seed drill. It has also a practical leaf guard for fallen plants, such as peas, and for wide-spreading plants. It raises the leaves, allows perfect cultivation without injury or increased labor.

No. 86671 Complete as illustrated.....$6.00
No. 86672 It is also sold without rakes, one pair of hoes, and leaf guard. Price.....$5.00
No. 86673 Also plain, having only one pair of hoes, three cultivator teeth and leaf lifter. Price.....$4.00

The "Planet Jr." Single Wheel Hoe.

Price as Illustrated, $4.50. With Hoes Only, $2.75.

No. 86675

This Wheel Hoe is considerably lighter than the double, but does almost the same variety of work, being used mostly between the rows, yet it can be used to hoe both sides at once, while plants are small, by placing the wheel a one side o the frame.

The form of the hoes insures a forward slanting cut next to the plant, and consequent close work without danger, and thorough cultivation of the soil. The rakes and cultivator teeth, and the hoes and plow, enable the operator to perform almost every variety of work either in the field or garden. All rows from 6 to 18 inches apart can be hoed at one passage. The frame is quickly raised or lowered to regulate depth, and the wheel has an extra broad face. It is pronounced by practical men without an equal in design and finish, ease of operation, variety of adjustment and perfection of work, and we feel confident that every one who tries this tool will be glad that he did so. Price.....$4.00

No. 86676 To supply a demand for a cheap single-wheel hoe, we offer the above machine plain (with the hoes only) at.....$2.75
The other attachments can be added at any time and will be found to fit.

The "Fire Fly" Single Wheel Hoe, Cultivator and Plow.

No. 86678 This popular tool is exactly the same as the "Planet Jr." Single Wheel Hoe, except that it does not have the rakes or leaf lifter. The attachments are a pair of hoes that can be set to work to or from the row, a set of three reversible cultivator teeth, and a large garden plow. The whole tool is light and strong, and capable of standing hard usage for years.
Price.....$3.25

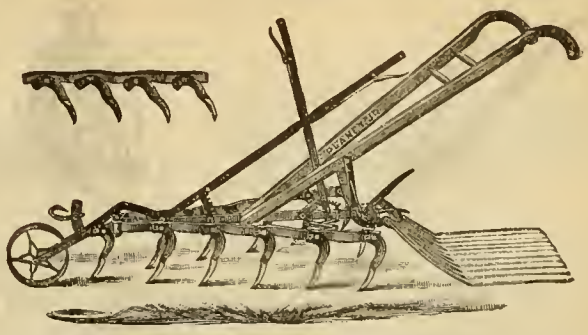
..EVERY IMPLEMENT WE SELL WE GUARANTEE..

We handle nothing but Strictly High-Grade Standard Goods and if you order any implement from us and do not find it exactly as represented you can return it at our expense and we will cheerfully refund your money.

The "Planet Jr." 12-Tooth Strawberry Cultivator and Harrow.



This comparatively new tool has rapidly grown into favor with market gardeners and strawberry growers. It is carefully made and finished, has a high frame and the chisel-shape teeth cut an inch wide each, and may be worn down three inches before that width is lessened or the teeth worn out; even then they are cheaply replaced. It may be set with teeth trailing, by simply changing one bolt in each tooth. The foot lever pulverizer is a capital addition for preparing ground for the seed drill or for plant setting. Hand levers regulate both width and depth while in motion; it contracts to 12 inches, and may be further reduced in width by taking off the outside teeth; it expands to 32 inches. It cultivates deep without throwing earth upon the plants, and the smooth, round-throated teeth turn strawberry runners without injuring them. Price, plain.....$4.90
No. 86680 With wheel.....6.15
No. 86681 Complete.....7.50
No. 86682 For cutting strawberry runners we make a special attachment, consisting of a 10-inch flat steel disc mounted on an outrigger.
Price, extra.....$1.50

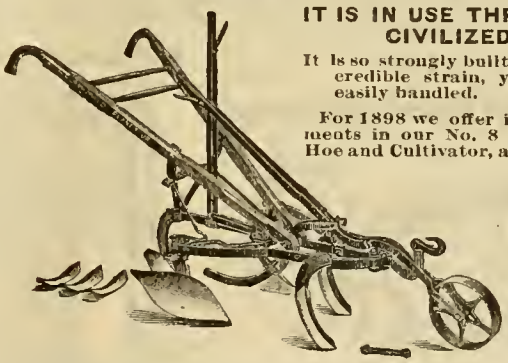
The "Fire-Fly" Wheel Garden Plow.

No. 86684 This tool is invaluable for those who have small gardens. The moldboard is tempered and polished steel. The depth may be changed very quickly. The low price brings it within the reach of all. Very useful to plow up the chicken yards. Price.....$2.00

The "Planet Jr." Grass Edger.

No. 86686 The grand secret of attractiveness in grounds surrounding a house is extreme neatness. The "Planet Jr." Grass Edger assists wonderfully in producing this effect. It will do either straight or curved edging at a speed of a mile an hour. It should be the constant companion of the lawn mower. Strawberry growers will find the Grass Edger, with the hoe removed, a rapid and perfect tool for cutting off surplus runners.
Price.....$5.00

The "Planet Jr." No. 8 Horse Hoe.



IT IS IN USE THROUGHOUT THE CIVILIZED WORLD.

It is so strongly built as to withstand incredible strain, yet it is light and easily handled.

For 1898 we offer important improvements in our No. 8 "Planet Jr." Horse Hoe and Cultivator, as described below:

The Frame is longer than usual and about 1½ inches higher, making a tool that will not clog easily.

The Standards are formed up hollow with round throats of stiff steel; they polish quickly and free themselves readily from obstructions, and they clasp the frame and strengthen it.

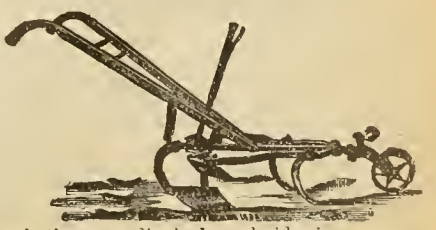
The Depth is under perfect control by means of a new lever wheel and the new patented depth-regulator, which are moved instantly in unison by a single lever, making exact work, steadying the machine and relieving the operator.

The Expander. This is an entirely new pattern, superior to all other forms; exceedingly strong, simple, accurate, and positive in all positions.

Handle and Braces. These are also absolutely new, and the most effective and stiffest combination known, at once making the tool rigid, yet allowing every adjustment of handles in height and sidewise. Every part is perfected to make the tool acceptable to the intelligent farmer, who knows the best is always the cheapest.

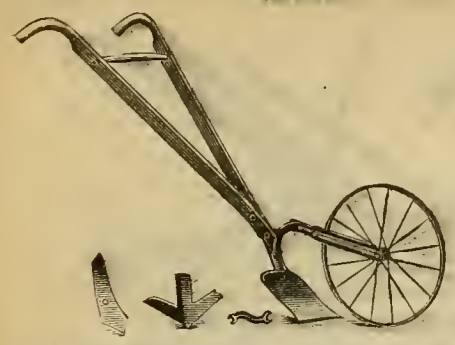
No. 86688 Price.....$7.50
No. 86689 Price, without depth regulator.....7.00

The "Planet Jr." No. 5 Horse Hoe.



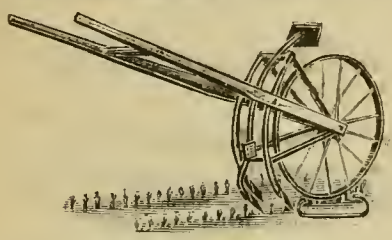
No. 86692 This tool is similar to the No. 8 Horse Hoe, but it has a plain wheel instead of one operated by a convenient lever. It has the same standards and teeth, but is made in other respects like the popular 1895 pattern. It does not have the improved depth regulator and the expander and braces of the No. 8, yet it is strong and serviceable and will give full satisfaction; has an excellent expander, and handles adjustable, both perpendicularly and sidewise.
Price.....$6.25

The Easy Hand Cultivator and Plow Combined.



No. 86693 The Easy is a cultivator and garden plow, combined for working in and around the plants and shrubs in the garden. One of the best made machines for the money on the market. It is unsurpassed. The price brings it within the reach of all. Every farmer and gardener should have one of these cultivators. Wheel is 18 inches high; weight, 17½ lbs. Price, each.....$2.35

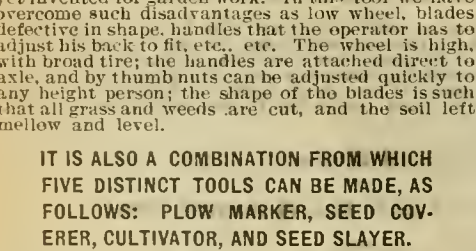
Acme Garden Cultivator.



The Acme is one of the Best Low Priced Cultivators made for $3.85. You get five tools as follows: Cultovator, Hand Hoe, Hand Plow, Seed Cover and Double Shovel Plow. As a cultivator the three regular blades are used. As a hand hoe the center tooth is moved up on the standard, and the two outside teeth taken off, and the hoe put in their stead. As a hand plow, turn the tool over to use the plow, which will be found convenient in working, for planting small or large seeds. As a seed coverer, seed can be covered any depth desired, by raising the center tooth, and using the back two teeth with the wheel in the furrow. As a double shovel plow, to make a double shovel cultivator for working narrow rows, reverse one of the outside standards, this leaves but two teeth which will work in a 7-inch row.

No. 86695 Price, complete..... .....$3.85

The Mystic Hand Garden Cultivator



The Mystic Patent Garden Cultivator is a new tool that embraces more good features than any tool yet invented for garden work. In this tool we have overcome such disadvantages as low wheel, blades defective in shape, handles that the operator has to adjust his back to fit, etc., etc. The wheel is high, with broad tire; the handles are attached direct to axle, and by thumb nuts can be adjusted quickly to any height person; the shape of the blades is such that all grass and weeds are cut, and the soil left mellow and level.

IT IS ALSO A COMBINATION FROM WHICH FIVE DISTINCT TOOLS CAN BE MADE, AS FOLLOWS: PLOW MARKER, SEED COVERER, CULTIVATOR, AND SEED SLAYER.

Blades are warranted to scour in any soil. As a marker, or plow, this adjustment adapts it for making furrows or rows, also for heavy and deep work when the ground has become weedy and hard, with the marker off and center tooth raised, while seed in the row made by the marker is covered with the outside teeth. By this adjustment seed is covered deeper and better than with a drill. With weed slayers attached to the outside standards; by this adjustment the soil can be stirred close to small plants without injury. Warranted not to clog or load. The knives are made of the finest tempered steel.

No. 86696 Price, complete..... .....$4.15

The Little Giant Broadcast Hand Seed Sewer.

No. 86698 With this seeder, when properly used, you can distribute wheat 56 feet to a round, flax seed 36 feet, clover seed 36 feet, timothy 27 feet, oats 36 feet. It will also sow rye, barley, millet, Hungarian corn or any grain or seed that can be sown broadcast. This seeder has a light centrifugal wheel at bottom, 11 inches in diameter, that is revolved rapidly in opposite directions by means of a bow, scattering the seed with great velocity. Weight, 3 lbs. Price, each.....$1.42

Little Giant Hand Seeder.

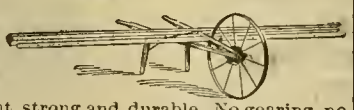
No. 86700 This is one of the best known, as well as best made Hand Seeders in the market. Has a pressed tin distributing wheel, not found in any other sower; will sow timothy, clover, oats, barley, buckwheat, etc., in fact, any kind of seed that can be broadcasted. Will sow 90 acres of wheat or 65 acres of clover seed in a day of 10 hours. Weight, 4 lbs. Price, each..... $1.94

The Granger Seeder.

No. 86702 The Granger Broadcast Hand Seeder, for sowing all kinds of grain and grass seeds, sows on an average of 6 acres per hour at a common walking gait. The bag and hopper will hold about 22 quarts. Weight 5½ lbs. Price..... $2.99

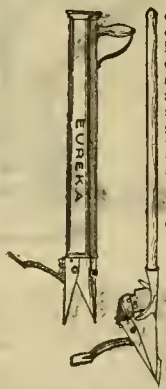
No. 86705 The Improved Cahoon Broadcast Hand Seeder. Weight, 5½ lbs. Retail price, $5.00 Our price, each..... ....$3.00

Our $6.90 Wheelbarrow Grass Seeder.



No. 86707 The best machine ever made to sow clover and timothy. This machine is light, strong and durable. No gearing, no friction; more accurate than a general machine. An all-iron wheel, 30 inches in diameter, with broad rim made like a bicycle rim; always runs true on hollow axle. Weight, 40 lbs. Our price $6.90

Self-Locking Potato Planters.



The "Acme" Self-Locking Handle Potato Planter is, as will be observed by reference to the above illustration, a tool, waist-high, consisting below of a wedge-shaped beak, seven inches long and three and one-half inches square at the top, formed by two steel jars pivoted together at their upper extremity, the rear jaw being riveted to a three-inch galvanized iron tube with a funnel-shaped mouth, such tube having at its upperend, in the rear, a backwardly-extending horizontal handle, with brace. To the front jaw is attached a vertically adjustable malleable iron arm serving at once to gauge the depth of planting and to hold the front jaw immovable as the beak is opened by the throwing forward of the tube. The new or "stud" lock, now used on all of our planters, is a gravity device to keep the jaws firmly locked at all times when the beak is not resting on the ground or buried in the soil, the purpose being to prevent the potato from being permanently dropped, and the jaws from separating before they have been sunk into the earth, the objection to their doing this being that they then enter the ground, not as a wedge, but more like two single blades, the dirt between remaining untouched; and rising in the beak as the latter descends, pushing the potato up, with the result that the "set" is not put in deeply enough, nor wholly in deep soil, being surrounded to a considerable extent by the intruding surface dirt; while that uniformity in depth of planting that is so desirable is destroyed.

Four acres per day can be planted with either of the above planters and done better and cleaner than any other planter on the market.

The only difference between them is that the 90c planter as shown in cut at the right must be raised each time to refill same, while the $1.10 planter as shown in cut on the left can be fed without raising same. The working parts are the same in both.

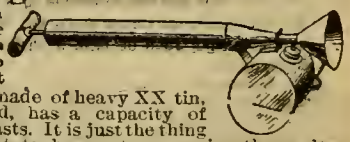
No. 86710 Stick Planter. Each.....$0.90
No. 86711 Tube Planter. Each..... t.05

Sack for Carrying Seed Potatoes.

How it is Used: The seed potatoes should be carried in a sack slung across the shoulder. The "Acme" Patent Seed and Fruit Sack, manufactured by us, is admirably adapted to this purpose, being always out of the way, never swaying, leaving the hands perfectly free, and always remaining wide open, whether full or empty. Assuming that the sack is worn on the left side and the planter carried in the right hand, the method of operation is as follows: Each time a hill is to be planted a potato or piece of potato taken from the sack is dropped into the tube, whence it instantly descends into the beak. The jaws are then sunk into the earth until the gauge, previously adjusted to plant the desired depth, strikes the ground, the necessary pressure being exerted either by the hand carrying the planter, upon the horizontal handle, as in light or mellow soil, or, where the soil is stiff, by the opposite foot, upon the reversible laterally-projecting bar bolted to the rear jaw. Please note that when the planter is carried in the right hand it is the left foot that is used to sink the beak; when in the left hand, the right foot. The tube is then thrown forward, whereupon the jaws separate, and the potato is deposited in the cavity so made.

No. 86712 Price, each.....50c

The Acme Sprayer or "Lightning Bug Exterminator."



Throws a spray as fine as mist, which clings to whatever it touches. Is made of heavy XX tin, heavily plated, has a capacity of about 1,500 blasts. It is just the thing for killing potato bugs, etc., spraying the poultry house to exterminate lice, etc.

For stockmen it is a great boon, being the cheapest, the easiest to handle, and the most effective of any implement for stock spraying. Horses, cattle and swine can be quickly and thoroughly covered by its use to prevent the ravages of Texas flies and other pests.

The Acme Sprayer is the most successful sprayer in the world, and is the only one adapted to such great variety of uses. Full directions sent with each sprayer, how to operate, etc. Length, 23½ inches; weight, 1 pound.

No. 86716 Price, per doz., $6.50; each.....60c

Corn Planter.

No. 86718 Triumph Hand Corn Planter. Is adapted to all sorts of soil, never clogs, and the operator can see the corn deposited in the ground. It is the most durable planter on the market, all working parts being malleable iron and the blades steel. Can be used on sod or plowed ground. Weight, 4½ lbs. Price, each.....73c

No. 86719 Triumph Planter with pumpkin seed attachment. Price, each..... ....$1.00

Bower City Corn Planter.

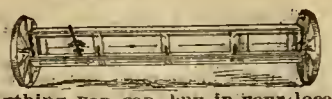
No. 86722 The Bower City Corn Planter is the simplest and best made implement of its class on the market. It has two changes of feed for corn. Is handsomely finished in hardwood, with black metal seed box, cast-iron bottom and dropper plate, and is a perfectly even dropper. Price, each..... 90c

Our $8.50 Niagara Broadcast Seeder.

This is positive force feed end gate seeder. The Niagara combines all the latest improvements in sowers. The machine is attached to an end gate that fits any wagon. Attach sprocket to left hind wheel, put on link chain and go ahead. Save grain and seed by sowing it evenly. The machine throws the seed evenly and sows two acres to every half mile covered by the team. The Niagara has all the good qualities of all other broadcast seeders.

No. 86726 Weight, 120 lbs. Price..... .$7.30

Our $11.70 11-Foot Broadcast Seeder.



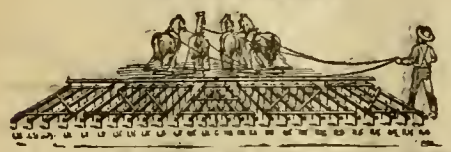
No. 86735 We offer a Broadcast Seeder at $11.70 which is equal to anything you can buy in your local market at $25.00. $11.70 is our regular price when sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight both ways. This is a broadcast seeder made extra wide, 11 feet, to cover a large amount of ground, and is used very generally in the west and northwest, especially in the Dakotas, Minnesota, Kansas and Nebraska. We believe it is the best seeder on the market at anything like the price. Weight, 350 lbs. Price.....$11.70

The New Five-Hoe, One-Box Grain Drill.

No. 86738 The New Five-Hoe, One-Box Grain Drill. Used principally for drilling between corn rows or putting in grain with one horse. Part of the holes can be stopped, which makes it an excellent corn, bean or pea drill also for beets and other coarse seed. Weight, 140 lbs. Price.....$14.00

Fo. 86739 Price with fertilizing attachment.22.00

The $6.59 Harrow.



At $6.59 we will send this harrow to any address by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover transportation charges both ways.

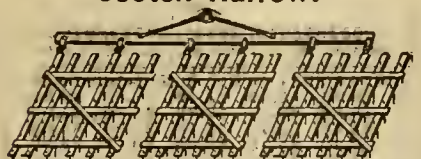
This harrow is made by one of the largest manufacturers and the price quoted is for the harrow delivered on board the cars at the factory, from which point you must pay the freight. This harrow is intended especially for northwest and western trade. For Minnesota, the Dakotas and Iowa there is perhaps no more popular harrow made. This harrow is constructed to accomplish the greatest amount of work in the least possible time, and in such a manner that the farmer can have two or more harrows by purchasing one, the changes being made by adding or taking off the sections as a narrow or wide harrow is wanted. The bars are made 2x2½ inches, eveners 2x4 inches, of the very best seasoned oak. Each bar is insured against splitting by long double clinchers on either side of each tooth. Teeth are ½ inch square, steel with dagger point or square center point. The sections are independent and connected with evener by eye-bolts so as to secure a perfect hitch, allowing the sections flexibility and vibration without permitting the teeth to drag or follow each other. Each tooth cuts its own way. To insure deep cutting and thorough pulverization, dagger teeth are used. The two-horse harrow consists of center section and two next sections adjoining. The three-horse harrow of center section and three sections adjoining. The four-horse harrow consists of all the sections shown. We furnish draw bars to match number of sections ordered.

No. 86745 Two-horse Harrow, 78 teeth, cuts 13 feet; weight, 190 lbs. Price.....$6.59

No. 86746 Three-horse Harrow, 102 teeth, cuts 16½ feet; weight, 240 lbs. Price.....$7.95

No. 86747 Four-horse Harrow, 150 teeth, cuts 26 eet; weight , 360 lbs. Price.....$11.65

Scotch Harrow.



Our Scotch Harrows are made of the best white oak, well riveted—not nailed, teeth mortised in. We use diamond steel teeth ⅝x⅞x8 in. long. Do not confuse this harrow with the cheap, nailed-together harrows now being put on the market. They are well finished and made for use as well as sale.

No. 86755 2 sections, 48 teeth, weight, 160 lbs. Price.....$4.50

No. 86756 2 sections, 60 teeth, weight, 200 lbs. Price.....$5.65

No. 86757 2 sections, 72 teeth, weight, 240 lbs. Price.....$7.15

No. 85758 3 sections, 72 teeth, weight, 250 lbs. Price.....$7.50

No. 86759 3 sections, 90 teeth, weight, 315 lbs. Price.....$9.00

Angle Bar Harrow.

Our Special Prices, $4.65 to $9.15.

WE CAN SAVE YOU 33⅓ PER CENT ON THESE GOODS.

Our Wood Frame Angle Bar Harrows have white oak frame with strips of heavy angle bar iron bolted to frame, which makes a rigid strong frame. With this harrow you can harrow lengthways of sod and the teeth will not track. It also harrows square up on the ends and requires no lap to complete the work. We use diamond cut steel teeth, ⅝x⅝x8 in.

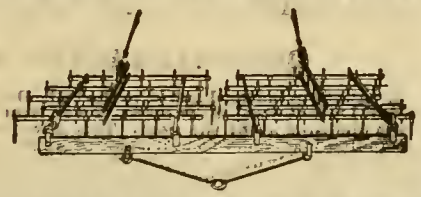
All-Steel "U" Bar Lever Harrow.

Our Special Prices, $7.70 to $13.25.



Our All-Steel "U" Beam Lever Harrows are made of Bessemer steel. Light, strong and durable. The teeth can be raised or lowered to any degree or cut, or taken out for re-sharpening. We use a malleable iron tooth clip for fastening teeth to frame, so there is no danger of teeth becoming loose. Made in 2 or 3 sections. With the 3-horse harrow we furnish our 3-horse accommodation evener. Guaranteed to be the best all-steel Lever Harrow made or money refunded. Steel teeth, ½x8 inches square or dagger point.

Wood Frame Spring Tooth Harrow.

Our Special Prices, $8.75 to $10.25.

This is the best Spring Tooth Harrow of its kind ever sold for the money we ask for it. The frame is made of hard wood, teeth made of the finest spring steel, tempered in oil, firmly bolted to cross bars. The stump guard runs around the harrow outside of teeth, (cut shows it inside) which is a great protection to the teeth. We use our patent tooth attachment on all of these harrows, which is the best on earth. Can never become loose. Made in two sizes; 16 and 18 teeth, and with iron plating on under side the entire length or without.

No. 86790 16 teeth, unlined, with stump guard, each.....$8.75

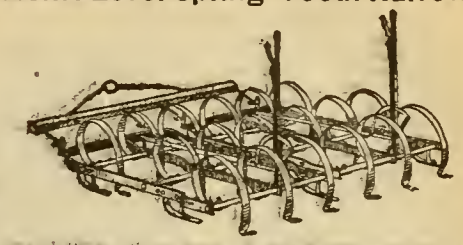
Price, each.....$0.37
Per doz..... 4.25

Acme Lever Spring-Tooth Harrow.

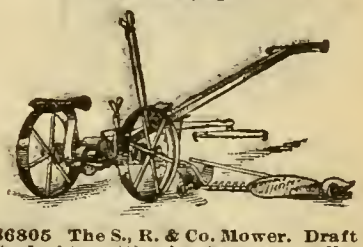


No. 86800 The Acme Lever Harrow combines, in a greater degree than any other harrow ever invented, great strength, with lightness and ease of draught. The frame of the Acme Harrow is made from light, strong I-beam steel, the cross-bars, to which the teeth are attached, being U-bar steel, and firmly attached to the I-beam frame by malleable sockets. These cross-bars are hollow, giving the harrow great resisting power, and, at the same time, insuring very light draught.

The teeth used on the Acme are full 42 inches long, and are attached to the bars with the best clip fastening ever invented. This malleable clip is something which we have just brought out, and with it we obtain a perfect adjustment of the teeth. The teeth of the Acme Harrow are not bolted to the frame, but, by using this clip, a double adjustment is effected; that is, adjustment with the clip and with the lever. Furnished in two sections, with long evener, and two draw-rods to each section, thus avoiding trailing. Our new improved shoe attachment makes the Acme unequaled.

Two sections, 16 teeth, cuts 6 feet. Price...$15.00

Mowers.



No. 86805 The S., R. & Co. Mower. Draft is low and attached to cutting bar to remove all ground pressure. The seat being placed on the rear, balances tongue, thus taking all weight from horses' neck. Cutting bar is in full view of driver. All gears encased, which protects same from dirt, etc. Driving wheels are very high, thus making the machine run easier and steadier. All shafting are of the best rolled steel. Cutting bar runs on wheel, etc. Cut, 4 feet 6 inches. Weight, 540 lbs. Each...$32.50

Our $10.65 Hay Rake.

$10.65 with wooden wheels, $12.20 with steel wheels. The above prices are our prices when to be shipped by freight C. O. D. subject to examination, on receipt of a sufficient deposit to cover transportation charges both ways.

This is a strictly first-class implement, balance dump rake, made with 20 steel teeth of the highest grade of steel, carefully tempered. It has wrought iron wheel spindles and the axle is stiffened by a truss rod, which prevents any sagging. In operative qualities it will meet the requirements of the farmer, being a perfect lock lever which can be operated with great ease, while teeth can not raise except when required to dump. The workmanship is first class. 20 teeth, 4½ inches apart. Weight, 200 lbs.

No. 86806 Price, with wood wheels.....$10.65

No. 86807 Price, with steel wheels..... 12.20

Our $12.55 Acme Hand Dump Rake.

No. 86810 $12.55 for Rake with wood wheels, $13.65 for Rake with steel wheels. This rake possesses a number of excellent features that are not found in any other make. It is built of the very best material and will wear as long as any rake on the market. Its dumping arrangement is so simple and unique that it is practically a self-dump rake. It only needs the slightest movement of the lever to break the lock, which can be done with the foot or hand, and after this is done the operation becomes automatic. The lever is convenient to right hand of the driver, and when the moment for dumping has arrived he has only to take hold of the lever and raise it up, or rather start it up. It requires no power to do this. The throw or sweep of the lever is very short, and the smallest movement upward breaks the lock. The foot or hand may then be removed from the lever and the rake will dump itself.

Price, with wood wheels.....$12.55

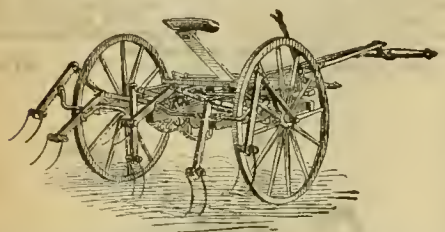
Price, with steel wheels..... 13.65

Our Celebrated Acme Self-Dump Rake for $16.50.

$16.50 is the price for this 20-tooth rake with wood wheels; $17.75 with steel wheels. We believe this is the best self-dump rake on the market. The mechanical device for effecting the dumping is a most ingenious yet simple and effective arrangement, and operated as follows: When the driver wishes to dump he places his foot gently on the chain which is connected to the trip, thereby releasing the pauls, which immediately engage with the teeth of the revolving ratchet wheel on the axle. The rake head is thus connected with the revolving axle and turns with it until the end of the trip lever strikes against the top. The rake teeth are thus raised up, permitting the hay, or whatever the material may be, to drop off. As soon as the teeth have reached the proper height, the trip lever coming against the stop forces it back into its former position, thus withdrawing the pauls and locking them away from the rachet wheels, permitting the rake head to turn on its axles, by which the teeth are restored to their raking position. **The rake can thus be automatically dumped at any time by simply tripping the lever. It may be dumped when either wheel is in motion.** It is a perfect self-dump rake, obviating the usual side draught or jar. The teeth are made of the best steel and are thoroughly tested before leaving the factory. Weight, 200 lbs.

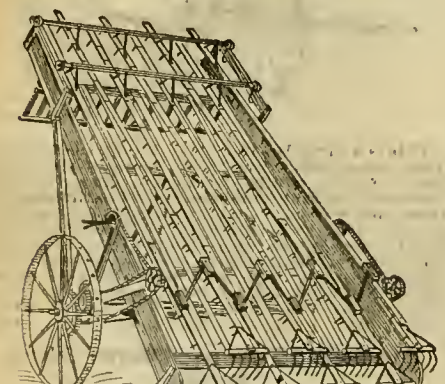
No. 86812 Price, each, wood wheel.....$16.50
No. 86813 Price, each, steel wheel..... 17.50

The Acme Hay Tedder.



No. 86816 We offer at $21.00 the celebrated Acme Hay Tedder. The main frame of this tedder is constructed in the **simplest and most substantial manner, thoroughly bolted together** with angle brackets to prevent racking, and is arranged for either shafts or combination pole and shafts. The tedder forks are made of **the very best quality crucible spring steel on our peculiar pattern,** and the shape and sweep of the fork are just right to do perfect work. The chain drive is effected by means of sprocket wheels connected to the main crank shaft and the use of sprockets and chains dispenses with the cumbersome cog gearing, materially reducing the draught of the tedder. **The shifting device is very simple and located within convenient reach of the operator. The driver's seat is adjustable** and may be secured at any height to suit a small boy or a tall man. The height of the fork is controlled by lever with ratchet stand located within convenient reach of the driver. **You can, by the use of this lever, set the forks to run close to or any distance from the ground.** These tedders are furnished complete with shafts and pole attachments. Weight, 490 lbs. Our special price...$21.00

The Acme Hay Loader for $29.00.



$29.00 is the price when sent by freight C. O. D., subject to examination, upon receipt of sufficient deposit to cover freight both ways. We offer this hay loader with the assurance that its possession will place its owner in the best position for taking care of his hay crop in the most economical manner. **The hay loader,** as illustrated above, we offer to our customers with the assurance that it will in every particular do its work as well, if not better, than any other now in use. **It is offered with the further guarantee that it is constructed of better material, is better made, and more handsomely finished than any other now on the market.** It is intended particularly as a swath loader, but will work very satisfactory in windrows; in fact, where the hay is light it is better to rake it in small windrows first. Weight, 800 lbs.

No. 86819 Our price.....$29.00

The Celebrated Acme Painted and Galvanized Wind-Mills.

At $16.00 to $38.00.

The Acme Steel Mill is the best mill on the market at anything like the price. There are in this mill many points of superiority over any other. The mill is manufactured to do good service. Among the most important are the following: The mill is manufactured to **do good service and last for years,** instead of cheap affairs made only to sell, which blow to pieces in the first storm. **It has a long spring to govern the mill, which governs much more easily and evenly than a short spring, and with less strain.** The tension of this spring can be regulated at will to hold the mill in either light or heavy winds as desired. **We use self-oiling brass oiler on pitman,** carrying three months' supply of oil, which is too expensive to be put on cheaper mills made to sell at a less price. **We have a positive brake,** which effectually prevents the mill from turning when thrown out of gear. We use ten to twenty pounds more steel in the wheel alone than is used in any other mill; also ten to fifteen pounds more in the vane, making it light and strong. **The wheel of this mill makes 2½ revolutions to one stroke of the pump.** When thrown in gear it will head to the wind instantly. When thrown out of gear it instantly turns edgeways to the wind and remains perfectly still. **Every mill is guaranteed,** and can be used either on angle tower or wood tower. **When ordering, be sure to state what kind of tower mill is wanted to be used on.**

The prices quoted are for the mills delivered on board the cars at our factory. We will accept any orders on receipt of deposit to cover transportation both ways. Examine the mill at your freight depot, and if exactly as represented, pay the agent our price, less the amount sent with order.

Prices include Wheel, Vane, Head, Pull-out Chain and Wire and 32-foot Pump Rod.

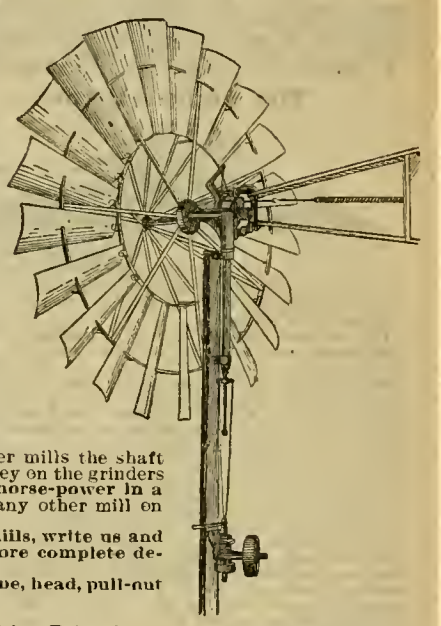
OUR CELEBRATED ACME POWER WIND-MILL.



It pays to grind feed and save the toll. Our latest improved, 13-foot steel, galvanized, power wind-mill, with covers inclosing all of the gear. This power mill is used for running machinery as well as for pumping water. It is something entirely different from any other power wind-mill produced today; it has every advantage possessed by any first-class wind-mill, and, besides this, the gears are fully protected from storms and sleet in every particular. **We use an adjustable brass box at upper end of vertical shaft to adjust pinion to bevel gear, which is a grand feature in a power wind-mill, although much more expensive to make than the ordinary boxing. This mill will do all the grinding, shelling** and such work on any ordinary farm with perfect satisfaction; it is strongly made and the gear will not quickly cut out, and will need no repairs in any reasonable time. In putting this mill on a building or in any location, be sure to get it above any obstructions. **Use a steel tower on a building when possible and have it of good height.** The prices quoted are for the mills delivered on board cars at our factory. **You will find the freight will be next to nothing as compared with what you will save in price.** In the illustration herewith we show the mill, also the gearing and manner in which it is attached to the grinder. **We will be pleased to furnish further information** regarding our power mills on application. We are in a position to save you at least 25 per cent. on anything in the line of power mills, and shall be pleased to quote you anything special you may desire. On our power mills the shaft makes 5 revolutions to 1 revolution of the wheel. The pulley on the grinders is 14 inches in diameter. **These mills will show 4 to 8 horse-power in a 40-mile-an-hour wind,** which is more horse-power than any other mill on the market.

If you want more complete information about our mills, write us and we will send specially illustrated pamphlet, giving a more complete description.

No. 86833 Mill. Prices given below include wheel, vane, head, pull-out chain and wire and 5 feet of vertical shafting.

16 feet.	1605 pounds.	84.00	89.50

Four-Post Angle Steel Towers.

(Special Prices on Wind-Mill Towers.)

Our steel towers will be found to contain more steel, and hence have greater strength than any other towers on the market. The corner posts are made of the best quality of angle steel, with round corners where the two legs of the angle meet on the inner side, thus increasing the strength of the tower. They are strongly braced with angle steel cross girts, running from corner post to corner post on every side, also by cross-rods running diagonally across each side of the tower. Each pair of these cross-rod braces can be tightened, independent of the others, so that the tower may be kept straight at all times. The anchor posts that we furnish with these towers are made of heavy angle steel, and at the bottom are riveted to anchor plates, so that they can be properly secured to the foundation.

Towers for Power Mills are provided with supports for boxes for the vertical shafting, being made so as to attach the timbers for foot gear, pumping jack or feed grinders.

We use the best Ladders to be found on any tower. They are made of steel and extend from the lower cross girts to platform at top.

Every tower we can put up will be a lasting advertisement for us, and we will take the greatest pains to send you such an outfit as was never before seen in your locality.

OUR TERMS:—On all wood and steel towers, one-half cash must accompany order, balance C. O. D., subject to examination. If after examination you are not satisfied with the quality, and do not find it fully up to our representation, you are at liberty to return tower to us and we will return the money.

We furnish the tower in the following heights:

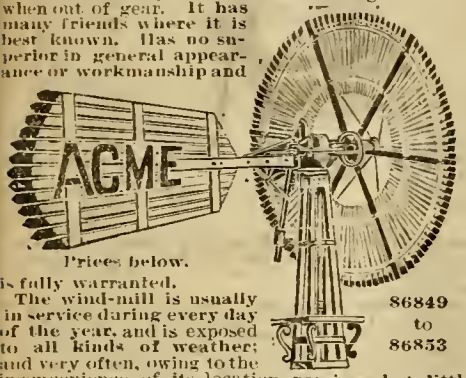
Acme Wood-Wheel Wind-Mill.

Why You Should Buy the Acme.

It is made of the very best material possible to be obtained, and put together in such a manner as to combine both strength and durability. Because it has stood the test for twenty years, and thousands of them, without a cent for repairs. All the gearing and working parts are enclosed. It is automatic in all movements. It has an adjustable brake to keep the wheel from turning or running when out of gear. It has many friends where it is best known. Has no superior in general appearance or workmanship and



Prices below.

is fully warranted.

86849 to 86853

The wind-mill is usually in service during every day of the year, and is exposed to all kinds of weather; and very often, owing to the inconvenience of its location, receives but little attention. It therefore follows that a mill which is constructed of poor material and in an unsubstantial manner, will prove a failure in a very short time, and the owner learns by sad experience that it pays to purchase a good article. A reliable mill, at a fair price, is what the purchaser wants. A mill sold cheap must necessarily be made cheap; whereas a mill sold at a reasonable, living price, enables the manufacturer to turn out good work. We advise all not to buy in haste. Inspect the goods to your own satisfaction. Satisfy yourselves as to the responsibility of the firm of whom you buy. Men that are "out in" when wanted are to be avoided. Firms that migrate over the country are to be shunned. You never know where to find them. All of the Acme Mills are made in our own shops, under our own supervision, and are not let out by contract "to the lowest bidder," regardless of quality.

We manufacture a mill to do good service and last for years, instead of cheap affairs, made only to sell, which blow to pieces in the first storm. We use a long spring to govern the mill, which governs it more easily and evenly than a short spring with less strain. The tension of this spring can be regulated at will, to hold the mill in either light or heavy winds, as desired. Will regulate and govern itself in any wind that blows, consequently requires no attention from any source. Put it up in proper shape and leave it alone. It will do the work and take care of itself. The gearing is fully covered, making it proof against sleet, ice or dust. We use self-oiling brass oiler on pitman, carrying three months' supply of oil, which is too expensive to put on cheap mills, made to sell at the lowest price. We have a positive brake, which effectually prevents the mill from running when thrown out of gear. The wheel of this mill makes 3 revolutions to one of the pump, as required; length of stroke, 4, 5½ and 7 inches. When thrown in gear it will head to the wind instantly and when thrown out of gear it instantly turns edgeways to the wind and remains perfectly still. Every mill is guaranteed. Can be used either on our patent tubular steel tower, angle steel tower or wood tower. The above applies to all our Acme mills and if not found just as represented in every particular, can be returned and money will be refunded. We will furnish free on board of cars at our factory, any part of mill or gear which fails in any way within twelve months from the date of sale, unless destroyed by a tornado or other causes not the fault of the manufacturer.

Prices for wind-mill includes all bolts for putting mill together and bolting it to tower; also pitman rod to attach mill to pump. In ordering, state whether mill is to be erected on wood or steel tower.

We furnish printed instructions for the erection, by means of which anyone can put it up. These instructions are very complete, giving full description of the work from beginning to end. The mill is so simple that no one could possibly have any trouble in putting it in working order.

This is the best mill made for a simple pumping mill, or to grind feed by means of a shaft or power connected to pumping rod.

Material For Wood Towers.

No. 86854 Material for Wood Towers, 80 feet high. Seasoned pine. The 1x6 is planed on both sides, the 4x4 on four sides. To each purchaser who wishes to erect the wind-mill himself we furnish printed instructions. Material for 30-foot tower with round 2-inch upper platform, $12.32. With square upper platform.....$11.66

No. 86855 Material for Tower 34 feet high.
8 pieces, 4x4-18 feet long } With 2-inch round platform.....$13.20

4 pieces, 4x4-16 feet long }

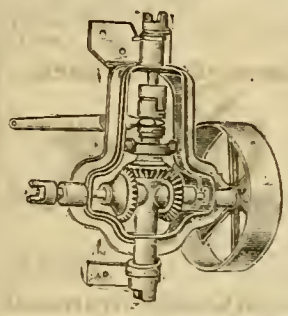
No. 86857 Material for Tower over 40 feet high. Add to cost of 40-foot tower 36 cents for each additional foot. With each tower we furnish bolts and nails and upper platform and brackets.

No. 86858 Platform and brackets when furnished separate from other tower material: Round, made of 2-inch pine with band of iron around same.....$2.95

No. 86859 Square platform, made of 1-inch pine.....$2.38

Foot Gear for Our Acme Power-Mill.

$10.75 for a Regular $18.00 Machine.

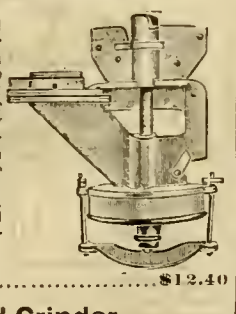


Our Acme Foot Gear with pulley and clutches; can be placed anywhere on the mast. The vertical shafting extends down through the foot gear frame so as to drive a grinder or other machinery below. This is an advantage you will not find on any other gear. In ordering, state whether horizontal shafting is to run one or two ways.

No. 86861 Price, each.....$10.75

Feed Grinder.

$12.40 for a Regular $20.00 Machine.

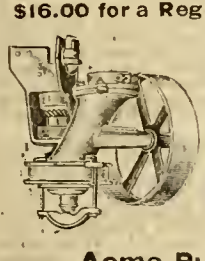


No. 86862 Acme Feed Grinder, without foot gear and pulleys. The gear can be easily disengaged so as to stop the pump without stopping the grinder, or the grinder can be readily disengaged without stopping the pump, or both pump and grinder may be thrown out of work without stopping other machinery. This grinder is to be used in connection with our 13-foot Acme Power-Mill.

Price, complete as shown in cut.....$12.40

Acme Feed Grinder.

$16.00 for a Regular $25.00 Machine.

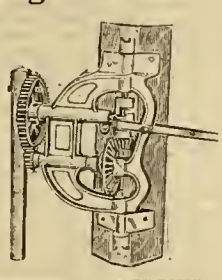


No. 86863 Acme Feed Grinder, with foot-gear and pulley. A belt can be run from pulley so as to run two or more machines at once. Grinder can be disconnected when not in use and pulley used only. This grinder is to be used in connection with our 13-ft. power mill.

Price, complete.....$16.00

Acme Pumping Jack.

$10.75 for a Regular $18.00 Machine.

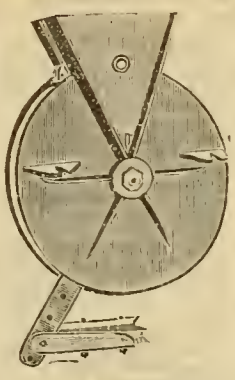


No. 86864 Our Acme Combination Jack can be used in connection with pumping or power mill; unless jack is directly over well it will be necessary to use quadrants, triangles or rock shaft in connection with jack.

Price, each.....$10.75

EVERY KIND OF DESIRABLE WIRE FENCING AT PRICES THAT ARE RIGHT AND REPRESENT ACTUAL VALUE.

Boss Wind-Mill Grinder.

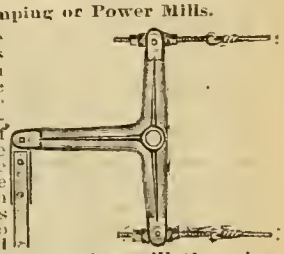


No. 86868 Our Boss Wind-Mill Grinder can be used in connection with any pumping mill, no matter what size or make. Will grind any kind of grain separate or mixed. The grinder consists of a double metal case and 3 burrs and remaining stationary while the third revolves in the center, producing a double grinding surface which is double the capacity of any grinder made. We furnish this grinder with an elbow to attach same to conoect to pump rod. It can be changed from grinding coarse to fine by turning one nut.

Price, complete...$9.45

Quadrants.

For Either Pumping or Power Mills.

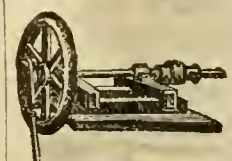


No. 86870 Our Acme Quadrant or Levers are used in connection with mill where same is placed at a distance from pump. We furnish two levers, one of which we show in the cut. These levers are alike in form and are connected with each other by two wires which run from one to the other. When used in connection with a pumping mill the wires should be crossed; this will give a lift on the pump with the up stroke of the mill. Price includes two levers and take-up bolts, pump-pole connections and the pivot plates and bolts.

Price, per set.....$3.10
Price, per 100 feet wire for above..... .43

Pumping Jacks.

For Operating Wind-Mill Pump.

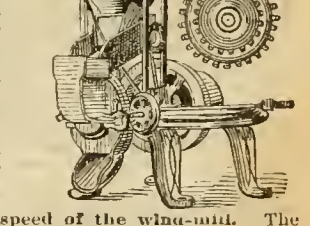


In times of light wind or calms; can be connected to any horse-power; stroke 4 to 16 inches; balance wheel, 300 lbs.; complete jack, weight, 600 lbs.

No. 86873 Price.$14.50

The Celebrated Acme Wind-Mill Grinders for $18.00.

WE INVITE A CAREFUL COMPARISON of our prices with those charged by retailers, quality at all times being considered. Remember that our mills are made by manufacturers whose reputation is a guarantee of best goods possible to produce.

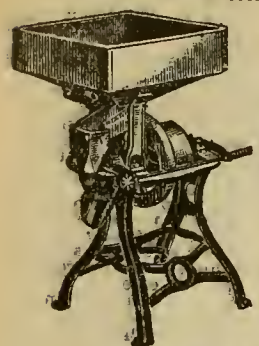


The illustration shows this mill with the pulley attachment, and the smaller illustration shows the sprocket wheel attachment. The sprocket grinder was gotten up especially for chain wind-mills and is adapted to 12 to 14-feet geared wheels. It is furnished with a double sprocket wheel by which the speed of the mill can be changed to correspond with the speed of the wind-mill. The sprocket wheels are 6 and 10 inches in diameter, fitted with link chain and belting. We can also furnish the link belting and driving sprocket with spring clutch complete for line shaft on wind-mill, which taken together makes a complete outfit at a very reasonable price. Capacity 8 to 15 bushels per hour according to the velocity of the wind and size of wheel used. In ordering this kind of a mill be sure to give the diameter of the line shaft if driving sprocket and spring clutch are wanted.

The pulley grinder is similar in all respects to the sprocket grinder, as described above, only it is furnished with a 6 or 9-inch pulley with a 6-inch face. Both of these mills have adjustable slots in the standard or legs, whereby the belt or chain can be tightened without being taken off, which is a great advantage. Both these mills are shipped with right-hand burrs, unless otherwise ordered.

No. 86876 Price, with 3 sets 6-inch burrs..$14.00
No. 86877 Price of 6-inch burrs, per set... 1.00
No. 86878 Price of 20 feet of link chain belting..... 5.00
No. 87879 Price for 6 and 10-inch double-driving sprocket with sprlng clutch complete, with line shaft for wind-mill..... 3.00

Big Giant Improved Grinding Mills.



A mill with the greatest capacity and most even grinding of all kinds of grain ever offered to the farmer. Automatic in feeding, simple in construction, scientific in principle, looked upon by feeders as the gem of all grinders; requires from 2 to 10 horse-power, according to size and speed.

No. 86880 The No. 1 Size Belt Mill, 6-inch burrs; capacity, 10 to 35 bushels per hour. Weight, 175 lbs.
Price of mill....$18.90
Extra burrs, set, 1.00

No. 86881 The No. 2 Size, 6-inch burrs, geared for attachment to tumbling rod; capacity, 10 to 35 bushels per hour; weight, 225 lbs. Price of mill.....$20.40
Extra burrs, per set..... 1.00

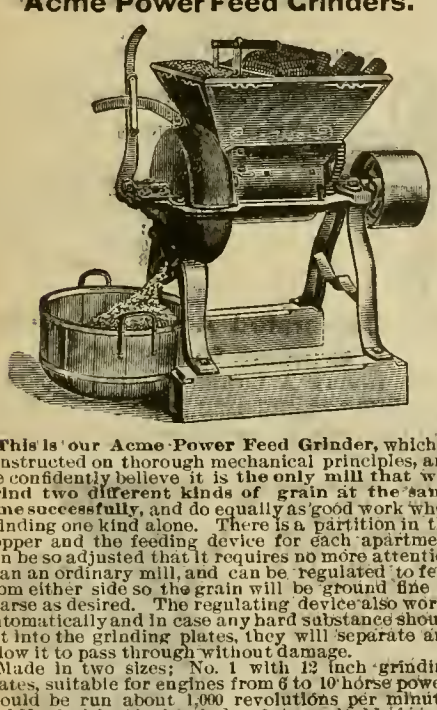
No. 86882 The No. 3 size Belt Mill, 8-inch burrs; weight, 250 lbs.; capacity, 20 to 30 bushels per hour. Price of mill.....$26.95
Extra burrs, per set..... 1.25

No. 86883 The No. 4 size, gear for attaching to tumbling rod; 8-inch burrs; capacity, 20 to 30 bushels per hour; weight, 275 lbs.
Price of mill, $29.90; extra burrs, per set..$1.25

No. 86884 No. 5 Double Mill, has just double the capacity of No. 3 belt mill; 2 sets of 8-inch burrs in operation at one time, one an each end of shaft; weight, 400 lbs. Price of mill.....$41.40
Extra burrs, per set..... 1.25

Nos. 2 and 4 have 12-inch pully to connect with corn sheller; 3 sets burrs furnished with each of above mills.

Acme Power Feed Grinders.



This is our Acme Power Feed Grinder, which is constructed on thorough mechanical principles, and we confidently believe it is the only mill that will grind two different kinds of grain at the same time successfully, and do equally as good work when grinding one kind alone. There is a partition in the hopper and the feeding device for each apartment can be so adjusted that it requires no more attention than an ordinary mill, and can be regulated to feed from either side so the grain will be ground fine or coarse as desired. The regulating device also works automatically and in case any hard substance should get into the grinding plates, they will separate and allow it to pass through without damage.

Made in two sizes; No. 1 with 12 inch grinding plates, suitable for engines from 6 to 10 horse power, should be run about 1,000 revolutions per minute, and No. 2 with 14 inch grinder plates, suitable for engines from 10 to 16 H. P., should be run about 900 revolutions per minute. Two sets grinding plates with each mill.

Capacity: No. 1, 20 to 40 bushels per hour; No. 2, 30 to 50 bushels per hour. The capacity and successful operation of the mill varies according to the condition of the grain. The grain should be dry and hard.

No. 86886 No. 1—12 inch grinding plates, weight 390 pounds, price.....$33.00

No. 86887 No. 2—14 inch grinding plates, weight 440 pounds. Price.....$36.00

Can furnish pulleys 8 to 14 inches in diameter, but always send 10 inch unless otherwise ordered.

REMEMBER . . .

WE HAVE A . . . . .
FULLY EQUIPPED

VETERINARY DEPARTMENT.

Do not wait until cattle or horses are sick and then send for a veterinary surgeon. Keep a supply of necessary MEDICINES and instruments and save expense and loss.

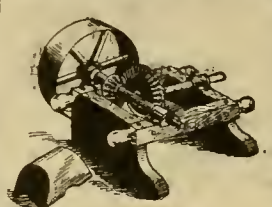
Speeding Jacks.

No. 86903 Bevel Jacks, used only in connection with a horse-power to increase the speed. Is connected to end of tumbling rod and transmits motion in the same direction. Furnished with 15-inch pulley, made in one size, for 2 or 4 horse-power only; weight, 100 lbs. Price, $9.00

Spur Jack.

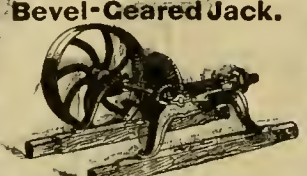
No. 86905 Spur Jack; transmits motion at right angles to the tumbling rod, to which it is attached, for 2 or 4 horse-power only; weight, 100 lbs.
Price, with 10 in. pulley $7.25
Price, with 18 in. pulley 8.45
Price, with 28 in. pulley 9.70

Bevel Jack.



No. 86907 Bevel Speeding Jack; 20 cogs in pinion; speed, 3 to 1; transmits motion by belt in same direction that tumbling rod extends from power; this jack is strong enough for 2 or 4 horse-power; is furnished with pulley, 15 inches in diameter and 5 inch face; weight, 150 lbs. Price, each.....$9.15

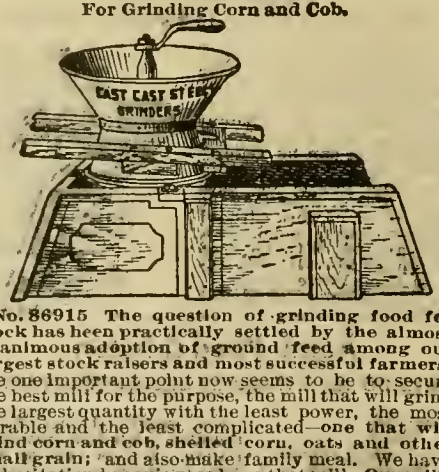
Iron Frame Bevel-Geared Jack.



No. 86909 This Jack is intended for any 4 or 6 horse-power. Is made extra strong; can furnish either 16, 18 or 24-in. pulleys as desired. Furnished with slip knuckle, complete, ready to receive tumbling rod. Weight, 185 lbs. Price, each.....$11.50

Genuine Monarch Latest Improved Feed Mills.

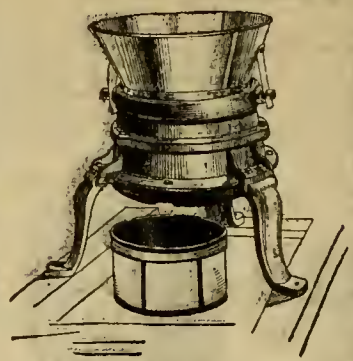
For Grinding Corn and Cob.



No. 86915 The question of grinding food for stock has been practically settled by the almost unanimous adoption of ground feed among our largest stock raisers and most successful farmers; the one important point now seems to be to secure the best mill for the purpose, the mill that will grind the largest quantity with the least power, the most durable and the least complicated—one that will grind corn and cob, shelled corn, oats and other small grain; and also make family meal. We have no hesitation in saying we have that mill. Our mills have met with a success far exceeding our most sanguine expectations.

There are many mills in this country, each claiming some peculiar advantage. It is not our purpose to discuss these claims further than to point out wherein ours are different, and leave the purchaser to decide. In making iron mills for grinding grain there are some essential points, and the first is, the grinding teeth should be very hard. The second is, that all parts should be strong. These two qualities are not usually found together in cast iron, therefore the usual course is to make grinding surfaces somewhat harder than ordinary castings, but not so hard as to destroy all strength. This must be at the disadvantage of the grinding parts, and in the effort to produce this medium quality too often the parts are either too hard to give strength, and then breakages occur, or too soft to give any lasting service. This statement is true of all mills that are made in the foundries for general work. As we make this quality of metal every day, we are in position to make the grinding parts of our mills of a special mixture of the hardest possible quality, and at the same time insure them against breakage, thus securing long life to the grinding edges and immunity from the annoyance of breakage. Grinders made of this metal will outlast three sets of burrs made in the regular way practiced in the majority of factories. Our claims are that we furnish mills with grinding surface much more durable than any other manufacturer, and that our mills are less liable to breakage, insuring longer life and less annoyance. Grinding capacity 6 to 10 bushels per hour. Weight, 435 lbs.
Price, each.....$15.65

Our New Improved Acme Sweep Grinder for $17.00.



This is one of the best grinders on the market. Grinds ear corn, new or dry, shelled corn alone or mixed with other grain for chopped feed, oats, etc., and is so arranged that the interior parts of the mill revolve with the revolutions of the team. The power is applied directly to the grinding parts, thereby making the draught very light; has center delivery so that the feed is not scattered all over the box; will run into a measure or box without spilling.

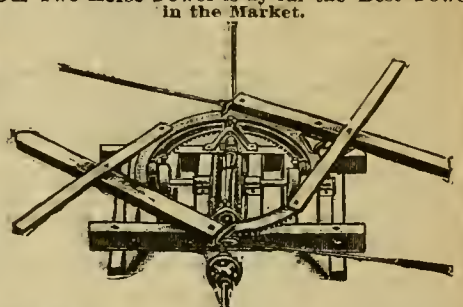
Our grinder rings, or burrs, have a peculiar dress by means of which the broken pieces of cob and hull grains are gradually reduced to the fineness desired, so that we produce a better quality of feed with less work to the team. This mill will grind 10 to 15 bushels of shelled corn per hour; corn on ear, 6 to 10 bushels per hour; is warranted not to choke on new or old corn, wet or dry. A perfect sweep mill of large capacity. Weight, 475 lbs.

No. 86917 Price of mill complete, with one set of plates.....$17.00

No. 86918 Extra grinders, additional..... 2.50

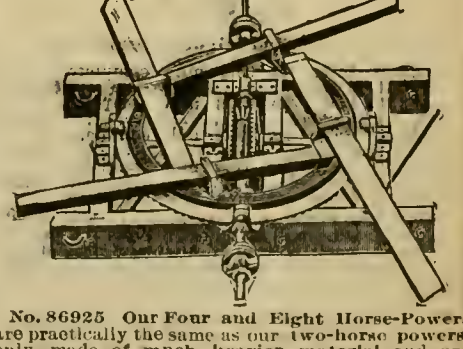
Acme Two-Horse Power.

Our Two-Horse Power is by far the Best Power in the Market.



No. 86922 Experience teaches all users that strength and simplicity are absolutely necessary. We offer the strongest, simplest and lightest running power built; every ounce of draught is applied directly to the tumbling rod. There being absolutely no loss by cramp in any direction, having no center bearings; all shafts are steel and all boxes babbited. Traverse rollers hold the master wheel in place of slides. Each power has a right and left motion; coupling on one side the tumbling rod turns towards the horses, and on the other side with the horses. They are from new plans and patterns and have been fully tested in all parts of the country in all kinds of work. We offer not only the best powers but the best powers made and will so guarantee. Each power is furnished complete with sweeps, sweep rods, two tumbling rods, three couplings, rod block, platform and a coil spring draught hitch for each sweep. The four-horse power is furnished either with two sweeps and two lead poles for two teams or with four sweeps for four single horses. Weight, 750 lbs.; speed, 32 revolutions to one round of the horses.
Price, each.....$21.00

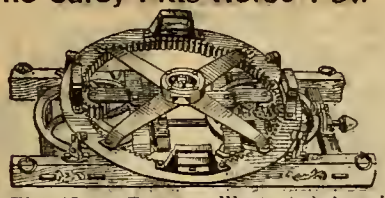
Acme Four and Eight Horse-Power.



No. 86925 Our Four and Eight Horse-Powers are practically the same as our two-horse powers, only made of much heavier material and are stronger in every way. They are furnished complete, as described above. Weight of two horse-power, 1,100 lbs.; eight horse-power, 1,400 lbs. Four horse-power, complete with 2 sweepers for 2 teams, speeded to 50 revolutions per minute.....$29.35

No. 86927 Eight horse-power, complete, speeded to 65 revolutions per minute.....$48.00

The Carey Pitts Horse-Pow



The Pitts Horse-Power as illustrated above is too well known to require much comment from us. It is made from the best quality air-seasoned white ash, charcoal iron gears, the frame is of steel and the gear is heavier than in any other power of the same horse-power made. The weight is so distributed as to give the greatest possible strength. **This power is especially adapted for farm work,** such as wood sawing, cider making, etc. The diameter of the main gear wheel is 4 feet. Measurement across power from one end of sweep to end of opposite sweep, 24 feet. Number of revolutions, 50 to one turn of the wheels. Two sweeps, one 16-foot tumbling rod and a 24-inch pulley go with each power.

Please remember that this power weighs only 1,150 lbs., hence we do not recommend it for the work of a 6 or 8 horse-power which should weigh from 1,500 to 2,000 lbs.

No. 86930 Price..... **$40.90**

We can furnish horse-powers of any size and will be glad to quote special prices on special sizes upon application.

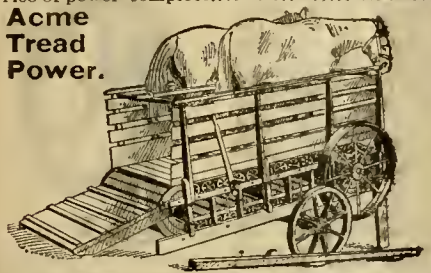
Our Overhead One Horse-Power.

No. 86933 $18.00 is the price when sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways.

This power has many advantages over a down power for light work. For use in a barn where several horses are kept or in small livery stables, it is excellently adapted. When not in use the center shaft can be set one side. When it is desired to run, set the shaft in place, hitch the horse to the power and go ahead. **No jack is required with this power.** Length of sweep levers is 8 feet. The horse makes, therefore, a circle of 16 feet. The upright shaft is wood and can be cut off to suit the height from floor to ceiling. The height of stake, as furnished, is 10 feet. This power makes about 125 revolutions per minute. **Unlike any other sweep power,** the tumbling rod is overhead and the gear out of the way of snow in winter and mud and dust in summer. Weight, 400 lbs.

Price of power complete..... **$16.75**

Acme Tread Power.



Level or even tread. New patterns and up-to-date in all respects. Three sizes, one, two and three-horse. These powers are roomy, built in the **best possible manner,** of the best materials obtainable, and in a style corresponding with other lines turned out at these works. The shafts and rods are all cold rolled steel. The treads are of best seasoned maple. **The rollers are large.** There is not a cog on any link in either style or size of these powers. We carry the treads around the front end on a reel. This plan **avoids a great loss of power** in the reversing of the motion or turn of the rollers in changing from the lower to upper track. **This adds to the life of the power,** and we earnestly request you to consider and **investigate this point;** besides, we save by actual demonstration ten per cent. and over of power by this plan. **We double gear** from the reel shaft to the drive shaft. The governor regulates the speed as perfectly as the governor on a steam engine. **We will guarantee as strong, well built powers as any other make,** and weight of teams and ineline being equal, to develop as much or more power. Size of band wheel 4 ft. with 6 in face, traveler wheels 7 in. Our hand brake, which **works from either side,** is not applied to the band wheel. You can therefore belt out in front or back, and the band wheel can be shifted to either side of the power. **The motion is right for feed grinders, fodder cutters and shredders,** wood saws and such other machines as such powers are commonly used for.

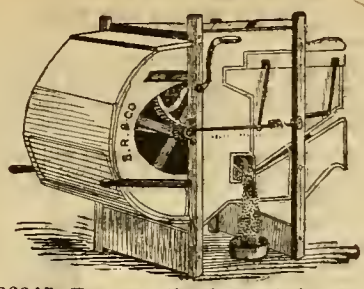
No. 86936 One-horse double gear with speed regulator. Weight, 1500 lbs..... **$69.00**

No. 86937 Two-horse double gear with speed regulator. Weight, 2000 lbs..... **$94.50**

No. 86938 Three-horse double gear with speed regulator. Weight, 3600 lbs..... **$107.00**

No. 86939 One-horse not geared and without speed regulator..... **$57.00**

Ajax Fanning Mills.



No. 86945 To meet the demand for a cheap Fanning Mill, that is, one for little money, which some houses seem to think the public is looking for, we have **placed a contract for 1,000 Ajax Mills** which we are able to offer our customers at a price **lower than a mill of this size was ever sold before.** It is not our aim to sell cheap, poorly made machinery, and in offering you this **bargain** we must ask you to **be your own judge** as to its worth. It is made on the same lines as our $11.90 Fanning Mill, but of cheaper material and is not quite as large. It will compare favorably, however, with any $10.00 mill sold by other houses. The frame is made of **hardwood,** body of **poplar,** is painted and varnished. Furnished complete with 1 wheat hurdle, 1 wheat screen and grader with side-spout, 1 barley sieve, and one oats and corn sieve. **The only guarantee we give is that it is as good as any $10.00 mill on the market,** but cannot recommend it further, shipped knocked down, which saves one-half the freight charges. Price, each, complete..... **$9.50**

$11.90 for an Acme Fanning Mill.

$11.90 is our regular price when shipped by freight, C. O. D., subject to examination, upon receipt of a sufficient deposit to cover freight charges both ways.

Their largely increased capacity over other mills in cleaning all kinds of grain and seeds. **The improved plan** of hanging the shoe upon strong strap hinged hangers, thus preventing constant breakage. **The manner in which the drum or head is fastened to the posts** by means of a cast-iron half circle, and secured to the posts by screws (instead of cleats mortised into posts and held by wooden keys), adding **increased strength and durability** to the mill, and rendering it less liable to break when shipped in **"knock down"** shape. **The great advantage of a screw** to raise or lower the slide of the hopper with ease, in regulating the feed.

The irons are of the most approved pattern, the wheel, pinion and shake irons being extra strong. The gearing is all placed on the inside of the mill, out of the way. The bearing is formed by the hub of the large wheel running in a thimble or box, three inches long, of **chilled iron,** and extending through the posts, giving it a steady and easy motion.

For cleaning and separating all kinds of grain, we guarantee our mill to be equal to, and, in fact, superior in all respects, to any other now in use. The fan and wind boards are so arranged that the wind strikes the hurdle in such a manner as to blow all foul stuff and light grain over the hurdle. The side spout delivers the No. 1 grain at the side, and the No. 2 grain at the front of the mill. The grader can be so adjusted as to separate and deliver through the side spout a greater or less portion of the best grain. The wheat screens and grader are so arranged as to effectually take out cockle, chess or cheat from No. 1 and 2 wheat.

We ship all mills knocked down so as to secure the lowest freight rate possible, and you will find the freight will amount to next to nothing as compared with what we can save you in price. We furnish this mill with one wire wheat hurdle, wheat screen and grader, corn and oat sieve and barley sieve.

No. 86948 No. 1 Farm Mill, weight, 120 lbs.; sieves, 24 inches wide; capacity, 60 to 90 bushels per hour. Price..... **$11.90**

No. 86949 No. 2 Farm Mill, weight, 125 lbs.; sieves, 30 inches wide; capacity, 100 to 125 bushels per hour. Price..... **$15.85**

No. 86950 No. 2 Warehouse Mill, weight, 175 lbs.; sieves, 40 inches wide; capacity, 200 to 300 bushels per hour. Price..... **$34.00**

No. 86951 No. 3 Warehouse Mill, weight, 200 lbs.; sieves, 48 inches wide; capacity, 300 to 400 bushels per hour. Price..... **$43.50**

We can furnish these mills with any special attachment when desired.

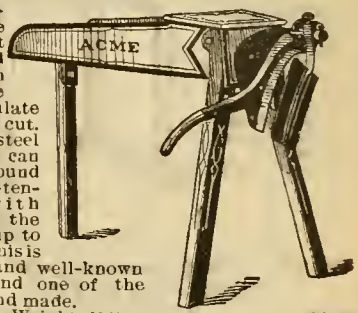
Extra Attachments for Our Acme Fanning Mill.

No. 86955	**Extra Sieves or Screens.** Each...	**$1.00**
No. 86956	**Extra Boards.** Price, each.....	**.25**
No. 86957	**Extra Bliods.** Price, each.....	**.25**
No. 86958	**Extra Flax Attachment.** Per set	**4.00**
No. 86959	**Extra Timothy Attachment.** Per set.....	**4.00**
No. 86960	**Extra Clover Attachment.** Per set.....	**4.00**
No. 86961	**Spout and Grader.** Per set.....	**2.00**

An extra sieve is required for each kind of seed. Thus, for timothy alone you would need 1 sieve, **$1.00;** 1 board, 25c, and blinds, 25c, or **$1.50** for all. If you wish both timothy and clover the cost would be **$2.50** or **$1.00** extra for the extra sieve. If you wish to clean flax, timothy or clover for the market, order the **$4.00** attachment, which consists of hurdle, screen, chess board and blinds.

Our Acme Lever Cutter for $2.60.

Our trade the last year on these cutters was enormous, so large in fact that we were indnced to arrange for a large number for the coming season, and while the Acme Lever Cutter last season was **equal to anything on the market of its kind,** we have **materially improved it** for this year. It is **stronger and heavier,** and in every way is, we believe, **much more durable** than any other cutter on the market.



This Cutter is made in the most approved manner with adjustable gauge to regulate the length of cut. Has the best steel knife, which can readily be ground and a double-tension nut with which to set the blade close up to the work. This is a standard and well-known implement and one of the best of its kind made.

No. 86965 Weight, 60 lbs; price..... **$2.60**

No. 86966 Extra knives, each..... **97**

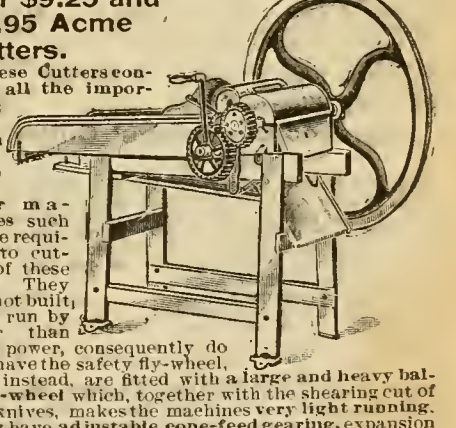
Our Special No. 50 $8.80 Cutter.

We believe we have the best cutter on the market at the price. Last year we handled a cutter almost identical in design to this, which we offered at the same price, but for this season we have materially improved the machine. **The frame is stronger and the general workmanship is better. It is made especially to meet the demand for a cheap yet good and durable machine. It is well adapted for general work,** and where but a few head of stock are kept it will answer nearly every purpose that would be required of the more expensive machines. It is thoroughly well made of good materials, and **is offered to the trade strictly on its merits.** There is very little gearing about this machine, and all its parts are arranged **in the most convenient manner.** The steel cutting knife, which is 11 inches long, is set so as to make a shearing cut against a hardened cutting edge. This knife makes three cuts to one turn of the crank, and the length of the cut is adjustable from ¾-inch to 1¼ inches, thus giving excellent results. large capacity and an easy-running machine. Weight, 165 lbs.

No. 86968 Price, each..... **$8.80**

No. 86969 Price, for extra knives..... **90**

Our $9.25 and $11.95 Acme Cutters.



These Cutters contain all the important features of the larger machines such as are requisite to cutters of these sizes. They are not built to be run by other than hand power, consequently do not have the safety fly-wheel, but, instead, are fitted with a **large and heavy balance-wheel** which, together with the shearing cut of the knives, makes the machines **very light running.** They have **adjustable cone-feed gearing,** expansion gearing for driving the upper feed-roll, and a safety stop lever for instantly stopping the feed or changing the length of cut. The length of the knife of the No. 70 cutter is 8½ inches, and of the No. 80 cutter, 9½ inches; with one knife they will cut ½ inch, 1¼ inch, or 2 inches long; with two knives, ¾ inch, ⅝ inch, or 1 inch long. **These machines are particularly adapted for ordinary farm use,** as they will cut hay, straw or fodder with equally good results, and the two-knife machines are **much in favor with poultry raisers because of the short cut which they will make.** We have no hesitancy in offering these cutters to our customers, because during the several years we have handled them **they have given universal satisfaction in every respect,** and we sincerely believe they are the best hand-feed cutters ever placed upon the market. Average weight 160 pounds.

No. 86973	Price, No. 70, with one knife...	**$ 9.25**

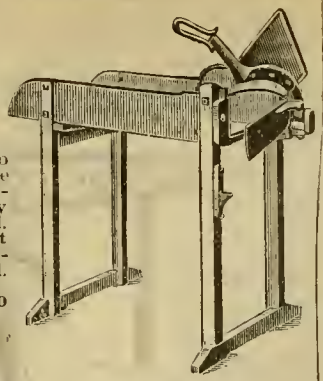
Star Lever Feed Cutter.

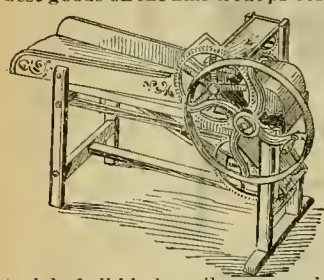


The Star Cutter has the largest sale of any cutter on the market. Has positive adjustment of the knife, which gives a shear cut and makes it easy to operate. Gauge plate can be adjusted to cut any length desired. Made of the best material throughout, nicely finished.

No. 86975 Price, each...$3.00

High-Grade Cummings' Feed Cutter for $12.90.

We offer you for $12.90 a feed cutter that your retail dealer would ask $20.00 to $25.00 for. The manufacturers have arranged to furnish us these goods on the basis of but a very small profit above actual cost to manufacture, and to this we add only one small percentage of profit, and we believe we are entitled to your orders on the basis of the best goods on the market at prices below all others.



This cutter has been manufactured for the past 25 years. Improvements have been made from time to time until now the machines are practically perfect. This is a hand machine only and is not used with power. This cutter has ⅜ and ¼-inch knives and will cut material of all kinds easily and rapidly. For a hand-feed cutter it is the most suitable size for all purposes. It is heavy, strong and durable in all its parts and very easy working. Nothing has as yet been made to equal it. The power is applied direct to the knife shaft without any intermediate gearing. It has an upper cut and a regulating feed roller. Length of cut, ⅜ and ⅞ inch; weight, 200 lbs; capacity, 400 lbs. per hour.

No. 86976 Price.....$12.90
No. 86977 Extra knives, 2¼ inch..... 98

Improved Cummings' Cutter, No. 2.

This Cutter has four 10-inch knives, is intended for hand and power and has no equal; used in either way. Length of cut, ⅜ and ⅞ inch. Power required, 2-horse. Capacity, about 2,000 lbs. per hour, of dry feed. Speed, 400 to 600 revolutions per minute. Weight, 300 lbs.

..CORN SHELLER AND FEED CUTTERS..

Form a Special Department in our house, and our sales on these goods, we can guarantee for you such values in these goods as cannot be had elsewhere

ORDER A CUTTER OR SHELLER and if you don't find it such a machine as you could not get elsewhere for the money, return it at our expense, we will immediately refund your money.

Corn Shellers.

We believe we offer the

...BEST CORN SHELLERS MADE...

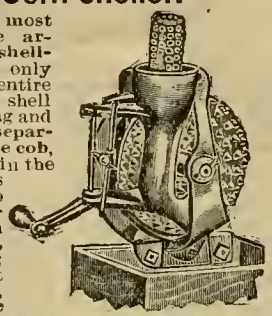
and at a saving in price of at least 33⅓ per cent to the purchaser.

We guarantee every sheller in every respect to be made of the very best material and to do as good or better work than any other sheller of equal size.

Our shellers are made by a reliable maker, who has established a reputation for the best sheller made.

Our Terms are Liberal. Any sheller will be sent to any address by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight both ways.

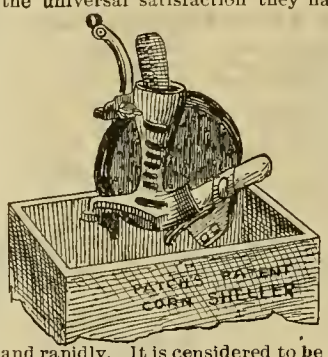
Our 93c Corn Sheller.



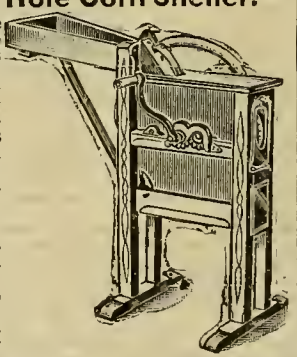
No. 87000 This the most simple and effective arrangement for corn shelling made. There are only six pieces to the entire machine, main frame, shell disc, shaft, tension, ring and crank. This sheller separates the corn from the cob, and deposits the corn in the box on which it is mounted and the cob outside. It has a perfect tension that can be adjusted instantly, will shell all sized ears; popcorn to the largest southern dent. Weight, 12 lbs. Price.....93c

Patch's $2.25 Corn Sheller.

No. 87002 We offer this corn sheller at $2.25, about one-half the price charged by retail dealers. We have sold a vast number of these machines and the universal satisfaction they have given everywhere prompts us to say that we will guarantee the machine to give the best of satisfaction, and if it does not you can return it at our expense and we will refund your money. This is made from the best malleable iron. It is almost impossible to break it with any ordinary usage. It will shell all sizes of corn easily and rapidly. It is considered to be one of the best hand shellers made, and is thoroughly covered by patents. Weight, 15 lbs. Price.....$2.25

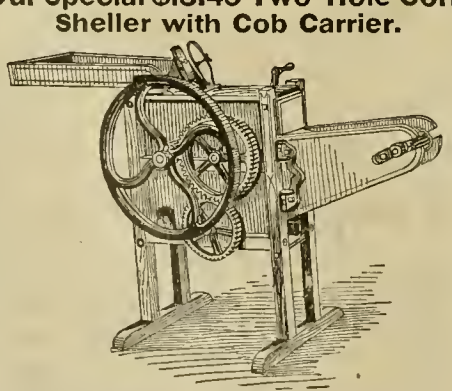


Acme One-Hole Corn Sheller.



No. 87006 Our Acme Square One-Hole Sheller is the best sheller for the price ever put on the market. It is very strong durable and easy to operate. Frame is made of hardwood and shafting of rolled steel. Balance wheel is large and heavy, which makes it the easiest running sheller made. Has adjustable rag iron. Will shell any kind of corn. One hole sheller with fan and feed table complete. Price, each.....$5.00

Our Special $13.45 Two-Hole Corn Sheller with Cob Carrier.



This Sheller is built with a square frame to support the cob carrier. We are able to offer this machine at $13.75 only by reason of large and favorable contracts with the manufacturer, which makes it possible for us to get the price down to the basis of actual cost of material and workmanship. This machine has a belt pulley for power connection or a handle for hand power. Weighs, 250 lbs.

No. 87010 Our price complete.....$13.45

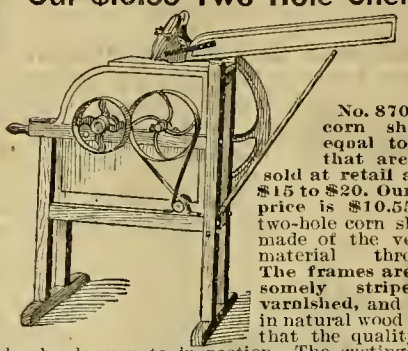
S., R. & Co.'s Sheller.

Our Sears, Roebuck & Co.'s Sheller is one of the best shellers, regardless of price, on the market. It is strictly first-class in every respect and has all the latest improvements. Is thoroughly well-made of the best materials and is highly finished. The balance-wheel is 27 inches in diameter, with steel spokes; frame is of hardwood mortised together—not nailed; shafts are steel with best quality metal boxes; castings are made of the best grade of charcoal iron, which is at least 40 per cent better than the best quality gray castings. Will shell either small or large ears and do the work clean without breaking the cobs: shaft is extra long so that a pulley can be used if you wish to run sheller by power. Capacity, 20 to 25 bushels per hour.

If you wish the best, lightest-running and most durable sheller sold by any one, you have it in this one. It is not a cheap department-store machine, made to sell only, but one that will bring customers wherever sold. Weight, 135 lbs.

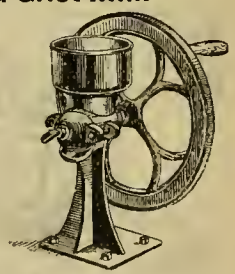
No. 87012 With fan and table, complete...$6.00
No. 87013 Extra pulleys for same..... .60

Our $10.55 Two-Hole Sheller.



No. 87015 This corn sheller is equal to those that are being sold at retail at from $15 to $20. Our special price is $10.55. This two-hole corn sheller is made of the very best material throughout. The frames are handsomely striped and varnished, and finished in natural wood color so that the quality of the lumber is open to inspection. The castings are of the very best grade of charcoal iron, making repairs for breakage very seldom if ever necessary. They are put together by skilled mechanics and guaranteed in every respect. Whether the ears of corn are large or small it will shell perfectly clean without breaking the grain or throwing any out with the cobs. Such a thing as choking is unknown. We warrant this corn sheller in every respect. We always furnish it complete with feed table, fan, belt, pulley and handle; weight, 220 lbs. Price....$10.55

Acme Hand Grist Mill.



No. 87018 In our latest improved Acme Hand Grist Mill we have the best hand mill made for the money we ask for it. We have had a great many inquiries for a mill that would grind grain, dry bone or shells, do good work and not cost much money, and in the Acme we have solved the question. It is the most rapid grinder, durable, easily regulated, easily and cheaply renewed mill on the market. Every mill has steel alloy grinders that will outwear 3 sets of gray iron burrs usually put in hand mills. They are nicely painted and securely packed one in a crate.

Size.....	No. 1	No. 2	No. 3
Weight.....	18 lbs.	36 lbs.	60 lbs.

Price, each.....	$1.85	$3.50	$5.25
Price, extra burrs...	.45	.75	1.25

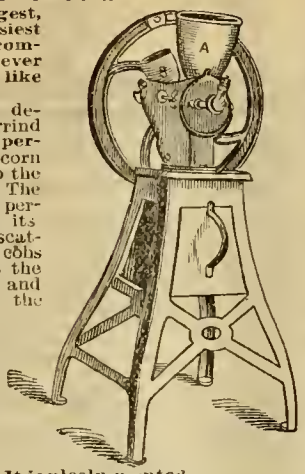
Our $3.28 Grist Mill.

To any one who has use for a hand mill this machine will pay for itself a dozen times over in a season.

This machine is well adapted for grinding corn meal coarse, split peas, cracked wheat, graham flour, fine table or butter salt; in fact, everything that is ground at a custom mills, except fine bolted family flour. In these mills the grinding plates are removable, and can be changed in a moment's time. They are of the hardest cast steel. This hand mill will grind just as much in proportion to its grinding surface as any larger mill; ½ lb. to 1 lb. per minute being the average, according to the grain and fineness. We warrant these mills to be equal to any of the same size made. Weight, 36 lbs.

No. 87020 Price.....$3.28
No. 87021 Extra burrs, per pair..... .64

Our Great Acme $4.55 Combined Corn Sheller and Grinder.



This is the strongest, most perfect, easiest running, and best combined machine ever made at anything like the price.

This machine is designed to shell and grind corn and does it perfectly. The shelled corn or meal passes into the receptacle below. The sheller is the most perfect implement of its kind and does not scatter the corn. The cobs are thrown out at the rear of the machine and do not mix with the shelled corn.

B is corn sheller hopper and A is grinder hopper. The entire sheller is built of iron, being put up in a machine shop by men of good mechanical training, and then carefully finished. It is nicely painted.

No. 87025 Not mounted; weight, 53 lbs. Price $4.55

No. 87026 Mounted on heavy strong iron stand, weight, 100 lbs. Price $6.95

No. 87027 Extra Burrs for above. Per pair ..... .64

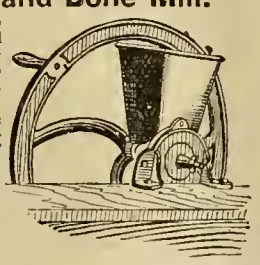
Our Acme Combined Corn Sheller, Grain Grinder and Bone Mill.

Three hoppers accomplishing three purposes by one mill. The best mill made for the poultry fancier; shells corn, grinds grain for family use; cracks corn for chickens, and crushes dry bones, shells or broken crockery for poultry. This mill is the same as No. 87025, with the bone mill attachment added. Put ear corn in hopper B and turn crank; it shells perfectly and separates corn from cob. Put any kind of grain in hopper A, it grinds either fine or coarse, as desired. Hopper C is for dry bones, broken crockery, soft limestone. Best chicken raisers' outfit made.

No. 87029 Not mounted; weight, 65 lbs. $5.35

No. 87030 Mounted on stand; weight, 125 lbs. 7.55

Our $3.40 Hand Bone Mill.

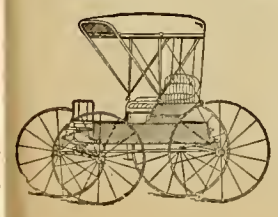


Poulterers who have never fed bone meal will be surprised at the increase of eggs where ground bone is supplied. By furnishing the material for egg shells in ground bone you increase the production of eggs at once. Feed only corn and you induce the production of fat. Bone meal retails for 4c. per lb., and is worth three times its cost for fowls on any farm. With this machine we reduce the cost of the meal to merely the labor, and as the capacity is large and the power required comparatively slight you will find yourself handsomely rewarded by the use of this machine. It has been advertised by many at from $5.00 up. We reduce the price to $3.45. The teeth of this mill are very strong and coarse and will not grind corn for family use. Allow fresh bones to dry before grinding; will not grind green bones. Weight, 35 lbs.

No. 87035 Our special price $3.40

No. 87036 Patent Bone Mill same as above, but on iron legs. Weight, 65 lbs. Our special price $5.75

FROM A CUSTOMER'S LETTER:



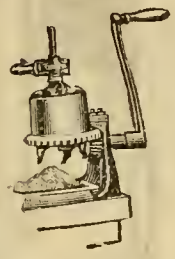
"I don't see how you people can sell such a nice buggy so cheap."

See the remarkably low prices named in Vehicle Department.

MANN'S GREEN BONE CUTTERS.

The Mann Bone Cutters surpass all others in Easy and Rapid Cutting of green bones. They cut all kinds of green bones and butcher's scraps as they come from the shop. It is not necessary to dry or burn them before cutting.

Mann's New Departure Bone Cutters.

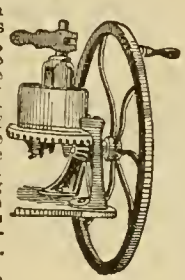


We have had so many calls for a Cheap Bone Cutter, one that would do good work for a little money. We have made arrangements with the manufacturer to make this cutter as shown in cut, without balance wheel, and have now a cutter that is second to none, at the price we ask for it. While we do not advise buying a small machine, as a larger size would be cheaper in the end if you have much work to do; we can guarantee it to do first-class work and to be a perfect cutter in every respect. It is intended for a flock of about fifty hens. The weight is 40 pounds.

No. 87037 Price, each $4.90

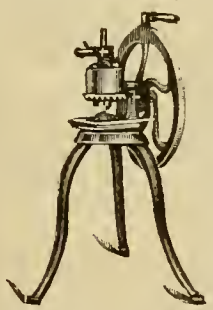
Mann's New Departure Bone Cutters with Balance Wheel.

Our $6.90 Bone Cutter.



This is our Bone Cutter with Balance Wheel, which adds greatly to the cutting power, runs easier and cuts faster. The knives are made of the best grade imported English steel, finely tempered; all parts can be replaced at a small cost in case of an accident. Do not compare these cutters with the old style bone mills which will only grind the bones after the egg producing elements have been taken from them. With these cutters you save all and increase the production of eggs 75 per cent. Weight, 55 pounds.

No. 87038 Price, each..$6.90

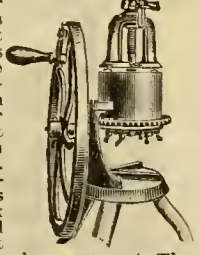


Mann's New Departure Bone Cutters on Legs.

This machine is made exactly the same as our No. 87038, with legs so that it can be moved from place to place in an instant. Always ready for use and can be set out of the way when through using. Has extra heavy balance wheel. A boy can run it. Guaranteed to do good work and to be made of the best materials throughout. Weight, 80 lbs.

No. 87040 Price, each $9.90

Mann's New No. 4 Bone Cutters.



The New No. 4 is the most wonderful Bone Cutter ever made. It surpasses all others in easy and rapid cutting. It feeds automatically and leaves both hands free to operate. The feed regulates the power required, so that it can not run hard. The feed screw is larger and has a course thread that will not wear out or crush down or break. The gears are guarded, so they can not clog. The cylinder has been enlarged, and takes in a good sized bone. It has six specially improved corrugated and adjustable steel knives. It is strongly built and will not break or wear out. The automatic governing string feed is protected by patent, and is found only on Mann's Bone Cutters. The value of this attachment can not be too highly estimated. It is the only feed ever made that actually governs the power required, so that any and all kinds of bone, either hard or soft, cut equally easy. This No. 4 cuts finer than any machine we ever produced, fine enough for the smallest chicks. We want every poultryman to see this marvelous machine. A single trial will convince the most skeptical. Weight, 110 lbs.

No. 87041 Price, without legs but with balance wheel $12.00

No. 87042 Price, with legs and with balance wheel $15.00

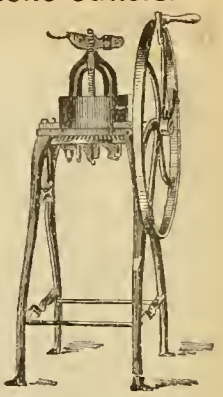
WE SELL——

Beef Scraps,
Cracked Bone,
Ground Oyster Shells, etc.

——FOR POULTRY.

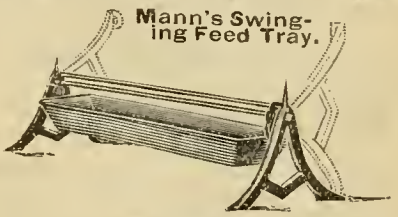
See Grocery Department.

Mann's No. 2 Bone Cutters.

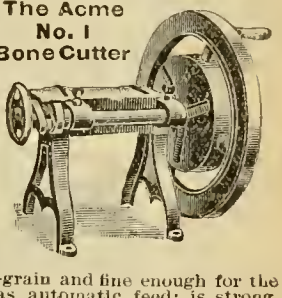


No. 87044 The No. 2 Cutter is one of the oldest Green Bone Cutters on the market; has been tried for the last six years and found perfect in every respect. It has automatic feed which leaves both hands free for turning, and stops feeding instantly when the contents of the cylinder are cut. During the last year several improvements have been made, which made the machine still more perfect. The cylinder has been enlarged, and is so constructed it can not come in contact with the cutter plate, hence there is no friction between them; with several other minor changes it stands today without an equal.

Price, each $18.00



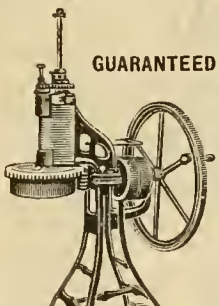
No. 87045 Every poultry raiser should have one of the Swinging Feed Trays. It saves the feed. Hens can not scratch the food out or the dirt in. Weight of hen tips tray and throws her off. Upper rod tips also if hen tries to roost over pan. It is 6½ inches wide, 3 inches deep and 18 inches long. Is made of one piece of galvanized iron, water tight. Easy to keep clean, can not rust, will pay for itself in one week. Weight, 16 lbs. Each 93c



Our Acme Bone Cutter is the latest improved machine. While it cuts green bones, etc., the same as our Mann's cutter, it is done on an entirely different principle. The turning of the heavy balance wheel and the momentum acquired carries the knives through the bone and cuts very similar to cutting same with a butcher's cleaver. The bone is cut cross-grain and fine enough for the smallest chick. It has automatic feed; is strong, durable and well made. All parts are easily accessable for the purpose of cleaning. After the bone is cut it is retained in the dise, which prevents it flying around. By turning a button the contents are removed instantly. Weight, 105 pounds.

No. 87046 Price, each $9.75

No. 8 Acme Bone Cutter.



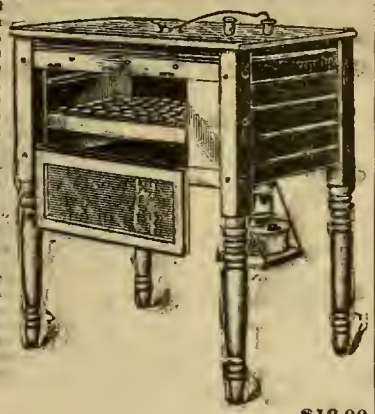
The No. 8 Bone Cutter which we bring out this season is a power machine, constructed on the same general principles as all our other machines, except that it is larger and more powertully geared. It will cut green or dry bones very rapidly and in a perfect manner. It has the combination (same as all our other cutters) of corrugated and shearing knives. Three long corrugated knives and one plain knife, which completes the work of the corrugated knives by cutting off all the stringy meat and gristle. It stands on high legs firmly and strongly braced, has tight and loose pulleys and belt shifter, and a very heavy balance wheel. Has automatic friction feed, so adjusted that should any hard foreign substance, that might break the machine, get in the bone box, the feed will slip and cannot possibly break the machine. When the bone in the box is all cut, the feed is stopped automatically, thus relieving the operator the trouble of watching it. It is but a moment's work to swing the split nut and cover entirely out of the way, and when filled to replace it. The cut bone falls in a pan or box set to receive it underneath, and the cutting disc has a sheet iron spout to keep the cut meat and bone away from the gears, also preventing scattering it. The feed is by means of a screw and friction gears, and has a split-nut so the screw can be returned to its starting point in a moment. The cover slides entirely off, thus showing full operation of bone box. While this is intended for a power machine, we furnish handle to be put on balance wheel, so that should you ever want to use it by hand you would have a first-class hand cutter. A handle is furnished so that it may be run by hand if desired.

Inside dimensions of bone box 4x6x12 inches; capacity, 150 pounds per hour; weight, 250 pounds.

No. 87057 Price, each $31.00

Acme Hot Air Incubators.

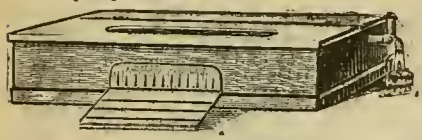
OWING to the increasing demand for Incubators we have concluded to add them to our large line of merchandise. Our failure to procure an incubator that would give satisfaction under all conditions both to ourselves and our customers has kept us from doing so before. In the last eighteenmonths we have examined every incubator of any importance in the U. S., and have at last found a machine that fills every requirement. Two-thirds of the so-called Incubators on the market are nothing more than a pine box in connection with a 25 cent coal-oil lamp. In the Acme we have an Incubator that is used exclusively by the U. S. Goverment; one that is made of the very best material. Is absolutely fire-proof, being covered with steel metal which cannot dry out or shrink. Is self-regulating, has perfect ventilation, complete control of moisture, and large and roomy egg chambers. It has double wood casings, the space between the two being filled with a material of our own which is the best non-conductor of heat known. The outside is nicely grained in oak, all screws, etc., are of brass. Lamp is large and finely finished, which makes the Acme the best looking as well as the most durable and practical incubator made. Do not compare this machine, with the so-called incubator sold by department stores. You may perhaps buy a machine for less money but you cannot duplicate the Acme for double what we ask for it. $5.00 or $10.00 amounts to very little when you are getting an incubator that is guaranteed to be the best machine made, regardless of price. We send a written guaranty with each machine that the incubator you buy shall be perfect in every respect, is a perfect hatcher and the best incubator made, or money refunded. Extra turning tray, moisture pan, one guaranteed thermometer, egg-tester, metal lamp and chimney, extra lamp wicks, full directions for operating and our guaranty furnished with each machine. Average weight, 275 lbs.



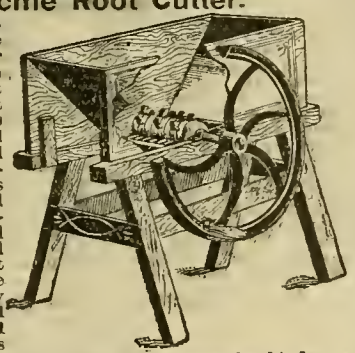
No. 87049A	100-Egg capacity, complete	$19.00
No. 87049B	154-Egg capacity, complete	23.75
No. 87049C	200-Egg capacity, complete	28.50
No. 87049D	300-Egg capacity, complete	38.00

Acme Brooder.

Our Latest Improved Acme Brooder is made with the same care as the incubator above. They are made by experienced workmen and are finely finished. We claim that as a rule chicks do not die, but are killed by abuse by a failure to follow a few simple rules which common sense dictates and experience teaches. A brooder that is properly constructed must furnish top heat and be so arranged that the chicks can of their own accord go to the heat or come away from it just when they please. Here is to be found one of the main secrets of our brooder. By all means steer clear of a brooder with bottom heater. We supply heat from the top. In front of the tank and extending to the floor is a heavy curtain of cloth which divides the brooder in two parts, so that the chicks, which are their own best thermometers, can go into either apartment as they please and are not overcome by the heat as in most brooders. You rarely ever lose a chicken with this brooder. We furnish lamp, running board, extra wicks and glass doors with each brooder, free of charge. Remember, if the Acme Incubator or Brooder does not prove to be the best you ever used, or can buy, we will take the machine back and cheerfully refund your money. No. 87051 Price, 100-chick capacity..... $9.00



Acme Root Cutter.

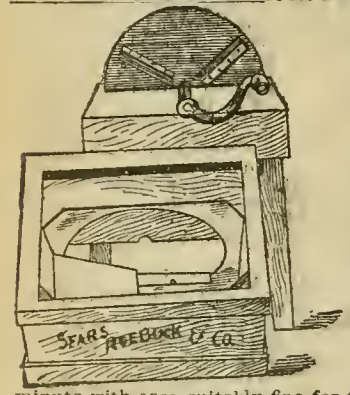


No. 87053 The Acme Root Cutter has been on the market for a great many years and is too well known to need a detailed description. It is made of good material, nicely painted and ornamented and is the best cutter for the price sold by any one. Will cut any kind of vegetables and do the work clean. The balance wheel is large and heavy. Frame is made of hardwood, and box well put together. If you wish a good cutter for little money, here you have it. Weight, with balance wheel and crank, 105 lbs. Price, each..... $5.85

Our $9.00 Root Cutter.

No. 87057

This is the Best Machine for cutting all kinds of roots for feeding stock.

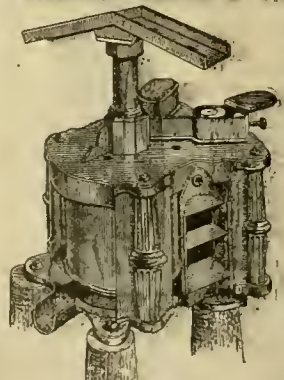


It cuts the roots into small, regular sized pieces, leaving no piece large enough to choke sheep. THE KNIVES can be adjusted to cut coarse or fine, as desired, and being made of the best material, in the strongest manner, will last fifteen or twenty years. IT WILL CUT 1 bushel of roots per minute with ease, suitably fine for feeding. Occupying a space of 3½x2 feet on the floor. The frame is made of hardwood; box has mortised corners, is nicely painted and varnished; shaft of rolled steel, with best tool steel knives.

IF YOU WISH a first-class cutter, one that will give satisfaction or money refunded, we have it. By removing the cross knives it will slice apples rapidly and in the best manner for drying, it being used in the west and New York State quite extensively for this purpose. We recommend it to any one wishing for the best Root Cutter and Apple Slicer made. Warranted to give satisfaction. Weight, 125 lbs. Price, complete..... $9.00

Our $14.90 Cane Mill.

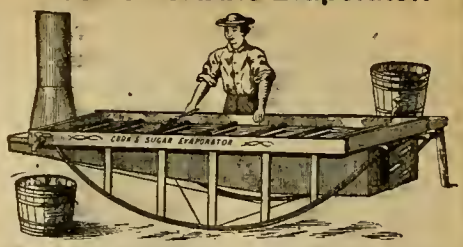
We offer Cane Mills at from $14.90 to $43.00 according to size and weight, and if you are in the market for anything in this line we hope you will favor us with your order. By a careful comparison of our prices with those of other houses we feel sure you will see where we can save you at least 25 per cent. We have succeeded in bringing the prices of cane mills down to about one-half the prices at which they are usually retailed. This we have been able to do by contracting with the manufacturers for quantities and compelling them to figure on the cost of material and workmanship, eliminating the exhorbitant profits heretofore asked and any percentage of allowance for loss, of which we know nothing in our method of dealing direct with the user on manufactorer-to-consumer 1 small profit plan.



The Acme Cane Mill as illustrated here is, we believe, the best cane mill on the market. It has the best turned rolls, steel shafts, brass bearings, gearings and rollers of the very best cast steel, cast separate. The cog gearing is cast separate from the rollers and made very heavy with two clutches on each wheel which fit into two corresponding ones in each roller, thus doing away with all screws and the consequent danger of splitting the wheels when driven too tight, also enabling anyone to take up the mill. These wheels have steel shaft with turned bearings, rollers turned and serrated. The main rollers are flanged at top and bottom, preventing the cane from passing either up or down. We can furnish these mills in the following sizes:

No. 87059 One horse-power, weight 400 lbs., capacity, 40 to 50 gallons per hour..... $14.90
No. 87060 One horse-power, weight 500 lbs., capacity, 50 to 60 gallons per hour..... $18.60
No. 87061 Two horse-power, weight 625 lbs., capacity, 60 to 75 gallons per hour..... $23.50
No. 87062 Two horse-power, weight 800 lbs., capacity, 75 to 90 gallons per hour..... $28.40
No. 87063 Two horse-power, weight 850 lbs., capacity, 90 to 100 gallons per hou..... $32.70
No. 87064 Heavy two horse-power, weight 1,150 lbs., capacity, 100 to 120 gallons per hour..... $38.50
No. 87064½ Extra heavy two horse-power, weight 1,250 lbs., capacity, 120 to 140 gallons per hour.. $43.00

Cook's Portable Evaporator.



We offer these evaporators in different sizes at prices ranging from $14.25 to $29.80. Please compare our prices, descriptions and illustrations with others before placing your order elsewhere.

Our special descriptive circular of cane mills and evaporators is free. If interested, send for it.

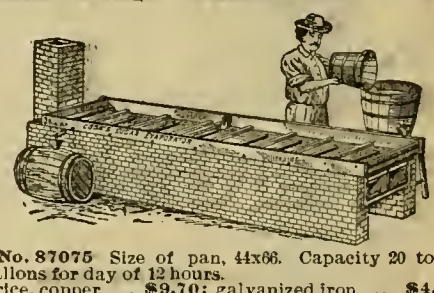
These evaporators are made of galvanized sheet steel or copper, heavily bound and riveted, strongly made, and the whole mounted upon rockers of angle iron, thus furnishing a complete portable furnace of iron and brick combined in one, with all the advantages of both, and yet so light that it can be easily moved by two men. This is the most convenient arrangement for small house operation, and for custom work it is well-nigh indispensable. With it the operator can move from field to field, from farm to farm, and thus avoid the labor and expense of hauling the cane. The evaporator pan is made of galvanized sheet steel or copper of a thickness proportionate to the length of the same.

To avoid mistakes in ordering, please notice that the evaporator means to include both pan and furnace. Our prices are for furnace, pan, grate, chimney and two skimmers complete.

No. 87065 Size, 44x72; weight, 300 lbs., capacity 30 to 40 gallons for day of 12 hours. galvanized steel pan..... $14.25 Copper..... $20.05
No. 87066 Size, 44x90; weight, 360 lbs., capacity 40 to 50 gallons for day of 12 hours, galvanized steel pan..... $16.60 Copper..... $23.70
No. 87067 Size, 44x108; weight, 400 lbs., capacity 50 to 80 gallons for day of 12 hours, galvanized steel pan..... $18.85 Copper..... $27.40
No. 87068 Size, 44x126; weight, 450 lbs., capacity 75 to 125 gallons for day of 12 hours, galvanized steel pan..... $20.06 Copper..... $29.80

Cook's Pan for Brick Arch.

Our price, $4.30 to $25.85, includes copper or galvanized iron pan complete with two skimmers.



No. 87075 Size of pan, 44x66. Capacity 20 to 30 gallons for day of 12 hours.
Price, copper.... $9.70; galvanized iron..... $4.30
No. 87076 Size of pan, 44x72. Capacity 30 to 40 gallons for day of 12 hours.

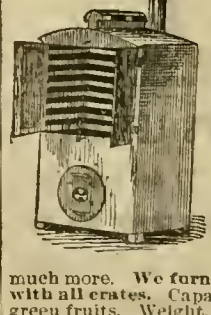
No. 87078 Size of pan, 44x108. Capacity 50 to 80 gallons for day of 12 hours.
Price, copper.... $15.55; galvanized iron..... $7.00
No. 87079 Size of pan, 44x126. Capacity 75 to 120 gallons for day of 12 hours.
Price, copper.... $18.10; galvanized iron..... $8.15
No. 87080 Size of pan, 44x144. Capacity 100 to 140 gallons for day of 12 hours.
Price, copper.... $20.65; galvanized iron..... $9.26
No. 87081 Size of pan, 44x180. Capacity 125 to 175 gallons for day of 12 hours.
Price, copper.... $25.85; galvanized iron $11.50

Our $19.40 Ohio Fruit Dryer.

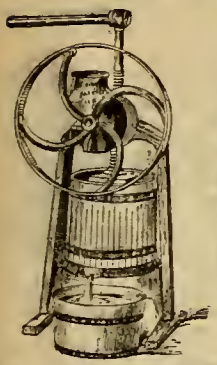


$19.40 is the price when sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways.

This size evaporator is mostly used by farmers, has 16 trays, 12x24 inches, with all the latest improvements; made of the best galvanized iron, with galvanized wire cloth trays. These evaporators are warranted to produce as nice white fruit as any evaporator made and to produce the same amount in a given time as others of equal capacity which cost much more. We furnish the evaporator complete with all crates. Capacity, 3 to 4 bushels per day of green fruits. Weight, 175 lbs. Price..... $19.40

No. 87100 20 trays, 24x36, capacity, 4 to 5 bushels per day of green fruit; weight, 225 lbs. Price $23.00
No. 87101 Intended for extensive work, size, 31x38 inches, 6¼ feet high, capacity, 6 to 8 bushels of green fruit per day; weight, 390 lbs. Price... $36.40

The Celebrated Hutchinson Cider and Wine Mill for $6.75.

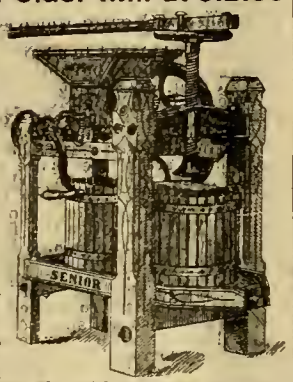


☞ $6.75 is our special price to be shipped by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover transportation charges both ways.

This is a well-known implement, one of the most economical and useful cider mills manufactured. Thousands of these mills are in use. Warranted to do fine work. Capacity, 2 to 3 barrels of cider per day.

No. 87115 Weight, 105 lbs. Price.....$6.75

Our Improved Cider Mill at $12.00



These mills have hardwood frames strongly bolted together; the beams of heavy cast iron, screws are of wrought iron, capable of standing the most severe pressure applied by the lever or the crushing roller. Made in three sizes:

No. 87118 Price of Senior; weight, 410 lbs.....$17.40

No. 87119 Price of Medium; weight, 230 lbs.....$15.55

No. 87120 Price of Junior; weight, 165 lbs.....$12.00

The prices quoted are for the mills when shipped by freight, C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways.

Press Screws.

..HAY PRESSES..

WE ARE HEADQUARTERS FOR HAY PRESSES, AND HAVE ARRANGED WITH ONE OF THE LARGEST MANUFACTURERS IN THIS COUNTRY,

who, we believe, makes more presses than all other manufacturers combined, and the reputation they have gained for the manufacture of the best hay presses on the market has warranted us in making our contracts with them.

Limited space prevents our giving a lengthy and detailed description of these machines; but we shall be pleased to furnish any special information desired upon application, and we would say before you buy a hay press elsewhere communicate with us.

Whether you finally buy from us or not, we believe we can be the means of saving you from $25.00 to $75.00 on your machine.

Our $165.00 Half Circle Baler.

No. 87129 We furnish this machine at $165.00 net cash with order, and guarantee it to be exactly as represented and the best press ever made at the price. If it is not found as represented, you can return it and we will refund your money. For more particulars concerning this machine, or for larger sized balers, communicate with us.

The principle of power used in this machine is nearly the same as that in the full circle presses, and is just as effective. Two horses can do the work easily on a 4-foot sweep. The leverage increases in proportion as the pressure increases. It is simple in construction, having but few parts. Not a link, chain or pulley. Nothing but a crank, pitman and lever. It is made as strong and substantial as any machine on the market. The frame is of the very best seasoned hardwood and is well bolted together with Norway iron bolts. The castings are very heavy. The bale chamber is lined with the very finest Bessemer steel. It is otherwise the same in construction as that of the steam and full circle presses. The tension rods are similar to those in all our presses. Size 17x22. Weight, 3,600 lbs. Our price, $165.00, net cash with order.

Other sizes made to order.

Our $190.00 Full Circle Baler.

This Full Circle Press is a success in every respect. It has been in use for the past three years and we have not heard a complaint from them, nor have we had a call for repairs. It is what every man wants in a Baler. LARGE CAPACITY, LIGHT DRAUGHT, Simple Construction, Durability, Ease and Safety, and is easily transported. It is well constructed of the best seasoned hardwood, Norway iron and Bessemer steel. Its power is centered and accumulated. As the pressure of the hay increases the fulcrum of the lever moves toward the center, thus increasing the power in proportion as the pressure increases. Two horses can do the work easily and make heavy bales. The plunger is all Norway iron. Two 12-foot sweeps. Bale chamber is lined with the best Bessemer steel. Two feeds to each round of the horse. Bale indicator. Chaff grate in bottom of bale box. Large feed table, wrench, and everything complete. In this machine, as in any other, the capacity depends upon the men and horses doing the work. Results vary from 10 to 15 tons per day. Two sizes.

No. 87131 Size, 17x20. Price.....$190.00

No. 87132 Size, 17x22. Price..... 195.00

Anti-Friction Safety Coupling.

All parts are duplicated, so that a broken piece is easily replaced. In use it has proved itself to be superior. It will not heat; it will not cut; it has no pin to wear out; it greatly reduces the friction; it is guaranteed to outwear any other coupling. Carried in stock to fit 1, 1¼ or 1¼ squared shaft. No other size made. Weight, 12 lbs.

No. 87133 Price.....69c

The Acme Stump Puller.

There is a catch on the bottom flange, into which the lock drops and holds as the drum revolves.

Every inch of pull on the cable is firmly held as fast as made. Of course, the larger the lever or sweep the greater the power of the machine. This lever can be slid in and out between the logs on the drum and adapted to the power required or room for operation. To set the machine, place the anchor rope around one of the strongest stumps in the circle to be pulled. Cut this stump about a foot high so the sweep will pass over it. By placing the anchor rope low and the stump rope high you will have the advantage of the object being pulled. Machine is operated by one horse and one man with a boy. Being low on the ground are less liable to tip over, and will pull better than a higher machine. We furnish 75 feet of very best English plow steel cable and hook. The sweep, whiffletree chain and cross sill are furnished by purchasers. The cable furnished by us has a breaking strain of 27 tons. When desired we furnish a double pulley which increases the power to 54 tons. This is 12 feet of 1-inch steel wire rope with a very strong pulley on one end and a rope hook on the other for hitching around the work. By using it on the drum rope, double power can be put on the object being pulled. Also hitches can be made high in trees, or pulled away from, or sidewise to the machine. Made very strong by protected clamps and thimbles to prevent the rope from cutting off.

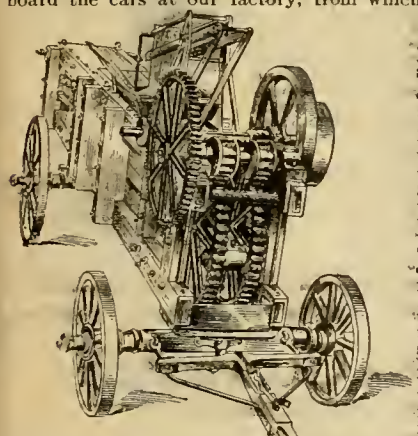
No. 87134 No. 1. Without sweep and cross sill; 500 lbs. Price.....$29.00

No. 87136 No. 2. Machine with sweep head and lever for unwinding drum without removing sweep; weight, 525 lbs. Price.....$37.00

Price of double pulley is $8.45. Price of extra rope per foot is 20c.

Our Highest Grade Hay Baler for $223.00.

$223.00 IS OUR NET CASH WITH ORDER PRICE, the price from which there is no discount to anyone, under any circumstances. The price quoted is for the hay press delivered on board the cars at our factory, from which point you must pay the freight. We can offer no discount for cash. For a more complete description of this hay press please correspond with us. We know we are headquarters on this line of goods and can save you so much money that you cannot afford to buy elsewhere.



THE POWER of this press is the most simple and direct that can be adopted. It consists of two crank wheels between which a pitman is pivoted and connected direct to the plunger block. It is driven by two pinions on an intermediate shaft to which the belt and balance wheel are geared, thus securing rapid momentum to the balance wheel and requiring but a small, light belt. Steady motion and power are obtained by the momentum of the balance wheel, the balance wheel being secured by friction so that if the belt is overcharged or abused the wheel will slip and avoid accident or breakage.

THE CASTINGS are made of the best iron we can buy, thus securing strength. The frame is entirely of hardwood, which, as every press man knows, is better than iron. Heavy ¾ and ⅞-inch rods put through the frame both ways hold it together. A wooden frame is preferable to iron or steel, because for the same strength hardwood is lighter than iron, and also because it is impossible to keep bolts tight on an iron or steel frame, as there is no give to these metals, and furthermore are liable to be cut in two in a heavy metal hay press. The shafting is of heavy 2¼ and 3⅞-inch cold-rolled iron, and very tough iron. The boxes are strongly babbitted, well bolted to frame and double-nutted. The top boxes are in one casting and main box is separate, so that if you break one box you do not have to buy nearly a whole hay press, as you do in many machines. The plunger block is in one casting. It moves on ways that are oiled like those of a steam engine, thus less power is needed to push it. The pitman is wrought iron and is just as long as can be used. The longer the pitman is the longer lived will be the machine and the less power used. The arms of the feeder are of wrought iron, and gears are all 2⅝-inch face, very widest used, with heavy round cogs. Baling chamber is lined with steel. The feeder is perfect. There is not the slightest danger in dropping the divide doors in without stopping the press if dropped when the blade of the feeder is in the feed chamber going down. At this time the boards cannot get out of position. A bell, which can be easily moved to lengthen or shorten the bale, rings when it is time to drop in a board. The tension is obtained by means of heavy bolts put through, up and down and crosswise. The ball box also condenses some. Every part performs its work to perfection and makes a nice looking bale.

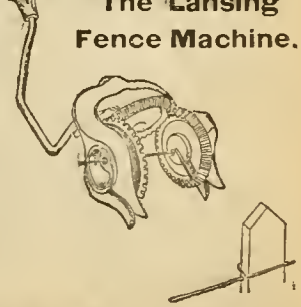
A HAY PRESS is a machine subject to very great strain, greater than any other machine on a farm, so it must be very heavy to have strength to stand the strain. Our machine has a heavy wood frame, the best made, that will stand up to business. The capacity of a hay press depends upon the men who handle it. Ours will do as much as any other of the same size on the market. Our larger sizes will press from 4 to 10 tons per hour. The weight of bale is governed by the tension of the bale chamber. 14x18, 17x20 and 17x22 are our sizes, these sizes loading a car best. Either iron or wood wheels furnished. Weight, 2,200 lbs.

No. 87126 Price for press, for bale size, 14x18.....$223.00

No. 87127 Price for press, size, 17x20..... 224.50

No. 87128 Price for press, size, 17x22..... 225.25

The Lansing Fence Machine.

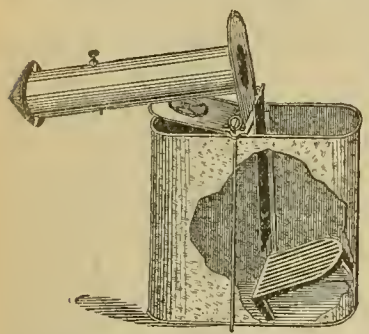


The object of this machine is to attach pickets to a common barb wire fence already constructed, or to attach pickets to a new fence after the main supporting wires are stretched and fastened to the posts. Pickets can be placed any distance apart and attached to as many wires as desired. Short pieces of soft No. 12 annealed wire are used for wrapping, these short pieces being cut before you commence operation.

No. 87146 Price, including two wire stretchers and one wire cutter.....$5.00

Our $4.18 Improved Acme Tank Heater.

No. 87147 This Tank Heater is used for warming water in stock tanks. Five cents worth of soft coal per day and the Acme Tank Heater will heat the water for 50 head of stock. This heater cannot possibly be burned out, as it is entirely surrounded by water. No trouble to keep it cleaned out, as the fire box can be taken out by a ten-year-old boy; has an adjustable draft, by means of which it can be heated to any desired temperature. The cover is hinged in the center, giving ready access to ash chamber, making it easy to remove the ashes or replenish the fuel. The partition can also be withdrawn—grate can be removed—and the entire contents of the heater cleaned out in a few moments' time; can be located at such a place in the tank as is most convenient; can be secured in place, or removed at pleasure without injury to the tank. The heater is oblong in shape, as shown in cut; is made of galvanized iron; has a cast iron slide, which partitions the ash chamber from the other chamber; removable grate, with ample space beneath for ashes; cover is of cast iron, fitted closely and not liable to warp, as is the case with sheet iron. A draft regulator is provided in the cover. The heater is fastened to the tank bottom by means of rod and wood screws. A poker and shovel accompany each heater. Size, 24 inches deep, 24 inches long and 13 inches wide. Weight, 115 lbs.



Price.....$4.18

New Departure Tank Heater with Spark Protector.

No. 87148 It is made of heavy sheet iron shell, cast into an iron bottom and cast iron top. It has a cover over fire pot and a slide on the draft hole to regulate the fire. It will burn any kind of fuel. The sheet iron shell is riveted with two rows of rivets, packed with fire proof asbestos paper. This will not allow the tank to leak, and there is no solder to melt when there is a fire in the heater, which is the case on a number of other heaters. Size of drum or heater is 26 inches high and 16½ inches in diameter. Give the heater a trial and we know it will please you.

Price, each.....$3.65

Farmers' Boilers.

No. 87152 We invite attention to our new patent Agricultural Furnace, and we assure our customers that there is none better made. We believe we are safe in saying that it will not require more than one-third of the amount of fuel to do the same work in these furnaces as it does in the old way, using the ordinary farmers' kettle. The prices are very reasonable. Made in five sizes.

	With Wood Fixtures.	With Coal Fixtures.

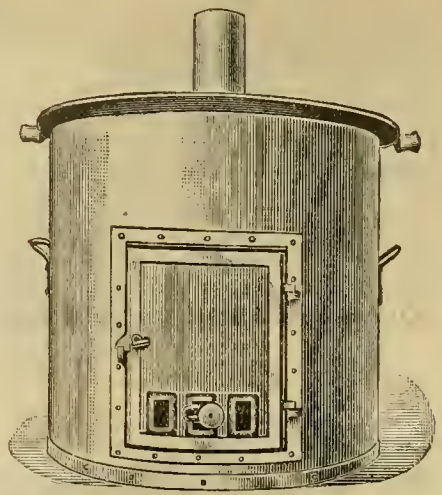
The Farmer's Friend Stock Food Cooker.

Made for the Best.



In the construction we use nothing but the best material. The castings are made from special high grades of iron, and are guaranteed free from flaws, sand holes and cracks. On the inside of the casings a flue is placed which throws the fire around the kettle before it passes into the smoke pipe. It takes about ¼ the fuel required by other devices. It has a large door, so any kind of wood can be used. The casing is made of heavy cold rolled steel, and supported at the bottom by a heavy steel band. By closing the damper fire can be kept 48 hours. Can be used in or out of doors with as much safety as a stove. By using the Farmer's Friend there is a saving of food of at least 50 per cent. For cooking all kinds of food for stock, butchers' use, soap making and sugar boiling we have here the best article ever sold for the money. Average weight, 200 pounds. Note our special prices.

No. 87150 45-gallon Caldron and Furnace, complete.....$11.00

No. 87151 60-gallon Caldron and Furnace, complete.....$12.50

The Acme Feed Steamer for $19.50.

No. 87160 $19.50 is the price if sent by freight C. O. D., subject to examination, on receipt of sufficient deposit to pay freight charges both ways. This steamer as illustrated above has a large and convenient fire-box, the whole length of the boiler—40 inches—being covered with water entirely over the top and down both sides to the bottom, which gives the full benefit of all the heat from the fuel, and making it of greater capacity than all other steamers. It is easily and simply filled. Made of best boiler plate steel with heavy cast iron heads put together with bolts that pass through the flanges on the heads; therefore there is not a single hole in the steel inside the fire-box. There is water over the thin sheet down both sides of the fire-box, which gives it the same capacity as a fine boiler without any of the disadvantages. No clogging up or leaking. They are easily and quickly filled with an apparatus furnished with each steamer and can be filled when steaming. There is a stopper on each side of the pump on the bottom to open and insert a rod to loosen any and all sediment, and which will clean it out in five minutes. They are also used for letting the water out. The steamer is mounted on large wheels, and is easily moved to any place where needed. The fire-box is 3 feet long, 10 inches deep, 12 inches wide, has an adjustable partition, and can be used for coal, wood or cobs. As many as six barrels can be steamed without moving either barrels or steamer. Will steam sufficient to cook two to three barrels with only one filling. Is very useful for heating water for slaughtering, for making soap, and for laundry and dairy purposes. Will get up steam in 10 to 20 minutes, and will cook up a barrel of turnips or potatoes in 15 to 20 minutes. We furnish this steamer equipped with a small hand pump for putting water in the boiler, which is a great improvement. Boiler is 40 inches long. Weight, 350 lbs.

Price.....$19.50

Hercules Feed Boiler and Cooker.

Owing to the increasing demand for feed cookers something stronger and larger than commonly sold, we have made arrangements to have manufactured for our exclusive trade a cooker, which we claim to be the best on the market. It is made from boiler steel, has regular lap-welded boiler flues, making it durable, rigid and strong in all parts, and will last, with ordinary care, a lifetime. It is well riveted and calked, and is capable of standing hydraulic pressure of 150 pounds to the square inch, and is perfectly safe, carrying 100 pounds pressure. It is made of heavier and better material than heretofore used, and as it has a number of flues passing directly through the water distributes the heat, thereby requiring less fuel than any other. It is furnished with grate, which adapts it to the burning of coal, cobs, wood, etc., and will cook or steam any kind of feed placed in a barrel or vat with but little care and without burning, and does it quicker and better than any steamer made. It stands on a solid cast base, has new improved pump, safety valve and strainer. It also makes an excellent boiler for heating purposes. By running a pipe from boiler to the house or barn you have a heater that will carry 100 pounds of steam; keeps fire all night. It pays for itself in one winter. Just the thing for florists or poultry raisers. We show two cuts, one showing boiler used as a cooker, the other showing an inside view. You will notice the flues are the same as in all first-class boilers, and are not to be compared with the cheap, light steamers on the market that rust out in one or two seasons. We also call your attention to the fact that one of our strongest points is that it is furnished with a new improved force pump, so the operator may put water in at any time without letting down the steam and stopping the progress of cooking. The cooker complete, which we furnish at the following prices, include two gauge cocks, blow-off cock, pump for supplying the boiler with water, safety valve, 2 foot 6 inch suction hose and three feet of steam hose with valve to convey steam to the barrel or vat for cooking feed or boiling water. Full directions sent with each cooker how to set up and operate. A boy can operate it and do so with perfect safety.

Paris Green Sprinkler.

Every one that raises potatoes should have one of these sprinklers.

It enables you to protect your potatoes from bugs. Requires only one-half the amount of paris green used by any other method.

Will sprinkle 1 acre per hour and not wet the person carrying it. Is painted inside and out, and has an apparatus inside by which the paris green and water is kept mixed constantly.

The quantity to be used is regulated by pressure of the fingers on the hose at the connection of hose and tin pipe.

No. 87165 Price, each.....$3.35

OUR Guarantee

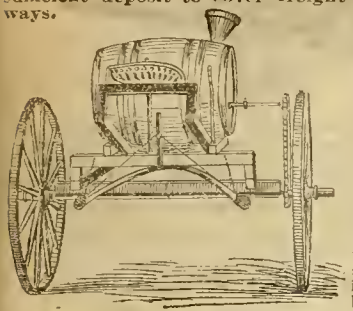
We guarantee every article exactly as represented and if not always found so WE WILL REFUND YOUR MONEY.

Our Prices are Always Lower

than the same goods can be had elsewhere. . . . .

Our $25.00 Western Potato-Bug Sprinkler.

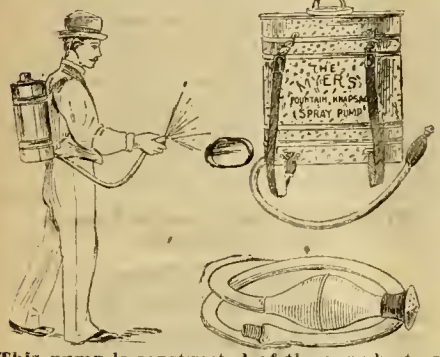
$25.00 is our regular price when sent by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways.



This is the best potato bug sprinkler on the market. It applies the poison upon two rows at once, and will cover 12 to 15 acres per day. It is the cheapest, simplest and most perfect potato-bug sprinkler ever invented. Any boy that can drive a horse can perform more easily the same amount of work it heretofore required 12 men to perform in the same time. You have complete control over the quantity of water you wish to throw; opening or closing the valve with the lever. The wheels run on tubular axles and can be shifted to any width of rows desired, 2 to 3 feet. Weight, 450 lbs.

No. 87168 Price..... $25.00

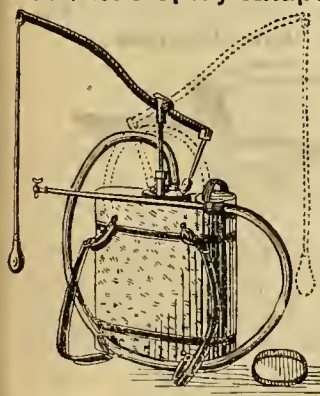
The Celebrated Myers Knapsack Spray Pump at $2.25.



This pump is constructed of the very best galvanized iron with round corners. Built with tight lid to prevent the liquid from splashing on the operator. It is fitted with adjustable straps so as to be carried on the back where it cannot be carried by the bale. The hose and bulb are made of the best white rubber, and protected at each end by coiled wire to prevent breaking. The valves are made of brass and will not corrode. Have large openings which permit a free flow of water, and shut off instantly when under pressure. Nozzle is made of brass, nickel plated. Has 50 small openings and throws a spray 6 feet wide, a distance of 12 feet. Will work at a rapid walk. Holds 5 gallons. Weight, 15 lbs. when full.

No. 87170 Pump complete with one tube, rubber bulb and hose. Our special price..... $2.25

Our $4.90 Spray Knapsack Pump.



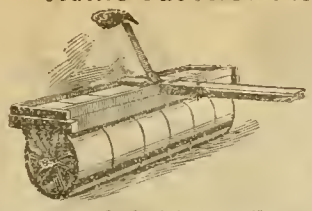
$4.90 is our price when sent by freight C. O. D. subject to examination on receipt of a sufficient deposit to cover freight charges both ways. This is a thoroughly first-class outfit, designed for orchard, vineyard or general use. Four to six acres of vines can be covered in one day. The tank holds five gallons and is fitted with lid and strainer which can be removed. It is a brass bucket spray pump, with air chamber, ball valves, solid plunger and agitator. We wish to call attention to the fact that this is the only knapsack spray pump on the market with an agitator. It is so arranged that no water can drip on the operator. The pump can be removed easily. It can be carried by hooking snap in staple on opposite side, provided for the purpose, as shown by dotted lines. The handle lever can be shifted from right to left shoulder at will.

No. 87173 Price..... $4.90

Hand Roller.

No. 87176 Just the thing for rolling lawns. Made entirely of iron. The roller is one piece of cast iron, 26 inches in diameter and 18 inches wide. Weight, complete, 190 lbs. Price, each, $8.25

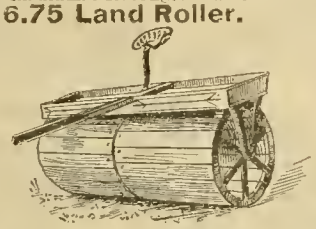
Acme Cast Iron Field Roller.



Our Acme Cast Field Roller is made of cast iron with wood frame. Has improved standards or hangers which are the most expensive hangers in use. Has removable bearings which can be replaced at a small expense and which has a hollow space to carry tallow, so that the roller can at all times be oiled and at the same time protects the bearings from dirt and dust. All wood parts are painted two coats vermilion, striped and varnished. Weight, 1,000 lbs.

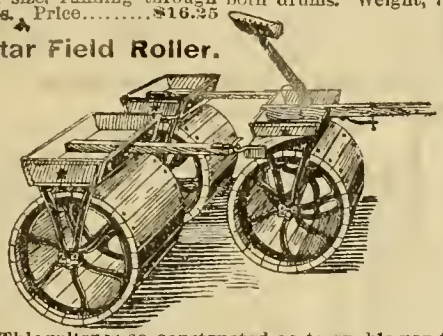
No. 87179 Size 22-in. diam. 6 ft. long, 6 drums..$24.00
No. 87180 Size 26-in. diam. 6 ft. long, 4 drums 26.00

Our $16.75 Land Roller.



No. 87183 This is the best Land Roller on the market at anything like the price. It is light-running, easily balanced roller. Each drum turns independently of the other. The drums are 3 feet 9 inches long, and 30½ inches in diameter. The stays are of white oak, bolted to strong, cast heads. The box is 22 inches wide by eight feet long, supported by heavy brackets in the center and at both ends, to an axle 1¼ inches in size, running through both drums. Weight, 700 lbs. Price..... $16.25

Star Field Roller.



This roller is so constructed as to enable you to roll all the ground. It leaves no ridges in the center, and conforms itself to uneven ground. It can be weighted when necessary for crushing lumps, although we do not claim this roller equal to a rigid one for this purpose, as it needs a roller of small diameter, such as our Star Cast Iron Roller. It is very light draft and very easy to handle on account of its flexibility. The drums are 30 inches in diameter, the staves are bolted on to the heads, and made of 2-inch oak, shouldered to receive the iron heads and so bolted to the heads as to be very strong and rigid. The heads revolve on 1⅞-inch axles, which are held firmly by the cast standards bolted to frame. It covers 10½ feet of ground. It has a comfortable spring seat. Roller painted two coats of vermillion, nicely striped and varnished. Drums painted brown; 10½ feet long, 30 inches in diameter. Weight, 1,100 pounds.

No. 87185 Price, complete..... $22.00

Square Wood Watering Tanks.

Our prices are from $10.15 to $19.00. These tanks are made of the very best seasoned lumber, thoroughly well ironed and stayed, and guaranteed not to leak.

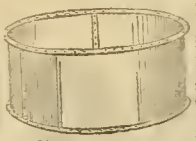
No. 87219 Covers for round wood tanks, 5 ft., $2.00
No. 87220 Covers for round wood tanks, over 5 ft. 2.5

The capacity of these tanks in barrels is based on 32½ gallons to the barrel.

We can furnish larger sizes. Special prices quoted upon application.

Galvanized Riveted Steel Tanks.

These tanks are durable, will not shrink, swell, leak or fall down, will weigh only one-half as much and are very much stronger than the wood tanks.



Capacity, one-quarter more, because the sides are straight and the bottom is the bottom. No soaking required, for they never leak. A fire box of either stone or brick can be built under this tank, forming an excellent tank heater. These tanks are made of the very best quality 17-gauge galvanized steel.

$6.75 buys a 6-barrel capacity galvanized steel tank.

$19.20 buys a 30-barrel galvanized steel tank.

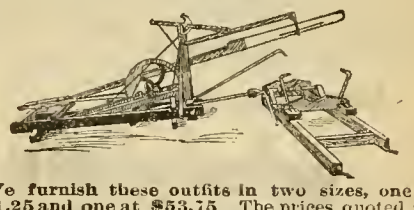
Our Eclipse Self-Feed Drag Saw for $51.25.



We furnish these outfits in two sizes, one at $51.25 and one at $53.75. The prices quoted are our regular prices, at which we will ship the outfit by freight, C. O. D., subject to examination, on receipt of sufficient deposit to cover transportation charges both way.

The Eclipse Self-Feed Drag Saw Machines are the best on the market. They are manufactured at Manitowoc, Wis., by a concern which has a reputation for making the best drag saws made. They have heavy hardwood frames, steel shafts and well babbeted boxes. The large fly wheel has weighted balance to perfectly offset the weight of saw pitman, thus giving an easy, steady motion. Occupies less space than any other machine, thus making it convenient for staking or fastening for work. Each pulley is easily detached and belt can be used to run a circular saw or other machine when you have more power than is required to run drag saw alone. Pitman boxes are so arranged that they are easily adjusted to compensate for any wear that may occur. Strokes of saw can be adjusted to either 16, 20 or 24 inches; 20 feet of log carriage, trucks, rollers, boxes, etc., are always furnished as extras. Can be geared to fit any style, sweep, tread or steam power.

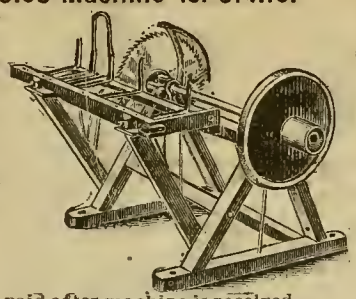
No. 87275 Our $51.25 machine is recommended for all ordinary farm and timber work. Price..$51.25

No. 87276 Our $53.75 machine has extra-heavy shafts and boxes, otherwise the same as the $51.25 outfit. Is recommended where extra-heavy work is required or if the machine is to be driven by steam power. The outfit weighs about 1,000 lbs. and the price quoted is for same delivered on board the cars at our factory. Price..... $53.75

No. 87277 Pony Hand-Feed Drag Saw, equal in capacity to above, except the log is fed forward by hand lever. Weight, 1,000 lbs. Price, with saw..$34.90

Our Celebrated Eclipse Circular "Tilting Table" Saw Machine.

A $25.00 Machine for $14.10.



Guaranteed in every respect.

At our regular prices we will ship these machines by freight, C. O. D., subject to examination, on receipt of sufficient deposit to cover freight charges both ways, balance and freight charges to be paid after machine is received.

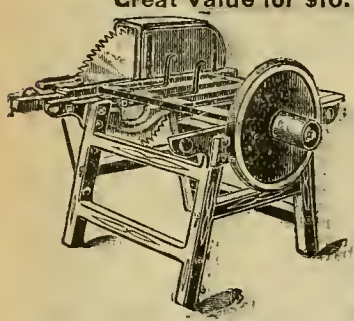
We believe the Eclipse Circular Sawing Machine is superior to any other made. The frame is of hardwood, strongly mortised, the joints fastened by iron bolts at both top and bottom. The shaft of saw or mandrel is steel, and is not weakened by being turned down at the bearings. The boxes or bearings are extra long to insure steadiness. The feed frame holds long or short timber with equal facility. The lever holds the timber, thus avoiding any danger of the operator's hands coming into contact with the saw. The pieces as cut fall to the ground and do not require, as on many machines, an extra man to remove them. The machine is warranted to give satisfactory results in actual trial. Most machines possess some of the features described above, but we make the assertion, and with no fear of successful contradiction, that the Eclipse Saw is the only saw on earth which possesses all of them, and it stands without a rival as a successful general purpose farm saw machine. Has 1½-inch steel shaft. Arbor is fitted for saw with 1¼-inch hole. Can be geared by general wind-mill or any other kind of power.

Price given below is for frame complete, without saw blade. Weight, 275 lbs. Speed required, 1,000 to 1,500 revolutions per minute.

No. 87285 Price, without saw.....$14.10

Acme "Sliding Table" Saw.

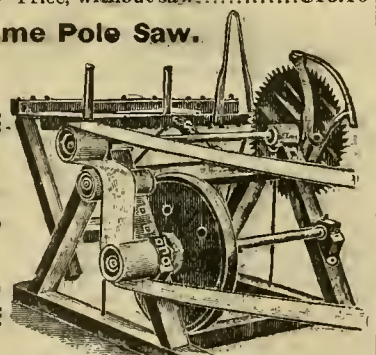
Great Value for $16.10.



The prices quoted are for the mill when shipped by freight C. O. D., subject to examination, on receipt of sufficient deposit to cover the freight both ways. The circular saw mill has been made for years and is too well known to require any special comment. The frame is strong and heavy, with iron sides or bed; table extends outside of saw and slides on rollers. Shaft, 1½-inch steel, boxes babbitted, pulley 5-inch, with 9-inch face. Arbor fitted for blade with 1¼-inch hole. Weight, 300 lbs.

No. 87288 Price, without saw.....$16.10

Acme Pole Saw.



$17.20 Buys a ..$30.00.. Pole Saw.

The above cut represents our Acme Pole Saw. The name suggests the purpose for which this saw is intended, and to meet the demand for such a machine we have spared no pains in making every part first-class. The shafts are 1½-inch steel, running in babbitted boxes; all the braces are welded. Notice the balance wheel shaft runs clear across the frame in heavy boxes at each end, pulleys 5-inch and 6-inch face. The saw works equally well on cord-wood and is just the thing for every farmer. Arbor fitted for blade with 1¼-inch hole. All fully guaranteed. Weight, 350 lbs.

No. 87292 Price, without saw.....$17.20

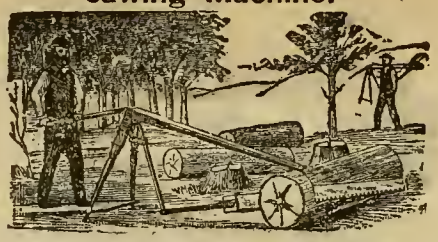
Sawing Machine.



No. 87295 This machine is sold at a low price and is an efficient and easy running implement; furnished with the very best Disston Champion tooth saw; has all the advantages of any hand power cross cut saw made; the uncomfortable bent position when sawing in the usual way is overcome and a natural upright position secured, enabling the full force and weight of the body to be thrown on the saw; weight, 44 lbs. Price, with one 5-foot saw.....$7.50

Circular Saws.

No. 87298 Henry Disstons & Sons Circular Saws to be used in connection with the above wood and pole saw-frames. This make of saw is so well known that they need no recommendation from us. They have been manufactured for over 50 years, and have always held their reputation for being the best saws made. Every saw is warranted to be made of the finest steel and free from flaws.

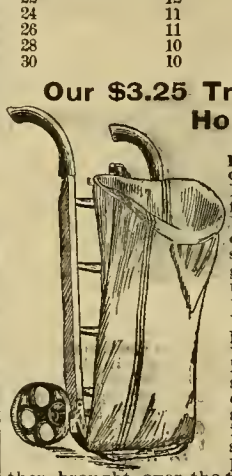
Our $3.25 Truck with Sack Holder.



No. 87302 This is an implement that is almost indispensible on the farm. It is worth its cost a dozen times over every season. We believe it is the best combination truck and sack holder made. We can guarantee it superior to those offered by many at from $3.50 to $5.00. The illustration represents the sack placed on the holder and truck ready for filling. The holder is composed of a semi-circular malleable casting, to which is hinged a steel spring bar. The casting has a flange on the outside over which the sack is placed. The spring bar is then brought over the top of the flange and placed directly under it. This holds the sack firmly and cannot injure it in the least. Our price for truck with combination sack holder, complete.....$3.25

Trucks.

No. 87305 Warehouse Truck (like cut). Hardwood, well ironed, neatly finished. Axles turned and wheels bored. Steel nose, side straps, axles and legs. We guarantee this the best truck on the market, and, quality considered, 20 per cent cheaper in price than any other.

No. 87308 Daisy Truck, with steam bent handles. Length of handle, 46 inches; width at nose, 12 inches; at upper cross-bar, 17½ inches. Weight, 30 lbs.

Price, each.....$1.60

Our Special Price ... of $1.60

ought to induce you to give us your order if you are in the market for a light truck. The man who makes these trucks has the reputation of making the best trucks sold in Chicago.

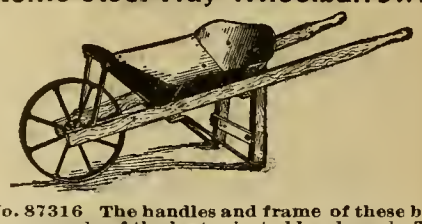
Barrows.

This wheelbarrow is well made. Has full sized tray-wheels 16 inches in diameter. When packed for shipment wheel is bolted on inside of tray and legs are folded on side of handle. Can be easily set up by any one.

No. 87312 Half bolted railroad Wheelbarrow, with wood wheel. Each.....95c

No. 87313 Half bolted railroad Wheelbarrow, with steel wheel. Each.....$1.05

Acme Steel Tray Wheelbarrow.



No. 87316 The handles and frame of these barrow are made of the best selected hardwood. The braces pass from frame around bottom of leg, thus forming a shoe on which the weight rests. The wheels are steel, 17 in. in diameter. Tires ⅜x1⅜ in.; spokes ⅜ in. Trays are of heavy sheet steel with edges turned over. A ⅝-in. rod which passes entirely around the tray, thus preventing it from breaking at its weakest point, the edge. Just the thing for canal, firemen, etc. All parts are heavily painted. If you are looking for a good, well made barrow, one that will last a life time, we have it in this.

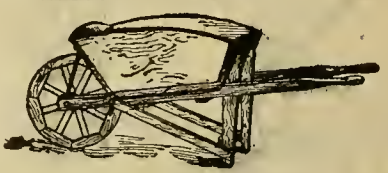
Price, each.....$2.20

Our $2.10 Handsome Lawn Wheelbarrow.

No. 87320 This is the handsomest and best Lawn Wheelbarrow made. This wheelbarrow has finely shaped handles, braced with steel; two coats of brightest and best vermillion paint; one coat of high-grade varnish; sideboard staples are rivited, non-pull out. It is the best wheelbarrow for the money on the market. They are fitted with steel wheels, 18 inches in diameter. In this feature they are incomparable. There are few barrows on the market having wheels larger than 16 inches. These wheels are constructed on the latest improved model of the bicycle, and are remarkably light and substantial broad-tired wheels.

Our special price for this wheelbarrow.....$2.10

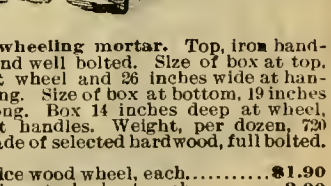
Mortar Wheelbarrow.



Tight box for wheeling mortar. Top, iron banded, iron braced and well bolted. Size of box at top, 29 inches wide at wheel and 26 inches wide at handles; 32 inches long. Size of box at bottom, 19 inches wide, 20 inches long. Box 14 inches deep at wheel, 8 inches deep at handles. Weight, per dozen, 720 lbs. Frame is made of selected hardwood, full bolted. Weight, 60 lbs.

No. 87323 Price wood wheel, each.....$1.90
No. 87324 Price, steel wheel, each..... 2.00

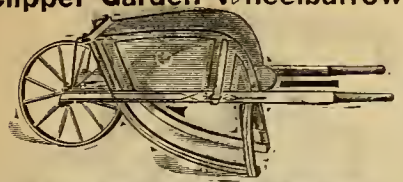
No. 87326



The tray is made of one piece of No. 16 steel of the same thickness throughout. The edges of the trays are flanged and turned over a ⅛-inch steel rod. This rod prevents the tray from breaking at the edge and makes it very much stronger. As the steel of the tray is of uniform thickness, there are no thin corners to give out after using a short time. These barrows are made to dump forward and are so constructed that at the dumping point they will not run back on the operator. They are well bolted and braced and made of the best material and painted. The wheels revolve on a heavy bolt which also passes through the handles and so materially strengthens the barrow.

Price, each.....$4.95

Clipper Garden Wheelbarrow.



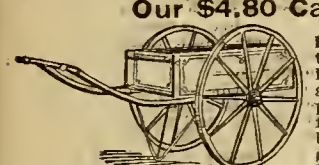
No. 87330 Clipper, garden Wheelbarrow is strong, well made. Frame is made of selected hard wood. Mortised joints. Legs are one solid piece of wood which adds greatly to the strength and beauty. Nicely painted and striped. The best garden barrow made at any price. With steel wheel. Price.....$2.50

Bent Handle Stone Barrow.

Made for heavy work. Bottom and front of 1¼-inch hardwood, dressed and well seasoned. Barrows painted brown. Size of bottom 28 inches wide, 27 inches long and 11 inches high in front. Handles 2x3 inches, dressed, made of oak, rock elm or hickory.

No. 87335 Price, wood wheel, each.....$2.40
No. 87336 Price, steel wheel, each..... 2.50

Our $4.80 Cart.



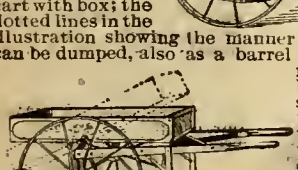
No. 87340 $4.80 is the price for this cart on regular terms. This is a very useful implement on the farm, about the barns, stable or garden. Has 36-inch wheels, box is 24x36 inches in size, 10 inches deep. Has removable end boards, bent handles, iron foot rest, iron hubs, is well painted and striped. In every respect a first-class job. Weighs 85 lbs. Price.....$4.80

Our $3.20 Wood Frame Barrel Cart.

No. 87345 $3.20 is our price on regular terms. We furnish the trucks only, which can be attached to any barrel. Very useful for gardening and feeding purposes. Large flanges to fit any barrel. Two of these barrels will be found very convenient, one kept near the kitchen door to be filled with skim milk or other slops, while the other is to be kept at the piggery. The patent device to be attached to different barrels costs more, and is not as convenient as a set of wheels and handles to each barrel. Please note that we do not furnish the barrel, but any good molasses or kerosene barrel will answer. Weight, 65 lbs. Price.....$3.20

Our Combination Barrel and General Utility Cart.

This is a combination implement that is almost indispensable on any farm. The two illustrations show this combination barrel and general utility cart used as a handcart with box; the dotted lines in the illustration showing the manner in which the box can be dumped, also as a barrel cart with the box removed, which can be done in an instant. The attachment to barrel and the attachment for the automatic dumping of the box are also shown in one of the illustrations. The barrels have iron gudgeons bolted to each side. The cart will pick up the barrel or box in a moment. One cart answers for any number of barrels required. We furnish everything here shown (except the barrel) for $6.00. Wheels are 30 inches high. Box is 4 feet long, 2 feet 6 inches wide, 6 inches deep. Please note that we do not furnish the barrel, but any kerosene, molasses or vinegar barrel will answer. Weight, 100 lbs.

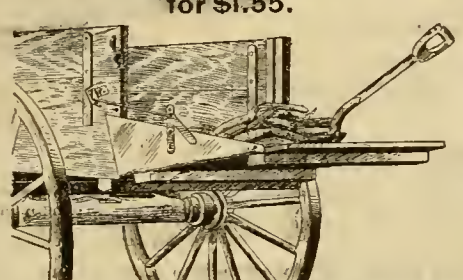


No. 87350 Our price for cart with box, as here illustrated, with iron bars for 1 barrel.....$5.75
No. 87351 Without box..... 4.15
No. 87352 Irons for each additional barrel. Per pair.....70c
No. 87353 Cart box iron. Per pair.....65c
No. 87354 Axle irons. Per pair.....95c

Our $3.25 Steel Frame Cart.

No. 87356 $3.25 on our regular terms. This cart is made entirely of steel, no wood being used in its construction. The frame, wheels, and all are made of the very best Bessemer steel, all made extra strong, and will stand any kind of usage. We do not furnish the barrel, but only the frame, wheels, and iron to attach to barrels. It will fit to any kind of a barrel, kerosene, molasses, or vinegar barrel. Weight, 49 lbs. Price.....$3.25

The Acme Shoveling Board for $1.55.



No. 87360 No loose parts to be detached or to be lost. The rods do not extend below the box to catch or get bent. It is not attached to the box, making it more substantial. It can be thrown on top of the box without detaching. Very useful in dumping grain or shelled corn, or on hog or sheep racks. Weight, 45 lbs. Price.....$1.55

The Best All-Steel Road Scraper Made for $4.30.

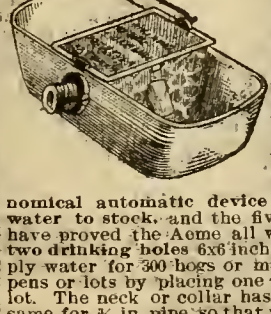
For $4.30 we offer a road scraper that you could not buy elsewhere within 50 per cent of the price. Guaranteed the best made. Made from heavy plates of steel specially hardened and stamped from one sheet without joints, seam or rivet. It is superior to any other drag scraper on the market. The bowl being made of thicker and harder steel enables it to scour where all other scrapers fail, and, owing to the sharp, rounded nose, will enter the ground more readily than any other scraper. Bowls are steel, perfect working, handles are best hardwood. Will guarantee this scraper in every particular. Is made in three sizes.

No. 87365 Carries 3 cubic feet of earth; weight, 90 lbs. Price, each.....$4.30
No. 87366 Carries 5½ cubic feet of earth; weight, 100 lbs. Price.....$4.80
No. 87367 Carries 7 cubic feet of earth; weight, 110 lbs. Price.....$5.30

All our scrapers are furnished with runners on bottom without charge. The runners increase the durability and materially lessen the draught in hauling.

The Acme Automatic Stock Waterer.

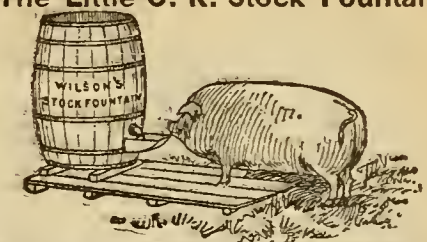
Supplies Pure Water to Hogs, Sheep, Poultry, Horses, Cattle, etc.
The necessity of clean, pure water for stock is evident to everyone.



Impure water and an insufficient supply breed diseases and have caused losses amounting to millions of dollars. In many instances cases of the cholera can be traced to impure water. Much of this danger can be removed by the expenditure of several dollars. For the sixth season we offer the Acme as the simplest and most practical and economical automatic device for furnishing pure water to stock, and the five years of experience have proved the Acme all we claim for it. It has two drinking bowls 6x6 inches in size, and will supply water for 300 hogs or may be set to supply two pens or lots by placing one drinking bowl in each lot. The neck or collar has a thread cut inside of same for ¾-in. pipe, so that water may be run from tank at house or barn to pen by simply screwing ¾-in. pipe to same. The supply of water is regulated by a simple float valve under the covered part of the trough, which is thoroughly covered and protected from the mud by our patent "mud guard" and galvanized "mud-proof" partition. Every waterer guaranteed satisfactory or money refunded. Directions for attaching in each trough.

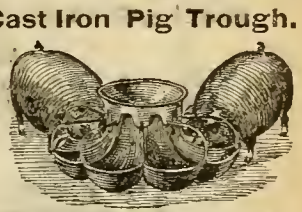
No. 87370 Price, per doz., $17.00; each....$1.50

The Little O. K. Stock Fountain.



No. 87380 Is the only absolutely Automatic Fountain made. Simply bore a hole and then screw the pipe (which is part of the fountain) into the barrel, and it is ready for use, requiring no further attention. It has no working part except the valve, which is beyond the reach of the stock and located where dirt or sediment cannot lodge. Weight, about 11 lbs. Our price complete.....$1.60

Our $4.70 Cast Iron Pig Trough.



No. 87388 In each trough there are 8 compartments; eight large hogs can eat at one time. Different kinds of feed can be fed at the same time, the bowls preventing them mixing. Hogs can not upset the trough and waste their feed, nor is there any leaking. Made of cast iron they will not break; in fact are indestructible. Height, 24 inches; width, 32 inches; weight, 120 lbs. Our special price.....$4.70

Annealed Baling Wire.

This is soft annealed baling wire intended for hay baling. It is put up in coils of about 65 pounds, and is sold only in full coils. We will not break coils and ask you in ordering to specify quantities such that full quantities may be sent; for example, 65 pounds, 130 pounds, 195 pounds, 200 pounds, 325 pounds, etc.

No. 87394 No. 12 wire, per 100 pounds.....$1.75

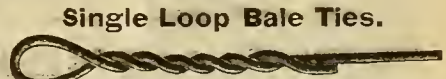
No. 14 wire, per 100 pounds..... 1.95
No. 15 wire, per 100 pounds..... 2.05
No. 16 wire, per 100 pounds..... 2.45

Single Loop Bale Ties.



Our ties will give you best satisfaction, for they are made from a carefully selected stock, specially annealed steel baling wire, which is carefully tested as to size and strength, before it leaves the factory.

If consumers would gauge other makes of wire and count the ties in the bundle, they will be surprised to find a large per cent. in our favor. Sold only by bundles of 250 ties. Not sold by the pound.

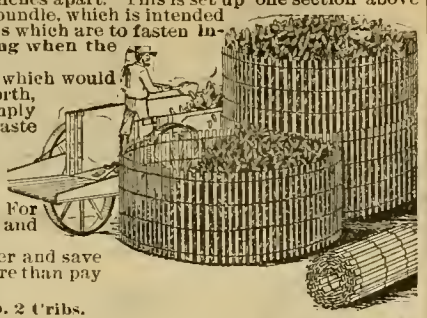
Adam's Portable Corn Cribs.

Adam's No. 2 Corn Crib is made of heavy hardwood fence lath four feet long, woven between six sets of steel cables made of two No. 15 galvanized wires each 1½ inches apart. This is set up one section above the other, making the crib 8 feet high. To the outside of the bundle, which is intended for the lower section of the crib, we attach three wire cables which are to fasten inside of the door opening to prevent the crib from spreading when the door is opened.



If you can not afford to build large, expensive cribs, which would doubtless cost you more than the corn in them would be worth, buy Adam's Portable Corn Cribs. You can not afford to simply pile your corn up in a heap as the amount you would thus waste would pay for Adam's Portable Corn Cribs each season.

If your corn fields are a long distance from the house you can save time and money during the husking season by erecting cribs convenient to the fields and filling them, and hauling the corn during the less busy months of winter. For feeding stock in the field, nothing can be more convenient and economical than Adam's Portable Corn Cribs.

When you shell your corn, set a crib under the cob carrier and save your cobs in good order for fuel. This saving of fuel will more than pay for one of Adam's Portable Corn Cribs.

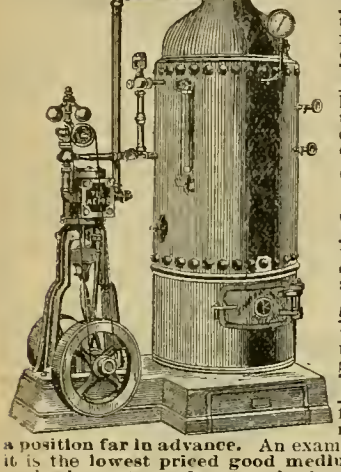
ENGINES AND BOILERS.

THE PAST YEAR has developed such inquiry from farmers, mechanics, manufacturers and others for medium, low-priced boilers that we have set about to make satisfactory arrangements, in fact, such arrangements as will enable us to meet this demand, and at a saving to our customers of the profit of the retail dealer and a portion of the profit of the manufacturer. That we can save you this profit our prices and descriptions we feel sure will clearly demonstrate.



THE ENGINE AND BOILER that we handle is made by one of the largest and most reliable manufacturers in this state, and are guaranteed in every respect. If not found exactly as represented, we will pay the freight both ways and cheerfully refund your money.

THE PRICE IS NET CASH. There is no discount whatever from the price quoted on these goods. We have succeeded in getting the manufacturer down in price to practically the cost of the material and labor, and to this we have added but a few dollars on each outfit for ourselves and cannot give a percentage of discount for cash without depriving us of all our profit.

Our $120.00 Two-Horse Power Engine and Boiler.

WE OFFER FOR $120.00 a 2-horse power boiler and engine complete, which we believe is greater value than has ever before been sold less than $160.00 to $175.00. It is one of the best outfits that is made and should not be compared with a cheap class of machinery.

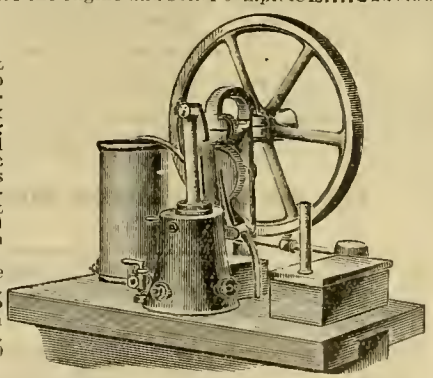
A BINDING GUARANTEE. A binding guarantee goes with every outfit, by the terms and conditions of which if any piece or part is not perfect in mechanical construction, material, etc., we will hold ourselves responsible to make the deficiency good.

THE ACCOMPANYING ILLUSTRATION of our 2-horse power boiler and engine is engraved direct from a photograph. In comparison with many motors seeking recognition at the hands of the public our Acme Engine and Boiler occupies a position far in advance. An examination into its construction will convince any reasonable person that it is the lowest priced good medium power on the market, the best small engine now offered. The engine is constructed on exactly the principle as the larger engines we build, except that the cylinder of steam chest and crank shaft bearings are all made of one solid piece, hence cannot get loose or out of line.

No. 87402 Our special net spot cash with order price for the engine and boiler complete is....$120.00

Racine Gas Engine.

¾ Horse Power Racine Gas or Gasoline Engine.

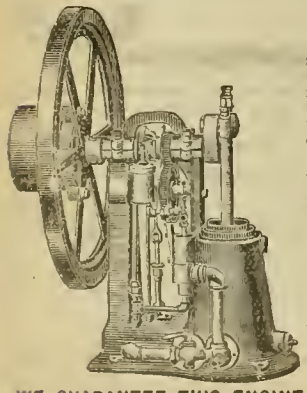


The Racine Vertical Engine is without doubt the most practical machine of its kind on the market. It is no experiment, having been used by hundreds of our customers the past five years with the best results. The crank shaft is of steel, well supported by two bearings, being made extra strong. We use an automatic governor, placed between two bearings. Charge is ignited by an electric spark (no fire being used), cylinder is water-jacketed its full length, gasoline tank is iron, water tank of heavy galvanized iron. Main bearings lined with genuine babbitt metal and are adjustable to wear. We furnish Electrical Igniter and Battery complete. Engine can be started in five minutes.

The cost to operate depends on the price of fuel where engine is used. If run by gas, 120 ft. per hour will be used. If gasoline 3 quarts for 10 hours. Full directions how to operate sent with each engine which can be understood by a 10 year old boy. It does not take an expert to run it. Shipping weight, 250 pounds. Base, 18x36 inches. Speed, 350 revolutions per minute.

No. 87403 Price, each.....$58.50

Racine 2-H. P. Engine.



The Racine 2-H. P. Gas or Gasoline Engine. We have designed the Engine to meet a demand for a strong, compact, well made motor. Cuts show the Engine fitted to run with gasoline. By removing gasoline attachments, it can be run with either natural or artificial gas. It is very simple and any one can learn in a short time to operate it successfully. With the electrical igniter this engine can be started in a few seconds; there being no fire, it can be set almost any place with perfect safety, or can be run outside in the wind. For farm use there is nothing its equal. It can be used for pumping, cutting and grinding feed, sawing wood or any work for which power is required. It is also well adapted for running small dynamos for lighting, printing presses, small elevators and shops of all kinds. Every part of this machine is well made from the best material and the workmanship is of the highest order. All parts are made to gauges and are duplicate. Making them in large lots and selling for cash, admits of the low price quoted.

The cost to operate will depend some on the price of fuel where engine is used, when used with gasoline they require 1-10 of a gallon per hour, per h. p.; when run with gas, about 16 feet per hour per h. p. Amount of fuel used is always in proportion to the work being done, so if engine is being used at one-half power only one-half the fuel is being used.

WE GUARANTEE THIS ENGINE to develope 2 actual horse-power at 300 revolutions per minute, and for one year against defective material and workmanship. It is simple, durable and safe, everything up to date.

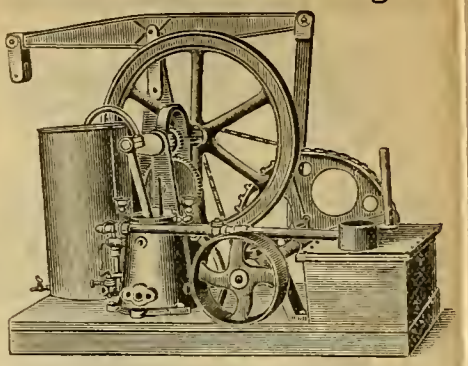
No. 87404 Price..... $120.00

Racine Gasoline Farm Engine.



The Racine engine is 1 H. P. geared to a counter shaft running fifty revolutions per minute, which is the right speed for pumping. A slower speed than this can be had by changing the governor on the engine. Four changes from 4 to 10 inch stroke can be obtained by changing the stud in the large gear. This outfit will lift and force up 5,000 gallons of water per hour. The exact amount will depend on size of pump cylinder, piping, height water is lifted, etc. The engine is provided with an automatic governor which controls the speed as well as the supply of fuel. One gallon of common stove gasoline will run engine for 10 hours on a full load or less than this if the load is light. With suitable size pully on the counter shaft, engine can be used for running cream separators, churns, feed cutters or any machine about the farm a 1 H. P. engine will run. In setting this outfit for pumping, all that is necessary is to make a box same size as the base on which the outfit stands, and 24 inches high, then place the outfit complete on the box; this will raise it high enough to connect with pump as well as make it handy to operate. Fill box with sand or stones; this is necessary to make a good foundation and get the best results. Bolt the base to box with coach screws and move the whole outfit in line with pump rod; connect up walking beam with rod and the machine is ready for work.

If engine is used in connection with a wind mill, as an auxiliary power, the walking beam can be thrown back out of the way by removing bolt in beam head. When engine is wanted for other work than pumping, remove stud in large gear. This outfit is so exceedingly simple that any one can learn to operate it in a very short time. It is absolutely safe, for it is impossible to have an explosion from either the engine or gasoline tank. There being no fire used it can be set up in the barn with perfect safety. We guarantee this outfit to be as represented in this printed matter, and for one year against defective material and workmanship. Any part proving defective within this time we will furnish to replace free of charge.

No farmers or stockmen that have stock and are depending on wells for their water supply can afford to be without this outfit. It is always ready, can be started instantly and will take care of itself for hours without attention.

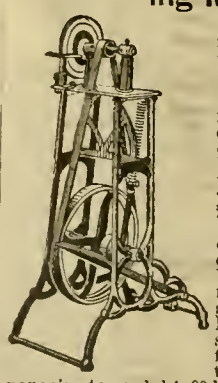
Foot-Power Emery Wheel Grinding Machines.



Here is what every Blacksmith, Carpenter, Gunsmith, Marble or Granite Worker should have. It will pay for itself in one month in any shop. Always ready, can be moved about, as it is not fastened to the floor; occupies only 15x26 inches floor space; height, 3½ feet. Will carry a wheel 4 to 12 inches in diameter. Diameter of mandrel, ¾-inch, downward thrust of pedals, 14 inches. It is made of the best material throughout, is light and durable, has been on the market for a number of years and has given universal satisfaction. In a blacksmith or gunsmith shop it will pay for itself in files alone in a very short time. Speed, 2600 revolutions per minute; weight, 90 lbs; comes complete with 2¼x8 inches flat face emery wheel.

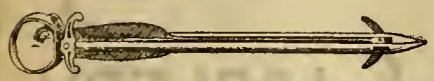
HAY PITCHING TOOLS.

Hay tools are now so well known that it is hardly necessary for us to go into detail in description of them. The goods we sell are made by one of the largest makers of this class of goods, and under another name are sold at much more than our prices. We list here a full line and at prices which (quality considered) are below competition.

The Improved Single Harpoon Hay Fork.

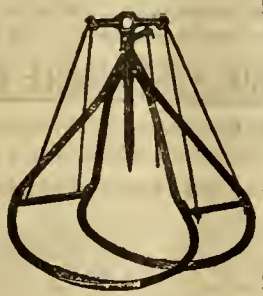


No. 87415 The Improved Single Harpoon Hay Fork. Full regular size. Weight, about 7 lbs. Price, each.....$1.22

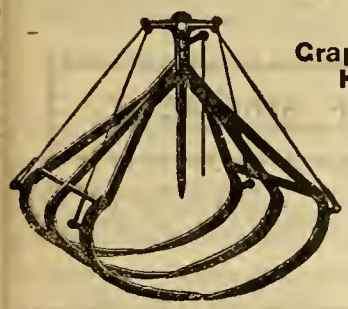
No. 87417 The Double Harpoon Hay Fork, for general use. Made from best quality iron and steel. Weight, about 18 lbs. Price, each.....62c

No. 87418 The Long-Tine Double Harpoon Hay Fork, for loose straw, etc., made in same quality as above. Distance from cross-bar to end of tines, 32 inches. Weight, 30 lbs. Price, each.....$1.27

Grapple Horse Hay Forks.



No. 87420 Grapple Horse Hay Fork, with four tines. Weight, about 40 lbs. Price.....$3.80



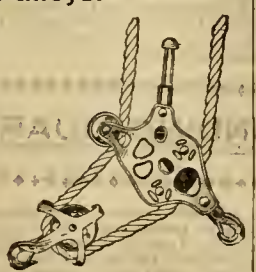
Grapple Horse Hay Fork.

No. 87422 Grapple Horse Hay Fork, with six tines. Weight, about 55 lbs. Price, each....$4.70

Wagon Sling.

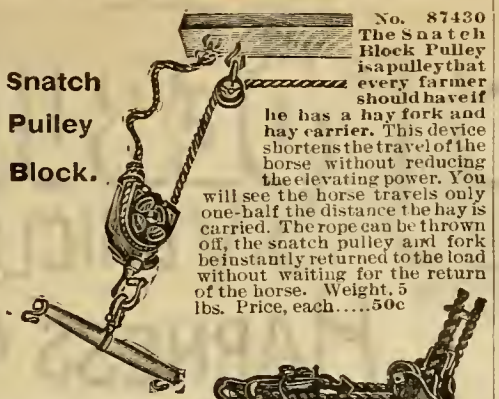
No. 87425 The Standard Wagon Sling is used to take the place of a horse hay fork. Place one of these slings on bottom and another in the middle of load, and load may be removed in two hoists. Most people prefer to use three slings and make three hoists of the load. Is made adjustable to suit any length rack. Cut shows hoist with four spreaders. Two may be used to make the sling lighter. Weight, about 18 lbs. Price, each.....$1.65

Sling Pulleys.



No. 87428 Our Sling Pulley is the best and simplest pulley on the market. It has two pieces in the lock. No springs on same. Its lock is between the two small pulleys. No matter how large or how small the amount of hay is in the wagon sling, it will lock at any place. When the knob of sling pulley enters the hay carrier, the entire weight of hay is on this knob and draws the lock against the rope between the two pulleys, and when load is dumped and hay carrier is returned and strikes the stop block, the knob drops and the sling pulley is unlocked and ready for another load. The above pulley is made for our leader carriers. These pulleys work in connection with our hay slings. Be sure to state kind of carrier pulley is to match. Weight, 10 lbs. Each.....$1.95

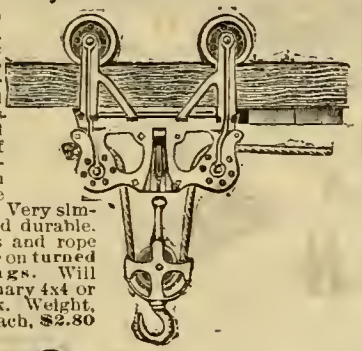
Snatch Pulley Block.



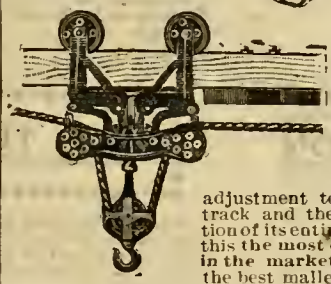
No. 87430 The Snatch Block Pulley is a pulley that every farmer should have if he has a hay fork and hay carrier. This device shortens the travel of the horse without reducing the elevating power. You will see the horse travels only one-half the distance the hay is carried. The rope can be thrown off, the snatch pulley and fork be instantly returned to the load without waiting for the return of the horse. Weight, 5 lbs. Price, each.....50c

No. 87435 This Sling Pulley is to be used in connection with our Standard Wagon Sling and either of our carriers. State which carrier the pulley is to match. Weight, 10 lbs. Price for pulleys as shown in cut (no rope included).....$2.00

Hay Carriers.



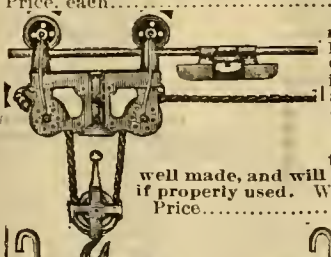
No. 87439 The Sears, Roebuck & Co. reversible Hay Carrier for wood track. Has positive dead lock. Made of the best malleable iron and does the best of work. Very simple, strong and durable. The travelers and rope pulley revolve on turned iron bushings. Will work on ordinary 4x4 or 3x4 wood track. Weight, 27 lbs. Price each, $2.80



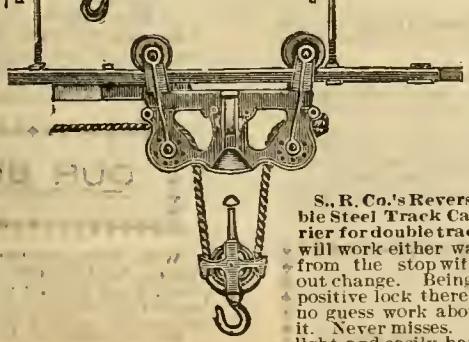
No. 87440 The Sears, Roebuck & Co. Swivel Hay Carrier for wood track. The merits of this carrier are many—Strength; positive dead lock; large flanged wheels. Ready adjustment to the stop on the track and the ease and perfection of its entire operation make this the most desirable carrier in the market. Is made from the best malleable iron. Works on track 4x4 (which should always be dressed), and reverses by swivel without having to pull the rope through. Weight, about 30 lbs. Price, each.....$3.25

No. 87442 Extra stops for wood track carrier. Price, each.....25c

No. 87443 Extra trip pulleys. Weight, 4 lbs. Price, each.....75c



No. 87446 Our new Reversible Rod or Cable Hay Carrier is simple in construction, and will work either way from the stop without changing on the track. Strong and well made, and will give satisfaction if properly used. Weight, 20 lbs. Price.....$3.00

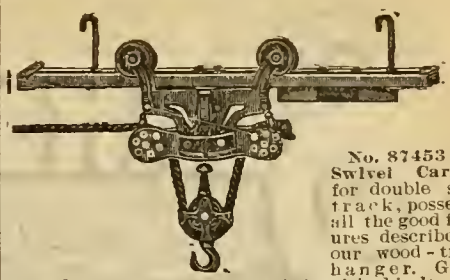


S., R. Co.'s Reversible Steel Track Carrier for double track will work either way from the stop without change. Being a positive lock there is no guess work about it. Never misses. Is light and easily handled. Weight, 27 lbs.

No. 87448 Price, each.....$2.90

No. 87449 Track for above carrier, including coupling and bumper. Price, per foot.....12c

No. 87450 Hanger Hook and Rafter Irons. Price for one of each.....11c



No. 87453 Our Swivel Carrier, for double steel track, possesses all the good features described in our wood-track hanger. Guaranteed in every respect. Track furnished in lengths of 6, 8, 10 or 12 feet. Weight, about 30 lbs. Price, for carrier only.....$3.35

No. 87454 Track for above carrier, including couplings and bumper. Per foot.....12c

No. 87455 Hanger Hook and Rafter Iron. Price, for one of each.....11c

Steel Grapple Hooks.

No. 87460 Solid Steel Grapple Hook, for hooking into rafter or beam where holes can not be bored. Weight, 4½ lbs. Price, each....49c

For the convenience of our customers we show below what constitutes a complete outfit for the various carriers quoted by us. Weight, 140 lbs.

No. 87470 Outfit for Wood Track Carrier for 40-foot barn; everything except wood track, which we do not furnish.

1 carrier, $3.00, 1 fork, 63c; 13 rafter irons, 65c; 13 hanging hooks, 65c; 6 floor hooks, 42c; 5 knot-passing pulleys, $1.25; 110 feet manilla rope, ¾-in., $2.20; 50 feet check rope, 50c.

Complete outfit.....$9.05

If wanted for barn longer than 40 feet, add 8c to this price for each additional foot in length of barn.

No. 87471 Outfit for Steel Track Hanger for 40-foot barn, complete with track; 1 carrier, $3.00; 1 fork, 63c; 40 feet steel track, $4.80; 13 rafter irons, 65c; 13 hanging hooks, 65c; 6 floor hooks, 42c; 5 knot-passing pulleys, $1.25; 110 feet manilla rope, ¾-inch, $2.20; 50 feet check rope, 50c.

Complete outfit, weight, 300 lbs.....$13.90

If wanted for barn longer than 40 feet, add 19c to this price for each additional foot in length of barn.

No. 87472 Outfit for Cable Carrier for barn 50 feet in length: 1 carrier, $3.50; 1 fork, 63c; 50 feet cable with clamps and eye bolts, ready to hang, $2.50; 5 knot-passing pulleys, $1.25; 120 feet ¾-inch manilla rope, $2.40; 75 feet check rope, 40c; 6 floor hooks, 40c; 2 hanging hooks, rafter irons, 30c.

Complete outfit.....$10.38

For barn more than 50 feet in length, add to this price 6c for each additional foot in length.

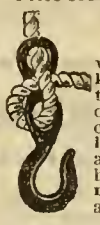
Cable will not be cut for lengths less than 50 feet.

Any parts listed above furnished at prices quoted.

No. 87473 Outfit for Cable Carrier for stack using 50 feet of cable. Stack poles and end stacks not furnished. 50 feet of cable clamps, eye-bolts ready to hang, $2.50; 2 knot-passing pulleys, 50c; 120 feet ¾-inch manilla rope, $2.40; 75 feet check-rope, 40c; 1 fork, 63c; 1 cable carrier, $3.00; two 50-foot piece wire guy ropes with loops and clamps, $2.47. Outfit complete.....$11.50

No. 87474 Outfit for Cable Carrier to be used for either stack or barn, or for both, as desired. Price complete.....$13.00

Rope Hitches.



No. 87480 The places where this device can be used to advantage are only known to those who have had them on their farm. One on each end of a piece of rope often takes the place of a log chain, and is much lighter and better to handle. For hay carrier outfit they do away with twisting of rope. Take-up can be made in a minute's time. They are made of the best malleable iron. Weight about 1 lb. Price, each.....19c

No. 87482 Rafter Irons for use in hanging track. Weight, each, ⅔ lbs. Price, each.....5c

No. 87485 Straight Hanging Hooks for use in hanging wood track to above brackets. Each.....4c

No. 87487 Jointed Hanging Hooks, with wood screw thread on one end for use in hanging wood track to beam without using bracket. Price, each.....9c

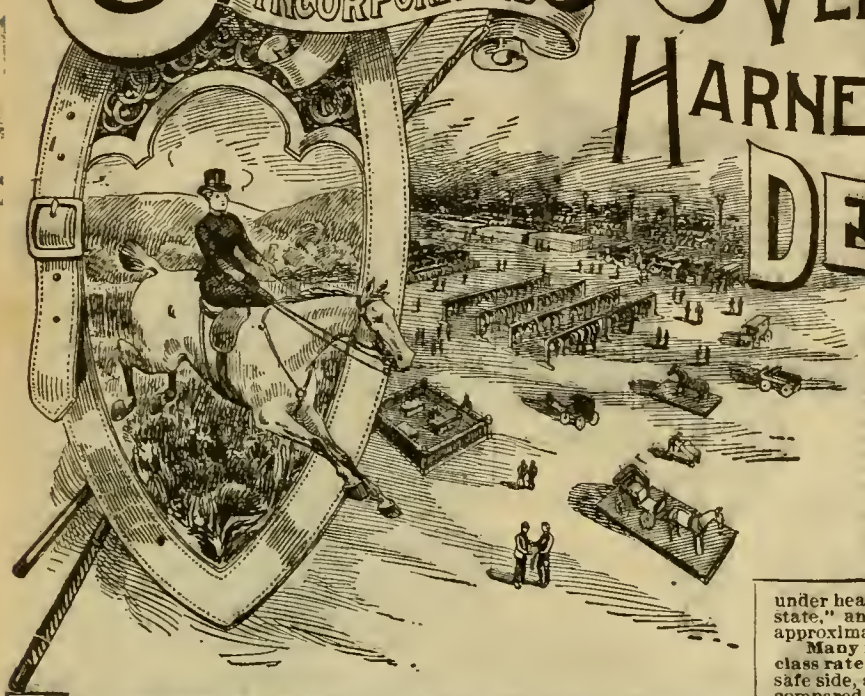
Floor Hooks.

No. 87490 Floor Hook, to screw into floor to hold pulley. Price, each.....7c

No. 87500 Knot-Passing Hay Fork Pulley, will take ⅝ to 1-in. rope. Malleable iron frame; wood sheave. Price, each.....21c

SEARS, ROEBUCK & CO. INCORPORATED

VEHICLE HARNESS & SADDLERY DEPARTMENT



FOR OUR ENTIRE LINE OF VEHICLES, more complete description, more complete information as to how to order, grades, our special facilities, etc., you should send for our

SPECIAL FREE VEHICLE CATALOGUE.

The book is Free, the postage is 5 cents, and we will consider it a favor if you will enclose 5 cents to pay postage.

IN PRESENTING OUR LINE OF VEHICLES FOR THIS SEASON

We desire first to thank our thousands of friends and customers for their orders and the great number of duplicate orders from their localities during the season, which we feel is the result of the satisfaction our vehicles are giving.

THROUGHOUT THE SEASON We will continue to furnish the same high-grade work on the basis of the actual cost of material and labor with but our one small percentage of profit added.

OUR LINE OF VEHICLES Includes the choicest selections from the best makers in the country. Most of them are made under contract for us from special specifications which embody the good points of all strictly high-grade jobs, with the defects of none.

THE PRICES QUOTED Are for the rigs crated and delivered on board the cars at the factory where they are made, and most of our work is made in Michigan, Indiana and Ohio.

ABOUT THE GRADES.

We have divided our work into the following four grades:

UNGRADED—Not guaranteed; vehicles that are made to sell, and not to wear.

B GRADE—Which is our standard grade, and the same that is usually carried by wholesale houses, repositories and first-class retail dealers.

A GRADE—Which is strictly high-grade work, with number one wheels, thoroughly first-class material and workmanship throughout; work that will compare favorably with the best grades that can be bought from the average retail dealer.

AA GRADE—This is the best work that money can buy; best number one wheels, best of material and finish throughout and superior to any work you will find in any ordinary vehicle repository.

A more detailed description of the various grades will be found in our Special Vehicle Catalogue.

FREIGHT RATES.

The freight rates South and East will be less than from Chicago.

To points West and Northwest of Chicago the freight rate will average about 30 cents per 100 pounds more than from Chicago.

To ascertain approximately what the freight will be on any vehicle, refer to the freight rates plainly printed on the fifth page of this catalogue under heading "first-class rate per 100 pounds to the nearest point in your state," and from the weight we give in the description of each rig, you can approximate very closely what the freight will amount to to your station.

Many railroads will accept vehicles only at 1½ times the regular first-class rate, and if you will figure on this basis you will be sure to be on the safe side, and you will find that the freight will amount to next to nothing as compared with what you will save in the price.

OUR TERMS OF SHIPMENT.

Throughout this department we make a cash price and a C. O. D. price, and we advise all our customers to send cash in full with their order, and get the benefit of our special cash-with-order price. You take no risk, for we will immediately refund your money if the vehicle is not entirely satisfactory.

We will ship any vehicle by freight C. O. D., subject to examination, on the following easy conditions:

Any one-seated road wagon, one-seated buggy or road cart, on receipt of $5.00, or any two-seated vehicle on receipt of $10.00, to any address in the following states:

Illinois,	Massachusetts,	Tennessee,
Indiana,	Connecticut,	Virginia,
Iowa,	Delaware,	West Virginia
Kentucky,	New Jersey,	Wiscousin,
Michigan,	New York.	Rhode Island.
Minnesota,	Ohio,	Vermont,
Maine,	Pennsylvania,	New Hampshire.
Maryland,		

On receipt of $10.00 on any one-seated buggy, road wagon or road cart; $20.00 on two-seated vehicles, we will ship C. O. D. to the following states:

Alabama,	Indian Territory,	North Carolina,
Arizona,	Kansas,	North Dakota,
Arkansas,	Louisiana,	Oklahoma,
Colorado,	Mississippi,	South Carolina,
Florida,	Nebraska,	South Dakota,
Georgia,	Wyoming,	Texas.
New Mexico,		

You can examine the vehicle at your freight depot, and if found perfectly satisfactory, pay the freight agent the balance and freight charges.

All orders for California, Oregon, Washington, Utah, Idaho, Nevada and foreign countries must be accompanied by cash in full, in which case you are entitled to our cash-with-order price.

OUR BINDING GUARANTEE.

With every vehicle we sell (except the ungraded work) we issue a written, binding, two years' guarantee, by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship within two years, we will replace it free of charge. With the proper care our guaranteed work will last twenty years.

Be very careful in ordering to state width of track, whether narrow 4 feet 8 inches, or wide, 5 feet 2 inches. If you order a buggy at $45.00 or over in price and wish a special job of painting, state by number shown on pages of color illustration the painting wanted.

Do not ask for any concession in price or terms. We have made our prices as low as we possibly can, consistent with the high grade of goods we handle, and for more information as to grades, price, our general line, special facilities, etc., send for our Free Special Vehicle Catalogue, postage 5c.

Department of Ungraded, Not Guaranteed Vehicles.

To prevent confusing this class of work with our regular Guaranteed and Graded vehicles, it necessitates a department especially for this work which we cannot guarantee.

WE OFFER THIS WORK IN COMPETITON With what many other concerns are selling at prices from $10.00 to $25.00 above our prices and guaranteeing the vehicles. No responsible concern can safely sell this work and guarantee it. A guarantee is worthless unless given by a responsible concern, and as we make good our every agreement, we could not afford to give OUR GUARANTEE on these jobs, knowing the quality of material and workmanship entering into the construction of the work.

We do not wish to sell any of these jobs, and if we do we will not put on our name-plate, as they are a poor advertisement for any house. We merely quote them and will sell any one of them to show you what you are getting when you think you are buying a vehicle cheap from other concerns. The vehicles are very showy, in fact, are made exclusively for show and not for service, guaranteed by many for one and two years, but not guaranteed by us at all.

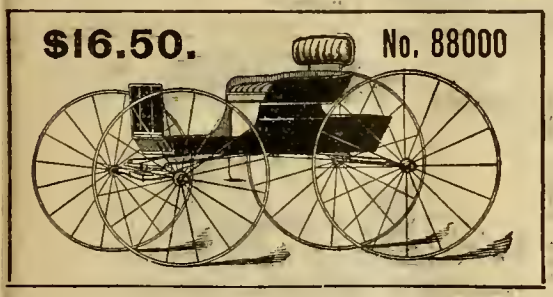
This is the class of work offered by many houses and sold under very glowing colors and descriptions. For instance: The top buggy which we offer at $22.75 is such a rig as is sold elsewhere for from $33.00 to $45.00. Some of these jobs may give fair service, but in most cases they will not.....

THE MATERIAL USED IN THE CONSTRUCTION of these ungraded, not guaranteed vehicles, is left over, commonly known as "culled," "waste," and "discarded" material, which reliable manufacturers will not use in guaranteed work. In a great many instances, where you buy these cheap jobs elsewhere, you will not be able to detect any defects, as the putty, paint and varnish will cover up temporarily the defective parts, but after two or three weeks' usage you will find that you have purchased a very expensive rig, regardless of the seemingly "cheap price."

Our terms of shipment on this ungraded, not guaranteed work, are cash in full with the order. No discount, the price is net; will not ship C. O. D.

THE MANUFACTURERS OF THESE VEHICLES are concerns from whom we do not purchase any of our regular guaranteed work, as we do not consider a factory reliable that will make such jobs, and would not trust any of our guaranteed work being made by them, as we would not know until it was too late whether they had used any such poor material in our regular guaranteed vehicle.

UNDERSTAND WE DO NOT PUT OUR NAME-PLATE ON THESE JOBS, we do not guarantee them, they are not graded, as the material used is too poor to be classified in any grade no matter how low, and when we ship one of these jobs we want it understood that they are not a sample or criterion of what we can furnish in our regular guaranteed work.



UNGRADED, NOT GUARANTEED ROAD WAGON, $16.50.

CASH IN FULL MUST COME WITH THE ORDER. NO DISCOUNT, THE PRICE IS NET. WILL NOT SHIP C. O. D. NOT GUARANTEED. NO NAME-PLATE. MADE OF "CULLED," "WASTE" AND "DISCARDED" MATERIAL WHICH CANNOT BE USED IN THE WORK THAT WE WOULD GUARANTEE.

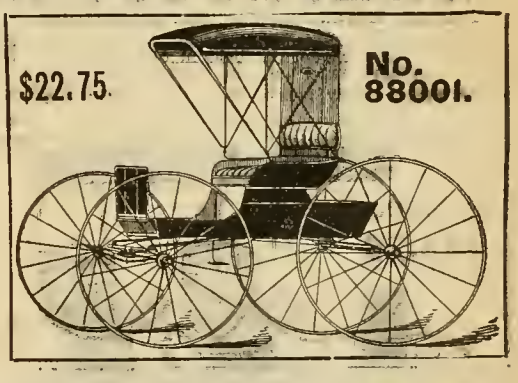
DESCRIPTION.

BODY—22 inches wide, 50 inches long. No boot covering over body back of seat. Plain, short oil cloth in bottom of body.
SEAT—33 inches wide on top of seat panels, 15 inches across top of cushion. Upholstered with enameled drill. Narrow lazy back.
GEAR—Three iron braces, two running from rear axle to center of springs, one from front axle to center of body. No reaches between axles. Plain front axle, coached rear axle.
SPRINGS—Three-leaf side springs hung on malleable clips. No equalizers.
WHEELS—Sarven's patented half-bolted ⅞-inch tire, 38 inches high in front, and 42 inches high in rear.
TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted.
PAINTING—Body black. Gear dark green.
Shafts not leathered. Plain whip-socket. Steps not braced.
Will weigh, crated ready for shipment, about 300 lbs. For freight rates, see Introductory. We do not guarantee safe delivery of this wagon.

UNGRADED, NOT GUARANTEED TOP BUGGY, $22.75.

A Buggy which is not sold elsewhere for less than $33.00 to $39.00.

GUARANTEED BY OTHERS, BUT NOT BY US.



We know the kind of material that is used and the cheap labor that is put into the buggy, and cannot guarantee it.

CASH IN FULL MUST COME WITH THE ORDER. NO DISCOUNT, THE PRICE IS NET. WILL NOT SHIP C. O. D. NO NAME-PLATE.

MADE OF "CULLED," "WASTE" AND "DISCARDED" MATERIAL, WHICH CANNOT BE USED IN THE WORK WHICH WE WOULD GUARANTEE. THE BUGGY IS FAIRLY FINISHED, AS IT REQUIRES PUTTY, PAINT AND VARNISH TO COVER THE DEFECTS IN THE MATERIAL, BUT IS NOT SERVICEABLE.

DESCRIPTION.

BODY—Corning style, 22 inches wide and 52 inches long, straight risers, rear of body not covered with a boot.
GEAR—1-inch axles, drop front axle, straight coached rear axle. Axles braced by two iron straps, running from rear axle to center of springs, and front axle braced with iron strap, running from center of front axle to center of body.
SPRINGS—Three-leaf side springs, hung on clips. No equalizers.
WHEELS—Sarven patent, half bolted, ⅞-inch tire; height, 38-inch front and 42-inch rear.
TOP—Three bows, enameled drill roof, quarters and back stays. Inside of top lined. Full length side and back curtains.
TRIMMINGS—Seat upholstered with rubber. Dash, whip socket, toe rail, washers and wrench. Short oil cloth carpet in bottom of body. Shafts are furnished.
PAINTING—Body black, gear dark green or carmine.
TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to state which is wanted when ordering.

EXTRAS.

Leather quarter top in place of drill top, $6.00 extra.

Upholstered with 12-ounce wool cloth in place of rubber, $1.50 extra.

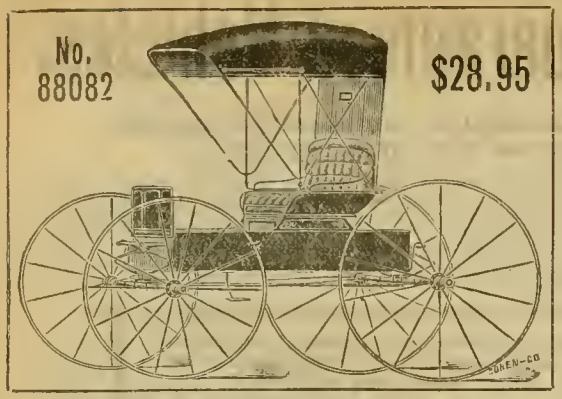
Upholstered with leather in place of rubber, $2.00 extra.

Nickel mountings, dash rail, hub bands, hand holds and prop-nuts, $1.50 extra.

Solid panel drill-covered back in place of open full drop back, $1.00 extra.

Full length wool carpet in place of short oil cloth carpet, 75 cents extra.

Pole in place of shafts, $2.00 extra. Pole in addition to shafts, $4.00 extra. Weight, crated ready for shipment, about 400 lbs. For freight rates, see introductory pages.



UNGRADED, NOT GUARANTEED, END SPRING TOP BUGGY, $28.95.

TO COMPETE WITH WHAT MANY CONCERNS ARE OFFERING in a piano-box end-spring top buggy, and asking from $35.00 to $45.00 for, we will furnish this top buggy for $28.95, to any one who wants it for what it is represented to be. The purchaser of this buggy will not be satisfied, and we do not recommend the sale of it. We do not guarantee this buggy, as our guarantee is drawn up in legal form over our own signature, and as we make good our every agreement we cannot afford to guarantee this vehicle, knowing that there is bound to be an expense in making repairs. It is intended only to meet a class of competition in the vehicle line which is offering the cheapest work that can be produced, goods that are made to sell and not to wear.

THIS BUGGY IS ADVERTISED BY SOME CONCERNS in very glowing colors and descriptions, but our customers are entitled to the truth, and on this basis we earnestly speak for your trade. We do not wish to misrepresent any vehicle listed in this catalogue. On this buggy we do not furnish our name-plate, as we do not want it understood that the buggy is a sample or a criterion of what we do furnish in our regular guaranteed work. The painting, finish and general appearance and style of the rig is good, as it requires style and appearance to sell the rig, and plenty of putty, paint and varnish to cover the defects in the material. To any one buying this buggy we wish to state: Do not expect it to be anything beyond the representations in the catalogue.

Our terms on this buggy are cash in full with the order; no discount the price is net; will not ship C. O. D. No name-plate.

DESCRIPTION.

BODY—24 inches wide, 52 inches long, outside measurement. Panels, 8 inches high. Width of seat on bottom, 27 inches; 15 inches deep. Distance from floor of buggy to top of seat back panel, 38½ inches. Distance from floor of body to top of seat cushion, 15 inches.

SPRINGS—Elliptic oil-tempered steel springs. Hickory cross-bars, supporting half length body loops on which the body rests.

GEAR—1⅛-inch steel axle; axle caps secured to axle with clips and bolts; double reach ironed full length; braced and bolted with brace stays running from reach to rear axle. Rear circle, fifth wheel.

WHEELS—Sarven's patent; ⅞-inch tire; height, 38 inches front and 42 inches rear. The wheels are of the cheapest grade, not guaranteed by the manufacturer or ourselves.

TOP—Three or four bows, as ordered; drill roof, quarters and back stays. Enameled drill side and back curtains. Inside of top and back stays lined with dark-green cloth.

TRIMMINGS—Seat cushion and back are upholstered in imitation leather. Leather dash, whip socket, toe rail, anti-rattlers, washers, wrench; short jute carpet, enameled drill boot over back of body, rear of seat; shafts are furnished.

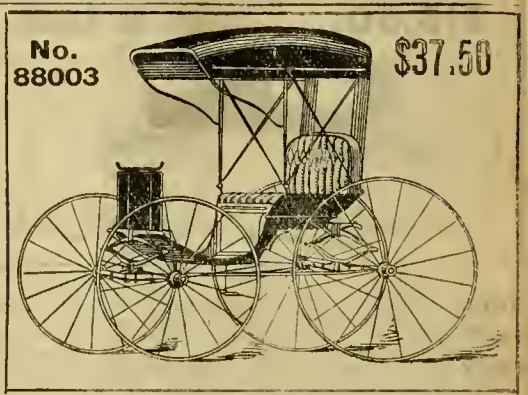
PAINTING—Body, black; gear, dark green, with suitable striping.

TRACK—Narrow, 4 feet 8 inches; or wide, 5 feet 2 inches. **Be sure to state width of track wanted.** The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS.

Leather quarter top in place of drill top, $6.00 extra.
Seat cushion and back upholstered with 14-ounce all-wool cloth or with genuine leather, $1.50 extra.
Solid panel seat back, drill covered, $1.00 extra.
Solid panel seat back, painted and finished same as body, $1.50 extra.
Nickel plated trimmings, dash rail, hub bands, hand holds, prop nuts, $1.50 extra.
Pole, neckyoke, and whiffletrees in place of shafts, $2.00 extra.
Pole in addition to shafts, $4.00 extra.
Weight, crated ready for shipment, about 400 lbs.
Price quoted is free on board cars at factory.
For freight charges, see introductory pages.

UNGRADED, NOT GUARANTEED PHAETON, $37.50.



This Phaeton is made by the manufacturer for a certain class of dealers who have contracted for it, to sell at from $47.50 to $60.00. The phaeton is dear at any price, as it will not give satisfaction and we doubt if it will last the season through, but we sell it at $37.50 to meet a certain class of competition in the vehicle line that will sell such a phaeton for a first-class rig.

Understand, we will furnish the Phaeton for just what it is represented to be; it may give entire satisfaction, but the material which is used in making up the phaeton is of a very low standard, and as we do not wish to have any repair bills to pay, we, in justice to ourselves, will not furnish a guarantee with the phaeton. It is finished as good as the average vehicle, but if you go beneath the putty, paint and varnish, the balance will not bear inspection as a guaranteed rig.

Will not put our name-plate on this phaeton, and we wish it understood when we sell one, that the purchaser will not represent it to his friends as a sample, or criterion, of what we can furnish in our regular guaranteed work. **Cash in full must come with the order. No discount, the price is net. Will not ship C. O. D.**

DESCRIPTION.

BODY—25 inches wide. Distance from front of back cushion to toe-rail, leg room, 39 inches distance from top of seat panels across seat cushion, 34 inches. Distance from seat cushion to top of seat back, 15 inches. Width of seat across top of back cushion, 35 inches.

GEAR—Double-reach, ironed, bolted and braced with stay braces, clipped to rear axle. Wood stocks covering top of axle, clipped to axles.

SPRINGS—Elliptic, oil-tempered steel, 3 leaves front spring, 4 leaves rear spring, with hickory cross-bars supporting body loops.

WHEELS—Sarven's patent, 16 spokes, full bolted, ⅞-inch steel tire; 38 inches high in front, and 42 inches high in rear.

TOP—2½-inch bows. Rubber roof, quarters and back stays. Inside of top lined with dark-green cloth. Valance, enameled leather, stitched on in front. Side and back curtains, enameled drill.

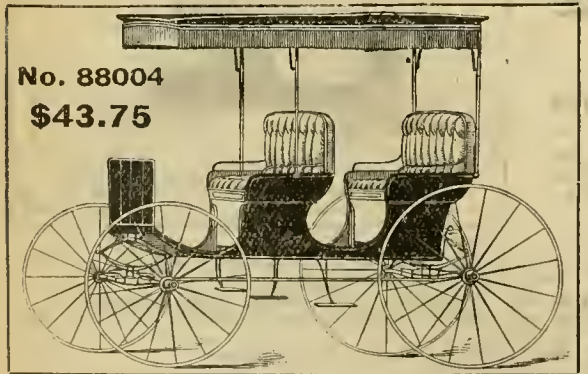
TRIMMINGS—Seat upholstered with imitation leather or dark-green cloth. Short carpet on bottom of body, dash, whip socket, toe-rail, anti-rattlers, wrenches, and shafts are furnished.

PAINTING—Body, black. Gear, dark Brewster green.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. **Be sure to state which is wanted when ordering.**

EXTRAS.

Leather quarter top, in place of rubber top, $3.00 extra.
Upholstered, 12-ounce all-wool cloth or genuine leather, in place of imitation leather or lighter weight, dark-green cloth, $1.50 extra.
Nickel mountings: Dash-rail, hub bands, and prop nuts, $1.00 extra.
Solid panel seat back, spiral spring cushion, $1.50.
Pole, in addition to shafts, $4.00 extra.
Pole in place of shaft, $2.00 extra.
Weight, crated ready for shipment, about 400 lbs.
Price quoted is free on board cars at factory.
For freight rates, see introductory pages.



UNGRADED, NOT GUARANTEED, CANOPY TOP SURRY, $43.75.

Cash in full must accompany the order. No discount, the price is net. Will not ship C. O. D. Not guaranteed. No name-plate. Made of material which cannot be used in the work that WE would guarantee.

In this Surrey we are able to give an accurate illustration and description of what is being sold by a great many handlers of vehicles as guaranteed work for from $65.00 to $75.00. Dealers who cannot compete with our grades and prices, as an argument to dissuade customers from buying from us, claim a surrey like this to be equal to such jobs as we are furnishing in our regular guaranteed work for from $50.00 up. The finish, design and outline of the surrey is the same as a guaranteed surrey, but the material is of a quality which cannot be used in our regular work. **Never before has a surrey been offered for $43.75,** but as we believe our customers should know the truth, and the kind of material used in this surrey, which appears cheap by the low price, but dear and a poor investment at any price, we will describe and represent it for just what it is. **We do not recommend it or guarantee it in any particular.**

DESCRIPTION.

BODY—25 inches wide, 5 feet 4 inches long. Straight sill made of "culled" material.

SEATS—27 inches wide, seat back 15 inches high. Made of "culled" material, braced and rounded on corners.

GEAR—1⅛-inch steel axle. Double reach, bolted and braced with staybraces, ironed full length. Rear King bolt, fifth wheel. Axle caps securely clipped to the axles.

SPRINGS—1¼ in., oil-tempered, elliptic end springs, 4 leaves front, 5 rear.

WHEELS—Sarven's Patent Hub, 1-inch wide by ¼-inch thick, round edge, steel tire, 38 in. high in front, 42 in. rear, or 40 in. front and 44 in. rear.

TOP—Canopy, supported by 4 standards, drill-covered top, inside of top lined with dark-green cloth. Deep plain fringe around top. Full length back and side curtains.

TRIMMINGS—Cushion and back of seat dark-green cloth. Light body carpet, leather dash, whip socket, toe rail, anti-rattlers, washers and wrench; shafts are furnished.

PAINTING—Body, black. Gear, dark green.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches.

EXTRAS.

Leather quarter extension top in place of canopy, $10.00 extra.
Seats, cushion and back upholstered with leather in place of cloth, $3.00 extra. Single fenders, $6.00 extra. Double fenders, $8.00 extra.
Lamps, $2.50 extra.
Pole in place of shafts, $2.50 extra.
Pole in addition to shafts, $4.50 extra.
Full length wool carpet in place of light carpet, $1.00 extra.
Will weigh, crated, ready for shipment, about 600 lbs.
Price quoted is free on board cars at factory.
For freight rates, see introductory pages.

DEPARTMENT OF ROAD CARTS.

Our Lins of Road Carts is the Most Complete Ever Offered to the Consumer.

NOT ONLY HAVE WE LISTED The very best that can be made, but can furnish them for about one-half the price asked by others for a cart of the same make and grade. Before buying elsewhere, so that you may be thoroughly well convinced of this, we invite a careful comparison of the prices of other concerns, local dealers or consumers' supply houses.

Carefully compare the make, style, grade, finish and description with what we are offering, and we feel sure that you will at once place your order with us, if you desire to buy the very best made and at a less price than you can elsewhere. Having made arrangements with two of the largest factories in the country who have a special department in their factories for the manufacture of road carts, and buying in the large quantities in which we do, we are able to offer these carts cheaper than any other concern and make prompter shipments, as we have a large quantity made up in advance, so as to be able to ship without unnecessary delay.

IN MAKING ROAD CARTS It is necessary to use only the very best material, as a road cart built to carry two passengers must be made equally as strong as a four wheeled vehicle which carries two passengers. From this you can appreciate that we can afford to buy only the best carts made by the oldest and most reliable manufacturers.

From our road cart listed at $8.45 to our AA grade high-class sulkeyette or driving cart at $16.50, we offer a list from which selection can be made to suit almost any taste or desire. There is no skimping of material or shirking of labor, as we have our own superintendent at the factory overseeing every piece and part entering into the construction, and supervising the workmanship which insures only the best material being used and the oldest and most experienced workmen employed.

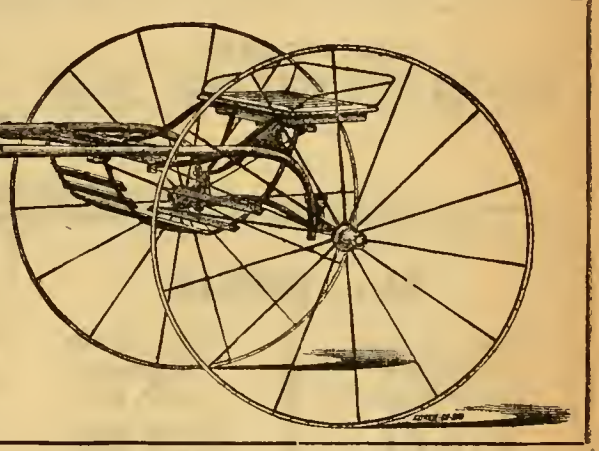
WHEN YOU BUY ONE OF THESE ROAD CARTS From us you have the assurance of knowing that it comes from a reliable concern, covered by a binding guarantee, worth the value of the cart, for if the cart should be found not as represented we will return your money and the cart can be sent back to us and we will pay the freight charges. Not only are our prices the lowest, but our terms of shipment are the most liberal.

YOU WILL NOTE IN INTRODUCTORY The amount of money we require to be sent with the order, if you desire the cart shipped C. O. D. Note the amount saved if cash in full is sent with order. If you have the cart shipped C. O. D., or if you send cash in full with your order we make shipment under the same terms and agreement, and in either case if the cart is not as represented you can return it to us and we will pay the freight charges, and cheerfully and promptly refund your money in full. We advise you to send cash in full with your order as the total purchase price of any of the carts is very small.

THE REASON WE MAKE A C. O. D. And a cash in full with your order price is because we can make shipment of the cart when cash in full accompanies the order cheaper than when shipping C. O. D. for this reason: A C. O. D. shipment must be handled more times than a cash in full with order shipment, and the tracing and clerical work on a C. O. D. shipment amounts to more than on a cash in full with order shipment. While the expense of handling the order is very small there is a difference, and we give our customers the benefit of the difference if they choose to take advantage of it by sending cash in full with their orders.

In making selection of the cart which you wish, be sure to give catalogue number, width of track, whether narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. The method of measuring track is across the wheels from outside edge of tires on the ground.

OUR $8.45 ROAD CART.



No. 88040.

Price if Cash in Full is sent with order	Price when shipped C. O. D.
$8.45	$10.95

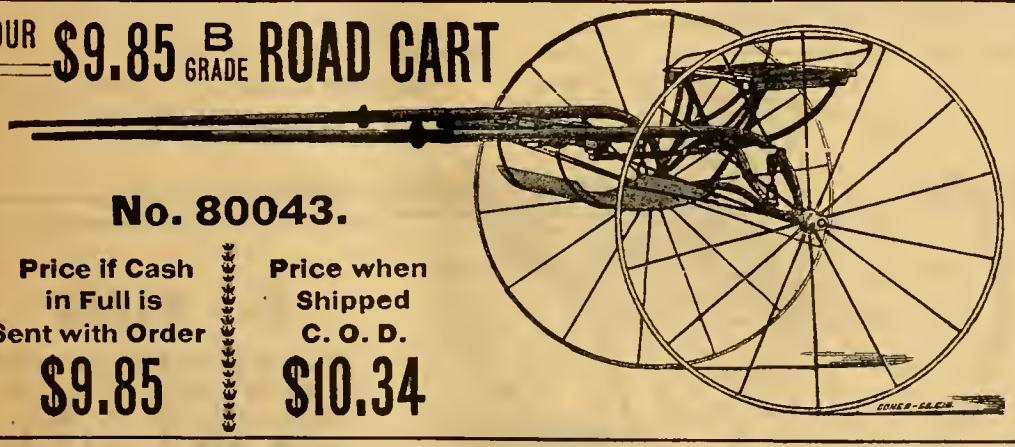
YOU MAY WONDER how it is possible for us to produce a road cart for $8.45 such as our No. 88040, for such a small amount of money, but a cart is light. It only weighs about 125 lbs. and while there is nothing but the very best of material used in this class of vehicles, the manufacturer has equipped his factory with automatic machinery especially for turning nearly every piece and part for this cart, fitted with an exactness which cannot possibly be done by the most skilled workmen by hand. The result is we have this road cart at the lowest possible price and we can assure you that as our profit is figured so close it is only by selling these carts in large quantities that we are able to offer them at the price we do.

THE CART IS VERY STRONG, and thoroughly well-made, nicely finished in either natural wood or wine color. Carrying capacity two passengers. Made of carefully selected hickory, 1 inch double collar steel axle; square at shoulders; octagon in center. Hung so as to be perfectly balanced, on long easy-riding, oil-tempered springs. Seat 30 inches wide from rail to rail. Long bent seat arms. Sarven's patent wheels, 48 inches high, with 1 inch steel tire, crimped and bolted. Width of track; narrow, 4 feet 8 inches; wide, 5 feet 2 inches.

WE MAKE NO CHARGE FOR CRATING OR CARTAGE, but deliver free on board cars at factory, and will ship C. O. D., subject to examination if desired on receipt of a small deposit as explained on page 910. You can examine the cart at the freight depot, and if found satisfactory and as represented, pay the agent the balance and freight charges, and the cart is yours.

WEIGHT 125 LBS. Weight, crated ready for shipment about 140 lbs. delivered free on board cars at factory. For freight charges see page 5. When you consider the price at which we offer this cart you will see that the freight charges amount to next to nothing as compared with what you will save.

OUR $9.85 B GRADE ROAD CART



No. 80043.

Price if Cash in Full is Sent with Order	Price when Shipped C. O. D.
$9.85	$10.34

Our No. 88043 Cart at $9.85 cash with order price, is made of selected stock from B Grade materials. As on all our other road carts, the material is selected by our own superintendent and the mechanics employed in making the road cart are supervised by our superintendent, which is an assurance of the carts being made of the best materials and by the best workmen.

THE CART IS LIGHT, STRONG AND WELL-MADE, every piece and part covered by our binding guarantee, which covers any possible defect in material or workmanship. The illustration accurately represents our $9.85 road cart, as the picture is made direct from a photograph taken of the rig. Seat is hung on steel supports and oil-tempered springs made by one of the largest and most reliable spring manufacturers in America, with long spring shackles. Seat 30 inches from rail to rail; long bent seat arms. Sarven's patent wheels, 48 inches high, with 1-inch steel tire, Crimped and bolted. Painted carmine or oiled and varnish natural wood finish, as desired. Built to carry two passengers.

THE CART IS NICELY FINISHED IN EVERY PART, and is built to last and give entire satisfaction as well as for appearance and easy riding. We make no charge for crating or cartage, but deliver free on board cars at our factory, and will ship to any address C. O. D., subject to examination, if so desired, on receipt of a small deposit as explained on page 910. You can examine the cart at the freight depot, and if found satisfactory and as represented, pay the agent the balance and freight charges and the cart is yours.

WEIGHT, 125 LBS. Weight crated ready for shipment, 140 lbs. delivered free on board cars at factory. For freight charges see page 5. When you consider the price at which we offer this cart you will admit that the freight charges amount to next to nothing as compared with what you save in price.

Width of track; narrow 4 feet 8 inches, or wide 5 feet 2 inches. Be sure to mention which you want when ordering. The method of measuring track is across the wheels from outside edge of tires on the ground.

AT $10.50 WE CAN FURNISH SAME CART WITH THE TIGHT FOOT RACK. This is a very desirable feature and we recommend it. The illustration shows the tight foot rack. If you want the tight foot rack be sure to mention it in your order and note the price, if cash in full is sent with the order..... $10.50

OR $11.00 IF SHIPED C. O. D.

HIGH-GRADE ROAD CARTS AT FACTORY PRICES.

THE CONSTRUCTION OF THIS CART is the same as that of the others; has the careful supervision of our superintendent, insuring the very best selected stock from A grade materials, and the very best, oldest and most experienced workmen employed in the construction of the rig. This cart at $13.85 is a bargain. It is exceptional value for the money in the line of road carts, and we are selling them at a price heretofore unheard of for anything that will compare with it. You cannot find a cart anything like it elsewhere for $13.85. It is equal in every respect to carts that are being retailed throughout the country at from $20.00 to $25.00. It is a first-class job in every particular, every piece and part covered by our binding guarantee, which covers any possible defect in material or workmanship.

OUR PRICE is not only the lowest, but our terms are the most liberal, as we will ship it to any address C. O. D., subject to examination, if desired, on receipt of a small deposit as explained on page . You examine the cart at the freight depot, and if found satisfactory and as represented, pay the agent the balance and freight charges and the cart is yours.

THIS CART is made of thoroughly first-class material; wheels and shafts are made of the best selected hickory, and the body of selected white wood; is one of the easiest riding carts made; has long oil-tempered springs, hung in loops under shafts. Body is large and roomy. Painted in carmine or natural wood finish, as desired. Shafts, cushion and back are nicely trimmed as shown in the cut, and a handy box is provided underneath the seat for tools, hitch reins, etc.

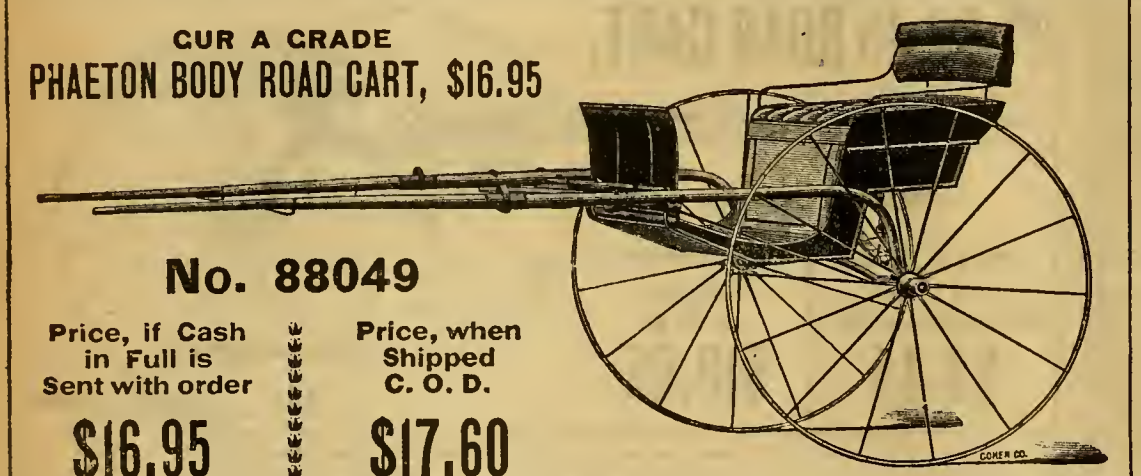
SARVEN'S PATENT WHEELS 48 inches high, with 1-inch steel tire crimped and bolted. Width of track, narrow, 4 feet 8 inches; or wide, 5 feet 2 inches. Be sure to state which you want when ordering. The method of measuring track is across wheels from outside edge of tires on the ground. Weight, 140 lbs. Weight, crated ready for shipment, 160 lbs. Delivered free on board cars at factory.

OUR A GRADE "LEADER" PHAETON BODY CART AT $13.85

No. 88047

Price, if Cash in Full is Sent with Order.	Price, when Shipped C. O. D.
$13.85	$14.50

OUR A GRADE PHAETON BODY ROAD CART, $16.95



No. 88049

Price, if Cash in Full is Sent with order	Price, when Shipped C. O. D.
$16.95	$17.60

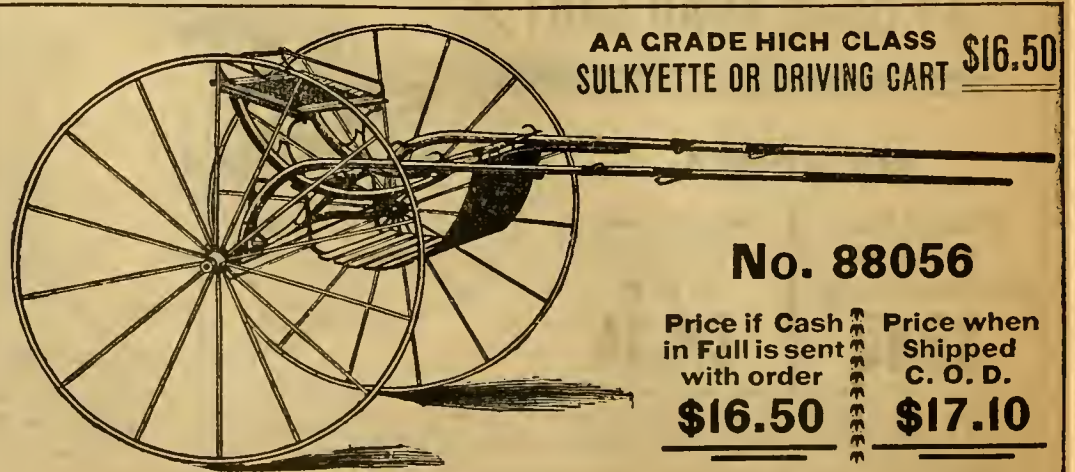
No. 88049 has patent leather curved dash, phaeton body. Made of selected white wood. Shafts and wheels made of selected hickory with steel axle, and is the greatest value ever offered in an A grade cart.

While at first the freight charges might seem an obstacle in the way of your placing your order with us, we wish to say that your local dealer or anyone in your vicinity has to pay the freight charges from the factory just the same as you do, and in placing your order with us you buy the road cart at manufacturer's first price and pay the freight charges. If you buy of the local dealer you pay the manufacturer's price, the freight charges and the local dealer's profit. We know that you want to save the middleman's profit, and we have paved the way for your doing so.

The cart is thoroughly well made in every respect, has a large roomy body; solid seat panels; nicely finished patent leather handsomely curved dash. Convex solid seat same as on buggies. Body is painted black or finished in natural wood. Gear, carmine or natural wood, as ordered. Seat is made of selected white wood, 35 inches long, 18 inches wide, and has corner irons and full lazy back. Seat, cushion and back are nicely upholstered, stuffed and tufted. Will carry two passengers. 1-inch double collar steel axles; 1-inch steel tire, crimped and bolted; Sarven's patent wheels, 48 inches high. Full trimmed shafts with nickel tips. Long oil-tempered springs, made by one of the largest and most reliable spring manufacturers in the world, hung in loops under shafts. Whip socket; washers; oil cloth in bottom of body. Cart has less horse motion, is easier on the horse and rides easier than any other cart made. Width of track: Narrow, 4 feet 8 inches; wide, 5 feet 2 inches. Be sure to state which you want when ordering. The method of measuring track is across the wheels from outside edge of tires on the ground.

Delivered free on board cars at factory. Shipping weight, about 175 lbs.

AA GRADE HIGH CLASS SULKYETTE OR DRIVING CART $16.50



No. 88056

Price if Cash in Full is sent with order	Price when Shipped C. O. D.
$16.50	$17.10

EVERY PIECE AND PART entering into the construction of our No. 88056 cart is carefully selected and inspected three times before it is passed to the workmen. The workmanship is of the very best, as the factory who makes this cart turns out only the very highest grade vehicles made and will employ only the very best, oldest and most experienced workmen. The reputation of the manufacturer is a guarantee of the high quality of the rig, and we furnish with the road cart our binding guarantee. Any piece or part giving out through defective material or workmanship will be replaced. It has cane seat of the best grade cane, strongly woven, securely fastened to seat with extra brace straps. Has full seat rail. Seat rests on hickory supports, hung on hickory cross bar. Strong double braces from support to bottom of seat front, as shown in illustration. Large roomy foot rack, protected in front with mud fender or mud cover, hung in front on cross bars, in rear on spring bar. Oil-tempered spring made of the best crucible double refined steel; extra strong.

WHEELS shafts, cross bar and seat support made of the best selected second-growth hickory. Sarven's patent wheels, 48 inches high; ⅝-inch steel tire, crimped and bolted. ⅞-inch refined steel axle. Springs hung on adjustable loops to raise or lower seat to accommodate any size horse.

PAINTED in carmine or natural wood finish, oiled and varnished. Track, narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to mention which you want when ordering. The method of measuring track is across wheels from outside edge tires on the ground. Weight, 130 lbs. Weight, crated ready for shipment, 175 lbs. Delivered free on board cars at factory. WHEN SO DESIRED we will ship the cart C. O. D., subject to examination, on receipt of a small deposit, as explained on page . Consider that the price at which we are able to furnish this rig, together with the freight charges added will bring the cart to your freight station cheaper than you can buy the same rig elsewhere

Department of Road and Driving Wagons.

OUR DEPARTMENT OF ROAD WAGONS AND DRIVING WAGONS COMPRISES THE OUTPUT OF ALL THE LARGE, RELIABLE AND REPRESENTATIVE VEHICLE FACTORIES. A COMPLETE LINE OF THE VERY LATEST UP-TO-DATE STYLES, and the LARGEST LINE offered by any house from which the purchaser can make selection, no matter how varied the differences in TASTE, CHOICE and PRICE. OUR PRICE FOR A WELL-MADE, FIRST-CLASS, GUARANTEED WAGON IS FAR LOWER than the prices quoted by other concerns for the same make, grade and style; in fact, MOST OF THE STYLES CANNOT BE BOUGHT ELSEWHERE, as they are MADE EXCLUSIVELY FOR US, and we BUY NEARLY ALL THE WAGONS the factories with whom we contract can make. We are able to do this by reason of our enormous trade and the UNLIMITED GREAT QUANTITIES WE SELL.

OUR TRADE IS NOT RESTRICTED TO ANY PARTICULAR LOCALITY. We ship vehicles as well as other merchandise that we handle, as we sell everything conceivable in merchandise, to every railroad station in the United States, and export a large number of vehicles annually to foreign countries. FROM THIS AN IDEA can be formed how we are able to offer direct from the manufacturer to the consumer A BETTER ROAD WAGON FOR LESS MONEY THAN OTHERS. WE HAVE IMITATORS BUT NO COMPETITORS WHEN QUALITY, PRICE AND GUARANTEE ARE CONSIDERED.

MANY MANUFACTURERS OF VEHICLES ARE OFFERING A ROAD WAGON FOR A PRICE THEY CONSIDER CHEAP, BUT AFTER THE WAGON IS EXAMINED IT WILL COMPARE IN QUALITY WITH OUR UNGRADED NOT GUARANTEED ROAD WAGON, WHICH WE DO NOT RECOMMEND OR GUARANTEE. SUCH A WAGON WILL BE FOUND DEAR AT ANY PRICE. WE HANDLE EVERY STYLE, and every vehicle is a bargain from our B grade and AA grade.

THE WAGONS ARE MADE IN THREE GRADES: B, A and AA. WE RECOMMEND THE A AND AA GRADE MICHIGAN WAGONS, not because there is any more profit in the sale, but in the A and AA GRADES we can give you MORE VALUE FOR THE MONEY. Every wagon is handled on the same one-small-profit cash basis plan direct from maker to user. The slight difference in price on A and AA grade wagons is not to be compared with the extra value added by the better grade of material used and the extra fine finish. You will be entirely satisfied and the vehicle will be a better representation of what we can furnish for a very small cost, and the better satisfied we can make our customers the better advertisement it will be for our house. Michigan is the greatest road and driving wagon manufacturing state in the country, and turns out the best made vehicle for the price. The material is better graded and workmanship the very best.

Each factory has a special department, for making Road and Driving Wagons, employing only experienced mechanics who work on these wagons and have attained an efficiency by working on road and driving wagons, and no other style vehicle, until now every man is an expert on the particular piece or part of the wagon he handles, and the standard of perfection has been reached. By this method these manufacturers produce the best wagon that can be made of carefully selected material, and our large contracts keep the factories busy the year around, reducing the cost of making our road and driving wagons to the lowest possible figure, yet producing the best wagons made, regardless of price.

...CAUTION...

In Ordering be sure to give catalogue number of vehicle wanted. Give width of track.
If wanted shipped C. O. D. be sure to send enough money with your order.
Note the C. O. D. price and the cash-in-full-with-order price; the amount you can save by sending cash in full with order.
Follow the instructions on the special vehicle order blank.

OUR B AND A GRADE MICHIGAN SPINDLE BODY ROAD WAGON.

Made of Selected B Grade Material **$26.50**
Built of Strictly A Grade Material **$32.50**

This is the very Latest Style Stick Body, with spindles set in body parallel with rear panel, highly painted, finished and securely built into body panels. Made by the largest and best known manufacturer in Michigan, whose enviable reputation is a guarantee of the quality of material and workmanship.

OUR BINDING GUARANTEE Covers every piece and part of material and workmanship; should any material prove defective or workmanship not as represented OUR GUARANTEE IS AN ABSOLUTE PROTECTION to every customer.

Our Price is far less than quoted by any Concern for a wagon that can Compare with this.

OUR TERMS ARE MORE LIBERAL, as we will ship C. O. D. subject to examination, upon receipt of a small deposit; if not found as represented, and you are not satisfied with the amount saved, you can return it to us, we will pay freight and refund your money.

DESCRIPTION

BODY—24 inches wide, 54 inches long; made of carefully selected white wood, screwed, glued and plugged. The spindles are screwed and glued into the body panels, the corners are braced with counter-sunk top irons.

SEAT—33 inches wide across top cushion from top of seat panels; 15 inches deep; full lazy back 8 inches high, finished and painted.

SPRINGS—Side springs made of oil-tempered steel, hung on clips to rear axle and to hickory head block on front axle. Securely braced and bolted to three body loops, supporting body.

GEAR—1⅝-inch double collar steel axle. Axle beds cemented and clipped to axles. Full braced side spring gear with braces running from shoulders of rear axle to center of springs, and front axle to center of body. Circle fifth wheel.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, ¾-inch tire; 38 inches high in front and 42 inches high in rear or 40 inches high in front and 44 inches high in rear. Oval edged tire extending ⅛-inch over the rim, protecting the felloes.

TRIMMINGS—Seat cushion and back upholstered with Evans' leather or cloth, as ordered. Nicely tufted and buttoned, and upholstered in first-class style and in a workmanlike manner. Patent leather dash, hung on steel frame securely braced and bolted to body. Body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered, with sword end singletree, made of the best XXX hickory.

PAINTING—Body black, neatly striped with any color striping desired, blending harmoniously with color of body, adding greatly to the appearance of the wagon. The riser is painted in the center with a scroll design. Gear rich carmine or Brewster green, neatly striped with double fine lines of gold or any other color striping desired.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires ou the ground.

EXTRAS—Canopy top, with rubber side and back curtains, $8.00 extra.
Buggy top, rubber roof, quarters, back stays, side and back curtains, $9.00 extra.
Genuine leather upholstering, $1.00 extra.
Solid panel spring back seat, $1.00 extra.
Mountings: nickel-plated dash rail, hub bands, and seat handles, $1.00 extra.
Pole in place of shafts, $2.00 extra.
Pole in addition to shafts, $4.00 extra.

When ordering extras be sure to state in the order what extras are wanted and add the price of extras to the price of wagon.

No charge for crating. Delivered free on board the cars at our factory.

Weight, crated ready for shipment, about 300 lbs. For freight charges, see introductory pages in front of catalogue.

Michigan Road Wagon B Grade $28.50 ·.· A Grade $34.50

SPINDLE BODY, End Springs, Guaranteed, the Latest Style; extra well finished, equal to what average handlers of vehicles call A and AA grade. Made of the very best selected material throughout by the oldest, largest and best known Road Wagon manufacturer in the country; every piece and part covered by our Binding Guarantee.

This wagon is the same as our No. 88086, with the following exceptions and additions:

BODY—Side panels are higher, spindles are longer, with a larger bead in center. The front seat posts are steamed and bent instead of straight.

SPRINGS—Elliptic double sweep end springs, oil tempered best refined crucible steel, 36 inches long, with hickory cross-bars securely clipped and bolted to springs, supporting full length body loops on which the body is hung.

GEAR—Double reaches, ironed and bolted full length, running from fifth wheel to rear axles, clipped and bolted to axles, braced and bolted with wrought iron stay braces from shoulder of rear axle to center of each reach. Wrought iron full circle, rear king bolt, fifth wheel.

EXTRAS—Canopy top, with rubber side and back curtains, four finished iron standards, $8.00. Buggy top, rubber roof, quarters, back stays and curtains; with full shifting rail, $9.00. Genuine leather upholstering on A Grade no extra charge. B Grade, $1.00 extra. Solid panel spring back seat, painted and finished same as body, $1.00. Nickel plated, dash rail, hub bands, hand-holds, $1.00. Pole in place of shafts, $2.00. Pole in addition to shafts, $4.00. Any of these extras will be furnished on the wagon at the prices quoted, added to the price of wagon.

No charge for crating, delivered free on board the cars at factory. Weight, crated ready for shipment, about 300 pounds. For freight charges, see introductory pages in front part of catalogue.

PRICE, WHEN SHIPPED C. O. D.

B Grade, $30.90
A Grade, $36.90

If ordered shipped C. O. D. be sure to send enough deposit, as shown on page 928

OUR B GRADE is made from the best selected material from B Grade Stock. Every piece and part covered by our Binding Guarantee. This wagon at $29.90 is equal to anything on the market sold for $40.00, and compares favorably with what nearly all others sell for A Grade work.

OUR MICHIGAN A GRADE ROAD WAGON $35.90

WE FURNISH THIS WAGON in the A Grade made from strictly A Grade Stock of the very best material. The finish is the best executed piece of workmanship in painting on any vehicle. The painting and varnish is Valentine's best grade and the finish is the same as on the highest grade buggies. Our A Grade Wagon is the Greatest Value Ever Offered in the Line of Vehicles, no matter at what price. The upholstering is done in the highest style of the art, biscuit tufted and buttoned. The nickel rail around body; the high No. 1 Grade patent grain leather dash, mounted with line rail; the full length body loops; full bolted, screwed rim wheels and a great many other points are all features found only in the Highest Grade Vehicles made. No such Material; Workmanship; Painting and Upholstering will be found in a road wagon offered by any other concern for near as low as our price. A low price can be quoted on Road Wagons, and we can furnish a Guaranteed Road Wagon for $20.75, but for a Strictly High-Grade Road Wagon, such as our No. 88090, New Style Punt which we furnish for $35.90 in the A Grade, or $29.90 in the B Grade, we have no competition.

Carefully read the description, so the material used and the careful construction can be fully appreciated.

CONSIDER THESE POINTS IN BUYING. Every piece and part entering into the construction of this wagon is carefully inspected three times before going into the work; and we give a Binding Guarantee protecting the purchaser from any loss by reason of any possible defects in material or workmanship.

WE ARE A RELIABLE CONCERN, and our Guarantee is Good. We will ship C. O. D. subject to examination on receipt of a small deposit, as explained on page 932. **IF NOT FOUND AS REPRESENTED**, we will refund money and pay freight charges.
OUR REPRESENTATIONS can be depended on as reliable and our prices lower than quoted elsewhere for the same grade vehicles.

DESCRIPTION

BODY—24 inches wide, 52 inches long, on bottom outside measurements. The sills of the frame are made of selected ash, air-seasoned and rabbeted, so that the floor of the body rests on the inner edge of the sill. Corners mortised. Body panels are made of air-seasoned poplar, panels fitted to sills, and corner posts glued and screwed to the sills. The panels are glued, screwed and plugged. All screw heads are counter-sunk. The corners of the body are mitered and nicely rounded. Nickel plated rail around top of the body, running from front seat posts full around body. Body loops running full length of body, securely bolted to the side body sills.

SEAT—35 inches wide across the top of cushion from top of seat panels, 16 inches deep. Leg room, from back cushion to toe rail, 39 inches. Full spring back cushion with solid panel back, highly painted and finished the same as body. The seat is built on a solid ash frame. The seat panels are made of one inch poplar, well seasoned, convexed and mitered at corners, glued, screwed and plugged the same as body panels. The back is made of the best well seasoned poplar, bent and curved with seat, on either end to prevent it from checking, warping or splitting, the ends are grooved out, and a hardwood strip set in securely glued.

SPRINGS—Elliptic, double sweep end springs, oil tempered, made of the very best refined crucible steel, 36 inches long. Hickory spring bars supporting body loops, securely bolted to springs with wrought iron clips and bolts.

GEAR—1⅛ inch, double collars, swedged steel axles. Axle beds cemented, clipped and bolted to axles. Double reach running full length from fifth wheel to rear axle, ironed full length on bottom, braced and bolted with wrought iron stay braces running from shoulder of rear axle to center of reach.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, screwed rims, ⅞x1¼-inch tire or 1x1¼-inch tire as ordered, with oval edge protecting the rim of the wheel. Height of wheels, 38 inches front, 42 inches rear or 40 inches front and 44 inches rear. **Made of carefully selected stock and fully guaranteed.**

TRIMMINGS—Seat cushion and back upholstered with whip cord or Evans enameled finish leather, tufted, buttoned and upholstered in the very best manner possible, by first-class workmen. Patent grain leather dash hung on steel frame, securely braced and bolted to body. Body mounted with nickel line rail. Full length body carpet. Whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered with sword end singletree, made of the best hickory. XXX on B Grade, XXXX on A Grade are furnished with wagon.

PAINTING—Lower panel of body black with line stripes, as shown in cut. Upper portion blended carmine or any fancy color, as ordered, neatly striped with double fine lines of gold. The painting of this rig in A grade is a work of art, no buggy or carriage of any style has a better finish. The number of coats, the quality of paint used and the workmanship in preparing it for the last coat of varnish is everything we can possibly say of it. The colors and varnish is the best grade of Valentine's. The gear is painted either carmine or dark Brewster green, as ordered. The wheels and gear are rubbed out and varnished the same as the body. The seat ends are painted the same color as the body panels and finished in the same high-grade style.

TRACK—Narrow, 4 feet 8 inches, or wide 5 feet 2 inches. **Be sure to state which one is wanted when ordering.** The method of measuring width of track is across the wheels from outside edge of tires on the ground.

NOTE—We furnish this wagon when so desired with a solid shutter work seat raiser finished and blended with harmonious colors. Without nickel plated rail around body, but with nickel plated arm rails, seat handles, dash rail. It is an entirely new design handled by us exclusively. If you want this wagon with solid shutter work seat raiser, nickel arm rail, seat handles and dash rail, be sure to specify in your order and give the number of the vehicle as No. 88090½. There may be other wagons that look like this, as many have tried to copy our design, but if you wish to get the original and best wagon in material, finish and workmanship at the smallest cost, we can serve you if favored with your order.

EXTRAS—Canopy top with rubber side and back curtains, four finished iron standards, $8.00 extra. Buggy top, rubber roof quarters, back stays, side and back curtains, extra, $9.00. Upholstered with genuine machine buffed leather in B grade, $1.00 extra. In A grade, leather furnished when ordered without extra charge. Pole in place of shafts, $2.00 extra. Pole in addition to shafts, $4.00 extra. **When any of these extras are wanted be sure to state in the order and add the price for extras to the price of wagon.**

No charge for crating, delivered free on board cars at factory. Weight, crated ready for shipment, about 300 pounds. For freight charges, see introductory pages in front of catalogue.

Made by one of the largest manufacturers in Michigan, whose reputation alone is a recommendation for the rig. Every piece and part is carefully inspected before being put into the construction of the wagon. We send with every job a **binding guarantee.** Will ship C. O. D. subject to examination. If not found as represented will return money.

Made of the best selected materials from B grade stock. The workmanship is the very best throughout. The finish is the same as that on regular B grade buggies. New style corning body, hung on long, full coupled, side springs. Equal to anything on the market for $37.50 to $40.00. It is high-grade work, and compares with what you will find in many repositories and sold by dealers for A grade.

DESCRIPTION.

BODY—New style corning, 52 inches long, 24 inches wide, on bottom outside measurements. Body panels made of selected poplar, securely screwed and glued to the sills and corner posts. Panels glued, screwed and plugged. Seat risers halfed into body panels. Round seat posts built into seat bottom and body sills.

SEAT—33 inches wide across cushion from top of seat panels, 15 inches deep. 8-inch lazy back. Painted and finished the same as body panels. Corners rounded and mitered, glued, screwed, plugged the same as the body.

SPRINGS—Long, full coupled, oil-tempered side springs. Hung on clips on rear axles, clipped on head block over front axles, supporting body on three loops, securely clipped to center of spring.

GEAR—15-16-inch, double collar swaged steel axles. Axle beds cemented, clipped and bolted. Axles fully braced with braces running from shoulder of rear axle to center of springs and front axle to center of body. Full rear circle fifth wheel.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to state which one is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

WHEELS—Sarven's patent or shell band hub, full bolted, with ⅞-inch or 1-inch tire, oval edge protecting the rim of the wheels. Height of wheels, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear. Made of carefully selected stock and fully guaranteed.

TRIMMINGS—Seat cushion and back upholstered with **Evans' enameled-finish leather or cloth,** as ordered. Nicely tufted, buttoned and upholstered in first-class workmanlike manner. Patent leather dash, hung on steel frame, securely braced and bolted to body. Body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered with sword end singletrees made of the best XXX hickory, are furnished with the wagon.

PAINTING—Body black, plain or striped as desired. The riser is decorated with a scroll design, neatly executed. Gear, rich carmine or Brewster green, neatly striped with double fine lines of gold or in any color stripe desired.

EXTRAS.

Canopy top with rubber side and back curtains, **$8.00 extra.**
Buggy top, rubber roof, quarters, back and side curtains, **$9.00 extra.**
Genuine leather upholstering, **$1.00 extra.**
Solid panel spring back, painted and finished same as body, **$1.00 extra.**
Nickel plated dash rail, hub bands, seat handles, **$1.00 extra.**
When any of these extras are ordered, be sure to state in the order and add the price for extras to the price of wagon.

No charge for crating. Delivered free on board cars at our factory. Weight, crated, ready for shipment, about 300 lbs. For freight charges, see page 5.

THE HIGHEST GRADE ROAD WAGON MADE.

Sold everywhere for a regular Open Buggy for from. **$45.00 to $60.00**

Compare it with what you will have to pay elsewhere for the same make, grade, style and painting. It is manufactured by the largest concern in Michigan, who make nothing but high-grade work, and their reputation alone is the strongest kind of a guarantee for quality of material used and strictly first-class workmanship. Every piece and part, as well as workmanship is covered by our binding guarantee which protects the purchaser against loss by any possible defective material entering into the construction of the rig. A little extra care, good material and good workmanship when the job is being made is cheaper in the end than paying repair bills and having dissatisfied customers.

Our large trade is evidence of our honest representations and fair dealings.

We will ship this vehicle C. O. D., subject to examination, when so ordered. If not found as represented we will refund the money and pay freight charges.

DESCRIPTION.

BODY—Corning style, 24 inches wide and 54 inches long. Body is made of carefully selected material—the sills of Pennsylvania ash, the panels of air-seasoned Tennessee poplar. Corners are mitered. The panels are fitted to sills and corner posts, glued, screwed and plugged. Full length body loops, running full length of body, securely bolted to sill.

SEAT—35 inches across seat cushion from top of seat panels, 16 inches from front edge to back of seat cushion, 8-inch panel back, painted and finished the same as body.

SPRINGS—Elliptic, oil-tempered, end springs, made of the best grade spring steel, tested to a high tension. The springs are strong and easy riding, supporting body on two hickory spring bars, bolted and clipped to the springs and body loops. **We can furnish Brewster side-bar springs when ordered.**

GEAR—Made of second-growth hickory, wrought and Norway iron. 1⅛-inch double collar, swaged steel axles. Axle beds cemented and clipped to axles. Wrought iron fifth wheel. Two reaches, ironed full length on bottom, braced with wrought iron stay braces.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, or shell-band hub, if desired. ⅞x¼-inch tire. **We furnish ¾-inch or 1-inch tire when ordered.** The tire is made of steel, oval edge protecting the rim of the wheel. Height of wheels, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear, as ordered. Made of carefully selected stock and fully guaranteed.

TRIMMINGS—Seat cushion and back upholstered with machine buffed leather or heavy all-wool cloth, as desired. Biscuit pattern, nicely tufted and buttoned. Patent grain leather dash, hung on a steel frame securely braced and bolted to body. Body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered with sword end singletrees made of the best XXXX hickory, are furnished with the wagon.

PAINTING—Body black, with fine line striping around outer edge of panel. Fancy ornaments in corners. Fancy ornamented seat risers as shown in illustration. We furnish the body plain black, without striping, when so desired. The striping adds very much to the appearance of the rig, and is the latest up-to-date decoration for vehicles. Gear, Brewster (dark) green or rich carmine, as ordered, neatly striped with double fine lines. In A grade the painting is the finest given to any line of vehicles.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to state which one is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS.

Canopy top with rubber side and back curtains, **$8.00 extra.**
Buggy top, rubber roof, quarters, back and side curtains, **$9.00 extra.**
Solid panel spring back, painted and finished the same as body, **$1.00 extra.**
Nickel plated dash rail, hub bands and seat handles, **$1.00 extra.**
Pole, in place of shafts, **$3.00 extra.**
Both pole and shafts, **$5.00 extra.**

When any of these extras are ordered, be sure to state in your order, and add the price of extras to the price of wagon.

NOTE.—The wagon in A grade is furnished with nickel plated dash rail, hub bands and seat handles. No charge for the same if wanted on A grade wagon. Be sure to state in your order if you want nickel trimmings. No charge for crating. Delivered free on board cars at our factory. Weight, crated, ready for shipment, about 300 lbs. For freight charges, see page 5.

SOLID PANEL SPRING BACK SEAT. End springs. Made from strictly B Grade material and finished with best grade of paints and varnish in first-class workmanlike manner and guaranteed..... $23.75

Every piece and part is covered by our binding guarantee, and should the material and workmanship prove in any way defective, every buyer is protected against loss by our binding guarantee. When so desired, we will ship C. O. D. subject to examination; if not found as represented, the amount sent with order, as shown on page 928, will be promptly refunded. The manufacturer is an old reliable and thoroughly well-known concern, whose long established reputation for first-class work is an additional assurance as to the kind of wagon our customers will get, whether sent C. O. D., or if cash in full is sent with order.

DESCRIPTION.

BODY—Corning style, 22 inches wide, 50 inches long, made of carefully selected material, fancy medallion on body below seat riser. Body panels rounded and mitered at corners, sills mortised at corners, body screwed, glued and plugged.

SEAT—Solid panel, spring back, 33 inches wide across seat cushion on top of seat panels, padded arm rests, hand holds, rounded and mitered at corners, built on ash frame, bolted to bottom of body on hickory seat posts, glued, screwed and plugged the same as body.

SPRINGS—Best grade of refined spring steel, elliptic double sweep, oil-tempered, end springs, clipped to axle beds and hickory spring bars, on which the body loops hang. Springs are tested to a high tension and are very easy riding.

GEAR—Made of selected hickory, full rear circle fifth-wheel, with king bolt in rear of axle, 1⅛ inch double collar, swaged steel axle, with axle beds cemented and clipped to axle, double reach, ironed full length, bolted and braced with wrought iron stay braces.

WHEELS—Sarven's Patent, ⅞x1¼-inch tire; height, 40 inches front, 44 inches rear. We can when so desired, furnish lower wheels, although high wheels are almost exclusively used on a wagon of this kind. Made of best selected second-growth hickory, fully warranted.

TRIMMINGS—Seat cushion and back upholstered with Evans' enameled finish leather or cloth, as desired. Upholstered in a workmanlike manner by first-class upholsterers, patent leather curved dash, hung on steel frame, securely bolted to body; body-carpet, whip socket, toe rail, anti-rattlers, washers, wrench. Shafts made of selected hickory are furnished with wagon.

PAINTING—Body highly finished and painted black, with medallion painted fancy and line stripe on upper and lower part of panel; gear, dark Brewster green or carmine, as ordered.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Nickel plated dash rail, hub bands, seat handles, $1.00 extra. Seat cushion and back upholstered with 14-ounce all-wool cloth, or genuine leather, as desired, $1.50 extra. Buggy top, rubber roof, quarters, back stays and curtains, $9.00 extra. Leather quarter buggy top, $12.00 extra. Full length, all-wool body carpet, 75 cents extra. Pole in place of shafts, $2.00 extra. Pole in addition to shafts, $4.00 extra. When any of these extras are wanted, be sure to state in your order and add the price of extras to price of wagon. No extra charge for crating; delivered free on board cars at our factory. Weight, crated ready for shipment about 300 lbs. For freight charges see page 5.

THE NEW STYLE, LONG BODY, SPINDLE SEAT DRIVING WAGON

MICHIGAN A GRADE FANCY WAGON.

...GUARANTEED...

NO ONE MEETS OUR PRICES ON THIS A GRADE WORK.

From the time the material is first assorted to go into the work on this vehicle until the job is complete ready for shipment, a rig cannot have more careful attention or better workmanship, and that the wagon will compare with anything sold for a first-class rig, no matter at what price, can be appreciated only when our rig is seen and examined. We will ship it C. O. D. subject to examination, when so ordered, and if not found as represented we will refund the money sent with order and pay freight charges. This gives you a chance to see the rig before paying for it. No risk or responsibility is assumed by the purchaser, as we are a reliable concern and give a binding guarantee with every wagon. The new features of this high-class Driving Wagon cannot be shown in the illustration, nor fully described. The full rounded ends of seat back panel; the spindle work and the workmanship on the seat; the extra-large body; extra leg room from back cushion to toe rail, and many other prominent points must be considered so that some idea can be formed of the strictly up-to-date style and great value of our No. 88124 at $37.50. By our method of handling vehicles direct from manufacturer to consumer, we are able to sell this rig for less money than any other concern. Our terms and conditions of shipment are more liberal and satisfactory than offered by others for good first-class guaranteed work. Our guarantee is the longest, strongest and most binding and an absolute protection to every buyer.

If shipped C. O. D. be sure to send enough deposit with order as explained on page 928.

DESCRIPTION.

BODY—The sills are made of ash, air seasoned, beveled on top to shed water; rabbeted, so that the floor rests on inner edge of sill; corners and sills mortised and tenanted; the panels are made of the best air seasoned poplar, corners are mitered and panels fitted to the sills and corner-posts; they are then glued, clamped and screwed to the sills, corner-posts, seat-posts and toothpick panel braces. 24 inches wide and 56 inches long, round corners, concave risers; full convexed panels; ⅛-inch oval top edge irons, full length body loops securely bolted to sills.

SEAT—Solid ash frame bottom, halved together at corners, glued and screwed. The latest, up-to-date spindle work, with rounded panel back, curved to follow shape of seat. The very latest and newest style in seats.

SPRINGS—Elliptic end springs. When desired, can furnish Brewster side-bar or King or Thomas coil springs in combination with Brewster side-bar springs with 54 inch long body. The springs are made of the best oil-tempered spring steel and tested to a high tension, bolted and braced to axles and spring bars.

GEAR—15-16-inch, double collar, swaged and fantailed steel axles. Axle beds cemented and clipped to axles. Double reach, ironed full length, steel plates on bottom. Wrought fifth wheel. Braces and bolts wrought iron.

WHEELS—Sarven's patent or shell band hub, full bolted. Tire, ¾-inch or ⅞-inch, as ordered. Height of wheels, 38 inches front and 42 inches rear, 40 inches front and 44 inches rear or 42 inches front and 46 inches rear. The wheels are the best grade, and fully warranted.

TRIMMINGS—Seat cushions and back are upholstered with 16-ounce broadcloth, whip cord or genuine machine-buffed leather, as ordered. Upholstered in the very best manner possible by first-class workmen. Patent grain leather dash, hung on steel frame, securely braced and bolted to body. Full length body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered, with sword end singletree, nicely ironed and made of the best hickory are furnished with wagon.

PAINTING—Body, black, ebony finished. Gear, Brewster dark green or carmine, as ordered; nicely striped.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to state which is wanted, when ordering. The method of measuring width of track is across the wheels, from outside edge of tires on the ground.

EXTRAS—Pole in place of shafts, $3.00 extra. Pole in addition to shafts, $5.00 extra. No charge for crating. Delivered free on board cars at our factory. Weight, crated ready for shipment, about 300 pounds. For freight rates, see page 5.

AA GRADE, $38.00

A buggy like it either in the A or AA Grade cannot be bought elsewhere for less than 50 per cent more than our price.

MADE BY A LEADING MANUFACTURER IN OHIO.....

Whose reputation is known everywhere for honest, high-grade work. Every piece and part selected from the best materials from A and AA Grade stocks.

COVERED BY OUR BINDING GUARANTEE,

Which protects the customer from loss by any possible defects or misrepresentations.

When so desired we will ship C. O. D., subject to examination. If not found as represented, the money sent with order will be promptly refunded.

DESCRIPTION OF NO. 88285.

BODY—19, 22 or 24 inches wide by 54 inches long. Made of the best air-seasoned material: braced and bolted, glued, screwed and plugged; mitered at corners. Full length body loops.

SEAT—Built of air-seasoned carefully selected whitewood. Rounded and mitered at corners. Built on hickory seat posts and bolted to body. Narrow, medium or wide seat, as desired. High full drop back. Padded arm rails.

SPRINGS—As shown in illustration, Brewster side bar in combination with King or Thomas coil, which are easy riding springs, strong durable and very popular; in fact, used almost exclusively on an open piano box driving buggy. When so desired, we can furnish elliptic double sweep end springs, hung on drop axle gear.

GEAR—⅛-inch, double collar, fan-tailed, swaged steel axles, neatly arched, with the wood parts cemented and fastened to axles with 8-inch Norway iron clips on each. Full circle rear King bolt fifth wheel, well ironed throughout. Double reach, braced and bolted with wrought-iron stay braces. All wood parts made of the best selected second-growth hickory.

WHEELS—Sarven's patent or compressed band hub, full bolted between every spoke; ¾ or ⅞-inch wide by ¼-inch thick. Round edge steel tires. Height, 36 inches front, 40 inches rear; 38 inches front, 42 inches rear; 40 inches front, 44 inches rear. AA Grade has screwed rim wheels.

TRIMMINGS—Seat ends, cushion and back upholstered in the A Grade, with all-wool cloth, whip cord or leather. In the AA Grade, whip cord, 16-ounce all-wool dark green cloth, or genuine machine-buffed leather. Upholstered in the best possible manner and in any style wanted, as shown on page of seat-cushion patterns. Nickel plated dash rail. Patent grain leather No. 1 grade dash, hung on steel frame, braced and bolted to body. On A Grade, full length wool body carpet; AA Grade, full length velvet carpet and inside of body panels lined. Whip socket, toe rail, anti-rattlers, washers and wrench, XXX shafts, with 30-inch leathers, nickel tips, nicely trimmed, are furnished with buggy. Nickel plated dash rail, hub band, seat handles and whip socket.

PAINTING—Body, black; with ebony polish. Fancy ornamented seat risers, with two fine lines of striping around upper part of panels. Gear, carmine or dark Brewster green, neatly striped.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted, when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Rubber buggy top, three or four bows, as desired, with full shifting rail, $9.00. Pole in place of shafts, $3.00. Pole in addition to shafts, $5.00. No charge for crating; delivered free on board cars at our factory. Weight, crated ready for shipment, about 300 lbs. For freight rates see page 5.

OUR MICHIGAN END-SPRING PIANO BOX OPEN BUGGY, $34.50

Built by a concern whose factory is so thoroughly well known that their name alone would sell the buggy.

Their reputation is sufficient guarantee for the quality of material and workmanship, as the fact has long been established that throughout the entire factory (which is one of the largest and best equipped in the country), not a poor piece of timber, iron or steel can be found, and positively employ no cheap labor.

WE HANDLE NOTHING BUT THE BEST RIGS....

As our reputation and binding guarantee is worth a great deal more than the little difference in the profit between a good and poor rig; therefore, we cannot afford to buy vehicles from a manufacturer that uses poor material and employs cheap labor.

DESCRIPTION OF NO. 88288.

BODY—24 inches wide and 54 inches long, or 25 inches wide and 56 inches long, as desired. Made of air-seasoned material from A grade stock. Panels built on air-seasoned ash frame. Corners rounded and mitered. Panels glued, screwed and plugged. Full length body loops, bolted and braced to body sills.

SPRINGS—As shown in the illustration. Made of the best refined, oil-tempered spring steel, tested to a high tension. Second-growth hickory spring bars supporting body loops.

GEAR—⅛-inch, double collar fantailed and swaged steel axles, made of the best refined steel. Gear woods—second-growth hickory. Double reach, ironed and braced with wrought-iron stay braces. Axle beds, cemented and clipped to axles with Norway iron clips. Full circle wrought-iron fifth wheel.

WHEELS—No. 1 A grade second-growth hickory. Sarven's patent or compressed band hub, either ¾ or ⅞-inch tire. Height of wheels, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear, as desired. Tires made of the best steel, oval edge protecting the rims of wheels. Full bolted between each spoke and fully warranted.

TRIMMINGS—Seat cushion and back upholstered in 14-oz. all-wool cloth, whip cord or genuine leather, tufted and trimmed in the best possible manner by first-class upholsterers. Full length wool body carpet. No. 1 grade patent grain leather dash, hung on a steel frame, securely braced and bolted to body. Whip socket, toe rail, anti-rattlers, washers and wrench. Full leathered shafts.

SEAT—Made of air-seasoned white wood. Built on solid ash frame. Corners rounded and mitered. Glued, screwed and plugged the same as body. Seat supported from bottom of body with hickory seat posts, bolted through from bottom of seat to bottom of body. Solid panel back beveled, edges.

PAINTING—Highest style of the art. Body, black, with fine lines of striping, when so desired. Seat risers and seat ends painted the same as body, with fancy line striping or ornamentation, when so desired. Gear, dark Brewster green or carmine, as desired, neatly striped.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted, when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Nickel-plated dash rail, hub bands and seat handles, $1.00. Full length Brussels' carpet, body panels lined, $1.50. Pole in place of shafts, $3.00. Pole in addition to shafts, $5.00. No charge for crating; delivered free on board cars at our factory. Weight, crated ready for shipment, about 300 lbs. For freight rates, see page 910.

...OPEN CORNING BODY BUGGY...

OUR No. 88296 IN B GRADE AT $32.50

Is constructed from the best pieces and parts of materials in the B grade stocks. The cloth used in upholstering is all wool, heavy weight, will not fade. The leather used in upholstering is cut from the best parts of the hide. The cloth and leather is such as many factories use in their best grade of work. The bodies are made of clear, air-seasoned poplar and ash. Wheels No. 1 full bolted, oval edge steel tires. Shafts XXX hickory, leathered.

OUR No. 88296 IN A GRADE AT $38.50

Is the finest rig money can buy. The seat, body, dash, springs and spring bars, wheels and gears are made of the best pieces and parts of carefully selected materials from strictly A grade stock. The cloth is the very best grade of imported all-wool 16-ounce cloth, will not fade. The leather is the best grade of machine-buffed leather from the best parts of the hide. Dash is A No. 1 grade patent grain leather. Extra coat of painting and flushing of Valentine's best colors and varnish, making the best possible finish given any buggy. The springs are made of the best oil-tempered spring steel, tested to a high tension. Wheels, A grade, full bolted, screwed rims, spring cross-bar, axle stocks and reaches are second-growth white hickory, gear ironing is of Norway and wrought. **There is nothing on the market to compare with this buggy in the A grade at our price. We will, when so ordered, ship C. O. D., subject to examination. If not as represented we will refund the amount sent with order and pay freight charges.**

...DESCRIPTION OF 88296.

BODY—Corning style, the very latest design, 24 inches wide and 54 inches long. Moulded panels, ironed on top and full length body loops bolted to bottom of body. Made throughout of carefully selected material. The sills, panels and corner post are glued, screwed and plugged. All screw heads are countersunk. The sills are of the finest ash, panels of the best air-seasoned poplar, rounded and mitered at corners.

SEAT—35 inches wide across top of seat cushion from top of seat panels, 16 inches from front edge to back of seat cushion, 16 inches from top of seat cushion to top of back cushion, leg room from front of back cushion to toe rail, 39 inches. Solid panel back, painted and finished the same as body, with spiral springs in back cushion. The seat panels are made of 1-inch poplar, well seasoned, convexed, mitered and rounded at corners, glued, screwed and plugged the same as body panels. The back is of the best seasoned poplar, bent and curved with seat on either end. To prevent it from checking, warping or splitting, the ends are grooved out and a hardwood strip set in, securely glued.

SPRINGS—Elliptic double sweep end springs, oil tempered. Made of the very best refined crucible steel, 36 inches long. Hickory spring bars supporting body loops, securely bolted and braced with wrought iron clips and braces.

WHEELS—Sarven's patent or shell band wood hub, full bolted. Tire, ⅝-inch oval edge protecting rim. Height of wheels, 38 inches front and 42 inches rear or 40 inches front and 44 inches rear, as ordered. Made of carefully selected stock and fully guaranteed.

PAINTING—Body, black; nicely striped on panels with ornamented seat risers, as shown in cut. Gear, Brewster dark green or rich carmine, as ordered, with double fine line striping. The paint on this vehicle is extra fine.

TRIMMINGS—Seat cushion and back upholstered in B grade with cloth or Evans' enameled finish leather, in A grade 16-oz. all-wool cloth or genuine machine-buffed leather, tufted, buttoned and upholstered in the very best manner possible by first-class workmen. Patent leather curved dash, securely braced and bolted to body. Body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered, with sword end singletree made of the best XXXX hickory, are furnished with buggy.

GEAR—1⅛-inch double collar, swaged steel axles. Axle beds cemented and clipped to axles. Double reach, ironed full length, braced and bolted with wrought-iron stay braces. Wrought-iron fifth wheel.

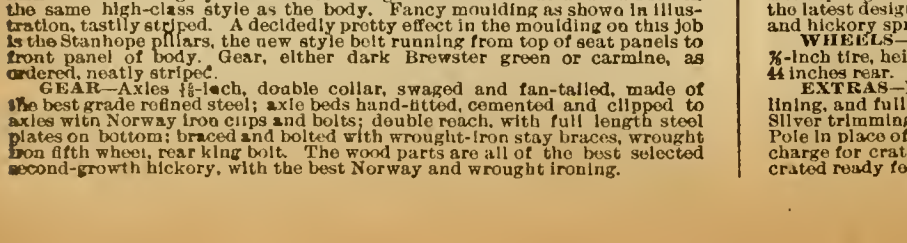
TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. **Be sure to state which one is wanted when ordering.** The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Canopy top with rubber side and back curtains, $8.00 extra.
Buggy top, rubber roof, quarters, side and back curtains, $9.00 extra.
Upholstered with 16-oz. all-wool cloth or genuine machine-buffed leather on the B grade, $1.50 extra.
Pole in place of shafts, $3.00 extra.
Both pole and shafts, $5.00 extra.
When any of these extras are wanted be sure to state in your order and add the price of the extras to the price of the buggy.
No charge for crating, delivered free on board cars at our factory.
Weight, crated ready for shipment, about 300 lbs. **For freight rates, see page 5.**

A GRADE PHAETON CORNING OPEN BUGGY, $36.90

OUR PRICE THE LOWEST, GRADE OF MATERIAL THE HIGHEST AND WORKMANSHIP THE BEST.

WE can sell this buggy direct to the user at a lower price for a single job than the jobbers can buy from the manufacturer in car-load lots. The finish, style, proportion, material and workmanship at **$36.90** can only be appreciated after the buggy has been seen and examined. We can say without fear of contradiction that a rig equal **to our No. 88297 A Grade Phaeton Corning Buggy cannot be purchased elsewhere for less than 50 per cent. more than our price,** and a careful comparison of our buggy with anything like it on the market—quality, grade, finish and price considered—will be convincing that you cannot more profitably place your order than with us, and that our statement is based on the merits of the job. **When so desired we will ship C. O. D., subject to examination. If not found as represented, the money sent with the order will be cheerfully and promptly refunded and we will pay the freight.**



No. 88297

Price, if cash in full is sent with order..... **$36.90**

Price, when shipped C. O. D..... **$37.95**
If ordered shipped C.O.D., be sure to send enough deposit with order as explained on page 928.

...DESCRIPTION OF 88297...

BODY—Corning style, 24 inches wide and 56 inches long, side panels 9½ inches; height from floor of body to top of seat-back panel, 30½ inches. Solid air-seasoned ash frame, mortised and tenanted at corners. The upright seat braces, the toothpick seat panel braces and corner posts all tenanted into sills; thoroughly clamped, screwed and glued. Body panels are made of the best air-seasoned poplar, convexed; corners are rounded and mitered, screwed, glued and plugged. Seat risers concaved and halfed into top of panel, screwed and glued to seat posts; ⅛-inch oval top edge irons. Full length body loops.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. **Be sure to state which is wanted when ordering.** The method of measuring width of track is across the wheels from outside edge of tires on the ground.

SEAT—Phaeton style, 35 inches across seat cushion from top of seat panels, 17 inches from front edge to rear of seat, 16 inches from floor of body to top of seat cushion, 18 inches from seat cushion to top of seat back, 39 inches leg room from front of back cushion to toe rail; seat end panels 8½ inches high, 20 inches deep. Solid panel spring back made of the best selected white wood built on ash frame, concaved, rounded and mitered at corners, glued, screwed and plugged the same as body panels.

SPRINGS—Oil-tempered elliptic end springs, made of the best refined spring steel, 36 inches long and tested to a high tension, easy riding and the latest design in end springs; clipped and bolted to hickory head block and hickory spring bars on which the body loops are bolted.

WHEELS—Sarven's patent or shell band hub, fully bolted with ¾ or ⅝-inch tire, height, 38 inches front and 42 inches rear or 40 inches front and 44 inches rear. **No. 1 grade and fully warranted.**

EXTRAS—Machine-buffed leather quarter top, 8-ounce inside head lining, and full length rubber back and side curtains, lined, **$12.50 extra.** Silver trimmings, plated dash rail, hub bands and seat handles, **$1.00 extra.** Pole in place of shafts, **$3.00 extra.** Pole in addition to shafts, **$5 extra.** No charge for crating; delivered free on board cars at our factory. Weight, crated ready for shipment, about 300 pounds. **For freight rates, see page 5.**

TRIMMINGS—Seat cushion, seat ends and back upholstered with 16-ounce all-wool cloth, whip cord or genuine machine-buffed leather, tufted and trimmed in the very best manner possible by first-class upholsterers. No. 1 grade patent grain leather dash, V pattern with hand holds, hung on steel frame, securely braced and bolted to body. Full length brussels carpet; whip socket, toe rail, anti-rattlers, washers and wrench. Shafts full leathered, made of the best XXXX hickory, well ironed, strong and durable.

PAINTING—In the highest style of the art. A better finished rig is not turned out of any factory. The body is given 14 coats of color and varnish and is thoroughly rubbed out. The gear is rubbed out and finished in the same high-class style as the body. Fancy moulding as shown in illustration, tastily striped. A decidedly pretty effect in the moulding on this job is the Stanhope pillars, the new style belt running from top of seat panels to front panel of body. Gear, either dark Brewster green or carmine, as ordered, neatly striped.

GEAR—Axles 1⅛-inch, double collar, swaged and fan-tailed, made of the best grade refined steel; axle beds hand-fitted, cemented and clipped to axles with Norway iron clips and bolts; double reach, with full length steel plates on bottom; braced and bolted with wrought-iron stay braces, wrought iron fifth wheel, rear king bolt. The wood parts are all of the best selected second-growth hickory, with the best Norway and wrought ironing.

OUR GUARANTEE IS FOR TWO YEARS.

With proper care, the buggy will last a great many years and be in use giving satisfactory service long after the ordinary B grade Buggy sold by many concerns for $50.00 to $60.00.

IN OUR B GRADE BUGGIES.

We give unusual value for the money, for no other handlers of vehicles ship direct from factory to user the same grade guaranteed buggies on so small a margin of profit. We buy in such very large quantities and can afford to sell

HIGH-GRADE WORK

As there is practically no expense attached to the handling of our buggies.

Our Nos. 88298, 88299 and 88300

B GRADE BUGGIES

Are made by a manufacturer who turns out only good, honest work, and these buggies are value for the price from the ground up, and are fully described below. Every piece and part is covered by our binding two-years' guarantee, which is

AN ABSOLUTE PROTECTION.

to every customer against loss by any possible defects in material or workmanship. When so desired, we will ship C. O. D. If not as represented, the money sent with order will be cheerfully and promptly refunded, and we will pay the freight.

DESCRIPTION

Nos. 88298, 88299, 88300.

BODY—Made of carefully selected B grade material, 22 or 24 inches wide, 54 inches long. Body screwed, glued and plugged, rounded at corners; concave seat risers.

SEAT—33 inches wide across seat cushion on top of seat panels, full drop back cushion. Rounded corners, screwed, glued and plugged, and finished the same as body panels; strongly bolted and well made.

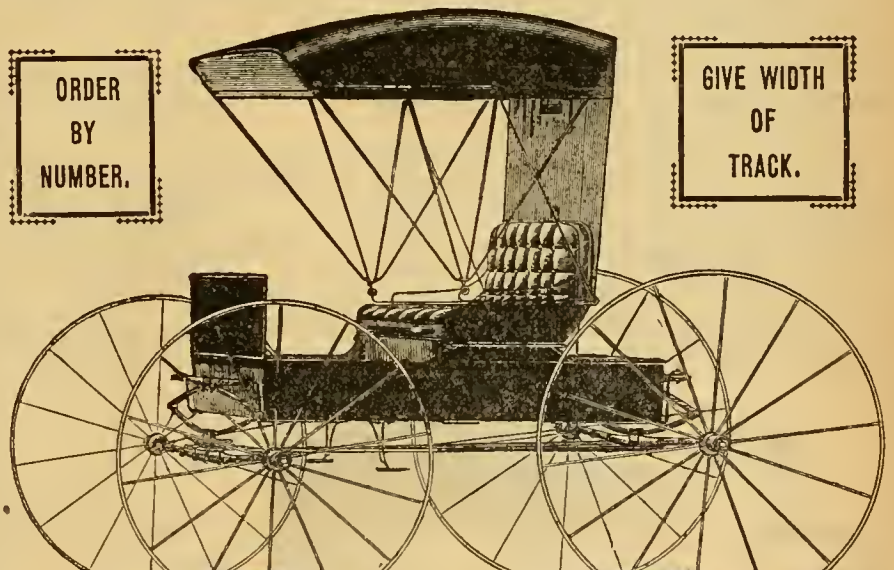
SPRINGS—Choice of either elliptic end or Brewster side-bar, as desired. The springs are made of the very best refined spring steel, easy riding, strong and durable, clipped and bolted to hickory spring bars supporting body.

GEAR—1⅛-inch double collar steel axle, axle beds clipped and bolted to axle. Double reach, ironed, braced and bolted with wrought-iron stay braces. The end spring buggy has drop axles, and Brewster side bar, arched axles.

WHEELS—Sarven's patent or shell band hub, as desired, ¾, ⅞ or 1-inch oval edge steel tire. Height, 36x40, 38x42 or 40x44, as ordered.

ORDER BY NUMBER.

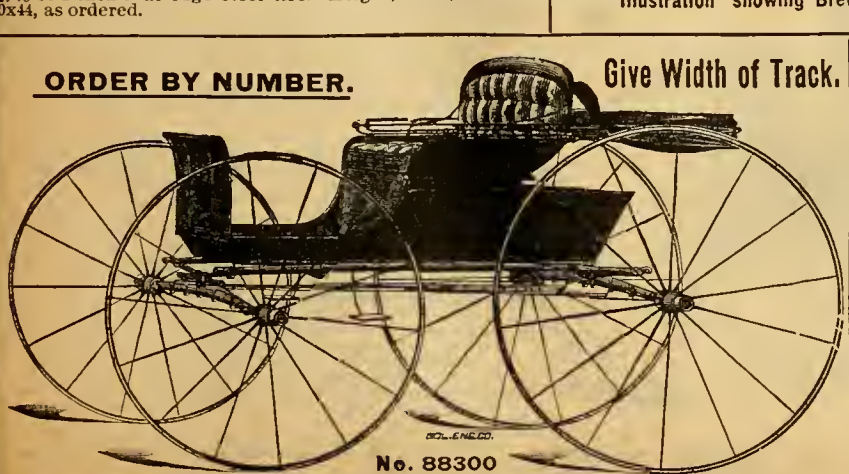
GIVE WIDTH OF TRACK.



No. 88299

Illustration showing Brewster Side-bar Springs. Price the same as No. 88298.

ORDER BY NUMBER. Give Width of Track.



No. 88300

Illustration Showing No. 88300 with Corning Body, Hung on Brewster Side-bar Springs. Can be had with End Springs, when ordered. Price the same as No. 88298.

TRIMMINGS—Seat cushion and back upholstered with Evans' enameled finish leather, tufted and upholstered in first-class manner. Leather dash, body carpet, whip socket, toe rail, anti-rattlers, washers, wrench and storm apron, are furnished with buggy, shafts trimmed with Evans' enameled finish leather.

TOP—Imitation leather, three or four bows, as desired, inside of top and back stays lined with dark green cloth.

PAINTING—Body, black; gear, dark Brewster green or carmine, as ordered, nicely striped. When desired, we will paint a fine line stripe on the body panels and a fancy design on the seat risers, for which we will make no extra charge. If wanted, be sure to mention this in the order.

TRACK—Narrow, 4 feet 8 inches, or wide, 5 feet 2 inches. Be sure to mention which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Full rubber top in place of imitation leather top, $3.00 extra. Leather quarter top in place of imitation leather top, $5.00 extra. Seat cushion and back upholstered with 12-ounce all-wool cloth or genuine leather, $1.50 extra. Solid panel spring back seat, $1.50 extra. Nickel plated dash rail, hub bands, seat handles and top prop-nuts, $1.00 extra. Full length Brussels body carpet and panels lined, $1.50 extra. Pole in place of shafts, $2.00 extra. Pole in addition to shafts, $4.00 extra. If any of these extras are wanted, be sure to mention them in your order, and add the price of extras to the price of the buggy.

We make no extra charge for crating; delivered free on board cars at our factory. The buggy will weigh about 400 lbs. when crated ready for shipment, and the freight rates are shown on the introductory pages in front part of catalogue, page 5.

$35.90 STANDARD "B" GRADE WORK.

GUARANTEED.

Our "B" Grade Buggies are made of standard graded B stock, full rubber (22 oz.) top, full drop back seat, wool body carpet, boot covering body back of seat. A rig equal to it can not be had for less than 50 per cent. more than our price.

These buggies are made by a reliable vehicle manufacturer, of good honest material, not from discarded second or third assorted B stock, with putty, paint and varnish covering up for the time being the defects of poor material. We are a responsible house and make good our every agreement by the terms and conditions of which the purchaser of one of our buggies is absolutely protected against any loss from defects or mis representation. It is true poor buggies represented as good work can be handled by unreliable concerns who make no pretensions, after the buggy is sold, to make good any part of the guarantee. No reliable, good business house can safely guarantee poor vehicles, and we find it much more profitable and satisfactory to our customers when the buggy is being made to put a little more money into the material and labor. In this way we furnish direct to the user a better buggy for less money than can be found anywhere on the market. Instead of handling poor jobs and adding a big profit with which to pay repair bill, we put the money into the buggy and have no repair bills to pay.

THE ILLUSTRATIONS are direct reproductions of photographs taken of the buggies, the cuts show piano and Corning body, with end springs, either style body or springs can be had at no additional charge.

FREIGHT CHARGES NOTHING. The cost of transportation amounts to almost nothing, considering the amount we save you in the purchase price. With the freight charges added to the price of buggy it can be delivered to your freight station at a smaller cost than the same grade, make, style and finished rig would cost you if purchased elsewhere.

We Guarantee every buggy, and when desired will ship C. O. D. subject to examination; if not found as represented the money sent with order will be cheerfully and promptly refunded, and we will pay the freight.

DESCRIPTION OF Nos. 88302 AND 88304.

BODY—Made of carefully selected standard B grade material, air-seasoned, strongly built and well made throughout. Rounded at corners, glued, screwed and plugged. Built on ash frame, mortised at corners, 22 or 24 inches wide by 54 inches long.

SEAT—Built on concave risers supported from bottom of body on hickory seat posts. Corners rounded, glued, screwed and plugged the same as body. Wide and roomy, 33 inches across seat cushion from top of seat panels. Full drop back cushion, patent leather finish.

SPRINGS—Elliptic end springs as shown in illustration or Brewster side-bar springs as desired. Made from the best refined steel and tested to a high tension. Strong, durable and easy riding. Clipped and bolted to hickory spring bars.

OUR IMPERIAL "B" GRADE BUGGIES

Are made of the first assorted, carefully selected and inspected materials of standard graded "B" stock.

28-oz. full rubber top, back curtain and stays lined. Full drop back seat cushion, patent leather finished. All wool full length body carpet. Rubber boot covering body in rear of seat. Fine line striping around body panels or plain, as desired.

OUR IMPERIAL STANDARD "B" GRADE buggies are equal to any top buggy on the market sold for from $55.00 to $65.00. **EVERY BUGGY** we handle, whether in "B" "A" or "AA" Grade are perfect types of the highest order of excellence in vehicle manufacturing, with every improvement conducive to comfort, magnificent proportions, grand finish and unsurpassed quality. A careful comparison of our buggies with what you would be compelled to pay others for the same make, grade, finish and workmanship will be readily convincing that we can save you from 33⅓ to 50 per cent. on the purchase price, with the freight charges added.

FREIGHT IS A SECONDARY CONSIDERATION when quality and price are considered. The consumer pays the freight whether the vehicle is bought from the local dealer or from us. To the local dealer you pay the freight in the price asked for the buggy which is added to the profit. To us you pay no profit on the freight, it is paid to your railroad agent when the buggy arrives, and we pack and crate the rig so as to get the lowest freight rates for our customers.

OUR IMPERIAL STANDARD "B" GRADE Buggies are absolutely free from the common annoyances to which the ordinary B grade buggies are subject, and for an original, reliable, incomparable job in the B grade we are free to say it can only be had in our Nos. 88306 and 88308 from us at $38.70.

YOUR CHOICE OF END SPRINGS. Brewster Side-Bar Springs, King or Thomas Coil Spring in combination with Brewster side-bar. Piano body or Corning body, all at the same price.

WE ISSUE Our Binding Two Years' Guarantee with each buggy, covering every piece and part of material, also workmanship. When so desired we will ship C. O. D., subject to examination, if not found as represented we will promptly and cheerfully refund the money sent with the order and pay the freight.

DESCRIPTION OF Nos. 88306 and 88308.

BODY—22 or 24 inches wide by 54 inches long. Imperial style piano box. The frame is made of air-seasoned ash, mortised at corners. Body panels are made of air-seasoned poplar, mitered and rounded at corners, fitted to corner posts, glued, screwed and plugged. The body is very handsome in design, well and strongly built.

SEAT—33 inches across seat cushion from top of seat panels. High back cushion with full drop patent leather finish back. Wide and roomy, with extra leg room, very comfortable riding. Seat panels are made of air-seasoned white wood. Convexed seat risers. Hickory seat posts, bolted and braced to bottom of body. Seat corners mitered and rounded. Glued, screwed and plugged the same as body.

SPRINGS—Elliptic, oil-tempered, end springs, as shown in illustration of buggy No. 88306 or Brewster side-bar springs, with either King or Thomas Coil combination, as shown in illustration of buggy No. 88308. Be sure to state your choice when ordering. Our springs are made by the largest spring manufacturing concern in the world who turn out only high-grade springs made of the best spring steel and tested to a high tension. Spring bars are made of selected second-growth hickory.

GEAR—15-16-inch, double collar, swaged, steel axles perfectly trued, axle beds fitted, cemented and clipped to axle. Double reach, ironed, braced and bolted with wrought iron stay braces. Full circle fifth wheel.

WHEELS—Sarven's patent or shell band hub, ¾, ⅞ or 1-inch oval edge steel tire. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear or 40 inches front and 44 inches rear. Full bolted between every spoke with sand and point bands on hubs. We use only such wheels as can be fully warranted and guaranteed.

TRIMMINGS—Seat cushion and back upholstered with 12-ounce all-wool cloth, or Evans' enameled finish leather, tufted and trimmed in the best possible manner by first-class upholsterers. Patent leather dash. Rubber boot covering rear of body back of seat. Full length body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts made of XXX hickory, well ironed, strong and light furnished with buggy.

MOUNTINGS—Nickel-plated dash rail, hub bands, seat handles, and top prop nuts are furnished on this job.

TOP—26-ounce full rubber 3 or 4 bows, as desired. Inside of top, stays and back curtain lined with dark green wool cloth. Full length curtains hung on patent fasteners. Patent leather finish valance stitched and sewed on.

PAINTING—Our Imperial standard "B" grade buggies are painted in the highest style of the art, and has as many coats on body and gear as the "A" grade vehicles ordinarily handled by local dealers. The body is black with fine gold line striping around upper and lower part of panel, as shown in illustration. Fancy decoration on seat risers. Gear, dark Brewster green or carmine, as ordered, neatly striped. The painting on our Imperial buggies is a feature which will be readily noticeable when the rig is examined.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Leather quarter top in place of rubber, $3.00. Full leather top in place of rubber, $8.00. Seat cushion, seat end and seat back upholstered with 14-ounce all-wool cloth or genuine leather, $1.50. Spiral spring back cushion with solid panel back, painted and finished the same as body, $1.50. Full length Brussels body carpet with inside body panels lined, $1.50. Pole in place of shafts, $2.50. Pole in addition to shafts, $4.50.

When any of these extras are wanted, be sure to state in your order and add the price of extras to the price of buggy. No charge for crating, delivered free on board cars at our factory. Weight, crated ready for shipment, about 400 lbs. For freight charges, see introductory pages in front part of catalogue.

EXACTLY THE SAME

AS THE MOST EXORBITANT PRICED GRADE BUGGY. There is the same style, th same effect, the same wear, the same selected Grade material, the same high-class workmanshi everything the same except the price—which is greatly different and far lowe and that is why we are recognized headquarters for vehicles. Our Top Buggies a the highest grade for the lowest price, with no expense for handling, as every job shipped direct from the factory to the user with only a very small percentage profit added to the actual cost of making.

OUR BUGGIES possess decided marks and a degree of perfection know only in high-class buggy building. The latest in style an recognized standard of excellence, both in appearance and lasting qualities.

...OUR No. 88310 AND 88312 NEW STYLE A GRADE TOP BUGGIES..

are the acme of perfection and positively superior i quality, workmanship and finish to any other on the ma ket at near our price—at $45.00, cash in full with orde which is by far the better way of ordering in preference t a C. O. D. shipment.

THE BUGGY HAS leather quarter top, any styl upholstering; solid panel sea back with spiral spring-back cushion; silver trimmed an carpeted; wheels, No. 1 grade; springs, choice of En Brewster Side Bar, King or Thomas Coil in combinatio with Brewster Side Bar. The illustrations show the en springs, but any of the others will be furnished when orde ed, without additional charge.

OUR BINDING TWO YEARS' GUARANTEE

Covers Every Piece and Part of Material an Workmanship, which is

AN ABSOLUTE PROTECTION

to every customer against loss by any possible defects misrepresentation. When so desired we will ship C. D., subject to examination; if not found as represente we will cheerfully and promptly refund the money se with order and pay the freight.

.. NOTE ..

ANY CHOICE OF PAINTING, plain black or fancy colo from No. 1 to No. 9, as shown on "Color Plates," for which we make no extra charge. When wanted, we will furnish on these buggies the NEW STYL PHAETON SEAT AND CUSHION, same as on No. 7 in color plate of buggies, for $5.00 extra.

Description of Nos. 88310 and 88312.

BODY—22 or 24-inch in piano box, 24 inches wide, in Corning body by 54 ins. long. The careful construction of the body, the grade of material used and the workmanship throughout is done in a manner that only first-class vehicles are built. The frame is made of air-seasoned, second-growth Pennsylvania ash, mortised, tenoned, glued and screwed at corners. All screw heads counter-sunk. Body panels swelled and convexed. Made of air-seasoned white wood, rounded and mitered at corners. Panel posts and corner posts are tenoned to the sills. Glued, screwed, plugged, and the finish is strictly high-class. Top of panels protected with oval edge steel in front of seat. Flat steel around body back of seat.

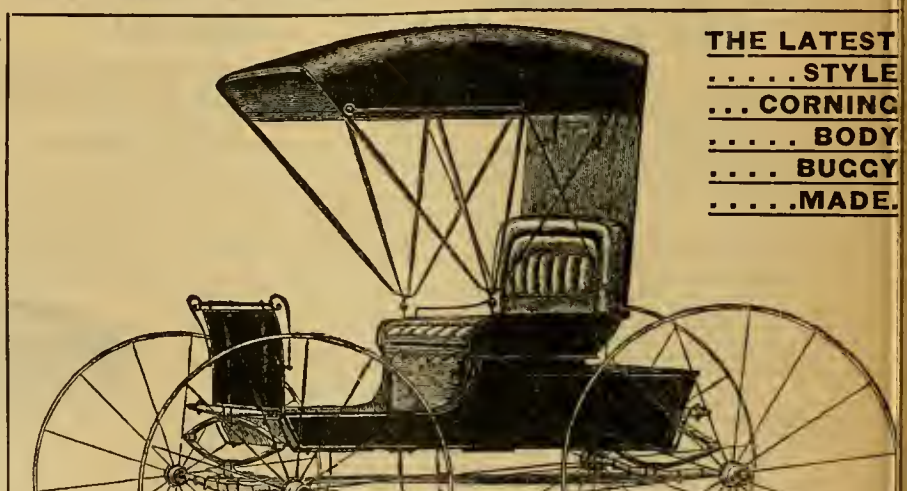
SEAT—33½ inches wide across seat cushion from top of seat panels; 16 inches from front to rear edge of seat cushion. From floor of body to top of seat cushion, 15 inches. Height, from top of seat cushion to top of back cushion, 16 inches. Solid ash frame halved in at corners, glued and screwed. Seat panels made of one-inch air-seasoned poplar, convexed, rounded and mitered at corners, glued, screwed and plugged the same as body. Built on upright hickory seat posts, bolted and braced from bottom of body, mortised into bottom of seat. Concaved risers. Solid panel back made of the best seasoned poplar, bent to curve with seat on either end, to prevent it from checking, warping or splitting; a hardwood strip is set in a groove securely glued. Painted and finished the same as body panels.

SPRINGS—Elliptic double sweep end springs, as shown in illustration; Brewster side-bar spring, or King, or Thomas' coil in combination with Brewster side-bar. Be sure to mention in your order the style of spring wanted. We will furnish any of the styles as mentioned without extra charge, but we recommend the elliptic end springs, because they give better satisfaction, are of greater capacity and last longer. The steel used in making the springs for these buggies is the best oil-tempered and double refined. The spring bars are made of the best selected second growth Ohio black hickory, supporting full length body loops.

GEAR—All wood parts made of selected second-growth hickory. Ironed throughout with Norway and wrought iron. 1⅛-inch double collar swaged and fan-tail axles. Made of the best refined steel. Axle beds hand fitted, cemented and clipped to axles with 8 Norway iron clips. Full turn wrought-iron slot fifth wheel with king-bolt in rear of axle, making the best coupling known in buggy building. Double reach, ironed full length, braced and bolted with wrought iron stay braces. Rub irons on body, protecting the finish from being marred by the wheels when making turns. Steps bolted and braced on step block, running full across bottom of body.

WHEELS—Selected second-growth hickory. Sarven's patent or compressed band wood hub; ¾, ⅞ or 1-inch wide by ¼-inch thick, oval edge steel tire, protecting the rims. Full bolted between every spoke. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear, as ordered. Be sure to state in your order what style hub is wanted, width of tire and height of wheels. We recommend Sarven's Patent Hub, as it is better adapted for general purposes; it gives better satisfaction and lasts longer than any wheel used. Our wheels are all high-grade and fully warranted.

TRIMMINGS—Seat cushion and back upholstered with 14-ounce all-wool dark green cloth, or genuine leather, as desired, tufted and trimmed in the best possible manner by first-class upholsterers. Our upholstering, as well as every detail of the buggy, is a work of art. The seat back is upholstered in roll and buttoned style, with a full roll around top, as shown in the picture. The front edge of seat cushion has a raised and stitched pattern with full length fall from cushion to bottom of body. Full length Brussels body carpet. Inside of body panels lined with Brussels, edges bound. Rubber boot, covering body back of seat, preventing a collection of dust, mud or water in rear of body. Patent leather dash hung on a steel frame, securely braced and bolted to body. Whip socket, toe rail, anti-rattlers, washers and wrench, storm apron. Shafts made of selected hickory, nicely leather-trimmed, well iron strong and light, furnished with the buggy.



THE LATEST . . . . . STYLE . . . CORNING . . . . . BODY . . . . BUGGY . . . . .MADE.

No. 88312

ILLUSTRATION SHOWING CORNING BODY, WITH END SPRINGS, PRICE SAME AS No. 88310.

MOUNTINGS—Rope pattern, nickel plated dash rail, hub bands, seat ha dles and top prop-nuts are furnished unless otherwise ordered. We give choi with or without, as some prefer trimmings and some do not. Be sure to me tion in your order if you do not want them.

TOP—Leather quarter top, 3 or 4 bows, as desired. Genuine leather qua ters and back stays. Heavy rubber roof. Full length side and back curtai Inside of top, back stays and back curtains lined with all-wool, dark gre cloth. Curtains hung on patent fasteners, solid leather valance, stitched a sewed on. Top supported on full shifting rail, and can be removed when d sired to use rig as an open buggy.

PAINTING—The number of coats, quality of lead, oil, paint and varnish u the careful manner in which the work is executed, makes the finish of the buggies a feature of which we cannot say too much. Any color, as mention in note just above description.

TRACK—Narrow, 4 feet 8 inches; and wide, 5 feet 2 inches. Be su to state which is wanted when ordering. The method of measuring width track is across the wheels from outside edge of tires on the ground.

EXTRAS—Full leather top in place of leather quarter-top, $5.00. Po in place of shafts, $3.00. Pole in addition to shafts, $5.00. If any of the extras are wanted, be sure to state in your order and add the price of t extras to the price of the buggy.

No charge for crating; delivered free on board cars at our factory. Weig crated ready for shipment, about 400 pounds. For freight charges, see page

Our Standard New Style A Grade Guaranteed Top Buggy $49.00

The same make, grade, finish, material and workmanship that is used in A grade work, sold everywhere for exorbitant high prices, with big profits added. This buggy is exactly the same as other high-class, strictly A-grade buggies, except in price, which is far lower than asked by others. Our way of selling buggies requires no expense. They are shipped direct from the factory, and by buying from us the purchaser gets a first-class two-years guaranteed buggy for much less than prices asked elsewhere for inferior rigs.

We will, when so desired, ship C. O. D., subject to examination, and if not found as represented, we will refund the money sent with order cheerfully and promptly, and pay the freight.

OUR GUARANTEE is an absolute protection to every customer against defects.

AT $49.00 cash in full with order, or $50.65, if ordered shipped C. O. D., we furnish our Standard B-Grade buggies with:

Leather quarter top, carefully prepared and machine buffed.

Choice of any style of upholstering, as shown on any buggy in this catalogue.

SPRINGS—Choice of elliptic end, Jackson side-bar, Brewster side-bar, King, or Thomas coil in combination with Brewster side-bar.

MOUNTINGS—Nickel plated dash rail, hub band, hand holds and prop nuts, or will furnish any part of mountings wanted or leave them off, as ordered.

Carpeted body and panels lined, with Brussels carpet.

OUR NUMEROUS AND BRILLIANT STYLES mark clearly the highest art known in modern buggy building. Our superior advantages of marketing the products of the best factories have revolutionized the buggy business until now we are recognized headquarters not only in price, but for incomparable, high-grade, newest styles, designs, general lines and painting. EXORBITANT, UNREASONABLE PRICES don't make the buggy. It is the quality of material, finish and workmanship; so why take chances elsewhere when we can save you money and furnish a good buggy.

NOTE: ANY CHOICE OF PAINTING. Plain black or any fancy colors from No. 1 to No. 9, as shown on colored plates, for which we make no extra charge. When wanted, we will furnish on these buggies the new style phaeton seat and cushion, same as on No. 7, in "Color Plate" of buggies for $5.00 extra.

DESCRIPTION OF NOS. 88314 AND 88316.

BODY—Corning style, 24 inches wide by 54 inches long. Piano body, 20, 22 or 24 inches wide, 54 inches long. The sills are made of the best air-seasoned ash, beveled to shed water, and rabbeted so that the floor rests on inner edge of sill. Corners are mortised and tenanted. The upright seat braces, the tooth pick side panel braces and the corner posts are all tenanted to the sills. Tenants are first dipped in hot glue, the frame put together and screwed. All screw heads are countersunk. The frame is then trued and smoothed, both sides and ends, so that the panels are fitted perfectly. The body panels are made of air-seasoned Tennessee poplar. Corners mitered and panels are fitted to sills and corner posts, they are then glued, clamped and screwed to sills, corner posts, seat posts and tooth pick panel braces. The panels are glued, screwed and plugged, corners nicely rounded. The top of the body is fitted with steel oval edge irons from front of seat to front of body, flat steel irons around top of body panels back of seat. The body is convexed and has a swell in the center of ¾-inch.

SEAT—Large and roomy, with plenty of leg room, 33½ inches wide across seat cushion from top of seat ends, 16 inches from front to rear edge; from top of seat cushion to bottom of body 15 inches; from top of back seat to floor of body 30 inches. The seat is made on a solid air-seasoned ash frame, with solid panel back, painted and finished the same as body, with spiral springs in back cushion, also spring- seat cushion without charge, when so desired. Seat panels made of 1-inch poplar, thoroughly seasoned, convexed and mitered at corners, glued, screwed and plugged the same as body. Seat and back panel made of the best air-seasoned poplar, bent to curve with the seat and on either end to prevent checking, warping and splitting, the ends are grooved out and a hardwood strip set in securely glued. Seat built on concave seat risers and hickory seat posts, braced and bolted to body.

SPRINGS—Elliptic end springs, made of refined spring steel, oil-tempered and tested to a high tension. These springs are very popular for their elasticity, easy riding, durability and lasting qualities. When so desired we will furnish Jackson side-spring, Brewster side-bar spring or King or Thomas coil springs in combination with the Brewster side-bar. The buggies hung on end springs have drop axles. Brewster side bar, King or Thomas coil springs in combination with Brewster side bar have arched axles. Jackson side spring has drop axles. We can furnish either drop or arched axles with any of the springs if choice is mentioned in order.

GEAR—1⅛-inch double collar, swaged and fantailed axles, made of the best extra refined steel. Axle beds are hand-fitted, cemented and clipped to axles with eight Norway iron clips and bolts, double reach, ironed full length and braced with wrought iron stay braces. Wrought iron full slot fifth wheel with king bolt in rear of axle, making the strongest coupling known in buggy building. The gear is made throughout of the best selected second growth hickory and wrought and Norway iron.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, with oval edge steel tire, ¾, ⅞ or 1 inch wide by ¼-inch thick. Height, 36 inches front, and 40 inches rear, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear. Will furnish compressed band or shell band wood hubs when so ordered. Wheels are made of second-growth hickory and fully warranted.

TRIMMINGS—Seat cushion, seat ends and sest back upholstered in the latest 1898 styles, in the very best possible manner known to the art of buggy trimming and done by first-class upholsterers, with 14-ounce, all-wool, full-weight, dark green cloth of fine texture, or carefully prepared genuine trimming leather in either black, dark green, tan or maroon. Rubber boot covering rear of body, back of seat, excluding water, dust and mud. No. 1 patent leather dash, hung on steel frame securely braced and bolted to body. Foot protectors for side panels of body. Full length Brussels body carpet, with inside of panels lined with Brussels, edges bound; whip socket, toe rail, anti-rattlers, wrench and washers; rubber storm apron; shafts full leathered, nicely trimmed and well ironed.

MOUNTINGS—We furnish the buggy with nickel plated dash rail, hub bands, seat handles and top prop nuts. If not wanted, mention in order.

TOP—Three or four bows, as ordered; machine buffed leather quarters and back stays; 22-ounce Joy rubber center, rubber lined side and back curtains, solid leather valance stitched and sewed on. Length of top 45½ inches, supported from seat on full shifting rail; can be easily removed when desired as an open rig. Inside of top and back stays are lined with heavy dark green wool cloth. Brewster fasteners and stitched curtain straps.

PAINTING—The highest style of the art, in any color desired, as mentioned in the note just above description.

TRACK—Narrow, 4 ft. 8 in., and wide, 5 ft. 2 in. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Full machine-buffed leather top, except side curtains, which are heavy-weight rubber, cloth lined, in place of leather quarter top, $5.00. Genuine leather boot covering body back of seat, in place of rubber boot, $1.00. Pole in place of shafts, $3.00. Both pole and shafts $5.00. If any of these extras are wanted, be sure to state in your order and add the price of the extras to the price of the buggy. No charge for crating; delivered free on board cars at our factory. This buggy will weigh, crated, ready for shipment, about 400 pounds.

For freight charges see page 5.

DESCRIPTION OF Nos. 88318 and 88320.

BODY—Corning style, 24 inches wide by 54 inches long. Piano body 20, 22 or 24 inches wide by 54 inches long. The sills are made of the best air-seasoned ash, beveled to shed water and rabbitted so that the floor rests on the inner edge of sill. Corners are mortised and tenanted. The body panels are made of air-seasoned Tennessee poplar. Corners mitered and panels are fitted to sills and corner posts; they are then glued, clamped and screwed to sills, corner posts, seat panels, and toothpick panel braces. The panels are glued, screwed and plugged. Corners nicely rounded.

SEAT—Large and roomy, with plenty of leg room, 33½ inches wide across seat cushion from top of seat ends, 16 inches from front to rear edge. From top of back seat to floor of body, 30 inches. From top of seat cushion to bottom of body, 15 inches. The seat is made on a solid air-seasoned ash frame, with solid panel back, painted and finished the same as body, with spiral springs in back cushion, also spring seat cushion without charge when so ordered.

SPRINGS—The springs used on our buggies are extra-refined, highest grade, oil-tempered and tested to a high tension; are made by one of the largest and most reliable spring manufacturing concerns in the country. The elliptic end spring is by far the best spring used in buggy building, as it is easy riding, carries a greater capacity, gives better satisfaction and lasts longer than any other spring. When wanted, we will furnish, without extra charge, the auxiliary three-leaf steel spring bar in combination with the elliptic end spring; any of these springs can be had when wanted without extra charge; Brewster side-bar, Jackson side, or King or Thomas coil in combination with the Brewster side-bar. Unless otherwise instructed, we give the same springs as shown in picture of the buggy selected.

GEAR—15-16-inch double collar, swaged and fantailed, made of the best extra-refined steel. Axle beds are hand fitted, cemented and clipped to axles with eight Norway iron clips and bolts. Double reach, ironed full length and braced with wrought-iron stay braces. Wrought-iron full slot fifth wheel.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, with oval edge steel tires, ¾, ⅞ or 1-inch wide by ¼-inch thick. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear or 40 inches front and 44 inches rear. Will furnish compressed band or shell band wood hubs when so desired.

TRIMMINGS—Seat cushion, seat ends and seat-back upholstered in the latest 1898 style, in the very best possible manner known to the art of buggy trimming, and done by first-class upholsterers, with 16-ounce all wool Dark Green Cloth of fine texture or genuine first-quality machine-buffed trimming leather, in either black, dark green, tan or maroon. Boot over back of body, excluding water, dust or mud. No. 1 patent leather dash, hung on steel frame, securely braced and bulted to body. Boot protectors for side panels of body. Full length Brussels carpet, with inside of panels lined with Brussels, edges bound. Whip socket, toe rail, anti-rattlers, washers and wrench. Rubber storm apron. Shafts full leathered, nicely trimmed and well ironed furnished with buggy.

MOUNTINGS—Nickel plated dash rail, hub bands, seat handle, and top prop-nuts. If all mountings are not wanted, we will furnish any parts as ordered or leave them off entirely, just as suits our customers.

TOP—Three-quarters leather. The top on this buggy is a decided feature, and one that we know is very popular among users of buggies, although it is not furnished regularly on buggies, and for this reason we will furnish it regularly on our Imperial A grade buggies. 3 or 4 bows as desired. First quality machine-buffed leather quarters, which are the sides of the top, the back stays and the back curtain are made of carefully selected first quality machine-buffed leather, cloth lined. 28-ounce best quality full rubber roof. Rubber side curtains, cloth lined. Inside of top lined with heavy all-wool cloth. Solid leather valance, stitched and sewed on. Supported from seat on adjustable shifting rail and can be easily removed when desired as an open rig.

PAINTING—The highest style of the art, in any color desired, as mentioned in the "note" just above illustration of buggy No. 88320.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Full leather roof in place of rubber roof, $3.00. Genuine leather boot covering body back of seat in place of rubber boot, $1.00. Pole in place of shafts, $3.00. Pole in addition to shafts, $5.00. If any of these extras are wanted be sure to state in your order and add the price of the extras to the price of the buggy. No charge for crating; delivered free on board cars at our factory. This buggy will weigh, crated ready for shipment, about 400 pounds. For freight charges, see page 5.

NOTE.--ANY CHOICE OF PAINTING.

Plain Black or any fancy colors from No. 1 to No. 9 as shown on Color-Plates, for which we make no extra charge.

When wanted, we will furnish on these buggies the New Style Phaeton Seat and Cushion, the same as No. 7 in color-plates of buggies for $5.00 extra.

Description of 88322 and 88324.

BODY—Choice of either Corning or Piano body. Corning bodies, 24 in. wide by 54 in. long. Piano bodies, 19, 22 or 24 inches wide by 54 inches long. Constructed of strictly selected AA grade material, the very best stock used in buggy building. Built on a solid air-seasoned ash frame mortised and tenanted at corners. Beveled on edge to shed water and rabbeted so that the floor rests on inner edge of sill. Corners of sills are mortised and tenanted. The upright seat braces, the tooth-pick side panel braces and corner posts are all tenanted to the sills. All tenants are first dipped in glue, the frame put together and screwed. After the glue is well set, this frame is put on the sand-board, made accurately true and thoroughly smooth on both sides and ends, making it ready for the panels. The panels are made of the best air-seasoned timber. Corners mitered and panels are fitted to sills and corner posts; they are then glued, clamped and screwed to sills, corner posts, upright posts and tooth-pick panel braces. All screw heads are counter-sunk; the plugs are dipped in hot glue and put in with the grain of the wood in the panels. Sufficient time is allowed to have the glue become thoroughly dry, the body is then put on the sand-board, smoothed up with corners nicely rounded. Steel oval edge irons are put on top of body panels in front of seat, and flat steel edge irons are put on body panels in rear of seat. The body is convexed and has a swell in the center of ¾-inch.

SEAT—Narrow, medium or wide, as ordered. Regular size, 33½ inches across seat cushion from top of seat ends. Depth, 16 inches from front to rear edge of cushion. Height from seat cushion to top of back cushion, 15 inches. Height of seat ends, 6 inches. Height from floor of body to top of seat-back panel 30 inches. Seat built on hickory seat-posts, braced and bolted to body. Concave seat risers halfed into body. Convexed seat panels made of the best 1-inch air-seasoned poplar. Corners halfed together; convexed and mitered, glued, screwed and plugged the same as body. Panel back is made of the best seasoned poplar and bent to curve with seat on the ends, and to prevent checking, warping and splitting, the ends, are grooved out and a hardwood strip set in securely glued.

SPRINGS—Made of best extra refined oil tempered, highest grade spring steel. With choice of elliptic end springs, as shown in illustration of No. 88322, or Jackson side, as shown in illustration of No. 88324. Without extra charge when so desired we will furnish Brewster side-bar springs or auxiliary three-leaf steel spring-bar, in combination with the elliptic end-spring, or King or Thomas coil springs, in combination with the Brewster sidebar. To insure easy riding, durability and lasting qualities we use only the highest grade springs made.

GEAR—15-16-inch double axle, collar, swaged and fantailed, made of the best extra refined steel. Axle beds are hand fitted, cemented and clipped to axles with eight Norway iron clips and bolts. Double reach, ironed full length and braced with wrought-iron stay braces. Wrought-iron full slot fifth wheel, with king bolt in rear of axles, making the strongest coupling known in buggy building. The gear is made throughout of the best selected second-growth hickory and wrought and Norway iron.

WHEELS—The best No. 1 grade wheels, made of selected second-growth hickory. The rims screwed on each side of spoke, making it impossible to have spilt felloes. Sarven's patent, 16 spokes, full bolted between every spoke, with oval edge steel tire ¾, ⅞ or 1-inch wide by ¼-inch thick. Height, 36 inches front and 40 inches rear; 38 inches front and 42 inches rear; or 40 inches front and 44 inches rear. Will furnish compressed band or shell band wood hubs when so ordered. Our wheels are fully warranted.

TRIMMINGS—Seat cushion and back trimmed in the highest style of the art in the latest 1898 styles. You may have any style cushion as shown on any of the buggies listed in our catalogue by mentioning it in your order. Seat cushion, seat ends and seat back are tufted and upholstered in the best possible manner by first-class upholsterers. Seat cushion has full length fall to bottom of body with raised, figured and stitched pattern on face of cushion. Heavy rubber spring boot covering body back of seat, excluding water, dust and mud. Full length velvet body carpet, inside of panels lined with velvet carpet, edges bound. Foot protectors for side panels of body. No. 1 patent grain leather dash hung on steel frame, securely braced and bolted to body. Whip socket, toe rail, anti-rattlers, washers and wrench. Rubber storm apron. Shafts nicely trimmed with 32-inch point leather and well ironed, furnished with buggy.

MOUNTINGS—When desired we will furnish nickel plated dash rail, hub bands, seat handles and top prop-nuts, without extra charge. If wanted be sure to mention in your order.

TOP—Three or four bows. Carefully prepared machine-buffed leather quarters, back stays and back curtains, inside of top and back stays lined with heavy all-wool dark green cloth. Roof of top, 26-ounce first quality rubber. Side and back curtains rubber, cloth-lined. Solid leather valance stitched and sewed on. Supported from seat on adjustable shifting rail, and can be easily removed when desired as an open rig.

PAINTING—The painting is executed in the highest style of the art known in buggy finishing. The body has 14 coats and the gear is rubbed out and finished the same as body. You may have any color of paint wanted as mentioned in the "note" just above the description.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Best buffed first quality full leather top, except side curtains, which are heavy weight rubber, cloth lined, in place of leather quarter-top, $5.00.

Pole in place of shafts, $3.00.

Pole in addition to shafts, $5.00.

No charge for crating, delivered free on board the cars at our factory.

This buggy will weigh, crated ready for shipment, about 400 pounds

For freight rates see page 5.

NOTE--ANY CHOICE OF PAINTING,

PLAIN BLACK OR ANY FANCY COLORS FROM No. 1 TO No. 9 AS SHOWN ON COLOR PLATE, FOR WHICH WE MAKE NO EXTRA CHARGE.

WHEN WANTED We will furnish on these Buggies, the new style Phaeton Seat and Cushion, the same as on No. 7 in color-plate for buggies for $5.00 extra.

Description of Nos. 88326 and 88328.

BODY—Choice of either Corning or Piano body. Corning bodies 24 inches wide by 54 inches long. Piano bodies 19, 22 or 24 inches wide, by 54 inches long. Constructed of strictly selected AA grade material, the very best stock used in buggy building. Built on a solid air-seasoned ash frame mortised and tenanted at corners. Beveled on edge to shed water and rabbeted so that the floor rests on inner edge of sill. Corners of sills are mortised and tenanted. The upright seat braces, the tooth-pick side panel braces, and the corner posts are all tenanted to the sills. All tenants are first dipped in hot glue, the frame put together and screwed. After the glue is well set, this frame is put on the sand board, made accurately true and thoroughly smoothed on both sides and ends, making it ready for the panels. The panels are made of the best air-seasoned timber. Corners mitered and panels are fitted to sills and corner posts, they are then glued, clamped and screwed to sills, upright posts, seat and tooth-pick panel braces. All screw heads are counter sunk. The plugs are dipped in hot glue and put in with the grain of the wood in the panels. Sufficient time is allowed to have the glue become thoroughly dry; the body is then put on the sand board, smoothed up with corners nicely rounded. Steel oval edge irons are put on top of body, panels in front of seat, and flat steel edge irons are put on body panels in rear of seat. The body is convexed and has a swell in the center of ¾ of an inch.

SEAT—Narrow, medium or wide, as ordered. Regular 33½ inches across seat cushion from top of seat ends. Depth, 16 inches from front to rear edge of cushion. Height from top of seat cushion to top of back cushion, 16 inches. Height of seat ends, 6 inches. Height from floor of body to top of seat back panel, 30 inches. Seat built on hickory seat posts, braced and bolted to body. Concave seat risers halfed into body. Convexed seat panels made of the best 1-inch air-seasoned poplar, corners halfed together, convexed and mitered, glued, screwed and plugged the same, as body. Panel back is made of the best air seasoned poplar and bent to curve with the seat on the ends, and to prevent checking, warping and splitting, the ends are grooved out and a hardwood strip set in, securely glued.

SPRINGS—Elliptic End Springs as shown in illustration, made of the best extra refined, oil-tempered, highest grade spring steel. Without extra charge when so desired we will furnish Brewster side-bar springs, or auxiliary three leaf steel spring bar, in combination with the elliptic end spring or King, or Thomas coil springs in combination with the Brewster side-bar. To insure easy riding, durability, and lasting qualities we use only the highest grade springs made.

GEAR—1⅝-inch double collar, swaged and fantailed, made of the best extra refined steel. Axle beds are hand fitted, cemented and clipped to axles with eight Norway iron clips and bolts. Double reach, ironed full length and braced with wrought-iron stay braces. Wrought-iron full slot fifth wheel with king bolt in rear of axle, making the strongest coupling known in buggy building. The gear is made throughout of the best selected second-growth hickory and wrought and Norway iron.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke, with oval edge steel tire, ¾, ⅞ or 1-inch wide by ¼-inch thick. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear, and 40 inches front and 44 inches rear. We will furnish compressed band or shell band wood hubs, when so ordered. The best No. 1 grade wheels, made of selected second growth hickory. The rims are screwed on each side of spoke, making it impossible to have split felloes. Fully warranted.

TRIMMINGS—Seat, cushion and back trimmed in the highest style of the art, in the latest 1898 styles. You may have any style cushion as shown on any of the buggies listed in our catalogue by mentioning it in your order. Seat cushion, seat ends and seat back are tufted and upholstered in the best possible manner, by first-class upholsterers. Seat cushion has full length fall to bottom of body, with raised, figured and stitched pattern on face cushion. Genuine leather boot, covering body back of seat excluding water, dust and mud. Full length velvet body carpet, inside of panels lined with velvet carpet, edges bound. Foot protectors for side panels of body. No. 1 patent grain leather dash hung on steel frame, securely braced and bolted to body. Leather covered seat handles. Rubber padded steps. Whip socket, toe rail, anti-rattlers, washers and wrench. Rubber storm apron. Shafts nicely trimmed with 32-inch point leather and well ironed, furnished with the buggy.

MOUNTINGS—We furnish on this buggy, silver dash rail. If hub bands are wanted together with dash rail, be sure to mention in your order. If dash rail is not wanted, we will leave it off if mentioned in order.

No. 88332 is the same buggy as No. 9, shown in color-plates of buggies.

NOTE—Any choice of painting: Plain black or any fancy colors from No. 1 to No. 9, as shown on color-plates, for which we make no extra charge.

OUR BINDING TWO-YEARS' GUARANTEE with every Buggy. Will ship on our regular C.O.D. terms when desired.

DESCRIPTION OF Nos. 88330 and 88332.

BODY—Choice of either Corning or Piano body. Corning bodies, 24 inches wide by 54 inches long. Piano bodies, 22 or 24 inches wide by 54 inches long. Constructed of strictly selected "AA Grade" material, the very best stock used in buggy building. Built on a solid air-seasoned ash frame, mortised and tenanted at corners. Beveled on edge to shed water and rabbited so that the floor rests on inner edge of sill. Corners of sills are mortised and tenanted. The upright seat braces, the toothpick panel braces and the corner posts are all tenanted to the sills. All tenants are first dipped in glue, the frame put together and screwed. After the glue is well set, this frame is put on the sand board, made accurately true and thoroughly smooth on both sides and ends, making it ready for the panels. The panels are made of the best air-seasoned timber. Corners mitered and panels are fitted to sills and corner posts; they are then glued, clamped and screwed to sills, corner posts, seat corners and toothpick panel braces. All screw heads are countersunk. The plugs are dipped in hot glue and put in with the grain of the wood in the panels. Sufficient time is allowed to have the glue become thoroughly dry, the body is then put on the sand boards, smoothed up with corners nicely rounded. Steel oval edge irons are put on top of body panels in front of seat, and flat steel edge irons are put on body panels in rear of seat. The body is convexed, and has a swell in the center of ¾-inch.

SEAT—The very latest style Phaeton seat, pillar posts on front end of seat panels, with high seat ends, heart shape seat back. Distance across top of seat cushion between seat ends, 33 inches. Height of seat back, 18 inches. Seat built on hickory seat posts, braced and bolted to body. Concave seat-risers halfed into body. Convexed seat panels made of the best 1-inch air-seasoned poplar. Corners halfed together, convexed and mitered. Glued, screwed and plugged the same as body. Back panel is made of the best seasoned poplar and bent to curve with the seat on the ends and to prevent checking, warping and splitting; the ends are grooved out and a hard wood strip set in, securely glued.

SPRINGS—Made of best refined oil-tempered highest grade spring steel. Either auxiliary three-leaf steel spring bar in combination with elliptic end springs, as shown in illustration of No. 88330, or elliptic end springs, with hickory cross bars, as desired. End springs hung on drop axles. **Brewster side bar, Kiog or Thomas coil in combination with Brewster side bar** have arched axles. Jackson side springs are hung on drop axles. Any of these springs can be had and will be hung on either drop or arched axles, as ordered.

GEAR—15-16-inch double collar, swaged and fantailed, made of the best extra refined steel. Axle beds are hand fitted, cemented and clipped to axles with eight Norway iron clips and bolts. Double reach, ironed full length and braced with **wrought-iron stay braces.** Wrought-iron full slot fifth wheel, with king bolt in rear of axle, making the strongest coupling known in buggy building. The gear is made throughout of the best selected second-growth hickory, wrought and Norway iron.

WHEELS—Sarven's patent, 16 spokes, full bolted between every spoke with oval edge steel tire, ¾, ⅞ and 1-inch wide, by ¼-inch thick. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear and 40 inches front and 44 inches rear. Will furnish compressed band or shell band wood hubs, when so ordered. **The best No. 1 grade wheels, made of selected second-growth hickory.** The rims are screwed on each side of spoke, making it impossible to have split felloes. Fully warranted.

TRIMMINGS—Seat cushion, seat ends and back trimmed in the latest 1898 patterns. You may have any style cushion as shown on any of the buggies listed in our catalogue by mentioning it in your order. Seat cushion, seat ends and seat back are tufted and upholstered in the best possible manner by first-class upholsterers. Seat cushion has full length fall to bottom of body with raised, figured and stitched pattern on face of cushion. **Genuine leather boot covering body back of seat, excluding water, dust and mud.** Full length velvet body carpet, inside body panels lined with velvet carpet, edges bound. Foot protectors for side panels of body. No. 1 patent grain leather dash hung on steel frame, securely braced and bolted to body. Whip socket, toe rail, anti-rattlers, washers and wrench. Rubber storm apron. Shafts nicely trimmed with 32-inch point leather and well ironed furnished with buggy.

MOUNTINGS—We furnish on this buggy, silver dash rail. If hub bands are wanted together with dash rail, be sure to mention in your order. If dash rail is not wanted, we will leave it off, if mentioned in order.

TOP—3 or 4 bows, as desired, with choice of either curved top braces or braces as shown on top of No. 88332. The tops on these buggies are made throughout of genuine hand-buffed full leather, except the side curtains, which are heavy rubber, cloth lined. Solid leather valance, stitched and sewed on. No better top made. Inside of top, back stays and back curtain lined with heavy dark green cloth. Back stays padded and ornamented with fancy stitching and rosettes. Patent leather-covered bow sockets, leather-covered top prop-nuts, leather-covered seat handles and rubber-covered steps.

PAINTING—Executed in the highest style of the art known in buggy finishing. The body has 14 coats and the gear is rubbed out and finished the same as body. You may have any color of paint wanted as mentioned in the "note" just above the description.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Pole in place of shafts, $3.50.
Pole in addition to Shafts, $6.00.
No charge for crating; delivered free on board cars at our factory.
This buggy will weigh, crated ready for shipment, about 400 pounds.
For freight charges, see page 5.

MADE WITH A LONG 57-INCH BODY FOR HIGH-CLASS TRADE.

SOLD BY JOBBERS AND DEALERS for nearly double our price. It cannot be had elsewhere for anything near as low as our price, as we buy in large quantities. The material and labor are furnished at actual cost, with a very small factory cost added, an amount merely to cover the cost of using the machinery, which is the latest modern vehicle machinery.

TO THE FIRST COST OF MAKING we add only our one small profit, and with our superior facilities for shipping direct from manufacturer to user,

WE ARE ABLE TO FURNISH THIS HIGH GRADE BUGGY AT ABOUT ONE-HALF THE PRICE ASKED BY OTHERS.

WE HAVE LEFT NOTHING UNDONE TO SUPPLY THE CONSUMER with every style buggy made, always considering quality and price as the essential features of handling vehicles; that these two points are of great importance to the purchaser.

ISSUING AS WE DO A TWO YEARS' BINDING GUARANTEE, we cannot afford to handle vehicles built by any but old established and reliable manufacturers, whose reputation alone is a guarantee for using the best material and employing only skilled workmen.

These buggies embody all the good points of all the high-class A Grade buggies, with the defects of none, representing all the latest thoroughly practical developments known in good buggy building.

THE INDISPUTABLE FACT THAT WE ARE THE LARGEST HANDLERS OF VEHICLES IN THE UNITED STATES IS THE BEST EVIDENCE OF THE QUALITY OF OUR WORK.

DO NOT BE DISSUADED from sending us your order by the unfounded arguments of prejudiced dealers who do not have the same facilities for buying or handling vehicles as we do, and know they cannot meet our price for the same grade rig and only want your order for the profit in the sale for them for one of their buggies.

THE SPECIAL FEATURES of our solid comfort Phaeton Seat Michigan A Grade Guaranteed Top Buggy at **$47.00** cash in full with the order, or **$48.75** if shipped C. O. D., can be fully appreciated by carefully reading the description.

OUR GUARANTEE covers every piece and part and workmanship, which is an absolute protection to every customer.

When so desired **we will ship C. O. D.** subject to examination; if not found as represented, **the money sent with order will be cheerfully and promptly refunded,** and we will pay freight.

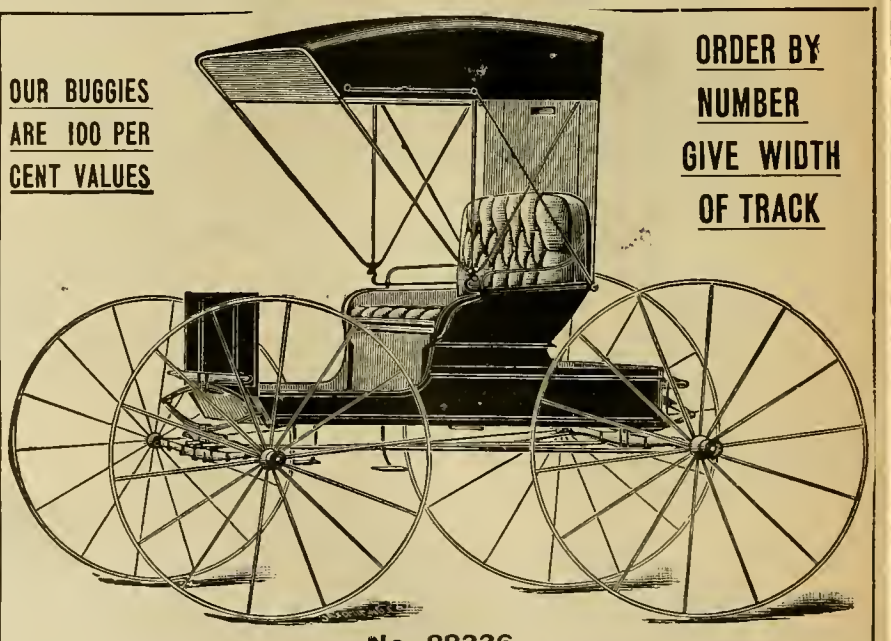
ORDER BY NUMBER GIVE WIDTH OF TRACK



No. 88336

Illustration showing Corning body, price same as No. 88334.

DESCRIPTION OF NOS. 88334 AND 88336.

BODY—25 inches wide and 57 inches long. Sill made of air-seasoned ash, mortised, glued and screwed at corners. Body panels made of the best air-seasoned white wood. Corners rounded, mitered, glued, screwed and plugged. Panels convexed with ¾-inch swell in center. Mouldings on upper and lower part of body panels, adding greatly to the appearance of the rig and strength of panels. Body strongly built and top panels ironed.

SEAT—High convexed panels, rounded corners, phaeton style, large and roomy, with high back cushion 35 inches wide, 16 inches deep, height of seat back 18 inches. Solid panel back, painted and finished the same as body, with spiral spring cushion. Seat built on hickory seat posts and concaved seat raisers.

SPRINGS—Best elliptic Berlin head end springs, oil tempered, and tested to a high tension, clipped and bolted to axles and hickory spring bar, supporting full length body loops. We recommend elliptic end springs, as they give better satisfaction, are of greater capacity and last longer than any other springs used in buggy building.

GEAR—All wood parts of the best selected second-growth hickory, ironed with the best Norway and wrought iron. Axles 1⅛ inch, double collar, swaged and fan tailed, made of the best refined steel, with axle beds hand fitted, cemented and clipped to axles with Norway clips and bolts. Derby circle wrought-iron fifth wheel, with King bolt in rear of axle, the best fifth wheel coupling in use. Double reach, ironed full length, braced and bolted with wrought-iron stay braces.

WHEELS—Sarven's patent or compressed hand hub, full bolted, ¾, ⅞ or 1-inch wide by ¼-inch thick, oval edge steel tires. Height, 40 inches front and 44 inches rear, 38 inches front and 42 inches rear, and 36 inches front and 40 inches rear. Made of the best selected second-growth hickory and fully warranted.

TRIMMINGS—Seat cushion, seat ends and back upholstered with imported all-wool dark green 14-ounce cloth or genuine leather, as desired. Biscuit or diamond pattern tufted and upholstered in the best possible manner by first-class upholsterers. No. 1 patent grain leather dash, hung on steel frame, securely braced and bolted to body. Full length Brussels body carpet inside of body panels lined with Brussels, edges bound. Boot covering body back of seat. Whip socket, toe rail, anti-rattlers, wrench and storm apron. Shafts full leathered, nicely trimmed and well ironed, furnished with buggy.

TOP—3 or 4 rows as desired, first quality buffed leather quarter top, inside of top, back stays and back curtain lined with all-wool cloth. Side and back curtains hung on patent fasteners with stitched curtain straps in rear. Solid valance stitched and sewed on.

PAINTING—The finish of this rig is a work of art in the line of buggy painting. Body, black, with moulding painted any fancy color desired. Gear, dark Brewster green or carmine, as ordered, neatly striped.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Best buffed full leather top in place of leather quarter top, **$5.00.** Nickel plated dash rail, hub bands, seat handles and top prop-nuts, **$1.00.** Pole in place of shafts, **$3.00.** Pole in addition to shafts, **$5.00.**

If any of these extras are wanted, be sure to state in your order and add the price of the extras to the price of the buggy. No charge for crating; delivered free on board cars at our factory. This buggy will weigh, crated ready for shipment, about 400 pounds.

For freight charges, see page 5.

Made by an old and reliable concern, whose enviable reputation for high grade work is a guarantee for quality and workmanship.

OUR COLUMBUS, OHIO, BUGGIES

In the B grade at $39.90, A grade at $49.00 and AA grade at $63.00 is evidence of what we are able to do on our one-small-profit, direct-from-manufacturer-to-consumer plan.

OUR COLUMBUS, OHIO, B GRADE GUARANTEED BUGGY, $39.90

OUR BINDING TWO-YEARS' GUARANTEE

Covering every piece and part of material and workmanship serves as an absolute protection to every customer. We will, when so desired, ship C. O. D., subject to examination, and if not found as represented, the money sent with order will be cheerfully and promptly refunded, and we will pay the freight.

CAREFULLY READ THE DESCRIPTION.

Our Columbus, Ohio, A Grade Guaranteed Buggy, $49.00

NOTE: ANY CHOICE of PAINTING—Plain black or fancy colors from No. 1 to No. 9, as shown on color-plates, for which we make no extra charge.

WHEN WANTED we will furnish on this buggy the new style phaeton seat and cushion, same as on No. 7 in color-plates of buggies, for $5.00 extra.

Description of Nos. 88338 and 88340.

BODY—Either piano or Corning style. Piano box, 22 or 24 inches wide by 54 inches long. Corning made in only one width, 24 inches. Panels convexed with swell in the center of ¾-inch. Corners rounded, mitered, glued, screwed and plugged. Sills of frame are made of the best air-seasoned ash, mortised, glued and screwed at corners. Corner posts, seat posts and toothpick panel braces are all tenanted into sills, glued and screwed into body panels. All screw heads are countersunk, and plugs dipped in hot glue and put in panels with grain of wood; trued and smoothed to give accurate surface to the panels. Full length body loops, braced and bolted to body.

SEAT—Made of air-seasoned white wood, built on hickory seat posts, braced and bolted to body. Concaved seat risers, and convexed seat panels. Corners rounded, mitered, glued, screwed and plugged the same as body; halfed in at ends. 33½ inches wide from top of seat ends, 16 inches deep. Solid panel back made of 1-inch air-seasoned poplar, painted and finished the same as body. Bent to curve with seat and on either end, and to prevent checking, warping and splitting, the ends are grooved out and a hardwood strip set in securely glued. Spiral springs in back cushion.

GEAR—Axles 1⅛-inch, double collar, swaged and fantailed. Best refined steel springs with axle beds handfitted, cemented and clipped to axles with Norway iron and clips and bolts. Full Derby circle fifth wheel with king bolt in rear of axle, making the strongest coupling in buggy building. Double reach, ironed full length, braced and bolted with wrought-iron stay braces. All wood parts second-growth hickory and forgings of Norway and wrought iron.

WHEELS—Sarven's patent or compressed band hub, full bolted between every spoke. Oval edge steel tire ¾, ⅞ or 1-inch wide by ¼-inch thick. Height, 40 inches front and 44 inches rear, 38 inches front and 42 inches rear, or 36 inches front and 40 inches rear. Made of second-growth hickory and fully warranted.

TRIMMINGS—Seat cushion, seat ends and back upholstered and tufted in the highest style of the art known in buggy trimming, with imported all-wool 14-ounce dark green cloth, in any color. Imported car plush or genuine machine-buffed leather. Heavy rubber boot covering rear of body back of seat. Full length body Brussels carpet, edges bound. No. 1 patent grain leather dash, hung on steel frame braced and bolted to body. Whip socket, toe rail, anti-rattlers, washers, wrench and storm apron. Shafts nicely leather trimmed and well ironed.

MOUNTINGS—We furnish the buggy with nickel plated dash rail, hub bands, seat handles and top prop-nuts. If these mountings are not wanted, we will leave them off, just as suits our customer.

TOP—On B grade, rubber top; on A grade, first quality machine-buffed leather quarter-top, 3 or 4 bows, as desired. Inside top, back stays and back curtain lined with dark green cloth. Solid leather valance, stitched and sewed on.

PAINTING—Highest style of the art known in buggy finishing. Body has the same number of coats, and thoroughly rubbed out with pumice, the same as all high-class work. The gear is also rubbed out and finished the same as body. On the A Grade we will paint any color wanted, as mentioned in "note" just above description; on B Grade Body is painted black, Gear dark green or carmine.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

SUPERIOR FINISH, high-grade quality of materials, up-to-date latest design, and proportions are considered points of paramount importance in Columbus, O., work.

.....THE MANUFACTURER'S REPUTATION.....

IS A GUARANTEE, AND WE ISSUE A

BINDING TWO-YEARS' GUARANTEE WITH EVERY BUGGY

covering every piece and part of material and workmanship, which is an absolute protection to every customer. While we guarantee these buggies two years which is one year longer than the average dealer gives on any vehicle, with proper care they should last twenty years.

WE WILL SHIP C. O. D. subject to examination; if not found as represented WE WILL CHEERFULLY AND PROMPTLY REFUND THE MONEY sent with order AND PAY THE FREIGHT.

: : : DESCRIPTION : : :

BODY—The workmanship, finish, quality of material, careful inspection and general construction of these buggies is second to none; there is no better made, handsomely proportioned with newest up-to-date lines and long 54-inch body. Piano box, 19, 22 and 24 inches wide x 54 inches long. The Corning bodies are built only in one size, 24 inches wide x 54 inches long. Body built on solid air-seasoned ash frame, beveled to shed water and rabbetted so that the floor rests on inner edge of sills. Corners of sills are mortised, tenanted, glued and screwed. All screw-heads are countersunk. The panels are made of the best air-seasoned poplar, swelled, convexed and rounded. Corners are mitered and panels are fitted to sills and corner posts, glued, screwed and plugged to the sills, corner posts, seat posts and tooth-pick panel braces. Top panels of body in front of seat protected with oval edge iron. Top panels back of seat with flat top edge irons.

GEAR—The wood parts are made from the very best second-growth hickory, ironed throughout. Has the best Norway and wrought-iron drop forgings, with ⅝-inch double collar, swaged and fantailed, double refined steel axles. Axle beds hand fitted, cemented, bolted and clipped to axles with 8 Norway iron clips. Double reach, ironed full length on bottom, braced and bolted with Norway iron stay braces. Wrought-iron full circle slot fifth wheel with king-bolt in rear axle, making the best coupling known in buggy building. Full length body-loops, running full length from front to rear spring-bar, strongly bolted to spring-bar and sills of body.

WHEELS—Made of the best selected second-growth strictly A grade hickory, full bolted between every spoke. The rims screwed on each side of spokes preventing split felloes. Either Sarven's patent or compressed band wood hub, tire ¾, ⅞ or 1-inch wide x ¼-inch thick. Height, 36 inches front and 40 inches rear, 38 inches front and 42 inches rear, or 40 inches front and 44 inches rear. We use nothing but the very best wheels on these buggies, fully warranted.

TRIMMINGS—Seat cushion and back upholstered with 16-ounce all-wool imported dark green cloth, or genuine machine-buffed leather, as desired, handsomely trimmed and tufted in the highest style of the art by first-class upholsterers. With choice of any style upholstering desired. It is essential that the seat cushion and back have as much attention as any other part of the buggy, and we use every means known in the art of upholstering to make the seat cushion and back a feature of every buggy. No. 1 grade patent grain leather dash. Heavy full rubber boot covering body back of seat, fitting the body perfectly and preventing a collection of dust, mud or water in rear of body. Full length velvet body-carpet. Inside body-panels lined with velvet carpet, edges bound. Whip socket, toe rail, anti-rattlers, washers and wrench, storm apron. Shafts furnished with buggy are made of the best XXXX hickory, with 32-inch patent leather points. Leather singletree protectors on cross bar, well ironed, strong and light.

SPECIAL MOUNTINGS—A decided feature and furnished only on strictly high-class work. Patent leather covered bow sockets. Patent leather-covered prop-nuts. Leather-covered seat handles and rubber-covered steps.

TOP—Genuine hand-buffed leather quarter top, 3 or 4 bows, as desired; inside of top and back stays, back and side curtains lined with heavy all-wool cloth; solid leather valance, stitched and sewed on.

PAINTING—Body given 14 coats of filling, lead, oil, the best Valentine's colors and varnish. The gear rubbed out and painted in the same high-grade manner as the body. Body is painted jet black, with ebony finish. The gear, dark Brewster green or carmine, as ordered, neatly striped, or any fancy colors as mentioned in choice of painting.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

SPRINGS—High tensioned, extra refined, oil-tempered spring steel. We will furnish any spring shown in our catalogue on any of these buggies. We show in the illustrations the elliptic end-spring and Brewster side-bar spring. We can furnish any of the following named springs without extra charge when so desired: Jackson side-bar spring, Armstrong single-leaf or double-leaf spring, King coil or Thomas coil spring in combination with Brewster side-bar. We recommend the elliptic end-spring, because it has given better satisfaction, is easier riding, greater capacity and will last longer than any spring used on buggies. The springs are bolted and clipped with Norway iron. The spring bars are made of the best selected second-growth hickory, supporting full length body loops.

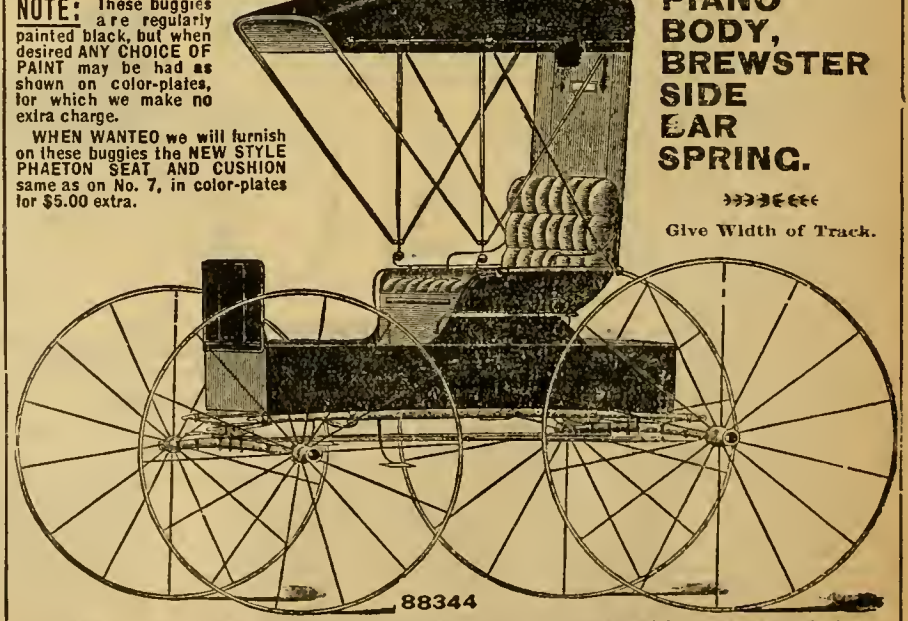
SEAT—On a 19 or 22-inch body, 33 inches wide across seat cushion from top of seat panels. On a 24-inch body, 35 inches across from top of seat panels. 16 inches from front to rear edge of seat cushion. Height from seat cushion to top of back cushion 16 inches. Built on solid air-seasoned ash frame, halved in at corners, glued and screwed. Seat panels are made of air-seasoned 1-inch poplar, convexed, rounded, mitered, screwed, glued and plugged at corners. The panel back of seat is made of the best seasoned poplar, bent to curve with seat and on either end to prevent it from checking, warping or splitting, the ends are grooved out and a hardwood strip set in, securely glued, screwed, plugged, painted and finished same as body.

NOTE: These buggies are regularly painted black, but when desired ANY CHOICE OF PAINT may be had as shown on color-plates, for which we make no extra charge.

WHEN WANTED we will furnish on these buggies the NEW STYLE PHAETON SEAT AND CUSHION same as on No. 7, in color-plates for $5.00 extra.

PIANO BODY, BREWSTER SIDE BAR SPRING.

Give Width of Track.



88344

Illustration showing AA Grade Columbus, Ohio, Top Buggy with Brewster Side-Bar Spring. Price the same as No. 88342.

EXTRAS—Full leather, hand-buffed top, with heavy rubber cloth-lined side curtains in place of leather quarter top, $5.00. Full leather boot covering rear of body back of seat, in place of rubber, $1.00. Nickel plated dash rail and hub bands can be had when wanted at no additional charge. Pole in place of shafts, $3.00. Pole in addition to shafts, $6.00. If any of these extras are wanted, be sure to mention in your order and add the price of extras to the price of buggy. No charge for crating; delivered free on board cars at our factory. Weight of buggy, when packed and crated ready for shipment, about 400 pounds. For freight charges, see page 5.

OUR $58.50 OHIO A GRADE JUMP-SEAT BUGGY.

THIS IS THE REGULAR OHIO A GRADE, GUARANTEED FOR TWO YEARS, A TWO YEARS' BINDING GUARANTEE ACCOMPANIES EVERY VEHICLE

No. 88358

OUR SPECIAL PRICE

WITH RUBBER TOP, $58.50.

LEATHER QUARTER TOP, $63.50.

FULL LEATHER TOP, $68.50.

At the above prices we will send this buggy to any address anywhere in the United States by freight—**cash in full with the order,** or at **$60.00, $65.00 and $70.00** respectively, we will, when desired, ship C. O. D., subject to examination. We always advise our customers to send cash in full with the order, as the difference in price is not alone saved, but a good deal of annoyance and return charges on the money. No risk is assumed, for if buggy is not as described we will refund the money and pay the freight.

This buggy is built by one of the largest and most reliable manufacturers in southern Ohio, and is warranted for two years and with proper care should last twenty years. Delivered on board the cars at the factory, from which point we ship direct to the purchaser at actual cost of materials and labor, with only our one small profit added. **No charge for crating.**

DESCRIPTION OF No. 88358

BODY—Made throughout of the best material. Corners mitered, glued, screwed and plugged. 25 inches wide by 54 inches long.

SEATS—Front seat 27 inches wide by 15 inches deep; rear seat 27 inches across on bottom and 15 inches deep; panel spring back on rear seat; front seat folds down flat on bottom of body; back seat moves forward and is exactly the same as a one-seated buggy.

SPRINGS—Hung on elliptic end springs with a heavier spring in rear than in front and gear hung to carry a load evenly balanced on springs and gear, when either one or two seats are used. We can hang the body on Brewster side-bar springs when wanted.

GEAR—1⅛-inch double collar, swaged and fantailed, made of refined steel with axle caps cemented and clipped to axles, with Norway iron clips and bolts. Circle fifth wheel. Reach ironed full length, bolted and braced with wrought-iron stay braces.

WHEELS—Sarven's patent or shell band wood hub, ⅞, 1-inch or 1⅛-inch steel oval-edge tires; height, 36 in. front, and 40 in. rear, or 38 in. front and 42 in. rear. Made of selected second-growth hickory and fully warranted.

TRIMMINGS—Front and rear seats upholstered in Evans' enameled finish leather, or all-wool dark green cloth; body carpet; No. 1 patent leather dash hung on a steel frame, securely bolted to body; whip socket, toe rail, anti-rattlers, washers and wrench, storm apron; shafts furnished with buggy are nicely leather trimmed and well ironed.

TOP—3 or 4 bows; full heavy weight first quality rubber; inside of top and back stays lined with dark green wool cloth, leather valance, stitched and sewed on.

PAINTING—Best possible manner; body, black, nicely gold striped; gear, dark Brewster green or carmine, neatly striped.

TRACK—Narrow, 4 feet 8 inches, and wide 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Machine buffed leather quarter top in place of rubber top, **$5.00;** machine-buffed full leather top in place of rubber top, **$10.00;** genuine machine-buffed leather trimming in place of Evans' leather or cloth, **$1.50** extra per seat; pole in place of shafts, **$3.00;** Pole in addition to shafts **$5.00.** If any of these extras are wanted, be sure to state in the order and add the price of extras to the price of buggy. No charge for crating, delivered free on board cars at our factory. **This buggy will weigh crated, ready for shipment, about 400 pounds. For freight charges see page 5.**

$60.00

If ordered shipped C. O. D., be sure to send enough deposit with the order, as explained on page 928.

OUR $68.00 OHIO AA GRADE JUMP-SEAT BUGGY.

With every one of these buggies we issue a binding two-years' guarantee, by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship, we will replace it free of charge. When desired we will ship by freight C. O. D., subject to examination on receipt of the required deposit. If cash in full accompanies your order you save the difference between the cash in full with order and C. O. D. price, also the return charges on the money. By sending cash in full with the order you assume no risk, if not as represented the money will be refunded and we will pay the freight. **The illustration shows the jump-seat buggy** with front seat extended, and as such it can be used as a two-seated rig for four people. When closed it is at once converted into a one-seated buggy, the front seat dropping down and the rear seat coming forward to place. **This jump seat is equal to rigs that retail at $150.00.** The finest jump seat the factory makes; made by one of the largest and most reliable buggy manufacturers in Ohio.

DESCRIPTION OF No. 88360.

BODY—Made of carefully selected hickory throughout, well ironed, glued, screwed and plugged; 25 in. wide by 54 in. long.

SEAT—Front seat cushion 24 inches wide, rear seat cushion 30 inches wide. Front seat folds down flat on bottom of body, the rear seat moves forward, and the rig looks exactly the same as any one-seated buggy.

SPRINGS—Concord side, hung on clips and bolts and hickory spring-bar supporting body. Elliptic spring in rear. Made of the best oil-tempered refined spring steel and tested to a high tension.

GEAR—All wood parts made of the best selected second-growth hickory, and forgings the best Norway and wrought iron; axles, 1⅛ inch drop steel forgings, double collar, swaged and fantailed, with axle beds, cemented and clipped to axles with Norway iron clips and bolts; full circle fifth wheel; reaches ironed full length, bolted and braced to axles.

TRIMMINGS—Cloth or genuine leather, as desired; body carpet; patent leather dash, hung on steel frame securely braced and bolted to body; whip socket, toe rail, anti-rattlers, washers and wrench; shafts furnished with buggy, nicely leathered and well ironed.

TOP—Leather quarter top, inside lined with heavy all-wool cloth; solid leather valance, stitched and sewed on.

PAINTING—Best possible manner; body, black, with fine line stripes if wanted. Gear dark Brewster green or carmine, neatly striped.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels, from outside edge of tires on the ground.

WHEELS—No. 1 grade, made of second-growth hickory and fully warranted; either Sarven's patent or shell band hub, as desired, 1 or 1¼-inch oval edge steel tire, full bolted between every spoke; height, 36 inches front and 40 inches rear, or 38 inches front and 42 inches rear.

THIS BUGGY IS **GUARANTEED FOR TWO YEARS** With proper care should last twenty years.

Highly Finished

Elegantly Upholstered

No. 88494

Illustration showing Three-Spring Gear for the Three Springs.

Price same as No. 88492, with $2.50 added
Order by Number.

DESCRIPTION Nos. 88492 and 88494.

BODY—Made of carefully selected timber; well ironed, glued, screwed and plugged; 30 inches wide. Height of panels, 12 inches.

SEAT—31 inches between seat ends, to top of seat cushion, 17 inches. Height of seat ends, 11 inches. Height of back cushion, 20 inches; width, 37 inches. Leg room, from front of back cushion to toe rail, 40 inches.

SPRINGS—Elliptic, oil tempered, extra-refined, best steel springs; tested to a high tension; hung on two springs, or at a slight additional charge can be hung on three springs, as shown in illustration of No. 88494. Springs are securely clipped and bolted to axles and hickory spring bars.

GEAR—1-inch double collar, swaged, best refined steel axles, with axle beds cemented, clipped and bolted to axles with Norway clips and bolts. Double bent reach, ironed full length, braced and bolted with wrought-iron stay braces. Full circle fifth wheel. All wood parts of the best second-growth hickory, and forgings of the best Norway and wrought iron.

WHEELS—Sarven's patent or compressed band wood hub, No. 1 grade; ⅞ or 1-inch steel oval edge tire protecting rims. Height, 36 inches front and 44 inches rear.

TRIMMINGS—Seat cushion, seat ends and back upholstered in the very highest style of the art; tufted and trimmed in the best possible manner by first-class upholsterers, with 14-ounce all-wool dark green cloth or best buffed genuine trimming leather. Patent leather fenders and nickel plated lamps. No. 1 grade patent leather curved dash with double bar, plated and polished dash rail. Body carpet, whip socket, toe rail, anti-rattlers, washers and wrench. Shafts nicely leather trimmed and well ironed.

TOP—Claflin's first quality genuine leather quarter top. Inside of top lined with all-wool dark green cloth; back stays, back and side curtains lined. Solid leather valance, stitched and sewed on.

PAINTING—In the highest style of the art known to buggy finishers. The best lead, oils, color paints and varnish are used and thoroughly rubbed out with pumice stone. Body, black, belt painted maroon or bronze green, with mouldings painted a fancy color. Gear, dark Brewster green, maroon or bronze green, nicely line striped.

TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Claflin's best buffed genuine full leather top in place of leather quarter top, $6.00. Pole in place of shafts, $3.50. Pole in addition to shafts, $5.00. If any of these extras are wanted, be sure and state in the order and add the price of extras to the price of buggy. No charge for crating; delivered free on board cars at our factory. This buggy will weigh, crated ready for shipment, about 500 pounds. For freight rates, see page 910.

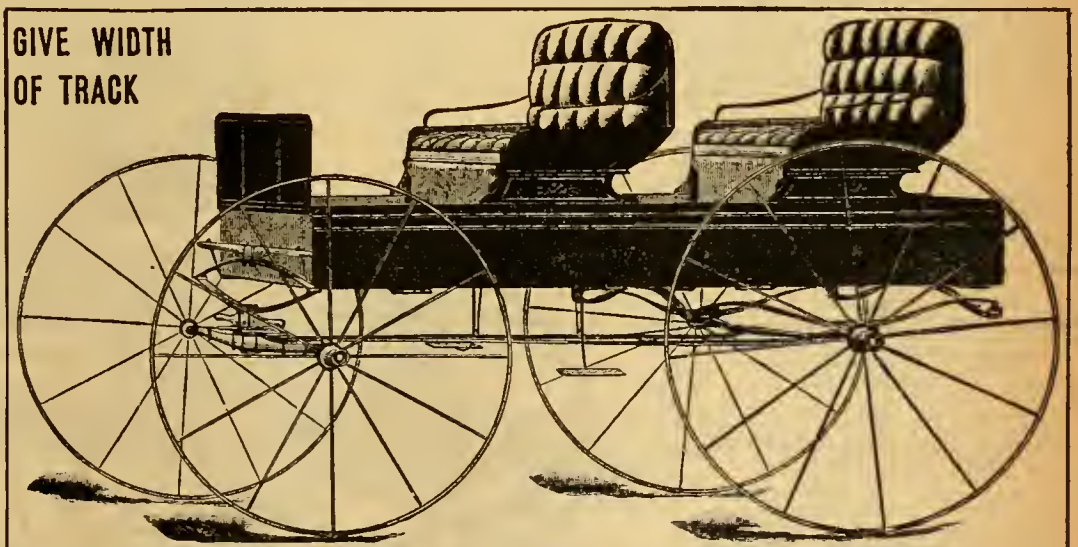
GIVE WIDTH OF TRACK



No. 88698

Illustration showing Platform Gear with Elliptic Front Spring. Price the same as No. 88696.

DESCRIPTION OF Nos. 88696 AND 88698.

BODY—7 feet long, 32 inches wide; rounded at corners; full braced inside; ironed on top edge; all corners covered with iron. Drop tail gate.

SEATS—Two high back seats, large and roomy. Removable.

SPRINGS—Either 3-spring gear, as shown in illustration of No. 88696, or platform gear with elliptic front spring, as shown in illustration of No. 88698. Made of the best oil-tempered spring steel, tested to a high tension.

GEAR—Axles 1¼ inches, double collar; made of the best refined steel, with axle beds cemented, clipped and bolted to front axle; rear axle coached. Short turn, full circle fifth wheel. Double reach, heavy steel plates on bottoms, ironed full length, braced and bolted with wrought-iron stay braces. Gear strong and thoroughly ironed, and hung to carry up level when loaded. All wood parts of selected second-growth hickory and ironing with wrought and Norway forgings.

WHEELS—Sarven's patent hub with 1¼-inch tire; full bolted to rims between each spoke. Height, 40 inches front and 44 inches rear. Made of second-growth hickory and fully warranted.

TRIMMINGS—Seat cushions and back cushions upholstered with Evans' enameled finished leather, corduroy or dark green wool cloth. Full drop backs.

PAINTING—Highly finished. Body thoroughly rubbed with pumice stone, painted and varnished in a first-class manner. Body, black, with mouldings fancy line striped, as shown in illustration. Gear, dark Brewster green or carmine, as ordered, neatly striped.

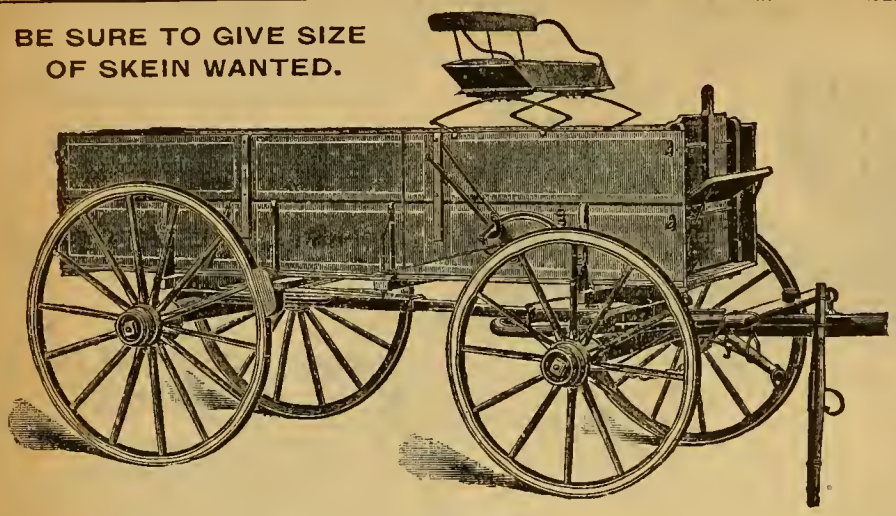
TRACK—Narrow, 4 feet 8 inches, and wide, 5 feet 2 inches. Be sure to state which is wanted when ordering. The method of measuring width of track is across the wheels from outside edge of tires on the ground.

EXTRAS—Seat cushions and seat back upholstered with genuine leather, $1.50 per seat. Solid panel back and seats painted and finished the same as body, $1.00 per seat. Canopy top; full length side and back curtains, $12.50 Rubber buggy top for front seat, inside of top lined; and full length side and back curtains, $8.50. Pole in place of shafts, $2.00. Pole, in addition to shafts, $4.00

If any of these extras are wanted, be sure and state in the order, and add the price of extras to the price of the wagon. No charge for crating. Delivered free on board cars at our factory. This wagon will weigh, crated ready for shipment, about 600 pounds. For freight rates, see page 5.

OUR FAMOUS FARM WAGON. THE BEST MADE.

BE SURE TO GIVE SIZE OF SKEIN WANTED.



No. 88880

PRICE AS GIVEN IN THE SCHEDULE BELOW ACCORDING TO SIZE OF SKEIN.

WE HAVE HANDLED THIS WAGON FOR A NUMBER OF YEARS, AND KNOW BY THE SATISFACTION AND GOOD SERVICE THEY ARE GIVING THAT A BETTER WAGON IS NOT ON THE MARKET.

There are wagons as good as ours, but the price is about 50 per cent more than we ask.

Made by a farm wagon manufacturing concern whose reputation for the building of farm wagons is known wherever wagons are used.

READ THIS CAREFULLY BEFORE ORDERING and save mistakes and misunderstandings. Different widths of track are used in different localities. **Always state whether you want a wide or a narrow track wagon.** Our wide track wagon is 5 feet, and our narrow track wagon is 4 feet 6 inches from center to center of tire. The box on a wide track wagon is 3 feet 6 inches wide outside. On a narrow track wagon it measures 3 feet 2 inches outside. We can furnish a narrow box on a wide track wagon if you so order. Either a stiff or a drop tongue. Order it as you want it. On all farm wagons, size 2¾x8½ skein and larger; we can furnish any width tire wanted. The tires are regular, as quoted below. If you want wider tire, add to the price of the wagons $1.30 for each ½ inch wider than regular width. That is, if you want a 2-inch tire on wagon, you will add $1.30 to the price of the wagon, as the regular tire is 1½ inches, and you hence have added ½ inch to the width. Beds on 2½-inch wagon are 10 feet long. Beds on 2¾-inch and larger wagons are 10 feet 6 inches long. If you want box brake extra, add $2.50 to the price of whichever size wagon you order. If you want gear brake add $5 to the price of whichever size wagon you want.

Your choice of following heights of wheels: 3 ft. 4 in. front, 3 ft. 8 in. rear; 3 ft. 8 in. front, 4 ft. 2 in. rear; or 3 ft. 8 in. front, 4 ft. 6 in. rear.

DEPARTMENT OF CUTTERS AND SLEIGHS 1898-99.

OUR NEW LINE OF LATEST STYLES.

EVERY CUTTER AND SLEIGH THE VERY NEWEST IN DESIGN.

Made by one of the largest and best-known factories in Michigan, whose reputation for High Grade work is known in every section of the country.

GUARANTEED THE HIGHEST GRADE WORK ON THE MARKET.

BY CONTRACTING FOR MOST OF THE OUTPUT OF THE MANUFACTURERS, we own our cutters at about the actual cost of material and labor and can furnish direct to the user a high grade guaranteed cutter for from $10.00 to $20.00 less than the same new style, make and grade cutter can be had elsewhere.

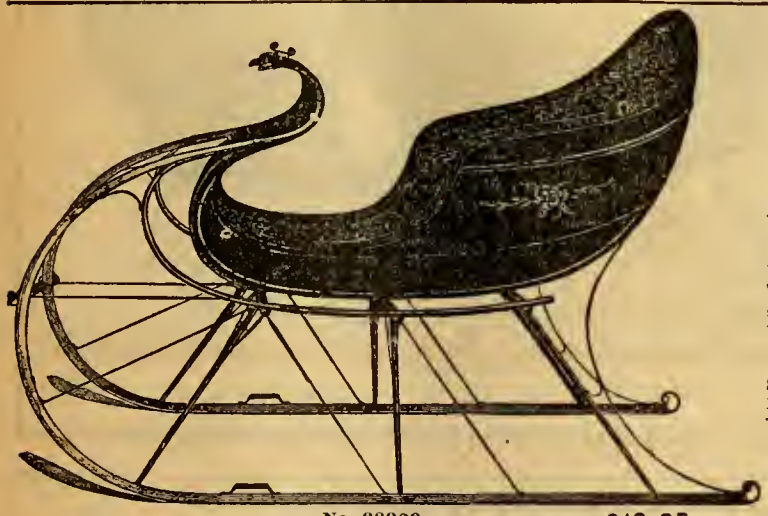
AS OUR TRADE REACHES EVERY SECTION where sleighs and cutters are used, we are not restricted to any one locality, therefore are able to place a larger contract than any local dealer in your section, thus enabling us to command the manufacturers' price and furnish you a cutter or sleigh of the very best make for about one-half what the average dealer would ask for the same grade, make and style.

OUR BINDING GUARANTEE goes with every cutter and sleigh. If you do not find the cutter or sleigh as represented, return it to us, and we will refund your money in full and pay the freight. As we are a reliable concern, you assume no risk of any nature whatsoever in placing your order with us and sending cash in full in advance.

THE FREIGHT CHARGES AMOUNT TO VERY LITTLE (comparatively nothing) considering the amount we are able to save you in the purchase price of the cutter, and the prices quoted are for the cutter carefully crated and delivered free on board the cars at our factory in Southern Michigan, from which point you pay the freight. As a cutter weighs about 200 pounds and is accepted by the railroad companies at two times first-class freight, you can, by referring to the first-class freight rates given on page 5, ascertain approximately what the freight charges on a cutter to your freight station will amount to by multiplying two times first-class rate by the weight of the cutter, which is about 200 pounds.

DON'T BUY A CHEAP CUTTER, you will find it dear at any price. After carefully inspecting the work of all the factories, both of the cheap, medium and high grade work, we decided that our customers wanted only the best makes, grades and styles, and we are able to furnish any cutter listed in the catalogue guaranteed to be the best on the market for prices about one-half that which the average dealer asks for inferior makes. Our cutters are all made from the very best selected air seasoned stock, will never split, warp or crack. All joints are carefully fitted, glued, screwed and plugged and covered with double mouldings, ironed throughout with the best Norway iron, painted in the highest style of the art, thoroughly rubbed out with pumice stone, highly polished and elegantly finished, tastily ornamented, elegantly proportioned. The upholstering is the highest grade and such as you will find only on high grade cutters.

The Freight Rate from the factory to Eastern points is about 20 cents per 100 pounds less than from Chicago. The freight rates from the factory to points north and northwest will be about the same as the Chicago freight rate.



No. 88900

Price..... $13.95

CASH IN FULL MUST BE SENT WITH THE ORDER.

Quality and price are the two strongest arguments we have to offer. Every purchaser of a cutter wants quality as well as price, and in our cutters we give both. Quality the highest. Price the lowest.

DESCRIPTION OF No. 88904

BODY Made throughout of strictly A No. 1 air seasoned material: solid panels: will not split, warp or crack. ALL JOINTS are carefully fitted, glued, screwed and plugged.

BODY PAINTED in the best manner known to the art of cutter finishing, thoroughly rubbed out with pumice stone, highly polished, neatly striped and ornamented.

GEAR made of selected second growth hickory, ironed throughout with best grade of NORWAY IRON.

HIGGINS' BEST GRADE HARDENED STEEL SHOES

Securely bolted to runners. SEAT UPHOLSTERED cushions have springs and are removable in the highest style of the art, with 13-ounce dark green broadcloth.

SHAFTS nicely trimmed, are furnished with the Cutter. Pole in place of shafts, $2.00 extra; pole in addition to shafts, $4.50 extra.

NOTE:—Place your order early, as there is a big demand for cutters and sleighs this year, and as our prices are so low the supply will not last long.

DESCRIPTION OF No. 88900

SWELL BODY CUTTER, $13.95

BODY LARGE AND ROOMY, VERY COMFORTABLE, NEATLY UPHOLSTERED with "Inspectors' Grade" Raw Silk. SIDE PANELS OF BODY are one full piece three-eighths of an inch thick, gracefully curved, well painted, striped and ornamented.

THE HANDSOMEST CUTTER ON THE MARKET. THE VERY LATEST STYLE, DESIGN AND MAKE, WITH A NEW "O. C." BACK AND FULL WING DASH, HIGH CURVED FRONT RUNNERS WITH BELL POINTS.

FEATURES ON THIS CUTTER FOUND ONLY ON HIGH GRADE WORK.

It can only be appreciated after seen and examined, and is the greatest value ever offered in cutters at our price, $28.50. You assume no risk in sending your order to us. We send our binding guarantee with every cutter and allow you to return the cutter to us at our expense if not exactly as represented, and we will cheerfully and promptly refund your money.

DESCRIPTION OF NO. 88906. Body large, roomy, with extra high side and back, panels handsomely hand carved, with mouldings on side panels and new style "OG" back; round bracket front with upright full wing dash, steam bent and made of the best material; painted in the highest style of the art known to cutter finishing, first coats rubbed out with pumice stone, highly polished, striped and ornamented. The body throughout is constructed in the very best manner possible, every joint closely fitted, screwed, glued and plugged. The material is of the very best air-seasoned stock, will not split, warp or crack. The gear is made throughout of the best grade of air-seasoned timber, with second growth hickory double bent knees securely braced, bolted and clipped with the best grade of Norway iron, Higgins' best grade hardened steel shoes, full length, securely bolted to runners. The upholstering of the seat is done in the very best manner by expert upholsterers with 16-ounce dark green broadcloth, the same as on all high grade cutters. The spring seat cushion and back are removable, so that they can be stored away in the summer and kept clean and free from moths. Nickel plated arm rails, fancy steps, nicely trimmed shafts furnished with the cutter. Pole in place of shafts, $2.00 extra; pole in addition to shafts, $4.50 extra.

OUR HIGH GRADE SURREY SLEIGH. $48.00.

THE SAME MAKE, GRADE AND STYLE SOLD EVERYWHERE FOR $100.00.

THE MANUFACTURERS' REPUTATION is a guarantee of the high grade quality. The illustration shows that it is the very Latest Style, our binding guarantee insures no risk assumed by the customer and at our special price of $48.00 every purchaser will be more than highly pleased with this sleigh.

Exactly the same as sleighs for which the average dealer asks $100.00. There is the same style, same effect, same wear, same selected high grade materials, the same high class workmanship, everything the same except the prices which is greatly different and far lower, and that is why we are recognized headquarters for sleighs.

DESCRIPTION OF NO. 88908. Body made throughout of the very best selected, air seasoned timber, all joints closely fitted, glued, screwed and plugged; fancy belts at entrance; high panel seats, solid back; full nickel plated arm rails; high curved dash with fancy nickel plated line rail. Gear is light and very graceful in appearance, made throughout of the best selected second growth hickory; double bent knees, braced, bolted and clipped with best grade Norway iron; Higgins' best grade hardened steel shoes securely bolted to runners. Painted in the highest style of the art, body thoroughly rubbed out with pumice stone, highly polished, tastely striped, ornamented and decorated. Both seats are very comfortable, wide and extra high, luxuriously upholstered, buttoned and tufted with 16-ounce dark green broadcloth. Cushions have springs and are removable so that in summer they can be stored away and kept clean and free from moths. Nicely trimmed shafts are furnished with the sleigh. Pole is place of shafts, $2.00 extra; pole in addition to shafts, $4.50 extra.

NOTE.—Our stock of cutters is very large, but should the demand exceed our preparations, the late comers will be almost sure to be disappointed. When our stock is exhausted we can supply no more at these special low prices.

Department of Harness

THIS DEPARTMENT IS COMPLETE with a full line of harness, and our prices are as low as the same goods are ever sold by the largest manufacturers to the largest retail trade, and in many cases we have been able to make lower prices than the same class of goods were ever before sold at wholesale.

YOU CAN SAVE THE PROFIT OF THE RETAIL DEALER on everything in this line, in other words, at from 60c to 75c you buy from us what your local dealer would ask you $1.00 for.

WE HANDLE NOTHING BUT THE BEST GRADE. All our harness are made from carefully selected oak tanned stock. Our hand-made harness is of especially fine quality and far superior to the harness made by the average country harness maker. Our machine-made harness are made on the most approved machines, and we guarantee them equal to the average hand-made goods.

WE MAKE TO ORDER anything in the harness line. If you want anything special, anything different from that listed in our catalogue, write for prices. We are prepared to furnish you anything in this line.

OUR HARNESS are made in Chicago by one of the oldest and most reliable makers here, a concern who for thirty years have had the reputation of making the best grade buggy, farm and team harness, and on this class of goods we invite the closest comparison of quality and price, and earnestly solicit your trade.

HOW TO ORDER. Always give the weight and height of the horse the harness is intended for. If the harness is ordered with collar and hames be sure to give the size of collar. See Horse Collars for rules of measurement. All styles of harness in this catalogue are made in full size and will fit any average sized horse up to 1200 lbs

ALWAYS STATE THE STYLE of mountings or trimmings wanted, also whether side reins or over-check is wanted with the bridle, and whether you want the lines russet or black color. If nothing is mentioned concerning the lines or reins it is understood we have the privilege of using our own judgment, in which case we will do our best to please you.

OUR TERMS AND CONDITIONS OF SHIPMENT. Orders for single harness on receipt of $1.00, and orders for double harness on receipt of $2.00, will be sent to any address by express C. O. D., subject to examination. You can examine the goods at your express office, and if found perfectly satisfactory and exactly as represented, pay the express agent the balance and express charges and the goods are yours. **THIS DOES NOT APPLY** to points in California, Washington, Oregon, Idaho, Montana, Utah, Nevada, Arizona, New Mexico, Colorado, Wyoming, Texas or Florida. From these states and territories cash in full must accompany your order.

YOU TAKE NO RISK. If the goods are not perfectly satisfactory and exactly as represented, we will refund your money. Nearly all our customers send cash in full.

WE MAKE NO CHARGE FOR BOXING crating, packing, or cartage, but deliver all goods at any express office or freight depot in Chicago free of charge.

ANY QUESTIONS you may wish to ask pertaining to goods in this line will be promptly and cheerfully answered by an expert saddlery man. Whether you write with a view to purchasing or not makes no difference.

Our Great Bargain in Single Strap Surrey Harness, $12.00

This is the heaviest single STRAP HARNESS we make. We use nothing but the Best Oak Leather in this Harness. We have improved this Harness in Bridle, Breast Collar, Traces and Gig Saddles.

THE LINES—in this harness are the best, being made on very fine selected stock, 1-in. front with spring billets and 1½-in. hand parts all black.
BRIDLE—fine patent leather blind, round winker brace, over-check with nose band, or side rein with initial letter rosette.
BREAST COLLAR—2 inches wide, extra heavy, with 1½ inch extra good single strap trace stitched on box loop let-up, and ¾-inch single strap neck strap.
BREECHING—1¾ inches wide, extra heavy, 3 ring breeching stay, ⅝-inch hip strap, ¾-in. scalloped and stitched back strap with around scrupper sewed on.
BELLY BAND—wide, single strap. "Griffith" style (or old style, if wanted.)
GIG SADDLE—one of the most important parts of this harness made with heavy single strap harness leather skirt, fine patent leather jockey, 1-inch swinging bearer, heavy shaft tug, extra good leather, bottom well stuffed, will not hurt the horse.
TRIMMING—nickel or imitation Davis rubber.

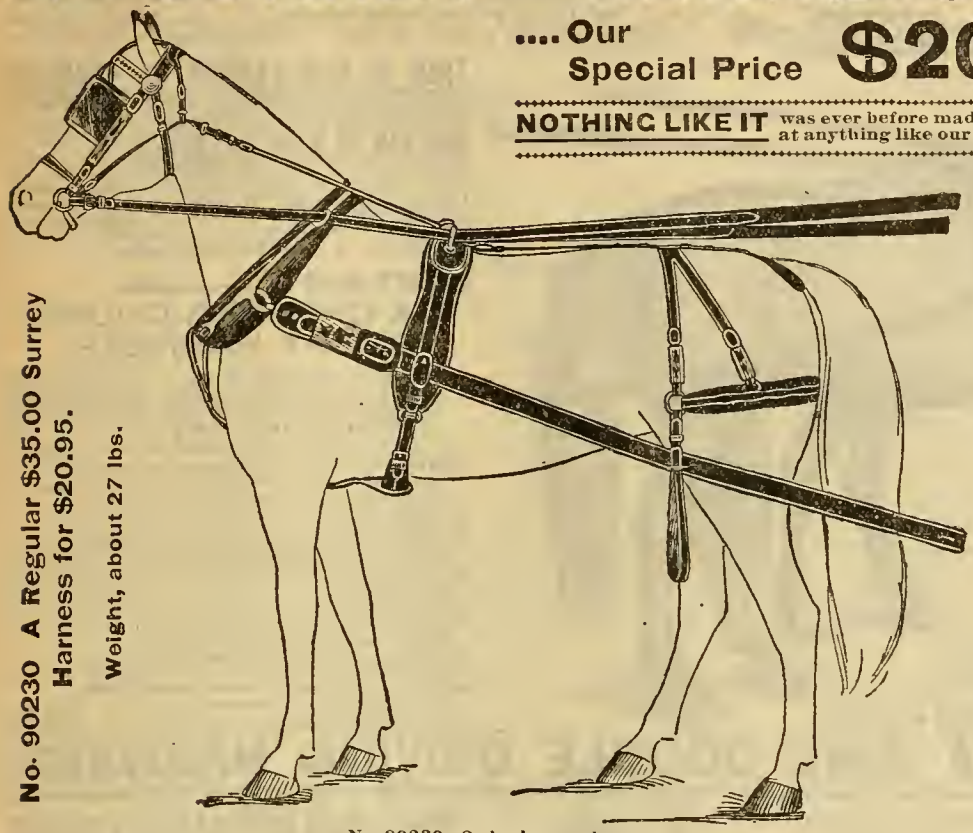
A SURREY HARNESS WONDER.

....Our Special Price **$20.95**

Your Dealer would ask $35.00 or more.....

NOTHING LIKE IT was ever before made to sell at anything like our price of $20.95 No delay; can buy them in dozen lots at - - - - - - $20.95



No. 90230 A Regular $35.00 Surrey Harness for $20.95.

Weight, about 27 lbs.

No. 90230 Order by number.

HOW WE DO IT This design is newly gotten up for us. The most perfect, graceful, handsome and sensible surrey harness out. We bought the leather nearly a year ago, a very choice lot of oak tanned stock, and 30 per cent. below present prices. We let the contract to make them up at a time when the maker's plant was almost idle, and as a result we got the cost down to a point no one can meet.

THEY WILL NEVER BE SO CHEAP AGAIN

WE GIVE YOU THE BENEFT If you don't find this the handsomest, strongest, best made, most perfect surrey harness ever seen in your section at anything like the price, return it at our expense, and we will immediately refund your money.

READ DESCRIPTION

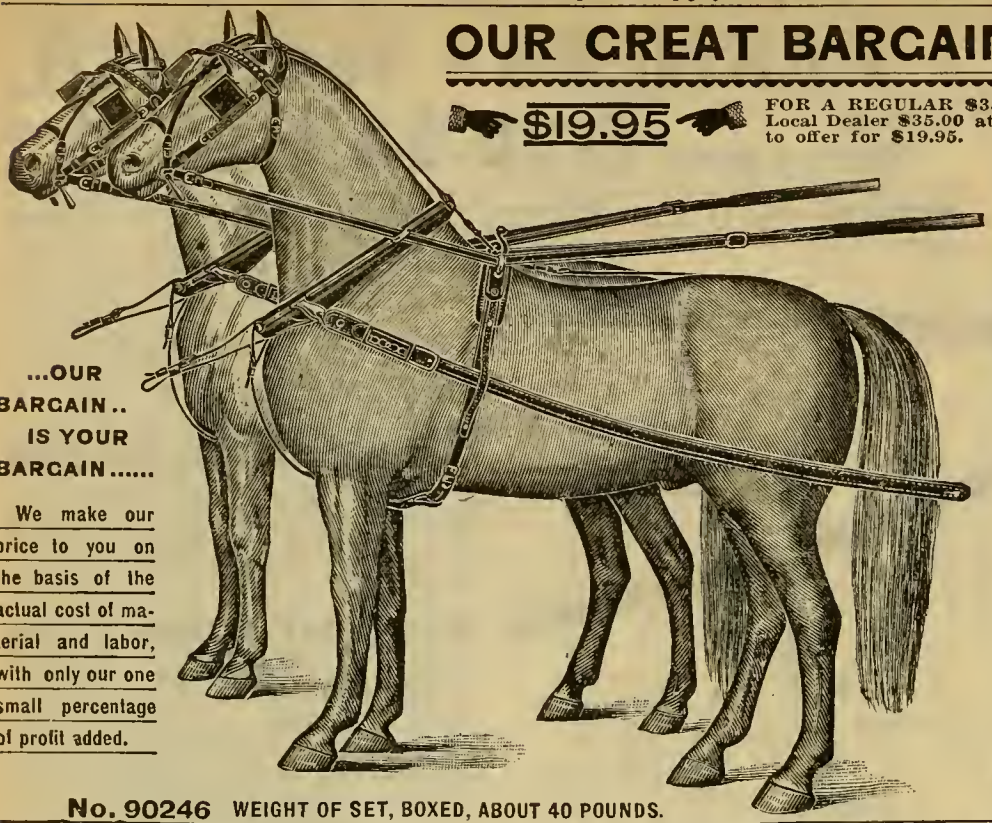
OUR GREAT BARGAIN IN A FULL NICKEL OR DAVIS RUBBER TRIMMED ..... Double Driving HARNESS

$19.95 FOR A REGULAR $35.00 BUGGY HARNESS. You would pay your Local Dealer $35.00 at least for such a Buggy Harness as we are able to offer for $19.95.



...OUR BARGAIN.. IS YOUR BARGAIN.....

We make our price to you on the basis of the actual cost of material and labor, with only our one small percentage of profit added.

THIS IS OUR LEADER OF LEADERS

In Double Driving Harness and THE GREATEST VALUE ever offered by us or any other house.

HOW CAN WE MAKE THIS PRICE? We bought a large quantity of these harnesses direct from the tanner. He was overstocked on his high-grade oak tanned leather and we took his entire stock of leather, allowing him only for net cost of trimming and labor, which brings the lot of harness to us so low that we can make it Our Big Leader.

DON'T BUY

A CHEAPER DOUBLE BUGGY HARNESS.

IF YOU ORDER THIS HARNESS YOU WILL GET SUCH A HARNESS AS WAS NEVER SEEN IN YOUR SECTION AT ANYTHING LIKE THE PRICE.

$21.15 Buys a Regular $40.00 Double Harness.

Weight of Set Boxed About 45 lbs.

THIS HARNESS IS MADE FROM GENUINE ELKTON STOCK, such stock as is only used by the very best makers in harness that sell at advanced prices. This harness is made for us under contract by the Buckner people, exclusive makers of strictly high-grade, high-finished Elkton stock and Jackson trimmings.

IF YOU WANT A STRICTLY HIGH-GRADE DOUBLE DRIVING HARNESS, such a harness as your local dealer would ask you $40.00 for, such a harness as was never quoted by any house even at wholesale in quantities at within 33⅓ per cent of our special offer price, order this our strictly high-grade double driving harness at $21.15.

THE DEMAND FOR AN EXTRA-FINE DOUBLE DRIVING HARNESS, made from a strictly high-grade stock, with best of nickel or Davis rubber trimmings, at about $25.00, has induced us to bring out this number.

GENERAL DESCRIPTION

TRIMMINGS—Genuine Jackson stock, nickel plated throughout, or the Jackson stock or Davis rubber.

LEATHER—We guarantee every bit of the leather used in the harness to be of the genuine Elkton leather, which is worth double the price per pound of the common cheap tan.

BRIDLES—⅝-inch, over-check or round reins, as desired. Long fancy box loops, double stayed and patent tracked. Round winker stays, extra finish.

HAME TUGS—Patent leather, high leather finish, genuine Elkton stock, long, fancy double-stayed box loops, seven-pound steel hames.

PADS—Straight-raised tops, leather bottoms, beaded edge housings, single skirts, bearers double and stitched.

TURN BACK—⅞-inch, scallopeu and waved stitched, 16 to the inch. Round cruppers, double stayed and sewed on.

BELLY BANDS—Elkton stock, double fold, extra heavy, well finished.

TRACES—1⅛-inch, 6½ ft. long, made from carefully selected Elkton stock, double and stitched, fancy raised round edges, smooth finish, stitched, 14 to the inch. **LINES**—1⅛-inch, made from selected Elkton stock, oiled leather hand parts. Lines are cut one inch in front to buckle.

NECK YOKE STRAPS—1¼-inch, extra-heavy stock, well smoothed and finished. **CHOKE STRAPS**—1-inch, extra stock, well finished.

DEPARTMENT OF SADDLES

SEARS ROEBUCK & CO.

IN OUR SADDLE DEPARTMENT we have endeavored to show everything in the Saddle line, including all the very latest styles and most desirable goods. **Our saddles are all made by one of the largest and most reliable** manufacturers in the country, a concern whose reputation for the manufacture of the highest grade work is everywhere recognized.

IF YOU BUY YOUR SADDLES FROM US you will be sure not only of getting lower prices than you could possibly get elsewhere, but the best grade work on the market.

OUR SADDLE TRADE HAS GROWN until we are now among the largest dealers in this line in this country. We are **daily shipping saddles** to almost every state and territory in the Union, as well as foreign countries. **The low prices we offer**, the quality of goods we handle, and our liberal terms of shipment commend our line to your favorable consideration.

SADDLES WILL BE SHIPPED BY EXPSESS C. O. D., subject to examination, on receipt of $1.00 as a **guarantee of good faith**, to all points except in the states of California, Washington, Oregon, Idaho, Montana, Utah, Nevada, Arizona, New Mexico, Colorado, Wyoming, Texas and Florida. From these points cash in full must accompany your order.

ABOUT OUR PRICES. We advertise **hand-made saddles at from $1.90 upward**, and we believe a careful comparison of our prices with those of any other concern will convince you that we can save you from 25 to 50 per cent in price. The freight or express charges will amount to next to nothing as compared with what you will save in price.

WE ARE EXTREMELY ANXIOUS TO RECEIVE YOUR ORDER, not so much for the little profit there is in it for us as for the good it will do us as an advertisement, and will endeavor to send you a saddle with which you will be so well pleased that your friends will also order from us.

OUR LINE OF STOCK SADDLES we believe is the handsomest line on the market, and the prices certainly are below any possible comparison. Our Western and Southwestern trade has been so very large that we have felt justified in making very extensive preparations in the stock saddle line for the coming season, and if you are in the market for this class of goods we are sure that one trial order will convince you that you cannot afford to place your orders elsewhere.

MEN'S SADDLES.

No. 90450 For $1.90 we offer a Morgan Saddle, which you would pay your retailer double the price for. This saddle comes in **fair or black leather**, as desired. 13-inch tree, Morgan horn, hide-covered, stirrup leathers are ⅞-inch, **girth is from super cotton**, stirrups 3-inch wood. Our $1.90 saddle has been advertised extensively and a **large number have been sold in every state**, and from everywhere we are receiving the most flattering testimonials. **The sale of one of these saddles almost invariably leads to the sale of more.** If you favor us with your order we can guarantee that you will be **thoroughly satisfied** with the saddle received. The saddle weighs, about 5 lbs. Our price... **$1.90**

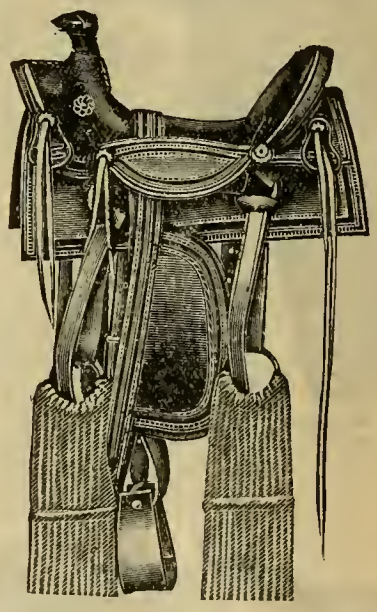
Our New Under-Rigged Saddle at $13.65.



No. 90512 At $13.65 we furnish the best Under-Rigged Saddle ever shown by any maker.

We are able to offer this Saddle at $13.65 only by reason of having contracted with the manufacturers for a large quantity, thus reducing the cost of material and making.

This new saddle has been gotten up for us on lines that have been suggested to us by stockmen for years past, and we have endeavored to embody in this the good points of all well-made under-rigged saddles with the defects of none, and we can safely say and guarantee that if you buy this saddle from us at $13.65 you will have such a stock saddle as has never been shown by any one at anything like the price.

It is made with roll cantle; made of the very best genuine California oiled-tanned skirting on a 14½-inch hide-covered, steel-forked tree. It has 23-inch heavy wool-lined skirts; heavy solid leather seat, stamped flower, steel strainer, beaded roll cantle. Stirrup leathers are 1¾-inch to buckle. Heavy raised and beaded gullets. Under-rigged sinches; tie-straps, 1¼-inch on the near side, 1½-inch latigoes to buckle on the outside; 20-strand white California hair sinches; 3-inch California stirrups, leathered bar and leathered bottom.

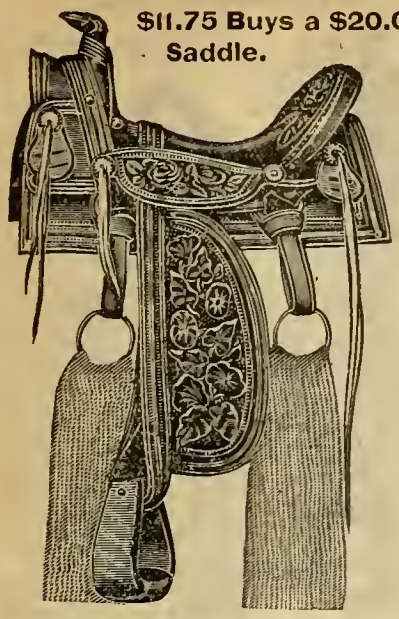
This saddle is thoroughly well and nicely made; and every piece and part that goes into it is strictly first-class.

We are extremely anxious to receive your order for this stock saddle, for we know you will be so well pleased with it that it will mean the sale of many more in your section.

Weight of saddle, packed ready for shipment, about 19 lbs.

Our special price..... $13.65

$11.75 Buys a $20.00 Saddle.



No. 90513 You would pay your local dealer $18.00 to $30.00 for such a saddle.

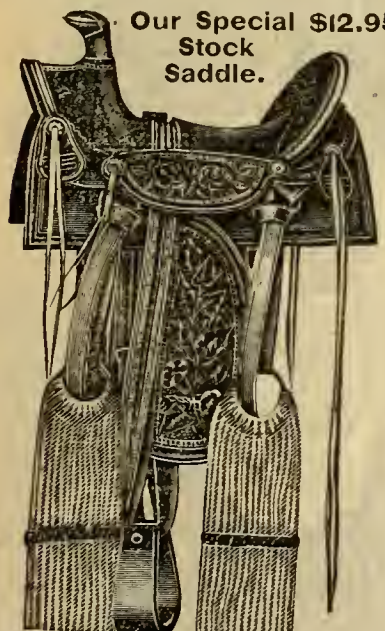
This handsome Saddle is made from genuine oiled California skirting; has a 14½-inch steel fork, hide-covered tree; 21½-inch wool-lined skirts; heavy solid leather, stamped flower, steel strainer, 1½-inch stirrup leather, raised and beaded gullet; 1¼-inch tie straps on near side. 1¼-inch latigoe straps to buckle on off side. Genuine Mexican string hair sinches; 3-inch California pattern leathered bar and bottom stirrups.

In offering this saddle at the extremely low price of $11.75, we believe that we are entitled to your order, for we believe that we are furnishing you such a saddle as you could not get elsewhere at anything like the price.

This saddle should not be compared with the many cheap makes where material and workmanship are sacrificed for price.

The saddle weighs, packed for shipment, about 18 lbs. Our special price..... .....$11.75

Our Special $12.95 Stock Saddle.



No. 90515

This handsome new design Stock Saddle is made under-rigged and bound cantle stock seat. It is made of very fine selected oil-tanned California skirting on a steel fork, hide-covered, 14½-inch tree, with 22½-inch wool-lined skirts.

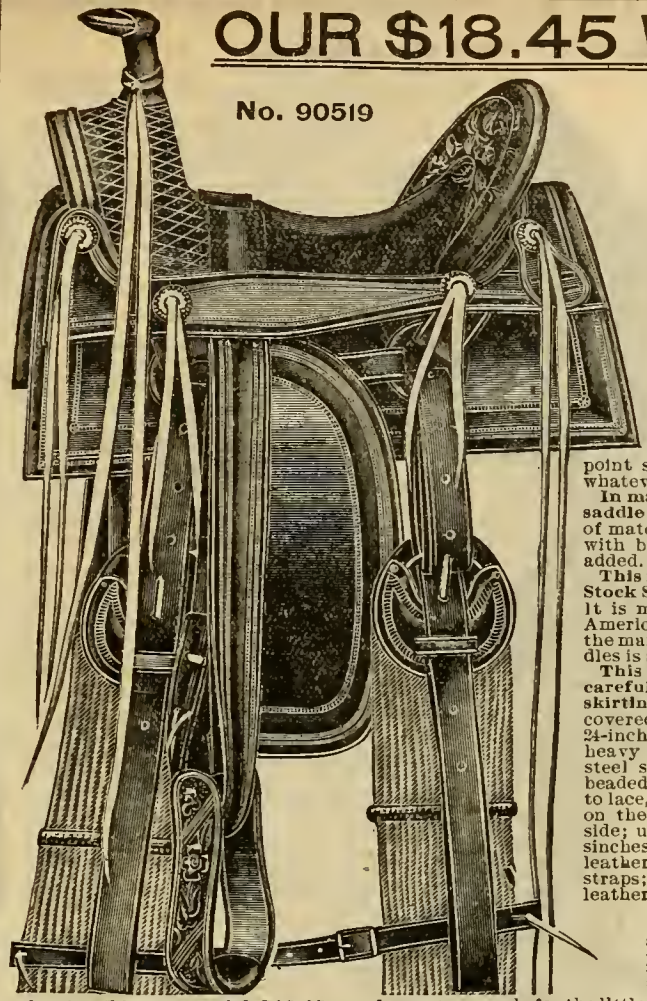
It is made with a heavy solid leather seat, stamped flower, steel strainer, bound cantle, raised and beaded gullet; stirrup leathers are 1½ inches to buckle; 1½-inch tie straps on the near side and 1½-inch latigoe straps to buckle on the outside. A very fine under-rigged saddle. Has genuine Mexican string hair sinches; 3-inch California pattern stirrups, heavy leathered bar and bottom.

This makes a very fine and durable as well as easy-riding saddle.

We have had this saddle built by one of the best makers in this country under special contract for us, to be made of the very best material to be obtained, made by first-class mechanics, for service. It is very highly ornamented. Weight of saddle, packed ready for shipment, about 18 lbs.

No. 90515 Our special price for saddle.....12.95

OUR $18.45 WONDER.



No. 90519

A Stock Saddle at $18.45 equal to saddles that retail generally at $30.00 to $50.00.

If you order this saddle from us at $18.45 you will receive such a saddle as has never been shown by anyone at anything like the price. There is no dealer anywhere that can buy these saddles even in quantities at the special $18.45 price made by us.

HOW WE CAN DO THIS.

We are able to offer this most extraordinary value, this handsome Stock Saddle for $18.45 by reason of a very large contract with the saddle maker; buying the material in large quantities and making the saddles up in large numbers has reduced the cost to a point so low that we have no competition whatever.

In making you a price of $18.45 on this saddle you are paying for the actual cost of material and labor built on a large scale with but one small percentage of profit added.

This is one of the handsomest and best Stock Saddles turned out by any maker. It is made by the best saddle maker in America, a concern whose reputation for the manufacture of high-grade stock saddles is a guarantee for quality.

This saddle is made from the very best carefully selected oil-tanned California skirting. It is made on a steel fork hide-covered tree, the tree is 15½ inches. It has 24-inch wool-lined skirts of extra quality, heavy solid leather seat, highest grade steel strainer, bound cantle, raised and beaded gullet, stirrup leathers, 2¼ inches to lace, latigoe straps, 1½ inches to buckle on the near side and 1¾ inches on the off side; under rigged long head strings; sinches are 20-strand, wool Angora hair; leather chafe wool-lined and connecting straps; strictly high-grade steel stirrups, leather covered.

This is a saddle you will never wear out. It is built for service and at our heretofore unheard-of-price of $18.45, we are sure it will prove a great seller. We are extremely anxious to receive your order for this, our special $18.45 wonder, not so much for the little profit there will be in it, but for the good it will do as an advertisement. We know you will be so well pleased with this saddle that you will show it to your friends, tell them where you got it and what you paid for it, and in this way we will be sure to make more sales in your section. Weight of saddle packed, ready for shipment, 25 lbs.

Roll cantle and covered ring.

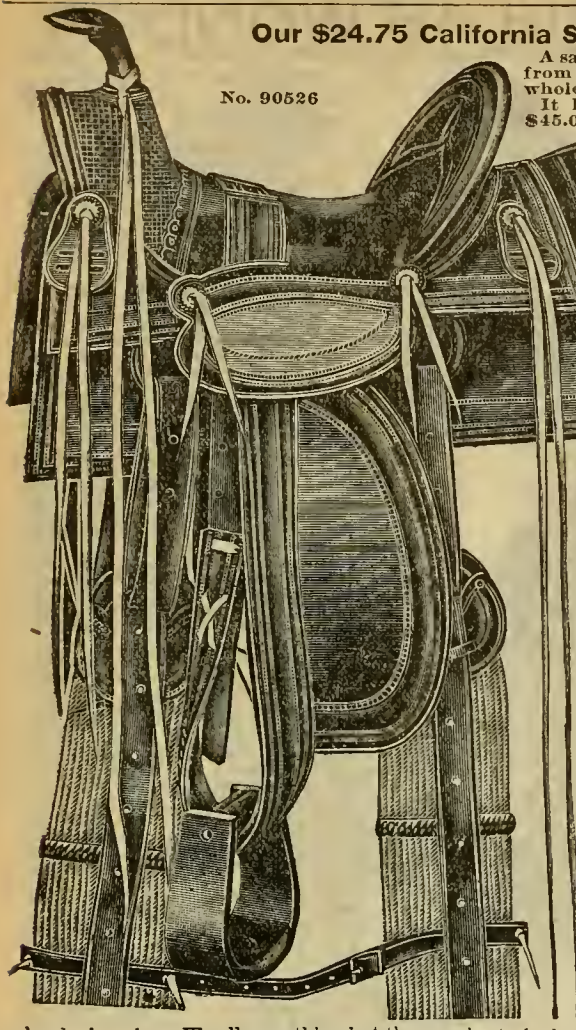
No. 90523 Our Special low price.....$21.85

Our $24.75 California Stock Saddle.

No. 90526



A saddle very similar to this has been sold from this city for several seasons by a reputable wholesale dealer at $39.00.

It is a saddle that would retail at from $45.00 to $50.00, and yet we believe, notwithstanding our price is only $24.75, less than a similar saddle has ever wholesaled at, that our special saddle is made with many improvements over the saddle referred to.

This saddle is made for us under contract by one of the best saddle makers in America, and we consider it one of best stock saddles on the market today.

The reputation of the manufacturer for the highest grade stock saddles made, is a guarantee for quality. We have had it built especially after a very popular high-grade stock saddle, and have improved it in many respects

We have picked the weak points from the other saddles, and believe we can truthfully say that in this we give you the strong points of every strictly high-grade California Stock Saddle with the defects of none.

This high-grade California Stock Saddle is made of the finest California oil-tanned skirting, on a 15½-inch Visalia steel fork, hide-covered tree. It has 27½-inch wool-lined skirts, solid loop seat and jockey are made in one piece, has steel strainer and bound cantle; stirrup leathers are 2½ inches to lace. It has extra-heavy raised and beaded gullet, the basket is stamped by hand and is made under rigged; latigoe straps are 1¾ inches wide by 6½ feet long to buckle on near side, 2 inches to buckle on off side. It has extra-long head strings; the sinches are of the highest grade 20-strand white California hair, leathered chafes, wool lined and connecting straps. It is rigged with 3-inch California pattern stirrups, leathered bar and bottom, made of California oiled skirting.

Our Saddle Department has grown to one of the largest in this country, not only by reason of the very low prices we make, but of the high standard of quallty we offer. **We believe our customers are entitled to the best,** and accordingly our contract is placed with two of the best saddle makers in this country. **The manufacturer who makes our stock saddles** is recognized as the best stock saddle maker in America. We allow nothing but the very best of selected material to enter into the work, and would not like to have these saddles compared with the many cheaper grades on the market. It would be very easy to materially cheapen this saddle and yet give it a very similar appearance, but we believe our customers are entitled to the very best, and when we sell you a saddle we want you to be so well pleased with it that you will show it to your friends, tell them where you got it, and what you paid for it, and in this way it will advertise our house, and we will receive more orders from your friends.

We put this saddle out on our binding guarantee for quality of material, workmanship, style and price, and if you do not find it not only infinitely better than any saddle you can buy anywhere at anything like the price, you are at liberty to return it to us and we will cheerfully refund your money. Weight of saddle, packed for shipment, about 30 lbs. **No. 90526** Our special price.....**$24.75**

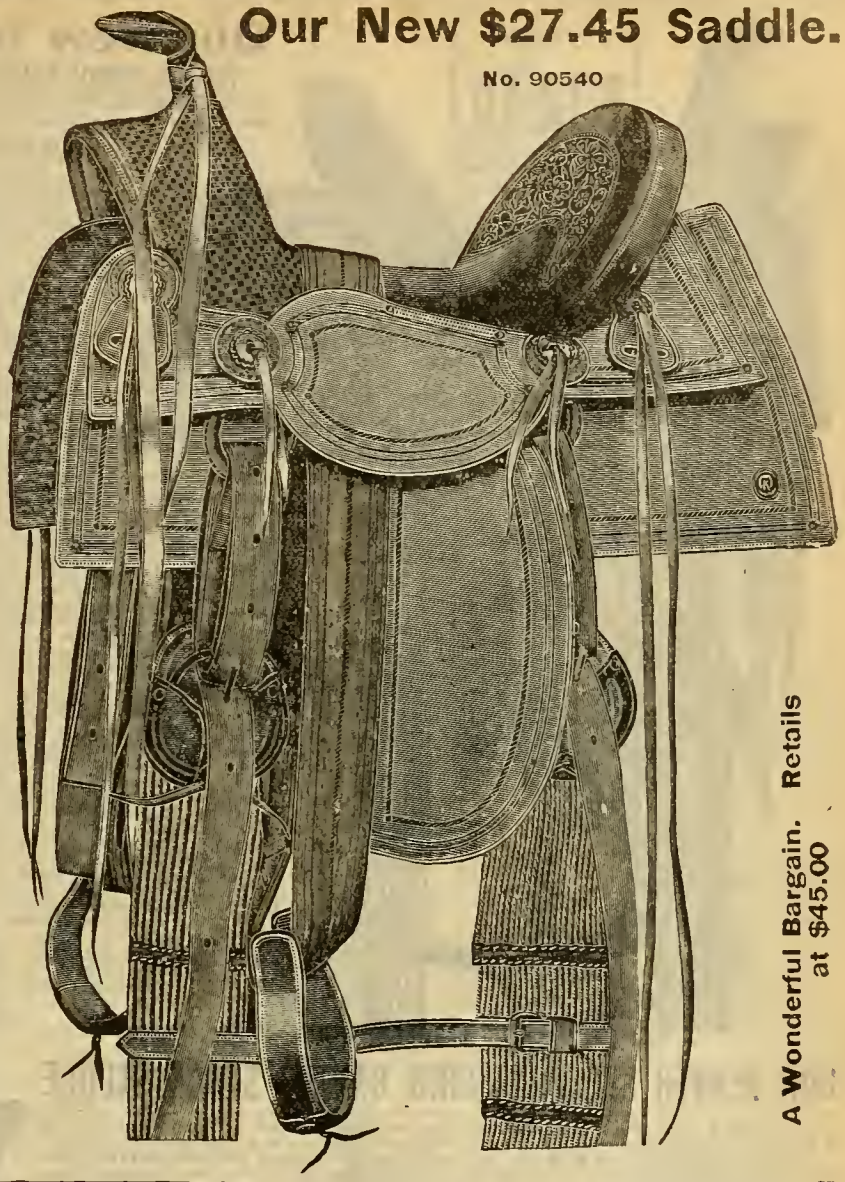
Our New $27.45 Saddle.

No. 90540



A Wonderful Bargain. Retails at $45.00

THIS SADDLE IS ENTIRELY NEW.

It is made extra heavy, goose-neck style, under-rigged, fancy basket stamped, with heavy roll cantle. It is made on a 16-inch **White River** steel fork, hide-covered tree; 30-inch heavy wool-lined skirts; heavy 3-inch stirrup leathers to lace; 1¾-inch tie straps, 6½ feet long to buckle on near side, and 3-inch to buckle on off side. It has long head strings. The girth is California strand white hair, wool-lined chafes and connecting straps; 1¼-inch heavy iron stirrups, leather-covered with an extra-heavy leather bottom; heavy headed roll cantle, and extra-heavy jockey.

YOU CAN ONLY APPRECIATE THIS SADDLE

By seeing and examining it, and by comparing it with any other saddle you can buy at anything like the price.

IT IS SUCH A SADDLE IN THE GOOSE-NECK STYLE

As has never been offered by any house. It has been built for us especially by one of the best stock saddle makers in America. Nothing but the **very best of material** is used, and only the most skilled mechanics are employed. We do not wish you to compare this saddle with any of the cheaper makes on the market. **There is nothing made today to compare with it.**

THE DEMAND FOR STRICTLY HIGH-GRADE STOCK SADDLES

Made of the best material, by the best makers, saddles we can guarantee, saddles that are made for service, such as there is practically no wear-out to, has induced us to offer in addition to our regular line, several special saddles, which we illustrate in this book in large illustrations.

Our Special Bargain Saddles

As shown in large illustrations in this book, we have had made up in large quantities, and making them in large quantities we are able to buy the material at the lowest possible price.

WE CAN FIGURE THE COST OF MAKING CLOSELY

And the price we make you is based on the actual cost of material and labor with our one small percentage of profit added.

THERE IS NO SUCH THING AS BUYING SADDLES LIKE THESE

Anywhere at anything like the price. There is no manufacturer who could afford to make one dozen or twenty of these saddles at anything like $27.45. We have had a large number made, or enough to see us throughout '98, and only in this way are we able to make a price of $27.45. We are extremely anxious to send you one of these saddles to examine, for we know you will be more than pleased with it. We know it will result in many more orders from your neighborhood.

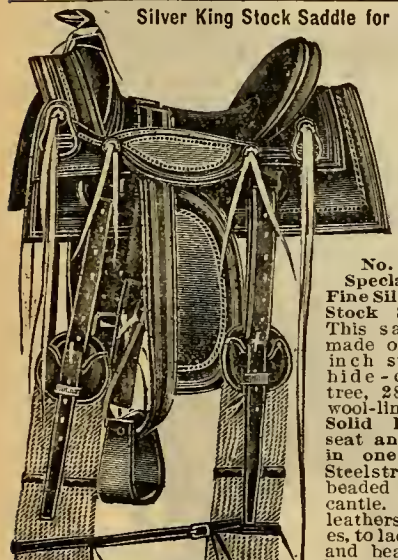
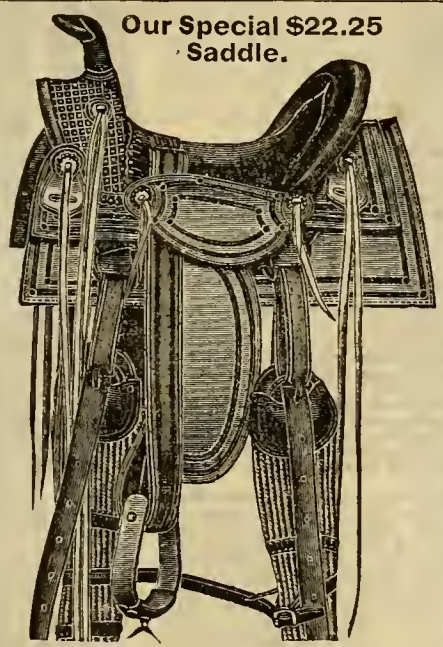
Weight of Saddle, packed for shipment, about 42 lbs.

Silver King Stock Saddle for $22.75.



No. 90541 Special. Our Fine Silver King Stock Saddle. This saddle is made on a 15½-inch steel fork, hide-covered tree, 28½-inch wool-lined skirts. **Solid leather seat and jockey in one piece.** Steel strainer and beaded rolled cantle. Stirrup leathers, 2½ inches, to lace; raised and beaded gullet; 1⅝-inch latigoes, to buckle on the near side, and 1¾-inch on the off side. Fancy creased border. 5inches, 20-strand, white California hair. Leathered and wool-lined chafes and connecting straps. 3-inch **California pattern stirrups,** leather bar and bottom. This saddle is made of genuine California oiled skirting, and is one of the best saddles on the market for the money. **Compare this with a saddle** sold by others as a leader, at about $35.00, and you will find this saddle heavier, stronger and better made, all the good points and none of the weak points, such a saddle as was never before offered for so little money. Our price.....**$22.75**

Our Special $22.25 Saddle.



No. 90542 This Saddle is made from fine California oiled skirting, has a fine **Pawnee** 15-inch steel fork, hide-covered tree, 26½-inch wool-lined skirts, 2½-inch stirrup leathers, 1½-inch tie strap, 6 feet long, and 1¾-inch buckle strap on off side, girth California white angora hair, 2-inch ox bow stirrup, **roll cantle and loop seat.**

Our special price.....**$22.25**

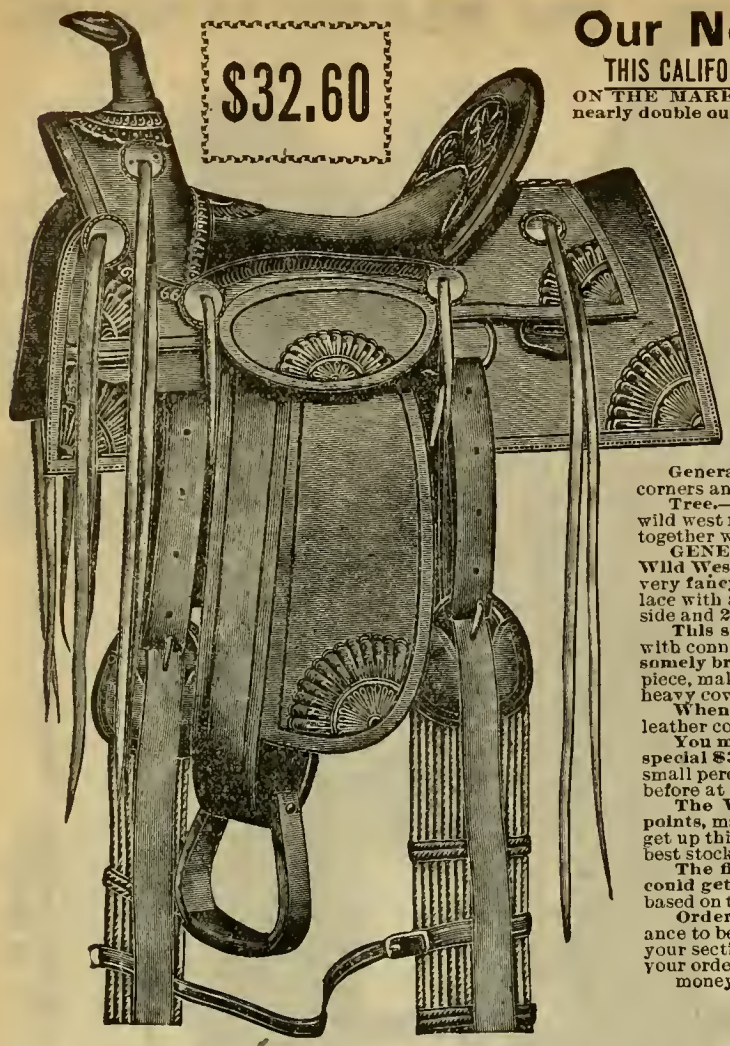
Our New 1899 $32.60 Stock Saddle.



THIS CALIFORNIA BEAUTY, HAND STAMPED STOCK SADDLE

AS OFFERED, IS ONE OF THE REST SADDLES ON THE MARKET, regardless of price, and the equal of anything offered in the west at nearly double our special $32.60 price.

OUR SPECIAL LIBERAL C. O. D. SUBJECT-TO-EXAMINATION OFFER.

No. 90546 Send us $1.00 as a guarantee of good faith, and we will send you this our California Beauty Hand Stamped Stock Saddle, by freight C. O. D. subject to examination. You can examine it at your freight depot, and if found perfectly satisfactory, exactly as represented, and such a saddle as you could not buy elsewhere at anything like the price, pay freight agent our special $32.60 price, less the $1.00. Send with order $31.60 and freight charges, otherwise return it to us at our expense and we will cheerfully refund your $1.00.

Freight charges will amount to next to nothing on this saddle as compared with what you will save in price.

Do not let the question of freight charges deter you from ordering this Special High-Grade California Saddle.

Remember your local dealer must pay the freight the same as you, and the rate charged by the railroad company is exactly the same to dealer as to you, and you pay a profit on all when you buy from your local dealer.

This special High-Grade California Hand Stamped Stock Saddle has been gotten up entirely new for this season, as an extra high-grade genuine California saddle to meet the demands of our customers who require a strictly high-grade stock saddle, combining the good features of every first-class stock saddle, with the defects of none.

General finish.—This saddle is handsomely finished throughout; has beautiful stamped corners and center, with solid seat and jockey in one piece.

Tree.—The tree, the most important feature in this saddle, is one of the very best wild west raw hide covered, made expressly for this California saddle. The saddle is laced together with fine smooth nickel plated rosettes, making a very stylish looking rig.

GENERAL DESCRIPTION.—This, our California Beauty, is made on a 15½ inch Wild West steel fork, raw hide covered tree; has 29-inch heavy wool lined skirts, with very fancy stamped corners. Stirrup leathers are 2 inches wide, made extra heavy to lace with an extra large fender. Tie straps are 1¾ inches wide, 7 feet long on the near side and 2 inches wide to buckle on the outside.

This saddle is rigged with a fine California girth, made of best quality white hair, with connecting straps and buckle tongues. It has 2-inch wide bottom stirrups, handsomely brass bound. It is made with extra fine bound cantle, with seat and jockey in one piece, making a solid seat; corner, center and end fancy stamping. It is trimmed with heavy covered rings.

When so desired, we will furnish this same saddle with heavy roll cantle and steel leather covered stirrups, but will always send bound cantle, if not otherwise specified.

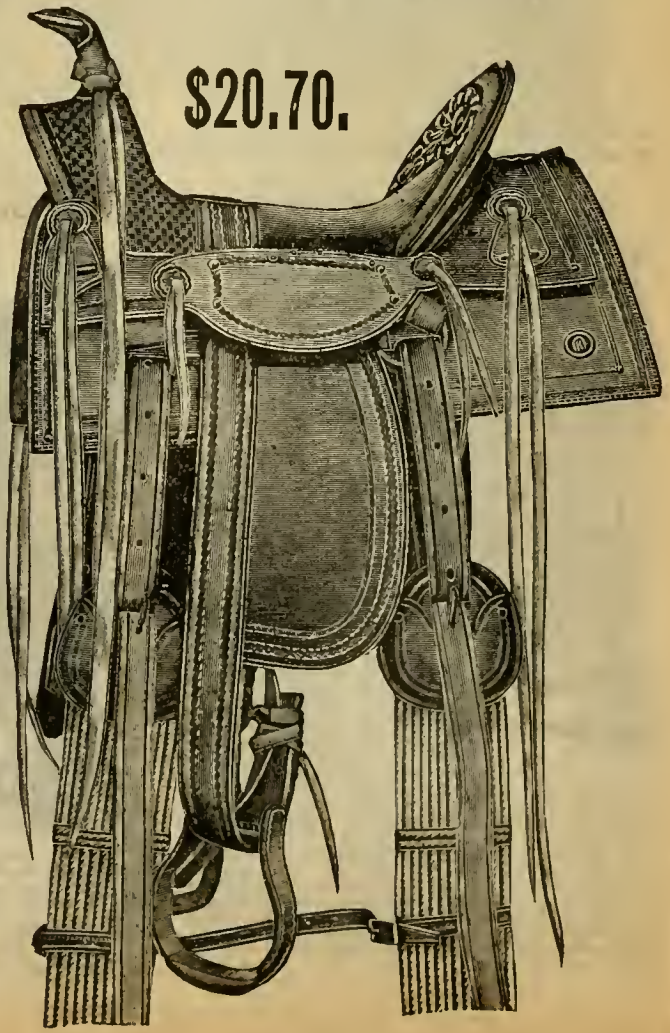
You must see this saddle to appreciate the extraordinary value we are giving. Our special $32.60 price is based on the actual cost of labor and material, with but our one small percentage of profit added, and is such a saddle as never went out of this market before at anything like the price.

The Western demands for a high grade saddle, covering all the most desirable points, made from the very best material, by the most skilled workers, has induced us to get up this California Beauty for 1899. We have had it made under contract by one of the best stock saddle makers in America.

The first model was submitted and approved by the most expert authorities we could get, our contract was placed for a large number, and our price to our customers is based on the actual cost of material and labor, with but one small percentage of profit added.

Order this saddle, enclose $32.60 with your order, or, if you prefer, $1.00, the balance to be paid after received, and if you do not find it such a saddle as was never seen in your section at anything like the price, that you have saved fully 50 per cent by placing your order with us, you are at liberty to return at our expense and we will refund all the money you have sent us. Our special price on the California Beauty, $32.60.

OUR DENVER SPECIAL BOUND CANTLE STOCK SADDLE



No. 90548 Our San Juan steel fork tree saddle is offered as the highest class of work possible to produce at a price fully 33⅓ per cent below any kind of competition.

OUR SPECIAL $1.00 OFFER. So confident are we that you will find this saddle all and even more than we claim for it; that you will save ten to twenty dollars by ordering from us; that you will say it is such a saddle you have never before seen at anything like the price, we make this most extraordinary $1.00 offer. Send us $1.00 as a guarantee of good faith, and we will send the saddle to any address in the United States by freight C. O. D. subject to examination. You can examine it at your freight depot, and if found all we claim for it, pay freight agent our special offer price, and freight charges, less the $1.00 sent with order, and the saddle is yours. The freight charges will amount to next to nothing as compared to what you will save in price; 25 cents to $2.00, according to distance, will carry this saddle to any railroad station in the United States.

ENTIRELY NEW FOR 1899. This model was gotten up on lines furnished us by different Western stockmen, who are recognized authority for what is needed in a strictly high grade stock saddle—gotten up with a view to combining the very best points of every strictly high grade saddle, with the defects of none. The first model made was submitted to and approved by some of the best stockmen in America as the best stock saddle on the market, regardless of price.

Our special offer price of $20.70 is based on the actual cost of material and labor, with but our one small percentage of profit added, and if you send us $20.70 for this saddle you will be buying it for less money than any dealer is compelled to pay, even in quantities.

We are extremely anxious to receive your order for our Denver San Juan steel fork tree saddle, not so much for the small profit there is in it for us, as they are sold on very narrow margin, but for the good it will do us as an advertisement. When our Denver San Juan saddle goes onto any ranch, any range, any section, it is seen and admired by hundreds. You will be asked where you got it, and what you paid for it, etc., and in this way our saddle department becomes advertised.

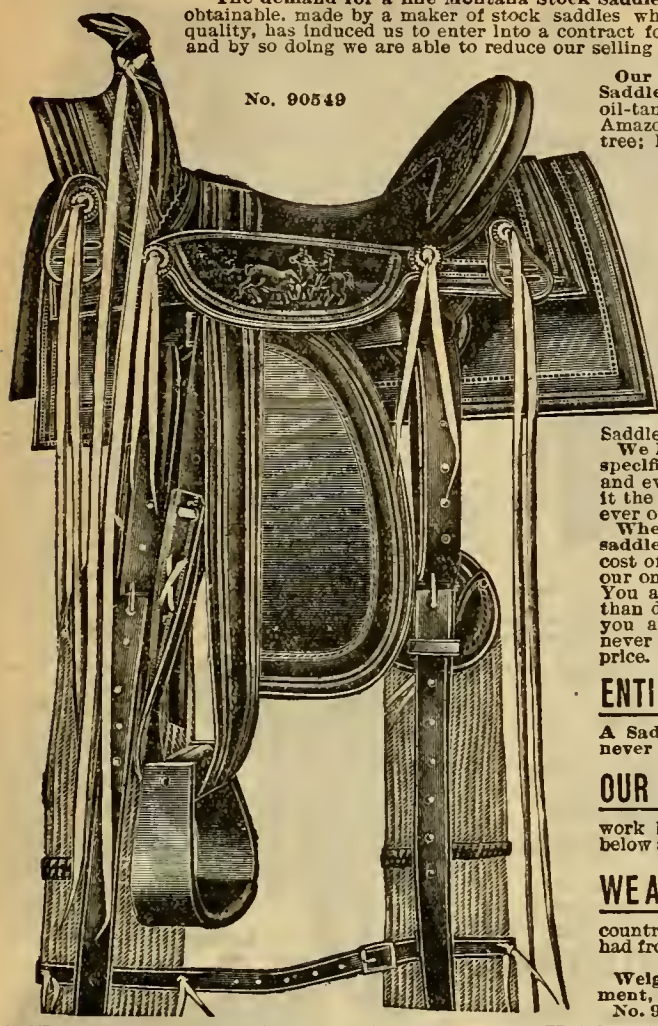
QUALITY OF MATERIAL.—Every piece and part that enters into the construction of this saddle is from the very best selected stock saddle material that can be procured, and not one piece is used in the construction that is not found to be perfect. You will find in this a saddle which combines quality of material, workmanship, finish, durability, and every desirable feature of the highest grade saddles possible to make.

GENERAL DESCRIPTION.—This saddle is made for us on a special San Juan steel fork tree. The tree is 15¼ inches hide covered, and we believe such a tree as you will not find in any other stock saddle on the market. It has 25-inch heavy wool-lined skirts, heavy 2¼-inch stirrup leathers to lace, heavy 1½ inch tie straps, and heavy 1¾ inch tie to buckle on off side. Furnished with the very best selected California strand girth of wide Angora hair, with connecting strap. Furnished with the very best tempered steel leather-covered stirrup, special high-grade bound cantle. Any description we can give for our special bound cantle Denver San Juan stock saddle will not do it justice. You must see it to appreciate it. Our stock saddle business has grown until we have a department second to none in volume of business. Its growth has been made possible by reason not only of our giving such value for the money as cannot be had from any other house, but by constantly and carefully studying the wants of the Western stockmen and ranchmen. This we have done until we believe we offer a line of saddles which will be found not only lower in price, but much more satisfactory in all the little detail of construction, finish, comfort, durability and strength, than anything you could possibly get elsewhere.

Our Special Bound Cantle Denver San Juan Tree Stock Saddle is offered at the special price of $20.70 as the most perfect stock saddle of the kind ever produced. Remember, you get this saddle by sending full amount, $20.70, with your order, or, if you prefer, $1.00, balance to be paid after received. In any case, your money cheerfully and promptly refunded if you are not perfectly satisfied. We furnish this saddle with roll cantle, if wanted, at same price.

Our New Special Montana Saddle for $21.95.

The demand for a fine Montana Stock Saddle made of the very best material obtainable, made by a maker of stock saddles whose reputation is a guarantee for quality, has induced us to enter into a contract for a large number of these saddles and by so doing we are able to reduce our selling price to $21.95.



No. 90549

Our Special $21.95 Montana Stock Saddle is made of the finest California oil-tanned skirting, made on a genuine Amazon steel fork, hide-covered, 15½-inch tree; has 27-inch wool-lined skirts, extended solid leather seat, stamped flower, steel strainer and heavy beaded roll cantle; 2½-inch stirrup leathers to lace. Heavy raised and beaded gullet, 1⅝-inch latigoe to buckle on the near side, and 1¾ inches to buckle on the off side. Long, heavy head strings, 20-strand gray California hair sinches; leathered chafes, wool lined, and connecting straps, 3-inch California pattern stirrups, leathered bar and bottom. An extra-fine heavy Stock Saddle.

We know wherever this saddle goes it will bring us more orders, for it is the best Montana Stock Saddle ever built to sell at $21.95.

We have had this saddle built from specifications collected from stockmen, and everyone who has seen it pronounced it the most perfect saddle of the kind ever offered.

When you pay us $21.95 for this saddle, you are paying only for the actual cost of the material and labor with but our one small percentage of profit added. You are buying a saddle for less money than dealers can buy even in quantities; you are getting such a saddle as has never been seen at anything like the price.

ENTIRELY NEW One of the handsomest saddles ever built for stockmen. A Saddle built for wear—one you will never wear out.

OUR FINE SADDLES are without room for argument the best work built, and Our Special Prices are below anything ever made before.

WE ARE DETERMINED to get the stock saddle trade of this country by giving such values as can be had from no other house.

Weight of saddle, packed for shipment, about 28 lbs.

OUR MEXICAN CALIFORNIA SINGLE SINCH STOCK SADDLE

$25.00

THIS STYLE OF SADDLE has been the leading seller throughout CALIFORNIA, ARIZONA, COLORADO and MONTANA. We have overcome a great many weak points in other saddles, and in the make of this saddle we have met the requirements of those who use a

HIGH GRADE SINGLE SINCH STOCK SADDLE.

PARTICULAR ATTENTION has been paid to the SEAT and CANTLE of this saddle, and we are satisfied that they will meet with the approval of every rider. It has a handsomely stamped edge with a solid seat and jockey. The TREE, one of the most important points about a high grade stock saddle, is one of the best California trees that is made with a genuine raw-hide cover. The cantle being extra high, this saddle will stand all kinds of hard work.

...DESCRIPTION...

Made on a fine 15¼-inch Chihuahua steel fork, raw-hide covered tree; round cornered skirts, California pattern and wool lined; 2½ inch stirrup leathers; tie straps 1½ inch by 6½ feet long; fine wide California strand white hair girth; 2-inch wood, brass bound, leather bottom stirrups; fine bound cantle loop seat, with hand-stamped border, making the handsomest single sinch saddle on the market.

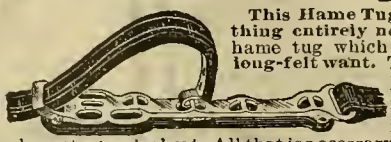
The Mowler Hame Tugs.



This Hame Tug is something entirely new, and a hame tug which will fill a long-felt want. This tug is used more largely to repair old harness where the tug is short. All that is necessary is to rivet the hook in the end of the trace and it is ready to rivet to your hame. It possesses certain most desirable features, which will make this hame tug exceedingly popular. It is guaranteed made of the very best material, will make your old harness as good as new, and will save you from throwing harness away which may last you for a number of years.
No. 91273 Our special price, per set of 4.....$3.75 Weight, 6½ lbs.

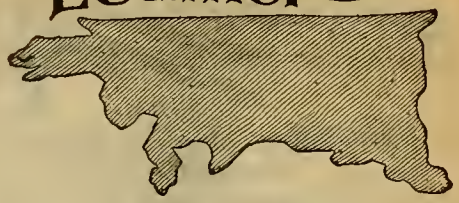
WE ARE SELLING

Sleighs and Cutters....

at prices which seem to represent less than the cost of material and labor.

OUR BUCCIES are sold as low or lower than dealers can buy them at. THE SAVING we effect you in these two lines alone, is sufficient to make it worth your while to GIVE US A TRIAL ORDER. We can please you, save you money, and you are SURE TO COME AGAIN.

Leather



We sell Harness Leather and Findings at the closest margin; in fact, we look for no profit in handling it. NOTE.—Owing to the uncertainty of the leather and hide market, the prices on these goods are subject to change without notice.

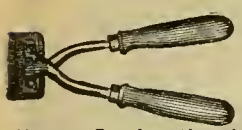
Horse Clippers, New Line, All American Made.

Reasons why they should sell and give good satisfaction: The plates are made from the best English tool steel, are highly tempered and perfectly ground, insuring the best cutting results. They all have the nut directly over the teeth, which prevents the plates from spreading in thick hair, and also a tension spring under the nut, which allows the cutters to adjust themselves when cutting.

A Leader at 68c.



No. 92250 The Herald. It is a new clipper and a leader. The plates are detachable and interchangeable; has two thumb nuts and tension springs; no wrench needed to adjust this clipper. It takes the place of the cheap clippers which we formerly imported; weight, 14-oz. Each, 68c

No. 92252 The Lenox. This is a standard clipper and a great favorite with horsemen; has bright red handles; it is well finished and attractive. Cutting plates are detachable and interchangeable; weight, 20 oz. Top plates, 40c; bottom plates, 55c; each.....98c

The American Horse Clipper for $1.05.

No. 92254 The American Horse. A handsome and popular clipper, similar to Lenox, except that it has large oval handles, oil finished, which feature makes this clipper well liked by experts. Plates detachable and interchangeable and highly tempered. Weight, 20 oz. Top plates, 40c; bottom plates, 65c. Each....$1.05

No. 92256 The New Market Clipper. It is carefully constructed, handsome in appearance, has bright red handles; there is no clipper made so well known to professional horse clippers as the New Market pattern; the name sells it. All parts are detachable and interchangeable; weight, 18 ounces. Top plates, 45c; bottom plates, 65c. Each.....$1.19

$1.73 Buys the O. K. Horse Clipper.

No. 92258 The O. K. No. 62. Our old reliable; nickel plated; an excellent cutter, bright polished handles, and has had the lead of all other clippers for several seasons. Cutting plates detachable and interchangeable; weight 20 ounces.

Price, each.....$1.73
Top plates, 70c; bottom plates..... 1.10

Barbers' Hair Clippers.

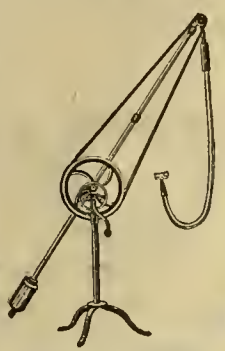
The parts of all our Clippers are interchangeable and can be promptly duplicated.

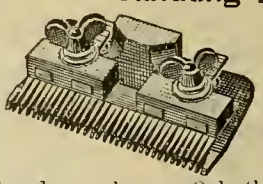
The Acme Hand Power Clippers.



We endeavor to show in the illustration our high-grade Horse Clippers, and the cut will give you some idea of the appearance of this, the best machine of the kind manufactured. It is made by a manufacturer who makes a specialty of this class of machinery and who has been making the best clippers for the last thirty or forty years. This machine is complete with ball bearing cutters. It is the only machine in the market that has an all steel tempered flexible staff with riveted joints. It is the only high-grade ball bearing machine manufactured. It is very light running, easily handled, takes up little room and performs every service required of it. We furnish vibrating cutters with each machine. It is complete and ready for use. Every blacksmith should own one of these machines, and can make big money by doing work for other people. Farmers can make the machine pay for itself renting it to neighbors.

No. 92270 Our special price.....$20.00
Weight, packed for shipment, 75 lbs.

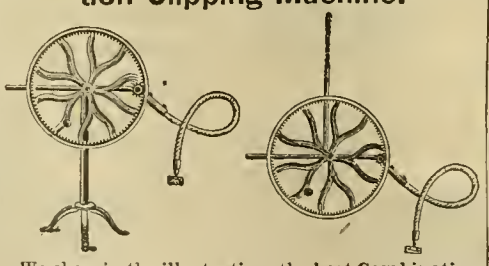
Vibrating Handle.



The illustration shows the extra Vibrating Handle for the Acme Flexible Shaft Machine. The merit of this handle is unquestioned, and like the machine itself, it is the most desirable of its kind manufactured anywhere. Only the very best material enters into its construction and it is guaranteed perfect in every particular. We furnish the cutters in two different sizes as follows:

No. 92276 Three-Inch Cutter.
Our special price.....$6.00
No. 92277 Four-Inch Cutter.
Our special price.....$7.00

Priest's No. 5 Standard Combination Clipping Machine.



We show in the illustrations the best Combination Clipping Machine on the market. The cuts will give you some idea of the appearance of these machines, both when used with a standard to be placed on the floor, or with necessary chain hook and guard for suspending, as a swing machine. This machine is built on most correct principles, of the highest standard in quality of material and in workmanship. It includes a regular all steel tempered flexible shaft with riveted joints, and is complete with two sets of cutters. The straight balance arm is under perfect control of the left hand, and no effort is required in handling it perfectly. It is very readily adjusted, and when suspended, the chain and pipe may be readily removed and the standard easily attached, to make it a standard machine. Furnished complete with No. 15 vibrating handle. This machine is guaranteed to give universal satisfaction. The cutters are fast, durable and noiseless. The internal gear is perfectly adjusted, and there is no breaking of teeth as is the case with cutters made by other manufacturers.

No. 92280 Our special price, complete with all appliances, for either suspending or standing, $16.50

SEE HARDWARE DEPARTMENT for complete line of Sleigh Bells, Chimes, as well as Farm, Church and School Bells at Lowest Prices.

WE LEAD THE WORLD IN WHIPS OF ALL KINDS.

Our whips are all of the highest standard of quality, made by the best American makers, and such goods as you will find in only first-class harness stores. OUR PRICES will average more than one-half lower than any retail dealer, in fact, we offer you whips for less money than most dealers pay when buying in quantities. DO NOT FAIL TO INCLUDE with your order for other goods, a needed whip. You will be surprised what a fine whip we can furnish you for a very little money.

90-Cent High Chair.

No. 95120 You will see from the illustration that it is strongly built and very handy. It is made of the best rock elm, kiln-dried and thoroughly seasoned, adjustable table, which swings over child's head so that the child can be placed in the chair before adjusting the table. It is seldom that such a chair will be offered at retail for less than double our factory-to-consumer price. The chair is finished either in red or antique, as may be desired. In purchasing this chair you will secure a bargain you have never seen or heard of before. Our special price.....90c

Child's High Chair, $1.15.

No. 95122 This Child's High Chair is made of selected material, thoroughly well constructed; in fact, this is an absolute necessity in a child's high chair, otherwise it will last but a comparatively short time. We are fortunate in dealing with manufacturers who have a reputation to sustain in all their work and turn out nothing but the best quality of goods. This chair is made of the very finest selected kiln-dried elm, and is put up to last as well as for the sake of appearance. The swing table is made to swing over the child when seated in the chair. This chair is finished in antique oak, has wood seat, and is very desirable in every respect.
Our special price, each...$1.15

$2 Chair for $1.50.

No. 95125 It is scarcely necessary for us to dwell on the handsome appearance of this chair, as the illustration herewith speaks for itself. The back is fancy carved, and it is in all a very attractive piece of furniture. The swing table can be thrown forward into position while the child is sitting in the chair. The legs are strong and well-braced, in fact the chair is put together very substantially.
Our special price, in antique oak finish.....$1.50

Price, each.....$1.18

A 50-Cent Camp Stool for 30 Cents.

No. 95230 This is the lightest, strongest and most lasting Camp Stool on the market at anything like our price. We have very large quantities of these on hand direct from the manufacturer, and are offering them as one of the most convenient articles of the kind that can be produced. This camp stool is made of best selected frame with duck seat, wedged and nailed. It folds into a small compass and is very light and convenient to handle. Our special price, each.....30c

Our 52-Cent Folding Chair.

No. 95231 A convenient, light and handy Folding Chair is something very much to be desired for camping or outing parties, or for lawn use. The chair is made with a hard, maple wood seat, is constructed of the best seasoned material, thoroughly well put together by the best workmen. When folded it makes a very compact bundle, as can be seen by the illustration accompanying.
Our special price, each.52c

...DEPARTMENT OF...

BARBERS' CHAIRS, BARBERS' FURNITURE AND BARBERS' SUPPLIES.

OUR $28.75 Revolving and... Reclining Barbers' Chair.

No. 95235

The demand of the past year for Barbers' Chairs, Furniture and Sopplies has caused us to add this line to our Furniture Department, and as the adding of this one line to our Furniture Department adds next to nothing in the way of expense, we believe we are in a position to supply the trade at less money than what they can buy from their regular dealers.

In buying Barbers' Supplies from the regular dealer, barbers are, as a rule, asked exorbitant prices. The dealer is compelled to look to the profit on this class of goods alone to defray the expense of running his business. With us it is entirely different. We have arranged with one of the largest manufacturers to supply us with only the highest grade of goods in this line, and our contract is such that we own the goods on the basis of actual cost of material and labor, with a very small manufacturing profit added, and to this we are not compelled to add 25 to 75 per cent, as is the case with many barber supply houses, but simply add our one small uniform percentage of profit. The result is you can own these goods at about what they cost the average dealer.

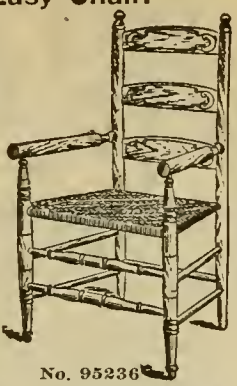
We offer only the highest grade goods in this line. If you want a cheaper grade we regret we are not prepared to serve you. Our arrangement is with the manufacturer who makes only the highest grade of goods, who has established a reputation on this class of furniture, and where quality and make is considered, we invite a close comparison of our prices with those of any dealer in the country, and we believe we can satisfy you wherein you can save from 25 to 75 per cent in prices.

Our regular liberal terms of shipment will apply on everything in this line of goods. Any article you may select will be sent by freight C. O. D., subject to examination on receipt of a sufficient deposit to cover freight charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our price and freight charges less the amount sent with order, and the goods are yours.

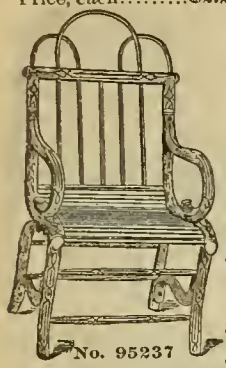
EVERY CHAIR COVERED BY A BINDING GUARANTEE FOR QUALITY OF MATERIAL, WORKMANSHIP AND PRICE.

WE CARRY A FULL LINE OF BARBERS' CHAIRS AND SUPPLIES. CATALOGUE AND PRICES FURNISHED ON APPLICATION.

Our $2.20 Easy Chair.



No. 95236 A Large Comfortable Chair, useful for lawn, porch or reading room; very strong and serviceable; has broad seat of double woven cane and is finished light red or antique.
Price, each.....$2.20



No. 95236

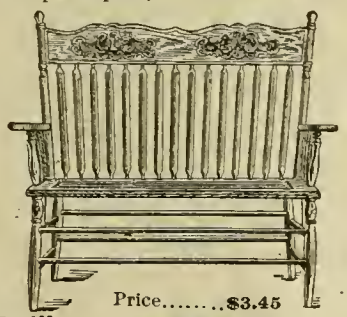
A Fine Lawn Chair for $3.40.

The desirability of these Lawn or Porch Chairs and Seats leads us to add to our line the comfortable lawn or porch chair which we show in the cut. This chair is made by one of the leading manufacturers in bent wood furniture, and a manufacturer who has no rival in the quality of the goods which he turns out, and hence we offer this chair as one of unusual strength and durability; one that will not become rickety or fall to pieces after comparatively short usage. It is thoroughly well constructed of the best kiln-dried wood; securely put together in the most workmanlike manner; handsomely finished in red, green or antique.

It is a very desirable piece of furniture to have for summer use, and we anticipate a very large trade in this particular chair.

No. 95237 Our special price, each.....$3.40

$3.45 for a $5.00 Settee.



No. 95240 Hall, Porch or Lawn Settee, carved upperback, panel slat back and seat, full braced arms, very pretty, made in antique oak or finished red; 43 inches long.
Price.....$3.45

Invalid Rolling Chair.

A full line of surgical instruments and appliances in drug department, pages 24 to 50.

No. 95241 The accompanying cut represents a well-known style of invalid rolling chair, set up on strong substantial wheels, propelled by means of outside rims to save hands from contact with dirt. Wheels and axles are made of steel and connections of malleable iron well braced and bolted together. The frame is substantially made of oak, with perforated veneer seat, and is supplied with comfortable arm rests. The chair is made in two sizes, Nos. 1 and 2.

No. 1. Child's chair. Seat, 16x15 inches; back, 20 inches high; wheels, 24 inch front and 12 inch rear. Will pass through a 26-inch doorway.
Price of this chair with steel suspension wheels.....$14.00
Steel suspension wheels, cushion tires..... 23.50

No. 2. Adult's chair. Seat, 18x18 inches; back, 22 inches high; wheels, 28 inch front and 14 inch rear. Will pass through a 28-inch doorway.
Price of chair with steel suspension wheels..$18.00
Steel suspension wheels, cushion tires..... 29.25
Ball-bearing wheels, wood rims, cushion tires..... 34.50
Ball-bearing wheels, wood rims, pneumatic tires..... 47.00

N. B.—We do not use pneomatic tire on rear wheel. We carry a full line of invalid chairs. Catalogue and price list mailed on application.

DEPARTMENT OF KITCHEN AND DINING-ROOM FURNITURE,

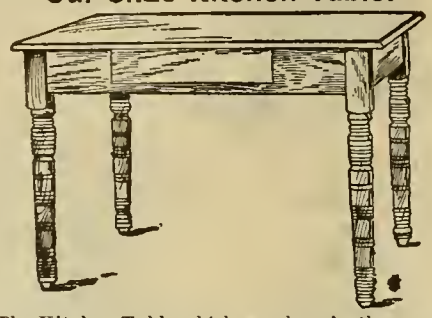
WE TAKE PLEASURE IN CALLING YOUR ATTENTION to a line of kitchen and dining-room furniture including kitchen tables, dining tables, extension tables, sideboards, buffets, etc., which for quality of material, workmanship and price we feel confident our customers will agree is not equaled by any other line.

THIS FURNITURE is made only by concerns of thoroughly established reputations; concerns who make only strictly high-grade goods, goods that are made from selected, thoroughly seasoned material and put together in a first-class workmanlike manner. Every article we offer in this line is guaranteed to us by the manufacturers, and we in turn guarantee it to our customers, and if not found exactly as represented, and perfectly satisfactory, you are at liberty to return any of the goods you buy from us at our expense, and we will cheerfully refund your money.

FREIGHT AMOUNTS TO BUT VERY LITTLE as compared with what you will save in price.

OUR TERMS ARE LIBERAL. Anything in this department, like any other goods, will be sent to any address by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways.

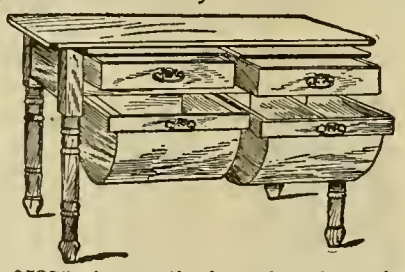
Our $1.25 Kitchen Table.



The Kitchen Table which we show in the accompanying illustration is made of bass wood, with hardwood legs and large, roomy drawer. It is strongly constructed and has bolt leg fasteners. It can be taken apart for shipping, thus saving very largely on freight. This table is a household necessity and no kitchen is complete without it. Nicely finished. Weighs about 40 lbs.

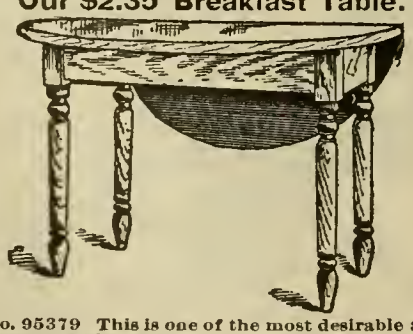
No. 95375 Size of top, 28x42 inches.
Price, each.....$1.25
No. 95376 Size of top, 30x54 inches.
Price, each..... 1.70

Our $4.85 Handy Kitchen Table.



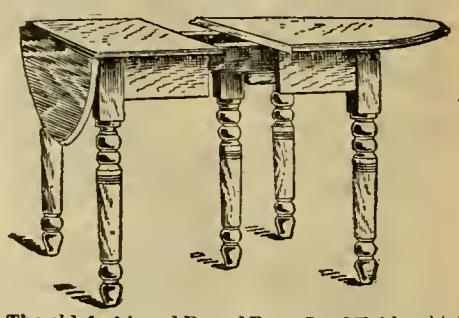
No. 95378 Among the inventions for assisting the housekeeper we know of nothing that is more convenient or satisfactory for household uses than the kitchen table we illustrate above. You can gain but very little idea from the illustration of the genuine value of this special table. It saves the tired housewife many a weary step, and keeps all the articles which can be contained therein sweet and clean. It contains, as shown in illustration, two flour bins, one with two compartments and the other with one, all of them large and roomy. Besides, it has two drawers with compartments for cutlery, etc., and two convenient slides. This kitchen table is made of the best hardwood with basswood top and the size of top is 30x48 inches. The table is strongly constructed and will last a lifetime. It is well finished and presents a good appearance. Weight, 120 lbs.
Our special price.....$4.85

Our $2.35 Breakfast Table.



No. 95379 This is one of the most desirable and necessary articles of furniture and one that is convenient for breakfast use or for general kitchen use. This is not an extension table, but the leaves at either side may be dropped so that the table will take up little space when not in use. It is made of selected kiln-dried ash with handsome antique finish, and we furnish it in either oval top, as illustrated, or square top, as may be desired. The size of top in either case is 42 inches wide by 52 inches long. The table can be taken apart and shipped knocked down, thus saving freight charges.
Our special price, each.....$2.35

Our $3.60 Extension Table.



The old-fashioned Round Drop-Leaf Table, which we show in the illustration, is an old-time favorite and never goes out of date; nor does it lose any of its desirable features. This table is especially well constructed by one of the best manufacturers in this line of goods. It is made of fine oak, with an oval top, the size of which is 42x52 inches. Can be taken apart and shipped knocked down, thus saving very largely in the freight rate. It comes in three lengths at the following prices:

No. 95380 6-feet.....$3.60
No. 95381 8-feet..... 4.70
No. 95382 10-feet..... 5.80

Our $2.80 Extension Table.

WONDERFUL BARGAINS IN SIDEBOARDS

We would ask you to carefully read the descriptions, observe the illustrations and note the prices made on the line of Sideboards we offer for this Season.

Every Sideboard is entirely new, all new designs for this season, and offered by us at prices that will admit of no competition. We offer a line of elegantly finished hardwood sideboards at from **$8.50 to $28.00** which you could not duplicate in your local market at within 50 per cent. of the price.

OUR SIDEBOARDS ARE ALL GUARANTEED. They are made for us by a manufacturer who guarantees every sideboard he delivers to us, and we extend the same guarantee to our customers. We guarantee each sideboard to be made of the very best of material, all wood being thoroughly seasoned, to be built in a thoroughly first-class workmanlike manner, and far superior to much of the cheap work on the market.

WE ALSO GUARANTEE OUR PRICES to be below any kind of competition, and you are at liberty if you choose, to send for a sideboard, only enclosing enough to cover freight charges both ways. You can examine it at your freight depot, and if you do not find it to be exactly as we represent it, and our price lower than is made by any other concern, you are at liberty to return it to us and we will cheerfully refund your money.

SPECIAL TERMS. We will ship sideboards on the same terms as all other furniture, by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight charges and our price to the freight agent, less the amount sent with order, and the goods are yours.

If you send the full amount of cash with your order, you take no risk, for we will immediately refund your money if goods are not perfectly satisfactory. Nearly all our customers send cash in full.

SPECIAL VALUES

IN LIBRARY-CASES, BOOK-CASES, ETC.

OUR PAST EXPERIENCE HAS PROVEN TO US that our customers are of a class that want a better class of goods, and as our extremely low prices bring the higher grade of goods within easy reach of all, we take pleasure in submitting for your consideration a line which, while embracing a great variety of styles which are entirely new, is far above the average in style, quality and general finish; in fact, we have not offered a cheaply constructed or poorly made piece.

EVERY ARTICLE OFFERED IS GUARANTEED

in every respect, warranted to be made of the very best thoroughly seasoned material, highly finished and ornamented, and put together in a thoroughly first-class workmanlike manner.

OUR PRICES ARE ALSO GUARANTEED. We would ask you after receiving any goods you may order from us in this line to carefully compare our prices with those of any other house, and if you do not conclude you have saved from 25 to 33⅓ per cent., you are at liberty to return the goods to us and we will cheerfully refund your money.

OUR TERMS ARE ALIKE ON EVERYTHING IN FURNITURE.

Goods will be shipped to any address by freight C. O. D., subject to examination, on receipt of a sufficient deposit to cover freight charges both ways. You can examine the goods at your freight depot, and if found perfectly satisfactory, pay the freight agent our price and freight charges, less the amount sent with your order, and the goods are yours.

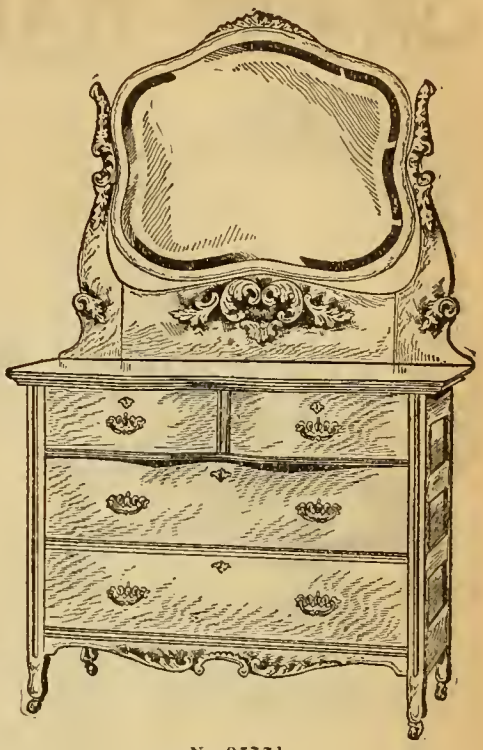
No. 95771

Our "Auditorium" Bed-Room Suit of Three Pieces For $39.00. A Piano Polished Solid Quarter-Sawed Oak Suit Worth $60.00



No. 95771

WE SHOW IN THE ILLUSTRATION a three piece bed-room suit which any one might well be proud of. A suit that will make the purchaser envied by his neighbors.

Buy this suit and you may depend on having the best for miles around.

This bed-room suit is made of the finest Quarter-Sawed Oak, thoroughly seasoned, and warranted against cracking or warping. The illustration will give you some idea of the beautiful and massive hand carving which decorate the bed and dresser. The bed has also rich carving on all four posts. Height of bed is 6 feet 4 inches. Length of slats 4 feet 6 inches.

The dresser has fancy shaped Imported French plate mirror 24x30 inches in size and hung in an artistic swinging frame. The dresser top is double and the late style serpentine shaped front. Sides of dresser are handsomely paneled and finished. The dresser top is extra large, being 21x44 inches in size.

The commode is decidedly attractive to match the desirable features of the bed and commode. Size of commode top is 17x34 inches.

The upper drawers of both dresser and commode are swell front. All drawers have solid cast brass handles and each drawer and door is fitted with lock and key.

We furnish a complete set of casters free with each suit.

We pack these goods with great care so that they may reach their destination in as perfect condition as when shipped.

We furnish the suit in the stylish antique finish, and the beautiful piano polish adds greatly to its already attractive appearance.

Weight when packed for shipment about 340 pounds.

$1.65 for a Regular $2.50 Bed

At $1.65 we offer a Bed which your retail dealer would ask at least $2.50 for, in fact, we think many dealers would ask $3.00 to $4.00 for such a bed.

THE BED WHICH WE ILLUSTRATE IS OFFERED to meet the demand for something very low priced and at the same time a bed that will stand usage and is thoroughly well constructed of excellent material. This bedstead is made of the best kiln-dried rock elm, is well finished in antique, is put together substantially and carefully by the best workmen and will give ample service. It is 4 feet high at the head and has 4 feet 2 inch slats. We can also furnish it in 3 feet 6-inch width if so desired, the price is the same.

Department ..... OF ....IRON BEDS..

We would ask you to carefully note the illustrations, descriptions and prices....

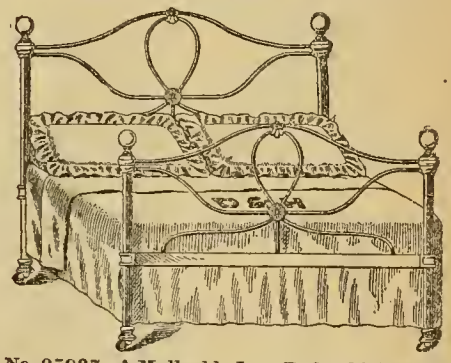
of the iron beds shown in this catalogue. We have endeavored to show the **most complete line possible and at prices that will interest our many customers.** Iron beds have gained such a popularity that they are now used in many places almost to the exclusion of the wooden bed. Our trade having so increased, we have felt justified in contracting with one of the most reliable manufacturers for the greater portion of their entire output.

Freight Charges are Very Low on Iron Beds.

We ship them knocked down. They go in a small compass, are accepted by the railroad companies at a low rate, and **you will find the freight will amount to next to nothing as compared with what you will save in price.**

OUR TERMS ARE VERY LIBERAL. **On receipt of a sufficient deposit to cover freight charges both ways, we will send any iron bed or other furniture by freight C. O. D., subject to examination.** You can examine the goods at the freight station, and if found perfectly satisfactory and exactly as represented, pay the agent our price and freight charges, less the amount sent with order, **and the goods are yours.**

Remarkable Value for $2.85.



No. 95937 A Malleable Iron Bed which we are offering at $3.50, which is fully $1.50 less than a bed of this quality is sold for by any other house. The new Eclipse is constructed with the latest improved head rest or pillow, which is in itself a most valuable feature, forming as it does a perfect rest or pillow for the head. For camping parties, hotels, resorts, watering places or private use, the Eclipse is unsurpassed. The above illustrations show the cot when opened and also when closed. Size, 29 inches wide. Our price.....$1.20

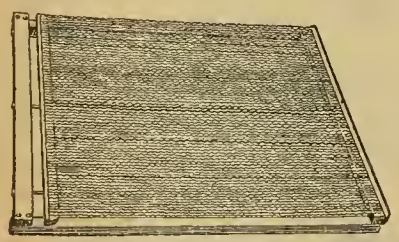
Our Special 90-Cent Woven Wire Mattress.

At 90 cents we offer a mattress which your retail dealer would ask at least $1.50 for. Do not fail to include a wire mattress with your order for bed room suite or other furniture. We will save you so much in price that you cannot afford to buy elsewhere.



No. 96045 This Woven Wire Mattress is the regular standard mattress for the millions. Frame made of thoroughly seasoned hard maple, thick batten, perfectly tight joints between end rail and batten, batten crowning as shown, giving great strength. No putty used. It is a good clean mattress which carries with it our guarantee for quality, and is the best low-priced bed made. All our woven wire mattresses have patent end fastenings for the fabric, making it impossible for any of the wires to become loosened by any strain that will ever be put upon them. This is a feature which no other wire mattress in the market has. Price, each..... .90c

SELECT DESIGNS IN LOW PRICED PILLOW SHAMS ON PAGE 616.

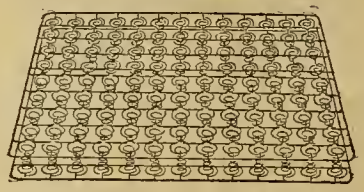
SEE PAGE 1053 FOR FEATHERS, PILLOWS AND ALL KINDS OF MATTRESSES.

$1.25 Buys a Regular $2.00 Woven Wire Mattress.

Many retail dealers would ask even more than $2.00 for such a mattress. When ordered in connection with other furniture or merchandise the freight will amount to next to nothing compared with the saving in price, and we would advise you by all means to include a mattress with your order for a bed suite or other furniture.

No. 96047 This Woven Wire Mattress, illustrated above, is made of the very best material throughout. Has a double end bar so that the fabric can be stretched to any desired tension, which is the only positive and practical extension made. Made with this double end bar and with a high-grade wire, this mattress will last a lifetime. Aside from the double end bar, it is constructed the same as our best mattress No. 96045. Our special price.....$1.25

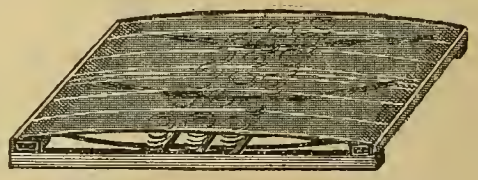
Look at Our $1.35 Spiral Spring Mattress.



At $1.35 we offer a Special Spring Mattress which you cannot buy elsewhere at less than about double the price.

No. 96049 Our $1.35 Spiral Spring Mattress. This Spring is thoroughly well made, the all-steel coils being handsomely japanned. The top and bottom surfaces are alike, the cone springs being double and connected by broad steel clasps of good strength. This bed is elastic and complete in all its parts, conforming perfectly to the form and weight of the person lying on it. It is at the same time, from its simplicity of construction, of great durability. State size of bed when ordering. Full-size mattress has 117 double coil springs. Our special price.....$1.35

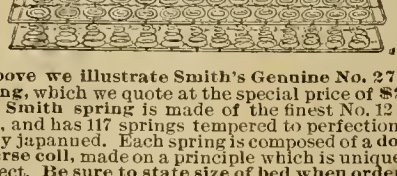
$1.45 Buys a Regular $2.50 Woven Wire Mattress.



Any retail dealer would ask you at least $2.50 for such a mattress.

No. 96051 The above illustration, engraved from a photograph, will give you some idea of our Braced Woven Wire Mattress. This mattress is made with the support of three rows of steel spring slats, the slats supported by three substantial iron straps running from head to foot of spring. Slats are free at end and support is very rigid and substantial. We do not know what we can say that will express the general excellence of this spring better than the picture itself. One can readily see that the principle of construction is perfect for comfort. The material used in the woven wire fabric and frame is the best. Our special price..... $1.45

We Sell the Genuine Smith Spring for $2.50.



Above we illustrate Smith's Genuine No. 27 Bed Spring, which we quote at the special price of **$2.50. The Smith spring** is made of the finest No. 12 steel wire, and has 117 springs tempered to perfection and finely japanned. Each spring is composed of a double reverse coil, made on a principle which is unique and perfect. **Be sure to state size of bed when ordering.**

No. 96052 Price, each.....$2.50

No. 96054 Exactly the same as No. 96055 but is made to fold in center. Our special price.....$2.75

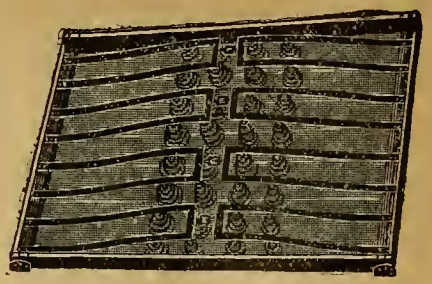
Our $3.25 Woven Wire Mattress.



No. 96057 This special Woven Wire Mattress is supported by spiral springs having the following peculiar features: In place of the ordinary cross-slats it has a band iron support, each two pieces being yoked together, as shown in illustration, this construction **preventing any lateral motion.** Each pair of supports is connected with the pair at the opposite end of the mattress by a screw thread swivel joint, as illustrated. The springs are fastened directly to the band iron supports at the bottom, and the fabric at top cannot by any possibility get out of place unless intentionally removed. There are no hooks, links, connections or any other small material to break or get loose and rattle. By the use of this construction **a much deeper spring can be used** than in any ordinarily supported mattress, hence **a very much greater degree of elasticity** is imparted to the supporting surface. The tightening swivels are turned with perfect ease, no wrench or tools of any kind being required. To change the tension no removal of any portion of the bedding is necessary, the swivels being underneath and easily accessible from either side. The picture shows the bottom of the mattress, to exhibit its construction.

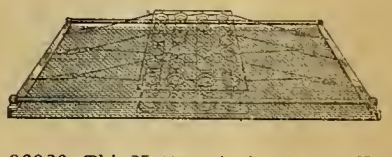
Our special price.....$2.35

Our $2.25 Metallic Frame Wov en Wire Mattress.

No. 96058 This Woven Wire Mattress is composed of a metallic frame, composed of angle steel ends, pipe sides, so arranged as to give the greatest possible amount of strength for its weight. The fabric is made of steel-tempered wire, is especially designed for iron or brass bedsteads. Made in the following widths: 3 feet, 3 feet 6 inches, 4 feet and 4 feet 6 inches; all 6 feet long.

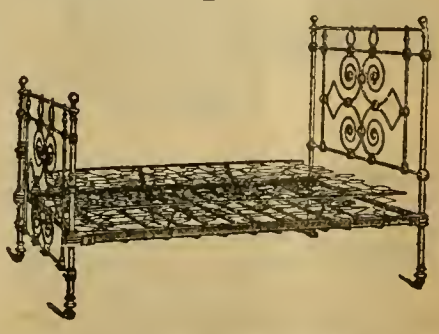
Our special price.....$2.25

Our $2.85 Metallic Woven Wire Mattress.



No. 96060 This Mattress is the same as No. 96058 with the exception that it has steel supporter attached to the frame, with six helical springs. Like our No. 96058 it is especially designed for iron and brass beds and comes in the following widths: 3 feet, 3 feet 6 inches, 4 feet and 4 feet 6 inches. All mattresses 6 feet long. Our special price.....$2.85

Spiral Spring for Iron Beds.



No. 96061 The only spiral spring that can be used with iron or brass beds. Does not require extra supports. Fits over the rail. Is always ready for use. Can be adjusted to any size of bed. Is made of tempered steel springs, connected with steel bands and chains, and is one of the most comfortable springs on the market.

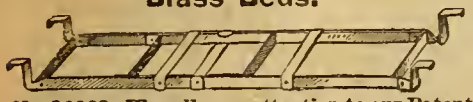
Price.....$5.25

Upholstered Turkish Spring Mattresses.

No. 96062 For Brass, Iron and Wood Bedsteads. They are the only Ideal Spring Mattresses for metal bedsteads. They contain 72 of the finest tempered spiral steel springs, and have the celebrated twin springs on edges, holding the structure perfectly in shape. The cut represents the mattress for metal beds, having a rabbet edge, the extended edges resting upon the side and end rails, thus entirely doing away with bed slats.

Prices: Hair Top.....$11.00
Moss Top.....9.60
Tow Top.....8.30

Our Patent Bed Slat for Iron or Brass Beds.



No. 96063 We call your attention to our Patent Bed Slat. This slat is adjustable and used to support steel spiral springs on iron or brass bedsteads. They are very strong and durable and can be adjusted to any size bed.

Price, per set, which includes 4 slats.....$1.30

Special Values in Pillows.

Our aim is to use the most durable and substantial ticking of the finest quality, and our selections always contain the newest and best selling designs.

Samples sent on application.

All feathers used in our pillows are thoroughly cleansed by our latest improved process, which at the same time gives the feathers an unexcelled filling capacity.

The prices given are per pair in sizes most generally acceptable. We, however, make pillows of any desired weight or size at the same price per pound.

Great Values in Mattresses.

As will be seen from the following quotations we show a great variety of mattresses in all the different makes, and as before explained we have endeavored to include only thoroughly first-class goods, such as we can recommend and guarantee. We have based our selling price on the actual cost to manufacture, with only our one small percentage of profit added, and if you will compare the prices with those of any other house you will see they mean a great saving to you. Our customers should take advantage of the following special prices in making up their orders for furniture or other merchandise. The addition of one or two mattresses will add very little to the freight charges, and will make a great difference in the cost to you.

We guarantee every mattress we offer to be full weight, to be exactly as represented, and of the highest standard quality, and if not found so you are at liberty to return them at our expense and we will cheerfully refund your money.

Our Standard Line at from $1.65 to $4.00.

This line includes the cheap and medium grades, embracing such staple goods as **Combination Wool, Combination Excelsior, Wool or Cotton Tops.** We recommend the combination mattress as the very best medium-priced mattresses, and you will note that our prices are extremely low.

No. 96155 An All-Excelsior Mattress, a good honest, serviceable article. Price.....$1.65

A FULL LINE OF UPHOLSTERING MATERIAL AND PORTIERS SHOWN IN DRY GOODS DEPARTMENT.

$19.90 BUYS A REGULAR $35.00 FIVE-PIECE OVER-STUFFED UPHOLSTERED PARLOR SUIT

At $19.90, $24.00, $30.00 and $35.00,

according to the different qualities of upholstering used in the covering, we offer you a five-piece, over-stuffed parlor suit in an entirely new design, the very latest production for 1899, as the equal of any you can buy elsewhere at 50 per cent more money.

OUR SPECIAL $1.00 OFFER.

SEND US $1.00 as a guarantee of good faith, stating the quality of upholstering wanted by number, and we will send this five-piece parlor suit to you by freight C. O. D., subject to examination. You can examine it at your freight depot and, if found perfectly satisfactory, exactly as represented, and such value as was never before seen in your neighborhood, pay the freight agent our special price of $19.90 to $35.00, according to the upholstering selected, and the freight charges, less the $1.00 sent with the order.

These suits are made for us under contract from the very latest 1899 designs by one of the best makers in Chicago—a factory that works exclusively on high-class upholstery for the best city trade; such style, workmanship and general finish as you will not find in the average country furniture store.

We furnish these suits in the different grades of upholstering at the following prices:

No. 96280 Upholstered in three tone velours or Imported corduroy	$19.90
No. 96281 Upholstered in silk tapestry	$24.00
No. 96282 Upholstered in brocatelle	$30.00
No. 96283 Upholstered in silk damask	$35.00

YOU MUST SEE THIS SUIT TO APPRECIATE IT, AND YOU MUST SEE THE QUALITY OF MATERIAL USED IN THE UPHOLSTERING TO APPRECIATE THE EXTRAORDINARY VALUE WE ARE GIVING.

PICTURE OF SOFA.

While you can form some idea of the $19.90 grade from the illustration, a sample of the cloth used will give you a better impression, for it is impossible to bring out all the handsome little details or to convey to you the quality of the material by the illustration. But **WE WILL MAIL YOU FREE ON APPLICATION cloth samples of the three-tone velours, corduroy, silk tapestry, brocatelle or silk damask.**

PARLOR CHAIR AND LARGE ARM CHAIR.

Our $19.90 Parlor Suit is a Wonderful Value.

Our liberal $1.00, C. O. D., subject to examination offer is

A GUARANTEE FOR QUALITY,

And even if you send cash in full with your order we guarantee for you such a suit as you could not get elsewhere at within 50 per cent of the price, and we will cheerfully refund your money if you do not find it so.

PARLOR CHAIR AND LARGE ROCKER.

OUR SPECIAL $19.90 PRICE

IS MADE POSSIBLE by reason of our having contracted with the manufacturer for a large number of these suits during the dull summer months when he was glad to keep his factory busy and his men employed, even without profit, and we bought the suits on the basis of the actual cost of material and labor, and the special $19.90, $24.00, $30.00 and $35.00 prices named you are based on the actual cost of material and labor with but our one small percentage of profit added.

HOW THESE SUITS ARE MADE..

FRAMES—The frames are the very latest 1899 style made from thoroughly seasoned hard wood. They are glued, screwed and blocked, **double stayed and reinforced,** and we believe the **strongest and most graceful frames made.**

SPRINGS—The springs used in these suits are the **celebrated Eagleton steel tempered springs,** which after being used and compressed do not sag down or weaken but always retain their elasticity.

UPHOLSTERING These suits are upholstered in the **highest style of the art by the most skilled mechanics** that can be employed, in the different materials named, selected from the very latest productions of 1899, has the **most stylish appearance** shown by any maker, and each piece is of a different color, selected with a view to harmonizing perfectly. Each piece is full over-stuffed, handsomely decorated and finished with deep fringe, fancy bindings, fancy cords and tassels and decorated with a handsome rococo brass gimp ornamentation.

THE COLORED ILLUSTRATION SHOWS OUR THREE TONE VELOURS, $19.90 SUIT . . . And this illustration is produced by the late color photographic process, giving you the exact colorings, the exact design of the different five pieces and enables you to order the $19.90 suit almost as intelligently as if you were ordering it from our stock.

This special five-piece parlor suit consists of the following pieces:

1 Large Sofa,
1 Large Rocker,
1 Large Arm Chair and
2 Large Parlor Chairs.

AT OUR SPECIAL OFFER PRICE OF $19.90 TO $35.00 we furnish this five-piece suit complete, castered, carefully packed in burlap and delivered on board the cars in Chicago. The set packed for shipment weighs about 225 pounds, and you will find THE FREIGHT WILL AMOUNT TO NEXT TO NOTHING as compared with what you will save in price.

Our 1899 Sale of High-Grade Upholstered Couches.

AT $7.50 TO $15.50, We offer such values in overstuffed couches, the very latest effects for 1899, as will be shown by no other house—couches the equal of anything you can buy in your local market at double the price—couches we have had made for us by the best maker in this city, from the very best of materials, by the most skilled labor, in large quantities for cash, and which we offer to you on the basis of the actual cost to make with but our one small percentage of profit added.

SEND US $1.00 As a guarantee of good faith, and we will send you any couch you may select by freight, C. O. D., subject to examination. You can examine it at your freight depot, and if found perfectly satisfactory and exactly as represented, pay freight agent our price and freight charges, less the $1.00 sent with order.

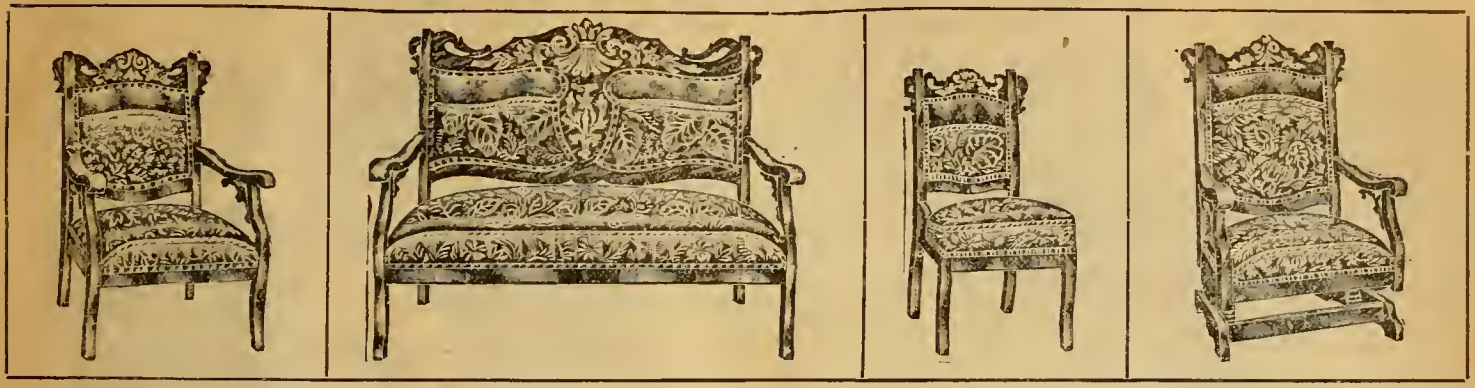
No. 96352 Our special price, upholstered in corduroy or three toned velours..... $14.00
No. 96353 Our special price, upholstered in crushed plush or silk tapestry $15.50

OUR SPECIAL OFFER PRICES OF $7.50 TO $15.50 include couch complete with casters, same carefully burlapped and packed, delivered on board of cars, and you will find the freight will amount to next to nothing, as compared with what you will save in price, and if you select one of these couches, you will have the very latest in style and such a couch as no one in your neighborhood will possess—a couch you could not duplicate anywhere at anything like the price we are able to name. **Remember, $1.00 only is necessary to accompany your order.** Balance and freight charges you can pay after couch is received, examined and found to be exactly as illustrated, perfectly satisfactory and in every sense the bargain we claim.

OUR $19.50 FIVE-PIECE PARLOR SUIT.



This entirely new Parlor Suit, designed expressly by us for this season, is patterned after one of the handsomest parlor suits that has been shown this year.

This handsome five-piece parlor suit, as illustrated above, consisting of one large sofa, one large rocker, one large easy chair and large parlor chair, is one of the handsomest suits we are able to show. The frame is made in solid oak, finished antique, or in curly birch finished in imitation mahogany, and is one of the handsomest in our line; it is very elaborately carved, very nicely ornamented, is given a high piano polish, and for strength is fully guaranteed. It is upholstered in the very best possible manner with best quality of springs, including full spring seat, full spring edge, and is very handsomely tufted. Each piece is extra large and all are fitted with very best casters.

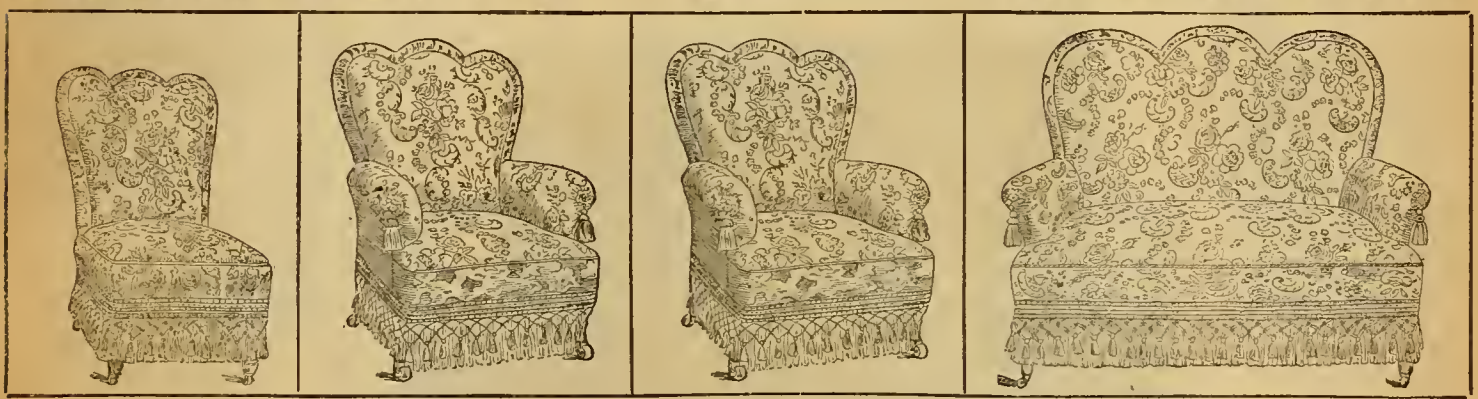
$24.50 BUYS THIS ELEGANT TURKISH SUIT



This elegant Turkish Parlor Suit consists of one tete-a-tete, one rocker, one gent's easy chair and one parlor or reception chair, four pieces, and all these pieces are made in extra-large size, with extra-high backs and large comfortable seats, and are the very latest designs. The upholstering or covering of this suit is the latest design or pattern of imported goods; each piece is covered with a different color; the suit is beautifully upholstered with plush bands and rolls on top and sides of back, and trimmed with a heavy worsted fringe. The suit is made with good steel springs and spring edges, and every piece is made with spring back. This is, without doubt, one of the best parlor suits put on the market at the price we ask, and will be an ornament to any home.

No. 96315	Our Grade C Brocaline.....	$33.50
No. 96316	Our Grade D Crushed Plush..	34.50
No. 96317	Our Grade G Brocatelle.....	38.00

$17.95
BUYS A $35.00 PARLOR SUIT

THIS PARLOR SUIT is one which will, although exceedingly low in price, grace the home of the rich or adorn the home of the poor. The price brings it within the reach of all. It is not necessary with our factory-to-consumer system to pay a high price in order to get excellent quality. The truth of this statement can best be learned through a personal examination of the goods themselves.

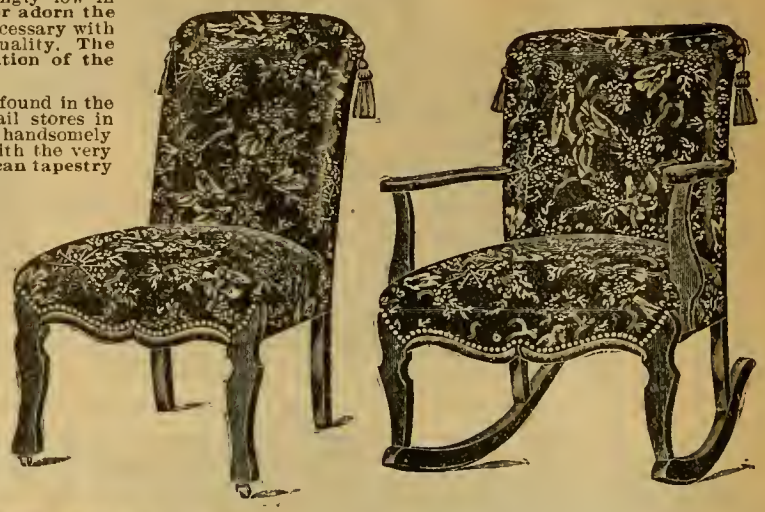
THIS IS A STRICTLY MODERN UP-TO-DATE SUIT. A suit which is only found in the better class of retail stores in large cities. The frames are made of solid birch, extra select in quality and handsomely finished in a rich dark mahogany. The seats of all the pieces are finished with the very best tempered steel springs throughout; the covering is a very heavy American tapestry Corduroy or Velvet, Crushed Plush, Silk Tapestry or Silk Damask.

In ordering this Suit you can have any of the fashionable colors now so popular.

IT WOULD BE BETTER however, for you to give a general idea of the colors preferred and leave it to our expert upholsterer, who will take particular pains to have the various pieces in assorted colors, all harmonizing perfectly and giving you a suit which will be not only rich in appearance, but by reason of the variety of delicate shades and tints, relieved from a monotony or sameness in colors and hence add very greatly to the general appearance. Each piece is finished with handsome rococo gilt gimp and tassels which add greatly to the appearance of the suit.

The suit complete consists of Large Sofa, Two Large Parlor Chairs, One Ladies' Rocker and One Large Gents' Arm Chair.

ALL THE PIECES except the rocker, are fitted with casters. The suit weighs about 225 pounds when packed for shipment. The freight will be very little compared with the saving which we can effect for you. We pack the suit very carefully in burlap to protect it from being marred or scratched in transit, and the purchaser of this suit will find it eminently satisfactory in appearance, finish and durability.



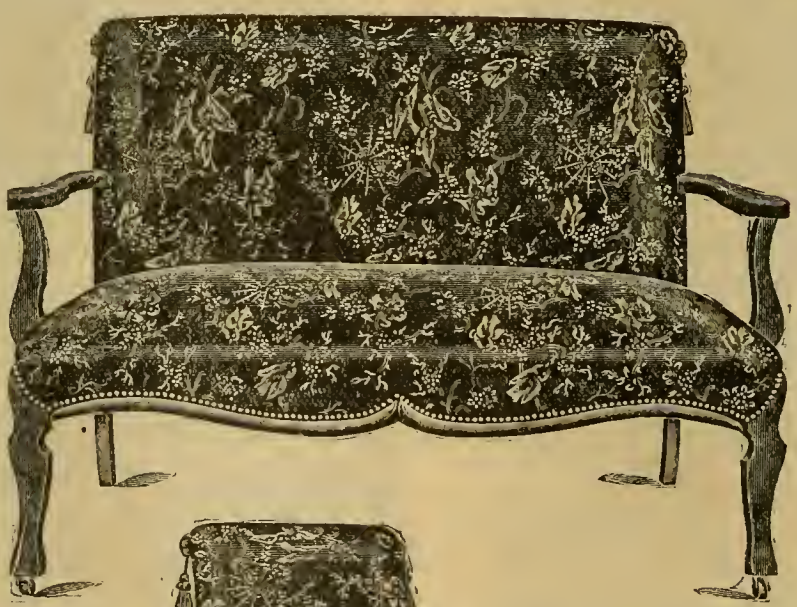
THE ILLUSTRATIONS shown are drawn by our artist direct from photographs of the different pieces themselves, and hence are exact reproductions, and come as near as it is possible for an illustration to show the

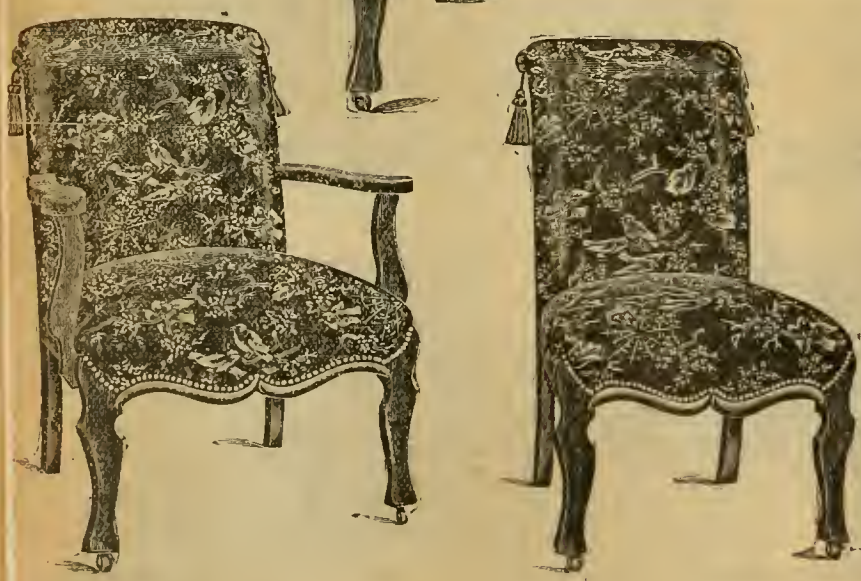
STYLE AND APPEARANCE OF THE GOODS...

In one particularly important feature the illustration fails to do justice to this suit. It conveys

NO IDEA OF THE EXCEEDINGLY HIGH QUALITY.....

which we are able to offer at the price named above.





OUR PARLOR FURNITURE is made by factories whose reputation alone is sufficient guarantee of the quality of the goods; hence,

In offering this suit to you at the exceedingly low price named above,

we do so with every assurance that the articles themselves will confirm our assertion that

WE ARE SAVING YOU FROM $18.00 TO $20.00.

on the purchase over what you will ordinarily pay your local dealer for the same or inferior goods.

OUR LIBERAL TERMS. Upon receipt of $5.00 with order we will send the suit securely packed, by freight, C. O. D., subject to examination. You examine the suit at your depot, and when found exactly as represented and entirely satisfactory in every respect, pay the agent the balance with freight charges and the suit is yours at a

SAVING OF AT LEAST $18.00 OR MORE.....

Most of Our Customers Send Cash in Full with Order. Net cash price when cash in full is sent with order is $17.95. It is better to send cash in full, as you are saved all the annoyance and extra delay of C.O.D. shipments, the suit is sent direct to you in your own name to the freight depot and can be delivered to you much more promptly than when the necessary forms have to be gone through in order to make C. O. D. shipments. Whether cash in full is sent with the order or the suit is shipped C. O. D., our guarantee is exactly the same, namely, that the suit shall please you in every particular and be exactly as it is represented to be, or it may be returned to us at our expense and we will cheerfully refund you your money.

WE ARE EXCEEDINGLY ANXIOUS to have one of these suits shipped into your neighborhood, for we know its sale will mean the sale of many others and will increase the already large interest in our furniture department in every neighborhood wherever one of these suits are sold.

Should You not be in the market at the present time for a parlor suit, you will confer a favor not only upon us but upon your neighbors if you will hand this catalogue to them, for we assure you this is a most remarkable bargain of bargains, that we can make for a short time only. We have less than six hundred of these suits at our disposal and when these are sold there will be no more to be had at the price, hence we kindly ask you to hand this catalogue to a friend or neighbor if you are not in the market for anything of the kind.

Our Framed Pictures.....

ARE WORKS OF ART AND WILL BE ADMIRED BY EVERYONE WHO HAS A TASTE for the BEAUTIFUL.

$3.00 Buys a Regular $6.00 Picture.

No. 96710 The illustration shows an Elaborate Study, depicting 16th century court life and beautifully colored. These Venetian court pictures are 20x20 inches in size and are mounted in massive 6 inch frames finished in gilt stem and lining with ivory panels, a triumph in the lithographic art. Mounted in the richest frame imaginable.
Price, each.....$3.00

$2.00 Buys a Regular $5.00 Picture.

No. 96712 While the artist has done the best he could to give you some idea of this handsome fac-simile water-color drawing, the illustration can not do it half justice. This is what nine out of ten would say is a genuine water-color, so near has the original been imitated. The cut shows one of a variety of eight different landscape studies, and should you order from us we will give you such a bargain in the way of a beautiful landscape as you have never seen or heard of. These pictures are mounted in 4-inch frames, finished in ivory enamel, with tinted edges and gold-tipped ornaments. We believe this to be the greatest bargain ever offered in the way of a picture. It is something that agents and picture dealers would ordinarily ask $5.00 to $5.50 for. We solicit your trade on this line of goods, knowing we can give you better terms than you can secure anywhere else. We know we can please you, and only ask a chance to give you such goods as you can obtain from no other concern at anything like the price.
Price of picture.....$2.00

$2.00 Buys a Regular $5.00 Fac-Simile Water Color.

No. 96714 We illustrate a Magnificent Fac Simile Water Color Drawing, mounted in a superb 4 inch frame, finished in ivory enamel with tinted edges and gold tipped ornaments. We have an assortment of eight different landscape studies, all finished in colors. Positively the best bargain ever offered. Frame is very heavy and 4 inches wide.
Price, each..... $2.00

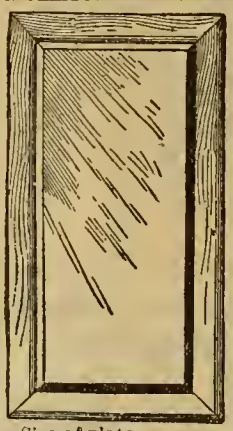
Price..... 90c

..DEPARTMENT OF MIRRORS..

WE TAKE PLEASURE in calling your attention to a very complete line of strictly high-grade Mirrors, which are offered to our customers on our economic one small profit plan at less money than dealers are able to buy in quantities. Our mirrors are furnished to us by one of the largest and most reliable manufacturers in this city, a concern which makes the highest grade of goods. The factory here make the frames and finish the work, but almost without exception the mirrors are imported.

THE PRICES QUOTED are for the mirrors carefully packed and delivered on board the cars in this city, from which point you must pay the freight. We pack them very carefully and there is little or no danger of their being broken or even marred in transit.



A Fine Plate Mirror for 30 Cents.

No. 96765 Dealers make very large profits on this class of goods. They are compelled to from the fact that they sell at such high prices that their sales are comparatively small, hence they make up for their small sales by large profits. This mirror is made with a handsome solid oak frame, beautifully polished, and very finely fitted by the best workmen. We fit the mirror with the best French glass made, in the following sizes, at the prices named below:

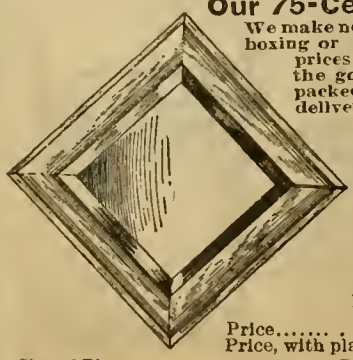
Size of plate.	Plain.	Bevel.
7x 9 inches	$0.30	$0.38
8x10 inches	.45	.58
9x12 inches	.55	.75
10x17 inches	.86	1.20
12x20 inches	1.10	1.50
14x24 inches	1.62	2.12
17x30 inches	2.90	3.70
18x40 inches	3.82	5.05

$1.50 Mirror for 86 Cents.

No. 96766 A handsome Mirror, fitted with fine clear glass, is seldom, if ever, purchased at a retail store without paying exorbitant profits. Dealers take advantage of the fact that mirrors are easily broken to make the claim that extra-high prices must be charged to cover the breakage occasioned by shipping. As we pack all our mirrors in the very best possible shape, and box each one separately, there is no danger whatever of breakage, and consequently we do not have to charge extra to cover losses. Furthermore, by contracting at unusually low prices for large quantities we are able to offer you these mirrors at about half the ordinary retail prices. This pier mirror is made with a solid oak frame, with handsome carved top, and presents a very handsome appearance. We fit the mirror with nothing but the best French plate-glass, which is of unusual quality and the finest that is imported. It is well known the cheap mirrors found in retail stores are fitted with very imperfect glass, which is entirely unsatisfactory. We guarantee satisfaction in all our mirrors, and that the glass shall be perfect in every respect. We make these mirrors in various sizes, and fit them with either plain or bevel plate-glass, as may be desired.

Size of Glass.	Plain.	Bevel.
10x14	$0.86	$1.08
14x17	1.08	1.35
12x20	1.42	1.75
14x24	1.98	2.48
17x30	3.28	4.05
18x36	3.64	5.18
18x40	4.50	5.65

Our 75-Cent Mirror



We make no charges for boxing or cartage. The prices quoted are for the goods carefully packed, boxed and delivered on board the cars at Chicago.

No. 96767 This mirror has a solid oak frame, is nicely finished and beautifully polished. Is fitted with French bevel-plate mirror; size, 10x10.
Price..... 75c

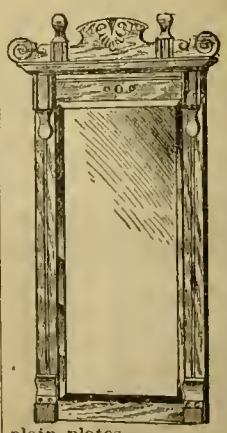
No. 96772 Price, in imported German bevel mirror..... $6.50

A Heavy Pier Mirror for $5.75.



The handsome and thoroughly well constructed heavy Pier Mirror shown in illustration is quoted at a price far below anything for sale at retail, and at the same time is thoroughly well made and fitted with the very finest plate glass. The frame is made of oak, very handsomely decorated with hand carving, with a fancy pattern top, and in size is about 22x50 inches. The very fine French Plate Mirror is 18x40 inches in size. We pack these mirrors with the utmost care, and aside from accidents they are sure to reach you in the most perfect condition. We guarantee that you will be pleased with this article, and feel sure after you have received it you will find it one of the most convenient and desirable pieces of furniture you could add to your home.

No. 96773 Our special price, with heavy French plain plates..... $5.75
No. 96774 Our special price, with extra-heavy French bevel plate..... $6.50

DO NOT FAIL TO GIVE CATALOGUE NUMBER and complete description of every article you order and thus save possible ERRORS, which would be annoying but perfectly natural.

Special Values in Fancy Cabinets, Toilet Cases, Shelves, Hat Racks and Miscellaneous Pieces.

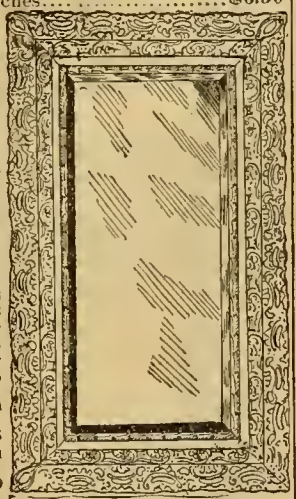
Fine French Plate Mirror for $6.50.

It is impossible to conceive of a more handsome and attractive design of mirror frame, or a more superior quality of bevel plate glass than that contained in the beautiful mirror which we show in illustration. The frame is made of the very finest selected material, finished in olive and gold, or in white and gold, as may be desired, with ornamental gold burnished corners. This frame is 6 inches wide, and you can judge of the beautiful appearance which it presents by the illustration and by the style of ornamentation. This mirror is fitted with an 18x40-inch French plate-glass of the very best imported quality.

No. 96775 Our special price for special quality heavy French bevel-plate mirror, 18x40 inches. $7.00

No. 96776 Our special price with fine French plate mirror, 18x40 inches..... $6.50

Something Exceptionally Fine for $6.75.

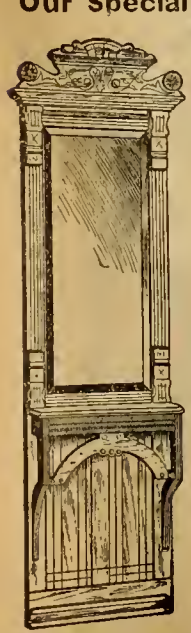


This is a strikingly beautiful Mirror. Has a handsome heavy 6½-inch frame, made of the finest materials, finished, with back and stem heavily ornamented gilt, artistic cut openings on back, with gold burnishes on corners; inside is a wide burnished lining; next to same an ornamental gilt lining; size of plate, 18x40.

No. 96777 French plain mirror. Price..... $6.75

No. 96778 French bevel mirror. Price..... $7.50

Our Special $8.00 French Pier Mirror.



There is perhaps nothing that adds more to the elegant appearance of a room than a handsome and stylish pier mirror, such as we show in the illustration. This article of furniture is made by a manufacturer who caters particularly to the best trade, and the article, reaching the consumer through the retailer, is necessarily held at such an unusually high price that it is scarcely within the reach of the average man's means. By contracting for a large supply of these mirrors, we are in a position to offer them at a price at least 33⅓ per cent. below any retail price which you can possibly secure. It is very heavy and massive in appearance, and at the same time, elegant in outline and rich in ornamentation. The height of the frame is about 6 feet 4 inches. The frame is made of the best solid oak, with very handsome finish and fitted with a shelf below the mirror. The mirror itself is made of the very best French plate-glass imported to this country, and is 18 inches wide by 40 inches high. It is consequently very large in size. We pack these mirrors very carefully and they are sure to reach you in the very best condition and give you the highest satisfaction.

OUR CROCKERY AND GLASSWARE DEPARTMENT.

Our stock of tableware includes only the finest selection of crockery from the **best European manufacturers.** American-made crockery is well known to be inferior to the English and French manufacture. Our orders have hence been placed in Europe for the best and most select patterns, with manufacturers whose goods are known the world over as the finest it is possible to produce. **Importing our own stock,** we are not only offering a line that has no superior on the market, but we are in a position to name prices against which the retailer cannot compete. You pay what he himself pays, for we sell to the consumer just as any other importer sells to the retail dealer. The advantage of our **Factory-to-Consumer system** is apparent. We are constantly breaking down the wall between the maker of merchandise and the actual user.

In connection with our crockery we desire to say that **every set is most carefully packed in barrels and casks,** and we seldom or never hear of any breakage. The freight is a very small item indeed, when the great saving in price is considered. This class of goods ships as first-class freight.

It is impossible to examine these goods satisfactorily at your depot. Hence we request full cash in advance on all orders. However, we practically ship **subject to your approval.** Any goods not found as represented, or unsatisfactory, may be returned to us and money refunded.

GENUINE ENGLISH STONEWARE CHINA. (Manufactured by J. & H. Meakin, Hanley, England.)

No. 98000 Plain white. We guarantee these goods to be the finest and most durable earthenware made in the world. **Warranted not to craze.** One set of the above will outwear three sets of the domestic goods, and will cost but a trifle more.

DINNER SETS

...$7.95 BUYS A $20.00 IMPORTED 100-PIECE DINNER SET...

Manufactured by W. H. WETHERBY & SON, Hanley, England.

No. 98003 While this Dinner Set retails at $20, we succeeded in making an arrangement with the manufacturers which enables us to sell the complete set at the heretofore unheard of price of $7.95. This set is suitable to decorate the tables of the wealthy, and in price is within the reach of all.

Bargains are what our customers expect of us, and even in this line we cannot afford to disappoint them. This genuine English semi-porcelain ware, is not first or second grade American, but the genuine English, decorated with delicate spray of anemone flowers and leaves, put on under glaze, which prevents its wearing off. We can furnish two colors, blue and brown. Be sure to state which color is wanted in ordering. They are the latest style and consist of the following 100 pieces: 12 Teacups with handles; 12 Tea Saucers; 12 5-inch Plates; 12 6-inch Plates; 12 7-inch Plates; 12 Fruit Saucers; 12 Individual Butters; 1 8-inch Baker; 1 10-inch Platter; 1 12-inch Platter; 2 8-inch Covered Dishes; 1 Sauce Boat; 1 Pickle Dish; 1 Covered Butter Dish; 1 Covered Sugar Bowl; 1 Cream Pitcher; 1 Slop Bowl.

Only $7.95

Cash in full must accompany your order. We pack the set carefully in a barrel and deliver to any depot in Chicago free of charge. Our price, $7.95, covers everything. The dishes will reach you in good order. We have never yet heard of a broken piece from any we have shipped. This is a rare bargain.

As soon as our present contract expires, we will not be able to furnish any more at this price.

YOU SHOULD TAKE

"BEAUTY" PATTERN OF J. & C. MEAKIN'S ENGLISH SEMI-PORCELAIN WARE.

No. 98005 The style of decoration used on this pattern is of the same order as employed by the Haviland and other makers of French china dinner ware. A delicate brown spray, filled in with pink and light blue buds, gold on knobs on handles, creates a most pleasing effect, and it cannot fail to satisfy and charm the most fastidious. The ware is of an exceptionally brilliant finish and shape of the latest of the new designs recently brought out. Set consists of 100 pieces, same as No. 98004. Price.....$13.50

$9.90 Buys a Regular $20.00 .. One Hundred Piece .. Imported English Dinner Set

This is Highly Decorated, Underglazed English Dinner Set
Made by Henry Alcock & Co., of Colridge, England.....

350 sets will be sold at the heretofore unheard of price of $9.90.

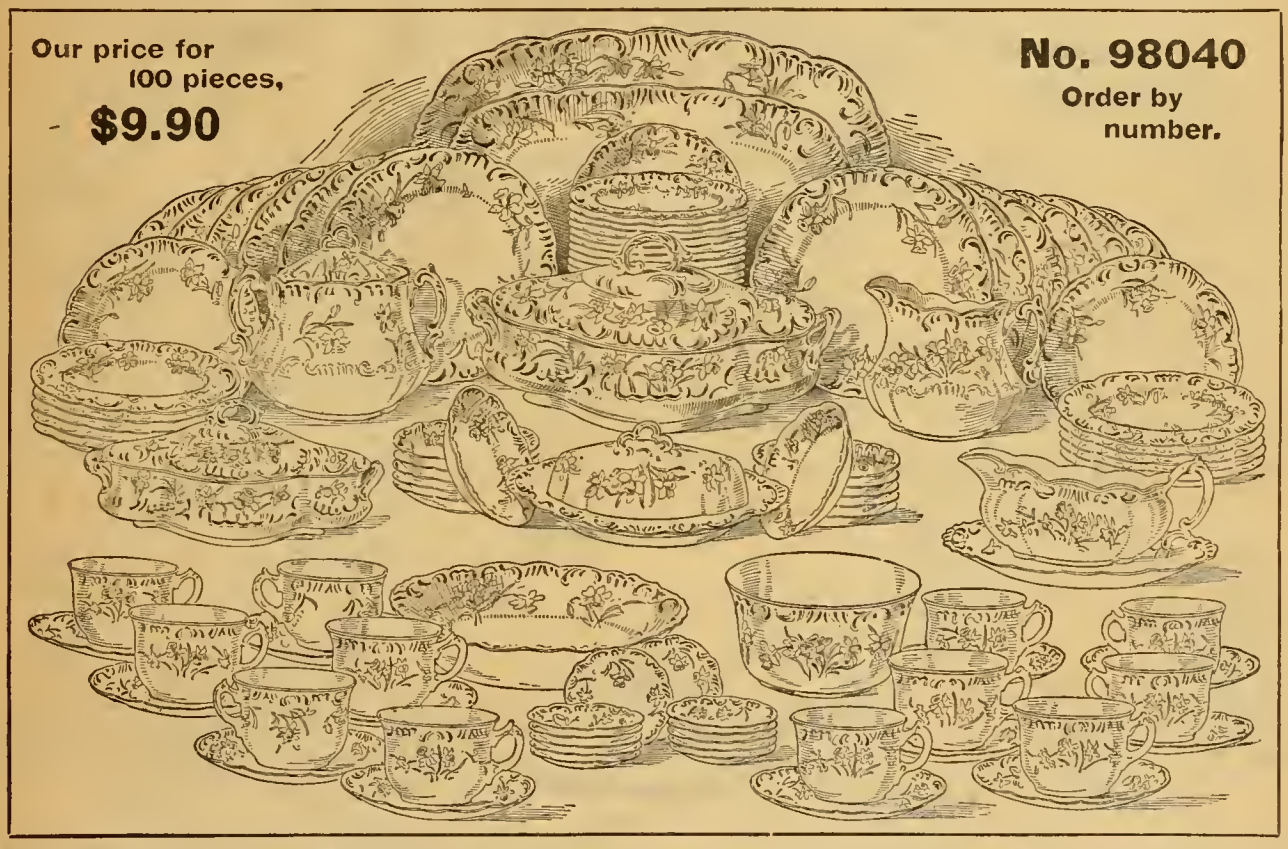
HOW WE CAN MAKE THE $9.90 PRICE. This lot of 350 Sets was imported to this country in 1897, before the change in tariff. They are sets that were sold at wholesale at $12.00 to $15.00. They were held in storage by reason of disputed claim for nearly a year, and we bought the entire lot of 350 sets at our own offer—a price exactly the same we ask you, with but our one small percentage of profit added. Therefore we feel confident we cannot be contradicted when we say, we offer for $9.90 a regular $20.00-100 piece Imported English Dinner Set.

We are extremely anxious to receive your order for this handsome dinner set, for the reason that we know you would be so well pleased with it, you would show it to your friends, tell them where you got it and what you paid for it. You will recommend our house, and we will be sure to receive more orders from your neighborhood for crockery and other merchandise.

From this our Crockery and Lamp Department we offer many special bargains, prominent among which are six handsomely decorated parlor lamps, which are illustrated in colors. But nowhere in the department will be found such extraordinary value, as is offered in this fine underglazed, highly decorated English Dinner Set at $9.90.

OUR LIBERAL C. O. D. OFFER. If you do not care to send $9.90 cash in full with your order, you can send $1.00, and we will send the set to you by freight, C. O. D., subject to your examination. Examine it at your freight depot, and if found perfectly satisfactory, exactly as represented and such value as you cannot get elsewhere, pay freight agent balance $8.90 and freight charges, otherwise you can return at our expense, and we will cheerfully refund your money.

Our special $9.90 Dinner Set is equal to sets that are sold everywhere at $20.00. If you will look your local market over—pick out the finest set you can buy anywhere for $20.00, and you send to us for this and do not find it fully equal, you can return at our expense.



FROM THIS LARGE ILLUSTRATION shown above, which is engraved by artists direct from photograph taken from set, you can form some idea of the appearance. It is genuine underglazed semi-porcelain china, gold and leaf decorated and ornamented. Very latest style, in shape and decoration. Unfortunately, for want of colors, the illustration does not do the set justice, and you must see it to appreciate the extraordinary value we are giving.

This 100-Piece Dinner Set Contains the Following Pieces:

12 handsomely decorated tea cups with handles.
12 beautiful gold trimmed decorated tea saucers.
12 handsome 5-inch plates.
12 handsome 6-inch plates.
12 handsome 7-inch plates.
12 richly decorated fruit saucers.
12 handsome individual butters.
1 new pattern sauce bowl.
1 new pattern pickle dish.
1 large new pattern fancy decorated 8-inch baker.
1 large handsomely decorated 10-inch platter.
1 beautiful 12-inch platter.
2 new designs highly decorated 8-inch covered dishes.
1 new design elaborately decorated covered butter dish.
1 handsome gold trimmed covered sugar bowl.
1 cream pitcher, new pattern. 1 slop bowl new design.

NEVER BEFORE WAS SUCH A SET, as we here illustrate and describe, sold for so little money. We could sell the entire lot of sets at handsome profit to Chicago jobbing houses, if we so desired, but we believe, our customers are entitled to the benefit of this most extraordinary purchase we are giving, and as it is our aim to give our customers every benefit that capital, skill and energy command, we have embodied in this one set the very best that the market affords, at the lowest price possible in large quantities for cash. We cheerfully turn over every bargain to our customers, giving the full benefit, and that at but one small percentage of profit above actual cost to us.

IF YOU CANNOT USE THIS DINNER SET.—If you are not at the present moment in the market for an extraordinary bargain in a dinner set, kindly mention to your friends and neighbors that we have 350 sets that are really worth $20.00, that we will close out at $9.90. Tell them they can see and examine the set at their nearest freight depot if they will send us $1.00, balance to be paid after set is received, examined and found to be all and even more than we claim for it.

OUR $5.95 100-Piece Vitreous China Dinner Sets.

FOR $5.95 WE OFFER YOU A DINNER SET THE EQUAL OF ANYTHING YOU COULD BUY ELSEWHERE FOR $10.00.

WE WANT YOUR CROCKERY TRADE and if offering such values as cannot be had elsewhere, and the very latest, most stylish and desirable goods will secure it, this department will grow this season as it has never grown before. **$5.95 FOR THE 100-PIECE SET** means you are getting a genuine **IMPORTED ENGLISH VITREOUS DINNER SET** for less money than any dealer can buy in quantities.

.....HOW WE CAN MAKE A $5.95 PRICE.....

We imported these dinner sets before the advance in tariff. We bought them at the lowest price ever known for this class of goods, and WE GIVE YOU THE BENEFIT OF OUR PURCHASE. The net cost to import, with but our one small profit added.

THIS SET IS THE HIGHEST GRADE GENUINE VITREOUS CHINA as hard as flint, goods that will stand an unusual amount of hard service, in fact practically indestructible. **PURE WHITE IN COLOR**, and will not turn black when chipped like ordinary ware. **VERY LATEST SHAPE**, as shown in illustration, making a set in white suitable for any house.

No. 98041

From the above illustration you can form some idea of the appearance of this beautiful 100-PIECE WHITE VITREOUS CHINA DINNER SET, but you must see it to appreciate the value we are offering. We believe it the handsomest shaped white dinner set in the market.

THE 100-PIECE SET CONSIST OF THE FOLLOWING PIECES:

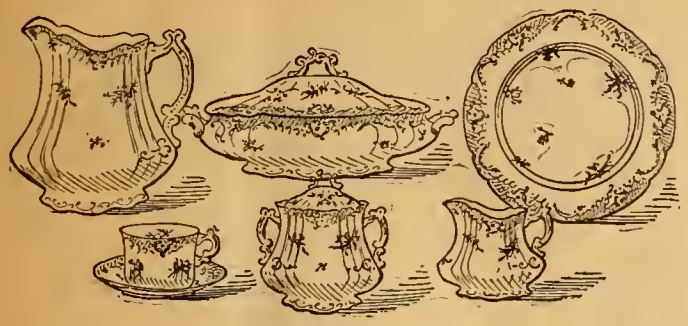
12 SOUP PLATES	1 8-INCH PITCHER
12 5-INCH PLATES	1 8-INCH COVERED DISH
12 7-INCH PLATES	1 PICKLE DISH
12 COFFEE CUPS AND SAUCERS	1 SAUCE BOAT
12 INDIVIDUAL BUTTERS	1 COVERED BUTTER DISH
12 4-INCH FRUIT PLATES	1 SUGAR BOWL
1 8-INCH DISH	1 EXTRA BOWL
1 12-INCH DISH	1 LARGE PITCHER
1 7-INCH PITCHER	1 MEDIUM PITCHER

OUR ONE DOLLAR OFFER. Send us $1.00 as a guarantee of good faith and we will send the 100-piece set to you by freight C. O. D. subject to examination. You can examine it at your freight depot, and if found perfectly satisfactory, exactly as represented, and such value as you never before heard of, pay the freight agent the balance, $4.95, and freight charges. ORDER THE $5.95 SET, and if you do not find you have saved at least $3.00 to $4.00, return it at our expense and we will refund your money.

ORDER BY NUMBER.

OPEN STOCK DINNER SETS.

BIJOU PATTERN.



No. 98042 Is one of this season's novelties, shape is entirely new, the decorations consist of small sprays of flowers in natural colors under glaze, gold trimming on all covered pieces, a pattern that will please most any one for style and quality. You can make your own selection of pieces wanted.

LUSTER BAND PATTERN.

No. 98043 Open Meakin's English Ware. This ware is so well known that a description is hardly necessary, the decorations are of a heavy luster band, and a flower sprig in luster, which resembles gold very closely, but will not wash off as gold is apt to do. Your choice of selection of any of below-named prices:

Tea Cups and Saucers, per doz.	$1.80

BEAUTY PATTERN.

No. 98045

Highest grade English semi-porcelain made. This set is made by J. & G. Meakin, and is one of their finest productions. The decoration is a very handsome floral design, filled in natural colors, in delicate shades of blue and pink. All pieces are heavily trimmed with gold. In appearance this set is as pretty as the finest Haviland China at about one-third the price. It has also another advantage, being stronger, it will outwear six China sets.

THE VERY FINEST OF SILVER (FLAT WARE AND HOLLOW WARE) IN OUR SILVER DEPARTMENT. OUR PLATED CUTLERY IS THE CHOICEST MANUFACTURED. REFER TO INDEX.

THE CHOICEST GLASSWARE OF TWO FACTORIES

A BARREL OF GLASSWARE FOR $1.90. - - - WHO EVER HEARD OF THE PRICE? - - - FULL CASH MUST ACCOMPANY ORDER.

A GREAT CUT IN GLASSWARE.

No. 98200 (Order by number.)

The price of Glassware has been wonderfully reduced. We are on the bottom. We have two outfits at prices never before heard:

$1.90

...AND...

$2.75

The above prices are about one-half the retail price. No wholesale house can meet our cut prices of $1.90 and $2.75.

No. 98200 This complete outfit for $1.90. No charge for barrel; we pack and deliver at depot free of charge a complete outfit, consisting of the following 36 pieces; 6 tumblers, 6 goblets, 12 4-inch berry saucers, 1 8-inch berry dish, 1 sugar bowl, 1 butter dish, 1 spoon holder, 1 cream pitcher, 1½-gallon water pitcher, 1 celery dish, 1 pickle dish, 1 tall open fruit bowl. The complete outfit for....$1.90

Freight will be very little. 25 cents will take a barrel 500 miles; 50 cents will pay the freight to most any point. Send $1.90 and the outfit will be sent to you at once.

Decorate your table with one of our sets of glassware and you will surely say: "Never before were such goods sold for so little money."

WE PACK OUR GLASSWARE IN BARRELS, EMPLOYING ONLY SKILLED PACKERS, AND WE HAVE YET TO HEAR OF SHIPMENT BEING DAMAGED UNDER ORDINARY CIRCUMSTANCES.

OUR $2.75 GLASSWARE OUTFIT---39 ELEGANT PIECES.

JUST LIKE CUT GLASS, AT ABOUT 7 CENTS A PIECE ON AN AVERAGE.

WE MAKE IT A POINT to carry a line that is just as handsome and stylish as the market affords.

Many a rich man's table is decorated with glassware no handsomer than this pattern.

Would retail at $10.00 and upward. OUR SPECIAL CUT PRICE is $2.75. No charge for packing or delivering to depot. We do that free. An expert only could tell it from a $100 glass outfit.

No. 98205 This elegant 39-piece set must be seen to be appreciated. It is an exact reproduction of the celebrated English "Prism" cut glass and is finished so that it requires an expert to detect the difference. The large pitcher, in particular, is a very handsome piece of glass, and, if it were genuine cut, would alone be worth $20.00, but the glass manufacturers have so improved that we are able to sell this assortment at a fraction of the cost of a single item of the genuine cut-glass, and very few could possibly tell the difference. Your neighbors will pronounce it genuine cut-glass. These goods are very heavy, beautifully finished, and each piece is a work of art. This outfit consists of 1 butter dish, 1 sugar bowl, 1 spoon holder, 1 cream pitcher, 12 berry saucers, 1 8-inch berry or salad dish, 12 water tumblers, 1 ½-gallon pitcher, 1 celery tray, 1 silver-plated salt shaker, 1 silver-plated pepper shaker, 1 large footed fruit bowl, 1 molasses pitcher, 1 vinegar bottle, 1 toothpick holder, 6 goblets. Every one who sees this set will want one.

Our price for the complete outfit..$2.75

No. 98205 (Order by number.)

A COMPLETE LINE OF SILVERWARE IS QUOTED IN THIS CATALOGUE AT PRICES ABSOLUTELY BEYOND COMPETITION IN GOODS OF EQUAL VALUE. REFER TO INDEX.

At our special bargain price of $21.00, no one in need of a High-Grade sewing machine, with the handsomest cabinet on the market, can well afford to let this opportunity go by. No risk is assumed by the purchaser. If the machine is not found as represented, send it back to us and we will refund your money and pay the freight.

HIGH GRADE SEWING MACHINES.

We are Headquarters for Sewing Machines Both in Quality and Price.

OUR MINNESOTA

LEADS THE WORLD IN SEWING MACHINES.

We have Machines as Cheap as $8.50 and the very Finest High Grade Cabinet with a Minnesota Head for $27.45.

We have Sold Thousands of Machines and are Represented with one of our Sewing Machines in Nearly Every Section of the Country.

Our Binding Guarantee Covering Every Piece of Material and Workmanship goes with the Machine.

WITH OUR SUPERIOR FACILITIES For marketing machines direct **from the manufacturer to the consumer,** we are able to save the purchaser **from $20.00 to $50.00** on a machine. This amount certainly is worth the saving, and it is far more economical to buy for cash than to pay exhorbitant profits for the privilege of buying on the installment plan. **The price of our machines** is in many cases about what the agent or average retail dealer would ask for a first payment of a machine on the installment plan. There are many good machines on the market and unfortunately for the users of sewing machins there are many poor ones. **We would not handle a poor machine at any price,** and as we control the output of the manufacturer, we are able to have our machines made of the very best material, and carefully inspected by our own superintendent. **Combining as we do the good points of all high class machines** and protecting our machines with patents, we are able to furnish a machine for the actual cost of labor and material with only one small profit added, **that will stand side by side with the highest priced machine** sold by agents or retail dealers, do exactly the same work, last as long and in many cases longer, run as noiselessly and in every other respect just as good and **with many superior features.**

WE PRACTICALLY HAVE NO COMPETITORS as our trade in sewing machines is so large that we are able to make them for less money than any other concern in existence. There are retail dealers, canvassers and various catalogue houses who handle sewing machines, some of which are reliable and many are not, but if we can have one of our sewing machines in any home we know that it will be sure to stay, because it is a better machine than any other concern can afford to sell at our catalogue price, and no better machine can be had at any price. **A better machine cannot be made than our Minnesota** and we are ready and willing at all times to send it on our regular terms of shipment; and have it returned to us at our own expense if it is not found as represented, and equal to any machine on the market; and with it we send **our 20 years' binding guarantee** which is evidence in itself that if the machine was not as represented and capable of doing everything we claim for it, it would not be policy for us to assume the risk of guaranteeing it for 20 years. But as we have handled the machine for a number of years and have only the most flattering recommendations and testimonials from our customers in its behalf, we know that we cannot say too much for **our Minnesota.**

EVERY PIECE AND PART **of our Machines** from the rollers on the floor to the top piece of the cover, **is carefully inspected and fully tested** before entering into the work. **Every machine is inspected** by two inspectors before being packed for shipment; it is threaded and a piece of cloth will be found showing the inspection of sewing and the **adjustment to be perfect. Every bearing** is carefully oiled and every care given the machine to have it leave our factory in absolutely perfect condition, and reach your home so that you will be able to at once operate it for any purpose required of a sewing machine, from the simplest plain sewing to the most delicate fancy work. With the machine we furnish a **set of steel, highly polished nickel plated attachments,** the very best made and the same that will be found on any $60.00 or $75.00 sewing machine. **The simplicity of our Minnesota makes it superior to the ordinary complicated machine of many parts,** as it enables our customers to handle it with very little study and be able to **operate it at once without instructions.** The instruction book which we send with the machine illustrates the different parts and attachments, and by, referring to the instruction book **one who has never done sewing before can easily operate our Minnesota machine.**

THERE WAS A TIME when sewing machines were controlled entirely by two or three manufacturers who had patents on the different parts of machines; and this monopoly enabled them to ask unreasonable and exorbitant prices for their machines, but these exorbitant high prices do not have to be paid now by the users of sewing machines. A high grade machine with the very latest improvements can be had from us at less than half the price that these same manufacturers now ask for their machines.

Special High Grade Features Found Only in Our Minnesota Machine.

Light Running, Durable, Easily Operated, Noiseless and Double Positive Feed, Self-Threading Shuttle, Self-Setting Needle, Tension Liberator, Automatic Spooler, High Arm, Nickel Plated Working Parts, Hardened Tool Steel Bearings, Latest Improved Style Attachments, Superior Finish, Highly Polished Woodwork Oak or Walnut, the latest in design and strictly up-to-date in style and a handsome piece of furniture for any home.

WE ARE ABLE to sell our **high grade Minnesota machine** to the user at factory cost with only one small profit added because we don't employ agents and pay them any part of the selling price for procuring the business.

WE DON'T SELL ON THE INSTALLMENT PLAN and thus run the risk of losing part of the price of some of the machines.

WE DON'T DO BUSINESS IN AN EXPENSIVE and reckless manner and make the purchaser stand the extra cost.

WE DON'T EMPLOY CANVASSERS **or peddlers;** we don't send out instructors to give lessons at the customer's house, personal instructions not being necessary; thus saving this expense to the customer, which all sewing machine dealers add in the selling price of the machine.

A LITTLE STUDY of our illustrated Instruction book will enable the most inexperienced to operate our machines with the utmost satisfaction.

OUR TERMS OF SHIPMENT:

We ship our machines on the most liberal terms of any concern and upon receipt of a small deposit of $1.00 we will send any of our sewing machines to you (except the Success) upon receipt of your order, the balance C. O. D. You can call at your freight depot, pay the agent the balance, take the machine to your home, give it a thorough and fair trial, and if you do not find it exactly as represented and equal to our catalogue representation you can return it to us at our expense and we will promptly and cheerfully refund your money in full. **As nearly all our customers send cash in full with the order,** we advise everyone purchasing one of our machines to do so, as they save the return charges on the money which is asked on all C. O. D. shipments by the express companies and from one to three days' delay as it requires more time to make a C. O. D. shipment, and when you send cash in full with your order it is with the same understanding that you can return the machine to us if not satisfactory and we will cheerfully and promptly return your money in full and pay the freight charges.

IF YOU DO NOT KNOW US, or if you are of the opinion that any risk is assumed in sending cash in advance with your order, go to your nearest banker, deposit with him the price of the sewing machine, ask for his receipt, which should read as follows: "Received of Mr. ..... $..... for one of Sears, Roebuck & Co.'s ..... Sewing Machines, No. ...., and I agree to hold this money until the machine has been received by Mr. ..... and he has given it a 20 days' trial, when I shall forward the money to Sears, Roebuck & Co., unless in the meantime Mr. ..... finds the machine not as represented, in which case he can return it to Sears, Roebuck & Co., and take receipt from the railroad company, and on presenting the receipt to me I will return to Mr. ..... all the money deposited."

WE HAVE A MACHINE WHICH WE CALL OUR "SUCCESS," sold in competition with what many concerns are offering as a low armed Singer, but we do not recommend it. It is a low-armed machine; it has none of the latest improvements and is a machine which we do not guarantee nor recommend, but if any of our customers want such a machine we will send it to them if cash in full is sent with the order, and they can see after examining and using the machine that it is just as represented in our catalogue and fully worth the money paid for it, but it compares only with machines such as many concerns are offering and selling for a high grade machine at a price from $5.00 to $15.00 over our catalogue price.

OUR IOWA MACHINE at **$13.25, $14.25 and $15.25** is equal to machines sold for from $35.00 to $45.00 and is a machine fully equal to our catalogue representation and excellent value for the money. **Our Improved Iowa** has the latest improvements, and at our catalogue price, **$15.25, $16.25, $17.25** and **$19.75;** a machine equal to it cannot be had elsewhere for anything like our price. It has a high arm, improved attachments and highly polished cabinet; **but for a machine equal to anything on the market we recommend our Minnesota,** and at the prices quoted in our catalogue anyone in need of a sewing machine cannot well afford not to take advantage of our **special low prices and liberal terms of shipment.** You can send to us for the machine and if you are not satisfied with it you are nothing out. **We would be the loosers** as we will promptly and cheerfully refund your money on return of the machine and pay the freight charges.

OUR 20 YEAR GUARANTEE **With every Sewing Machine,** excepting the **Success,** we issue a written, binding **twenty (20) year guarantee,** by the terms and conditions of which, if any piece or part gives out by reason of defect in material or workmanship within 20 years, we will replace it **free of charge.**

THIS IS THE LONGEST, STRONGEST and most binding guarantee issued with any sewing machine.

We are anxious to serve you, and if you will but send us your order we will demonstrate to you that the illustrations and descriptions are exactly as shown in the catalogue, and that we are ready at all times to make good any promises that we make.

In sending your order to us consider these points:

A first-class high grade sewing machine at manufactnrer's prices.

The latest and best set of attachment, all steel.

Liberal terms of shipment: C. O. D., cash with the order or deposit the money with your banker. Our binding guarantee.

No risk, money in full refunded if not satisfactory.

Small amount pays the freight charges.

We hope to receive your order and assure you it will command our most prompt and careful attention. In sending your order to us, please be sure to give the catalogue number, name and price of the sewing machine on the otder blank.

THE FINEST MACHINE ON THE MARKET. EXACTLY AS ILLUSTRATED IN THE PICTURE FOR $20.55.

Our High Grade Special Cabinet Minnesota.

MECHANISM THROUGHOUT OF THE VERY BEST, ADJUSTMENT THE FINEST, CONSTRUCTION THE SIMPLEST. RUNS EASY AND NOISELESSLY.

The cabinet is a work of art, highly finished with a piano polish, is built up with veneered stock, will not warp, crack or split. Face and sides of drawers and front of cover highly finished and ornamented with Italian veneering, adding greatly to the appearance of the machine, making it a handsome piece of furniture and an ornament for any home. Complete set of latest improved, all steel attachments, nickel plated and highly polished, the same as furnished with all high grade machines. No better attachments made, and such attachments as we furnish with Our High Grade Special Cabinet Minnesota are found only on machines that are sold everywhere for from $60.00 to $75.00. The machines that retail and are sold by agents for from $60.00 to $75.00 have no better wood work, the finish is no better and the mechanism in many respects not equal to our Minnesota.

Our superior facilities for marketing this machine enables us to save the consumer about one-half the price they would be compelled to pay elsewhere for a machine that will compare with Our High Grade Special Minnesota. Our binding 20 years guarantee goes with every machine, by the terms and conditions of which we will make good any piece or part that gives out by reason of defect in material or workmanship.

DESCRIPTION OF THE MINNESOTA.

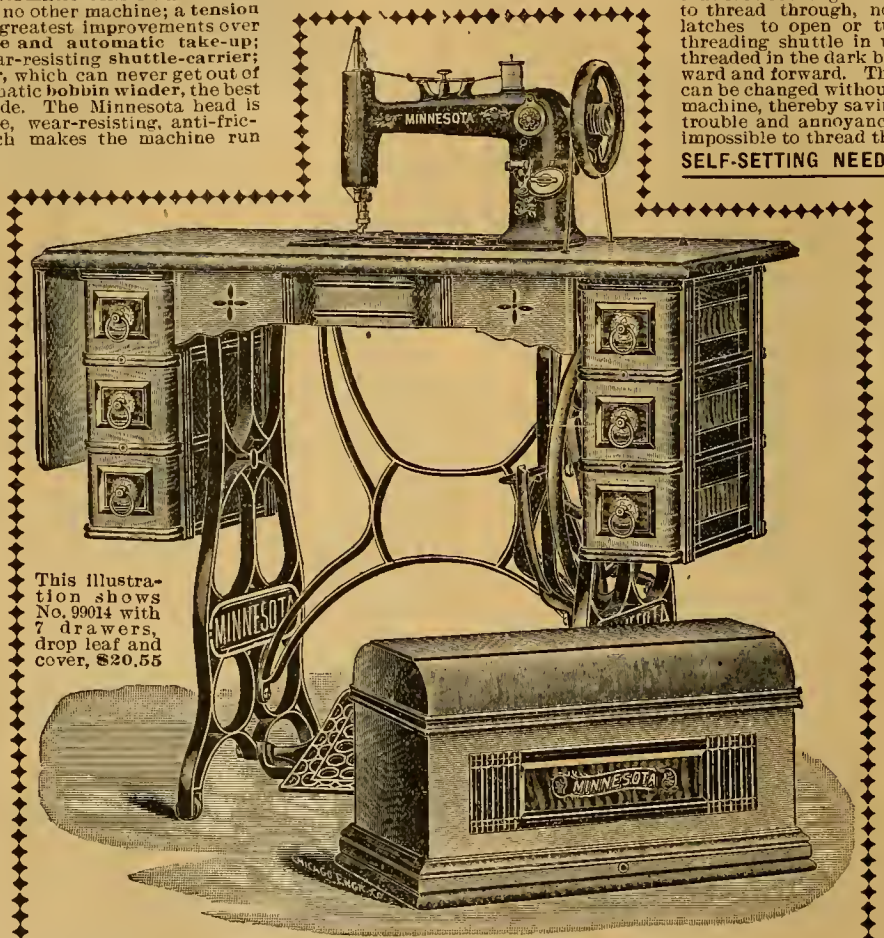
DESCRIPTION OF HEAD **The Minnesota head is one of the highest armed, strongest, handsomest and best made. It is made** with very large space under the arm for sewing very bulky goods, such as cloaks, dresses, coats, etc. The space under the arm being 5½ inches high by 9 inches long, while the bed plate is 7 inches wide. The total length of the head is 16 inches and the height of head from bed plate to top of needle bar is 8½ inches. It is very handsome in design, finely polished, japanned and protected by a hard finish. It is handsomely ornamented in gold with enough delicate color to relieve it of its plainess.

Every Piece and Part That Enters into the Construction of the Head is the Best That Money Can Buy.

It has the best self-threading, vibrating shuttle ever produced; the most simple and best **double thread lock-stitch** made; the most simple and durable **automatic tension and stitch regulator,** which is equaled by no other machine; a **tension liberator** which is one of the greatest improvements over other machines; an **adjustable and automatic take-up;** the **loose wheel;** noiseless, wear-resisting **shuttle-carrier;** adjustable-bearing **needle bar,** which can never get out of order; the Robbin patent automatic **bobbin winder,** the best automatic bobbin winder made. The Minnesota head is constructed on the most simple, wear-resisting, anti-friction eccentric principle, which makes the machine run almost entirely noiseless and lighter than any other machine made; so light, in fact, that a child can operate it, and a machine can hardly be heard in a room when running to its full capacity.

Thers is no machine made which will do as great variety of work as satisfactorily as the Minnesota.

You can, with the same needle, sew the finest fabrics or the coarsest woolens. In fact, one of our customers in writing says that it will sew anything from the finest tissue paper to sheet iron. Don't be deceived by the many flattering advertisements that are circulating throughout the country from concerns who pretend to be sewing machine manufacturers, and who would endeavor to lead you to believe that they can furnish you with a high grade sewing machine for less money than the Minnesota. If you send for their machine, send for ours also. Put them side by side, pass judgment on their general appearance and construction, then put them to the more important test of the work. The result will be our machine will stay in your house, the other will go back.



This illustration shows No. 99014 with 7 drawers, drop leaf and cover, $20.55

OUR SPECIAL CABINET "MINNESOTA."

No. 99012	Three drawers, drop leaf and cover	$18.55
No. 99013	Five " " " " "	19.55
No. 99014	Seven " " " " "	20.55

ATTACHMENTS. **With the Special Cabinet Minnesota, we furnish the very latest, best and most complete set of attachments furnished with any sewing machine.** This set of attachments is the highest grade made. They come in a handsome, cloth-lined metal box and comprise the following attachments: **1 foot hammer, 2 screw drivers, 1 wrench, 1 gange, 1 extra throat plate, 1 extra check spring, 1 tucker, 1 foot ruffler, 1 set of plain hemmers different widths up to ⅞ of an inch, 1 binder, 1 thread cutter and quilter, 1 oil can and oil, 1 package of needles, 6 bobbins and an instruction book.**

THE MINNESOTA HEAD **has fourteen parts less than any other first-class shuttle machine made.** What's the result? **It runs the lightest, makes the least noise, less liable to get out of order, easy to repair and more simple, so anyone can operate it.** The parts which make up the sewing mechanism, such as the needle bar, cross head, thread controller, shaft, eccentric lever, etc., are piece for piece, measurement for measurement, with and like those used in other well-known sewing machines. The Minnesota uses the same needles as the Domestic and other first-class machines, so you can get them anywhere. Any dealer keeps them.

MOVEMENT **Double eccentric on main shaft for operating the shuttle and feed levers.** Made of one piece and so perfectly balanced that the vibration is reduced to a minimum, requiring but one adjustment, no shifting of eccentrics, hence impossible to throw machine out of time. **All bearings are case-hardened steel,** and can be easily adjusted with screw driver, no set screws, all lost motion can be taken up, therefore the machine will last a lifetime. Has the positive four motion drop feed, the latest patent, absolutely positive. The feed on a sewing machine is the most important part of its mechanism.

THE BOBBIN WINDER **We use the Robbin's Patent Bobbin Winder,** the best made; so simple that a child can easily operate it; winding the thread on the bobbin automatically as evenly and as regularly as the thread on a spool. This valuable attachment renders possible a perfect control of the shuttle tension, and thereby prevents the breaking of the lower thread, which often occurs in other machines on account of not having the bobbin properly wound. The machine does not run while winding the bobbin.

SELF-THREADING VIBRATING SHUTTLE A perfect cylinder steel shuttle, opened at one end, entirely self-threading, easy to put in and take out, holds a bobbin that carries a large amount of thread. There are no holes to thread through, no springs to thread under, no latches to open or turn, making it the most easily threading shuttle in use. It is so simple that it can be threaded in the dark by two motions of the hand, backward and forward. The tension is even and perfect and can be changed without removing the shuttle from the machine, thereby saving much time and avoiding much trouble and annoyance. Owing to its simplicity it is impossible to thread the shuttle wrong.

SELF-SETTING NEEDLES Both as to height and position with reference to shuttle with short blade and large shank, insuring great strength. By the means of a simple device the needle cannot be set wrong, thereby saving time and trouble and preventing the breaking of needles.

THE STITCH Double thread lock-stitch, the same on both sides, will not unravel, and can be used either long or short. By simply moving a thumb screw the stitch can be changed without stopping the machine, a feature not possessed by many machines.

AUTOMATIC TENSION **The Minnesota has the improved tension** on top of the machine, easily adjusted and always reliable. Both threads have practically the automatic tension, thereby preventing the breaking or bending of needles, or breaking the thread in removing the work. The upper tension will admit thread from No. 8 to 150 spool cotton without changing and never gets out of order. The length of stitch is regulated by a thumb screw located on the bed plate directly in front of the upright arm, convenient for the operator and does not vibrate with the motion of the machine and cannot come loose, hence the length of the stitch cannot vary. It also has a scale and can be changed from from 6 to 32 stitches to the inch. The length of the stitch on the Minnesota can be regulated when the machine is in motion. You can also stop the feed by pushing back the stitch regulator, thereby enabling the operator to do darning without attachments.

TENSION LIBERATOR **The latest and one of the most useful improvements** ever added to a sewing machine. By its use all tension on the upper thread is relieved by simply pressing down on a convenient lever adjusted to the tension plate so that the work can be withdrawn from under the needle without slacking the thread by hand. By this ingenius little device all danger of bending or breaking the needle and of breaking the thread when removing the work is avoided. The improved take-up is adjustable and automatic, controlling the thread perfectly on all grades of work.

IMPROVED LOOSE WHEEL This enables the operator to wind the bobbin without running the machine. This saves unnecessary wear of the machine and the trouble of unthreading and removing the work while the bobbin is being filled.

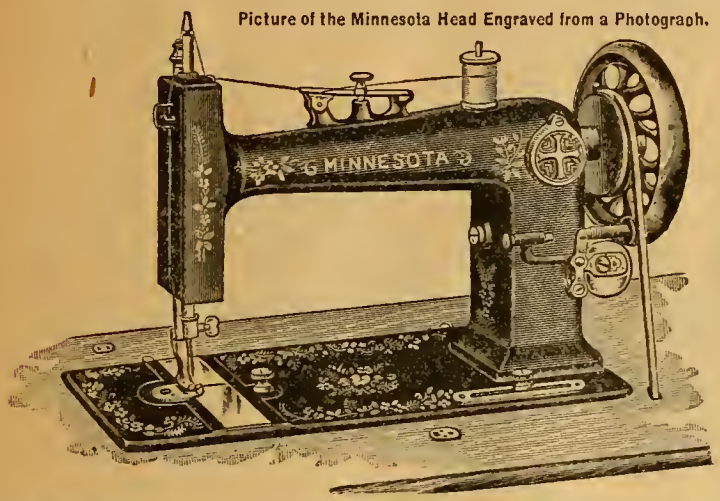
ADJUSTABLE PRESSER FOOT **By simply turning a screw cap on the top of the face plate,** back of the needle bar, the entire pressure can be taken off the goods, thereby enabling the operator to do all kinds of art work, including embroidery, etching, chenile, zephyr, worsted, tinsel, etc. Any fancy work that can be done on any other sewing machine is easily accomplished on the Minnesota.

ILLUSTRATED FEATURES OF OUR MINNESOTA

The Head, Attachments and Mechanical Construction throughout is exactly the same on all the different style Minnesotas in the catalogue, the only difference being in style of cabinet.

A SEWING MACHINE IS A NECESSITY, AND WHEN YOU CAN GET FROM US AT LESS THAN ONE-HALF THE RETAIL OR AGENT'S PRICE A HIGH-GRADE, FIRST-CLASS MACHINE, IT IS BOTH A LUXURY AND NECESSITY AND A MONEY SAVING INVESTMENT. THE GOOD POINTS AND MANY FEATURES OF OUR SEWING MACHINES CANNOT BE APPRECIATED UNTIL THE MACHINE IS SEEN AND GIVEN A TRIAL, AND IT COSTS YOU NOTHING TO HAVE ONE OF OUR SEWING MACHINES IN YOUR HOME, AS WE WILL SEND OUR MINNESOTA TO YOU ON RECEIPT OF $1.00, BALANCE C. O. D., AND IF NOT FOUND AS REPRESENTED, SEND IT BACK. WE WILL REFUND YOUR MONEY AND FREIGHT.

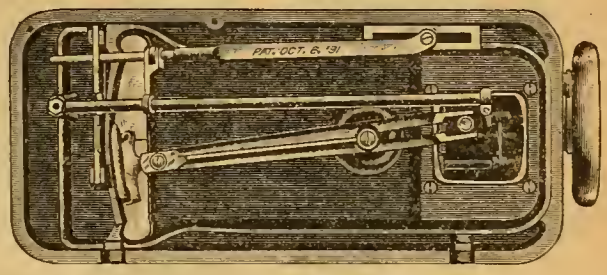
Picture of the Minnesota Head Engraved from a Photograph.



THE MINNESOTA HEAD is high, strong and substantial with large space under the arm for sewing bulky goods, such as cloaks, dresses, coats, etc. The space under the arm is 5½ inches high by 9 inches long, bed plate 7 inches wide, total length of head 16 inches, height of head from bed plate to top of needle bar 8¼ inches. You will thus see the **Minnesota has the highest arm**, it is neat and handsome in design, **finely polished, japanned and protected by a hard finish.** It is ornamented in gold with enough delicate color to relieve it of plainness.

Minnesota Automatic Bobbin Winder

IMPROVED AUTOMATIC BOBBIN WINDER. The best bobbin winder made, and furnished with the Minnesota. So simple that a child can easily operate it. Winding the thread on the bobbin automatically as evenly and regularly as the thread on a spool. This valuable attachment renders possible a perfect control of the shuttle tension, and thereby prevents the breaking of the lower thread, which often occurs in other machines on account of not having the bobbin properly wound. **Machine does not run while winding bobbin.**



This is a picture showing the mechanical construction of the working parts of our Minnesota Head.

SIMPLE IN CONSTRUCTION. The Minnesota has 28 parts less than any other first-class shuttle machine made. **What's the result?** Runs the lightest, makes the least noise, less liable to get out of order, easy to repair, more simple, anyone can operate it. The parts which make up the sewing mechanism, such as the needle bar, cross head, thread controller (or take-up), shaft, eccentric lever, etc., are piece for piece, measurement for measurement, with and like those used in other well known sewing machines. **The Minnesota** uses the same needles as the Domestic and other first-class machines, so you can get them anywhere. Any dealer keeps them.

Picture of Shuttle Engraved from a Photograph.

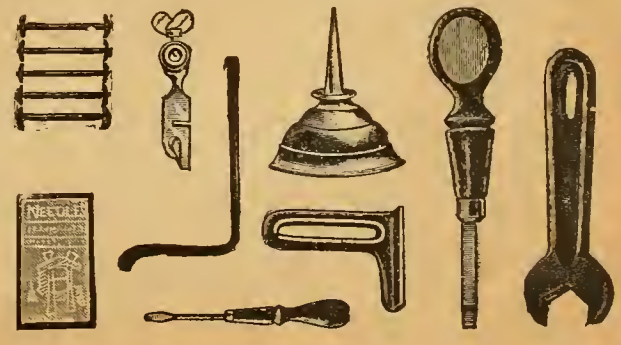
SELF-THREADING VIBRATING SHUTTLE. A perfect cylinder steel shuttle, opened at one end, entirely self-threading, easy to put in and take out, holds a bobbin that carries a large amount of thread. There are no holes to thread through, no springs to thread under, no latches to open or turn, making it the most easily threading shuttle in use. It is so simple that it can be threaded in the dark by two motions of the hand, backward and forward. The tension is even and perfect and can be changed without removing the shuttle from the machine, thereby saving much time and avoiding trouble and annoyance. Owing to its simplicity it is impossible to thread the shuttle wrong.

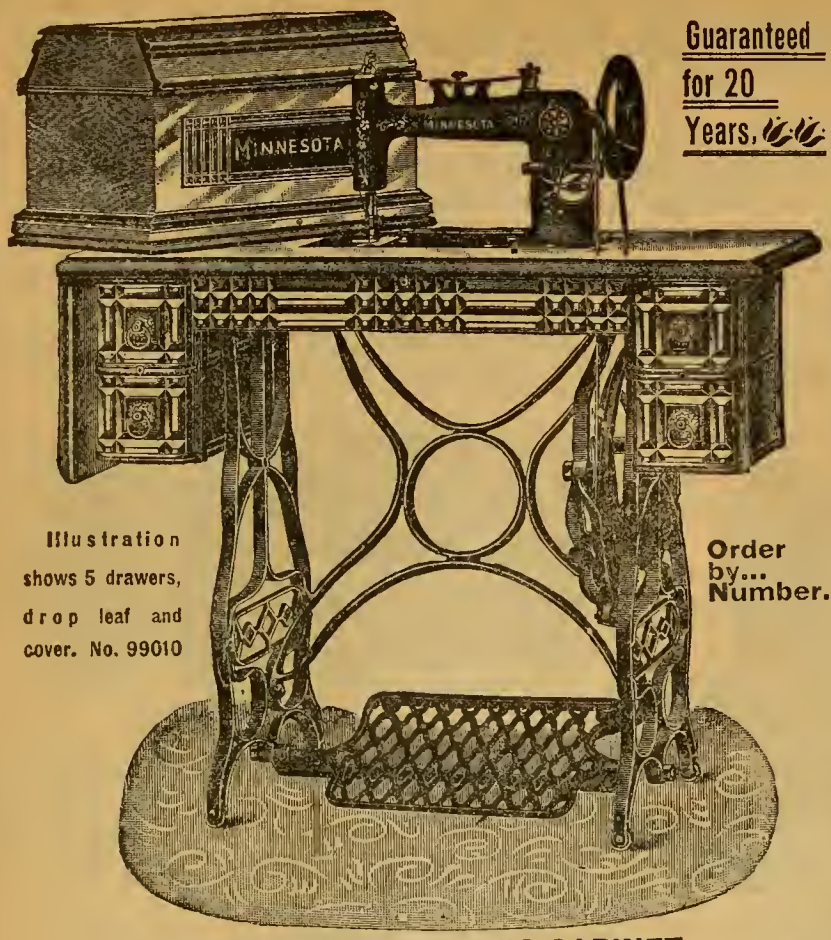
THE ATTACHMENTS FURNISHED WITH OUR MINNESOTA are the finest high grade nickel plated polished set of steel attachments, and this set of attachments we furnish complete, as illustrated, with every Minnesota machine.

As shown in the illustrations, the attachments consist of one foot hemmer, two screw drivers, one wrench, one gauge, one tucker, one ruffler, gatherer, one set of plain hemmers of different widths up to ⅞ of an inch, one binder, one thread cutter, one quilter, one oil can filled with oil, one package needles, six bobbins and an instruction book.

The attachments come in a metal box, securely packed and with holders arranged in the box to keep the attachments in place when not in use.

They are easily adjusted to the attachment holder on the pressure foot bar, as explained in the Instruction Book. Being thoroughly tested before leaving the factory ensures perfect work.





Guaranteed for 20 Years.

REGULAR GRADE GOTHIC CABINET.

No. 99009	3 drawers, drop leaf and cover	$16.55
No. 99010	5 drawers, drop leaf and cover	17.55
No. 99011	7 drawers, drop leaf and cover	18.55

OUR . . . HIGH GRADE MINNESOTA . . .

$16.55-$17.55-$18.55

The mechanism of our Minnesota machine is uniform and exactly the same, no matter what the style of cabinet.

The purchaser of one of our regular grade Gothic Cabinet Sewing Machines will be highly pleased with the wood work. Though it is not as fancy and elaborate as our special cabinet, it is equal and superior in many cases to the cabinet work on the highest grade machines handled by canvassers and retail dealers, who ask **twice our catalogue price** for a machine in many respects inferior in cabinet work and not equal in any particular to the **mechanical construction of our Minnesota.**

Every feature found on high grade sewing machines will be found on **our Minnesota machines.** It has the **tension liberator, automatic bobbin winder, improved loose wheel, adjustable presser foot, improved shuttle carrier, needle bar, pivoted balance wheel and treadle, dress guard and best set of attachments.**

The stitch regulator on our Minnesota machine and scale of stitch can be changed from 6 to 32 stitches to the inch. The length of stitch on the Minnesota can be regulated while the machine is in motion. **You can also** stop the feed by pushing back the stitch regulator, thereby enabling the operator to do darning without attachments.

Our terms of shipment are very liberal. **Our Binding 20 years guarantee** sent with every machine. Money will be cheerfully refunded if machine is not found as represented, in which case you are nothing out and we would be the losers, as we will pay the freight both ways.

With our superior facilities for marketing machines as we do direct from the factory to the user, we are able to furnish the best machine made with the best wood work and **save you from $20.00 to $50.00** on a first-class high grade machine.

Do not be persuaded by canvassers, dealers or peddlers, with their unfounded arguments, as they fully know they cannot compete with our machines and prices. Through the ordinary channels of trade which they are compelled to handle machines that they sell, they would have to ask for a machine equal to our Minnesota at least $50.00.

There is nothing more pleasing to the user of sewing machines than a machine which will do every variety of work from the simplest sewing to the most delicate fancy work, and never get out of order, which causes so much annoyance on ordinary machines. **Our Minnesota Machine** is always ready to be operated.

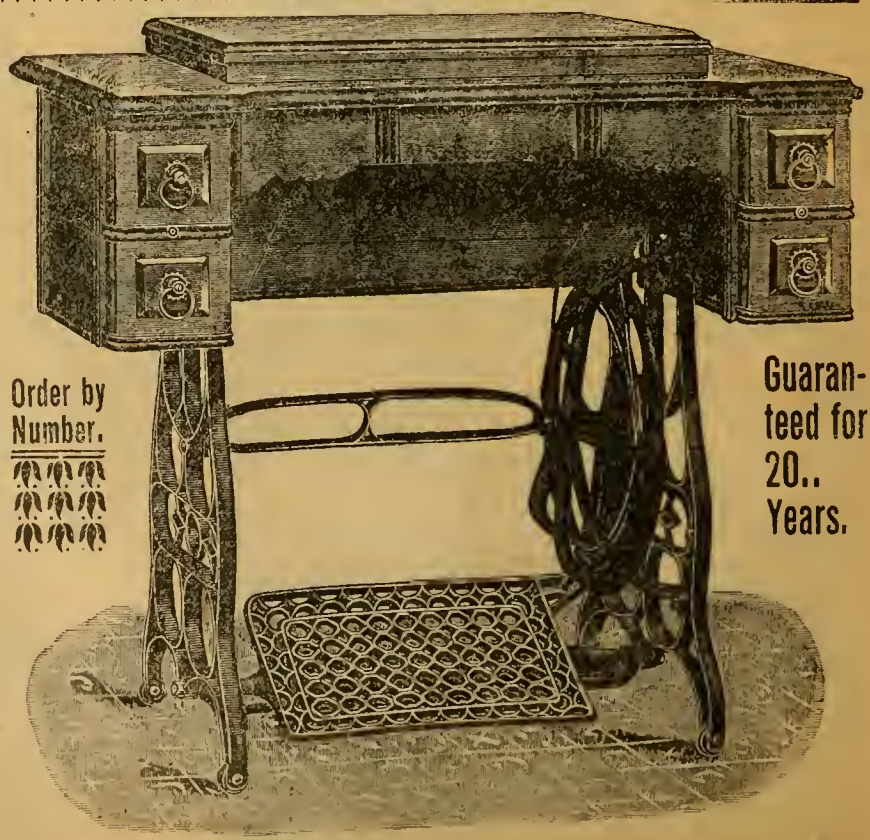
OUR HIGH GRADE MINNESOTA WITH REGULAR DROP-HEAD CABINET, $21.75.

This new style drop-head cabinet with five drawers and our Minnesota Head at $21.75, is a special bargain and we are anxious to have one in every home. **We know that we can have no better advertisement** in any section than one of **our Minnesota Sewing Machines,** and at the price we have quoted for **our No. 99016,** there is nothing on the market that will equal it at anything like **our price** and **no better machine can be had at any price.**

The illustration exactly represents the machine, as it is made from a photograph. **As the picture shows it,** the head is encased in the wood work, and the cover of the machine, when down, can be used as a writing desk or a lamp stand. When the cover is raised the machine head is lifted up and by pulling back a small piece, which is plainly visible when the head is raised, the head rests on this piece in a frame made for it. **You have extra table room** and a great many **other conveniences** for handling your work that are not to be had on the upright stands.

We especially recommend this style cabinet to our customers, as we are able to give them a **greater bargain for the money** than in any other style cabinet. As we have contracted for the entire output of one of the largest cabinet factories in the world, we secured **the very best makes and styles** at the **actual cost of labor and material,** with only one small profit added, therefore we are able to give our customers the benefit of the prices at which we are securing these cabinets and will quote the low prices we do in order to sell a large quantity, enabling us to take care of the entire output of the manufacturer.

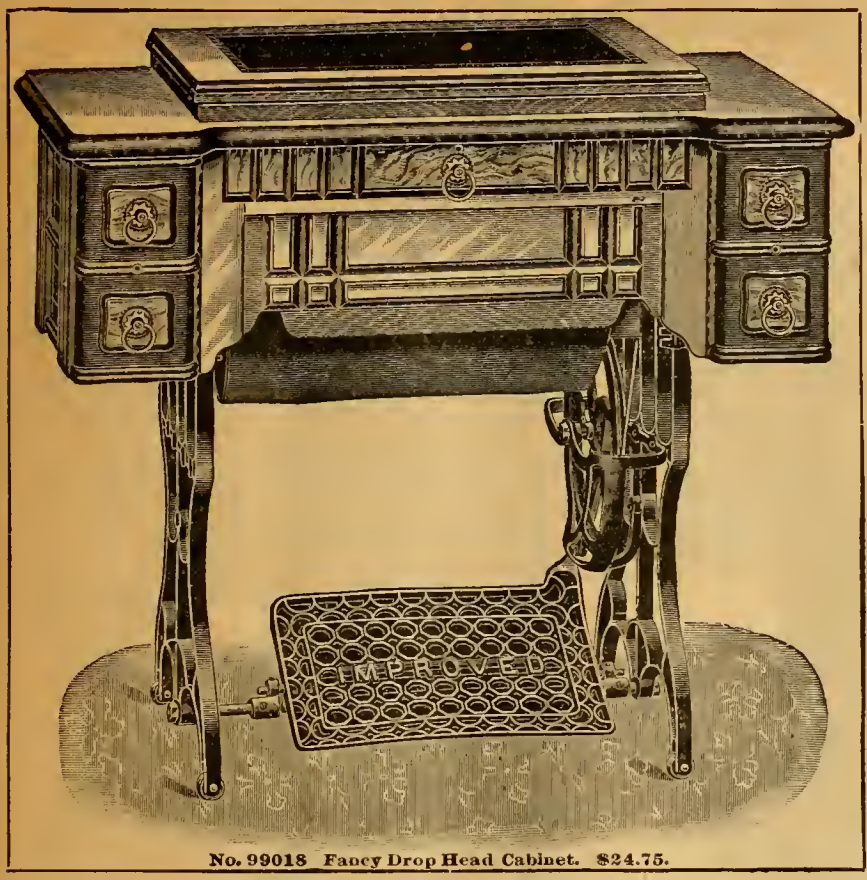
The iron work of the stand is nicely japanned and treadle hangs on ball joint bearings **Fly wheel has dress guard. Stand is set on rollers,** making it easy to move the machine to any place. **The drawers have nickel plated pulls and rings. Comes complete with a full set of attachments. Carefully packed, crated and delivered on board the cars at Chicago,** from which point you pay the freight. **The freight amounts to very little,** comparatively nothing when you consider the money we are able to save you in the purchase price and by referring to page 5 in this catalogue, you will be able to ascertain about what the freight charges will be, by taking the first-class freight rate per hundred pounds to the nearest point given to your freight station. The machine weighs about 120 lbs., packed for shipment.



Order by Number.

Guaranteed for 20.. Years.

No. 99016 Drop Head Cabinet, 5 Drawers $21.75



No. 99018 Fancy Drop Head Cabinet. $24.75.

Our High Grade Minnesota.

With Automatic Drop Head Cabinet $24.75

This is the highest grade automatic drop head cabinet manufactured. Elegantly polished and finished. Ornamented with Italian veneering, nickel plated rings and pulls on the drawers, automatic lift cover, full and complete set of attachments, and in every way thoroughly well equipped.

THE BEST MACHINE ON THE MARKET, no matter at what price, and at our special low price of $24.75 it is the grandest bargain, and one of the greatest values ever offered in sewing machines.

The mechanical construction throughout is of the very best. The head and parts, the same as illustrated on page 1099 are equal to the mechanical construction of any head or part furnished on a machine that retails from $60.00 to $75.00 and with this high art cabinet, one of the best made, every purchaser of this machine will be more than highly pleased, not only with the amount of money we would save you, but it is a handsome piece of furniture for any home, as well as a machine constructed to do every kind of sewing from the plainest to the most delicate and fancy.

OUR TERMS OF SHIPMENT are very liberal and we are anxious to have one of these machines in every home. It is not so much for the little profit in the sale, nor that there is any more profit in the sale of one these machines than in the upright stand, that we so earnestly solicit your order for this style cabinet. But we know that we can give you a greater bargain for your money, and while we are able to do this, we want every customer to take advantage of this extraordinary value.

We know that the more satisfied a customer is, the better advertisement it is for us and we may expect not only the continued valued patronage of every purchaser of one of these machines, but also that of their friends and acquaintances.

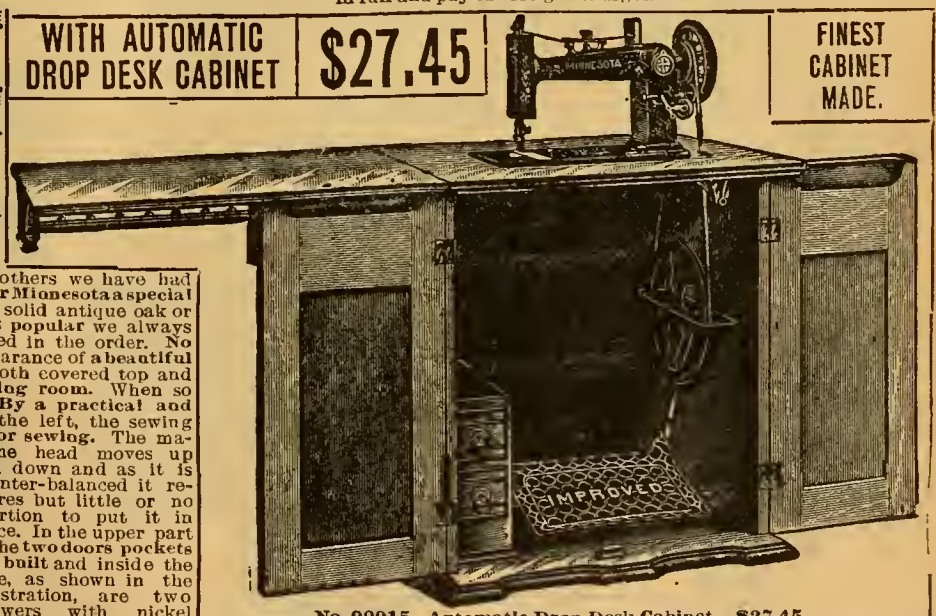
NO AGENT OR RETAIL DEALER can afford to sell a machine equal to our No. 99018 at anything like our price, and we are willing to ship you this machine, knowing that you will find it exactly as illustrated and described in this catalogue, let you set it up side by side with any machine your local dealer can produce, and if it does not do the same work and prove in every other way equal to machines that you would pay more money for, you can return it to us at our expense and we will promptly and cheerfully refund your money in full and pay the freight charges.

...OUR HIGH GRADE MINNESOTA...

Finest sewing machine cabinet made. Highly polished; panels laced with Italian veneering. Runs on rollers; can be used as writing desk. Handsomely ornamented and a pretty piece of furniture for every home.

Illustration showing cabinet open. ☞

WITH AUTOMATIC DROP DESK CABINET $27.45 FINEST CABINET MADE.



No. 99015 Automatic Drop Desk Cabinet. $27.45.

TO FURNISH THE BEST CABINET MADE, and outdo others we have had made for our Minnesota a special automatic drop desk cabinet, which we furnish in either solid antique oak or black walnut as desired. As the oak cabinet is the most popular we always send the cabinet in antique oak unless walnut is specified in the order. No cabinet will compare with it. When closed it has the appearance of a beautiful writing desk and can be used as such. It has a green cloth covered top and makes a nice attractive piece of furniture for any drawing room. When so desired we can furnish the top solid without cloth cover. By a practical and patented device when you lift and turn the top over to the left, the sewing machine head will rise to the surface of the table ready for sewing. The machine head moves up and down and as it is counter-balanced it requires but little or no exertion to put it in place. In the upper part of the two doors pockets are built and inside the case, as shown in the illustration, are two drawers with nickel plated ring pulls; for attachments and accessories. Each cabinet is provided with a lock and the two front doors as well as the cover can be securely locked. The cabinet is highly polished, beautifully veneered, carved, ornamented and decorated. We send with this machine a full set of attachments, the best made, as illustrated on page 1099.

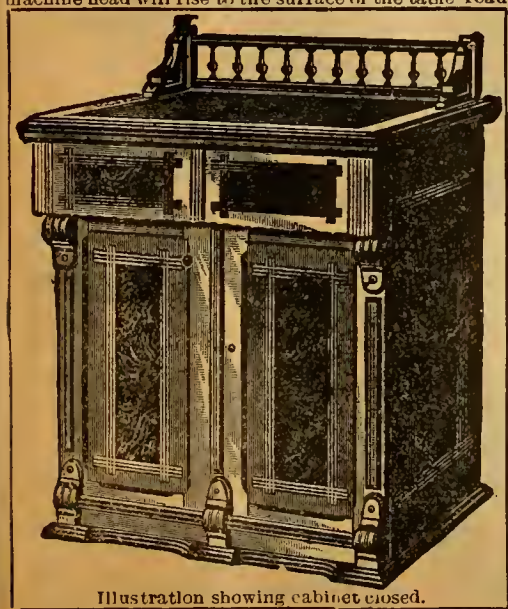


Illustration showing cabinet closed.

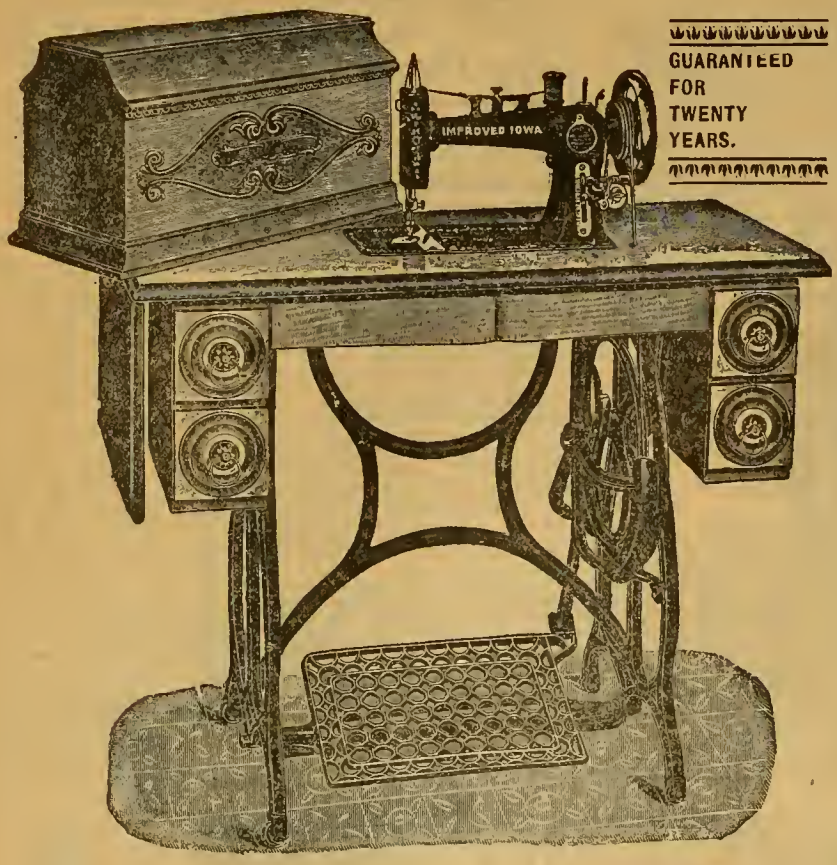
THIS MACHINE IS OUR LEADER. We are able to furnish you a regular $100.00 sewing machine for $27.45, and at our price there is no such value to be had elsewhere in sewing machines. Anyone in need of a sewing machine will naturally reason like this: A sewing machine as good as the Minnesota with even the cheapest kind of a cabinet would cost from the average retail dealer or agent at least $45.00, and at once take advantage of the opportunity offered to secure this regular $100.00 machine for $27.45, with the very best cabinet made, with a saving of $17.55 over the price they would be compelled to pay for a machine equal to the Minnesota, with the cheapest kind of a cabinet.

You assume no risk of any nature whatsoever in sending your order to us, and as nearly all our customers send cash in full in advance with their order, we would advise you to do so as we are a reliable and responsible concern, and ready to make good at all times any promise, and with every machine send our binding guarantee for 20 years. If the machine after examination and a thorough trial is not found as represented in our catalogue and equal to any machine on the market you can return it to us at our expense and your money in full will be cheerfully and promptly refunded, and we will pay the freight.

THERE ARE MANY SUPERIOR FEATURES which can only be appreciated after the machine is seen, and the more an operator uses it the better they like it. It has extra table room as you will observe from the illustration showing the machine open ready for use. It has a large balance wheel, runs noiselessly and with about half the necessary power required of ordinary machines.

The freight charges amount to very little (comparatively nothing), considering the amount we are able to save you on the purchase price. We are anxious to have one of these machines in every home knowing that it would be one of the best advertisements we could have in any neighborhood. So sure are we that every customer will be so well pleased that we may expect many flattering recommendations to their friends and neighbors, which will result in our securing increased patronage, in every section where we ship one of these machines.

OUR NEW IMPROVED IOWA SEWING MACHINE.



GUARANTEED FOR TWENTY YEARS.

No. 99050 With Three Drawers, Drop Leaf and Cover..... .....$15.25
No. 99051 With Five Drawers, Drop Leaf and Cover..... 16.25
No. 99052 With Seven Drawers, Drop Leaf and Cover..... 17.25

New Style Furniture Bell, Mouldings on front of drawers with nickel plated rings and pulls. Every piece and part is highly polished and it is a very handsome stand and cabinet throughout, oak or walnut, and equal to machines that retail from $45.00 to $55.00.

Has a high arm tension liberator, bobbin winder, loose hand wheel, pivoted balance wheel and treadle and all the features found on high class machines.

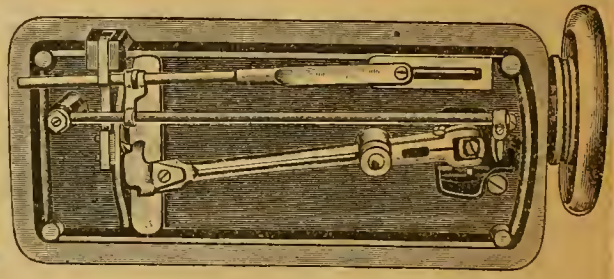
It has a full and complete set of attachments, as shown in the illustration below, full set of hemmers, tucker, ruffler, binder, thread cutter, instruction book, four bobbins, screw driver, one gauge, one oil can filled with oil, and one package of needles. The length of stitch is regulated by a thumb screw located on the upright part of arm, very convenient for the operator; **does not vibrate with the motion of the machine,** cannot come loose, **maintaining a uniform stitch.** The stitch can be changed from 6 to 32 to the inch. **The presser foot is adjustable** with a thumb screw at top so that it can be arranged for fine or heavy goods. **It has the improved take-up,** controlling the thread perfectly on all grades of work, and when winding the bobbin with the improved loose wheel you can do so **without running the rest of the machine. It has the improved shuttle carrier with self-threading and vibrating shuttle. Needle bar is made of the finest steel,** carefully hardened, with adjustable bearings, insuring great durability and requiring but little oil, with oil cup preventing oil from running on goods. **It is easily threaded** as there are no holes through which you are required to put the thread except through the eye of the needle. **It has a dress guard** over balance wheel. **Is set on casters,** making it easy to roll about, and is a machine with which, we know, every customer will be well pleased.

WE SEND WITH IT OUR BINDING GUARANTEE FOR 20 YEARS, and will replace, free of charge, any piece or part that may give out by reason of defective material or workmanship. Our terms of shipment are very liberal as you will note explained on page 1097.

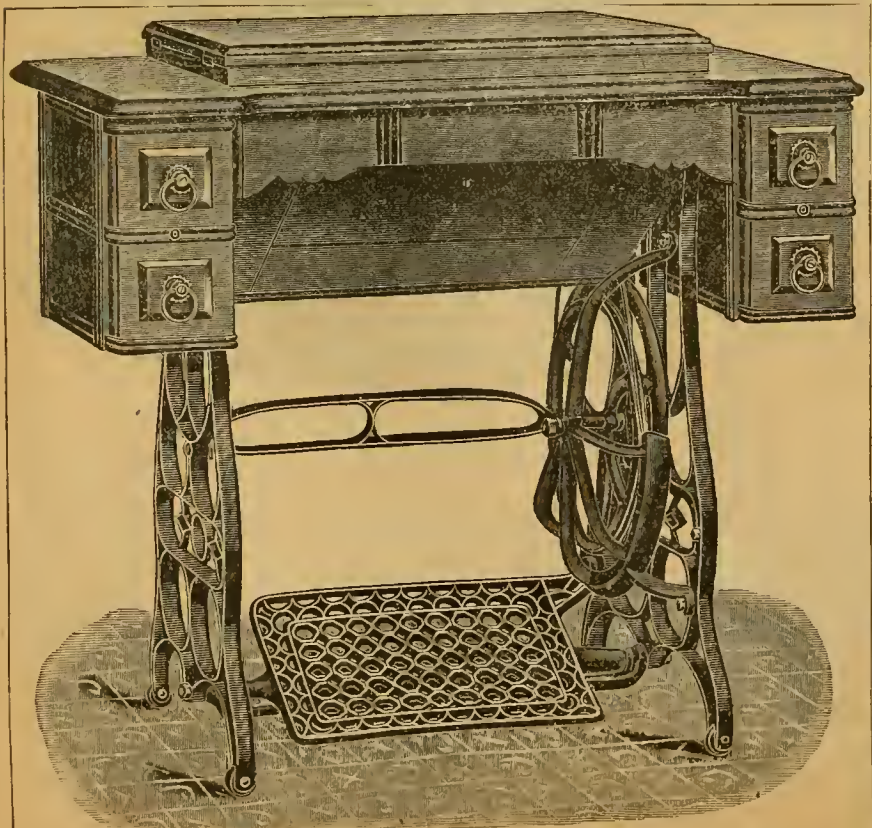
This machine runs light and easy. The mechanism is so **perfectly arranged** and constructed as to reduce the friction to the minimum, making it almost noiseless. **We show a picture of the under part of the head,** illustrating all parts and showing the simplicity of the construction with so few parts that it is almost impossible to get out of order or out of true.

We also furnish our Improved Iowa in the drop-head cabinet, as illustrated. **If you want the Improved Iowa** in this stand at our special low price of **$19.50,** be sure to state in your order, giving the number of machine, No. 99053, and we will send you without delay a machine that for style cannot be surpassed and **will do equally well the same work as machines which retail from $45.00 to $55.00.**

UNDER VIEW, SHOWING MECHANICAL CONSTRUCTION OF HEAD.



NEW STYLE DROP HEAD STAND.



No. 99053 Drop Head Cabinet, Five Drawers.....$19.50

ATTACHMENTS FURNISHED WITH OUR IMPROVED IOWA.

OUR LOW ARM SUCCESS MACHINE.

THIS IS A MACHINE fully worth our catalogue price and equal to machines that other concerns ask for from $5.00 to $15.00 over our catalogue price, but we do not recommend such a machine as it is not up-to-date. It has a low arm, the old style mechanism, and contains none of the latest improvements.

IT IS A MACHINE made to supply the wants of those who would buy the cheapest kind of a machine made.

WE OFFER IT FOR SALE in competition with what many concerns are selling for high grade machines.

AS WE BELIEVE OUR CUSTOMERS should know full well what they are getting we describe and recommend it only for what it is. We do not send our binding guarantee with this machine and cash in full must accompany all orders for the machine.

FOR A HIGH GRADE SEWING MACHINE at manufacturers price and less than one-half that which you would be compelled to pay the average retail dealer or agent, we call your attention to our Min esota.

THE SUCCESS MACHINE

has a perfect steel shuttle with delicate and perfect tension, open to allow the bobbin to be inserted without displacing any part of the shuttle; holds more thread than any Singer Machine shuttle; runs loose in shuttle with spring center and point bearings, thus insuring an even tension, and obviating all annoyance resulting from shuttle thread breaking while the machine is in motion.

THE STAND is well made throughout, nicely polished, and is built with one drawer' no cover, one drawer and cover, three drawers and cover, five drawers and cover, seven drawers and cover as desired, and we can furnish either Oak or Walnut wood work.

IT COMES COMPLETE with a full set of attachments, consisting of one tucker, one foot ruffler, one set of plain hemmers, one binder and one thread cutter. The machine is carefully packed, crated and shipped on board the cars at Chicago.

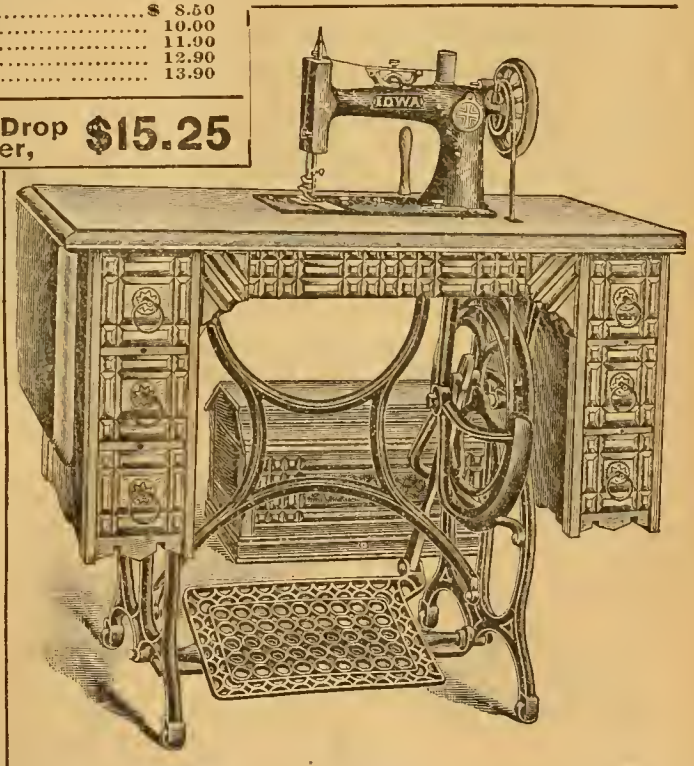
OUR IOWA MACHINE Seven Drawers Drop Leaf and Cover, $15.25



GUARANTEED FOR 20 YEARS. With proper care this machine should outlast the guarantee many years and never need repairs.

WE HAVE THOUSANDS OF THESE MACHINES in homes throughout the different sections of the United States, and we have only the most flattering recommendations and testimonials in their behalf. Our customers write and tell us that the machines do everything we claim, and that they saved from $10.00 to $20.00, over what they would have to pay elsewhere for a machine equal to our Iowa.

THIS MACHINE we have handled for a number of years, and the popular demand is evidence of the great value we offer in our IOWA MACHINE for the money.

IT IS MANUFACTURED to meet a growing demand for a machine of this kind, one that will equal machines retailed for from $35.00 to $45.00.

A STRICTLY FIRST-CLASS MACHINE in every respect, made with great care.

SPECIAL POINTS CLAIMED FOR IT: Double eccentric on main shaft for operating the shuttle and feed levers, made of one piece, and so perfectly balanced that vibration is reduced to the minimum, requiring but one adjustment, no slipping of eccentrics, and therefore throwing machine out of time. Feed mechanism touch lighter; less material to be vibrated by springs; mechanical in construction; no knocking or "side lash;" hence no raw hide to deaden sound required. Double feed, so operated that whether long or short stitch is used, the middle section of teeth always starts from immediately behind the needle, insuring thereby a perfect and uniform stitch. Also, so arranged that the feed does not fall until point of needle enters the goods, the benefit of which is obvious. The guard for thread controller on inside of face plate prevents injury of displacement, a frequent source of annoyance in some machines. Loose pulley device, easily and quickly adjusted, relieving the shaft from friction, avoiding the unsightly "wobbling" of balance wheel which in time wears out of true. Cylinder shuttle, self-threading, large loose bobbin, a delicate and perfect tension; oil holes large and free. ☞ The stand is beautiful in design, light and graceful in appearance, and at the same time strong and substantial. The belt replacer is simple and effective, the utility of which ladies will fully appreciate. Treadle hung on ball bearings, requiring no oil, hence no soiled carpets.

IT HAS A FULL AND COMPLETE SET of attachments, the same as illustrated and described on our IMPROVED IOWA. One tucker, one foot hemmer, one screw driver, one wrench, one oil can filled with oil, one gauge, one package needles, four bobbins, one instruction book, one foot ruffler, one set of plain hemmers, five different widths up to ⅞ of an inch, one binder and one thread cutter. These attachments are made from carefully tested material, are better, more highly polished and finished and will outwear the attachments ordinarily furnished with machines that retail at for from $35.00 to $45.00.

No. 99006	Three drawers, drop leaf and cover.	Price	$13.25
No. 99007	Five drawers, drop leaf and cover.	"	14.25
No. 99008	Seven drawers, drop leaf and cover.	"	15.25

OUR TERMS OF SHIPMENT are very liberal. We send with this machine our binding guarantee for 20 years, during which time if any piece or part gives out by reason of defective material or workmanship, we will readily replace it free of charge. By referring to the instruction book which we send with this machine, the most inexperienced can at once operate it. It is carefully adjusted and tested before leaving the factory, and is such a machine as we know will please every customer who purchases one, and the amount of money we are able to save you in the purchase price, is surely an inducement to send your order to us. If the machine is not found as represented, it can be returned to us at our expense, and we will cheerfully and promptly refund your money and pay the freight charges.

THE MACHINE, as illustrated, is taken from a photograph, and after you have received the machine you will find it to be just as our catalogue shows and represents it. The cabinet work is highly polished and finished gothic style and comes in either oak or walnut. In ordering, please give number and machine wanted and price.

NOTE:—Parts for any sewing machine can be had from us. Write for price on parts wanted. If you do not know the name or piece of part wanted, send us a drawing or sample. We will quote you the lowest prices, and your letter of inquiry will receive our prompt and careful attention.

BABY CARRIAGE DEPARTMENT

SEARS, ROEBUCK & CO. INC.

FOR THE COMING SEASON

WE WILL SHOW THE MOST COMPLETE LINE OF

Baby Carriages

WE HAVE CONTRACTED With one of the largest manufacturers in Chicago for a very extensive line, embracing almost everything conceivable in baby carriages, from the cheapest to the very best. There is nothing desirable omitted from this line. The manufacturer of these carriages is one of the oldest and most reliable in the country, a concern which has established a reputation for making only the highest grade work. Our contract is for such a quantity on a cash basis that we can, after adding our one small percentage of profit, offer you a baby carriage for less money than local dealers can buy them in quantities. You will find in the carriages we offer a distinctiveness in quality of material, style and general construction which is superior to the goods carried in stock by the average retail dealer or other catalogue houses.

OUR BINDING GUARANTEE. We guarantee every carriage for two years, and during this time if any piece or part gives out by reason of defect of material or workmanship we will replace it free of charge.

WE ARE EXTREMELY ANXIOUS To receive your order if in want of a baby carriage, not so much for the little profit there will be in it for us as for the good it will do us as an advertisement. We know that we can send you a better carriage than you could get from your local dealer at within 33⅓ per cent more than our price, and we know that you will be so well pleased with it that you will not hesitate to recommend us to your friends and neighbors, and in this way we will receive more orders. If you will favor us with your order we will endeavor to send you such a carriage as has never been seen in your section at anything like the price.

OUR LIBERAL TERMS. To any point within 700 miles of Chicago we will send any Baby Carriage you may select, by freight or express, C. O. D., subject to examination, on receipt of $2.00 as a guarantee of good faith. You can examine the carriage at your freight depot, and if found perfectly satisfactory and exactly as represented, pay the freight agent our price and charges, less the $2.00 sent with order, and the carriage is yours. We believe our binding two years' guarantee and our liberal terms of shipment emphasize the fact that our prices are beyond competition.

IF YOU SEND CASH IN FULL You will save return express charges on money to us, and you will take no risk, for we will immediately refund your money if you are not perfectly satisfied. Nearly all our customers send cash in full.

We crate all our carriages carefully and the prices quoted are for the carriages carefully taken apart, crated and delivered on board the cars at Chicago.

Rubber Tires for 85c only. At 85c extra we will furnish any carriage listed below with rubber tired steel wheels complete. We believe we are the first to offer rubber tires at 85c, and we wish to say that the rubber tires we furnish are the highest grade. We can buy rubber tires, such as are used by many, at 30 per cent less than we pay, but we believe our customers are entitled to the very best.

If you are in want of anything in this line we hope you will favor us with your order. At least give us the privilege of sending you a carriage to examine, for we feel confident we are in a position to serve you as no other concern can.

Please observe the different Trimmings, in which the different carriages come, and in ordering be sure to state the trimmings and finish wanted. We are anxious there should be no mistake and that you will not only be satisfied, but will receive a carriage even better than described or expected.

Color of upholstering. We furnish our carriages upholstered in all of the standard colors, such as dark peacock blue, coral, pomegranate, nile green, cardinal, wine, olive, golden brown, bronze gold and steel blue. In ordering, be sure to state color wanted and we will send you the exact color desired.

We can furnish any of the following special finishes at the additional prices named:

Any carriage can be furnished in cherry, antique or sixteenth century finish without extra charge.

Shellac and varnish or antique finish trimmed with gold leaf, body and gear, except wheels, extra.....$1.50

Shellac and varnish or antique finish trimmed with gold leaf, wood wheels, extra.....$0.45

$3.50 to $5.00

by ordering this carriage from us, and besides you will get the

Very Latest Style

for this season, such work as you will not find in your local market.

No. 98809 Here is a carriage on which we defy competition. This is a pattern similar to one that has been on the market for some time, and everyone uses it as a leader. We have made arrangements with the manufacturers for a large number of these carriages, and have obtained a price on this first-class article that permits us to make a price that we feel is impossible for competition to meet. The carriage is upholstered in cretonne, plain, parasol silesia, with scalloped edge.

THIS IS A SPECIAL STYLE, entirely new for this season, a carriage that we can guarantee in every way. Our special price.....$5.95

No. 98810 Same carriage as above, upholstered in American Damask, plain. Parasol, sateen, with ruffle or lace edge.
Our price.....$7.00

No. 98811 Same carriage as above, upholstering fine figured plush, plain. Parasol, sateen, with ruffle or lace edge. Our price.....$7.50

Extra for Rubber Tires, 85 cents.

OUR DANDY AT $7.00.

OUR DANDY IS A NEW PATTERN FOR THIS SEASON.

It is such a carriage as would retail for . . . . .

$10.00 to $15.00

We are able to make these extremely low prices, only by reason of buying these goods in quantities, and our prices to you are based on the

ACTUAL COST TO US

with only our one small percentage of profit added.

..... (Name of nearest express office.)

We reserve the right to send Catalogues either by **Mail, Postpaid,** or by **Express, Prepaid,** in which case the Catalogue will go to your nearest express office, and express agent will send you a postal.

WHY YOU SHOULD HAVE OUR BIG CATALOGUE!! **YOU CAN SAVE FROM 25 TO 50 PER CENT** on everything you buy. You will always be posted on wholesale values of everything in merchandise, and it will be a safeguard against your paying others too much for goods. **It's the Largest, Handsomest and Grandest Merchandise Catalogue ever published, 1130 pages,** a book in size 11x9x1½ inches, and weighs over 3 pounds. The book is beautifully bound in heavy enamel cover, printed in ten colors. It contains about **20,000 illustrations** and about **100,000 Quotations.** Everything conceivable in merchandise is handsomely illustrated, fully described and priced at the lowest wholesale prices.

NO ONE SHOULD BE WITHOUT THIS BIG BOOK

FORM A 15. BEGIN AT TOP OF PAGE, CAREFULLY READING EACH PRINTED LINE.

ORDER BLANK.

. . OF . .

MESSRS. SEARS, ROEBUCK & CO.,

82 to 96 Fulton, 73 to 87 Desplaines and 17 to 31 Wayman Sts., Chicago, Ill.

NOTICE TO CUSTOMERS. Don't fail to read the instructions on this blank before ordering, as a careful observance of our rules will greatly aid us in filling your orders in a satisfactory manner, AND BE SURE TO MENTION THE NUMBER OF CATALOGUE, CIRCULAR, OR NAME OF PAPER FROM WHICH YOU SELECT YOUR GOODS.

Thousands of people are daily making the discovery that it pays to buy from a firm whose trade is so extensive that they are enabled to buy direct from the manufacturers and thus save to their patrons the middlemen's profit. They are progressive people who mean to get along in the world and manifest their wisdom. FIRST, in taking advantage of this opportunity to save money, and, SECOND, by seeking to know how to order. Inasmuch as a careful consideration of this question by our patrons will greatly aid us in rendering proper and satisfactory service, we kindly request you to read and properly fill in the blank space on both sides.

HOW TO ORDER.

To Insure safety Always Register a Letter Containing Currency.

BE SURE TO STATE

How much Cash you enclose and in what form, by filling in the proper space opposite.

When too much money is sent we always refund the balance.
